

Special Soldier 671

Chapter 671: Autobiography of the first twenty-four years

"Trial?"

Qin Yuan saw this, and his heart was slightly moved. He didn't know what this so-called trial meant, so Qin Yuan continued to read:

"Since I knew who I was, my father explained to me a concept, which is to defend my family and the country! The first sentence he taught me was to serve the country with loyalty.

In his mouth, I know that there is a small country outside, called an island country. This country has a small land area, so they can't get enough to eat or wear warmth. They are also very narrow-minded, and they don't have the dominance of being a man. .

But soon these people set their goals for us. They used ship cannons to enter our country, grab our food, and kill our people!

And my Tang family, as a famous local ancient martial artist, naturally wants to protect our country and deal with these people.

At that time, there were hundreds of powerful players in the family who wanted to fight against these people, but when dealing with these people, they found that they had a weapon called a gun in their hands. This weapon was better than a gun. It is more powerful, faster than Zhuge Liannu, and there is another weapon that can create explosions and fire.

There were 143 good players in the Tang family, but none of them survived when facing these weapons.

And from that time, my grandfather understood that they could not fight against this weapon, so they gave up revenge, but hid in this place, waiting, waiting for the opportunity for revenge!

Since that time, the Tang family has had one more trial. Only when they pass this trial, the talents of the Tang family can go out of this mountain forest!

The world is difficult and difficult to say, simple and simple, that is, it can directly crush 25 rocks in different positions under the shooting of 100 bows and arrows!

If you want to pass such a trial, you must have a stronger power than a bear, a more sensitive body than an ape, and a more alert spirit than a viper.

80 years have passed. The Tang family didn't know how many people died in this trial, nor how many people. Because of this trial, they lost their siblings and couldn't take care of themselves for the rest of their lives.

The place not far from the trial is the cemetery of the Tang family. I don't know how many young people just fell here without seeing their tomorrow.

Before they were dying, all they had in mind was one thing, which was to be able to see a peerless master belonging to their Tang family, able to get through this trial and take all their Tang family out of this jungle!

I am not the same, I am stronger than these people, so I completed their last words.

But when I smashed the last stone and completely completed the trial, there was no excitement in my heart, only a depressed cry.

I felt countless people staring at my back, and when I smashed this thick stone, I let out a hysterical laugh,

I don't know how many young talents of the Tang family were blocked by this stone. They escaped all kinds of traps and the shooting of the surrounding crossbow arrows, but their fists were not as strong as mine. No matter how they hit them, they couldn't control them. This stone was broken.

For example, my father, he was shot in the leg by a poisonous arrow because of this stone, and has never been able to stand up since then!

From that time on, I became the hero of the Tang family. Grandpa dug out the wine he had prepared for a long time. My second uncle also took out the long knife he crafted carefully, and my father made it himself. A strong bow.

And at this time, I knew that only after such trials can I escape the kind of attack called firearms and be truly qualified to stand out!

Eighty years have passed, and I don't know what the outside world is like, but no matter what, there is only one thing I have done, which is to lead our countrymen to expel the Tartars and restore the Central Plains to those who dare to insult us, Go back to their hometown!

But when I wore this carefully prepared equipment, after I went outside, I saw countless people and all kinds of tall buildings rising from the ground. My eyes were filled with puzzles, I don't know. What happened outside, so I caught someone directly and said to him:

"Are the islanders still there?"

"Nonsense, of course, but what you want to do is not want to beat people, let me tell you, this is not good, people are now called foreign guests, and they are very respected in our country!"

This person looked at me like he was seeing a neurosis, and then said something that I didn't understand.

My heart is filled with confusion, I don't know exactly what happened, but fortunately, I saw a group of people who seemed to be recruiting soldiers, and immediately rushed over.

I think no matter what happens, as long as I become a soldier, I can lead these people to the forefront and drive away all those who dare to violate our homeland!

But these recruiters are asking me for something to prove myself, which seems to be called an ID card.

But I don't have this so-called ID card at all, but I do have a certificate from my family. This is a letter with the seal of our Tang family, and there is a blood book written by my grandfather himself.

Grandpa told me that as long as he takes this letter to find a person named Lei, he can make me a soldier.

But in the eyes of my grandfather, with a trace of hesitation. Obviously he didn't know if I could find this person named Lei, but this was the only thing that proved me. Now, if this thing cannot be proved, then I can only find out the family tree!

But what makes me more angry is that they just glanced at this letter casually and threw it aside, still trying to drive me out!

Immediately, I was a little anxious and took off my shirt. Is there no way for a person like me to become a soldier?

But after they saw me, they said to me even more strangely:

"You'd better go back, now there are clear regulations in the army that people with tattoos cannot serve as soldiers!"

what?

I was even more stunned. Looking at the four words "Jing loyalty and serving the country" that my father had carved on me before I left, I didn't know what to do.

It didn't take long for a white car with flashing lanterns to rush over, and several guys in white clothes came down from above. I heard these photos of people facing these guys in white clothes. Said:

"It's this guy. He seems to be in abnormal spirit. You should catch him quickly and take a good test. If he is really mentally ill, lock him up quickly and don't let him out to harm others?"

Mental illness?

What is mental illness?

I don't understand this at all, but the group of people in white clothes rushed towards me, trying to deal with me!

Chapter 672: The truth 80 years later

According to the action guidelines of the Tang family, I only moved my hands a little and put all these people down. After all, in order to prevent these people from carrying something called guns, I must react faster than everyone else!

And I also wanted to see if I showed my abilities. Can these recruiting officers let me join the army?

But I was wrong. My actions were obviously frightening these people. I just heard a sentence, "This mental patient is very aggressive. Let us help and control him!"

Then these officers and soldiers rushed over, trying to attack me!

Although I don't know why, but I can't catch it with my hands. It's definitely not something the Tang family can do. So, after a while, there are more than 30 more moaners on the ground.

And this time, everyone around was shocked, but I was still looking at the registration record and asked directly:

"With my strength, can I be a soldier?"

This person was obviously a bit convinced by me, and then he was polite and sent me to a place called the police station...

At this time, Qin Yuan was about to laugh when he saw this place. He really did not expect that Tang Zhou, who had such a superb method, would have such an embarrassing experience. In order to be a soldier, he would directly beat someone up. , Hahaha!

However, this also aroused Qin Yuan's curiosity that he wanted to continue watching, but there was no more, there was only one USB flash drive, and Qin Yuan was a little puzzled, but he directly plugged the USB flash drive into the computer and found this There are some video materials on it.

Then Qin Yuan smiled again, and then directly opened the video.

Sure enough, this is the interrogation video of the police station!

At this time, Tang Zhou, who arrived at the police station, was obviously a little confused. He didn't even know what was going on here.

It was just that when he entered the police station, Tang Zhou suddenly smelled a scent, and he twitched his nose, and there was a roar in his stomach.

When I heard this sound, the people around were first taken aback, and then there was a roar of laughter!

At this moment, even though Tang Zhou didn't know what was happening, it was incomparably embarrassed. This blush was like a red apple, and he wanted to find a place to sew it.

But this way, it is also to alleviate some of these people's vigilance against Tang Zhou. After all, people like Tang Zhou, who can blush and get hungry, are what bad people?

At this time, a young lady directly took a boxed lunch and delivered it to Tang Zhou, and said softly to Tang Zhou:

"You are hungry too, we are here at the time of the meal. There is a boxed lunch here. You should eat something to cushion your stomach."

This young lady looked at Tang Zhou's extremely embarrassed gaze, and suddenly laughed like a silver bell again. After all, in their opinion, Tang Zhou was indeed a handsome guy, and he was still a handsome guy with a simple atmosphere, and this The handsome guy is also very good at calling. To tell the truth, if Tang Zhou is not a dangerous person, I am afraid there are already quite a few brave people who are asking for phone numbers towards Tang Zhou!

Although Tang Zhou felt that it was not good to accept other people's favors for no reason, he hadn't eaten for a full day, not to mention just knocking down dozens of people, and he needed to replenish energy.

So Tang Zhou hesitated a little bit, but took the box lunch and ate it!

With this box of lunch, the atmosphere between them eased slightly, and the three policemen began to interrogate Tang Zhou.

Although Tang Zhou was not used to the attitude of these people in questioning, but the grace of dripping water, the spring reported, the other party's young lady gave him a piece of food after all, so Tang Zhou also knew everything and could not say anything.

And when the three of them heard Tang Zhou's answer at first, they were obviously ridiculing, shaking their heads and chuckles, but after listening, they couldn't laugh anymore.

Although there are not many people who know this, in their memorial hall, they are clearly written in a few large characters. More than 80 years ago, there was a family of martial arts from the Tang family who sent more than 100 people. Family members, news about fighting against Japanese pirates...

Although the results of this struggle were extremely miserable, more than 100 members were killed, but at that time, everyone only wanted to escape, and no one dared to resist the Japanese pirates. The behavior really verifies the vitality of Yan people!

At that time, these more than 100 people, with some villagers who believed in them, used a moth to fight the fire, facing the thousands of Japanese pirates, and launched a decisive charge.

Even if they were all hit by heavy machine guns, no one backed down, no one backed down!

is a body of flesh and blood on one side, and iron and steel on the other side. Naturally, it was a one-sided massacre. But even in this case, they killed 35 Japanese pirates, causing the biggest casualties of the Japanese pirates at that time...

Among the more than one hundred people, only two rushed into the enemy's line, and these two people ' killed a total of 35 Japanese pirates, which is also a complete legend.

Even the Japanese pirates at that time were shocked by this spirit. They were amazed from the bottom of their hearts. Can the people of Yan Guo who possess this spirit be completely wiped out in a few months?

So they did not continue to move towards the land of the Tang family, but bypassed this piece of land and the family. Because in this family, they have the same powerful will as their Bushido spirit!

After , the Tang family at that time gave up everything and directly led some clansmen, hid in the deepest mountains, set up a trial that was almost impossible to crack, and closed it up.

More than 80 years have passed, this is the real martial arts genius Tang Zhou who opened the door...

At this time, looking at Tang Zhou in front of him, he heard Tang Zhou's puzzling words, and saw the calluses that Tang Zhou had trained every day in martial arts. Everyone was silent.

They really can't bear to tell the truth about the big boy in front of them.

But they knew that if they didn't tell the boy the truth, then the Tang family in the mountains would not be able to get out of the old forest in Shenzhen.

After hearing the explanations of these people, Tang Zhou stayed completely.

He did not cry when his brother was shot to death in the trial, did not cry when his father gave him the family heirloom sword, he did not cry when his grandfather was engraving on his body, but at this time, Tang Zhou's eyes were Completely red!

Chapter 673: Unstoppable bow and arrow

And the young lady who gave Tang Zhou a meal just now was also in tears. She choked and said to Tang Zhou:

"You know now, those Japanese pirates have been chased away, so what do you want to do next?"

and Tang Zhou, who wrote it, smiled, and said to the young lady:

"Of course I am going home, telling them the news, telling my people, telling them that they no longer need to hide in that deep mountain and old forest, telling them that they don't have to guard the **** trial every day, telling them that we are too late. , Can let them see the outside world, can let them really come out!"

At this time, Tang Zhou, I don't know if he was crying or laughing, but when he heard Tang Zhou's voice, even the toughest guy with a hard heart would tremble at it!

"Hahaha, it turns out it's too late. It turns out that the Japanese pirates have been beaten away long ago, and they were even able to stand up to the name of a foreign guest and show up grandiosely here. I knew this would be the case. Why did we? I have to fight! Why pay such a high price? Years! I don't know how many people died in that trial. What is the point of those who fell in the trial?"

At this time, Tang Zhou completely collapsed. He was like a child, completely limp in the arms of this young lady, crying out of breath.

At this time, Qin Yuan looked at the picture in the video, his eyes were a little red, and then he opened the third document.

And this third piece of information is obviously in a jungle with a middle-aged man in a wheelchair in front of him. At this time, after seeing the middle-aged man, Tang Zhou knelt on the ground and took it directly. After the arrived history book of the surrender of the Japanese pirates was put in the arms of this middle-aged man, it was completely softened.

And after seeing the content of the book, the middle-aged man couldn't stop shaking his hands, but he quickly reacted, looking at Tang Zhou in front of him, and said loudly:

"What are you doing? Stand up for me!"

And Tang Zhou was like a conditioned reflex. He straightened up his body, but his eyes were still a little red. Looking at the middle-aged man in front of him, Tang Zhou murmured:

"Father, the outside world has changed now, what else can we do?"

"What to do? There are so many things that can be done! Although the war is over, the enemies are still there. We must thoroughly spread the spirit of our family, and you still have to be a soldier, since Those people who can enter our country once, then they cannot be allowed to enter the second time. I want you to open your eyes in the army and see the world! See if our country is still There is a risk of being bullied!"

Yes!

At this time, Tang Zhou's answer was loud and loud, and here, the video information is completely over.

After reading these materials, Qin Yuan sighed deeply. Now he finally understands why Tang Zhou's skill is so strong, why would Tang Zhou cling to his bow and arrow?

What he is holding is not his own bow and arrow, but his own pride. Tang Zhou clearly knows how powerful the various firearms, artillery, tanks, and planes are. But the reason why he is willing to hold his bow and arrow is not Because he didn't want to change to a more powerful weapon, but wanted to prove that his efforts over the years were not in vain!

And Qin Yuan understood it from the bottom of his heart. He originally wanted to use some other methods to get Tang Zhou to throw away his bows and arrows, but now, Qin Yuan doesn't mean it!

Afterwards, Qin Yuan looked at other people's information, but these people's information was quite satisfactory. Although there were various problems, they still lie within the scope of the solution.

It's like Zhao Haixing, Zhang Yongguang, a veteran who can't use all kinds of modern weapons, which is nothing compared to Tang Zhou.

In fact, the most high-end modern weapons, let alone Zhao Haixing and Zhang Yongguang, even Jiang Xiaoyu and Xiang Yu, etc., are not used well. Qin Yuan has not seen many high-end weapons, but these are just one. A must for good soldiers.

Everyone needs training. Of course, the one who needs training most is Tang Zhou. Now we must think of a way to reverse Tang Zhou's mentality.

After all, no matter how powerful Tang Zhou's bows and arrows are, it is impossible to play a big role in the current war. After all, most of the current battles are separated by six to seven hundred meters, and Tang Zhou's bows and arrows, even if The ability to shoot six to seven hundred meters is also very limited, and Tang Zhou is unwilling to use other firearms. This is obviously a waste of important combat power!

But Qin Yuan thought for a while, still planning to put this matter behind his head, after all, they still have a certain amount of time to prepare some real weapons for these people.

As the saying goes, if you want to do good things, you must first sharpen your tools. This time the mission is nothing more. Since you want to participate in the more terrifying Hell Lightning Training School, you must increase your team strength ' to highest!

So Qin Yuan walked out directly, seeing these people outside, there was also a strange feeling in his eyes, he first hugged Tang Zhou, and said softly to the other party:

"Brother, relax, you have gone home."

And Tang Zhou was originally made a little uncomfortable by Qin Yuan's actions, but after hearing Qin Yuan's voice, he suddenly relaxed, and then gently hammered Qin Yuan's shoulder without saying anything. .

After , Qin Yuan said to Commander Zhang on the side:

"Commander Zhang, I will not participate in this submarine training for the time being. Let the comrades of the submarine lead these team members for basic training first. I have some other things to do and I will be back soon."

After hearing such words, Du Juan immediately stared at Qin Yuan and said:

"How can this work? I know you may have some knowledge about submarines, but if you have not received submarine training properly, you may have some reactions after going down to the deep sea. This kind of training is like It's the same as an allergy test, it can't be saved!"

However, Qin Yuan showed a big smile at the other party, saying nothing.

While Du Juan saw Qin Yuan's appearance and just wanted to say something, Gao Shiwei, who was on the side, said to Du Juan and Commander Zhang:

"Two, although I don't know what he is going to do, but this kid never does anything unspecified, so you still believe him."

Chapter 674: Admission ticket to the military factory

At this time, I heard Gao Shiwei's voice. Although Du Juan still wanted to say something, he whispered at the corner of his mouth, and finally closed his mouth, just looking at Qin Yuan with a weird look, obviously facing Qin Yuan. Bad intentions.

However, Commander Zhang chuckled and said to Qin Yuan:

"Then since you have other things to do, then I won't stop you. After all, I am also an elite officer, so I naturally know the priorities."

After hearing this, Qin Yuan also saluted Commander Zhang directly, then walked directly to Tang Zhou and said to him:

"Show me your bow and arrow."

When Tang Zhou heard Qin Yuan's words, he was a little strange, but he obediently handed over his weapon to the opponent. After Qin Yuan glanced at the opponent's bow and arrow, he found that this bow and arrow had no effect except for the greater strength. What's too strong, I suddenly have a bottom in my heart.

"I will take this bow and arrow first, and I will give you a better one later."

Qin Yuan said to Tang Zhou with a smile, and Tang Zhou looked at Qin Yuan, feeling that the other party was not like a person holding his own things and didn't return it. He whizzed the corner of his mouth, but he still didn't say anything.

"Oh, by the way, besides bows and arrows, do you have any other weapons that you can use?"

Qin Yuan asked Tang Zhou again, and Tang Zhou thought for a while and said to Qin Yuan:

"All knives, guns, swords and halberds can be used, if remotely, blow needles and stones..."

"Okay, I get it!"

Qin Yuan looked at this guy speechlessly, he shouldn't have any expectations...

After , Qin Yuan said to Fan Tianlei again:

"Old Fan, give me another piece of the note that you gave me last time to approve the weapons yard."

Hearing such words, Fan Tianlei's eyes suddenly became round and wide, and he said to Qin Yuan angrily:

"Are you coming? Do you know how hard I took to approve the note last time? No, no, no, no matter what, can anyone in your arsenal can enter?"

But after hearing such words, Qin Yuan really gave Fan Tianlei a weird look, and then Qin Yuan glanced again, Gao Shiwei on one side, and then smiled again at Fan Tianlei.

Sure enough, Gao Shiwei at this time directly smiled at Fan Tianlei and said:

"Oh, Tian Lei, I really didn't expect that you still have this ability, and you can get the approval note from the arsenal..."

But when he heard these words, Fan Tianlei's body trembled suddenly. Only then did he realize that he seemed to have missed his mouth!

After all, the last batch of approval slips was not obtained from the formal procedure, but Fan Tianlei found an old comrade of his own and drank it!

Although such a thing is not a big problem even if it is checked, after all, things like this kind of favor can still be rare.

Therefore, Fan Tianlei at this time, with a bitter face, said to Gao Shiwei:

"Oh, high school general, you can see that I am not for myself, but because of this kid. I don't know what the ***** is this kid. He wanted to manage a military factory, so last time I Just let him visit it."

Hearing this, Gao Shiwei's expression improved. After all, Qin Yuan wanted to run this factory. He had also heard about it. Although he didn't understand why Qin Yuan did it, he just relied on Qin Yuan. Now, it is indeed not qualified.

Although it is not qualified to run a factory, it is okay to visit someone else's military factory.

"Okay, since he wants to visit the military factory, then I will go to the superior to approve a note so that he can enter freely, and even let him go to the military factory for internship. I think it depends on his strength. Can you handle these tasks?"

Hearing Gao Shiwei's words at this time, Qin Yuan's eyes suddenly brightened, and Fan Tianlei who was on the side said to Qin Yuan with a bit of taste:

"Look at it. High school will hurt you more. I can only get you a temporary one. People can get you a permanent one! And before, I just wanted a few good guns. As a result, the high school general scolded me, saying that my team does not need too advanced weapons. Some experimental weapons are not for us at all. Qin Yuan, if you see anything this time Amazing things, but I have to come back and give us a good introduction."

After all, Fan Tianlei is also a soldier. There is no limit to the pursuit of good weapons. If Qin Yuan can really bring them some useful weapons, Fan Tianlei must be very happy!

When he heard this, Qin Yuan rolled his eyes. He was not a fool.

His pass is not official, it is also a temporary worker, but the period is longer and there is no limit to the number of times, but if Qin Yuan really sneaked out some weapons from the military factory, the nature would be different. .

But Qin Yuan can make some weapons by himself' But in this case, he would not tell Fan Tianlei.

After all, his team members still lack weapons, how can they care about Fan Tianlei!

Gao Shiwei moved quickly, and he went straight to ask the secretary to run, while Qin Yuan walked in front of the other team members and checked the weapons they needed one by one.

Afterwards, Qin Yuan clearly discovered that these people's weapons were still normal, but there was still no way to achieve the best condition, and Qin Yuan remembered the 95-style rifles that he had modified before. It seemed that he could take advantage of this opportunity. , And then change the rifle well, to really make some useful things, so as to give Gao Shiwei a long face, and by the way prove that he is not kidding about opening an army factory!

Soon, Gao Shiwei's secretary completed the documents for Qin Yuan. After that, Qin Yuan went directly to the military factory. After all, the 303 submarine may appear at any time. They may set off at any time. Must hurry up.

Soon Qin Yuan drove the jeep to the military factory, and after obtaining these documents, the personnel in the military factory also showed great enthusiasm for Qin Yuan, especially since Qin Yuan was wearing a military uniform at this time. They saw Qin Yuan's military rank. When he turned out to be a colonel, he showed great respect for Qin Yuan.

After all, although a colonel is not a particularly high position, it is still a very high rank for the people in these military factories.

So, they were very bold and took Qin Yuan directly to the production line!

Chapter 675: Qin Yuan's Super Sniper Rifle

At this time, looking at the equipment produced by the military factory, Qin Yuan's eyes suddenly couldn't help shining!

The so-called weapon is the romance of men, especially this kind of hot weapon, it is the romance in romance. Now that Qin Yuan enters this military factory, isn't it the same as a mouse falling into a rice tank?

Bullets, rifles, pistols, daggers, mines, body armor... No matter what equipment it is, these are all available!

"Comrade Colonel, if you have any needs, you can just see for yourself. If you have any requirements, please directly raise them, and we can satisfy them as much as possible."

At this time, the person in charge of the military factory was very polite. First, he took Qin Yuan to visit the factory, and finally asked Qin Yuan directly to their warehouse to let Qin Yuan see what he needed.

After all, the people in their factory are richer in these matters.

Because Qin Yuan's military rank is very high, it is said that almost all departments of the military factory are opened to Qin Yuan, and some of the newly produced military weapons have all been made to Qin Yuan.

"Ding Dong, get the task, the host gets the senior title, the master of munitions, unlock three grids!"

At this time, Qin Yuan was looking at the weapons in the warehouse, but a voice rang directly in his mind.

But this time Qin Yuan directly showed a strange expression. After all, he had been awarded the title of a master crafting master before, and now there is a master arms maker?

"Master of munitions?"

Hearing this title, Qin Yuan was immediately surprised. As the name suggests, the characteristics of this high-level title must be related to arms manufacturing.

So Qin Yuan directly asked the system:

"System, how do I need to get the senior title of this master of arms manufacturing?"

"Ding Dong, the host has obtained world-class rifle manufacturing technology, as well as world-class cold weapon manufacturing technology, world-class landmine design technology, and seven world-class weapons manufacturing skills!"

Seven...

Hearing the system prompt, Qin Yuan suddenly had a numb scalp. It seems that this title is not easy to get!

However, Qin Yuan has to get this title. After all, Qin Yuan is not here this time for a visit, but for a good look at how this military factory should be implemented, and he still has to prepare for his team members. Some equipment, since it is necessary to prepare some equipment, naturally you have to do it yourself, so it is not a waste!

And Qin Yuan also wants to be a world-class king of arms! There can be no shortcomings!

"Isn't there just 7 skills? Simple!"

At this time, Qin Yuan took a look at his system and found that these 7 grids could still be tolerated by himself, so he gritted his teeth and planned to complete this task!

Qin Yuan looked at the many weapons in this warehouse and began to choose!

At this time, Qin Yuan first saw this row of sniper rifles. Each of these sniper rifles had various models and calibers.

Although Qin Yuan knows that the most advanced sniper rifle is not produced by Yan Country, the sniper rifle produced by Yan Country is still widely acclaimed!

No one saw it anyway, so Qin Yuan had no fear, and directly put five sniper rifles into the grid!

Qin Yuan had reclaimed a sniper rifle before. At that time, he also saw the sniper rifle design skills, but at that time Qin Yuan felt it was not useful, so he chose the sniper rifle shooting method!

Now I have received the sniper rifle directly into the grid, I don't know if it will have sniper rifle design capabilities!

"Ding Dong, the host is successfully recovered, please start to choose the host!"

At this time, hearing the system prompt, Qin Yuan couldn't help but feel a little nervous.

"1, get a cosmic-level sniper rifle marksmanship! Obtained, no choice!"

"2, get world-class sniper rifle manufacturing capabilities!"

"3, get world-class sniper rifle design capabilities!"

Seeing these three options at this time, Qin Yuan suddenly smiled, and his guess was correct.

"I choose item 2 in the system."

Qin Yuan directly raised this direct gun manufacturing ability to world-class, and suddenly there were a lot more in his brain, the method of sniper rifle manufacturing,

But originally Qin Yuan wanted to choose only the second item, but when he saw the third item, he was also a little interested.

After all, Qin Yuan didn't use an advanced sniper rifle that hadn't been used before. When he was escaping Ivia before, Lei Tong gave him a super sniper rifle. This sniper rifle is probably not for sale. Qin Yuan even Seeing the hand-made traces on this sniper rifle means that this sniper rifle is non-replicable.

And this sniper rifle does not use ordinary bullets, but some special bullets. The bullets alone are worth a lot of money!

So Qin Yuan wanted to see if he could take this opportunity to create his own super sniper rifle!

So Qin Yuan did not hesitate, and continued:

"System, the third item I chose!"

"Ding Dong, the host has been selected successfully. Congratulations to the host for obtaining world-class sniper rifle design capabilities!"

At this time, following the prompt of the system, Qin Yuan's mind suddenly had many more designs that belonged to the sniper rifle!

At this time, looking at these designs'Qin Yuan's mind was as if he had eaten a great cause. He couldn't stop at all. He painted all of his designs that he could use. After finishing the assembly on a drawing, although there are no specific parts, Qin Yuan's brain is still like a cutting-edge computer design software, and quickly put together a real sniper rifle design!

At this time, looking at this design drawing, Qin Yuan couldn't help but exclaimed.

I saw that this sniper rifle was more than three meters long and looked like a silent killer.

Strong power, can make the sniper rifle get a standard range of 5 kilometers and an effective range of 10,000 meters!

This means that if Qin Yuan takes this sniper rifle, he can even kill the enemy directly from 10,000 meters away!

More importantly, the bullets of this sniper rifle can also be designed by yourself. A bullet is as long as 20 centimeters, and each has a variety of uses, such as ten times the speed of sound, super explosive bullet, super armor-piercing bullet... ...

Many techniques that can only be used on tanks are all condensed into this small sniper rifle!

This is no longer a sniper rifle, but a terrible sniper gun!

Seeing this extremely terrifying killer at this time, Qin Yuan couldn't stop his tongue!

But Qin Yuan quickly became restrained. After all, he knew that if this sniper rifle could be manufactured, he would be the only one who could display the full performance of this gun.

Chapter 676: Crazy recycling

After all, other people are not like Qin Yuan, possessing all sorts of messy abilities, not to mention, just how to shoot from 10,000 meters away is a big problem.

Many firearms have an effective range of at most 3 kilometers, and Qin Yuan's gun directly reaches 10,000 meters, but there is a very big flaw. 10,000 meters is simply not what ordinary people can imagine. !

After all, 10,000 meters, that's 10 kilometers. Even if ordinary people run, they will have to run for a long time. The pressure on the earth can change the trajectory of the times with various air humidity of 10,000 meters. If the brain calculates, even one day and one night, it may not be able to calculate these conditions that can be changed.

So once these people shoot, there is no difference between them. And this kind of sniper rifle needs to be highly accurate.

But Qin Yuan is completely different. No matter what kind of sniper rifle Qin Yuan touches, he has no problem, because he has reached the cosmic level of sniper rifle, and he does not rely on various data, but his own intuition. !

And this kind of intuition relies on the calculation and analysis results provided by the super brain of the system, so no matter how large the range of the gun in Qin Yuan's hand, Qin Yuan can fully display it!

But Qin Yuan knew that even if a full version could not be produced, a castrated version would be enough for the top snipers!

Thinking of this, Qin Yuan was full of excitement, looking forward to his military factory even more.

But at this moment, Qin Yuan quickly brought back his thoughts. After all, he came to the military factory this time not to complete the task, but to help Tang Zhou design a real bow and arrow. !

Then Qin Yuan searched for it, and found that in this warehouse, Qin Yuan actually found a military compound bow! There are also some dedicated crossbow arrows!

Qin Yuan didn't even think about it, he directly received all the bows and arrows into his grid!

"Ding Dong! System recovery is successful!"

"1, get world-class bow and arrow shooting!"

"2, get world-class bow and arrow manufacturing technology!"

"3, get world-class arrow manufacturing technology!"

Seeing these options, Qin Yuan immediately smiled, and directly selected all three options!

"System, I choose item 1..."

"System, I choose item 2..."

"System, I choose item 3..."

As Qin Yuan raised all these three options to the cosmic level, he suddenly had a lot of bow and arrow skills in his mind.

The other two are fine, but after Qin Yuan recovered the third skill, his eyes suddenly brightened!

His initial idea was to create a more powerful bow and arrow for No. 3. After all, No. 3's physical fitness is not bad. If you train well, you may be able to play a higher role!

But since obtaining the third ability, arrow creation ability, Qin Yuan suddenly slapped his thigh, he seemed to be a little sloppy!

No. 3 wants to use a bow and arrow? So no matter what kind of bow and arrow you change, it is a bow and arrow!

And there are many masters who use bows and arrows!

Although Qin Yuan is in the real world, he has only seen one of No. 3, which does not seem to be much, but Qin Yuan in the previous life is in the comics, but he saw a lot!

Like various props such as Hawkeye, Arrow, and even Master, Qin Yuan can put on No. 3!

After all, the strength of No. 3 is so strong, it will inevitably not easily go to the frontal battlefield, and can only form a small team to perform special tasks, then these tools are quite useful!

And the main function of the third option is to enable Qin Yuan to integrate some manufacturing technologies that can only be used on bullets into the arrows of the bow and arrow, and it will not add too much weight to the arrow!

If Tang Zhou is still dissatisfied like this, Qin Yuan intends to blow the opponent's head!

And Qin Yuan thought of giving him a new weapon the next time he saw Tang Zhou. With Tang Zhou's surprised and excited expression, Qin Yuan wanted to laugh!

But Qin Yuan knew that now was not the time to giggle, he decided to get the title of this master of arms manufacturing first.

After all, Qin Yuan suffered a loss last time. After receiving the senior title, he will inevitably strengthen these abilities in his title a second time. Therefore, after Qin Yuan has obtained this senior title, he can still use his own data. Change it with the drawing to get a better experience!

And Qin Yuan had already obtained the rifle design before, and this time, Qin Yuan received pistols, submachine guns, shotguns, and military items such as body armor and helmets all into the grid!

Ding Dong! Ding Dong!

At this moment, Qin Yuan's mind kept ringing this kind of sweet voice.

And this is a large arms warehouse, no matter what it is, Qin Yuan directly upgraded the manufacturing technology of these things to the cosmic level!

"Ding Dong, ' Congratulations to the host for winning the title Master of Arms Maker, unlock three grids!"

I don't know how long it took, Qin Yuan suddenly felt another voice rang in his mind, which was considered stagnant.

And Qin Yuan suddenly acquired so many advanced abilities, it also had a lot of impact on his brain, and just like before, after obtaining this high-level title, Qin Yuan's mind has also become clearer!

Hearing the system's prompt, Qin Yuan immediately smiled, slowly digesting the knowledge in his mind.

Before Qin Yuan had 11 grids, 4 were left, plus three new grids, and 7 were left.

So Qin Yuan is still not a poor man, so happy!

And just as Qin Yuan thought, after obtaining this high-level title, Qin Yuan looked down on the design of the sniper rifle and bow and arrow that Qin Yuan had previously designed, so Qin Yuan went on to make some changes.

After Qin Yuan once again integrated all his knowledge, he took out a stack of design drawings of various weapons, and finally selected a set of weapons most suitable for their team members. Then Qin Yuan took out these things. , Raised his head!

After , Qin Yuan took out all the things in the grid, put them back in their original place, and then walked out of the warehouse and said to the person in charge of the factory with a smile on his face:

"Comrade, I wonder if you have any small laboratories with advanced equipment. I want to make some special equipment."

Chapter 677: Shocked the audience

Hearing this, the person in charge of the military factory glanced at Qin Yuan a little strangely. There are indeed small laboratories in their factory, which are used to make some professional equipment.

But these small laboratories are not open to the public, and even outsiders will not know about it. How did Qin Yuan know about this?

But since Qin Yuan already knew it, they didn't intend to deny it. They just heard that Qin Yuan wanted to order equipment. The person in charge said to Qin Yuan with some embarrassment:

"Sorry, Mr. Colonel, if you want to make some advanced equipment, you need to pre-book it with us. After all, our main business is to make ordinary weapons, and those who are qualified to know these advanced equipment are all masters. , These masters are older, their energy is not as vigorous as before, and the working hours are very short every day, and our masters have other things to do, there is no way to help you."

This person in charge is not embarrassing Qin Yuan, after all, what he said is true.

In some factories, teachers with real skills are not very respected. Especially in their military factories, some masters can even make a perfect bullet with their hands instead of polishing them. This is A very rare ability.

And these masters have very deep experience, so no matter what kind of strange design, as long as they look at it, they can see whether the design is in compliance or not.

When Qin Yuan heard this, Qin Yuan smiled. It was the same situation the last time he came, but the last time, he was sneaky, made a few dragon pecking cones for himself and ran away, but this It was different once, after all, he came in with a serious certificate and could stay for a long time!

"It's okay, you only need to provide me with some venues and materials, and I can do it myself! Of course, there are some materials that I need may be trickier. Maybe you need to help me purchase them, but you can rest assured that these materials will be my own Paid."

The person in charge immediately opened his eyes when he heard these words. He directly shaved off the payment words behind him and looked at Qin Yuan in shock.

Do it yourself?

The person in charge saw Qin Yuan's extremely young appearance, and shook his head, feeling extremely absurd from the bottom of his heart.

Although Qin Yuan has become a colonel at a young age, the person in charge thinks that Qin Yuan'er is still joking. After all, making weapons and using weapons are completely different concepts, separated like a mountain, even if you know weapons How it is used and manufactured does not mean you know how the weapon is designed!

At this time, Qin Yuan'er saw the person in charge's suspicious expression, and was also a little bit bitter, and said directly to the person in charge:

"Believe me, okay, even if I don't make the weapon I want, I won't damage your things. You can watch it outside. If there is an accident, you can stop at any time."

After hearing such words, the person in charge felt that there was no way. After all, Qin Yuan's credentials were still quite high-authorized, so he shook his head and took Qin Yuan directly to a small laboratory.

At this time, Qin Yuan saw the things here, and his eyes lit up. This was much better than the little blacksmith's shop that could only strike iron when he made dragon pecking cones last time!

At least all kinds of machine tools and the like, everything!

Seeing the excited look of Qin Yuan, the person in charge's face was not only without surprise, but a trace of disbelief appeared.

After all, he has seen Qin Yuan's excited appearance, and he feels that Qin Yuan now is like a newcomer, and he is very excited to see these things.

This makes his heart very unfounded, and he has even begun to doubt whether Qin Yuan will use these machines in the end.

You must know that these things are still very dangerous. Every year, many workers get their fingers pressed!

And Qin Yuan is a colonel, if he loses a finger because of his work food, then his sin is too great!

Therefore, the person in charge can only pull a master and stand outside the door and look at Qin Yuan. If Qin Yuan gets into trouble, he will just pull out the switch!

And the teacher who was brought was also full of dissatisfaction. After all, they looked like this kind of character. They were not rare when they were young, and they were not able to still love to play, which delayed their work.

But when the master saw Qin Yuan's movements, his eyes widened in fright.

Because Qin Yuan's movements are so skillful, he is like a master who has worked for decades!

And Qin Yuan is like engraving the design drawings in his head, he doesn't need to look at the drawings at all, he does it casually, and the amount of everything is extremely accurate, even without any mistakes.

You need to know that even if you are a master, when he does something for the first time, he will still have a certain failure rate, but Qin Yuan did it in one go!

This is already surprising enough, but after a while, this person looked at the thing in Qin Yuan's hand and shouted directly:

"I go!"

The staff of this military factory are almost scared out of their eyes!

A master craftsman who can be very proficient in the manufacture of one weapon' who can be proficient in two kinds of weapons, that is an incredible top master!

But this person is different, rifle pistol, body armor! He even made a lot of high-explosive landmines, all in one go! Not even a failed product!

is not only that there are no failures, but the speed is surprisingly fast!

More importantly, this kid has a kind of leeway like a cat and a cow. When he puts the medicine, he doesn't take a shot, and he doesn't seem to be afraid that the gunpowder in his hand will explode!

The situation here quickly aroused the onlookers of other staff!

"This technique, oh, it's really amazing, the waves behind the Yangtze River push the waves forward! Why can't I think of a way like this!"

"No, did you find out? The rifle made by this man seems to have been made by us, and I have never seen this type of rifle on the market!"

"No way, is it redesigned by him, and even the shape is different?"

"The fact is different, you didn't see it, this is our 9.5 rifle, but it has been modified a bit. Let me go, can I add an electronic rangefinder to this rifle?"

And seeing these people startled, a teacher who seemed to be at least eighty years old said to these people a little bit angry:

"Okay, look at you, these one by one, are shocked, you have never seen a good thing in your life? Isn't it just a rifle, if you don't count the cost, who can't get a good thing!"

Chapter 678: The shock of the military factory

"Old Deng, you are here, but this little master is indeed different. Come and see!"

And after hearing this, Deng also squinted his eyes. Although he was old and no longer able to use his hands, his eyes were still extremely vicious.

But at this look, Deng's eyes widened directly!

I go?

At this time, Deng Lao couldn't stop screaming:

"This...this technique, isn't it lost?"

At this time, Deng Lao no longer had the arrogance and calmness he had before, but went directly in front of the glass and watched Qin Yuan's operation carefully!

"It can't be wrong, it's just that kind of technique, my god, I can see this kind of technique again as long as I'm here!"

At this time, Qin Yuan simply couldn't hear the voices of those outside. After all, the soundproofing effect in the laboratory was very good, but he saw the look of these people in such anxious surprise, and a smile appeared on his mouth.

After all, he had learned a lot about forging skills in order to forge the dragon pecking cone before, and the skills in the system were all refined. It is completely not a problem to crush these masters. !

At this time, Mr. Deng directly caught the person in charge and said to him:

"Xiao Zhao, this is a talent. No matter what you think of, you must keep him. There are not many young people like this!"

At this time, I heard the voice of Deng Lao. The person in charge surnamed Zhao was also dumbfounded. He directly said to Deng Lao:

"Old Deng, people came here to do experiments, not to work here, and you can see that his military rank is higher than the two of us combined. How can we let people work here?"

At this time, the person in charge looked at Qin Yuan with a trace of admiration and sigh. After all, when he first saw Qin Yuan, he felt that Qin Yuan was too young, and his rank was still a colonel. , Such a young colonel, he thought he was a second-generation army leaning on his family, and now it seems that there are still capable people in the country!

At this time, looking at Qin Yuan's extremely skillful technique, the people in the military factory wanted Qin Yuan to stay, but looking at Qin Yuan's military rank, did they dare to speak.

With the help of materials in the laboratory, Qin Yuan directly manufactured Tang Zhou's bows and arrows, and even equipped Tang Zhou with an arrow maker. It was a foolish operation. As long as the materials were prepared, he could instill explosives into the arrows. Just hit it, and then the arrow becomes an explosive arrow!

And Qin Yuan not only completed these, but also designed all other things. There were four or five kinds of arrows alone, which was not too far from Qin Yuan's own sniper rifle.

At this time, the craftsmen saw Qin Yuan's operation, but they were completely speechless. After all, when Qin Yuaner made other weapons before, they could still stand on a high place and sigh, but now Qin Yuan They started to do these sophisticated things, but they understood the gap between the two generations!

People like them are good at making these old-fashioned weapons, but now Qin Yuan uses this kind of automatic instillation quiver, super high-speed warhead, even lasers and other things have been made, they understand Qin Yuan's ability I am afraid it is much better than them!

"This....."

Now he didn't dare to say anything to even the most picky people. After all, they were just thinking about using this laboratory to experiment with some messy things such as new ammunition, but now it seems that Qin Yuan is very Obviously not on the same level as them!

Qin Yuan simply made it here. After all, if he wants to achieve the perfect state in his heart, the tools here are not enough. Next, he can only complete these super weapons in the advanced laboratory.

But this is enough now. After all, weapons and equipment are not good at one step. If dependence is formed, it will be over!

Of course, they are going to fight soon, so giving them a weapon of sixty to seventy is enough!

is only six or seventy points in Qin Yuan's eyes, in the eyes of others, it is already a very good weapon!

And Qin Yuan also took this opportunity to help Jiang Xiaoyu and others to create a set of equipment, which is the Type 95 rifle that Qin Yuan built by himself before, and now Qin Yuan has one set for everyone!

has been busy for a long time, from daytime to nightfall, Qin Yuan has finished making everything.

And he saw that there were already three floors inside and three floors outside, full of people.

At this time, Qin Yuan walked out directly and said to the person in charge outside:

"I'm really sorry, it took you too long. You should be off work now?"

"It's okay, it doesn't matter, if you are willing, then continue to come, we can all wait!"

At this time, the person in charge said with bright eyes, after all, Qin Yuan's operations were all in their eyes. Although they didn't understand some technologies, they could understand quite a lot. The master also has two brushes. Although it is impossible to fully learn ' but by analogy, he has a deep impression on the weapons he made.

Some people even recorded Qin Yuan's movements directly, planning to play them back and watch them until they all learned it!

In fact, Qin Yuan also discovered one point, but he didn't care. After all, the techniques displayed now can only be regarded as fur. These things can only be regarded as basic knowledge for real high-precision weapons, even if these people have learned it. nothing much.

Then Qin Yuan entrusted the people in the military factory to send these things to the training ground. Today he is considered tired for a long time. Although not tired, his heart is very tired. He plans to take this opportunity to take a rest. a bit.

Qin Yuan originally planned to give these people a little hard work, but when these people saw Qin Yuan, they seemed to see a god, so they agreed without saying a word!

caused Qin Yuan to be confused. After hearing those people's comments, Qin Yuan understood and couldn't help but shook his head.

After all, the people in these military factories are taking a big advantage. Don't just give out these things. Even if you ask them to spend money to ask Qin Yuan to teach, they are very willing!

Other things are fine, but the super sniper rifle that Qin Yuan prepared for himself, and the super bow and arrow prepared for Tang Zhou, Qin Yuan carried it with him.

After all, these two weapons can be regarded as murderous. Even if there is any loss in the other weapons, Qin Yuan can easily produce them, and because these things are too complicated, Qin Yuan really doesn't want to repeat the work.

Chapter 679: The stubbornness of the older generation

It's just that Qin Yuan hadn't left the house yet, an old man approached Qin Yuan with a smile, and said to Qin Yuan with a full smile:

"Boy, your craftsmanship is good!"

And Qin Yuan looked at this old man, his brows were slightly raised, and the one who was the most delighted when I saw outside just now was this old man.

"Master, what do you want to do?"

Qin Yuan looked at each other in confusion. He and the other party didn't know him, and he didn't know what the other party was doing to stop him.

And this old man is naturally Old Deng. He looked at Qin Yuan's appearance, but he laughed and said to Qin Yuan:

"In fact, it's not a big deal, just to thank you, what we did just now is a bit too much, if you don't want to, then I will go back, no matter what you say, I will not leave those things. "

Yep?

Qin Yuan heard this, but a question mark popped up. What do you mean? Qin Yuan can understand every word of these words, but when combined, it is a bit incomprehensible?

So Qin Yuan waved his hand directly and said helplessly:

"Master, if you have something, just say it directly. I really can't guess this kind of dumb riddles!"

And Deng Lao saw Qin Yuan's appearance, but he said in a tangled manner:

"It's the previous videos..."

At this time, Mr. Deng couldn't help but not entangled. After all, he was also an old man in this line. Naturally, he knew how scary the skills Qin Yuan had shown before, and how precious these videos are to them!

But Qin Yuan doesn't have to say, they are old men who have to face, although they know that these techniques are very powerful, but they really steal the teacher without saying a word. It's better now. Putting it in the past, they have to dig. Eyes!

So Deng struggled for a while, and he stood up and asked Qin Yuan. He had already made plans in his heart. If Qin Yuan really disagrees, then even if he had a direct fallout with the people in the factory, that would be the case. To destroy these things!

"Lady, I am convinced of your old skills, but your skills are also passed on from home. If we people learn it secretly, then we are shameless. Just look at it and dare to be direct. Video, these people are becoming less and less effective, so I'm here to ask you if you'd like to keep these things, if you want, what do you want, as long as the old man can afford it, I will give it to you. Get it together."

At this time, Deng Laoman said to Qin Yuan solemnly. His words were not full, he just said that he did his best, not that the factory did his best. After all, the factory belongs to the country, and he does not have this qualification.

However, Qin Yuan also understands that if he is too full of words, it means that the old man will really execute it. If Qin Yuan says it will cost a few million, the old man in front of him will probably really collect the money. Qi, and then learn the techniques in the video.

This kind of stubbornness belonging to the older generation of craftsmen, Qin Yuan found it funny and sad, so he shook his head directly and said to this old Deng:

"Oh, that's okay. No wonder you looked at me so strange when I came out before. I know the video recording. If I don't want you to see it, I put this laboratory on file at that time. If you are willing to learn these technologies, you can learn them as you please."

But when he heard this, Deng Lao was reluctant, and stared directly at Qin Yuan:

"Smelly boy, don't you feel bad for selling Ye Tian? These techniques have been lost for so many years. Now you can take out one of them and they will be able to calm people. You just gave it to us. Don't your family get angry!?"

Qin Yuan's face was even more embarrassed, and he took a long breath and said directly to Deng Lao:

"Master, then I will tell the truth. Those technologies are not important to me. I am a soldier and do not expect these technologies to be heirs. Moreover, I came out of an orphanage. Money, but it does give us a lot of subsidies, and these things are for the country, not for you, take a step back, even if these things are spread all over the street, then I don't care, technology is Planting things, following the times, you have learned these things, and you may be able to make better things, sir, now is different from the past, always guarding the bottom of your coffin, it is useless!"

Qin Yuan also understands the stubbornness of the older generation, but he is worried that these techniques cannot be spread out, so he is not afraid of being learned by others!

After saying this, Qin Yuan turned around and left, and Deng Lao looked a little ugly when he heard Qin Yuan's words. He just wanted to say something, opened his mouth, but closed it again.

After Qin Yuan left, the person in charge rushed over and asked Deng Lao cautiously:

"Old Deng, did that kid agree?"

"Huh, it's not promising! You think I don't know what you are thinking about. The video has already been copied. If people disagree, you will learn it secretly, right?"

Old Deng snorted coldly, and when he heard this, the person in charge also looked embarrassed. After all, he did intend to do so.

But Deng Lao looked at Qin Yuan's leaving back, but said lightly:

"Okay, people do things with great vigor, agreed, and also, back to organize some young people who are learning fast, let them come to me to learn something."

"That's great!"

At this time, the person in charge suddenly hammered his thigh, but when he heard what Deng said, he was taken aback, looked at the other person with disbelief, and stammered:

"Old Deng...you...are you going to accept apprentices?"

"Humph!"

At this time, Deng Lao didn't say anything, just thinking about those words of Qin Yuan, and sighed in his heart:

The posterity is awesome!

And Qin Yuan certainly didn't know what happened later, he just did a small thing.

At this time, Qin Yuan drove the car and drove directly into the city, found a place to take a bath and massage, and took a good bath. Today, he is very tired. Although he made these things, it doesn't matter to Qin Yuan. Difficulty, but these things are too complicated and require a lot of energy.

So Qin Yuan plans to take a good rest this time. He hasn't finished those things yet, and it will take a few days to make a finished product.

But at this moment, Qin Yuan didn't notice. He had just parked the car in the parking lot, and there was a person in the distance, and he picked up a phone and sent a message.

Chapter 680 Sudden Task

"Hoo~ comfortable!"

At this time, Qin Yuan took a good bath, and even asked the young lady to give him a good massage, although when the young lady saw Qin Yuan's body, her eyes lit up, her body became soft, and she directly gave Qin directly Yuan winked and leaned forward abruptly, but Qin Yuan directly refused.

After all, he is here to rest this time, but he doesn't want to shoot.

After the massage, Qin Yuan looked at the busy traffic outside, and felt a little sigh. He has been performing tasks all these hours, and it seems that he doesn't have much time to stroll around the city.

But when Qin Yuan was about to go out, his mobile phone rang suddenly, and when he glanced at the number, Qin Yuan said helplessly:

"Golden Eagle, what's the matter, I came out to relax a little bit, and you found out. Don't worry, I didn't do anything illegal or criminal!"

"Relax? What's the thing? Okay, tell me where you are, not close to the station. Suddenly a violent incident occurred at the East Metro Station. A man was taking a hostage with a knife. A member of the special police team was rushing over there. Well, but their snipers have gone to study, and there are no personnel to perform the task. What is your current state, can you pass?"

At this time, Fan Tianlei said to Qin Yuan seriously, they had already returned to the base, but they suddenly heard such a thing.

Originally, this matter did not belong to Fan Tianlei's jurisdiction, but the garrison captain in City S was also Fan Tianlei's comrade-in-arms. This time he was in trouble, and that was the thought of asking Fan Tianlei for help!

After all, Fan Tianlei is the well-known Chief of Staff of the Spike Base. There must be a lot of such elite snipers.

After hearing such words, Qin Yuan also frowned, glanced at the map, and then said to the phone:

"The east subway station of s city? Okay, I'll go there."

"Okay, I will post this news! How long will you be there?"

"three minutes!"

Qin Yuan hung up the phone directly, then, wearing the big pants and slippers in the store, with his own sniper rifle, he walked straight down.

Although he was on vacation, it is natural for Qin Yuan to have such a thing happen!

While on the other side at this time, Fan Tianlei also called his old friend:

"Old Shen, I have sent someone over, you can rest assured!"

On the side of the subway station, a middle-aged man in uniform also breathed a sigh of relief and said to the phone:

"That's great, Lao Fan, I really want to thank you this time. After all, we haven't seen such a vicious incident for a long time here. If one fails, it will cause a big problem, although I have a backup sniper. , But he doesn't have the confidence to trouble you this time, but are you sure that the sniper you sent will work?"

This person is Shen Zhenghua, the captain of the security squadron of City S. At this time, he looked at the subway station with a worried look. After all, this vicious incident occurred in the crowd, and there is no way to block the news, in case something goes wrong. Question, then he is a sinner!

But after experiencing this kind of thing, he also made up his mind, and he must take care of these people under him!

"Don't worry, what I have prepared for you is the best in my hands! Delay for a while, he will be there in two minutes!"

Fan Tianlei spoke to Shen Zhenghua confidently, and when Shen Zhenghua heard this, he also took a deep breath, feeling a bottom.

He said to his men on this side:

"Attention, the sniper will be there in two minutes, so I must hold it!"

Although Shen Zhenghua is a little curious, why Fan Tianlei said that this sniper can be there in two minutes, but he knows that Fan Tianlei is not a sniper, and he is full of confidence in this sniper!

After a minute, Shen Zhenghua suddenly heard the roar of a jeep, and then he saw a man, holding a handful of parcels, rushed to him, and said to him:

"Report, Sniper Qin Yuan of the Southeast Military Region, report to you!"

After Shen Zhenghua heard this, he was taken aback. He did not expect Qin Yuan to be so fast, but when he saw the clothes Qin Yuan was wearing, he was really stunned and said to Qin Yuan in shock. :

"You... why did you come here wearing this suit?"

And the people around looked at Qin Yuan in amazement. After all, Qin Yuan was wearing a small sandal and big pants, so he didn't look like a soldier!

And Qin Yuan was also a little helpless. After all, the sooner this matter came, the better, so he didn't change clothes at all, and came over with something, but he still said to Shen Zhenghua:

"Report, after the matter is resolved, I will explain to you!"

"No! Can you do it? We need to be a professional person!"

At this time, the person standing next to Shen Zhenghua couldn't stand it anymore, and directly yelled at Qin Yuan. After all, their rescue this time was very difficult. If an ordinary sniper could complete it, Shen Zhenghua would not look like outside. Help!

And Qin Yuan'er glanced at this person, frowned slightly ' and said to Shen Zhenghua:

"Chief, isn't this also a sniper, why do you even call me over?"

And Shen Zhenghua was filled with helplessness when he heard this, and said directly to Qin Yuan:

"This mission is indeed more complicated. The person on the opposite side is extremely cruel and has a wealth of experience, and he seems to know how to avoid snipers outside. He has always been hiding behind the hostages in the shooting corner. The current sniper plan is Hit the opponent's arm directly, then penetrate the damage, and then the second sniper will complete the next blow. It's not that we lack a sniper who can excite the first bullet, this is the call for someone to come over!"

Hearing such words, Qin Yuan also nodded, roughly understanding what was going on, so he directly said to the sniper on the side:

"Okay, I will fire the first bullet in a while, you can directly fire the second bullet depending on the situation!"

After finished speaking, Qin Yuan stopped paying attention to these people, and went directly to the predetermined place!

After arriving in the hall, Qin Yuan also heard a roar. At this time, a man was holding a dagger in his hand, holding two women behind him, and the man's emotions were already very violent, and the woman's neck had been scratched. There was a blood line!

"Get off! You all get out! Give me a car! I'm going to leave here, I know you have snipers, but if you dare to shoot, I will definitely cut this woman's neck away!"

The man snarled frantically, and the police officers around were extremely anxious!
