

Special Soldier 29

Chapter 29: Clear as day!

Twenty minutes later.

A few delicious grilled fish, you are ready!

Qin Yuan took a sip, the fragrance is tangy, and the meat is tender!

"Li Erniu, your craftsmanship is great!"

Qin Yuan ate with relish and couldn't help but thumbs up.

is indeed a soldier of the cooking class!

Start cooking!

is so delicious!

"Hey, Brother Yuan, I can't do anything else, but when it comes to cooking, the technology is first-rate!"

Li Erniu laughed, Qin Yuan's praise made him feel very useful.

Gobble it up!

Qin Yuan ate three big fish!

Li Erniu also ate three!

After filled their stomachs, the two continued on the road!

The sky gradually dimmed.

after a moment.

was plunged into the boundless darkness all around.

Tonight is a big cloudy day!

There is no light at all!

If it weren't for a Jeep!

Qin Yuan and the others are a problem even on their way!

"Brother Yuan, it's too dark this day? You can't even see the light!"

Li Erniu turned his head and glanced at the surroundings. The surroundings were completely dark and there was nothing to see!

"It's getting dark! Dark is more conducive to action!"

Qin Yuan smiled lightly, not caring.

For others!

Maybe it's dark, which is a huge obstacle that affects actions.

But for Qin Yuan!

Everything is not a problem!

because of his powerful thermal imaging capabilities!

Within a radius of 1,000 meters, as long as there is thermal radiation, he can detect the presence of the opponent.

"Darkness is more conducive to action? Brother Yuan, you mean, we are going to fight while it is dark?"

Li Erniu was stunned for a moment, and a greater spirit came in the next second.

Because through the afternoon battle!

He found!

I really like the feeling of fighting with Qin Yuan on the battlefield!

"That's right!"

Qin Yuan smiled and stepped on the accelerator!

has world-class jeep skills!

Even though it is a mountainous area, the road is rough!

But to Qin Yuan, it still seemed to be flat.

There is no obstacle!

"Ding Dong~ Now release a system task to eliminate the Raiden Commando! Unlock 3 new grids!"

suddenly!

The crisp system reminder sounds!

Qin Yuan was suddenly excited!

"Fuck... Eliminate the Thunder Sky Commando, and unlock three grids? This system reward is too rich? Is it so worthy of the Thor guys?"

Qin Yuan raised his eyebrows and couldn't help but curl his lips.

The reward for the system setting!

He is very skeptical!

no way!

This system is so worthy of them!

This made Qin Yuan slightly upset.

But that's it.

Qin Yuan will not have trouble with the reward!

What he lacks most right now is the grid!

The more grids are the better!

Goooo~

Goooo~

is on the way!

suddenly!

A very penetrating, tingling bird call sounded in front of you!

"Wori... is this the sound of an owl?"

Brake!

Qin Yuan stopped the car with a sudden brake!

"Brother Yuan, why did you stop?"

Li Erniu is unknown.

Qin Yuan glanced, and Li Erniu seemed completely unaware of the owl's call.

"Have you heard the strange call?"

Qin Yuan smiled and asked.

"I heard it, night owls, they should be old owls in mating period, otherwise, their calls will be better."

Li Erniu said with a smile, "As the saying goes, if you are not afraid of night owls barking, you are afraid that night owls will laugh, and night owls will come into the house, and nothing will come! It seems that tonight, I am afraid that there will be unrest!"

Qin Yuan said that Li Erniu is really tough!

did not expect--

He is not afraid of the oozing cry of the owl!

Is it true that he is really afraid of snakes?

"Li Erniu, you are here looking at the car. I can go to the jungle for convenience, you know?"

Qin Yuan looked at Li Erniu and said.

because--

Owl has become Qin Yuan's target!

in the elementary school nature textbook!

Qin Yuan once clearly remembered a description of an owl: an owl weighing only 300 grams has about 95,000 auditory nerve cells, and the sense of hearing is very developed! And its head can rotate 270 degrees, in the dark night, the visibility is more than a hundred times that of humans!

"Such a powerful species! Of course it is impossible to miss it!"

There is just another plaid now!

And it's black and light right now!

If you can improve your dark vision ability!

This is a great achievement!

Qin Yuan left the car for more than 10 meters!

is the strongest physical energy immediately!

Qin Yuan is like a sharp arrow from the string!

shot out so fast!

a moment.

Qin Yuan was able to lock the three owls standing on the branches with his strong heat radiation ability!

"Night owls! Take it to death!"

Qin Yuan smiled.

suddenly raised the gun!

Da da da!

Three shots quickly!

for an instant.

Three empty bullets directly hit the owl's head!

"Cuckoo~"

All three owls made a scream, flapping their wings, and fell to the ground.

Qin Yuan was overjoyed, and immediately stepped forward and grabbed the three stunned owls!

has a cosmic marksmanship!

Qin Yuan's calculation of the bullet's force and angle has reached the point where it can be called a god!

It is easy to stun three owls!

My heart moved.

Qin Yuan put three owls into the system grid with one click!

"Ding Dong~ Please choose!"

The crisp system prompt rang!

"1, get world-class hearing!"

"2, get world-class night vision!"

"3, get a world-class owl laugh!"

"Fuck! This owl, as expected, are all treasures!"

Qin Yuan couldn't help but his eyes brightened.

"I choose 2!"

A little pondered, Qin Yuan made a choice.

It's black and light now!

only rely on the thermal imaging system to judge!

will inevitably go wrong!

But if you have world-class night vision capabilities!

The possibility of making mistakes will be greatly reduced!

For example, if someone uses special means to lower their temperature!

so that thermal imaging can not detect it!

That Qin Yuan is naturally helpless!

"Ding Dong~ Congratulations to the host for successfully selecting and obtaining world-class night vision capabilities!"

"World-class night vision ability: can make the host see things like daylight in the dark, with a night vision range of 100 meters!"

"Fuck! Dark vision is like day, with a range of 100 meters? Isn't this too awesome?"

Qin Yuan couldn't help but marvel!

an instant!

Qin Yuan only felt that his eyes had undergone a special change!

Countless small warm currents are constantly scouring and moisturizing Qin Yuan's eyes. After a while, Qin Yuan opened the dual mode, and his mind moved, urging his night vision ability!

The dark surroundings!

suddenly became brighter!

The picture quickly brightened, and in an instant, a world that was as clear as broad daylight appeared in front of Qin Yuan!
