

## Special Soldier 681

### Chapter 681: Qin Yuan's Gift

But Qin Yuan seemed to have not heard these words at all, but after reaching his position, he took out his sniper rifle and quickly assembled it.

But at this moment, Qin Yuan suddenly heard a voice in his mind:

"Ding Dong, the system will post tasks, kill the prisoner, save the hostage, and reward a grid!"

When Qin Yuan heard this, he was taken aback. If he wanted him to kill the prisoner, then the plan might have changed a little!

At this moment, the sniper climbed directly to Qin Yuan's side, glanced at Qin Yuan's costume and spear, gritted his teeth and said:

"Can you do it? If it doesn't work, let me do the first shot!"

After hearing such words, Qin Yuan smiled slightly and said faintly:

"If you can do it, then I won't be here this time. Do what you should do. If it doesn't do, then let it go. I can do it alone."

When the sniper heard this, he was furious to death, but at this time, a voice came from their headsets:

"Is the sniper team ready? Our negotiators are almost unable to hold on!"

At this time, both the sniper and Qin Yuan saw that the prisoner holding the hostages seemed to be unable to restrain this pressure. The dagger in his hand was waving outside, and Qin Yuan directly agreed:

"Get ready, take the opportunity and shoot!"

And the sniper quickly aimed at the prisoner, but at this position, all he could see was a small piece of the prisoner's neck, and hitting the neck, even if it hit the aorta, could not kill people instantly. , There will be a few seconds of activity time, and at this time, the prisoner may directly hurt the hostage!

The sniper glanced at Qin Yuan and found that Qin Yuan's face was still full of confidence, but he knew that Qin Yuan's position, like him, still couldn't see the other side's vitals!

At this time the prisoner had completely collapsed, and said loudly:

"You all quit, quit, is my car ready, take me out quickly!"

The negotiator standing in front of the prisoner also said with an ugly expression:

"Okay, don't get excited, we are ready, now you stick to the wall and come slowly, as long as you don't hurt the hostage in your hand, everything is easy to say!"

But this prisoner sneered: "It's impossible, you lie to me, I know what kind of person you are! You are all lie to me!"

Then the prisoner seemed to give up on himself, and raised his dagger slightly, just to wipe it towards the woman's neck!

Everyone is terrified at this time, seeing this woman is about to be killed!

嘭!

Suddenly, there was a gunshot, and a bullet hit the prisoner's wrist directly. The prisoner was taken aback first, because the bullet hit him, but he didn't even interrupt his wrist!

But soon he reacted, his face was full of fierceness, and he wanted to rip the woman's throat directly. But at this time, there was a bang, and the second shot. This bullet was actually real, directly. It hit the inmate's eyebrows exposed from excitement and died instantly!

At this time, the sniper looked at Qin Yuan with shock, and the sniper rifle in Qin Yuan's hand, with a face full of bewilderment!

According to the normal operation, Qin Yuan should have shot the first shot, and he shot the second shot, but he was not ready just now, Qin Yuan's first shot was fired, and he hadn't aimed yet. He was snatched away by the person in front of him in an instant, and then shot and killed the prisoner instantly!

There is not even a second interval in it!

"you you!"

At this time the sniper looked at Qin Yuan in shock, he really didn't know what to say!

"Okay, you were in the wrong state just now. The second shot will definitely not hit. I didn't pay attention to hitting you at all. I told you already. If it doesn't work, let me come directly."

Qin Yuan said to the sniper with a full smile, but the sniper had an ugly face and said nothing.

Although Qin Yuan's actions just now were very dangerous, he knew that Qin Yuan's abilities were stronger than him, and much stronger!

And Qin Yuan glanced at the person in front of him, did not say anything, he had already heard the voice in his mind:

"Ding Dong, the host will be rewarded with a grid for completing the task!"

Qin Yuan is in a good mood, after all, this task is not difficult, it is a waste of grid!

But the follow-up is a bit troublesome. Qin Yuan directly grabbed the gun just now, and it might not be a good explanation.

But it's not too difficult. Anyway, he doesn't belong to this system. Even if he is punished, he has to go to Fan Tianlei's head, and he is going to participate in the submarine \*\*\*\*\* now. No matter what happens, he has to wait. He will come back again!

Sure enough, Shen Zhenghua just walked over and looked at Qin Yuan and said with an ugly expression:

"What the \*\*\*\*\* is going on with you? Didn't you just say two shots, and your first shot, why didn't you have bullets loaded!"

But when Qin Yuan heard this, he smiled slightly and said directly to Shen Zhenghua:

"The head of the report, because my gun is specially made, and the power of each bullet is particularly strong, so I specially prepared an empty bullet shell for ordinary use, but this kind of bullet shell has good control and will not cause splash damage. , So I didn't directly wound the opponent seriously. This was to fly the dagger in the opponent's hand!"

Qin Yuan said this is true, after all, the sniper rifle in his hand should be used on the battlefield, and it was dealing with heavy armor.

If a bullet comes from such a place, it can directly penetrate the wall and directly damage the things behind it!

But in this case, how could Shen Zhenghua believe it? After all, Qin Yuan's clothes are very unconvincing. How could a serious sniper be dressed like this and carry a sniper rifle with him? See how suspicious!

So Shen Zhenghua just wanted to scold Qin Yuan, but at this moment, the sniper on the side just spoke:

"Captain, what he said is true. He is indeed a very powerful sniper, and he is much better than me. Just now the second shot he took from aiming to shooting took less than 0.5 seconds. I didn't know him. How did it do it."

When he heard this, Shen Zhenghua's eyes suddenly widened. Although he is now a leader, he still knows the statistics of ordinary snipers!

Even the most elite sniper, from aiming to shooting, it takes at least 2.7 seconds, but Qin Yuan can do it in 0.5 seconds, how is this possible?

When seeing Shen Zhenghua's eyes, Qin Yuan also smiled directly and said to Shen Zhenghua:

"It's not very difficult. After all, I have prepared all the parameters of the sniper rifle in his hand, wind speed and other things in advance. All I have to do is to reach him instantly after I fired a shot. The state you are in is nothing more than prediction!"

But when he heard this, Shen Zhenghua was even more surprised. Qin Yuan could understand what he meant by saying this, that is, before Qin Yuan fired the shot, he had already brought himself into Liao Xingliang's state, and calculated that Liao Xingliang should How to aim, and even calculated what kind of flaws the opponent will reveal!

Then after firing a shot, he immediately entered the predetermined position and shot directly!

This requires such a powerful calculation ability, but what a confident prediction!

After all, there are so many accidents at the scene, even if Qin Yuan has a little incalculable place, something big will happen!

But anyway, Qin Yuan has successfully completed the task, even if there is a big risk in the middle, they can't do anything to Qin Yuan because of this matter!

"I will report this matter truthfully."

At this time, Shen Zhenghua said to Qin Yuan with an ugly face, and Qin Yuan just shrugged his shoulders. After all, he came to help, only because of Fan Tianlei, and did not intend to accept Shen Zhenghua's love.

But after Shen Zhenghua left, Qin Yuan glanced at the sniper next to him, and asked him:

"What is your name?"

"My name is Liao Xingliang..."

At this time, Liao Xingliang looked at Qin Yuan with a weird face and said, after all, he couldn't even think of the operations Qin Yuan performed, which even made him think that Qin Yuan was directly blinded by luck.

And Qin Yuan saw Liao Xingliang's expression, and he knew exactly what this guy was thinking, so he patted the other person on the shoulder and said to him:

"Okay, for the sake of you pleading with me, let me tell you a trick."

"What's the trick?"

Liao Xingliang's eyes lit up, but Qin Yuan said with a smile:

"There is only one point. When you believe that you can't hit it, you'll miss it 100%! If you want to be a top sniper, the first thing you have is absolute self-confidence. You only need technology. Long time training, you can get it out, but if you don't even have this kind of self-confidence, at best you can only become a skilled sniper, not a top sniper. Okay, goodbye."

After saying this, Qin Yuan directly took his own things and left here.

And Liao Xingliang looked at the back of Qin Yuan, but he didn't know what to say, but he completely remembered this sentence in his heart...

And Qin Yuan didn't take this matter to heart, and went straight back to the hotel where he was staying. He took a good rest, and he was wearing big pants. No one else knew that it was in the box he was holding. A sniper rifle.

But what Qin Yuan didn't see was that a person in the distance saw Qin Yuan killed the criminal and left, but he sent a message directly from his mobile phone.

The next day, Qin Yuan went to the military factory again to continue his work, and because of what happened yesterday, the people in the military factory respected Qin Yuan abnormally, and they also provided Qin Yuan with a lot of more sophisticated materials.

Qin Yuan was naturally happier this time, but at this time, there were also many people who came to ask Qin Yuan with some questions. If Qin Yuan could answer them, he would just tell these people.

Generally speaking, Qin Yuan gets along well with these people who enter the factory.

But that night, after Qin Yuan received a call from Fan Tianlei, he was a little surprised and said:

"What are you talking about? Yesterday I killed that person and turned out to be an islander?"

"Yes, it's an island countryman, and he also has a criminal record in the island country, but you don't have to worry, since this serious dangerous accident has been caused in our country, then we must be reasonable, but there is one thing, this kid may be It has something to do with Fusang Club. You have been a little more careful recently. After all, your wanted order is still outside!"

Fan Tianlei said to Qin Yuan with a hint of joking, after all, because of Qin Yuan, they had carried out a severe strike before, and almost eliminated the Fusang Society's influence in the country.

And Qin Yuan also shook his head indifferently. Anyway, if these people really came to target him, they would just send him a grid. He was not afraid at all.

"But what are you doing in the military factory? Hurry up. The staff officer named Du Juan is very dissatisfied with you not to participate in submarine training."

Fan Tianlei said to Qin Yuan with a hint of laughter, and Qin Yuan thought of Du Juan's face and felt bitter, but he still said directly to Fan Tianlei:

"That's it, I'll go back soon, and what I did this time may have your share, wait."

"Oh, there is still mine, so I have to take a good look!"

A few days later, Qin Yuan finally left the factory and returned to the training base with a lot of equipment.

And this time, Qin Yuan wanted to give these people a surprise!

"Gather!"

At this time, Qin Yuan said directly to his team members, while Tang Zhou and others gathered quickly.

But Dujuan saw Qin Yuan's eyes, but it was not very good. It has been a few days before the captain Qin Yuan came back?

Qin Yuan looked at these people in front of him and said with a smile:

"After all, I haven't known you for a long time, so I prepared a gift for you, and everyone can take it back. It is also a memento."

When they heard this, everyone was taken aback, wondering what Qin Yuan had prepared for them?

But when Qin Yuan put the cold-forged dagger in front of them, the eyes of these people were bright.

Regardless of their status, they are first soldiers, so they have a heartfelt love for this cold weapon!

And Qin Yuan's dagger is very good for its appearance!

On this dagger, the whole body is pitch black, only a little white light shines on the top of the blade, with shark teeth on the back, and the handle is also very reasonable. It feels very comfortable and does not slip, and it carries a strange kind of Beauty!

Moreover, Qin Yuan randomly threw it on the table. Jiang Xiaoyu and others would have thought that the dagger would stick directly on the table, but the dagger actually pierced the table forcibly, if it weren't for the restriction of the handle, or even Will fall to the ground!

Chapter 682: Perseverance

"So sharp? My dear, I thought it was just an exaggerated way of writing in the novel, who knew it was true!"

Jiang Xiaoyu looked at these daggers dumbly at this time, and the halazi was about to flow out!

And Xiang Yu, Tang Zhou and others also have their eyes shining.

Seeing the greedy look of these people, Qin Yuan laughed happily:

"Do you really want it?"

"miss you!"

"Hey, no!"

Qin Yuan saw the greedy look of these people, smiled, and said to them:

"This is a dagger that I carefully crafted. It is much sharper than ordinary daggers. However, since everyone is your own person, I will give it to you first, and then see what you are doing in this mission. , How do you perform, and then decide whether to take it back."

"Hehe, Master, you don't want to take it back. If we perform well, then you won't ask for it, but if we do not perform well, it means something big has happened, and you are still in the mood. Take care of this?"

Jiang Xiaoyu said to Qin Yuan with winking eyebrows, but when Qin Yuan heard this, he said in an angry tone:

"Go, go, don't say good things!"

But Qin Yuan didn't care, and said directly to several people:

"Okay, don't freeze, whoever wants it!"

"Oh!"

Hearing this, Jiang Xiaoyu and others cheered, and then took the dagger into their hands!

And Tang Zhou also took this dagger, and gently wiped it on his hand, only to find that the dagger had directly cut his calluses. Tang Zhou was also a little surprised.

Didn't expect that after such a long time, the outside forging technology has reached this point?

In fact, what Tang Zhou didn't know was that although the current forging technology is indeed very powerful, it is not as powerful as that. This is Qin Yuan's credit!

Qin Yuan equips each dagger with a special scabbard, so as to ensure that the dagger will not easily hurt himself.

It's just that when Qin Yuan looked at Zhang Yuanyuan excitedly in front of him, his face turned black and said to her:

"Huh? You are a medical soldier, and you are also a female soldier, why do you want my dagger?"

"Hey, captain, you are professional discrimination plus \*\*\*\*\* discrimination. Who said that female soldiers and medical soldiers can't have daggers? Medical soldiers, if you want to protect others, you must first protect yourself! You are not saying that we female soldiers want Is it the same as a male soldier? How can this treatment be different?"

Zhang Yuanyuan took something and just wanted to leave, Qin Yuan stared in anger.

"Stop! Didn't you say that you are the same as a male soldier, then we are like this, can you do it?"

At this time, Qin Yuan took off his shirt directly, revealing his strong muscles, but after hearing this, everyone's expressions were stagnant, what's the matter?

Zhang Yuanyuan also has an ugly face. She has been tested before. If she comes again, she will be really discriminatory.

But Zhang Yuanyuan is not afraid at all. After all, some things are much easier after passing that hurdle.

So Zhang Yuanyuan also took off her shirt directly, and when she first wanted to take off her underwear, she suddenly realized that all these people around were staring at her, staring at her, and she immediately understood. These people were just playing tricks, blushing and said:

"Bah! Rogue!"

"Oh, you are not stupid!"

Qin Yuan said to Zhang Yuanyuan a little disappointed, after all, Zhang Yuanyuan's vest line last time was quite seductive.

"The captain is a bastard!"

Zhang Yuanyuan said angrily, and everyone around her smiled and watched Qin Yuan winking.

"Ahem! Alright, the next thing is the real highlight!"

Qin Yuan cleared his throat, and then dragged out a few large boxes. After opening, it was the new semi-automatic rifle that Qin Yuan had prepared for them.

Qin Yuan directly picked up the new rifle, loaded the magazine, and fired a few shots directly at the target on one side, and said to them:

"The ninth five-year rifle was changed, cough cough, basically except for the name, other aspects have nothing to do with the ninth five rifle. The accuracy has been greatly improved, the bullet caliber has also changed, and a new grip and optical front sight have been added, and it is retained. It's the original ninety-five feel, everyone try it!"

Hearing this, Jiang Xiaoyu and Xiang Yu walked over directly, mounted the weapon directly, and began to experiment on the side.

After all, they had seen Qin Yuan's rifle modification ability before. At that time, Qin Yuan just refitted it casually, and there was such a big improvement. This time, Qin Yuan is a rifle specially customized from the military factory, and it will definitely become stronger. !

Zhang Yuanyuan and Dong Shen also directly picked up the guns. The combat abilities of the two of them can only be regarded as average, and they don't have much requirements for weapons.

However, Tang Zhou, Zhao Haixing and Zhang Yongguang, who were on the side, hesitated.

Zhao Haixing and Zhang Yongguang looked at each other and said directly to Qin Yuan:

"Report, we are still willing to use the original 95-type rifle. We have used this rifle for a long time, and it is expensive to make, so it must be the best."

After hearing this, Qin Yuan couldn't help but curled his lips, holding a rifle directly, and standing in front of the two of them, he forced the rifle in his hand to them, and said directly:

"I know what you are thinking about, you veterans, always feel that your will can overcome everything, with the mentality of being made in Yan Nation, the world first..."

After saying this, Qin Yuan took out a 95 rifle directly from the weapons of the training camp on one side, looked at the two men and said:

"But your mentality is outdated. Although the spirit is very important, the spirit is not superstition. You have to admit that it is a good thing, not just because your weapon has been used for a long time. ."

Then Qin Yuan clicked twice, and directly disassembled the 95 rifle in his hand. While disassembling, he said:

"The Ninety-Five rifle was produced in 1997, but this is a model more than 20 years ago, and it lacks optical sight. The fixed handle also blocks the handle of the gun, which will put the user behind the bunker. As you all know, once the action is too big, it may expose flaws and increase the chances of your hands. What's more, the location of the rifle's barrel is unreasonably designed, and the smoke from the bullet will be emitted to people. The position of the eyes, and these small problems one after another, when increased, they will become big problems!"

At this time Qin Yuan talked freely, showing all the shortcomings of this weapon in front of them, and as Qin Yuan slowly finished speaking, he disassembled this rifle again, It was reloaded again, and then a bullet was loaded and shot out!

As expected, the defects Qin Yuan said were clearly displayed in front of a few people.

And when they heard this, Zhao Haixing and Zhang Yongguang's expressions were very ugly. They looked at Qin Yuan and finally figured out why Qin Yuan didn't seem to be very old, but he possessed such a high military rank and was able to Lead their team and become the captain of their team.

The young man in front of him, in addition to his hand-to-hand ability, has some qualities that people cannot ignore.

However, Zhao Haixing took a deep breath and said directly to this Qin Yuan: "Although these small problems do exist and we have already discovered them, as an excellent soldier, he will definitely be able to overcome various difficulties in actual combat. !"

But when he heard this, Qin Yuan smiled and said directly to Zhao Haixing:

"Do you really think so?"

"Yes, this is the most basic quality of our Yan Nation soldiers. No matter what difficulties we face, we will overcome them instead of simply relying on the convenience of weapons and equipment!"

Zhang Yongguang at this time also said directly.

Hearing this, Jiang Xiaoyu and Xiang Yu also looked at each other a bit. They actually respect these veterans very much, and they have also been educated in the army. They know all about that period of history. With the huge gap in weapons and equipment, directly repelling those invaders, relying on this kind of tenacity!

As a result, Qin Yuan heard this, but he couldn't stop rolling his eyes and said to the two of them:

"Small problem? This is indeed a small problem, and it can be overcome, but you have to be clear that as a special professional team, we will face the top opponents in the world in the future, and I really don't know why you are right. With this weapon, you can only have a better weapon, but you have not given up on this old and outdated thing. I know the strength of the spirit and will, but you can't create difficulties without difficulties, right?"

After saying this, Qin Yuan saw what Zhao Haixing and Zhang Yongguang wanted to say, and continued:

"You shouldn't have to watch your teammates sacrifice because of the disadvantages of this weapon and equipment, right?"

When they heard this, Zhao Haixing and Zhang Yongguang immediately trembled, as if they thought of something and stopped talking, but silently took the two weapons in their hands.

At this time, Qin Yuan felt helpless when looking at the two men. Of course, he knew why these two men were like this, because the two men came from the oldest special team in Yan Country, the main base of this team. The most difficult part of Yan Country is the tenacity of these people.

But no matter what your will, you always have to use something better!

Otherwise, what is the significance of their Yan Country's development over the years?

The people of the lighthouse country back then, because their lives were expensive, so they retreated from that war, but are the lives of our soldiers from the Yan country cheaper than those of the lighthouse countrymen?

Qin Yuan would never agree to this. In his opinion, as long as it is a problem that can be solved with weapons and equipment, it is not a problem!

At this time, the ray of light in Qin Yuan's eyes also completely infected Zhao Haixing and Zhang Yongguang. They finally turned around the corner of their heads, took a deep breath, and paid a military salute to Qin Yuan.

finally got the two veterans, Qin Yuan finally had a chance to look at the last troublesome figure, he looked at Tang Zhou who was still standing in the same place, and asked helplessly to each other.

"Why didn't you take a gun?"

And when Tang Zhou heard this, he curled his mouth and said in a low voice:

"The people in my family were shot dead by island devils 80 years ago, so when I came out of the family, I made an oath that I would never use a gun in my life!"

After hearing this, Qin Yuan couldn't stop having a headache. After all, he had read Tang Zhou's information and he knew what kind of person Tang Zhou was.

Although Tang Zhou was a real master of martial arts, Tang Zhou was not actually an excellent soldier. The methods previously used on Zhao Haixing and Zhang Yongguang were of no avail to Tang Zhou!

After all, Tang Zhou's family has paid a sufficient price for more than 80 years. According to reason, the country should be owed to Tang Zhou's family.

However, Tang Zhou's family has not enjoyed any of the benefits the country has brought to them over the years. It is only by adhering to the blood of patriotism and vengeance that they will do such a thing, and now Tang Zhou has to do There is only one thing, and that is to prove that these people are still useful and that they have not been eliminated by the times.

But no matter how you say it, the importance of firearms is more than personal fighting function.

It takes at most two or three months to train a sharpshooter, but to train a real fighting expert is also calculated on a yearly basis. More importantly, even if a fighting expert is trained, he only needs one bullet to be able to All the hard work of these years will be offset.

At this time, Qin Yuan looked at Tang Zhou's eyes, and he also knew that he could not persuade the other party at all. Fortunately, he did not intend to convince Tang Zhou at first and said directly to Tang Zhou:

"Okay, you don't want to use a gun, I don't have trouble for you, but this time you have to behave well, if you use a bow and arrow, do you mind if I modify your bow and arrow?"

Hearing what Qin Yuan said, Tang Zhou did not understand, and asked strangely:

"What else can be modified with bows and arrows?"

Qin Yuan smiled softly and said to Tang Zhou: "I wonder if you have heard of Arrow and Hawkeye?"

"Arrow? I have only eaten one kind of gum called Green Arrow!"

Tang Zhouyi said dumbfoundedly.

And the young people on the side suddenly laughed!

Dong Shen quickly used his tablet to find some videos about these two people, and then showed them to Tang Zhou.

And seeing the various bells and whistles in this video, Tang Zhou stroked his head in a daze. He really didn't expect that there are so many weird and strange mechanisms on this simple bow and arrow.

But Dong Shen said to Qin Yuan:

"There are many functions on this, we can't do it now!"

Qin Yuan shook his head and smiled: "It doesn't matter! We just need to install what we can do, and let him accept it slowly, and we will talk about the future!"

After saying this, Qin Yuan directly took out a big box and opened it suddenly. Inside was a high-tech bow and arrow!

Chapter 683: Unusable killer

Looking at this thing, even Tang Zhou himself was surprised if he didn't talk about the others on the side.

After        came out from home, although I have seen many good bows and arrows, compound bows and the like, they are not as comfortable as the big bow I brought from my hometown.

But looking at the bow and arrow in front of him, Tang Zhou felt that he was attracted.

This dark black bow directly blends the sense of technology and history into one. The appearance alone is very in line with the aesthetics of Tang and Zhou!

Moreover, the bow heads on both sides of this bow have a short blade. Obviously, this bow seems to be more than capable of shooting arrows...

"it's beautiful....."

Jiang Xiaoyu also couldn't stop sighing at this time. No matter how powerful this thing is, at least this appearance can be regarded as conquering everyone, so Jiang Xiaoyu at this time directly shouted at Qin Yuan:

"Master, can you let me joke first, this thing seems to be amazing!"

After Tang Zhou on one side heard it, he also swallowed. He wanted to go up too, but he was not too enthusiastic.

But Qin Yuan caught the little expression on Tang Zhou's face, he smiled, and waved his hand directly at Jiang Xiaoyu: "Go, go, this thing is specially prepared for Tang Zhou, I haven't tried it. Come, want you to come?"

After saying this, Qin Yuan put a black quiver on his back, then picked up the longbow, bent the bow and set the arrow, aimed at a target dozens of meters away, and launched it instantly:

"Wow!"

Only one sound was heard, and the arrow shot by Qin Yuan hit the target instantly.

Only Qin Yuan's face was slightly embarrassed. After all, he had not practiced archery. Although he did not miss the target due to his physical fitness, he only hit the third ring!

Tang Zhou, who was on the side, immediately covered his face. As an archery master, he of course could tell that Qin Yuan was not good at archery at all.

But even so, with the excellent qualities of this bow, he can still hit the target 50 meters away, which is already a very good result.

"This bow is a pity in your hands!"

At this time, Tang Zhou said to Qin Yuan with a dark complexion, but after Qin Yuan heard this, he was not angry, he laughed, and directly pressed a button, the arrow instantly exploded, and the target was directly exploded to pieces!

Everyone was shocked, especially Tang Zhou, staring wide-eyed at the target that was now blown to pieces, his face was full of endless astonishment!

"Hey, although my skills are not good, I will use this thing. It can blow this target to pieces!"

At this time, Qin Yuan said to Tang Zhou very proudly, and when Tang Zhou saw Qin Yuan's smile, he suddenly felt an urge to beat Qin Yuan. Now he finally understood those two. The feeling of a veteran...

"Okay, no joke, I'll give you this bow. You can try it yourself. I currently prepare three kinds of arrows for you. One is this kind of explosive arrow, which is filled with plastic bombs and has an explosion radius of 15 meters. Right and left, the power is huge! You can also use the quiver to make it, and you can also control the amount of gunpowder inside to reduce the power of the explosion. This is up to you to control it."

Qin Yuan took the bow down while talking, and after Tang Zhou took the bow, he said to Qin Yuan:

"What are the other two arrows?"

"One is the black silent arrow, which is made of special materials, which can fly longer distances. The other is the gray armor-piercing arrow. The arrow of this arrow is also specially made without a tail. Penetrate through ordinary obstacles. I have told the people in the military factory about the three bow and arrow production techniques, they will provide you with a lot of arrows, and I know that with your strength, bring four or five barrels Arrows, sent at 100, shouldn't be a problem."

Qin Yuan directly gave Tang Zhou the quiver on his body, and Tang Zhou only took a look at it and understood how the quiver was operated, and then instantly took out a silent arrow, pulled the bow directly, A target 200 meters away flew past.

With this bow, Tang Zhou suddenly felt clearly that the strength of this bow was much less than before!

This does not mean that the strength of this bow is relatively weak, but that Qin Yuan's technique is relatively strong, which reduces the strength he needs to draw the bow himself.

In this way, Tang Zhou can naturally save his energy and shoot more arrows!

Soon Tang Zhou released his hand directly, and this silent arrow, like a black light, instantly flew to a target 200 meters away, hitting the bullseye!

And Tang Zhou kept shooting an armor-piercing arrow without stopping. This gray light instantly penetrated the silent arrow just now, and it penetrated the target without any hindrance, and even shot to the back. The 250-meter target flew another fifty meters away, and then it was stuck on the ground diagonally!

Tang Zhou's eyes widened at this moment. He looked at the longbow in his hand and took a deep breath. He had to say that even in this kind of technology, the outside world is already better than the family. Stronger, I haven't seen it before, it's just that I am not qualified to see this most advanced bow and arrow.

Seeing Tang Zhou's appearance, Qin Yuan directly patted Tang Zhou on the shoulder and said to him:

"This is already the biggest preferential treatment for you. You don't want to use a gun. You can use this weapon. After all, as a soldier, you have to be responsible to your teammates."

Hearing this, Tang Zhou was silent for a moment, and finally nodded, and said in a deep voice:

"I understand, I will use this bow well."

"Hey, this is the right thing. Go back and discuss it with Dong Shen to see what other needs you have. I can work with him to help you design more useful arrows."

After hearing Qin Yuan's words, Dong Shen who was on the side also nodded, he was also very interested in things like this.

And when Tang Zhou watched Dong Shen's videos about superheroes at this time, he suddenly had an idea in his mind. If his ancestors had such weapons decades ago, wouldn't he need to be afraid of those guns? Don't make such a vain sacrifice?

Tang Zhou knows the answer to this question, but he also understands that no matter how much he thinks, he will not change the result. What he can do now is to avoid repeating the same mistakes!

So at this time, Tang Zhou's eyes glared, he drew out 5 arrows in an instant, swish, and shot out in an instant, and these five arrows came first after they were fired, all of them hit the same target and exploded violently. In an instant, there was no \*\*\*\*\* left to blow up this target!

Tang Zhou shook the bow directly, and this bow instantly turned into a short stick. Tang Zhou was shocked again, but he looked at the target that had been blown up, but smiled lightly at Qin Yuan. Said:

"You made me such an advanced weapon, then next time you fight with me, it won't be my opponent!"

And seeing that Tang Zhou finally smiled, Qin Yuan also smiled happily, and said directly to Tang Zhou:

"Cut, do you think this kind of thing is possible? Don't think it's great if you have a bow in your hand. I'm still using the previous sentence. In this world, bows and arrows have been eliminated. I want to see the real killer. , I still have to count this thing!"

After saying this, Qin Yuan directly took out his sniper rifle!

While looking at Qin Yuan's super sniper rifle, which is more than three meters long, several people around who have knowledge of sniper rifles took a breath.

Like a sniper rifle of this size, there must be only one possibility, that is, anti-sniper equipment!

Then Qin Yuan directly set up the gun, and then opened a box similar to a foam incubator on the other side, revealing more than 20 carefully prepared bullets in various shapes!

These bullets come in a variety of colors, and they don't seem to know what materials they are made of, but even Tang Zhou, who doesn't know anything about sniper equipment, can clearly feel that all these bullets are not good. !

Obviously, this is a special strike ammunition prepared for various situations!

And Qin Yuan turned his special optical sight again. This sight is connected to the computer and can quickly help to check the position. Even a person who has not been trained in sniping at all can use this special sight. Able to accurately hit the target within 800 meters.

And the powerful bullet of this gun can guarantee that within a range of 800 meters, as long as it hits an enemy, basically no matter where it hits, it can be fatal!

Of course, this is a weapon specially made by Qin Yuan for himself. Naturally, it is not only this. The normal sniper range of this gun is 3 kilometers, and the maximum attack range has even reached 10,000 meters.

Of course, within the range of 3 kilometers, Qin Yuan is still under Qin Yuan's control, but if it reaches 10,000 meters, even Qin Yuan cannot control where the bullet falls. Can really rely on intuition.

Qin Yuan directly loaded a burst bomb and threw it to Tang Zhou with a scope, aiming at a target at another shooting range 2 kilometers away. This target was specially used for tanks, but now Qin Yuan used it to test it and let the sniper rifle in his hand.

噗!

Only a small muffled sound was heard, and then the target 2 kilometers away was blown to pieces in an instant. After that, Qin Yuan stood up and said to Tang Zhou triumphantly:

"Did you see it? This is the real big killer. It's impossible for your bow and arrow to attack me at this distance, so ah, you have been killed by me before you rushed to my face! "

Seeing this situation, Tang Zhou was also a little speechless. After all, this weapon of his family can attack 2 kilometers or even 3 kilometers, but his bow and arrow, even if it is up to the sky, it is Six or seven hundred meters, how can this be beaten?

This is still Tang Zhou's own talent. If ordinary people use bows and arrows, 200 meters are already far away, and there is an incomparable gap!

And Qin Yuan saw Tang Zhou's expression and began to introduce the various special bullets in his hand:

"Look, this is a mercury bullet. It explodes instantly after hitting an enemy. It shoots into someone else's body like a steel pillar. You also understand that mercury is poisonous. If it is injured, it is basically dead. Basically used in a confined space, or when many people are crowded in one place...

"This one is a burst bomb. You have already seen its power. It is basically equivalent to a small artillery."

"This is a kinetic bullet, and the rate of fire is more than three times that of ordinary bullets!"

"This is an armor-piercing bullet, and it can be regarded as the most common thing. Of course, the armor-piercing ability of my armor-piercing bullet is 5 times that of ordinary armor-piercing bullets!"

"this is....."

At this moment, I saw Qin Yuan's ostentatious introduction of his weapon. The people around felt chills in his heart. If these bullets hit someone else, I'm afraid Leaving a whole corpse is already considered very face-saving!

And Tang Zhou is also completely speechless, he can't say anymore, if he wants to fight Qin Yuan, there is such a weapon gap, and he will beat him!

But at this moment, the cuckoo who was on the side came over, watching their popularity and said:

"What are you doing here? Hurry up to train submarine soldiers! These weapons are so powerful, but none of them can be used on submarines! In a closed environment like a submarine, you dare to shoot?"

Qin Yuan was a little dumbfounded when he heard such words, he just thought of creating some big killers that really adapted to him, but he did not expect that his bullets could not be in the submarine. use.

At this time, Qin Yuan was petrified immediately, and seeing Qin Yuan's appearance, the people around him were taken aback for a while, but in the end, they froze and laughed completely!

"Oh, sir, I am so ridiculous. I didn't expect you to make so many powerful weapons, but in the end, there is no way to use it!"

"Captain, captain, you are doing hairstyles for the blind, it's a waste of effort!"

At this time, Jiang Xiaoyu and Zhang Yuanyuan had seized the opportunity, and they were taunting Qin Yuan.

After hearing this, Qin Yuan opened his mouth, but he could only choke his neck and said:

"Who...who said I can't use this, I tell you, in fact, I also prepared a large number of empty bullets, there is only a small amount of gunpowder, and it can definitely be used on a submarine..."

Just saying this, Qin Yuan himself felt a burst of tears without tears. This empty bullet was the bullet he used to hit the criminal at the subway station before. It didn't have much power at all!

"Huh, all right, now you finally know the necessity of this training, hurry up and come with me, you still have two days, especially you, Qin Yuan! They have already undergone certain training, you I haven't followed the training for the past few days. I have to make up for the missing courses!"

Du Juan shouted at Qin Yuan and dragged the group away.

Chapter 684: General 1 General 3rd in the world

a.....

"Qin Yuan!"

"Here!"

With this voice, Qin Yuan directly stood up, and seeing Qin Yuan's appearance, Liao Guang, who was standing in front of Qin Yuan, nodded in satisfaction.

"Captain Zhou, are you satisfied with this one?"

Hearing this, Tue Wu who was on the side rolled his eyes angrily, and said directly to Liao Guang:

"It's alright, I surrendered, and the bottle of Moutai at home will be delivered to you later."

While several people around saw the appearance of Wu and Liao Guang on Tuesday, they were a little curious about what was the cause. On the other side, Dujuan, seeing the appearance of these people, directly smiled and said to them:

"This is a classmate with Captain Liao, and the two of them have a very good relationship. They made a bet before that the bet is a bottle of Maotai that is in the vintage."

Both Liao Guang and Tue Wu are in their 40s, and Liao Guang is still a student of Commander Zhang and the leader of the expedition team this time. Before that, Liao Guang followed Commander Zhang to see many magical places in Qin Yuan. This time, he took this opportunity, but made a good fortune.

At this time, Liao Guang winked at Qin Yuan and said:

"Hey, Xiao Qin, when our mission is completed, I will bring you this bottle of wine, let's share it with everyone!"

At this time, Tue Wu, who was on one side, squeezed in and said to the two of them:

"Does that have my share?"

Tuesday Wu Ze is the captain of the submarine this time. This submarine has been in the hands of Tuesday Wu for a long time because the experienced captain is also the chief person in charge of this time.

is like on a ship, the captain's power is more than anything else, in a submarine, the same is true.

"Go, go, not in your place! Xiao Qin, this guy doesn't believe you, he thinks you are a young soldier who walks through the back door, he has always looked down on you, but now it has indeed turned the limelight and thinks you are more powerful Up."

At this time, Liao Guang directly complained to Qin Yuan, and when he heard this, several players on the side laughed happily. They also knew this situation. A group of people looked at Tuesday Wu in a little joke. .

Jiang Xiaoyu even winked and said:

"Oh, our big captain sometimes misses his eyes. I said at the beginning that our captain is a very powerful person. In the end, he didn't believe it. Now I am convinced."

On the other side, Xiang Yu also shook his head helplessly. After all, after learning about Qin Yuan, he had never seen anyone who said Qin Yuan could not do it!

When Wu heard this human word on Tuesday, his face was a little bit uncontrollable, but in the end he broke the jar and said:

"Hey! Pull it down! I admit it now. I did look away. Originally, I thought this kid Qin Yuan was a high-ranking cadre's kid who came in through the back door. How could he be so tall at a young age? Rank, and when I was training, I dared to escape for several days and didn't come for training. If the soldiers were under my control, I would have sent him out a long time ago. I was holding a big breath in my heart. After waiting for this kid to come, I just wanted to give this kid a good start. Who would have thought of the final training, this kid could still get the first place, I'm considered to have taken it!"

At this time, Tuesday Wu was indeed looking at Qin Yuan in surprise. After all, at the beginning, he felt that Qin Yuan was definitely not good. He didn't expect Qin Yuan to have such an ability. In some submarine operations, he felt that Qin Yuan Yuan is even more proficient than himself.

And Qin Yuan also touched his hair a little bit stinky, and said to Tuesday Wu:

"So average, third in the world!"

"Hahahaha! Say you are fat and you are still breathing!"

At this time, Tang Zhou also laughed and said, and after these few days of training, several people were familiar with him, and Tang Zhou also recovered his youthful nature.

But Liao Guang on this side said:

"Don't underestimate this kid. You know, the main target of our operation this time is the 303 submarine. This kid cracked it out. Don't think people are armed with guns, but if you really use your brain, it will be no better than us. How much is the difference!"

Hearing this, everyone was shocked. They only knew that Qin Yuan'er's combat ability was relatively powerful. They hadn't thought that this mission would still have such a connection with Qin Yuan!

"Okay, let's talk about these things later. Tomorrow is the time for us to go into the water. This time, we must seize the opportunity to take a good look at what is in the 303 submarine?"

At this time, Qin Yuan also said something directly. When he heard this, everyone nodded. After all, they have heard about the legend of the 303 submarine these days. Since this time they have found the trace of the submarine. , They must seize the opportunity.

Hearing this, on Tuesday, Wu also suppressed his hippie smile, and directly summoned all the people who were going into the water this time, and began to mobilize the meeting:

"Brothers, since we have entered the same submarine, we are the brothers who ate in the same spoon. I have read all of your information. Everyone is unmarried, no children, and no worries. But I I would like to explain to you that this time our submarine is going to descend deeper than before, and we have to test new weapons. Of course, the degree of danger is of course needless to say. Moreover, once the submarine is at such a depth, it will be impossible for us all. Come back alive."

"I know that you are all trained elite fighters, but it is human nature to be afraid of death. It is nothing to obey your own nature. I also know that you are not soft guys. Before you participate in this operation, write for yourself. I have written a suicide note, but I still want to ask you, have you quit?"

When he heard what Wu said on Tuesday, everyone present immediately replied:

"No!"

"good very good!",

On Tuesday, Wu was obviously very satisfied with this sentence, so he suddenly clenched his fist and said to these people:

"All of us are soldiers, and we are all non-commissioned officers. We are all holding iron rice bowls to ensure income from droughts and floods. The national team feeds us and drinks us. Even in the most difficult times, we will not lose our allowance. To put it in a good way, take people money and people to eliminate disasters. Since we have eaten the country's food, we must help the country work well. Even if we are afraid in our hearts, we must help the country complete the tasks assigned to me. This is All soldiers must do! Understand?"

"Understand!"

Hearing this, everyone felt like a fire was lit, and even Qin Yuan'er's eyes flashed a light.

At this time, Qin Yuan really understood why the superiors wanted him to participate in this event, just to let him see what kind of consciousness ordinary soldiers had!

"Okay, let's go!"

At this time, on Tuesday, Wu gave an order, everyone was in their positions immediately, and then an attack submarine slowly entered the sea!

.....

In the next task, Qin Yuan was not very able to help.

The submarine slowly reached the designated position, and it really saw the ghost submarine that had disappeared.

This submarine, like a dead giant, lying horizontally on the seabed, and this depth is already very dangerous. Qin Yuan could only look at the instruments prepared in the submarine and slowly approached the 303 submarine. The entrance to see if you can enter.

"The instrument has detected that there are many good things in this submarine. We have already reported to our superiors that we plan to transfer a salvage boat to the submarine. By then, no matter what is inside, it will be impossible to escape!"

At this time, Liao Guang was full of excitement and said in the walkie-talkie, after all, this submarine is so famous that they can find it, even if it is only a memorial, it is also very important!

Hearing this, Qin Yuan and others were also a little excited. After all, they have been sailing in the deep sea for two days. In these two days, they could not communicate with their superiors. It was the most dangerous time, and now they are already Finding the submarine means that they have completed more than half of their mission and can return!

"That's great. After I go back, I have to eat and drink, but it's time!"

At this time, Jiang Xiaoyu said happily, in this submarine, it was too quiet, after the initial excitement passed, there was actually nothing to do at other times.

But for them, this trip has nothing to do, it is the best thing!

At this time, Qin Yuan also took a deep breath. This time, if things can be solved as simple as that, it is not bad.

After all, even Qin Yuan, facing this bottomless deep sea, still has a little fear in his heart.

Under such circumstances, if something goes wrong, even Qin Yuan does not guarantee that he can go back alive.

And when Wu heard these people on Tuesday, he also said with a smile:

"Don't worry, this time the mission has been completed more than half, Xiaoyu, after the meeting, don't you want to eat and drink? After you go up, I will invite you!"

"Oh! That's great, I can save money too!"

At this time Jiang Xiaoyu said with a smile, and then Qin Yuan smiled without speaking, but at this moment, Qin Yuan suddenly felt a horror, the spider induction broke out instantly, and he immediately shouted. With a cry:

"Be careful, dangerous!"

At this time, I saw the 303 submarine in the deep sea through the glass, and there was a sudden explosion!

"Old Liao!"

On Tuesday Wu saw such a situation, his eyes widened, you know, Liao Guang is still on the instrument carried by the 303 submarine!

The submarine exploded. What will happen to Wu and those who visited on Tuesday?

And Qin Yuan was also furious instantly, not only Liao Guang, but Du Juan was still on the probe!

"Report the captain, I am still alive, but the power source of this small instrument was blown up, I am afraid I can't go back."

At this time, Liao Guang's voice was heard directly from their radio, but at this time, they clearly saw that the small instrument was following the 303 submarine instrument and continued to fall into the abyss of the deep sea. Go on!

You should know that after this abyss, there is no bottom, if it really falls down, then it is the gods, and it is impossible to rescue them!

"Fuck! Fuck! How did this explosion happen? Why did the explosion occur? This submarine has been in use for so long? Can the submarine's weapons still exist?"

On Tuesday, Wu also felt his scalp numb, and he didn't know what to do.

The only instrument with towing nature among their submarines has been dispatched. As a result, the power source has been blown off, and the recovered device is also damaged. Even if they are not far from Liao Guang, they can only watch. Watching Liao Guang fall into the abyss!

Tang Zhou was also full of anger at this time. He grabbed Tue Wu and asked loudly to him:

"Is there no other way?"

"Is there any way? Now that the power source of the instrument is gone, we are in the deep ocean, and the pressure is so great, it is impossible to send someone to use other things to pull it back. If it is under some pressure, In small places, we can also tie it up with iron chains and ropes, and then bring the instrument up, but this is in the deep sea and we can't go out at all. How can we bring him back?"

Tuesday Wu at this time was also very angry and said, you know, Tuesday Wu is the last thing to want to happen in this matter, after all, Liao Guang is his friend who played with him since childhood!

When he heard this, Qin Yuan, who looked ugly on one side, A voice suddenly came to mind in com's mind:

"Ding Dong, the system will release the task to rescue Wu and Dujuan on Tuesday, reward three grids!"

Have a mission?

Hearing such words at this time, Qin Yuan was taken aback for a moment. At this time, he released the mission?

This also means that the matter this time is not completely impossible, after all, the system never releases mortal tasks!

Qin Yuan suddenly reacted, mobilizing his brain power quickly, thinking carefully about what way he could do.

At this time, Qin Yuan suddenly thought of something. He grabbed Tue Wu and whispered:

"Are there any deep-sea fish in our cafeteria?"

"Deep sea fish? When is this, you still want to eat?"

The people around looked at Qin Yuan'er with an incredible expression for the time being, but Qin Yuan'er yelled, "Is there any?"

"No, we are a submarine, not elsewhere. For a balanced diet, there has never been such a thing!"

At this time, the staff member on one side replied directly, but Qin Yuan's face became even more ugly when he heard this. Originally, he was thinking, could he recover a few deep-sea fish and see if he could obtain the ability to negative pressure , But now there is no way.

While looking at the falling Liao Guang in front of him, Qin Yuan said in a deep voice:

"Then you can only take a risk!"

Chapter 685: Save the cuckoo

Moreover, on Tuesday, Wu said directly to Qin Yuan:

"I know what you think or what you think, but your kind of thought doesn't work at all!"

while Tang Zhou on one side said anxiously:

"Is there any way now, hurry up and use it, whether it works or not, it is always better than what we look at here!"

"I know that Qin Yuan'er wants to use manpower to go out and try, but the water pressure outside is so high now, and the surging of that submarine will bring a lot of undercurrents. There is no way to move at all. An accidentally went out. No doubt people will die!"

On Tuesday, Wu directly stated Qin Yuan's thoughts, but such thoughts simply cannot be implemented!

"Damn! Where did the bomb come from? If I know who did it, I must kill him!"

Jiang Xiaoyu said angrily at this time, while Qin Yuan, who was on the side, said quietly:

"In fact, it is not impossible, I can use the torpedo tube outside!"

When they heard this, everyone was taken aback, looking at Qin Yuan'er with surprise:

"Are you crazy? Such an approach is completely impossible!"

"I'm not crazy, now I want to go out of the warehouse, the best way is to use this method!"

At this time, Qin Yuan's face was full of composure, he really came up with this idea after careful consideration.

"Look, everyone, although there is such a high voltage outside, it can still be used in the torpedo launching system. As long as it is properly protected, there is no way to get out from here. And I once read a book, it seems During World War II, there were already soldiers who escaped in this way. If those people can do it, we must be able to do it now!"

But after hearing Qin Yuan's words, the tuesday on the side Wu said angrily:

"No, do you think I haven't read that book? It's just a legend, it's unrealistic! What's more, it says that the book is launched directly into the water, and their depth has not reached ours at all In this situation, the water pressure outside can crush you to death in an instant! Even if it does not crush you, the conflict between internal and external pressures will directly affect your body irreparably!"

Hearing this, Qin Yuan showed a slight smile and said directly to Tue Wu:

"I may not be very sure just now, but now I think this method is very suitable, as long as it is not dead, then I can come back alive!"

As far as Qin Yuan is concerned, as long as it is not an instant death injury, he does have a way to come back alive. After all, he still possesses powerful medical skills. No matter what injury he suffers, he can heal himself with eight needles against the sky. !

"But!"

Tuesday Wu really couldn't believe what Qin Yuan said, but Qin Yuan said directly to Tuesday Wu:

"Okay, now is not the time to hesitate, we are here one minute late, Liao Guang and Du Juan are more dangerous, Captain, hurry up and give orders!"

And at this time, on Tuesday, Wu saw Qin Yuan's confident look. He also gritted his teeth and said to Qin Yuan:

"Well, I can only ask you this time!"

Tang Zhou on one side also said to Qin Yuan in a deep voice:

"Do you want me to go with you?"

"No, your physical fitness is not as good as mine for the time being. What's more, my swimming skills have reached a very advanced level, and if I read correctly, you are just a duck that can swim in the lake. Can it be compared to my flood dragon?"

"you!"

At this time, Tang Zhou was half angry when he heard this, but he saw Qin Yuan's eyes, but in the end he didn't say much, just walked over, patted Qin Yuan on the shoulder, and said:

"I have remembered these words of yours. I must come back alive and wait for me to settle the account with you!"

"The defeated general, I am waiting for you!"

Qin Yuan also said directly with a smile, and when he heard this, even though Wu had an ugly face on Tuesday, he brought Qin Yuan directly to the torpedo launcher.

At this time, the other people in the submarine also knew about this. The eyes they looked at Qin Yuan were full of endless reverence.

After all, such a thing is really fighting for one's own life. One who is not careful will really die outside. One's power against the power of the world is simply irresponsible!

On Tuesday, Wu still looked ugly, and said to Qin Yuan in a deep voice:

"Remember, when you hear me launch, you must do your best and hold your breath. Although the outside air pressure is very high, as long as you can hold on, there is no chance!"

And Qin Yuan smiled slightly when he saw Tue Wu's appearance, and said directly to Tue Wu, "Captain, don't worry, I will save people alive!"

Seeing Qin Yuan's appearance, everyone was also full of helplessness.

Soon Qin Yuan was ready, and he went directly to the torpedo warehouse, and said to the outside:

"I'm ready, you can give orders!"

"Well, I'm up to the time now, you must take a breath frequently at my third second!"

On Tuesday, Wu's voice clearly spread, and Qin Yuan closed his eyes and took a deep breath. With the sound of the launch, Qin Yuan suddenly felt an unstoppable force coming from under his feet. It was like a cannonball, and he shot himself out!

Then Qin Yuan felt that he had reached the depths of the water, and the endless pressure around him quickly pressed towards Qin Yuan!

Almost pressed the breath in Qin Yuan's mouth this time, but Qin Yuan did endure it, and withstood it abruptly.

But Qin Yuan'er has indeed tried his best, and there is no way to continue swimming!

But this is not enough. Although the torpedo launch warehouse has pushed him a certain distance, there is still a certain error between Qin Yuan and Liao Guang and others, and Qin Yuan needs to be promoted to adjust.

And Qin Yuan brought that tool to Liao Guang's hatch, and he needed Qin Yuan to do it himself, but now Qin Yuan is under pressure and can't move at all!

The people on the submarine also saw Qin Yuan's appearance, and they were panicked. They were worried about this situation!

And at this moment, Qin Yuan suddenly saw a small fish in front of him, and his heart suddenly moved and he took the small fish back!

But Qin Yuan'er just wanted to catch this little fish when she realized that this little fish was extremely agile, and he didn't even catch it for a while!

Qin Yuan was also completely angry at this moment. He shook the sole of his foot suddenly. The power of the ant broke out in an instant. Although Qin Yuan did not move much, this force was indeed like a mortar, kicking out heavily A wave of water!

Then Qin Yuan's body also rushed out as if being kicked.

And how could this little fish think that Qin Yuan suddenly showed such a speed, and was immediately hit by Qin Yuan'er!

And Qin Yuan naturally seized this opportunity, meditating on recycling in his heart, and directly received this unknown fish into his grid!

"Ding Dong, the system was successfully recovered, please start choosing the host!"

Then Qin Yuan felt that before his eyes, three options suddenly appeared:

"1, get world-class deep diving skills!"

"2, get a world-class deep-sea lung!"

"3, get world-class resistance to high pressure!"

Seeing these three options, Qin Yuan was immediately delighted!

After obtaining any of these three options, it can perfectly solve the current dilemma!

So Qin Yuan didn't pick it anymore. He directly said in his heart: System, I choose item 2!

"Ding Dong, the host chooses successfully and gets a world-class deep-sea lung!"

With the sound of the system, Qin Yuan immediately felt that his body had undergone some changes, his lungs seemed to have undergone some transformation, although the pressure outside was still very strong, but now Qin Yuan feels I can breathe!

After all, Qin Yuan had acquired the ability to breathe in water before, and now he just happens to be able to use it!

Qin Yuan was overjoyed at this time. Although the surrounding high pressure is still very strong, but with his current physical fitness, as long as the air-absorbing lungs can keep up, nothing else is a problem!

Qin Yuan suddenly looked like a fish, swimming directly towards Liao Guang's detection instrument.

The people on the submarine were already completely desperate, but who would have thought that they were just stunned for a while, and Qin Yuan suddenly became comfortable!

"Damn, what the \*\*\*\* is going on?"

Jiang Xiaoyu screamed at this time. After all, they saw that Qin Yuan didn't seem to be able to move just now. Why did he suddenly become so flexible now?

"I think he should have broken through again, with his own internal strength to withstand this breath, otherwise, I really can't think of other possibilities!"

At this time, Tang Zhou murmured, and Tuesday Wu on one side did jump up directly:

"Haha, no matter what the reason is, Liao Guang and others are saved anyway!"

At this time, Liao Guang and Du Juan on the detector were completely desperate. Some team members even began to pray, or tried to commit suicide. After all, the pressure before death was too great and it was overwhelming. In an instant, I was killed, but it was extremely painful. It's better to think about how to die now!

But at this moment, Du Juan suddenly saw something outside swimming over, and suddenly screamed at the person on the side:

"Look, everyone, it looks like someone is coming to save us!"

what?

Hearing this at this time, the people on the expedition team suddenly widened their eyes. They are scientific researchers. They clearly know what the outside world is like now. It is impossible for humans to come over!

But after they squeezed to the side, they clearly saw Qin Yuan swimming over directly, and even knocked \*\*\*\* the shell of the detector, put a tractor directly on them, and asked them to put the 303 first. Let the submarine go!

Everyone was overjoyed at this moment. As long as this tractor is pulled, they can be pulled onto the submarine again, and then back to the submarine!

"It's great, we can finally live and go back!"

At this time, Liao Guang cheered loudly, and Du Juan's eyes looked at Qin Yuan with radiance. She had never dealt with Qin Yuan before, and felt that this person was a bit sloppy, but now he was saved by Qin Yuan. Moreover, Du Juan could also feel how much danger Qin Yuan was risking, this time the favor was owed!

After that, Liao Guang's people operated for a while, and quickly left the place, and finally returned to the vicinity of the submarine again, and the submarine directly took the detector back!

And Qin Yuan also took advantage of this opportunity and went directly back to the submarine. As soon as he entered the submarine, a group of people rushed over and lifted Qin Yuan directly, and said in surprise:

"My god, my god, how did this happen!"

"This is really shocking, it is simply impossible for humans to accomplish the feat!"

"You saved my life, I don't know how to thank you anymore!"

At this time, the people in the probe are extremely grateful to Qin Yuan. After all, if it were not for Qin Yuan, they would basically be dead this time!

When Qin Yuan saw these people, he smiled, patted his chest and said:

"Isn't this what we people should do? It's just a matter of duty, don't thank me so much!"

But even though Qin Yuan said so, they were still extremely grateful to Qin Yuan. After all, how much risk Qin Yuan had taken just now, they all saw it in their eyes, this is a true birth and death!

Dujuan on one side also looked at Qin Yuan with complicated eyes. She deliberately expressed her gratitude to Qin Yuan like everyone else, but she was a little bit overwhelmed with this bend in her heart. But on the other side, Wu Zhen on Tuesday. The cuckoo pushed over directly, and directly pushed to Qin Yuan's front, hehe smiled and said to Qin Yuan:

"Come and come, Du Juan, you have to thank Qin Yuan, if it weren't for Qin Yuan, I wouldn't be able to think of a way to save you, and this time Qin Yuan took a big risk. He almost didn't hold back when he left the warehouse!"

After hearing this, Du Juan's eyes flashed with worry, after all, in the deep sea, if he didn't hold his breath, he would be squeezed to death!

So Du Juan directly said to Qin Yuan:

"Thank you this time..."

"Huh? What did you say? I didn't hear it!"

At this time, Qin Yuan deliberately pretended to be like this and said to Cuckoo, but after Cuckoo stared at Qin Yuan, he said loudly:

"thank you!"

This voice almost deafened Qin Yuan's ears, and after a few steps back, he looked at Du Juan with horror, and when he saw Qin Yuan's appearance, Du Juan suddenly laughed!

And everyone was taken aback first, and then they laughed together!

slowly leaving due to the pressure of death, the whole boat regained joy.

But at this moment, the correspondent on one side rushed over and said to Tue Wu:

"Report, we detected a strange submarine not far away!"

Chapter 686: an eye for an eye

Hearing such words, everyone was taken aback, but Wu quickly reacted on Tuesday and said directly in a deep voice:

"Be prepared for the battle, it seems that we have found the kid who just played the prank!"

After hearing this, everyone sighed. Had it not been for Qin Yuan just now, I am afraid that the entire army of their expedition team would have been wiped out!

However, Liao Yong, who was on the side, reminded Wu on Tuesday:

"Lao Zhou, don't be arrogant, and see what the other party's background is. If the other party doesn't mean to be provocative, we cannot be impulsive!"

Hearing this, on Tuesday Wu also nodded with an ugly face. Although it was said that this was already public waters, his words and deeds on Tuesday still represented Yan Nation. If he did launch an offensive, which country would the opponent be? As for the submarine, once this matter spreads out, it will be an uproar!

What's more, they are on a submarine, not to mention whether they can beat each other. Even if they can beat each other, their submarine can hardly guarantee that they are not damaged. Submarines are more like ghosts. , Used as an assassin behind, instead of a face-to-face attack like this.

On the other side, Tang Zhou said helplessly:

"Then we can only bear this tone?"

"If the identity of the other party cannot be determined, that's all there is to be..."

The cuckoo on one side also said helplessly.

Hearing such words, Tang Zhou's face suddenly became even more ugly, and Qin Yuan on one side saw him like this, but directly patted the other's shoulder and said lightly:

"Well, don't be so unhappy. We are soldiers after all. Soldiers have to obey the orders of superiors. They are not ordinary knights. You can do it with your hands."

"But I am not reconciled!"

At this time, Tang Zhou said to Qin Yuan in a deep voice, and Qin Yuan smiled slightly when seeing the other's eyes:

"I'm not reconciled, so I must figure out who the other party is this time. You don't need to do it this time, but I will definitely let the other party come back!"

Hearing this, Tang Zhou nodded and said to Qin Yuan:

"When you make those \*\*\*\* pay their debts, remember to call me!"

"it is good!"

Qin Yuan also agreed in a deep voice, but seeing this situation, the cuckoo on the side walked directly to Qin Yuan's side and whispered to Qin Yuan:

"Sure enough, it makes sense to let you be the captain. Otherwise, I really don't know how to convince him."

Du Juan also had a certain understanding of Tang Zhou's information and understood Tang Zhou's special identity. If Tang Zhou really made trouble, they would really not be able to deal with it.

It's just that Qin Yuan looked at Cuckoo with a surprised look, and Cuckoo looked at Qin Yuan in shock, and said to Qin Yuan:

"Hey, you don't really want to write down the other person's identity and take revenge?"

Qin Yuan twitched, and looked at Du Juan coldly:

"Although I know what should be done and what should not be done, I will try my best to do what I have said. This time I can bear it down temporarily because of everyone, but as long as the other person dares to show up, I will definitely let the other person pay. cost!"

Seeing Qin Yuan's appearance, Du Juan also understood that what she said just now had already angered Qin Yuan, so she lowered her head and said to Qin Yuan:

"Sorry, I shouldn't have said something like this, it's just...you only have two people, so what..."

Qin Yuan looked at Du Juan and knew what the other party meant. No matter what the other party's identity was, without the protection of the state, Qin Yuan and Tang Zhou would definitely not be able to kill this force that could afford to drive a submarine!

"You don't have to worry about this. Since I said what I said, I will try my best to solve the trouble. Now I ask you to help me. That is to send a message to the other party first, and then determine who the other party is. Maybe these people are pirates, then I will be relieved!"

Qin Yuan said with a sneer.

Although facing a big killer like a submarine, a single individual is very powerless, but isn't this the meaning of the existence of special teams like Qin Yuan?

...

At this time, a few nautical miles away, in a submarine, a staff officer said to a middle-aged man:

"Captain Arthur, are we going to attack that submarine?"

But this middle-aged man named Arthur sneered:

"The submarines in this sea area, except for the island country, are Yan Nation. We all know the submarine frequency band of the island country, so this must be Yan Nation. Forget it, let's go. Anyway, the other party has eaten one this time. Secret loss, the current Yan Nation is no longer the one that can be used at will. We still have our task to leave this sea area."

But upon hearing this, the staff officer on the side groaned:

"Captain Arthur, but in this way, aren't we going to give up the 303 submarine to each other?"

But Arthur's mouth twitched, but he said angrily:

"It's all those stupid guys. They have to stay hidden. We found this legendary submarine based on the information from the island country a day ago. Instead, we let the people of Yan country contact us first and made it like this. , What shall we do? Shall we drive a warship to dig this submarine?"

At this time, Arthur's heart was also full of depression. After all, the location of this submarine was too clever. It was not far or close to Yan Country's waters, just within the range of Yan Country's shore artillery.

If they really wanted to send a large salvage vessel to salvage this submarine, 100% of them would be discovered by the people of Yan Nation, so they wondered if they could use the submarine first to remove the submarine from the legendary search. Sea area.

But they had just completed the test, before they had time to do it, they were discovered by these Yan people.

But Arthur's idea just now was to do nothing, and simply blow up the submarine, so that none of them can get it!

But the people of Yan Kingdom came too fast, they could only leave a torpedo on the 303 submarine, and they had no choice but to leave here.

It just made Arthur a little surprised that this torpedo should have been exploded a long time ago. Why did these people of Yan country seem to have lost nothing?

But this is not an important thing to Arthur. After all, he arranged this torpedo, that is, the matter of raking and hitting rabbits. It is enough to cause the Yan Guoren to lose. If it can't damage the other party, There will be no problem, after all, they have failed this mission.

"Hmph, this time the matter must be passed on, so that the lords who are in the office of the military will know that old saying of the Yan Kingdom, the soldiers are very fast, let's go!"

At this time, Arthur directly ordered, and then the submarine slowly withdrew from the sea.

On Tuesday, Wu saw that the other party's submarine had withdrawn from the instrument, and his face was slightly better.

Although it was a boring loss this time, if there was a fight, the loss would be more than that.

On this side, Qin Yuan saw what Tuesday Wu looked like, but he whispered: "Did you figure out the identity of the other party?"

"It looks like the Seawolf-class submarine of the Lighthouse Country, hehe, these guys use the public waters as their back garden, and they wander around here from time to time!"

On Tuesday, Wu Man said mockingly, and upon hearing this, a glimmer of cold light flashed in the eyes of Tang Zhou and Qin Yuan.

On Tuesday, Wu also felt the atmosphere was wrong, and said quickly:

"Hello, I just said that. Without testing, I don't know what the identity of the other party is, maybe it's just a little similar."

"What are you doing so nervously? I just think this is very interesting. If it is a submarine in the lighthouse country, I will know if you ask the people from the lighthouse country."

Qin Yuan said with a sneer, and when he heard this, Tang Zhou nodded in agreement.

"Okay, since the other party has gone, let's take a look at the 303 submarine again."

Qin Yuan didn't want to discuss this matter in depth, and directly talked about the purpose of this time.

"Ah? There was something like that just now, do you want to go out now?"

At this time Dujuan was also shocked, but Qin Yuan said with a smile:

"Why, afraid? Don't worry, I will go with you this time. At that time, even if there is any danger, I will rescue you."

But Dujuan flushed, and said with a bit of anger and anger:

"Whoever is afraid, go and go together!"

But Liao Yong, who was on the side, frowned and said:

"It's not okay. This matter is not a joke. There was an accident like that just now. We were lucky enough to be rescued by Qin Yuan. Who knows if the other party has set up other things, Wan First, if there are other hidden dangers, even Qin Yuan will not be able to save us."

Hearing this, everyone else nodded in agreement. Although Qin Yuan is more powerful, Qin Yuan is also a person, not an omnipotent god, not to mention that this is still in such a deep ocean, once something happens. , It is really difficult to solve.

But Qin Yuan said to Liao Yong:

"It doesn't matter, leave this to me, I can assure you that I will bring you back safely!"

"Yep?"

Hearing this, everyone suddenly looked weird. They didn't understand where Qin Yuan's self-confidence came from?

However, Qin Yuan smiled slightly. The dangerous situation just appeared was actually because he did not follow. If he followed, he might have discovered the danger long before the torpedo exploded.

And this time Qin Yuan followed the past with his own thoughts. He wanted to see where the fragment of the torpedo explosion was made.

As the saying goes, Qin Yuan will not wrong others, but will not let any enemy go!

"Well then, I can let you guys try it out. Originally this was our job."

At this time, Liao Yong said directly to Qin Yuan, intending to take another risk. After that, although the faces of the other scientific research teams were ugly, they did not say much. After all, the people who were able to participate in this mission were one by one. They all put life and death aside, but withdrew because of this danger.

But Qin Yuan saw this situation, but said to Liao Yong:

"Oh, forget, I only plan to go with Dujuan this time. After all, if there are only two people, no matter what goes wrong, I can quickly rescue people, but if there are too many people, I There is no guarantee."

"Yep?"

Upon hearing this, everyone was shocked again.

"Hey, what are you guys thinking? Why do you have to drag me?"

Du Juan said to Qin Yuan in an angry manner, but Qin Yuan winked at Du Jian and replied:

"There is no way, after all, I know you best. If it's not because I don't know how to operate, maybe I will pass by alone!"

When Liao Yong heard this, he said directly to Qin Yuan:

"Otherwise, let me come. Du Juan is a \*\*\*\*\* after all. This action may be dangerous."

And when he heard this, Qin Yuan shrugged his shoulders. In fact, his current spider induction didn't feel any danger at all. This also meant that there would be no accidents in this action.

And even if there was an accident, Qin Yuan still had a lot of grids left, no matter what happened, Qin Yuan was sure to bring people back.

So this time the task is to look thrilling, but in fact it is quite sure!

"Huh, no, I will go! Leader, although you are a senior, in this respect, I am better than you."

Du Juan at this time said directly, and when he heard this, Liao Yong wanted to say something, but Jiang Xiaoyu, who was on the side, put it directly in Liao Yong's ear and said something to Liao Yong.

After hearing Jiang Xiaoyu's words, Liao Yong suddenly realized, and then looked at Du Juan and Qin Yuan with a strange look, and then shook his head a little entangled.

When Du Juan saw that Liao Yong finally agreed, he didn't say anything anymore, and quickly went to prepare.

However, Zhang Yuanyuan, who was on the side, was extremely curious. She quickly caught Jiang Xiaoyu and asked him:

"What did you say to Liao Yong just now Why did you suddenly show that strange expression and agree directly?"

But Tang Zhou chuckled, and said lightly:

"He said that Qin Yuan and Du Juan are interesting. According to what he knows about Qin Yuan, since he dared to take Du Juan this time, there is no danger in 100%. Don't let him be the light bulb!"

"Huh? Really?"

At this time, Zhang Yuanyuan looked at Qin Yuan and Du Juan with surprise. Although she was also a female, she did not have much sensitivity to such things.

On one side, Dong Shen shook his head helplessly:

"Please, you should have seen this from the beginning! What about the special forces' keen observation?"

"I....."

Zhang Yuanyuan is also a little helpless, she really doesn't understand this kind of thing.

Chapter 687: The truth of the legend

But Jiang Xiaoyu was a little bit frowning, and said to Tang Zhou:

"Hey, I'm already so quiet, how did you hear?"

"Inner power, ears and eyes are clear, and I didn't hear it on purpose. Why, do you have any comments?"

Tang Zhou smiled and said to Jiang Xiaoyu, but Jiang Xiaoyu saw the appearance of each other and remembered when Tang Zhou and Qin Yuan were fighting, but he smiled and couldn't speak.

On the other side, Qin Yuan and Du Juan are ready to explore the mysterious 303 submarine again.

The two of them once again got on the detection instrument and went directly out of the submarine. At this time, Qin Yuan, looking at the faintly lighted seabed outside, felt the body of the cuckoo, trembling slightly. With a light smile, he said to the cuckoo:

"If you are scared, I will go alone, and you can control me remotely."

But after hearing Qin Yuan's words, Du Juan didn't tremble instead, and said to Qin Yuan angrily:

"No, what should I do if there is a problem with the remote control? Then the communication is broken, and I can't contact you. Isn't it more worrying? Why not be with you!"

Qin Yuan was a little stunned when he heard this. In fact, he brought Cuckoo over. In addition to letting Cuckoo command him, it was more ridiculous. But now after hearing what Cuckoo said, Qin Yuan was I heard another meaning.

And Dujuan seemed to have noticed that he had said something wrong, his face flushed immediately, and he said to Qin Yuan quickly:

"You...Don't get me wrong, I didn't choose to be with you because I was worried about you, but...I was worried about not being able to complete the task, you...who would worry about you...so capricious, I can't listen at all Go in other people's suggestions..."

But Qin Yuan heard this, but a smile wafted from the corner of his mouth, and he said to the cuckoo:

"Okay, don't say anything, I understand, I understand..."

"You...do you really understand?"

Dujuan looked at Qin Yuan suspiciously, wondering what Qin Yuan understood when he understood it.

I understand that I am not worried about him, but I understand that I am worried about him...

Cuckoo is also a bit entangled this time, do I want to let Qin Yuan know, or should I dislike this guy as a fool?

However, Qin Yuan did not continue to speak. The two men once again fixed the instrument on the 303 submarine and probed the past. Du Juan said in surprise:

"According to the data, this submarine has just sunk here for less than two months. It seems that there are some traces of life in it!"

This time Qin Yuan has also become more serious. If this submarine has only been sunk here for two months, this matter will be a little bit off!

After all, the legend of the 303 submarine has not been passed on for a year or two, but not long ago, there were traces of life here. Doesn't this mean that this submarine has already been discovered?

"There is no water in the submarine, let me go down and take a look?"

Qin Yuan directly asked Du Juan, and upon hearing this, Du Juan subconsciously wanted to refuse. After all, although the submarine is still intact, its actual age is not known. It is obvious based on the shell. It existed during the bear period.

An old-fashioned submarine like this, even if it can still be used, does not know what kind of danger there will be. If something goes wrong, it will be finished!

"It's absolutely impossible. This submarine is a nuclear submarine. As long as we recover it, we will have completed the mission. We don't need to detect what's inside!"

Du Juan said to Qin Yuan solemnly, but Qin Yuan's face was even more ugly, because he had already heard the voice in his mind:

"Ding Dong, the system releases the task, the host observes the 303 submarine, and figure out the 303 submarine, the mystery of the ghost name! Award a grid."

Now Qin Yuan wants to go on even more. Although Qin Yuan can wait, who knows when this matter will be completed, and there is only one grid task, which is enough to prove that this task is not actually considered as such. difficult.

After all, the task of rescuing the cuckoo just now had three tartans, but this task had only one grid. Explain that the situation just now is much more dangerous.

Qin Yuan just now is indeed more dangerous. There is an unknown submarine in the distance, and it is still under such deep pressure. Even if he has various swimming skills, he can't use it, which is Qin Yuan's luck. Better, he ran into a small deep-sea fish who knew nothing about life or death, otherwise Qin Yuan would really become a mouse pulling a tortoise, and he would have no way of starting!

"Don't worry, trust me, I always think there is something amazing in it, trust my intuition, I will definitely be fine!"

At this time, Qin Yuan said to Du Juan very sincerely, and Du Juan saw Qin Yuan's eyes, and his heart softened. He couldn't say anything to persuade him.

Du Juan took a deep breath and said to Qin Yuan:

"Although I don't know why you have such a big obsession, you must go down and take a look, but if this is the case, then you must promise me that you will definitely come back safely! Otherwise, I will go down and look for you. Do you understand? The two of us are going to perform this task together, we absolutely must be together!"

Qin Yuan smiled when he heard this. He already knew the other party's determination, so he touched the cuckoo's hair and said to the other party:

"Okay, then I promise you, if I can't come back, you will go down and find me!"

With Qin Yuan's assurance, Dujuan is not blocking Qin Yuan, but instead prepares Qin Yuan'er with the equipment that should be worn. Although these equipment are not very useful if something goes wrong, how much protection is there? Not much.

After that, Qin Yuan also carefully followed the open channel together, and slowly descended into the 303 submarine. This time Qin Yuan directly activated his spider to the maximum. After all, in this strange environment, he said that the danger is indeed It is very dangerous. Since he has agreed to Dujuan, then Qin Yuan must go back alive, not to mention that Qin Yuan himself has not lived enough!

As Qin Yuan cautiously entered the cabin door, opened the external drainage channel, and truly entered the inner space of the 303 submarine, he actually found that there was still a lot of air in the 303 submarine, just like before. Like the submarine!

Even Qin Yuan was a little surprised at this time, although this submarine is a nuclear submarine, normally speaking, it has unlimited power.

But the submarine can sail infinitely, but the people on the ship cannot sail infinitely. After all, the people in the submarine consume a lot of materials. These materials, the submarine is absolutely impossible to be self-sufficient!

After Qin Yuan went down slowly, he carefully observed all the surrounding instruments and found that although these instruments had become very old, they were still usable.

At this time, Qin Yuan couldn't help but sigh, although Big Brother's weapons are famous for their durability, but you are too durable!

The existence of this submarine is less than 30 years, and after these 30 years, it is obvious that this submarine has not undergone many inspections, but it can still be used now, which is a bit scary!

But Qin Yuan only sighed for a while, and then moved on. He did see some traces from the corridor of the submarine.

But as he walked, Qin Yuan was suddenly startled, because the radar system he turned on had already seen the bones of something in front of him!

At this time Qin Yuan was wearing protective clothing, and he was also carrying oxygen. With such a device, Qin Yuan naturally could not directly absorb the air in the cabin. After all, the oxygen content in the cabin is different from ordinary air, so the West also There is no way to smell what is in the air.

At this time, if Qin Yuan took off his oxygen device, he would be able to smell that there was a rotten smell in the cabin.

Sure enough, just after a corner, Qin Yuan saw a corpse. It was obvious that it belonged to a human.

As he kept moving forward, Qin Yuan saw more and more bones.

I don't know how long these bones have been here, most of them are almost decomposed, but Qin Yuan checked these bones and found that most of these bones were hit by a blunt weapon and died.

At this time, Qin Yuan's face also became a little ugly, because he found that most of these bones were dressed in fur bear clothes, and he slowly had a guess in his heart.

And as Qin Yuan moved forward, he finally arrived in the captain's room, and it took a lot of effort for Qin Yuan to open the captain's room, and then Qin Yuan saw everything in the captain's room. It was completely silent.

Because there is an old man who seems to be seventy years old in the captain's room.

Of course, this old man is dead, he is wearing a bear uniform.

This very burly military uniform, presumably this old man, must be very beautiful when worn when he was young.

But now this military uniform has shrunk on a thin, dry old man, which makes people feel a heartfelt shock and desolation.

At this time, Qin Yuan discovered that there were some diaries on the side. After checking it carefully, Qin Yuan figured out why this 303 submarine was called a ghost submarine.

After seeing the contents of the diary, Qin Yuan was also completely silent.

As Qin Yuan guessed, this submarine was not hijacked by some pirates, but has always been in the hands of these former Soviet soldiers.

When they were on a traditional cruise mission, after returning, they found that their country had disappeared. They wanted to return to Hong Kong, but couldn't find a place.

Although there are various people who want their submarine to return, the captain named Andorf refused all of them.

In his own way, as a soldier, he is absolutely impossible to put down his weapons easily before figuring out what happened, and this submarine belongs to Andorf's weapon!

Andorf always thought that some problems occurred in their country, but their great motherland would definitely be able to solve these problems, so he left an encrypted code for the people in the command, only through this encrypted code. To be able to contact them.

But what happened next completely exceeded Andorf's expectations. He didn't expect that the behemoth-like empire would really disappear.

Although Andorf's nuclear submarine was a very important strategic weapon, at the time, the bear country sold everything, not to mention this nuclear submarine that needed a lot of contact.

So the nuclear submarine, Andorf, can only wander in the deep sea. They have established a subsea base and stored certain supplies, but they have no way to contact outsiders. The less the supplies are used, they will soon become Can't hold on anymore.

After all, the soldiers in the submarine cannot live in this submarine forever. Many people could not hold on to this pressure and committed suicide directly.

But Andorf was abruptly pushed down. Although things around him became less and less, Andorf was still alive.

It's just that Andorf's spirit has indeed become more and more chaotic. He doesn't know the meaning of what he is doing, he just cruises according to a certain range.

Even before he was dying, Andorf also set up a special program, as long as the submarine was still moving, it would cruise in a certain range.

At this time, Qin Yuan looked at Andorf, who had not known how long he had been dead, and slowly saluted the opponent. Although Andorf's approach may not be considered correct, this guy persisted. As a soldier's choice.

Andoff recorded in his diary very clearly, they thought that such a major event in the country would definitely break out of rebellion, they wanted to be the last shield of the country, once it was in the country. When people contact them, they will use the weapon of this submarine to become a decisive force.

It's a pity that Andoff waited until he died, and no one came to contact them.

So if Qin Yuaner and others hadn't discovered this 303 submarine, I'm afraid this matter would only be immersed in this deep ocean!

This so-called ghost submarine really has a group of ghosts living on it.

The bones that Qin Yuan looked at also felt a little heavy in his heart. Although there was a voice in his mind, proving that Qin Yuan's mission had been completed, Qin Yuan still did not have any joy!

Because of such things, Qin Yuan had also heard of it in Yan Country.

It is said that there is a soldier who is stationed in the arsenal. In those special times, those young people who become fanatical want to attack the arsenal and get weapons.

But the soldier at the time just insisted on his duty, and even launched an attack on those outside!

There were a lot of people who died at that time, and this soldier, the final result was not good, because the superior had no instructions, he stayed in this post until he died.

without any honor, without any ripples, just died like this.

Qin Yuan sighed softly at this time, he looked at Andoff in front of him, put the opponent's military medal that had fallen on the ground on the opponent's body, and then took the diary and left from here.

Chapter 688: Drive the submarine home

Looking at the diary, Qin Yuan was silent for a moment, and directly recovered the diary into his grid.

"Ding Dong, the host gets the Andov Skaalowski Identity Card."

"System extraction skills."

"Ding Dong, please start choosing the host!"

"1, get world-class Ukrainian!"

"2, get world-class submarine driving skills!"

"3, get world-class fighting!"

"4, get world-class tenacity!"

Looking at these options, Qin Yuan also took a long sigh. In fact, there are no skills worth recalling in this identity card, but Qin Yuan just wanted to use this method to commemorate this An embarrassing soldier.

But since it has been recovered, Qin Yuan naturally wants to choose a skill, so he hesitated a bit, Qin Yuan just made the choice directly.

"System, I choose the fourth item."

"Ding Dong, the host chooses to succeed and obtains world-class tenacity."

With this voice, Qin Yuan felt a cold feeling in his brain, but this time the system's enhancement to Qin Yuan was not very obvious, but Qin Yuan quickly reacted. It turned out that my own will was already close to world-class, even if it was still a little worse, it was not much worse.

So this world-class tenacious will, the system does not strengthen him much.

But at this time, a voice suddenly sounded in Qin Yuan's mind. He seemed to have seen a middle-aged soldier, waved his hand at him and complained, but Qin Yuan did not hear clearly, and then this The middle-aged soldier seemed to have completed an important task, unloading the burden, and then slowly disappeared.

And when Qin Yuan opened his eyes again, he found that the military medal on the corpse had fallen to the ground again, and the corpse in front of him did not have the shocking aura it had before.

Qin Yuan breathed a sigh of relief. He knew that this was actually just his own illusion, but he was willing to believe that the soldier in front of him finally let go of his obsession.

Then Qin Yuan checked the various data in the submarine and found that the submarine could still be used.

Moreover, this submarine also has a lot of weapons and a nuclear reactor. These things are naturally very important. Qin Yuan wondered if he could drive this submarine directly, and save the salvage personnel!

But Qin Yuan scratched his head a bit after taking a look. Although he knew the various instruments in the submarine, they were all recovered with skills. He actually didn't know how to drive a submarine.

Therefore, Qin Yuan directly initiated a communication with Du Juan, and informed the other party about the things here. If he wanted to let the other party see, could he think of a solution?

And Dujuan was completely stunned when she heard this. She didn't expect that this submarine was really like a ghost.

So, the news soon reached Tue Wu's side, but when Tue Wu established contact with Qin Yuan, he was a bit dumbfounded.

"What's the matter, Lao Zhou, aren't you a captain? Don't you know how to drive this submarine?"

At this time, Qin Yuan could also feel that there was something wrong with Tue Wu, so he directly asked the other person, but Tue Wu looked at the various pictures from Qin Yuan, but said helplessly:

"Don't worry, I... I will take a look first!"

"I'm going, what's there to see here, if you can, if you don't, you won't, this is not something that you can know at a glance, or you just come and have a look?"

At this time, Qin Yuan said to Tue Wu speechlessly, but Tue Wu replied with some helplessness:

"This is a Soviet submarine. Many things that operate are different from my submarine, and this thing is so old, who knows what's wrong with it? After all, if this thing is movable, how can it drift at will? "

At this time, the people around him nodded in understanding when they heard what Tuesday Wu said, but Qin Yuan was completely helpless, and said directly to Tuesday Wu:

"Okay, I know, I don't rely on you, I will find a solution by myself!"

"You solve it? What can you do? I think the safest way is to salvage the boat to get this submarine up. You know, this thing is a nuclear submarine. If anything is wrong, it's caused. Some of us can't afford to harm us!"

On Tuesday, Wu heard what Qin Yuan said, but he said something unconvincing, and Liao Guang on one side also gave Qin Yuan'er a piece of comfort:

"Qin Yuan, I think what Lao Zhou said is right. This matter is not trivial. Let's come back first and discuss it in the long run!"

But Qin Yuan sighed slightly when he heard the words of the two of them. He looked at the corpse sitting on the captain's room and said lightly:

"Just let me be willful this time. I look at this man named Andoff and I always feel suffocated. I see if there is any other way. If there is no way, you will send a salvage boat. Come here not too late."

Hearing such words, on Tuesday Wu and Liao Guang looked at each other immediately, but in this situation, if Qin Yuan is unwilling to come back, they would not be able to give serious orders directly.

"Well, you can give it a try first, but be careful."

After hearing this, Qin Yuan nodded slightly, and then hung up the communication.

At this time, Qin Yuan also regretted a little bit. Just now, he directly chose a tough will that is not very useful, but did not choose to drive in a submarine. This is indeed a bit misguided.

But soon, Qin Yuan thought of another way, and then searched for it among the entire submarine.

After all, Andorf's identity card has been absorbed by himself, but Andorf is not alone on this submarine.

Although other people are not as determined as Andorf, these people are also heroes, so Qin Yuan directly looked for them, wanting to see if there are other people's items that can be recycled.

After searching for a while, Qin Yuan suddenly found a book, and Qin Yuan's eyes suddenly brightened!

Because this book is about submarine posture!

And this book will fall into the body of a corpse, which is already a little damaged. Qin Yuan glanced at the corpse. According to the characteristics of the corpse, some accidentally discovered that this person was probably not old when he died.

But these are not important anymore, Qin Yuan carefully recycled the somewhat corrupted book directly into the grid.

He has some doubts whether this kind of thing is useful.

Fortunately, the system did not disappoint him, and the familiar voice rang again.

"Ding Dong, the host recovery is successful, please start choosing!"

"1, get world-class confetti manufacturing!"

"2, get a world-class collection of ancient books!"

"3, get a world-class submarine pilot!"

And seeing these three options, Qin Yuan is also a bit grateful. It is obvious that the book is almost rotten. This is that the first and second options are useless. Fortunately, this is the most important one. The item remains.

"System, I choose item 3!"

"Ding Dong, the host chooses successfully and gets a world-class submarine pilot."

With this voice, Qin Yuan passed a burst of data in his mind, and then he became familiar with the submarine.

Insert a sentence, the book-chasing app I am using recently, [ Resource Artifact ] Cache reading, offline reading!

Looking at the various instruments around, Qin Yuan suddenly felt that his submarine driving ability was probably aimed at this submarine.

Then Qin Yuan started to go to the captain's room and began to think of a way to start the submarine.

After all, a submarine is such a huge thing, it is not like an instrument such as a car or a boat, which can be operated by one person, but now Qin Yuan really has no choice but to start using various instruments by himself.

Fortunately, Qin Yuan's speed is very fast, and there are not many of these instruments that need to be carried out at the same time. Although it took some effort, Qin Yuan still let this behemoth that did not know how long it was silent, Roared.

At this time, on the side of Wu and Liao Guang on Tuesday, they looked at the slowly rising submarine, but they were completely shocked:

"I'll go! How did this kid do it?"

And those crew members around are also full of endless surprises. After all, they are all professional personnel, knowing that this submarine can not be driven by one person.

But Qin Yuan actually drove the submarine out by himself!

But after being taken aback for a while, on Tuesday Wu quickly reacted and said directly to the other crew members:

"What are you still doing? I quickly escorted this ship. After all, this old antique really doesn't know how long it took. I am afraid that it will be completely finished if it bumps into one!"

And Qin Yuan is also carefully controlling this submarine. What Wu said on Tuesday was correct. The time of this submarine was too long, and Qin Yuan did not know what would happen to this submarine.

But since getting the submarine to drive, Qin Yuan can feel that his spirit seems to be attached to this submarine, no matter what happened to the submarine, he can feel it.

So Qin Yuan was not terribly scared. After all, even if this submarine was broken, it would not pose too much threat to him. He would always leave him a chance to escape.

But the current situation of grandpa crossing the road makes Qin Yuan a little helpless. Although this submarine has a strong heart, his body is completely dead.

Anyway, this submarine can only move slowly, so when Qin Yuan was bored, he began to observe various data in the submarine.

To be honest, some functions of the submarine this time are indeed very good, even after so many years, they are still out of date.

But Qin Yuan is not in a hurry. After all, this knowledge can be dismantled soon after driving the submarine.

Just looking at it, Qin Yuan remembered that Andorf said that they still had an underwater base, but according to Andorf's statement, the base was already empty and there was nothing left, otherwise. We can continue to hold on for a while.

To start a submarine, at least ten people are required. Although Andorf designed various mechanisms, but it was remotely controlled, it was inevitable that there were various errors and accidents. So soon, Andorf parked this submarine. A certain position.

So that underwater base was also abandoned, but Qin Yuan was slightly interested, and noted the location of this underwater base.

.....

Two days later, Qin Yuan finally drove the master-class submarine to the surface, and the people on it had already prepared a large number of rescue and ships, and did not intend to let the submarine continue to start. After all, the most difficult Qin Yuan has already helped them complete the part, and then they only need to tow the submarine back.

And this time Qin Yuan made great achievements in the city, and Zhang Commander looked at Qin Yuan, really didn't know what to say, he watched Qin Yuan for a long time, and finally said helplessly:

"In fact, at the beginning, I didn't want you people to participate in this mission. After all, although you are elite fighters, you don't know much about submarine technology. I still want to know. Will

you make any trouble, but now I find that I am indeed a bit outdated. The waves behind the Yangtze River are pushing the waves forward. Talents like you will be unexpected wherever they are placed."

At this time, Qin Yuan'er also showed a smile when he heard this, tells the truth. Although this action was not a long time, Qin Yuan was very impressed. He looked at Commander Zhang and said directly to the other party:

"Hey, Commander Zhang, I actually don't have any other requirements. I just hope that we can bury the bones in the submarine, see if we can contact each other's family, and then send them home."

And when he heard Qin Yuan's words, Commander Zhang was also a little melancholy. As an old soldier, he had naturally heard of similar things, but he had heard of it, and this time he saw these elite fighters of Big Brother with his own eyes. In this submarine, they could not stop sighing:

"You don't need to worry about this, we will definitely complete this matter successfully, oh yes, President Lei asked me to ask you how well the soldiers are training, can you perform the mission?"

the same?

Qin Yuan heard this, and remembered the old principal lying on the bed again, shook his head and said:

"Even though a lot of things have been experienced this time, these people can barely obey me. I just squeezed them into a mass of mud and sand. If they encounter any irresistible difficulties, they will fight for themselves. , But if Headmaster Lei has any tasks, he can give orders directly, and I will overcome any difficulties."

When Commander Zhang heard this, he smiled slightly and said to Qin Yuan:

"Lao Lei wants you to represent Yan Nation in a military competition, but I just heard that you need to talk about specific things yourself."

Chapter 689: doubt

Yep?

Hearing this, Qin Yuan's expression was a little weird. Not only did he tell the same thing, Gao Shiwei said it to him before, but later it was delayed by other things. Until now, Qin Yuan didn't know where and when the match was held this time.

"Okay, I see you, but I don't know about this. Go back and ask, these days, you should take a good rest."

At this time, Commander Zhang saw Qin Yuan's appearance and didn't ask much, but turned his head and left.

While Qin Yuan looked at the distant figure, he had some doubts in his heart. What did they mean to let Qin Yuan participate in this competition?

But Qin Yuan gave up in the end. If these people want to tell him, they will naturally say it, but since these people don't say a word, it proves that they don't want to tell him at all.

"Forget it, it doesn't matter if the soldiers come to block it and the water comes to cover it."

Qin Yuan waved his hand and turned and left.

And this time the mission is over. Qin Yuan has a full ten days of vacation, and Qin Yuan hasn't planned yet where he will go these days.

But at this time, Qin Yuan saw his teammates, watching Jiang Xiaoyu and Xiang Yu walking together, Qin Yuan directly rushed up and pressed directly on the two of them. He said to the two:

"How about, where do you plan to relax these few days? Let me talk about it first. The superior seems to have a more important task to hand over to us. Take advantage of this opportunity and have fun, otherwise there will be no such opportunity in the future. Up!"

But after hearing Qin Yuan's words, these two people looked at Qin Yuan strangely.

And Qin Yuan also felt the weird eyes of the two, and suddenly asked a little strangely: "Why, is there something wrong with what I said?"

"Uh, boss, haven't you thought about why you will give us such a long vacation this time?"

At this time Jiang Xiaoyu asked Qin Yuan directly, and Qin Yuan thought about it a little when he heard this. According to the normal situation, it would be a week's holiday at most, but this time it was directly extended. For 10 days, this is indeed somewhat unexpected.

"What the \*\*\*\* is going on? Just tell me if you have something to say?"

Seeing that Qin Yuan still doesn't understand until now, Xiang Yu said helplessly to Qin Yuan:

"Because these few days are when the Mars competition officially starts, Captain Dragon knows that several of us have completed the task, and it happens to ask us to participate in the Mars competition together!"

"Yep?"

Hearing this, Qin Yuan suddenly realized that, if this is the case, it is indeed more appropriate. Before he participated in the submarine mission, the Mars competition was approaching.

Originally, Qin Yuan thought that the Mars Contest was over when he came out, but he didn't expect it had just begun!

"This is a good thing, but why doesn't he give the order directly?"

Qin Yuan looked at the two people a little strangely, but Jiang Xiaoyu and Xiang Yu said to Qin Yuan a little seriously:

"Because our military status has now been transferred to this side, and it is no longer under Captain Dragon. Therefore, even if we want to go back, there is no way to get the above orders. We can only use the holiday. Help, and I have already asked, as long as we are invited, we can go to the Mars game."

"Okay, let's go and blend together and get this trophy back."

Qin Yuan confidently said to the two of them that he had already experienced the training intensity of the Mass Competition anyway. To win the championship under this training intensity, for Qin Yuan, it was simply three fingers pinching the snail. , Sure enough!

But this time Jiang Xiaoyu's eyes were even more weird, and he cautiously said to Qin Yuan:

"Boss, if you do not receive an invitation, it means you cannot participate in this competition."

"I can't go? Why?"

Now Qin Yuan's eyes widened, but the two of them shook their heads helplessly, and said to Qin Yuan:

"Of course we don't know about this, but both of us have already received this invitation letter. If you don't have one, then you may really not be able to participate."

And Qin Yuan directly snatched the invitation letter, which was indeed sent by Long Baichuan, using the identity of the military to invite Jiang Xiaoyu and Xiang Yu to participate in the Mars military competition.

"Damn, why don't you ask me to go? Why don't you ask me? If you don't want me, just ask the captain, this can't discriminate!"

After saying this, Qin Yuan was not calm, and directly called Long Baichuan.

, Long Baichuan, who was on the opposite side, seemed to have already made preparations. After receiving Qin Yuan's call, he didn't panic at all, and said directly to Qin Yuan:

"Hey, I finally can't bear it. I guess you are about to call."

When Qin Yuan heard this, he also said a little bit angry:

"Please, Dragons, what the \*\*\*\*\* is going on? I was not appointed to join Mars as the captain before, so why don't you let me participate this time?"

"Okay, this is not something I can decide. Don't be angry. Although this time your vacation is so long and there are reasons for me, I communicated with my superiors and they informed me that everyone else can participate this time. But you can't do it. I can't do anything. I can only give up your master."

At this time, Long Baichuan also felt a little regretful. After all, if Qin Yuan could participate in the Mars competition, then Mars' championship and warrior awards would basically be considered stable!

It's a pity that since the superiors ordered it to be banned, Long Baichuan can only give up this tempting idea.

"what is this?"

Qin Yuan was also completely stunned when he heard this. What was the reason? Why did the people above not let him participate in this mission?

And Long Baichuan saw that Qin Yuan seemed to be really troubled by this matter, and said directly to Qin Yuan:

"I am not very clear about these things. It seems that I want to give you some other special tasks, so I can't show my face for the time being."

"But if it's a task, then why can Jiang Xiaoyu and Xiang Yu participate?"

"This question is not clear. If you don't understand it, you can ask someone at a higher level. I think you should be qualified."

Then the two people exchanged for a while before they hung up the phone.

But after hanging up the phone, Qin Yuan directly heard a voice in his mind:

"Ding Dong, the system releases the task, and the host gets the opportunity to participate in Mars and rewards a grid."

After hearing this voice, Qin Yuan was even more dumbfounded. Originally, he felt that he had regretted not going to Mars, but now the system has added fuel to the fire, and another mission has been released!

And I don't know if it's his own illusion, Qin Yuan seems to feel that the system is a bit gloating this time, so he has to let him and the people above it stand!

But shook his head, Qin Yuan still intends to solve the matter completely first, so he directly dialed the same number:

"Hey, Principal Lei, why can't I go to the Mars competition?"

"Ahem, do you want to go to Mars?"

The same at this time, the voice was a little gloomy, but just hearing this voice, Qin Yuan just remembered the middle-aged man sitting on the hospital bed, looking at himself with a little scrutiny.

But thinking of the similarities, Qin Yuan also thought of Andorf, who has lived forever in the submarine. Although these two people have never seen them before, Qin Yuan feels that these two people are somewhat similar. In Andorf's position, it is bound to be able to do these things that Andorf did, and it is very possible!

"Yes, I want to go to Mars, you won't let me go, just give me a reason."

Qin Yuan thought of this, his heart was soft, and his original mood of wanting to play a rogue suddenly fell silent, and he directly asked the same.

"That's because there are other tasks for you to complete this time. It is impossible for you to participate in the Mars competition, but you can go to the island together as an entourage. As for the follow-up tasks, I will let others Sent to you."

The same voice spread directly, but Qin Yuan was taken aback when he heard this, but he quickly reacted, as if that was OK.

After all, the tasks in the system did not say that Qin Yuan must participate in the Mars competition. As long as he can board the island and participate in this competition, even if he is not a member of the Mars competition, he can not complete it. task?

"That's right, then I don't have any problems. I wish you good health. When I meet you next time, I will clean up your body again, but you must live well. Hey!"

Now that he got the answer he wanted, Qin Yuan directly hung up the phone after saying a few words to Lei Tong, while Lei Tong saw that he had hung up the phone, but was a little bit dumbfounded. He shook his head and said:

"I have never seen how many people hang up my phone first."

After hanging up the phone, the same person looked at the person in front of him, but asked:

"What do you think of Qin Yuan?"

"Very good, very powerful. Although I don't know how he got that special ability, I think he should be trusted."

The person in front of him said to Lei Tong indifferently, and listening to his tone, it seemed that he already had a certain understanding of Qin Yuan.

But the same thing saw the other side's appearance, and felt a little helpless in his heart, and said directly to him:

"Tang Zhou, although I know that asking you to do these things does make you a little uncomfortable, but we do have to go through a lot of review before we can completely absorb Qin Yuan. After all, he is different from you. If no one can be found, it is impossible to obtain these abilities based on the environment in which he grew up. Therefore, we still need to conduct a certain review on him before dispelling the suspicion of his spy."

That's right, the person standing in front of Lei Tong's eyes was Tang Zhou, but after Tang Zhou heard a passage, his expression remained unchanged, and he said directly to Lei Tong:

"Understand your difficulties, but I really hate this way. Although I have not known this person for a long time, I think he is a worthy friend. Such a person cannot be a spy. What you are doing now These things are just to satisfy the wretched skepticism in your hearts."

At this time, Tang Zhou seemed to be a different person, but he still helped Qin Yuan say good things, but after saying this, he turned around and left only one sentence:

"But don't worry, I will definitely complete my task. I will tell you about this guy's anomaly."

While looking at Tang Zhou who was leaving, the same sighed.

He didn't even know that Qin Yuan, a very powerful master, like this several times to investigate Qin Yuan, is a matter of disrespect for Qin Yuan.

And this kid Qin Yuan, I don't know what he is relying on. Every time he does a task, there will always be various monsters.

Although Qin Yuan relied on various abilities to solve all these things, but waited until the things were completed like the same person and re-replay, always feel very incredible!

Looking at Qin Yuan's operations, and seeing the reports of his subordinates, the group of them almost wanted to put Qin Yuan on the experimental platform, and take a look!

And Qin Yuan is actually going to reach into the weapon manufacturing industry now, this is a real national weapon.

There was a rumor before that when the lighthouse country produced nuclear weapons, the bear country did not complete the production of nuclear weapons, but there was a bear spy who hid all the data directly from the researchers of the lighthouse country. Steal it, and then send it for the bear country. This is what made the bear country quickly complete the manufacture of weapons!

This incident naturally caused an uproar. After all, such an important material can be stolen by an insider. This is a lesson for all countries!

Not to mention, the current situation of Yan Country in the world is in an eventful period. Suddenly, such an active Qin Yuan popped up, and he could not help others not to doubt it.

But if they really give up Qin Yuan because of this slight suspicion, they are also reluctant. After all, they have witnessed Qin Yuan's magical ability with their own eyes. If such a person can truly become one of them, it would be good for the country. The help must be huge!

That's why the same thing is to observe Qin Yuan with a variety of people while entangled.

"Qin Yuan, Qin Yuan, you are really a big problem..."

The sameness at this time rubbed his temples and said helplessly.

Chapter 690: bet

At this time, Qin Yuan certainly didn't know what the same thing was thinking, but if he knew it, he wouldn't care.

After all, Qin Yuan does not value power very much. If it were not for the military factory, Qin Yuan would not care about these things even more.

What Qin Yuan wants is to make a contribution to this country, so that the people of Yan Country can not be bullied in this world.

But if I think about it carefully, if Qin Yuan can have more rights in his hands, he can do more things...

But these are not important to Qin Yuan now, anyway, doing his own thing is enough.

Since I was going to see the Mars competition, Qin Yuan naturally followed him back to the beast camp. These days, Liu Xiaoshan and Deng Jiuguang, two veterans, led the training. Now they are very happy to see Qin Yuan. .

And after Zhang Chong and Lu Yan saw Jiang Xiaoyu and Xiang Yu, they were all extremely excited, and directly asked them:

"Wow, I heard that you drove a submarine back this time, is it true?"

And Xiang Yu didn't say anything, but Jiang Xiaoyu on one side said very excitedly:

"Of course it's true. Tell you, we drove back the legendary 303 submarine before. We didn't expect this to be Lao Maozi's submarine, and there are many Lao Maozi's corpses inside, that guy, For decades, the body has decayed!"

At this time, Jiang Xiaoyu was talking about the sky falling in disorder, and he stunned the other people for a while, and Qin Yuan saw Jiang Xiaoyu's appearance and shook his head helplessly.

At this time, Long Baichuan on one side said to Qin Yuan cheerfully:

"Finally, I am looking forward to returning you. To be honest, if you were to be separated, I still think you are not so safe this time! Fortunately, Xiang Yu and Xiaoyu are back, and you I also became a consultant. It is estimated that you will be able to win the championship this time."

Qin Yuan heard this and said directly to Long Baichuan:

"If you say this, it is estimated that the two veterans are not willing. I think after such a long training, this time the Mars competition will definitely be stable. Don't worry, I will definitely get the trophy back for you!"

"Hahaha, that's fine, then I will wait and see, in fact, we are going to leave soon, so I won't take you to fix it, take a good rest on the plane, oh, yes, this time the consultant You are not the only one."

Long Baichuan was also very happy to hear this, but he just mentioned something else.

"I am more than a consultant, who else?"

"Of course it is me!"

At this time, Shen Ge rushed over, smiled at Qin Yuan happily, and then said to Qin Yuan:

"This time I am your life consultant. If you are not fully prepared, you can tell me directly and I will prepare it for you."

"It turned out to be you, I thought it was some mysterious person, then I will ask you this time!"

Qin Yuan looked at Shen Ge and said happily. To be honest, he hasn't seen him in the past few days and found that Shen Ge's body seems to have improved a little bit.

And Shen Ge also noticed some of Qin Yuan's messy eyes, rolled his eyes at Qin Yuan anger, and said to Qin Yuan:

"But this consultant is more than the two of us, there is another one."

"Also? Who is it? What is going on in this game? Why are so many consultants sent?"

Qin Yuan is really confused at this moment. Although this Mars match is indeed a very important matter, it shouldn't be enough to send so many people over to watch it, right?

"it's me."

At this moment, a long voice came from behind Qin Yuan, and Qin Yuan turned his head and saw that it was Tang Zhou who was standing behind him. Now Qin Yuan's eyes widened, and he turned to Tang Zhou in disbelief. Said:

"What? The consultant turned out to be you, what are you going to do?"

"Hehe, in fact, you and Shen Ge are both consultants in our team, and this Comrade Tang Zhou is a consultant arranged by the superior. According to the level, although the three of you are equal, you must take good care of you. Comrade Tang Zhou."

This time Long Baichuan said with deep meaning, but after Qin Yuan heard this, he only frowned, puzzled.

But at this moment, Qin Yuan suddenly heard a voice in his ear:

"You don't really think that you are here to be this consultant, but don't forget, the superiors still have tasks for you!"

At this time, Qin Yuan was indeed completely shocked, because he heard this voice, which was the voice of Tang Zhou, but he glanced at Long Baichuan and Shen Ge, and found that neither of them had noticed. His eyes lit up suddenly, isn't this the legendary Thousand Miles Sound Transmission?

This is a good skill, whether it is fighting and picking up girls, it is very useful!

So Qin Yuan looked at Tang Zhou's eyes and suddenly changed. He felt that this person seemed to have a lot of abilities he didn't have, but he had to squeeze and squeeze it!

And Tang Zhou suddenly felt a little bit cold on his body, but he glanced at Qin Yuan strangely, and shook his head helplessly.

After the greeting, Long Baichuan directly enlisted troops, looked at these people in front of him, and said with a serious face:

"This time you participated in the International Mars Scout Competition. It is to compete with the best scouts in the world. I hope you can show off our Yan Country in this competition!"

"Yes, the chief!"

But after saying this, Long Baichuan turned his head and said directly to the others:

"Of course, these are not the most important. What is important is that you must let the world see the strength of our Yan Nation, and you must be united. I don't have high demands on you, but I want to win this competition. And bring me all the Warrior Awards!"

"Yes! Captain Dragon!"

At this time, the people who participated in this competition also had a smile in their eyes. For the champions of this competition, they were also very confident!

Soon, everyone was ready, and started to get on the plane to go to the competition site of this Mars competition!

In this Mars Scouting Contest, there are a total of 40 countries and more than 70 teams. It's also a grand occasion.

At this time, Jiang Xiaoyu saw Zhang Chong's a little nervous look, and he laughed and said:

"Bald, do you feel very nervous?"

"It's a little nervous, but are you not nervous? This is an internationally famous game."

At this time, Zhang Chongman looked at Jiang Xiaoyu strangely. After all, according to his impression, Jiang Xiaoyu was not a very bold person.

After hearing this, Jiang Xiaoyu showed a bit of wry smile. After experiencing the things in the submarine, it is indeed difficult for Jiang Xiaoyu to get nervous with these things.

"Well, no wonder that 100 training sessions are not as good as the last actual combat. I can see the gap between the two of us now."

At this time Jiang Xiaoyu pretended to exclaim, but Zhang Chong was not convinced:

"Oh, stinky fish, are you \*\*\*\* as a deflated calf? I went to the submarine and didn't know what my surname was? When we landed, we two had a good fight to see if you grew up. How many kilos!"

"Cut, I won't fight you."

Qin Yuan on one side saw the appearance of the two people, but frowned and said:

"It's alright, you two feel uncomfortable if you don't pinch it for a day? If you feel that you can't run out of strength, give me a good exercise!"

"Huh, smelly fish, dare you?"

"The physical exercise is too small, we may not be able to use it, but I have another idea, come."

Having said this, Jiang Xiaoyu directly made a demonstration. He directly put his hands on the armrests on both sides, and then let his buttocks leave the seat, and then they provocatively said to Zhang Chong:

"The two of us are better than this. See who persists for longer, dare you?"

"Hmph, there is nothing you dare not do, your kid is definitely not my opponent!"

Zhang Chong knows that this kind of action seems to exercise his shoulder and back muscles, but this kind of thing is fine for a short time, if it is for a long time, it is indeed difficult to persist.

But why is he scared?

And seeing the appearance of these two guys, Qin Yuan also shook his head, and said directly to Tang Zhou on the side:

"It made you laugh, these \*\*\*\*\* are all like this!"

And Tang Zhou was a little bit dumbfounded when he saw the appearance of these two people. He originally thought that Qin Yuan's subordinates felt very serious, but he didn't expect that he was about to participate in the competition, and he still had the mind to do such a thing.

"I now know how your character was tempered. The soldiers under you are probably just like you."

Only after hearing this, Shen Ge on one side squeezed in and said to Tang Zhou:

"This comrade, listening to you, you seem to have met Qin Yuan before?"

And Xiang Yu said directly: "Tang Zhou is a member of the new team formed by the captain, and he is a very powerful master, you must not underestimate him!"

Although Xiang Yu had never fought with Tang Zhou, Xiang Yu knew it just by seeing Tang Zhou making a move. He would definitely not be Tang Zhou's opponent.

"Oh?"

At this time, Shen Ge was also surprised. Although Tang Zhou was tall and thin, he didn't seem to be very strong, and he didn't seem to be able to fight.

"He has played against the captain, and it's no match!"

Xiangyu whispered to Shen Ge, but after Tang Zhou heard it, he shook his head and said to Shen Ge:

"Although I have fought with Qin Yuan, I am not his opponent."

It's just that the look in the eyes of Shen Ge looking at Tang Zhou has indeed changed. After all, Qin Yuan's strength is already very famous in their sea training camp.

is not Qin Yuan's opponent, that is a normal thing, but seeing Tang Zhou's appearance, he should have fought well with Qin Yuan, which is enough to prove Tang Zhou's strength, how tyrannical it is!

But at this time, Qin Yuan showed a smile, and then quietly said to Tang Zhou:

"Anyway, being idle is also being idle. It's better to compare the two of us. If we can win, what is the promise to the party?"

When he heard Qin Yuan's words, Tang Zhou's brows suddenly tightened, but when he saw Qin Yuan's bright eyes, a strange thought suddenly popped up in his heart, and then said to Qin Yuan:

"Aren't you hitting my secret art idea?"

"Ah? What's this? Why did I make that idea, but just want to make good gestures with you, and then I have some martial arts puzzles, and I want to communicate with you..."

Qin Yuan didn't expect that Tang Zhou could see his thoughts at a glance, but this matter was naturally unacceptable, so Qin Yuan hurriedly made a haha and wanted to turn this matter over.

"Yes, in fact, you want this secret technique, it is not impossible, but if you lose, then you have to tell me the secret of your heart."

At this time, Tang Zhou said to Qin Yuan with deep meaning, but Qin Yuan saw the other's eyes, was taken aback for a moment, and nodded.

"Okay, since you agreed, how do we compare?"

Tang Zhou directly asked Qin Yuan, but Qin Yuan looked at Jiang Xiaoyu and Zhang Chong:

"Then it's better than this, anyway, it will take a few hours to reach the goal now, how can the winner be determined."

And Tang Zhou saw Jiang Xiaoyu and Zhang Chong blushing, also nodded.

And the other people on this side are also interested. After all, Jiang Xiaoyu and Zhang Chong are already exciting. Why is Qin Yuan and Tang Zhou now in comparison?

"Ready! Start!"

At this time, Xiang Yu acted as a referee, and then Qin Yuan and Tang Zhou directly lifted their buttocks away from the seat, supported their deputy, and compared them like this.

But both of them are powerful and powerful, and it is not difficult for them to do such a thing.

These two people are not like Zhang Chong and Jiang Xiaoyu, their faces flushed, but they seem to be normal people.

When I saw the appearance of these two people, the others were also interested, each of them supported the handrails, and wanted to test how long I could last.

The shortest persistence is naturally Shen Ge. After all, she is a girl. Although she has also been trained, she is still much worse than these animals that have undergone physical training!

And the second place is Zhao Ziwu and Balang who fill up the seats. The two of them are here to fill up the seats. They are the two worst players in this team.

Then it was Jiang Xiaoyu and Zhang Chong. After all, the two started earlier. After a period of persistence, they couldn't hold it anymore. They couldn't hold back their breath, and they sat down on the chair.

And the others couldn't hold on one by one. In the end, only Qin Yuan and Tang Zhou were left, the two of them still looked normal and stood on their chairs!
