

Special Soldier 311

Chapter 311: trouble

Qin Yuan checked at this time and found that in addition to actual combat experience, the people of the Fire Phoenix team also need some camouflage skills, such as deportment and makeup.

Qin Yuan can teach them the ability to make-up, but Qin Yuan doesn't know much about this attitude. Qin Yuan carefully recalled the original work, remembering that he had invited a stewardess to teach these abilities, but Qin Yuan thought about it. , I don't plan to let other people come over, but plan to read and study directly.

After all, relying on the current Fire Phoenix team's physical fitness and learning manners, there is no need to conduct professional training like before, but more to know what to do.

It's like a real martial arts master fighting in a boxing ring. You don't need to go through special training. You only need to know the rules of the ring, and your body will automatically change!

For Qin Yuan, the more troublesome thing is to change the temperament of these people.

After all, the bodies of Fire Phoenix and the others now, in addition to the slightly slender body, as well as the clear female characteristics, have completely lost the temperament of a woman.

And now Qin Yuan's top priority is to let them return to the role of women.

Otherwise, these people can be seen at a glance as soldiers, how can they perform the infiltration mission?

So even though Qin Yuan felt very sorry for his last grid, he still planned to go to the library to gain this demeanor ability.

After Qin Yuan looked around in the library, he finally found what he wanted in the magazine area.

Before, Qin Yuan had a rich second-generation experience in a luxury appreciating magazine. This time, as long as he puts away some model magazines, he should be able to gain knowledge of these models.

Thinking of this, after Qin Yuan received a magazine directly into the grid, Qin Yuan suddenly heard a sound.

"Ding Dong~ Please start to choose the host!"

With the prompt sound of this system, three options suddenly appeared in front of Qin Yuan!

"1. Get world-class modeling skills!"

"2, get world-class makeup experience!"

"3, get world-class fashion knowledge book!"

Sure enough, this skill has what Qin Yuan needs!

But after seeing these three options carefully, Qin Yuan still felt a little speechless. He felt that his grid seemed to be the least worthwhile. If it weren't for the 8 grids of the Phoenix Team, Qin Yuan would not have done this. Stuffed into his own grid.

After looking at these three options, Qin Yuan finally chose the first option, which was exactly what he wanted.

"System, I choose item 1!"

"Dingdong~Host selection succeeded! Get world-class modeling skills!"

With the sound of the system prompt, Qin Yuan felt that there was a lot of knowledge in his mind!

Moreover, Qin Yuan still felt that he had undergone some changes. He glanced at himself in the glass, adjusted the hairstyle on his head a little, and found that his face had become softer.

Qin Yuan suddenly woke up immediately, wouldn't he become a sissy?

However, after careful experimentation, Qin Yuan did discover that it turned out that he was not trying to become a sissy, but that he paid more attention to his manners invisibly, which was more like a subconscious change.

However, this change is not mandatory, and it is easy for Qin Yuan to change back.

However, I took a closer look at Qin Yuan and found that if he took a good look at him, he seemed to be a handsome young man.

Qin Yuan's heart was overjoyed, and he returned directly to the Fire Phoenix Base, and then summoned the female soldiers to begin training them.

After seeing Qin Yuan, everyone was puzzled. Although Qin Yuan's face hadn't changed, they always felt that Qin Yuan had changed.

Seeing the doubts of these people, Qin Yuan was also a little bit happy, and he really became much more handsome.

If you count it in this way, the plaid is worth it.

After that, Qin Yuan began to train the people of the Fire Phoenix team. Fortunately, he experienced physical training. The Fire Phoenix team did not resist Qin Yuan training them, although he did not understand why Qin Yuan gave them the skills of these models. , But they still study very seriously.

As the so-called human behavior can affect a person's temperament, Qin Yuan also feels pleasing to the eye when watching these female soldiers who are already good-looking, all warm and polite.

As long as it is after a certain period of precipitation, it is estimated that the temperament of these female soldiers will slowly change like Qin Yuan.

But at this moment, the Phoenix Training Base did welcome a guest.

At this time, a jeep drove in directly from outside, and then a person got off. Qin Yuan looked at this person and immediately greeted him with a smile:

"Hey, Chief of Staff Fan, why are you thinking about coming to me?"

That's right, the person in front of you is Fan Tianlei!

At this time, Fan Tianlei looked at Qin Yuan, and he was also stunned when he led these female soldiers to train models.

Although he asked Qin Yuan to train these female soldiers for a certain purpose, is it a bit outrageous for Qin Yuan to train these?

"Qin Yuan what's going on?"

Fan Tianlei asked very carefully, but when Qin Yuan heard this, he said angrily:

"Why not? Didn't you say before that I can take charge of everything?"

After so long of thinking, Qin Yuan can also understand why Fan Tianlei stayed here. After all, what Qin Yuan did in the Silver Triangle last time was too outrageous, so Gao Shiwei Lieutenant General, had not dared to release Qin Yuan easily.

Hearing what Qin Yuan said at this time, Fan Tianlei also sighed for a long time. He understood that Qin Yuan had already figured out the cause of the matter, so he directly said to Qin Yuan:

"Qin Yuan, you also need to understand. After all, your last shot was too heavy. We want to ease your international influence."

Having said this, Fan Tianlei directly pulled Qin Yuan away from the training ground, and took a step aside:

"The Poison King you are supporting is booming and has become the number one power in the entire Silver Triangle, but fortunately, he doesn't seem to be out of your mind and even helped us a lot. Now we are almost the same as the well water, and it is estimated that we will be able to settle down for some time."

"That is, the general you killed before was in some trouble. Although there is no evidence to prove that it was our hands, as long as anyone with a discerning eye knows, it must be our forces. Those people are clamoring to investigate this matter thoroughly, let us Hand over the murderer."

Chapter 312: Leave it to me

Qin Yuan immediately laughed disdainfully when he heard this. If they were so angry that they begged Yan Guo for help, then Yan Guo might give them more compensation under the international situation. These people even dared to threaten, then Qin Yuan might be better off.

Sure enough, Qin Yuan heard Fan Tianlei say:

"Those people just want to eat, they don't have any evidence anyway. Let them find it."

But when it comes to this, Fan Tianlei said to Qin Yuan very excitedly:

"Although it was a little troublesome to do, the result is very gratifying. Now they are evading our influence in the Silver Triangle. After all, no one dares to make fun of their heads."

Hearing such words at this time, Qin Yuan also smiled, and directly asked Fan Tianlei:

"Okay, I understand what I did with me above, so I've stayed here to train female soldiers honestly during this period of time, and I didn't clamor about going out. You came to see me this time. what's up?"

To be honest, if someone else did something like this, I'm afraid he would have gone to a military court long ago, and this time Qin Yuan's troubles were all taken by Lieutenant General Gao Shiwei, although This was what Gao Shiwei had already said, but Qin Yuan would still accept Gao Shiwei's affection.

At this time, Fan Tianlei's face sank when he heard such words, and he said directly to Qin Yuan:

"To be honest, the recent international situation is relatively severe. Our country is developing rapidly. Of course, other countries and forces can't be used to it. So first of all, the ghosts and monsters are beginning to infiltrate us."

"What's the matter, as long as they stretch out their hands, I will chop them off. When they stretch out our feet, we will stamp our feet. The gods block and kill the gods and Buddhas, and they are scared. Naturally, they dare not make any moves!"

Qin Yuan smiled slightly, and when he heard what Qin Yuan said, Fan Tianlei was also extremely excited, and said directly:

"If this is the case, I have a task to give you. Recently, a group of forces seems to have infiltrated Southeast City. We have an internal answer within them. We have received news that they seem to be planning to do a big thing! I don't know what this matter is, so I hope you can help, find the inner answer, save this inner answer, and crush their conspiracy by the way."

It was just that Qin Yuan was unhappy after hearing this. The person who was training the Fire Phoenix team well, seeing that 8 grids were about to get his hands, how could he give up halfway and perform other tasks?

So Qin Yuan said directly to Fan Tianlei:

"No, my current mission has not been completed yet. Wait until I have completed the training of all the members of the Fire Phoenix Squad, and then perform the mission. You have so many special teams under your team. Do you have to use me?"

At this time, when Qin Yuan refused, Fan Tianlei showed a very helpless expression:

"If I have other soldiers in my hand, I certainly won't come to you, this time I will ask you for help."

Seeing Fan Tianlei cautiously, Qin Yuan felt helpless in his heart. Fan Tianlei was his old boss, and he was already talking about it. It would be good if Qin Yuan didn't help.

At this time, Fan Tianlei said directly to Qin Yuan:

"In fact, this mission has a certain connection with your Fire Phoenix Squad, because the inner ring is Violet!"

When Qin Yuan heard this, he immediately thought that the reason why An Ran would leave the Phoenix Team was because he received an undercover mission. Now it seems that An Ran is performing this mission!

Hearing this, Qin Yuan's face also became serious. Although he had rescued An Ran from Fatty Liu before, this time An Ran actually performed other undercover tasks. If something happens, then Qin Yuan's heart was overwhelmed.

So Qin Yuan directly agreed:

"Okay, then I will go to this task."

After all, the training of the Fire Phoenix team can be suspended. At most, it is a delay to obtain these 8 grids. And if Enron's life is gone, it is really gone.

Fan Tianlei also smiled upon hearing this:

"Then I will leave this task to you completely."

Qin Yuan nodded, and then he heard a voice in his mind:

"Ding Dong~ The system releases a task to protect Enron from k2 and get a grid!"

"Ding Dong~ The system releases the task to completely dissolve the conspiracy of k2 and get two grids!"

At this moment, Qin Yuan's complexion immediately looked better when he heard this voice. Now he has no grids, and Qin Yuan doesn't know when the people from the Fire Phoenix team can complete the training.

But if these two tasks can be completed, then there will be three grids in an instant, which can alleviate the embarrassment that Qin Yuan does not have at present.

After all, since the establishment of the system, Qin Yuan has always been chasing the grid. As long as there is a grid to base, no matter what difficulties he encounters, Qin Yuan has the confidence. After all, a grid means that there is one who can directly turn over. The hole card!

But now Qin Yuan has used up the last grid to train the people of the Fire Phoenix team, which gives Qin Yuan a sense of urgency that the landlord's house does not have food.

However, Qin Yuan carefully looked at this task, his brows frowned slightly.

K2?

Isn't this the organization where Ye Cunxin's father belongs?

Qin Yuan remembered very clearly that the leader of k2 was named Black Cat and Ye Cunxin's biological father.

Now Ye Cunxin is under Qin Yuan's hands, and his daily training is also very strict. He can grow into a perfect fighter. Qin Yuan will never allow the person named Black Cat to destroy Ye Cunxin.

Thinking of this, Qin Yuan's eyes flashed a murderous look. Although he has never admitted, he has already regarded Ye Cunxin as his apprentice. Ye Cunxin has not met with that **** father since he was a child. Don't meet up!

So Qin Yuan directly asked Fan Tianlei:

"Okay, leave this task to me, but is there any other information for this task?"

"I'll send you the information in a while, but we don't have a lot of information. It is estimated that you will have to come out with that person first, and learn from his mouth the other party's next plan."

Hearing this, Qin Yuan also nodded, and then went straight back to the base.

Chapter 313: being busy

Fan Tianlei followed Qin Yuan back to the training base. As soon as he entered the base, he saw the group of soldiers divided into two rows, with the male soldiers on the left and the female soldiers on the right.

The male soldiers are practicing Tai Chi-like physical exercises. Although the movements appear to be a bit slow, the punches and kicks seem to be vigorous and powerful, and they can even hear the continuous soft noise of the muscles.

The female soldiers on the other side are practicing yoga-like jujubes, each of them maneuvering their bodies to the point that ordinary people can't imagine them. Such physical flexibility has exceeded that of ordinary athletes. It is believed that these were women soldiers who charged into battle.

Seeing this situation, Fan Tianlei couldn't help but swallowed. Although he understood that Qin Yuan's men could not produce waste, he did not expect Qin Yuan to really work hard to train these female soldiers.

Fan Tianlei's initial idea was just to do an experiment to see if these female soldiers can be trained. Whether they succeed or not, they are harmless. The most important goal for Qin Yuan to train these female soldiers is to give Qin Yuan found a job, and then circled Qin Yuan, not to let Qin Yuan go to other places to cause trouble.

But looking at the tough eyes of these female soldiers now, and seeing the drops of sweat falling down, Fan Tianlei knew that these female soldiers must have undergone very strict training.

Especially when he saw Tan Xiaolin among these female soldiers, Fan Tianlei's eyes suddenly widened. He sent Tan Xiaolin here to make Tan Xiaolin a psychological counselor for these female soldiers? Why did Tan Xiaolin also start training?

At this time, Qin Yuan saw Fan Tianlei's surprised eyes, smiled slightly, and then directly shouted: "Assemble!"

Soon, the male and female soldiers on both sides had put down their movements and gathered here, and Qin Yuan said to everyone:

"Now I have Chief Fan Tianlei to review us."

At this time, Fan Tianlei glanced at the female soldiers and found that although the temperament of these female soldiers was still a little immature, it was just because they had not experienced real battles, like a sharp sword without opening. After being polished by war, he will soon become a trustworthy and usable talent.

Fan Tianlei glanced at Qin Yuan in disbelief, and sure enough talents are talents no matter where they are placed.

When Fan Tianlei saw this, he sorted out his feelings, and then directly said to these people in front of him:

"Comrades, I am very pleased to see your performance. Your training is very strict and you can get better results. As the saying goes, you can't see how you practice and fight. I have assigned your captains a good task. The next step depends on your performance."

Hearing such words at this time, whether it was the Red Blood Cell Team or the Fire Phoenix Team, they were all excited. After all, they had also trained for a long time, and it was time to go out to see blood and move their muscles and bones.

At this time, there was a glimmer of joy in the eyes of the female soldiers, and finally they were about to engage in actual combat, and finally they could see what kind of results their training had achieved!

But seeing the female soldiers so happy, Qin Yuan directly shook his head and said to these female soldiers:

"Don't be happy so early, this time's event has nothing to do with you."

Hearing this, these female soldiers were immediately discouraged. At this moment, Ye Cunxin raised his hand. After Qin Yuan agreed, he directly asked Qin Yuan loudly:

"Report, why can't we participate this time?"

"There is no reason, the superior's order is like that, you just need to execute it."

At this time, Qin Yuan did not want to give these female soldiers any explanation. After all, the organization they were dealing with this time was k2. If Ye Cunxin saw her father Black Cat during this event, then all this might be hidden. Can't go down.

It's good to say about Ye Cunxin's political censorship, but if Ye Cunxin know that his father is such a vicious criminal, it will definitely be a very serious blow to Ye Cunxin's mood.

Ye Cunxin is a proud person, thinking about competing for the first place in everything, and such a thing, like a sharp knife, will directly give Ye Cunxin from behind, in case Ye Cunxin's muscles are broken. Then a good seedling of a soldier would be wasted!

Even if you tell Ye Cunxin about this matter, you have to wait until the matter is completely resolved!

And after hearing Qin Yuan's words, these female soldiers were breathing stagnant, but there was no way. Qin Yuan was right. The first job of soldiers is to obey orders.

Seeing the appearance of these people, Qin Yuan also smiled slightly and said directly to these female soldiers:

"Don't treat me as an enemy one by one. Let's go on the mission and you will be able to take a good vacation. All of you have a one-week vacation. Take this opportunity to go out and have fun. ."

Upon hearing this, the eyes of this group of female soldiers suddenly lit up, and there was a burst of joy in their hearts.

Although there is no way to participate in the mission, it makes them a little bit disappointed, but it would be better if they could take this opportunity to go home and take a look.

After all, they have been participating in the training camp for several months. During this period, they have not had any vacation. Now when they go home and take a look, they can also show their families that they are not eating together in the camp!

At this time, Fan Tianlei heard this, and looked at Qin Yuan a little helplessly He was originally thinking of finding an opportunity for these female soldiers to see blood, to hone it, and to have one more in his hand. Available hole cards.

But who would have thought that Qin Yuan would directly let these female soldiers go home.

Qin Yuan also guessed Fan Tianlei's thoughts. If it were other times, it would be understandable to do so, but now it is not possible. After all, if Fan Tianlei sent the Fire Phoenix to perform a task, he accidentally encountered a black cat, then Qin Isn't Yuan just wasting his efforts?

However, although Fan Tianlei was a little unwilling, Qin Yuan had already given the order, so he could only dispel this idea.

"Okay, disband, the red blood cell team prepares, we set off in the afternoon!"

At this time, Qin Yuan gave an order, and these people were immediately disbanded. The members of the red blood cell team planned to tidy up their outfits and were ready to carry out tasks. The members of the Fire Phoenix team were all heading towards the dormitory. Go home.

But at this moment, Fan Tianlei yelled directly to Tan Xiaolin:

"Comrade Tan Xiaolin, stop, I want to ask you something."

Chapter 314: Go to Tan Xiaolin's house

At this time, Tan Xiaolin was not surprised when she heard this voice, she just nodded, and walked to Fan Tianlei's side.

Seeing this, the people of Fire Phoenix looked at Tan Xiaolin with extremely surprised eyes, and they had never heard that Tan Xiaolin seemed to be in contact with other characters inside.

But Qin Yuan just glanced at Tan Xiaolin, shook his head gently, and then went on to pack her bags.

I don't know what Tan Xiaolin and Fan Tianlei said, anyway, they came back soon.

After returning to the dormitory, Tian Guo curiously asked Tan Xiaolin:

"Skylark, what's the matter with the chief who called you over to find you?"

Upon hearing this, Ouyang Qian immediately knocked Tian Guo on the head and said to Tian Guo:

"What's wrong, don't you know the military secrecy regulations? In case there is something important, do you think Skylark can tell you?"

However, Tan Xiaolin shook her head after listening to them, and said directly to these two people:

"How can it be so exaggerated? The chief just asked me about the situation here. He was just a little curious. Why did I change from a psychological counselor to an official member of the Phoenix? It is probably because I am afraid that my father is worried."

When they heard this, everyone came to be interested and directly gathered around:

"Wow, it's true? The chief just now is a colonel, why would he care about you specially? Is he some of your relatives?"

"What's the matter with the colonel? The Skylark is a major in his own right. Do you think it is like a small soldier?"

"No, maybe there is a big man among our teammates?"

After hearing the gossip of these female soldiers, Tan Xiaolin was also dumbfounded and said straightforwardly:

"That's why I don't want to tell you. Look at each of you. After knowing this news, it's like hearing some big news. Okay, let me tell you. My father is Tan Zhenhui from the Military District. ."

"Tan Zhenhui? Who?"

At this time Tian Guo said something, and Ouyang Qian knocked Tian Guo's head again: "You idiot, this is the deputy commander-in-chief of our military region!"

"Wow, my goodness, it turns out that Hibari's father is the deputy commander of our military district. Why didn't I know before?"

Tian Guo suddenly exclaimed, and Ouyang Qian said to Tian Guo:

"You can pull it down. If I reminded you just now, even if Hibari told you, you wouldn't know."

And hearing such words, He Lu, who was standing on the side, also smiled and said:

"It is estimated that Xiaolin wanted to hide her identity deliberately. If this news lets Qin Yuan know, it is estimated that Qin Yuan would not dare to train Xiaolin as before."

"Yes, Hibari just doesn't want to be special, so it keeps it secret."

At this time Qubie Azhuo also echoed.

"Forget it, I think even if I report my identity, I am afraid that I will only be stricter with Qin Yuan's personality!"

At this time, Tan Xiaolin also shook her head and said, and when it came to family, Tian Guo also murmured,

"Oh, I'm so envious. Hibari's house turned out to be a deputy commander, like my house is a farmer in the village, but I think I'm having a very happy life."

"My parents are both literary and art soldiers. They wanted me to be a literary and art soldier, but I took the initiative to come here. The result is better now. Pistol is better than ballet."

Tang Xiaoxiao also said directly. Upon hearing this, Ye Cunxin put his hand directly on Tang Xiaoxiao's shoulder:

"Okay, isn't it the number one in the pistol game, knowing you are great."

"Go go, don't make fun of me, you!"

Tang Xiaoxiao also gave Ye Cunxin angrily, but Tian Guo said excitedly when he heard this:

"I know! I know! The mother killed by the enemy is a famous entrepreneur in Donghai City! Hey, this is a rich second generation!"

"Tsk tsk tsk, yes, this is a rich second generation, eh, Ye Cunxin, I just heard of your mother, what does your father do?"

At this time, Shen Lanni also smiled and said, but Ye Cunxin sighed slightly when she heard this:

"Who knows, I haven't seen my dad since I was a kid, and my mother has never said it, maybe it's a bitch."

When they heard this, everyone looked at each other, knowing that a bad topic had been mentioned.

"Okay, don't feel embarrassed, such a man, who abandons his wife and child, is there anything I miss, as long as I am with my mother!"

Ye Cunxin looked very open, laughing and hugging his sisters.

However, Qubi Azhuo, who was standing on the side, still had a gloomy face. After Ye Cunxin saw it, he grabbed Qubi Azhuo's hand and comforted:

"Well, don't worry about it, be happy."

But after hearing Ye Cunxin's words, Qubi Azhuo squeezed out a smile and said with a bit of difficulty:

"No, I just thought, I have nowhere to go during the holidays, otherwise I will stay at the base."

"Ah? How can that work? Aren't you going home?"

Ye Cunxin yelled directly, but when he heard this, Qubi Azhuo smiled bitterly and said:

"My home is in Sichuan Province. In the previous earthquake, my family was gone, and I was the only one. Those who do not return home will be the same."

After hearing this, everyone fell silent. They had never discussed the issue of family before, and they did not expect Qubi Azhuo to be an orphan.

No matter what, their family at least exists, but Qubie Azhuo doesn't even have a home.

Seeing this situation, Tan Xiaolin said directly:

"It's okay things are over, you said you have no family, are we not your family? If you have nowhere to go, then just go to my house!"

"No, let Azhuo go to my house! I'll take her to school!"

"Go to my house, I will cook her some food!"

At this time everyone was arguing, and finally Ye Cunxin called out directly:

"Stop arguing! Is this good? Go to whose house is the nearest!"

Ye Cun thought to himself that his home is in Southeast City, which must be the nearest, but when he heard this, Tan Xiaolin smiled:

"Good, then go to my house, my house is in the military district compound."

At this moment, Ye Cunxin was dumbfounded, why forgot this!

But at this time, when he heard these teammates rushing to invite themselves to their home, Qubi Azhuo also smiled with tears in his eyes. It was right that these people are his family! The barracks is your home!

Chapter 315: Black cat

Seeing that the plan failed, Ye Cunxin also said helplessly:

"Oh, it's a miscalculation, but I have another suggestion. Don't we have a seven-day holiday? When you come back from visiting relatives at home, don't go to the barracks. We all gather together. I will take you to the beach and eat prawns! "

"Wow, really?"

"Well, the enemy kills, can't you make you so expensive, right?"

When these people heard this, they were all a little embarrassed.

Ye Cunxin waved his hand indifferently and said directly.

"It's okay. My mother owns equity on a small island, so it doesn't cost much to eat and stay in a hotel on this island! It's okay!"

"Yes, this is a big dog family, don't save her!"

Shen Lanni also said, everyone cheered now!

On the other side, Wang Yanbing heard the cheers of the female dormitory and said to the teammate on one side:

"Hey, did you hear that, they are planning to go on vacation!"

"Hey, it's okay, after this task is completed, maybe you can go on vacation!"

Xu Tianlong laughed, and He Chenguang also said with a smile:

"Aren't we doing this to allow more girls like them to have a safe vacation?"

"Okay, stop talking nonsense, go!"

Qin Yuan sorted out the equipment on his body, then directly spoke to the crowd, and walked directly towards the helicopter.

...

At this time, outside the national border, on a cruise ship on the high seas, a man with a face full of doves walked directly into the cabin, but this cabin was filled with computers and instruments. A group of people were busy here. Busy inside out.

"Black cat!"

At this time, a middle-aged man who was a bit Mediterranean, saw this man with a squirrel face coming in and called out directly.

That's right, this man with a dark face is Ye Cunxin's biological father, the leader of k2, the black cat!

"How are you preparing?"

At this time, the black cat said directly to the Mediterranean, and the Mediterranean said confidently:

"I do things, don't worry, I am now ready, as long as you give an order, I will be able to break through all the monitoring systems in the entire Donghai City in no more than 15 minutes!"

Having said this, the Mediterranean touched his bald head. To be honest, the level of a hacker's business is inversely proportional to his hair volume. The guy in front of him is about to be bald. It is estimated that his level is not so strong. !

When the black cat heard this, he also sneered coldly:

"It's very well done, and it's not in vain that I spent so much money to dig you over, you know? I've always been very optimistic about you as a person who does big things.

Hearing the words of the black cat, the Mediterranean also smiled:

"Thanks to the boss for the praise, this is nothing. After all, the organization has spent a lot of money. I should be worthy of the money I got."

This Mediterranean was extremely proud, he knew that as long as this ticket was made, there would be more bonuses behind.

And the black cat patted the shoulder of the Mediterranean gently, and said faintly:

"If this is the case, can you help me hack into the public security command system? If you can do it, then I promised you will triple your reward."

Hearing this, the Black Mediterranean said with a little embarrassment:

"Boss, this is a bit difficult, it's impossible at all. After all, the security command system of the public security has the highest level of encryption. With my current technology and equipment, I am afraid that there is no way to directly attack."

But when he heard this, the black cat gently squeezed the shoulder of the Mediterranean Sea. The Mediterranean Sea felt like a poisonous snake directly hitting his neck. The cold snake core licked his throat.

"I believe you can do it. After all, isn't your nickname for making the impossible possible? Otherwise, why should I spend so much money to dig you over? Okay, let's start working now. Well, as long as you can fulfill my request, I won't be stingy with the reward."

After saying this, the black cat took his hand off the shoulders of the Mediterranean Sea. The Mediterranean Sea suddenly breathed a sigh of relief and touched the cold sweat on his forehead, feeling that his back was soaking wet. , Glanced at the back of the black cat in fear, this is the speed of action with both hands.

At this time, the black cat left here directly and walked to the other side. There were a group of people in black, all of them fully armed and muscular. They all bowed their heads respectfully when they saw the black cat coming.

These guys are equipped with the best equipment that can be bought in the world, armed to the teeth, it can be seen that the black cat is rich in wealth!

"Now that both the police and the police have taken the bait, we have to start to act to get what we want. In the next operation, you may all die. Do you feel scared?"

"All for k2!"

At this time these people drank together, and the black cat nodded in satisfaction, looking at these people and saying:

"Yes, our lives are not worth mentioning for our great goal."

"Wan Sheng!"

"Wan Sheng!"

This group of people screamed wildly, and seeing the situation of these people, the black cat was extremely satisfied, and then left directly, but as he walked, his brows were slightly frowned, facing the one on the side. People asked:

"Isn't there any trace of the wild dog yet?"

"Report The wild dog took our brother and landed on a small island, which is outside the border of Yan Country, but according to our news, a chemistry expert will Appear on this small island, the wild dog seems to be eyeing this expert, wanting to get information from him."

The person standing next to the black cat said respectfully, but when he heard this, the black cat's face trembled:

"Things like idiots, like him, are of no use at all, but it's okay. Since he is willing to die, let him go. It just happens that I can completely remove him from k2. Everything is fine. It's just business. I didn't expect this **** to actually believe in the nonsense we used to confuse other people."

The black cat couldn't help but let out a sneer, but then said:

"Forget it, we don't care about him, it just happens that his actions can help us attract the attention of those people, and it can be regarded as his last contribution to me, wait for the opportunity."

After saying this, the black cat looked at the continent from a distance and sighed softly.

Chapter 316: Surrounded

Early the next morning, in the outskirts of Donghai City, a helicopter was hovering endlessly in the air, like a **** bird, with an extremely strong sense of oppression.

In the plane, it was Qin Yuan and the members of the Red Cell Team. At this time, Qin Yuan looked at the map in his hand and said directly to the players under his team:

"According to our informant, the boss of K2 has already arrived in our Donghai city, and according to the news from our insider Violet, he is hiding in the centipede mountain under our feet, and now we will completely eliminate it."

"Remember, the lion also needs to fight with the rabbit. Although we have a lot of achievements before, this group of people is not easy to mess with. We must maintain the highest vigilance, and there must be a lot of black cats. They are highly skilled and capable, and they may have more combat experience than ours, so this time the mission must not be taken lightly!"

"Do you understand everything?"

"understand!"

At this time, the members of the red blood cell team stood up and yelled in unison!

"Remember, our first goal is to save Violet, and the second goal is to completely crush the enemy's conspiracy and kill the boss of K2!"

"understand!"

"Okay, get ready to act!"

Qin Yuan nodded when he saw the sonorous and powerful answers of these people, and then he was about to jump off the plane and dive in slowly.

After Qin Yuan was the first to jump down, the people from the red blood cell team jumped down one after another, like a sharp blade, directly inserted into the centipede mountain!

And just halfway through the Centipede Mountain, there is an abandoned factory building that covers a large area. The exterior wall of this factory building is extremely dilapidated and obviously has been abandoned for a long time.

This is a cement factory that previously used Centipede Mountain's resources for cement manufacturing, but recently it was shut down due to serious pollution.

But the factory building that should have been abandoned, but some other people came here, in and out of it, holding various ulterior things.

At this time, weeds were overgrown on a hillside opposite the factory, but a sniper rifle slowly came out of the grass.

He Chenguang squinted his eyes at this time and carefully observed the internal situation of the factory through his sniper scope. At this time, beside He Chenguang, it was Wang Yanbing. He also used a telescope to watch the movement on the opposite side and kept reporting the situation. .

Both of them had already put on auspicious clothes, lying motionless in the grass, blending with nature, even if other people passed by here, they would not find it.

"Captain, there are currently 6 people outside the factory, one on each corner of the factory, and two on the roof of the factory, but we don't know how many people are inside the factory."

Hearing He Chenguang's voice at this time, Qin Yuan said directly:

"There are still seven people in the factory, but these are too many. We don't know where Violet is. Don't shoot for the time being. Slowly lurking in."

Qin Yuan directly turned on the thermal imaging ability and the eagle eye ability at this time, and took in all the factories on the opposite side. The only thing is that the thermal imaging ability can know how many people are in the factory, but it is impossible to see who these people are. Violet.

Hearing Qin Yuan's words at this time, the members of the Red Blood Cell Team began to move slowly and surrounded the factory building.

And on the periphery of the red blood cell team, there are groups of officers and soldiers who are slowly moving, waiting for Qin Yuan's order to rush over, and completely annihilate these people.

But at this moment, a voice came from Qin Yuan's headset:

"Wait a minute, it looks like a car is coming towards this place."

When Qin Yuan heard this sound, he immediately looked in the direction of the small road and found that seven or eight cars were driving out of the forest. There were vans and off-road vehicles in these cars, all of them were moving towards the factory. The direction is going forward.

Qin Yuan took a closer look and found that in an off-road vehicle, a beautiful figure was sitting on the co-pilot of the car, his eyes kept looking around.

"I have found the location of Violet, she is on the third off-road vehicle, pay attention to her safety! Prepare, wait until the off-road vehicle arrives at the factory, when we launch the general attack, repeat it, we must pay attention to the safety of Violet !"

At this time, Qin Yuan gave an order, and then everyone in the red blood cell team answered and received it, and then slowly moved towards the direction of the factory!

Soon, it has reached the designated position, and this row of vehicles has also stopped in front of the factory building. A group of people walking down in the car, and people in the factory have also come out, as if Come to welcome these vehicles outside.

And the leader is a man wearing sunglasses.

"Report! The suspected target black cat has been found!"

At this time, He Chenguang, who was acting as a sniper in the distance, said in a low voice, and upon hearing the news, Qin Yuan replied:

"Try to save the black cat's life, but the first goal is still to rescue Violet. In the event of any accident, you can directly kill the black cat! Do it!"

As soon as Qin Yuan's words fell, the three of Li Erniu immediately pulled the trigger. The barrel of the gun that had been equipped with a silencer shuddered slightly, the bullets whizzed past, and they would stand outside the factory in an instant. The three sentries were killed!

The flamingo in the distance also started a burst of rapid fire, killing the sentry on the other side.

At this time, Li Erniu immediately rushed out and shouted:

"We are the Army Special Forces, put down your weapons, stop unnecessary resistance!"

These words must be said, but for these people, Li Erniu's words are basically in vain. These people have no idea of giving up resistance at all. Instead, they took out their own weapons and wanted to fight Qin Yuan. Wait for someone to fight back!

There was a burst of fire from both sides, and at this time, on the other side of the factory building, Qin Yuan's eyes flashed with a bloodthirsty light, and he instantly turned over from a wall!

This time Qin Yuan did not bring a rifle, but took out his own pistol and fired quickly. The group of people was instantly hit in the head by Qin Yuan's bullet, except for the key figure who looked a bit like a black cat. All were killed by Qin Yuan!

And Li Erniu and others swiftly followed up, killing everyone else as long as they had weapons in their hands!

And above the factory, a helicopter passed directly at low altitude. The artillery and high-speed artillery were exposed from the hatch in an instant. The muzzle was also aimed at the ground below in an instant, and there was a burst of sound from the horn. Driver's voice:

"You have been surrounded, put down your weapons and stop resisting, otherwise we will take military measures!"

Chapter 317: Deceived

Such firepower has completely lost the ability to resist. Many people put down their guns and were controlled by Li Erniu and the members of the armed police force who followed.

It's just that the man wearing sunglasses did not show any signs of surrender at this time, because he understood that even if he surrendered, it would only survive for a while, and the things he did were enough for him to be shot 100 times!

Since he chose this place as his base, he was naturally ready to escape the secret path, but when he just turned his head and was about to escape, he saw a pistol and pointed it directly at his head.

The man in sunglasses turned his eyes and found that he was still flustered just now, but at this time he aimed the pistol in her hand at his head!

At this time, An Ran said directly to the man in sunglasses:

"Black Cat, give up resisting surrender, or I will shoot."

Hearing this voice, the man in sunglasses also took a deep breath, gritted his teeth and said with the patience of his anger:

"I can't believe it. It turns out that the spy among us is really you. I didn't expect it."

But after hearing this, An Ran didn't have any expression on his face, and said directly to the man in sunglasses:

"There are so many things you didn't expect, so surrender quickly!"

"Hehe surrendered?"

The man in sunglasses also sneered and said directly to An Ran:

"You know us, do any of us surrender?"

At this time, when he heard such words, the members of the red blood cell team on the side and the members of the armed police immediately pointed the gun directly at the man with sunglasses.

Seeing the surroundings, the man in sunglasses took a sigh of relief and threw the pistol in his hand to the ground.

And seeing that the man in sunglasses had given up resistance, An Ran was also relieved, but at this moment, the man in sunglasses directly said to An Ran:

"Although you are a smart woman, the black cat is smarter than you!"

Hearing this, An Ran's brows instantly frowned. She really didn't understand what the man in sunglasses meant.

She knew that the black cat is indeed a very cunning person, but in this case, unless the black cat can transform into a superman and fly away, otherwise, is there any way to escape?

At this time, Qin Yuan was also frowning his brows tightly, because he felt that the task was too simple to complete. If it was only that, how could it be worth a grid. You must know the tasks released by the system, never It will be too easy!

"Where is the problem?"

Qin Yuan thought carefully, but although he had read the original work of Fire Phoenix, he didn't remember some of the details clearly!

However, Qin Yuan thought about it carefully, and finally suddenly remembered that the real goal of the black cat was not Centipede Mountain, but Jigong Mountain!

So why does Enron appear here? Thinking back to the words of the man with sunglasses just now, Qin Yuan suddenly understood that the black cat in front of him was a fake!

However, Qin Yuan suddenly noticed that the man with sunglasses in front of him had already moved. He moved extremely quickly. He took away the gun in An Ran's hand and directly controlled An Ran!

"Be careful! He is not a black cat!"

As soon as Qin Yuan's voice fell, the man had already completed the movements of his hands. This man's skill was so good that he was completely different from the members who were killed.

It seems that he is the only member of k2!

The people around him became nervous in an instant. In the distance, He Chenguang aimed the sniper rifle in his hand at the man with sunglasses, but he was full of helpless discoveries. The man with sunglasses had very rich experience and happened to be hiding in his own. Shoot dead spots!

Qin Yuan just wanted to rush over, but the man in sunglasses yelled, and instantly took out a lead from his pocket:

"Don't move! As long as the thread in my hand is broken, everyone is finished!"

At this moment, Qin Yuan's spider induction was instantly activated, but he felt that the danger did not come from the lead in the hands of the man with sunglasses, but from his feet!

"No, they are installing bombs here and everyone quickly backs away!"

Qin Yuan yelled at this time, and when the people around him heard this, they were shocked and shocked.

"Hehe, there are still smart people, yes, I did plant a bomb under this factory building. As long as the fuse in my hand is released, everyone will be bombed into the sky."

Hearing this, An Ran, who was in the hands of the man with sunglasses, widened his eyes, and directly asked the man: "You are not a black cat!"

"Yes, of course I am not a black cat. I am a subordinate of the black cat, the wolf bee! The black cat has already discovered your fault, but it has not been exposed. We just want to use the trick."

Hearing this, An Ran's face suddenly changed:

"What do you want to do?"

"You are just a bait that we throw out. What I have to do is to attract all of you to me. Then the black cat will be able to directly perform another task and get what we really want. thing!"

Upon hearing this, An Ran was completely stunned. She really did not expect that she would indirectly help the black cat!

This is not something incomprehensible. Although An Ran is not doing such a task for the first time, Black Cat is also a scheming criminal. If he can be easily succeeded by An Ran, then how could he have been free for so long.

Of course, Enron was not the only one who was deceived. Everyone behind Anran, including the entire police organization, was deceived!

At this time, Qin Yuan was staring at the lead in the hands of the man in sunglasses and said directly to everyone:

"Everyone slowly returned!"

At this time, other people also reflected, and now all of their lives are still caught on the lead in the hands of the man with sunglasses!

And in Qin Yuan's headset, there was also a voice:

"Qin Yuan, let's let the people from the armed police force retreat first, and then invite negotiation experts to negotiate with him!"

When Qin Yuan heard this, he understood that this is simply impossible, and in the current situation, it is simply impossible to support experts!

However, the surrounding armed police members slowly retreated.

"Haha, not bad, everyone retreats, prepare a helicopter for me, and I will take this woman away!"

At this time, Wolfbee laughed loudly, looking extremely arrogant!

Chapter 318: Moving

An Ran saw this situation and looked directly at Qin Yuan, with a trace of regret and a trace of longing in his eyes, but he screamed directly with unparalleled determination:

"Leave me alone, just kill him!"

Having said this, An Ran actually grabbed the wolf wasp's arm directly, trying to take the lead from his hand!

"Damn, stinky lady, let's die together!"

This wolf wasp was also taken aback. He knew that if he didn't have the hostage An Ran in his hands, he would not be able to go out. So while pulling the trigger of his pistol against An Ran, he pulled the fuse, wanting Die with everyone!

At this time, seeing such a situation, Qin Yuan was also a direct inspiration. If this guy really broke the lead, then not only will the mission fail and die, but even the entire mountainside will be killed!

At that time, I am afraid that there will be few living people except Qin Yuan!

Qin Yuan's eyes widened at this time, his dynamic vision ability was activated instantly, and the wolf wasp's movements were immediately slowed by 21 times the speed, and then Qin Yuan instantly drew out his identity card and directed it towards the one in the wolf bee's hand. The lead flew past!

Not only that, Qin Yuan's body also moved with an instant burst of power, and the whole person was like a flash of lightning, directly kicking the wolf bee out!

Say it's too late, then soon!

"No, be careful of explosions!"

Li Erniu who was on the side shouted,

But everyone's eyes flashed, but they saw the wolf bee flying out directly!

Also flying out was Qin Yuan. At this time, Qin Yuan directly held down the wolf bee, and the python strangulation technique directly twisted the wolf bee's wrist, and with a slight move, it directly wrecked the wolf bee's wrist!

"what!"

The wolf bee let out a scream at this time, but Qin Yuan didn't care at all, and instead put all his attention on that lead!

Qin Yuan tore the clothes on the wolf bee directly, and found that there was an instrument on the wolf bee's body. The switch followed the arm and was directly wrapped around the finger.

As long as the wolf wasp's finger moves, the lead wire will be pulled, and the switch will be activated directly.

Even if the wolf wasp moves a little bit more, it will pull the switch.

Qin Yuan knew that this was because the wolf wasp was afraid that he would be killed directly, so this switch was designed to be so easy to trigger. As long as the action before death was larger, the switch could be activated directly!

At this moment, seeing that the wolf bee had been held by Qin Yuan, the people around immediately wanted to rush over, especially An Ran, with a hint of excitement in her eyes, and she just yelled, "Qin Yuan!"

But Qin Yuan said coldly:

"Everyone, all back! Exit this mountain!"

Hearing this, everyone around was stunned, but at this time, they saw Qin Yuan remove an electronic device from the wolf bee!

And on this electronic device, there is a countdown!

"Haha, you thought I didn't prepare for the next move. Actually, I knew from the beginning that I couldn't live anymore. Even if I didn't have a drawstring, this device would still start directly as long as the time came, and none of you could run away. Drop!"

The wolf wasp was clamoring frantically at this time, but Qin Yuan directly knocked the **** out with a punch:

"Shut up and yell at you!"

At this time, Qin Yuan directly turned on the controller, and found that there was a series of codes on it, completely different from the bomb lead Qin Yuan imagined!

This tm' is not a bomb, but a microcomputer!

Qin Yuan was also dumbfounded. If it was a bomb, Qin Yuan had a way. When he was planning to deal with Nuoja, he learned a series of knowledge about bomb dismantling and bomb making.

But the thing in front of me is not a bomb at all, but a controller for all the bombs on the mountain!

To crack this, you need a hacker expert rather than a bomb expert!

At this time, the people around were sweating on their foreheads as they watched the countdown with only two minutes left. One of the armed policemen from the computer unit rushed over, but looking at the dense data above, their eyes were straight.

Qin Yuan saw this person's appearance, and directly asked him:

"Are you sure?"

"I have studied programming. He uses a duplex design. It is not difficult to untie it, but it is too difficult to untie it within two minutes!"

The computer expert's voice was also a little trembling at this time. He knew that the lives of hundreds of people around him were probably in his hands.

Qin Yuan's eyes were cold when he heard this, but he was not proficient in computer programs and other things, so he could only say directly to the expert:

"Okay, then you can do it now."

Qin Yuan is extremely angry at this time. He does not have a grid in his hand, so there is no way to analyze this thing. If he can have a grid in his hand, I am afraid that he will directly recover the computer to gain the ability to crack the signal source. All these bombs can be dismantled in an instant!

It's a pity that all the last squares have been used up before, and Qin Yuan regrets that in his heart, he should keep one square, even if the progress of the Fire Phoenix training is slower, he shouldn't take such a risk.

But at this moment, An Ran, who was standing on the side, suddenly asked Qin Yuan:

"Qin Yuan, how is it?"

"Not so, now I can only hope to disassemble this remote control device, otherwise it will only take two minutes, even if we fly with wings, we can't escape from this place."

At this time, Qin Yuan is also a little anxious. He understands that if the bomb really explodes, their losses will be extremely heavy!

Although Qin Yuan knew that with his own ability, even if it really exploded, he might survive, but I don't know how many people around him could survive.

Qin Yuan's face was ugly at this time, and he had never felt that he was so weak, especially when he looked at that computer expert's extremely nervous look, Qin Yuan thought from his heart that he might not be able to finish it!

Hearing this, An Ran was also nervous, but looking at Qin Yuan, An Ran suddenly relaxed, with a gentle smile on his face, and said directly to Qin Yuan:

"It doesn't matter, no matter what happens, I will be with you."

At this moment, Qin Yuan's eyes were also stunned when he heard such words, looking straight at An Ran, a slight change occurred in his heart.

In fact, if you really said it, An Ran was the first beautiful woman he met, but the time between the two people was too short, and they did not develop in that direction. Now that he heard An Ran's words, Qin Yuan suddenly felt Touched.

Chapter 319: Wait to die

At this moment, Qin Yuan's mood was completely excited. Someone was still waiting for him. How could he give up so easily? When he saw An Ran, his eyes suddenly brightened, and he said directly to the people around him:

"Helicopter, hurry up and take people away!"

Hearing such words at this time, the surrounding people also reacted. Although they can't escape here within two minutes with two legs, the helicopter can!

Everyone's eyes lit up at this moment, and after hearing Qin Yuan's voice, the helicopter above also directly descended a rope ladder.

In fact, everyone around is staring at this rope ladder closely. They understand that as long as they are on this rope ladder, they are likely to survive, and they will not bet their lives on this small one. on the computer!

"An Ran, you go up!"

It's just that Qin Yuan said something to An Ran directly, but when An Ran heard this, he stared directly at Qin Yuan'er by the collar, and said to Qin Yuan'er:

"No, I won't go if you don't go!"

At this time, Fan Tianlei's voice came from Qin Yuan's headset:

"Qin Yuan, I order you, get on the helicopter now and leave here!"

Fan Tianlei was extremely anxious at this time. He had just received the news and directly ordered Qin Yuan to leave.

After all, how amazing Qin Yuan is, he knew that if Qin Yuan really died here, it would definitely be an irreparable loss for their military!

However, Qin Yuan completely ignored Fan Tianlei's words. Instead, he gently patted An Ran's hand, a light of confidence flashed through his eyes, and said comfortingly to An Ran:

"Trust me! As long as you leave here quickly, I will have a way to remove this remote control! Remember, you must be fast!"

Hearing Qin Yuan's words at this time, An Ran's heart was full of anxiety, but seeing Qin Yuan's confident eyes, An Ran couldn't help but choose to believe in Qin Yuan. She thought about it carefully, as if she had been acquainted with Qin Yuan, Qin Yuan always surprises himself, and hasn't lied to himself, so An Ran also gritted his teeth abruptly, turned around and climbed up the rope ladder:

"Qin Yuan! I tell you! If you dare to lie to me, I will never let you go in my life!"

After saying this, An Ran climbed to the top of the helicopter very quickly, but when he heard this, Qin Yuan showed a smile, and then directly gestured to the helicopter pilot, indicating that the helicopter should leave quickly. !

"Qin Yuan, did you hear what I said! Get on the plane, you can't die here!"

Fan Tianlei shouted hoarsely at this time, and when he heard this, Qin Yuan also frowned, and whispered directly to Fan Tianlei:

"Are you going to let me abandon all my subordinates and run away by myself?"

After saying this, Qin Yuan directly turned off the headset, and then continued to signal the helicopter to leave.

The people around also quietly watched An Ran sitting in the helicopter, and no one rushed towards the helicopter madly.

They all understand that as long as they get on this helicopter, they can leave here, but there is only An Ran who is a woman. Although they are all soldiers, as a man, she is born to protect women.

More importantly, they saw Qin Yuan, the highest official here, still standing here, and did not leave with An Ran.

After seeing Qin Yuan's gesture, the pilot of the helicopter directly pulled the helicopter up. He knew that this place might explode soon. Although only one person came up, he could only be saved first.

At this time, Qin Yuan looked at the helicopter that was going away, smiled slightly, then returned directly to the controller, stared at the expert, and found that the man's operation on the laptop had slowed down. With sweat on his face, he was obviously experimenting extremely nervously on how to remove this thing.

At this moment, everyone was looking straight at the remote control. They all understood that now the only helicopter had left, and they had no way to escape from here.

The only way to survive is to wait for this expert to crack the controller!

Watching the time on the controller continue to decrease, everyone's hearts are extremely nervous, and sweat is dripping on their foreheads!

This feeling of life hanging by a thread is a psychological torment for everyone!

At this time, Qin Yuan, although his eyes were staring at the controller, he was always looking at his system in his mind.

"Quick! Quick! Quick! Quick!"

At this time, Qin Yuan stared at the tasks in his system, holding a part that had been forcibly broken off the controller just now!

Finally, Qin Yuan heard the voice he wanted to hear!

"Ding Dong, congratulations to the host for completing the task, successfully saving An Ran from the hands of k2, and rewarding a grid!"

The system prompt that usually seemed a little cold, at this time, in Qin Yuan's ears, it was like a natural sound.

There was a slightly hideous smile on his face, and the small parts in his hand were received into the grid in an instant!

"System, recycling!"

And following Qin Yuan's action, the system rang again and again.

"Ding Dong~ Please start to choose the host!"

With the prompt sound of this system, three options suddenly appeared in front of Qin Yuan!

"1. Get a world-class telecommunications signal to crack!"

"2, get world-class controller manufacturing!"

"3, obtained world-class plastic material development!"

At this time, seeing these three options, Qin Yuan's eyes released a sharp light, and after a cursory glance at the content of these three options, Qin Yuan directly yelled at the system in his heart:

"System, I choose the first item!"

"Ding Dong, congratulations to the host for your successful choice! Get a world-class telecommunications signal cracked!"

With this voice, Qin Yuan suddenly felt a series of computer programming knowledge stuffed into his head. In just a second, Qin Yuan has become a rare computer expert in the world!

But Qin Yuan was still unsatisfied, so he directly snapped off the controller in front of him a few more pieces, and then put these parts in his pocket!

At this moment, everyone around was dumbfounded, and the expert broke out completely, and said directly to Qin Yuan:

"What are you doing! Do you know that violent dismantling methods like yours are useless at all. If we encounter any important components, we will not be able to dismantle them at that time, everyone can only wait to die!"

Chapter 320: frown

At this time, Qin Yuan was not angry. He also understood. At this time, he did this by himself, and it really scared everyone. The expert in front of him was already under pressure. Now he has found himself. This vent is naturally going to vent.

The people in the surrounding red blood cell team also looked at Qin Yuan with shock. They all knew that Qin Yuan was not the one who made trouble at this professional moment.

"Captain, what's going on? Is it really because of too much pressure, so you lose your mind?"

At this time Song Kaifei wiped the cold sweat on his forehead and asked his companion on one side.

But Xu Tianlong said:

"I don't think it's like. The captain's ability to withstand is much stronger than ours. Although we only have less than a minute left, we haven't collapsed yet. How could the captain collapse so quickly? He must have something else. Method!"

As soon as Xu Tianlong finished speaking, Qin Yuan had already laughed and said to the expert with great ease:

"It's okay, don't worry, I was measured when I did it just now, knowing that moving these places will not affect the core. Can you still do it, if it doesn't work, then change me?"

"Replace you? Are you crazy? I worked out just now for more than a minute. Now there are only forty seconds left. Come, I... I tell you, I surrendered, this can't be done at all. All of us, I'm afraid we will die here... Wow-I just got married and I have no children yet!"

At this time, the expert who seemed to be in his thirties actually cried directly.

When the people around saw this situation, they were completely desperate. They lost all their strength, all of them limp to the ground.

But at this time, Qin Yuan showed a smile, and then directly took the computer in the expert's hand to his side, even in the mood to change the computer to a nice background.

At this time, the expert saw Qin Yuan's hand movement, and he was extremely desperate. He watched Qin Yuan change the background and it took two or three seconds, and he was even more optimistic about Qin Yuan's ability to unlock the controller. .

Now there are only twenty seconds left. In this time, even the top hackers in the world cannot crack this controller.

But when everyone was desperate, Qin Yuan moved!

His whole person fell into a state of no one and no self, and his two hands instantly turned into an afterimage, and he pressed frantically on this laptop!

The reason why Qin Yuan is so unhurried is that he thought he knew that everything was too late. He has now upgraded the ability to crack the electric signal to the cosmic level, and cracked this small controller, let alone twenty seconds, I am afraid it is. No need for five seconds!

Seeing Qin Yuan's hand speed at this time, he knew that Qin Yuan really planned to take over. The computer expert said helplessly:

"Don't do useless work, we are all dead. Although hundreds of bombs were buried, the signal source of the bombs is easy to find, but the person who set this thing is a master, and I can't crack the password he set. ."

But Qin Yuan seemed to have not heard the words of the expert at all. His eyes were just staring at the computer, and the series of characters flicked across like water.

At this time, on a ship on the high seas, a man with a bald head showed a sneer looking at the settings on the computer.

Fortunately, the boss who seemed very difficult to get along with has already gone. Now on this ship, he is basically the boss. As long as he has done his own thing well, he is the most respected person among these people!

"Huh, I won't deal with these savages again when I finish this order."

The Mediterranean whispered these words in a low voice, thinking of her own beauty in the car, a little intoxicated in her heart.

Thinking of that beautiful scene, the Mediterranean took a gentle sip of coffee, but at this moment, there was a sudden ominous red sound on the screen!

With a pop of Mediterranean Sea, I sprayed my coffee onto the computer!

"What's the matter, my advanced encryption was broken in three seconds! Who is this?"

At this time, the Mediterranean exclaimed and looked at the screen incredulously.

Although the screen is already stained with coffee, but fortunately, the computer screen is drained, and it is not turned off directly, but the Mediterranean has no time to wipe the computer, but put both hands on the keyboard, and it works quickly!

But after only a few seconds, the Mediterranean was completely desperate, and he lost!

This is just a few seconds, and he has collapsed across the board. In the hands of the opposite person, there is no resistance at all!

"It's over, it's all over. Not only did I lose the controller, but all the information in my computer was leaked out. How could there be such a master in Yan Country?"

At this moment, the Mediterranean Sea was sitting on the ground, and he could clearly see that the data on his computer leaked out like a tide. If this person called the black cat knew, he would definitely be killed!

Thinking of this, the Mediterranean was extremely desperate. At this moment, when he heard the movement inside, someone outside opened the door directly and came in. The Mediterranean saw this, and immediately turned off the power on one side, and all the computers were instantly black. Up!

Although this Mediterranean is extremely clear, this is completely useless, all the information has been leaked out, and it cannot be saved if the power is turned off.

But in this way, it can at least slightly delay the time when I was discovered by these people. At this time, after the two guards outside came in they saw that the computer in the Mediterranean was black, and asked a little strangely. :

"What's the matter? Why is the computer screen black?"

And this Mediterranean pretended to be calm and said:

"It's nothing, it's just that I accidentally got the coffee on the screen just now, so I turned off the computer and cleaned it up.

Hearing this, the two guards didn't have any doubts, they just glanced at the Mediterranean and said to this person:

"Then you'd better be careful, don't delay our boss's plan, or you will look good!"

But this Mediterranean yelled:

"Have you talked to me like this? I'm your distinguished guest. Get out!"

Hearing this, the two guards glanced at each other, and then they left here directly. When they saw the two guards leaving, the Mediterranean was relieved, and thought with a sad face, what way should he use to escape? This ship.
