

## Special Soldier 54

Chapter 54: Qin Yuan broke out

Soon after the helicopter took off!

Yan Wang smiled and leaned forward on his own initiative. He took a white pill from his pocket and handed it to Qin Yuan, "Brother Qin Yuan, this is a tranquilizer. Would you like to have one? It can make you more calm in the process of performing the task! "

tranquilizer?

Qin Yuan couldn't help but smiled and shook his head, "Hammer, I appreciate your kindness. I don't need this kind of thing."

"Oh? Is it really not necessary? No matter how good a soldier is performing a task for the first time, he will inevitably have some uncomfortable reactions!" Yan Wang smiled. Since Qin Yuan declined, he would not force him anymore. Yan Wang patted Qin Yuan on the shoulder. , Smiled and said, "If you don't mind, when you really act, you can act with us! Acting together, each other, it's good to take care of each other!"

"Okay, let's see the situation then!" Qin Yuan nodded with a smile.

He can feel it!

The reason why Hades came here is because he has some good feelings for himself!

Another one, I am afraid I am really worried about what accidents will happen to me, so I care about it in advance.

It is a good intention for Qin Yuan to be King of Hades.

"Huh, what a big air! He is a new recruit, but he has participated in an exercise. Does he really think he is the best special soldier?"

Thor was indignant upon seeing this!

of course.....

He just expresses his dissatisfaction from the bottom of his heart!

He wouldn't be stupid to say directly!

after all.

Even if he doesn't want to believe that Qin Yuan will perfectly display his strength in the first actual combat!

will not say such words directly!

And even the most powerful special forces!

It is impossible to complete a large task alone!

"Qin Yuan, Qin Yuan! If you join a brand new special team in the future, perhaps your abilities will be perfected! But now...hehe, without our cooperation! It would never be possible! Airplane, just wait for it to collapse!"

Thor contentedly thought!

This is not his careful eye!

is the real battlefield! It can never be as easy as an exercise!

after all.

In actual combat, a carelessness might cost your life!

Since Qin Yuan does not want to join the Raiden Commando!

Zhuang Yan would naturally not touch his nose again, so he would not say anything at all!

Everyone closed their eyes and rested.

Qin Yuan is also very happy!

Qin Yuan didn't care about this embarrassing atmosphere, he didn't care about it at all!

Because he knows!

The strength demonstrated by just one exercise is absolutely impossible to convince Thor and the others!

after all.

These people were originally the most apex special soldiers in the Southeastern Military Region and even in China as a whole!

Their self-confidence and strength have been proven through brilliant records!

A soldier who can become the king of soldiers, almost everyone has a heart to fight for strength!

Without this mentality, they would not be able to stand at the top of the special soldiers!

Hades, Thor, Zhuang Yan!

Every special forces king is like this!

Because without absolute confidence and strength, they would have died in the war long ago!

of course--

Qin Yuan did not intend to get recognition from Thor and the others!

after all.

Thunder, what are they?

is just a stepping stone on Qin Yuan's road to becoming the world's strongest soldier!

are all passers-by!

Pulling the brim of his hat, Qin Yuan also began to close his eyes and rejuvenate his energy!

For the relevant knowledge of this mission, Qin Yuan has long used a grid to collect the combat knowledge into the system space and completely digest it!

can be said to be unforgettable!

Qin Yuan has completely remembered the entire mission!

"Well, according to the time calculation, I am afraid it will be dark when I arrive at the mission location! Why... just act at night?"

Qin Yuan closed his eyes and began to think about some details of his actions!

After all, he has the right to act at will!

is free from any control and restriction!

Although Fan Tianlei did not give him direct orders and specific tasks, the system has already given him clear goals!

First, kill Fatty Liu, and second, rescue Enron!

Two missions, every time you complete one, you will get a system grid!

"If you are lucky at night, catch some owls! Expand your night vision capabilities!"

"The thermal imaging capability is only 1,000 meters away, and through some technical means, it can escape the detection of the thermal imaging system!"

"But the night vision ability is different! The night vision ability, but from the perspective of God, shows everything within a radius of 400 meters! According to my wishes, I can observe any place at will! This ability is simply inverse. God! It must be strengthened!"

"Of course... my fighting ability must also be strengthened! I'll see if there are any suitable animals!"

has formulated a general direction and strategy!

Qin Yuan was relaxed for a while!

As for wanting to improve fighting, rely on the right animals?

That was because Qin Yuan suddenly thought of it!

China National Art!

There are many moves!

is the result of the predecessors of the Chinese martial arts directly observing animal battles, carefully studying and comprehending!

So you can try this one!

such as monkey boxing, tiger boxing, Xingyi boxing and so on!

"I just don't know... what is the power of the boxing technique produced by the system?"

I think about this!

Qin Yuan couldn't help but look forward to it!

after all!

Other skills produced by the system!

Once shot, it is world class!

The world-class skills, looking at the world, are also the top level, almost able to beat the world!

If the fist is the same!

So...

The prestigious name of Chinese Kung Fu!

Is it possible to recast in Qin Yuan's hands? ?

thinking excitedly along the way!

Time flies!

Unconsciously, the helicopter landed in a jungle.

Qin Yuan, Thunder God, Zhuang Yan and others immediately got off the plane!

The sky outside is already dark!

Everyone present was full of glamour, eyes burning!

After all, this super rookie Qin Yuan is right in front of him!

Everyone wants to perform well in the upcoming battle!

Especially Thunder God Yama and others!

They were eliminated by Qin Yuan alone in the exercise!

Now I want to make a beautiful record!

Prove yourself with strength!

"Everyone, mission is about to begin! We must destroy the target with the momentum of thunder! Act now! The Thunder Commando is a team, and the Lone Wolf Special Operations Team is a team! Qin Yuan Free Action, everyone Any comments?"

At this time, Thor spoke.

Since they kindly invited Qin Yuan, Qin Yuan disagrees, that's his business!

"No comment!"

"No comment!"

"No comment!"

.....

Everyone nodded.

"Okay, then we will act separately according to the combat plan! Outflanking from two directions! First solve the bright and dark posts outside the target villa, and launch a general attack after 60 minutes to destroy the target in one fell swoop!"

Zhuang Yan also spoke!

"it is good!"

Everyone nodded in unison!

immediately——

With an order!

Thunder and Lightning Lone Wolf's two special war ace swiftly moved, leaving Qin Yuan standing alone!

Qin Yuan couldn't help but smiled, "This Thunder God and Zhuang Yan... are enough! But... I'm alone, just convenient for this action!"

Body shape moves!

Qin Yuan's leg strength suddenly broke out!

Ta Ta Ta!

Qin Yuan directly stepped on large holes in the ground, rushing out like a sharp arrow, leaving only an afterimage on the spot! !

an instant!

Qin Yuan rushed into the jungle from another direction!
