

Special Soldier 521

Chapter 521: victory

When they heard the gunshot inside, Yang Rui and the others were even more panicked, and Li Erniu, the fastest runner, had already rushed into the smoke at this time, and one shot blasted the head of the shooter.

Then, in the entire smog, it was completely plunged into a chaos!

At this time, through satellite observations, everyone's hearts were fiercely caught. Now that Qin Yuan can do this step, it has completely exceeded their imagination, but if Qin Yuan died here at this time, it would be It's so sad!

In the Southeast Military Region of Yan State, Gao Shiwei and Fan Tianlei stared at the smoke, their faces almost dripping with ugly faces.

In Kyoto, Rei Tong just closed his eyes, but made no sound.

The faces of Jialouluo and Fang Xinwu in the lighthouse country are also extremely ugly.

And in every part of the world, there are many people paying attention to it. Even some girls are praying silently, praying that this incredibly magical soldier of Yan Nation can create miracles!

At this time, a muffled noise suddenly erupted in the smoke!

At this moment, everyone's heart was shocked!

Because they knew that Qin Yuan and the others had no grenades, otherwise, Qin Yuan would definitely throw them in with the smoke bomb just now!

Then, this bomb must have been detonated by a rebel!

And as the bomb exploded, there was no movement in the white fog, and the white fog was slowly dissipating!

And after the white mist dissipated, looking at the few people who were standing in place panting violently! There was an extremely violent cheer in the observation room!

The few people who survived are naturally Qin Yuan and others!

In this short period of time, they directly killed a hundred people!

At this time, the bodies of these few were all covered with scars. At the beginning, the other party was a little scrupulous, but in the end, they were completely caught in a chaotic battle. The rebels simply ignored them, as long as they were seeing a human shadow moving, it was just a bullet passing by, and in the end someone even directly detonated the grenade!

And if it were not for Qin Yuaner to listen to Liulu and see all directions, from time to time to help out, it is estimated that among these seven people, there would be no more than three standing!

"Won!"

At this moment, these people stood and glanced at each other, and suddenly let out a weak cheer, and then lay directly in the corpse.

Although the time just now wasn't long, it consumed all of these people's physical strength, plus they were all injured, and all of them couldn't move.

Seeing such a situation, Qin Yuan also chuckled, and then pulled all these people out one by one, and then directly used the Eight Needles and Bandaging Techniques to bandage the injuries of these people.

At this moment, a voice suddenly rang in Qin Yuan's mind:

"Ding Dong, the host completes the task, attracts the attention of the rebels, allows Basandu to complete the persuasion of the defenders, and rewards three squares!"

Hearing the explanation of the system at this time, Qin Yuan was taken aback. He had been very nervous these days, and he was about to forget this task!

And Qin Yuan remembered that it was twenty-four hours at the time, but now it has been eight full days!

However, looking at the following explanation, Qin Yuan slowly understood that it was not enough to attract the attention of the rebels. More importantly, it was necessary for Basandu to complete the persuasion of the defenders.

As soon as Qin Yuan killed these people, the task was completed. Does this mean that the success of this persuasion is related to the results he faced with these people?

Qin Yuan's conjecture is completely correct. At this time, in Dutan City on the border of Ivia, Basandu and a soldier in Ivia military uniform are in front of a display screen, looking at Qin Yuan who is resting. Sangdu said directly to the soldier in front of him:

"General Gurida, I have won this time, do you want to send troops directly to help me put down the domestic rebellion!"

And this General Gurida nodded solemnly. At the beginning, he didn't want to pay attention to Basandu's help. After all, Basandu had been suspended for so long, and he had no reputation in China.

And just as Basandu was at a loss for this matter, the news came on TV that 200 people went into the desert to chase Qin Yuan together, so Basandu directly used this to make a bet with Gurida. .

If Qin Yuan can really annihilate all these chasers, then Gurida will agree to Basandu's request and send troops directly to support Basandu.

After Basandu got this guarantee, he even took advantage of this opportunity to directly contact Abdullah, and made another bet, that is, through this battle to directly decide the entire Ivy The position of the leader of the Asian country!

And Abdullah also directly agreed. This time the trouble was so big. If he wins, then even if Basandu doesn't say, he will become the king of Ivia, but if he loses, even if it is Basandu that, as long as he has the help of Gurida, it is impossible for Abdullah to continue to sit in the position of this leader.

Therefore, this battle is not only about Qin Yuan and the two hundred people, but also about the fate of the entire Ivia.

The entire country is determined by this war.

That's why Abdullah was so anxious. As soon as he got the coordinates of these people, he immediately dispatched his own hands to the rescue, not to mention, as long as he could eliminate Qin Yuan and then rescue his soldiers, Even if there is only one, that is enough, and Abdullah has won!

It's a pity that they contacted people, but they couldn't insist on the arrival of the helicopter, and they were all wiped out by Qin Yuan!

At this time, seeing the bodies of these soldiers, Abdullah lay weakly on the sofa, drank the last sip of wine, and then made a direct call and said to Herley on the other end:

"Here, we failed. Those soldiers are dead. There is no need to go to the helicopter. Come back quickly. We need to think of another way."

what?

Hearing this, Herley on the other side of the phone suddenly widened his eyes, and kicked a bucket of water out with an angry kick!

Seeing that their jihad was about to succeed, and as a result... just because of such a thing, they completely failed, and they need to start all over again? ?

Such a result is absolutely unacceptable for Herley. At this time, his eyes were red and he roared:

"Bastard of Yan Country!"

Chapter 522: Last resort

Hearing Herley's voice at this time, Abdullah's heart was also extremely painful. When it comes to anger, Abdullah is more vigorous than Herley.

But in this situation, he must find a way to leave himself a way out. Herley is his most elite guard, and He must be called back.

"Here, you come back quickly, I'm afraid it won't take long before we will become rebels again. When that happens, everyone will really shout and beat."

Abdullah was very clear about the next situation. Since he lost, he can only honestly admit it.

But at this time, Herley's angry voice came from the phone:

"Sir, I can't swallow this breath. The reason why we failed is all because of the people of Yan country. Although the brothers are dead, I must kill all the people of Yan country! If we let them leave alive, Even if I die, I am not qualified to see Heavenly Father!"

After saying this, Herley suddenly hung up the phone!

At this time, Herley was able to look through the binoculars, looking at the big pit full of corpses and bullet shells from a distance. Of course, Qin Yuan and others who were resting by the pit shouted directly:

"Fight, beat me to death, if these people are allowed to escape, we really will lose any dignity!"

Hearing what Herley said, the weapons on the three helicopters suddenly poured out toward this crater!

Then, the few people resting on the side were torn to pieces in an instant!

Seeing such a situation, Herley's eyes suddenly widened. Although he thought he might kill all of these people, he did not expect it to be so easy!

But at this moment, a sense of crisis suddenly appeared in Herley's heart, and he shouted directly at the driver:

"Climb up!"

When the pilot heard this, he subconsciously pulled the joystick, and then the plane suddenly rose!

However, following the two helicopters next to them, they did not have such good luck. At this time, a rocket suddenly appeared in the air, which directly penetrated one of the helicopters, and the splashed debris was also stranded into the other helicopter. The propeller of this helicopter, falling in black smoke, directly turned into a ball of sparks!

At this time, Qin Yuan saw that there was a helicopter flying out, and he was scolded for a while, and then, like a rabbit, suddenly ran out to the side!

Qin Yuan had already predicted that these people would send gunships over, so he prepared in advance.

First, they used the rebel corpses and put on their clothes. After that, Qin Yuan hugged a bazooka and hid on the side. When these people shot their corpses, Qin Yuan directly took them. When people are sent to heaven!

But Qin Yuan did not expect that the original plan was quite good, but he did not expect that a helicopter would be pulled up directly!

Qin Yuan naturally wanted to flee frantically, and wanted to use other methods to kill the helicopter!

At this time, Herley, who was stunned by the explosion, saw a figure ran out. I don't know where, they must be fooled!

"Chasing, kill this guy!"

But the driver's eyes flashed with a trace of fear, and he said to this Herley:

"Boss, they must be weapons specially reserved for us. If we continue to chase us, we may be shot down by him!"

But when he heard this, Herley's face was extremely ugly, and he said directly to him:

"Impossible. We only used one rocket for the three helicopters just now. This is enough to prove that they only have one rocket. Otherwise, if several rockets were fired together just now, it would be impossible for us to escape. Got it!"

But the driver's eyes were still full of fear. Seeing this situation, Herley's face sank and he took out the pistol, knocked the guy off with one shot, and kicked him out of the position. Sit in the driving position.

"Boy, I will definitely kill you!"

He Lei said coldly, and then directly chased Qin Yuan!

The heavy machine gun bombarded once again, but Qin Yuan ran wildly on the mountain desert, being beaten into a panic!

Like this kind of heavy machine gun, even if Qin Yuan possesses defensive capabilities, he does not dare to hard-wire it. He can only turn on his danger perception ability and try to avoid it!

Herley's guess was correct. Qin Yuan really only had this rocket. Now the only weapon that can threaten the helicopter has been consumed. Now Qin Yuan is running away and can spin in his mind quickly. What method was used to knock down this helicopter?

At this time, Qin Yuan's speed was like a bolt of lightning, and his movements were extremely funny, as if he was dancing, but Herley was gritting his teeth. Why, why can't the heavy machine gun hit this guy!

Soon, they arrived near a small hill. In eight days, they finally reached the edge of the desert, and here, they can already see the nearby stone mountain full of metal minerals!

The last time Qin Yuan dodges, he jumped directly under a stone ditch, no matter how many bullets flying across it, he will not show up!

And even the people who don't understand military concepts understand that Qin Yuan will definitely not be killed by this heavy machine gun ricochet, and only 10,000 rounds of ammunition are prepared on this helicopter, most of which are prepared. All kinds of materials, so Hurley's heavy machine gun, just rang for a short while, it went silent!

The bullet was not completely empty, but Herley did not dare to use it again. He had to find a way to force this little mouse out, otherwise, he might not be able to complete his mission!

Even Herley had to admit that if he hadn't had this helicopter, he wouldn't be Qin Yuan's opponent!

But at this moment, Herley suddenly saw the fuel tank on his plane, and suddenly had an idea in his heart!

I thought the distance this time was relatively long, so except for the supplies, most of the planes were made of aviation fuel. Then, we only need to add a wick to these things, throw them directly down, and then ignite them with a bomb. Isn't it an incendiary bomb?

"Hehe, I don't believe it anymore, you can dodge bullets, and you can dodge the flames!"

At this time, Herley said coldly, and then told his own thoughts to the already silly co-pilot, and said to him:

"Fly the plane, don't land, I'm going to kill that kid!"

Chapter 523: Suspicion

At this time, He Chenguang and the others in the distance saw the helicopter hovering above Qin Yuan's head, and their hearts were also tightly grasped!

Although he knew Qin Yuan's abilities, he could only be beaten passively. It was too frustrated!

"Captain Yang, how can we help the captain!"

"That's right! This helicopter is shooting, there will be nothing wrong, right?"

At this time, several people were extremely worried about Qin Yuan, and Yang Rui was also very ugly at this time, but he took a deep breath and said to several people:

"We can't do anything now, we can only choose to believe in Qin Yuan! Besides, with our pistols, even if we can hit this helicopter, we can use it as a fart!"

When several people heard this, they all slammed into the ground. They didn't have much weapons and ammunition just now. After that, they gave only a few rifle bullets and only one rocket bullet. After Qin Yuan, they only had a few bullets left in the pistol, but it was useless at all!

And when He Chenguang heard this, he gritted his teeth and said:

"That won't work either, otherwise, we build a catapult?"

Catapult?

Hearing this, Li Erniu and Wang Yanbing's eyes lit up, and they remembered the situation when they used a large slingshot to shoot down a drone when they were acting before.

"It's not appropriate. We are hundreds of meters away from each other. With our current equipment, how can we build a catapult that can hit a hundred meters!"

At this moment, Yang Rui said with a calm face when he heard these words, and when he heard these words, the faces of several people were also drooping. It was indeed the case. With the parts they removed from various things, they made a sling. The machine is reluctant, how can it be guaranteed that this catapult can project such a long distance?

"Unless there is a way..."

Upon hearing this, several people hurriedly asked Yang Rui:

"any solution?"

Yang Rui's face was full of determination, and then he continued:

"Unless we bring that helicopter directly over, or we can move the trebuchet we built over there!"

Hearing this, these people were silent!

You know, no matter how you do it, it is very dangerous.

They don't have the Qin Yuan's ability to navigate through the rain of bullets. Once they are spotted by this helicopter, it may be difficult for them to come back in full!

"It's done!"

Gu Shun drank coldly, stretched out a hand directly, and said to several people:

"Wait a moment for you to assemble the catapult, I will see if I have a chance to bring the helicopter over!"

"No, you go and observe first. We don't have many opportunities. At most it takes a few seconds for the helicopter to turn. We also have a chance. After a while, we must make sure that we can hit the opponent!

Yang Rui said at this time, and when Li Dao heard this, he also said in a deep voice:

"In addition to building a catapult, we also need to create an explosive live ammunition. I take out the gunpowder from the pistol bullet and go there to see what else can be used!"

"Okay, I'll go with you, hurry up and work together!"

After an order, these people moved quickly.

And hundreds of meters away from where they were, Qin Yuan was still hiding behind a rocky mountain, carefully looking at the helicopter in the distance.

"Grandma's, this guy doesn't walk or move, what does he want to do?"

Qin Yuan wiped the dust on his face and cursed. Now even Qin Yuan doesn't know what method he should use to deal with this helicopter. He has nothing in his hand, so he can't use stones to handle this. The helicopter fell down, right?

Qin Yuan regrets a bit at this time, why didn't he prepare a few more dragon pecking cones? If there is a dragon pecking cone, can this guy be so arrogant?

At this moment, Qin Yuan suddenly heard a voice in his ear:

"Captain, how are you? We have prepared a trebuchet and are now going to move over."

Catapult?

Can this work?

Qin Yuan felt that this thing was not reliable at this time. If this catapult could be used, then why didn't he use the power of an ant to throw stones directly to smash the helicopter down?

But thinking of this, Qin Yuan's eyes lit up!

Why can't you?

I can't throw it up now. That's because the helicopter is flying too high. As long as I find a way, let the helicopter be lowered.

Thinking of this, Qin Yuan said directly to the walkie-talkie:

"Well, you guys step up preparations and wait for the opportunity to make a move!"

Then Qin Yuan rushed out, found a few suitable stones from this stone mountain, and put them in his pocket.

After , Qin Yuan ran directly to a platform and suddenly shouted at the helicopter:

"Grandma has a leg, you have the ability to beat Laozi, you have the ability to come down!"

At this time, the people in the satellite saw Qin Yuan's appearance, but their eyes suddenly widened. What's wrong?

Especially when I saw Qin Yuan spitting and spitting, even people in various parts of the world didn't know what Qin Yuan was talking about, but it was obviously not a good thing.

And Herley on the plane was also blowing his beard and staring. Although he was at this height, he couldn't hear what Qin Yuan was saying but through the binoculars, he could see this kid incomparably Arrogant look!

Nima! I dare to provoke if I don't beat you?

But Herley took a deep breath and suddenly suppressed the anger in his heart.

Although I don't know what this kid is going to do, but the other party irritates him so much, there must be a purpose, so the best way is to keep it as it is!

Yang Rui and the others, who were hundreds of meters away, were completely dumbfounded when they saw Qin Yuan's appearance. They didn't know what Qin Yuan wanted, so why did they suddenly jump out?

But Yang Rui quickly reacted and said directly:

"Hurry up, Qin Yuan is obviously arguing about the suspicion, and let us delay time!"

When they heard this, the few people were aroused. He Chenguang patted his thigh and said:

"Yes, the more he tries to lead the helicopter down, the more the other party suspects that we have something in hand, and the less likely it is to come down, so that they won't find our actions!"

"That's not a hurry, they won't wait long! Li understand, are your ammunition ready?"

Yang Rui spoke to the walkie-talkie again, and Li Dong also huhhhhhh, breathlessly agreed:

"It's ready soon!"

When he heard this, Yang Rui also let out a sigh of relief and said directly:

"Well, let's be concealed and touch it!"

Chapter 524: Burning Mountain

Qin Yuan cursed in the air for a long time, but he didn't expect that the guy on the helicopter had eaten the weight of the weight, and had no reaction at all.

And at this moment, Herley in mid-air showed a triumphant smile, because his incendiary was finally ready!

"Take it to death! Asshole!"

Herei haha laughed, and then there was no need to save bullets, the heavy machine gun roared again!

At this time, Qin Yuan on this small platform also suddenly had a spirit in his heart. He saw the helicopter in the air rushed down directly, and immediately jumped out. As the rocky mountain was constantly climbing, avoiding the weight. The bombardment of machine gun bullets!

The world-class wall climbing obtained from the gecko allows Qin Yuan to move easily on this kind of cliff, especially behind him there is a heavy machine gun that can't help but spit out 12.7mm bullets!

But as Qin Yuan ran away, he wondered in his heart why it took such a long time for this helicopter to catch up directly. If he was really irritated by him, shouldn't it have already flown over?

But Qin Yuan hadn't figured it out yet. Seeing that the helicopter had fallen enough distance to escape again, he suddenly pinched the stone in his pocket into his hand, and the power of the ant burst out instantly, using his whole body strength. , Suddenly threw the stone toward the plane in the air!

This rock suddenly flew towards the helicopter with a howling sound, but unfortunately, the rock was too big to withstand the suppression of gravity. In the end, although it hit the helicopter, it was already There is not enough kinetic energy to destroy this helicopter!

After seeing this situation, Qin Yuan suddenly hammered his thigh. As expected, this method didn't work!

Herley, who was on the helicopter, suddenly heard that the helicopter under his feet seemed to tremble, as if it had been hit by something, but he didn't care. After falling to a certain level, he stabilized the aircraft and suddenly exposed. With a grinning smile, he said to the assistant on one side:

"Pour all these fuel down!"

Following Herley's order, four or five oil drums fell directly in the air. These oil drums had been opened, and they continued to spray out, and finally fell on the stone with a snap. The fuel in it was splashed everywhere!

When seeing such a situation, all the people directly stared, and the knowledgeable people couldn't help but screamed out:

"Oh, this is aviation fuel. This guy wants the whole mountain to burn!"

And He Chenguang and the others in the distance also discovered the same here, and suddenly exclaimed, but there was no alternative!

In Las Vegas, Thomas suddenly patted his thigh, haha laughed, he really did not expect such a turning point!

And countless people who have regarded Qin Yuan as an admirer have covered their eyes, afraid to see this scene, and can only pray for Qin Yuan in various ways.

It's a pity that these people's prayers and concerns have no effect. The last oil drum fell directly on the ground, suddenly exploding with a trace of open flame!

Boom!

The whole hill suddenly turned into a sea of fire!

"Qin Yuan!"

"team leader!"

"It's over now!"

"This kid must be dead!"

At this time, no matter how people are watching the scene here, they all sighed in their hearts. To be honest, the temperature of these aviation fuels is extremely high, and this kind of place lacks clothing and medicine, as long as it is Burns, in the end it is still inevitable!

More importantly, there is still a helicopter in the air looking at Qin Yuan. If Qin Yuan wants to escape from this hill, he will be strafed by heavy machine guns in the air!

"Captain! Let's rush over!"

At this time, He Chenguang and the others watched Qin Yuan disappear into a sea of flames, they were sweating all over, and they wanted to rush directly.

But Yang Rui suddenly clasped the shoulders of these people, gritted his teeth and burst out from the teeth:

"You are not allowed to go! We are in the past, there is no use, only to find death!"

"Then I have to go too, and I have to die with Captain I too!"

At this time, Li Erniu was really like a mad cow. He suddenly ran into Yang Rui. If Yang Rui didn't let go, he would really attack Yang Rui!

Seeing such a situation, Yang Rui suddenly said:

"Then you don't want to avenge Qin Yuan? The **** on the helicopter, we must shoot it down! Or we don't even have the right to die!"

Hearing this, everyone was shocked again, but they quickly reacted, each and every one of their eyes was shining with hatred, and the movements on their hands were even faster!

At this time, Herley, who was in the air, suddenly let out a haha laugh. He watched Qin Yuan fall into a small ditch, but the small ditch was filled with burning flames, that is, Said, Qin Yuan must have been burned by this flame!

Thinking that this terrible demon had been burned, Herley's eyes were filled with endless excitement. He remembered that thousands of brothers had died in the hands of this terrible demon. , Even the entire plan failed because of this bastard, and now he can finally avenge those people!

"Die! Die!"

At this time, Herley's eyes were wide-eyed. He had to observe carefully to see where this guy had escaped from. If he couldn't kill the **** with his own hands, his heart would always be a little uncomfortable!

He must watch this **** struggle in pain, and then be torn to pieces by his hand at the heavy machine gun!

And Abdullah, who has arrived in the capital of Ivia, was also extremely excited, and said directly to Basandu on the phone:

"Hehe, ex-Prime Minister, it seems that your chess piece has failed! I will be killed by my chess piece!"

On the other side of Basangdu, there was a cold sweat on his forehead. If Qin Yuan really died, then all the situations he had obtained before would be reversed in an instant, because he had already seen the one on one side. General, there is something wrong with his eyes!

"Hmph, the final result has not come out yet, I believe him, as long as there is no corpse, then I still have a chance to come back!"

At this time, Basandu gritted his teeth and said, but Abdullah laughed loudly and said mockingly:

"Well, then we will continue to wait."

But in Basangdu's heart, he is praying unceasingly, this mysterious Yan countryman, you must survive!

Chapter 525: Power of Dung Beetle

So what is Qin Yuan doing at this time?

of course is recycling flames!

Qin Yuan had recovered flames before and gained world-class flame resistance, but since then he has never used it, so he did not continue to improve. This time Qin Yuan found that his world-class flame resistance seemed unable to withstand this. The high temperature of aviation fuel! So I quickly recovered a few flames and directly raised this flame resistance to the cosmic level!

Sure enough, after gaining the cosmic flame resistance ability, the flames in front of him were not as hot as before. Although Qin Yuan's clothes were burned a little sparkling, Qin Yuan still felt a little warm!

After solving the flame problem, Qin Yuan did not continue to rush out. After all, although he was not afraid of the burning of these flames, he knew that there were countless satellites watching here.

If I really rushed out with this flame, I'm afraid I don't know what those people would say.

What's more, Qin Yuan currently has no good way to deal with the helicopter overhead. He has tried it just now. Even if he exerts the power of the ant to the maximum, he still cannot penetrate the helicopter with a rock. ! Not to mention hitting the plane directly!

So taking advantage of this place that no one can see, Qin Yuan plans to think of a way.

But at this moment, Qin Yuan suddenly saw the sand pile next to him squirming, and then he discovered that a black dung shelled man had crawled out of the sand!

After , this **** shell man ran out of the sand and ran towards Qin Yuan in a hurry.

At this time, Qin Yuan understood, it turned out that the flames above were too hot, and the dung shells hidden underneath were roasted!

But seeing this, Qin Yuan's eyes lit up because he suddenly remembered something!

That is the strength of Shiguo Lang, it is also extremely huge, even more powerful than ants!

Before, Qin Yuan took back the ants, and directly gained the power of the ants, with the power of 160 times his body weight!

And if you raise this ability to the cosmic level, it is estimated that you can gain four hundred times your own body weight!

This is the limit of the power of an ant, but this dung beetle is different. Even a general dung beetle can lift up to 600 times its own weight, while the top dung beetle can lift a thousand times its own weight. Objects!

When he thought of this, Qin Yuan suddenly smiled, and he didn't have enough strength. Wouldn't this come?

So Qin Yuan didn't hesitate, and directly received the poor ***** shell man into the grid!

Sure enough, when Qin Yuan started his hand, the system directly rang a voice!

"Ding Dong~ The system recovery is successful, please start to choose the host!"

With the prompt sound of the system, three options suddenly appeared in front of Qin Yuan!

"1, get the power of world-class dung beetle!"

"2, get world-class dung-pushing ability!"

"3, get a world-class defensive carapace!"

Seeing these three options at this time, Qin Yuan couldn't help but laugh a little bit. Sure enough, this recovered a ***** shell man, and even the ability to push the ***** ball came out!

As for this defensive carapace ability, Qin Yuan already has a similar defensive ability. Naturally, the defensive ability of Shikelang is no better than tortoise.

But fortunately, the ability Qin Yuan needs to increase his strength has also come!

"System, I choose the first item!"

"Ding Dong, the host chooses successfully, and gains the power of world-class dung beetles."

"The power of the world-class dung beetle can provide the host with 200 times the strength of the body!"

With this sound, Qin Yuan's arms suddenly swelled, and then Qin Yuan realized that his strength was strengthened again!

Sure enough, my guess was correct. The power of this world-class dung beetle is stronger than the power of an already perfect ant!

And Qin Yuan discovered that these two abilities can be used at the same time!

This is good, the two abilities together can increase Qin Yuan's strength 360 times!

After turning on the two abilities at the same time, Qin Yuan faced the flame in front of him, and suddenly a gust of wind blew the flame out! Only after a while, the flame spread again!

But this full three hundred and sixty times the strength, it makes Qin Yuan's heart full of confidence!

I couldn't throw it just now, so I don't believe it can't be thrown now!

Thinking of this, Qin Yuan suddenly sneered, and then walked out cautiously.

On the other side, He Chenguang and the others also climbed up a small hill and looked at the helicopter that stopped in the air. There was a trace of hatred in He Chenguang's eyes, but he placed this simple trebuchet on it. On the ground, he said to the intercom:

"Already reached the designated location!"

"Received, the ammunition is ready, send it up immediately, you will test the ballistic first!"

Hearing this, He Chenguang said to Wang Yanbing:

"Flamingo, try it!"

"distance 60, height 80,"

He Chenguang knew that the straight-line distance between them and the helicopter had reached the limit, and they might be spotted further ahead.

And they have also experimented just now. At this distance, as long as the function of this catapult is used to the limit, there is an opportunity to throw ammunition to this height.

Then add this ammunition to the designated location. There will be a timed explosion, and then the helicopter can be destroyed directly!

"Arrived!"

At this time, Li Dong took a square ammunition with a lot of things on it and sent it up, and He Chenguang quickly put the ammunition on his small trebuchet, and then said to the walkie-talkie:

"Ready!"

"Well, let's start, I'll bring the helicopter over!"

At this time, Yang Rui in the intercom said in a deep voice, the closer they are, the greater their chances of winning. As for who can survive, this is no longer what they need to prepare. The only thing they think about now is to avenge Qin Yuan!

As Yang Rui directly turned off the intercom, he took out the only pistol full of bullets, and with a fearless aura, he suddenly shot at the helicopter in the air!

bang bang bang!

The bullet went straight out, but it was a pity that it could not even touch the side of the helicopter, and it had already fallen!

Herley, who was in the air, also smiled upon hearing this voice.

It's been such a long time just now, that Yan country soldier hasn't come out yet, he must have been grilled into barbecue. And since the bug on the other side had already appeared, it would naturally be killed in one breath!

Then Herley directly pulled the switch of the heavy machine gun and said to the driver:

"Run over! Kill these bugs!"

Chapter 526: Come back home

And the pilot saw that the demon had disappeared, and the courage in his heart also came up, with an incredibly hideous smile, he rushed directly towards the soldier of the Yan Kingdom in the distance!

Herley looked at the villain below, smiled slyly, and pulled the trigger directly!

Da da da!

The heavy machine gun roared again!

And Yang Rui is running like a rabbit at this time!

Only when the bullets of the heavy machine gun whizzed around, Yang Rui could really feel how awesome Qin Yuan really was, and he was able to avoid such a rain of bullets!

Fortunately, before Yang Rui took the action, he had already chosen a hiding place, a dodge, and directly hid behind a big rock. Although the power of this heavy machine gun is great, the stones here are all mixed with metal. Ore can be resisted for a while!

"He's here, start acting immediately!"

At this time, Yang Rui roared loudly at the walkie-talkie, and He Chenguang, who was staring at which helicopter in the sky, also had a cold sweat on his forehead. The last slap was shot on the controller, and the spring of the simple catapult suddenly Stretching out, directly hit the only shell with a whistling sound!

"Medium! Medium!"

At this time, everyone in the He Chenguang team was staring at this shell, hoping that when the time was up, the shell would explode and blow the helicopter down!

Otherwise, even if people like them die, they will not be peaceful!

And Herley, who was in the air, saw a dark object hitting the helicopter, and his eyes suddenly shrank to the tip of a needle. Although he didn't know what it was, he didn't hesitate and had already hit. After a ten-year war, Herley pulled out his pistol in an instant, and hit this strange thing with two shots in a row!

Seeing such a situation, He Chenguang and others are completely desperate!

"It's over! I haven't reached the designated location, the distance is too far, even if it bursts open, it is impossible to shoot the helicopter down!"

At this moment Li understands sweaty, lying weakly on a rock. This time they are completely finished. With their current unarmed flesh and blood, how can they deal with the one in the sky? A helicopter!

And He Chenguang also slammed his fist on the stone, and even his fist was smashed with blood, but He Chenguang still didn't feel like he was, just staring at the ammunition in the air!

Boom!

At the time they set, even though it was shot twice, the bomb still exploded.

It's a pity that, like Li Dong's guess, the bomb is too far away, even if a few shrapnel hit the helicopter, it is impossible to cause much damage to the helicopter!

Seeing this, even Yang Rui and He Chenguang were desperate.

They have used all the means they can think of, but it is still the result.

"Are we all going to die here today?"

"Hehe, Captain, I will go down to accompany you!"

At this time, Herley saw the weird thing exploding in the air, and was shocked in his heart. He was shocked in a cold sweat. Unexpectedly, the people of Yan Country had reached this point, and they could still make these things!

But I just hit this bomb and knocked it away. At this distance, I don't need to worry at all!

But Herley's heart hasn't completely fallen to the ground, but he suddenly felt the helicopter's fuselage tremble!

was shot?

This...this is impossible!

The bomb just now, so far away, is it possible to hit the helicopter?

And these guys don't have enough things to make bombs. The earth bombs they make will definitely not be so powerful!

But no matter what Herley thought, this helicopter was uncontrollable and hovering in the air. At the last few meters, Herley gritted his teeth and jumped directly from above!

But Herley was in the air, before he had time to make any response, suddenly he saw a dark thing, flew over from a distance, and hit him directly!

Kara!

Hearing only a series of crisp noises, Herley heard the ribs on his chest and couldn't help wailing, and Herley couldn't control it, and wow, he vomited a mouthful of blood!

And this time, Herley just saw clearly what hit him.

This turned out to be a walnut-sized... stone?

But even if Herley tried to break his head, he still couldn't think of where this stone appeared...

And at this time, the helicopter that had landed suddenly exploded. Countless flying fragments, like machine gun bullets, kept sweeping Herley's body, and Herley was shaking like an electric shock.

The strongest player beside Abdullah finally died here...

When they heard the explosion of the helicopter, He Chenguang and the others were first taken aback, but finally their eyes widened suddenly.

How is this going?

At this time, Qin Yuan, who was watching from a distance, gave a cold snort, and killed this guy like this. Isn't it a bit too cheap for him?

However, Qin Yuan squeezed his swollen and painful arm, but he was a little surprised. It seems that his physique is still a bit too weak. This ant power and dung beet power are used together. It seems that I should try to avoid such a big damage to my body muscles in the future.

These injuries are not important. The scene just now shocked Qin Yuan. Originally, Qin Yuan only hoped that He Chenguang and the others could make some noise and attract the helicopter's attention a little bit, but who knows, He Chenguang and the others were really so desperate, even using their bodies to attract helicopters.

If this is killed by a heavy machine gun, Qin Yuan will not be able to cure it!

But in this way, Qin Yuan could take advantage of this opportunity to throw two rocks directly, and directly smash the helicopter down.

Qin Yuan directly said to the walkie-talkie:

"Boys, you guys did a great job!"

Yep?

Hearing the voice coming from the walkie-talkie at this time, He Chenguang and the others immediately stared their eyes wide and said in disbelief:

"Captain, you are still alive!"

"My God, is this true? Captain, are you okay?"

After hearing this, Qin Yuan also chuckled and said loudly:

"Well, brothers, the enemy has been killed by us, we can go home!"

Come back home?

Come back home!

The words go home are like a barrel of gasoline, completely igniting the enthusiasm of everyone, and everyone cheered!

Chapter 527: Have to serve

At this time, countless audiences saw Qin Yuan, He Chenguang and others who were cheering through various means, and they were all tears in their eyes.

These people escaped for a full eight days and used various methods to kill the chasing soldiers in the rear. Now they are almost alive. After killing these planes, it took so much effort to finally be able to survive. Come back home!

"Come back home!"

"Come back home!"

"Come back home!"

At this time, no matter which country the audience is, they all yelled with Qin Yuan. It is estimated that the first sentence of Yan Guo dialect that many people learned is these two words.

However, ordinary people cheered here at this time, but the officers in the various military laboratories had question marks in their heads.

what happened? What exactly is going on? Hasn't this kid been blocked by the flame of the incendiary? Why did he come out of it all right?

You must know that this kid has been roasted for more than ten minutes just now. This is considered to have two lives, and it is probably gone!

Besides, how did the helicopter explode just now?

Those ordinary people don't know, but they are professionals who can clearly see the bomb, and it didn't have much impact on the helicopter.

Then how did this helicopter crash?

However, the satellites can only see a rough, real fact, they did not see clearly, so at the end of the day, they can only put this matter on Qin Yuan. The people's luck is better, it must be the fragment of the bomb directly. It hits the helicopter's fuel tank and the like, which will cause the helicopter to crash.

But at this moment, someone suddenly spotted a convoy on the satellite and chased it from the edge of the desert towards this side. His eyes were suddenly staring, and he said in disbelief:

"These people must be dead, and another group of militants passed by!"

"what?"

Hearing such words at this time, those who saw the situation from the satellite were also shocked. After all, in their opinion, Qin Yuan and the others can be described as exhausted, if they encounter these people again. That's really dead and thorough!

At this time, Qin Yuan also felt a sense of crisis, and said directly to these people:

"Be careful, it looks like someone is coming again."

After saying this, the hearts of several people are all over.

"Grandma's, it's not over yet!"

At this time, Wang Yanbing also cursed, and then quickly walked up a small hill. Sure enough, at this moment, they saw a motorcade rushing towards this side.

Qin Yuan saw this, but took a deep breath, planning to take action even if he exposed his abilities.

After all, He Chenguang, Yang Rui and the others have completely lost their physical strength, and they don't even have a bullet. Now, Qin Yuan is the only one who can still attack!

"I see if I can divert these guys away, or get rid of them!"

At this time, Qin Yuan said directly to this person, but at this time, there was a burst of gunfire directly from a distance.

But what shocked them was that this burst of gunfire was not fired at them from this convoy, but an attack from another direction towards this convoy!

Qin Yuan was stunned. He turned his head and saw that from another hill, another group of people appeared. A burst of turbulent firepower flew directly towards the newly arrived militants!

At this time, the satellites in the sky quickly put their shots on these newly-emerged people, but after seeing the faces of these people and the weapons in their hands, many people couldn't help but get a bite. Air-conditioning.

Especially in Las Vegas, sitting on the top-floor box and watching Thomas, who Qin Yuan killed the helicopter on TV, his eyes widened!

"Where did these people come from? Why do they appear here, bastard! bastard!"

Thomas was extremely manic at this time. There were all kinds of empty wine bottles in front of him. The ashtray was also full of all kinds of cigars and cigarettes. At this time, even the people closest to Thomas were all Dare to approach him.

Because since Thomas saw Qin Yuan and killed the 200-person pursuit team, he knew that he had already lost, and he had lost everything.

This tens of billions of dollars of casinos will all lose out.

And his only chance to come back is to gamble on Qin Yuan's life and death. Now Qin Yuan has killed all those who pursued him, but if Qin Yuan dies, then he has enough excuses to prove his bet. invalid.

After all, the odds of 50 times, but there are two conditions, one is that Qin Yuan is alive, and the other is that Qin Yuan kills all the pursuers behind.

According to common sense, the chasers behind should have killed Qin Yuan, but Xu Qinyuan succeeded in making a comeback.

So Thomas could only find another way. As long as Qin Yuan died, he also had an excuse not to pay compensation, so he sent a team of his own to kill Qin Yuan at the last time, even before. He told Herley and the others the satellite address, and asked Herley to dispatch three helicopters, almost killing Qin Yuan's people But when Thomas saw Qin Yuan's control of Herley's After the three helicopters were wiped out, he could only put his last hope on a mercenary team he had photographed.

Thomas had already felt foolproof, after all, now Qin Yuan had completely run out of food, this mercenary team only needed to harvest Qin Yuan's head.

But who could have thought that at this time, another group of people appeared and stopped their own mercenary squad!

"Shit! Who is causing me trouble? I'm going to kill him!"

Thomas was uncontrollable yelling, but when the satellite video turned to him during the war, his eyes suddenly widened.

Because he saw the newly emerged team, there were a few familiar faces!

is the veiled woman who bet all the money! And beside him, it is the wild man who wants to play with him!

When I saw these people, the sweat on Thomas's head kept falling, because he knew that the people in front of him were worth hundreds of millions and billions! But they actually appeared here to fight against the elite mercenaries they sent out!

Seeing the faces of these people, Thomas suddenly lay weakly on the sofa and laughed desperately:

"Hahahaha, amazing, amazing, you are really amazing, I finally know why I lost!"

Chapter 528: Loss of merit

Thomas really had to obey. The craziest thing he did was just to sell the information once, and then dispatched mercenaries, hoping to obliterate Qin Yuan at the last moment.

But this group of people went directly to Ivia with their guns.

"You are awesome, you are really awesome, how can people like you care about money if they don't even want their lives? A force worth billions of dollars, I am convinced!"

At this time, Thomas knew that his mercenary squad would definitely not be able to complete the mission, so he opened the box on one side tremblingly. Inside the box, there was a neatly placed revolver.

Looking at this revolver, Thomas gave a sorrowful laugh again, and slowly held the handle of the gun. Then a gunshot sounded in the room, and the last Thomas' hand fell weakly to the ground.

At this time, on Ivia's side, the small team that appeared on the mountain was emitting rays of death one after another.

Since they are worth billions, the weapons in their hands are the most advanced and expensive weapons on the international arms market!

No matter what it is, it can play such high-explosive shells, armor-piercing shells, all kinds of bullets at no cost, all burst out of the beautifully manufactured barrel.

When facing these weapons, even the most elite special forces in the world must carefully weigh them. What armored vehicles and body armors are all nonsense in the face of such a rain of bullets!

So the two sides exchanged fire at first, and the person who had been the mercenary squad was completely beaten into a fool. Three of the five armored vehicles were instantly blown up. The armored bulletproof glass they bought at a large price was in front of these bullets. It's almost as if it doesn't exist.

And they haven't figured out what direction the enemy appeared from, a series of grenades and bombs suddenly flew in the air.

The size of these grenades is small, but the power is really not to be underestimated. More importantly, these weapons were invented to kill enemies better and faster, so they can go out. Not only single products, but also various All kinds of steel balls, even after the explosion, will become some smaller things, and there will be a second explosion!

These mercenaries and their threatening troops, where have you seen these things? So he didn't even scream, and he was blown into a grandson by these bombs in an instant!

And I don't know which great immortal, directly on the top of the mountain, put a Vulcan gun that claims to have the fastest fire rate in the world.

And a man wearing a western cowboy costume, wearing sunglasses on his face, let out a wild laugh, facing these unstoppable bombardments, completely shattering the last trace of resistance of these people!

In just 30 seconds, the car of this mercenary team has been completely reimbursed!

And on a hill in the distance, a chicken hand with camouflage on his face looked at the opposite eyes that he would reveal below, and there was also a trace of uncontrollable anger on his face. He immediately shot his gun. He turned his mouth and aimed at the man who was controlling the Vulcan Cannon!

But before he had time to pull the trigger, he binged, and from the other side, there was a gunshot. A 12.6 mm sniper bullet instantly penetrated the stone next to him and directly penetrated his temple!

On the other side, a sniper with camouflage on his face slowly put away his sniper rifle, and looking at the figure of the sniper, she turned out to be a woman!

In this way, this mercenary squad was completely wiped out in less than 2 minutes!

And seeing the battle here, let alone He Chenguang and the others, even Qin Yuan grew up in shock...

This is not shocked by the combat power of these people, but shocked by their luxurious equipment!

Nima! This is too rich. If they have such equipment, why have they been chased by people behind for so long?

But at this moment, Qin Yuan seemed to have seen something, his eyes suddenly brightened, and the whole person rushed forward, and He Chenguang and others also saw that there was a person in the distant team. Stumbled over here.

"I'm going, what is this guy doing?"

"That's right, looking at his running movements, he doesn't look like someone with strict military training at all!"

He Chenguang and Wang Yanbing both said in dissatisfaction, and Li Dong and Gu Shun nodded in the same way.

When Yang Rui heard this, he patted the heads of two people and said to them:

"You two eat it. I am obviously not a soldier. These people who came to rescue us must be known to Qin Yuan. Then, who do you think is this person?"

"Hey, I look at this person's figure, a bit like Miss Mu!"

But Li Erniu also laughed happily. Hearing this, the four idiots suddenly realized that, looking at the appearance of Qin Yuan and this person, they also laughed happily.

Li Erniu's guess is not bad at all, the person who is rushing towards Qin Yuan is exactly Mu Qingmei!

And the sniper in the distance is not Long Xiaoyun who claims to go to peacekeeping?

As for the one who controlled the volcano just now, is naturally Fang Xinwu!

The people who followed Fang Xinwu, although their faces were smeared with black paint and a mask, as long as they were familiar with it, they were from the Wolf Warriors team!

And Qin Yuan at this time, like a cannonball, directly poured Mu Qingmei into his arms!

At this time, Mu Qingmei also sent herself into Qin Yuan's arms. Looking at Qin Yuan's eyes, she was covered with a layer of mist, full of endless love!

Seeing the two people hugging each other tightly, everyone smiled, and then slowly clapped their hands.

Regardless of where they are, everyone applauded together, wishing that the soldier who had survived the death would finally return to his family.

But here in Abdullah, it is different.

At this time, looking at the Yan Nation soldier on the screen, Abdullah sighed for a long time. This breath was terribly long, just like Abdullah was about to take all the air in his body. Spit it out.

Basandu's voice came out from the phone:

"Abdullah, you lost, you lost completely, as you said, no one knows how things will turn out until the last minute."

Hearing such words, Abdullah closed his eyes in desperation. In this holy war, he had already used all the power he had hidden for many years, but it turned out that Qin Yuan fell short.

Chapter 529: Funeral

"you win."

Abdullah said to Basandu on the phone, and then gently pulled the handle of a grenade next to him.

"Boom!"

Hearing the voice on the phone, Abdullah also let out a sigh of relief, then said to the person next to him:

"Ivia, peace is finally over! The war is over!"

At this time, on Qin Yuan's side, there are continuous system sounds in his mind!

"Ding Dong~ The host's reputation reaches 50,000 points, and a grid is awarded!"

"Ding Dong~ The host's reputation reaches 100,000 points, and a grid is awarded!"

"Ding Dong~ The host totem technique was successfully activated and the warrior totem was obtained!"

"Warrior Totem: It can make the enemy in the host, when they see the totem, they are frightened and lose 20% of their combat ability!"

Hearing this voice at this time, Qin Yuan's eyes suddenly lit up, and his totem technique was finally completed!

After , Qin Yuan directly took the chess piece out of his pocket, then waved it and inserted it heavily into this piece of land!

While looking at this flag, everyone in the world's military bases trembled in their hearts, and suddenly an uncontrollable thought emerged in their hearts:

"This Yan countryman, absolutely must not provoke!"

Of course, there are many people who are eager to try, and want to challenge this world-famous Yan Nation soldier!

After putting down the banner, Qin Yuan also laughed loudly:

"Let's go home!"

.....

One day later, Qin Yuan finally sat on a fishing boat heading to Yan Country.

This time the incident is really too much trouble, so now Qin Yuan can't show up at all, instead he wants to hide his name.

As for the people of the Wolf Warriors team, because they have agreed to the peacekeeping mission, they cannot go home with him. Even Li Erniu and others from the Red Blood Cell Team need to perform the peacekeeping mission together.

As for Yang Rui, Li Dong and others, naturally they returned to the Jiaolong team, so Mu Qingmei was the only one who could go home with Qin Yuan.

Lying on the deck, Qin Yuan couldn't help but sighed:

"Oh, I can be regarded as a small and no small credit. Isn't this winning Yan Guo a hard-core ally? If you don't get me two or three levels, it's okay to send me a medal. Write a 50-page review book?"

But after hearing what Qin Yuan said, Mu Qingmei, who was beside Qin Yuan, gave him an angry look:

"You are so embarrassed to say that, look at what the international public opinion has become. Although many people praise you for doing well, the reputation has fallen on you, but the army of Yan Nation is I was scolded miserably. I guess General Gao Shiwei doesn't know what to say about you now."

Hearing this, Qin Yuan sighed for a long time. The public opinion this time was indeed very strange. Everyone was praising Qin Yuan as a soldier of the Yan Kingdom, but those countries caught the Yan Kingdom's sending troops to interfere with other countries. a little.

But fortunately, those foreign propaganda members of Yan Country are not eating dry food, and directly released some true or false news, saying that Yan Country did not interfere in the internal affairs of other countries, but Ivia personnel applied for it on their own initiative.

Anyway, various naval forces made the whole thing confusing.

And Basandu, who had regained the position of prime minister, also directly issued a statement, proving that this was just an internal struggle of their Ivia. Anyway, things are raging now, and it will happen for a while. It is indeed a bad ending.

However, this is a good thing for Yan Nation. After all, Yan Nation used to pursue a policy of moderation, which made many countries think that Yan Nation's soldiers were no longer good, but now they see the armed forces that make many countries helpless. Thousands of elements fell under the hands of Yan Nation soldiers, which is enough to make these people take three points of fear for Yan Nation.

It turns out that this kind-looking big man is so unexpected under his hands?

Of course, Qin Yuan has gained a lot this time, not to mention, the prestige reward alone gave Qin Yuan three squares, and the previous self-care task was even more rewarding!

And these days on the 2nd, I have been with him on the boat. There is a lot of firewood between the two people, alone and alone, and they have done a lot of things that have not been done before, so I won't describe this in detail.

It's just that these days are almost over, because the next journey will be close to the Yan Country waters, and No. 2 is about to turn around and return. After all, she will also follow the Wolf Squad on international peacekeeping missions. After all, this is one of the punishments they ran out without permission.

Seeing that the plane has been rising to pick up No. 2, Qin Yuan also felt bored for a while. At this moment, he opened his system interface, and then directly handed in the reward for the self-care task, and received it.

"The host completes the task of self-care, helps the Ivia government army guard the defense line, and rewards the grid!"

"Because the host has completely reversed the situation of the Ivia government, the qualification task is evaluated as the highest s-level, and seven grids are awarded!"

"Ding Dong, the host has successfully received 7 squares!"

At this time, I heard the system prompt Qin Yuan couldn't help but was excited. Now he has 11 squares and he has become a rich man again.

But when he was happy, Qin Yuan scratched his head a little while looking at his mobile phone, because he knew that this period of time might not be so easy.

But after thinking about it, Qin Yuan dialed that number directly.

"Hey, principal."

At this time, Qin Yuan cautiously said to the other end of the phone, to be honest, this time he did behave a bit innocently, too willful, thinking about himself, but not thinking about him doing these behaviors. What is the impact on Yan State?

As a soldier, his every move represents the image of the country.

But when Qin Yuan was ready to accept the violent storm on the other side, the same person on the other side said softly:

"This time, you worked hard."

Qin Yuan was stunned when he heard this. He didn't expect the same tone to be so gentle.

"Hey hey hey, principal, do you want to frame me back first, then grab me and slice me for research?"

"How can a person like you continue to study? To be honest, I just wanted to test your strength at the beginning, but I didn't expect you to give me such a big surprise. This is almost a fright. , But what I promised you before, I did my best. No matter what you did this time, you won't be punished."

Chapter 530: Familiar name

At this time, Qin Yuan was taken aback when he heard this. Is this a bit too abnormal? You must know that even if Gao Shiwei, who loves him the most, he will be kept in confinement for a while, writing fifty pages. As for the review book, why did it turn around here instead?

Qin Yuan was really careful now, and said to the same:

"It's okay for me to poke such a big basket, principal? I can be considered a little bit of credit anyway, so just because of this matter, I should be directly sent to the military court, right?"

"Of course not, but this period of time you really need to remain anonymous. We need time to calm your storm this time. After all, your action this time, whether for us to obtain a firm ally, and more importantly, directly changed Our entire country's foreign policy!"

"What?"

Hearing this, Xu Fan was stunned. He felt that his behavior was nothing at all. After all, even if Ivia was a small country, it was basically nothing compared to Yan Country. No, why did Yan Guo suddenly change his entire foreign policy?

"Yes, we have always followed the principle of hiding needles in Mianli before. It looks amiable, but as long as others dare to come across, they will inevitably be pricked and beaten. But recently, we have discovered that there seems to be a lot of power. Focusing on our country, so at this time, we have to be tougher and show our fists. After all, if we want to be the first, we can't be afraid of others' targeting!"

"What's more, the military is the foundation of all rights. As long as it is our gunboat and the direction our soldiers are aiming at, we can protect our property and rights. Otherwise, no matter how much we arrange outside, there is still no way to guarantee that we can get it. interest."

Hearing this, Qin Yuan's spirit was shocked, his eyes lit up, and he said to the same:

"Principal, I understand what you mean, do you mean that our country has completed the preliminary arrangements?"

"Yes, have you heard of it before? Our current new generation of communication capabilities is at the forefront. Once we seize this trend, it will be no less than the fourth industrial revolution. To preserve our achievements, our military people must show our demeanor!"

The same thing is not good, and Qin Yuan can talk more directly, but Qin Yuan also understands at one point and understands it.

Hearing this, Qin Yuan was a little bit enthusiastic. He knew that it was absolutely impossible for Yan Nation to take off by himself. He could at best provide some small thrusts and really wanted to make Yan. The country is sitting on the top of a big country, and that requires the joint efforts of countless people from Yan country.

"Okay, what do I need to do?"

Qin Yuan said to Lei Tong confidently, after all, he is now a rich man, with eleven squares, which makes Qin Yuan quite confident in everything!

"I don't plan to let you do anything at the moment, I just want you to hide it as a hidden card in our hand, but you currently have no way to return to the Southeast Military Region. We have assigned you a new identity. You can use this status first and go to the South China Sea Fleet to practice first."

When just said the same thing, there was a hint of ridicule in his tone, but when he heard this, Qin Yuan was completely dumbfounded and went to the South China Sea Fleet? And there is a new identity?

"I know that you are like an awl hidden in a bag. You can get out no matter where you are, but I only have one request, that is, you must hide your own identity and don't make anymore. The moth has come out, so it's best not to let the world's eyes stare at you, so that when we shoot, we can have an effect!"

"This....."

Qin Yuan heard this, his face was immediately full of embarrassment, wouldn't he be suffocated if he didn't let him go?

But at this moment, a voice suddenly rang out in Qin Yuan's mind:

"Ding Dong, the system releases the mission, reports to the South China Sea Fleet, hides the identity for one month, and rewards two grids."

Fuck?

Hearing this task at this time, Qin Yuan's eyes suddenly became the boss!

There is such a task?

But Qin Yuan thought about it carefully. It seemed that every time the superior released a task, the system would also release the task, so it was normal.

And since the system has already released the mission, Qin Yuan immediately said to the phone:

"Guaranteed to complete the task!"

"Huh? Ah, good!"

Hearing Qin Yuan's words, the same thing was stunned for a while. He originally felt that with Qin Yuan's character, he had to grind his lips to make Qin Yuan stay in the South China Sea Fleet honestly, but he didn't expect it. , Qin Yuan actually agreed to be so agile, making him feel a little frustrated with a punch.

But soon he reacted and said directly to Qin Yuan:

"Well, then I will send you directly to the South China Sea Fleet. Note that you must hide your identity. I will send your information."

Afterwards, the call was also hung up directly, and Qin Yuan looked at the phone, but he was a little confused. He didn't know why the system issued such a task, but if it came, it was safe. Then Qin Yuan could only go to the South China Sea Fleet first. Take a look.

But Qin Yuan thought about it carefully, the name of the South China Sea Fleet seemed a little familiar, as if he had heard it somewhere.

Such familiarity is not that Qin Yuan has heard the name of the South China Sea Fleet in the army, but is as familiar as Li Erniu and He Chenguang.

But after thinking about it for a long time, Qin Yuan didn't expect that, he simply put the matter aside, and then drank water while taking a good look at the information that Li Tong had released to him.

But when he saw these materials, his eyes suddenly widened:

"Nima? Feeding the pigs?"

At this time, Qin Yuan saw those documents and it said:

"Qin Yuan, a soldier in the cooking squad of the Iron Fist Regiment of the Southeast Military Region, later transferred to logistics and professionally fed pigs. He once won the third class, once the second class, and the first class."

All of a sudden, Qin Yuan spit out the water in his mouth:

"Nima, isn't this cheating? Who can feed the pigs so much?"

Qin Yuan weakly put all these documents down, but at this moment, he suddenly heard a loud noise in the cabin, a crew member rushed out, and Qin Yuan was He grabbed him and asked him:

"What the **** happened?"

"I don't know, we received a distress signal, it seems to be sent from a fishing boat ahead, it seems to be sent by a person named Jiang Xiaoyu!"

"Fishing boat? Jiang Xiaoyu?"

Qin Yuan suddenly slapped his thigh, he finally knew where he had heard of the South China Sea Fleet!
