

Special Soldier 30

Chapter 30: Hunting trip (one/four)

"Fuck... it's... incredible?"

Qin Yuan was taken aback, couldn't help being stunned!

So this is the vision of an owl?

in the dark night!

Their vision is so powerful?

The world I see is no different from the daytime?

Qin Yuan finally understands how powerful this owl is!

especially combined with the experience of the past few days!

Qin Yuan deeply feels the uniqueness of animals!

"It's just... this night vision range is only 100 meters! A little bit less!"

Qin Yuan sighed slightly, "Continue to choose!"

"I choose 1!"

"Dingdong Congratulations to the host for your successful selection! Get perfect night vision ability!"

"Perfect night vision ability: It can make the host see things like day in the dark, with a night vision range of 200 meters!"

The crisp system reminder sounds!

Qin Yuan was overjoyed, and the night vision range really improved!

"Continue to choose!"

Qin Yuan continues to choose 1!

"Ding Dong~ Congratulations to the host for choosing successfully! Obtained the Universe-class night vision ability!"

"Universal level night vision ability: can make the host see things like day in the dark, with a night vision range of 400 meters!"

"Huh? Doubled again?"

Qin Yuan blinked his eyes, slightly surprised!

He originally thought that the Universe-class night vision ability would become 300 meters!

did not expect.....

is 400 meters!

400 meters range!

is already very big!

My heart moved.

Qin Yuan urges the night vision ability!

For a moment——

Qin Yuan's eyes seem to have opened up the perspective of God!

Everything within a radius of 400 meters!

are as clear as day!

show everything in front of me!

As long as Qin Yuan is willing!

He can switch to any corner within 400 meters in an instant!

"This is amazing, right?"

Qin Yuan could not help but smile brightly!

no way!

This feeling...

is really amazing!

Only by experiencing it in person can you realize how amazing this ability is!

immediately——

Qin Yuan stunned two owls again.

But this time.

Qin Yuan chose the second option!

World-class listening!

I have night vision ability!

Listening naturally also keep up!

"Ding Dong~ Congratulations to the host for your successful selection! Get world-class listening!"

"World-class hearing, allowing the host to hear everything within a radius of 10 meters!"

for an instant.

Qin Yuan only feels his ears, there are countless warm trickles, enveloping him!

Next second...

Qin Yuan felt that his hearing seemed to have changed drastically!

Everything within a radius of 10 meters!

The sound of breeze blowing, the sound of insect crawling, the sound of swaying branches, the sound of crickets, etc...

Everything!

can't escape Qin Yuan's ears!

"Continue to choose!"

Qin Yuan smiled and continued to choose!

"Ding Dong~ Congratulations to the host for your successful choice! Get perfect listening!"

"Perfect hearing, allowing the host to hear everything within a radius of 20 meters!"

"Sure enough, it improved again!"

The change ends quickly and briefly!

Qin Yuan's hearing has improved!

reached 20 meters!

a radius of 20 meters, what is the concept?

There is movement within only 20 meters!

Qin Yuan can hear it!

There will be no obstacles!

Anyone has nothing to hide!

My heart moved.

Qin Yuan urges perfect listening, cosmic night vision, and world-class thermal imaging!

an instant!

Everything within a radius of 1,000 meters!

has become Qin Yuan's world!

Anyone, anything, will not be out of his palm!

"This feeling... is it wonderful?"

Qin Yuan smiled, feeling very comfortable with this feeling of complete control!

"Huh? Someone came?"

Qin Yuan was surprised to find.

In the direction of 60 degrees, 1000 meters, a small group of blue soldiers has just entered his thermal imaging range!

There are 6 people in the team!

They seem to be searching for something!

"dingdong~"

suddenly!

The crisp system prompt sounded again!

Qin Yuan was suddenly excited!

what's the situation?

System, is this task to be released again?

"Ding Dong~ Now a system mission is released. For every 10 blue soldiers "eliminated", a new system grid will be unlocked!"

"Wow, this is good!"

I'm dozing off and send pillows!

After catching the five-finger owl, Qin Yuan now has a grid gone!

but now.....

only need to kill 10 blue soldiers to unlock a new grid!

"It's just delivering food!"

Qin Yuan smiled and returned immediately!

kick the accelerator!

Qin Yuan directly locked the 6 people in front and chased him up!

"Brother Yuan, where are we going? It's big night, won't you take a break?"

Li Erniu smiled honestly and asked.

"Where to go?" Qin Yuan smiled, "Of course it is to kill someone!"

1000 meters, very close!

In a moment!

Qin Yuan walked around to the side of the group of 6 people!

"Distance, 100 meters! Completely eliminated, no pressure!"

glanced slightly, Qin Yuan shot immediately!

Da da da!

DaDaDaDaDaDa!

There is almost no aim at all!

As soon as Qin Yuan came up, he broke out the most powerful cosmic rifle marksmanship!

an instant!

6 bullets instantly reached the center of the six people's foreheads!

"what!"

A group of six erupted with a scream.

Immediately, the eliminated blue smoke appeared on each one.

If someone observes carefully.

will find out!

Of these six people, everyone is shot in the eyebrows!

"Universe-level marksmanship, really terrifying!"

Qin Yuan naturally observed everything through his powerful night vision ability!

Everyone, is a brow!

Moreover, this is the case of high-speed shooting in actual combat, hitting everyone's eyebrows!

In this case...Even if Fan Tianlei saw it, he would be surprised!

"Two cows, go and collect the spoils!"

Qin Yuan smiled, and led the two to shoot to where the six were shot.

"What? Brother Yuan, where are the people? I didn't even see them, so you killed them?"

Li Erniu touched his head, his face looked incredible!

Qin Yuan smiled lightly, "People are right in front."

Six Blue Army soldiers, at this moment, they are all stupefied!

The sky tonight!

It's so dark!

They didn't even turn on the flashlights for concealment!

But this is the case!

They were all eliminated!

and...

don't even know where people are!

Don't mention how wronged it is!

I don't even know how to die!

Is there a more awkward way to die than this?

Qin Yuan and Li Erniu appeared, took all the rifles and magazines of the six people, and then whizzed away in the shock of the six people's faces!

immediately.

Qin Yuan started a happy hunting trip!

Now that the system has released a murder mission!

Of course he must seize this opportunity!

Make good use of it?

at the same time!

Blue Command Post!

Fan Tianlei couldn't help but smile bitterly after receiving the information returned by the six people, "Qin Yuan, Qin Yuan! I picked up a rock and smashed myself in the foot! Not only did I eliminate my wild wolf team, but successfully prevented the decapitation plan, but it turned out again. Unconsciously annihilated my six soldiers?"
