

Special Soldier 25

Chapter 25: The savvy wolf squad?

"World-class thermal imaging: the host can sense all thermal radiation within a radius of 1,000 meters, and automatically transform it into a clear image!"

"Fuck! This is too powerful, right? Not only can it sense heat radiation! Can it also be transformed into a clear image?"

Qin Yuan blinked his eyes, the description of the system was shocked to the extreme!

closed his eyes slightly.

an instant!

Qin Yuan opens a world-class thermal imaging system!

suddenly!

Everything within a radius of 1,000 meters!

are all shown in front of Qin Yuan!

As long as there is a temperature, there is a heat radiating object!

Quiet jungle, beetles crawling in the grass, stray cats, owls on the trees...

and Li Erniu, who is closest to Qin Yuan and the biggest heat source!

Qin Yuan felt it carefully, and was completely shocked by this ability to smash the sky!

"The distance is accurate and the image is clear! And... it has a full radius of one thousand meters! This is too powerful! In other words, from now on, enemies within a radius of 1,000 meters will have nowhere to escape. Shaped?"

Qin Yuan smiled and couldn't help smiling brightly!

"Li Erniu, go! Let's continue on our way!"

Qin Yuan smiled lightly and looked at Li Erniu.

nowadays.

Qin Yuan's physical stamina can lift more than 20,000 catties!

Killing has a poker stunt!

has perfect marksmanship that can hit every shot!

Together with the world-class thermal imaging capability that can predict the ambush in advance!

Qin Yuan now...

can already be called a man like a god!

Qin Yuan is energetic, majestic, and full of spirit!

"Okay Brother Yuan! Let's go! If you don't go, I'm afraid I won't be able to catch up with the big army!"

Li Erniu was overjoyed when he heard that, he was also infected by Qin Yuan's spirit!

suddenly.

Qin Yuan has an idea!

I thought of the task released by the system just now!

The system doesn't mean...

Do you want to eliminate the wolf team by yourself?

"Why, go to the place just now?"

Just do it!

Qin Yuan took Li Erniu back the same way!

at the same time!

My heart moved!

opened a powerful thermal imaging capability!

an instant!

Everything within a radius of 1,000 meters!

Panoramic view!

The system capability automatically converts the received heat radiation into high-definition images, which are presented in Qin Yuan's mind!

is like seeing half of it with my own eyes!

Do not!

Strictly speaking!

This is even more terrifying than seeing with your own eyes!

after all.

The sight line that the eyes can see will be obscured by objects!

and there are distance restrictions too!

but now.....

Qin Yuan's thermal imaging capabilities!

is able to receive all thermal radiation images within a radius of 1,000 meters!

Invisible to the naked eye!

Thermal imaging can be directly presented!

This is much stronger than the naked eye!

"Tsk tsk, really tough!"

Qin Yuan couldn't help but sigh in his heart.

"Brother Yuan, why are we back?"

Li Erniu walked for a while, only to find that they seemed to be returning in the same way.

"The trail is too difficult to walk, let's take the big road!"

has thermal imaging capabilities!

Qin Yuan is not afraid now!

I'm afraid I won't meet the enemy!

"Huh? Isn't it dangerous to take the road? There are only two of us."

Li Erniu is puzzled!

He remembered that Qin Yuan said just now that this road seems to have someone!

Isn't it going to die if you walk the road now?

"Danger?" Qin Yuan smiled, "Don't worry, with me, everything is not a problem!"

didn't take a few steps!

As expected!

Qin Yuan's thermal imaging system!

found a place where he thought he had been passive, more than 100 meters in front, there was a group of 7 people lurking patiently!

Qin Yuan took a closer look!

As expected!

is his goal, member of the wolf team!

"Good fellow! It turned out that there was a deliberate flaw in that place that attracted people to the bait?"

There is a thermal imaging system!

Qin Yuan was surprised to find out!

Originally, he saw the problem at a glance!

There is no one at all!

is exactly the flaw and trap made by the people of the wild wolf team deliberately!

And the real body of the wolf squad!

is more than 100 meters in front of the trap!

"That's right! The wolf squad is a special team! Their camouflage ability must be terrifying! The clothes are seamless! How can they be found casually?"

Qin Yuan thought about it.

instantly broke the mind of the wolf team!

at the same time.

Qin Yuan also had a hint of awe for the real special forces!

It seems that they still have a lot to learn by themselves!

"Only this time...Wild Wolf Squad! Humph, you are unfortunate, you met me!"

Qin Yuan smiled and observed the terrain!

immediately developed a strategy!

He took Li Erniu and started to change course!

it took more than half an hour!

From a distance, went around behind the wolf team, less than 100 meters away!

"Brother Yuan, why did you bring me here? Why don't we look for a large army?"

Li Erniu asked suspiciously.

Qin Yuan couldn't help but smile, this Li Erniu...

Haven't forgotten about the big army!

"Bring you here, of course there is something to do!"

Qin Yuan didn't reveal too much directly!

"Li Erniu, how is your marksmanship? During training, how many loops can be hit by 10 bullets?"

Qin Yuan asked deliberately.

"Brother Yuan, my weakest link is marksmanship," Li Er, when you hear it, touches his head, and honestly said: "When I first joined the company, I could only score more than 60 points! Although this paragraph Time, I go to the training ground to train every week, but I can only get a little more than 80 points. My marksmanship is too bad, otherwise, I will be assigned to the cooking class."

Qin Yuan nodded upon hearing this.

Looks like Li Erniu's marksmanship.

is really not good!

But...

Shooting at such close range!

is enough!

Qin Yuan always turns on the thermal imaging system!

The spirit of the whole person is actually in a high degree of tension!

But Qin Yuan's physical ability is terrifying!

can still bear it!

"Huh? A team is coming?"

Qin Yuan led Li Erniu to continue walking slowly, avoiding all dead ends, so as not to be discovered by the wild wolf team!

But this time--

Qin Yuan's thermal imaging ability, but found the main road behind, a vertical convoy and a fully armed guard squad came!

"Good guy! This is... Kang Lei's caravan? It looks like there is something to watch!"

Qin Yuan smiled, and Li Erniu couldn't help but speed up!

Under the leadership of Qin Yuan, he has world-class thermal imaging capabilities to monitor!

The members of the Wild Wolf team didn't even notice the detour of the two!

ahead.

The position of the wild wolf team!

"Boss, something is happening!"

Everyone's communicator finally heard a voice!

"I said, there must be big gains here, right? Haha, now the goal is finally here!"

Wild Wolf team leader Wang Qiang laughed excitedly.

Victory is ahead!

As long as the head of the enemy army is decapitated, that is, the commander of Kang Lei, the Red Army will have no leader. This military exercise, which has been prepared for a long time, will be declared over at the beginning!

"The captain is really wise! If we expose ourselves for those two stunners at first, it is really not worth it! Now the leader of the Red Army is the big fish!"

Another member also said with a smile.

Actually.

When Qin Yuan found that something was wrong!

The snipers of the Wild Wolf Squad had already discovered the existence of Qin Yuan!

Only then...

They did not kill Qin Yuan, thus exposing their goal!

after all.....

Small shrimp like Qin Yuan, killing one or two is of little significance to their wild wolf team!

The meaning of special forces!

is to perform special tasks!

For example, killing enemy leaders, destroying important enemy facilities, etc...

In their eyes, ordinary soldiers are simply dispensable.

Because no matter whether it is killed or not, it will not cause much impact!
