

One-click Recovery Since I was a Special Soldier

Chapter 2331 Sending your companions away now will give you peace of mind

Being with excellent people really helps you learn a lot of knowledge. Jason and Qin Yuan learned a lot of useful things together.

"A Kun, A Ming, now that we are on the ship, we have to be careful in dealing with many things. Go around and check if there are any suspicious people following us."

"Didn't we just come here? The only suspicious guy is the one called Scorpion. He is wearing a dark mask and we can't see his face clearly.

Even if he suddenly appears in front of us, we can't recognize this guy at all. I think no one is more suspicious than him."

"Scorpion has already met us just now. I believe his target should not be us, otherwise he should have taken action just now. I don't know what happened to this guy Efit. , can he escape from Scorpion's hands. "

"He is also a veteran, with rich experience in escaping over the years. I think it should not be a problem for him to escape."

"That being said, this mercenary Scorpion is already famous internationally after all, and his chances of success are very high. In fact, the relationship between you and Efit is quite complicated, Jason.

The feelings between the two of you are also very complicated. Can you tell now what kind of feelings or relationship you have with him?

Do you hope he escapes, or do you hope he dies in the hands of the mercenary Scorpion? "

Jason was completely confused when he heard this.

In fact, sometimes he didn't know what kind of relationship he had with Efit. The two used to be close brothers.

But since he escaped and betrayed Lao K's organization, they were considered mortal enemies, but even so, after the two met, they left each other a glimmer of hope.

"Qin Yuan, you have such a sharp eye. Your question has completely blinded me, because I don't know what kind of feelings I have towards him now.

To be honest, I don't want him to die in the hands of the mercenary Scorpion."

"Jason, it seems that I know you better.

I can see your true thoughts, and you don't want to have any conflicts with him, but the current situation is indeed more serious and more terrible.

If you don't try hard to find a solution, there will be no good results in the end."

Huang Mao and Chen Jixiang, the two of them were confused when they heard it next to them.

A Kun and A Ming listened to Jason's words and went around to see if there were any suspicious people, but they had not received professional training after all.

Although they had been with Jason for a while and had some sensitivity, they were still far behind professional special forces members like Qin Yuan.

"Boss, we have just gone to observe the surroundings and didn't feel anything suspicious."

"Aifite and Scorpion, have they never appeared?"

"Since these two people disappeared in front of us, we have never seen them again, and they have never appeared again. In fact, it is quite suspicious to think about it. How could they disappear so completely without a trace?"

"I know, they didn't fall into the sea, did they?"

"No, Aifite has a certificate as a special diving instructor, and he is best at diving.

And helping Lao K do arms trading business in the surrounding countries, he often has to deal with water transportation. He is very good at swimming and will never fall into the sea and drown.

Not to mention the mercenary Scorpion, he eats this bowl of rice.

If the sea water can It was solved. How do you think he could become the most famous mercenary in the world? Who would be willing to spend so much money to hire a waste? "

"If you put it that way, there is indeed some truth in it. "

"That's it. We don't have to worry about these two people. The only thing we need to worry about is who will intercept you on the way.

So I just checked the spare weapons on your ship. They are all usable. Even if you encounter a group of pirates, you should be able to escape unscathed.

It seems that Du Bingbing did a lot of homework before arranging the task for you. He prepared enough weapons for you to ensure your safety. I should thank him for this. "

When Chen Jixiang heard Qin Yuan say this, he was a little puzzled. How could Qin Yuan be sure that these things were prepared by Du Bingbing?

"Brother Qin Yuan, you didn't thank the wrong person, did you? Will Du Bingbing arrange these things?"

"He will definitely do it. Based on my understanding of him, no one else can think of things so carefully. Of course, Thor can do it.

But we all know Thor's current identity. His status is sensitive at this time, and he can't just participate in our mission casually.

Maybe this is also a joint decision of the two of them. Anyway, I can't care so much for now. You take these weapons and leave this place quickly.

After you leave, I will take them back to the embassy. I must see you leave this dock safely.

And you use satellite signals on the ship. We can communicate and contact at any time along the way. Once you lose contact with me, I must think of a way to rescue you as soon as possible.

Do you understand? As long as you are safe, we must keep in touch.

This is the rule we must follow here. I rarely use my superior status to order others, but this time it is an absolute order, and it must be obeyed! "

Qin Yuan said several orders in a row, and he must obey several orders to let the person with the golden badge on the bag know how serious his mission is this time.

"Commander Qin Yuan, I actually thought it was okay, but after you said that, I felt that the pressure in my heart was a little too great."

"Pressure is motivation, and maybe this is not a bad thing for you.

When this matter is over, if you can successfully complete this task, I believe Du Bingbing will definitely give you some rewards, and maybe he can also give Li Erniu some benefits. "

"Li Erniu?"

"I know this name sounds a bit rustic, but he is really called this name. This is not a nickname. The two of us have been brothers for many years.

This time he did not come here to complete the task with me, because there may be changes on my side at any time, and I need him to pick me up.

He can be regarded as a hidden line I left in the local area.

As long as we can handle the relationship between us well, I believe he can help me a lot, plus Wang Yanbing.

The two of them have been in the army for so many years, and they are definitely not staying in the army in vain. Please believe my judgment, this is the most basic. "

"Okay, Brother Qin Yuan, your arrangement is too complicated. I really can't think of it at all. Could it be that you have already predicted that this kind of thing will happen to Thor?"

"Many things are definitely not something I can predict alone. It depends on the overall direction of things. But now I explain too much to you, maybe you don't understand it very well."

Qin Yuan stretched out his hand while speaking and gently patted Chen Jixiang's head.

"Hey, Brother Qin Yuan, why did you hit me again?"

"I hit you because you are too confused. Many things have been learned in class when you were in the army. Although you can't talk about it on paper, you have to apply what you have learned.

I think you have swallowed all the benefits and knowledge taught by the instructor. "

"When I was in elementary school, the teacher said that about me. I didn't expect that now that I am in the army, you, brother Qin Yuan, also said that. I think I am really not a good student. Fortunately, I joined the army early. "

At this time, Qin Yuan found that there should be no problems around, and it was basically calm.

"You can set off now. I was not chatting with you just now, but I wanted to observe it. After all, the mercenary scorpion appeared here just now.

Although he didn't attack us, we are not the worms in his stomach, so we have no way of knowing who he targeted. "

"Okay, if that's the case, then we won't say anything more. "

Jason looked at Qin Yuan reluctantly.

"Good brother, my ship brought you here, but I was asked to go back first. Actually, you can understand that I don't want to go back first. I want to stay here with you until the mission is completed. I am not a member of the special forces, but I am not a guy who gives up halfway.

I have seen all the things you have experienced now. I am really uncomfortable and sad that I can't stay here to help you. I hope that after I leave, you can grasp many things.

Don't be fooled by Mr. Norman Karim. This guy is a very cunning person.

I have been in contact with him for a few days, and I finally recognize him clearly.

The reason why he can achieve these achievements now is entirely because he is too cunning. We are not his opponents at all, even Thor is the same.

Maybe Thor had a better relationship with him when he was young, and it is possible that he was completely deceived by him. "

"Mr. Norman Karim is indeed the most complicated person I have ever met. I don't know what he is thinking in his heart, but I can't care so much for now. After you go back, you should be quarantined for a while and don't go to see your daughter. After you have been quarantined and passed the test, I will let Du Bingbing arrange for you to meet your daughter. "

When Jason heard about his daughter, his eyes showed a trace of tenderness.

"It was the right choice for me to hand Yaya over to you. Even if I can't meet him now, I know that my daughter is safe, which is enough.

In fact, it doesn't matter whether I can see him or not. What matters is that he can stay safe all the time.

As for his illness... I hope you can hurry up to help her find a heart for transplant. If one day I really have something wrong with my daughter, I will still ask you to take care of her. "

Jason couldn't tell what he felt now. He always gave people the feeling that he was going to entrust his daughter to someone else.

"Okay, don't talk about these things now. It's better for you to take care of your daughter yourself. I can only help you take care of her for a while, but I can't help you take care of your daughter for a lifetime.

Don't tell me that you have to sacrifice yourself to protect me. I won't allow that to happen. I sent you back early because I hope you can go back safely.

When you are on the road, if you encounter anything, don't be impulsive. There are a few people here who can protect you.

Let's keep in touch at any time. If something special happens on the road, I will contact the troops and ask them to make an exception to rescue you.

For me, my good brother's life is the most important, and everything else is secondary.

Set off quickly, don't waste any more time, take advantage of the favorable wind now, you can go faster, and someone will contact you after you set off. "

Although Jason was once a person who engaged in shady business, many things have completely changed since he met Qin Yuan.

Akun and Amin stayed with the boss, watching the relationship between the boss and Qin Yuan getting better and better, and they seemed to slowly understand the emotion between the two people.

"I guess it's the two of you who hit it off like old friends."

"Chen Jixiang, you are also quite capable. You will definitely stay with your brother Qin Yuan and learn more from him. It will also give you some insights."

"We are only separated for a short time now, and it is not a life-or-death separation. Don't say these words. You will definitely be able to go back smoothly. We must have a good get-together after we go back.

And you, Huang Mao, we met for the first time today. I think you are quite interesting. After we got back, the two of us also made gestures. "

It was the first time Huang Mao left the land he was familiar with, and he still felt a little reluctant to leave.

"I have lived here for 20 years, and now I am leaving to a completely unfamiliar place in a foreign country. I hope you will never abduct me."

"Even if we want to kidnap you, we won't kidnap you. If you kidnap me like this, you have to feed you, drink for you, and take care of you. If it weren't for the sake of helping me, I wouldn't bother to kidnap you. Take it back."

"Tch... Although I am a little unreliable now, you have to give me some time to grow up. There will definitely be no problems with Brother Qin Yuan.

I believe that I will grow very fast by your side. Even if I don't want to be a member of the special forces now, maybe my mind will change after a while? "

Speaking of this, Qin Yuan pulled Chen Jixiang.

"We two have to get off the boat quickly and let them go."

"We just met the mercenary Scorpion. We don't have any weapons on us now. Do you want to take some weapons back from the ship?"

"No, people from the embassy will come over to protect us on the way back. You don't have to worry about these things. If I can't protect your sister-in-law, who am I to be the captain of the special forces?"

Chapter 2332 Return to the embassy and ask for help from good brothers

After Qin Yuan finished speaking, he gently touched Chen Jixiang's head.

"Brother Qin Yuan, can I give you a suggestion? Don't touch my head like a puppy every time. It makes me feel very low in self-esteem."

"Okay, okay, I get it. Seeing that you have been in the army for a long time, you have not learned other things, but you know how to save face."

Qin Yuan arranged these people, and he and Chen Jixiang prepared to get off the ship.

"Report to Commander Qin Yuan, there are a total of four people on the ship. Please rest assured that they will be sent back to their destination safely."

The man with the golden medal saluted Qin Yuan and reported to Qin Yuan very solemnly.

Huang Mao was shocked when he saw this situation for the first time. He never thought that he would encounter this situation.

"Brother Qin Yuan, I didn't expect you to have quite a lot of prestige in the army..."

"What do you mean by that? I am just a small official, and I always say what I mean. Everyone likes to work with me."

The yellow-haired man had no interest in joining the army. He had never considered this issue. He knew that he was not a man with perseverance and was not suitable for doing these things.

However, after seeing the sense of ceremony of their handover just now, he was somewhat tempted by the idea of joining the army.

"Wait a minute, Brother Qin Yuan, can I take back what I said to you before?"

"You are about to leave, what do you think of? I don't know what you are thinking about in your head."

"In fact, I have considered joining the army. If you can always take me with you like you did to Chen Jixiang, then I can also work with you."

Chen Jixiang rolled his eyes proudly beside him, with his hands on his waist.

"Come on, you are a good thinker. There is no need to compare us."

"Chen Jixiang, what do you mean by that? Are you looking down on me?"

"Can you not be so sensitive? I don't mean to look down on you. Not everyone can join the special forces. You have to join the army first to have the opportunity to be selected into the special forces."

"That's not difficult. In terms of physical fitness, I think I am not much worse than you."

Jason saw that the two men were arguing here, so he quickly stepped forward and grabbed the yellow-haired man.

"The situation is quite tense now, so you two should stop bickering here. No matter what happens, we have to find a way to solve it.

Since we are all in the same boat, it is not completely impossible for Huang Mao to join the special forces, but this requires formal assessment.

Don't think that Qin Yuan has some say in the army, so he can help you speak for you in this regard and use the back door. It may be possible for his business, but it is definitely not possible for the special forces. They all rely on their own strength to enter."

"Okay, okay, I know about this matter, and you don't need to remind me at this time. I haven't said that I want to use the back door or ask Brother Qin Yuan to help me say good things.

I know that the tasks of the special forces are relatively heavy. If you don't have this ability, even if you join the special forces, you will be kicked out."

Qin Yuan nodded with satisfaction when he heard this.

When he heard Huang Mao say this, he could prove the other party's character. From this moment on, Qin Yuan really wanted to accept him and began to formally consider his idea.

"Huangmao, I was a little hesitant about you joining the special forces, but what you said just now made me feel that your quality is very extraordinary."

After receiving Qin Yuan's praise, Huangmao looked at Chen Jixiang proudly.

"You don't need to look at me with such a proud look. I have never said no. Let you join the special forces and act with us.

As long as you can pass the test, I admire you. From now on, you will be with us. I have no objection, and I can even lead you personally."

"You lead me personally? I think it's better to forget it. You are also a rookie who still needs Qin Yuan's hand-in-hand teaching. How can you have the strength to lead me?"

"Oh my...you actually look down on me?"

While they were arguing, Qin Yuan knew that he should not waste time any more, so he quickly pulled Chen Jixiang out and the two came to the dock and hid in a corner.

Jason talked to Qin Yuan worriedly on the deck of the ship.

"Qin Yuan, you guys should go back quickly, don't stay here any longer, no matter it is Efit or the mercenary Scorpion, both of them may appear nearby at any time.

You guys should go back quickly, only when you return to the embassy will you be safe, we will go back now, as long as we return to our country, there should be no accidents."

Qin Yuan nodded silently.

"Finally, we sent them away..."

"Yes, after such a long time of tossing, we can finally achieve a little result. After returning, I will personally go to Du Bingbing and others to communicate when they can send us a helicopter."

"Brother Qin Yuan, I think this matter still requires you to take action in person. If you go to negotiate with them in person, they should give you this face."

"Chen Jixiang, don't think of me as omnipotent. They might use my face as a shoe cushion."

Qin Yuan smiled when he said this, but at this moment, he suddenly touched his chest and found that the bullet he had brought back had not been taken away by Jason and the others.

"Too bad, Brother Qin Yuan, your bullet was not taken away by them."

"Don't worry about these things now. I did forget it just now. I originally wanted to give it to them, but now it's too late to catch up."

"But there is no point in keeping this kind of solid evidence in your own hands. If Mr. Norman Karim calls the people from the maritime patrol force, it will be terrible if our things are searched by them."

"The key thing now is that I'm not sure about Jason. They must be safe. If something happens to them on the sea, it will be enough for them to deal with the special situation for a while.

Don't let this bullet cause them any more trouble. Just keep it on my body. Anyway, I'm not afraid that Mr. Norman Karim will be able to find evidence on my body. "

Qin Yuan was very thoughtful and there was absolutely no way he would make any wrong decision at this time.

"Watching their retreating figures getting further and further away, why do I feel a little panicked?"

Chen Jixiang, this brat, touched his heart as he spoke.

"What qualifications do you have to be flustered here?"

I have told you a long time ago that I hope you will go back with them so that you can find out the news in advance and get to a safe place earlier.

It was you who refused, and now you feel a little regretful, but it was a bit too late. "

Chen Jixiang, when he heard Qin Yuan's retort to him, he quickly rushed forward and hugged Qin Yuan like a baby.

"Oh, Brother Qin Yuan, how can you say that? I didn't leave because I couldn't bear to let you go. To tell you the truth, I was actually a little scared.

Their abilities are average, and none of them can worry about being with them. I can't manage them well, and they can't help me much.

If a few of us get together, the risk factor will simply rise sharply, so I decided that it would be better to stay with you and see what kind of tasks you can arrange for me. "

"You are finally willing to tell the truth. If you are afraid, you are afraid. I won't laugh at you anyway."

"Don't laugh at me at this time. Forget it, let's leave quickly. We can't see them anymore. By the way, can you receive the satellite signal here? Don't make any mistakes. "

"As long as their ship moves away from the horse's head, I will be able to receive the satellite signal immediately. Everything is normal over there for the time being. It is still under our noses. Even if some people want to take action, they will not choose this Chance.

Let's drive back to the embassy first. Liu Mei and the others just told me that this guy Efit actually installed a bomb at the entrance of the embassy.

I heard it was a very powerful mini bomb, the latest model developed.

No wonder Old K is an expert in reselling arms. He kept all the best stuff for himself. Fortunately, they didn't find it in time, otherwise we would have been blown to pieces when we went back today. "

"Efit? This guy is too despicable. He dares to plant a bomb at the entrance of the embassy. Doesn't he want to die?"

"He should hate us extremely, but it's understandable. Every time the two of us have any intersection, he always fails. And the ghost, if it were me, would definitely hate such a person to the core.

Seeing that he was about to die, he didn't even put a support on his back. "

"You can actually understand his mood. By the way, the guy with the golden medal just now, you said he is Li Erniu's fellow villager, can this guy be trustworthy?

Although the golden medal is an item we ordered in advance to confirm our identity, what should we do if it is leaked on the road and others find out in advance?

Why don't you contact Li Erniu first to see if there is such a person to confirm with him, so that we can rest assured. "

"Even if we want to contact Li Erniu, we absolutely cannot choose now. We don't have any advantage so far. Let's leave here first. I'm also very afraid that I will encounter the mercenary Scorpion again."

When Chen Jixiang heard what Qin Yuan said, he immediately bent over and lowered his head to look at Qin Yuan's face.

"You are not a stunning beauty. Don't get so close to me. Seeing you makes me want to vomit."

"Brother Qin Yuan, don't say that. I just want to see if these words came out of your mouth. Do you also feel scared? Are you also afraid of the mercenary Scorpion?"

"I am also a human being, and I am afraid of things. Don't I have the right to be afraid?"

"That's not because I have always regarded you as an idol. I think you are omnipotent and can do anything.

Now you tell me that you have some fears about this matter, then I feel that my filter is a bit broken. Is this the legendary idol collapse? "

"What are you thinking about in your mind every day? Find a clean place, open your mind, and dig out all the messy things inside."

"This operation is not something that ordinary people can do. It is the most difficult intracranial operation. I'd better go back to Du Bingbing and see if he can help me."

"Du Bingbing has gone from being an ordinary military doctor to the deputy chief of staff. It has only been a few months and his strength should not be underestimated.

The key is that his methods are quite powerful. He Chenguang actually has some interest in Du Bingbing. They are completely different people. It's best not to get together."

"A gentleman loves a beautiful lady.

Du Bingbing is so beautiful that anyone would be tempted. Even if you are tempted by him, it's not a big deal. Don't say it so scary, he's not a femme fatale.

It's just that I'm afraid that if I fall in love with him, it will affect the relationship between you two. Du Bingbing is so good to you, but you and He Chenguang are best friends.

If you two have any disagreements over a girl, it won't sound good if it gets out. Besides, aren't you satisfied with Sister An Ran by your side? Sister An Ran is much prettier than Du Bingbing. "

"Do you think An Ran is prettier than Du Bingbing?"

"Is there any problem?"

An Ran has been on international missions for a long time. He doesn't have a cold white complexion. He looks more like a healthy wheat color.

Some people like sports oxygen-type beauties like him, and some people like cold girls like Du Bingbing. Everyone has their own taste, and no one can judge who is the best.

"Brother Qin Yuan, what is the relationship between you and Sister An Ran? I always feel that the relationship between you two is not ordinary. Anyway, there are no outsiders here, so let's relax for a while. Tell me about your relationship."

"The problem with Lei Shen has not been solved yet, and you still have the mind to gossip here?"

Qin Yuan knew very well that Chen Jixiang respected Fan Tianlei very much, and he also regarded Lei Shen as a mentor and helpful friend. As long as it involved Lei Shen, he would never dare to relax. When he heard this, he immediately lost interest in gossip.

"Well, if you didn't mention this, I almost forgot about Lei Shen. He hasn't been reinstated yet."

"The best thing we can do is to successfully rescue all the hostages, so that Lei Shen may atone for his sins. In fact, it's not his fault at all. We invaded the internal system and implicated Lei Shen.

Anyway, we will be investigated after we go back, so let's just talk about these things together."

One-click Recovery Since I was a Special Soldier

Qin Yuan was ready to take Chen Jixiang back.

On the other side, Effit did everything he could to avoid Scorpion's pursuit.

He had just received the message from Old K, telling me that the ship coming to pick him up was nearby. Just when he was about to run away, he unexpectedly caught up with the scorpion again.

"This damn guy is really haunting and has been chasing me.

Hum, Norman Karim, you wait for me to suffer a loss this time on you. When you go back, I must work with Old K to deal with this guy like you.

You think you can do whatever you want with the little capital you have accumulated in the past two years. If you want to play against the old K, you are not a match yet! "

The mercenary Scorpion really didn't catch up with this guy Efit. He knew that the other party was at the dock, so he stood on the dock and shouted.

This is taking advantage of the characteristics of the opponent's psychological defense. He wants to completely break through the opponent's psychological defense and make him feel some fear.

“Efit, I know you’re around here.

We met just now at the entrance of the embassy. You didn't see my appearance clearly, but I figured out your strength.

You are no match for me at all, and you don't have any weapons that can deal with me now. You'd better come out obediently, and I promise to find the most comfortable way to die for you. ”

This guy shouting here is like a reminder.

Effit was really fed up, but he couldn't come out casually now. He knew that the other party deliberately shouted like this to stimulate his inner defense. If the other party could really see that he would have taken action already, he would never do it. Will wait until now.

Although the entire dock is very large, Qin Yuan's hearing is still very good. Even though he was far away, he heard the words shouted by the mercenary Xie Zi.

"Chen Jixiang, we have to be careful. These two guys are nearby. Effit has not gone far."

"Then what should we do? Should we seek help from the embassy?"

"Wang Xin has been doing more things on his own, and it has nothing to do with him. I went to find him just to cooperate with us before, and when I was desperate, I went to find him.

I don’t want to involve him and cause him any harm because of this matter. In fact, we can’t do this. This is completely too cruel. He himself is innocent. We can’t take this matter. Make fun of things. ”

"We all heard the voice of the mercenary Scorpion just now, but doesn't he always have to remain mysterious and not let others know his voice and face?"

"He just used a voice changer. This kind of voice changer can change the timbre of a person's speech. Even if he records it and puts it into voice software for analysis, there is no way to truly analyze his timbre.

It seems that this guy really used all the tools at his disposal in order to maintain his sense of mystery. "

"Brother Qin Yuan, you know so much. You actually know something like a voice changer. I have never heard of it."

"I know more because I have experienced a lot. You have never experienced many things at a young age. After you go back this time, you will be able to experience a lot. You can be regarded as the most experienced one among all the recruits.

I believe it will be of great help to your career planning. Your promotion will be very rapid in the future, and you will even surpass Li Zheng. "

"Li Zheng? I haven't heard this name for a long time.

To be honest, I still miss him a little. Although this guy usually looks very serious and doesn't like to joke, our personalities are completely opposite. He is just like his name, he is an upright person. "

"Both of you are Gong Jian's instructors. I begged the God of Thunder for the soldiers under my command, so he was willing to let you two come out to perform the mission with me. This is not easy to say."

"Yes, Thor has been implicated in this matter. I wonder what instructor Gong Jian is like? Has he been implicated by us?"

"He should not be implicated by us. He is a person who knows how to protect himself. Of course, this word is not a derogatory term."

"I understand."

"There shouldn't be any danger for the two of us to walk carefully out of here. The other party didn't regard us as targets. I just checked the satellite signal on my mobile phone and everything was normal.

There was no special situation on their side. Mr. Norman Karim should have some spies at the dock. He should have known that Jason and the others had successfully left and would not continue to intercept us on the road.

His biggest idea now is to find revenge on this guy Efit, who is the one who really hurt him. Otherwise, he would not be so angry that he would spend a lot of money to find the mercenary Scorpion to deal with him. "

"Brother Qin Yuan, I feel relieved when I hear what you say."

Afterwards, Qin Yuan and Chen Jixiang carefully came to their vehicle and saw no one around and no suspicious signs.

Qin Yuan was finally able to breathe a sigh of relief.

"I thought this guy was going to hide near our vehicle."

"Actually, I thought so too, but after observing just now that there was nothing special happening around me, I realized that this guy didn't really want to have any thoughts or ideas about us.

An Ran and the others have been waiting at the embassy for such a long time. They should be very anxious. Let's drive back first. "

Just when Qin Yuan was about to drive, he found that the navigation system on the vehicle had been destroyed.

Qin Yuan pounded the steering wheel hard.

"Damn it, I didn't expect that they would still find the opportunity to take action. I'm really pissed off."

"What's wrong? What happened to Brother Chao?"

"They must have used signals and jammers just now to destroy the navigation in our car. I'm afraid they won't be able to use the navigation on the vehicle to avoid risks on the way back."

Chen Jixiang was shocked when he heard this.

"Ah? Then what should we do? You used this navigation to deal with the people sent by Mr. Norman Karim before, and we were able to successfully avoid risks.

If this navigation is broken, how do we know where the other party has deployed their manpower? Then we will definitely encounter them on the way back.

I'm not worried about other things. I'm worried that the bullet in your body is evidence. If they take it back, our work today will be in vain and we will fall short. "

Qin Yuan took out his mobile phone. He saw that the navigation prompts given to him by the system on the mobile phone were still normal, so he was relieved.

It was just a false alarm. It must be the mercenary Scorpion who used a signal jammer to destroy the navigation on his vehicle.

Originally, this dilapidated car was already many years old, and a vehicle that was about to be scrapped would certainly not be able to withstand such interference from him.

"Oh...you don't have to worry anymore. I just took out my phone and checked the navigation on the phone. Everything is normal and there is no problem. Let's just follow the navigation on the phone and go back."

"Brother Qin Yuan, what kind of mobile phone is this? It looks very unusual."

This is the mobile phone that Qin Yuan exchanged with the one-click recycling system. It is of course the latest model and it is very special. It is normal that no one else has seen it.

"I found someone to customize this specially. You know that we are always performing tasks outside, so we will encounter risks from time to time, or encounter some special circumstances.

The material of this mobile phone is very special. It is very resistant to drops. It is absolutely impossible to get water in or get damaged. This is suitable for members of the special forces like us who go out to perform missions all day long. "

Chen Ji wanted to take the phone over and look around.

"Brother Qin Yuan has such a good mobile phone, where did you buy it?"

"Didn't I tell you just now? I found someone to specially customize this."

"Can you customize one for me?"

"Why should I customize one for you? Do you think you have a need in this regard?"

Chen Jixiang was completely speechless when he heard Qin Yuan's words, and he himself didn't know how to answer.

I just think this mobile phone is very novel. If I can own one, it will certainly be very convenient. It is a must-have product for people who go out to perform tasks.

"Okay, okay. Seeing how stingy you are, if you don't want to give it, forget it. Anyway, I don't force it."

Later, in the embassy, the person Wang Xin arranged in advance had already given him the news.

"An Ran, you don't need to worry. I just went to see the person who made arrangements in advance. He said that Efit and the mercenary Scorpion have left."

After An Ran heard this, he finally felt relieved and let out a long sigh.

"As long as these two people are gone, Qin Yuan will be safe, but I suddenly thought of a very serious problem. This guy Efit planted some bombs at the entrance of the embassy, but we discovered it and dismantled it in time. .

But is it possible that he will plant bombs elsewhere on the road? We don't have surveillance in other places, and we can't keep track of the situation there at any time. If this guy also planted a bomb, it would be a bad story. "

"It shouldn't happen. I don't think it will be like this. He wants to try his best to escape. How could he plant a bomb at this time?"

"Everything is possible. Let's be careful. Should we tell Qin Yuan in advance to tell him to be careful on the road? We must not take it lightly at this critical moment."

"Qin Yuan is a very cautious person. Even if I don't tell him, he can still consider this issue. I don't think we need to worry too much."

"Hmm, what you said makes sense, so what should we do next? Are these two people sure they have escaped? Or are they still near the dock?"

Wang Xin looked back at Liu Mei.

"You must not look at me like this. I don't know very well about this. The people at the dock were arranged by you. This matter is a high-level secret that even I don't know about. Only you can control it."

Wang Xin nodded.

"I'd better contact Qin Yuan first and ask him to be careful when he comes back."

Qin Yuan had just gotten in the car and was about to leave when he received a call from the embassy.

"The two of us really have a good connection. When I was about to contact him, he actually took the initiative to find me,"

"Brother Qin Yuan, you mean that the embassy took the initiative to find you, is it because they found some substantive evidence? Or is there something wrong?"

I don't know why my sixth sense always feels that this matter will not end easily. Maybe there will be a follow-up. It is always right for us to be careful. "

"Don't talk yet. I'm very likely to be distracted when I answer the phone now. Please observe the surrounding situation more. If there is any special incident, you must tell me as soon as possible."

"Yeah, don't worry, I listened to you. Whenever I go out on a mission, I always keep an eye on all directions and listen to all directions."

Chen Jixiang's head is like a rotating camera, observing from left to right and from front to back all the time, but some events are blocked when sitting in the car, so he can't observe the surrounding situation in all directions.

"Wang Xin, what happened?"

"Just now I connected to the satellite signal and found that you have sent Jason and the others away?"

"Yes, I didn't expect your satellite signal to be quite accurate. It seems that the two of us use the same satellite signal. I have already connected the mobile phone to their situation.

I have control here at any time. Once something special happens, I will notify Du Bingbing as soon as possible, but fortunately the person who picks them up is Li Erniu's friend."

He Chenguang heard Li Erniu's name next to him, and he was finally able to rest assured.

"If it's Li Erniu's friend, then we don't have to be afraid. This guy is very powerful, and none of his friends are unreliable."

"Who is Li Erniu?"

"He is a member of our special forces and a good friend of Qin Yuan. Don't worry, there will be no problem if this matter is handed over to him. It seems that the person who came to pick us up should be recommended by Li Erniu himself.

I thought he would be unhappy if he didn't bring this guy with him on this mission. I didn't expect that he really cared about us good brothers and sent his friend to come in person."

An Ran smiled and said.

"It seems that Qin Yuan's arrangement is reasonable. We can't bring everyone here together. Someone must stay in the army to support you. With the cooperation of both inside and outside, the probability of success will be greater."

"Don't forget, there is He Zhijun! He has the Wolf Fang Special Operations Brigade. Whenever there is any special situation, he can directly mobilize these teams."

"By the way, after Qin Yuan goes back, how should Jason and the others be arranged? Have you thought about it?"

"I have already told them the importance of the matter. This country is a mixed bag, with all kinds of situations, and there are also some infectious diseases.

When they go back, I will let them find a safe place to isolate for ten days and half a month." (End of this chapter)

One-click Recovery Since I was a Special Soldier

Chapter 2334 Suspecting that Qin Yuan is the protagonist of the novel

Wang Xin couldn't help but sigh, Qin Yuan really thought about every aspect very carefully.

"Yeah, Qin Yuan, you're right. No matter what, we have to isolate them for a while. This is the serious thing."

"Anyway, everything has been arranged. The two of us are ready to go back now."

"Just in time, you should come back quickly. If you stay on the dock, I will be worried about you. No one knows what the mercenary Scorpion has planned. We don't even know what he looks like.

In this case, you will be frightened by him, so you should come back quickly and let us all discuss the next plan.

Now that Norman Karim has made some moves, we can't stay any longer. I can be relieved to send you back home earlier, but my wish has been fulfilled.

Recently, when you are here with me, I have been on tenterhooks all day, and I can't even sleep well, for fear that if I don't do that well, it will delay your plans.

The biggest characteristic of me is that I don't like to inconvenience others because of my own affairs. "

Wang Xin looked at Qin Yuan. They were slowly becoming safer. He was finally able to tell a few truths. Before, even if he was anxious in his heart, he had to endure it alone. He couldn't bear to talk about these things and worry. Emotions told Qin Yuan.

I'm afraid that Qin Yuan will bear too much pressure alone, but he is really a good old man.

"Wang Xin, don't worry. I will never break my promise to you. After you help us complete the task this time and go back, your superiors will definitely give you some rewards. If you want to return to China to serve, I can help You go find a way."

"Qin Yuan, I'm not telling you this to get any benefits from you.

I just want to vent my emotions. You should come back first and talk about it later. Remember to be careful on the road.

Because I'm not sure if this guy Efit has planted bombs elsewhere.

His intention is already obvious. He just wants to kill you. I don't know what kind of conflict you two have, so he would hate you so much.

If he hadn't wasted time installing a bomb at the entrance of our embassy, I believe he would not have been touched by the mercenary Scorpion.

As for this guy, if he dies today, he is totally seeking his own death and cannot blame anyone else. "

After hearing Qin Yuan's words, Chen Jixiang did not dare to slack off at all.

He had been looking around to observe people. At this time, he found that there was nothing suspicious around him. When he was sure that he was ready to go, he gently pushed Qin Yuan with his arm.

"You two, don't act like young lovers and still talk so much here. We can talk after we meet later. It's safe and not dangerous at this time. Let's go back quickly.

We are not sure what would have happened if we had delayed a little longer. "

Chen Jixiang also slowly grew up a lot, and he actually began to arrange for Qin Yuan.

In fact, Qin Yuan didn't feel that he was being commanded by others. He just felt that this brat had also grown up a bit, and he didn't count him out.

"Well, in that case, let's talk about it when we go back. Anyway, we can't explain it in a few words on the phone. I feel at ease after we go back.

By the way, the little nurse Shen Man should be safe. He has not been discovered by Mr. Norman Karim's people. He has done so many things for us. In fact, I am very grateful to him. "

"Shen Man, despite his young appearance, is already a very experienced person. You don't have to worry about these things. He is very safe and can protect himself.

He has been waiting for your situation at the hospital. I will tell him your situation in a while, so that he can retreat safely and help you clean up the battlefield. "

"Well, that's good. I'll drive back now and we can keep in touch at any time.

If I didn't see it in time on the road, you would have been staring at the navigation information they passed on.

Looking at where they have reached, there should be no problem if they reach the high seas. Someone from the army should also send some fleets to greet them. "

"Don't worry, you don't need to tell Qin Yuan about these things, I will keep an eye on him."

Afterwards, Wang Xin hung up the phone and Anran heard that Qin Yuan was coming back soon, and he was finally able to let go of his hanging heart.

"Let me just say, with Qin Yuan on these tasks, we don't have to worry. He can complete it very well by himself. In this case, we have to think about the next plan first.

In fact, I think Du Bingbing is a very efficient person. He never delays doing things. I don't know why this special situation happened this time.

I think someone must be causing trouble for us. He must be deliberately blocking our process and unwilling to send a helicopter to take us back. This is really a very troublesome thing for us. "

He Chenguang didn't refute this at all. This was almost as he guessed, and it was completely within their expectations.

"There should be some inner ghosts within us. I don't know what these people think. Maybe they are jealous of Qin Yuan and want to teach him a lesson on this key issue."

When Wang Xin heard what He Chenguang said, he smiled helplessly, not feeling surprised at all.

"Only those who have in-depth contact with Qin Yuan know that he is a very good character, but without in-depth contact with him, you can only see that his arrogant surface is indeed quite unpleasant.

I wasn't surprised that he could offend people in the army, but I didn't expect that this incident would also implicate Thor, and he would also be suspended. "

"The God of Thunder is indeed quite innocent. He has been by Qin Yuan's side for so many years. No matter what Qin Yuan does, the God of Thunder expresses his support. The two of them are simply good teachers and helpful friends.

Perhaps, many people are jealous of their relationship. These two are the best partners. Together, they can accomplish many impossible tasks. Perhaps this is why others are jealous. "

"We can't rule out the possibility of this happening. Anyway, Qin Yuan has offended more people in the army than he can count on his hands. We are already used to it."

"Do people in the army also hold grudges like this?"

"Whether you are a member of the army or an ordinary person, everyone will have emotions and hold grudges. This is a normal thing. Otherwise, how can you say that people's hearts are sinister?"

It's just that Qin Yuan himself didn't notice this. We have reminded him more than once, not to be too ostentatious, as it will arouse the jealousy of many people and also touch the interests of many people.

But he never listened to our advice.

There is no way, he is such a stubborn person, we are already used to it, but after this incident, I believe he should also reflect on it. "

The expression on An Ran's face was always solemn. Although he was pleased with Qin Yuan's small success, he was still worried that they would not be able to go back smoothly.

The key is that the only way they can go back is to send a helicopter to pick them up.

But this process has been stuck here and being made difficult, and no one can do anything about it. If they stay here for one more day, they will be in more danger and cause trouble to others.

"Wang Xin, has Du Bingbing contacted you in the past two days?"

"He contacted me just to talk about the ship. It's not easy to send a ship to take Jason and the others back."

"This is not something he arranged. It was arranged by Qin Yuan. Moreover, Qin Yuan said that the people on the boat were his old friends. The people around Li Erniu can explain the problem very much.

Fortunately, he left these old friends in the army. If he had any problems, he could come over and help him solve them in time. If these friends came here together, wouldn't everyone be trapped here? It would be solved in one step. There is no way.

It seemed that Qin Yuan's plan was quite perfect and seamless. He also knew that apart from Thor, there were not many people he could rely on in the army.

Therefore, he deliberately left these friends behind. It seems that he had already expected what would happen today. I think he should have a solution.

Why don't we wait and wait until he comes back? We must monitor their vehicle information at all times on the road.

It's better not to meet a talented person. Norman Karim should keep in touch with Scorpion at all times. Knowing that Efite has escaped, he will definitely not feel good, and he may point the finger at Qin Yuan and Chen Jixiang. "

An Ran has always performed important tasks internationally. He has rich experience and high emotional intelligence. The key is that he understands Qin Yuan very well.

Sometimes he always wonders if Qin Yuan is just some cool hero.

Even being able to think of this shows that An Ran is really very smart, but he never dared to imagine that there would be any system that could secretly help Qin Yuan. This was simply impossible.

Qin Yuan took Chen Jixiang with him in his car and left the dock.

The moment they left the pier, Chen Jixiang looked back at the guy in black clothes and a mask who was standing at the pier watching them leave.

"No, it's the mercenary Scorpion. He's standing at the dock looking at us. Is he trying to chase us?"

"I'm not afraid of chasing him. You only saw him and not Efit?"

"No, I only saw him standing on the pier staring at us blankly.

Oh my gosh, it's so scary. Although I can't see his face, I seem to be able to feel his murderous eyes. Doesn't he regard us as the next target? "

"You call this a psychological effect. You can't even see the look in his eyes. How do you know that he will regard us as his next target? This is just an illusion that he deliberately created in the world to show that his strength is very scary. If you really If you are deceived by his illusion, then you have been deceived."

"Brother Qin Yuan, are you telling the truth? This is just an illusion of strength he created for himself. If you two were to fight one-on-one, he would not be your opponent?"

Chen Jixiang asked Qin Yuan a sincere question, and he didn't know how to answer it. Qin Yuan just said these words just to give him some psychological comfort. He didn't expect that this guy would actually mention this matter. Take it for real.

"Um... I think there must be some misunderstanding. Even if we two fight each other, I won't be afraid of him.

Every time our troops conduct training, you should be able to see that I am very strong. Otherwise, how could I become the King of Soldiers? "

"Okay, I also want to believe in your strength, but we are now being attacked from both sides and attacked from both sides. What if Mr. Norman Karim intercepts us on the road?

Oops, when can we go back? This Du Bingbing is really unreliable.

At first, I thought he could arrange for us to go back quickly, but it has been delayed until now without a definite result. It was a waste of my trust in him, and his image in my heart was really compromised. "

"Don't say that. He has his own difficulties. It should be that someone in the army is deliberately blocking our process and not letting us go back. There is nothing he can do.

He needs to first investigate which link has the problem, and then find someone to solve it. This is not a simple process.

Let's wait a little longer. At least we are safe at the embassy and have sent Jason and the others away. What else do we have to worry about? "

On the other side, after Jason and the others left the dock, he was already panicking.

A Kun and A Ming were also very worried.

"Boss, when we first met Qin Yuan, we only thought that this guy would bring us a lot of trouble. We didn't expect that he was actually quite interesting. Instead, he sent us back first, and he took the people around him to stay. Is there any danger there?"

"There must still be some danger. If possible, he would have gone with us. He risked everything to get us to a safe place first. It is really interesting.

I don't even know what to say. From now on, I will regard Qin Yuan as my best friend.

After I go back, I don't want to do these gray transactions anymore. I want to do something serious, which can at least help Qin Yuan. But after I go back, I have more important things to do, which is to go after the quarantine. See my daughter in the hospital.

After not seeing him for such a long time, he must be very worried because he has not seen me as his father.

She was originally a very thoughtful child, and with congenital heart disease, she was very fragile and could not be hit by any blows. Fortunately, Qin Yuan helped me so much, otherwise I really don't know what to do. "

"Boss, Yaya's safety can actually be guaranteed. The key is his disease. Congenital heart disease is not so easy to treat.

Although Qin Yuan and the people in the army said they have been helping us find solutions to the problem, we still have to wait for the heart to be transplanted. How long does it take to wait until the year of the monkey? "

"So this matter depends on God's will. I will do more good deeds in the future. Remember to do good deeds just for Yaya and for Qin Yuan, a good friend." (End of Chapter)

One-click Recovery Since I was a Special Soldier

Chapter 2335: Use some steel nails to teach the chasing vehicle a lesson

Qin Yuan was worried, and he was also thinking about Jason and the others while driving.

"Chen Jixiang, hold your mobile phone for me and check the navigation information of their ships from time to time. I am still a little worried unless they return to the territory of our country."

"Brother Qin Yuan, you are a little too underestimated of Jason. After all, he was also someone who used to be around Old K, and he was able to escape from Old K smoothly, which means that he is definitely not a simple person.

Why do you need to worry about him so much? I believe he has the ability to protect himself, otherwise he would not have jumped repeatedly between Old K and even Mr. Norman Karim. "

How could Qin Yuan not know what Chen Jixiang said, but he was still thinking about the other party in his heart, and he didn't want anything to happen to the other party that was his responsibility.

"Brother Qin Yuan, I know that we took their boat to sneak here and it did bring them some trouble, but he was still able to resolve it one by one.

This is enough to illustrate this person's ability. Don't always take the responsibility on yourself, which puts too much pressure on you. Recently, your string has been stretched too tight.

It's not good for you either. I always feel like you've been a little too anxious lately. "

"Jason is not only alone, he is also accompanied by two brothers, and the even more innocent Huang Mao."

"You want to say that you have to worry about one person? Then it is understandable for you to worry about Huang Mao. This guy has less experience than me, and he has no education. To put it bluntly, he is just a little gangster, but he is a quite A bastard with a sense of justice."

"When I make friends, what I value most is a person's moral character. If his moral character is not up to par, no matter how powerful he is, there is no need to associate with him."

"So that means that your ability to bring me here fully recognizes my moral character?"

"Chen Jixiang, I think you'd better say less. These things have nothing to do with you, so don't think too much about it."

"Just concentrate on driving. I'll help you look at the surrounding roads to see if there's anyone suspicious, or I'll help you check the navigation to see which route is faster."

Qin Yuan has obtained the map navigation ability from the system. To exaggerate, he can now know where he is in the city even if he drives with his eyes closed.

After Qin Yuan gained this ability, he didn't tell anyone. He just said that his familiarity with road conditions was a natural ability.

"Just now, the mercenary Scorpion has been watching us from behind. This makes me feel a little chill on my spine. I understand that part of his ability is spread by word of mouth.

However, he must have some ability of his own, but how dare he ask for such a high price internationally? People say he is walking gold. "

"He is a mercenary, and he has indeed completed many outstanding tasks, so he has offended many people. He is called walking gold. In addition to his relatively high price, there are also many people who put bounties on his life.

Otherwise, why do you think he dare not show up? He didn't even dare to show his voice.

When he was talking to others, he would either be reticent or use body language to communicate. Sometimes he even used a voice changer. For example, when he was on the dock today, he used a voice changer. "

"So that's it. I thought he was using the voice changer to scare the other person. It seems that he was also worried that others would kill him. Why do he need to do this profession? It's like licking blood with the tip of a knife and keeping his head in place. On the waistband."

"Who would be a normal person to become a mercenary?"

Having said this, Chen Jixiang smiled and looked at Qin Yuan and asked seriously.

"Brother Qin Yuan, the King of Soldiers in our army is the most powerful member of the special forces. Have you ever thought about what you will do after you retire from the army one day?

For example, if you work as a mercenary like him, I believe that if you work in the same profession as him, you will definitely make more money than him and be more famous internationally than him.

People like you are like the legendary gold that shines wherever it goes, and outstanding people can succeed in all walks of life. "

"I really don't know what you, a brat, are thinking about every day in your mind. Since you said that excellent people are like gold, they will shine wherever they go.

If the day comes when I really retire and cannot stay in the army, I can do anything. Why should I do something so dangerous and harmful to human life?

In addition to his own choices, he should also have some forced reasons in life. You have to know how much it is worth for him to kill someone now. "

"Two hundred thousand?"

"He is dozens or even hundreds of times more expensive than any ordinary mercenary, and the person he wants to kill depends on who the person is. If you want to kill Mr. Norman Karim, I'm afraid you will It's better to do it yourself."

"Kill Mr. Noman Karim? No way. An important figure like him has so many brothers. Who dares to do something to him? Does anyone dare to accept such an order?"

"How dare Ruan Wenxiong!"

"He does dare. Isn't that because he has this kind of strength? If I had this kind of strength, I would also complete some tasks that I dare not do.

But let's not talk about this now and go back quickly.

I think it's time to use some connections at this time. Qin Yuan and I know that you are very close. In the entire army, in addition to Thor who agrees with you, there should be other people who are willing to help you.

As long as you are willing to use these connections, we will be able to go back quickly. I believe there will be no problem. I believe in your character and even more in your connections and financial strength. "

Chen Jixiang was originally a relatively honest child, although he was sometimes glib.

However, he had never considered this issue. When Qin Yuan saw that he hoped that he could use his connections to mobilize a helicopter to take them back, he had some new understanding of this child.

"I have to tell you that although I have some connections, they may not be effective at critical moments. This is a transnational operation. Without the permission of the superiors, it will be useless no matter who is found.

They can stall our process, but they can't speed it up because there are too many responsibilities.

If there were any problems, who do you think would be willing to take responsibility for transnational operations?

If you do this, your career may be ruined, and you will also be punished. The only person who dares to do this is probably He Zhijun. "

While Qin Yuan was explaining this matter, he found a very suspicious thing on the navigation system that kept moving next to it. This should be the vehicle of Mr. Norman Karim that he had marked.

"It's really annoying to me this day, one wave after another."

"What's wrong, Brother Qin Yuan?"

"Did you see that suspicious vehicle? He should have been sent here by Mr. Norman Karim. We have to get rid of it quickly."

At this moment, Shen Ji thought the brat grabbed a handful of nails from the toolbox next to him.

"What are you doing?"

"In such a critical matter, we should use some means. We can't just watch ourselves being bullied by them. Look, I'll throw these nails out and keep them until their tires explode."

"Who did you learn these methods from?"

"Brother Qin Yuan, please don't ask so many questions first. Just tell me directly whether this plan is feasible and whether it will violate the regulations of our army. If you don't allow it, then I will take these things back."

Qin Yuan smiled crookedly.

"I still want to praise you. You are really a clever kid. You can even think of such things. I admire you. This does not violate the rules.

This is not our country, nor is it in the army. This is when we are trying to save our lives. We don't care about them. We just throw these nails out and let their tires explode! "

After receiving Qin Yuan's permission, Chen Jixiang was like receiving Shang Fang's sword. He immediately opened the window, then turned his head and violently pushed out the nails in his hands.

"These are steel nails, consider them a gift to you!"

The vehicles behind knew that the car in front of them was their target. The person in the car was Qin Yuan. They were also very fast and wanted to catch up and intercept the opponent directly.

I didn't expect it to be at this critical moment.

Chen Jixiang, that brat, actually took out some steel nails and threw them on the ground. They were unable to dodge or brake in time, and all four tires were riding on these nails.

Watching their vehicle suddenly stop, it braked hard.

The person in front didn't wear a seat belt at all and just blew his face into the glass.

"Hahaha...hahaha..."

Chen Jixiang saw the embarrassment of these people behind him. He was really laughed so hard that his stomach hurt. It was the first time that he felt that he could do such a beneficial thing.

Qin Yuan also felt that there was something unexpected. This boy was able to solve problems that he had not thought of.

"I was just thinking about how to increase the speed, ensure the safety of both of us, and throw them out quickly, but this broken car is really too old.

How can we compete with the car catching up with us?

Even if I put my foot in the gas tank, I can't outrun them. Fortunately, you can enjoy this good idea, but it's something I didn't expect.

You can actually think of it. Look, I have told you a long time ago. Don't always feel that you are inferior to others. You are much better than me in this regard. It is worthy of encouragement. I will write you a letter of praise after you return. "

"I don't need any letters of praise, and I don't need these superficial things. I saw all these ideas in movies.

Haven't you ever seen those car chase movies in those old movies?

It was so satisfying. The reason why I chose to use these nails was because I was merciful.

Look at how fast they are driving. If I throw something directly at their windshields, can these guys' lives be saved? "

"Okay, I have a compassionate heart and a smart mind.

Sure enough, I saw the right person. Taking you out was the most correct decision for me this time. When I think about it, it's really good. It deserves praise and encouragement. When I go back, I can promote you to a platoon leader. "

"I just joined the army, and I can become a platoon leader in half a year?"

"Don't think I'm using my connections again. I chose to promote you to platoon leader because of your own ability.

And it's not easy for you to follow me all the way to perform a cross-border mission. You should evaluate this issue from your own perspective.

Don't think that you're using any connections. You should have confidence in yourself, understand? You and Li Zheng joined the army together, and now you've left him far behind."

Qin Yuan was really sweating just now.

Luckily, Chen Jixiang came up with a good idea and got rid of the vehicle behind. They were relatively quiet on the way back. At this time, Qin Yuan received a video message from Liu Mei.

"Why don't you answer Liu Mei's video message to us at this time? I'm driving now, and I have to keep an eye on whether there are people from Mr. Norman Karim. I don't have time to deal with him."

"Liu Mei is also a very handsome girl. I like him very much."

Chen Jixiang opened the video while talking. Liu Mei didn't say any nonsense. He is a person who pays great attention to efficiency.

"We just connected the signal video to prevent Efit from setting up other obstacles and bombs on the road.

Hurry up and contact me via video, I will tell you how to follow the satellite route."

"Brother Qin Yuan is simply a living map, he doesn't need these things, right?

Besides, how can you be sure that there are no bombs on the route arranged for us?"

"You can't figure this out, you have been learning in vain with Qin Yuan for so long, and you have gained nothing. We have mobilized the routes and monitoring of all traffic routes in the entire city.

There are definitely no bombs in places where Efit has not passed, you still need to know this Ask? He can't possibly use a clone to plant bombs in places he hasn't been to. "

"Oh, so that's the case. Your criticism is correct. I was so excited just now that I forgot about this question. In that case, you take charge. How long will it take for us to return to the embassy?"

"It won't take long, but you have to take a detour. This guy Efit took the shortest route to the dock.

You take a detour. In order to ensure safety, there is no other way.

Even if you encounter Mr. Norman Karim's people, you will at least have a chance to survive. If you step on a bomb, you will die directly. Choose the lesser of two evils."

One-click Recovery Since I was a Special Soldier

Chapter 2336 After a long detour, we finally got back to the embassy

When Chen Jixiang heard what Liu Mei said, he was a little scared and quickly said to Qin Yuan.

"Brother Qin Yuan, if that's the case, let's not think about going back quickly. Safety is more important. If we need to take a detour, let's take a detour."

"This is a speech. We have no better way, so we can only choose to take a detour."

Liu Mei, please stand by and help us keep an eye on where this guy Efit has walked. We have to go around it. "

"I've known Qin Yuan, and I've known you for a while. It's the first time you've spoken so politely, and I'm not used to it. There's no need to be like this, this is what I should do."

Just follow the route I gave you. When you reach the traffic light intersection ahead, turn right, then go to the second alley and turn left again. "

"It sounds like this route is indeed a bit complicated."

"There's nothing you can do about it. You can only listen to me. Only in this way can you perfectly avoid the place where Efit walks, lest he installs a bomb, and you will die."

Chen Jixiang is a very cautious boy, and he also has some compassion.

"I suddenly thought of a more important question, that is, we can escape under your command, but what about ordinary people?"

Who can guarantee that these ordinary people will not accidentally step on the bombs he may install, which will cause panic in the city. If these ordinary people are harmed, they are all innocent. "

"Oh, don't think about this now."

When the time comes, I will anonymously notify the City Patrol and ask them to dismantle it.

Professional matters should be left to professional people, not to mention that we are just an embassy here and have no way to interfere in their country's affairs. "

Wang Xin and An Ran heard their conversation and nodded happily.

He Chenguang said half-jokingly.

"Chen Jixiang, this brat is good. He has changed so much in such a short period of time. It really makes me feel a little surprised. I did underestimate him in the past."

"He has always been like this, a brat, so you don't need to be too surprised. In fact, he is a bold and careful person. It is precisely because of this that Qin Yuan is willing to bring him here."

After He Chenguang said this, he felt a little sad again, and suddenly thought of the God of Thunder. He had no choice but to think of these, because these were all things he had to face.

"We have been out for such a long time, and there is no good result. Now I am really worried about Thor."

"Thunder God? Do you think Qin Yuan and I are not worried? The most wrong thing Qin Yuan did this time was to implicate Thor and force him to suspend his duties. After he returns, he will have to undergo endless investigations. Just thinking about it makes people sad. A little bored."

"This is not Qin Yuan's fault. In fact, it is reasonable for him to arrange these things. After all, the situation at that time was so critical that he had to invade the system. Thor also supported us."

"I may be a little exaggerated in saying this, but I have to think of it."

He Chenguang immediately understood what An Ran said. He wanted to say whether Du Bingbing would take this opportunity to suppress Lei Shen and prevent him from returning to the position of chief of staff, so that he could have a chance.

"You want to talk about Du Bingbing, right?"

"I know I shouldn't speculate on them at this time, but you also understand that this matter is not decided by us, so you can make the decision?"

Who can know what will happen next? We can only take one step at a time and see what happens next. At the very least, no mistakes can be made at this time. "

"The most urgent thing now is to get a helicopter to take us back. The longer we stay here, the more pressure and responsibility we have to bear.

Seeing that the situation of Professor Fang De's two students has gradually stabilized, the only thing we are thinking about is how to return to China smoothly. After returning to China, we don't have to worry about anything. Someone will take care of everything for us. "

"Fan Tianlei has been forced to stop his position. He doesn't count now. He is a powerful person. Besides him, who else can help you find out?"

"At least we still have a good brother, have you forgotten?"

"You mean He Zhijun?"

"Of course, the relationship between him and Qin Yuan is very good. The two of them have been inseparable since they joined the army. However, He Zhijun was forced to transfer later, and our company established the Langya Special Operations Brigade."

"I have also heard some things about the Wolf Fang Special War internationally. They are indeed very brave and powerful, but do you really think this matter can be related to Qin Yuan?"

"He Zhijun's Langya Special Forces Brigade has always had a high status in the army, and they always speak their mind, and they can also master some personal connections.

If you ask him for help in this matter, he will definitely not refuse.

As long as he can help us, he won't be able to watch us in trouble here.

Moreover, the relationship between him and Fan Tianlei is also very good. We are all good brothers in the same company. He will not stand by and ignore our difficulties. I believe that he and Li Erniu should already be working hard. "

He Chenguang was very confident when he said these words. An Ran felt a little more at ease when she saw him swearing and being confident.

Wang Xin saw the two of them discussing for a long time and didn't know what they were talking about.

"What are you talking about here? Can you let me join in the fun?"

"Wang Xin, it's not that we are hiding anything from you on purpose, but not everyone can join in the excitement. You should try your best to continue urging Du Bingbing.

Even though I know you are embarrassed to always rush him, fearing that he will have too much anxiety.

But after all, he is now the deputy chief of staff and the commander of our small task force. Only then can he openly communicate with his superiors about this matter and ask him to find a way to find someone to help. If it doesn't work, let him find someone to help. Commander. "

Wang Xin was really in a dilemma now. He knew that it was not easy for Du Bingbing, and he also knew that Qin Yuan and the others had to hurry up and go back.

"I never thought this would be my thing, but that's okay.

In this case, I will help you to urge you again, or I will try my best to help you find other connections in the army to see if I can use these connections to arrange your return as soon as possible.

In fact, if you say it as a joke, you must not be angry.

I also hope that you will go back quickly so that my embassy can return to its former peace.

You have caused me too much trouble here. I live in fear all day long, fearing that Mr. Norman Karim will cause something else. "

"Wang Xin, part of what you said is a joke, and part of it is true. We are well aware that we have brought you some trouble. Of course, I can understand your mood."

"An Ran, you are such a considerate girl. Fortunately, you can understand me so well. Otherwise, if some narrow-minded people knew about it, they would think that I am unwilling to cooperate with your work."

He Chenguang shook his head helplessly, smiled and said.

"Don't worry, we don't have any narrow-minded people here. Are you talking about me?"

"How is that possible? I know you are not that kind of person, and there is no need for me to tease you at this time."

A few people were talking and laughing like this, temporarily relaxing some of the pressure, waiting for Qin Yuan and the others to come back.

Among the domestic troops, He Zhijun, Wang Yanbing and Li Erniu have been discussing how to rescue Qin Yuan and the others as soon as possible.

Wang Yanbing was also worried. He didn't have many connections in this area, and the people he knew were relatively ordinary. They knew that they could only leave this matter to He Zhijun.

"Old He, you are different from others. You are the brigade commander of the Wolf Fang Special Forces. As long as you say a word, I believe they will all follow the rules."

"Don't brag about my status too high. I can't guarantee that this matter will be successful. We still have to go to Thor to discuss it first."

Du Bingbing next to her shook her head helplessly.

"Now you finally know how difficult this matter is. In fact, I haven't been shirking responsibility all the time, or not wanting to help Qin Yuan and the others. I am also very anxious and want them to come back quickly.

After all, this is my first mission, and I don't want anything to go wrong. Besides, I also care about Qin Yuan very much. I know that he is an excellent member of the special forces.

I don't want him to be in danger at that time, and the mercenary Scorpion has already appeared, which means that Mr. Norman Karim should want to use his trump card.

If we don't bring them back quickly at this time, it will only cause complications.

The arms experts who were finally rescued were also afraid that they would assassinate them. If something went wrong, all the missions would be in vain.

You must not think that I am selfish and unwilling to help anyone. I have no choice. Please understand me more or less. "

"Um...we've been thinking of a way. Don't do this first. I hate to see women anxious."

At this point, Li Erniu still had the intention to joke, which made Wang Yanbing a little angry.

"Li Erniu, when will you get rid of your slippery tongue? How dare you tease Deputy Chief of Staff Du Bingbing?"

"I have been wronged by the conscience of heaven and earth. How dare I molest him? What I said is only the truth.

I'm really soft-hearted and don't want such a beautiful woman to be anxious, but we finally accomplished one thing, which is to send someone to bring Jason and the others back. "

He Zhijun was holding a disposable paper cup in his hand and just took a sip of water. When he heard this, he slammed the paper cup on the table.

"Jason? He's not one of our internal figures, and he's not a member of the special forces. There's no point in bringing him back!"

"At least we finally helped Qin Yuan fulfill some of his wishes, and we won't have to watch him worry here all the time.

I can't see my good brother either, so I'm anxious to tell you that you are satisfied.

However, it is not our decision to send a helicopter to bring them back. This is a cross-border mission, and not even Thor can solve it.

There are really too many departments involved, so we have to visit them one by one, and we can't be related to every department. "

Wang Yanbing is a very down-to-earth person. He has really thought of all kinds of ways for his good brother Qin Yuan.

"I have an idea now, that is, let's all work separately and record all the connections we can use to see if we can form an intertwined network of connections."

"You want to use our personal connections and then let them form a closed loop to help each other. Isn't this a bit too far-reaching?"

"This is the only way I can think of. How about a better way?"

Du Bingbing also agreed with this opinion and nodded.

"I think this method is not unfeasible, plus Qin Yuan himself has strong connections, as well as instructors Lei Shen and Gong Jian.

At least I think they should be willing to help in this matter. As long as everyone works together, there is no fear of finding a breakthrough point. "

At this moment, Li Erniu suddenly thought of an important thing.

"By the way, He Zhijun, can you use your Spike Special Forces Brigade to go to the dock to pick up the people now?"

"You shouldn't be in such a hurry to get to the dock now. They have just set off from there. According to the sea travel time, they will have to wait at least the day after tomorrow before they can arrive.

This is already the fastest speed. Are some of the members of the Wolf Fang Special Forces Brigade that I am sending over now too conspicuous? On the contrary, it is easy for them to discover something. "

"Do I also want to be prepared in advance? It's okay to prepare in advance. I'm afraid that there will be some invisible mysterious force that prevents you from taking the members of the Wolf Fang Special Forces Brigade."

"It is absolutely impossible that there is such a powerful mysterious power. If you say so, then Qin Yuan has offended countless people in the army, and everyone seems to want his life."

"Maybe there are bad guys in our army?"

"If you say that, it's not impossible, but I'm more inclined to think that these things were probably done by Qin Yuan. These people just don't like him and want to do something to him."

"I have to say that these are all Qin Yuan's fault. If he hadn't been like this at the time, there would be no way he would have been jealous of many people. Now that he has encountered obstacles in his mission, someone should have deliberately set him back.

She had already been advised to keep a low profile and not be too conspicuous in the army.

Many people are like this. They offend others without knowing it, which leads to such serious consequences. But no matter how many times I told him, he didn't listen.

Even instructors Fan Tianlei and Gong Jian said about him more than once. "

One-click Recovery Since I was a Special Soldier

Chapter 2337 I still hope Fan Tianlei can resume his position

Li Erniu shook his head helplessly.

"It's meaningless to blame Qin Yuan now. This is not entirely his fault. We have to look at the main reasons."

"He Zhijun, when Qin Yuan was here before, he was very good to us. We also regarded him as our best brother. Now he is in trouble. We can't just ignore everything."

"I never said that we don't care about Qin Yuan's current situation."

"Let him be alone in a foreign country with He Chenguang, and even An Ran and Chen Jixiang. We have to think of a way."

At this moment, they all gathered in Du Bingbing's office, which was really too eye-catching.

Du Bingbing quickly stood up, walked to the door to pick up his bag, and then tilted his head and said to these people handsomely.

"If you want to be discovered by others, we are discussing this matter here privately, just sit here, anyway, I'm leaving at the end of the get off work time."

Li Erniu's savagery came up again.

"Just now you agreed to discuss a plan to save Qin Yuan and the others with us. Now you are going to leave work?

Do you think this is a white-collar office? You can leave when the time comes. There is no time limit for professions like ours. You can leave work when the task is completed."

Wang Yanbing put his hand on his forehead helplessly and sighed.

"Li Erniu, when will you be able to change your impulsive personality?

Deputy Chief of Staff Du Bingbing means that we should not stay here to discuss such a sensitive topic.

Let's go quickly. After leaving here, find a place where no one is, and we can discuss this matter privately. It won't be a waste of Qin Yuan's arrangement."

"Ah?"

Li Erniu was a little confused. In order to ease his embarrassment, he had to scratch his head.

"I have known you for a short time and just arrived here. I hope you can give me more advice. How could I not care about Qin Yuan and the others?

It is a bit too conspicuous to discuss here, and don't we all need to gather our own connections? In this case, we have to call Lei Shen and Instructor Gong Jian."

"Instructor Gong Jian? Do you think he can help us?

He is a very upright person, and he has only been an instructor for so many years and has not been promoted. I don't think he has many connections.

If we call him now, it will be a risk for him, and he may not be willing to do it. I think we should just call Lei Shen over. If others can't help us, we don't need to bother him."

"Instructor Gong Jian is indeed a very upright person, and he is also a bit serious. , many people even felt a little scared when they saw him.

However, this did not affect his concern and love for Qin Yuan. Qin Yuan almost became his soldier at the beginning. If it weren't for the Thunder God who was always beside him trying to snatch Qin Yuan, he would have followed him.

In short, it's always right to call him.

Even if he can't help us, at least he won't leak these secrets. At most, he can pretend not to know in front of his superiors.

We will take all the responsibilities and won't make it difficult for him.

If we don't call him now, it's equivalent to not treating him as our own. You should understand the things between brothers better than a girl like me. "

Wang Yanbing and He Zhijun were also very shocked when they heard this. It seems that this Du Bingbing is really different from ordinary girls. What he said is very logical and there is no way to refute it.

He Zhijun put his head close to Wang Yanbing and said quietly.

"When did Qin Yuan get involved with such a hottie? He's really extraordinary. We brothers have to be careful to deal with him."

"Don't you know Qin Yuan yet? He flirts with women everywhere just because he's a little handsome.

We've seen through him a long time ago, but this is also one of his advantages. At least he has the opportunity to get in touch with so many people to help him."

"Let's go."

Li Erniu was still immersed in the embarrassment just now. He didn't know how to face Du Bingbing.

"What kind of car do you drive? Can so many of us sit?"

"1234, isn't it just right for four people?"

"Oh, I'm just concerned about you. I'm afraid you'll be stopped on the road, and you'll be fined and deducted points. It's really not worth it."

"Thank you for your concern."

Then, Du Bingbing took the three men out of his office. He walked in front alone, and the three men followed behind him like little followers.

There was no way, Du Bingbing's aura was too strong.

"I suddenly remembered that we haven't seen Tang Xinyi for a long time."

"Her? The last time he and Qin Yuan had some unpleasant things, and then he never contacted you again. Could it be that you want him to come and help?

He is a scientific research cadre of the sniper research group of the Special Warfare Research Center of the Southeast Military Region Command.

He is also a military game of the military region. The office director used to work in the intelligence department of the general staff of the army."

When Li Erniu said this, he suddenly remembered an important thing. Since Tang Xinyi used to work in the intelligence department, it means that he should have some connections.

"Wang Yanbing..."

The two smiled at each other when they said this.

"I think the two of us have a tacit understanding, and we actually thought of going together. Tang Xinyi had some interest in Qin Yuan before.

But Qin Yuan also rejected her because of An Ran's matter. Do you still remember his former code name? He is a swallowtail butterfly. "

"I remember some of his code names, but the events of the past two days have nothing to do with it. This is a transnational operation, and he has never carried out a transnational operation."

"But I believe he will have some network resources. It depends on whether he is willing to help. People say that girls are more petty. This matter also involves emotional relationships. I am afraid that he will hold a grudge."

Du Bingbing was driving in front. When he heard this, he deliberately honked his horn in anger.

"Oh, please don't talk nonsense. There is a girl in our car."

"Are you also interested in Qin Yuan?"

Li Erniu is simply a fool. Although he is usually a bit simple and simple, he also grew up in a difficult environment and can endure hardships better than ordinary people.

However, after Qin Yuan had been together for a long time, although no one dared to bully him anymore, he also became glib and even a little annoying.

"What did you say?"

"I didn't say anything, I didn't say anything. Don't be angry. Drive well. You are the dignified deputy chief of staff. If you are caught not driving well, where will your face be? Even if you are our colleague There is no way for the department to go through the back door."

He Zhijun saw that the two of them made people angry and angry, so he could only think that these two guys deserved it.

"Who is Tang Xinyi? Why have I never seen him before?"

"Didn't I tell you just now? He used to be with us a lot, and then he specialized in doing some intelligence work. Since he transferred the department, the two of us have never seen each other again."

"Do you still miss him?"

Wang Yanbing felt embarrassed after being teased by them.

"You must not talk nonsense. He has some relationship with both Qin Yuan and He Chenguang. The problems between them are more complicated, so don't ask, because I can't explain it to you."

"By the way, Deputy Chief of Staff Du Bingbing, where would it be more appropriate for us to go to discuss our affairs?"

We have to go to a secluded place, and we must not let others see us, let alone let others recognize our identity.

There are so many people engaged in intelligence work. It would be terrible if they noticed that we were secretly studying some plans to save Qin Yuan. "

"I think you two are a little too courageous."

"This has nothing to do with courage. The main thing is to look at our specific tasks. In any case, we cannot do anything excessive at this time."

"My friend has opened a coffee shop that is relatively hidden. After we go there in a while, I want him to clear the place."

"No wonder Miss, even your friends are so powerful. Doesn't it cost a lot to open a cafe in a city like this?"

"Who told you that I am the eldest lady?"

He Zhijun was considered the more mature one among them. Hearing this, he quickly changed the subject.

"Nowadays, Thor's situation is more complicated and special. If we want him to come together at this time, we still have to think carefully. There is no problem between us. The key is not to affect Thor's normal recovery of his position."

Li Erniu was also a soldier brought out by the God of Thunder, so of course it was for his sake.

"I prefer not to tell the God of Thunder about this matter, but Qin Yuan's relationship with the God of Thunder is more important. If we discuss an important plan at this time and don't tell the God of Thunder, he will be very angry."

"What about instructor Gong Jian?"

"Needless to say, instructor Gong Jian must also inform us."

"Instructor Gong Jian is a relatively upright person. He may not get involved with us at this time. If we want to follow formal processes and procedures, there will definitely be no problem. The key is not that we..."

"Shh..."

"What are you afraid of? Are there any outsiders here?"

"This has nothing to do with whether there are outsiders or not. We have to be careful when speaking."

"That's right."

"Bingbing, where is the coffee shop you mentioned? How long will it take us to get there?"

"Don't worry yet, I have already informed Thor and the instructor."

The issue Li Erniu and the others were struggling with was decided directly by Du Bingbing on their behalf.

"So that's it. Since you've already decided, there's nothing more to say. Anyway, you two have a superior-subordinate relationship now, and I can't command you."

"By the way, He Zhijun, how has your Langya Special Forces Brigade been doing lately?"

"How can our team be responsible for carrying out the most dangerous tasks? They also said today that they hope to let me follow them to the dock to welcome these friends Qin Yuan brings back."

Du Bingbing looked at the rearview mirror and talked to them while driving.

"I advise you never to do this!"

"What's this for?"

"Langya Special Forces Brigade, even though you are the brigade commander now, you know its special characteristics. Before it was established under the leadership of superiors, Qin Yuan was once a candidate for the position of brigade commander.

However, this matter has been denied by Thor, so he went abroad to perform missions. When he comes back this time, his rank will probably surpass yours. He can be promoted no matter what, and at least he can become a lieutenant. . "

He Zhijun smiled and said.

"Are you trying to say that Qin Yuan is going to surpass me?"

"That's not what I meant. I heard that there is a person in your team named Chen Shanming. He is the leader of the Wolf Fang Special Operations Green and Red Blood Cell Special Operations Team."

"Deputy Chief of Staff Du Bingbing, do you already know everything about our internal affairs? I didn't expect you to know so much?"

"Now that I have become deputy chief of staff, I will definitely be qualified for this position. I have discussed this matter with Lei Shen, and we already have a suitable candidate. If he is qualified for this position, we don't have to choose anyone else. "

"Are you attracted to Chen Shanming?"

"I hope that after Qin Yuan comes back, some internal personnel can be rearranged."

Li Erniu felt a little unhappy when he thought that these grown men were arranged to have a meal by a little girl.

"Deputy Chief of Staff, since you are so capable, you should still try your best to get Qin Yuan back quickly. We are all waiting for your results. You must not let us down."

"Not only do I want Qin Yuan to come back quickly, I also want Lei Shen to resume his position smoothly. I am willing to be his deputy, and the two of us will do these things together."

"Most people are selfish. Once they reach a relatively high position, they are not willing to let someone pressure them. You are actually willing to let Thor resume his position and serve as his deputy?

Are you telling the truth or a lie? "

"Although it is said that a gentleman's words are hard to follow, but you can't not believe what I said just because I am a girl. I am indeed very young now.

I have just reached this position because I have made some achievements, but I still lack a lot of experience.

I hope to study hard with Lei Shen and instructor Gong Jian and accumulate more experience. Maybe I have other career plans? "

Du Bingbing was chatting with them while driving. At this time, he also received a text message from Fan Tianlei.

"Hey, don't read text messages while driving."

"In a position like ours, you can't always come to work and get off work at the same time. You still have to adjust your work and rest time according to different tasks. This is what you just said."

Wang Yanbing was finally caught by this little girl.

"Li Erniu, you said this."

"I didn't expect you to be so talkative. Even if Qin Yuan is here, he can't talk to you." (End of Chapter)

One-click Recovery Since I was a Special Soldier

Chapter 2338: Gathering the Wolf Fang Special Operations Brigade

The main reason why Du Bingbing said this at this time was because he wanted to stabilize everyone's emotions.

"I know that the relationship between you and Qin Yuan is very good. Even though we were not familiar with each other before, we now have a common goal to save Qin Yuan."

He Zhijun nodded when he heard this.

"Deputy Chief of Staff Du Bingbing is right, as long as we have a common goal."

Having said this, there were some subtle changes in Du Bingbing's expression, and he smiled crookedly.

In fact, he had already wanted the other party to join his camp.

However, he has never had the opportunity to contact He Zhijun. After all, the other party's identity is quite special. For him, it is not an easy process to establish a relationship with the other party.

The Langya Special Forces is a very special department. It is composed of the elites of the army. At first, he really wanted Qin Yuan to take over the position of brigade commander of the Langya Special Forces Brigade when he came back, but he refused the position.

After all, He Zhijun was much older than Qin Yuan. In order to show respect for the other party, he did not actively try to seize the position of commander of the Langya Special Operations Brigade.

Thor specifically told Du Bingbing these things.

Therefore, he was quite clear in his heart, and he never had a definite answer to this matter.

This also caused some troubles between them. Du Bingbing deliberately called the God of Thunder over this time just to explain these things clearly to him.

"Instructor Gong Jian? Is that him?"

Although Du Bingbing was a girl, he still drove relatively fast. He arrived at his destination as quickly as possible and saw the instructor nearby.

"I said you are driving too fast for a girl, can't you pay attention to safety?"

"The speed limit on this road is around 80 mph. I'm not speeding. Do you think it's too fast if I drive 79 mph in the city?"

"I finally saw the heroic appearance of a female soldier. You really shocked us."

"It's no use telling me any of this now because I'm not interested at all.

I just want to know when you can agree on the matter. The matter of saving Qin Yuan is likely to touch some rules of the superiors.

It is possible for us to be punished, as you have military personnel.

If you want to quit now, it's still too late, and I won't blame you.

People seek advantages and avoid disadvantages. Even when facing good brothers, they still have some concerns. This is normal. Qin Yuan will not blame you even if he finds out.
"

Li Erniu became a little angry when he heard Du Bingbing's kind words.

"I asked you, how come you, a little girl, are so stubborn? We have already told you that this matter has nothing to do with it. Even if we have some positions and are forced to be demoted because of Qin Yuan, it doesn't matter, right? .

Qin Yuan is our good brother. We cannot let him stay in such a dangerous country without any way to come back. This is not a situation we want to see.

As long as I can save him, I can become an ordinary soldier. What I care about is my position in the special forces, not how high my position is. "

"Li Erniu, don't be so impatient. It's normal for Du Bingbing to say these things. He has considered the situation of each of us. We should thank him instead of treating him with this attitude."

"You still have to thank him?"

"Thunder God has been forced to stop his position because he helped Qin Yuan and may have offended some high-ranking figures in the army."

When Du Bingbing heard this, she suddenly realized that they didn't understand why Fan Tianlei was suspended.

"Sometimes you can't just look at things on the surface. You still have to think about it comprehensively."

"oh?"

Instructor Gong Jian's eyes were the smartest. After all, he was the instructor of the Langya Special Forces Brigade. No matter how fast the vehicle went, he could immediately identify it as Du Bingbing's vehicle.

And he vaguely seemed to see that Du Bingbing was not the only one in the car.

Instructor Gong Jian walked slowly to the cafe they had agreed on in advance and saw Fan Tianlei wearing outdoor sportswear and carrying a canvas bag.

He also wore a dark green peaked cap on his head.

"Thor? I looked around for a long time to identify you, and it turned out to be you. Why are you dressed like this today? You are not wearing a military uniform today. I really didn't recognize you at all."

"Hahaha, I dressed up like this on purpose today. I don't want others to see it. I am a person who has been forced to stop my position and cannot appear with you. If others see it, it will have a great impact on you. "

"Since you are now on leave without pay, what does it matter?

Just think of it as giving yourself a holiday. Anyway, I believe that Qin Yuan will always protect your interests and will find ways to save you when he comes back. You don't have to worry about this at all. "

"Of course I think so in my heart, but I still have some concerns. I hope you can understand."

Instructor Gong Jian also understood that all of them had reached a critical moment, otherwise they would not have taken the initiative to find themselves.

"I saw Du Bingbing's car just now. He should be going to the underground garage. Let's wait inside the coffee shop."

"That's fine. Du Bingbing said that this cafe is run by his friend and it's very reliable. When we came here today, he cleared the place specially."

As the two of them talked, they walked to the door of the coffee shop and saw a "Break..." sign hanging on the door.

"As expected, Du Bingbing was right. He has indeed cleared the place."

While they were talking, a beautiful girl with short hair walked out. He was wearing a white skirt and a pair of white canvas shoes.

"Is the owner of this coffee shop also a woman?"

"I don't know, anyway, we have arrived at the scheduled location,"

I saw this girl walking out of the coffee shop with a white zircon hairpin on her head.

"Tang Xinyi?"

Gong Jian and Fan Tianlei couldn't believe that the girl they saw in front of them turned out to be the usually heroic Tang Xinyi.

"Could it be that you are dazzled? Is this really him? Why has he changed so much?

I haven't seen him for such a long time and he is dressed like this. I have known him for such a long time and I have never seen him dressed like this before. He seems to look like a goddess. No wonder..."

Instructor Gong Jian can be considered a relatively calm person. Even so, he was already shocked by the cross-dressing Tang Xinyi in front of him.

"Thor, instructor, you two are here."

"Are you the owner of this coffee shop?"

"How is that possible? This is also a coffee shop opened by my friend. My current position is the director of the Military Game Office of the Southeast Military Region. I have a position, so how can I open a coffee shop? Don't I want to stay in the army? ?"

"I was shocked. When I saw you here, I thought you really came out to open a coffee shop. So, do you and Du Bingbing know each other?"

Even Thor was shocked. Du Bingbing had never said that he and Tang Xinyi had known each other for a long time. Looking at them like this, they not only knew each other but were also very familiar with each other. They might even be best friends.

"It's not convenient to tell you about this now. Come in first. All the seats have been arranged, and you have ordered what you like to drink."

When Tang Xinyi said this, he suddenly stopped, turned around and looked at the God of Thunder and said with a smile.

"Thor, you have the nerve to say that my dress today is different from his usual. You don't usually wear outdoor sportswear. You also wear a dark green peaked cap. What are you wearing?"

"At my age, I don't care about aesthetics, whatever makes me feel comfortable. Originally, I wanted to wear a bucket hat, but my head was too big and there was nothing suitable for me.

It seems that Qin Yuan is right. My personal image should indeed be changed. Then I can only wait until he comes back and take me shopping, and then we can buy some clothes. "

Instructor Gong Jian smiled after hearing this, and immediately got on Fan Tianlei's head, pulled off the hat and put it on his own head.

"Oh, you accidentally ruined my hairstyle."

Thor was like a shy girl whose clothes were suddenly unbuttoned. He covered his head with his hands, feeling a little embarrassed.

"Is there any need to destroy your hairstyle?"

"Thor God, you actually look pretty good in the way you are dressed today, but I usually see you in military uniform. Suddenly seeing you so casual, we are still not used to it, but I think we should get used to it. alright."

Instructor Gong Jian is usually quite serious in the army, but at this time he is also willing to joke a little bit.

"Thor, I think your hat is pretty good. Why don't you give it to me?"

"Do you like the green hat too?"

"Oh, don't say there's anything wrong with the green hat. Our military uniforms are all green. Is there anything wrong with that?"

"Military uniforms are of course another matter. If you wear a green hat on a regular basis, others will laugh at you."

"I can't care about that much. I'm not married anyway. Besides, I heard Qin Yuan say that this is called a new trend."

While they were joking, Du Bingbing and three grown men came up from the underground garage.

"You will see a surprise when you arrive at the coffee shop later. Don't be surprised then."

"surprise?"

Wang Yanbing is simply a ruffian, and he also likes to joke with girls.

Thor has told him about this problem more than once, but there is no way he can't change it. Who can not be moved by a beautiful woman?

"It's just our first meeting, and you gave us such a big surprise. It's really too much for me to bear."

"You have a pretty good idea."

We came directly to the coffee shop from the elevator in the underground garage. As soon as we entered, we saw Tang Xinyi, who was wearing a white dress and looked like a fairy.

Even a character like Li Erniu was shocked by the beautiful girl in front of him.

He opened his mouth and stared, not caring about his own image. Of course, there was no image at all.

"Tang Xinyi? I haven't seen you for so long, how come you have changed so much? Could it be that you went for plastic surgery?"

"Don't talk nonsense here. How could I possibly have plastic surgery? How can I stay in the army after plastic surgery?"

"Hahaha, don't get me wrong. I was just joking with you. You are so beautiful today. It's a pity that Qin Yuan didn't see it."

When Tang Xinyi said this, her face suddenly became a little bad. Against the background of the white skirt, her face looked even more rosy.

Du Bingbing saw the awkward situation between them and hurriedly came up.

"Just a brief introduction.

Tang Xinyi and I were high school classmates. I never told any of you that I went to a medical school abroad after high school.

I only returned to China in the past two years and joined the army as a military doctor.

Tang Xinyi is much better than me. She went to military school after graduating from high school, and then joined the army. Now she has become the office director of the Southeast Military Region."

"Qin Yuan often said that the world is too small. Now it seems to be true. We are surprised that you two are high school classmates."

He Zhijun reacted quickly. He immediately understood that the two girls deliberately gathered them together to discuss Qin Yuan's affairs.

"People say that heroes get angry for beauty. It seems that you two really want beauty to save heroes."

Wang Yanbing immediately said jokingly beside him when he heard this.

"No, no, no, these two are not called beauties saving heroes, but saving soldier Qin Yuan. This operation can be codenamed after Qin Yuan comes back. I will ridicule him."

"In the past, people said how powerful he was. Now it seems that this brat has this day. Someone must have deliberately made trouble for him and blocked his return process, otherwise he would have come back long ago."

"This matter is all later. Let's sit down and talk about it. I guessed what you all like to drink, so I simply ordered a few cups."

"You scared me. I thought Tang Xinyi was this coffee shop. 's boss, I was thinking about how to conceal this matter. If God knew, he would lose his position. "

"Our high school classmate's coffee shop, he often travels around the world, sometimes he leaves the coffee shop for us to help take care of it, but we don't get paid, and it's not a part-time job."

"No wonder you said you can just clear the place, it turns out you have occupied other people's coffee shops a long time ago, it's not good to affect their business for the day."

"It doesn't matter, my friend is very rich, and opening a coffee shop is just his hobby."

Chapter 2339: Clearing up connections in all aspects

Li Erniu couldn't help but sigh.

"In the past, everyone would always say that the world is too small, and when they turned around, they seemed to know each other. This time, I can really see that the world is indeed quite small.

Everyone is familiar with each other. In this case, let's sit down and discuss what should be done about Qin Yuan.

We can't just watch him stay at the embassy.

After all, causing trouble to others is one thing, but his inability to come back is also a very serious matter.

If he can't come back quickly to carry out the mission, it means that the mission has never been completed, and I heard that Professor Fang De can't hold on for much longer. His old man's physical condition is a bit worrying. "

Hearing this, Du Bingbing nodded silently.

"Li Erniu, you are absolutely right.

In fact, Qin Yuan always asks me how the situation is with Professor Fang De.

I have now begun to use a special kind of medicine to hang his life. He is too old.

In addition, the things he experienced during this period of time have caused a lot of damage to his body, and I have no more ways to keep his life. After all, I am not a god. "

"It's all that old K's fault. If this guy hadn't done so many things, I believe it wouldn't be like this.

It seems that this is indeed a very serious matter for us. What should we do? There is never a definite outcome. "

He Zhijun couldn't stand listening anymore.

"There must be some bad elements doing something inside, which is why our plan was delayed for so long."

"That's for sure, but I think we need to study it carefully now.

The reason why I gathered everyone together is because we are all related to Qin Yuan and everyone regards him as our best friend. In this case, we should not hesitate any more. "

Fan Tianlei understands Qin Yuan best among all people.

From the time Qin Yuan joined the army until now, Fan Tianlei has been taking care of him, and the two of them have a relationship of both teacher and friend.

Instructor Gong Jian shook his head helplessly.

"I think someone deliberately prevented Qin Yuan and the others from coming back, and it probably has something to do with Professor Fang De.

Professor Fang De's current physical condition could not last much longer. They wanted to delay Qin Yuan's return and prevent them from meeting each other.

In this way, there is no way to pass on some key military secrets.

Professor Fang De is an internationally renowned arms expert. Based on this fact, many people are worthy of thinking about him. "

"Instructor Gong Jian's analysis is very reasonable. I also think this matter must have a lot to do with them. They deliberately prevented Qin Yuan and the others from coming back.

These secrets of Professor Fang De are the result of his lifelong research. Even if he is not willing to help our country, these research results should not be allowed to be buried under the loess with him. "

"Thor God, everyone thinks you are an upright soldier, a person who is loyal to the country and the army. Who would have thought that you are so well-organized?"

Even if Professor Fang De has these secrets and is unwilling to help our country and troops, are you still willing to save him? "

"Of course, why wouldn't you? This is something he has studied all his life. He has worked hard on it. You can already see it when you see the old man's thin body. It is not easy for him to survive today."

"Whether it's for Professor Fang De or Qin Yuan, our plan can be regarded as reaching the same goal through different paths and has a certain purpose."

In this case, don't hesitate any longer and try every means to save them. So far, we first need to know where the process is stuck. Where is the process now? "

"Thunder God and I have already gone to investigate once, and the current process is still at the entry and exit points."

They need us to provide Qin Yuan's exit records. You also know that they crossed over illegally and there is no exit record at all.

Once investigated, the person who needs to be held responsible will definitely not have many exit records. "

"Then is there any way to get a fake exit record? Anyway, we use it ourselves, and whether it is true or false is not that important anymore."

"Here are the exit records of members of the special forces. Do you really think you can just get a fake one?"

Their identities originally belong to a relatively special group of people. If they make a fake one now, once someone investigates the matter and comes to the forefront.

I'm afraid there's nothing you can do about it, okay? This is a very sensitive topic and absolutely cannot be faked. Thor and I have already discussed it. "

Instructor Gong Jian is a relatively cautious person. He knows the importance of this matter and must not make a false record of the situation in any case.

The key is how to prove that they went out normally? This task is very covert, and the direct superior is Thor.

"Thunder God has been forced to stop his position now. Even if he comes out to explain the situation, it will be useless. Moreover, Du Bingbing took over this task halfway. They may not believe what you say."

Du Bingbing nodded helplessly when he heard this. He also thought so in his heart. Now there is still one person who can know the whole story, that is the commander.

"We can't go to the commander for this matter. He must know who came up with the bad idea of this mission. Let them go to other countries by smuggling. This is simply an invisible disaster and a mine."

Thor was still very self-blaming when he heard this. He knew that this was caused by his improper arrangement at the beginning.

"At that time, they were more anxious to get out. There was really no fair way to hide it from everyone. They had no choice but to adopt this method. Who could have thought that there would be so many serious consequences in the future?

And at that time, I discussed it with An Ran, and we decided together. No one could predict what would happen next. If we had known it would be so troublesome, we wouldn't have adopted this method."

He Zhijun saw Thor and always blamed himself.

He felt bad, so he said to everyone.

"Don't blame Thor first. He actually came up with a good idea after weighing the pros and cons. Who could have predicted that this idea could not be implemented at all?"

Wang Yanbing's temper was very bad to begin with. He was even angrier when he heard this, but he didn't mean to blame Thor.

"Tang Xinyi, you have been away from our army for such a long time. Don't you have any connections? You are so beautiful, there are many people who can do things for you."

Tang Xinyi is a girl after all, and she must feel uncomfortable when she hears such words.

"We are now discussing how to save Qin Yuan. How did they drag the matter to me? Does it matter whether I am beautiful or ugly?"

"I mean that you can be regarded as a flower of our former Wolf Fang Special Operations Brigade. Many people are interested in you. As long as you use this relationship to ask them for help, I believe they should not refuse."

"Wang Yanbing, you..."

Li Erniu has been hiding a very important thing, that is, the fact that he secretly contacted Qin Yuan was that he sent his fellow villagers to the dock to pick up Qin Yuan and others.

He Zhijun is a bold and careful person. He can see that Li Erniu seems to have something on his mind, but he did not ask carefully.

Instructor Gong Jian also found that he was not right, and he did not care so much, so he went up to ask directly.

"Li Erniu, I think you look a little bit wrong, did something happen?"

"I have said it before, I am not a person who is particularly good at hiding my thoughts. Something did happen. Qin Yuan contacted me privately. He has sent a boat to pick up Jason and others."

Du Bingbing smiled and said.

"Instructor Gong Jian, don't just blame Li Erniu for this. In fact, he and I did it together. I helped Qin Yuan contact the ship.

It was because I used my connections that I was able to bring them back. These people are not members of the Wolf Fang Special Operations Brigade at all. To be precise, they are just a group of gangsters with irregular identities and status."

"No wonder Qin Yuan didn't come back with them."

"Yes, Qin Yuan couldn't come back with them. If he was alone, any method would be acceptable.

But he has Chen Jixiang and He Chenguang by his side, and An Ran is also there. This makes things very complicated, and they dare not act rashly.

Other things are easy to say. At least they are still in the embassy now. As long as they are in the embassy, they can guarantee their safety."

"Yeah, that's right."

On the other side, Qin Yuan drove the car under the command of Liu Mei, detoured several bends, successfully avoided the surveillance of Mr. Norman Karim's people, and finally returned to the embassy smoothly.

After He Chenguang saw Qin Yuan's car coming back, he was finally relieved.

"That's great. They finally came back smoothly. This is really not easy. After sending these people away, we can also ensure their safety."

"Yeah, let them get up quickly."

Qin Yuan drove the car and parked it in a fixed position. A special embassy staff took the car away.

Qin Yuan and Chen Jixiang were still wearing work clothes with oil stains all over their bodies.

"Brother Qin Yuan, I think you really look like a maintenance worker. Let's find a place to change clothes first. This look is really a bit uncomfortable."

"Okay."

Qin Yuan nodded and went to the side to change his clothes.

Wang Xinyan saw that Qin Yuan had returned. He was finally able to put his heart at ease. After all, this matter was really not easy for him.

"Oh, it's really too difficult for us to successfully rescue them all. By the way, have you thought about what to do next?"

"An Ran, to be honest, I'm not indifferent to this matter. I'm more anxious than anyone else. I hope Qin Yuan and the others can go back quickly.

But there's a problem with the process on Du Bingbing's side, and the helicopter issue has not been approved."

"That's true. I can also feel your embarrassment about this matter. Even if there is a problem with the process, it can't be blamed on you. Let's wait and see."

He Chenguang was so excited that he walked directly to the door to greet Qin Yuan and saw that the two of them had changed into clean clothes.

He Chenguang stretched out his fist on Qin Yuan's shoulder and hit him hard twice.

"You brat, do you know how much we all care about your safety?"

The whole day has been a torment for us, so it would be better for me to go with you. I can finally feel a little more relieved, which is better now. The things you have gone through alone have tormented all of us. "

"He Chenguang, please don't misunderstand me. I didn't take you with me, not because I don't believe you, but because I believe in you too much. Because your single-soldier ability is very strong, I kept you here. Stay with Anron and stay at the embassy."

He Chenguang heard this and looked back at An Ran.

"So you were worried about him, so you don't have to worry anymore. He has been performing special missions internationally, and his ability to fight independently is much stronger than all of us."

"Okay, let's not talk about this for now. This journey really scared me. Although we have returned successfully, we still have to lead people to check out these routes that Efit has experienced."

"how?"

"As I said just now, maybe he bought a bomb somewhere. Even if it doesn't hurt us, those ordinary people are still innocent."

"Those are people from this country, and they are not our compatriots. Why do you need to care so much?"

"Whether they are from our country or not, at least we all live on the same planet. They are ordinary people living a normal life and suffered unreasonable disasters. It was also because of me. What can I feel sorry for?"

He Chenguang slapped Qin Yuan's shoulder twice with the back of his hand.

"Oh, look at you like this. Liu Mei and the others don't have to worry about you at all. He has already arranged for people from the action team to check the surrounding roads, and he also brought bomb disposal experts."

"Yeah, then I won't worry."

Wang Xin walked slowly to Qin Yuan's side.

"Have you got this bullet back?"

"Yes, if you hadn't said anything, I would have almost forgotten about it."

Qin Yuan took the bullet out of his arms and wrapped it very delicately in a small box. This was the only thing he was thinking about. Now that he had it in his hand, he could finally feel relieved.

"If you didn't say this was evidence, I would have thought it was a small gift."

"Okay, how long has it been? You still have the heart to make a joke here, that's great!"

One-click Recovery Since I was a Special Soldier

Chapter 2340 Fan Tianlei's painful past is revealed

"Chen Jixiang, you should complete such a difficult task in one go, how is it? Is it thrilling enough?"

Chen Jixiang successfully completed the task with Qin Yuan, and he was a little arrogant.

"I feel okay, not as nervous as I imagined, and you know what? I actually saw the mercenary Scorpion today.

But he is a very famous mercenary in the world, Ruan Wenxiong~"

"Seeing your excitement, if I didn't know, I would think you saw a star, but no one has ever seen his true face."

"Brother Qin Yuan explained to me that he is the most famous mercenary in the world, and the commission is very high, it is simply scary, but no one has seen his true face, and everyone who has seen him has died.

So, he seems to be a hero in martial arts novels, that kind of killing without blinking, sounds very cool."

Chen Jixiang always thinks of some childish things, but he is still very young and has just joined the army. Even if he is a little smart, after all, he has not experienced too many big things, and everyone is more tolerant of him.

He Chenguang patted the other person's head gently and said with a smile.

"Don't think that you have grown a lot just because you followed Qin Yuan to complete the mission this time. In my opinion, you are still a bad boy.

Don't do anything impulsive at this time, and don't think that people like the mercenary Scorpion can be praised and praised.

After all, he is just a mercenary with some skills.

Everyone doesn't agree with his identity, but I have heard something about one thing.

There seems to be a big conflict between him and Fan Tianlei.

Thor has never told anyone about this matter, and we have only heard about it. It is possible that Qin Yuan knows what the conflict between the mercenary Scorpion and Thor is."

After He Chenguang finished speaking, Qin Yuan next to him heard these words. Of course, he knew what the conflict between the mercenary Scorpion and Thor was, but he didn't want to tell anyone about this matter. This is Thor's personal privacy.

"He Chenguang, stop talking nonsense to Chen Jixiang here."

Chen Jixiang was very curious and gossipy. Hearing this, he wanted to know the whole story even more. He walked up and grabbed Qin Yuan's clothes.

"Brother Qin Yuan, please tell me. I thought this mercenary Scorpion appeared in front of us for the first time. Could it be that he has had some connection with us for a long time?"

"Sometimes being too gossipy is not good for yourself.

Why do you always ask about these things? It has nothing to do with you, so don't be so curious. Besides, this matter is related to Thor.

It is also the eternal pain in his heart. We have caused so much trouble to Thor, so don't discuss his scars in the past."

"Oh, Brother Qin Yuan, I beg you, just tell me, what is going on? I am still very curious."

Qin Yuan looked at the three of them and there were no outsiders here, so he whispered beside him.

"I can tell you the cause and effect of this matter, but you have to promise me that you will not mention it in front of Thor after you go back. This is the pain in his heart that he cannot face directly."

"Don't worry, since you have told me all this in advance, I will definitely not say it in front of Thor.

Besides, I also want to understand it more clearly. If I accidentally say something wrong in front of Thor after I go back, won't it hurt him more?"

When Chen Jixiang said this, Qin Yuan felt that there was some truth in it.

This kid usually has no control over his mouth and speaks without thinking.

If he doesn't know the contradictions between Thor and the mercenary Scorpion, he may accidentally touch upon the pain that Thor doesn't want to talk about again. It's better to tell him clearly in advance now.

He Chenguang and Qin Yuan looked at each other, and they reached a consensus that they could talk to this kid about Thor.

"Then should you tell him, or should I tell him?"

He Chenguang waved beside him.

"You should talk to him in person. I don't want to talk about the past."

"Well, actually Fan Tianlei's family background is very miserable.

When he was still a captain, his son and wife were kidnapped by the mercenary Scorpion abroad.

Although he notified the local relevant departments to come to rescue in time, his son Benben was hit by a stray bullet during the rescue and unfortunately died.

Later, his wife divorced him, which became a permanent pain in his heart."

After hearing this, Chen Jixiang finally realized.

"If you say so, I know, everything can be explained.

No wonder Thor is so old, he doesn't get married and has no children. I thought he was a non-marriageist. It turns out that he has experienced so much.

It's okay that his wife divorced him, but he even lost his son. This is really pitiful.

No one can understand the pain of losing a child. Even if we know that it is painful, it's not easy for people who haven't experienced it personally to say it."

"Now you finally understand why Thor is so good to Jason's daughter Yaya.

Because he seemed to see through this girl the things he had experienced, and he also wanted to make up for the regrets he had had through this matter. "

He Chenguang nodded lightly.

"Originally, I didn't want to join the army. It was he who found my father, He Weidong, and persuaded me to bring me in. Unexpectedly, after joining the army, I met Li Erniu and Wang Yanbing, and the three of us were assigned to the Iron Fist Regiment.

What made me even more unexpected was that I would meet Qin Yuan after joining the army. Every time I was with this boy, I lived in fear and could not live a stable life.

I have seen that my father is a very powerful member of the special forces, and I am very envious of him, but I know that this is very painful and requires a lot of pressure.

You may be full of professional halo in front of others, but only people in your own family know how difficult it is to have such a person in your family and how much you have to pay.

My mother never complained at all, she only devoted herself wholeheartedly to our family.

I don't want to be like my father, but after Thor's hard talk, my father agreed, and so did I.

Since joining the special forces and meeting you guys, my life has really become completely different, and every day is full of surprises and challenges. "

He Chenguang rarely said this kind of thing, and today he was a little emotional when he heard about Thor.

Chen Jixiang now has a completely different view of Thor. He never thought that there was such pain hidden under the other person's strong appearance.

"Looking at your eyes, you seem to be full of sympathy for the God of Thunder.

But I can tell you that he doesn't need anyone's sympathy. This incident is indeed a scar in his heart, and it's hard to describe, but he has already become accustomed to it. This happened many years ago. "

"If we go by this theory, then this mercenary Scorpion should be about the same age as Thor."

"You are just making groundless guesses. No one has ever seen the mercenary Scorpion, so how can we estimate his age? He should be older than us, but he should not be as old as Thor.

Judging from his actions and body language today, he is probably only a few years older than us. Don't forget that a man has become a big boy in his teens and has full fighting power.

Aren't you the same? Judging by his age, the mercenary Scorpion is currently in his thirties at most. "

At this moment, Wang Xin and An Ran were in the house and heard them talking outside, and it was about the God of Thunder, so they did not go out.

"It seems unethical for us to be here eavesdropping on them."

"It's not eavesdropping, and it's not a secret.

Everyone in the entire army who has a good relationship with Thor knows about his unbearable past, and he doesn't mind others knowing, but he doesn't want others to look at him with sympathy. "

"What you say makes sense. Thor really doesn't want others to look at him in this way. I have met him several times. He is a very strong and tough man. There is no way he can deal with these miserable people. Experiences are associated with each other."

After Qin Yuan finished talking to Chen Jixiang about these things, he pushed open the door directly and came to the central control room.

Liu Mei is using the remote control operation team to investigate the surrounding facilities along the way to see if there is any possibility that Efit will install a bomb.

"Liu Mei, you have worked really hard."

"Qin Yuan, you don't need to tell me this. This is just my job."

"All these serious consequences are caused by me. In fact, I should go on this mission with you, but I don't have more time now.

I have to find ways to contact these good brothers in China and ask them to use all their connections to take us back first. Even if we can persist, I'm afraid Professor Fang De can't.

He is already so old and has been in the intensive care unit.

Du Bingbing said that Professor Fang De is no longer in danger, but there is always no way to control a person's age. We should always use some abnormal means to protect his life safety.

It can last for a few days, but it cannot last for too long, which also puts a great burden on his body. His research must be handed over to these two students in order to be preserved. "

An Ran also nodded silently beside him.

"Qin Yuan, what you said makes sense. Professor Fang De also saved it personally. As the person in charge of the operation, you should be able to understand this feeling."

"Yes, I can no longer face these two students. They have a very demanding look in their eyes every time they see me."

"There is no other way. Can they not worry about their teachers?"

Moreover, these two people were originally orphans. It was Professor Fang De who took care of them and gave them the opportunity to go to school and become an internationally famous arms expert.

It's impossible to calculate how much time, experience and money an ordinary family would need to cultivate such an outstanding child, let alone Professor Fang De.

How difficult it is for him to cultivate two such outstanding talents by himself. We also want to preserve their research.

That's why we tried our best to come here to protect them. Seeing that we are just a little bit away from completing the mission, we must not fall short at this time. "

"Is this person sent by Li Erniu reliable? You left Jason and the others to these people on the ship."

"An Ran, you should know the relationship between me and Li Erniu.

We are the best friends, and He Chenguang also knows that he is a fellow countryman who should be very reliable. Besides, Jason and the others are not the kind of people who are at the mercy of others.

If they encounter any danger on the way, they also have the ability to resist. They have been in the smuggling business for so many years, and they are better at dealing with enemies and escaping on the sea than we are. "

Chen Jixiang frowned and said worriedly.

"The others are fine, they are all experienced. The key thing is, don't forget, there is also Huang Mao. This guy doesn't seem to be that reliable, he is just a little gangster. I really don't understand, brother Qin Yuan, you want him Why take it back?"

When Wang Xin heard this, she asked with some doubts.

"Huang Mao?"

"You should also know him, he is the little gangster who drives a car."

"Him? Why did you bring it back, Qin Yuan? How should you explain it to your superiors after you go back? He is a person brought back from a cross-border operation. You have to arrange nationality for him, and there are a series of complicated issues, right? A little too impulsive?"

"Don't worry, any decision I make will never have anything to do with impulsiveness. I make the decision after thinking about it carefully. Since I want to take him back, it means that he can take advantage of it." value."

"A living person has disappeared in this country and comes to us. How can you give him a new identity?"

"That's all we can do. It's not difficult for us to assign him a new identity. It's also within our capabilities, and I believe Du Bingbing can help.

Someone in their family works at the household registration office, so it is not a problem to help Huang Mao arrange a new identity. In fact, I think that as long as his character is not in question, it is okay to keep him with us and help us do some things when the time comes.

What's more, he was implicated by us this time. Wouldn't it be easy if Mr. Norman Karim wanted to cause trouble for him after we left?

Killing him is as easy as killing an ant. Norman Karim is a very vindictive person, and he will madly retaliate against the people involved in this matter. "
