

## Special Soldier 781

Chapter 781: ? Fighting Landlords, starting in 5 minutes!

Qin Yuan took a closer look at the mission requirements on the document. First, he had to choose 25 people from the more than 100 people. These 25 people were the most basic peacekeepers, and then he would take them for devil training.

It is selection and training again. It seems that the span of this mission is still relatively long, but these things themselves are not problematic.

Qin Yuan only brought the red blood cell team to this selection. Long Xiaoyun also knew about this selection, because this selection is also more critical. The soldiers below are secretly guessing who the eliminated instructors will be this time?

After all, it was Fan Tianlei before, and Long Xiaoyun also participated in such a selection.

The company below also sent two teams to assist Fang Tian to participate in the selection. They were mainly responsible for maintaining the order of the selection and did not participate in any projects.

One of the team leaders saw that Qin Yuan had only brought one team member to the elimination selection. This is too exaggerated! Those soldiers had already undergone a selection at their airport, and they were all the best in each company.

I couldn't help standing up and saying: "Captain Qin, with all due respect, if you only bring the red blood cell team, but they have more than 100 people, it's still quite difficult to eliminate them. Do you want the Wolf Warriors team behind you to join together? ?"

"It's okay. I am very confident in my red blood cell team. I am afraid that our team will not be able to bear it. The main reason is that if our two groups are added, it will be completely eliminated."

Long Xiaoyun gave him a white look. Although this is true, don't say it so directly!

The squad leader who came to maintain order was very speechless, although he had heard many times that this earthshaking mission was very good, and he had broken many records before.

However, the back waves of the Yangtze River push the front waves. Many of the soldiers who have come out are very good, and they are all talents in marksmanship and combat.

Seeing the persuasion to no avail, he whispered to the other team leader next to him: "This Captain Qin is still too young, I don't think he can handle this task at all!"

"Forget it, you can keep your voice down! We are here to maintain order, and it won't be good to be heard by others."

Qin Yuan had heard it a long time ago. Some people questioned that it was normal because they didn't see their own strength. Although it was a selection this time, it was actually an assessment of the ability of the red blood cell team.

In the beginning of the selection tasks in previous years, the rule was that there were only a few people, which created a sense of urgency for everyone, and then many fighters were fighting each other. They first confronted the teammates of each company, and finally confronted the selection.

This time, Qin Yuan directly broke the routine and asked them to inform. The task of selection this time is very simple, that is, they have more than 100 people against the red blood cell team.

They can choose to cooperate together. This confrontation is no longer aimed at soldiers and soldiers, but all aimed at the red blood cell group led by Qin Yuan.

People next to you think this is crazy!

And the more shocking news is still to come, Qin Yuan said again and again, as long as you kill any member of the red blood cell team, kill a member, and increase a chance.

The red blood cell group, plus Qin Yuan, has a total of eight people, which is equivalent to eight extra places.

Qin Yuan didn't expect that they could count this way. It was really whimsical.

Before the mission started, Qin Yuan led the red blood cell team to give lectures on the playground.

"This time I give those soldiers a lot. I hope that one of you will be eliminated and one of them will come in. Anyway, you know in your heart that this is also a test of your own strength. I am very confident in you, so we will try to get Make a quota!"

When the team leader next to him heard this, he shook his head. This man was too arrogant. He also tried to give up a spot. When he really entered the battlefield, he would have to see how to fight his face.

After all, those soldiers cherish this opportunity very much. It is a great honor to be able to enter the peacekeeping force. The number of places is originally small, as long as 25 people. Now that the rules have been changed this time and they have the opportunity, they must make good use of it.

The same soldiers were still thrown into the forest. They were all wearing laser devices, with laser spots on their chests and heads. As long as these parts were hit, they were eliminated.

The squad leader was responsible for maintaining order, so he took out a tablet computer speechlessly. Qingyuan was so arrogant that he had to show these soldiers a video.

In the video, Qin Yuan and the others are also wearing laser devices, and they have personally checked the authenticity of the laser. They have weapons. The weapons are unified 95-type assault rifles, and the guns are filled with empty bullets.

"Soldiers, get ready to go. I'll wait for you in the jungle. What I want is capable people. No matter what you use, I want to be able to pass through this jungle. Of course, just kill Any member of our red blood cell team will be awarded a place!"

At this time, a soldier questioned, "Captain, I want to ask, if it hit Captain Qin directly!"

In the video, Qin Yuan laughed loudly. He wanted to see which soldier was so naive, and even wanted to eliminate himself.

But it is a good thing to have this kind of thinking, everyone wants to challenge the strong!

"Just hit me, eliminate me, not only increase a spot, but also directly enter the red blood cell team!"

This temptation is too great. The Red Blood Cell Squad is currently the best special operations force in Yan Country. If it can enter this group, it will be the highest honor.

In an instant, everyone regarded Qin Yuan as the primary goal, and the captain of the first team regretted it. Why didn't he sign up? This is the first opportunity!

The previous one was pure selection and elimination. I didn't expect this love to come, and there will be so many tricks in the future.

The soldiers outside knew that their main goal this time was the red blood cell team and there was no internal fight. After all, unity is the most important thing now. The more than 100 of them are united, and the eight red blood cell team should be no problem.

Because this time the rule reform caused quite a stir, reporters from the military area also came to interview.

The captain of the first team was originally to maintain order. Reporters like these were targets he needed to intercept. After all, these people should not be allowed to disclose the situation of the exercise, so that the exercise can be conducted in a fair and equitable manner.

Unexpectedly, Qin Yuan on the walkie-talkie said: "Let the two reporters in and I will find them. I will accept their interviews and they will interview us. As for the other soldiers, they will not be disturbed. Yes, don't worry about this."

This person is really crazy, the captain of the first team, now I wish this reporter would immediately expose Qin Yuan's position so that more than 100 people would kill them all.

The two reporters also walked into the forest, but did not see Qin Yuan and the others.

After all, these reporters are civilians. In this kind of forest, they went around with the camera on their backs, and they couldn't help complaining, "This Captain Qin is really, and he doesn't tell us the specific location. Where can we find him."

"I said two people, I'm right behind you!"

Qin Yuan suddenly made a sound, which scared the two reporters. When did this person appear! It's too fast, they obviously just passed by behind, no one!

At this moment, Qin Yuan was holding a camouflage and smearing it towards his face.

"If the two reporters have anything to ask, please ask as soon as possible. You still have five minutes. We will act after five minutes!"

"Why is it five minutes?"

"Oh, because my players are fighting the landlords in the back, I took a look at the situation of their deck of cards, they should be able to play in five minutes!"

what!

In this case, they are actually fighting the landlords!

The reporter carried the camera to record all these situations, and they are now live streaming.

Gao Shiwei laughed when he saw it, this kid was doing these tricks again, can he die without bragging? You can't keep a low profile, every day.

"Captain Qin, the opponent is more than 100 people. They are all elite soldiers in each company. Are you so confident this time?"

"There are more than 100 people, I think it's a bit less, in fact, if there are more than 200 people, there is no problem!"

hiss! This guy!

Gao Shiwei knew Qin Yuan's abilities, and Long Xiaoyun and the others were watching it. They were happy, but the leaders at the grassroots level were not happy.

"What Qin Yuan is too arrogant? Our company, but three soldiers have been sent out! It is not obvious to look down on people!"

"Who said no? The gun king in our camp also went. He is the treasure of our camp. Whether shooting or fighting, he ranks first in the camp."

"Forget it, don't complain here, I want to see how capable Qin Yuan really is. Anyway, their special team has always been so arrogant."

At this time, the reporter wanted to ask other questions, but suddenly a shout came from behind.

"Four twos! Bombs! Hahaha, I won!" Li Erniu happily smashed the cards. Just now He Chenguang was holding a pair of king bombs in his hand. He thought he was going to lose, but he didn't expect the situation to turn around. .

"It seems that our card game is over early, so we have to enter the battlefield ahead of time. Two reporter friends, after you go out from the right, someone will come and pick you up!"

The two reporters could only leave first. On the way out, they whispered, "Are these Captain Qin really our special team? Why do they feel so unreliable."

At this time, the unreliable people in their eyes have packed their equipment and started to move in the jungle.

Qin Yuan was not the main target of the action this time. He mainly wanted to see the combat capability of the red blood cell team, followed leisurely with his hands behind his back, watching He Chenguang and the others fight.

"I told you, you have to protect me, if I am shot, I will be ashamed!"

"Brother Qin! Who can shoot you? I think they need to be protected!"

He Chenguang in front made a gesture, and everyone quieted down instantly. It seemed that the group of soldiers had already entered.

But did not find Qin Yuan and the others, He Chenguang smiled, planning to take the initiative, pull the trigger, and quickly shoot at the person in front.

Suddenly a burst of white smoke came up!

The few people in front were stunned. What happened? I was eliminated, mainly because people didn't see it anywhere!

"Shoot at six o'clock!"

Their reaction speed was really slow enough. When they reacted and fired in the direction of six o'clock, He Chenguang had already jumped away.

After all, this is all empirical talk. When Qin Yuan trained them before, it was worse than this. Qin Yuan's training for them was to do ten push-ups as long as they were shot.

Everyone was scared in the back. Under this crazy training, everyone's speed reaction ability has improved.

Qin Yuan was lying on a tree at the moment, watching the battle, tearing open a bag of beef jerky and gnawing with relish.

The red blood cell team has a very strong combat response and quickly forms an attack formation. Because the number of soldiers is indeed dominant, they must be broken up and destroyed one by one.

Qin Yuan was very satisfied and had this strategic awareness, which was very good.

The battlefield below is very fierce, and soldiers continue to be eliminated in white smoke.

Their reaction was so fast that many soldiers did not know how they were hit.

The main thing they cooperated well was to attack in a stepped manner. When the people in front emptied their ammunition to replace their magazines, the people behind them made up.

In this way, there is no vacancy. On their side, they were caught off guard. Some soldiers were knocked out because of the empty bullets for changing ammunition.

In a short while, more than 100 people were broken up!

Standing on the tree, Qin Yuan said loudly, "Remember that your main purpose is to go through this forest and use your skills! Of course, we will also put a little bit of water."

"Look, it's Captain Qin, he's in the tree!"

In an instant, countless bullets flew towards Qin Yuan. Qin Yuan stepped on the trunk and jumped sideways, then rushed into the crowd very fast.

Attention, he is gone!

A soldier only felt that he saw a shadow and then flew up, then fell heavily to the ground.

Qin Yuan punches left and right, jumps directly into the crowd for basic fighting, and soldiers are constantly falling beside him!

His speed is too fast!

No way! Everyone retreat first, and his power is amazing!

These soldiers were all top soldiers selected by each company. They were hit hard in an instant, and they were beaten to the ground without even having a chance to fight back.

"Soldiers, this is the first fighting class that Qin Yuan gave you for free. Don't worry, as long as you can stand up and you can still hold a gun, then continue to fight. It does not mean that I will knock you out. Up."

Qin Yuan still wanted to relax a little bit for them, after all, there were really very few people who could fight against him.

After Qin Yuan finished speaking, he snatched his beef jerky from Li Erniu in the past, "Go on, don't worry about me, I just watch the excitement, of course, if you are willing to challenge me, I will accept the challenge!"

Chapter 782: Only 25 people

Li Erniu said silently: "Brother Qin, just talk as you speak, why are you stealing my beef jerky?"

Qin Yuan ignored him, tore open the package of beef jerky, and ate slowly, as if this person was on vacation.

The soldiers looked embarrassed. They knew that it was impossible to kill Love. Just now they all had guns, and Qin Yuan just jumped from the tree empty-handed and solved them instantly.

With this ability to confront him, it is better to find a chance to run out of the forest, as long as you get out of this forest, then you have a chance to win.

After the soldiers were dispersed, they began to form a small team. The team just now was too big, with advantages and disadvantages, even though everyone just focused on attacking the red blood cell team.

However, the red blood cell team's individual combat capability is also very strong. Not only did they fail to kill them, but their side was seriously damaged.

So everyone still plans to act separately and take a sparrow fight. After all, they only have eight people. If you say separately, the odds of winning are even greater.

So the situation on the battlefield changed in an instant. It was originally more than 100 people who occupied the dominant position and began to attack, but now they became members of the red blood cell team, searching for them everywhere.

Before he was still talking harshly, a company commander who saw him was eliminated in the first batch.

Instantly slapped his face, it seemed that Qin Yuan was still very capable, and only if he had that ability would he dare to make such cruel words.

Qin Yuan was like a ghost, lurking behind the soldiers one after another.

A few soldiers were lying on their stomachs not far in front of him, talking quietly.

"Their red blood cell team is too powerful. The fighting king of our company was instantly defeated by their people, and they were really serious about releasing water and being beaten on the ground, asking them to pick up their guns and fight them. , Finally solved them with a gun!"

"This is equivalent to giving them two opportunities. It's a pity. What about us? Have we been lurking here all the time?"

"I think it's safer to hide here. When they are almost done killing, we will rush out quietly!"

"I don't think you can do it, we still have to come out to fight!"

"Who said it came out to fight! Just a few of us, how can we beat them? Sometimes they still need to be outsmart." The soldier just remembered that there were only three of them, the one who spoke. who is it?

Jumping out of the grass in an instant, it turned out to be Qin Yuan!

When was this man here!

Why didn't three people find out!

This is too exaggerated, anyway? Everyone is also a scout, and they will have the most basic sense of investigation and crisis awareness, but none of the three have discovered Qin Yuan.

It's just that Qin Yuan didn't want to do it, otherwise he could solve these three people when he just arrived.

"If you do it with me, you will suffer too much. If there are my soldiers in front of you, you will find them to fight. Now is not the time to be outsmart. You said that you will be on the battlefield later. Go. opportunity!"

"Um, thank you Captain Qin!"

Then the three soldiers quickly ran towards Qin Yuan's direction, and let's do what he said. This man is too strong, and the strength gap between them is huge.

Qin Yuan opened a system and checked the current remaining number of people, because everyone was equipped with laser devices.

At present, more than an hour has passed, and there are more than 60 people left. He is quite satisfied with the combat ability of the red blood cell team, because in fact, most of them are still a little relaxed. After all, they have been trained with their own super training manual. Ability is completely fine.

It's almost time to get to the end. He wants to see who can get there first?

He waited for more than an hour at the finish line, and finally two soldiers came running, which was not bad.

Then he took the walkie-talkie to He Chenguang and they said, "Now we will start to close the net for encirclement and suppression. In short, I want to run the fastest and the fastest responder!"

The two soldiers who arrived first sat on the ground, puzzled.

"Captain Qin, everyone has a good overall quality. Why do you only want to run the fastest?"

"You probably haven't learned about the real peacekeeping forces. I have had some contact with them before. It is more euphemistic, but there are many restrictions. You can't shoot and try to avoid conflict."

"Oh, no wonder you are going to carry out encirclement and suppression, so that the people you want are selected!"

"Yes, now you still have time to rest before they arrive. When they arrive, we will start the training mission immediately!"

what! Is it so fast?

They all thought they could adjust their rest after speaking out, at least starting the training mission tomorrow, but they didn't expect to start next, and they were even more thankful that they came out first and had a little chance of breathing.

It's not that Qin Yuan didn't give them time to rest. The main reason was that the peacekeeping troops outside would encounter emergencies at any time, so it's better to start training now.

At this moment, he also truly understood that the harder he was against them on the training field, the stronger they trained, the greater the sacrifice on the battlefield.

Recruitment of peacekeepers is carried out every year. This time the recruitment is only five months apart.

There are wars in many places in the world, but you are in a country where there is no war, so you feel that there is peace everywhere.

But this is not the case outside, so the sacrifices of peacekeepers are also great. It is not so much that he trains these soldiers later, it is better to say that he has to give these soldiers how to protect themselves.

Then there were people who felt that the number of people had started to increase slowly, six, ten, and twelve, but so far, the red blood cell team has not heard any news of death.

If it weren't for the video that Qin Yuan played before, they would all doubt whether the red blood cell team was equipped with a laser device. Otherwise, how could so many people not even hit them with a single shot.

In order to prevent this from happening, Qin Yuan used a laser device. After hitting it, white smoke would come out. In addition, there would be paint on the empty bullets, so it was double insurance. If the laser failed, there would still be paint. testify.

Another half hour passed, and only two places were left for the 25 people Qin Yuan requested.

After waiting for a while, the last three teammates rushed out together. Qin Yuan was a little curious. He wanted to see how these three teammates would choose.

"The last three comrades, I only need two people!"

The three of them understood in an instant. The three of them would either fight to eliminate one, or one would quit by themselves.

At this time, an older soldier looked at two of them and said: "I'll withdraw, you two come on!"

"Don't! Squad leader, let's fight, let's have a real match!"

"You two silly boys, didn't you hear the rules he said just now? Once he has all the people he wants, start training immediately. We were the last to arrive, and we are no longer physically dominant!"

"I'll wait for next year, you two, come on!" Then he directly pulled down the laser device on his body, white smoke appeared, sacrificed himself, and became the other two soldiers.

Qin Yuan is a little interested in the monitor. This kind of self-sacrifice is good. It is very good to have this spirit. He wants to stay in the class, but he also said before. As long as 25 people, this is also true. Number of people reported.

Forget it, if there is any chance later, let's talk about it!

The two soldiers regretfully watched that their squad leader was eliminated in order to improve themselves, and their eyes were red and said: "Squad leader, don't worry, we will take your hope, take part in the training, and be a qualified one. Peacekeepers!"

This friendship is really touching, but Qin Yuan has no time to sigh now.

"Everyone has it, collect the count!"

After everyone assembled, Qin Yuan took a look at everyone's equipment and walked over to carry a soldier's backpack. They were carrying 15 kilograms in this selection competition, which was a bit less.

"All of them, squat down in a circle and pick up the rocks on the ground into the bag of the person in front of you. Remember, the more you pick, the better!"

This is the beginning of training. Everyone has no objections. The mission of a soldier is to obey. Everyone starts to act next.

The red blood cell team also ran out, Wang Yanbing shook his head and looked at the soldiers squatting on the ground.

"Oh! They feel better now. We have experienced these trainings one by one before. Let's mourn for these dear comrades in arms!"

"Wang Yanbing, I think you are very idle? If you are idle, do you want to feel the training together!"

"Brother Qin, no no, I will supervise you right away, and you can rest next to you!"

Everyone is scared when they think of this training, but this training is really effective, so soldiers have to practice.

At this time, the two team captains who were maintaining order came over. Now that the selection has ended, their task has been completed.

This Qin Yuan is really amazing. Before he was young, he looked at him. As expected, this special force is different. It is at two levels with his own grassroots units. The soldiers selected from them are simply ordinary soldiers in their eyes. .

This difference is really not a star and a half, the captain of the first team is very emotional, because he actually looked down on Qin Yuan just now, thinking that this person is too arrogant, but he is really impressed by his strength behind.

If the special forces stay with them, it is the trump card of the army, and even the trump card of the trump card.

Qin Yuan also said to them very politely: "Thank you for the help of the two comrades in arms. I still have training here, so there is no way to send you. I will let my team members send you out!"

"It's okay, Captain Qin, you are too polite. We can go out by ourselves, but I think your training method is quite special. If you have time later, can you come to our company for guidance?"

"Yes, no problem, as long as I am free here, I can give you some guidance."

On the way out, the leader of the second team asked with some confusion: "Since this red blood cell team is so powerful, why not let them perform peacekeeping missions? Doesn't that reduce sacrifices to a certain extent?"

"You don't know this. The missions performed by their special forces are much more dangerous than the peacekeeping forces, and everyone has their own responsibilities."

Everyone here has already picked up the stone, and the ground is bare. Qin Yuan walked over and picked up a soldier's backpack at random, which weighed about 25 kilograms.

"Ok, all of them, now running back to training camp!"

what?

Did you hear me wrong? Run back to training camp!

The military area has set up a special training base, but it is a full 15 kilometers away from where they are currently selected!

"What? Do you have any comments? If the distance is too short, then we can go back and forth again!"

There is no sound below, let's run the 15 kilometers honestly!

Before escaping in the jungle and adding load-bearing attacks, it is a very big test for everyone's physical strength, and endurance is also one aspect.

Qin Yuan also accompanies the whole run, with the red blood cell team following it.

"It's too slow, are you walking? All run with me!"

One soldier was exhausted and fell to the ground, coughing violently.

Qin Yuan came over, "Hurry up! Pick up your backpack and don't stop. From now on, you are a whole. Once someone stops and hinders training, all of you will have extra time!"

"I hope we can get to the training camp before dinner. If we can't make it, we will do 100 push-ups!"

The soldier was a little dissatisfied when he heard it. It was simply too inhumane, and it was beyond normal physical training.

"Captain Qin, although you are very good, but I want to say if your training like this is too squeezing. Let me ask, how can you do it in that situation?"

"Oh! It's normal to have doubts. My red blood cell team is the same as you. They are selected together with you, and now we are also running on the same front!"

"But ahem, we carry 25 kilograms. Although you all have backpacks, you don't know how much weight you carry!"

"Li Erniu! Get out!"

"Yes!"

Qin Yuan lifted Li Erniu's backpack and threw it in front of the soldier to let him feel the weight. He lifted it and was shocked. The backpack weighed at least 30 kilograms.

"Soldier, the weight of our red blood cell group is 35 kilograms, and at the beginning of the selection, we are carrying the weight and selecting with you!"

Hearing Qin Yuan's words like this, everyone was shocked. What kind of physical ability can this be done! In that case, it can still be tracked, with a weight of 35 kg, which is amazing!

"Don't be so surprised. As long as you follow my training method, you can do it. I train you like this, and I hope your endurance ability can be improved in a short time!"

After all, time is still relatively urgent. The above only gives him two months to conduct emergency training for them.

Chapter 783: Can you leave me a pair of pants

Everyone has no complaints at this time. They are indeed strong, all trained in continuous training, and capable people like Qin Yuan have their own set of training methods.

They saw the power of the red blood cell team and knew that the success was not accidental.

Qin Yuan just lifted up the soldier sitting on the ground with one hand. The soldier was very grateful. This was much better than their company commander. Generally, their company commanders would come and kick people directly.

"Everyone, prepare for one step forward, 50 push-ups!"

what!

This is just a smiling tiger!

"Because of this little comrade's delay, congratulations on getting all 50 push-ups. If there is any doubt, I don't mind increasing this number!"

The soldier immediately withdrew his thoughts just now, this person is really hidden.

In this way, everyone finally rushed to the training camp before dinner. Qin Yuan also promised them to let them eat on time. The meals are normal. After all, the peacekeeping troops are not so hard and do not need special training in diet.

What they lack now is physical endurance and reaction ability.

And their food was pretty good, and then they took them to the dormitory. The dormitories are all standard six-person rooms. Some soldiers lamented that apart from the inhumane training, this is good in other aspects.

After a day of tossing, the soldiers started to rest after taking a shower.

They had just slept for two hours, Li Erniu and Wang Yanbing quietly walked up to the dormitory with two gongs.

After looking at each other, they started to beat the gong frantically.

"Clang clang clang!"

The sound of this gong is very sharp, and it can almost penetrate the eardrum in a quiet night. Li Erniu couldn't help smirking, "This brother Qin really has a trick!"

Those soldiers woke up instantly and ran out to see what was going on?

At this time Qin Yuan's voice sounded, "Are you the aunts of the window gossip? Didn't blow the emergency assembly number, what are you doing out? Go all back to sleep!"

At this time, everyone was very speechless, and instantly thought of scolding mother.

Then just after sleeping for an hour, the emergency assembly number rang! I go, what is going on here? Don't let people sleep? Too much trouble, right?

Although everyone complained, they still got up quickly, put on their clothes and gathered downstairs.

Qin Yuan wandered around with his hands on his back. The speed of these people's assembly is good. After all, they are all top soldiers of each company, and they are good at responding to emergency assembly.

"Calling everyone out so late is mainly because I want to hear everyone sing. After all, you know that I have changed to a new environment and I can't sleep. You can sing me a song. Maybe I want to sleep!"

What the hell! It was in the middle of the night to get everyone up to sing him. At this moment, Qin Yuan had been scolded countless times in the hearts of these soldiers, but there was no way, he was the current chief instructor.

"Er Niu, take the lead!"

"Okay, Brother Qin."

"Come on! Two tigers, get ready!"

"..."

"Two tigers, two tigers, running fast, running fast, one without a tail, and never having ears, it's so strange!"

"How come your voice is the same as if you haven't slept enough? How can we be soldiers of Yan Nation? Soldiers of Yan Nation, we must have a loud voice and sing ten times! I'm satisfied, and you can go to sleep! "

You are so embarrassed to say that you haven't got enough sleep. Isn't this all thanks to you? First, the gongs and drums were beaten, and then people got up to sing. It was the middle of the night and the people who were irritated by getting up were all worn away by him.

Then the whole training camp is filled with the song of two tigers!

On the back mountain of the training camp, there were a few fellow travellers who went out to climb the mountain. A man asked with a dazed expression: "What's the situation? Is there a kindergarten below? It's midnight, don't sleep!"

"It shouldn't be. When we came up, the PLA said that there was military training. Anyway, we will go down tomorrow morning. Let's bear it!"

Qin Yuan looked at the time and it was almost time, so let's end the training today, the reaction is not bad, let them go back to sleep.

"Er Niu, we will postpone the assembly horn for two hours tomorrow morning, let's nine o'clock!"

"Ah! Why are you so kind to them? I remember you weren't like that to us at the time."

"Can this be the same? Our goals are different. Training must be different. Besides, am I an instructor or are you an instructor? I think you want to train with them too!"

"Report to the captain, the task must be completed!"

It was almost the same, then Qin Yuan held his hands behind his back, humming two tigers in his mouth, and was about to go to sleep.

These soldiers were so tossed by them. Some people were afraid to take off their clothes and sleep. They thought that there might be an emergency assembly later, but they didn't expect that they would have eaten them later.

At nine o'clock, Li Erniu blew the assembly order.

Everyone got up to check the time, it turned out to be nine o'clock! I'm going, does this man have such a good one? It also allows everyone to sleep until nine o'clock.

When they went down, they saw Qin Yuan wearing sunglasses with a smile on his face. Now they are really afraid of seeing his smiling face. Every time he smiles, it's okay.

"Comrades, the weather today is good, the sun is also very good, and there are more training tasks today. I think you are wearing too many clothes. It will be bad when you get heat stroke. All of you have taken off their coats and dressed. Equipped with short sleeves!"

Please help, you can steal book tickets like stealing food. Come steal the book tickets of your friends and vote for me.

Everyone raised their heads in doubt, where is the sun coming from today? If everyone is under the same sky, and if you read it correctly, it should be cloudy today, and the temperature should be low!

There was no other way but to execute the order. After taking off his coat, everyone was shaking a little in this cold wind.

Qin Yuan asked everyone to put on their backs and began a normal 10-kilometer load-bearing raid.

"You only have 40 minutes. There will be a hostage at the end. The hostage is tied to a rope. There are special mechanisms on the rope. After 40 minutes, the hostage will fall into the water. If the hostage falls into the water, it means you mission failed!"

Now they are carrying 20 kilograms, and they have to complete a ten-kilometer raid in 40 minutes. This is really difficult.

A soldier questioned "Sir, what is the punishment for mission failure?"

"Smart, now I know that there is punishment, but how can I be willing to punish you? If I fail, I will do it a second time, a third time, until the task is completed! You know, I never punish soldiers physically !"

Devil!

Is this called improper punishment?

Simply put, it's them. If it fails this time, then another 10-kilometer raid. If it fails the second time, there will be a third and fourth time. This is crazy!

Don't say much, just hurry up!

Then everyone started to run. Qin Yuan and the others drove a military vehicle and followed by. Li Erniu checked the temperature outside. It was cloudy today, and it was only four or five degrees outside.

The short sleeves worn by these soldiers began to shiver coldly. After running, they gradually sweated, so they got used to it.

When they ran five kilometers, they suddenly saw that Li Erniu stood on the roof of the car, and Qin Yuan inside handed out a water gun.

"Comrades, I think you are too hot, I will bring you down!"

Then Li Erniu stood on the roof of the car, Qin Yuan rolled down the window, and Wang Yanbing was also holding a water gun at the back, sipping water at everyone.

This is just worse, they just came to cool down after running this a bit!

And Qin Yuan is complaining that the weather forecast is inaccurate at the moment. He clearly said that it will rain today. Fortunately, he made second-hand preparations!

When they did this, everyone slowed down a bit. When they arrived at the destination, they found a dummy floating in the pond in front of which the rope of the dummy had broken.

"Oh! It's a pity that I didn't succeed in rescuing the hostages. I really didn't punish you physically. Go ahead! There are the same devices in the camp. If you still don't make it, continue running back!"

"Now I will give you a break of ten minutes to adjust the time, and continue to set off after ten minutes!"

This kind of training is simply too devil!

They all sat on the ground to rest, and Qin Yuan was going to fix the dummy again. There was no bridge deck on the pond. There was a big tree ten meters away from the pond, and the dummy was hung there. On the big tree.

"Er Niu! Give me a point of support!"

Li Erniu squatted down and prepared to give him a point of borrowing. For a while, he attracted the attention of the soldiers. They wanted to see what he was going to do?

Qin Yuan has a world-class explosive speed. He quickly ran towards Li Erniu. Li Erniu stretched out his hands. He lightly stepped on his hands with his left foot, and then pushed hard to complete a movement in the air. A perfect turn.

jumped directly to the big tree in front!

The soldiers next to him were all dumbfounded. It was more than ten meters away, and his jumping ability was too good?

Then more shocking is still behind.

He jumped onto the big tree, then hooked the tree with his feet and fell down and picked up the dummy.

You must know that this is not an ordinary dummy. The training dummy in the army is made according to the height-to-weight ratio of a normal adult. The dummy is filled with sand. At present, they are all training 70 kg.

And the dummy is now in the water, soaked in the water, it is an increase in weight, he even lifted the dummy with one hand!

The soldier beside        couldn't help clapping their hands. This is too powerful. I have only heard of his legend before. The basic unit said that he is the king of soldiers. This is more than the king of soldiers. It is simply the trump card of the trump card!

The dummy is dripping with water, and the branches on it have been bent. After Qin Yuan bolted the dummy, his right leg slammed on the tree, turned two somersaults in the air, and landed firmly on the shore. side.

Li Erniu looked at the envious eyes of the soldiers, "What's this, our Captain Qin is more powerful than this, you can see it in the future!"

"Okay, your rest time is almost the same, get ready to go, we won't go with you this time, because I think you might come back again!"

While Qin Yuan took Li Erniu with him, Wang Yanbing caught fish by the pond. He was not so cruel. He was just waiting for the time to catch some fish, and when they came, he would grill them a fish.

But they didn't get the bait for half a day. Li Erniu couldn't help asking, "Brother Qin, are you sure there are fish in this?"

"Uh, I must have fish, be patient, wait and see!"

Qin Yuan just put his hand on the surface of the water and tested it slightly. He already felt that there was a living thing in it, and there must be a fish.

I sprinkled some bait nearby. This pond is full of wild fish, and it is easier to catch it.

After a while, Qin Yuan had a good harvest here and they had already lifted more than a dozen fish.

At this time, He Chenguang's voice came from the walkie-talkie, "Brother Qin, their mission failed and not completed!"

"Hmm! Let them rest for 20 minutes, and then come here again!"

"Ok!"

These soldiers have been 40 kilometers back and forth. At this moment, they are all lying on the ground, panting. This kind of training is simply too difficult.

For this refurbishment, everyone decided to rush to the destination and rescue the hostages for the last time. Otherwise, the training will be more difficult to complete. If the third time is added, it will be 60 kilometers, which has already exceeded most of it. Soldier's limit, so the third time is critical.

This time they did not disappoint Qin Yuan. Before the rope broke, they jumped into the pond and rescued the dummy. At this time, they were exhausted, the temperature was low, and everyone was drenched.

Qin Yuan has already started a big fire, and asked everyone to come over and dry his body, 60 kilometers is indeed a big limit.

At this time, everyone can smell the scent of grilled fish after sitting down. There are some grilled fish inserted on the tree sticks by the fire. Try it, we just caught the fish, which also gives you a certain physical strength Supplement! "

Do these soldiers think they are too hungry? This is ordinary grilled fish, but why is it so delicious? It's not too fragrant.

While everyone was eating grilled fish, they were slowly being dried.

"Captain Qin, although we know you are great, we want to know what it means to carry a weight of 60 kilometers back and forth!"

"It is normal to have a question. I mainly want to exercise your stamina. To be honest, I really don't want you to make any sacrifices on the battlefield. Then you have to get more reinforcement in training. Our red blood cell team has done the same. This kind of training, because I want to bring them back safely with every mission."

Those soldiers nodded, which is indeed true.

"Okay, today's training program has ended, everyone go back!"

Li Erniu showed a meaningful smile, how could Qin Yuan let them go so easily.

Rhythm Everyone returned to the training camp. Although they were dried out just now, Qin Yuan still suggested that they should take a hot bath first to avoid catching a cold.

"There is one thing to say. Although our instructor is training hard, it is good when we should care about people. You can see that we grilled fish today, and now let us take a hot bath."

At this time, everyone had just stripped off and walked into the bathhouse. The floor had been sprinkled with water, which was very slippery, and then a smoke bomb was thrown in.

Chapter 785: ?being attacked

Qin Yuan just put the translator into the system grid, and then the system issued a crisp prompt sound: "Ding! Congratulations to the host, the recovery is successful, and the world-class translation ability is exported as a chapter!"

Exit as a chapter, what is this?

"An answer to the host is that the host's translation ability has been improved, and more than 6000 language skills in the world can be translated and quickly learned."

Not bad, it's too timely!

is really useful. Although there is a problem with this translator, you can put it in the system grid for your own use.

The staff of the embassy was also very nervous. He encountered this situation for the first time. It was too difficult for the civilians to treat them as foreign intruders, plus the language barrier.

Unexpectedly, at this time, Qin Yuan stood and went out, and then he actually spoke the local language, and the embassy staff was also at a loss.

But from the eyes of the local people, I can see that they have gradually let go of their vigilance, this person actually knows the local language? The language on their side is really difficult to understand. The embassy staff also just came here. After studying for three months, they haven't mastered it yet.

I only know some basic hellos. I didn't expect Qin Yuan to say it in a long way. Then the villagers dropped their sickles and hoes, and they clapped.

Is this welcoming them?

Those peacekeepers were also dumbfounded, this Qin Yuan is simply a hidden skill!

Li Erniu was also very shocked. When did he learn the language of this country?

Qin Yuan came over and looked at the shocked people and said, "It's okay. The local people know the peacekeepers and welcome us very much because the peacekeepers are here to protect them!"

The embassy staff excitedly put their hands on the ground, "Please captain, you must teach me, I have been learning for three months, but their language is so difficult, I can't understand it now! How did you learn it? Of? Must tell me the technique."

Qin Yuan thought for a while and said, "I just found a copy of their local sayings in the garbage dump. I just turned a few pages and looked at those words, and I would do it!"

what! ! ! !

just flipped through a few pages of local books, and they could understand their language. This is a genius!

If he hadn't seen it with his own eyes, he couldn't believe it at all, and this love is also the first time he came to this country, it should have not learned the language of this country, this is too amazing!

Then Qin Yuan took the peacekeepers into the village. They needed to set up a camp in the middle of the village. After the camp was set up, they completed their mission and could return to China. These peacekeepers would stay there to perform their tasks.

Since the conflict on this side is gone, the embassy staff asked people to pull in the outside materials, saying that the campsites are ordinary colored pole materials. In this way, it is quicker to set up and easy to disassemble.

Because wars occur on this side at any time, and the people are displaced. If there is no way to avoid a war on this side, their peacekeeping forces must be responsible for covering the evacuation of these civilians to a safe zone, so be prepared to evacuate at any time.

After a while, peacekeepers from the other two countries also arrived. The local people knew that these peacekeepers were here to help them. They were very enthusiastic and joined the team together.

Except for the war, the people of this country are still very simple. The children are very scared at first. After all, watching them holding guns, they will come to the camp to have fun when they become familiar.

Those children knew that they belonged to the Yan Kingdom, and they had to pester Qin Yuan to teach them Yan Guo Kungfu. Qin Yuan took Li Erniu and the others to play Tai Chi in the yard, and the children also started to learn in style.

It was very harmonious for a while. It was hard to see that this was a war-torn country. Those adults enthusiastically brought food and helped them build camps.

It still takes two or three days to set up the camp. Everyone set up military tents first. The European country has its own medical team to help the civilians see a doctor for free.

The night came, and the villagers here were very enthusiastic. They lit a bonfire and they danced together hand in hand. Although Li Erniu and the others did not understand the meaning of these lyrics, they were very happy to dance to the rhythm.

After playing around like this, everyone went back to each house to prepare to rest. Qin Yuan and the others lived in tents, and all countries sent guards. When they slept in the middle of the night, Qin Yuan suddenly heard the roar of drones. But the sound is very far away, so the personnel on duty outside did not hear it either.

It was only Qin Yuan who was sensitive to hearing. He swiped it and sat up from the bed. Wang Yanbing beside him straightened up when they heard the movement. He was very satisfied with the response of the red blood cell group.

"What's wrong with Brother Qin!"

"Something's wrong, get everyone up quickly! Something is approaching, it should be a drone!"

The peacekeepers from Yan Nation were very convinced of Qin Yuan. They knew Qin Yuan's abilities. He said there was a situation, but there must be some.

Qin Yuan looked up and saw that the camp they built was an empty field. This is the village's drying field. But now because of the war and there are no crops, this place is empty, so it became their temporary camp.

And this place is so empty, it is easy to become the target of air missiles.

"All of them, leave the camp and enter the woods behind!"

Qin Yuan asked the people in the other two countries to rush to inform the people of the other two countries. In fact, these people were already awake when Qin Yuan and the others were dispatched, but they were very dissatisfied.

Especially in Europe, the captain of their peacekeepers stood up and said loudly: "You don't sleep in Yan Nation. What are you doing?"

"Brothers in Europe, quickly evacuate, there may be air attacks on the situation above!"

The captain of the European country looked up at the calm sky and laughed loudly, "Hahaha, I said your soldiers from Yan are too courageous! But just flew a few birds, why haven't you seen them? Killing me."

When said by the captain of this European country, the peacekeepers next to him were all laughing.

The soldiers of Yuanguo also started to stand up and say: "Don't make a fuss. Isn't it just a few birds? Wait for my brother to beat you down and give you a braised fever, don't be afraid of the babies of Yan country."

Qin Yuan was very speechless. He wanted to mention them carefully, but he was taunted by this group of people here. Can he not see those birds? And this better shows that there is a problem. The reaction of animals is human. Hundreds of times, these birds have heard the movement and quickly evacuated, but why don't these people listen to them?

"Brothers in Europe, I really kindly remind you that I heard drones have come!"

"What? This is the best joke I have heard this year. You heard a drone. With so many of us, do you think we are deaf?"

"How could there be air harassment in this kind of place, just a few birds, and wake everyone up, you have to get out, get out quickly, it's best not to make any noise, if you wake me up again, then I can treat you. You're welcome!"

Li Erniu couldn't help it when he heard this, and instantly wanted to rush up, but was pulled down by Qin Yuan.

"Hehe, there is no need to lose your temper for this kind of ignorant person, save your combat effectiveness, stay vigilant, and take our people out quickly!"

The soldiers from Yan Nation have a fine tradition of obeying orders. Qin Yuan and the others just hid in the bushes.

He listened carefully, the roaring sound was getting closer and closer!

"Everyone, pay attention to all lying down, find a cover and get down!"

Qin Yuan is rare to be so serious. It seems that the matter is quite serious. Everyone has found shelters to cover them.

Then those European sentries also found something was wrong, because they had already seen the sound of the drone and quickly called the team up.

"There is a situation! There is a situation!"

But the drone is very fast. Some of them just ran out of the tent, and then dropped two missiles from the drone, smashing them directly towards their military tent!

A violent explosion occurred the moment the missile landed, and Qin Yan could feel the shock wave from the explosion while hiding in the woods.

For a time, sand and rocks flew, and smoke was everywhere.

The worst thing was the peacekeepers who were blown down in a large area. The screams were endless, and the fire caused by the explosion burned the tent.

Qin Yuan didn't know whether it would work or not. He raised his sniper rifle and aimed at the drone that was about to launch. He shot quickly, and one shot hit the drone's wing. The drone deviated and fell from high altitude.

He just tried it. He didn't expect that he could actually use a sniper rifle to penetrate drone missiles. After all, he is holding a Barrett gun with a range of more than two kilometers, and they all use armor-piercing bullets. .

Seeing that the crisis was resolved, Qin Yuan asked his team members to rush out to save people. It was a pity that if he had reacted subconsciously just now and directly knocked down the drone, then this loss would be avoided.

But at the time, all his attention was focused on his players. He wanted to protect these twenty or thirty people, after all, he had reminded them before.

He finally shot down the drone, and he helped them.

This time the explosion killed three peacekeepers on the European side, and Yuanguo killed three members. The other four were seriously injured, and six or seven were slightly injured.

The captain of the European country who was still clamoring just now was blown up and fell into a coma. His chest was covered with blood, and he should have been hit by shrapnel.

The local people did not dare to go out when they heard of the explosion. Only then did the peacekeepers completely believe in Qin Yuan. The leader of Yuan Guo even ran over and asked in a low voice, "Excuse me, Captain Qin, are we safe here? ? Or we evacuate first!"

"Don't worry, I will listen, their drone missile has been shot down by me, according to the local armed example, it is estimated that this is the drone!"

"And now we can't evacuate so many wounded, severely wounded, and lightly wounded. We can only rescue them on the spot first, and we can't leave them behind, either?"

"Yes, yes, you are right, I will organize people to start rescue immediately!"

Li Erniu looked at the change in attitudes of these people before and after, and smiled disdainfully, "Let them listen to the love songs earlier, if they don't listen, they don't listen to good people, and the disadvantage is in front of them."

The worst news at this time also came. In the explosion just now, a surgical expert in Europe was killed on the spot. The other two were just nurses. They only simply debride the wound and suture. This kind of surgical operation is basically controlled. Nothing.

The European team members watched their captain get dying, and now they don't have medical resources, they are like ants on a hot pot.

"Okay, just this little thing, you see what the chaos is, there is no military style at all!"

"Captain Qin, we, what should we do? Will our captain die?" The soldier was very flustered, already incoherent.

"The emergency tent over there has been set up, you arrange the seriously injured, I will do the operation!"

what's the situation! He is here for surgery!

"Captain Qin, I'm sorry, it's not that I suspect you, it's this operation, can you really do it?"

"These things are just a piece of cake for me. This is also your opportunity. I just remind you that you better believe me!"

At this time, Yuanguo's captain ran over carrying his wounded quickly, "Captain Qin, I believe you, please ask my team members, I was rude and offended just now, sorry!"

Qin Yuan waved his hand. Those are not enough to let them carry the wounded into the tent. Everyone has basic medical supplies. After all, a surgical expert was taken from Europe, and there is no shortage of medical materials.

Qin Yuan put on his surgical gown and walked into the tent. He has world-class surgical skills, and he has no problems with this kind of surgery.

He entered the tent and saw the wounded man lying on the stretcher. In an instant, where did he cut the knife and how to take out the shrapnel? How to stitch? He knew everything.

Then the first wounded, the second, and the third. The European side also sent his captain over. It seems that this relationship is still hidden, it turned out to be their medical expert?

A soldier asked while waiting outside for surgery: "Are you Captain Qin a medical soldier or a special soldier?"

He Chenguang smiled and said, "He doesn't belong to any soldier, he belongs to the God of War!"

The soldier next to him nodded when he heard it, and some agreed with it. Indeed, just because he heard the drone's reaction, no one heard it. What a powerful hearing is that!

And the drone was solved with a single shot, and the drone missile was solved with a sniper rifle. This is the first time everyone has heard of it.

The Yan Nation's Captain Qin was really strong. Qin Yuan was sitting inside for surgery. These people outside saw his team members being treated by Qin Yuan one by one, admiring the Yan Nation soldiers even more.

is even more regretful. I didn't listen to Qin Yuan's command just now, otherwise this would not happen now.

After eight consecutive surgeries, Qin Yuan was also a little exhausted. It seems that this god-level surgery consumes mental energy! Finally finished the last operation.

Qin Yuan was already a little unsteady, leaning slowly against the tent next to him, just sat down and fell asleep.

Chapter 786: Can you give me

Qin Yuan actually slept for two days and two nights. He only felt too tired and really wanted to take a break. Because he had been desperately trying to save people, his mental power was very concentrated, and he did not notice the excessive mental power. Consumption.

When he opened his eyes, he saw Li Erniu and the others dozing off next to his bed. They felt a little funny. These guys are really true. Can't they go back to sleep by themselves? I'm just too tired, what can be the problem?

At this time, the system prompts: "Remind the host that you have entered a short sleep state because of overwork this time!"

"I need to remind you! Your system can't be a little more humanized. Can't I take the initiative to replenish me with some nutrient solution when I am running out of energy?"

System "...I probably know what you humans say about making trouble with no reason?"

At this time, He Chenguang woke up when he heard the movement, and saw that Qin Yuan had already sat up, and shouted excitedly: "Brother Qin, you finally woke up, we thought you had something wrong!"

The people next to him woke up after hearing the movement, and were very happy to see Qin Yuan sitting up.

Qin Yuan looked at himself without clothes, and asked with some doubts: "Wait, I just want to ask, why am I naked?"

"Um, it's mainly because Qin Ge, you were so dizzy at the time. We didn't respond to how we called you? If you were asleep, you would react a little bit! Then we thought you were injured when you were injured? So take your clothes off. Yes, check the wound."

"Check the wound, I can understand, but can you leave me a pair of pants?"

At this time, the leader of Yuan Guo heard the news that Qin Yuan had woke up, and rushed to the tent to learn about the situation. After all, this time it was Qin Yuan who rescued them. If something happened because of saving them, he would be very Guilt.

Fang Tian shook his head and said that he had no problems, but the captain of Yuan Guo was so excited that he pulled two female doctors from outside, both of whom he found from the local embassy. They had just found them today. Doctor, Qin Yuan woke up unexpectedly.

Just check it, Qin Yuan is busy rejecting without wearing anything now.

"I know that you Yan people are more reserved. You shouldn't say that this is modest. Anyway, I don't know how to say it? Just ask the doctor to check for you to see if there is any problem and treat it."

Before Qin Yuan refused, he quickly pulled Qin Yuan's quilt away.

then.....

A younger doctor ran out quickly with his eyes covered, and another older doctor silently covered him with the quilt.

"Um... I think you Captain Qin should have no problem."

At this moment, Qin Yuan just wanted to find a place to get in. It was too embarrassing and shouted: "Who took my pants off? I must go back 10 kilometers, and I will add 100 push-ups when I come back!"

Li Erniu was shocked. He was also kind before. After all, that place is also more important, and other places have been checked and there is no problem, so he wanted to see if the important place was injured, and then forgot to wear him.

Yuan Guo's captain, looking at Qin Yuan's angry roar, felt that there should be nothing wrong with him. The atmosphere at this time was too embarrassing, so he left quickly.

After this episode, Qin Yuan finally got up. At this moment, he only felt very hungry. Li Erniu opened three canned beef for him, ate them all, and also ate a few breads. This time he consumed too much energy. But the situation is urgent, and it is good to save the person back.

Qin Yuan went out to find Yuan Guo's captain, Avalon, because the European captain was still recovering at the moment, and his injuries were considered serious, but now because of the wounds that are inconvenient to move, the captain may be sent back to China in a few days, Send someone over again.

"Captain Avalon, I want to ask, what do you think about this terrorist attack, or else we will go and end the armed organization together!"

"Captain Qin, we cannot make any counterattacks because we are a peacekeeping force, mainly to protect the safety of local civilians, and cannot participate in any internal fighting in their country."

Qin Yuan also knew this, because as long as he helped one side, the other side felt that you had formed a united front with that side, and this imbalance would cause greater revenge.

It's just that this group of people is really too arrogant. They obviously came directly to their camp. This didn't put them in sight at all. The task on his side has been completed and he can return to China, but he is really worried. The remaining players.

Since Yuan Guo was unwilling to participate in this, it was reasonable, so I led the team and quietly removed this armed organization, so that I would be more at ease when I returned to my country.

"Okay, I understand what you mean. We also need to respect the rules, and our mission has been completed. I will return to China in the next few days. I hope that the soldiers between our two countries can get along with each other in a friendly way and the friendship will last forever!"

"Captain Qin, don't worry, you saved the lives of our soldiers, and the soldiers of the Yan Kingdom are our brothers."

Qin Yuan smiled and walked out of the tent. He took out the drone that had been killed two days ago, and summoned the Er Niu Mouse out, letting the Er Niu Mouse familiar with the smell and then began to look for it.

In any case, he must solve this organization, but he intends to go alone, and he doesn't want his team members to get into a dangerous situation. If there is any problem, he should be alone.

Watching Erniu mice hit the tunnel and run away, Qin Yuan went into the tent and sorted out his equipment. If he is alone, he must bring enough ammunition. Once the second-rate mice find him, set off immediately to prevent them from arousing suspicion. Resolve those armed groups as quickly as possible and come back.

Qin Yuan heard the movement behind him, immediately threw his backpack under the bed, turned around, but saw He Chenguang standing behind him neatly dressed.

What are these boys trying to do?

"Brother Qin, what you said to Captain Yuanguo in the tent just now, we all heard. We know that with your temperament, we will definitely solve the armed organization by ourselves, but we are brothers! How can we miss this kind of thing?"

Looking at He Chenguang and the others, Qin Yuan was moved in an instant. This group of brothers is really not in vain. This is the most precious comradeship, brotherhood, nothing can compare. Although he has many abilities, he is also very powerful. His skills, but this is his most precious.

These brothers are standing behind him at all times.

He stretched out a hand, He Chenguang and they all put their hands up knowingly, "Brother, fight together, we will go home when we are done!"

At this time, Erniu Mouse had also found the armed organization. Now the mouse skills have been strengthened. It doesn't need to come back to notify Qin Yuan. Qin Yuan has already seen the situation in its mind grid.

This armed organization is lurking in the mountains. The conditions are really bad. It is not as good as the armed organizations that they have wiped out before. The best is guns and ammunition. Other material conditions are very poor. The place where they live is some simple-built houses and tents. .

The main reason is that this place was originally economically backward, and war broke out again. It can only be said that the worse it gets, the more it gets worse.

But there is no way. There are disputes and wars where there are people. They all feel that they are justified. Since they can't tell each other, they can only use violence to solve them, but in the end it is the people who suffer, and it is still them. .

In terms of the number of people, it looks like fifty or sixty. There is no problem with the number of people at this point, and it can be solved with the red blood cell team.

However, it is more than 20 kilometers away from here. I am willing to leave now in order not to cause suspicion, and then stop by the armed organization.

The peacekeepers who stayed here all came out to send Qin Yuan and the others, especially the peacekeepers from Yan Country. All of them had red eyes, but there was no permanent banquet in the world. Qin Yuan just told them to pay attention to safety.

After the bombing attacks in the first two days, they realized that the war was really close to them, because they had been in Yan's country before and had not felt such a close war.

At that time Qin Yuan trained them, and they still complained somewhat, always feeling that this person was deliberately tossing them.

But now I understand that Qin Yuan is saving them, and it really taught them a lot of things, especially self-protection. The love is very different from other instructors. Compared to completing the task, he hopes that these soldiers will return safely.

Therefore, before he leaves, he must remove this last security hazard to this armed organization. It is too close to this side, and there are some breaking regulations. We can't do it here. It's too bad, they come. The dark ones, then come dark oneself, just solve them quietly.

After stepping out of the base, Qin Yuan followed the route network given by Erniu and Mouse, and kept tracking forward.

"Brother Qin, how do you know that the armed organization that is going from here is here?"

"I naturally have my method. You just follow me. The direction is guaranteed to be correct. I will definitely find that group of people!"

Everyone didn't ask any more, and followed Qin Yuan towards that organization.

Halfway through, Qin Yuan found that there was a dirt pit in front of him with traces of ambush, because there were some food packaging bags around, and the surrounding grass was overwhelmed. It seemed that someone had been lying in ambush all the time.

It should be the person who controlled the drone yesterday, because the missile drone can't be too far away, so they are lying here preparing for a sneak attack.

It seems that the direction is no problem.

In this way, two hours later, everyone finally arrived at the armed base. These armed organizations were cooking, and no one was on guard at all, because they did not expect anyone to attack.

After all, their location is very hidden. I hope they will slowly approach the hillside, and they can already hear the conversations of armed men inside.

"Damn! Our drone missiles were knocked down by them. These peacekeepers seem to be quite strong!"

"Haha, what about the strength? This is their rule. We can't take part in our war. After two days, they relax their vigilance. We rush to the camp and give them an attack. Don't kill too many people. Some villagers there dare to take them in, they are all damned!"

"Shut up! We said that we don't kill those civilians, idiot, you kill all those civilians, where we go to grab food later, our main target is the peacekeepers!"

Qin Yuan jumped out when he heard this, and those armed organizations didn't react at all. What's the situation? When did these people come? There is no sound at all!

"I don't think you have this opportunity anymore. Don't you want to target the peacekeepers? Then go underground!"

After Qin Yuan finished speaking, he shot quickly. The several armed organizations in front were instantly knocked down by him. He Chenguang and the others also rushed out. To tell the truth, these armed organizations are not very powerful. After all, most of them are local people. Forced to participate in the war.

The distance of 20 kilometers is not too far. Gunshots can be heard in this place. When the peacekeepers from the village heard the gunshots, they immediately remained vigilant.

"What's the situation? Will they suddenly hit this side?"

"It shouldn't. It's still a bit far away from the gunshots. It should be that their local militants are fighting. Usually they come to the village to grab things, but everyone still stay vigilant."

They didn't even know that Qin Yuan was destroying those militants for them.

The last few militants fled frantically even the guns were dropped, but Qin Yuan solved them one by one, and the last one knelt on the ground and begged frantically for mercy.

For this kind of people, I really can't be soft-hearted, it's the war they started, and they didn't soften when they bombed their base.

Qin Yuan directly squeezed the trigger and solved the last armed organization.

Qin Yuan and the others walked down the mountain and looked at the direction from the other side of the village. This was also the last gift they gave to the peacekeepers. They hoped that they could complete their tasks in this strange country safely, and they would often return to the country in full.

After Qin Yuan and the others returned to the military area, his previous training method was spread out. Everyone said that he had a unique training method that could train a super soldier king.

What the \*\*\*\* is this? Why don't you know?

In fact, he doesn't have a special training method. It just trains according to the different types of arms and their mission requirements. From these peacekeepers, what they need most is reactivity and endurance, so they mainly train from these two aspects.

For a while, many teams have come to ask Qin Yuan to give them training instructions. Qin Yuan is also embarrassed. How can he train so much? Wait, how can the cooking class let him train?

Gao Shiwei stood up and said, "Well, I asked the comrades in the cooking class to invite you to do training. After all, your kid can really cook!"

Qin Yuan was very speechless, with so many companies in focus, he couldn't go all the way, right?

"I said Qin Yuan, I know that your special forces are the trump cards of the trump cards. We are the number one in the military region. But we are all comrades in arms, brothers. You can't care about it, right? Let everyone be strong together!"

Chapter 787 Mu Qingmei's Suitor

I also want to manage this, but I can't manage it at all. I only have one person, so many companies, he can't be a clone!

At this time, he thought of a way. The red blood cell team was also trained by him personally, and in the course of these several battles, they performed very well, and they can replace themselves as training guidance.

And this is not for them to train. It just means that everyone's training is similar. Share your training experience with them. If you have a few of them, it will be almost the same.

Qin Yuan smiled and looked at the third company commander in front of him and said: "The third company commander! Our army has so many companies, I have only one person, right? But I have other differences. I can get all these if I don't grab them. My true story! I believe you have seen their combat capabilities before."

The company commander also felt something reasonable when he heard it, and nodded. This was indeed when their red blood cell team was selected before. He saw the combat capabilities of these people. On the whole, the team has a very good degree of unity and cooperation.

Even if Qin Yuan can't be invited, after all these are Qin Yuan's training methods for soldiers, he also knows, and just as a guide, that's ok.

Seeing that the third company commander agreed, and worried that he would go back, Qin Yuan immediately said: "Company commander, wait here for a while. I'll go in and call for someone now. You will take this group of boys now. Let them go and rest assured. There is a lot of time, no problem!"

what! Is it so fast?

At this time, He Chenguang and the others went back to the dormitory and were sorting out their house affairs.

Everyone was planning to go home to accompany their girlfriends, or where to go to play, and the discussions were in full swing, when Qin Yuan came in.

"Brothers, I want to tell you good news, this is your chance to be a mentor!"

As soon as He Chenguang heard this, he felt that he might be pitted by Qin Yuan, and every time he said that, it was nothing good.

really!

"Just now the third company commander came over to borrow someone from me. He just wants you to go to their basic companies to do training and guidance. I see that all of you are so good under my careful training. It's time to show it off! So you go now!"

what's the situation! We just came back! What about the agreed vacation? Say good tour?

In this way, Li Erniu and the others inexplicably followed the third company commander into the car and went to the basics. The company was training and instructing, and Qin Yuan waved desperately outside the car with a full face.

The third company commander looked at Qin Yuan outside the window and said with some emotion: "I really envy you. You see that you really care about you in the battle. Why are you so reluctant to just go to our company? This friendship is really rare. what!"

He Chenguang and the others had black lines on their faces. What the three company commanders saw was only the superficial phenomenon. In fact, Qin Yuan was very happy in his heart now. They really understood it too much. After all, they were doing this task for Qin Yuan.

Sure enough, after they left the military area, Qin Yuan jumped up happily, and hadn't been with An Ran for a long time. They were all missions every day. It's okay to let this group of boys do something for themselves.

Qin Yuan took a good bath, dressed up, and was about to find Long Xiaoyun. He didn't expect Long Xiaoyun to be seconded to do training and guidance, and it was arranged by Long Zhanjun.

It's been a long time since I looked for Mu Qingmei. This little Nizi said before that she went to the military hospital of Yan Country for further study. After all, it is also the information age. Many things were eliminated before the update, so she was sent to study. Up.

Just go to the hospital where she studied to see her. I wonder if this little Nizi has not seen herself for so long, has she forgotten me.

Qin Yuan drove to the hospital where Mu Qingmei was studying. The hospital was quite big, but it was empty-handed and it was not appropriate. He went down and bought a bunch of roses next to him.

He made a call to Mu Qingmei and said, "Xiao Momo, guess who I am?"

Mu Qingmei didn't expect Qin Yuan to call her. She knew the particularity of Qin Yuan's profession. Strong people like him are always performing tasks anytime and anywhere, so she has not bothered him, but sometimes she feels that Did this guy forget her?

"Qin Yuan, I just see when you can think of me, probably you have forgotten me! Humph!"

"Didn't I have a mission? Now that the mission is over, I will come to you right away. Which floor are you on? I brought a gift."

Mu Qingmei also understood Qin Yuan quite well, and didn't make too much trouble. She told him her specific floor, and she was still a little excited. After all, girls in love are all hoping to receive gifts from her boyfriend.

But after waiting for half a day, Qin Yuan didn't come up. Mu Qingmei sat in the duty room in a daze. He also said that he was a special soldier and didn't have any speed. Just these few steps, he climbed the stairs and came up!

At this moment, she heard the sound of the glass window next to her, turned her head to look, and was shocked instantly.

Qin Yuan was standing outside the window sill holding a bunch of roses, knocking on the glass with one hand.

"You are crazy! This is the 13th floor!"

Mu Qingmei whispered, and hurried over to open the window to let Qin Yuan in. This person really didn't have any sense of danger at all. He stood outside on such a high floor without any protection.

Qin Yuan couldn't help it, because when he came up with a rose, because it was a military hospital, he had to register and didn't bring his ID. The security guard said he would wait to call for verification.

Qin Yuan couldn't wait any longer. Waiting for this set to be passed down, at present, it is estimated that he would be off work, so he simply flipped up the air conditioner on the outer wall of the hospital.

Mu Qingmei raised her pink fist and beat him, "You do these dangerous things all day, so you can call me, can I just pick you up?"

"Why is this dangerous? Isn't it difficult at this level that your husband just doesn't believe in your husband's abilities?"

Mu Qingmei didn't expect that this guy hadn't seen each other for a few months, and his tongue became more and more glib, and his face was slightly red when he teased him like this.

Qin Yuan handed the rose to Mu Qingmei, "How about it? Do you like it? There is still a gift in the middle of the rose, you can open it!"

Mu Qingmei opened the box in the middle and turned out to be a bear pendant. It was really cute. The roses were very romantic. This bear pendant was also very beautiful.

Qin Yuan took out the pendant and put it on Mu Qingmei personally. Her character is very cute and she is really suitable for this kind of gadget. Mu Qingmei is also good to coax, and she is also very happy with these two things.

Sure enough, there is a personality difference between people. If you change to Long Xiaoyun and haven't been looking for her for a few months, you'll probably be stripped alive. After all, she was chased and beaten with a gun in the training ground. , This character is really hot, but I like it too.

"Then you may have to wait for me for a while. I will leave work in one hour. You have to accompany me to get off work this time. I want to go to the playground in the future!"

"Yes, yes, no problem, my little princess, you will be satisfied tonight! I promise to pay for it!"

Mu Qingmei blushed and slapped Qin Yuan, "In broad daylight, what are you talking nonsense?"

Qin Yuan thought this little Nizi was really cute, and if she just teased her, her face blushed. At this time, someone called her out. Mu Qingmei quickly tidied up and ran out, explaining that Qin Yuan was waiting for him in the duty room.

Qin Yuan was fine at first. He planned to see if there were any books in the duty room, so he could come and pass the time, but he didn't expect to see some letters in the trash can, and the package seemed to be a love letter!

Out of professional sensitivity, he picked up the letter. He didn't expect that it was Mu Qingmei's suitor. Qin Yuan frowned and looked at the content of the letter.

What kind of stuff is written here, it's too numb and greasy, who is it? Qin Yuan glanced at the signature that said, "Love your suitor: Jin Wei!"

What kind of thing is this Jin Wei? I haven't been here for a few months, and he dared to hit Mu Qingmei with his idea. It seems that he will have to vacillate a little bit later. He must let everyone know that Mu Qingmei is also a name. The flowers are dominant.

Qin Yuan tore the letter to pieces. This Jin Wei had better not provoke Mu Qingmei too much, otherwise he would definitely want him to look good.

After thinking about it, he turned out from the 13th floor and bought something back. He should behave well.

After a while, Mu Qingmei got off work, and came to the duty room to look for Qin Yuan. Qin Yuan did not tell the letter about the letter. The inner letter was complete and it was thrown in the trash can, indicating that Mu Qingmei did not Open it and see, all this is just the unrequited love of that Jin Wei.

He must have chosen to believe in Mu Qingmei. Qin Yuan held the bouquet of roses and directly pulled Mu Qingmei's hand and walked out of the duty room.

Qin Yuan's height and appearance are also superior, and Mu Qingmei is not bad. At this moment, the appearance of men and women attracted the attention of many people.

Mu Qingmei's colleague asked gossiping: "Wow! Xiao Mu, you actually have a boyfriend, so you don't want to tell us. Look at him like this, he is also a soldier! Please introduce him! "

Before Mu Qingmei could speak, Qin Yuan replied first: "I'm sorry, my unit number is special, so I can't expose it at will. I hope you understand, and thank you for taking care of my Xiaomu. This little gift, too Hope you like it!"

Mu Qingmei hadn't even reacted yet. Where did Qin Yuan take out this thing? It turned out to be a few boxes of imported chocolates. The girl had no resistance to this kind of thing.

In an instant, those colleagues cast envious glances. This chocolate is not cheap. A box costs several hundred dollars. It is really soaked in the light of Mu Qingmei and eaten such a good chocolate.

Under Qin Yuan's high-profile operation, everyone knew that there was nothing to do, and the target was very handsome.

The two walked out the hospital door hand in hand, Mu Qing eyebrows pouted, a little unhappy, Qin Yuan, the big villain, secretly bought chocolates for his colleagues, without her share, what is this pig thinking about?

At this time Qin Yuan pulled Mu Qingmei into his arms and took out another box of very delicate chocolates from his bag.

"Qingmei, this box is for you, how could I forget you, yours must be the most special! You can hang soy sauce bottles even if you poke!"

Mu Qingmei burst into laughter, and the two of them left without noticing a man in a car opposite the hospital staring at Qin Yuan coldly.

In fact, Qin Yuan also noticed this gaze. He just turned his head and was blocked by a big car in the middle of the road. He didn't pay much attention. There is no one who can threaten him anyway, so let's accompany Mu Qingmei today!

The man in the car was Mu Qingmei's suitor, Jin Wei. She held the steering wheel tightly with both hands. Where did the stinky boy dare to \*\*\*\* a woman with herself, and he even took Mu Qingmei's hand. Cut off the kid's hand.

After pursuing Mu Qingmei for so long, no matter how many things she sent, she returned them. She didn't know if she had read the letter, and had already put so much effort before, how could he give up halfway?

At this time, Mu Qingmei and Qin Yuan came to the amusement park after eating. Mu Qingmei's personality is the same as that of a child. She likes to play roller coasters. On the roller coaster, she hugged Qin Yuan and yelled, and the two went together. Haunted house.

When she came out, Mu Qingmei's small face turned pale in terror. He experienced that there was a balloon player in front of him. As long as he hit 30 balloons in a row, he would give away the big bear.

In order to divert her attention, Qin Yuan pointed to the big bear in front of him, "Look at that doll, is it cute? Just like you, waiting for my brother to beat you down!"

Mu Qingmei nodded happily.

This kind of game is very cheap, 20 yuan per game, it is an ordinary toy bullet gun, the boss sees this kind of young couples are very welcome, because men will spend money desperately for performance.

"Little brother, I told you that you won't be able to get it for 20 yuan. You can just buy it for 100 yuan. If you hit it, this big bear is yours!"

Qin Yuan didn't speak, 20 yuan per game was enough!

Qin Yuan picked up the toy gun, and it turned out that there were problems in aiming, and he had passed his hands and feet. It was really difficult for ordinary people to play, and they all had routines.

But Qin Yuan was different. The boss was still chattering about how to play the toy gun. Qin Yuan was already aiming and shooting.

Qin Yuan quickly squeezed the trigger. As the plastic bullet flew out, the balloon was instantly burst. The next year, 30 bullets were fired, and the front vent ball was burst.

The boss was completely shocked, this is a master! He had adjusted this gun, but he didn't expect him to shoot so accurately!

The people next to him were also attracted by Qin Yuan's handsome marksmanship. Many girls cast envious eyes. Mu Qingmei was very proud and took Qin Yuan's hand to swear sovereignty.

The boss is very painful. I didn't make much money this day, so I posted this big bear in the first game. I didn't expect to meet a professional and looked at Qin Yuan with a sad expression, you guys. Why are professionals coming to join us in a stall like this?

## Chapter 788

Mu Qingmei looked at the boss's expression on the side, and found it funny. Forget it, these people are also small businesses, and he didn't really want that bear, mainly because he was very happy.

"Qin Yuan, we don't want that bear, let's go! Anyway, my mood is almost restored now."

"Okay, listen to you, let's go to the movies now!"

After speaking, the two of them left hand in hand, and the boss looked astonished next to them. What is the situation of these two people, and they didn't even want to win the prize? Maybe they are just looking for fun. Fortunately, otherwise the big bear will be posted. .

The boss was picking up the gun, watching carefully, and tried to hit the balloon by himself, but it couldn't hit it at all!

After watching the movie, the two of them stayed near the hospital where Mu Qingmei studied, because she is now in the learning stage and it is not easy to ask for leave, otherwise Qin Yuan finally has time to spend time with her, and she also wants the two to have fun. One play.

Mu Qingmei is still very clingy, and Mu Qingmei's character is very cute, but it is easy for people to have a protective desire.

The next morning, Mu Qingmei lifted his waist to get up. He didn't see Qin Yuan. He checked the time and planned to go to wash first. After a while, Qin Yuan came back and bought breakfast.

"Light eyebrows, come over and eat something, I will take you to work after eating."

After eating early, Qin Yuan sent Mu Qingmei to the hospital. She was very reluctant to bear Qin Yuan. Qin Yuan held her in his ear and said, "Anyway, I have no task lately. I will pick you up for dinner when you get off work. I'll be with you these days!"

"Really?" Mu Qingmei jumped up happily.

"Of course it's true, little fool! I'll go upstairs after get off work and give you another surprise!"

Mu Qingmei said, let him not waste money. Actually, he was looking forward to it. After all, it was a great success in front of his colleagues yesterday. There are not many enviable opportunities like this.

Qin Yuan watched as Mu Qingmei walked in. The feeling of being stared at yesterday came again. He turned his head and saw the man in the opposite car. What's the situation with this man? How could he stare at him with that kind of enemy's eyes.

Not to be outdone, Qin Yuan looked back directly, and there was some killing intent on Qin Yuan's body, and Jin Wei in the car trembled with fright.

What was the situation of that person just now, how did he feel that his eyes were so terrifying? Jin Wei originally thought that Qin Yuan was the poor boy who popped up somewhere. After all, he is the heir of the Jin Group, which is also ranked in the financial aspect of City A. Before.

Is this kid also serving as a soldier?

Originally, he wanted to find someone to teach this kid a lesson today. If he was a soldier, it would be a little troublesome. It seems that he has to investigate this person first.

Qin Yuan looked at the person in the opposite car, and felt that this person had a sharp-mouthed monkey cheek, and at first glance, he was not a good person. He vaguely felt that this person was Mu Qingmei's suitor.

His intuition is generally not wrong. This time he came out mainly to have fun with Mu Qingmei. He didn't want to cause other troubles. If this person makes any excessive actions, he will really return. .

Jin Wei also closed the window and drove away quickly, Qin Yuan slowly walked back to the hotel with his hand in his trouser pocket.

After returning to the hotel, Long Xiaoyun called him. It turned out that it was Long Zhanjun who was injured during the training. He had some old illnesses before, and this time it was the injury.

The local medical team said that the Long Zhanjun cannot participate in too intensive training in the future, and walking may have some impact, mainly because the right knee has suffered irreversible damage.

Long Xiaoyun was very anxious now. She knew that Qin Yuan had a magical acupuncture technique, so he called Qin Yuan to see if he could go and help Long Zhanjun to heal.

"What's the problem with this? Give my father-in-law a treatment? This is a matter of course, waiting for me to come right away!"

"It's all this time, you still talk to me, you wait to come and see me and I won't clean up you!"

Qin Yuan looked at the military area where Long Xiaoyun and the others were located. They went to the basic company for training and guidance. From here, they drove for almost two hours. Mu Qingmei got off work at 5 o'clock in the evening. It was still very early, and they were all in time. .

Because he calculated the time, he didn't tell Mu Qingmei that he would definitely be able to come back during this time period.

He drove off. Fang Tian had to register when he came to the company. He took out his officer ID. The guard at the door paid a military salute. Unexpectedly, it turned out to be Qin Yuan of the Special Forces. Today, their company was very lively. Before, there was a Long Xiaoyun, and now there is also Qin Yuan.

Because Long Xiaoyun came down to guide them, they looked at Long Xiaoyun as a female soldier, which was one of the few, but they didn't expect that Long Xiaoyun's training in fighting, shooting, and rock climbing would not lose to these male soldiers at all, and was more. These male soldiers do better.

Long Zhanjun is very proud. His own daughter is getting better and better now, so the father and daughter had a match. Just when they were over the obstacle, Long Zhanjun fell from the two-meter-high obstacle platform. .

He had suffered injuries to his right leg before and had an old illness, so his tolerance and tolerance passed, but his usual training didn't affect him. I didn't expect to be completely injured this time.

Sitting in the medical room, Long Xiaoyun blamed himself very much. He felt that he had caused his father to be like this. If he had let his father a little, after all, he would be so old that these things would not happen.

Long Zhanjun lay on the bed and comforted Long Xiaoyun, "What's wrong with this, how can I blame you? And if you let me, I might still be angry. My own daughter is better than me, that's comforting. There's nothing to do about it, you can't accept it when you are old!"

"Don't worry, I came early. Qin Yuan has a set of ancestral acupuncture methods, which are very powerful. The previous Marines were treated by him and there will be no problems."

Long Zhanjun smiled. He is also clear about his own situation. The medical teams in the army are all relatively powerful surgical experts. Even these experts can't help it. What can Qin Yuan do?

While talking, Qin Yuan walked in. Long Xiaoyun seemed to see the savior. He quickly pulled Qin Yuan to the bedside and pointed to Long Zhanjun's leg, "Qin Yuan, you must treat my father's leg. Okay!"

"What is your child's anxiety? Qin Yuan has just arrived. You asked him to take a break and cut some fruit for him. I don't have a big problem, take it easy!"

Long Zhanjun is anxious for his daughter, the troops are trained so intensively, and she is the captain, so her daughter is not gentle, but Qin Yuan is his very optimistic son-in-law, so she can't let go. I can only assist myself!

Qin Yuan smiled, "It's okay, Uncle Long, I'm going to drive relatively quickly, so let's take a look at your leg first, I will treat you first, and we will talk slowly after the treatment!"

Long Zhanjun didn't say anything. After all, it was the children's heart, so let them try!

Qin Yuan carefully opened the gauze on Long Zhanjun's leg. The doctors here had no choice but to give him some medicines that promote blood circulation and remove blood stasis and relieve pain, which can only temporarily relieve the pain, but now his foot is also lifted. It's all strenuous.

Qin Yuan took out his silver needle. He had used this acupuncture method many times and was very proficient. All the nerve points appeared in his mind.

Long Zhanjun's problem is just a small problem. He first put silver needles on Long Zhanjun's knees, and then his calves. At first, Long Zhanjun didn't feel much, but when the knees were filled with needles, he instantly It felt like something was relieved.

And there seemed to be feelings on the legs. The knee position was warm. Qin Yuan slowly pulled out the needle. Long Zhanjun had an emergency before, but he didn't tell them that the knee position had been suffering from compression pain.

At this moment, she didn't even feel anymore, and her foot was able to move. She couldn't believe it. She tried to get out of bed, but she didn't expect this foot to be more flexible than before.

Long Zhanjun tried a big jump on the ground, Long Xiaoyun was a little worried, and wanted to stop him, but Qin Yuan shook his hand very confidently, "Don't worry, Xiaoyun, my medical skills are fine. It has been removed by me, and he has no problem running ten kilometers!"

And this scene happened to be seen by the doctor who came in for the rounds. What happened? He couldn't believe his eyes, was this person practicing jumping just now!

Impossible, his right leg has completely lost the ability to move, even normal walking will have an impact, let alone this kind of jumping action.

Long Zhanjun happily ran over to take a photo, the doctor's shoulder, "Doctor, you see that my leg is no problem at all, my son-in-law is still great!"

When Long Xiaoyun heard that Long Zhanjun directly called Qin Yuan's son-in-law, his face blushed. His father is really more active than himself, can't he be tactful? Still in front of outsiders.

The doctor was also very shocked, "Little comrade, how did you do this?"

"It's nothing, this is the acupuncture method uploaded by my ancestors, the ancient acupuncture therapy, I didn't expect it to be useful!"

The doctor took Long Zhanjun and planned to film him again, because according to the results of the film before, his entire kneecap was already in a fractured bone, and it was severely worn, and there was no way to recover.

At this moment, Long Zhanjun felt that his right leg was reborn, and he was very happy, but it would be good to have this doctor check it.

When the filming results came out, the doctor was even more surprised. The film they took only in the morning was impossible to make a mistake. The bone fracture of this man was completely cured, and there was no wear and tear.

Is that silver needle really so magical? It's simply a rebirth!

In this way, they just decided in the morning that the Long Zhanjun, who said they couldn't even do training, walked back to the training ground steadily at this moment.

Long Zhanjun was very happy. He had doubts about Qin Yuan before. He didn't expect that this kid could really do it. He deserves to be his own daughter, a good son-in-law! Not bad, I am very satisfied.

After coming out, I had to take Qin Yuan and take him to the nearby restaurant for dinner. It was still early, and Qin Yuan did not refuse. It was a long time since he came to see Long Zhanjun.

Because Qin Yuan had to drive when he was going back, he didn't drink, Long Xiaoyun didn't like it at first, Long Zhanjun was very happy, and drank two drinks.

After drinking, his words began to change, "Xiaoyun, Qin Yuan, when are you going to make me a grandson? In fact, I plan to retire at my age. You make me a grandson. Little grandson, I will train him at home!"

"Dad, you really want to train and want to train your grandchildren! Uh, no, neither of us has reached that point yet, what do you say about having grandchildren!"

"I'm not in a hurry. I also want to urge you to order. Why can't you train? Look at the abilities of you and Qin Yuan. This child will definitely have developed motor cells in the future. If you don't train alone, it's not a waste of genes. Our family is all soldiers!"

Qin Yuan could only smile at the side, why every time he met Long Zhanjun and grandma they always had to mention having children, and An Ran's grandmother before, but wait for stability, if it is true It's not a problem to stabilize to have a baby.

Just like Long Zhanjun said, my own genes can't be wasted!

After eating, Long Xiaoyun and the others still had training missions here, and Qin Yuan drove back by himself to find Mu Qingmei.

Before leaving, he whispered in Long Xiaoyun's ear: "Since our dad likes children so much, we will make ten or eight for him in a few days!"

Long Xiaoyun originally thought that Qin Yuan would have to explain something Unexpectedly, it turned out to be such an unconscionable remark, and his face instantly blushed. As expected, this person was not serious.

Although he scolded him, he still told Qin Yuan to pay attention to safety on the way back.

Qin Yuan was walking on a high speed. He didn't expect that the planned time would be missed because of a traffic jam. There was a car accident ahead, which blocked a long motorcade.

Qin Yuan watched the passage of time, feeling a little anxious. A traffic policeman came over and asked hurriedly, "Comrade, I want to ask, how long will it take to open to traffic?"

"Wait, there are five cars in front of the collision, and two of them are still large trucks, and now they are still looking for people to place the goods, it is estimated that it will take three hours!"

I go! Three hours! By the time I returned to the hospital, it was already more than six o'clock. There was no way. I had promised Hao Mu Qingmei, so it seemed that I had to call her first.

After taking out the phone, he realized that he was not charging. It was turned off a long time ago, because in the army, the mobile phone was not used very often. He would forget about it. After he came out, he realized that the mobile phone is very important and it is a thing to contact at any time.

.

It seems that I can only coax Mu Qingmei in the evening. With such a long team, he can't fly even if he wants to fly!

And Mu Qingmei at the hospital didn't even know. He was still thinking about the surprise Qin Yuan said in the morning, and his colleagues were praising Qin Yuan for being a human being. He brought them gifts when they first met.

At this time, there was a noise in the corridor outside, and a nurse ran into the office and said, "Doctor Mu, come out and have a look. It seems that someone has sent you a gift!"

Chapter 789-Mu Qingmei was taken away

Mu Qingmei thought it was the surprise Qin Yuan had said in the morning, and whispered in a low voice. How could this person not know how to keep a low profile, but very much looked forward to running out all the way.

After Mu Qingmei saw two rows of people standing in the corridor, these people were holding roses in their hands. This is too exaggerated!

The colleagues next to her were all talking in low voices, some admiring Mu Qingmei, and some sour her, speaking some sour words.

"Cut, there is something extraordinary about this, and it's too exaggerated, but the hospital doesn't know about it here, and I thought they were doing something."

"That's right, if you want to show affection, you won't go back to show, you have to be here, this is a hospital, and you don't understand the rules at all."

"I said you are so sore here. This is originally a public place. We can't restrict people's freedom, and it's a matter of a couple. What are you talking about here? The protagonist hasn't spoken yet."

Mu Qingmei heard a slight redness on her back, this Qin Yuan really is, can't she keep a low profile? I came here to study, and now everyone knows when he appears.

It was just that Qin Yuan was not seen coming out after half a day. At this moment, the person holding the rose on both sides suddenly knelt on one knee, holding the rose in his hand, and pointed in the direction of Mu Qingmei.

Mu Qingmei only felt embarrassed at this moment. This is too exaggerated. When did Qin Yuan become so exaggerated? At this time, there was a kind of music and an appearance music!

This time I was really embarrassed and lost my home. I decided to clean up Qin Yuan after I went back. What the \*\*\*\* this stinky kid is doing all day long, this is really not suitable for public places like hospitals.

The noise was so loud, not only the colleagues in the department, but even the patients in the nearby ward came out to watch.

The person who followed the music was not Qin Yuan, but Jin Wei.

Mu Qingmei's eyes widened in an instant, what was going on? She always thought it was Qin Yuan, but she didn't expect it to be Jin Wei, the peacock.

No wonder it was so exaggerated, this also made sense, this Jin Wei was really annoying, and he said how Qin Yuan could do such an unreliable thing.

This Jin Wei was really annoying. He was only hospitalized here before. After seeing her, he started to pursue Mu Qingmei frantically. Mu Qingmei had said many times that she had a boyfriend, but this kid never gave up.

And as if there was a masochistic, the more he ignored him, the more vigorous he became. Once she rushed out to block her after the night shift. Mu Qingmei was really angry, but she threw the gift from Jin Wei into the trash nearby. barrel.

Unexpectedly, this kid had a thick face, he even said with a smile: "It's okay, if beautiful women love to lose, I will buy it for you, as long as you are happy to buy ten or eight, you can throw it away!"

This person was like a cowhide plaster, wrapped around Mu Qing's eyebrows every day, and she was almost annoying. Unexpectedly, Qin Yuan happened to come to her at this moment. This talent disappeared for two days.

Mu Qingmei thought that Jin Wei should have given up, but he did not expect that it was holding a big move, and finally there was such a big movement.

Jin Wei walked out slowly from the crowd, "Xiao Mu! You said that you like roses, then I would just send you roses. Look at me, there are more than 20, each of them is 999, is it more face than the gift given by the poor boy!"

Mu Qingmei was very angry at the moment. This person was really not sure what was good or bad. Not only did he embarrass himself here, but he even said ill of Qin Yuan.

"Jinwei, you are enough! How many times do you have to tell me that I have a boyfriend, and I really don't like you!"

Unexpectedly, Jin Wei just smiled, and then made a gesture. The man with flowers on both sides began to shout: "Sister-in-law, don't be angry, Big Brother will give you flowers!"

It was too earthy, Mu Qingmei couldn't bear it anymore.

"Jin Wei, you quickly take these people out of the hospital. This is where I work. If you mess around like this, I will call the security guard!"

Looking at Mu Qingmei, Jin Wei was really angry, and he was a little upset in an instant. After all, it was so shameless to be so many people.

"Xiao Mu, there are so many people, so you give me a face. Let's talk about anything if we go out. This flower will be given to you by me, okay?"

"I don't need it, take your things, take your people, and leave quickly!"

"Hehe, Mu Qingmei, you're enough! What kind of stuff are you, isn't I so humble than that poor boy? Open your eyes and see clearly, don't you like roses? I buy So much, it's more meaningful than the bunch that kid bought!"

Mu Qingmei really didn't want to pay any attention to this person, and turned around and walked into the office, "Director, just call the Security Division to come up! And what did they do with the

Security Division? They even let these people in, which seriously affected our and human normalcy. rest!"

The corners of Jin Wei's mouth raised, he just liked this kind of woman who was not easily conquered. The more he was, the more excited he was. He must get Mu Qingmei.

Since it's not clear, then come secretly, what is good about that kid? Pursuing her as her own is enough to give her face, she is the heir of the Jin Group, she has become her own person, In the future, enjoy endless glory and wealth.

Then Jin Wei left with those subordinates, and Mu Qingmei was seriously criticized by the director in the office at this moment.

"Mu Qingmei, you were also sent by the military region to study. This is where you study and work. It is not for you to fall in love and intercede. This day, I really treat this as my own home!"

Mu Qingmei was also very wronged in her heart. How could she control this? In the end, Jin Wei hated him the most. He really wanted Qin Yuan to teach this man a lesson, causing her to be scolded by the director and misunderstood by these colleagues.

And after they came out, the patients were even more talking about it, saying that it was yesterday, obviously another man gave her flowers, and today it is another one, and various unscrupulous words reached her ears.

Mu Qingmei felt wronged the more she thought about it. It was indeed okay to teach these people with Qin Yuan's ability, but she was even more afraid of Qin Yuan's accident. If this \*\*\*\*\* ruined Qin Yuan's future, she would rather not say anything.

The director was very upset, and asked Mu Qingmei not to come to work these days, to deal with these things, and come later, otherwise this is a hospital. What is the proper way for these people to come here every day?

At this time, Qin Yuan was stuck on the high speed, and he hadn't made any progress. He could already imagine Mu Qingmei being angry, but this little Nizi was much better.

After I go back, I can only apologize and compensate her for some small gifts. It seems that I am really not that kind of time management master.

Not sitting in the duty room at the moment, thinking about it and calling Qin Yuan, after all, the director told her to go back now.

"Sorry, the call you dialed is turned off!"

Mu Qingmei listened to the cold female voice from the phone prompt, and thought to her heart, Qin Yuan! You are done! No matter how you coax me today, I will never forgive you!

Mu Qingmei waited in the office for a while. She stood upstairs and looked down, but did not see Qin Yuan. Did this stinky boy fall asleep in the hotel?

The more Mu Qingmei thought about it, the more angry she got, and she walked out of the hospital rushing with her bag, intending to go straight to the hotel to clean up the kid.

Originally, as a special forces military doctor, Mu Qingmei's vigilance was still relatively high, but at the moment she was angry and was occupied by anger, and did not notice the situation next to her.

A black car next to it was slowly approaching. When it reached my mother's side, suddenly the car door opened and two men rushed down.

A towel was put on Mu Qingmei's nose and mouth. She was not struggling at the moment. She wanted to resist. She didn't expect to feel sore and weak in her limbs. She instantly lost strength. It seemed that there was something on the towel, and finally she just stared at the direction of the hotel. After taking a look, he fainted.

The two men threw Mu Qingmei on the back seat, and one of them touched Mu Qingmei's face with a lewd smile.

"You said this little beauty is really good, this figure, this face, it's absolutely amazing! Otherwise, our brothers will play first!"

"Qiangzi! I think you are crazy. This is the person that Boss Jin wants. If there is something wrong with her, I think you should not be in a city."

"Hehe, I just said that when you are scared, I must know that he is the boss! Look at the bear that you scared!"

"Okay, you'd better say a few words less. After being heard by others, the few of us can't eat, we just throw this woman to the boss and complete the task. With the bounty, you can find as many women as you want. ."

Qiangzi curled his lips. How could those women compare to this person, but they really didn't have that ability. It was a pity that they couldn't eat the meat on their lips.

At this time, the high speed finally started to dredge, Qin Yuan also breathed a sigh of relief, and finally started to move, he ran all the way, and when he arrived at Mu Qingmei Hospital, her colleague said that Mu Qingmei had already left. Up.

At this time, a fat girl ran over and said to Qin Yuan in a low voice: "For the sake of buying us chocolate yesterday, let me tell you one thing!"

Qin Yuan listened attentively. This girl had told Qin Yuan what happened during the day. Qin Yuan squeezed her fists when she heard it. Jin Wei really didn't know what was good or bad. She originally planned to let it go. Those who passed him, it seems that they really want to find him, and do a good job.

When the fat girl saw that Qin Yuan was going to find the group of people to settle the accounts, she kindly reminded, "I think you should pay more attention! This Jin Wei is not a good person. It depends on the wealth of the family. He is ours. The heirs of the Bianjin Group are very powerful. If you don't provoke them, or don't provoke him."

"Thank you for your reminder, but it should be the other way around. The least he should provoke is me!"

The girl shook her head. It seems that Qin Yuan still doesn't understand what she is talking about. The financial resources of this Jin family are ranked first in city A, and it can even reach the point of covering the sky with only one hand. Anyway, she has already. I reminded him that he couldn't control what decision he had to make.

At this moment, Qin Yuan walked out of the hospital with two small cakes in his hands, which were used to apologize, thinking that Mu Qingmei should go back to the hotel to wait for him.

After he went back, he knocked on the door and no one answered, thinking that this person must still be angry. After taking out the room card and going in, he found that Mu Qingmei hadn't come back at all.

Qin Yuan is a little anxious to do it. With Mu Qingmei's temperament, he won't leave in anger with him. Combining with what the fat girl said just now, is it the Jin Wei?

Damn, Jin Wei! If you dare to hurt Mu Qingmei, I will really make you pay 100 times the price!

Fang Tian came downstairs and saw surveillance everywhere. The hotel was next to the hospital. This distance was very close. If those people wanted to kidnap her, she must have acted as soon as she was discharged.

Qin Yuan watched the surrounding surveillance using world-class hacking technology to instantly invade these surveillance systems so that he could check it at any time. He sat next to him and took out his mobile phone, and the monitored screen was transmitted to the mobile phone.

Only the farthest surveillance camera was photographed. This group of people still wanted to find a blind spot for surveillance. They should know that Mo Qingwei was going back to the hotel. If he didn't act again, there would be no chance to act, and they could only act forcefully.

He only saw that Mu Qingmei was taken into the car and was in a coma. Qin Yuan blamed himself very much and blamed himself, but he immediately called up other systems and kept tracking the black car.

Qin Yuan stopped a taxi and proceeded according to the route of the black car. He took out his mobile phone and checked the Jin Group. He didn't expect that Jin Wei's father was still a philanthropist their financial resources It is currently ranked second in city a.

This Jin Wei's father used his extra money to support the poor college students all the time, and it was a free grant. There was no problem with this, after all, it was all positive reports.

At this time the taxi driver asked: "Little brother, this route seems to go to the Jinjia Villa area. Did you visit there too?"

Does this taxi driver know anything about it?

It turned out that the Jin Group was very rich and built a row of villas on the seaside, all of which belonged to the Jin family. Because there was close to the coast, the scenery was very good, and many people would come to visit it.

"No, I'm looking for someone over there."

Looking at the route of the black car on the phone, Qin Yuan drove straight into the Jin family villa, and never came out again. It seemed that Mu Qingmei must be here.

After Qin Yuan got off the car, he walked straight into the main road of the villa. The Jin family was really rich. I didn't know it. I thought it was a residential villa. After all, it was a row, but I didn't expect it to be all gold. House's.

Qin Yuan looked around and saw the black car. Just as he was about to walk over, a security guard came over, "Hey! You can't enter over there, over there is the Jin family villa area. If you want to visit, go to the coast over there!"

"Hehe, I didn't come to visit, I just came to find someone!"

"You can't just rush in like this when you find someone! You are waiting here, I have to go in first to report, whether the Jin family promises to meet you, you can go in."

Qin Yuan shook his head. It was too much trouble. He quickly knocked out the security guard and dragged it into the grass beside him.

Chapter 790 Text

Qin Yuan quickly came to the black car and found no other clues, but the black car stopped here, and Mu Qingmei should be in these buildings.

But with so many buildings, how would he find them?

At this time, a man was blowing a whistle and came out of a building in front. Qin Yuan quickly stepped forward with a saber and directly hit the man's throat.

The man was a little flustered, but when he thought that this was the Jin family villa, he still said with some confidence: "Who are you? This is the Jin family villa. You came here purely for death!"

Qin Yuan covered the man's mouth and hit the man's ribs with a punch. The man struggled desperately. Qin Yuan went on to punch a few more times. The man in front of him felt that this man's strength was too great, and he couldn't get rid of it. .

Immediately raising his hand to indicate that he was no longer struggling, Qin Yuan continued to put the knife in his throat again, "I just want to ask one question, where is the girl you kidnapped this afternoon?"

The man was panting because of the pain, "She was sent to Master Jin's room!"

what! !

When Qin Yuan heard this pinching the man's neck, the man could not breathe instantly, his face flushed, Qin Yuan's strength was very strong, and he lifted the man out of thin air.

The man kept struggling, saying something in his mouth, but couldn't make a sound.

Qin Yuan calmed down and put the man down. After all, he didn't know the specific room. The most urgent thing now was to ask Mu Qingmei's whereabouts, and then go to rescue her.

"Where is that room?"

After Qin Yuan released his hand, the man took a fresh breath, gasping for breath, "Ahem, go over here, the third house, you go directly to the third floor, and the third floor is Young Master Jin's room!"

The man just finished speaking, Qin Yuan knocked him out with a punch, and then quickly ran towards the building the man said.

He didn't know the matter either. The man said it was true or false, but as long as he got a little news, he had to check it out first.

Qin Yuan ran over and was very anxious. He kicked the door of the third building open. Just after kicking it open, he discovered that there were more than a dozen people inside, who were playing cards and watching TV.

Seeing Fang Tian who suddenly broke in, a man shouted: "Who the \*\*\*\* are you? Come here to disturb our interest!"

It seems that this is not the residence of Young Master Jin. Seeing that these people dress up, they should be the thugs of the Jin family villa.

"I just want to ask one thing, you kidnapped a girl this afternoon, where is that girl?"

"Hahaha, it turned out to be looking for a mistress, sorry! We don't have girls here, there are so many men!"

Qin Yuan quickly threw the flying knife, and a flying knife directly inserted into the man's left eye. The people next to him were shocked. This speed was too fast! And this person said to do it!

The man whose eyes was caught screamed in an instant, "Ah! Damn! Brothers! This kid is here to smash the scene. Give me a shot and kill him!"

Qin Yuan quickly threw out the flying knives. These flying knives didn't hit them, but they hit their shoulders and arms. He quickly ran forward, attacked left and right, and pulled one of his men to the ground quickly.

These thugs didn't have much strength in the first place, and they didn't have the ability to fight back against Qin Yuan's well-trained ones.

This year I walked over and stepped on a man's chest, "I just want to ask, where is that girl?"

"Big brother! I, I don't know, what girl?"

Qin Yuan directly pierced his shoulder with a flying knife, and raised his hand to throw a second one.

At this time, the man cried out in horror: "Don't! Brother! We really don't know this. It was brought by the strong son, and the young master's villa was behind them. Generally, some women were brought to the villa behind. I really don't know!"

Qin Yuan looked at the painful expression of his subordinates. There should be nothing wrong with this person's words. He turned out from the back window and ran to the front villa.

On the other side, Xia Mu Qingmei had regained consciousness. She found that she was in a room with all the clothes on her body. This was the best result. There were no restraints on her hands and feet. She quickly got up and checked the surroundings.

She wondered who would kidnap herself, is it really that Jin Wei, is he so courageous?

This room looks luxurious, but the doors and windows are locked, and the windows inside have been specially treated, so you can't see the outside from the inside.

At this moment, Mu Qingmei heard the movement and looked around for something to defend himself. After looking around, he could only pick up a lamp.

It was Jin Wei who came in at this time.

"How is it? My little beauty, I'm satisfied with this place. I told you that as long as you follow me, you can't think of all the glory and wealth. These things belong to you!"

Mu Qingmei looked at Jin Wei angrily at this moment, "You bastard, you dare to kidnap me, kidnapping is illegal, don't you even know this?"

"Hahaha, Little Beauty, you are still as naive as you always have! Don't you know that money can make ghosts worse? My Jinshi Group is currently one of the best in City A."

"I tell you, even if this is the case, my boyfriend will know and will not let you go. You will die miserably!"

Jin Wei heard Mu Qingmei mention the man again, was very angry, rushed forward and pinched Mu Qingmei's neck, "When is the time, you are still thinking about that man, now you are my prisoner. If you kneel down and apologize to me, then I can forgive you!"

Mu Qingmei had also learned some basic grappling operations. He grabbed Jin Wei's arm and pulled forward and pressed his shoulder. He originally wanted to have a shoulder throw.

Reluctantly, the strength was too small and it was not successful. After all, Jin Wei was a man. He was very strong. After breaking free, he slapped Mu Qingmei directly with a slap, and instantly her white face had a five-fingerprint.

"I'm telling you, Mu Qingmei, don't \*\*\*\* know what the \*\*\*\* is going on, this young master likes you, that's your honour, so please take care of me!"

Mu Qingmei was very shocked. This person actually dared to hit him. No one had ever hit him before, and tears shed instantly.

After seeing Mu Qingmei crying, Jin Wei felt distressed, "Okay, Xiao Mu, I know I am too impulsive, but I really like you, I am not bad, you can also consider me !"

Mu Qingmei raised his head and stared at Jin Wei fiercely. He must let Qin Yuan break this man into pieces!

At this time, one of his subordinates came to report, "Master, the master wants you to come and look for him!"

"Damn, what the old man is doing. Didn't you see that the young master is hiding it? Don't look for it sooner or later, look for it now, wait for a while, wait for the young master to get the business done!"

"Master, I think you'd better go there! Grandpa looked in a bad mood today, maybe because of the company!"

"Okay, I see, lock the door, don't let anyone in, show me this little beauty!"

Then Jin Wei turned his head and said to Mu Qingmei: "Xiao Mu, you have to wait for me in your room. During this period of time, you should think about it. Following me is actually good, and I am not that bad. There are some Money, you can give you whatever you want!"

Mu Qingmei turned her head and sat on the ground dejectedly. At this moment, she had put all her hopes on Qin Yuan. She knew that Qin Yuan would come to rescue her, but at this moment she only hoped that he could come earlier, so she could only resist desperately later. Can't let that Jinwei succeed.

At this time, Jin Wei walked to the old man Jin Xiong's room and was very dissatisfied. He sat directly on the opposite stool and crossed Erlang's legs. "Old man, you are looking for me. If you have anything to say, hurry up. I still have business. do!"

"I think you are really getting more and more presumptuous. Now everything is given to you by the Jin family. You have to make some contributions to this family. But I think you are idle all day, and the most important thing is your company account. What do you say about the little money?"

"It turned out to be this. Didn't it cost you a few money? And the company's money is not ours, I just fancy two cars, and then take some money from the company!"

Jin Xiong looked at the prodigal son in front of him, not attacking him, and directly slammed the documents in his hand at Jin Wei, "There are still so many shareholders in the company, your kid will cause trouble for Lao Tzu in one day!"

"Oh! You old man, really annoying, the big deal will open all those shareholders."

Jin Xiong almost couldn't get up when he heard this. This prodigal son really wanted to \*\*\*\* himself off.

"Leave money matters aside. I heard from your subordinates that today you brought back a girl with a boyfriend. How much trouble did you really cause Lao Tzu?"

"Isn't that what you said? It doesn't matter if money can be settled. Her boyfriend is not a threat, but he is just a poor boy, just let it go!"

"How did I give birth to you bastard, don't make things too much, you stay here for Lao Tzu, I'll go see the girl's situation first, don't cause any trouble, I don't know it!"

Jin Wei originally wanted to refute, Jin Xiong glanced over, "If you are doing this kind of mischief, I will stop all your credit cards!"

"Cut! Am I still afraid of you?"

Even though he said that, Jin Wei sat in the room and did not move. Jin Xiong snorted and walked out.

There was the sound of footsteps outside the door, and Mu Qingmei sat on the side of the bed vigilantly. At this moment, she was very scared. Unexpectedly, it was not Jin Wei who came in, but a Jin Xiong.

At this moment, Mu Qingmei's eyes were red and swollen from crying, and Lihua was teary. Jin Xiong was attracted as soon as he came in. Seeing Mu Qingmei with a hehe smile, his own son really had a good vision.

This is really a little beauty, much more prettier than the college students he sponsored before, and an idea instantly came up.

"This little sister, don't be afraid. I am Jin Wei's father. I have taken care of that stinky boy. Don't worry, I will take you home!"

After Mu Qingmei heard it, she ran forward and took Jin Xiong's hand excitedly, "Uncle Jin, really? You can take me home quickly, I'm really scared!"

Jin Xiong took Mu Qingmei's hand and kept rubbing, with a wretched smile on his face, "Yes, don't worry, I will send you home, but you have to do something for me before going home. ."

Mu Qingmei wanted to withdraw his hand, but found that he couldn't do it at all, "Uncle Jin, you! What are you going to do, you let me go!"

"Of course a little beauty like you has to take care of me, then I can let you go back!"

Unexpectedly, Jin Xiong and his son were of the same virtue, neither father and son were good. Mu Qingmei fought hard at the moment, but Jin Xiong's strength was very strong and directly pressed Mu Qingmei on the bed.

Jin Xiong ripped Mu Qingmei's clothes frantically. At this moment, Mu Qingmei's neck was hung with the bear pendant that Qin Yuan gave her, and Jin Xiong tore the pendant off.

Suddenly the bear pendant issued a sharp alarm.

"Damn, what the \*\*\*\* is this?"

At this time, Qin Yuan who was outside also heard the sharp alarm. The bear pendant was actually an anti-wolf weapon. Once it was damaged by violence, it would sound a sharp alarm.

It seemed that Mu Qingmei was very dangerous now. He jumped directly to the building where the alarm was issued. At this time, Jin Xiong picked up the pendant and threw it out.

And Qin Yuan had already arrived downstairs in the building at this moment. It should have been the leftmost room on the second floor just now. He followed the pipe next to him and went directly to the room window on the second floor.

Kicked the glass directly with one foot and jumped in!

Jin Xiong was lying on Mu Qingmei at the moment, and there was a sudden movement. He raised his head quickly, only to see a man jump in. What happened?

The glass in his place is all imported tempered glass, which was kicked and broken by this man!

The guard outside the door also heard the sound and ran in, "Master, what's the matter?"

"Damn, go and inform the brothers that there are intruders. Are the security guards downstairs eating dry food? This kid has already seen something that shouldn't be seen. Let the brothers clean up!"

Qin Yuan was right in front of him. He even dared to say something like this. At this moment, Mu Qingmei quickly ran to Qin Yuan's side. Fortunately, Qin Yuan came in time. He was only frightened, his clothes were torn, and the others were not harmed.

Qin Yuan hugged her distressedly and looked at the palm print on Mu Qingmei's face, "Hey! You sit here first. I will not let those who hurt you before!"

Mu Qing's eyebrows were full of tears, and she nodded vigorously, knowing that Qin Yuan would be saved by herself.

Qin Yuan stood up and kicked the man in black who was rushing over. At this moment, he was very angry. All his moves used a powerful explosive force, and the man in black hit the window directly.

Cracks occurred in the tempered glass on the left and all of it shattered instantly.

Seeing this scene, Jin Xiong quickly wanted to run out. Qin Yuan directly threw a flying knife over and thrust the flying knife straight into his calf. Jin Xiong fell to the ground in pain.

At this time, seven or eight people in black came over and were quickly resolved by the group members. He was very angry at the moment, just wanting to find that Jin Wei, and this Jin Xiong is not a good person.

"Damn, where are the people dead? Old Liu, go and see those thugs, come out and stop this lunatic!"
