

## Special Soldier 42

Chapter 42: World-class energy liquid!

Get off the car quickly!

Qin Yuan checked He Chenguang's body!

He Chenguang now becomes very weak!

"Isn't He Chenguang's physical fitness always very good? It's just an exercise! How come you become so weak?"

Qin Yuan was very surprised!

Inspection is complete.

He Chenguang is only weak!

There was no harm to the limbs!

"Er Niu, let's take him to the car, give him some food and water, and give him a brief treatment."

After speaking, Qin Yuan carried He Chenguang to the back seat of the car very easily, as if holding a child.

"Good Lieyuan brother!" Li Erniu quickly came to the back seat and fed him water and food.

and opened the first aid kit and filled him with a can of glucose.

However, He Chenguang still does not see improvement!

Maybe he was too tired this time!

So for a while, I can't wake up!

"Brother Yuan, what can I do? Chenguang is my good brother! He can't go on like this! Is he unable to hold it?"

Li Erniu saw that He Chenguang did not respond, and he was immediately anxious! His face was pale!

Qin Yuan smiled and shook his head, "Don't panic Erniu! He Chenguang is fine! He is just overworked, too tired! Rest a little longer and he will naturally recover!"

"dingdong~"

However, at this moment.

The crisp system prompt suddenly remembered!

"Ding Dong~ Now release a temporary mission to rescue He Chenguang! Unlock a new grid!"

"Huh? Is it such a simple task?"

Qin Yuan's eyes lit up!

This mission...

seems easier than ever!

Because, in Qin Yuan's view, this task is simpler than curing a kitten's leg injury!

"But Brother Yuan, what if he can't wake up? We, should we call an ambulance for him?"

However, Li Erniu is still very worried about He Chenguang's safety!

no way!

He Chenguang is too weak now!

so much so that I fell into a coma because of excessive weakness!

The first aid measures that should be done have been done!

but now--

He Chenguang still has no improvement.

This made Li Erniu couldn't help but worry, and even wanted to sound He Chenguang's first aid bomb!

"Are you crazy? Erniu? He Chenguang's first aid bomb is fired, which means that he will automatically withdraw from the exercise! Only then can he go to the hospital for treatment! Do you bear to watch him lose in this exercise?"

For Qin Yuan!

Such an exercise?

actually dispensable!

is not so important to him!

after all!

What he values more is his own strength!

As long as you have enough strength!

No proof of record or honor is required!

Qin Yuan can also become the top special soldier!

But He Chenguang is different!

Their road is still far away!

A long way!

There are still many things they need to learn and accept!

And only shine in the exercise!

can get further development!

Otherwise...

missed the opportunity to enter Spike!

I'm afraid it will be difficult to enter again later!

Chance, only once!

Missed, the future fate will be completely different!

"But Brother Yuan...we don't know how to heal!" Li Erniu looked anxious.

"This matter... leave it to me!" After a little hesitation, Qin Yuan decided to help He Chenguang well!

Experience the power of world-class nutrient solution!

Qin Yuan knows!

If there is a bottle of nutrient solution now!

may be able to help He Chenguang!

allows him to eliminate fatigue faster and restore physical functions!

but now--

But on the battlefield!

There is no Red Bull at all. Without Red Bull, it is natural that no nutrient solution can be obtained!

"By the way, glucose! Maybe glucose will also be useful?"

has world-class neural response speed!

Qin Yuan's thinking speed now!

is also much faster!

very easily!

is thinking of powerful glucose!

"Er Niu, how much glucose do we have? Take them out for me!"

Qin Yuan smiled lightly and looked at Li Erniu!

"Glucose? There are so many things! These days, I think we will encounter problems with physical replenishment, so when the materials are seized, almost everyone's glucose has been collected!" Li Erniu suddenly took out a small package. It's full of small bottles of glucose!

Li Erniu directly took out 10 bottles of glucose and threw them in front of Qin Yuan!

"Er Niu, this way, I'll give Chenguang treatment! You work harder and eat two game meats! When he wakes up, give him some barbecue, he will soon be alive and well!" Qin Yuan smiled and looked at Li Erniu, If you want to recover glucose, of course you have to separate Li Erniu first, right?

"Okay Brother Yuan! Then I will go now! Try to wake up in the morning! You can have delicious barbecue!" Seeing Qin Yuan's calmness, Li Erniu was also greatly affected, and happily rushed into the jungle to find Game!

Li Erniu just left!

Qin Yuan directly took 5 bottles of glucose!

My heart moved!

Recycle directly to the system grid with one click!

"Ding Dong! Please choose!"

The crisp system prompt rang!

"This glucose is taken directly, and it doesn't help much! I hope it can be refined by the system! You can get something useful!"

Qin Yuan prayed secretly in his heart, then opened his eyes and looked at the three options of the virtual screen in front of him!

"1, get world-class energy liquid!"

"2, get world-class hypoglycemia treatment!"

"3, get world-class hyperkalemia treatment!"

"Sure enough!"

For the second and third options!

Qin Yuan just ignored it!

What he needs is the first one!

"This world-class energy liquid, should it be similar to the world-class nutrient liquid? Is it even more effective than the nutrient liquid?"

Qin Yuan looked at three options!

couldn't help but guess!

"I choose 1!"

Qin Yuan immediately made a choice!

"Ding Dong~ Congratulations to the host for choosing successfully! Get a world-class energy liquid!"

"World-class energy liquid: can make people collapse, people who are over-fatred directly wake up! Normal people take it, they will be a hundred times more energetic!"

"Fuck...Is this effect so direct?"

Qin Yuan's eyes lit up!

no way!

This effect!

is so good, right?

Just look at the description!

Qin Yuan wants to take a bottle for himself!

relieve the mental fatigue of the past two days!

stretched out his hand.

A bottle of world-class energy liquid with only 10ML, from the top of the system interface, automatically moves to Qin Yuan's palm.

"Well, it's cheaper for you kid for now!"

Qin Yuan opened the energy liquid, opened He Chenguang's mouth, and gave it to him!

"I don't know how long it will take for a response?"

Qin Yuan couldn't help but look forward to it!

"one two Three....."

Qin Yuan even began to silently recite digital timing in his heart.

"Hmm, I, I...Where is this?"

As expected!

Three seconds later!

He Chenguang really woke up! !

"Ding Dong~ Congratulations to the host for successfully completing the mission and waking up He Chenguang! Unlock a new grid!"

At the same time, the crisp system prompt rang in time!
