

## **Special Soldier 33**

Chapter 33: Crazy Kill 【Four/Four】

Da da da!

DaDaDaDaDaDa!

an instant!

Crazy bursts are on!

caught off guard!

The two guys who drove were eliminated instantly!

The blue smoke instantly filled the entire cab!

The two eliminated soldiers were immediately smoked!

I heard gunshots!

The four soldiers in the truck were shocked!

They immediately jumped out of the carriage!

However——

It's okay if it doesn't come out!

jumped out of the car!

hasn't landed yet!

The heads of the four of them!

was exploded by a bullet very accurately!

All four were shot on the left side of the head!

and they are half an inch above the left ear!

location is not bad!

"Unexpectedly, the Qiankun-level marksmanship is so terrifying!"

Qin Yuan smiled.

For his marksmanship!

Very satisfied!

Others may not be able to see, what is the horror of his marksmanship!

But as long as he knows it himself!

and.

The main thing is!

He just used it!

is just a world-class marksmanship!

It just surprised him!

Unexpectedly, the Universe-class marksmanship!

has also reached the point of being free!

Where to fight!

"Congratulations to the host for successfully killing (5/10) enemies, please keep working hard!"

The crisp system reminder sounds!

The system helps Qin Yuan calculate the number of kills in real time!

"Fuck! Brother Yuan, you are too awesome! I did it first and only killed two! You came first, but you killed four?"

When Li Erniu saw this, he couldn't help but exclaimed again!

But he is not as shocked and fussed as he was at the beginning!

"Isn't this basic operation?"

Qin Yuan smiled and led Li Erniu over and jumped onto the road.

immediately.

is not too verbose!

directly use powerful "force"!

Let the other party submit!

Leave the car to them!

kick the accelerator!

Qin Yuan drove the car away!

drove the car to the side of the jeep and let Li Erniu go and let the gas go! Add it to the jeep!

Qin Yuan searched in the car!

He wants to find information about the blue command post!

However, after searching for a long time, Qin Yuan found nothing at all!

"This is weird!"

"Is there no clue?"

Qin Yuan was surprised at the security of the Blues!

But after thinking about it, this kind of simple secrecy method seems to be taken for granted!

If a car is intercepted and the blue army command post is found, wouldn't the blue army be killed soon in a real war?

after all.

Once the coordinates of the command post are exposed!

The enemy's missiles may soon reach the opponent's command post!

Take away the entire nest!

"Right, missile?"

suddenly!

Qin Yuan is an exciting spirit!

A more exciting plan emerged!

"I still have a free grid now!"

"If you kill the Raiden Commando, you will get 3 grids!"

"At that time, if I learn hacking techniques! I wonder if I can seize control of the Blue Army missiles?"

Qin Yuan blinked his eyes!

can't help but get excited!

The power of the system!

Qin Yuan has already seen it!

He believes!

As long as you can find a book about hackers, recycle it into the system!

Maybe!

He can really become a top hacker in the world!

and it can be omnipresent!

The kind that is pervasive!

Any network, in front of Qin Yuan, will become extremely vulnerable!

will not have the slightest defensive ability!

"No way, no way!"

But immediately, Qin Yuan denied this idea!

Use missiles to kill the blue command post, but there is no reward!

And if you eliminate the Raiden Commando, you can get three grids!

There is also that, kill the Blue No. 1, lead the red team to victory, and get three squares!

"This exercise must be used well! Not only can I make Lao Tzu famous in a battle, but also can harvest many grids! For grids, not one can be let go!"

Qin Yuan smiled, did not find the map of depression, and suddenly swept away!

As long as there is enough time!

I believe I can definitely find the blue command post!

"Hmm! I can't find the command post now! Then let's kill!"

Qin Yuan's eyes flashed sharply, he quickly changed his mind and made a new strategy!

after all.

kill 10 ordinary blue soldiers, you can also get 1 grid!

"Brother Yuan, the gas in the jeep is full! Are we going now?"

At this time, Li Erniu came over with a smile.

"Oh? Filled up so soon? Then let's continue on the road!"

Qin Yuan raised his eyebrows when he heard this!

got on the jeep!

Qin Yuan went back the same way!

Because he suddenly remembered that the blue soldier's car came out from the opposite direction!

In that case!

He also came in the opposite direction!

gallop all the way!

As expected——

did not open long!

Qin Yuan found a large army!

This blue army has more than 20 people!

Qin Yuan's eyes lit up!

"Tsk tsk, 23 people in total, if you kill them all! Doesn't it mean that I can get two squares?"

These 23 people, instantly became Qin Yuan's thorns, in the bag!

"Er Niu, Big Fish is hooked again! This time, you let go of the fight! You can fight a few!"

Qin Yuan smiled, moved his heart, drove the car and galloped towards the prey 800 meters away!

"Good Lieyuan brother! Then I have to behave well!" Li Erniu rubbed his palms, full of spirit!

People's confidence comes from war!

fought a few battles with Qin Yuan!

Now Li Erniu is full of confidence!

Let him go single-handedly to fight against the Raiden Commando, I am afraid there will be no hesitation!

The car is galloping all the way!

soon!

The car is directly crossing the only way the enemy is about to cross!

"Brother Yuan, where is the enemy?"

Li Erniu looked around and found nothing!

"Silly Erniu, the enemy hasn't arrived yet! Let's give them an empty plan!"

On the way here, Qin Yuan had already figured out a strategy!

One person wants to kill 23 people!

is not easy!

The best way is to disperse these 23 people and break them one by one!

Otherwise--

Even Qin Yuan, if you confront 23 of them with a steel gun!

Qin Yuan will also be shot through, OK?

"Empty city plan? An empty city plan like Zhuge Liang in the Three Kingdoms?"

Li Erniu's eyes lit up, "Hey, Brother Yuan, I listen to you!"

"Okay!" Qin Yuan originally wanted to explain to Li Erniu!

but now.....

See Li Erniu, his teammate, very qualified!

Qin Yuan is too lazy to explain!

Qin Yuan took Li Erniu directly to the side of the road!

in the jungle more than 20 meters away from the jeep!

The two hide behind the big tree, waiting for the enemy to arrive!

After a while!

As expected——

There are three queues, a total of 23 people, appearing mightily on the road, the lights are red!

However——

I saw the Jeep on the road!

The 23 people are like enemies!

was shocked!

Da da da!

DaDaDaDaDaDa!

at this time--

Crazy shooting!

is finally here!

As soon as Qin Yuan shot, he killed 7 people!

"Ding Dong~ Congratulations to the host for successfully killing 12/10 people and unlocking a new grid!"

The crisp system prompt also rang in real time!
