

Special Soldier 411

Chapter 411: False identity

When Gao Gang heard this, he cursed angrily:

"Little white face is still reasonable."

"But it's hard to tell, isn't your girl also grown up, I tell you, maybe she will be fascinated by me at that time, crying and crying to marry me, you can't stop it."

Qin Yuan's eyes were full of pride, but Gao Gang said disdainfully:

"Then what am I blocking? If I can get an extra son-in-law, I will be too happy to be happy. You can't call me father like that!"

Hearing this, Qin Yuan was completely speechless, and he was so black that he had a thicker face, and if Gao Gang was so dark, his face was as thick as a corner of a corner!

"Didn't you say that you are going to pick me up? How come you are the only one here. What about the others?"

At this time, Qin Yuan looked at the car empty, only Xiao Tian stared at him, and asked Gao Gang.

Gao Gang also said with a smile on his face: "I want to call them here, but unfortunately they don't have the time and are anxious to investigate the case. After all, they are still young, unlike us old men. Struggle and struggle."

But after hearing such words, Qin Yuan slapped Gao Gang's hand aside, and said to Gao Gang:

"Don't you want to bring me in. I'm just 20 years old this year. It's a great youth. By the way, they are all busy. Are you not busy?"

"Oh, I really don't have much to do. After all, I'm up to the level now, but people are idle. This is a bit unaccustomed."

Gao Gang complained a little bit, and when he heard this, Qin Yuan also slapped Gao Gang on the shoulder, and said to Gao Gang:

"Don't be ignorant of the blessing in the blessing. How many people imagine you are so leisurely. Besides, although there are not many things, it is more important than before, but you have to work hard."

At this time, Gao Gang smiled when he heard Qin Yuan's words, then stretched out his hand and patted Qin Yuan's shoulder, and then the two of them headed towards a restaurant together.

The two people found a quieter restaurant, booked a box, closed the door after entering the box, and directly opened the Kandashan mode!

It's still early, so there are no people in the hotel, so the food is served very quickly. The two of them just drank the wine and ate the food, happily like gods.

At this time, looking at Gao Gang's appearance, Qin Yuan suddenly remembered Fang Xinwu who was with them in the Silver Triangle before, and asked Gao Gang:

"By the way, do you know where Fang Xinwu went?"

Hearing such words, the chopsticks in Gao Gang's hand paused, but finally he sighed and said directly to Qin Yuan:

"I told him before to let him come back directly to be a policeman, but he was unwilling, and later added him to the list of deaths. Now where he went, I don't know anymore, I only know that he should pay back now. Alive, maybe in a stockade in the Silver Triangle to drink a bar."

Hearing such words at this time, Qin Yuan also fell silent. He also knew about Fang Xinwu's affairs, knew what Fang Xinwu had experienced, and knew that everything Fang Xinwu did was for revenge.

Now that his enemy is dead, he is also dead.

Although Fang Xinwu made great contributions this time, the comfortable life in the country did not suit him. His roots were already there, so Fang Xinwu did not come back.

Perhaps only here can he be considered alive.

And seeing Qin Yuan's somewhat heavy look, Gao Gang also knocked the bottle directly, and said to Qin Yuan:

"Okay, we don't have to feel sorry for him. After all, it's his own choice. You also know that the time spent undercover is longer, and it will start to not adapt to our domestic environment. What does it look like!"

When Qin Yuan heard this, he also murmured:

"Actually he is a real hero."

He has been undercover for 10 years, and he has been able to maintain his loyalty to the country, struggling on the line of life and death in the silver triangle every day. If he were replaced by someone else, he would have fallen.

The work of Fang Xinwu is also essential for Yan Guo's anti-drug police to solve so many big cases. He belongs to the root hidden in the dark, and others can't see it, but he can absorb nourishment and let the outsiders. The trunk grows taller and more beautiful!

As for those who do not understand, they can only say that they are not standing in the environment of the other party. If they are really allowed to go to the Yin Triangle, they can live for a few days.

At this moment, seeing Gao Gang's appearance, Qin Yuan also sighed, and then said to Gao Gang:

"If you can still contact him now, you can explain it to him and ask him to help me look at Garuda in the Silver Triangle. If Garuda does anything unfavorable to Yan Country, report it to me directly."

Hearing such words, Gao Gang was shocked, his expression changed, and he asked Qin Yuan deeply:

"You mean, Garuda seems to be you..."

But Qin Yuan directly waved his hand and said to Qin Yuan:

"It's all you guessed it, I never admit it, come here, drink and drink."

At this time, Gao Gang heard this, and a glimmer of excitement flashed in his eyes, no wonder there was nothing recently, it turned out that there is such a reason!

At this time, Qin Yuan smiled slightly when looking at Gao Gang's appearance, and then said directly:

"By the way, if I want a fake identity, I don't know if you can help me,"

At this moment, Gao Gang was stunned when he heard these words, and asked Qin Yuan in a puzzled way:

"What are you doing with your fake identity?"

There was also a gleam in Qin Yuan's eyes' and said to Gao Gang:

"I'm currently performing a task and need a different identity to hide myself, can you do me a favor,"

Hearing Qin Yuan's words, Gao Gang hesitated for a while, but finally nodded, and then whispered to Qin Yuan:

"You also know that many of us who are undercover agents need false identities, so I know many people in this area. I can introduce them to you, but you must never say that I told you."

At this time, Qin Yuan smiled slightly and said to Gao Gang: "Can I do this kind of thing?"

After that, Gao Gang gave Qin Yuan a contact method, and after Qin Yuan wrote it down, they continued to eat. After a full two hours, both of them lay directly on the box and fell asleep.

This time they did not find out. It was in a room far away. A man was holding a telescope to monitor Qin Yuan, and there was also a camera on the other side, watching covertly in this box. Two people.

Chapter 412: Superb medical skills

Yang Lei, who was in front of the camera at this time, whispered on the intercom:

"Principal, I really didn't find any magical place about this person. With such a person, I am not enough to join our school."

But at this moment, the companion on the side said to Yang Lei:

"Team leader! He disappeared!"

what?

Hearing this, Yang Lei rushed to the telescope in an instant, took a careful look at the box, and found that Qin Yuan had indeed disappeared!

Suddenly, Yang Lei suddenly felt an extremely bad feeling in his heart. He directly said to this companion:

"Hurry up, we may have been discovered!"

But at this moment, the two of them suddenly heard a Zen singing, then a dizziness appeared, and then they saw a man, and suddenly rushed in from the window!

At this time, Qin Yuan took the walkie-talkie that was not on Yang Lei's chest, then glanced at the channel above, said a word softly, and after a noise on the other side, he soon switched to the walkie-talkie.

However, Qin Yuan showed a smile when he looked at the walkie-talkie, and instantly received the walkie-talkie into the grid.

"Ding Dong~ The system was successfully recovered, please start the selection!"

With the prompt sound of this system, three options suddenly appeared in front of Qin Yuan!

"1, get world-class walkie-talkie manufacturing!"

"2, get world-class signal capture technology!"

"3. Get world-class signal enhancement technology!"

Looking at these three options, Qin Yuan suddenly showed a smile, and then said directly:

"System! I choose item 2!"

"Ding dong! The host is selected successfully, and has obtained world-class signal capture technology!"

At this moment, with the sound of the system, Qin Yuan suddenly had a lot of knowledge in his mind. He directly picked up the computer on one side, and then started to inquire based on the information just now, and soon found a coordinate.

Then, Qin Yuans actually hit Yang Lei who was standing aside, and Yang Lei instantly came to his senses, looking at Qin Yuan standing in front of them, his eyes were also full of incredible expression, and said to Qin Yuan: "You ...How did you get in?"

"Of course it came in by climbing the wall. You are not too high here, it's only 10 stories!"

At this time, Yang Lei was stunned when he heard such words, although for people like them, climbing up from the outer wall is not a particularly sophisticated method.

But he was just a daze just now, and now he was climbed up by Qin Yuan?

How long has he been distracted just now? Is there a minute? Not even a minute?

And Yang Lei also discovered that Qin Yuan indeed drank wine, but he watched Qin Yuan drink all the wine bottle by bottle. After drinking, there was such a speed. Wouldn't it happen if he didn't drink. Faster?

At this time, Qin Yuan did not give Yang Lei any time to react. He directly placed a coordinate in front of Yang Lei's eyes, and said with a smile:

"The exact location is here, I guessed it, right?"

But at this time, Yang Lei heard such words and saw Qin Yuan's coordinates on your paper, but he showed a strange smile, and then said to Qin Yuan:

"Although I don't know what means you used to get this position, I can only regret to tell you that it is not the place you were looking for."

what?

At this moment, Qin Yuan frowned when he heard such words, but at this moment, a voice came from the walkie-talkie:

"Okay, okay, this is the end of the matter, and the test is over, Yang Lei, we can't get rid of the horns, people have already discovered my lair, we can't be shameless!"

Hearing this, Yang Lei also nodded suddenly, and said directly to Qin Yuan: "Congratulations, you passed the test!"

And with this voice, Qin Yuan suddenly heard a laugh in his mind.

"Ding Dong, congratulations to the host for completing the task and reward a grid,"

At this time, Qin Yuan showed a smile. The reason why he wanted to complete this task so anxiously was to give Gao Shiwei face. Now that he has earned his face, Qin Yuan naturally relaxes a lot. ,

And Yang Lei looked at Qin Yuan with some complexity, and said directly to Qin Yuan:

"Come with me, I will take you to see our principal."

Qin Yuan also nodded, but he was a little curious about what kind of character the so-called principal was. Soon, Qin Yuan got into a car with Yang Lei. The car turned around and stopped at last. In front of a courtyard, it's just a little far away.

In the end Qin Yuan and Yang Lei entered a house together, and then into a bedroom. At this time, Qin Yuan looked at the old man on the bed and said in disbelief:

"You are the same general?"

At this time, after seeing Qin Yuan, the same same chuckled, and then praised Qin Yuan:

"Awesome, awesome, I don't know how you did it for so long, but since you have done it, that's your skill, and I won't ask about the extra."

After hearing such words, Qin Yuan had a slight affection for the principal. To be honest, a person lying in a wheelchair for money, and a person who really can't move, lying in a wheelchair feels like It's totally different.

Not to mention people who are loyal to the country like the principal!

At this time, Qin Yuan looked at the principal, as if he was still hanging a bottle, frowned slightly, and then whispered to the principal:

"Principal Lei Tong' I don't know if you would like me to give you two shots, maybe it will make you more comfortable."

Hearing this, Yang Lei, who was standing on the side, immediately wanted to speak, but Same Tong waved his hand and let Yang Lei go down. This was what Qin Yuan said:

"Okay, I am naturally willing to give it a try. I heard that your medical skills are amazing. I don't know if you can save my old life."

"If you can't save it, then you can only look at the fate. As the saying goes, no doctor can say 100% cure of other people's conditions!"

At this time, Qin Yuan said with a smile on his face. At this moment, he found that there was already a pile of silver needles on the bedside table on one side.

At this moment, the sameness originally didn't believe in Qin Yuan's medical skills, but when he stuck it, the sameness breathed out comfortably.

He has been suffering from illness for so many years, but who would have thought that besides his strong fighting ability, Qin Yuan had such a superb medical skill!

Chapter 413: Why are so few!

After a long while, Qin Yuan finally pulled out all the silver needles, and Li Tong sighed comfortably, and sat up directly from the bed.

At this moment, Lei looked at Qin Yuan with a smile on his face and said directly:

"Originally, Lao Gao said he made me a baby, I still don't believe it, now it seems that I am superficial."

Qin Yuan also looked at the similarity a little deeply, and the corners of his mouth twitched:

"How did you manage to have so many messy things in your body and you can still live well in the end?"

Although he didn't use ct to check it, Qin Yuan knew that the man in front of him had at least fourteen pieces of shrapnel in his body that had not been taken out, and there was something wrong with his internal organs. If he changed his person, I'm afraid he would be finished!

The current resemblance is like a broken car, which looks intact, but I am afraid that it will be finished immediately after a kick.

But Qin Yuan did not dare to have any bad thoughts about the similarity in front of him. This was not simply because of Qin Yuan's respect for the similarity, and Qin Yuan was still able to experience a trace of crisis from the old man in front of him. sense.

Don't look at it as a sense of crisis, but ordinary special forces can hardly make Qin Yuan feel that way.

This is a real warrior, I'm afraid it is a character who really walked out of the sea of blood in the dead mountain.

When Lei Tong heard this, he laughed, patted the bed beside him, and said to Qin Yuan:

"Sit down. It's actually very simple. The crock is not broken away from Inoue. The general will inevitably die before the battle. There are more battles and he can survive. There may be more or less things in the body, but I am still lucky. Yes, many old guys have not been able to get down, and even though I have to inject needles into my body every day, at least I can still sit and talk to you."

Hearing this at this time, Qin Yuan's heart is full of mixed flavors. People like the same person are the true backbone of Yan Country. Before Qin Yuan thought, so many audits and tests are a bit annoying, but serious. After seeing the similarities, Qin Yuan suddenly felt that the previous things seemed to be nothing.

Qin Yuan took a deep breath and said lightly:

"They all call you the principal. I wonder which school principal you are?"

But at this moment, talking about this, the same person sitting on the bed straightened up. The whole person stood upright like a spear. He pointed to the badge on his clothes and said to Qin Yuan:

"Our name, called the Red Star School, is dedicated to looking for outstanding talents for training. We have discovered early on that relying on militias to protect the country is an unrealistic and irresponsible idea, a real profession. Soldiers can easily deal with hundreds or even thousands of irregular soldiers. Therefore, we established this Red Star School a long time ago in order to cultivate a group of backbone military forces that are truly the backbone!"

Speaking of this, Lei Tong looked at Qin Yuan and asked Qin Yuan:

"I have also heard of what happened during your first test. Do you also think that the mentality of our people has changed recently?"

Qin Yuan's expression was a little ugly after hearing such words, and then solemnly nodded. To be honest, the current social atmosphere is not good, although most people seem to be richer than before. But they also pursue money excessively, completely disregarding other things.

Qin Yuan thought of the brawny man who yelled at him because a soldier jumped in, remembered those who said that he was a soldier for food, remembered the netizen who said that foreign special operations forces are so powerful and powerful, and think of those who regard patriotism as shame. The people of, the heart is indeed a bit heavy.

Seeing Qin Yuan's appearance at this time, Lei Tong took a deep breath and said directly to Qin Yuan:

"This is because of our economic development. When we have money, we naturally think more. Moreover, it is not only our people who think that way, but Western politicians who think the same way. As the old saying goes, there is a cyclical law in our history. They think that we will quickly become corrupt and infight without external pressure. They think that one of us is a dragon and the three people are insects. Always waiting for our crisis to come."

"And I also admit that with the development of the times, our army has inevitably undergone some changes, and the spirit of even dare to hold the enemy yuan bullet is slowly disappearing!"

"So we have to keep this school, but our number is limited after all, so we started to absorb some non-color children, and among the first batch of people, there is you, Qin Yuan!"

Hearing these words at this time, Qin Yuan really understood what the status of the so-called Red Star School was. There is a saying that the people of Yan Country are always well protected by the bravest among them, and now, it is an opportunity for Qin Yuan to join these braves.

"Qin Yuan, I tell you clearly that once you join our Red Star School, it will be difficult for you to leave in your life. You will lose a lot. Moreover, the chance of graduating from our school is only 36%. It is higher than the cruelest training camp, but no matter which one can become the most important talent in our army, I don't know if you have the courage to join our school!"

At this moment, Lei looked at Qin Yuan with the same smile, with a light in his eyes.

At this time, Qin Yuan was also a little excited. ' knew that as long as he agreed to the same, his future path would be completely different!

However, Qin Yuan did not answer immediately, but directly asked Lei the same sentence:

"May I ask, why are so few people successfully graduating from school?"

However, Lei Tong did not answer yet, but someone came in from outside, and the person said directly:

"That's because the people in our school need not only training, but also actual combat. Regardless of the fact that we have not experienced major wars in the past 30 years, our territory has never been completely safe, let alone It is said that our people have to go to the Middle East, to the Philippines, and to perform tasks in the most dangerous place in the world, plus our own training losses, we can have a pass rate of 36%. It's beyond imagination."

Qin Yuan took a look at this moment and found that the speaker was Yang Lei.

Yang Lei glanced at Qin Yuan, with a hint of envy in his eyes, then put a pile of materials on the same table and walked out directly.

Chapter 414: What do you want to do?

Looking at Yang Lei walking out at this time, he said indifferently:

"Don't mind, Yang Lei is in poor health and he has been brushed out of school."

Hearing this, Qin Yuan understood it, nodded, and then continued to ask the same:

"If I join Red Star School, what am I going to do?"

Although the same thing is very good, Qin Yuan has to think clearly, after all, how much ability he has, how much responsibility he has. Since it is so difficult to join the Red Star School, there are bound to be many restrictions.

The same said with a smile at this time:

"You come here, mainly to participate in physical exercise research and medical treatment."

"Oh?"

When Qin Yuan heard this, he was slightly surprised. He really didn't expect that Lei Tong actually asked him to do these things.

Seeing Qin Yuan's somewhat surprised look at this time, Lei Tong also explained to Qin Yuan:

"Although your record is very good and your strength is very strong, our Red Star School does not lack people like you. On the contrary, you are a first-hand medical technique, and the research ability of this physical exercise makes us very important. I believe If you have more people to help you, you will surely be able to develop more superior technologies, and I heard that you have developed a Ramanra virus vaccine, which can prove that you are a very good researcher. "

Hearing such words, Qin Yuan's brows suddenly frowned. To be honest, with the help of Grid, he is indeed a very good researcher, but what Qin Yuan wants to do is not one. Researcher!

Moreover, Qin Yuan knew that once he arrived in the research room, he would inevitably show his cowardice in the face of those truly professional personnel, although Qin Yuan possessed a lot of grids and could obtain knowledge from the system.

But this kind of knowledge is not acquired by Qin Yuan, it is like a library. If you want to use it, you have to get it now. It will definitely not be integrated. Facing a real master, it will definitely show up.

Therefore, Qin Yuan directly said to Lei Tong:

"I don't want to be a researcher. My dream is to be a soldier who can defend my home and country. I can provide you with some help, but I will definitely not stay in the research room."

Hearing Qin Yuan's words, Lei Tong also showed a smile and said directly to Qin Yuan:

"I don't insist on this. After all, some researchers are willing to stay in the laboratory, some are willing to stay outside, and some are even willing to stay on the battlefield. This is your personal freedom. I just want to explain to you. Your life is a precious treasure of the country and needs to be cherished."

Qin Yuan breathed a sigh of relief when he heard this. Since there is no mandatory requirement, that would be great.

When Lei Tong saw that Qin Yuan seemed to be thinking about it, he took out a piece of paper from one side of the file and said to Qin Yuan:

"Come on, sign, you are the person of our Red Star School. Starting from today, your information confidentiality will be directly increased to the highest level. Unless our people, no one will know your other information. I know you He agreed to Gao Shiwei to attend the Hell Lightning Training School. We will send other people there. During this period of time, you will help us improve our physical fitness skills. Of course, your military rank will also be raised. "

Hearing such words at this time, Qin Yuan also showed a slight chuckle. He is now a major. Although his rank is not low, he does not match Qin Yuan's credit and effect.

So Qin Yuan picked up the pen, just wanted to sign his name on this piece of paper, but at this moment, he suddenly saw the information on one side, but his eyes were suddenly staring!

"This...is all the information true?"

At this moment, Qin Yuan looked at this big document, stared and asked Lei Tong, and Lei Tong frowned slightly, hearing Qin Yuan's words:

"Is there any problem? The information is of course true. Our confidentiality conditions are very high, so generally there is any external information. The first one is to send it to us."

What shocked Qin Yuan was that the first item on this information was that Ivia's reactionary forces wanted to launch a military coup!

At this time, Qin Yuan finally remembered where he saw this Ivia. Isn't this Nima the same country in Operation Red Sea?

And Qin Yuan thought carefully, isn't the foreign white-haired man in charge of dirty bomb technology called William!

At this time, Qin Yuan's scalp was a little blown up. Thinking of the cruelty of those people, Qin Yuan directly said to Reyong:

"Sorry, I'm going to make a call!"

At this time, Qin Yuan directly took out his mobile phone and started calling Xiaohua!

When he saw Qin Yuan's appearance, the same brows were frowned. He carefully looked through Qin Yuan's information, and after seeing Xiaohua's information, his eyes suddenly narrowed, and he finally understood why Qin Yuan was doing this. tension!

Although Qin Yuan and Xiao Hua have not seen each other for many years, they had a very good relationship when they were young. Now that Xiao Hua is in danger, Qin Yuan is naturally extremely excited!

At this time, Qin Yuan quickly got through Xiaohua's phone. Xiaohua didn't know what she was doing. She was a little excited when she saw Qin Yuan calling, and said directly to Qin Yuan:

"Brother Qin Yuan, I was just thinking about calling you, but you ended up calling!"

But Qin Yuan said to Xiao Hua with a serious face:

"Sister, I'm telling you very solemnly now. Go to the embassy right away. A major event is going to happen on your side. You must first ensure your safety!"

When Xiao Hua heard what Qin Yuan said, she was stunned, and she didn't understand what Qin Yuan was talking about:

"No, brother, I'm still a little away from the embassy here, and our supervisor just talked about a very important business, to deliver a very important cargo, I will be able to walk away at this moment!"

At this moment Qin Yuan shouted angrily:

"Don't worry about that much, now the top priority is to save your life. If you leave late, maybe those people will hit you!"

But as soon as Qin Yuan finished speaking, he suddenly heard a sizzling sound from the phone, and the phone was disconnected.

At this time, seeing this situation, Qin Yuan's face was ashen as he wanted to go outside.

But at this moment, Yang Lei standing outside heard the voice inside, walked in directly from the outside, frowned and said to Qin Yuan:

"what do you want to do?"

Chapter 415: Little flower!

"What do you do? Do what I should do, you let go!"

Qin Yuan snorted coldly at this time, and he was about to rush out immediately. He had already made plans. If the guy in front of him dared to stop him, then he would directly attack this guy!

But at this time, the similarities on one side spoke:

"Stop both of you!"

Hearing this, Yang Lei and Qin Yuan stopped their hands, but they were still a little wary of each other.

Qin Yuan looked back at the same, and said to the same:

"Old principal, you won't stop me too, don't you let me go?"

However, Lei Tong shook his head helplessly, and said to Qin Yuan:

"I know you are very impatient, but it is definitely not a good way to fight from here."

Hearing this, Qin Yuan's mouth twitched, but he didn't say anything.

What the same thing said is right. Although this is just a small hospital, Qin Yuan saw that the surrounding security measures are not bad at all. If he really fights out from here, I'm afraid Qin Yuan's head will appear the next day. All streets and alleys!

At that time, Qin Yuan was even more difficult to move.

Seeing Qin Yuan's face at this time, the same thing showed a very interesting smile, and then said to Qin Yuan:

"It seems that you agree with what I said, and since the communication has been broken, it proves that there has been a problem there. It will take at least two days from here to Ivia. Any help, your sister, if you are unlucky, I am afraid she is dead."

Hearing this, Qin Yuan's eyes burned with a flame, fiercely glaring at the same!

However, Lei Tong said softly as if he hadn't seen Qin Yuan's burning eyes at all:

"Moreover, even if you did not come to me and stayed in the Southeast Military Region, you still have no way of dealing with this matter. You are a soldier. Even if there is a coup in Ivia, it is still another internal affairs. You You are not qualified to manage other people's household affairs! You also have no way to get there!"

Hearing this, Qin Yuan narrowed his eyes and gritted his teeth:

"Are you so cold-blooded? If it were your son, would you be able to make such a decision?"

"Shut up! Qin Yuan, you are too much!"

Yang Lei yelled at Qin Yuan at this time, and the same was also silent.

"Hmph, it's high-sounding, shut up when this kind of thing falls on you?"

Qin Yuan sneered, but Yang Lei stood aside looking at Qin Yuan, but said directly:

"Principal Lei's two sons and one grandson all died in the mission, Qin Yuan, you have said that!"

When Qin Yuan heard this, his eyes suddenly widened.

He really didn't expect that the similarities in front of him would be able to do such a thing.

But now, Qin Yuan really understands the same words before.

Originally, he thought that choosing these people was for power, but now it seems that the price is too much?

At the same time, he sighed softly and said lightly:

"Qin Yuan, I know that you are a good seedling, but a true soldier is definitely not just a strong one. Do you remember, what is the mission of a soldier?"

How could Qin Yuan not remember that he often talked to those under him that the mission of a soldier is obedience.

But now, Qin Yuan couldn't say this sentence.

And seeing Qin Yuan's appearance, the same thing also said with heartfelt words:

"Qin Yuan, everyone has the responsibility of everyone. The best way now is to let the people of Yan Country's embassy in Ivia rescue your sister, and you are to accomplish what you should do. , Sign the document and join our Red Star School."

At this time, Yang Lei also looked at Qin Yuan and said to Qin Yuan:

"This is the best way!"

But Qin Yuan smiled when he heard what these two people said, laughing loudly, and finally looked at Lei Tong and Yang Lei and said:

"You are all good people, so I won't kill you directly. Your method is also good, so I will find out my sister's address and leave it to you, but I will not join your Red Star School."

Speaking of this, Qin Yuan looked at the similarities and said lightly:

"I am a person, and I will protect my country, but I also hope that my country can protect me! Xiaohua is my family. If you don't want to help me, don't stop me and say goodbye!"

After saying this, Qin Yuan walked directly outside. He had already made up his mind and was going to rush out this time.

Although Qin Yuan knew that it would be more convenient to go out while holding the same, but Qin Yuan had no way to threaten such an old general.

Just thinking about what happened after going out, Qin Yuan also had a headache, although Qin Yuan knew that as long as he kept his hands and did not cause casualties, there should be no serious consequences.

But if he did this, Qin Yuan would probably leave a very bad impression on Xiaotong. Qin Yuan didn't know what impact this would have.

But even so, Qin Yuan still had to save Xiao Hua.

Living in this world, Qin Yuan doesn't care about many people, and Xiaohua is one of them, so even if he knows that he might not be able to catch up, Qin Yuan wants to check it out.

And if the rebels really did something unforgivable to Xiao Hua, then Qin Yuan would just ignore it and kill him!

Thinking of this, a trace of murderous aura flashed through Qin Yuan's eyes!

When he heard Qin Yuan's words, Yang Lei also looked ugly, but he was also ready to call someone over to arrest Qin Yuan, but at this moment, Qin Yuan heard a voice:

"Wait..."

At this time, Qin Yuan heard this voice again, turned his head again, looked at the same thing and said:

"You don't want to persuade me?"

"Of course you don't have to persuade you. People like you are not someone who can change their minds with just a few words. I'm just telling you, it's over."

At this time, the same eyes looked at Qin Yuan's eyes full of complexity, and Yang Lei on one side also slowly relaxed at this time.

But Qin Yuan saw the appearance of two people, but his face was dumbfounded, what's going on?

What is the end?

Seeing Qin Yuan's blank face, Yang Lei directly pressed a button on his hand at this time, and then gave Qin Yuan a proud expression.

After Qin Yuan saw that Yang Lei had pressed the button, the phone in Qin Yuan's hand suddenly rang a ringing tone, and Qin Yuan picked up the phone and found that the person calling was Xiaohua!

Chapter 416: I'm so angry!

At this moment, Qin Yuan looked at the phone call from Xiao Hua, but he was at a loss. He directly connected to the phone, and Xiao Hua's voice suddenly came from inside:

"Hey, brother, how is your side? Why did you hang up suddenly? And I made several calls to you, and they all showed that they couldn't get through. What is going on?"

But when he heard Xiao Hua's question, Qin Yuan asked Xiao Hua with a dazed face:

"Didn't something happen suddenly on your side? Obviously there is no signal on your side!"

"No, I was chatting with a colleague just now. Brother, you called, and then there was no signal when I called you. Why did I call you and you didn't answer, and now I have a signal, brother, you Is something wrong with Bian?"

At this moment, Qin Yuan seemed to understand something when he heard what Xiao Hua said, his face sank, and he said directly to Xiao Hua:

"I see. Brother has hung up a bit beforehand. I will call you when I look back."

After saying this, Qin Yuan just hung up the phone, then put the phone aside, and rushed towards Yang Lei, hitting Yang Lei with a punch.

And Yang Lei had already prepared for it. Seeing Qin Yuan's aggressiveness, he quickly dodged Qin Yuan's punch, watching Qin Yuan's fist hit the wall directly. With a loud bang, Yang Lei also said to Qin Yuan in a frightened voice:

"This is the idea of Principal Lei, not my fault. Why do you have a temper to go to the principal!"

It's just that Qin Yuan looked back at the same angrily, and then hit Yang Lei directly with a punch in the face, just like that. How could he hit the same, so now Yang Lei is still suffering!

Yang Lei didn't expect that Qin Yuan would even do something when he heard his words. He was caught off guard and was hit by Qin Yuan, his eyes turned white, and he fainted.

After fainting Yang Lei at this time, Qin Yuan also let out a sigh of relief in his heart. He stood up directly, walked to the same place, and asked the same angrily:

"Does it make sense to do something like this?"

But when Lei Tong saw Qin Yuan's extremely angry look, there was a smile on his face, and he said to Qin Yuan:

"Of course it is meaningful, this is a level that must be experienced, and your performance just now is not very good, just 50 points, failing."

Hearing this, Qin Yuan's expression was still a bit ugly, and he asked Lei Tong:

"Could it be that I just gave up Xiaohua, just choose your suggestion, and join the school to get 100 points?"

When Lei Tong heard Qin Yuan's answer, he shook his head and said to Qin Yuan:

"If this is the case, then I dare not use you. If you are a ruthless and unjust person like this, it is not suitable to come to our Red Star School. Your choice is not a big mistake, but you This person is really too decisive. He didn't hesitate at all. He chose your sister directly. In fact, it is very easy to get a high score in this test. You just need to show enough pain."

When Qin Yuan heard such words, his heart was speechless. He hit the table with a punch, smashed the table with a big hole, and yelled at Lei Tong:

"Are you tmd abnormal?"

"Thank you for complimenting me, how do you know my code name is abnormal?"

Hearing Qin Yuan's curse, Hae Tong said with a smile on his face, and seeing Hao Tong's soft and hard look, Qin Yuan also bitterly walked aside, holding his own things, and wanted to leave here.

This group of people is really abnormal. Qin Yuan doesn't want to stay here anymore. These people are just bastards!

But at this moment, Qin Yuan heard the same voice again:

"Hold on, don't go, the information on the table is true, Ivia is really going to have a coup!"

Hearing this, Qin Yuan's expression also changed, stopped, then looked back at the same, and said to the same:

"This is the last time I trust you. If you lie to me, then I won't believe anything you say anymore."

Lei Tong also looked at Qin Yuan with a smile on his face, and threw the pile of materials on his hand directly, and then said to Qin Yuan:

"This time I really didn't lie to you, because Ivia really had an accident. Your sister's current situation is indeed not considered safe, but you can rest assured that as early as the first moment the information was in my hands, I have already notified Ivia's embassy to gather people. It is estimated that your sister will go to the embassy together soon."

Hearing such words, Qin Yuan was suddenly relieved. Of course he hoped that this matter was false. After all, the same thing said before was correct. If something really happened on Ivia, Qin Yuan would definitely do it. I can't catch up, I can only hope that Xiaohua won't have any accidents, but the probability is simply too small.

However, looking at the similarities at this time, Qin Yuan had other thoughts in his mind. He clearly remembered that during the Red Sea operation, he also got the news in advance, but after the embassy organized the rescue, a group of people were still being rescued. Buckled.

The people at the embassy simply had no way to bring people out safely. In the end, the navy helped them out, and they even sacrificed several peacekeeping police.

But now looking at the resemblance, Qin Yuan just wanted to say that he was going to have a look. The resemblance just nodded to Qin Yuan directly and said:

"I know you are more anxious. ', so I have arranged the fighter jets and prepared the fuel tanks. At that time, with the speed of the fighter jets, you will be able to reach the Red Sea in half a day, and you will take the flight directly With the Linyi ship and arriving in the Ivia area, I think since this matter is so important to you, you'd better go there in person."

And hearing such words, Qin Yuan also slightly widened his eyes.

I didn't expect that the same thing would be so exaggerated, sending out fighter jets to transport him!

But thinking about it carefully, it seems that only fighter jets are the fastest.

When Lei Tong saw Qin Yuan's astonishment, he also smiled and said directly to Qin Yuan:

"Okay, hurry up, I have prepared all kinds of information for you. It takes half a day to get there from here, and then to reach the territory of Ivia, I am afraid it will be this time tomorrow. It seems not easy to deal with once, let me see your ability.

At this time, Qin Yuan was also stared at this with an angry beard, unable to say a word.

Chapter 417: Something happened!

Looking at the same appearance, it is obvious that these things of his have already been prepared. No matter what choice Qin Yuan makes, as long as he passes this test, Qin Yuan will go directly to Ivia to perform the task. The second Ivia incident was so tricky, Qin Yuan had a lot of help in the past!

No matter what the calculation is, this old fox has taken a lot of advantage!

However, what made Qin Yuan even more angry was that although he was tricked, he had to go. After all, he knew how crazy those people in Ivia were this time!

Qin Yuan looked at the similarities and said dully:

"Where is the fighter?"

"Uh, you have to wake up your pilot first, after all he was knocked out by you."

At this time, Lei Tong was like an old fox who stole a chicken, and his smile was full of pleats.

Half an hour later, Qin Yuan and Yang Lei drove into an air force base.

At this moment, Yang Lei touched his neck, looked at Qin Yuan with a grimace, and said directly:

"You said that when you did it, why didn't you feel a little lighter? Look at it, it makes me still hurt now. In case I accidentally lose my mind because of this injury, we will both fall. Then are we wronged?"

Qin Yuan barked his teeth at Yang Lei when he heard this, gritted his teeth and said:

"Do you want me to give you a few more shots?"

"Oh, this is not necessary!"

Yang Lei looked at Qin Yuan's nonchalant smile, and felt that he should not look for bad luck.

Qin Yuan naturally didn't worry about Yang Lei. After all, Yang Lei was only slapped by Qin Yuan, and Qin Yuan also used eight needles against the sky to complete the treatment for him, let alone just slap, even if he was slapped, And it is almost restored now.

Yang Lei saw Qin Yuan's serious face at this time, and finally shook his head, and said softly to Qin Yuan:

"Don't think that President Lei is more insidious, but in fact he is considered a better person. What I told you before is true. He does have a son, and both grandsons died in the mission. in."

When Qin Yuan sighed upon hearing such words, he said directly to Yang Lei:

"Of course I know that he is a good person. If he were not a good person, I wouldn't care about these messy things. He would have ended up with you!"

Hearing this, Yang Lei showed a smile, knowing that Qin Yuan did not take this matter to heart, kicked the accelerator, and soon arrived at the air force base, and after completing the formalities, he directly boarded a fighter jet. .

Touching the instruments in the fighter, Yang Lei looked at Qin Yuan behind, and said to Qin Yuan with a smile:

"I only hope that you have completed the training process of fighter jets. Fighting fighter jets is still different from ordinary helicopters. Don't throw up in the cabin!"

"You still worry about how you should land!"

Qin Yuan said something disdainfully, and then buckled his helmet directly!

The speed of the fighter jet is very fast. It takes less than three hours from departure to arrival. The only thing to worry about is that this fighter jet may not have enough fuel. For safety reasons, the Linyi ship will be dispatched. A tanker refuels in the air.

However, after reaching the Red Sea, it is already late at night. Refueling in the air in a dark night environment would be a relatively risky operation.

Although Qin Yuan looked at Yang Lei, he felt that this guy would not lose the chain, but for the sake of safety, Qin Yuan directly picked up the "Fighter Pilot Guide" on the side.

Qin Yuan took advantage of Yang Lei's carelessness and directly received the book into the grid.

"Ding Dong~ The system was successfully recovered, please start the selection!"

With the prompt sound of this system, three options suddenly appeared in front of Qin Yuan!

"1. Acquire world-class fighter piloting skills!"

"2, get world-class fighter maintenance technology!"

"3, get world-class fighter skydiving technology!"

Looking at these three options at this time, Qin Yuan thought for a while, and chose the first one.

"System, I choose the first item."

"Ding Dong, congratulations to the host for his successful selection and gaining world-class fighter piloting skills!"

At this time, with the soft sound of the system, Qin Yuan suddenly felt that there was a lot of knowledge in his mind, and Qin Yuan could finally understand the instrument standards in front of him.

After seeing these instruments, Qin Yuan's hands were a little itchy, not knowing what it was like to fly a fighter jet.

However, Qin Yuan is still a bit sensible, knowing that it is impossible for him to fly this fighter, and it seems that he can only wait for a chance to experiment in the future.

Although it is said that a fighter plane is of great value, if you can join the Red Star School, based on your similar relationship, probably, maybe, like, maybe, you can get a qualification to fly a plane, right?

Forget it, I heard that a J-20 is 700 or 800 million, so let's make money to buy one.

Qin Yuan thought a little arrogantly.

...

At six o'clock in the morning, on the Linyi ship, the members of the Jiaolong Commando were training in the morning.

It didn't take long before this group of people heard an urgent ringtone. As the captain, Yang Rui frowned. Then, during a broadcast, he heard the voice of Captain Gao Yun:

"At three o'clock in the morning today' our ship received an urgent notice from the Foreign Calling Ministry. Just one day, a military coup took place in Ivia. According to the order of the superior, it was the closest to the port of Ivia. Our ship will immediately go to the port of Ivia to perform the evacuation mission, and safely withdraw the overseas Chinese and embassy staff where Ivia is located."

When he heard this, Yang Rui's eyes also changed, knowing that this time it was something serious!

The group of people hurriedly headed towards the command room of the fleet, and in a hall, a TV in the middle was broadcasting news from Ivia. At this time, the people on the ship were all stopping and watching. .

At this time, a host wearing glasses introduced the situation with a sad face:

"According to front-line news, General Sharaf, known as a lunatic, who launched a military coup this time, and the rebels' firepower has occupied a large number of cities within a short period of time. The current whereabouts of President Ivia is unknown, and all government incidents , All represented by Secretary-General Mohadi."

"Due to the sudden attack of the war, many civilians were unable to dodge, causing a large number of casualties, and many foreigners were trapped. At present, there are still a large number of management personnel and foreigners mysteriously missing in the country. It is said that it may be an extremist organization in the country. for!"

Chapter 418: Completely dumbfounded

At this moment, seeing the information on the screen, Yang Rui's face sank, and he walked directly toward the captain's room.

In the captain's room, Captain Gao Yun and political commissar Wang Qiang were discussing this matter, and Wang Qiang said to Gao Yun with a serious face:

"This time the superior attaches great importance to this matter. We must be fully prepared."

Gao Yun also nodded solemnly. At this moment, Yang Rui walked in directly and paid a military salute to the two people. After Gao Yun and Wang Qiang returned the salute, Yang Rui said:

"What happened, is there a task that needs our Flood Dragon to dispatch?"

Gao Yun's face was serious, and he said directly to Yang Rui:

"Yes, and it's very important, come and take a look!"

At this time, Gao Yun showed Yang Rui the information on the screen, and then said to Yang Rui:

"This terrorist organization called Zhaka has not obtained the permission of the government for many years. They conduct daily operations in the Eurasian region. This time, the military coup in Ivia was supported by Zhaka.

According to the list of personnel provided by the Ministry of Foreign Affairs, we currently need to evacuate 130 Chinese registered personnel from Ilya and 30 foreign employees of our company. However, since this guy dares to kidnap overseas Chinese and Ivia officials, It is very likely to take action against our diaspora, so we must send land forces to take action to protect the lives of our diaspora! "

At this moment, Yang Rui watched the artillery flying across the screen, and the streets and alleys were full of rebel and government forces with guns, and his expression also sank.

Seeing Yang Rui's expression ugly, Gao Yun said to Yang Rui:

"If you think this matter is a bit difficult, I can apply like a superior to let your team members rest. We will mobilize the commandos of other ships to perform this mission. After all... Luo Xing's matter..."

When he heard Luo Xing, Yang Rui's expression became even more ugly, but he still directly said to Gao Yun:

"Report, our Jiaolong Commando can perform this mission. I have transferred the new sniper Gu Shun from the second team to replace Luo Xing's position. We have finished repairing and do not need this special treatment!"

Hearing such words, Gao Yun also nodded, took a deep breath, and said to Yang Rui:

"Okay, now you go to explain to the team members. Oh, yes, this time a special commissioner was dispatched to perform tasks with you, but this commissioner has other tasks. For the specific situation, you need to be well Let's talk."

Hearing this, Yang Rui couldn't help but widened his eyes, and then frowned and asked Gao Yun:

"Captain, is this appropriate? Now, a special commissioner is parachuted. Not to mention the cooperation between us, just to say that we are going to the port of Ivia at full speed now. Can he catch up?"

Gao Yun felt helpless when he heard this, and then replied to Yang Rui:

"He should be able to catch up. It is estimated that this time, he is about to arrive, you can go to the deck and wait for him first."

Wait on the deck?

Yang Rui couldn't understand it even more, but he still followed the advice and boarded directly on the deck. What's more, he now wants to take this opportunity to talk to the players about the seriousness of the mission.

Soon, Yang Rui gathered the team members and passed on the mission requirements this time. The members of Jiaolong naturally had no objection to the mission, but when they heard about the so-called special commissioner, But they are all incomprehensible.

"Captain, what the ***** does this commissioner do?"

At this time, the only girl among the dragons, the fireman Tong Li curiously asked Yang Rui, and Yang Rui also shook his head helplessly:

"I don't know, but no matter what the background of this guy, we just need to do what we should do!"

As soon as Yang Rui finished speaking, he suddenly heard the sound of a helicopter propeller from outside.

"Someone is here, let me see!"

At this time, Yang Rui heard the voice and went directly towards the helicopter. The other team members also looked at the helicopter. After all, they were very curious about this so-called special commissioner. .

At this time, a man holding a sniper rifle jumped directly from the helicopter, and seeing this man, the medical soldier Lu Chen on the side said softly:

"It turns out that the sniper added was Gu Shun, I heard he was very dragged!"

The people in the Jiaolong team are all from the same base. This Gu Shun is a competitor with Luo Xing, their previous sniper, and is on par with Luo Xing, but now Luo Xing is injured, so he can transfer someone who is similar to Luo Xing. It was normal too.

"Yeah, why are you waiting for me?"

At this time, Gu Shun was a little surprised seeing so many people waiting for him. Isn't this welcome ceremony too warm?

Naturally, Yang Rui couldn't say that they were all waiting for the so-called special commissioner. He patted Gu Shun on the shoulder and said softly:

"Okay, young man, we are not considered strangers, so hurry up and get in touch with our companions. This time we have a heavy task! Li understand! Come here!"

At this time, observer Li Dao heard the call and walked over directly. Gu Shun looked at Li Dao, shook hands with Li Dao, and said with an arrogant expression:

"You can follow Luo Xing, it shows that your level is not bad, look for opportunities to let me know?"

Hearing the provocative words of this ribbon, Li Dong frowned slightly, and responded:

"I have also heard of you, and I want to see what you can do."

"Have a chance!"

Gu Shun smiled, and then walked directly inside.

Seeing that these two people seemed to be tit-for-tat, Yang Rui shook his head slightly. Everyone is competitive. This little conflict is harmless and can even stimulate their fighting spirit and perform better. strength.

After all, none of them would make such an operation to the other side. If there were such people, they would have been kicked out of the Dragon Team.

Yang Ruigang wanted to say something to ease the atmosphere, but suddenly heard a roar from outside!

At this time everyone showed a solemn expression!

This is the voice of a fighter!

Yang Rui's eyes widened at this time, and he rushed out directly, took out the binoculars and took a look, and suddenly he yelled:

"Which **** of this tm drove the J-20 to the warship. Doesn't Nima know if the J-20 can enter the apron?"

But as soon as Yang Rui finished cursing, he saw that the fighter turned around, and then dropped something from it!

Yang Rui took a closer look with the telescope, this is actually a person?

This... Nima fighter is here to give people away?

At this time, everyone in the Dragon Team was completely dumbfounded!

Chapter 419: Guarantee

At this time Qin Yuan was controlling the parachute, but he was scolding his mother:

"Grandma's a leg, you can't fall on the ground. You said it earlier, it's almost there. You said you want me to jump down?"

Qin Yuan now has the heart for strangling Yang Lei. Sure enough, this guy is the same thing as the same, and it's a complete scam!

Qin Yuan knew that Yang Lei just wanted to make a fool of himself!

After all, when Yang Lei looked at Qin Yuan, he knew that Qin Yuan had never been in a fighter jet, so naturally he had never learned the skills of fighter parachuting. He didn't know that a fighter jet ejected directly when parachuting!

Moreover, the skydiving skills of this fighter are slightly different from those of ordinary troop carriers. If one fails, it will indeed be injured!

But since Yang Lei knows that Qin Yuan is a master, he will definitely not be stumped by this, but one thing is very important, that is, don't forget that the place Qin Yuan is going to is the warship below. Now the warship is advancing at full speed. The sea is surrounded by warships, and the wind on the sea is so strong!

So even if Qin Yuan has the ability, the greatest possibility is to drop directly into the sea!

Then Qin Yuan swam onto the warship by himself, or was fished out by the people on the warship, then Yang Lei's business is all alone!

Fortunately, after Qin Yuan heard the news, he took an extra skydiving bag and received it in the grid!

And following Qin Yuan's actions, a prompt sound suddenly sounded in his mind!

"Ding Dong~ The system was successfully recovered, please start the selection!"

With the prompt sound of the system, three options appeared directly in front of Qin Yuan!

"1. Get world-class skydiving skills!"

"2, get world-class fancy skydiving!"

"3, get world-class aerial dance!"

Looking at these three options, Qin Yuan directly chose the first option when he heard the whistling wind in his ears!

"System, I choose the first item!"

"Ding Dong, congratulations to the host for his successful selection and gaining world-class skydiving skills!"

"The world-class skydiving technique allows the host to land smoothly under any circumstances!"

At this time, with the sound of the system, Qin Yuan suddenly felt that his hands seemed to have undergone some changes, the hands and feet holding the parachute began to become rhythmic, and the body gradually became balanced. With the sea breeze blowing over, following this sea breeze, Qin Yuan directly landed on the warship that looked like a behemoth!

However, Qin Yuan saw a place where a helicopter had just stopped, and immediately fell towards that deck, and then landed directly on the ground in a very handsome posture.

It's just that after Qin Yuan landed, he saw a group of people staring at him dumbfounded, and Qin Yuan suddenly showed a very gentle smile:

"Hello everyone!"

At this time, the Flood Dragon Squad had just reacted. Although they all knew that they could land on the deck without being directly shot down by the mothership, it must be theirs. It's just that the landing method is a little bit unacceptable?

At this moment, Yang Rui looked at Qin Yuan, his mouth twitched, then greeted him, and said to Qin Yuan:

"You are the special commissioner sent from above, hello, I am Yang Rui from the Flood Dragon Commando. Captain Gao Yun is already waiting for you."

"Hello, my name is Qin Yuan."

And Qin Yuan smiled slightly, and then shook hands with Yang Rui. Long before he came, Yang Lei told Qin Yuan about his identity. Now that Yang Rui was ready, he didn't need to spend much more time talking. Go to the captain's room with Yang Rui.

It's just that the rest of the Jiaolong team, looking at Qin Yuan's back, made a sound:

"This is really awesome, coming here in a fighter plane!"

"Yeah, I have never sat down..."

It's just that when everyone said this, they couldn't help but glance at the helicopter parked over there.

To be honest, if the fighter plane hadn't arrived, they would still feel that Gu Shun would have come by in a helicopter. But after seeing Qin Yuan's fighter plane, they suddenly developed a comparative psychology. The look in Gu Shun's eyes also became a little weird.

Gu Shun was also a bit stunned at this time. He really didn't expect anyone to be able to come as a fighter jet. He was also a little embarrassed when he saw the eyes of the people around him, but he still whispered to Li who was standing on the side. Understand the question:

"Who the **** was that guy just now? Why is he more dragged than me?"

"You ask me, I don't know either!"

Li Dong shook his head and said, but he didn't know why, he seemed to think that Qin Yuan, who was more arrogant, looked a little pleasing to the eye.

...

Soon, Qin Yuan followed Yang Rui into the captain's room, and when he saw Yang Rui coming, Gao Yun also said directly:

"I just wanted to find you, oh, is this the special agent sent from above?"

And hearing this, Yang Rui was also a little helpless, this is really someone sent from "above".

"Hello, my name is Qin Yuan!"

Qin Yuan also shook hands with Gao Yun directly.

When Gao Yun heard the name Qin Yuan, he raised his eyebrows slightly, and then said hesitantly:

"Qin Yuan, I seem to have heard of this name somewhere."

When Yang Rui, who was on the side, heard this, he also said directly:

"It should be in the military newspaper. Before, I seem to remember that there was a master who showed his skills in the Philippines. It seems to be called by this name. Is it you?"

"Yes, it's me."

Qin Yuan didn't expect that both of them had heard of his own name, so he nodded and admitted.

And seeing Qin Yuan admit it' these two people were relieved immediately, and then they laughed at Qin Yuan:

"Hey, that's all right. I'm afraid that a clerk who doesn't know anything will be sent from above. We will not only protect the overseas Chinese, but also protect him. That's really a shame! Since Special Agent Qin Yuan has fought Fight, then my heart is at ease!"

After hearing this, Qin Yuan also smiled, and then said to the two of them:

"Don't call me a special commissioner, just call me Qin Yuan."

Both of them nodded, and then Gao Yun asked Qin Yuan:

"I don't know Qin Yuan, what is your mission here?"

"This...I'm mainly here to help you, and one of Ivia's expatriates is my sister, so I want to bring her back safely."

Qin Yuan said a little embarrassed at this time.

Chapter 420: little boy

Hearing what Qin Yuan said, Gao Yun and Yang Rui looked at each other, but they both showed a meaningful smile.

To be honest, they think that what Qin Yuan said is really outrageous. After all, even if it is related, it is impossible to fly by directly. If you really want to protect relatives, can you contact the embassy directly?

Therefore, they believe that Qin Yuan must have other special tasks.

But in fact what Qin Yuan said was the truth. After all, for Qin Yuan, the action this time was to protect Xiao Hua, and the fighter came here to compensate him, so he was brought here directly. .

Even if one more item is added, it is at most similar to want to see Qin Yuan's true strength, so there are few restrictions on Qin Yuan. This time, Qin Yuan is the bigger the trouble, the better!

However, since Qin Yuan didn't want to say it, Gao Yun and Yang Rui would naturally not ask more. They were fairly clear about the military's secrecy regulations. They had no way of knowing some secrets, but Yang Rui asked Qin Yuan:

"I don't know Qin Yuan where you are in the team, how should you run into our team at that time?"

"It's not necessary. Your team cooperates on your own. I can leave your team and provide support to your team. Don't worry. Before I have a specific task, I will follow your command. When I leave the team, I will also Explain to you in advance."

When Qin Yuan said this, there was a deep look in his eyes. After all, he knew that this time the Dragon Squad had a terrible end. All members were exposed to radiation, and two died and two were injured. This time Qin Yuan When they come, we must find a way to see if we can save them.

So Qin Yuan couldn't simply follow them, he still needed to act when necessary.

But when he heard this, Yang Rui's brows frowned slightly. Doesn't Qin Yuan mean that he is an almighty figure? Although I think Qin Yuan may not be an easy person, Yang Rui is indeed hard to believe that Qin Yuan is really versatile.

"Well, if you have any requirements, you must explain in advance, oh yes, there is one more thing I forgot to tell you, we are not allowed to carry too many weapons and ammunition in this operation, the government of Ivia will provide us with Ammunition, so, the weapons and equipment we usually use cannot be used, and we must use EU-standard equipment. Do you have a problem with this?"

Yang Rui said to Qin Yuan with some worry. After all, he knew that Qin Yuan was an army. The equipment in the army was not as good as their navies. This time they were going to a dangerous war zone after all. What an accident, that's not good.

And Qin Yuan shrugged his shoulders indifferently, and said with a relaxed expression:

"It doesn't matter, whether it is European or American, as long as it is a gun, I can use it well. In fact, I am also a sniper with a strong individual combat capability. You don't need to worry about this to me."

After hearing Qin Yuan's words, Yang Rui's eyes straightened a bit, but after seeing Qin Yuan's confident face, he couldn't say anything. He just shook his head, and then directly led Qin Yuan to continue talking about this time. task.

...

At this time, the destroyer that accepted the task was quickly heading towards the port of Ivia, and from the air, the entire Ivia was like hell, with bursts of black smoke.

In Ivia, there was also chaos. There were government troops and rebels wandering on the streets. The sound of gunfire and rockets almost never stopped, and countless people in Ivia avoided it. There is no place, even if they are hiding in their own home, someone still rushes in, forcing them to be human bombs, or directly hitting them with a rocket, causing them and their home to be reduced to ashes.

Those with a little bit of knowledge went crazy toward the port, hoping to leave here temporarily and get a safe place.

It's a pity that they can only watch the warships take away their subjects, but they can only watch with envy, hoping that the government forces can hold this port, otherwise, they can only find The next place to hide...

At this time, a few streets away, the government and the rebels were fighting fiercely. The khaki armored vehicles were constantly advancing, and gunfire sounded one after another.

Ivia, this country, is over.

At this time, a few kilometers away from the port, there was a place where the national flag of Yan State was hung. This was the embassy of Yan State in Ivia.

It's just that in the embassy at this time, it's not too optimistic. After all, this time the villain is behind a terrorist. No matter how many these people are, in their eyes, there is no fear of big countries, because they know , Yan Guo will not help the Ivia government against them without sufficient benefits, so they have no scruples at all!

This time is different from the last time in the Philippines. At that time, Qin Yuan was able to rush through the war zone with his own national flag, but this time, it was completely different. Zhaka's people would not eat this set!

At this time, there were no foreigners in the embassy who had time to evacuate. At this time, they also looked nervous. Hearing the roar of bullets outside, they were all very worried. And the embassy's ambassador, He Qingliu, was in contact with the navy at this time. In order to appease people's hearts, He Qingliu directly hands-free the phone, so that everyone can hear the words in the phone.

And when they heard that the navy ships were about to arrive at the port, they were all relieved!

At this time, He Qingliu also said to everyone: "Everyone has heard that our warship has arrived at the port. We will set off immediately, board the warship, and return to China!"

And hearing the voice of He Qingliu, The people present at cheered!

"Great, I can finally go back! I'm going to be scared to death!"

"I thought I couldn't go back!"

"Sure enough, nothing is better than a strong country backing up!"

Everyone was extremely excited and excited about this matter. At this time, they really realized the power of the country!

But a little boy saw the cheering of the crowd, but he asked his father who was hugging him:

"Dad, are we leaving now, but mom hasn't come yet!"

When the father heard this, his face was bitter, but he squeezed out a smile and said to the little boy:

"It doesn't matter, Mom will leave with the company, and we will be able to meet at that time!"
