

Special Soldier 281

Chapter 281: Old black!

"What you mean is that this is just the beginning. As long as this technology is available, technologies that have never been imagined before, such as unmanned driving and unmanned aircraft, can be realized on a large scale!"

He Chenguang, who was on the side at this moment, reacted, his eyes widened, and said excitedly.

"Hey, yes, we are witnessing history!"

Qin Yuan smiled, everyone understood the situation, and they were all excited.

"In order to celebrate this news, I will get you something good. Would you like to have a barbecue? I can make something delicious for you today!"

Hearing this, everyone's eyes are completely brightened. If this new generation of technology still needs time to reach them, it is delicious, but it will be in front of them immediately!

After all, Qin Yuan's barbecue technique is definitely the best in the world, but Qin Yuan would not easily make it!

It's just that Qin Yuan didn't notice when he was happy. Below these pieces of news, there is another, that is, a major murder occurred in the district country. It's a pity that this news is reflected in the previous news. Down, overshadowed!

Several people Qin Yuan rushed out of the room enthusiastically, planning to find a place to have a good meal, but at this moment, Qin Yuan saw a troop-carrying car with a few wearing navy blue. Soldiers in clothes!

"Huh? Is there a navy in our military district?"

At this time, He Chenguang asked a little curiously, but after a closer look, Xu Tianlong, who was standing on the side, said:

"Probably not, these people seem to be from the Marine Corps."

At this time, Qin Yuan heard the words of a few people and looked at the car, but he felt that the people in the car seemed a little familiar!

And at this moment, He Chenguang saw a familiar face, and suddenly screamed:

"Old black squad leader?"

Hearing this sound at this time, the person sitting in the car was also shaken, and then quickly stopped the car and walked off by himself, and Qin Yuan found that this person was the old sharpshooter Silian. Squad leader old black!

"Oh, you guys are here! Let me see. I haven't seen you in the past few months. Are you slacking off?"

At this time, Old Hei looked at his soldiers, his eyes were full of joy. After all, these were the equivalent of his own apprentices, watching them turn from rookies to soldiers who can truly stand alone. There is a sense of sincere pride.

Seeing Lao Hei, He Chenguang and the others also looked happy. After all, the old squad leader of the recruit company felt the most kind, and all of them wanted to show their best side, indicating that they were not mixing up. Eat!

At this time, Lao Hei also clearly saw that these rookies had already taken on a special temperament. This was a temperament that only blood and fire could honed. It proved that the rookies in front of them had already Become a big eagle!

"Haha, not bad, all of them are very energetic. It is no longer appropriate to call you rookies!"

"Hey, Lao Hei, we have already become special combatants of the Red Cell Squad. Come, let me introduce to you. These two are our RBC teammates, Song Kaifei and Xu Tianlong. This is the squad leader of our sharpshooter fourth company, Lao Hei! "

At this time, Wang Yanbing introduced to both sides, and E Song Kaifei and Xu Tianlong also respected Lao Hei with a military salute. After all, no matter what kind of officer they were, they all bowed their heads in front of this kind of senior sergeant chief. !

Lao Hei was also serious in replying. At this time, Qin Yuan looked at Lao Hei and said with a smile:

"Old Hei, you're not staying with the sharpshooter. Why did you come here? Are you here to see us?"

However, Lao Hei gave Qin Yuan an angry look:

"I don't have that leisurely mind. Besides, your name is like a thunderbolt. I have heard enough, especially your boy. The rank is raised so fast. Maybe our company commander will give it to you when we see you. Salute!"

When Qin Yuan heard this, he also smiled:

"Hey, you are here early. If you are here a few months late, maybe the group leader will salute you when he sees me! My little soldier from the Iron Fist regiment, hasn't you been embarrassed? ?"

But at this time, the old black heard this, although he was happy for Qin Yuan, he sighed a little melancholy.

Qin Yuan noticed this immediately. He glanced at the clothes on Lao Hei and asked softly:

"Old Hei, isn't the Iron Fist regiment an infantry regiment? Why are you wearing navy clothes?"

"Hey, don't mention it. It hasn't been long since you left. Our group of people have belonged to the Marine Corps of the Navy, and our Iron Fist team has been cancelled!"

what?

Upon hearing this, He Chenguang, Li Erniu and others showed a trace of sadness on their faces.

Qin Yuan also sighed. After all, the Iron Fist Group was the first recruit in his career in the barracks. Although the Iron Fist Group is no longer there, the spirit of the Iron Fist Group will always live in their hearts!

"Well, be happy, this is also a good thing. After all, there are too many army in our country. Most of the future wars will take place at sea. It is estimated that when you get to the sea, you will have a lot more opportunities to perform meritorious service. After the merger, Chief Kang may be promoted!"

Hearing what Qin Yuan said, Lao Hei also let go of this burden, and smiled directly at Qin Yuan and nodded:

"Yes, now all of our military ranks have been promoted by half a rank, and Captain Kang has now been promoted to the deputy brigade, but he has not yet determined where he will work. Also, you are right, since being transferred to the navy. After that, we have a lot of practical opportunities. For example, we just want to go to the South China Sea. There is a group of pirates rampant, and we need to ***** merchant ships."

Hearing this, Qin Yuan also nodded. In his impression, there were indeed a lot of pirates over there. When Qin Yuan went to the Philippines before, he also encountered one, especially now in Yan Country. The ocean transportation industry is extremely developed, and naturally a large number of pirates who specialize in looting have spawned.

The term pirate is just a joke in the eyes of ordinary people, but for them, the real soldiers, these people are a group of demons who kill people without blinking! It is the existence that must be cleared!

What's more, there are still some countries looking at Yan Nation. The navy is naturally the top priority. If there is a war in the future, the navy must be in the first strategy. This is also the reason why the country has merged a large number of armies into the navy!

The peace of the country and the safety of the routes are indispensable for soldiers like Lao Hei.

Chapter 282: It will die!

At this time, Lao Hei also showed a smile when he looked at Qin Yuan:

"Okay, well in the future. We are now often cooperating with the Army Special Forces. We may be able to cooperate someday. I haven't sacrificed heroically yet, and it's not impossible to see it!"

But when Lao Hei said this, He Chenguang, Li Erniu and the others still had some uncomfortable feelings, and their expressions also dimmed.

Seeing the appearance of these guys, Lao Hei's face suddenly sank, and he roared in a deep voice:

"He Chenguang, Wang Yanbing, Li Erniu, Qin Yuan, do you still have an iron fist in your heart?"

"Have!"

"Very well, since the spirit of the iron fist group lives in your hearts, then the iron fist group will never be disbanded. Instead, because of your spread, it will become a better spirit, and you must be good in the future. Don't let others look down on our iron fist Soldiers from the regiment!"

At this time, the old black roared, and Wang Yanbing and the others, when they heard this, they all agreed loudly!

Seeing this situation, Lao Hei also said with some feeling:

"You are the best soldiers under me. Although all of you are thorns, it is not easy to manage, but now seeing you all become pillars of the army, I am really very excited, and I will do my best in the future. Yeah!"

When Qin Yuan heard this at this time, he also wanted to comfort Lao Hei, but Lao He said directly to them:

"Okay, I won't say any more. I have to take the team to training. Let's go!"

After saying this, Lao Hei directly got on the troop carrier, and soon the troop carrier started directly and headed away.

And Qin Yuan and the others looked at the car that Lao Hei was going away, whether it was Song Kaifei or Xu Tianlong, they all followed and paid a military salute!

After all, this is a man who has dedicated his entire life to the army and deserves the respect of all of them!

At this moment, seeing the back of Lao Hei away, Li Erniu said with some worry:

"It doesn't look like the old black squad leader is joking, is it going to be a war?"

Qin Yuan shook his head, and replied to Li Erniu:

"It shouldn't be that the old black squad leader is only dealing with pirates. If there is a real war, it will not be so easy."

At this time Qin Yuan thought for a while, and then said to the team members around him:

"It is estimated that our sea training also needs to be strengthened, and we may not know which day we really need to go!"

Hearing this, Song Kaifei was suddenly speechless:

"Please! I'm a plane driver, so I won't let me go into the sea to drive a submarine?"

"It depends on the need. When the time comes, let alone drive the submarine, if you let you drive the aircraft carrier directly, you have to drive it too!"

Qin Yuan smiled happily, and then a group of people continued toward the cafeteria.

After that, Qin Yuan led everyone to eat Hesai for a while before returning to the dormitory.

The next day, Qin Yuan went to Fan Tianlei's office again. Now the merits of Qin Yuan and others have been calculated. This time they won a collective first-class merit and an individual second-class merit, but this time they will not be fancied. They were awarded medals.

However, Qin Yuan didn't care about this. After all, since he wants to become a special forces person, he needs to have this kind of psychological construction, so he directly asked Fan Tianlei:

"Okay, this matter is over, but you said before that you want us to go to the Phoenix? Have you decided?"

"It's decided. Now that Comrade Anran has gone to perform the task, and your red blood cell team needs to be repaired, let's leave this task to you. Also, the Fire Phoenix team is an experimental squad used in urban combat. You won't encounter the same encounters as you did in the Philippines, so, can you show some mercy?"

At this time, Fan Tianlei carefully said to Qin Yuan, but after hearing this, Qin Yuan looked at Fan Tianlei with a strange expression:

"Hey, if they are not important? Why do you want me to train them?"

"Um, they are not unimportant, but their ability to withstand, may not be as good as ordinary soldiers, after all, these girls, I am afraid that they have not received serious training before, if your requirements are too high, I am afraid that there is no People can pass your training!"

At this time, Fan Tianlei said righteously, but when he heard this, Qin Yuan felt a little calculated. He always felt that the Fan Dahuyou in front of him was fooling people.

However, Qin Yuan still knows the fire phoenix, so he does not reject training these people, so Qin Yuan still calmly said to Fan Tianlei:

"Alright, although I always think you still have something to tell me, I am a soldier and need to obey the orders of my superiors. If you don't tell me, then I won't ask more, but since you want to I train the people of Fire Phoenix, and I will train them to the best, so I have a request."

At this time, Fan Tianlei saw that Qin Yuan's fool was finally passed, he almost missed his mouth, so he was very thankful, and said to Qin Yuan with a sigh of relief:

"What are your requirements? I will try my best to agree!"

And Qin Yuan thought for a moment, and then directly said to Fan Tianlei:

"Since you let me be Fire Phoenix's trainer, I will be in charge of all the training subjects and requirements of Fire Phoenix during this time!"

"Well, I can agree with that."

At this time, Fan Tianlei had agreed without any hesitation. After all, this was also Qin Yuan's classic request. It was like this when training red blood cells before. Now training Fire Phoenix is naturally the same.

"Well, since you agree, then I ask you how many death indicators?"

"What?"

When Qin Yuan had arrived at this time, Fan Tianlei's eyes suddenly widened!

Death index?

Although it is said that every training has this thing, , but few people use it, and no one cares about it, but Qin Yuan asked such a thing?

"What do you want to do to them? They are not the ones with your red blood cells, you have to relax a little!"

At this time Qin Yuan saw Fan Tianlei's appearance, but said helplessly:

"I just want to ask, it doesn't have to be useful, just tell me how many."

"One! At most one!"

Fan Tianlei stretched out a finger, but Qin Yuan shook his head with dissatisfaction when he saw the number, but there was no other way, so he had to agree:

"One is really a bit small, but one is fine. I'll distribute the documents later."

In fact, Qin Yuan didn't want to use this indicator, but wanted to remind those female soldiers.

Training this time will be deadly!

Chapter 283: New captain!

Fan Tianlei signed the document to Qin Yuan with a bit of a headache. Seeing Qin Yuan's relaxed face and about to whistle, he really felt that this was not a good move.

To be honest, he has read the information of the Phoenix and understands the identity of the people in it. If there is any accident, he may not be able to bear it.

"Hey, I can only hope that Qin Yuan can be merciful!"

...

"Huh? Let's train a group of women?"

At this time, the people of the Red Blood Cell Team got the news and completely exploded!

"My mother-in-law, aren't the female comrades in the army all working in the civilian work troupe, hospital, etc. Why is there a female special unit?"

"That's right, woman, don't you just have to have a baby honestly? What kind of special soldier? My brain, buzzing!"

"Isn't this a mess?"

But at this time Song Kaifei had his eyes gleaming, and he said with a smile:

"Oh, Captain, have you seen those female soldiers? I just heard that there is a Fire Phoenix squad, but I have never seen it. Are the female soldiers in there beautiful?"

At this time Qin Yuan heard Song Kaifei's words, raised his eyebrows slightly, and said directly:

"I am not opposed to free love, but if you dare to hook up with female players during training, then I am afraid that Yan Guo will have one more ***** at the end."

At this time, when Song Kaifei heard this, he immediately struck a spirit. He knew what Qin Yuan was capable of. If Qin Yuan really wanted to fix him, he didn't need to do it himself. If he stumbled, he could not eat. Go around!

"Hey Captain, I'm just kidding, don't take it seriously!"

Seeing Song Kaifei's appearance, Qin Yuan turned his gaze away from him and said directly to the players in front of him:

"This time I will train the people of the Red Fire Phoenix, and this time not only for their training, but also for your training, to train your ability to teach others.

Don't forget, our red blood cell team is known as a cancer cell, and it can take root when it hits the ground. Everyone can extend a new individual, so you have to be serious! "

Hearing such words at this time, the people in the red blood cell team immediately understood that Qin Yuan was probably going to come for real this time, and he became serious.

"Captain, but those are all women, can we really start?"

"What should I do? I have a death indicator in my hand. With this thing, I can do a lot of things."

Qin Yuan put the document directly on the table, and when he saw this, the face of the red blood cell suddenly showed a smile.

I can only say that the people of Fire Phoenix are going to be miserable.

...

At this time in the Phoenix Training Base, a group of girls are waiting here.

This group of Yingying and Yanyan stood in the square team, but they couldn't stop talking.

"Hey, our former captain An Ran and deputy captain Anfisa are gone. This time a new captain is coming. Do you know who it is?"

"How do I know, but we haven't been in charge for several days, and we can't finish the training. Maybe we have been given up?"

"Wow, the new trainer, isn't he the same devil as Captain Enron!"

At this moment, Ye Cunxin frowned while listening to the people around him. Captain Anran had already arranged a training plan for them when he left, but because there was no supervision, few people continue to train now!

Even if they hadn't received the news, someone would immediately take over them. It is estimated that these people have already returned to their original places.

"Hey, Ye Cunxin, do you know who it is?"

At this time, Shen Lanni, who was standing on the side, asked Ye Cunxin.

"how could I know?"

Ye Cunxin said angrily. She has lost confidence in the people coming. After all, she has obtained Qin Yuan's consent. If she has the opportunity, she will ask Qin Yuan. Ye Cunxin

knows how powerful Qin Yuan is. , Although he was dissatisfied at the beginning, but watching Qin Yuan slaughter the wolf empty-handed and rescued himself, and he was still a combat hero, Ye Cunxin had already admired Qin Yuan very much.

That's it for the training here. You can only wait and see. Ye Cun wondered if he could ask Qin Yuan to accept it directly. If he could train with those male soldiers and become a male special force. A member of, that is really powerful, much better than these people!

At this time, Tan Xiaolin, who was standing on the side, glanced at the time, and then said to the people below: "Quiet! The new captain is coming soon, do you plan to let the new captain watch your jokes?"

After hearing Tan Xiaolin's words, these female soldiers were first stagnated, and really stopped talking, but unfortunately they started whispering again soon.

Tan Xiaolin was so angry that she was going to die, but she was helpless!

This is no wonder Tan Xiaolin, after all, with Tan Xiaolin's means, he can only take care of the good children, but who is willing to come to the Phoenix for selection, which one is the good baby? After all, coming to Fire Phoenix is voluntary. If you don't have a strong motivation and self-awareness, how can you come to join Fire Phoenix?

And at this moment, the group of Yingying Yanyan suddenly heard a roar from a distance, all moving in the direction of the sound.

I saw an armed helicopter flying over from the air, the spiral would whizzing incessantly, and finally stayed above the training ground, causing a hurricane, and the blowing people couldn't open their eyes.

At this time, Tan Xiaolin, who was standing on it, frowned and looked at this armed helicopter, with a little dissatisfaction in her heart. What is this doing? Is it to give them offense?

But at this moment now they stopped steadily, and a rope suddenly dropped from above.

"All downhill!"

With this voice, the group of little girls below saw the helicopter from above, sliding down five heavily armed soldiers!

The small subject of zipline is nothing for people with red blood cells at all, but for these little girls who have never seen the world, they still feel very handsome!

At this time, the members of the red blood cells quickly landed from the air one by one, and the landing action was extremely simple and neat, and the eyes of the people looking at it were brilliant.

At this time, someone was finally whispering:

"Wow, what kind of soldiers are these? They look so handsome, right?"

"That's right, look at the action they jumped down, they seem to be more handsome than the Army Aviation Department I was with before!"

"And you think those little brothers are so handsome, do you think they have girlfriends, do we have a chance?"

Chapter 284: The mission of a soldier

But at this time, Ye Cunxin looked at these people above, but his eyes widened. The others didn't know her, but she knew that this was the red blood cell team led by Qin Yuan!

"Damn, he won't be here!"

At this time, Ye Cunxin was also extremely excited, and Shen Lanni, who was standing next to Ye Cunxin, asked a little curiously when she heard what Ye Cunxin said:

"Do you know who it is?"

"You'll know in a while, and you know this person too!"

Hearing Ye Cunxin's answer at this time, Shen Lanni's face was also a bit puzzled. She carefully thought about who would have done such a thing, but soon she didn't have to think about it because she was in the helicopter. I saw a figure above!

"Hey? Isn't this the doctor who treats us with dysmenorrhea? What is the name? Qin Yuan is it? Why is he here? Hey, I just feel that there is something wrong with my body! Hurry up and get him well. Check it out!"

At this time, Shen Lanni saw Qin Yuan, with a hint of surprise in her eyes. After all, Qin Yuan had already been to Fire Phoenix when he was here in An Ran. These people still remember Qin Yuan's magical medical skills!

Qin Yuan stood at the door of the helicopter, looked at the training ground below, and then gently jumped down.

But Qin Yuan didn't grab the rope like other red blood cell players, but rushed straight down like a bird!

Everyone was taken aback at this moment. The height of the helicopter distance must be more than ten meters, which is equivalent to four or five storeys high. If it falls directly, even if the physical fitness is good, you have to fall. Broken leg!

Bang!

With a loud noise, Qin Yuan stood firmly on the main podium in front! Raised a puff of dust!

At this time, Tan Xiaolin looked at Qin Yuan with shock, and she dared to jump straight down from such a high altitude. What surprised Tan Xiaolin even more was that the person in front of him seemed to have no injuries!

At this time, the people in the audience were all looking at the high platform in astonishment. Although they knew that Qin Yuan was more important, they didn't expect that Qin Yuan would jump off directly.

After all, some of these people have never even boarded a helicopter, never studied parachuting, let alone doing things like Qin Yuan!

Qin Yuan had a smile at the corner of his mouth at this time, and he was very satisfied when he looked at the expressions of these people.

As the saying goes, there are three fires for new officials. Since they want to train these people well, then Qin Yuan naturally wants to establish prestige in the hearts of these people!

So Qin Yuan wanted to give these people a slap in the face, but looking at this situation, it seemed to be a bit too much.

At this time, the people in the audience looked at Qin Yuan in shock, with a dumbfounded expression, it was obvious that they had not yet come out of the shock just now!

This is not 3 meters 5 meters, this is a full ten meters high, without any protective measures, just jumped straight down!

And when Qin Yuan landed just now, he didn't even roll over and absorb the shock. Instead, he leaned on a pair of fleshy legs and stood still after a little trembling. People who know how to fight see this situation and understand how powerful this is. physical fitness!

At this time, Qin Yuan looked at the people below, with a chuckle at the corner of his mouth, and then directly said to them,:

"It's nice to meet you. Let me introduce myself first. I'm Qin Yuan, the captain of the Red Blood Cell Squad of the Spike Special Forces Brigade. I believe some of you have already met me and I will tell you an unfortunate news. Starting today, I Become the trainer of your Fire Phoenix team!"

At this time, hearing Qin Yuan's words, the audience was silent, as if everyone had not yet emerged from the shock just now.

However, Tan Xiaolin was standing next to Qin Yuan after all, and she was also well-informed. Hearing Qin Yuan's words, she came out of shock first, and then applauded first.

Seeing Tan Xiaolin applauding, these people in the audience also woke up like a dream, all applauded together!

At this time, Tan Xiaolin looked at Qin Yuan, felt the strong male aura on Qin Yuan, and said to Qin Yuan with a smile at the corner of her mouth:

"Hello, I am the commander of the Fire Phoenix Team. I have a master's degree in psychology in the United States and a PhD in psychology at the National Defense University. I will also be responsible for the psychological work of these people!"

To be honest, Tan Xiaolin's first impression of Qin Yuan was pretty good. She was just transferred here after An Ran left. She had never seen Qin Yuan before.

Although Tan Xiaolin didn't understand Qin Yuan's appearance today, she could feel that Qin Yuan was a powerful man. There was such a man to train them Fire Phoenix, which proved that the superiors treated them. Fire Phoenix is serious.

And Qin Yuan also smiled and shook hands with Tan Xiaolin, but there was a hint of playfulness on his face, and said to Tan Xiaolin:

"Hello, this is Qin Yuan, but it is probably the time when you have the best impression of me."

Yep?

Hearing this, Tan Xiaolin was immediately puzzled.

Qin Yuan did not explain at this time, but went straight to the side, took out a folder from his backpack, looked at these people in front of him, and said lightly:

"I believe some people remember that I was here when you Captain Enron was there. There were 85 people here, but now there are just 40. To be honest, I am very dissatisfied with Captain Enron. It's been so long, and only half of the people have been eliminated!"

Hearing Qin Yuan's words, the eyes of those below all changed, and they began to frown slightly.

The corner of Qin Yuan's mouth looked at these people with a smile:

"I understand. Since you can come to participate in the Fire Phoenix assessment, you must have two brushes in your hands. You may have excellent military literacy in the original army, or you have a tough will. I have seen all of these honors.

At this moment Qin Yuan directly took out these documents, and then these people in front of him raised a bit, but at this point, Qin Yuan's eyes were cold, and he said to everyone:

"However, it is a pity that no matter how many honors I have before, I still start from scratch."

After all, Qin Yuan directly threw all the materials in his hand into the trash can on the side!

Seeing Qin Yuan's actions, the people in the audience suddenly exclaimed, this is their honor information, if they want to re-process it, it will be very troublesome.

Qin Yuan also sneered when he heard these people exclaiming, and said directly to these people:

"Why? Are you reluctant? But unfortunately, as a soldier, you did not question my rights. The mission of a soldier is to obey orders from higher authorities. I will not explain to you the reason for my order."

Chapter 285: Terrifying strength

At this time, Qin Yuan looked at the eyes of the following people, sneered, and continued:

"But your luck is better. I am a more democratic person, so I can give you a chance. If any of you is dissatisfied, you can challenge me or the trainers under me at will, as long as you. If you have any military skill that can surpass them, you can directly obtain the title of an official member of the Fire Phoenix. You don't need to accept my restraint and training for you. I don't know if any of you are willing to try it?"

Qin Yuan was smiling at this moment, and the people in the red blood cell team also laughed. After all, they had seen this trick. Fan Tianlei used this trick when he chose the red blood cell team members before, but it was Qin Yuan who was regarded as the sharpening stone at the time!

Only after hearing such words, the people in the audience were a little eager. After all, Qin Yuan only said that if he won, he would be awarded the title of an official member of the Phoenix Team, but he did not say what punishment would be imposed if he lost.

This is a good opportunity, naturally someone is willing to try it.

At this time, Shen Lanni stood up directly and said to Qin Yuan:

"I want to try it."

Qin Yuan looked at Shen Lanni at this time, and also showed a hint of approval. Shen Lanni had the courage to challenge them, which was already approved by Qin Yuan.

Of course, Qin Yuan just agreed with this kind of courage. For other things, it depends on Shen Lanni herself.

"Okay, I remember your name is Shen Lanni, right? Well, you can pick whatever you want and see who you want to use as your opponent."

Although Shen Lanni knew Qin Yuan, she had never seen Qin Yuan make a move, that is, she was a little shocked when she saw Qin Yuan'er jump off the plane just now, but Qin Yuan is powerful, but it doesn't mean that other people under him followed Qin. Yuan is just as powerful.

Shen Lanni felt that she might not be able to beat Qin Yuan, but it shouldn't be a problem to beat those players under Qin Yuan.

At this time, Shen Lanni turned around on the face of the red blood cell team, and finally directly selected Li Erniu standing on the side:

"I will choose you!"

"Ah? I, I can't, no, I'm not a master, you choose me, don't you specialize in picking soft persimmons?"

At this time, Li Erniu was also a little panicked, after all, he had never shot a woman before.

At this time, He Chenguang who was standing on the side, Wang Yanbing also laughed, and said directly to Li Erniu:

"Okay, Brother Niu, people have already teased you, why are you still humble? Go up!"

At this time, Li Erniu touched his head, and reluctantly took off his equipment, then walked to Shen Lanni and asked Shen Lanni:

"What are you going to compare with me?"

Shen Lanni glanced at Li Erniu's appearance at this time, and she saw that she was a simple and honest rural baby, and she was even more sure that this guy in front of her was definitely the weakest of Qin Yuan's team.

Although it's a bit unnatural to do so, it's also a quality that a special soldier should have. At this time, Shen Lanni looked at Li Erniu with a trace of pride in her eyes:

"Don't say I bully you, say in advance, I am the runner-up of the Asian Taekwondo Championships, my strength is very strong, don't think you are a male soldier, I don't need much strength to fight you at all, so you still know a little bit, hurry up Surrender!"

Upon hearing this, Li Erniu breathed a sigh of relief:

"I thought you were better than anything. It turned out to be better than fighting, so come on."

Hearing this, Shen Lanni's face suddenly changed. She has already said this. Isn't Li Erniu still conscious of it?

"Hmph, good, then I can only teach you a lesson!"

At this time everyone is also staring at Shen Lanni. After all, they have been together for so long. It is also very clear that Shen Lanni is considered the strongest master among them. In the past, only Captain An Ran could suppress her, an ordinary male soldier. , Really won't be Shen Lanni's opponent!

"Start!"

With an order, Shen Lanni and Li Erniu immediately entered a fighting state!

At this time, Shen Lanni was full of confidence, staring at Li Erniu, intending to look for Li Erniu's flaws. He could hear that Li Erniu must be a soldier from the countryside, and he must not have practiced any professional fighting. Skill, at most, is to learn from the military. If it is just a pure military boxing, you will never beat yourself.

But before Shen Lanni had time to see Li Erniu's movements clearly, she saw that Li Erniu was like a different person, with murderous in her eyes, and she rushed towards herself, like a real one. Bully!

Moreover, Shen Lanni felt the indomitable murderous aura on Li Erniu, and her whole body was trembling in fright, and she felt that her heart was caught by a big hand.

Standing in front of him was not a person at all, but a demon from hell!

When Shen Lanni looked at Li Erniu, she couldn't even remember to fight back. At this moment, Qin Yuan who was standing on the side said directly:

"stop!"

But at this time, Li Erniu stopped directly, then resumed his original appearance, and smiled at Shen Lanni, looking harmless to humans and animals.

But Shen Lanni looked at Li Erniu with an ugly face. Although Li Erniu didn't really do anything, Shen Lanni understood that even if it was a real fight just now, she would not be Li Erniu's opponent.

"Shen Lanni, do you want to continue?"

At this moment, Qin Yuan looked at Shen Lanni and immediately understood what Shen Lanni was thinking.

"No need I know I have lost, but I can't believe it, why is there such a big gap between me and you?"

At this time, Shen Lanni frowned and asked, and when she heard this, Qin Yuan just smiled and said to everyone:

"The difference is not that big, but you haven't seen blood."

"Don't worry, my strength is the worst in the team. If you train well, you can definitely surpass me."

At this time, Li Erniu laughed hehe, but Qin Yuan shook his head. If he could surpass Li Erniu so easily, then the real special forces would not have to be born or die.

At this time, Shen Lanni's face was even more ugly after hearing it. Li Erniu was the worst one in the team, but in the end she didn't even have the courage to shoot. Wouldn't it be worse if she met other people? ?

Shen Lanni calmly asked Li Erniu:

"Then who is the strongest person in your team? Can you let him come out and fight me, although I lose, I must at least understand how big the gap is!"

Chapter 286: Dissatisfied?

Li Erniu heard this, but he was a little helpless, then he glanced at Qin Yuan and explained to Shen Lanni:

"I think you still don't want to fight with Captain My. A skill like me can't even support three moves in Captain's hands. If you want to feed, there's a guy who specializes in ancient martial arts. It's called Longlong, and the fights are more powerful!"

Li Erniu directly took Xu Tianlong out of the post, and Xu Tianlong heard this, but he patted his forehead somewhat helplessly. When he saw the appearance of Shen Lanni, he knew that this was a very persistent person. , Just like the self before.

Guwu master?

At this moment, Shen Lanni frowned when she heard Xu Tianlong was actually practicing ancient martial arts.

"Can those things enter the troops too?"

In Shen Lanni's view, the so-called ancient martial arts are like those fake masters who practiced Tai Chi and gossip before, and they can't even beat a little hooligan. What's the point of practicing this technique? It is better to follow the scientific method and practice some other grappling techniques.

But what Shen Lanni didn't know was that Gu Wu was not as magical as she thought, but it was not that bad either.

After all, Guwu is just a technique, and it can't completely reinvent others, whether they can practice well, it depends on whether this person works hard, not that once he gets stuck with Guwu, this person will be invincible.

Moreover, as the so-called real people do not show their faces, real masters are unwilling to come out and show their faces, while those fake masters are hype, which is naturally seen by ordinary passers-by that Guwu's atmosphere is not good.

So at this time, Shen Lanni directly asked Xu Tianlong:

"Since you are a real Guwu master, then I will ask you, can Guwu fight?"

Hearing this, the people below are also very interested. After all, they are also soldiers and have a natural fondness for fighting. At the beginning, they also felt that Gu Wu was very mysterious and terrifying.

However, since the video of the so-called Guwu masters fighting against boxing and Sanda broke out in the recent period, they were thrown over by a punch, so how much they loved before, now they are so disgusted.

And hearing such words, Xu Tianlong also smiled slightly and said directly to Shen Lanni:

"Isn't it a fool of you to ask this? This is not the case. You can see how many people make poems now that they can reach the level of Du Fu and Li Bai. Can you say that Du Fu and Li Bai's poems are all faked? of?"

Those fake masters who are not good at learning skills go astray and teach others to a dead end, but you can't just knock all the people on the ship with one shot? "

Upon hearing this, Shen Lanni's brows suddenly frowned, and the people in the audience were also talking about it, as if Xu Tianlong said something reasonable.

Guwu really left a lot of legends, which proves that Guwu really has a glorious time.

But now because of the development of firearms, many people don't want to practice martial arts anymore. After all, martial arts are killing skills. Since you have practiced for more than ten years, the effect is not as good as others' bullets. Who can accept this?

At this time Xu Tianlong said directly:

"Let's put it this way, ancient martial arts are generally divided into three categories: performance, practice and play!"

The acting is generally good-looking, just like the martial arts routines taught in the martial arts school. They are very beautiful, but it takes two people to practice for a long time and cultivate a tacit understanding. Once you change individuals, I am afraid that there will be no such effect. Naturally, such martial arts are not lethal.

The practice method is the real practice, that is, the so-called moves in martial arts novels. It is usually used to join hands and learn to train one's various reaction abilities and actual combat skills.

Only the style of play is simpler. That is the true essence of Guwu. What he pays attention to is all kinds of one-stroke methods of defeating the enemy, which is really expensive for babies.

The current martial arts classes will definitely not teach you these. Most of them teach you some performances. If you have a good conscience, you will be taught some practice, and they will definitely not hand over the play together.

However, people nowadays always have conflicts with others. He feels that if he has practiced martial arts, he will definitely be better at fighting, but once he does it, he will be completely exposed.

In fact, it's just because they didn't learn the style of ancient martial arts. The real style of play, there are no rules, and the tricks are deadly. All of them are running to the vital points of the human body. Once they are shot, they are either dead or disabled, normal. How can a master dare to teach this, after all, it is a legal society now, if the apprentice really has something to do with it, do you as a master care about it?

What's more, there is a saying in the ancient martial arts, 10 years of practice is worse than life and death. This means that you have to understand the truth from life and death. Now most of the times are using weapons. Who will let you use ancient martial arts? Means to experience life and death? "

After hearing such words, everyone felt that there was some truth, but Shen Lanni still said to Xu Tianlong:

"After talking so much, let's hurry up and see, after all, we still need to know if we can fight."

Xu Tianlong also smiled slightly, and then directly made a gesture, indicating that Shen Lanni could attack him.

Xu Tianlong is not like Li Erniu. Once the bull is shot, it is not light or heavy. Although Xu Tianlong is not as good as Qin Yuan, he can still send and receive freely.

At this time, Shen Lanni put on a posture and stared at Xu Tianlong, although she could also realize that Xu Tianlong was indeed very powerful, just like the same deep well.

But fortunately, it is not as huge as the power of Li Erniu just now, and Shen Lanni, who is not overwhelmed, can't make a move at all!

Shen Lanni roared, and then kicked directly towards Xu Tianlong!

But at this moment, Xu Tianlong turned in a flash, and his entire shoulder hit Shen Lanni's body in an instant, and this suddenly knocked Shen Lanni off the high platform!

It was just a trick, Shen Lanni had already lost in the hands of Xu Tianlong!

Shen Lanni looked incredulous at this time. He could feel that Xu Tianlong had not used all his strength just now, and was already merciful.

But even so, she had no resistance in Xu Tianlong's hands.

At this time, Qin Yuan above saw this situation and said directly to Shen Lanni:

"Okay, now the fight is over, have you taken it?"

At this time, Shen Lanni also felt a little bit ashamed, but if she lost, she lost. She could only nod to Qin Yuan and directly entered the ranks.

At this time, Qin Yuan saw that Shen Lanni had already taken it, and said directly to the others:

"Is there anyone to challenge now, if I don't have one, we will move on to the next item!"

At this moment, Qin Yuan saw another person raise his hand.

Chapter 287: Angry to death

Qin Yuan looked at this person and found that this girl was the minority Qubi Azhuo.

"speak!"

Qin Yuan said directly, while Qubi Azhuo asked:

"Report, I would like to ask the instructor, since Gu Wu is so good, why don't our troops directly teach Gu Wu?"

When Qin Yuan heard this, he also looked at Qubi Azhuo with a smile on his face, knowing that this was also a fault finding.

Sure enough, this group of girls were as stubborn as he imagined, and they should not be underestimated just because they are girls.

"That's because you are not qualified!"

At this moment, Qin Yuan said to the crowd with a smile on his face.

Hearing this voice, the people in the audience frowned. They were the pride of the sky. The masters selected from the various companies did not even have the qualifications to learn ancient martial arts. ?

"Some of you in the original army did not even pass the basic training of the recruit company with the best results. Now, after only one month of training, do you feel that you are comparable to those who have been trained for many years?"

"The reason why the army does not regard Guwu as the most basic training method is because the effect of Guwu is too slow. No matter which type of ancient Wu, it takes a lot of time to practice, and you now, the most precious thing is Time, as a soldier, fighting is only the most basic skill. You have a lot to learn. If you want to learn ancient martial arts, you must improve your various skills to 80 points or more before you can continue to advance. qualifications!"

Hearing Qin Yuan's words, everyone immediately understood. It turns out that Guwu is an advanced training technique. The abilities of these people are too poor and there is no need to train Guwu!

"do you understand?"

"understand!"

At this time, everyone in the audience agreed in unison, but even though they understood, their hearts were full of dissatisfaction. Qin Yuan and these people were not much older than them. Why could Qin Yuan and others accept the ancients? Wu, but they can't?

But looking at the strongest Shen Lanni is not the opponent of these people, and no one continues to take the humiliation.

At this moment, Qin Yuan saw the people like this, and a smile appeared in his heart, he just wanted to arouse the fighting spirit of these people.

But just when Qin Yuan wanted to continue speaking, he saw a person raising his hand again. At this time, Qin Yuan looked at the person raising his hand and shouted directly:

"I remember your name is He Lu, right? What do you want to say?"

"Report, I also want to challenge you."

He Lu said loudly at this time, while the people around looked at He Lu with surprises in their eyes.

After all, in their impression, He Lu has always been a relatively stable person, and would not usually participate in fighting with them. He has always been very serious training, and is also the favorite of Captain An Ran.

But who knows, now He Lu directly stood up to challenge these male soldiers, it was beyond their expectations.

Qin Yuan looked at He Lu at this time, but there was a smile on the corner of his mouth. Others would look down on He Lu, but Qin Yuan would not, because he clearly remembered that it was this woman who became the later captain of the Phoenix Team!

"Well, who are you willing to challenge?"

Qin Yuan looked at He Lu with a smile at this time, while He Lu stared at Qin Yuan firmly, and said directly:

"I want to challenge you!"

Wow!

Everyone was in an uproar. After all, they all knew Qin Yuan. This was a well-known battle hero and a friend of their captain An Ran. Just now they jumped directly from the helicopter without any damage. Such a master, Most people look at the liver trembling, He Lu dare to challenge him.

"Ok, I promised your challenge, but what do you want to challenge?"

Qin Yuan was not very surprised when He Lu challenged himself. If he didn't want to fight for the first place, then He Lu would not become the captain of the Phoenix.

"We are better than a gun! There is a bullet in the gun. Whoever can hit the target with this bullet faster than the other party will win!"

Hearing this, Qin Yuan glanced at He Lu for a while, nodded directly and agreed:

"Very good, then let's start, but if it's just a simple combination of guns, it is too simple, is this good? Let's just blindfold our eyes and play purely by hand, how about?"

Hearing Qin Yuan's words at this time, everyone suddenly exclaimed. If this is blindfolded and can't even see the parts, how can the gun be assembled again.

But He Lu took a long breath, but agreed directly:

"it is good!"

At this time, Qin Yuan smiled slightly, when he just wanted to go down, he heard some voices in his mind:

"Ding Dong~ The system releases the task, the host is in the gun group competition, completely crushing He Lu, and rewarding a grid!"

Hearing this voice, Qin Yuan's eyes suddenly brightened. He thought that only training a qualified player would be good. He didn't expect to be able to get a grid in such a small game.

It's just that if you want to win He Lu, maybe it's easy. If you want to crush He Lu, then it's not that easy.

However, Qin Yuan still smiled confidently, then walked directly off the stage and began to prepare.

At this time, those people directly moved two tables for the two of them, and two guns were placed on the tables.

This is the assault rifle used by Fire Phoenix for training. At this moment, He Lu glanced at Qin Yuan, but said to Qin Yuan:

"You can use the rifle you trained, so you can be more familiar with it, or it would seem a bit unfair."

But Qin Yuan directly shook his head and said to He Lu:

"It's not necessary, any rifle is fine. Let's start?"

With Qin Yuan's order, two people were dispatched from both sides, and they began to disassemble the rifle, and all the parts were neatly placed on the table.

At this time, He Lu stared at the parts of these guns. She wanted to keep all these parts in her mind. After all, these parts were not placed in the order of normal disassembly. Just go up the group in the order, but you need to remember the steps of the group for each step of these parts!

But at this time, Qin Yuan looked up at the sky directly after taking a glance, and even whistled.

This suddenly made the female soldiers on the opposite side annoyed to death. Isn't this a bit too defiant?

"He Lu, come on! Try to defeat him!"

"Yes! Is it a bit too bully!"

The female soldiers at this time directly added oil to He Lu, but after hearing this, Tan Xiaolin, who was standing at the forefront, said aloud:

"Quiet, you will not only not help He Lu by doing this, but will disrupt his progress!"

Chapter 288: Winner

After hearing Tan Xiaolin's words, everyone was quiet now, but although these people were quiet, He Chenguang and others on the stage looked at Qin Yuan with a playful expression.

Although they all know the power of Qin Yuan, they have never seen Qin Yuan's method of forming a spear. After all, the technique of marksmanship is good, not necessarily the technique of this set of spears. These are two completely different systems.

"Hey, do you think the captain will roll over in this woman's hands, I think she really wants to win."

"That's hard to say. People dare to propose this project. They must have a strong ability in this area. If you look at the captain's carelessness, you will almost blow the opponent to death. If you lose, it will be ugly. ."

"It's not just to win, even if it's not a bit slow to win, the captain and her game is already bullying, and it must be won very beautifully, otherwise we can have gossip in the future."

At this moment Qin Yuan heard these words and glanced back at those guys. Are these guys dying to clean up? How dare to speak ill of yourself behind your back, and in front of your own face!

Sure enough, these people are energetic, and it seems that while training these female soldiers, they should also be practiced.

At this time, He Chenguang and others felt Qin Yuan's eyes, but they laughed. After all, there are not many opportunities to watch Qin Yuan's jokes. They would rather take extra training later than seize this opportunity!

And at this moment, the person who dismantled the guns had already dismantled all these guns and placed all the parts in place. This was what he said to He Lu and Qin Yuan:

"The parts of the rifle are ready, and I will give you 30 seconds of preparation time. After 30 seconds, the game will begin immediately!"

Hearing this sound at this time, He Lu immediately watched the parts of these guns more seriously, and finally ensured that he had remembered all the positions. This was the nod to Tan Xiaolin who was acting as the referee.

Tan Xiaolin glanced at Qin Yuan, only to find that Qin Yuan was still a foolish man. She was so angry that she found that the time was almost up and she said directly, "Now we are ready to play!"

After that, two people directly covered the eyes of He Lu and Qin Yuan with a black cloth. After seeing that they were ready, Tan Xiaolin said directly:

"Count down three seconds, 3, 2, 1, start!"

Following Tan Xiaolin's order, He Lu instantly followed the memory in her mind, grabbed the handguard and handle of the rifle, and instantly assembled these two parts together!

Then assemble the bolt and re-entry spring assembly!

At this time, He Lu listened carefully and found that Qin Yuan on the opposite side didn't make any sound, obviously it hadn't started yet!

He Lu frowned at this moment. What is this guy doing?

Is it because you didn't remember the location of the gun parts clearly?

At this time, the people around Qin Yuan all whispered:

"What does this person want to do?"

"Who knows, wouldn't it be just giving up?"

At this time, Li Erniu looked at Qin Yuan a little worried:

"The captain doesn't really want to play anymore. If it's like nothing, it's fine, but because this loses, then it's ugly! If Qin loses, how can you train these ladies? what?"

But He Chenguang smiled and patted Li Erniu on the shoulder:

"Okay, you don't know who the captain is. If he does it right away, it means he has no confidence in this matter, but if he acts like this, it proves that he is 100% sure! Let's not worry about it here, but think about how we will be trained after the captain match."

Hearing this, the corners of Li Erniu's mouth twitched, but he knew that Qin Yuan was a very careful person. Just now they said Qin Yuan's trivia behind, and Qin Yuan would definitely not let them go!

"This is what you said, and it has nothing to do with me."

Li Erniu wanted to separate the relationship instantly, but Wang Yanbing, who was standing on the side, said hehe:

"Brother Niu, do you think the captain is a reasonable person? Besides, our team has always been both prosperous and prosperous. If you really run away, the captain will probably train you twice!"

Hearing this, Li Erniu's face suddenly became more ugly, as if he had eaten bitter gourd.

Qin Yuan shook his head when he heard the voice behind him.

But at this moment, He Lu on the opposite side smiled. She was about to take the last step. As long as the entire rifle is now formed, as long as the bullet is inserted into the magazine, and then the magazine is put into the gun, Open the insurance and shoot instantly and you will win!

He Lu's heart is full of fortune. No matter how she wins, she won anyway. As long as she wins, she can directly join the Phoenix Team and become a real special forces member. At that time, see how Qin Yuan is. Say they are not qualified at all!

But at this moment, He Lu suddenly heard a gunshot, and He Lu was stunned.

How can it be!

She didn't even hear the sound of Qin Yuan's guns!

Why is the bullet directly excited?

At this moment, He Lu ignored the rules and just tore off the black cloth from her eyes, wanting to see why Qin Yuan'er was so fast!

But when Qin Yuan'er pulled off the black cloth, it was discovered that Qin Yuan did not assemble the entire gun, but directly assembled only one bolt machine and re-entry spring assembly!

Moreover, Qin Yuan didn't put that bullet into the magazine, but directly sent the bullet into the barrel!

In this way, firearms can indeed inspire, but this gun has not dragged wood nor aimed, and even the rifling is not stable, as long as it is shot, it will inevitably fall apart!

But with this shot, Qin Yuan was extremely accurate, hitting a target beyond 10!

Seeing Qin Yuan's movements at this time, everyone suddenly exclaimed, and someone yelled directly:

"It's not fair, he is cheating!"

"Yes! He didn't put the gun together at all, he just shot this bullet out, which is simply unqualified!"

"Yes, He Lu won this game!"

After hearing these people's words, Qin Yuan glanced at Tan Xiaolin, who was acting as a referee on the side. Tan Xiaolin looked at Qin Yuan at this time, her eyes were full of disbelief, but in the end she gritted her teeth and said:

"The winner is Qin Yuan!"

Hearing Tan Xiaolin's ruling, everyone suddenly booed, and He Lu looked at Qin Yuan with an ugly expression.

Chapter 289: Worried about yourself?

At this time, a woman stood up and asked Tan Xiaolin:

"Instructor, why should Qin Yuan be judged to win? He is cheating at all."

and Tan Xiaolin directly said:

"In fact, he didn't cheat. Our game just now was not about gun formation, but to see who could hit that bullet to the target faster. No matter what method Qin Yuan used, as long as it was this The bullet was shot from his barrel and hit the target faster, then Qin Yuan won!"

Everyone thought about it carefully at this time, and found that their competition just now seemed to be exactly what Tan Xiaolin said.

Everyone was a little angry at this time. If Qin Yuan went all out, it would not be a big deal to lose to Qin Yuan, but Qin Yuan's action just now was obviously a trick!

At this time, Qin Yuan heard the voices of those around him, but he said to He Lu in front of him:

"For this result, are you convinced?"

At this time, He Lu's face was extremely ugly. He didn't answer Qin Yuan's words. Instead, he dismantled the rifle in his hand, retained the same components as Qin Yuan just now, and shot at the distant target!

嘭!

At this time everyone was shocked by the shot, but when everyone looked at the target, they were even more surprised, because there was no bullet hole on the target, and He Lu missed the target!

Shooting with a rifle within 10 meters, but still miss the target, obviously it is very surprising.

He Lu is not the best marksman in their team, but it is the most stable marksmanship. Missing the target in such a short distance is simply incredible!

At this time, He Lu looked at her rifle that missed the target, sighed, nodded directly to Qin Yuan, and said seriously: "I have lost!"

Although Qin Yuan's actions are suspected of cheating, even if it is cheating, no one can do it. He Lu is very confident in her marksmanship, but even so, she failed to hit the target. on!

This is enough to prove that Qin Yuan has a better understanding of the rifle in his hand, and has reached the point where he has reduced the complexity to the point where it is not working!

Even if a person like this uses normal steps to compare with himself, he will still not be his opponent!

At this time, Qin Yuan heard the voice in his mind:

"Ding Dong, congratulations to the host for completing the task, crushing He Lu in the gun game, and rewarding a grid!"

Hearing this simple, he had already obtained a grid, Qin Yuan also laughed directly, and finally said loudly to everyone:

"Do you think I cheated, so you are not convinced?"

When Qin Yuan's words were heard at this time, everyone looked at each other, but someone still said directly loudly:

"Yes, we just think you cheated!"

Qin Yuan looked at these speakers at this time and shook his head gently:

"You know? This is the difference between us and you. In our view, as long as we can win, no matter what means or price we pay, we will try our best to achieve the goal, but you are still being ruled. Fettered by order, you will definitely not be our opponents!"

Hearing such words at this time, everyone in the audience suddenly looked shocked, thinking about it carefully, as if it was indeed the case, if they were thinking of following such rules during the battle, they would definitely slow Qin Yuan a lot of steps. .

This gun was shot on the target, so they can chat here leisurely, but if the gun is shot on the other's forehead, then people die if they die, and if they lose, they lose. The resurrection doesn't care what kind of means others use to kill you!

At this time, everyone in the audience looked at Qin Yuan with an incomprehensible look. Although Qin Yuan did not give them any demonstration, Qin Yuan used direct means to show them Qin Yuan. The difference between waiting people and them!

This is enough to prove that they are still very weak!

Seeing that these people were already silent, Qin Yuan smiled slightly and said directly to these people:

"It seems that you also understand this. It means that you are not hopeless. I thought that some of you would directly yell at me about human rights, rules and the like, but this There is no one among you. I'm very pleased at this point. Okay, now there is no place for you to compete with me. If not, everyone will put on their own equipment. The 20km cross-country starts now!"

Hearing such words at this time, someone suddenly put on their backpacks and started to run outside.

Although the rest of the people felt that Qin Yuan's approach was a bit wrong, but seeing that those people had already left, they did not dare to continue to fight Qin Yuan, and they put on their backpacks and ran outside.

Looking at the backs of these people, He Chenguang and others stood beside Qin Yuan:

"Captain, I found that there is still something to be done here."

"That's right, the chick I did just now is not bad!"

"I fell in love with the girl with the gun!"

Hearing such words at this time, Qin Yuan glanced at these people and said lightly:

"I remember just now that someone said something behind my back, do I need to remember now?"

Hearing thisThe bodies of Li Erniu and others suddenly became stiff, and then there was no need for Qin Yuan to urge them, they also put on their own equipment directly, and also put them in their backpacks. Full of bricks, this is to follow behind the girls.

Qin Yuan looked at the back of these people and smiled, but at this time, Tan Xiaolin, looking at Qin Yuan, frowned tightly:

"Captain Qin Yuan, these are all girls, and the previous training was not 20 kilometers long. Isn't it a bit too much?"

After hearing Tan Xiaolin's words, Qin Yuan glanced at Tan Xiaolin and said directly to Tan Xiaolin:

"Comrade Tan Xiaolin, do you remember what I just said? I have already said that when we first met, it was when you had the best impression of me. It was only 20 kilometers, and you could not accept it. Then You will not be able to accept more things in the future. I remember you just said that you are a PhD in psychology. In this situation, should you worry about yourself?"

Tan Xiaolin heard Qin Yuan's words, her brows frowned suddenly, and said to Qin Yuan:

"Why should I worry about myself?"

"Because the soldiers under you are gradually becoming stronger than you, at that time, how do you counsel them and lead them? Without empathy, how can you convince them?".

At this time, Qin Yuan's words pierced directly into Tan Xiaolin's heart like a sharp sword, making Tan Xiaolin speechless for a while.

And Qin Yuan glanced at Tan Xiaolin, smiled, and then directly chased those people.

Chapter 290: Keep going

At this time, Shen Lanni tried to adjust her breathing. It was 20 kilometers, but it was not short, let alone carrying a heavy load. For Shen Lanni, such a distance would not be able to pass by talking.

And Ye Cunxin was also panting, and the two habitually competed like this before, but they are still like this now!

However, even if the two of them have competitive skills, after running for seven or eight kilometers, they don't have much interest. Anyway, the two have been compared many times, and they are regardless of the outcome. The comparison today seems to be a little bit Not time!

At this time, both Shen Lanni and Ye Cunxin were a little sweaty, and they felt that their backpacks were getting heavier and heavier!

, both of them are already like this. Naturally, the others have slowed down.

"My dear mother, why didn't I know that Qin Yuan was so poisonous before! Twenty kilometers, this is exhausting my old lady!"

At this time, Tian Guo grumbled and said that she felt that her feet were no longer hers. Every time she lifted it up, she was like lifting a lead-filled iron ball!

"When Captain Anran was here before, he wouldn't have been 20 kilometers away when he came up. It's damned!"

At this time, Ouyang Qian, who came out of the chemical defense regiment like Tian Guo, also followed the complaint. The two of them were originally in the cooking class. When An Ran was in the past, they were able to keep up a little bit, but now they have not trained for a week. They are naturally overwhelmed for the 20-kilometer load-bearing cross-country!

"Save a little effort, there is half!"

At this time, Tang Xiaoxiao said to the two, which caused the two guys to cry for a while!

But at this moment, this group of female soldiers saw another group of people rushing over by their side, and they were suddenly stunned!

"I remember, has this group of people passed by just now?"

"You remember correctly, it's already over. Just now we said that this group of people are cattle. Now it seems that it is really difficult to say that they are cattle. At this speed, the cattle can't reach it!"

At this time Tian Guo looked at He Chenguang and the others who ran past, completely speechless. They knew that a lap around their training base was ten kilometers away. They ran first, but in the end Are these male soldiers directly in a circle?

Is this gap too big? ?

At this moment, looking at the figures of these male soldiers, even Ye Cunxin and Shen Lanni who ran ahead were both staring. Although they ran faster, they have not completed 10 kilometers yet, but these male soldiers have actually finished. 20 kilometers, looking at the backpacks on these men, I am afraid they carry more weight than them. Is this really a human?

Shen Lanni's face changed. At this time, she just understood why Qin Yuan said that they were not qualified to receive Guwu training, and now it seems that they are indeed not qualified to receive it!

Seeing these male soldiers surpassed the past, it was an instant to give these female soldiers a major blow, which made their movement speed slower.

But at this moment, they actually saw the male soldiers who ran past, and now they are back in their car again! And the male soldiers in the car, everyone is still leading a wolf dog!

Everyone was taken aback at this time, and at this time, a familiar voice said loudly:

"You are really running too slow, you are a bit slower and faster than the tortoise! If it is not fast, I will let the dog go!"

Hearing this sound, all the female soldiers were shocked. She looked at the hideous look of the dog, the sharp fangs, and the saliva that was constantly flowing out, and she felt a little cramping in her calves, never again. Dare to have any laziness, and run forward like crazy.

At this time, Qin Yuan smiled and made a look at the people under his hand, and then He Chenguang and others continued to run behind these female soldiers, as long as these female soldiers dared to slow down. They loosened the dog leash on their hands and made these dogs bark twice.

Originally, the female soldiers thought that these male soldiers drove the car to watch them run, but to their surprise, these male soldiers just put the dog in the car, but they were very surprised. Easily followed behind the female soldiers and ran with them.

You have to know that they have run 20 kilometers before, and they still have the physical strength to run with them. It is incredible!

But even so, the male soldiers run much faster than them, and once they get close to the girls, they just pull the dog off the car and bark at these female soldiers!

Seeing Qin Yuan's movements at this time, Tan Xiaolin sitting in the car frowned and said directly to Qin Yuan:

"Aren't you afraid of something happening when you run like this? They haven't been training for a while. If you force them to run as soon as you come up, you're likely to have a cardiac arrest, fainting, and causing death. It's over."

Qin Yuaner glanced at Tan Xiaolin at this time, and said lightly:

"When you are a soldier, you are not afraid of death. is afraid of death or not being a soldier. Do you think they come to participate in this special training to become uncles or pretend to be forced by the name of a special soldier? Will take part in missions and face death directly. I would rather them die on my training ground than be killed by the enemy."

Qin Yuan was really speechless to Tan Xiaolin at this time. Why did he want to be a young lady to participate in this training? Is it really that the freedom of the lighthouse country has corroded his mind?

What's more, for Qin Yuan, there is no danger at all. There is still more than ten minutes of rescue time for cardiac arrest. The main reason is that it is not enough to save people directly within this time. Moreover, Qin Yuan just wants to. Let these people faint, this is proof that these people have tried their best!

Watching these people running slower and slower at this time, Qin Yuan suddenly had a new idea in his heart, then smiled at the corner of his mouth, and shouted directly into the loudspeaker: "You are running too slow, add 5 more Kilometers!"

what?

Upon hearing this, these female soldiers suddenly widened their eyes, knowing that the last 5 kilometers is more difficult than the previous 10 kilometers, because they have no physical strength, does Qin Yuan really want them to run to death? ?

But what they didn't expect was that Qin Yuaner wanted them to run to death!

Finally someone couldn't bear it, and fell directly on the ground, unable to get up again!

When he saw his teammate fall, the person next to him stopped immediately and wanted to treat his teammate, but He Chenguang who followed directly reprimanded:
