

## Special Soldier 491

Chapter 491: All fell to the ground

At this time, following the words of the captain, they did not care to kill the wounded, and left here directly, chasing them in the direction of Qin Yuan just now!

These people have obviously learned their lesson, and they have been careful when pursuing them. After all, they don't want to endure the same kind of experience again!

But at this moment, they suddenly heard a scream. The captain was surprised when he heard the direction of the sound!

"It's the wounded! This kid wants to catch us! Go back!"

At this time a soldier said, but when he heard this, the captain said in a deep voice:

"Split into two teams, one team to go back, the other to move forward, remember, what we have to do is not only to kill the Yan Chinese, but also to catch the traitor!"

"Understood! Then feel free to contact! If there is a situation, I will directly report to you!"

At this time, the deputy captain heard the captain's words and nodded directly, then put the walkie-talkie on the channel and started to go back to the original place!

Then the deputy captain brought more than 30 people back to the place where they were ambushed, but at this time, looking at the appearance of these people in front of them, they suddenly took a breath!

I saw the injured people before, and now they all stopped breathing one by one, and most of them had an extra bullet hole in their heads. Obviously, these people were killed by pistols!

What is even more shocking is that the position of these people's throats is full of blood!

This is a wound cut by a dagger!

"Asshole!"

At this time, the deputy captain yelled, and then said to one of his men:

"Go and see, is there anyone who survived!"

The deputy captain knew that they had left five or six people to gather the wounded before, but did these people fail to even resist?

And these people are also pale, but they are directly following them to find living people.

The deputy captain looked at the bodies of these people and felt chills in his heart. He didn't know who he was facing, but why did this guy cut his neck with a dagger after killing these people?

And at this moment, the deputy captain heard a voice directly:

"Deputy Captain, found a live one!"

Hearing this at this time, the deputy captain was suddenly energetic. Turning his head and looking, he happened to see a shivering man being caught by his own soldiers!

This person was found behind a small branch. The whole person is almost like a frightened quail. The whole body is trembling constantly, and his eyes are full of endless fear. Don't care about anything, just cover your face, just like this way, you can block other people's attacks!

Seeing such a situation at this time, the deputy captain immediately understood that the guy in front of him had been completely defeated by fear, so the deputy captain immediately grabbed the soldier and slammed toward him. Slapped twice on the face, and then said to him coldly:

"Say! What the \*\*\*\* is going on?"

And this soldier, after receiving two slaps, woke up quite a bit. Looking at the deputy captain in front of him, he cried out with a wow, and said to the deputy captain:

"That guy is simply a demon. After you left, he walked around from a distance, and then killed all of us with a pistol, and then used a dagger on their necks. I wiped it on, and the flag was white. I heard him say that he wants to dye this flag red!"

When he said this, the soldier's eyes flashed with endless fear, and he said to the deputy captain:

"I don't know if he found me, or stayed with me on purpose. I saw his eyes at the time. When he looked at us, he looked at us as if he was looking at some stone or tree. He didn't treat us as humans! The brothers even raised their hands and surrendered, but he still didn't have any reaction and cut them off directly!"

The survivor shuddered when he thought of the red flag that had been dyed 1/3 red, especially thinking that when Qin Yuan was in front of him, he saw his feces and urine flowing, and shook his head in disdain. left.

Obviously the demon didn't think he was a warrior anymore, so he didn't kill him at all. This was the reason why he was lucky enough to survive.

That guy is not a person at all, but a pure war machine.

Hearing the description of this survivor, the deputy captain felt a little hairy. To be honest, none of them were good people. Some of the things they had done before were not more than Qin Yuan.

They will kidnap some of the more important hostages, make a video, and announce their existence to the world, just like the previous Abu, they will be hurt by these people.

But when you kill others, you don't think that one day you will come to such a situation!

But since it is a demon, then this demon must be cleaned up. They are fighters of the sacred religion and must fight for the sacred religion.

Thinking of this, the deputy captain directly took out a dagger and plunged it into the survivor's chest. The guy in front of him was so scared that he was insane. Even if he was rescued, he could only live his life crazy, meaningless.

"Okay, let's all meet up with the captain, try to find the trail of this guy, kill him, and avenge all our dead brothers!"

At this time, hearing the words of the deputy captain, These people at also nodded, and then directly wanted to move in the direction of their captain, but at this moment, they suddenly heard a voice:

"Oh, you guys are very ruthless. I just talked to him, but I didn't expect you to kill him directly. If I knew that, then I won't stay with you!"

Hearing this sound at this time, the deputy captain's heart was suddenly clever, turning his head to shoot, and shooting in the direction where the sound came from!

But before he put his hand on the trigger, he suddenly felt a pain in his throat, and his strength was quickly disappearing!

Then the vice-captain was surprised to see that there seemed to be an extra card in his throat. It was this card that directly sucked away his entire body and ended his life!

At this time, the people around also found Qin Yuan, but they didn't have the opportunity to shoot. They thumped, and all fell to the ground!

Chapter 492: Sent 1 more

In fact, Qin Yuan didn't leave just now, but was lurking around. The reason why he kept this person's life was to attract others to come back. Otherwise, according to Qin Yuan's skill, he wouldn't let these people make any noise. The sound comes,

Although there were a full 30 of these people, with mental arithmetic and unintentional, Qin Yuan simply killed these people without any effort!

And at this time, there was also a sudden crackling explosion in the distance, Qin Yuan's mouth suddenly showed a slight sneer, he knew that the previous captain must have entered the minefield he arranged.

Qin Yuan has become a real master when it comes to landmines. Even the old cats who are top mercenaries can't escape from the minefields he set up, so Qin Yuan understands that these guys must be dead!

The progress bar of the flag in front of him suddenly took another step forward. Seeing the 80% red flag on this side, Qin Yuan smiled suddenly, then squatted down and stuck to the chest. A survivor of the dagger said:

"Don't be afraid. Although your deputy captain gave you a knife, you still have a chance to survive. Help me take this letter back and tell Abdullah that he is dead."

At this moment, Qin Yuan said this and directly pierced his silver needle on the survivor in front of him. Although this guy's heart was punctured, it was fortunate that Qin Yuan came in time, as long as he was using the Guardian. Needle, not his life directly.

Moreover, Qin Yuan also added hypnotism during the treatment, and the guy in front of him would definitely execute his orders!

Sure enough, the survivor in front of him just let out a scream of incomparable pain, and then dragged his seriously injured body, stood up directly, and slowly walked out of the woods!

Looking at this guy's back, Qin Yuan showed a sneer. Now the totem banner in Qin Yuan's hand has not reached 100% progress, so Abdullah still needs to send some people to die. Of course, If Abdullah is willing to come in person, then Qin Yuan can't ask for it!

Then Qin Yuan directly glanced at the location of Basandu and others on the map, and found that they had almost walked out of the forest, but as the saying goes, helping people to the end and sending the Buddha to the west, Qin Yuan did not intend to continue to escape. He wanted to use this place to fight guerrillas with Abdullah's men.

Although he has accepted the task, Qin Yuan does not want to manage everything in this country too much. After all, if a country wants to emerge from the abyss, it still needs to have its own victims. If you only count on an outsider like Qin Yuan to do Even if he succeeds in doing things, he may not last long.

Now let's take a look at what skills Basandu and Moika have, and see if he can talk about the garrison at the border. If he doesn't say anything but gets killed instead, then everything Qin Yuan did is in vain. !

"Hehe, it depends on God's will!"

Qin Yuan sneered at this moment, and then left here directly.

Looking at the bodies of these people, Qin Yuan thought, it is estimated that the dragon's blood tree in the coming year will grow a lot taller again!

...

At this time, on the other side, Abdullah looked at the crazy soldier in front of him, his face completely cold, and said to a strong man on this side:

"The action team of more than one hundred people, only this fool came back?"

At this time, hearing Abdullah's words, the strong man standing on the side suddenly said with a little embarrassment and helplessness:

"Sir, I'm really sorry, it seems that he is really the only one who came back alive, and when we found him, he was already crazy, no matter what we asked him, he always replied that the devil is here, the devil is here , I don't know what happened to him, but we found a letter from him. This letter was written by Yan Guo. Obviously this is a provocation to us!"

Hearing such words, Abdullah frowned, and then accepted the letter that the strong man handed him.

Abdullah frowned and opened the letter. Upon closer inspection, he found that the letter was obviously written by blood or dracaena sap, and there was an extremely arrogant signature on it.

At this time, Qin Yuan said directly in the letter:

"Abdullah! That's right! I'm talking about you! Abdullah! Do you just hide behind and be a tortoise? You know, I killed Zhaka, his head is mine Under the gun, it broke into a rotten watermelon. I heard that you have a very good relationship with Zhaka, but it's a pity that you can't see that beautiful scenery!"

At this time, looking at the content of the letter, Abdullah gritted his teeth immediately. Qin Yuan said it was right. Zhaka really had a good relationship with him. The two of them are brothers!

And because of this, he can trust Zhaka so much.

Zhaka has reported everything to him, and Abdullah also knows what role this Yan nationality has played in this incident. The hostages were rescued by him, and the yellow cake was taken away by him. It caused the whole town to be disturbed, and finally attracted the bombing of government forces, and now even Zhaka is dead in his hands!

It was this hateful Yan Guoren who completely overthrew all the plans he had made, forced him to the foreground, and formed the current extremely embarrassing situation!

At this moment, Abdullah thought of this. He simply couldn't control his emotions. Suddenly he drew out his pistol, bumped it, and hit the survivor who had gone crazy. Son, this survivor is really dead and can't die anymore!

At this moment, seeing Abdullah's angry look, everyone was so frightened that they didn't dare to make any noises.

But at this moment ' a person suddenly rushed in from the outside. This person was blond and blue-eyed, with a European appearance. After entering the room, looking at the corpse on the ground, he suddenly made a fuss. Called:

"What's the matter? What's the matter? Why is there a gunshot suddenly?"

At this time, when I saw John, Abdullah's face was even more ugly. In the current situation, it is obvious that John will not say anything good to him. Abdullah thought about it and felt that this matter was best suppressed. For a while, so he said directly to the subordinate on one side:

"It's nothing, it's just that a bad guy was executed."

Hearing this, John's face was a little weird, but he couldn't say anything.

But at this moment, the strong man before received some news directly, his face became very ugly, and he whispered to Abdullah:

"Sir, that guy sent another video here!"

Chapter 493: Can't put

what?

Hearing this at this time, Abdullah's brows were immediately frowned, but he still made a gesture to this subordinate, indicating that he should hide the video first, in case it is John I see it, maybe what this guy will say!

But the brawny man said helplessly:

"Sir, it's no good. This time this guy sent it out on a public channel. Everyone can see it tenderly. We can't hide it!"

Hearing this, Abdullah's face suddenly turned pale, knowing that this matter was completely unconcealable. In that case, he could only say to the brawny man:

"In that case, Herley, show me this video!"

Although I know that the Yan countryman on the opposite side will definitely not say anything good, since the video has been posted, it is natural to see what the \*\*\*\*\* said!

"Yes!"

At this time, blamed the strong man named Herley, he directly agreed, and then took out a small monitor and directly played a video!

There is nothing in this video, but there is a person whose face is so dark that he can't see his face clearly, and this person did nothing, just showed a very mocking look, and then said to the video:

"Abdullah, just wash your neck and wait for death!"

After saying this, the camera looked around for a week, but when he saw this, Abdullah suddenly widened his eyes!

Because the surrounding is an extremely stern battlefield, countless stumps and broken arms are scattered all over the place, and his guard captain is in it!

Moreover, this person has extremely bad taste, and it is even more terrifying to keep the face of this deadly captain close!

But for Abdullah, these are the mockery of Hong Guoguo! Is hitting him in the face!

You know, Abdullah really started shooting these threatening videos, but now who can think of it, he was actually threatened by video!

Abdullah screamed frantically at this time, kicking the table in front of him with one kick, then turned his head and said to Herley who was standing aside:

"Who is this guy?"

"Report, according to our news, we can only know that he is a soldier from the Yan country, and now the soldiers have given him a code name, called Death..."

At this time, Herley said cautiously, Abdullah became so angry, which is really rare, so everyone is unwilling to touch Abdullah's mold!

Abdullah looked at the final scene of this video, his face was as cold as a thousand years of ice raised from the deep sea, and said coldly:

"Hehe, no matter who you are, I will definitely kill you. Don't you love to play photography? Then I will let you die and the whole world will know! At this time, my Abdullah's promise to you is also for Revenge of my friend Zhaka!"

After saying this, Abdullah sat down on the sofa. He must calm down now. Otherwise, he will do some irrational things. Now his status is different. The same as before, recklessly!

But at this moment, there was a sudden gunshot outside, and Abdullah suddenly shouted at the side of his subordinates:

"What are you doing? Go and see!"

And this subordinate nodded again and again, and just wanted to go out, but the strong man Hurley walked out first, and when he came back, his face was extremely ugly, and said to Abdullah:

"Sir, it was the corpses of our compatriots who were transported back. As the man said, every corpse has a knife edge. Obviously, this guy really killed so many people with a dagger!"

Hearing this at this time, John, who had been standing on the side without speaking, couldn't help taking a breath. To be honest, as a good war reporter, he naturally knew a lot of real murderers.

But even in the cognition of a person like John, being able to do this is still a terrible thing!

After all, it's a human being killed, not a pig, and even if it kills a hundred pigs, it will still shake hands, and will either fear or be mad in the heart. Even the most terrifying person cannot be in such a short period of time. Within time, complete this order of magnitude killing!

Is this guy's heart made of iron?

At this time, John couldn't help but wonder, and he became very curious about this soldier of Yan Nation!

And Abdullah also trembled in his heart. He was not afraid, but he was a little heavy. After all, this kind of thing is generally only they can do, completely ignoring all the rules on the battlefield, and the form is terrifying.

However, now they encountered a more terrifying and unruly existence than them! This also made Abdullah hesitate in his heart as to how to deal with this person!

At this time, everyone's eyes fell on Abdullah, and they hoped that their husband could give them a goal.

And Abdullah narrowed his eyes, a murderous intent burst out of his eyes, and said to everyone:

"No matter who this guy is, he must die, and not only this guy, we want to fight, but also the entire Yan Nation!"

"Huh? Sir, is it a bit to deal with Yan Guo..."

At this time, the staff on the side also looked shocked. Although the country of Yan has rarely caused trouble in the international arena in this period of time, it is after all a five-permanent country with the world's top national strength and combat effectiveness. If it provokes Yan country, It's not enough to send in their entire Ivia people!

"Huh' I certainly won't directly attack Yan Nation, but Yan Nation also has enemies. Remember, this time, we are going to conduct a live broadcast of the assassination of the Yan Nation soldiers. he died!"

Having said this, Abdullah changed his breath and continued:

"Doing this is not only to avenge our people, but more, but also for our reputation. If this guy kills so many people and still escapes from our hands, then what we trained before Terrifying prestige will all be taken away by this guy!"

What Abdullah said is true. After all, it took a lot of effort for them to train their frightful reputation in the world. Although they have offended many developed countries, these people dare not persecute them. excess.

After all, everyone is afraid of lunatics. In case Abdullah drove a plane into the building if he irritated them, then I don't know who would suffer.

But once they really let Qin Yuan go, they would completely expose their shortcomings and would directly become the laughing stock of the whole world!

Chapter 494: prepare for

But if things have a negative side, there will be a positive, and this positive is that Qin Yuan must be killed!

At this time, Abdullah sneered and said directly to the crowd:

"We all know that in the current war, as long as the casualties exceed 30%, it is equivalent to being demoralized, and if it exceeds 60%, it is equivalent to the entire army has been organized, and this guy is so Strength is bound to be a very famous figure in Yan Nation, and once we kill this person and the team in his hands, then we will be able to spread a message: that is Yan Nation's army, not invincible. !

Everyone knows that the country of Yan has gained a reputation by relying on previous wars, but now the times are developing. The country of Yan has not fought a serious war for decades, so it hates the country of Yan. They are all waiting, waiting for some people to verify the strength of Yan Country!

What we have to do is to pierce the myth of the invincibility of the Yan Nation Army! And once there is no prestige of the army, with the three-legged navy and air force of Yan Country, it is simply not enough to cope with the surrounding countries! "

Hearing Abdullah's words at this time, the eyes of the people around him changed. They really didn't expect that there would be such an aspect.

"And not only that, I can also use video directly to completely execute these soldiers of the Yan Nation. In this way, not only will we be able to take revenge, but we can also directly throw out some Yan Nation threat theory. Yan country interferes in the internal affairs of other countries, or all kinds of messy things, to attract the attention of the whole world. In this way, together with other brothers who are active in Europe or the Americas, join forces to put pressure on Yan country!

At this moment, Abdullah said with a sullen expression, showing his white teeth, directly speaking to everyone:

"In this way, even if Yan Nation can drag over this time, it will peel off, so it shows our status and greatly improves our international reputation!"

"But all of this has a premise."

But when it comes to this, Abdullah directly turned his head and looked at Herley on one side, and Herley also directly smiled coldly, stood up, and said to Abdullah:

"I understand, sir, the premise of everything is to kill this guy directly!"

At this moment, Abdullah nodded in satisfaction, patted Herley on the shoulder, and said to Herley:

"Be sure to catch that guy this time, I will equip you with the best weapons, the most sophisticated equipment, and even the brothers hiding in other places, will help you. All you need is one thing. That is to wipe out this group of Yan Nation rats completely!"

"Yes!"

At this time, Herley was sonorous and powerful, and his eyes were full of cold agreement.

You know, Herley is already the most powerful candidate under Abdullah. He not only received their terrorist attack education, but more importantly, Herley has been a mercenary in Europe for more than ten years. After hundreds of battles, it is even famous in the rankings of the underground world!

Even if Heley faced the Yan Nation soldier alone, he was very sure to get rid of him, not to mention that Abdullah had already provided Heley with everything he could provide, if in this situation Next, if you can't kill that guy, then no one can do it!

After speaking these words, Abdullah turned his head and looked at John on the side, and said directly to John:

"Mr. John, don't you want to shoot the latest news? Then this time I give you this opportunity, and Herley's battle this time will directly bring you, and then I will let you broadcast it in front of the world! Look at us How did that rat from Yan country be crushed into flesh bit by bit!"

Hearing such words at this time, John shuddered all over his body. He knew this was a great opportunity, but it was also a great danger.

But after thinking about it for a while, John still showed a very charming smile directly, and said to Abdullah:

"Even if you don't let me do this, I will go there. Of course I will not let this earth-shattering big news go!"

You must know that John is not a coward, he is a man who pursues freedom and strength. He has been at the forefront of the stray battlefield more than once and made the most wonderful speeches for the audience in front of the TV, and he is also considered a nerve. During the interview, his vehicle had been hit by bullets more than 20 times, and even one rocket had blown up his tires.

In the most thrilling one, even the helicopter has crashed, but this guy is still dead hard, and after a few weeks, he reappears in front of the audience!

There are even many fans who are publicly stating that what they are watching is not John's report at all, but want to watch this, brave war reporter, when will a stray bullet directly explode his beauty My little head!

Hearing John's answer at this time, Abdullah nodded in satisfaction, and said directly to the soldier on one side:

"Very well, since that's the case, then you come to serve as Mr. John's guard, no matter what Mr. John's requirements, you can satisfy, try to satisfy it!"

Having said this, Abdullah directly gave John a check, and it was self-evident what it meant.

But when John saw the check, he shook his head and put the check aside directly ' and said to Abdullah:

"Dear Mr. Abdullah, the reason why I am here is not purely for money, but to experience this kind of life. Since as a reporter, all I have to do is to take the real thing, All are presented in front of the audience, and I will directly start a live broadcast at that time, so that we will not be controlled by our situation."

But when he heard this, Abdullah smiled coldly and said directly to John:

"That's enough!"

After saying this, Abdullah looked at the small monitor on the table, took out the pistol, shot it several times in a row, and directly beat it to the pulp, then said to the side of Herley:

"Herley, this is all up to you, I'm waiting to see his head!"

"Understood, sir!"

At this moment, Herley directly agreed, and then left the room directly and began to prepare.

Chapter 495: Playing with me like this?

Half an hour later, several helicopters stopped in the yard, and on these planes, Herley and John were in line.

At this time, Herley directly shaved off all of his beard and was fully armed, and John was also sitting on the side to modulate his own machine. The helicopter was equipped with all kinds of weapons and equipment, but it made John feel the most dangerous, but it was still in front of him. Here is the man with the dove.

Sitting next to Herley at this time, John felt a cold temperament, which caused John's body to receive a lot of stimulation, and layer after layer of tiny goose bumps appeared.

Looking at this guy, a smile appeared on John's face. Sure enough, no matter who it is, being able to stand out from the crowd always has characteristics that others cannot match.

Therefore, at this time, John directly greeted his companion, then turned the camera directly at Herley, and asked Herley:

"Excuse me, Mr. Hurley, you are now sitting on a helicopter full of weapons, risking being attacked by government forces to carry out this operation, then can you tell us your military goals this time?"

"

At this moment, Herley heard this and looked up at the camera, knowing that Herley was starting his own section list, so he also smiled and said directly:

"Naturally it is for our God, for the jihad, for the good life that exists in the future, and this military operation is naturally for you to take a good look at how the Yan Nation Army, which is known as the invincible in the world, was destroyed by us. of!"

"At that time, I will use a knife, just like slaughtering a baby chicken, and directly bring the chicken from Yan Country to you. I will use their blood to nourish this land!"

Hearing this, the photographer was shocked and shivered, but John showed a slight smile.

John and Hurley, naturally, will not be on the same plane, so after the interview, John got on the plane of his own, but the photographer on the side was trembling and didn't want to go. , Asked John embarrassedly:

"Oh, dear John, are we really going to shoot these things? Watching a person having his neck cut off, I'm afraid it won't be broadcast, right?"

"What's the matter? Let's code it. Besides, we can just take the facial expression of that person instead of filming the wound. As long as we can fool the censorship of those bastards, we can naturally satisfy our fans. "

John said with a relaxed face, and seeing his partner's still ugly face, John smiled again, and then continued:

"I know what you are worried about. Offending Yan Country is indeed not a trivial matter, but don't you think that watching a legend fall in front of us is more meaningful than any terrorist incident? Brother, such a single How about news that can save us from fighting for 20 years?"

Sure enough, people die for money and birds die for food, and the temptation of money is endless. The photographer's assistant nodded immediately to ensure that he would do it well.

At this time, Herley, who was on the side, also showed a smile. He naturally knew the temptation of this news for these reporters, especially the people he faced, or senior desperadoes like John, so he didn't worry about this at all. People don't keep up.

Soon, the helicopter took off, and then slowly moved towards the location of the Dragon Blood Grove. In addition to the three helicopters, there were a full two hundred anti-government fighters sitting in various vehicles below. Come on, follow them forward!

Herley didn't believe it anymore. With this configuration, the kid could escape. If they couldn't catch the kid, then they wouldn't need to do anything by then, just shoot and commit suicide!

The infantry group is being bombarded by helicopters and suppressed by firepower. Does Herley believe that this guy can fly to the sky?

...

At this time, Qin Yuan was also resting in the jungle. He killed so many people, so bullets and other items were also supplemented. At this time, he was sitting on a branch of a dragon blood tree and eating A compressed cookie.

I don't know how those guys in Basangdu are doing, but Qin Yuan is lacking in skills and can no longer help those people.

And at this moment, a task suddenly sounded in Qin Yuan's mind:

"Ding Dong, the system has released the task. At present, Basandu has reached the blockade, attracting the attention of the rebels for 24 hours, allowing Basandu to complete the persuasion of the defenders and reward three squares!"

"Oh?"

At this time, Qin Yuan's eyes lit up when he heard this voice. Fortunately, his hard work has been fruitful. Now Basangdu has reached the border guards. As long as Basangdu has finished persuading, then Qin Yuan's The task is completed, and even the entire form of Ivia will be directly reversed.

"Holding these guys for 24 hours, that is, you can't fight too hard to scare these guys away. This is a bit difficult!"

At this time, Qin Yuan touched his chin, always feeling that this matter might be a bit difficult to handle.

After all, this is the task of three grids, obviously not easy to complete.

However, Qin Yuan thought about it carefully. He has done so many things in Ivia, and this has reached the end. How can he not pull his hips here, otherwise the previous tasks have been done in vain?

"Haha, done it!"

But at this moment, Qin Yuan's eyes moved and he directly opened the eagle eye ability. He suddenly saw the mighty army in the distance, and his eyes suddenly went wide!

"Fuck it, isn't it? Just deal with me. As for using such a big battle?"

At this time, Qin Yuan exclaimed, and suddenly felt a sense of crisis coming from his whole body, suddenly he screamed, and suddenly ran down from the tree!

Then a rocket hit directly on the tree where Qin Yuan was, and exploded on the branches with a crash, sending the red sap from the dragon's blood tree flying across, as if a person had been seriously injured. !

"Grandma's, really play!"

At this time, Qin Yuan directly spit out, took out his sniper rifle from the space, and aimed directly at the helicopter in the air in the distance!

But at this moment, Qin Yuan felt a sense of crisis again, and he could only put away the sniper rifle directly and quickly dodge!

At this time, the three helicopters formed a shower of bullets and directly suppressed Qin Yuan!

Feeling this unprecedented pressure, Qin Yuan suddenly opened his eyes:

"Fuck, system, just three grid tasks, play me like this!"

Chapter 496: Angry John!

"boom!"

At this time, a rocket exploded directly beside Qin Yuan, and Qin Yuan was lying on the ground, like a frightened hedgehog, and his body's various abilities were directly used to the limit.

Countless shrapnel and heavy machine gun bullets pulsed around Qin Yuan. Qin Yuan felt that he had turned into a high-speed machine, recognizing where to hide and where not to hide!

However, long-term defense must be lost, Qin Yuan snorted, and a shrapnel struck Qin Yuan's arm directly, drawing a blood mark!

Although Qin Yuan has acquired the defensive capabilities of the tortoise, he still cannot defend against these large-caliber heavy machine guns with powerful kinetic energy!

Not only Qin Yuan, the mines that Qin Yuan arranged before were also triggered by the various shrapnels flying around, which turned into more and bigger storms, and finally formed Qin Yuan's own obstacles!

From the telescope, he saw Qin Yuan's tragic situation, and Herley smiled coldly, yes, that's it, just to drive this guy to a desperate situation.

At this moment, looking at Qin Yuan's black face in the camera, and Qin Yuan's body moving from side to side, although He Lei was also very surprised, they had reached this point, Qin Yuan actually He could still survive, but he could also see that Qin Yuan had already suffered a trace of injury!

And these injuries will slowly take away the vitality of this Yan Nation soldier, and will eventually make him slower and slower, and finally can only be directly blasted to pieces by them!

But Herley would not do this. He promised Abdullah that he would definitely take this guy back alive, and then cut off his head in front of people all over the world. Of course, he would not just take this easily. Kill the guy!

So, Herley began to give orders:

"Go, get this guy back!"

"Yes!"

At this time, the more than two hundred masters brought from various regions in the distance agreed with a grinning smile. They are all famous criminals all over the world. They are the most ferocious and terrifying existence in the entire resistance army. , Now let more than two hundred of them deal with a kid from the country of Yan, this is all overkill!

"Haha, Captain, wait, we will bring this kid back to you! Of course, it doesn't matter whether it can be kept intact! Hahaha!"

At this time, a person with scars on his face said to Herley, and Herley sneered when he heard this, and then said:

"Scareye, you had better be careful, I don't want to collect the body for you, and the husband is going to live. It doesn't matter if it is incomplete, the important thing is to live!"

After ordering these things, Herley turned his head and looked at John on the side, and said to John:

"Mr. John, you can join me now, shoot your material, and start your live broadcast!"

And John looked at this confident Heley, and then looked at the more than two hundred thieves who had evil appearances, and asked Heley:

"Then can I ask you, how long do you think you can catch that kid?"

"It won't be long, maybe an hour later, you can see that person wailing in front of you!"

At this time, Herley directly gave an order and set off, and then those people, like hyenas, rushed directly into the dragon blood tree forest that had become a mess!

One hour?

Looking at the forest in the distance, John always felt that it would not go so smoothly.

You know, this kid directly killed a hundred-man brigade before. Although he knows that this kid will not be head-on, but with such a mentality, I am afraid it will be finished!

And Herley looked at John's face, smiled directly, and said softly:

"You seem to be a bit too mythical about him. Obviously, one person can't deal with a hundred people in a normal state. I have observed before. This guy is a landmine master. He is already here. The mine was buried, so so many people died directly in his hands!"

Hearing this, John frowned slightly, and then said to Herley:

"You mean, the reason why you sent so many people over this time and used heavy machine guns to shoot the entire forest is to crack the enemy's minefield?"

"Yes, no matter how this guy is, he is only one person, it is impossible to lay a lot of mines, and with these, I can directly use bullet storms to completely detonate these mines without giving him any landmines. With help from him, how could he deal with my full 200 brothers? So it didn't take an hour at all, and soon he could only die here! Mr. John, I don't know if you are used to it and watch others lose your head. The scene, don't pee your pants in fright."

At this time, Herley laughed. Although Abdullah asked him to respect John, he didn't have any good feelings for such reporters.

In his heart, such people are maggots lying on their bodies and sucking blood. If there were no people like them, they might have had a better life!

But when he heard such words, John still laughed and said to Herley:

"Mr. Herley, you don't need to worry about that. Although we are not fighters, we can see more cruel people' I just hope you can quickly let me see who in the world You dare to provoke a strong man like you so boldly!"

When he said this, John had a strange smile on his face. Although he often dealt with these people, it didn't mean that he didn't know what these people were like. These guys were talking about establishing themselves. Countries, established their own names, but in fact these people are just the dregs of threatening world peace with violence.

Although John needs to take good pictures of these scumbags, he does not agree with the ideas of these people at all. He just makes money in this way. The business is not shabby!

And Herley was naturally able to hear the meaning of John's words, his eyes changed slightly, showing a slight chuckle, and said directly to John:

"If this is the case, then you just wait here, and I will catch the skin monkey in a while and let him tell all his ancestors eight generations!"

After saying these words, John snapped his fingers at the helicopter on one side, and then the more than 200 people directly divided into several teams and began to move toward the forest.

Chapter 497: continue waiting!

At this time, Herley's thoughts were very good. He knew that Qin Yuan was able to achieve the situation like this through landmines, so he first cleaned the entire forest thoroughly with bullets, and then dispatched these real desperadoes. Enter this forest.

These people are masters. Even if there are some landmines left that have not been cleared, there is no possibility of much damage. Once they grab the tail of the guy opposite, they can completely kill this guy and help them. All the shame suffered before!

Now these soldiers are divided into several routes, in order to prevent this kid from escaping, so they plan to send some people around this piece of forest directly, then this kid will never escape!

And John looked at these people, feeling a little helpless. He originally wanted to watch a master showdown, but now it seems that Herley will obviously not give this opportunity, so John can only see a group of people. It's just bullying of a person. Although this person's identity represents the Yan country behind it, it is really hard to convince people from the perspective of a person.

So John said directly to his companion on one side:

"Okay, let's just wait here, it's really boring!"

But the photographer didn't dare to say such things like John. After all, these people are real demons. What if they are not pleasing to the eye and kill them directly?

So this hapless companion could only squeeze a smile, and then worked hard to photograph these people's bodies bravely, hoping to use this method to make these people feel good.

But the people in the first echelon, when they first entered the forest:

"boom!"

There was a loud noise and a scream, which directly made everyone's spirits focused!

"what happened?"

At this time, Herley asked the intercom with an ugly face, and then a distressed voice came from inside:

"Report to the captain that the mines were not cleaned. Two of us were killed and four were injured, but it doesn't matter. We were careless just now, and the mission can continue!"

Hearing these words at this time, Herley could only comfort a few words, but in his heart he kept cursing the idiot!

He was still boasting about going to the sea in front of John just now. As a result, this kind of thing happened as soon as he entered. Isn't this slapping him in the face?

Herley turned her head and found that John was only smiling at him at this time. It seemed normal, but Herley found that there were some signs of twitching on this guy's face. It was obvious that this guy was enduring it. Laughing!

Herley gritted his teeth and said directly to one of his men:

"Continue to bombard with helicopters. Three helicopters cleaned up and down. It really didn't work. We burned this piece of wood directly. I don't believe it. With so many of us, we can't handle a small soldier!"

At this time, Qin Yuan, who was in the distance, heard the explosion, and he also showed a sneer. If the landmines he planted could be cleaned up so easily, that would be too underestimation of the name of the landmine master carried by the system. Right!

But looking at the helicopters in the distance, Qin Yuan frowned, and came again. These helicopters flew high, only seeing Qin Yuan's heat source. As a result, they ploughed this forest over and over again. Upside down!

But Qin Yuan is too late to take action now. He has nothing in his hand now, only a sniper rifle is left. However, it is too much luck to use this sniper rifle to hit a helicopter of this height. Yuan never fired!

His special seed bombs are running out, he must save a bit of use, and complete the lore when necessary!

At this time, Qin Yuan looked at the soldiers who came from a distance. Qin Yuan's face became gloomy. He can now think of a chance to escape from here, that is, when these people come over, kill a few and then pretend to be these. People leave, otherwise, Qin Yuan can't escape with this helicopter overhead!

And Qin Yuan was using thermal imaging capabilities to see these helicopters transporting people, knowing that these people would be coming soon, so Qin Yuan calmed down and began to prepare for murder.

The danger of doing this is not small. After all, these people don't look like the former miscellaneous soldiers. Although they are in the woods and don't have much heavy weapons, these people are in threes and threes, each other and each other. Covering, so Qin Yuan knew that these people must be teammates who have been together for a long time!

And if Qin Yuan rashly changes his costume, he will probably be recognized soon, and the fight will start. Although Qin Yuan is not afraid, there is no chance to escape!

Thinking of this, Qin Yuan also scratched his head. This task seemed to be a bit difficult, and it was indeed a bit embarrassing for him to complete it beautifully by himself.

At this time, Qin Yuan looked at the crowd approaching, and was ready, adjusted his body to the best condition, and changed his clothes in front of these people, and he couldn't be discovered by these people. Such difficulty, even if it is Qin Yuan was also a little unsure.

But at this moment, there was a popping voice over his head, and Qin Yuan suddenly cursed his mother and grandma in his heart. How afraid of death these people are? With so many people, the helicopter is still following!

However, this time the helicopter did not launch bullets unscrupulously. After all, although the helicopter can hold a lot of bullets, it is also limited after all. The heavy machine gun consumes bullets quickly. The rain of bullets just now' has been taken. They still need a certain amount of reserves to cope with unexpected situations after the bullet is consumed.

At this time, Qin Yuan took a deep breath. He was a little hesitant about whether to act, and finally escaped the helicopter. If he is spotted by the helicopter again, I am afraid it will be difficult to avoid it!

So Qin Yuan still intends to give up this opportunity and continue to wait.

But these people have already walked in front of Qin Yuan, and at this moment, Qin Yuan was shocked when he saw the equipment in these people's eyes!

Damn, brought a thermal imager!

At this time, Qin Yuan understood that he might not be able to hide it. Although it was daytime and the surrounding temperature was very high, there was still a certain difference between the human body temperature and the surrounding environment. When you get close, you will definitely find it!

Qin Yuan gritted his teeth. He knew that he had to act first. Otherwise, if he was discovered by these people, he would have to run away in embarrassment, and there were so many people pursuing this time, even Qin Yuan might not be able to escape. !

Chapter 498: Surprised!

Seeing these people had already walked in front of him, Qin Yuan held his breath. When he was about to rush out, he suddenly raised his head and looked towards this side!

Because he heard a whistling sound!

This is the sound of Stinger missiles!

Whoosh!

At this time, Qin Yuan looked at a stinger missile, and after spinning a few times in the air, it suddenly hit the tail wing of that helicopter. At this time, the helicopter hovered and fell down, exploding with a boom!

But Qin Yuan's heart was overjoyed. Without the helicopter, even if Qin Yuan rushed out to face the twenty-odd people, it was nothing to worry.

But when Qin Yuan just wanted to rush out, he fired a series of bullets directly from behind these people, and these people were caught off guard!

At this time, Qin Yuan finally saw who was doing it, it turned out to be Yang Rui, the captain of the Dragon Team!

What surprised Qin Yuan even more was that with Yang Rui, it was not the other members of the Dragon Team, but He Chenguang, Li Erniu, and Wang Yanbing of the Red Blood Cell Team!

"This group of bastards, why are they here too!"

At this time, Qin Yuan didn't even know what to say. His action this time was almost completely without the consent of the military region. Originally, Qin Yuan felt that the people in the red blood cell team might not even know about this. It's okay now, all these guys are here!

Then Qin Yuan directly adjusted the headset, and sure enough, a familiar voice suddenly came out from the headset:

"Captain, we are to the east of you, and I will directly suppress them for a while, you rush out!"

Hearing He Chenguang's voice at this time, Qin Yuan said in an angry tone:

"Okay, I have killed them all!"

At this time, Qin Yuan took advantage of these people's attention, and his body suddenly sprang out from the hidden place. The pistol in his left hand and the playing cards in his right hand were continuously stimulated and directly wiped out the more than 30 people!

However, after killing these people, Qin Yuan did not hesitate to search for the weapons of these guys, and stuffed some bullets and bombs directly into his ammunition box without thinking. Ran out to the distance!

At this moment, Yang Rui saw Qin Yuan coming, and his heart was immediately happy. He just wanted to say something, but he saw what was behind Qin Yuan and shouted directly:

"Fuck, rocket bomb, fall down!"

"boom!"

A rocket flew over and exploded suddenly behind Qin Yuan, and Qin Yuan was blown out by the air wave several meters away!

Seeing such a situation, Li Erniu and the others were immediately stunned. No way, they managed to kill a helicopter of the other party, but the captain was killed when they first arrived?

But they soon saw something under the land, something was crawling out, a closer look, it was not Qin Yuan!

"What are you stupefied? Hurry up! Those guys already know where we are, and they will definitely chase us!"

Qin Yuan already knew that there would be rocket bombs. These people only had three helicopters. Now one crashed, and there is no news. It must be the first time to bomb this side!

And seeing that Qin Yuan was okay, these few people immediately laughed, pulling Qin Yuan directly, and quickly dragged Qin Yuan's to their hidden place, and said to Qin Yuan:

"Brother Yuan, I found you! Go!"

At this time, Li Erniu smiled at Qin Yuan, but he also knew that it was not the time to speak, so they said that while they were saying these things, they ran towards another mountain with a book. And Qin Yuan had heard the roar of the car, it was obvious that these guys didn't come here in the car!

While Yang Rui and others smirked while retreating, Qin Yuan couldn't help but laughed as he saw these guys smirking, but he cursed at the guy:

"You bastards, why are you here? Especially you Yang Rui, how did you know that I am here?"

"Hey, the superior gave us a specific device that can locate your mobile phone, so we know you are here, not to mention that these guys have made such a big battle, we just came directly here!"

Hearing such words, Qin Yuan couldn't stop smiling, then turned to Li Erniu who was on the side and said:

"What about you? Why are you here?"

"We also received the notice. They said that Brother Yuan, you seem to be in danger. Let us pick you up. So we came. Then we got on the warship first, and then I heard Captain Yang talk about what happened between you. I know that since Brother Yuan has already sent a message, he will definitely do it, so we will come to support you!"

At this time, the sniper team He Chenguang and Wang Yanbing also returned to the car and said to Qin Yuan:

"Hey, Captain, are you very touched!"

On the other side, Gu Shun and Li Guo also showed a smile.

Hearing this at this time, Qin Yuan's heart could not be stopped. He knew that these things must have been done by the same. In this way, although the same did not give him much help, he could help this group of teammates. Calling it out is already the greatest aid to him!

To be honest, this kind of sudden appearance of his teammates at the most difficult time really made Qin Yuan's heart an unprecedented warmth!

"Okay, let's not talk about it, let's talk about other things after we have completely escaped from the danger!"

At this time, Yang Rui said to everyone, and then this jeep rushed out!

And Qin Yuan slowly came to his senses, glanced at the direction he was heading, but whispered to Yang Rui:

"Where are we going?"

"We bought a plane in a place before' now we can fly directly to the high seas, and then we can board a warship and return home!"

At this time, Yang Rui explained to Qin Yuan, since they are here to support Qin Yuan, they naturally have to be fully prepared.

But Qin Yuan laughed when he heard such words, and then said to Yang Rui:

"You inform the plane and the people on it, we don't take the plane back! When the group of people are gone, let these people go directly to this coordinate point, and dig out the yellow cake. Remember to be careful. I have made it. Dirty bomb!"

"what?"

At this moment Yang Rui heard Qin Yuan's words, his eyes widened, and he said to Qin Yuan in surprise:

"You really got the other half of the yellow cake! And it turned into a dirty bomb, how did you do it?"

At this time everyone was extremely surprised, looking at Qin Yuan with surprise!

Chapter 499: Are you sure

But when he heard this, Qin Yuan smiled slightly. Of course he got the yellow cake, and he had already hidden the yellow cake!

Originally, Qin Yuan was already prepared. If he really couldn't escape, he would directly explode the dirty bomb. If he was lucky, Qin Yuan would be able to break the siege!

Moreover, Qin Yuan is not afraid of the radiation of dirty bombs, making dirty bombs is not even a problem for Qin Yuan, who has already understood nuclear weapons.

This is the final card Qin Yuan prepared for himself. After all, this thing is not fun. If it really detonates, I am afraid that this place will not be able to live in a few decades! In the international arena, it will cause an uproar and will inevitably discredit the country!

So Qin Yuan thought about it, but in the end he didn't detonate the dirty bomb. After all, although the situation just now was critical, it was not yet truly hopeless.

And now that there are so many teammates, Qin Yuan suddenly has another idea in his heart!

He planned not only to transport the dirty bombs back, but also to completely kill the group of people who dared to chase him!

So at this time, Qin Yuan showed a hideous smile, and then said to everyone:

"I'm going to play a big one, do you want to follow me?"

Hearing this at this time, everyone looked at Qin Yuan with a complicated expression. This guy is really not afraid of death at all. He just escaped from the enemy's hands, and now he is thinking about how to fight back!

But after hearing this, after everyone looked at each other, they all nodded, and then said firmly to Qin Yuan:

"Captain, you can just give the order!"

Seeing this situation at this time, Qin Yuan was a little surprised. He really didn't expect this group of teammates to listen to his orders like this.

He Chenguang, Li Erniu and others are fine, even Yang Rui did not resist at this time!

"why?"

At this moment, Qin Yuan raised his eyebrows and asked Yang Rui, but Yang Rui smiled and said to Qin Yuan:

"The superiors have already stated that this action will be led by you. We are all your little soldiers. Do what you say, even if you let us die, we will go!"

Seeing Yang Rui's extremely determined expression carefully, Qin Yuan couldn't stop taking a breath, and in his heart he really didn't know what to say to the old fellow.

To be honest, this time Qin Yuan made a lot of noise. If other people estimated that Qin Yuan would have retreated long ago, but this similarity not only sent support, but even made these people unconditional. Following Qin Yuan's command, he is really not afraid that Qin Yuan will pierce the sky!

But now that he has the authority, Qin Yuan naturally wants to get things done, so he directly said to everyone:

"What I am here is because I have rescued Basandu, and as long as Basandu can..."

At this time, Qin Yuan directly explained the whole story to everyone. Hearing the unstoppable exclamation of everyone, these things I did simply made them unimaginable. If you know that there are so many of them together, it is nothing Deng Mei and Xiao Hua were reluctantly rescued, but Qin Yuan was able to rescue all these people alone!

Moreover, Qin Yuan's plan is extremely crazy, he wants to completely overthrow Abdullah!

So at this time, several people were all excited, and said directly to Qin Yuan:

"Well, we all listen to you, what on earth should you do?"

Moreover, Qin Yuan smiled immediately when he encountered such words, then took out a map and said to everyone:

"We don't go here, but go here, follow this desert, and come out from here!"

what?

When they saw the route drawn by Qin Yuan, everyone's eyes widened!

"My brain, Brother Yuan, you want to cross the desert!"

"This is too... incredible! Isn't it a bit too rash?"

"No way, you know the silver desert here is also very famous! Can we...can come out alive?"

At this moment, Qin Yuan smiled slightly when he heard the people's words, and then a fierce light flashed in his eyes, and said to them:

"But if you don't go to the desert, how can we people kill the \*\*\*\*\* behind?"

what?

When they heard this, everyone was completely stunned. After doing this for a long time, Qin Yuan did this to kill the group of people behind?

Is this a joke?

But if you think about it carefully, it seems you have to do this too!

After all, Qin Yuan left the dirty bomb in that place, and if these people didn't leave, they wouldn't be able to dig it.

More importantly, their Yan Nation has offended this group of crazy guys, so since they have offended them, they must cut the roots, otherwise, this is the hidden danger they have planted for the border of Yan Nation!

After all, not all soldiers of the Yan Kingdom are able to deal with these people with ease like Qin Yuan, and once these people use their means here against the people, it will inevitably cause a lot of damage. !

And this is the responsibility of those who defend their homes and nations!

...

And when Qin Yuan and the others were in entanglement, watching the screen broadcast on the computer in China, the same fists clenched tightly!

"Deceiving people too much, it simply doesn't put our Yan country in the eyes at all!"

At this time, he threw the water glass in his hand directly, and Yang Lei, who was on the side, also had the same ugly face!

Seeing that his brother troops were chased and killed wantonly by this group of people, this is completely putting the dignity of their Yan Guoren on the ground!

You know, the reason why they Yan Guo guarantees the safety of their diaspora, is for deterrence. As a result, now this group of guys blatantly broadcast this event, which is really unbearable for the same!

And more importantly, the same thing knows that they can't provide any assistance to Qin Yuan yet, and even according to their usual practice, they should directly announce that Qin Yuan and his team are not soldiers of the Yan Kingdom!

Only in this way can Yan Guo be able to disassociate himself from this matter! !

Because Yan Guo has always followed the rule of never interfering in other countries' internal affairs!

The Lighthouse Nation was always looking at Yan Nation. It was always waiting for Yan Nation to make mistakes so that he could take a bite. Now Yan Nation is planning to connect with Eurasia. If this happens at this time Things will definitely affect the real big plan!

But at this moment, the same phone rang, and after hearing the content of the phone, the same smiled, and then said to the other end of the phone:

"Okay, then you can rest assured, are you sure?"

Chapter 500: what happened?

At this time, Qin Yuan on this side listened to the words on the phone, glanced at the chasing soldiers behind, and said with a sneer:

"I dare not say that there are twelve points, but also ten points!"

"Very well, then I will leave everything to you! Oh, by the way, I am afraid there is not much reward for this task."

"Hehe, it must be. Watching this group of scums die is my biggest reward!"

At this time Qin Yuan sneered, then hung up the phone directly, looked at the few people in front of him, smiled and said:

"Now you are relieved of your last worry, come with me!"

"it is good!"

At this time, everyone saw that Qin Yuan had notified the superiors, and they also showed a wanton smile. Since they have obtained the craziness qualification, how can they not take this opportunity to be crazy!

At this time, the same person who hung up the phone here also had a cold face and said to Yang Lei:

"Push my wheelchair here."

"principal....."

At this moment Yang Lei said with some doubts, but the same thing looked at Yang Lei and said lightly:

"The prestige is written in blood. Since these people want to challenge the name of our Yan Nation Army, then we naturally have to make these people pay the price! Don't these people want to see, well, let go directly, We directly leased a satellite to this reporter, and let the \*\*\*\*\* who think that Yan Nation has declined, take a good look at what is meant by the real Yan Nation soldiers!"

Hearing these words at this time, Yang Lei's eyes also lit up, and he directly saluted the same:

"Yes!"

After that, Yang Lei directly pushed the same and left the room, but he knew that the real storm was coming!

...

At this time, Qin Yuan and others looked at the pond in front of them and said to everyone:

"Okay, everyone trim it up, and then fill everything that can be filled with water. Next, we don't have many opportunities to drink water!"

Upon hearing this, Yang Rui, He Chenguang and the others nodded silently, and then used various things to fill the water!

Qin Yuan looked at the desert that was already in front of him. This was the last place they could replenish water. Next, they could only rely on wisdom.

After that, Qin Yuan ordered everyone to abandon the car and step into this silver desert that looked like the ocean.

"Hey, guys, there is still a chance to regret now. If we really walk in, we won't be able to look back. When the time comes, it will be dead or alive, then we will have our destiny."

At this time, Qin Yuan smiled and said to everyone, but when he heard these words, there was no smile on the faces of these people, but a trace of determination!

Those who regret it might have already withdrawn. Since they chose to follow Qin Yuan's command in all actions, they had already put their life and death aside!

And looking at these people in front of him, Qin Yuan also showed a smile, and then said with a serious face:

"Well, since no one quits, all actions will follow my command! Now, except for one main weapon, hand over all other weapons!"

what?

Hearing such words at this time, everyone suddenly widened their eyes and threw their weapons away. If there were no weapons, how would they deal with the chasing soldiers who overtook them?

Seeing everyone's puzzled eyes, Qin Yuan laughed and said:

"Very well, you didn't ask me directly. From now on, try to talk as little as possible and save your own water and strength. We don't want to throw away the weapon, but I will carry it for you. My physical fitness is much stronger than you. What's more, we should rarely be able to use these weapons next."

No weapons?

What's the matter without weapons?

At this moment, seeing the doubtful eyes of everyone, Qin Yuan explained in a deep voice:

"Because, next, this desert is our best weapon to kill! Okay, go into the desert!"

At this time, Qin Yuan gave an order, and everyone's heart was shocked, and then they stepped into this endless silver desert together!

Although this desert is not like the Sahara Desert, it is a real Jedi on earth, but there is no brilliant light around it, and the breeze after another has already shown its power to people. This desert is definitely not like He is so beautiful on the surface.

And Qin Yuan knew that this desert not only had sand, but also had a saline-alkali zone. In this way, not only did you need to guard against sandstorms, but also be careful. A little carelessness under your feet may directly sink into the swamp, and you will lose everything!

And the temperature here is also very high. If you hide an egg in the sand, it may not take long for you to get a cooked egg, or if you put a steel plate here, it is also very Soon you can use this steel plate to fry your eggs.

But before stepping into this desert, Yang Rui had some questions and wanted to ask Qin Yuan, so he raised his hand and signaled to Qin Yuan that he wanted to speak, and then Qin Yuan nodded and asked Yang Rui. Road:

"what do you want to say?"

"Why should we enter this desert and fight guerrilla with them? Isn't it better in the jungle?"

At this time, Yang Rui asked Qin Yuan in a puzzled manner. After all, in the jungle and hills, the environment is at least much better than the desert!

But when he heard such words, Qin Yuan shook his head slightly' and said to Yang Rui with a serious face:

"Your question is very good, but what I want to do is to completely wipe out this entire team."

Having said this, Qin Yuan took a deep breath and said to everyone:

"To be honest, although you are here to help me, our number is still an absolute disadvantage, and the other party has a steady stream of support. In this way, what we have to deal with is not only an enemy that is not in an order of magnitude. , And an enemy that will continue to grow."

"More importantly, whether in the jungle or in the hills, the opponent occupies a numerical advantage and can consume us continuously, but once they enter the desert, the more their population, the more resources they consume. Many, will fall into the same disadvantage as us!"

"Moreover, in the jungle, the opponent can take turns to rest and obtain a lot of supply resources. Even the opponent may use our group to train their soldiers. Although it will consume a lot of money, as long as it can be in the confrontation with us. If you survive, you will inevitably become an elite. In this way, the final result will be something we cannot bear."
