

Special Soldier 78

Chapter 78: 8 stitches against the sky!

got the cosmic-level neural response speed, and Qin Yuan focused on the other abilities of the kitten.

Qin Yuan caught a kitten again, this time put it in a new grid, directly chose the second item, and won a world-class high-altitude jump!

"World-class high-altitude jump: Let the host land within 20 meters without damage!"

Seeing this description at this time, Qin Yuan's eyes lit up. The height of 20 meters does not seem to be much, but in fact it has reached the 6th floor.

This means that even if Qin Yuan jumps directly from the 6th floor, he will not cause any damage to himself.

"Yes, no matter how high a kitten falls from, it can always touch the ground on all fours, which can greatly reduce the impact!"

Qin Yuan muttered, as the so-called cat has nine lives, it is precisely because of the rumors that many cats can jump from a high altitude without damage!

An expression of excitement appeared on Qin Yuan's face, and he looked for a few cats, and directly upgraded this skill to the universe level!

"Universe high-altitude jump: Let the host land within 300 meters without damage!"

"I lean 300 meters!"

At this time, Qin Yuan's eyes suddenly went wide.

What is the concept of 300 meters? Even if it is the tallest building in the world, Qin Yuan can jump down without injury!

In this way, when jumping from a helicopter, don't you need to bring a parachute?

After all, Qin Yuan knew some paratroopers, the reason why the casualties were so high.

mostly because they were discovered by the enemy when they landed!

was hit by a parachute and fell abruptly to death!

And Qin Yuan has no such hidden dangers. As long as he can fall to a height of 300 meters, he will directly take off the parachute and quickly fall into the crowd, killing him!

Thinking of such a scene, Qin Yuan suddenly smiled.

Just when Qin Yuan wanted to obtain the third ability, he was a little helpless to find that there were no cats in this hospital.

Although the scale of this hospital is not small, most of the ***** shovel officers take the kittens directly home to recuperate, and only a few can be treated in the hospital.

There are close to 10 cats in this hospital, which is quite a lot!

Since there is no way to upgrade, Qin Yuan went directly to the medical room, and at this time, the doctor just finished bandaging the little Ying:

"Okay, then you just need to change the medicine on time. This kitten's leg injury is not too serious, but it has been delayed for too long."

The doctor at the pet hospital ordered Qin Yuan and Mu Qingmei.

"Ok, we will pay attention."

Mu lightly nodded her eyebrows, and looked at each other with Qin Yuan. She suddenly felt a little shy. How did she feel that the two of them were like parents treating their children.

And Qin Yuan also held the little gray cat in his arms with excitement. Sure enough, a professional veterinarian must be more formal. After Qin Yuan hugged the kitten, he suddenly heard a sound in his mind.

"Ding Dong, the task of healing kittens is completed, and a grid is awarded!"

Qin Yuan was also relieved when he heard the system prompt. Sure enough, the task of treating this kitten was also very difficult. With so many things, it was almost impossible to complete the task.

At this time, Mu Qingmei directly said to the doctor:

"Well, since the treatment is over, let's go first!"

This doctor is exactly Mu Qingmei's friend. She came here this time just to learn how to treat kittens with her.

"That's fine, you and your boyfriend be careful."

The doctor also nodded at Qin Yuan and Mu Qingmei.

Hearing what her friend said, Mu Qingmei was a little shy, where is Qin Yuan's boyfriend!

But she hadn't had time to explain, the doctor had already turned her head back, so she had to explain later.

Qin Yuan looked at Mu Qingmei and said directly to Mu Qingmei:

"Let's go, I invite you to have a meal, after all, you have helped me so much, I want to thank you very much."

Mu Qingmei did not directly refuse, but instead showed a smile. The two people found a restaurant, ordered some food, and started eating.

However, both of them were soldiers, and they had the attitude of a soldier when they ate. In just 5 minutes, the two of them had already wiped out the things on the table.

Looking at the people around him dumbfounded, are these two people here for a date or for a match?

After eating, the two began to chat slowly, and Qin Yuan heard Mu Qingmei talk about his family, and was a little surprised:

"Are you from a family of Chinese medicine?"

"The family of Chinese medicine doctors can't talk about it, but my grandfather is a very famous Chinese medicine doctor. Unfortunately, he died in a car accident and his first-hand medical skills have not been passed down. Later, my father started to do business in medicinal materials, and I went to the medical university, but later to join the army, I chose Western medicine. After all, Western medicine is more effective."

Hearing Mu Qingmei's explanation, Qin Yuan also nodded, but he was a little sorry for what happened to Grandpa Mu Qingmei. He looked up and found that Mu Qingmei's face was a little gloomy. Obviously, he also thought of his grandfather.

"Well, natural and man-made calamities are unavoidable, you should look a little better."

Qin Yuan is not very comfortable with others, he can only say such things.

But Mu Qingmei smiled, took out a small packet of silver needles from his pocket, and said to Qin Yuan:

"This is my grandfather's silver needles. Although my current acupuncture skills are not high, I carry this bag of silver needles as if my grandfather is following me."

While looking at this bag of silver needles, Qin Yuan was interested. Said to Mu Qingmei:

"Can you show me this silver needle?"

Mu lightly nodded his eyebrows, and directly handed the bag of silver needles to Qin Yuan. At this time, Qin Yuan was really thinking, can he directly enter this bag of silver needles into the system?

After all, the system is powerful, and Qin Yuan has already seen a lot. If he takes in these silver needles, will he gain some magical acupuncture skills?

At this time, Mu Qingmei directly said to Qin Yuan:

"I'll go to a bathroom first, you will wait for me here."

Qin Yuan nodded, and after Mu Qingmei left, he directly received the silver needle into the system space!

"Ding Dong~ Please choose!"

With the prompt sound of the system, the values of the three options appeared in front of Qin Yuan!

"1, get world-class flying needle skills!"

"2, get world-class silver needle casting!".

"3, get world-class eight needles against the sky!"

Looking at these options, Qin Yuan's eyes suddenly brightened, and his eyes were extremely excited!
