

Special Soldier 48

Chapter 48: Big fish appeared

In a moment.

Qin Yuan drove the car under the chimney!

"Huh? There is still a soldier standing guard here?"

approached Qin Yuan only to realize that there was still a soldier here!

But...

A soldier!

is not a problem at all!

"Brother Yuan, it's not good! Someone here!"

Li Erniu also saw it, and he couldn't help exclaiming!

Qin Yuan smiled, "Just leave it alone! What a panic! Just kill it!"

Then.

Qin Yuan drove the car directly in front of the soldier!

"Good head!"

The recruit was just a private soldier, and when he saw the company commander Qin Yuan, he immediately respectfully saluted.

Qin Yuan directly punched him and knocked him out, and smiled helplessly, "Sorry little brother!"

has a perfect ant power!

Qin Yuan not only possesses great power!

and can perfectly control this power!

Use as much strength as you want!

Otherwise--

Qin Yuan can punch thousands of kilograms with a random punch. At that time, let alone a fragile human, even a cow will die under Qin Yuan's punch!

He Chenguang was slightly shocked again!

This Qin Yuan...

is so violent!

"Wow! Brother Yuan is great! Another stun!" Li Erniu admired Qin Yuan's behavior very much. "Brother Yuan, you can teach me this kind of stun skills in the future, I I want to learn too!"

"Okay! I will definitely teach you if I have a chance!" Qin Yuan smiled and agreed, "Now, don't waste time, the sky is about to dawn! Let's go up the chimney!"

"Good Brother Yuan!"

"it is good!"

Li Erniu and He Chenguang nodded excitedly!

is about to stand at the best sniper point of the entire blue command post!

Both were extremely excited!

As for Qin Yuan?

groaned slightly, then removed the M82 and replaced it with the 95 type!

Only this time...

Qin Yuan installed a scope on 95!

The performance of 95 sniper rifle is actually very powerful!

The standard range is 400 meters!

The farthest distance between this chimney and the Blue Army's big tent is only more than 500 meters!

It can be said that a 95 firepower is enough to cover the entire command post!

"Huh? Qin Yuan, do you only use one 95?"

He Chenguang took a shot of 88!

killed nearly a hundred people in two consecutive days!

Now there are any guns in the back seat of Jeep!

of course.....

The most style is 95!

is not only the most numerous, but also the most abundant bullets!

Qin Yuan smiled, "One 95 is enough!"

has the most powerful cosmic automatic rifle marksmanship!

At the time of world class, Qin Yuan can perfectly play the 95 standard range power!

When is perfect, you can kill 100% within the range!

Universe level is capable of perfect kills that exceed 10% of the effective range!

As for the universe level, it can effectively kill more than 50% of the effective range!

In other words...

A 95 that originally had a range of only 400 meters!

In Qin Yuan's hands!

can achieve a hundred shots within 600 meters!

of course--

He Chenguang can also achieve a hit record beyond 88 sniper range!

But the time and efficiency he spent can't compare with Qin Yuan!

"Let's go up!"

Give an order!

Qin Yuan hides the jeep behind the chimney!

immediately began to climb with He Chenguang and Li Erniu!

moment!

The three people climbed to the top window of the chimney!

"Fuck! This vision is invincible!" Li Erniu glanced at random, and the entire command post was unobstructed, and there was almost no blind spot!

He Chenguang glanced through the scope and couldn't help being excited, "The longest distance is 580 meters, and the entire command post is covered by my sniper rifle! Humph! This time, the blue army leaders are doomed to escape. !"

Qin Yuan glanced lightly and couldn't help but smile, He Chenguang was right!

Fan Tianlei, they are doomed this time!

My heart moved!

Qin Yuan turned on the powerful thermal imaging system!

Although it only has a radius of 1,000 meters, it completely covers the command post in front of you without any obstacles!

Especially in the present situation!

The sky hasn't completely lit up yet!

Qin Yuan immediately activated the Universe-class night vision ability!

an instant!

Everything within a radius of 1,000 meters is transformed into an image by thermal imaging and presented in my mind!

And everything within the dark range of 400 meters, also opened the perspective of God, completely and clearly presented in front of you!

Both are one!

Qin Yuan can clearly determine the location of everyone without any mistakes!

"Huh? This big account is the one where Fan Tianlei is located?"

Qin Yuan focused on the most central tents!

immediately found Fan Tianlei sleeping in the seat!

In the tent, other soldiers are searching and sorting out various data!

Chen Shanming is full of energy and is seriously responsible for his internal work.

Qin Yuan continued to search, but unexpectedly found a few old acquaintances!

The biggest prisoner who was treated specially, Kang Lei, is being held in another tent right now!

At this moment, he is ashamed and dejected!

This exercise completely subverted his cognition!

almost beat him up!

As for Gong Jian, old black Wang Yanbing, how many people?

was detained in an iron cage in a prisoner camp!

Qin Yuan knows that if this is the real battlefield, these so-called prisoners...I am afraid they would have become dead long ago!

"Dawn, Erniu, it's too early, and the highest goal hasn't appeared yet! You two take a break for now, I will let you know if I have news!"

Qin Yuan glanced at the time!

It's less than five o'clock in the morning now!

Blue Army No. 1 has to arrive at 7 or 8 o'clock, right?

Take advantage of this effort!

just can give He Chenguang and Li Erniu a rest, recharges energy.

"Okay Brother Yuan! I haven't slept well in these two days! I'm exhausted long ago!" When Li Erniu heard this, he closed his eyes and fell asleep on the chimney!

"Then Qin Yuan, I'll leave it to you here! I'll take a rest too!" He Chenguang didn't talk too much, so he closed his eyes and rested!

Qin Yuan stared down boredly.

There are constantly jeeps escorting Red Army prisoners into the command post!

Qin Yuan couldn't help but feel very helpless.

Now it's really entering the stage of capturing rout soldiers!

If this exercise were not for them, I am afraid I would have really lost it!

But now, there are still a few of them!

time flies.

As expected!

a quarter past nine!

Four military vehicles in a row slowly drove into the command post!

It's weird!

The surrounding soldiers were all saluting at the military vehicle!

Qin Yuan's eyes lit up when he saw it, "Big fish, did this finally appear??"

"Er Niu, morning light, wake up soon, big fish has appeared!"

Qin Yuan immediately awakened both Li and He!

He Chenguang and Li Erniu were both shocking spirits at once, "The big fish has appeared? Could it be that the number one of the Blues has finally appeared?".

I can only see in sight!

Fan Tianlei and Chen Shanming, including Kang Lei, who was already a prisoner, and many other high-ranking officers all walked out of the tent and stood in two rows to respectfully welcome the arrival of the Blue Army One!
