

Special Soldier 68

Chapter 68: World-class spider induction!

Black widow spider is a medium-sized spider, the scientific name of the arachnidae, belongs to the arachnidae and the genus arachnida. Its venom is highly toxic and is one of the most poisonous insects in the world!

Qin Yuan couldn't help but his eyes brightened!

"It stands to reason that creatures like rattlesnakes and black widows should be creatures that only exist in foreign countries! Why now...I can even meet black widows? Is this a coincidence after getting the system?"

In fact, Qin Yuan thought about this issue when he first discovered the rattlesnake!

Qin Yuan is puzzling!

But a great celebrity once said that it makes sense to exist!

So Qin Yuan didn't struggle too much!

but now--

I did not expect to find a black widow!

Qin Yuan couldn't help but doubt again!

just...

There is no way to doubt!

"This is fate!"

Qin Yuan smiled, came to the black widow, shot like lightning, grabbed the black widow and threw it into his pocket!

Then my heart moved!

One-click to recover the black widow to the system space!

"Ding Dong~ Please choose!"

The crisp system prompt rang!

"Huh? Great God Qin Yuan, what did you just pick up? Can you show me it?"

Little Bee got out of the car for the second time, and saw Qin Yuan picking up something from the ground, and immediately asked curiously.

"What good things did you pick up?"

Hades also smiled, and came over.

"It's nothing, just a small stone."

Qin Yuan smiled, and then walked to the office with everyone.

while walking.

Qin Yuan put his gaze on the virtual screen.

in front of my eyes!

Three choices are emerging!

"1, get world-class spider induction!"

"2, get a world-class spider silk launcher!"

"3, get world-class black widow venom!"

"Fuck! Three options! Each one is extremely precious!"

Qin Yuan's eyes lit up!

The whole person couldn't help but get excited!

After this battle!

Qin Yuan discovered his many weaknesses again!

For example, in the channel, the instant acceleration is not fast enough!

The fast turning speed is not fast enough!

This can be understood as an instantaneous acceleration!

If the instantaneous burst speed can be increased, then Qin Yuan's speed will become even more amazing!

Furthermore, Qin Yuan could not feel the danger that was about to happen!

is like an explosion in the tunnel!

If Qin Yuan is not lucky enough!

Qin Yuan might have been bombed to death long ago!

but now.....

Qin Yuan looked at the first option!

Spider induction!

can't help but get excited!

"I choose 1!"

without hesitation!

Qin Yuan made the choice directly!

Three options!

are very powerful!

But now Qin Yuan's attack methods are sufficient for the time being!

Relatively speaking, life-saving methods are few and pitiful. This spider induction can be used as a major life-saving method for Qin Yuan.

"I don't know what abilities this spider induction can bring to me?"

At this moment, Qin Yuan is looking forward to it!

"Ding Dong~ Congratulations to the host for choosing successfully! Get world-class spider induction!"

"World-class spider sensing: It can be said that the host provides danger perception within a radius of 100 meters!"

The crisp system reminder sounds!

Qin Yuan couldn't help but his eyes widened!

Danger perception within a radius of 100 meters? ? ?

This is too tough, right?

for an instant.

Qin Yuan only felt a subtle change in his head and around his body!

Qin Yuan couldn't help but close his eyes.

an instant!

A brand new picture emerged in Qin Yuan's mind!

This picture is quiet and peaceful, as calm as a calm lake!

"Is this the picture without danger?"

Qin Yuan opened his eyes!

He can feel it!

This is a screen specially released by the system to distinguish it from other abilities. This screen means that there is no danger!

When a real danger occurs, the system will prompt an emergency!

"Tsk tusk, with this ability, no matter how big the world is, Longtan and Tiger's Den, the sea of swords, mountains and fires, I can go!"

Qin Yuan smiled, only to feel his pride at this moment!

after all.

has the ability to predict danger!

can predict in advance whether there is danger!

Qin Yuan can naturally perform some more dangerous tasks, or directly enter some dangerous areas!

"Of course, this 100-meter range is still a bit small!"

"If you can catch 5 black widows, or 10 black widows! Raise this danger perception ability to a huge range! Then, isn't Lao Tzu invincible?"

The more Qin Yuan thinks about it, the more excited he gets!

"It's just that this black widow is not easy to find!"

My heart moved!

Qin Yuan opened a powerful thermal imaging capability!

instantly lock the black widow's body temperature and search it!

However——

Within 1,000 meters, there is no second black widow!

Qin Yuan raised his eyebrows, "You don't really want to go abroad to find a black widow, right?"

Qin Yuan couldn't help but curl his lips!

no way!

Black Widow seems really hard to find!

"Great God Qin Yuan is coming! This time I successfully completed another task! Let's have a meal tonight!"

Seeing Qin Yuan's slow pace, the old fox returned from the front, smiling to Qin Yuan.

Qin Yuan couldn't help but smiled, "Old fox, you have a mouthful of Qin Yuan, you feel comfortable, I feel embarrassed, I will call me Qin Yuan from now on, just call me Qin Yuan."

"Call the supreme name directly? How can this be done?" When the old fox heard this, he suddenly curled his lips and frowned in opposition, "No matter how bad it is, I will call you supreme!"

"Supreme?" Qin Yuan couldn't help being even more speechless.

This is just a code name!

If you call it okay when you perform a task, but it's also called Supreme?

This makes Qin Yuan feel that it is better to be called the Great God Qin Yuan!

"Yes, old foxes, we are soldiers, we can't do anything wrong! Just call it the Supreme!"

Hear, smiled suddenly and agreed.

"Well, we will call the Great God Qin Yuan Supreme!"

Little Bee also smiled.

"Master, let's go! The food is already ready! Let's have a drink tonight!"

Thor came over at this time, he laughed freely.

Everyone had a good time listening to it!

immediately expressed their agreement! All of them are refreshed!

Drinking, this is a delightful thing!

When special forces are training, they are more cruel than ordinary forces!

But correspondingly, their free time is more relaxed than that of ordinary troops, and they have more time and are not more restricted!

just like now--

Just a word from Thor, they can have a drink!

Own canteen of the training base!

At the table, the chef has already prepared a table of delicious dishes!

Apart from anything else, Raytheon brought 10 cases of beer directly! Share it among everyone!

"Liquid grenade, one person, one box! Not enough to move! Tonight, to celebrate the special warfare supreme came to our Thunder Commando training base to participate, let's not get drunk!"

On the wine table, Thor is full of pride! He raised a bottle of beer, grumbled, and drank it straight away!

Qin Yuan was dumbfounded!

This Thor...

Is it so powerful? ?

Just a bottle of beer?

Qin Yuan said that he is a good baby and has never drunk much alcohol!
