

## **Special Soldier 36**

Chapter 36: 1 person destroys the team!

In a moment.

Qin Yuan rushed to a place less than 100 meters in front of Thunder God!

The sound of gunfire!

Thor, lying on the grass behind the big tree, billowing yellow smoke came directly from his body!

accident!

Shock!

Panic!

Various emotions!

A brain surged in Thor's heart!

Lei Zhan is completely stunned!

"No, Thor! You were eliminated again?"

"Seven people, there is nothing to fight back!"

"I have been on the battlefield for many years, this time I don't even know where my opponent is?"

"Our such a powerful Raiden commando was destroyed so effortlessly?"

.....

for an instant.

Start frying in the communicator!

It boils completely!

Various emotions burst into exclamation!

The old fox and the bee Yan Wang and others were both shocked and depressed!

Lei Shen's face was pale, as ugly as if he had eaten a fly, "It's defeated! It was so defeated? There is no way to fight back? This Qin Yuan... is really a recruit? Wouldn't it be the Chief of Staff who found it somewhere? Isn't he a big boss? To die of thirst... it doesn't look like his age!"

This time, Thor is really depressed to death!

However.

Some people are happy and some are worried!

"Get it done!"

Seeing Thor in the scope of sight was easily eliminated!

Qin Yuan finally showed a bright smile!

"dingdong~"

at this time.

The crisp system prompt finally rang!

"Ding Dong~ Congratulations to the host for completing the system task and successfully eliminating the Raiden Commando! Award three new grids!"

The black grid on the system interface instantly opened three small locks, turning it into milky white!

"There are three more grids in hand! Good fortune!"

Qin Yuan smiled. Now, he has 6 grids in total!

can finally do some new attempts!

Don't have to live so hard!

after all!

Before this, he had to consider the grid problem every step of his improvement!

"I am physically invincible now! Marksmanship is invincible! But for soldiers, there is another important skill! Fighting!"

"Next, let's improve the fighting!"

Qin Yuan smiled and quickly found his direction!

China has a word!

Two thousand jins!

This four or two is a thousand catties!

means to pay attention to the importance of fighting skills!

Strong fighting skills alone!

can even beat many guys with much stronger physical qualities!

an instant!

Qin Yuan's head!

There are many ways and ways to improve fighting skills.

"Huh? The little bee Yama and the others came over? It seems that their anti-reconnaissance consciousness is good!"

For Hades, Qin Yuan suddenly admired him!

Because it was the first time I moved the position!

Qin Yuan locked the entire battlefield at all times!

He was surprised to find!

At that time, Hades discovered his position!

deserves to be the top sniper!

And now--

After eliminating Thunder War!

Hades, this guy has discovered himself again!

"For this group of guys, do you see or not?"

Qin Yuan raised his eyebrows and showed a playful smile.

Originally, he was preparing to retreat!

wave his sleeves without leaving a cloud!

but now.

He was suddenly very interested, and had a few words with this Hades!

"Er Niu, the battle is over! Come and pick some supplies!"

In the communicator, Qin Yuan said to Li Erniu.

In that case!

Qin Yuan also asked Li Erniu to come over and pick some useful supplies!

"Good Brother Yuan!" When Li Erniu heard this, he was suddenly excited!

There are supplies to choose again!

This battle!

is so rich!

Li Erniu's bullets are used very fast!

Qin Yuan even guessed!

Will Li Erniu be the soldier who hit the most bullets in this battle!

no way!

Follow Qin Yuan and drink spicy food!

Enough bullets!

I want to play less, too!

In a moment.

Yama and the little bee ran over.

Seeing Qin Yuan, the king of Yan suddenly sighed, "You... are you just a private soldier?"

Looking at the private epaulettes on Qin Yuan!

The king of Yama suddenly seems to have eaten fly shit!

'S face is even more ugly than Thor!

"Little brother, it's you, who single-handedly killed our Raiden Commando?"

Little Bee couldn't help but ask, wanting to ascertain this terrifying fact.

Qin Yuan smiled indifferently and nodded, "Yes, I killed you! It's just the Thunder Commando? I haven't heard of it. Are you not ordinary blue soldiers?"

Qin Yuan is a recruit!

can have terrorist marksmanship!

But I can't know Yama and them!

Otherwise--

Isn't it showing up?

"....."

"....."

Hades and Little Bee have a listen!

'S face suddenly became even more ugly!

special meow!

The opponent doesn't even know their famous Raiden Commando? ? ?

To know!

They are the super ace of Spike, OK?

Lei Zhan stomped!

The whole wolf's teeth must tremble, OK?

But think about it...

Qin Yuan is a recruit!

It seems...

It is indeed impossible to know them!

I'm afraid Qin Yuan doesn't even know Langya!

Not to mention their Raiden Commando!

Especially now...

Their entire special warfare team was eliminated by Qin Yuan alone!

The past of their Raiden Commando is glorious, what can it be?

Isn't Qin Yuan's defeated now?

They used to be tough again!

I can only explain more now!

Qin Yuan's powerful and terrifying!

"Little brother, you really can't know us! But let me tell you that we are one of the special warfare ace of the Spike Brigade, a member of the Raiden Commando!"

After clearing up my mood, Hell smiled kindly!

Losing means losing!

Although I don't want to admit it!

But they will not be fooling!

"With your strength! I believe that after this exercise is over, you will soon enter Spike! At that time, will have more opportunities for us to meet!"

Yan Wang smiled generously, "Hello, introduce myself, my name is Yan Gang! Codename Yan Wang! At that time, if I need to ask Yan Gang, please let me know."

Hades put his posture very low!

The little bee on the side gave him a surprised look. How did the arrogant Hades become so talkative?

Qin Yuan was also slightly surprised!

This Hades, can afford it, let it go!

The mentality and personality are indeed good!

Qin Yuan also smiled indifferently, "The King of Hades is so polite! I'm just a recruit! I should learn from you!"

is the so-called slanted sedan chair people carry people!

Reach out and don't hit the smiley person!

Since the king of Hades is like this!

Qin Yuan can't help but give him face, right?

At this time, Li Erniu ran over, "Brother Yuan, where are the trophies? My bullets are almost finished again! This time I have to supplement them!"

"Right! Trophy?"

heard what Li Erniu said!

Qin Yuan's eyes lit up immediately!!

His eyes are rolling on Yama!

because--

He fell in love with Yama's sniper rifle!

He now has only a cosmic rifle shooting technique!

But on the sniper rifle!

is blank! !

"Now I have a lot of grids! Why...try the sniper rifle skills?"

Qin Yuan's eyes lit up!
