

## Special Soldier 461

Chapter 461: question

"Then what are your plans?"

Yang Rui frowned slightly when he heard Qin Yuan's words.

"My plan is mainly about adapting to changes, mainly about ideas. You are also a person who has studied military academy and the Thirty-Six Strategy. If you know that you want to cover your teammates to escape, what is the best way?"

Qin Yuan smiled, but Yang Rui's expression was very ugly when he heard these words:

"You mean, surround Wei and save Zhao?"

"No, the Mingxiu plank road is still dark. Then you will follow this line, from the small road directly to the government army site, and I will drive the car from the road to attract the other party's attention. , They just ignore you, even if they will search, they will only separate a small amount of power."

Qin Yuan smiled, but Yang Rui said directly:

"No! This is absolutely not possible. Don't forget, we are on the enemy's territory. If we count it, we are all enemies everywhere. I know what you mean, but it is too dangerous!"

"Which method is not dangerous? What's more, with my ability, this thing is not dangerous to any place. Don't worry, I can do it."

Qin Yuan wanted to convince Yang Rui, but he saw Yang Rui's extremely serious gaze:

"You're bullying, huh, is it a level of difficulty to attract firepower and sneak in with you secretly? When secretly sneaking in, your makeup skills are really useful, but if you want us to escape, it will be more difficult. Shouting and yelling attracted the enemy away, and once a large army is looking at you, how many bullets do you think your small body can take?"

Having said this, Yang Rui said in a deep voice to Qin Yuan:

"I know your status is high, but I reserve my right to appeal like a superior. Moreover, even if it is to attract firepower, it should not be let you go, but we should go. We do not speak Ivia's language, no Can make-up skills, and the status is not as high as you, so I am the most suitable. After all, I am abandoning the car to protect the handsome. How can you be a general to block the guns for our little pawns?

Qin Yuan was completely helpless when he heard this. He knew that Yang Rui was good to him and told him not to do stupid things, but this was the easiest way Qin Yuan could come up with.

But now Yang Rui has already said nothing, and Qin Yuan can't stand against him. After all, in Yang Rui's view, Qin Yuan's plan is no different from sending him to death.

"Well, then we'll go back lurking together."

Qin Yuan stretched out his hands helplessly, and said to Yang Rui.

When they heard this, everyone cheered. To tell the truth, they all knew that if someone helped the severance, they would escape more easily, but doing so is really for those who attract the enemy after the severance. It is too dangerous. The people of this guy can hardly come back alive. This is equivalent to exchanging the lives of these people for their lives, which is unacceptable to them.

The time has not yet come to the end of the mountains and rivers, so this method can be used, or it is not necessary.

Qin Yuan also showed a relaxed expression. For Qin Yuan, it would not be difficult for Qin Yuan to take these people to escape, it would only be a lot more cumbersome.

"Well, if that's the case, let's start to act. I'll go around and see if there is anything that can be used. Let's disguise it for everyone. Zhuang Yu, you continue to contact the warship and Ivia government personnel to see Can you send some helicopters from the government army? It really doesn't work. We can pay for it."

Regarding Qin Yuan's wealth and wealth, they had already experienced it when they bought weapons, but at this time, money was of course not more important than fate, so it was no surprise.

And at this moment, a sandstorm suddenly appeared in the sky. Several people saw this situation, and they were very worried. After all, the weather was bad, and their escape was even more difficult!

At this time, Zhuang Yu also shouted directly:

"No, there was a sandstorm, and the signal between us and the warship was interrupted."

"This is bad. We are still expecting support from the warship. What if the signal is interrupted?"

The faces of Yang Rui and others were a bit ugly at this time, but Qin Yuan thought about it carefully, but his eyes lit up:

"It's okay. Let's move on. Most of Ivia's vehicles are protected against dust. Even in a sandstorm, they can walk for a while, and the sandstorm here generally doesn't last very long. The scale will not be very large. Everyone quickly takes advantage of this opportunity to directly throw away the chasing soldiers behind. Then we may disappear directly from the enemy's sight! Then directly contact the helicopter, and then directly get on the helicopter. Come back home!"

But when he heard this, Yang Rui frowned and said:

"But, how do we find the right direction in the sandstorm, not to mention, we can't contact the warship now? How can the warship let the government of Ivia arrange helicopters?"

When Qin Yuan heard this, he smiled and said to Zhuang Yu:

"It doesn't matter. Although our signal has been blocked by the sandstorm, this is Ivia. We can use Ivia's military network to spread the signal, and we may even pretend to be officials of Ivia and issue orders directly!"

Hearing this, everyone's eyes widened. They looked at Qin Yuan in shock. Is there anything this guy can't do?

What's more, breaking into a country's information intranet is simply a fantasy. Only the most sophisticated hackers can do this. Even the intranets of some countries use it. The Internet of Things is not connected to the Internet.

Of course, it is impossible that all places will not be connected to the Internet, but this requires hackers to do a lot of combing and calculations to find the loopholes in this information, and the time and computing power is too much!

As for whether Qin Yuan's use of Ivia's military intranet will violate the rules, it's almost irrelevant. After all, the current Ivia has become this virtue. As long as it is not caught on the spot, then Even if the people of Ivia even made the hands of the people of Yan country, they can only stare.

They also wondered if Yan Guoren could help them.

"However, even if your method is reliable, it will take too long to break the network. I am afraid that we will not be able to break the network if we go out. Isn't that appropriate?"

At this time, Zhuang Yu, who was on the side, asked carefully. Although he respected Qin Yuan very much, he was a professional after all. Knowing how difficult it is, he would inevitably raise some small questions.

Chapter 462: Black storm

But after hearing such words, Qin Yuan smiled and said directly to Zhuang Yu:

"You don't have to worry about it. Now everyone cleans up. Let's go straight, Zhuang Yu, you give me your computer, and I will let you do some auxiliary work. Then you will know if it will work!"

Hearing such words at this time, they all looked at each other for a while, but Qin Yuan had already brought them a lot of miracles. Although they couldn't understand them, they still moved quickly.

The group of people moved quickly and covered all the clothes they could cover. The vehicle also quickly took protective measures. Looking at the sandstorm in the distance that looked like a yellow sky, the heart was a little trembling.

But at this time, Qin Yuan was whistling, got into the car with great ease, and then directly turned on the computer!

And seeing Qin Yuan's appearance, everyone was relieved. To be honest, although Qin Yuan does not seem to be a qualified leader, but in this situation, they can have Qin Yuan here. Peace of mind!

After that, everyone got into the car directly and rushed past the sandstorm!

Under the plain, Qin Yuan's small convoy of only three cars is almost like a little ant entering the mouth of a monster. It is dangerous in form, but it is inconspicuous at all. It is casually given by the sandstorm in the sky. Covered!

Fortunately, as Qin Yuan had guessed, their vehicles were still usable. Although the speed was not very fast, at least they would not be allowed to get out and walk directly.

At this time, countless sand particles hit this car, which brought a lot of pressure to this car, but Qin Yuan directly pointed out a direction and moved forward quickly. After all, they had settled on paying attention. If you want to disappear from the enemy's eyes, then these conspicuous vehicles must be abandoned directly. Now let's see how far these vehicles can go out under the circumstances of waste utilization.

But at this moment, in the yellow sandstorm, a black storm came directly. Seeing this black storm, Xia Nan screamed directly:

"Worse, this time there was a black storm, we can't go!"

"why?"

At this time everyone looked at Xia Nan with a panic face in surprise, and Deng Mei on one side also said with an ugly face:

"The black storm contains a lot of minerals, which can effectively cut off all signals, and it will also cut off our sense of direction. As long as the person who enters the black storm, even the experienced old Ivians, It is going to get lost, and the wind of the black storm is so strong that it will even change the direction of our car. If we continue to move forward, it is very likely that we have turned one hundred and eighty degrees, but in the end we have not noticed it!

Hearing this, everyone took a deep breath. It was difficult for them to keep their direction in the ordinary yellow sandstorm here. If they were in the black storm, wouldn't they be completely finished?

And they can't stop now. After all, this is the location of the storm. If it stops at this place, they are likely to be completely buried by the sandstorm!

By then it will be over!

But Qin Yuan smiled when he heard what everyone said, and said very calmly:

"It's okay, everyone keep going, I'll show the direction!"

"Ah? Qin Yuan, can this be done? If we go in the wrong direction and send it directly to the chasing soldier's mouth, we will be over!"

Yang Rui asked with a frown, but Qin Yuan said very confidently:

"You all believe me, there is absolutely no problem with my direction!"

After hearing this, everyone couldn't understand, but seeing Qin Yuan's self-confidence, they could only bite the bullet and move on!

But at this moment, Qin Yuan said directly:

"The car behind followed the car ahead, and the front car turned the steering wheel a quarter turn to the right!"

Yep?

After hearing this, Xu Hong, who drove in front of him, was a little strange, but he was very obedient and took a small turn. From this time on, Qin Yuan would say to these people from time to time to ask them to change the team. Direction.

Although I don't know if what Qin Yuan said is right, but seeing Qin Yuan's strategizing like this, everyone's hearts are quite settled!

But Qin Yuan is not at all worried that he will go astray. That's because even in a sandstorm, Qin Yuan's radar function is still intact. After all, the radar in the system and the radar in reality have complete Different difference.

While Yang Rui saw Qin Yuan still flying his five fingers on the computer, Zhuang Yu watched with his eyes shining, and he also asked a little curiously:

"Qin Yuan, have you found the door of Ivia's intranet?"

But Qin Yuan hasn't answered yet, but Zhuang Yu on the side is extremely excited:

"Captain, not only is the gate open, Captain Qin Yuan has already pretended to be a General Ivia, and dispatched three armed helicopters to the small town of Urgan where we went, as long as we arrive at Urgan. , There will be a helicopter to pick us up directly!"

"What?"

Yang Rui's eyes widened at this time. Although he is not an information professional, he still knows the techniques of these hackers well. Knowing that just finding the door is already extremely difficult. As a result, Qin Yuan has already completed it directly. Deployed?

What speed is this?

Did they have a total of fifteen minutes since they left?

Moreover, they were in the dust storm. Even if it was Ivia's intranet, the network was still intermittent. Yang Rui originally thought that Qin Yuan was about to give up this idea, so he asked, but who would have thought, Qin Yuan Has it been completed?

However, Qin Yuan smiled when he saw Yang Rui's extremely shocked look. If he was not sure of this, he would naturally not release such big talk.

Qin Yuan still had two grids left, so after getting Zhuang Yu's computer before, he took this computer directly into the grid while everyone was not paying attention!

"Ding Dong~ The system was successfully recovered, please start the selection!"

With the prompt sound of this system, three options suddenly appeared in front of Qin Yuan!

"1. Get world-class hacking technology!"

"2, get world-class computer design!"

"3, get world-class computer optimization!"

At this time, seeing these three options, Qin Yuan was also extremely satisfied. He knew that he would receive these high-tech things into the grid, and most of them would gain the ability to use and develop such things.

Chapter 463: World-class hacker

And Qin Yuan looked at the second and third items, swallowed a little, after all, looking at these two abilities, Qin Yuan knew that this is a technology that can make a lot of money, if they can be upgraded to the universe. Level, and then go to open an electronics factory, maybe there will be a supercomputer brand that can crush various fruits in the world.

However, Qin Yuan really couldn't take care of these things now, so he could only wipe his saliva, and wait for the grid and time to become rich in the future, before coming to retrieve this treasure.

"System, I choose the first item!"

"Ding dong, the host has chosen to succeed and obtained world-class hacking skills! Ding dong, with special abilities, no matter where the host uses the computer, as long as there is a signal, the signal will become extremely stable!"

When Qin Yuan heard this at this time, his eyes suddenly brightened. He was still thinking about whether the signal would be easily interrupted during the sandstorm. As a result, the system directly gave him this ability!

This time Qin Yuan is cool. For Qin Yuan, it is not terrible to be slower, because I am afraid that the signal will be interrupted directly.

And now with this ability, even if the network speed is only 5k/sec, it is extremely stable and will never be interrupted!

After waiting for Qin Yuan to retrieve a signal enhancement device, Qin Yuan will be able to obtain stable and fast internet speed no matter where it is at that time!

Now that he has gained the ability, it is time to start work. Qin Yuan quickly found the signal entrance of Ivia's intranet.

Before Qin Yuan had acquired this kind of signal capture hacking technique when he encountered a black cat. At that time, Qin Yuan had already completed the reverse capture of the signal within ten seconds. Now this technique has hacking techniques. The complementarity of each other is extremely rapid.

Ten minutes before Yang Rui came over, Qin Yuan had already completed this task, and even completed the goal, and transferred several armed helicopters.

But Yang Rui saw Qin Yuan's movements, but asked a little worried:

"Qin Yuan, if you do this, will you leave behind any backdoor? Should we destroy this computer?"

Yang Rui knows that hackers will inevitably show their feet, and Qin Yuan uses their computer. If any traces are left, it will inevitably cause international disputes. After all, Ivia's people don't say this. It doesn't mean that others don't talk about it. If this really makes the rogue countries catch Qin Yuan's hands, then Yan Guo will be a little passive.

However, Qin Yuan smiled lightly and said directly to Yang Rui:

"No, you don't need to worry about it. I changed our ip signal from the beginning and dumped it in the lighthouse country. Even if it is discovered, those people will go to the lighthouse country. , And the lighthouse country does not know how many such things are done, so I am afraid that he himself will not strictly inquire about this matter, and in the end it will definitely not stop."

what?

Yang Rui was even more shocked when he heard this. If Qin Yuan said that this has been completed, it is really done. This also means that Qin Yuan has done such a thing in this short period of time!

At this moment, Yang Rui's eyes when looking at Qin Yuan became more complicated, and it turned out that people could tolerate better than people!

At this moment, everyone was finally convinced by Qin Yuan, and there were no more doubts.

Although they are still in a sandstorm, their mood and morale are much better!

And Yang Rui seemed to have thought of something, and said directly to Qin Yuan:

"Qin Yuan, can you contact the ship directly? I have some questions and want to report to the captain!"

"Good to say!"

Qin Yuan directly operated on the computer for a while. After a few seconds, he was connected to the signal from the ship. Soon, Gao Yun's \*\*\*\* face appeared directly in front of them!

At this time, Gao Yun's face was obviously full of surprises, and he did not expect that they would be able to contact Qin Yuan directly!

"Qin Yuan, Yang Rui. How are you doing now? Your report was interrupted before it was completed. What is the situation?"

"Captain, we are okay. We have successfully rescued the hostages. Although we exchanged fire with the enemy, no one has died. Shishi Lu Chen and Gu Shun were injured. Among them, Shishi and Lu Chen's The injury is too serious, I am afraid that he will continue to fight incomparably, and Gu Shun has also been affected to a certain extent."

Hearing this at this time, Gao Yun's face also had a complex look. The expression on his face could not be said to be nervous or relaxed, or lost, but he still directly said to Yang Rui:

"It's okay if you are all right, oh yes, right now, where you are, there has been a sandstorm, how did you get a signal to contact us?"

When he heard this, Yang Rui's tone suddenly stopped. He glanced at Qin Yuan in front of him, a little uncertain whether he wanted to tell the truth or help Qin Yuan hide it.

But in the end, I still intend to help Qin Yuan hide it. As for whether this matter will be discovered, that's for sure, but if you are punished, it will be a big deal. If you haven't escaped, don't talk more.

And seeing Yang Rui's tangled face, Qin Yuan immediately understood that this guy must have committed a problem, so he said directly to Gao Yun:

"Captain Gao, I'll talk to you after I get back on this question. Now you'd better send a team or drone to Urgan town. We are going to that direction now. Now the team's combat effectiveness is already It has fallen to a terrible point, we already need to fix it!"

Although Qin Yuan had fooled Ivia's armed helicopter, Qin Yuan expressed his distrust of the military capabilities of the Ivia soldiers.

After all, after entering Ivia's intranet, he saw a lot of information and found that these government troops have the support of various countries, and the equipment in hand is not bad, but the record is unusual and makes people look down. After being defeated by the rebels of Sharaf, Qin Yuan was especially speechless! As for the elite troops in Zhaka's hands, they could even formally destroy these government troops!

You know, it is a very rare thing for modern troops to be defeated by the captives of the establishment!

It's a pity that such things are not uncommon in the Ivia region. The reason why Zhaka has been able to traverse for so many years, and even those terrorists before Zhaka have been able to traverse for so many years, is really not the fact that these government troops and these people are fighting together. , But these government soldiers can't beat them clearly!

Therefore, it is best to let Yan Country's drone escort, even if it is just a drone, Qin Yuan feels that it is much stronger than Ivia's government army!

Chapter 464: Yang Rui

Now they are in the desert. Even if the people of Zhaka catch up, it is impossible to know where they are going. The gunship is very fast, and in a short time, it can take the rest. When these people were sent to the ship, Qin Yuan's mission would be completed by then.

But at this moment, Gao Yun showed an ugly face and hesitated to Qin Yuan and Yang Rui and said:

"Two people, there is a piece of news to tell you. We have already received that information from Xia Nan, and we have searched for other information, and we know that Zhaka has indeed obtained a batch of yellow cakes."

"And since Xhaka needs these yellow cakes, we can't let the other party get them. We and the Ivia government are allies, but Xhaka's people have already attacked our warships. If Xhaka really overthrows With the Ivia government, it will certainly be a little unfavorable for our country's international situation at that time, so..."

Hearing this, Qin Yuan's heart suddenly snorted, and he knew that looking at Gao Yun's face, it must be no good!

"Two, our drone went to the location you provided before, but because of the sandstorm, it could only return, and failed to prevent the other party from handing over the yellow cake. Now the other party does not know where to get these things. I don't know if you can bring these things back, or can you check where these things are?"

Seeing Gao Yun's appearance, Yang Rui's face was also very ugly. He knew that his current situation was not enough to perform this task.

To be honest, they were able to come back alive safely, mostly relying on Qin Yuan's credit. Now their entire Flood Dragon team is exhausted. If they perform this task again, I am afraid the result will not be too good.

But they are soldiers. Since they are needed by the country, they should serve the country no matter what the situation is, and Yang Rui also knows that if these yellow cakes really fall into the hands of those terrorists, it will inevitably cause more damage to the country. Big damage.

If this thing is not eliminated this time, then others will inevitably suffer from this thing in the future!

So Yang Rui's face changed, and finally he planned to give this task to the next!

But Yang Rui hadn't spoken yet, but was directly stopped by Qin Yuan. Qin Yuan took a deep breath and looked at Gao Yun in the video and said:

"Sorry, they couldn't complete this task."

Hearing Qin Yuan's words, the people around were immediately stunned. They really couldn't imagine that Qin Yuan rejected this task so simply and neatly!

Gao Yun frowned. He had been a soldier for so many years. He had never seen a soldier who would directly refuse orders from his superiors.

What's more, he didn't directly issue an order. He just wanted to solicit opinions. You can consider it without considering it. Even if you refuse, you can't use this. Isn't this too decisive?

Seeing the appearance of these people, Qin Yuan said directly to them:

"What's the matter? Am I wrong? Just your piles of old, weak, sick and disabled, even if it is past, what use can it be?"

I rely on? !

At this time, the members of the Dragon Team suddenly widened their eyes. To be honest, although they admire Qin Yuan very much, if Qin Yuan said that they were old, weak, sick and disabled, they would not accept it.

After all, they are the most elite soldiers, and they have a sense of pride in their hearts. Although they admit that they are not as good as Qin Yuan, they will not accept the ridicule of Qin Yuan!

Gao Yun saw the look here, and he was able to understand the surrounding atmosphere, took a deep breath, and said in a deep voice:

"In fact, I don't really agree with this order. After all, your entire squad has lost its combat effectiveness. Although the yellow cake is just a conventional nuclear material, it is still very dangerous. Even if you just inhale a little, it is still It will cause great damage to the human body. Although the yellow cakes this time have been refined and are more precious, I don't want to see you doing such extreme risky things!"

"You give up the task this time, and talk about the other things at that time!"

When Qin Yuan heard such words, he shook his head and said directly to Gao Yun:

"I'm afraid it's different! Captain Gao, you can check the previous information. When we were dealing with the international organization K2, we had already experienced the power of dirty from the opposite hand, and this time we were also in Zhaka. In the base of, I saw the people of K2, so I have a guess that if K2 passes the manufacturing technology of this dirty bomb directly to Xhaka, then the threat that will be generated by that time may be 10 times a hundred times greater!"

After Qin Yuan said this, he smiled at the people around him again and continued:

"Moreover, k2 also has a deep hatred for our Yan Country. This group of guys dared to do something against us before. If this time we get such a large quantity of yellow cakes, they might do something!"

The people around Qin Yuan's words were all sweating coldly. Listening to what Qin Yuan said, it was obvious that they had to get this batch of yellow cakes or destroy them. Otherwise, it would be troublesome in the future. Not so big!

Hearing this, Yang Rui's face straightened, with a stubborn expression on his face, and said directly to Gao Yun:

"Captain After I hit the next town, I will send the wounded and hostages away, and then take the remaining team members to continue the yellow cake mission to see if I can Bring the yellow cake back!"

But when Qin Yuan heard this, he shook his head and smiled, and said directly to Yang Rui:

"Forget it, you have already felt it before. K2 people are not mediocre. If you meet another master, now your sniper has been abandoned, what should you do then?"

Yang Rui heard Qin Yuan's answer. Although his face was ugly, he still had to admit that what Qin Yuan said was true, and asked Qin Yuan calmly:

"Then what do you say? We can't just give up this task. Go back obediently. If there is nothing wrong with these yellow cakes, if these yellow cakes are really dirty by them, then we will just watch. Those who are obsessed cannot escape the responsibility!"

This sentence Yang Rui said is extremely important. He has made a decision. If Qin Yuan is really greedy for life and fear of death, then even if Qin Yuan is abandoned as an important combat power, he will take the remaining people to execute it. This task!

Chapter 465: What do you want to do

Qin Yuan saw Yang Rui's appearance and knew that the other party was already in a hurry, so he stopped selling offense, smiled lightly, and said directly to everyone:

"So, my plan is to wait a while for you to return to the ship directly in the helicopter and I will do this task!"

Qin Yuan didn't really want to give up these tasks. After all, this is a lot of grids. If this time I spent so much effort, but only got two or three pigeons, wouldn't Qin Yuan die?

As long as he can protect Xiao Hua, Qin Yuan's own safety does not need to be considered!

what?

At this moment, when they heard Qin Yuan's words, everyone's eyes widened. They really couldn't believe that Qin Yuan wanted someone to complete this task.

How is this possible?

You know, this time Qin Yuan will definitely encounter a lot of enemies, and their team can't take care of each other, wouldn't it be even more uncomfortable for Qin Yuan alone?

"No, absolutely not. If you want to perform this task, you must take us with you!"

Yang Rui said directly, and Gao Yun looked at Qin Yuan with an ugly expression. Although he didn't know what Qin Yuan was capable of, he also felt that Qin Yuan alone could never accomplish this task!

At this time, Gao Yun said to Qin Yuan in a deep voice:

"Qin Yuan, I know what you want to do, but how can you guarantee that you can complete this task?"

Gao Yun knew that the mission this time was extremely dangerous. He originally planned to let the Flood Dragon team choose. Now that Qin Yuan said the dangerous place, Gao Yun has made up his mind to get rid of these yellow cakes. !

Even if you don't use the Dragon Team, use other teams, it's the same!

However, the radiation of this yellow cake is invisible and invisible, as long as the people who participate in this mission are bound to be threatened! Therefore, Gao Yun will inevitably make a decision on how to complete the task faster and better with fewer users.

Hearing this, Qin Yuan smiled and said directly to Gao Yun:

"Captain, even if you don't believe me, at least you have to believe the above judgment. If nothing happens, can they send me here urgently?"

What Qin Yuan said was true and false. Qin Yuan was indeed sent here urgently, but in Qin Yuan's mission, he did not clear the yellow cake!

Seeing Gao Yun hesitated, Qin Yuan helped to add another bargaining chip, and said lightly:

"Furthermore, Captain Gao, don't forget, this country is Ivia, not our country. If it's our country, even if we work hard, it doesn't matter, and now the Ivia government wants Do you think it is appropriate to lie down and wait for us to resolve this matter?"

After hearing Qin Yuan's words, Gao Yun's expression suddenly changed!

The so-called war is the continuation of the rule of justice. Some things will only be taken directly if they are not available at the negotiating table. Even if the Ivia government is incompetent, it is the real government that occupies more than half of the country's land area. You have to lie on the ground and eat, unless you call Yan Guo's father directly!

"So, this time I won't be alone. These government soldiers are all my teammates or chess pieces!"

Qin Yuan smiled directly, and seeing this gloomy smile, the rest of the people shuddered. They felt that the Qin Yuan in front of them seemed to be different!

Gao Yun's face was calm, frowned slightly, thinking about everything Qin Yuan had said, but in the end he nodded suddenly and said directly:

"Well, this time the task is handed over to you. You are right. This is their country. They must do their best to protect it. They all rely on us. For anything, I will apply like a superior. To see how they deal with this matter!"

Qin Yuan nodded, and then hung up the phone soon. As for the rest, it depends on how they should reply!

At this time, the other people in the car looked at Qin Yuan with complicated faces. After all, they knew that Qin Yuan would always perform the task of Huangbing according to the orders of the superior. The only difference was whether they wanted to go or not. , And this was all won by Qin Yuan for them.

At this time, Yang Rui also looked at Qin Yuan with an ugly face, and asked Qin Yuan in a deep voice:

"Do you really want to go alone? Do you want me to be with you, the two of us also have at least a caring, I think I will not drag you too much by my ability,"

"No, this team still needs at least one commander. Although the people of the Ivia government army were deceived by me, they are not trustworthy. We still have to rely on ourselves. I'm still waiting for you to take my sister. Take it back. As for my ability, you have seen it and know that I will not die easily."

Hearing such words, Yang Rui's face was indeed even more ugly, and he said directly to Qin Yuan:

"What do you want to do?"

"Hey, do you think I'm a lot more chic than you, but if you have gains, you will lose. Since I have such great authority, I will also have greater responsibilities. Look at it, this time I must I will finish it, not to mention that I am sure to finish these things, I am not a fool, and I must hide things that are really going to die faster than anyone else!"

Hearing Qin Yuan's words, Yang Rui sighed deeply. Although he looked at Qin Yuan as frivolous, Yang Rui actually knew clearly that if Qin Yuan were to make sacrifices, Qin Yuan might be afraid. There will be no hesitation!

Soon, the mobile phone in Qin Yuan's hand rang directly. This was the communication number that the same person gave him. It seems that there are many capable people in the same person, and they can contact Qin Yuan!

"Hello, Principal Lei."

Qin Yuan said something to the inside with a chuckle, but when he heard Qin Yuan's voice, the face of the opposite person was a little ugly, and said softly to Qin Yuan:

"Are you ready?"

"Of course I have received the news that that batch of yellow cakes has been refined and refined. I remember that the price of a ton of pure uranium ore is 800,000 yuan, and there are still priceless things. I don't know if these yellow cakes have been purified. How much does it cost? And, we seem to need this thing, right?"

Qin Yuan said with a smile, but Same as still said coldly:

"If you change into money, the price of this batch of yellow cakes is indeed not low. According to my country's mining ratio, only five tons of uranium can be mined for every 10,000 tons of uranium ore, the ratio is 5/10,000, and one ton The price of uranium ore is 1 million. Although the yellow cake commission of this batch is only about 60%, it is still very valuable!

Chapter 466: sable

As soon as Qin Yuan heard this, his eyes lit up. Guigui, if you count it like this, the value of this large batch of yellow cakes must be calculated in billions!

Qin Yuan remembered before that there were a lot of buckets of this yellow cake, and one bucket would have one ton, even if the purity was not very high, the two billion yuan was still there.

What's more, Yan Guo is now vigorously developing nuclear power plants and weapons. Qin Yuan knows that if these things are taken back, they will definitely not simply be put in warehouses.

"If I can get these things back, can I give me a 10% or 20% bonus?"

Qin Yuan chuckled and said to Lei Tong, but her face turned black, and he directly replied to Qin Yuan:

"It's impossible. There is a maximum limit for bonuses. No matter how much merit you make, at most one hundred thousand will be given to you."

"Stingy!"

Qin Yuan shook his head, but he also knew that the average gold medalist in the military games was only given six to seven thousand, and Qin Yuan's 100,000 might indeed be not low.

The real reward is never money, but honor.

"All right, if that's the case, then I'll wait to go."

But when Qin Yuan just wanted to hang up, he heard the same words directly:

"I hope you can think about it carefully. I would rather spend an extra one or two billion to get this batch of yellow cakes back in other ways, and I don't want you to lose it directly in this task."

Hearing the same answer, Qin Yuan smiled slightly and said directly to the same:

"Okay, I'm just going to make money. Don't worry. Also, this time I may be making a lot of noise. I hope you can help me withstand it. Don't make it like Mr. Gao. I am confined."

Yep?

Hearing this, the same heart was moved. Where did he seem to have heard this sentence?

Thinking about it carefully, it seems that Gao Shiwei once said this to him. As for the consequences...

Thinking of this, a smile lightly appeared on the same face, he said directly to Qin Yuan:

"Well, then you can rest assured to do it boldly, is there anything I can help?"

"I want a good sniper rifle and enough bullets."

Qin Yuan's eyes narrowed slightly, and to be honest, this time he was bullied by others because of the bad gun, which made Qin Yuan very angry, so he wanted to return it!

"Well, I will deliver what you need as soon as possible, and then I will send you a coordinate, and you can just go to this place to get it. Also, pay attention to safety. You didn't promise me to smash the wine on me. Body, I am waiting for you to do this!"

After saying this, Lei Tong directly hung up the phone, but Qin Yuan looked at the phone with a strange feeling in his heart.

Now that he had made up his mind, Qin Yuan started to take action. Several members of the Dragon Dragon team all handed Qin Yuan what Qin Yuan could use directly to Qin Yuan, and Qin Yuan did not refuse. After he left, he put it directly in the ammunition depot without delaying his latency.

When Xiao Hua learned the news that Qin Yuan was going to perform the mission, she also cried and became a tearful person, but she also understood that Qin Yuan was a soldier and had tasks to perform, and she could not become Qin Yuan's burden.

Seeing Xiao Hua's face holding back tears, Qin Yuan gently patted his sister's head, and walked directly into the yellow sand!

The people of the Jiaolong team looked at Qin Yuan who was going away and heard their captain say aloud:

"salute!"

All the members of the Jiaolong team paid a military salute to Qin Yuan until Qin Yuan disappeared into the yellow sand.

And Qin Yuan heard the voice coming from behind, and a smile appeared on his face, and his heart became more powerful.

He now only has one grid, and although he has a lot of abilities, Qin Yuan also knows that he doesn't have a lot of cards, so he must be careful.

After taking a look at the quest that could be claimed, Qin Yuan still held back. It is not the time to receive this quest reward!

After that, Qin Yuan headed in the opposite direction to the location of Bassem town alone.

And two hours ago, they not only rescued the hostages from this small town, but also made a big noise in the city, killing an unknown number of terrorists.

And Qin Yuan entered again, drove a tank out, and used this tank to blow up the opponent's sniper, so now the town's guards must be extremely strict, and it will be as easy as last time. It may not be so easy to sneak in.

However, Qin Yuan's task this time was to find the yellow cake, and the first-level task was to kill Zhaka and Bai Xiong, so he was not so anxious.

After thinking about going, Qin Yuan first put on makeup for himself, then found a place to eat some military food, drink some water, and think about what he should do for a while.

After eating, Qin Yuan had an idea in his mind. He directly activated his instant burst speed, endurance running speed, and ant power, and quickly ran in one direction!

...

By this time it was evening, and the soldiers in the small town of Bassem who went out to chase during the day were almost all back now, but they had found nothing.

"Trash! Trash! It's just a bunch of trash, how come you let a few people run away after so long."

At this time, Xhaka kept reprimanding the small soldiers under him. The captains were all in cold sweat, but their hearts were full of grievances. After all, who can continue to chase under the sandstorm, even the most Brave warriors will lose their way in the sandstorm. Under such circumstances, how can they chase after them?

But they knew that such reasons were not enough to calm the leader's anger, and they had to stay here honestly.

And the white bear standing on the side also has an ugly face He also released the people under his hands. Unfortunately, their results were not as good as these locals. There were even a few people who did not come back because they got lost, causing some nonsense. Combat attrition, which makes the white bear feel even more uncomfortable than Zhaka!

Seeing the situation inside the house, the sable standing outside also yawned boredly. Originally, she wanted to go out and chase, but because the white bear was dead, she directly deployed her to protect her. Safety.

Although the sables look down on the white bear very much, who makes the family rich? And do you love money?

But it is really boring here, so go back and rest.

"You guys talk slowly here, I'll go back and rest."

Sable said something to the white bear at this time, then swayed his waist and went straight back to his room. When seeing Sable's appearance, the white bear was also a little hot in his heart, and he spit in hatred when he was not enough:

"Huh! One day I will kill you in my bed!"

Chapter 467: Difficulty

But the white bear is only talking about it. This woman is a thorny rose. If this woman is really anxious, she kills herself, and then runs for her life, what can we do?

On one side, Zhaka saw the appearance of a white bear, but said with a smile:

"Sir, if you want someone to warm the bed, we also have many candidates, and there are many female believers who are willing to dedicate their lives to God!"

But when he heard this, Bai Xiong rolled his eyes and said directly to Zhaka:

"Oh, then there is no need."

Bai Xiong thought to himself, although Lao Tzu is lustful, he is not so hungry that he can't choose food. Just don't be disgusting with the crooked melons and dates under your hands.

It's just that the relationship between the white bear and Zhaka is still good, so I can't say that directly!

Bai Xiong glanced at the soldiers whose heads were lowered into their crotch, and said directly:

"Okay, since the people of Yan country can't catch up, then we won't chase after. This face, wait to find it from other places in the future, anyway, as long as you have these yellow cakes, those government soldiers will also It is impossible to make any decent resistance, or the yellow cake is more important!"

When Zhaka heard this, she also smiled:

"That's that, but now you still need the skills in your hands, Mr. White Bear!"

"Hey, it's okay. We are all friends. To be honest, we don't have any conflicts of interest. There are only three or four dirty bombs made by Huangbing. One is used to establish power, and the rest Used to scare people, if you use more, those countries will come to you in the future instead, don't you think?"

The white bear said to Xhaka with a smile at this time, and after Xhaka heard it, he couldn't help nodding:

"Yes, we will set up a country in the future. Then, as long as we follow the practice of Green Valley Energy Company, we will have countless yellow cakes, and we will not get angry with this thing!"

"Yes, yes, maybe the two of us can cooperate more deeply."

Bai Xiong and Zhaka hold hands, and the heart is connected to the heart. That's a mess!

But soon they reacted. Now those subordinates are still watching. They can't do without the image of a big boss. Soon they pulled their hands back. Zhaka coughed and said:

"Okay, since Mr. White Bear is interceding for you, then I won't blame you too much. Go back and rest now. Oh, by the way, Buchan, you and your people, go to keep the warehouse tonight! We'll go with you tomorrow. The general's men make deals!"

Hearing this, the person named Buchan trembled, but he still agreed.

"Other people are also more vigilant, if other rats get in, then I won't let you go!"

"Yes! Chief!"

These people directly agreed, but one of them asked Xhaka in a low voice:

"Chief, do we really follow the white bear's advice and abandon those Yan people?"

But after hearing this, Zhaka's eyes also flashed a vicious look, and said directly to this subordinate:

"Of course not, but we really can't afford to provoke the people of Yan Country now. Let's forget it this time, but it doesn't matter. When we vacate our hands and go directly to Yan Country to blow up a few trains, it is considered as the brothers who died today revenge!"

"Yes, boss!"

Hearing what Xhaka said, these subordinates left with excitement on their faces, probably thinking about how they would take revenge in the future!

Seeing the appearance of these men, Zhaka's eyes flashed with helplessness. Before, he thought that the people of Yan Guo were all rabbits who were afraid of death, but before he sent to the port to bomb warships. The warship's hairs were gone without touching them, which also let Xhaka know the gap between them.

But it doesn't matter. When they set up a country in the future, some are disgusting and Yan Nation's methods!

After that, these people all left the room, but the woman code-named Sable just now saw one of them from the back, thinking.

At this time, the man named Bakken followed a brawny man directly to the back mountain, and then discovered that the back mountain was already guarded by many people. The brawny man said directly to Bakken:

"The leader entrusts this important task to you, then you must guard it well and you must not delay tomorrow's transaction!"

"Yes!"

"Okay, then you can go in directly, I won't go in!"

After saying this, the strong man glanced at Buchan with a hint of pity and left directly!

But seeing this strong man leave, this man named Buchan showed a weird smile.

It turned out that this person was not Buchan at all, but Qin Yuan who had already killed Buken!

Before Qin Yuan thought for a long time, he felt that he still had to pretend to be these people, so Qin Yuan did not go to the small town of Bassem, but directly followed the people who chased it out. After seeing the target, he entered the town directly instead of him. .

Although this is more thrilling, but the person named Buchan that Qin Yuan pretended to be is usually a little taciturn, but it has not been seen through!

And what surprised Qin Yuan even more was that these guys let Qin Yuan guard this yellow cake warehouse!

But this also shows that this person named Buchan is indeed a bit squeezed out.

After all, yellow cake is something with radiation. Although these elite terrorists are not afraid of death, what they want is to be brave and heroic directly on the battlefield. No one wants to lie in bed after being exposed to radiation. Sad death!

At this time, Qin Yuan glanced at the warehouse, found that it is not a warehouse, but rather a large air-raid shelter, surrounded by reinforced concrete, and the guards are also extremely harsh. Everyone is an elite person, wearing a grimace mask, and a complete set of American equipment. The camouflage uniform also has a skull pattern with a dagger inserted!

Qin Yuan frowned slightly when he saw these people he had not seen during the day. He could slightly feel the sense of crisis these people brought to him. Although there was only a slight trace, it was enough to prove that these people treated him. There is a certain threat.

What caused Qin Yuan to scratch his head even more was the four heavy machine guns on both sides. These heavy firepower were all aimed at the location of the entrance, completely sealing the entrance to death.

Qin Yuan took a look and found that this small air-raid shelter would be unbreakable if it was attacked from the outside.

But fortunately, Qin Yuan now doesn't need to go directly in!

Thinking of this, Qin Yuan showed a dazed expression and walked directly inside.

Chapter 468: Shock!

Seeing Qin Yuan coming by, those fully equipped guards also looked at Qin Yuan with a playful look. It was obvious that they all knew that Qin Yuan was not doing a good job, but there must be someone inside.

In this way, Qin Yuan entered the air-raid shelter directly, and found that there were a few people standing here with a sad face, and seeing Qin Yuan coming, it was nothing but a pitiful look in the same fate.

The equipment on these people is not so good. Basically, the people Qin Yuan saw in the small town before are similar, and they should all be militiamen.

Qin Yuan naturally knew why these people were doing this, but this was exactly what Qin Yuan meant.

At this moment, Qin Yuan walked over and said to these people:

"Come here all, I am your captain, look at all of you who are lazy, like warriors of the holy religion? Give me a little spirit!"

But after hearing Qin Yuan's words, these people still looked like dead pigs who were not afraid of boiling water. They came over slowly, seeing Qin Yuan, and said helplessly:

"Captain, who can steal this thing, and this thing is so dangerous, who can steal it? I feel that my whole body is stabbed and scratched now, have I been radiated!"

"Yeah, I also feel uncomfortable all over!"

To be honest, these people have a half-knowledge about this aspect of things, and they don't know how to receive radiation and what level of radiation they will receive.

But well said, only the unknown is the most terrifying. I don't know these things, but I feel more fear!

At this time Qin Yuan saw the appearance of these people, but said loudly:

"What are you afraid of? With the blessing of the Holy Lord, we are absolutely fearless. If you don't want to keep here, just hand it over to me. You people, let's go aside and hide!"

Hearing what Qin Yuan said, these people were stunned, and then looked at Qin Yuan with surprise.

To be honest, even people like them know what is true and what is false. As the saying goes, God belongs to God and Caesar belongs to Caesar. Even if they believe in something, they don't delay their understanding of some knowledge. .

How dangerous is this yellow cake. The previous three orders and five applications of their boss are enough to explain the situation, but in the end, there is still a problem to this point?

However, this is a good thing for those who are scared in their hearts. After all, with such a silly looking past, they can relax!

"Well, you are our captain, so this difficult task is left to you."

At this time, a thief-eyed person said to Qin Yuan, it is obvious that he regards Qin Yuan as the most devout and fanatical believer of Zhaka's staff. There are indeed many such people under Zhaka, but most people still think , The leader is very great, but when you take good care of Xiaoming, you still need to take care of Xiaoming.

But what makes them more puzzled is that if this person is really the most fanatical fighter under the leader, how can he be sent to death to do this cannon fodder mission?

When Qin Yuan saw this situation, he also whispered:

"If it weren't for the people of Yan Country, I wouldn't be where I am now, bastard!"

Hearing such words, these people all felt that they suddenly realized that they were punished by the leader because they did not work well?

In this way, it can be explained. After all, the leader is going to use this method to punish this fool.

And Zhaka's majesty in the entire Holy Army, that is needless to say, let alone let this person guard the warehouse, even if Qin Yuan directly eat the bullet, it is also to be eaten.

At this moment, the eyes of the surrounding soldiers looking at Qin Yuan became more complicated, and they all felt that Qin Yuan was a poor worm.

"Huh, what. You guys really think you can be idle. Roll up for me, go to the top and look around. Everyone only knows how to eat naan bread, rolling!"

Qin Yuan directly scolded these people, but these people didn't respond. After all, they felt that Qin Yuan was already pitiful enough, so the leader sent to guard this place, and they all looked at Qin Yuan one by one. After that, he left here and handed the most important task directly to Qin Yuan.

Although patrolling around would be a little tiring, these people still know who is more important than physical strength and life.

And Qin Yuan sighed lightly when he saw that these people had already left. Sure enough, these people were relatively easy to fool around.

And after seeing that everyone around him had already gone, and there was no eyeliner here, Qin Yuan was directly approaching the door of the warehouse.

This is something worth several billion. Although it is more dangerous, Qin Yuan still wants to see it first.

As Qin Yuan approached, he could also slightly feel a sense of danger from his skin, knowing that there was radiation, which proved that the radiation had already caused some harm to the human body.

But Qin Yuan didn't care at all, the damage was minimal, and the threat was not even as strong as a mosquito.

But if you stay here for a long time, there may be some problems, but for a short time, it will not cause problems.

Qin Yuan approached the door directly at this time, and then suddenly heard a voice in his mind:

"Ding Dong, congratulations to the host for completing the task, bringing Xiaohua back safely, and rewarding a grid!"

"Ding Dong, congratulations to the host for completing the task, bringing Deng Mei back safely and rewarding a grid!"

Hearing these two voices at this time, Qin Yuan's heart was overjoyed knowing that the two people must have been safely on the warship, but it has been four full hours, but it is only now. Arrived, it is estimated that a lot of things happened on the way.

But now even the system has proved that the two people have reached the safety zone, then Qin Yuan can completely relax and complete his task better!

And now that Qin Yuan has three grids in his hand, Qin Yuan can also breathe a sigh of relief.

Next, let's see how this yellow cake is and how to make it tomorrow!

Thinking of this, Qin Yuan walked towards the door of the warehouse again.

After arriving at the warehouse door, even if Qin Yuan saw a brass lock, this matter would naturally be difficult for Qin Yuan. He had already acquired the unlocking skills, and a bag of instant noodles could pry open the entire community, so he found it casually. A grassroots opened the big lock directly!

But after opening this big lock, Qin Yuan couldn't help but widened his eyes when he saw what was inside, and he yelled "Fuck!"

Chapter 469: Universe radiation resistance!

After Qin Yuan opened the big iron lock, he opened the lid locked by the iron lock, and found out that there was a fluorescent fingerprint lock that was extremely delicate!

Now Qin Yuan is completely speechless! Nima, with a fingerprint lock, what is the use of a rusty iron lock?

And Qin Yuan looked at this air-raid shelter, always feeling a bit incompatible with this fingerprint lock.

But think about it carefully. Although the people of Ivia are poor, there are still many rich people in this country. After all, there are a lot of mineral resources here, and before the civil war, it was still a relatively good tourist attraction. This kind of advanced thing is normal.

Just like what Qin Yuan saw in Green Valley Energy Company before, it is not much different from that of a developed country, and this company can even get the technology of uranium ore purification, so get this fingerprint lock, It's not really outrageous.

After all, in today's highly free world, rich people, no matter where they are, are not too bad.

However, Qin Yuan sighed, and then continued to do it, this thing still couldn't help him!

After all, Qin Yuan's previous unlocking skills can not only open mechanical locks, but also electronic locks.

Qin Yuan's eyes flashed with a gleam, and then he glanced at the monitor, and while the monitor was turning, he flew out a stone, stuck the monitor's steering, and then took out a microcomputer. Start dismantling this fingerprint system!

Qin Yuan, who had the cosmic hacker skills, was naturally able to crack this small fingerprint lock. Soon, Qin Yuan used a small screwdriver to unscrew the fingerprint lock shell, and then inserted a wire into it. On top of the fingerprint lock, then the decryption virus written by Qin Yuan himself went straight into the fingerprint lock!

In just five seconds, Qin Yuan directly bypassed the fingerprint lock system and added his fingerprints, so that it would not affect the opening of the door tomorrow, cause riots in the Zaka army, or Will directly cause the surrounding alarm!

Soon, Qin Yuan opened the door directly and walked in.

At this time, Qin Yuan found that the warehouse was quite large, and it was not completely dark inside, but had a lot of fluorescent tubes that looked like a medical laboratory.

But Qin Yuan carefully observed the surroundings and found that there was no monitoring arranged here. This was a sigh of relief, gave up the pretense, and landed directly on the ground.

Then Qin Yuan discovered that there was a canvas in this warehouse, and the closer to this thing, the more threatening Qin Yuan's skin felt. It seemed that he had found the right place!

Sure enough, when Qin Yuan opened the canvas, it was an iron bucket painted with red paint.

On these iron barrels, there is an extremely dangerous yellow skull sign, and there is also a sign of radiation, which seems to be a yellow cake.

There are 16 iron barrels in total. If the price is 200 million per barrel, the value is more than 3 billion, and there is still no market.

What surprised Qin Yuan was that these iron buckets were stored in two halves. Many occupy a lot of space.

However, Qin Yuan thought about it carefully later, and understood that the other half must be for those of K2.

And since Xhaka is willing to give things, it is enough to prove that K2 must hand over the dirty bomb technology to Xhaka. It seems that the plot is still the original trend. Xhaka will give these things directly to the rebels tomorrow. .

Thinking of this, Qin Yuan frowned slightly, as if thinking about something.

If only he could take these things away silently!

But in this situation, Qin Yuan knew that he might not be able to take these things out safely.

However, after finally encountering this kind of thing, if he didn't do anything, Qin Yuan also felt a bit sorry for this trip.

Therefore, Qin Yuan directly stretched out a hand and said softly:

"Recycle!"

"Ding Dong~ The system was successfully recovered, please start choosing the host!"

With the prompt sound of the system, the oil barrel with yellow cake in front of him disappeared directly into Qin Yuan's hands, and in Qin Yuan's mind, three options suddenly appeared in front of Qin Yuan!

"1. Get world-class radiation resistance!"

"2. Obtain world-class uranium ore purification technology!"

"3. Get world-class weapon manufacturing technology!"

Seeing these three options, Qin Yuan felt relieved and directly chose the first one!

"System, I choose the first item!"

"Ding Dong, congratulations to the host for choosing successfully and gaining world-class radiation resistance!"

With this voice, Qin Yuan found that his body seemed to have undergone some changes, that is, the tingling sensation on his skin had disappeared!

This means that the radiation produced by these yellow cakes has no effect on Qin Yuan.

And not only these radiations, but other radiations, electrical radiations, and optical radiations had no effect on Qin Yuan!

The remaining options, although not bad, are not what Qin Yuan needs right now, so I will not choose for now.

After that, Qin Yuan directly raised this radiation resistance ability to the cosmic level.

"Ding Dong, congratulations to the host for choosing successfully and obtaining cosmic radiation resistance!"

But after Qin Yuan saw the cosmic-level radiation resistance, he couldn't help but feel happy!

Because of this cosmic-level radiation resistance ability, not only is it able to block all kinds of radiation, but it also strengthens Qin Yuan to a certain extent!

This is all right, Qin Yuan in this radiation, not only will not be affected, but will continue to restore physical strength!

Thinking of this, Qin Yuan directly placed his body close to this iron bucket, and found that his body did not mean any fatigue.

After all, these radiations are also energy, but under normal circumstances, they cannot be used. Qin Yuan's body has now become different from normal people after being systematically modified. He can directly change this radiation ability into energy and inject it into himself. Inside!

Qin Yuan thought about the superheroes who gained energy from nuclear explosions when he was reading comics before, and he was a little eager to try.

However, after a while, Qin Yuan gave up this alluring idea.

Although the system is also unreasonable, this idea is still a bit too dangerous. If it fails, it is completely finished!

Then Qin Yuan directly began to use his own things to make two trackers, and then directly put them in the two piles of iron barrels.

Chapter 470: Lalta!

In fact, Qin Yuan was thinking about whether to borrow the system's capabilities and directly receive these yellow cakes into the system's space.

But in this way, even if Qin Yuan filled all three grids, he would only be able to hide 15 buckets of yellow cake, but there would still be one bucket left.

As for the remaining bucket, Qin Yuan couldn't take it out directly. After all, this bucket weighs a ton. With this ton of things, how could Qin Yuan ran out directly from all eyes. ?

So Qin Yuan directly gave up this idea in the end.

What's more, Qin Yuan has other thoughts in his heart. He wants to know how these yellow cakes should be used by the rebels if they really get into the hands of those rebels.

Moreover, Qin Yuan only knew that there was actually a person behind Zhaka, who was the real master behind him, and he wanted to see who this person was.

And once Qin Yuan kills Zhaka now, then I'm afraid he will not have enough time to pursue who is behind the scenes.

Thinking of this, Qin Yuan still made up his mind and retired directly.

Since they couldn't take all of them, don't move any of them. Qin Yuan put the yellow cakes back, and then left the warehouse.

After that, Qin Yuan looked around and found that no one had noticed the anomaly here. This was the purpose of re-fixing the monitor and patrolling the surroundings staggeringly.

At this time, the night gradually deepened, and after Qin Yuan wandered around for a few laps, he also found a place to rest. The people in the monitoring room would not say anything even if they saw Qin Yuan. After all, Qin Yuan It's already so miserable, and it would be too interesting if they went down to the bottom.

In this way, the whole night passed in the blink of an eye, and a misty white light lit up in the sky.

But Qin Yuan's body was fully rested under this radiation.

Looking at the sky in the distance, Qin Yuan showed a playful smile on his face.

Great show, it's about to start!

...

At around ten in the morning, on the Gobi Desert outside the town, an armed transport plane slowly landed on the ground.

At this time, Zhaka had already been waiting here for a long time. At this time, he saw an officer in military uniform approaching, and he immediately greeted him. After that, he opened his hand and hugged the person. The face said to the officer in surprise:

"I didn't expect it to be you! Lalta, it has been a long time since he returned to his hometown!"

The officer named Lalta also smiled mysteriously when he heard what Xhaka said, and then said to Xhaka:

"Chief, we fought this battle to be able to live a better life in the future. As long as we win, then my hometown is everywhere, so why go back to my hometown!"

Hearing these words, Xhaka's eyes changed and he narrowed slightly. He felt that the person in front of him was not the Lalta he had known before.

The reason why they mingled with the people of General Sharaf is not to live a good life, but to make other people in the world recognize their status.

After all, they were considered terrorists by other countries in the world before. They originally wanted to support the successful coup of General Sharaf and make General Sharaf recognize their status, but now it seems that these people's ideas have already changed!

Zhaka is not a stupid person either, he has also read a lot of history, knowing that if General Sharaf really changes his heart, then they are probably the first person to be eaten!

It seems that the generous life has corrupted some people's hearts, making them unable to think of what to do.

So Zhaka also flashed a light in his eyes, and said to this Lalta:

"This battle is not for you."

And hearing the slight threat in Zhaka's words, the officer named Lalta also had an ugly expression, and asked Zhaka in a deep voice:

"Chief, the yellow cake has arrived, so what about the information?"

Hearing this, Zhaka also directly handed over a USB flash drive to Lalta's hands. After all, this was agreed upon by both of them before, and could not directly change his mind just because of this guy's few words.

Since the two people are not speculative, there is no need to say anything. Anyway, at least the government soldiers should be killed first, and then they will do something. That is the next thing!

Then this group of soldiers began to use all kinds of forklift trucks to send these yellow cakes under the transport plane.

But at this moment, a voice suddenly sounded in Lalta's ear:

"Be careful, the leader already knows your plan and wants to kill you!"

Hearing this, Lalta's eyes suddenly widened, and his face was full of shock!

He doesn't have any headset settings, so where did the sound that I heard just now come from?

But he still asked in a low voice:

"Who are you and what do you want to do?"

"Haha, it doesn't matter who I am. What is important is that Zhaka only gave you half of the yellow cakes, and the rest is in the hands of another organization. This news is true. You can take care of the others!"

Hearing this, Lalta's heart was even more shocked, and his eyes gradually became sharp.

Being able to be sent over to receive the yellow cake, Lalta is not a idiot. He just saw how emboldened Zhaka looked, but he was already a little surprised, why Zhaka is so tough.

Now it seems that the reason has been found. It turns out that other people have been found to cooperate.

At this moment, Lalta glanced at Zhaka, and found that Zhaka just glanced at him strangely and did nothing.

This makes Lalta a little weird slowly stopped her murderous intentions.

Although this magical voice had told him an important news, he couldn't directly attack Zhaka because of this.

After all, they are cooperative partners, and there are many elite fighters under Zhaka's men. Zhaka's church is also very famous in the military.

But General Sharaf has indeed said that people like Zhaka can only use it, but cannot conduct in-depth cooperation. As long as the coup succeeds, then these people need to be dealt with immediately!

After hearing this strange voice, and then contacting the threat of Zhaka just now, a trace of coldness flashed in Lalta's eyes, and he whispered directly to the surrounding soldiers:

"Remember, be careful, if these people act rashly, just kill them!"

When these soldiers heard this, although they couldn't understand them, they all nodded, then squeezed their guns tightly, and began to guard seriously.
