

## Special Soldier 55

Chapter 55: Recycle the praying mantis!

ear!

Strong wind and tiger roar!

Qin Yuan is driving fast!

"Tsk tusk, the feeling of running... just cool!"

without any restraint!

Qin Yuan is like a wild horse!

Freedom!

High spirits!

just!

Because the speed is too fast, the oncoming wind becomes like a blade!

The shaved face of Qin Yuan stings!

Without any choice!

Qin Yuan only reduced his speed slightly!

no way!

The wind resistance is too large, and Qin Yuan doesn't know how to eliminate the resistance, so naturally he can't get too fast!

My heart moved!

Qin Yuan's thermal imaging system is directly turned on!

for an instant.

Everything within a 1,000-meter radius is captured!

Thunder God Zhuang Yan, because of the different routes, have long disappeared!

In the field of vision, there is no secret whistle!

But just to be on the safe side!

Qin Yuan still turned on his powerful night vision ability!

after all.

is in the dark now!

Qin Yuan urges the universe-class night vision ability!

For a moment——

Within a radius of 400 meters, everything lights up, like daylight!

"It's really amazing!"

Qin Yuan smiled, and then speeded up!

Everything within a radius of 400 meters is as clear as daytime!

There is also a thermal imaging system that detects suspicious targets in advance!

Today's Qin Yuan is as stable as Mount Tai!

"By the way, there is one hour left! Why don't you improve your strength first!"

Qin Yuan stopped suddenly!

began to search for all creatures within a radius of 1,000 meters!

"Huh? There are two praying mantises in the nearest place?"

For an instant, Qin Yuan became interested in the praying mantis wielding a big knife!

Mantis, scientific name praying mantis, also known as knife mantis, invertebrate!

His sign is the two machetes in front of him!

"My Chinese mantis boxing is very famous! I don't know if I can get a boxing method by recycling the mantis?"

took a glance, anyway, he now has 6 squares!

It's a waste to be idle anyway!

My heart moved!

Qin Yuan directly recovered the two praying mantises to the system space with one click!

"Ding Dong~ Please choose!"

The crisp system prompt sounded suddenly!

Three brand-new options come to mind.

"1, get world-class mantis boxing!"

"2, get the world-class mantis sword technique!"

"3, get a world-class mantle arm as a car once!"

"Fuck! Not only does the mantis boxing technique, but also the mantis sword technique? There is also a mantis arm as a car once? This mantis arm as a car, what the hell?"

Qin Yuan's eyes lit up!

is very shocking at the same time!

Originally he thought there was only mantis boxing!

I didn't expect now...

There is one more mantis sword technique!

"I choose 1!"

For the sword technique?

Qin Yuan doesn't care very much!

If there is a long-range battle or a weapon battle!

Qin Yuan can solve everything with a poker or a gun!

The reason for improving fighting skills!

is to let others know that you are a practitioner when you shoot!

That's it!

after all.

Now Qin Yuan's major killer moves are all at their peak!

Almost every skill can be killed in one hit!

"Ding Dong~ Congratulations to the host for your successful choice! Get world-class mantis boxing! Become a boxing master!"

"World Class Mantis Fist: With this fist, the host can sweep all fighters below the Grandmaster level!"

"Huh? Look at all fighters below the Grandmaster level? What does this Grandmaster level mean?"

Qin Yuan looked very confused!

I thought that the introduction of the system would be able to sweep the world-class boxing masters!

I didn't expect the system to give it a fist below the master level!

"Could it be said that this grandmaster level is a world-class boxing master?"

For this brand new world!

Qin Yuan knows very little!

after all.

He only came to this world for only a few days!

Even in the army, he only knew a few people like Fan Tianlei and Thunder God Li Erniu.

I don't know what the world really looks like!

"Could it be that there are still martial arts masters in this world?"

Qin Yuan thought about it leisurely.

an instant!

Qin Yuan's mind has a lot of exquisite boxing techniques related to the mantis boxing!

A short moment!

Qin Yuan has become the most authentic mantis boxing master in the world today!

"Fuck, is this praying mantis fist so tough?"

Qin Yuan browsed at will!

is the shocking discovery of the horror and power of Mantis Fist!

"Not only is the boxing technique exquisite! The attacking moves are so fierce and domineering! This mantis boxing, just world-class, with my strong strength, is enough to sweep the world?"

Actually.

Qin Yuan lacks!

is just an attack technique!

And the introduction given by the system can sweep masters below the master level!

That's just a master in normal power state!

As the so-called one force drop ten meetings!

Even if Qin Yuan does not know the mantis boxing technique, he can explode a few thousand catties of strength, it is enough to blow a person to death!

Cooperate with subtle and domineering attack skills!

Qin Yuan's mantis boxing method can be said to be the absolute number one in the world since its inception!

"The world-class mantis boxing technique is enough! As for the mantis sword technique? No need for the time being! Why don't you look at this so-called mantis arm as a car? What the \*\*\*\* is this?"

Curiosity killed the cat!

Qin Yuan is not very interested in the Mantis Sword Technique!

But the third option, the man arm as a car, is very interesting!

"The current meaning of the mantis arm as a car is to describe a person who is overpowered! But literally, it means that the mantis raises two knives to stop the car that is about to crush!"

"Could it be said that this is what it means to be a man with a mantle arm?"

Qin Yuan couldn't help but raised his eyebrows, looked confused!

"I choose 3!"

Two praying mantises, there are two chances to choose!

"Ding Dong~ Congratulations to the host for your successful choice! Get a world-class manly arm as a car!"

"A world-class manifold arm as a car can provide the host with an opportunity to resist any vehicle with both arms!"

System introduction, understatement!

But Qin Yuan stared!

Can you block any vehicles with your arms?

Isn't this the modern version of the Manti Arm as a car?

an instant!

Qin Yuan only felt that his arms seemed to have changed slightly!

But if you observe and feel carefully, you can't see the slightest difference!

"Does this change need to be reflected when resisting vehicles?"

Qin Yuan thought leisurely!

"Forget it! I don't want this for now! Let's keep looking!"

Fighting skills!

With the mantis boxing technique, Qin Yuan no longer has any worries in the fight!

Qin Yuan walks briskly and continues to search for the items he needs!

"Huh? This is... a chameleon?"

After a few steps, Qin Yuan discovered a special creature!

Without careful observation, Qin Yuan didn't even notice it!

It's still a thermal imaging system, Qin Yuan's naked eyes only discovered this little guy's body temperature! !

"The camouflage ability of the chameleon is very powerful! I don't know if it is useful to recycle this guy?"

Qin Yuan instantly became interested in the chameleon!
