

Special Soldier 24

Chapter 24: World-class thermal imaging

"What happened to Brother Yuan? Is there a situation?"

Li Erniu was pressed down by Qin Yuan, with a look of doubt.

But even he feels that there is a situation now!

"Not sure, it just feels a bit wrong!"

Qin Yuan shook his head.

was silent for a moment.

Qin Yuan took Li Erniu and left quietly!

stay hundreds of meters deep into the jungle!

Qin Yuan relaxed his vigilance now!

"dingdong~"

But at this moment.

The crisp system prompt suddenly remembered!

Qin Yuan couldn't help but stunned, is the system going to release the task again?

"Ding Dong~ Now release a system mission to eliminate the wolf squad! Unlock a new grid!"

"Fuck...Isn't it! Let me knock out the wolf squad?"

Qin Yuan couldn't help his eyes widening.

an incredible look on his face.

This system...

is really ruthless!

just let myself run 30 kilometers!

Now, you want to kill the wolf team again?

"Wild Wolf Squad, but a special force! Maybe there is a certain gap compared with the Raiden Commando! But ordinary soldiers encountering them is a nightmare!"

Qin Yuan sighed slightly, his eyes flickered, "But...I have perfect marksmanship! And terrifying physical fitness, it is not impossible to defeat them!!"

To kill the wolf squad!

Qin Yuan does not hold out much hope!

But!

if it is possible!

This task, Qin Yuan is bound to complete!

after all.

This is worth a grid!

Today's Qin Yuan has no grid at all, but only one!

takes another one, but it's gone!

Without a grid, there is no sense of security!

This is what Qin Yuan doesn't want to see!

"Brother Yuan, if we walk from the small forest, can we still catch up with the big army?"

After walking for a while, Li Erniu finally couldn't help it, and asked, he thought of the big army he was thinking of!

Qin Yuan couldn't help but smile, this silly Li Erniu!

I don't know it is a military exercise yet!

He thought it was really a war!

"Yes!"

Qin Yuan smiled, he didn't want to explain more about the big army!

after all!

He, Qin Yuan, has to rely on this large-scale military exercise to become famous!

of course.

The main thing...

still system grid!

"Good Brother Yuan! I believe you!"

Li Erniu smiled honestly, and finally beamed with joy.

沙沙沙沙沙——

suddenly!

A faint, creepy creeping sound sounded!

"Ah! Snake! Rattlesnake! Brother Yuan!"

Li Erniu raised his eyes, and he saw a rattlesnake without knowing when it came over!

It swallows snake letters and swims quickly!

In the blink of an eye!

is in front of the two!

Body shape jumped!

Flying in the sky!

Rattlesnake took the initiative to attack Li Erniu!

"What a sturdy rattlesnake!"

Qin Yuan let out a cold snort, raised his hand, and saw a welcome that was approaching the extreme, and flew out!

brush--

Terrifying strength, an amazing cutting effect!

Playing cards are like magic weapons!

is like cutting vegetables!

directly cut 7 inches of the rattlesnake!

The back half of the rattlesnake is separated from the head!

crazily curled up and twisted on the ground!

However, the first half of its body is not slowing down!

It opened its blood basin with a terrible mouth, and it was about to bite Li Erniu's body!

嘭地!

at this time--

just heard the sound of a gunshot!

The head of the rattlesnake in flight was blown to the head!

嘭地!

was directly hit by an empty bullet!

fell into the dry grass next to it!

"Emma! I was so scared to death! I almost got bitten!"

Li Erniu's forehead was sweating, his face was sallow, he was really frightened!

and I was so scared!

"Isn't it Li Erniu? Are you so afraid of snakes?"

Qin Yuan smiled and asked Li Erniu.

Li Erniu shook his head with a helpless look. He wiped the sweat from his forehead, and said with lingering fear: "It's really not the same, Brother Yuan! I am not afraid of Li Erniu! The only thing I fear most is a snake. !"

"When I was a child, I was bitten by a poisonous snake once when I went to play in the mountains! Fortunately, at that time, I had a big life, and there was an old Chinese doctor in the village who was cured by accident!"

"However, although my injury is healed, it has always left a heavy shadow on snakes, especially poisonous snakes! Now let alone real snakes, they are objects similar to snakes. I am a little scared to see them."

Li Erniu said helplessly.

Qin Yuan couldn't help but smile.

I didn't expect Li Erniu to have this experience!

"As the saying goes, once you have been bitten by a snake, you are afraid of well ropes for ten years!" Qin Yuan said with a smile, "Li Erniu, you should be afraid of snakes! But as the old saying goes, it's just ten years! Don't worry If I have the opportunity, I will help you overcome this psychological barrier!"

"No no no, Brother Yuan, I dare not touch the snake! I'll talk about this question later!"

When Li Erniu heard the snake, he shook his head in shock.

Qin Yuan couldn't help crying or laughing.

A big man!

Not afraid of ghosts and gods!

is afraid of snakes!

This look...

really makes me want to laugh!

But shook his head for Li Erniu.

Qin Yuan didn't even think about it, just forget it!

after all.

If you want to be a powerful special soldier!

Any obvious weakness is not allowed!

"Ding Dong~ Now release a system mission to help Li Erniu overcome the problem of fear of snakes! If the mission is successful, unlock a new grid! Mission time limit: 60 days!"

The crisp system prompt sounded suddenly!

"Huh? The system actually released such a task? Not bad, not bad!"

Qin Yuan blinked his eyes and felt very useful for this system task!

Because even if the system does not release the task, Qin Yuan has already decided to help Li Erniu overcome the problem of fear of snakes!

Qin Yuan came to the side of the rattlesnake, and after a while, the back half of the rattlesnake stopped twisting!

As for his head?

is already **** and severely damaged!

"By the way! This rattlesnake, but a good thing! Can't be wasted!"

With a heart move, Qin Yuan immediately wanted to put the rattlesnake back into the system grid with one click!

But now...Li Erniu is still next to him!

After all, you can get its attributes with one click of the income item!

Humans have created the Sidewinder missile based on the abilities of the Sidewinder!

So Qin Yuan decided!

Take away the rattlesnakes!

can definitely get the ability to satisfy him!

But even though Li Erniu is beside him, Qin Yuan still has a way to keep the rattlesnake away quietly!

"Brother Yuan, you, , what are you doing? Why do you want to pick up the dead snake body?"

Li Erniu walked far away.

When he saw Qin Yuan picking up the corpse of a rattlesnake, he felt a tingling scalp!

Even because of the great fear, he even ignored Qin Yuan's terrifying poker skills and terrifying marksmanship!

Qin Yuan smiled and had already thought about the excuses, "Li Erniu, don't you know, this snake soup is a delicacy! We are going to war here, in the wilderness, it is not easy to encounter such a delicacy! Of course I Put it away!"

Qin Yuan smiled, and put the snake body and head in a plastic bag to recycle the grid behind him!

Then--

My heart moved!

Return the rattlesnake to the system space with one click!

"Ding Dong~ Please choose!"

at the same time!

crisp system prompt!

finally rang!

"1, get world-class thermal imaging capabilities!"

"2. Get world-class snake venom without invasion!"

"3, get a world-class snake soup!"

"Wori... really has thermal imaging capabilities?" Qin Yuan couldn't help but stare!

Actually.

He just thought about it!

did not expect.....

Such a power against the sky!

actually there is!

"I choose 1!"

almost without hesitation!

Qin Yuan immediately made a choice!

Because Qin Yuan is very Qing Qin, how awesome is this thermal imaging ability!

Because ordinary firearms can easily spot the enemy as long as they are equipped with thermal imaging infrared cameras!

"Ding Dong~ Congratulations to the host for your successful selection! Get world-class thermal imaging capabilities!"
