

Special Soldier 79

Chapter 79: The power of 8 needles against the sky

Qin Yuan looked at these three options, suddenly drooling.

The second item of silver needle manufacturing, let alone the first item, the flying needle technique should be as powerful as playing cards.

It's just that Qin Yuan did directly exclude this item. Although flying needles may be more convenient than playing cards, as long as they see flying needles, Qin Yuan thinks of the sissy in a certain TV show.

If you want to practice magical skills, you must first come from the palace, which Qin Yuan can't bear.

And these eight needles against the sky, at first glance, are more powerful medical skills, which Qin Yuan lacks.

Qin Yuan directly chose item 3!

"Ding Dong~ Congratulations to the host for obtaining the world-class eight needles against the sky, and the world-class eight needles against the sky. The host can learn the first needles of the eight needles against the sky! Eight needles against the sky, walking against the sky, the first needle, against life and death With the first shot, as long as the patient is still alive, it can completely stimulate the patient's life potential and treat all diseases that the human body can heal itself!"

"Cure all diseases that the human body can heal itself?"

Seeing such a description, Qin Yuan was taken aback for a moment, but soon became happy.

After all, the body's self-healing ability cannot be underestimated. Most viruses and bacteria cannot defeat the body's immune function.

And the reason why humans take those drugs is to stimulate the body's self-healing ability, thereby eliminating bacteria and disease in the body.

Even if it is a cancer that is so fascinating, there is still a cure!

And in Qin Yuan's mind, there was a set of extremely complicated acupuncture methods. The first needle was eight needles against the sky. It was said to be one needle, but this needle had many complicated details.

If you let others learn, you won't be able to learn it at all, and Qin Yuan has taken advantage of the system!

The first stitch alone has reached such a point, what if you upgrade later?

With excitement, Qin Yuan immediately made another choice, raising this eight needles to the perfect level!

"Ding dong~ Congratulations to the host for obtaining the perfect eight needles against the sky, let the host learn the second needle of the eight needles against the sky! The second needle, calm the mind, use the second needle, as long as the patient does not die immediately, it can stimulate the patient Life potential, heal all injuries!"

When Qin Yuan saw the description of the second stitch, he suddenly exclaimed. There was a specific restriction on the first stitch. When it came to the second stitch, even this restriction was gone, as long as there was one person left. With a breath, all injuries can be healed. This is like a miracle!

At this time, Qin Yuan had another set of needle techniques in his mind, and this set of needle techniques was more complicated than the previous one.

With these two sets of acupuncture methods, Qin Yuan even thought of becoming a doctor. With this ability, Qin Yuan could become the richest man in the world!

But Qin Yuan finally stopped this idea. After all, even if he became the richest man in the world, he just had more money. With Qin Yuan's gambling skills, it was easy to get money.

And Qin Yuan continues to choose!

"Ding Dong~ Congratulations to the host for obtaining the Universe Grade Eight Needles, and let the host learn the third stitch of the Eight Needles! The third stitch, the fleshy bones, casts the third stitch, which can regenerate the limbs and limbs!

Seeing the description of the third stitch, Qin Yuan immediately took a breath, and even the rebirth of the severed limb came out. How powerful is this eighth stitch against the sky!

With the current medical technology, it is impossible to achieve this level. The system's capabilities are as terrifying!

Now Qin Yuan is a little numb, he is really shocked by this powerful function.

Continue to choose the 4th stitch!

But at this moment, Qin Yuan heard the improvement from the system.

"Ding Dong, given that the host's current physical fitness is not enough, pin 4 cannot be turned on, please select other options."

Qin Yuan was stunned when he heard this. He didn't have enough physique, so Qin Yuan didn't have enough physique now?

But the system has never deceived himself, and Qin Yuan has no choice but to give up his choice.

He took all the silver needles out of the backpack and put them back. At this time, Mu Qingmei also just came back from the bathroom.

But when Mu Qingmei came back, his face was extremely ugly, and he said directly to Qin Yuan:

"Sorry, there is something wrong with my family, maybe there is no way to stay with you anymore, I have to go back first."

And seeing Mu Qingmei look like this, Qin Yuan was also a little surprised, and asked directly:

"What's wrong? What happened? Is there anything I can help?"

Mu Qingmei hesitated, but also said to Qin Yuan:

"My mother is sick, and now she is in the hospital, and my father asked me to go there."

When Qin Yuan heard such words, he was immediately excited. He had just obtained eight needles against the sky, so he could just follow Mu Qingmei to take a look.

"Then you can take me with you, it's true that I am not only a soldier, but also a master of Chinese medicine. Maybe I can help your mother's treatment!"

"Master of Chinese Medicine?"

Mu Qingmei looked at Qin Yuan with a strange face at this time, how could this not be like a master of Chinese medicine?

But now that Qin Yuan has said such a thing, Mu Qingmei understands that this is Qin Yuan's intention, so he nodded and took Qin Yuan to the hospital.

At this time, in the intensive care unit of a hospital, Mu Qingmei's father, Mu Chongshan, was looking sadly at his unconscious wife. He really couldn't believe that his wife was suffering from this condition. disease!

Mu Chongshan asked the doctor on the side desperately:

"Doctor Zhou, is there really no alternative?"

Hearing such words, Professor Zhou, who is the attending doctor, shook his head helplessly, and said to Mu Chongshan:

"It is really a pity, Mr. Mu, your wife is already in the advanced stage of liver cancer. It was discovered too late and there is no hope of treatment.

Instead of wasting time and money for radiotherapy and chemotherapy, it is better to take advantage of this last time and do something with your wife that has not been done before. "

Hearing such words, Mu Chongshan felt even more desperate. His wife had told herself that her abdomen was painful before, but neither of them cared.

The pain is worse this time, and it was when I arrived at the hospital, but who would have thought that it was a bolt from the blue!

Even doctors no longer recommend chemotherapy, which proves that there is no chance! !

Mu Chongshan and his wife are very affectionate. If there is any treatment, even if you lose your family, you will have to treat your wife, but now the doctor is telling you to give up!

The heartbreaking pain made Mu Chongshan almost desperate, and at this moment, Mu Qingmei happened to lead Qin Yuan into the ward!
