

Special Soldier 431

Chapter 431: With the total death!

At this time, after Qin Yuan saw Yang Rui, he said directly to Yang Rui:

"Call all your team members over, and I will tell them something."

And when the entire Flood Dragon team was all there, Qin Yuan said to them with a serious expression:

"Now let me tell you that the task this time is difficult. I think you have already received the above notification. I will give the command of the whole task. But I tell you clearly that this time not only is to save the hostages, we even You need to find the yellow cake in the opponent's hand, destroy or bring it back, and what's more, you must directly kill the opponent's leader!"

Both of these tasks are extremely difficult and require us to directly press our lives. So I now give you one last chance. If you feel that this task cannot be completed, I will leave here directly with the refugees. I am not doing anything with you. The radical method is to tell you that this is a choice that really affects your own life. You must be extremely solemn. Yang Rui now wants your team members to make their own choices, and you must not interfere! "

In fact, this passage Qin Yuan said is very sincere and sincere. After all, he knows that these people in front of him are some real men, and this time he is not sure of this action, so he does not want to. These people are easily consumed in this kind of near death.

Although the order was issued by the same system, the system also issued the task, and the rewards were many, but Qin Yuan would not be because of the tasks and rewards. As for the similarity, it is even less important. To complete this task, otherwise it would not send someone over.

Therefore, Qin Yuan gave these people the opportunity to choose, and he would not let these people enter a dangerous situation ignorantly.

But at this time, everyone looked ugly when they heard Qin Yuan's words. After all, just listening to Qin Yuan's words can realize how difficult the task this time was.

This is really something that is related to your own life. If you leave here this time, you may leave the army, but at least your life can stay, but if you continue to move forward, all of them will probably have. The possibility of death!

They had already seen how cruel the war was just now, and even the medical soldier Lu Chen felt a little afraid when he saw the corpses.

And Yang Rui looked at his team members at this time, and his expression was very ugly. Although he wanted to take his team members to continue participating in this mission, Qin Yuan was right. The mission was extremely difficult. If you want to take them there, I'm afraid everyone will die there, and even Yang Rui can't bear such a responsibility.

"You don't need to look at me, everyone makes their own choice."

At this time, after Yang Rui said this to the players, he directly took Qin Yuan to the side, but dropped a sentence:

"Those who want to participate in this mission will come directly."

At this time, the men looked at each other, but soon the deputy captain Xu Hong just patted the shoulders of these players, and then walked over there.

Seeing the choice made by someone, someone naturally followed. Gu Shun, the sniper, also walked over directly, but he said to Li Tang:

"I think you'd better go back, your mentality is not enough, this time I am afraid you will die soon."

But when he heard such words, Li Dong threw Gu Shun's hand away, then walked over and said to Gu Shun:

"How can a sniper not have an observer?"

Hearing this, Gu Shun shook his head and smiled. On the contrary, he felt a little more agree with Li Dong.

After that, more and more people came directly to this side, and in the end everyone occupied Qin Yuan's side. Qin Yuan was discussing the specifics of this mission with Yang Rui at this time. He looked up and found the entire dragon. Everyone in the team has already walked over and said:

"This is because of your own choice. If you die on this land, don't blame me."

Only after hearing such words, Xu Hong stood up and said:

"Since we are soldiers, when we hear the order, we can only move forward courageously. In fact, this time you give us the choice is already wrong."

Qin Yuan smiled when he heard this, and then said to Xu Hong:

"You think too much about this. I just want you to die. I don't have any more grudges in my heart. Okay, now that you are here, then I will treat you like dead people. In a word, I believe You Dragon Team, so no matter how much you sacrifice, you must help me complete the tasks that I release! And I am the same. If I can't complete the tasks and want to shrink back, any of you will have them. Qualified to shoot me directly!"

At this time, hearing Qin Yuan's words, everyone's hearts were extremely nervous, but Zhang Rui directly clenched his fists and shouted:

"Live and die together! I am invincible!"

At this time, everyone in the Jiaolong team stretched out their hands and held them together, and Qin Yuan also showed a smile, then put his hands on the top and whispered:

"Live and die together! I am invincible!"

After saying this, the members of the Dragon Dragon team looked at Qin Yuan with different eyes. They got up to tell the truth. If you follow an officer like Qin Yuan, even if you are going to execute this kind of almost death Task, but their hearts are also a little quieter' Alright, now everyone takes the time to rest and replenish fuel. Next we are a tough battle. These government troops can't count on how much equipment you have brought this time. Let's see if we can get more weapons from them. We can pay for them directly..."

At this time, after Qin Yuan finished speaking, he talked about the matter directly with the government soldiers, but other people, who couldn't understand the language here, couldn't help with this matter, so he took the time to rest.

Soon, Qin Yuan obtained a lot of weapons and ammunition from the government army. After all, the bearded captain who asked Qin Yuan for help at that time seemed to be quite high, so Qin Yuan now has a lot of convenience. What's more, Qin Yuan even transferred 100,000 US dollars to them in order to get all the good things in the hands of these people!

And these government troops didn't know what Qin Yuan was going to do. Since Qin Yuan was willing to give the money, they would naturally not be stingy, so with a big wave, half of the weapons in the entire convoy went directly to theirs. A team of only nine people.

But these government troops are planning to take this group of refugees to the next gathering point.

Chapter 432: How to carry it?

And Qin Yuan heard that this group of government troops did not intend to go to the town of Bassem, and then he just wanted to buckle the other half of the weapons in the hands of this group of people, it is best to let these guys go with only their guns. That's it.

But when Qin Yuan was bargaining with the leading government army, he suddenly heard a fierce quarrel.

At this time Xia Nan and Yang Rui quarreled, Xia Nan said to Yang Rui angrily:

"I know about security issues, but I have to go there, I want to rescue my assistant, not to mention that I have to see with my own eyes that the yellow cakes will not fall into the hands of the terrorists!"

But Yang Rui saw Xia Nan's unreasonable appearance, but scratched his head, and said to her reluctantly:

"Well, we have already understood what you said, but I want to emphasize again that our mission is to rescue Chinese citizens Deng Mei and Chen Qingrui who were kidnapped by terrorist organizations. In addition to this mission, there are other missions. These are our second-choice tasks, and we cannot take you with you when performing these tasks!"

After all, Yang Rui knew how dangerous this action was, so naturally he couldn't bring an oil bottle Xia Nan, but this Xia Nan seemed to have been abroad for a long time and felt that he was a reporter. Others must help her free of charge.

But at this moment, Qin Yuan suddenly came in front of the two people, looking at them with a strange expression, and Xia Nan saw Qin Yuan, his eyes widened, and the tone of his speech suddenly fell a bit.

Qin Yuan said directly to Xia Nan:

"You are a French Chinese, so we don't actually have any responsibility to protect you. It's not impossible to follow us, but you can only follow our team 500 meters away. If something goes wrong, we don't. Responsible, so if you are still willing to follow us, then do what you want."

Hearing Qin Yuan's words, Xia Nan was immediately stunned by Nono, and in the end he could only nod and agree.

After all, she had seen with her own eyes how Qin Yuan had killed all those people, and she understood that Qin Yuan was a truly capable person, and naturally she did not dare to follow Qin Yuan's hair.

Seeing Xia Nan's appearance, Yang Rui said to Qin Yuan in a vague way:

"Qin Yuan, is it appropriate to do this? She has a serious press card. I have seen her report before."

Upon hearing such words, Qin Yuan said impatiently:

"Why is it inappropriate? If she is really capable, let the Ivia government troops take her away. Besides, we are going to work hard. We can't send someone to protect her directly?"

Speaking of this, Qin Yuan gave Yang Rui a strange look, and said directly:

"Oh, I didn't expect you to be very concerned about this person. In fact, she was also very miserable. Both her husband and son were bombed to death by terrorists, so from then on, she completely lashed out with these people, but How could she be able to deal with those terrorists as a

woman? It's probably dangerous to do this business. If you are willing to protect her, you can have the best of both worlds!"

"Ah? No, no, no, no, this is absolutely inappropriate, besides, how can I do such a thing if I am going to perform the task now? It is not certain whether I can come back alive this time..."

At this moment, Yang Rui hurriedly explained, but Qin Yuan smiled when he saw Yang Rui's appearance, patted Yang Rui's shoulder lightly, and said to him:

"If you really have this idea, I can help you and try to get back alive. If we can go back well, if you fancy her, don't say anything else, I will directly help tie her to your bed!"

"what?"

At this moment, Yang Rui was completely dumbfounded. He watched Qin Yuan leave with a laugh. He didn't know if Qin Yuan was telling a joke or was it true. What's more, what do you think? Why did you ask Qin Yuan to help tie people to the bed?

...

Twenty minutes later, the entire convoy had been rested, and everyone officially set off. Xia Nan was also assigned a car. She followed the convoy a hundred meters away, just like this slowly.

The convoy kept moving along the mountain road, and it was very bumpy along the way. The stumble almost prevented people from spitting out their bile. But in this situation, naturally no one said anything, everyone was patient. .

At this time, Qin Yuan was trying to see if he could put away all his weapons and equipment.

The previous deal with the government forces was not reached. Although these people were willing to sell Qin Yuan weapons, they also understood that although money is good, it is still not as good as life, so they are not willing to sell the last half of the weapons. To Qin Yuan.

And Qin Yuan couldn't help it. He couldn't grab it directly, but he had one request, that is, to move all these weapons to the car belonging to the Dragon Squad.

Seeing Qin Yuan checking the weapon at this time, Yang Rui also asked Qin Yuan:

"I have looked at these weapons and found that the quality is still intact. They should be the weapons they bought recently. The power should be enough to guarantee it. But with so many weapons, how do we carry them?"

"I'll talk about it when the time comes. In short, we are fighting a tough battle. The more these things, the better."

Qin Yuan also had a slight headache at this time, how should he carry so many weapons and equipment? However, he knew how miserable the subsequent Flood Dragon team was, so he would rather bring more cumbersome weapons than lack weapons. After all, there are still no known how many people in that small town.

But at this moment, Qin Yuan looked at the ammunition box, but he had a strange thought in his heart, wondering what effect would it have if the ammunition box was placed in the grid?

But Qin Yuan glanced at the system ' and looked at the two grids left, hesitated.

In case it is useless to get a shared skill, then there will be one missing grid!

However, Qin Yuan just hesitated for a while, still gritted his teeth abruptly, and put an ammunition box directly into the grid while everyone was not paying attention!

And at this time, following Qin Yuan's movements, a soft sound suddenly sounded in his mind:

"Ding Dong~ The system was successfully recovered, please start choosing the host!"

With the prompt sound of this system, three options suddenly appeared in front of Qin Yuan!

"1. Obtain world-class ammunition box manufacturing technology!"

"2. Get world-class ammunition box storage space!"

"3. Get a world-class ammunition box improvement!"

Chapter 433: Not too safe?

At this time, looking at these three options, Qin Yuan's eyes lit up and he was completely excited!

Right bet!

Needless to say, the first and third options are the second option that Qin Yuan cares most about!

"System, how big is the storage space of this ammunition box?"

"Dingdong, answer the host, world-class ammunition box storage space, each type of equipment can store an order of magnitude of weapons and equipment!"

One order of magnitude!

Qin Yuan was even more excited this time, this order of magnitude is already quite a lot, for example, an ordinary 7.62mm rifle bullet, an order of magnitude is almost 360 rounds, this is enough for one person!

Moreover, these bullets are divided into different calibers, and the bullets of different calibers will occupy different spaces, which allows Qin Yuan to carry a sufficient number of bullets!

What's more, this is just a world-class ammunition reserve space. If Qin Yuan directly upgrades this ability to cosmic level, how many ammunition can he put in?

Thinking of this, Qin Yuan became more and more excited, and said directly in his heart:

"System, I choose the second item!"

"Ding Dong, the host has chosen successfully! Get world-class ammunition reserve space!"

At this time, with this voice, Qin Yuan suddenly felt that there was a row of small spaces in his system. Qin Yuan directly collected the bullet in his hand, and suddenly realized that there was an extra space in this space. The small bullet pattern, the number is also marked in the lower right corner!

Seeing this, Qin Yuan couldn't help but feel excited. Then, taking advantage of Yang Rui and the others' inattention, he took the time to stuff these ammunition boxes into his grid, and then stored his ammunition box capacity. , Directly promoted to the universe level!

And reaching the cosmic level ammunition box storage space is even more invincible, because Qin Yuan found that he could put some larger and more powerful weapons in it, such as this Sidewinder missile!

What surprised Qin Yuan even more was that even if he stuffed the Sidewinder missile inside, it still occupies a grid!

The Sidewinder missiles have an order of magnitude of twelve, which is enough for such a big killer!

At this time, Qin Yuan completely became a mobile arsenal. Although Qin Yuan could not directly take out all these things in front of others, as long as it did not attract the attention of others, then Qin Yuan would be able to surprise the enemy. Surprise!

Qin Yuan put all the ammunition that can be put in this space, and directly filled this small ammunition space, until he filled more than half of the ammunition he bought back, and he walked with satisfaction. Turning aside, whistled happily.

Seeing how happy Qin Yuan was, a black line appeared on Yang Rui's forehead standing on the side, and then said to Qin Yuan:

"Qin Yuan, aren't you nervous at all? We are not going to perform some small tasks this time. We may have to face hundreds of thousands of enemies. Just our small bodies, I am afraid we will fill them all in. It's not enough to spit on the other person!"

Only after hearing such words, Qin Yuan threw a piece of chewing gum directly into his mouth, and then said to Yang Rui:

"What is the use of being afraid? Does it make your body stronger or make you faster? Being afraid on the battlefield can only make you die faster. After all, bullets are Something, and he won't stop beating you because you're afraid. It's okay, we are a special forces team, we won't face the opponent directly when we are not a last resort!"

Hearing such words, Yang Rui couldn't help but roll his eyes. As a veteran who has experienced many battles, he naturally understands the truth, but people are not machines. How can he completely control his emotions?

But after hearing what Qin Yuan said, Yang Rui felt that the tension in his heart seemed to ease slightly.

Yang Rui looked at Qin Yuan at this time and realized that Qin Yuan didn't seem to be nervous at all, and he said to Qin Yuan:

"Now I am really convinced by those of you who have been sent from above. I really didn't expect that you are not only good at shooting, but also good at shooting. It seems that you have such a hand in psychological comfort."

Heard this. Qin Yuan immediately smiled, and said to Yang Rui:

"Isn't the captain who should be able to do everything? There is only one rule for me as a captain, and that is to say to my players 'follow me' instead of telling them 'give me up'. Come, I'm afraid they won't resent me even if they really died in battle.

Hearing this, Yang Rui was speechless for a while. You seem to be fooling us by this method!

However, Yang Rui had a certain say in this matter. After all, he was also the captain of the Dragon Team, but he couldn't understand what Qin Yuan said about being a captain.

After all, he can be regarded as a team leader anyway. Qin Yuan said that, is it a bit too shameful for him? With people like Qin Yuan for comparison, this will allow him to serve the public in the Dragon Team like this in the future?

So Yang Rui slanted his eyes directly at Qin Yuan and said, "I heard that there is a group of real commanding masters, even if they say they are going to join me, there seems to be no problem."

When Qin Yuan heard this, he chuckles and laughs, and then said to Yang Rui:

"Do you think this is credible? Even if he said that once, then he had done a move that proved his own strength in the past, just like now, if I didn't show you just now About my strength, ', do you dare to listen?"

At this moment, Yang Rui was stuck. This is true. If Qin Yuan did not show their true strength to them while defending the street, they might not dare to come here with Qin Yuan.

But Yang Rui still said stiffly: "You still have to listen, after all, this is an order..."

But Yang Rui himself knew that this was just a stiff mouth. When he said this, he really didn't have much confidence.

Qin Yuan glanced at Yang Rui, but he smiled without saying anything.

But at this moment, the car in front stopped suddenly, Qin Yuan and Yang Rui looked at each other, and suddenly felt a little strange.

At this time, suddenly a soldier of the Ivia government army ran over and said to them:

"Two of us, we have received news. It may not be safe before, and we may have to change our route."

Chapter 434: 1 big bag?

At this time, Yang Rui frowned when he heard this.

If they were to change the route, they would have to spend more time, and first contact the warship to let the warship give new instructions!

Yang Rui just hesitated for a while, and then gave Zhuang Yu an order to contact the warship directly.

After Zhuang Yu agreed, he quickly contacted the fleet.

"0101, this is team 1, please reply when you hear it!"

Zhuang Yu started to contact the warship, but after waiting for a while, no one answered.

"No signal?"

Zhuang Yu said in disbelief that although there are mountains all around, they are all relatively gentle. Shouldn't they have no signal in this valley?

At this time, Qin Yuan also walked directly out of the car, looked at the surrounding environment, stretched out, but when he heard the warship did not answer, he became slightly vigilant, and looked around carefully, and found There are mountains everywhere, and the vast land is without grass. I am afraid it is a good place to ambush!

And at this moment, Qin Yuan's spider induction was instantly aroused, he suddenly raised his head, looked upwards, and found a burst of shells flying here!

At this moment, Qin Yuan's eyes suddenly shrank to the point of a needle, and he turned his head and roared loudly: "Get out of the car, everyone! Be hidden!"

At this time, the people in the Jiaolong team didn't understand what was going on, but the conditioned reflex that they had cultivated for a long time allowed them to hear Qin Yuan's order, without saying anything, they just jumped out of the car!

And between this electric light and flint, there seemed to be a whistling sound from the top of the head, as if something had hit here directly!

When he heard this voice, Yang Rui's face turned pale, and he shouted: "Mortar! Hidden everyone!"

But as soon as the voice fell, the mortar shell fired from the mountain directly hit the convoy!

At this time, Qin Yuan was extremely calm. He took out the sniper rifle on his back in an instant, looked at the mortar shells constantly falling in the air, and directly pulled the trigger. There was a

snap, and the gun shot instantly. A bullet directly hit the warhead of the mortar, and the mortar was instantly detonated by Qin Yuan in the air!

And the other two shells were closer to the one that was detonated by Qin Yuan, and they also caused the explosion!

It's a pity that Qin Yuan only had one shot. The remaining mortars still slammed into the armored vehicle with a bang. The explosion sounded everywhere, flames and black smoke billowed, instantly turning the armored vehicle into an iron coffin inside. The people are completely finished!

The mortar shells on the mountain still smashed towards the head of the convoy one after another, and the armored vehicle hit by this shell was more like paper, and was directly torn apart!

There were bursts of screams suddenly sounded around, but unfortunately these screams were quickly covered up by the explosion of a cannon!

At this time, Qin Yuan was also hitting the mortar shells that fell from the air one after another, and said to the dragon team:

"What are you doing? Hurry up and hide, or intercept those shells for me!"

At this time, all the talents could be regarded as reacting, and they immediately entered a state of combat and began to shoot at the mortars in the air. Although their shooting accuracy was not as good as Qin Yuan, so many people shot together. When a blind cat ran into a dead mouse, he worked so hard to save the two armored vehicles in front of them!

It's a pity that their reaction speed was too slow. On the bus that was heavily packed in the middle, it was hit by a cannonball at the waist. A bomb blasted directly on the bus, causing countless casualties.

It was just a severed hand covered with blood that flew directly to this side, and even moved on the ground, looking at people with fear.

Seeing that the mortar had already worked, a few trucks drove over from the side of the mountain. More than 30 militants got off the car and fired randomly at the convoy.

And those Ivia government troops who were lucky to have not been forced to fire and were killed were instantly shot into a sieve by this group of people!

Seeing this situation, Yang Rui's face instantly became extremely ugly, and he said directly to his hands:

"Gu Shun Li understands, find the location of the mortars and knock them out!"

But Qin Yuan said directly to the two who were about to rush out:

"The mortar is at a 45-degree angle to the northwest, at a height of 7. Be careful there must be snipers on the mountain, so keep it hidden!"

At this moment, when they heard Qin Yuan's words, Gu Shun and Li Dao were both stunned, but they reacted quickly. In an instant, they rushed out with a fairly intact armored vehicle, found a commanding height, and looked at the telescope. Sure enough, I saw a group of people at the location marked by Qin Yuan.

And these people are busy loading bullets into the grenadier!

At this time, observer Li Dao also reported the situation in a low voice through the telescope:

"The wind speed is 35, the data is stable, and the target is 11 people!"

Hearing Li Tang's report, Gu Shunping calmed down, and instantly aimed at someone, snapped a shot, and pulled the trigger directly, and a terrorist who was carrying a cannonball was instantly headshot!

This group of terrorists suddenly panicked, knowing that a sniper had aimed at them, and quickly hid behind the stone!

But at this moment, seeing the group of people hiding, Gu Shungang wanted to move his position and pursue them, but at this moment, a gunshot sounded and a sniper rifle bullet flew over. It hit the walkie-talkie that Gu Shun hung under his ear!

At this moment, Gu Shun's expression was very ugly. He knew that he had just wandered around in front of the ghost gate, and cursed: "There really is a sniper!"

And when Gu Shun avoided ', he regretted not paying attention to Qin Yuan's reminder!

Now that he was seen by the opponent's sniper, he had lost the opportunity, as long as he dared to appear, he would die!

At this time, Yang Rui also said to Lu Chen on one side:

"See what can be used! Call it back!"

When Lu Chen heard this, he also wore a rain of bullets and headed directly towards the armored car that was on the road, but before he rushed out, Qin Yuan just pulled the guy back and left. He gave him a big bag:

"Use this first!"

When Lu Chen looked at this big bag, his eyes suddenly brightened. There were all drones and rocket launchers in this big bag, and he said to Qin Yuan in surprise:

"How did you find so many things?"

Chapter 435: rescue!

But after hearing this, Qin Yuan couldn't directly tell the other party that he took it out of the grid, so Qin Yuan said directly to the other party:

"Work!"

Hearing Qin Yuan's roar, Lu Chen also reacted. He glanced at the dense enemy area, loaded a rocket, swished it directly, and directly placed one of the enemy's heavy loads. The machine gun truck was broken into pieces!

Lu Chen also let out a sigh of relief. He was really beaten up just now!

"smoke bomb!"

Before Qin Yuan finished speaking, he heard Xu Hong's voice from the earphones:

"There are still people alive in the bus, and one of the shells did not explode. Let me help!"

Qin Yuan saw Lu Chen's appearance at this time, and said directly to the other party:

"Use the drone to find out the opponent's sniper, and I will save people!"

Although these are all foreigners, Qin Yuan knew that if these people were left alone, they would definitely be killed by a bomb that had already been smashed into the car!

Qin Yuan suddenly rushed to the position of the car and saw that Xu Hong was cutting a shell with a micro cutter at this time, and the electronic fuse of this shell had been activated, and it looked like it was about to explode!

"There is one more inside!"

Qin Yuan rushed inside at this time, but just took a look. In this bus, it was like **** on earth. A group of people were blown up to blood and blood. Even if they survived by chance, they were all seriously injured. !

These people just screamed helplessly, lying in the flames and ruins, appearing even more helpless.

Seeing this scene, Qin Yuan frowned tightly, and at this moment, he felt that something was touching his foot beside him, and when he looked down, he realized that there was a serious injury. People were clutching Qin Yuan's calf, and they couldn't help begging Qin Yuan:

"Please, kill me."

Qin Yuan looked at this person, the lower body was gone, and the upper body was half less. It was almost like crawling out of hell, and Qin Yuan let out a sigh of relief, and then gently hit this person's ear. A snapped finger, said lightly:

"No more pain, no more pain~"

And this person heard Qin Yuan's voice, the extremely urgent expression on his face slowly eased, and he didn't know what he saw in the hallucinations, a smile appeared on his face, and then he stopped just like that. Breathe.

Looking at this person's corpse, even Qin Yuan was stunned for a moment, but Qin Yuan soon woke up and stood up directly, planning to clean up the bomb.

But at this moment, Qin Yuan suddenly heard a voice in his mind:

"Ding Dong, the system releases the task, and every time the host saves five ordinary people alive, they get a grid!"

Hearing this voice, Qin Yuan only trembled, and then he returned to normal in an instant, and said directly to Xu Hong:

"You go save people first, let me come here!"

"You solve that one first!"

Xu Hong said in sweat at this time, after all, these shells are all electronically controlled. After they are really excited, they will explode as long as the time is up. Their time is running out, and the two must be synchronized!

In the current situation, even Xu Hong as the deputy captain is extremely nervous. At this time, he is trying his best to control his nervousness, so that his hands will not tremble. After all, he knows that as long as it is his own hands. Shake more, this bomb will detonate directly, when he and Qin Yuan and the people in this car will all be finished!

But at this moment, Xu Hong suddenly heard a voice behind himself:

"Get out of the way, you are too nervous!"

And when Xu Hong heard Qin Yuan's words, he couldn't help but burst into an unknown fire in his heart, directly yelling at Qin Yuan:

"Didn't you let you take care of that one?"

However, when Xu Hong turned his head, he found that Qin Yuan had grabbed the equipment in his hand, and then Qin Yuan pushed Xu Hong aside!

At this time, Xu Hong was full of anger. He just wanted to say something, but when he turned his head, he found that another bomb had already been taken down!

The anger in Xu Hong's heart at this moment was like being directly splashed with a basin of cold water, his eyes widened, and his eyes were filled with disbelief!

How long did he spend after saying those words to Qin Yuan?

One minute? Half a minute?

It is estimated that there is not even 20 seconds, Qin Yuan has already dismantled that shell?

This is simply incredible!

At this time, Xu Hong wanted to say something to Qin Yuan, but he heard Qin Yuan throw a word:

"If you have anything to say later!"

After that, Xu Hong saw Qin Yuan's extremely proficient movements, and directly opened the shell of the shell with a screwdriver, then directly put his hand in, and directly pulled out a chip with extremely violent force. Then he pulled out a bunch of leads, found one of them, and **** shook, and the lead was torn off instantly!

This whole process is like peers, and it took less than 10 seconds!

Seeing Qin Yuan's movements at this time, Xu Hong, who was squatting on the side, was completely dumbfounded. He felt as if there was something choking in his throat. He looked at it for a long time. Said confidently:

"Just so fast?"

"It was not so fast just now. It took 15 seconds. After all, it was the first time to dismantle this kind of bomb."

At this time, Qin Yuan showed a grin with white teeth at Xu Hong, and then said to Xu Hong:

"Let's pull people out quickly!"

But after hearing what Qin Yuan said Xu Hong was completely dumbfounded. He really didn't expect that it would be Qin Yuan's first and second time to dismantle this kind of bomb. Human right?

For the first time, Xu Hong felt that he had learned blasting and bomb removal in the army for so many years, just like Bai has learned!

In fact, this is not surprising, after all, when Qin Yuan used to deal with glutinous cards, he specially learned the manufacture and dismantling of bombs. Now Qin Yuan is already invincible in this regard! After all, since Qin Yuan suffered the loss of this bomb, he has made up his mind that he will never suffer again because of this!

After solving these two bombs, Qin Yuan hurriedly gave emergency treatment to the survivors!

Although Qin Yuan had already dismantled the bomb, and Qin Yuan still had one-handed surgical skills and eight needles against the sky, there were still not many people who could be saved. There were only eight, and among the eight people, there were still Five are seriously injured, and I don't know if they can survive in the environment here.

Chapter 436: Cruel smile

And just after Qin Yuan finished the treatment of the last person, a voice suddenly rang in his head:

"Ding Dong, the host completes the task, saves eight injured people, and rewards a grid!"

Hearing this voice at this time, Qin Yuan's heart was also a little loose. Although not many people were saved, Qin Yuan tried his best.

Both Qin Yuan and Xu Hong moved very quickly, and it didn't take long to rescue these people. At this moment, watching the group of terrorists who were still shooting, Qin Yuan also had a sincere heart. Anger!

It's these ***** that make things like this!

At this time, the smoke bombs that had just been shot out slowly dissipated, and the opponent's attack was launched again!

Qin Yuan put away his sniper rifle at this time, then picked up a few pieces of iron and an Ivia government army weapon from the ground, and rushed directly toward the enemy position over there!

Qin Yuan directly turned on his latent ability, and the rebels seemed to be unable to see Qin Yuan, so they forced Qin Yuan to stick close!

And when these people saw Qin Yuan, they were naturally terrified, and they immediately turned their guns and shot directly at Qin Yuan!

And Qin Yuan also hid behind a stone to avoid the limelight. After all, although one or two bullets in Qin Yuan was nothing, if he was hit by a heavy machine gun, he would still be injured and killed!

Only Qin Yuan, who was hiding behind the stone, glanced at his backpack, but instantly revealed a cold smile, then directly took out a stinger missile from his space, and launched it directly into the air. Past!

And this stinger missile went straight into the sky, then hovered in the air for a while, searched it, and smashed directly toward the positions of those terrorists!

The missile exploded in an instant, and this group of terrorists was blown into a pile of fragments as a result!

"Make you so arrogant!"

At this moment Qin Yuan said fiercely. He also knew that a missile could not be completely destroyed by the opponent, but Qin Yuan had a chance to breathe and rushed directly out of the stone. A terrorist with the ability to resist heads out!

But at this moment, Qin Yuan suddenly felt a crisis, and when he looked up, he found that it was just a few mortar shells that had hit him directly!

And Qin Yuan stared, his whole person wrapped into a ball, and he rolled down the mountain in an instant!

boom!

Those mortar shells directly exploded at Qin Yuan's position just now, blasting this piece of rock into debris!

Qin Yuan spit out and said to the walkie-talkie:

"Gu Shun, what are you doing, why haven't you gotten rid of the mortar position!"

"Report! I knocked down the opponent's four barrels and was spotted by the opposite sniper. The opponent also had two barrels, hiding behind the rocks. I couldn't hit it!"

At this time, Gu Shun was also panting violently. He couldn't find the position of the opponent's sniper now. Every time he shot, he was fighting his life!

Hearing this, Qin Yuan instantly activated his eagle-eye ability, and saw the people on the opposite mountain with mortars hiding behind the stone, and they just happened to be able to see Qin Yuan's position. I want to have another shot at Qin Yuan!

At this time, Qin Yuan looked at each other and said directly to Gu Shun:

"Gu Shun, I can see the opponent's mortar position here. I will kill these people, but I need to move to the top of the stone in front of me. There is no place to hide. The sniper's position is on your left. The ridgeline is 10 meters to the right. After a while, I will shoot and kill the mortar. The opponent's sniper will definitely come and kill me. You can take this opportunity to kill the opponent's sniper!"

"understand!"

Gu Shun also gritted his teeth and said to the headset:

"Li understand, help me determine the other party's location!"

At this time, Li understands hiding in the distance. After hearing Qin Yuan's voice, he had already focused on this position. He knew that Gu Shun's position was very bad. He could only wait until the sniper fired the shot. Enter the sniper state and fire a shot.

Therefore, the more accurate his position is reported, the less time Gu Shun can aim when he shoots!

"Found it! The ridgeline is 8.25 meters north, and the whole person is lying on the ground, moving east-west..."

At this moment, hearing Li Tang's babble, Gu Shun directly closed his eyes and constructed an image in his mind.

It's like performing blind sniping in such an unfamiliar environment. Even a master sniper like Gu Shun is a difficult event. Gu Shun understands that if he misses this shot, it is difficult to fire a second shot. Opportunity!

However, Gu Shun opened his eyes in the end and shouted into the intercom:

"Captain Qin Yuan, I'm ready!"

"it is good!"

At this time, after Qin Yuan heard this, he also took out his sniper rifle, and then quietly crawled onto the big rock.

Looking at the mortarers who were loading in the sniper scope, they waited calmly, and then threw out a helmet.

And those mortarers were worried that they could not find Qin Yuan's position, and the helmet that Qin Yuan threw out directly indicated his position!

The enemy sniper, who was the observer, saw this operation of Qin Yuan, and instantly turned his attention to Qin Yuan's side, and then said to his companion:

"He is behind a big rock in the direction of 75° southeast. He can't hit you, so he will bomb him with cannonballs!"

Hearing such words, the mortarer who had two barrels left was extremely excited. He directly fine-tuned the angle of the barrel, and then suddenly fired at Qin Yuan!

However, Qin Yuan felt the other party's firing through the radar' There was a smile on the corner of his mouth.

This is the time he waited!

The opponent's sniper was right, as far as Qin Yuan's position was, he couldn't hit the opponent's mortar at all. However, as long as the opponent fired a cannonball toward this side, Qin Yuan could directly hit and fly out. Mortar!

"Same! Same!"

Only two cannon sounds were heard, and the mortar left the barrel in an instant. At this time, Qin Yuan also said to the walkie-talkie: "Get ready!" Then he suddenly matched his dynamic visual ability with his neural response speed, directly at this speed. , Played to the limit, 21 times faster!

The mortar that had just flown out at this moment looked like a slow motion in Qin Yuan's eyes, and Qin Yuan took this opportunity to directly activate the gun in his hand!

And the enemy sniper who had been staring at Qin Yuan here, also saw Qin Yuan suddenly appear from behind the stone, a cruel smile appeared at the corner of his mouth, and he immediately pulled the trigger!

Chapter 437: Qin Yuan's proposal

It's too late to say, then fast.

After Qin Yuan shot a shot, the whole person ran out in an instant, and in the mortar position, Qin Yuan's bullet directly hit the mortar shell, and the shell hadn't flew far. Directly exploded in the air, and immediately blasted several mortarers hiding behind the stone into debris!

After the enemy's sniper shot this bullet, he suddenly felt a sense of palpitations, but he was too late to make any evasion. With a snap, a cloud of blood burst out on his forehead!

It's Gu Shun!

The moment Qin Yuan fired his gun, Gu Shun had already set up the gun directly, saw the person on the opposite mountain, shot a headshot!

At this time, the enemy sniper's bullet had just hit the stone where Qin Yuan was!

However, after Gu Shun killed the enemy at this time, he was not proud of anything, but anxiously shouted into the walkie-talkie:

"Captain Qin Yuan, Captain Qin Yuan, are you okay!"

Gu Shun was extremely anxious. After all, he knew that if Qin Yuan hadn't attracted the attention of the enemy, let alone kill the sniper, he might not even be able to raise his head to fight back!

Although Gu Shun was not very pleasing to Qin Yuan before, but now he is extremely worried.

"It's all right, stop howling, it's alright!"

Qin Yuan's voice came directly from the intercom, and Gu Shun was relieved immediately, lying on the ground feebly.

At this time, Qin Yuan was also lying on a rock with a trace of cold sweat on his head.

Just now Qin Yuan watched the bullet and swiped it from near his head. Although Qin Yuan has 21 times the dynamic vision ability, Qin Yuan's body can't speed up 21 times. For Qin Yuan, it is not a small burden for Qin Yuan to spend so much time in such a short time.

"Huh, it seems that I still have to increase my physique. Otherwise, I can't see it but I can't hide it, that would be too bad!"

At this moment, Qin Yuan looked at the bullet mark in the distance, and felt a little ashamed.

...

This battle finally came to an end. The terrorists who came to attack were all killed, and the people of the Ivia government army also suffered heavy casualties. After all, they were just ordinary soldiers and were beaten in such an ambush by the opponent. , If these people are left, they are already very qualified soldiers.

Under the calm command of Qin Yuan and Yang Rui, the members of the Jiaolong Commando were not damaged, but many people were still injured. Among them, Gu Shun was the most serious. His ears were damaged by enemy sniper rifles I got a shot from the bullet, and I still have tinnitus until now.

The Ivia refugees who survived looked at those who died, and their hearts were extremely heavy. The atmosphere on the scene was also very low. After burying their relatives and friends, these people couldn't stop crying.

The convoy was forced to bombard the remaining 4 armored vehicles. At this time, I heard the gunfire stopped. Xia Nan, who had just hid in the distance, drove the car carefully. She just heard this. When the gunshot sounded, I understood in an instant that there must be an accident here, so I went directly to the side and hid it, so this is just coming.

At this time, looking at the corpse all over the floor, Xia Nan's eyes were full of endless shock.

At this time, Qin Yuan saw Xia Nan walking over and said directly to Xia Nan:

"You just came here. We just don't have enough vehicles. You donate your car to these refugees, and then you go back with these people."

The government army is very grateful to the Jiaolong team for their help this time, so even if there are 4 cars left, they are still willing to give them two, and the rest of them are crowded on the remaining two cars, it seems Very crowded.

And this time Xia Nan came over, so naturally there would be one more car.

Qin Yuan would not force these government troops to continue to follow them to the small town of Bassem, after all, this group of people was already unlucky enough.

Hearing Qin Yuan's words, Xia Nan was also completely stunned. She looked at the corpse in front of the ground and was extremely shocked.

Especially seeing the horror of the people in the bus, Xia Nan couldn't stand it, and he just vomited out!

The sight of facing ***** at close range gave her a great shock, and the feeling was simply beyond description.

Qin Yuan saw Xia Nan's appearance, walked over, patted her on the shoulder, and said to her:

"You have seen it, and you know this kind of thing, it is not something that people like you can bear. If you want to continue to follow us, these fallen people may decide that the next one is you, and there is the last one. The opportunity is to go back directly with those refugees, and then return to your country honestly and live well. This is better than anything else."

After speaking these words, Qin Yuan patted Xia Nan on the shoulder again, and then went directly to collect the clothes of those terrorists.

These refugees knew that this place could not stay for long, so they assembled soon and left in the car. After Qin Yuan collected the clothes, he just walked back and found out that Xia Nan was still here. He frowned and said to Xia Nan:

"Why haven't you left?"

Xia Nan looked at Qin Yuan, but said firmly:

"If I don't leave, I will stay here and continue to expose those people. By the way, I can remember your heroic deeds. I stay here to prevent more people from becoming like those in the bus. ."

Seeing this situation, Qin Yuan could only shook his head helplessly. The refugees had already gone far, and now even if they wanted to let Xia Nan leave, there was no chance. '

However, Qin Yuan has a trace of admiration for Xia Nan. After all, a woman is facing the tragic situation in a bus, how many can maintain her will and continue to persevere? This has to be said, Xia Nan is still very strong.

At this time, Gu Shun also came over and said to Qin Yuan with a smile:

"Captain Qin Yuan, I really convinced you now. Your hand is so awesome. I didn't expect you to hit a mortar in the air directly!"

"Hey, your level is pretty good. You are qualified to be my apprentice. I don't know if you want to study with me."

At this moment, when he heard such words, Yang Rui, who was standing on the side, frowned slightly. To be honest, he had been dealing with terrorists who were about to rush up just now. The headset was also broken, so he didn't know. what's going on.

However, he knew that Gu Shun had a more arrogant temper. If someone else said that, he would have been arrested long ago, so he was afraid of a conflict between Gu Shun and Qin Yuan.

Chapter 438: Small town!

But what surprised Yang Rui was that after hearing Qin Yuan's words, Gu Shun nodded and looked a little excited, as if it was a lucky thing to become Qin Yuan's apprentice.

When Yang Rui asked why Gu Shun was surprised, he immediately rushed to Qin Yuan's side and said to Qin Yuan in surprise:

"How did you do it, how could you directly explode the opposite mortar in the air?"

Although Qin Yuan had also exploded mortar shells before, Yang Rui thought that Qin Yuan was Mongolian, but now it seems that Qin Yuan can actually hit the shells directly!

What kind of fairy marksmanship is this?

Is this something humans can do?

"secret."

At this moment, seeing Yang Rui's awkward face, Qin Yuan just smiled mysteriously. After all, he couldn't tell the other party that he had 21 times the dynamic vision ability. The mortar shells that took off were similar to ordinary ones in his own eyes. It's the same as flying a balloon, which is certainly not difficult.

When he heard Qin Yuan's answer, Yang Rui couldn't help but his eyes widened, but when he just wanted to continue to ask, he saw Qin Yuan actually collecting the clothes of these Ivians, and he asked in confusion. :

"What do you collect these clothes for? You don't want to wear them? Can you always tell me?"

No wonder Yang Rui felt weird. After all, changing to someone else would feel weird. After all, these clothes were more or less stained with blood from terrorists. Even if they got it, what's the use?

When Qin Yuan heard this, there was another mysterious smile on his face, and he said to Yang Rui again:

"The clothes are not here to wear, or are they used for? At first glance, you just have no knowledge!"

After hearing these words, Yang Rui was completely speechless, and Xia Nan, who was standing on the side, saw Yang Rui's appearance, but shook his head, and then explained to the other party:

"Maybe he wants to pretend to be the other person, and then mix into the other person's crowd. Aren't we going to save the hostages, this way, maybe it will be easier to do a lot!"

"How can this work? He will definitely find it out."

Yang Rui's first reaction was this immediately, but he quickly reacted, as if this would work!

After all, they only have these few people, but the other party has hundreds of people. If they rely on them to attack directly, it is simply a fantasy, completely impossible.

Since there is no way to attack, then you can only think of some ways, and the person who pretends to be the other party directly lurks in, it is a rare good way!

After all, whether it is the government army or the rebels, most of them are covered with their faces and hair wrapped, and Yang Rui doesn't believe them anymore. All these people know them. As long as they don't meet acquaintances, they just lurch in. may!

"good idea!"

Yang Rui's eyes lit up, and he gave Qin Yuan a thumbs up.

And Qin Yuan also shook his head, and then continued his work.

What Yang Rui and Xia Nan said was pretty good, but what Qin Yuan wanted to do was not that simple.

Soon, the rest time is over and everyone is ready to go.

Before leaving, Qin Yuan once again mobilized these people before the war. At this time, Qin Yuan directly said to everyone:

"I will tell you one last time. We are currently unable to contact the warship, so the superiors simply cannot issue any orders to us, nor can they provide us with any help, but our mission remains the same. Is there any problem in saving the abducted Yan Nation citizens Deng Mei and Chen Qingrui?"

After saying this, Qin Yuan directly scanned the audience, and when he saw Qin Yuan's gaze, all the members of the Flood Dragon team said in unison:

"no problem!"

But seeing these people so energetic, Qin Yuan laughed and said directly to everyone:

"You understand the situation just now. I'm not joking. I will really die this time. To be honest, I think that no matter what people do, first of all they are alive, but why should we fight on the battlefield? That is Because we will make more people like us live better!"

At this time, when hearing such words, medical soldier Lu Chen lowered his head and muttered in a low voice: "I'm just a medical soldier. I never thought that the war would be like this."

But after hearing what Lu Chen said, Qin Yuan walked over directly, patted Lu Chen on the shoulder lightly, and then said to him:

"War has always been like this. We can't see it. It's just because someone stands in front of us. Now, we need to stand in front of others. This is the duty of us soldiers. For our better future, we There is no way to back down!"

And seeing Qin Yuan's appearance, Lu Chen also nodded fiercely, becoming firm!

And hearing Qin Yuan's voice, a tense atmosphere immediately enveloped everyone's hearts. The life-and-death battle just now thoroughly explained to them how cruel the war is, and now they are going to go. A lair of the enemy, the ***** that greets them is even more cruel!

At this time, Qin Yuan saw the extremely nervous look of this group of people, and finally took a long breath and slowly said to the group of people:

"As your captain, I can't promise you anything, but I just want to say one thing to you, that is to come back alive!"

"Well, let's head towards the town of Bassem together and rescue our people!"

Qin Yuan gave an order to end this mobilization!

...

Soon the two intact armored vehicles were launched directly. They only had ten people. The space of the two vehicles was still more than enough, and they could also carry a lot of weapons and equipment.

The two cars are full of smoke and dust' directly from this deserted Gobi Desert, slowly heading towards their destination.

Qin Yuan looked at the sky and found that a bald head was constantly hovering above his head. He finally let out the breath of his chest and said faintly:

"It seems that after this war, these vultures will be very fat!"

At this time, Yang Rui sat beside Qin Yuan and said directly to Qin Yuan:

"That's natural, after all, this was raised with the corpses of our enemies!"

Hearing this, Qin Yuan suddenly smiled, then flipped over to the roof of the armored vehicle, expanded his eagle eye ability and looked into the distance.

At this time, under the vast sky, a small town in the distance had appeared in front of them!

This is the town of Bassem!

An inscrutable light flashed in Qin Yuan's eyes, and a cold smile appeared at the corner of his mouth.

Chapter 439: How did you fight?

At this time, outside the small town of Bassem, Qin Yuan and his group hid the car, and then slowly lurked to the mountains around the small town, carefully observing the scene in the small town.

The defense in the town is not very strict, but Qin Yuan is very careful, and said to the people of the Dragon Team:

"Go ahead and investigate. By the way, I have received the news that Zhaka has been entangled with the international organization k2. I have seen the people of k2. Those people have received professional military training and are retired from various national special forces. Members, although I don't know if there are k2 people in this town, everyone must be careful not to treat the other party as ordinary militia, but to guard against possible k2 members."

Hearing this, everyone was shocked. The navy dealt with most of them were pirates, terrorists and other people who had not received serious military training. If they were asked to deal with professionals, they would just Only experience in participating in military competitions.

At this moment, Yang Rui's face also became serious, and then directly said to the communicator on one side:

"Zhuang Yu, set up an anti-jamming communicator. See if you can get in touch with your superiors, Xu Hong, go ahead and investigate and see if you can get any information in the town."

"Yes!"

At this time, both of them agreed, but Qin Yuan reminded them:

"You must pay attention to safety, remember, you are facing well-trained masters, you must be careful! Especially you, Zhuang Yu, when constructing an anti-jamming communicator, pay attention to the camouflage of the equipment and take out the fight. The ability of the newsletter to fight, if others find out, we will directly expose it!"

When Zhuang Yu heard Qin Yuan's words, he nodded his head suddenly, and then rushed out!

Soon, Xu Hong came back and said directly to everyone:

"I just saw that outside the small town in front, there is a small house. It seems that there are some people under Zhaka who have kidnapped a few women. It seems that they are gathering food to prepare for cooking. We can go first and control it. These people."

Hearing this, Qin Yuan directly turned on the thermal imaging capability, carefully observed the surroundings, and found that there seemed to be no people hidden around, and then directly said to Yang Rui:

"Yes, we can go there first, trim it up a bit, maybe we can get the information in the town from the mouths of those women. The soldiers are divided into two ways. I will first go and see what else enters the town. Entrance, we can't put eggs in a basket!"

And Yang Rui also agreed to Qin Yuan's proposal. After all, if they are really facing foreign troops, they must be careful, and then Yang Rui said to Xia Nan on one side:

"Well, let's go, Xia Nan, you stay here, Tong Li, you stay here to protect Xia Nan and weapons and vehicles."

But after hearing this, Xia Nan said directly:

"No, I will go with you. You can hide this vehicle and weapon directly. After all, it is already understaffed. If you take out manpower to protect me, it will be even worse."

But when he heard this, Yang Rui said directly to Xia Nan:

"Madam, what did you say before, you must obey the order!"

But Xia Nan said directly to Yang Rui:

"Then do you understand Ivia's language? Although these people speak good English, what if these rural women don't understand English?"

Hearing this, Yang Rui was a little dumbfounded. As a naval special forces member, Yang Rui's English level is not bad, but Ivia is a small country. What if the women below really don't understand English? Delay things more?

"Okay, since she is willing to follow us, she must make a contribution. Since she understands the language, that's great!"

At this time Qin Yuan also spoke directly to Yang Rui, and when he heard this, Yang Rui could only nod his head, but he was a little curious and said to Qin Yuan:

"By the way, what are you going out for?"

"I went to investigate the town, at least to judge whether there are really k2 people in it."

Qin Yuan said in a deep voice, after all, if there are people with k2, then they have a lot of tactics and they can't be used at all!

Moreover, Qin Yuan also wanted to remember the surrounding terrain. After all, it was in broad daylight, so his night vision ability could not be used. The Hawkeye ability was also limited because of the mountainous area, so he had to do it first. Reconnaissance, keep all the terrain in mind, so that as long as there is any change in the terrain, it proves that someone touched it!

Hearing this, Yang Rui also nodded, and then the various personnel began to divide their work!

At this time, Qin Yuan directly rushed out, and directly used his lurking ability to touch the surroundings of the town, but when he just wanted to reach the town, he suddenly saw several electronic vehicles in the town. The car suddenly made Qin Yuan's heart sink, and sure enough, the k2 person must have arrived.

In this way, they must be more careful.

But Qin Yuan hid in the dark, glanced at the people in the town, did not do anything, and walked out slowly.

Soon, Qin Yuan arrived at the hut outside the town before. Yang Rui and others had already cleaned it up, but there were only a few women left here, looking at them in horror.

Xia Nan was asking for some news, and then she translated what the woman said afterwards.

Seeing Qin Yuan coming back at this time, Yang Rui said with an ugly expression:

"Just now I learned from these people that there are nearly two hundred militants in this small town, but there is only one road to the hostage camp', and it has to be from the middle square. Go up, what are we going to do?"

Hearing this, Qin Yuan also shook his head and smiled, then said to Yang Rui:

"Then I also give you a bad news. K2 people are definitely here, and I took a look. This place is probably very important to Zhaka. I saw a few militants and they are definitely all experienced. A master of war, and I also saw several tanks in the town. It seems that Zhaka has spent his money in order to protect this place!"

Hearing what Qin Yuan and Yang Rui said, Xia Nan, who was on the side, also said with an ugly face:

"How can it be possible for these nine people to fight two hundred, otherwise we call for support!"

But when he heard this, Yang Rui shook his head and said:

"Impossible. We are now in the interior of Ivia. The support of the warship is limited. If we really send a missile to us, then the international community will not know what to say! You are Reporter, I'm afraid you know these things better than us."

Chapter 440: Universe-level disfigurement!

At this time, Xia Nan's face was dark when she heard such words. She naturally knew that even she had written some articles mocking other countries before. Obviously, since she would deal with other countries like this, journalists from other countries , Will use the same method against Yan Country.

Yang Rui looked at Qin Yuan and asked Qin Yuan in a low voice:

"Qin Yuan, when you were in Feizhou before, it seemed a bit similar to here, how did you solve it at that time?"

"Hehe, the situation was different. At that time, our situation was much better than that of you. After all, both the government and the rebels had scruples about Yan Country. What we have to deal with is only a mercenary organization, but now, Zhaka They have arrested our people and even threatened us, which proves that there is no more talk."

Qin Yuan explained at this moment, and Yang Rui's expression was even more ugly, but he still said directly:

"Nine of us can deal with two hundred. Strong attack is definitely not enough, so we can only outsmart, so I have a suggestion, that is, we directly pretend to be the people here, and then touch in. Anyway, they are all covered. I don't know who it is. At that time, we will directly bring Deng Mei and Chen Qingrui out, and then leave here quickly. Once there are no one of us here, we can directly use heavy weapons!"

Having said this, Yang Rui glanced at Qin Yuan. After all, Qin Yuan had bought a lot of heavy weapons from the government of Ivia before. If they could bombard unscrupulously, they might be able to fight it.

But Xia Nan, who was on the side, said quickly:

"No, don't forget, there's only one way to enter the square. If you return from the same way, it will definitely be seen by those people, but Deng Mei and Xiaohua are important bargaining chips used by Zhaka to threaten Yan Guo's navy. We If you bring people out directly, it will definitely make them suspicious!"

Hearing this, Yang Rui also fell into contemplation. After all, Yan Guo's military had promised to protect Mohadi's family, so Xhaka would counterattack against Yan Guo. He wanted to capture those of Ambassador He Qingliu, but failed. Up.

When the other party was arresting William, they happened to meet Deng Mei and Xiaohua. This was to capture the two. They used two people to threaten the military of Yan Nation and let them surrender Mohadi's family. Good to put pressure on the Ivia government forces.

Therefore, Zhaka's people will inevitably watch Deng Mei and Xiaohua strictly, and if they want to be rescued by this method, I am afraid it will not work.

And if there are women to exchange, that's okay, but they only have Tong Li here. Let's not say that Tong Li is a bald head. Will it be seen by those people? Take a step back and say, even those people don't. They will find Tong Li's abnormality, and they are trying to rescue two people. Tong Li is definitely not good enough.

Qin Yuan smiled slightly after seeing the sad faces of the two people, and then directly said to the two people:

"Okay, you don't need to be so sad, I have a way."

At this time, Yang Rui and Xia Nan's eyes lit up when they heard such words. After all, they had already seen how powerful Qin Yuan was. Now that Qin Yuan said that he could come up with a solution, he was naturally full of expectations:

"What can you do?"

At this time, Qin Yuan pointed directly to the clothes these people were wearing, and said to them:

"We can just wear the clothes on them like this, and then the person who pretends to be them rushes in and brings the people out without blood."

But when he heard what Qin Yuan said, Yang Rui frowned and said directly to Qin Yuan:

"Are you kidding me, what is the difference between your approach and the proposal we just made?"

"Of course there is a difference!"

Qin Yuan smiled at this moment, and then directly said to Yang Rui:

"We put on makeup differently. Are the little soldiers and the boss the same treatment? As long as they are well put on makeup, they can definitely be done!"

"You are joking, but those people are not blind and murderous. How could you see you and leave with two people? As long as you see you on the square, I am afraid that you will be treated directly. Smashed into a sieve, such an action is too dangerous!"

At this time, Yang Rui frowned and said, of course he wanted to be able to rescue the hostages without blood, just like Qin Yuan, but it was obvious that this method was impossible.

However, Qin Yuan shook the corner of his mouth and said directly to Yang Rui:

"Yang Rui, I remember the picture of Zhaka in your own hand, don't you give it to me?"

A picture of Xhaka?

At this moment, Yang Rui was stunned when he heard such words:

"You ask me what is the use of taking pictures of him. Can't you plan on disguising yourself as him and rushing in? But I tell you, this is simply impossible. It is not a TV show, and that group of people are not fools. How could it not even recognize their leader?"

"This doesn't need you to take care of it. Don't worry. I am not an idiot. I will rush in and die. You can do whatever you want. Don't forget that I am the leader this time. "

At this time, Qin Yuan said to Yang Rui with a smile on his face, and Yang Rui saw the smile on Qin Yuan's face, but in the end he could only helplessly give him the picture of Zhaka.

And Qin Yuan turned to Zhaka's photo, took a look, and found that this was an old man with gray hair and beard. He was dressed in black and looked like a religious godfather.

Who can think of ' This is the man who turned the whole Ivia upside down.

And Qin Yuan just said to Yang Rui, "Wait for me here, you will understand in a while", and then took this photo to a room on the side.

In fact, he was already prepared to make up to become Xhaka, so on the way here, he had found some makeup items elsewhere.

Qin Yuan smiled slightly, now is the time for the last performance of this cosmic makeup and disguise technique!

At this time, Yang Rui saw that Qin Yuan seemed to be really busy, but he shook his head fiercely. He felt that Qin Yuan's method was completely infeasible. After all, the plots on TV were deceptive, even those that were more realistic. It also takes a long time for the special effects makeup, and they don't have this time to wait.

But is there any way he can execute it now? This makes Yang Rui's heart also full of helplessness, and he can only contact his superiors a little to see if there are any other ways.

After all, he can't help but watch Qin Yuan mess around!
