

Special Soldier 801

Chapter 801 Being Stalked

Qin Yuan smiled, and stuffed the suit into the backpack. The biochemical doctor next to him thought that Qin Yuan looked down on his research. After all, most people are very afraid, and this kind of biochemical weapon must be protected by every means.

The previous anti-biochemical team was wearing the first batch of anti-chemical suits they researched. They just received the batch of anti-chemical suits and couldn't wait to put them on, but now Qin Yuan just put them in his backpack casually.

"Captain Qin, although I saw your strength just now, don't underestimate my chemical defense suit, it can really protect your life."

"I think you have misunderstood. I don't have any doubts about your research, but I haven't found the deepening organization yet. If I put on this suit now, wouldn't I expose myself in advance?"

The doctor of biochemistry blushed when he heard this, and felt that he hadn't thought about it. This is indeed the most fatal problem. It seems that it is more reliable to handle things with this professional.

And this Qin Yuan also has the aura of a newborn calf not afraid of tigers. When other people talk about biochemicals, they are terrified when they hear biochemical weapons, and they wish to wear four or five anti-chemical suits.

This man's courage is really commendable. The main thing he is more interested in is that the staff of the embassy said that he has experienced biochemical weapons twice, and the doctor of biochemistry has been staring at Qin Yuan.

He has already made a plan in his heart. If Qin Yuan returns safely again this time, it means that his physique must be very special. At that time, he can take his blood for a test. This kind of person's physique may improve his research a step further. .

Qin Yuan didn't know what this doctor of biochemistry was thinking now, but felt that he was staring at him more and more frightened.

He asked the staff of the embassy to ***** these biochemical doctors back first, especially the internal investigation still needs to be done quickly, there must be something leaked, and these biochemical organizations received the news so quickly.

It further shows that there must be a problem in C's country. Qin Yuan knows that his face is no longer safe. The staff of the embassy are very worried. The plan has not even started, but it has been leaked in advance.

"Captain Qin, otherwise, I will apply here and above. After all, the situation is different now. If there is indeed a leak of information from their biochemical team, then you are not safe."

"It's not a big problem. I can figure it out myself. You can go your own way, don't worry about me. Now I'm going to start with the first part of the investigation, and I'll contact you when I finish it later."

After all, he was his own compatriot, and the staff of the embassy were very worried. After struggling, he gave Qin Yuan a mobile phone, which could be used to contact him at any time. He would apply for the local armed forces to help Qin Yuan at any time.

Although he also said that Qin Yuan is a figure at the level of God of War, he is also very worried about this situation.

Qin Yuan smiled, thanked the staff for his kindness and put the phone in his backpack, then turned and left. The staff of the embassy also went down to arrange personnel to ***** the doctor of biochemistry to leave.

After leaving the embassy, Qin Yuan came to the busiest city center, where there were a lot of people, and there was a public toilet in front, Qin Yuan walked in.

Qin Yuan quickly changed his appearance through makeup. After all, the news has leaked out, he must be unsafe. He has nothing to take. He threw the biochemical suit and the satellite phone directly in the The toilet was destroyed inside.

This kind of satellite phone is very unsafe and has the function of positioning. Although he knows that it is the kindness of the embassy staff, there is no guarantee that it will be used by other interested people, and he does not need the biochemical suit.

Qin Yuan deliberately walked to the city center just now, but he already found someone following him, so he waited in the toilet cubicle for a while. The city center is very prosperous here, and there are many people going in and out to use the toilet.

Qin Yuan has changed his face at this moment, and walked out of the toilet swaggeringly. He walked to the coffee shop opposite the toilet and sat down. Before entering the toilet, he always felt that someone was watching in this direction, and looked around. This cafe is the easiest place to follow.

Qin Yuan ordered a cup of coffee, sat in the corner, and observed the people in the coffee shop. At this time, he found two strange women.

Generally speaking, two women will definitely chat when they are together, or they are originally in a coffee shop, they just come to drink coffee, and the two of them have been staring at the direction of the toilet, the coffee in their hands has been finished, but I was still stirring with my hands, just to slow down my nervous movements.

Qin Yuan smiled, he found the prey, and thanks to his system ability and strong vigilance, otherwise it would not be easy to find the situation in the coffee shop among so many people.

There are still quite a lot of people in this coffee shop, Qin Yuan plans to wait for them like this, as long as the two of them walk out of the coffee shop, it will be easier for him to act outside.

As time went by, the two became more and more nervous, and one of the women finally couldn't hold back and asked, "Aliwa, could the target have gone and we didn't notice."

"Impossible. The tracking ability of the two of us will never go wrong. Does this toilet have a back door? It shouldn't be that this toilet has a back door. I have observed it before, and this is the only exit."

"Why don't we go in and take a look, if we miss the target, the boss will not let us go."

Aliwa nodded, and the two stood up and walked out of the coffee shop, followed by Qin Yuan.

After a while, the two went directly into the men's toilet, and took out the tools from the nearby tool room, with the words "under repair" hanging on it, and blocked the toilet so that no one would come in.

After the two women walked in, they searched one by one, only to find two men who came to use the bathroom, and they were all stunned by one blow.

"It's broken! We lost our target, so hurry out and report to the boss about the next action plan."

Aliwa was very flustered at the moment. With the boss's temper, the two of them had failed in the mission this time, and they didn't know what kind of punishment they would receive. But at the moment, they could only report to the boss quickly to see if they could come up with a solution.

At this time Qin Yuan walked in directly from the door, Aliwa quickly jumped forward and raised his hand to give Qin Yuan a blow, Qin Yuan stepped back slightly and dodged directly.

what's the situation? This person's skills are very good, and he even escaped his own attack. He is definitely not an ordinary person.

"Who are you, dare to stop us?"

"I still want to ask, who are you guys? You don't change your **** in broad daylight, and you just walked into the men's room like this. It's really shameless. Tell me, how many people have you peeked at? I won't say it." ."

Aliwa was very angry when Qin Yuan teased her like this, "You **** is talking nonsense here! We didn't intend to kill people, but you are dead."

After Aliwa finished speaking, she threw a few hidden weapons at Qin Yuan. Qin Yuan shook his head, turned sideways slightly, and dodged these hidden weapons with a backflip.

"If you want to play hidden weapons, brother will teach you!"

After Qin Yuan finished speaking, he threw out two flying knives, and the two flying knives directly stabbed the shoulders of the two people who were about to jump over. For a moment, Aliwa's right hand could no longer be lifted, and the other person was no better. Where to go, Qin Yuan was very fast, and immediately stepped forward and kicked the two of them to the ground.

Aliwa lay on the ground and shouted loudly, "You forced me this time, Xiaohong! Get ready!"

After Xiaohong heard this sentence, she quickly took out two gas masks from her backpack, and Aliwa threw a bottle of white powder at Qin Yuan directly.

The two men were very afraid of the powder. After throwing it away, they quickly jumped to the cubicle of the toilet next to them, closed the toilet door and put on the gas masks.

Unexpectedly, Qin Yuan just waved the powder with his hand, and then kicked the toilet door open, "I said, what the **** are you doing, where did you get the chalk dust? gone."

Aliwa and the two stared at Qin Yuan in horror. This was a small biochemical powder they had researched on tissues. This powder would quickly invade the human respiratory tract, and within a minute, people would have difficulty breathing and symptoms of shock.

But the person in front of him didn't react at all, and his voice was still full of anger.

"You! Who are you?"

"Hehe, I still want to ask you. I am the person you are looking for. Tell me, where is your boss? If you tell me, I can save you from death!"

Looking at these powders, Qin Yuan felt that these biological and chemical organizations were too despicable, throwing out such biological and chemical weapons anytime and anywhere, and they didn't care about the consequences of such biological and chemical weapons in the air.

Fortunately, Qin Yuan used his system grid to completely absorb the powder just now, and he has a protective film on his body, which cannot be penetrated by the most powerful biochemical weapons before, let alone such small biochemical weapons.

"Hehe, you are dreaming. People like you don't understand what we are doing. Let's do it. We won't say anything, even if we admit it."

Qin Yuan stretched out his hand, grabbed the two of them by the neck, and lifted them up along the wall. He continued to pressurize for strength in his hand.

The two couldn't breathe for a while, but they struggled violently but found that it was useless. This person's strength was too great, and their struggles were all in vain.

"I only give you three times to say what you are willing to say, then I will let you go."

"one!"

"two!"

Xiao Hong next to her was really out of breath, and slapped the wall next to her hard to signal that she wanted to say that these two people did not pose any threat to Qin Yuan at all, so he let go of his hand.

The two fell to the ground and coughed violently. Aliwa stared at Xiaohong viciously, but now she couldn't breathe for a while because she was strangled by the neck just now, otherwise she would kill the traitor immediately.

"Tell me! The location of your organization, the number of people, are you the same group who launched a biochemical war in country A some time ago?"

Xiaohong nodded vigorously, rubbed her neck and said in a low voice: "Our organization is in the country of c, and the number of people in our organization is beyond your imagination. I advise you to give up. The water inside is too deep. You I don't understand at all, ahem, but if you really want to participate, I can take you there, but I hope you can let me go."

"Yes, I promise you this, as long as you lead me to find what I want, I will let you go."

Xiaohong just took off the gas mask, she can't care so much now, the gas mask even affected her breathing, unexpectedly at this moment, Aliwa next to her suddenly rushed up.

The sharp weapon in the palm of his hand was directly inserted into Xiaohong's throat. All this happened too quickly. Qin Yuan was very confident that these two people would definitely not be able to escape his palm, but he did not expect that Aliwa would be so cruel to himself. Anyone can do that.

Qin Yuan kicked Aliwa away. At this moment, Xiao Hong was covered in blood. She opened her eyes wide and held Qin Yuan tightly, "Help! Help me, I want to..."

Xiao Hong hadn't finished her words before she died. At this moment, Aliwa, who was lying on the ground, laughed loudly, "Hahaha, no one can know the secrets of the organization. I will protect everything. ."

Immediately afterwards, Aliwa also bit the poison in her mouth. Qin Yuan had seen through her trick just now, but he didn't need to stop this kind of person. Even if you stop him, you won't be able to ask for any information.

Qin Yuan became more and more curious about this biochemical organization. Originally, he thought that these people were all coerced, so it was easy to ask questions, but seeing how loyal Aliva is to the organization, is there any other hidden secrets?

The clues were interrupted again. The only thing he can be sure of now is that this biochemical organization is in country c, but he doesn't know the specific situation and the number of people.

At this time, a fluffy head popped out on the windowsill, which turned out to be a squirrel. Qin Yuan immediately thought of a plan. Since he had already killed Erniu mouse before, he was training a pet. This kind of squirrel It should also have tracking capabilities, right?

He easily grabbed the squirrel in the palm of his hand, and then he put the squirrel into the system grid.

"Ding! Congratulations to the host for the successful recycling, squirrels and rodents can be recycled as pets!"

Fang Tian quickly clicked to check the skill points of this squirrel, "Squirrel, ability level 2, the current manpower climbing, search and capture mission needs to reach level 3, wide vision, ability also needs to reach level 4."

Qin looked at the brief introduction of this squirrel and was very speechless. This squirrel was not as good as the mouse he caught before, but now there were no other animals. Now in this kind of city, these rats are the best hunting tools.

The most important thing now is to improve the ability of this squirrel. Qin Yuan took a piece of Aliwa's clothes before leaving. After all, this is the most necessary thing for scent tracking.

After walking out of the toilet, Qin Yuan looked for the target everywhere. There was a vegetable market in front, and many people surrounded the back door of the vegetable market. Qin Yuan smelled blood.

Chapter 802: strange child

Qin Yuan looked at the cute squirrel in front of him, he really had no choice but to use this instead since he couldn't find anything else.

Qin Yuan smelled the smell of blood and walked to the side of the vegetable market. This is a small slaughterhouse. Some common poultry slaughters are like chickens, ducks and fish. Qin Yuan walked over with his hands behind his back and saw the chickens in the chicken cages were alive and kicking, but most of them were some hen.

After all, the hen's meat is fresh, tender and plump. Since it is the prey for this squirrel to promote, it can't be too bad.

The peddler next to him saw Qin Yuan running around in circles, hurried up to greet him, and lifted a plump hen from the coop.

"Brother, do you want to buy chicken? Don't worry about my chicken. You can take it back to make soup and stir-fry. The meat is delicious, so you can return it to me."

"Boss, I don't like your chickens. Do you have that kind of big cock?"

The boss froze for a second when he heard that Qin Yuan wanted to buy a big cock. What's going on with this guy? But he also has a big rooster, which is in the backyard of his house, and that big rooster has been raised for a long time.

After a while, the boss came out with a big rooster with a red comb. This big rooster seemed to have been raised for a long time. Its claws were very sharp, and the whole chicken was very powerful.

"That's right! Boss, I want this chicken. You don't have to kill it for me. I will kill it myself."

When the boss encountered such a worry-free thing, he was too happy to be happy, and he was worried that he would regret it after handing the chicken to Qin Yuan.

Qin Yuan came to the back alley and took out the throwing knife, and cut the trachea of the chicken directly. He didn't cut very deep, and the chicken was still struggling on the ground. He quickly let the squirrel out.

"Go! Kill this chicken!"

This squirrel is really timid, and it is incomparable with the previous mouse, which is also a mouse. Although they were scared when they faced the snake for the first time, it dared to move.

Now the squirrel was trembling, Qin Yuan could only give him a mandatory order, and the squirrel rushed forward and bit the big cock's neck. After a long time, the big **** was still alive, Qin Yuan Yuan really couldn't wait to make another cut.

After a few minutes, the squirrel finally killed the big rooster, and Qin Yuan quickly checked its grade.

what's the situation? This squirrel killed a big rooster, and the level was only raised by half a point, which is unreasonable.

"System, what's the situation? This pet's upgrade is too slow. The mouse's upgrade was much faster than this one."

"Answer to the host, the basic abilities of pets are different, and the speed of upgrading is also different. The previous mouse has a relatively strong physique, so it upgrades faster, and this rooster's ability is not strong, so it can't improve much."

Qin Yuan was very speechless, he only got half a skill point after going around such a big circle with himself, which is too little, when will he be promoted according to this situation?

Qin Yuan regretted for a moment that he was too confident in his pets before, thinking that he could keep them alive by searching, and he obviously had the ability to confuse them.

Thinking of this, Qin Yuan suddenly felt heartache, too much ability is also a mistake, sometimes he doesn't know what ability to use.

Now that the two only hopes have been shattered, they can only take this squirrel to upgrade first. After this squirrel has been promoted to half a level, it doesn't look so dull anymore, lying obediently on Qin Yuan's shoulder.

Qin Yuan wandered around in the city center, thinking about looking for opportunities, he still needs to have a strong ability to kill, after all, those chickens and ducks are no longer suitable, and he can't increase his ability much if he kills too many.

At this time, there was a burst of yelling from the front, and a group of people formed a circle. They didn't know what they were watching. Qin Yuan also felt curious, and came closer to find that these people were fighting cocks.

Qin Yuan saw these fighting ***** with bright eyes. These ***** are top-quality. Such a powerful fighting force can definitely increase their ability points.

Now the two chickens on the field are fighting, and the people next to them keep shouting and patting the floor. The one on the left is very fierce, and won the victory in a short while.

Seeing the opportunity, Qin Yuan quickly stepped forward to negotiate with the owner of the chicken, and finally bought the fighting ***** for 8,000 yuan. Qin Yuan felt heartbroken that such a chicken was so expensive.

After all, his master said that his chicken is an ever-victorious general and could win him a lot of money. He even felt that he was at a disadvantage when he sold it to Qin Yuan for 8,000 yuan.

Qin Yuan stared at the squirrel and warned it that if it failed to be promoted this time, it would waste his 8,000 yuan in vain, and this pet would be useless.

The squirrel seemed to understand it from Qin Yuan's eyes. It was also very speechless, and it didn't know that it would listen to this man for no reason, and forced itself to kill. It was really difficult for a squirrel to live.

After killing the fighting ***** this time, Qin Yuan quickly clicked on the list to check its abilities. , Sure enough, the 8,000 yuan was not a loss. The squirrel's ability has now been promoted to level four. Like the previous Erniu mouse, it can hunt and hunt, and it can also see the field of vision.

Qin Yuan named him Xiaosan casually, because he really thought this squirrel was quite redundant.

Then he gave the clothes to the squirrel to remember the smell, and then started hunting. Now that the squirrel has been promoted, Qin Yuan can communicate with it and guide it.

He let the squirrel search all the places where the owner of the clothes passed, especially where he came from, and when the squirrel got the order, he ran out quickly.

Now Qin Yuan is waiting for the news from the squirrel. Following the squirrel's career, it ran out of the city center, and after it came out, there are villages on the edge of the town. There are so many villages like you. What makes Qin Yuan feel strange is that this squirrel Just wander around the village.

Could it be that Liwa and the others are from this village? He waited for a while, and the squirrel didn't move at all, squatting in front of a big tree of a family.

It seems that he should have found the place, but he didn't expect it to be in the village, but he still didn't rush forward, and he directed the squirrel to run around the village a few times. This is an ordinary village, no matter how you look at it, it doesn't look like it. There are biochemical bases.

Moreover, he has also had lurking experience before. These villagers seem to be living a normal life, and they don't seem to be coerced or organized to lurk.

Qin Yuan dressed up a bit, and entered this village pretending to be a backpacker, pretending to travel. It was beyond his expectation. He thought that the people in this village would be very vigilant and reject outsiders. Think of them as very warm.

Qin Yuan came to the family where the squirrel was squatting. He started eating tentatively, and the family also warmly entertained him. There were only two women in this family, one older and one younger, with two As a child, they have no defenses.

The woman told Qin Yuan that her name was Nawa, and that the man in the family had died long ago because of the war, and she was the only one living with her mother and two children, so she was very happy about Qin Yuan's arrival, after all, she could earn some subsidies.

"Well, I want to ask if I can stay here tonight? But I don't live for nothing, I will pay."

Nawa immediately nodded and agreed, as long as he gave the money, it would be fine, Qin Yuan asked some questions tentatively, this village is a very normal village, what is the situation?

He took the squirrel out, grabbed its ear and asked, "I said, are you reliable or not? Did you make a mistake? Don't waste my time."

The squirrel also felt very innocent at the moment. The owner of the clothes smelled in this village and had been there for a long time, but why didn't its owner believe it.

At this time, two children from Nawa came over. The younger one was only five years old, and the older one was already ten years old. Ruan Ruan always felt a little strange looking at these two children. After a while, he realized that this The two children lacked some innocence, and they were curious about everything at their age.

But the two children in front of him are very mature, working silently at home, especially when he takes out the squirrel, normal children will come to watch, after all, children will inevitably like this cute little animal .

Then he took out candy and chocolate, and the two children didn't respond until he took out a coin, and the two children instantly regained their energy.

Qin Yuan doesn't know what to do now, he can only tentatively see if he can find a breakthrough here, everything seems to be in a dead end.

"Little friend, do you want this money?"

Unexpectedly, Qin Yuan was shocked when the child opened his mouth.

"Don't ***** talk nonsense, just tell me what you want to do, I will help you do things, and you give me money."

It's hard for Qin Yuan to imagine that this sentence was spoken by a ten-year-old child. What have these children experienced? This is no longer a question of childlike innocence, but of being too mature.

Seeing that Qin Yuan hadn't spoken for a long time, the child got a little impatient, "You are too boring, tell me what you want to do sooner, I don't care about it with your little money, the young master can win more than you in an hour." many."

Qin Yuan was stunned for a moment. This kid was really extraordinary. He gave the money to the kid, "You just said you won the money? I'm curious how you won it?"

The child was a little happy holding the money in his hand, "Of course the young master won the game, how can he win? Tell me, you gave me money, what do you want me to do?"

"You take me to the place where you gamble, I want to have a look."

Qin Yuan also probably knew the laws of country C. Gambling is not illegal in this country, and there are special casinos, but he didn't expect such a young child.

"Just because you gave this little money, you are not qualified to know that the place has to add more money!"

Before Qin Yuan could speak, the five-year-old child next to him was busy talking! "No, Uncle said you can't take anyone there, otherwise you will be severely punished."

What uncle? Could this so-called uncle be a member of the biochemical organization, or related to the biochemical organization? Although this squirrel felt a little unreliable, it would not find this village for no reason.

No matter what, Qin Yuan wanted to give it a try. Thinking of this, he directly took out five coins.

The kid's eyes lit up when he saw the money, and he was very happy, "Okay, I'll take you there, but you have to put on some makeup."

The younger brother next to him was very principled and kept blocking his elder brother. At this time, the elder brother said to his younger brother in the local dialect: "There is nothing to be afraid of. If there is any problem with him, we can kill him when the time comes. Our most important thing now is to kill him." You need money, you know?"

They thought Qin Yuan didn't understand this dialect, but in fact, he could already hear it clearly, but he still kept a smile on his face, and his heart was very shocked. It has already been done.

No wonder Aliwa and the others said before they died that the water inside was very deep and told him not to come in and participate casually. Did that mean this?

The younger brother was also persuaded by the elder brother, and the two children brought Qin Yuan upstairs. Nawa, as the only young labor force in the family, had already gone out to work to earn money, while the older grandmother went to work in the fields.

The two children dug out a set of clothes, and Qin Yuan speculated that it should belong to their father. After Qin Yuan put on the clothes, he felt that I was somewhat similar to the local people, because their clothes were quite distinctive.

After coming out, the child kept telling Qin Yuan not to talk nonsense, so as not to arouse their suspicion.

"I know you people are just curious, but it's best not to tell what you saw, otherwise you won't know how you died."

What this child said was too mature, full of social anger, Qin Yuan felt so helpless for the first time, this kind of child didn't know how to help him.

Turning around, they came to a bamboo forest. Before entering the bamboo forest, Qin Yuan heard the voices of people inside. There should be many people, but there were still many immature voices inside.

After entering, Qin Yuan really opened his eyes. In , there are old and young, the oldest, seventy or eighty years old, and some young ones, just like them, six or seven years old, seven or eight years old .

The most important thing was that some teenage children were carrying submachine guns, and the scene was in chaos. He looked at those children and didn't know what they were smoking, but he knew it was all marijuana when he smelled it carefully.

Qin Yuan has seen countless terrorist organizations and criminal groups, but the boy scout army in front of him makes him feel very powerless.

If he really wants to attack these children, he doesn't know, can he do it? After the two little boys brought Qin Yuan here, they didn't care about him running around to play.

There was a pile of money in front of the kids, some betting money, some betting on the things they smoked, and others betting each other with revolvers.

At this time, Qin Yuan noticed a few children standing in the middle. These children were very special. They even had some pustules on their faces and arms, but they didn't care at all. Qin Yuan subconsciously covered his mouth and nose, always feeling that this was Not an infectious disease.

The older brother who was holding the money just now had already gone to play. Qin Yuan saw his younger brother squatting beside him, and planned to use this little boy as a breakthrough.

Chapter 803: ?? Mr. K's plot

This little boy is much smarter than his elder brother. No matter how Qin Yuan tried to induce him or tell him, he kept silent. The boy didn't say a word, making Qin Yuan think he was dumb.

Qin Yuan looked into the child's eyes and used a small amount of confusion skills on him. He didn't want to hurt these children. He could only use this confusion skills to get what he wanted.

Qin Yuan thought for a while, since the squirrel was able to bring him to this place, it meant that Aliwa must be related to this place.

"Do you know Xiaohong and Aliwa?"

"I know! Xiaohong is my sister."

No wonder the squirrel brought him here. This Xiaohong was originally a member of this family, and Xiaohong is a member of the biochemical organization.

"Who are you all working for?"

This question was obviously out of line, the child couldn't understand it for a while, and looked at Qin Yuan in confusion.

"It's who you are doing things for. Tell me about the situation."

With the child's narration, Qin Yuan realized that the biochemical organization was indeed here, but it was not inside the village, but in the back mountain behind the village.

The child didn't know what a biochemical organization was. He only knew that there was a middle-aged man whom they all called Uncle K. Anyway, the adults in the village respected him very much.

He would bring a lot of things to the village every time, and would give the villagers a lot of weapons. Qin Yuan also noticed that there were very few men in this village, because after all, this was in the border area of country C. There was a war before, and most of the men died because of sacrificed on the battlefield.

In a village like theirs, there are only women, the elderly, and children who are easily bullied. Every time Mr. K goes down the mountain, he will bring them weapons and some daily food and tell them to use weapons to protect themselves.

So these children held guns at a young age, and they were willing to listen to this child's narration, and felt that Mr. K was a kind of brainwashing. Not only several villages near their village were protected by Mr. K's so-called protection.

He gave them weapons for free, but conflicts often occurred between villages due to resource allocation issues, and everyone would pick up Mr. K's weapons and fight each other.

Although Mr. K will give them weapons, it will not prevent war between them. On the contrary, he will be happier if they have war.

The child also took out a few books from his backpack, all of which were printed by this Mr. K. Qin Yuan only glanced at them. They were all brainwashing measures, which preached a kind of revenge, and for them , Without brothers and relatives, everyone will become their own opponent.

As for the children with pustules on their bodies, they were all punished by Mr. K because they did not complete Mr. K's task.

The child spoke according to his understanding. The punishment he said was that Mr. K would give them injections and medicine, and pustules would appear on his body after the injection. If he could not complete the task and get the antidote, he would Because of these pustules die.

The kid kept bringing up the task, and he was very curious.

"What exactly does he want you to accomplish?"

When it came to the task, the child seemed to be a little resistant, and his eyes were tangled. This was the first time this happened in Qin Yuan's control.

This shows that the question that the controlled person wants to answer is a taboo question. Qin Yuan, who was very resistant in his heart, deepened some charming thoughts for him, and now this child has completely spoken out.

It turns out that the wars in these nearby villages were all planned by Mr. K. Every once in a while, he would let the children in this village attack with guns, and the villages on the opposite side or the villages next to them would fight each other. There are such attacks.

But this matter is only known to the children, because if these children complete what he said, and do it well, they will be rewarded generously, and they will have a lot of money to eat.

On the other hand, if he failed to complete the task or did not dare to do it, he would give them injections and medicines, so the children were very afraid of him.

I respect him because he will bring a lot of things to the village. The adults don't know about this situation, and they still regard Mr. K as a savior. In fact, he has given these children a lot of things in private, all of which are some Anti-social, and deliberately waging war.

Qin Yuan walked over and touched the skin of those children with his hands. He had absorbed biochemical weapons before, and he had poisonous serum, which can relieve such mild biochemical viruses.

Unexpectedly, those children were extremely rebellious. As soon as Qin Yuan touched his hand, he threw it away and pointed his gun at Qin Yuan.

Qin Yuan felt very helpless, so he could only use his charm skills to control these children, and then detoxify them one by one. Fortunately, there were not many biochemical viruses in these children. This Mr. K just wanted to punish and control them, not to kill them. .

This commotion caused all the children nearby to look at Qin Yuan, because in their eyes, Qin Yuan was making strange movements towards them, wondering if Qin Yuan was hurting them, and those children would not revolt.

"Hey! What are you doing? Let them go."

The moment Qin Yuan raised his hand, there was a lot of seductive smell. These children have been successfully brainwashed now. No matter what he said, they would never believe it. This method can only be used to temporarily control them.

"Come on, you send a representative to take me to Mr. K."

A slightly older child in front had a dull expression and was under Qin's control, leading him towards the back mountain.

According to what the child said about Mr. K, he has been living in the cave at the back of the mountain. There are about 30 people under them. The child has never seen the inside of the cave. There is a tent set up by Mr. K outside. The punishment will be in that tent.

As soon as they reached the middle of the mountain, two people ran down and pointed guns at them, "It's not the day to distribute food today, what are you doing up here?"

Without waiting for the child to speak, Qin Yuan said with a smile: "I came up to find Mr. K."

"Hehe, is Mr. K the person you want to see the most?"

It turned out that Mr. Kai was obviously helping them and giving them some supplies, but in fact he was using these things to control the villagers.

Now because of the war, the country has no time to take care of these villagers, so everyone is in a state of fending for themselves. At this time, Mr. K helped them, so they are looking forward to this.

"Wait, I want to go in and report."

After a while, a man came out, Qin Yuan took a closer look, this man was so ordinary, he was the one who was thrown in the crowd, you wouldn't even take a second look at him.

"Why, are you missing something again, and why did you let this kid bring you up?"

"I'm here to talk to you about business. I must have come to you on my own initiative."

As soon as Mr. K said this tone, he took out his gun and pointed it at Qin Yuan. This person is not simple. He is not from the village. Although he wears local clothes, no one in the local area would ever talk to him like this.

It took so much effort to find it, and Qin Yuan didn't want to talk nonsense, so he said straight to the point: "Tell me, where are the soldiers you imprisoned before?"

Mr. K laughed loudly, "You are really funny, what soldier? I don't know."

This Mr. K refused to admit it, but he turned around and said: "Don't frame good people, I don't know what soldiers are at all, and you ordinary people must not know what I am doing now, but I am true Help these villagers now."

Mr. K asked him to investigate casually when Cookie was on the contrary. He said that he had no problem. Now he is very innocent. He is very sad to be misunderstood by Qin Yuan like this.

This Mr. K is too many times, Qin Yuan feels like a psychopath, this person's attitude changes very quickly, he laughs, he is very indifferent, he feels like he has a dual personality.

It's not a feeling, but this person seems to have it. It seems that Qin Yuan communicated with his other personality just now. Now that the real personality has come out, he directly picked up the gun and shot at Qin Yuan.

Qin Yuan was faster than him, and directly threw out his poker skills, and the two men next to him were knocked down instantly.

He looked at Qin Yuan in disbelief. The weapon in his hand turned out to be a poker card. What is it? Is there anyone so crazy? Because all his soldiers are wearing thick body armor.

Unexpectedly, Qin Yuan's poker cards directly penetrated the thickened body armor. At this time, he suddenly thought of it. There was a legend in the world before. .

At that time, Qin Yuan was well-known in the criminal group. After Mr. K realized it, he turned over and jumped behind the stone.

"Wait, don't do it yet, I know you're looking for those soldiers, and you have a lot of questions, but we can talk peacefully."

"For a cruel person like you, I have nothing to talk about. All you can do now is to hand over those soldiers and surrender obediently. Then I can still consider letting the local laws punish you."

"Hahaha, your tone is really big. If you want to know something, then come in."

At this time, Mr. K has turned over and jumped into the cave, and Qin Yuan quickly followed. He is now immune to these biological and chemical weapons, so he is not afraid at all.

Just after entering, he smelled a pungent smell, which seemed to be the biochemical weapon that Mr. Ke had activated, and white smoke was everywhere in the cave.

Qin Yuan took a closer look and found that his skin had already been protected by a layer of protection. It seemed that it was indeed a biochemical weapon, and he had already begun to defend.

Along the way, soldiers in biochemical suits rushed out with weapons, but Qin Yuan directly dealt with them.

Mr. K has fled to the inside of the base at this moment, and he has released all the biochemical weapons just now, because he still heard about this Qin Yuan, and all his biochemical troops were killed by him before.

And his most powerful biochemical doctor also died under his hands, but this person's ability is too monster, he releases so much biochemical gas, it has no effect on him.

On the contrary, Qin Yuan was like a duck to water in this kind of biochemical weapon, rolling left and right to kill those biochemical organization personnel.

Because those members of the biochemical organization were wearing heavy chemical-resistant suits, which actually restricted their movements to a great extent, and their bodies were not so flexible, so they were quickly dealt with by Qin Yuan.

At this time, the monitor in the cave made a sound, "Stop! I know you want those soldiers, don't kill them anymore, or I will kill them all one by one."

Mr. K was already a little anxious, this was his last effort, he didn't allow this person to be destroyed like this, Qin Yuan killed the biochemical organization that ran over with a flying knife.

"Hehe! Then do as I said just now, hand over those soldiers, and get out of here too."

"Now this cave is full of biochemical gas. I can teach them to you, but it will take half an hour for the gas to dissipate. I will come out with them."

Half an hour was too long, and Qin Yuan didn't have that patience. He continued to move towards the inside of the cave, intending to find Mr. K himself.

At this time, Qin Yuan heard the sound of a mechanism opening.

"not good!"

Qin Yuan quickly realized that this cave was about to collapse, and he couldn't find another exit, so he could only quickly operate the passage he had come in and run out.

Unexpectedly, a landslide had occurred at the entrance of the passage, and many boulders rolled down, blocking the way. Qin Yuan felt as if he had been fooled.

At this time, there was a burst of laughter from the monitor inside, "Hahahaha, do you really think that I will surrender to be afraid of you? In order to convince you to let you in, I have made a lot of preparations, your ability is really good, and I am very interested in your body, it is immune to biological and chemical weapons, it is a pity, you will be buried here."

"Damn! What the **** are you doing? If you have the ability to play these tricks, get out!"

At this time, the monitor completely lost the sound, and the entire cave collapsed. At this time, Mr. K appeared outside the cave.

He laughed triumphantly, looking at the completely collapsed cave, he was very satisfied. He didn't believe that this person could survive in such a situation. In order to attract this person to enter, he spent a lot of money, a full twenty Many subordinates became this person's funeral.

But as long as he can kill this monster, everything will be worth it. Mr. K has been standing outside the cave, and there has been no movement for a long time, so he is completely relieved.

No one could survive this situation. Just when he turned around, suddenly countless stones flew out, and Qin Yuan jumped out mixed with those stones. At this moment, he was covered in dust and shook the lime on his head.

"You people are always trying to kill me, it's so naive."

Chapter 804: ??a surprise for you

Then Qin Yuan jumped out accompanied by those stones. Mr. K never expected that someone could survive this kind of explosion and collapse.

Seeing Qin Yuan jumping out, Mr. Ke just wanted to run away quickly. He ordered the subordinates next to him to do it quickly, holding a box in his hand. Inside this box was the original body of a biochemical weapon. He had already used a biochemical weapon to deal with it before. Qin Yuan, but it was useless to this person.

Now he just wants to protect the pathogen in his hand. After all, as long as the original problem is still there, he can research other things.

Qin Yuan was already angry, this person came here to be so shady, and it was the same in that cave before, and there were so many of his own people, he didn't care about blowing him up inside before, fortunately he had a strong defense. There is nothing wrong with this kind of stone falling down.

Moreover, her own body had received an early warning before, but he still didn't know what would happen. He thought it was a biochemical weapon that would mutate, but he didn't expect it to be the collapse of the cave.

Regarding these things, he now wants to know even more, is the person from the anti-biochemical team dead or alive? After all, one of his tasks this time is to destroy these biochemical organizations, and the other is to bring back the members of the anti-biochemical team. After all, most of the members of the anti-biochemical team are doctoral students. , is a relatively well-known research team member in the world.

Qin Yuan swung the throwing knife quickly and took a closer look. Mr. K was running away, and he directly stabbed Mr. K's calf with a throwing knife.

"Hehe, give up, you won't be able to escape, I just want to know if the soldiers you captured are still alive."

"Well, they must be alive, but they won't survive today."

This Mr. K is really too crazy, he still has the confidence to escape by himself, Qin Yuan used a throwing knife to kill all the subordinates around him, this Mr. K can't make him ask the whereabouts of the anti-biochemical team for the time being.

After a while, Qin Yuan solved all Mr. K's subordinates, and walked to him with his hands behind his back, "How about it, now that there is no one around you, do you want to tell me straightforwardly, or do you want me to use some methods to tell you?" ?"

Qin Yuan played with the flying knife in his hand and looked at Mr. K on the ground, who was already vulnerable at this time. He said that he was the boss of the biochemical organization, but he didn't seem to have any great skills. He really overestimated him before.

Unexpectedly, Mr. K laughed loudly, "Hahaha, do you really think it's so easy to solve me? It's so naive."

As soon as Mr. K finished speaking, he ran up from the woods behind. Countless local people should be villagers from the village below, and most of them were children with guns.

Some villagers in front stared at Qin Yuan viciously, Qin Yuan was very speechless at the moment, how could these villagers not distinguish between good and bad now, so looking at them like this, it seems that they want to tear themselves to pieces.

"Hey! What do you want to do? This person is the boss behind the biochemical organization. He has done countless evils. I hope you will not help the evildoers."

"We don't understand what you said. We only know that you must not move this person. He is our savior! If you want to kill him, you have to step over our corpses."

Qin Yuan threw a flying knife directly at the opposite tree. He didn't want to hurt these people, after all, these people are innocent.

"Enough! Don't come here again, or I will throw the next throwing knife on your body."

Several women rushed forward, "We know you are powerful, but we have so many people, even if you kill us all, people from other villages will come to rescue him, anyway, you can't kill this person of."

Qin Yuan really couldn't figure out how the local people would protect him so much. Obviously, what this man did, including what he taught these people, was not a good thing.

But these local people were so brainwashed by him that they all turned to his side. No matter what Qin Yuan said, these people did not back down. Mr. K who was lying on the ground smiled sinisterly.

"My boy scouts, what are you still doing? Pick up the guns in your hands and kill this man, I will reward you a lot!"

After those fourteen or fifteen-year-old children heard what Mr. K said, they immediately opened the safety miracle gun and pointed it at Qin Yuan.

Qin Yuan shook his head, now he won't listen to explaining these things to them, now he understands what Xiaohong said is complicated things, because these people have been completely brainwashed, and they can't listen to normal things.

After all, this is a war-torn country, and there have been wars all the year round. These people no longer trust the local government, and this Mr. K came out to help them at this time, and this help is also the most practical for them to eat. He also taught them how to protect themselves .

People who don't know the truth may think that Mr. K is sincerely helping these villagers. In fact, he secretly uses these villagers as experiments.

Moreover, the biological and chemical weapons he researched were for the purpose of provoking war. He gave these children guns to cause them to riot, and instilled this kind of riot knowledge in them since childhood, but those people didn't know it. They only knew that this person gave took their weapons to protect themselves.

So they want to protect this person, and now Mr. K is like a protector in the eyes of the local people.

Qin Yuan looked at Mr. K who was lying proudly on the ground, "Are you very satisfied? Just wait, I'll bring you a more surprising one."

Then Qin Yuan let go of his hands and released a lot of charm skills. There were already children in front of him how to shoot, but the charm skills spread very quickly. After Qin Yuan turned over to avoid the bullets, the eyes of those children changed. They They became sluggish and put down their guns one after another, not knowing what they were going to do.

The eyes of those villagers also became confused, not as excited as before.

Qin Yuan said loudly: "Now you all go back to your homes, put down your weapons, remember, you all stay at home, and you are not allowed to come out without my order."

A scene that shocked Mr. K appeared, all the villagers were obedient, put down their weapons, turned and left.

"No! What are you doing all back? Are you crazy? You haven't figured out who is your boss, why do you listen to this person?"

Mr. K's legs were bleeding, and he stood up staggeringly, trying to prevent the villagers next to him from being kicked to the ground by Qin Yuan.

Qin Yuan has seen countless bad guys, but this is the first time he has seen someone as heinous as Mr. K, because he used the most innocent people to take advantage of their hearts.

Mr. K didn't know what was going on, these villagers had all left, this was his last card, this Qin Yuan was indeed a monster.

"Monster! You are simply a monster, I can't kill you!"

Qin Yuan originally wanted to kill him, but this person can't die for the time being, because the follow-up villagers' problems still depend on this person to solve, he wants to expose this person's crimes in front of all the villagers, and expose this person's sinful and ugly face .

Otherwise, he is only temporarily confusing the villagers, but after he releases the control, these villagers may cause trouble. There are so many villagers in the nearby villages, it is quite a sensation.

These villagers are pitiful enough. Most of the men died because of the war. There are only old people, women and children in the village, and they are still being used by such people. He must make these villagers wake up.

Qin Yuan directly slapped Mr. Kai a few times. He was a little stunned at the moment. He saw Qin Yuan control so many villagers with his own eyes just now. Now he regarded Qin Yuan as a monster and was very frightened.

After Qin Yuan found out the rope and tied him up, he knocked him unconscious and threw him in the bamboo forest behind him. Now he is going to find the members of the anti-biochemical team. From the conversation just now, he knows that they must still be alive. Mr. K acted truthfully and vigilantly, and those members of the anti-biochemical team were still his last threatening cards.

Qin Yuan originally wanted to use the charm skill and asked Mr. K to tell the news about the anti-biochemical team first, but he didn't expect that this kid would pass out after just a few hits.

Qin Yuan could only take the squirrel out of the system, and now he could only rely on this little guy to search for it. This guy himself questioned it before, but he didn't expect it to be quite reliable and brought him to the right place.

"It's in this mountain forest, you can smell if there are any living people, go and look for them, and let me know if there is any news."

After receiving the order, the squirrel quickly jumped off Qin Yuan's shoulder, and quickly shuttled through the forest to search.

Qin Yuan picked up the box in Mr. K's hand next to him and opened it to check. After opening it, there were three test tubes inside. This box was an incubator, and the three test tubes inside contained a light blue liquid, which should be the source of the biochemical weapon. body.

Qin Yuan picked up a test tube and put it into the system grid.

"Ding! Invalid item, the host has already absorbed the biochemical weapon before, and it cannot be absorbed again!"

It turned out that this was the case. Qin Yuan thought that the pathogen of this biochemical weapon would have other special skills. It seems the same. Since it is useless to him, then let these biochemical weapons be handed over to them internationally and let them to deal with.

At this time, the news of the squirrel came from his mind. He had already found a clue. Qin Yuan quickly ran towards the place where the squirrel sent the signal. You can see that the terrain here is a bit strange, as if someone has deliberately disguised it.

The squirrel kept digging the soil under its feet, signaling that the Qin Yuan people were below.

Qin Yuan walked over and removed the upper branch. There was a huge stone covered under the branch. After pushing the stone away, Qin Yuan found an iron gate underneath.

He used his powerful corrosion ability to corrode a large hole in the iron door, and the bottom was pitch black, but Qin Yuan had already seen six or seven living bodies in the deepest part of the hole with infrared vision.

After he took out the flashlight in his hand to light it up, he threw it down, and threw two more light sticks, and the whole cave was completely illuminated.

At this time, the captain of the anti-biochemical team squinted his eyes to adjust to the light in front of him, because he had been in the dark for a long time, and he couldn't tell it apart.

"Don't worry, I'm here to save you, are you anti-biochemical team?"

When the captain heard the familiar voice, it turned out to be the Qin Yuan he had laughed at before, but he couldn't control that much now, the point now was that someone came to rescue them.

He shouted loudly: "Yes, yes, we are anti-biochemical group."

Qin Yuan felt a little funny when he heard the captain's voice. What he said was really fulfilled. How he laughed at himself before, he will make fun of this person later.

The captain had already had one hand cut off by Mr. K in the video, but Mr. K didn't want him to die, so he bandaged him.

After a while, Qin Yuan dropped the rope and pulled all the people in the cave up. After getting up, everyone got used to it for a while, and saw the scene in front of them clearly. The person who rescued them turned out to be the soldier of Yan Kingdom who had been ridiculed by the captain before.

Those people thanked Qin Yuan one after another, but they also reminded Qin Yuan to take everyone away quickly, "Captain Qin, we were ignorant before, I'm sorry, but we'd better leave this one as soon as possible, sir, it's not easy, the power is too great, we can't afford to provoke it."

Qin Yuan went to the back of the bamboo grove and threw Mr. K who was bundled into rice dumplings, "What! Is that the thing? I have already dealt with his subordinates."

The anti-biochemical team was shocked, was he the only one?

This is simply impossible. Mr. K has at least 20 or 30 people under his command, and they also have biochemical weapons. How did Qin Yuan do it? And he was unharmed.

"Captain Qin, how did you do it? Where's the biochemical base?"

Qin Yuan raised his head and pointed, "This old boy framed me back then, and the cave has collapsed, but there is still biochemical gas, anyway, it didn't hurt me."

After everyone heard this, they all cast envious glances at Qin Yuan. This person is so strong that he was able to come out of the cave safely. They had been tested in that cave before, and the poisonous gas released by the biochemical device in it was It is no exaggeration to say that an army can be destroyed.

Anyway, the most important thing now is to contact the local government forces to expose Mr. K's true face in front of the local villagers, otherwise there will really be a big riot.

While waiting for the local government to send someone, Qin Yuan found that everyone despises the captain, and the people around him despise the captain very much.

It turned out that several teams sent internationally were all leaked by the captain, allowing Mr. K to know their plans in advance, so Mr. K resolved all the teams that had been approved in time.

Qin Yuan walked over and kicked the captain to the ground, "Damn! I despise you the most. This kind of scum not only kills himself, but also drags others down."

"Ahem! Don't! Don't kill me. I can't help it. I just want to live. If I don't provide information, I will be used for biochemical experiments. I am also a victim!"

Chapter 805: ??Qin Yuan who was quarantined

"Hehe, if you are greedy for life and afraid of death, just say it. I can't figure it out. You can enter the biochemical team to participate in this kind of mission. Do you know how many people you killed?"

Qin Yuan sent several teams out because of the worthlessness of the soldiers who performed the mission, but they all died because of this person leaking information.

After a while, the local government also arrived, because the local government was used to continuous wars here. Qin Yuan told them what happened. After all, he didn't want these countries to have internal problems when they aimed at foreign powers.

But I didn't expect that those people didn't care at all. Qin Yuan suggested a single trial, so that the villagers could see the true face of Mr. K, and no longer misunderstand the government.

The staff agreed perfunctorily, and after a while two more troops came, and under everyone's escort, they took Mr. K to the village below.

Qin Yuan took back the psychedelic smell, and the soldiers rushed into the villagers' homes and called them out, behaving very roughly.

They were old people, women and children, but these people drove them away roughly, and even disarmed all the guns in the hands of those children.

At this moment, Qin Yuan instantly understood why these villagers would rather believe in a Mr. K from outside than in their own government. These people didn't regard them as their own people at all, but just as a burden.

Qin Yuan just manipulated Mr. K to tell him about his criminal history. What he did was to use these villagers to start a war.

This Mr. K is also considered a victim, because his daughter died in the war, he wanted wars everywhere, and he didn't want to make those people feel better.

This Mr. K was talking endlessly, and suddenly he mentioned an important point. It turned out that what he did was approved by country c. Some leaders in country c acquiesced in his doing so, and even gave him financial support!

"Who the hell? Say his name!"

At this moment, the soldier behind suddenly fired a shot at Mr. K. In an instant, Mr. K fell into a pool of blood. He couldn't perceive it, and it happened suddenly.

Gunshots rang out in an instant, causing chaos among the crowd. The people backed away in fright. Qin Yuan turned his head to look at the soldiers who fired, and asked loudly:

"Damn it! What are you doing? You can't shoot this man at all. He still has many crimes that you haven't explained what you are helping him to hide."

"Sorry, this is an internal matter of our country. Our internal secrets must not be known to the rest of you. We will also investigate these things."

"Fart, his current research on chemical weapons has risen to the international level. It is a matter of the entire international community, not just your country. What is your intention to kill the only person who knows?"

"Hehe, boy, I advise you, don't talk nonsense. As for the international community, we will also give them an explanation. You don't need to worry about other things. We have already given you a lot of face."

Qin Yuan couldn't see more and more clearly. Isn't this Mr. K the boss behind the biochemical organization? How many people are involved in this kind of biochemical research? But does country C have the guts to openly challenge the international community?

Qin Yuan felt that there were too many problems that could not be explained clearly. There were too many things involved in it. He should not have handed over Mr. K in the first place. He should have interrogated him first. This matter was not thoughtful on his part.

Mainly, he didn't expect these soldiers from country c to do this.

These soldiers shot and killed Mr. K, which aroused the dissatisfaction of the local people in an instant. They picked up stones on the ground and beat the soil towards the soldiers. The riot started at this moment.

Qin Yuan took the anti-biochemical team and hid behind the nearby woods to avoid being hurt.

"What's the situation? The situation in their country is too complicated. This disagreement will be added again. Sure enough, these civilians are some troublesome people."

Qin Yuan sneered, "This has nothing to do with those civilians at all. It's their failure to solve the problem that completely angered these civilians."

At this moment, gunshots rang out outside, and I was willing to rush out, but it was too late. The soldiers raised their submachine guns and shot at the children, and blood flowed into rivers instantly. There were cries of adults, children's cries for help, and The sounds of those soldiers firing were mixed together.

"Stop! Are you crazy? They are civilians in your country, they are all unarmed civilians, how did you do it?"

An officer who led the team next to him was very impatient. He looked at Qin Yuan and said, "Okay, don't judge me here, I just see that you are a soldier of Yan, and I don't want to argue with you. We will solve our country's own affairs by ourselves, and you, an outsider, had better not intervene."

"It's not a matter of my meddling, but that you are simply unreasonable. Keep your eyes open and see that the guns in your hands are used to protect the people, not to point them at them."

"Shut up! It's not up to you to talk about our country's affairs. These unruly people want to rebel first and they attack us. Don't we resist? Besides, don't you, Yan Country, want to meddle in our C Country? thing."

Qin Yuan felt speechless for a moment. These people brought up the country again. Every time there was such a problem, they would go too far. Everyone said this, and it was really hard for him to say anything. If he continued, he would rise to become the leader of the country. contradictions between.

Qin Yuan sighed. This mission was when he felt the most powerless. Looking at those fallen children, he was very heartbroken. These children died at the hands of their own countrymen at the same age. It was too much. It's ironic.

After they fired shots, the rest of the people did not dare to move anymore, and squatted on the ground with their heads in their hands.

Qin Yuan ignored the yelling of the soldier behind and walked towards the middle of the children. He wanted to try to see if there were any survivors who could be treated.

At this time, he saw a familiar figure, Xiaohong's younger brother, the five-year-old child. He walked forward and picked up the child.

The child was shot twice in the chest, and his mother died beside him. Qin Yuan opened the system mall, frantically looking for any medicine that could stop his bleeding and heal his wounds.

The child's breath became weaker and weaker, and Qin Yuan could already feel the passing of his life, "No! Hold on, I will definitely save you."

The child whispered: "I don't want to live anymore, I'm too tired, my brother is dead, my mother is dead, and my family is gone!"

Qin Yuan didn't expect that this was the words of a five-year-old child. After the child finished speaking, he closed his eyes and completely lost his breath.

At this moment, Qin Yuan felt the grief and indignation in his heart, he turned his head to look at those soldiers, and he stared at those demons viciously.

The officer who was still clamoring just now suddenly saw Qin Yuan's eyes and shuddered instantly. What kind of eyes were those eyes? He was about to kill himself alive. This officer has gone through many wars, but he is actually afraid, and Frightened by a person's eyes.

"You! What are you doing!"

Qin Yuan shook his head and looked at the people squatting on the ground trembling. These people are completely hopeless. It should be said that this country is completely hopeless. He is glad that he is in Yan Country.

He strode over and brought out the anti-biochemical team. He planned to take everyone back to the embassy. This time the mission was over.

After all, the anti-biochemical team is international, and the soldiers of country c didn't dare to neglect, so they sent a car to take them to the embassy. Qin Yuan didn't say a word along the way.

The staff of the embassy were very happy to see that Qin Yuan had completed his mission and returned safely. He really did it. He wiped out the biochemical organization by himself and brought everyone back.

The biochemical doctor next to him was also very shocked, especially that Dr. William, who had passed the chemical protective suit to Qin Yuan before, but he found that Qin Yuan was not wearing his chemical protective suit, but the previous suit that was safe. 's back.

Because they came out of the biological and chemical weapons base after all, they were simply isolated and observed.

This Dr. William personally went to the cave to check the biochemical gas inside. It has been seven hours since they came back, but the biochemical gas in the cave is still very dense at this time, and even spread.

The surrounding 10 kilometers have been completely sealed, and there is more biochemical gas than they originally thought. Dr. William was very curious why Qin Yuan and the members of the anti-biochemical team were not affected by the biochemical gas here?

Although the members of the anti-biochemical team were wearing anti-chemical suits, they were all damaged and their helmets were gone. In fact, when Qin Yuan was present, they suppressed the gases to prevent them from spreading, but when he left, the gases were not released. The method of control is all released.

At this time, Qin Yuan couldn't think of so much. Although the task this time was completed, he couldn't be happy. He even thought that he might not solve Mr. K. It would not be a bad thing for Mr. K to help those villagers. .

The situation in this country is getting more and more complicated, and these are beyond his imagination this time.

Because they are in quarantine, but their travel is only restricted. He took out his mobile phone and made a call to An Ran. After all, he missed the wedding because of this mission, which delayed the wedding.

"An Ran, my task here has been successfully completed. Let's get married when the quarantine is over and we come back! This time I made a slip of the tongue. I didn't promise you according to the previous agreement. I will definitely make up for you when I come back."

"It's okay, Xiaoyun and the others will stay with me during this time. After all, the task is the most important, so you deal with it first, and we will wait for you at home."

After hanging up the phone, Qin Yuan felt that he had talked with An Ran on the phone, and felt better at least. At least he was thinking about getting married now, and he wasn't completely thinking about these messy things.

He planned to really take a good rest after returning this time, and not take on the task for a while. This time the impact on him is indeed a bit big, but I don't know if Gao Shiwei will give him a holiday.

Five days later, Qin Yuan's isolation should be over, but the guards at the gate still told him not to go out, and he came to draw blood twice during the period, which he found strange, as they had done isolation before, But not as exaggerated as this time.

"When can I go out? The quarantine time is too long, and I can be sure that I am not infected by biological and chemical weapons."

"I'm sorry, we're only executing the orders issued by the authorities, and you still can't go out due to your current situation."

Qin Yuan felt very speechless. Although he restricted his movements, Qin Yuan would also do basic exercises in the room to pass the time. Every day, someone would deliver meals to the door on time.

Dr. William sighed very much. He already had his own conspiracy. He wanted to use Qin Yuan as an experiment. He had drawn his blood several times before, and found no abnormality in his body, even his body was very healthy.

But he didn't know what reason to look for to lure Qin Yuan over. He wanted to put drugs in the food, but after three days in a row, Qin Yuan didn't respond at all.

For this situation, he was very pleasantly surprised, did not expect this person to have the ability to resist drugs? He didn't want to miss Qin Yuan even more, and Qin Yuan's body was invulnerable to all poisons, and he couldn't taste any poisonous smell, and these drugs were colorless and tasteless.

After waiting for another three days, Qin Yuan couldn't take it anymore. He wanted to go back and marry An Ran, "What the **** are you going to do? What about Dr. William, I want to see him. I am really healthy now, and I don't have any problems. There is no need to isolate the problem, I am very clear."

The guard at the gate told Qin Yuan to be calm, He went to find Dr. William now, but unexpectedly, after waiting for half a day, a team of armed men came, all wearing isolation suits.

Qin Yuan was very curious about the situation!

Dr. William took the lead. He took out a test sheet and said to Qin Yuan: "Captain Qin, I'm sorry to keep you in isolation for so many days, but we are also responsible for your safety. And it's not just your safety, We found blood samples of biochemical viruses in your blood, and you certainly don't want to bring these biochemical viruses back to China."

"Impossible! I can ensure that I am very healthy and there will be no biochemical viruses! And I have no symptoms!"

"Captain Qin, don't get excited. You have to believe in our scientific research machine. Your blood contains a large amount of biochemical virus blood samples. This thing is very dangerous, but don't worry, as a professional doctor of biochemical research, I will definitely do it for you. You solved the problem."

Qin Yuan looked at Dr. William and didn't know for a while whether what he said was true or not, but he could absorb these biochemical gases and was immune to them. This kind of situation should not appear in his blood, so he immediately felt his own pulse. No other problems have been found, can't these things be seen by themselves?

Chapter 806: ? Dr. William

At this time, Gao Shiwei in Yan's country also received the notice that Qin Yuan was actually infected with a biochemical virus, so he had no way to return to China and had to stay abroad.

After all, this news was sent by the International Biochemical Organization, and generally there will be no fakes. Gao Shiwei did not doubt it. He immediately made deployments and sent the top domestic expert medical team to assist him and make him give up on Qin Yuan. ,it's out of the question.

Long Xiaoyun and the others also knew that Qin Yuan was infected with a biochemical virus. Mu Qingmei and An Ran said that they would set off immediately, hoping to help Qin Yuan.

"Aren't you fooling around? Qin Yuan has been infected by a biochemical virus now, we can't let more comrades fall in."

An Ran cried and said, "Are we going to give up on him? Is this how you treat heroes?"

"An Ran! I've already given you face. What level are you, what level am I, and how did you talk to me? I know you're worried about Qin Yuan. This time, I won't care about you. You can worry about it!"

An Ran looked at Gao Shiwei's attitude very anxiously, because they didn't have an order, and they couldn't go abroad casually, and she was worried that Qin Yuan would run out crying.

Gao Shiwei knew that this situation had to be dealt with calmly, and he couldn't send other people out. After all, Qin Yuan's physique was really special.

He experienced a bacterial weapon before and was not infected by a biochemical weapon, but he was actually infected this time, which shows that the biochemical virus this time is very unusual.

He called Long Xiaoyun to the office alone. After all, Long Xiaoyun is the one who is relatively calm now. They don't ignore Qin Yuan now, they have already sent a top medical team to help.

"I knew that we would not give up on any of our comrades, Captain Gao! Don't worry, I will do the work on Anran's side."

At this time, Qin Yuan had been taken back to the laboratory by Dr. William. He had various tubes inserted into his body. Dr. William did a physical examination on him and found that this person had nothing special in his blood, but his body was very strong. , this should be the result of his years of exercise.

The question is how can he be immune to toxins, he intends to experiment with Qin Yuan.

He felt that the current blood analysis and research machines were not comprehensive enough to fully detect the special substances in Qin Yuan's body.

So the top priority is to hold Qin Yuan back, and then develop a brand new blood analyzer first. At this time, people from outside came in and reported that the medical experts sent by Yan Guo had arrived.

"Doctor, what should we do? This group of people has a very firm attitude. They said that they received an order from above and must see Qin Yuan first. Even if they can't participate in the treatment, they need to see Qin Yuan's current situation first."

Qin Yuan must not be seen by them. If they see the real situation and find that Qin Yuan is fine, then all of this will be revealed.

Dr. William thought for a while, then suddenly raised the corners of his mouth, bent down, and whispered something in the experimenter's ear.

The medical team sent by Yan Kingdom also has experts on biochemical weapons, and they are all top domestic experts. After all, people from their own country were infected, so they are also very anxious, but the laboratory has never let them meet people.

An old professor couldn't help but stood up and asked, "How long do you want us to wait? Have you already waited all morning, or is there something wrong with Qin Yuan? I hope you will tell us the truth."

"Doctors and experts, please be calm and don't be impatient. We are already disinfecting the experimental equipment in the morning. After all, this biochemical virus mutates very quickly. Now I will take you to see the patient's condition."

These medical experts were brought to a room by this person, and they could only watch through the glass, only seeing a man wrapped in gauze on the hospital bed with only his eyes and mouth exposed, and an oxygen mask on his nose.

It is impossible to tell whether it is Qin Yuan from the appearance, but they have no doubts about this, and the situation is very serious just by looking at it.

"I'm very sorry, because the patient's condition is very serious. The biochemical virus in his body has mutated four times, and his whole body has festered. We have no choice but to bandage him."

Then take out a bunch of experimental data to those biochemical experts for analysis, let them come up with a solution together.

These biochemical experts didn't think too much at all, they just wanted to save the person in front of them quickly. This was also Dr. William's scheme. Anyway, these biochemical doctors didn't know the specific situation. After all, they rarely came into contact with biochemical mutations, so they just found someone to fool them past.

At this time, Qin Yuan, who was in the laboratory, also felt that something was wrong. It stands to reason that if he was really infected with a biochemical virus, he would have symptoms. It has been such a long time, and he has nothing.

Dr. William also tried to prescribe drugs to Qin Yuan, all of which were drugs that made his muscles lose power, but none of these drugs responded to Qin Yuan. The more this happened, the more excited Dr. William was. He finally found a perfect experimental subject.

He now suspects that Qin Yuan must have some kind of immune cells in his blood, which can further strengthen his biochemical research.

When Dr. William came in for rounds in the afternoon, Qin Yuan asked suspiciously: "Dr. William, what's the matter with me? I don't feel any infection at all. Besides, even if I have an infection, then you At least give me a phone and let me and my family in China report that I am safe. I feel like you are being imprisoned."

"No, no, child, you have misunderstood this. You need to communicate on the phone, of course it is possible. The main reason is that according to our research, the biochemical virus in your body is still in the latent stage. As for how long it is latent, We don't know yet."

"What? There's still a latent period for this. Doesn't it usually erupt immediately?"

"Yes! That's why I used all the medical resources in the world. Don't worry, we will treat you well. After all, this thing has an incubation period. You definitely don't want to bring these biochemical viruses to your family."

When Dr. William heard Qin Yuan mention his family, he knew that his weakness should be relatives, and planned to scare him by infecting them.

Qin Yuan didn't know whether he should trust Dr. William, but the most important thing in the current situation was to call Gao Shiwei, and Dr. William sent the call after a while.

When Qin Yuan made a call, there were two people standing beside him. It seemed that there was no wiretapping device installed, and he just wanted to monitor it artificially. Seeing this, Qin Yuan felt that there would be some problems.

Even if he was infected by a biochemical virus, Gao Shiwei and the others should have received the news immediately. At present, only these foreign medical experts have contacted him, and he has not seen domestic medical experts.

This is the biggest problem. He is very aware of Yan Guo and Gao Shiwei's way of handling things, and he himself has the skills of a genius doctor, so he didn't find any discomfort.

The two people next to him pretended to be concerned and asked, "Captain Qin, who are you calling?"

Qin Yuan said with a smile: "I'm not afraid that you will laugh at me for calling my wife. After all, I planned to get married before this mission."

Hearing this, Qin Yuan clearly felt that the two people breathed a sigh of relief, and indeed there was something tricky, Qin Yuan snorted coldly and dialed Gao Shiwei directly.

Gao Shiwei saw a strange call coming in, and was hesitating whether to answer it, but he thought that his call was confidential, and few people knew about it.

"Hey! Who are you looking for?"

"Honey, have you forgotten my voice so quickly? You don't know that I miss you so much."

what's the situation? Gao Shiwei was stunned, wishing what the **** was this kid doing? It was indeed his voice. He clearly knew how to call his wife when he opened his phone. After thinking about it in a blink of an eye, he instantly understood that it must be the boy who is not good at talking.

"Qin Yuan, do you have any difficulties over there?"

"Yeah! I miss you so much, but they won't let me out of the laboratory, and I can't help it. Have any relatives from our hometown come?"

relative? Did he mean those medical teams?

"The medical team has been sent, didn't you see them?"

"No, it's okay, just tell your relatives in your hometown that my side is very good, and let them not worry."

"Could it be that this biochemical infection of yours is a conspiracy, you **** dare to bully the people of my country of Yan, just wait, I will definitely save you!"

"It's okay, everything is fine here, you don't have to worry, Dr. William is also very good to me."

Qin Yuan focused on Dr. William, because he wanted Gao Shiwei and the others to investigate Dr. William first. After all, this person is international, so he dared to use him as an experiment in this name.

Qin Yuan originally wanted to say something more, but the two people next to him were already urging, "It's okay, Captain Qin Xian, you can't say it now, we are going to be treated, if you have anything to say, you can continue to fight later On the phone."

"Okay, my wife, then I won't talk about it here, they are already urging me, I'm going to receive treatment."

"Don't worry, Qin Yuan, we will definitely rescue you."

Because of the particularity of Gao Shiwei and his identities, his mobile phone has a positioning system, which can not only locate his own but also the location of the person he is talking to.

After hanging up the phone, he immediately contacted the group of medical experts sent abroad and asked them to send them their locations.

After comparison, it was found that there was no difference in the location, it should be in the same location. Those medical experts talked about the general situation, and said that Qin Yuan is in a very serious condition now, and his whole body is wrapped in bandages. It seems that he can't last a few days, but they will try their best own best ability.

After hearing this, Gao Shiwei felt that this group of medical experts must have been fooled. What they saw was not the real Qin Yuan, because the Qin Yuan who was talking to him just now was full of anger, and he did not look like a dying person at all.

Oh shit! This group of people is really too courageous, they even deceived themselves.

He immediately called Long Xiaoyun, "Assemble the team for me immediately, let Fan Tianlei lead the Wolf Warriors team, and you bring the red blood cells here, and the team will gather on the playground in five minutes."

At this time, the order came suddenly, and Long Xiaoyun was also quite confused. After all, Qin Yuan has always been his backbone, but now that Qin Yuan has fallen, Long Xiaoyun doubts himself. He thinks whether he can complete the task, but no matter How about it, let's gather first and then talk.

Seeing everyone assembled, Gao Shiwei said loudly with his hands behind his back: "This mission is very special. I want all of you to participate. If it is urgent, we will leave now. I will tell you the details on the plane."

Long Xiaoyun stood up, "Captain Gao, I don't think I'm suitable for the mission right now, why don't you take a look and let someone else lead the team."

"Long Xiaoyun, what's your situation now! Once Qin Yuan is gone, you don't even have self-awareness? First of all, you are a soldier, and you must obey orders! Besides, you are the captain of the Wolf Warrior team."

"I..."

"Okay, don't talk about it, our mission this time is about Qin Yuan, you can just say whether to go or not, we are going to get on the helicopter, time really can't be delayed any longer."

Fan Tianlei saw something different, this time Lao Gao personally led the team, this Long Xiaoyun is usually very clever, why can't he react now?

However, when Long Xiaoyun heard that this mission was about Qin Yuan, his eyes lit up instantly, "No problem, Team Gao! Let's set off now."

Everyone sat on the helicopter before Gao Shiwei explained the specific situation to Long Xiaoyun and the others. Qin Yuan kept saying that he had no problem on the phone, which showed that he knew very well that he was not infected with biochemical viruses, but everyone was infected by Dr. William. cheated.

As for this Dr. William, he has already investigated it. He used to belong to the United States. There are many good researches in the world, all about biochemical viruses.

Now he boldly speculates that the reason why this doctor of biochemistry deceives everyone is that he thinks that Qin Yuan's physique has a lot of resistance to the deepening virus, and he wants to conduct research on Qin Yuan.

Gao Shiwei thought it was a biochemical research base. Anyway, he led the team in first, rescued his own people, and let's talk about the follow-up questions.

Unexpectedly, things were not that simple, but he got up and pulled out all the pipes on his body. He didn't need these now, and he was sure that there was absolutely no problem with him.

In the monitoring room, Dr. William saw Qin Yuan get up and pull out the pipe, and immediately shouted through the walkie-talkie: "What are you doing? Are you crazy? Stop it!"

"Hehe, I think it's you who are crazy. I said you still have to be shameless. I have worked so hard to rescue your people, and you treat me like this. I have now confirmed that I have no problem at all."

"Hahaha, it seems that you are still a smart person, but it is too late for you to figure it out now, I have done research on you a long time ago."

Chapter 807: ?Rush right in!

Dr. William didn't notice Qin Yuan before, but when he discovered Qin Yuan's special physique, he immediately launched an investigation on him, and it was not difficult to investigate Qin Yuan. He also knew all about his deeds in Xiaomao before.

This person's ability is really very strong, and he can defeat a hundred with one enemy. The more he investigates, the more he is surprised by this person's ability. Wound.

This is very unreasonable. If this person really made so many achievements and killed so many terrorist militants, there should be knife wounds and gunshot wounds on his body, but he was checked before and his body was intact. lossless.

None of the previous cages or biochemical weapons could trap him, so he made a special ward.

"You'd better not move around. This ward is full of bombs. I have done research on you. You are simply a monster. But with so many bombs, I don't believe you can't die."

"Hehe, do you think this kind of thing can trap me? Let me tell you, I would rather die than accept your experiments or become your experimental product."

"I know that your monster physique is not afraid of death, but you should also know that your teammates are here to save you, not only this ward, but the entire experimental base is full of bombs."

"You are simply crazy!"

"Hahaha! I agree with what you said. You know, I will never miss you, a natural experimental subject. You'd better be honest."

Qin Yuan looked at the monitor viciously. If he could use the system skills alone, he should be able to barely survive, but if Gao Shiwei and the others are added, there is no way to guarantee it.

The doctor of biochemistry I encountered this time was more difficult than before, because this person came specifically for him, and he also did research on him. attract attention.

At this time, Qin Yuan could only find a way to contact Gao Shiwei and the others. If they could retreat, then at least he still had some chances of winning. He raised his head and looked at the monitor with the red dots flashing, and quietly took out two throwing knives in his hand. .

Dr. William was worried that he would carry a weapon before, so he searched him all over before, but he didn't expect that his throwing knife didn't need to be carried with him, but was already in the system.

At this time, Dr. William in the monitoring room was looking at the monitor, only to see that the screen went black when Qin Yuan raised his hand. What's going on? Could it be that the monitoring failed?

"Something's wrong! Hurry up and go over there together, let's see what's going on. The surveillance in that ward must never be interrupted. I must monitor this monster 24 hours a day! Otherwise, I don't know what he will do."

"Yes!"

Seeing the backs of the few people leaving in front, Dr. William thought for a while in the monitoring room. Something was wrong. This person must have used some means to sabotage the monitoring. He originally wanted to go in and check it himself, but at this time there was also a message outside the door. There was a warning.

From the surveillance screen, he saw a small group of soldiers from the Yan Kingdom. Are these people so fast? Every time I want to concentrate on research, someone always interrupts me. This feeling is really bad.

He could only say to the monitor outside: "Soldiers of the Yan Kingdom outside, are you trying to break into my experimental base without authorization? This is specially established internationally."

Gao Shiwei sneered, "Hehe, is your style of doing things worthy of international standards? We now have direct evidence that you detained our country's special forces without reason and deliberately used human bodies for other biochemical experiments. There is only one way for you, let our personnel out, otherwise we will launch an attack in three minutes."

"Your speculation without evidence will ruin the lives of your subordinates and your team members. I warn you again that we are an experimental base established internationally. If you insist on breaking in, I will send support to the international community." ask."

Fan Tianlei frowned when he heard this. This old boy was threatening them internationally. After all, the current situation is indeed a bit special. They no longer represent individuals. After they come out, they represent the Yan Kingdom.

Moreover, the matter has not been investigated clearly yet. Gao Shiwei only relied on a phone call to judge that Qin Yuan should be detained. The current situation is really tense.

"Captain Gao, what should we do now, should we investigate first?"

"How can we investigate this? I trust Qin Yuan 100%. The more you look at their attitude, the more problematic it becomes."

Gao Shiwei had already thought of this possibility on the plane, so this time he led the team personally. Anyway, even if he is an international enemy, he will rescue Qin Yuan. He will not give up on Qin Yuan. Abyssal.

The people in the laboratories on the other side approached the ward quietly with weapons. Dr. William had warned them that the people in this ward were very dangerous, but after all, they had guns in their hands, and they still had some confidence. The ward was a large transparent glass room. of.

They couldn't see Qin Yuan inside through the glass. They checked the gate and it was intact, but they couldn't see anyone. Since they were shocked instantly, did this person disappear out of thin air, or did they run away?

"No! It's not that this person is very dangerous. I suggest that we go in and check immediately. Everyone's bullets are loaded and ready. I'll count to three, open the door and rush in."

The people next to him nodded. Just as he opened the door, he saw a black shadow flying out. The speed was so fast that he couldn't see clearly. The person who came out was Qin Yuan. Standing tightly in the blind spot, they couldn't see what was going on in the ward, so they could only open the door, but Qin Yuan came out the moment the door was opened.

These few people were quickly dealt with by Qin Yuan, and at this time Gao Shiwei's situation on their side was also very bad, because after all, this experimental base was established internationally. They didn't know Dr. William's conspiracy, they only knew that the experimental base had been invaded.

Soon a well-equipped team stood outside the base with their guns in hand and started a confrontation with Gao Shiwei and the others. The atmosphere at the scene was very tense, and these armed personnel also saw that they were soldiers from the Yan Kingdom.

They are also calling out to persuade them to quit, and they don't want to have a real conflict with them.

"We don't want the worst to happen, but we now have direct evidence to protect the safety of our people. The members of our special operations team are now in your experimental base. I can vouch for the personality of my military career. He Absolutely no problem."

"Sir on the opposite side, I hope you will calm down too, and don't start a war for just one person, and for no reason."

Seeing the situation of both sides, Dr. William should be able to persist for a period of time. During this period of time, he must quickly find the willingness and deal with Qin Yuan first, because at this time the laboratory has issued a harsh alarm, indicating that someone from the ward Out.

"Damn it! This group of trash really didn't accomplish anything, but let them go to check the situation, but they let that monster out."

Dr. William can only take the money to go and check it himself. He still has the remote control of the bomb in his hand, which can be used as a threat to Qin Yuan. He is not afraid. As long as Qin Yuan does not leave this experimental base, he can control him. .

At this time, Qin Yuan had already come out, and he was also looking for Dr. William. This time, he was really tricked by this old fox for a period of time. He had never suffered such a big loss, and he hadn't been threatened for a long time.

Qin Yuan originally planned to kill all the people in the experimental base, and then rushed out, but then he thought that the people in the experimental base did not know their specific situation, and they were all innocent people who were bewitched by Dr. William.

Secondly, the best way for the bombs placed inside is to make Dr. William surrender himself. Qin Yuan thought of a better way.

The few people who came in to search just now were just stunned by him, and he quickly dragged them into the ward. There are experimental equipment in the ward, which can just block them.

And he continued to lie back on the hospital bed. Dr. William who ran over led a group of people to see Qin Yuan lying on the bed through the glass. It was very strange, and the door was not damaged. What is the situation? What about the warning just now? How to explain.

Could it be that those men accidentally triggered the alarm? He immediately denied his idea, because in case of emergency, he installed an alarm device on Qin Yuan's body, as long as he walked out of the range of this ward, an alarm would be issued.

It seems that this should be just a trap. This person is really getting more and more interesting. He can do it without anyone noticing in this situation. If he gets close, he will definitely be tricked by him.

Through the glass, Dr. William said loudly: "Qin Yuan! I know you have already dealt with the few people I sent, and I'm here to tell you, just give up, your captains are now outside and the international guards There's a standoff, and I know you're smart, and no one wants to see a war happen."

Qin Yuan remained motionless and did not speak. Dr. William really didn't know what this man was thinking, so he continued to persuade him, but Qin Yuan didn't respond.

There was no other way, he could only carefully open the door of the ward with someone and walked in. At this moment, he suddenly smelled a strange fragrance.

Qin Yuan, who was sleeping on the hospital bed, raised the corners of his mouth. This was his purpose. Because of the particularity of this experimental base, he found that his charming smell could not penetrate through the glass.

So the best way is to set a trap and let Dr. William and the others take the initiative to come in. This charm skill is really useful, after all, it can control people's mind without anyone noticing, especially in the current situation.

Dr. William and his group had lost their self-awareness, and they were all standing at the door in a daze. Qin Yuan gave a random order to make them all collapse, pretending to faint. The most important thing now is to go out and check on Gao Shiwei and the others. After all, there was a confrontation over there.

Gao Shiwei outside the door watched the time go by. He was worried that Qin Yuan in the ward would be tampered with by Dr. William. Now the best way is to force him in. All consequences will wait until Qin Yuan is rescued.

"Listen, everyone. I'll count to three and rush in together. The people on the opposite side try not to get hurt."

"Yes!"

"one!"

Just as Gao Shiwei said a number, he saw Qin Yuan coming out of the gate. The guards in front heard the movement behind them, and raised their guns one after another, pointing at Qin Yuan.

Long Xiaoyun and the others on the opposite side were very excited when they saw Qin Yuan coming out. If it wasn't for the presence of those guards, Long Xiaoyun would have rushed to hug Qin Yuan.

Qin Yuan explained the specific situation to the guard team, and the captain of the guard team was also hesitant. He was not sure whether what this person said was true or not, and whether he should be let go.

"If you don't believe what I said, I will bring Dr. William out now, but now he has been knocked out by me, and you can also use instruments to test it. Explosives are buried in the entire base."

The members of these guards actually felt that there was a problem. After all, the Yan Kingdom was a big country, and it was impossible to trigger a war at will, so it was very likely that there was a problem here.

The captain also immediately told someone to check the specific situation of the base to see if there were any explosives, If the situation is really as Qin Yuan said, it means that everyone was deceived by that Dr. William.

A soldier came over with an instrument to scan, and found that the base was densely packed with explosives. Everyone gasped when they saw this situation.

The team leader even shouted: "Put away your guns, don't let fire happen."

Although these explosives need to be detonated by remote control, but with such dense explosives, if a bullet accidentally misfires, the entire base can be blown up into the sky, and they cannot escape.

After knowing the truth of the matter, the captain of the guard team blamed himself very much. He held Gao Shiwei's hand and said, "This officer of the Yan Kingdom, I am very sorry that this situation has happened within us. Don't worry, we will definitely deal with it." Make a satisfactory solution for Yan Guo and the international community."

"My brothers rushed in with me to find that Dr. William, his grandma's. This time everyone was deceived by him."

As for the remote control in Dr. William's hand, Qin Yuan has already obtained it. The danger of the bomb can basically be eliminated, and Qin Yuan also got a good thing from Dr. William.

Taking advantage of this opportunity, he put it into the system grid. Just now, he mainly wanted to come out quickly to check on Gao Shiwei and the others. Fortunately, he came in time, otherwise Gao Shiwei would storm in the next second.

Qin Yuan didn't know what it was, it was like a laser pointer anyway, but it was on Dr. William's body after all, so it wouldn't be too bad.

Chapter 808: ? Get Metal Detecting Eyes

After Qin Yuan put this laser pointer-like thing into the system grid.

"Ding! Congratulations to the host for recycling a star laser pointer, you can get the following skills, please make a choice for the host!"

Wait, this thing is really a laser pointer, it feels useless, this kind of little thing is for children to play, at most some people take it away to tease cats and dogs.

"Answer the host, this is not an ordinary laser pointer, it is a laser pointer with laser light, which can cut all metals, even the human body! The host can make a choice, you can recycle it to acquire skills, or you can choose to store the laser pointer directly."

Cutting up the human body, this perverted idea should be withdrawn quickly, no wonder it is the research of Dr. William, it is all harmful things.

After thinking about it, Qin Yuan should recycle it. After the system is reclaimed, it will have some heaven-defying abilities.

"1. Obtain x-scanning eyes. After use, the host's eyes are like an x-ray machine, which can scan and inspect the human body."

"2. Obtain metal detection eyes. After use, the host's eyes have a scanner function, and all knives and electronic instruments that try to hide, such as bugs, will be discovered by the host."

"3. Obtaining laser cyclops, the host's eyes will directly emit laser light to cut metal objects, which is a necessary magic weapon for escape!"

To be honest, this laser cyclops is pretty good, but it is not necessary for him to escape, the metal detector eye is fine, after all, it is very useful to perform tasks by himself after scanning out the bug.

"System, I choose the second one, metal detector eye!"

"Ding! Congratulations to the host for successfully recovering and obtaining the metal detection eye skill!"

Qin Yuan only felt his eyes heat up, then he blinked and glanced at Long Xiaoyun next to him. Although Long Xiaoyun was wearing clothes, he had two Swiss army knives pinned to his waist and a small knife hidden in his boots. Throwing knives, with blades on their sleeves.

Looking at Qin Yuan staring at him, Long Xiaoyun blushed a little. What is this guy looking at? There are so many people staring at him, okay? He's really drunk.

Gao Shiwei next to him coughed, "Okay, you two have to look back, we are not air."

Qin Yuan also felt that he was staring too seriously just now, but when his eyes turned to Li Erniu, he froze for a moment. What the **** is this kid doing? There is a small grenade hidden in his underwear.

He walked over and patted Li Erniu, "Erniu, don't you feel panic about hiding your weapon? Besides, there is a lot of fear in that place, in case you accidentally pull the trigger string and it will explode."

"Brother Qin, what are you talking about?"

"It's you! You kid can do it, but you actually came to hide mines in your crotch."

"I'll go! Brother Qin, did you peek at me when I went to the toilet just now? I didn't expect you to be so nice. You ruined my innocence!"

Gao Shiwei kicked Li Erniu's ass, "What time is it, you two still have time to spend time with me here, and quickly take out that thing, that place is too dangerous."

Li Erniu didn't know how Qin Yuan knew where he hid the grenade. Long Xiaoyun also understood a little bit. No wonder Qin Yuan had been staring at her just now. , thinking about myself.

An unknown fire rose in his heart, and he looked at the Wolf Warrior squad standing by and yelled loudly: "Look at you guys, do you still have any soldiers! Stand up for me!"

Fan Tianlei and the others didn't know what happened to Long Xiaoyun, but Long Xiaoyun's voice reminded Gao Shiwei that the inside should be almost done, but this time, after all, he came in person, and he wanted to pay for his soldiers. Back to justice.

After a while, the guard team of the experimental base escorted Dr. William out. After all, the personnel in the experimental base were all high-achieving students, and they only aimed at experimental research every day. Facing armed personnel like them, they did not fight back at all. Power.

The captain of the guard team explained: "Because we only know that Dr. William is the mastermind, but it is not clear whether the remaining experimenters have participated in it, so we should all control it first."

Gao Shiwei nodded. After all, this is their matter to deal with, but what he cares about is the result of the process.

After all, if Qin Yuan hadn't reacted in advance this time, knew that he was not infected by the biochemical virus, and contacted Gao Shiwei in time, otherwise he would not know what kind of experiment he was subjected to later.

Dr. William was still a little confused when he came out, because he really didn't know how he was arrested. He just felt that he had lost consciousness at first. When he regained consciousness later, he found that the guards were holding guns to myself.

And the bomb remote control that I carried with me is gone, what is going on? He quietly asked a few experimenters next to him. Everyone was in the same situation as him. They just lost consciousness suddenly and didn't know what they were doing. When they woke up, they were already under the control of the guards.

When Dr. William passed by Qin Yuan, he yelled loudly: "I know, it's you! It must be you, a monster! But how did you control all of us? Could it be hypnosis?"

Qin Yuan was still worried that he couldn't find a reason to explain it. Since Dr. William said so, he said in his words, "Yes, don't you know that I still have this hand, otherwise I really want to It was calculated by you!"

The captain of the nearby guard looked at Qin Yuan with admiration. When he entered just now, so many people were squatting on the ground like puppets. He took out his gun and fired a few shots at the ceiling, and these people responded.

It was also at that time that Qin Yuan released the control over Dr. William and the others. The captain of the guard team felt that this man was too powerful and could control so many people in an instant. Unknowingly controlled.

This ability is really terrifying, it kills people invisible, and I don't even know it's being controlled.

Dr. William looked at Qin Yuan with a sneer. Now this person is really getting more and more interesting. He can even hypnotize him, but he also left a way out for himself. He still doesn't know that the laser pointer has been captured by Qin Yuan. took away.

He planned to use this laser pointer to escape even if he was locked in. Gao Shiwei and the others followed the guards to send Dr. William and the others back to the temporary prison.

The main person in charge of Dr. William in the world also personally apologized to Gao Shiwei and the others. After all, it was their lack of supervision this time that gave them an opportunity. Experiment with humans.

:

Dr. William and the others were also duly punished. After he arrived in the prison, he found that his laser pointer was long gone. He once wondered if he dropped it on the way.

Before Qin Yuan left, he said something to him, "Dr. William, didn't you realize that something was missing? But it has become my thing now, and that little thing is quite useful, thank you for the gift."

what! !

That laser pointer is not ordinary, it has a laser antenna inside, not only its value, but I have already devoted half my life to it, and it is so cheap for Qin Yuan.

"Damn it! You monster, you wait for the chance and I will cut you into pieces!"

"Hehe, you keep saying that I'm a monster, but your twisted psychology of experimenting with a human body is the real monster. You are hopeless."

On the plane returning to China, Fan Tianlei came over with a smile and told Qin Yuan that when Gao Shiwei knew that he was being controlled by this side, he was very anxious and led the team to set off immediately.

"I think it means that you can make Lao Gao so nervous. For so many years, since the establishment of the special warfare team, Lao Gao has never personally led the team. He has always been the commander of the home field. This time, I made an exception for you. ."

Gao Shiwei said next to him: "The plane is so big, I can hear it! What is an exception, let me tell you, no matter if any of you encounter this situation, I will come forward. I can't let my soldiers Wronged outside!"

After returning back, Qin Yuan saw that An Ran was waiting for him with red eyes. Just after getting off the plane, An Ran ran over to hug Qin Yuan. Everyone looked at Long Xiaoyun with unanimous expressions. After all, in this situation, Long Xiaoyun was also there. Don't wait to fight.

Li Erniu said in a low voice: "Yanbing, you said that when they fight, we will help Team Qin or Team Dragon!"

"I think it's better to watch the fun, we can't afford to mess with these two people."

Unexpectedly, Long Xiaoyun just walked forward and handed over a tissue to An Ran to wipe away her tears. Everyone in the Wolf Warriors team was shocked. The Dragon Team didn't say anything, which is too abnormal!

It must be the calm before the storm, and everyone will definitely suffer later, and will be trained to death. Everyone has a bitter look on their faces, Qin Yuan, a big fool, is all caused by this guy.

Long Xiaoyun wasn't angry at all. After going through all this, she felt that for such a powerful person as Qin Yuan, she really couldn't own him alone, and she was in a very good state now.

Then the three of them walked away hand in hand under the eyes of everyone, saying that they were going to discuss marriage and being a bridesmaid.

Li Erniu cast an envious look, "Look at Brother Qin's good fortune, the two beauties can still get along peacefully, one is willing to fight and the other is willing to suffer, if I also have this kind of treatment All right!"

"You are really a toad who wants to eat swan meat. Your thinking is very dangerous. Shall I inform your wife and see how she beats you."

"Hey! Yanbing, you single dog still have the nerve to tease me!"

The crisis on Dr. William's side has also been completely resolved, and Qin Yuan and An Ran's wedding ceremony is also going on as scheduled. Qin Yuan is wearing formal attire in the army, opposite An Ran is wearing a wedding dress, and Mu Qingmei and Long Xiaoyun are standing on both sides in bridesmaid dresses .

Grandma Sun finally got her wish to see Qin Yuan get married. She really regarded Qin Yuan as her own grandson, but she just hoped that he would have both children and help to take care of his children in her lifetime.

After all, it was a marriage, and Qin Yuan had just returned from his mission. Gao Shiwei specially granted him a 15-day marriage leave, and asked him to take An Ran out to have fun and have a good vacation.

This is the time exclusively for Anran, so Mu Qingmei and Long Xiaoyun did not go with her. She has been to several places in Anran's country, but she has not been to foreign countries. A mission, but after all, I didn't play well during the mission.

An Ran plans to ask Qin Yuan to take her to the Yuan Kingdom for a few days. She heard from friends that the shopping there is very convenient. Although she is going to play this time, she also wants to bring some gifts back for Long Xiaoyun and Mu Qingmei. .

Qin Yuan from the Yuan Kingdom had come to perform missions before, he only remembered that the food was pretty good, and he didn't go to other places.

There are many large and small islands in the Yuan Kingdom, and these islands are small resorts. In this way, the two of them lived on the islands, and An Ran was very satisfied. He and Qin Yuan could go fishing for fresh seafood every day. , Picking up shells on the beach.

Recommended, it's really good, it's worth pretending, after all, there are many sources of books, all books, and fast updates!

The local clothes with ethnic characteristics are also very nice. An Ran couldn't wait to buy a set with Qin Yuan alone, and changed into local clothes. After playing for two days, An Ran found that diving can also be played on the island, and excitedly took Qin Yuan to go diving together. .

Qin Yuan first went to get a waterproof mobile phone case for An Ran, An Ran wanted to take pictures in the water, Qin Yuan had just left, the local tour guide saw that Qin Yuan and An Ran were newlyweds, they probably had no experience, originally wanted to blackmail them, so he threatened An Ran and said:

"Little beauty, you must hire a professional diving instructor in this situation, otherwise it will be too dangerous after entering the water. Many of our tourists want to save money, and it is very dangerous for the oxygen tube to fall off underwater."

An Ran listened carefully. After all, it was her first time to dive. The tour guide enthusiastically introduced various prices and said many accidents. The price was too high. An Ran didn't understand this kind of diving either, it cost 500 in ten minutes, so there was no time to take pictures.

An Ran was a little hesitant, although Qin Yuan was not short of money, but this was indeed too high, let's discuss it when he comes back, and Qin Yuan is so good, in fact, he doesn't need a diving instructor at all.

The tour guide said for a long time that An Ran had no idea and felt bored, so he left. When Qin Yuan came back, he took An Ran to go diving by himself, and he rented all the equipment.

"Anran, you can play with confidence later. This small oxygen bottle can only last for half an hour. I'm afraid that you will be too tired for the big one, but I also have an oxygen bottle here, and I can use it for you at the back. And your first time Going into the water, in fact, ten minutes is the limit."

An Ran pulled Qin Yuan and said in a low voice: "Let's go and see how they dive first. I'm still a little scared, so I'll take a look first."

Qin Yuan nodded, just in time to take Anran to do warm-up exercises beside him, there would be absolutely no problem with Anran by himself.

Chapter 809: ??See through the diving instructor

The tour guide who had been promoting with An Ran just now was also next to him. He and the diving instructor next to him were in the same group. The cost is too high, and it is not interesting to choose to rent the equipment and launch it yourself.

The tour guide and the diving instructor were sitting next to them, not paying any attention to An Ran and Qin Yuan who came over. After all, there were many people watching the excitement around, and diving has always been a very popular item.

Of those two young couples, one of them was about to go into the water, and the other pair of girls hesitated and stood on the shore. At this time, the diving instructor suddenly jumped down and dived into the water as if showing off. shells.

"Although you don't need guidance, I want to tell you that the bottom of the water is very beautiful, and you can get many beautiful shells that you can't pick up on the sea."

The girl and the people around looked at the diving instructor enviously. The shell in his hand was indeed very beautiful. For a while, many people were eager to try diving.

The hesitant young couple was also about to go into the water. Qin Yuan was quite happy just now, but he suddenly became serious when he saw it. An Ran next to him looked at him and asked, "What's the matter? Is there any problem in the water?"

Qin Yuan nodded and said in a low voice: "Their diving equipment is loose, it should be tampered with."

After An Ran heard what Qin Yuan said, she immediately wanted to step forward to stop the people who went into the water. Those people are still floating on the water, waiting for their companions to go into the water together.

Qin Yuan shook his head, signaling An Ran not to speak now.

"Now that we say this, they definitely don't believe it, and it is very likely that these diving instructors did it. Let's take a look first. Don't worry, there is no major problem."

This is indeed because these people are looking for money. They will not be so stupid as to really put these people in other dangers. They just made some small tricks on the diving equipment to make them encounter difficulties in diving and get a little frightened. Ask them for professional help.

It seems that this is their usual method. After such a demonstration, the crowd onlookers will also choose the diving instructor with high price.

Sure enough, the four people saw a pipe floating up just ten minutes after entering the water. The diving instructor smiled and was about to jump down to rescue them. Unexpectedly, a figure next to him jumped down directly.

Those few diving instructors were stunned. Under what circumstances, someone was able to get there first.

It was Qin Yuan who jumped down. He had expected that these people's tricks were to rescue them in front of everyone. He must have taken care of today's business.

When Qin Yuan jumped down, he saw the long-haired girl who was hesitant just now struggling desperately under the water. The diving setting has two pipes to maintain oxygen, just to prevent the pipe from falling off. These people are not too ruthless.

They just tampered with one of the pipes quietly, but they also tampered with the other pipe, and a lot of water seeped into the oxygen mask.

Today, the pipes of the three people next to me are all loose, and they hurt people at the bottom of the water. They are at a loss and panic. Although they can swim, they are all struggling desperately. The silt was stirred up.

The whole bottom of the sea was turbid, Qin Yuan swam quickly, he didn't wear an oxygen mask or oxygen cylinder, he had a system on his body, at the bottom of the water, he was as unaffected as he was on land.

Those few people couldn't see clearly at all, they only knew how to grab desperately. Qin Yuan swam over and caught one of the girls. Pulling Qin Yuan tightly.

In the water, Qin Yuan kept gesticulating, signaling the girl to relax his hands so that he could take the girl out for a swim, but the girl was too scared and refused to cooperate.

Then several people next to him also came over. Qin Yuan held one person with one hand, and one of the pipes had fallen off. He dragged the two people up first, and then he rescued the other two people up.

Just after surfacing, An Ran also jumped into the water, An Ran can swim, and quickly pulled these people up.

The diving instructor next to them looked at An Ran and the others coldly, someone who came out of nowhere actually robbed them of their business.

"Yake, when did these two people come out and dare to break our plan?"

"I know that girl. I told him to ask her to hire a diving instructor before, but she didn't want to. These two people probably saw our hands and feet. What should we do now?"

"Hehe, these two people are really bold. Don't they know whose territory this is? It's okay, I will teach them a little lesson later."

"Don't make it a big deal, wait for me to solve it, I think they probably discovered the situation by accident and shouldn't know our plan."

Several young people who were rescued ashore lay on the ground, gasping for breath. After a while, Qin Yuan also picked up the equipment and swam back.

There was warm applause on the shore, and the people around felt that it was too timely to be willing to save people. The people around didn't react. He had already jumped into the water to save people, and he rescued all four people in a short while. This is too fast!

The most important thing is that Qin Yuan didn't wear any diving equipment, and dived directly in one breath. This is how much lung capacity he has, which is really amazing.

One of the young men looked at Qin Yuan, and he cupped his fists to express his gratitude to Qin Yuan. At this time, the diving instructor next to him walked over shamelessly and said to everyone:

"You see, this is the consequence of not inviting a diving instructor to dive without permission. I told you many times that underwater is very dangerous, thanks to this little brother who made a timely move."

After the diving instructor finished speaking, he walked over and patted Qin Yuan on the shoulder. The crowd around him also burst into applause. Qin Yuan patted the diving instructor's hand down in disgust.

"You have the nerve to say that it's best to do it yourself, and it's best not to do such things that hurt the world and kill your life."

Yake turned pale with fright. The kid really found out their secret, and he winked at the people next to him. Those people quickly surrounded him and surrounded Qin Yuan. The people around him were still cheering for Qin Yuan. .

"Little brother, you'd better pay attention to your tone of voice, otherwise you and your girlfriend may really not be able to get out of this island."

Qin Yuan sneered, grabbed the hand on his shoulder, and threw that man to the ground with an over-the-shoulder fall. Just as the others were about to make a move, Qin Yuan swept across his legs and directly knocked down the two people next to him on the ground.

But after all, it's sandy land, so it's okay to fall down. These people stood up and looked at Qin Yuan viciously. The crowd next to them exclaimed. At first they thought they were just joking, but they didn't expect it to be real.

There are also patrol members on this island, and someone immediately went to the patrol team, after all, there was a fight here.

Those young people who were rescued just now also came to help and asked Qin Yuan what was going on?

"Everyone, keep your eyes open and see clearly. Don't be fooled by these people. They secretly tamper with the diving equipment, just to let everyone ask their diving instructors for help in case of accident."

what!

"This is too despicable, but people will die underwater!"

In an instant, these people were surrounded by the crowd, because the tour guide had also done sales with them, especially the young people just now. Yuan herself would like to thank the person who harmed her.

The young man also actively went out for his girlfriend, and punched a yellow-haired man on the head. After someone made a move, others also quickly made a move. Qin Yuan originally wanted to stop it. After all, this kind of gang fight will only get worse.

But there were too many people, and it was impossible to stop them. At this time, whistles sounded outside. It turned out that the patrol team members on the island rushed over. Qin Yuan also breathed a sigh of relief. It was better for these people to come here in time to avoid accidents. A fierce battle.

"Hey! Stop everyone, fighting is forbidden on our island!"

Qin Yuan went over to explain the situation to those patrol members. The patrol captain was called Abyssy. After listening to the narration willingly, he walked over viciously and kicked one of them on the waist, "You guys The idiots are ruining the image of our island!"

An Ran saw that these patrol members did not cover up the situation at all, because these hardworking members and diving instructors should be local aborigines, so at least there is justice in this way.

The patrol team controlled those people, and Abyssie looked at everyone and said: "Don't worry, this is just a case on our small island. He spoiled everyone's mood for playing. I am deeply sorry for this, but we must This matter will be dealt with as soon as possible, and similar situations will not happen again in the future, please rest assured to play."

He walked up to Qin Yuan and expressed his gratitude while holding Qin Yuan, "Little brother, there are not many righteous people like you, and you can save people in a timely manner. Your courage is commendable!"

An Ran heard someone praise Qin Yuan very proudly and took the arm of willingness.

This was just a small episode, and soon these people were taken away by the patrol team, and the play continued. Qin Yuan and An Ran put on their diving equipment and prepared to go into the water.

"An Ran, you don't have to be too nervous, just keep holding my hand. Let's dive down slowly. After all, there will be a water pressure underwater. If you feel uncomfortable, you can make a gesture and I will guide you. Come up."

"No problem, I trust you unconditionally, you are so powerful."

Qin Yuan was diving with An Ran and didn't know what was going on outside. After those patrol members brought the diving instructors to the police room, they let go of the rope.

"Abyssy, that kick you kicked just now was really too heavy. You don't need to do it even if you are acting. Are you avenging yourself?"

"Okay, when are you still thinking about internal strife? If I don't do that, how can the angry crowd around let me take you away."

"That's right, now it's not that our common enemy is that foreign boy."

Since Yake didn't expect that Qin Yuan's reaction was too fast, they were knocked down by him in an instant.

"But no, this kid seems to be a bit skilled. We were all knocked down by him in an instant just now, so it's a bit difficult to deal with."

Abyssie smiled, there was no one he couldn't deal with, and he could see that the kid was really tricky, since he couldn't be clear, then they came to covertly.

He took out a pack of incense and threw it to the patrol team next to him, asking them to go down to see where the boy came from, mainly to see where he lived, and then put the incense in at night, and wait for the boy to faint before going in and cleaning it up He has a meal.

"Hahaha, yes, I will go in and beat him with a good stick. The most important thing is can you give me that chick."

"I knew you had your eyes on that chick a long time ago, but to be honest, that chick looks quite fresh and has a really good figure. We took turns coming that night."

In this way, these few people have become obscene ideas. These people are originally local aborigines, and they have used this method not once or twice.

Because most of the people who come to visit are foreigners, after these people fainted, some people didn't know what happened at all, or they couldn't get any evidence and couldn't find them.

The most important thing is that they didn't know that the criminals were from the local patrol team. Even if they went to the patrol team to report the crime, the patrol team sent them away with a few words.

Recommended, it's really good, it's worth installing for book lovers, and both Android and Apple phones support it!

And here on the island, they dealt with it relatively cleanly. didn't find any evidence at all when the police officers outside arrived.

So they became more and more arrogant. Abyssy smiled very obscenely. This Mixiang can stun even an elephant. It's not his fault. Who told that kid not to have eyes? If his plan blocked his way of making money, then he would definitely teach him a lesson.

On Anran's side, just after diving down to the driver's meter, she felt a sharp pain in her ears, and also felt that there was air pressure in her chest.

She gestured to Qin Yuan to take her to swim up. It turned out that diving was not fun at all. The pressure of the water underwater was too uncomfortable. She just wanted to go up quickly, but at this time Qin Yuan held her back. Put her on his back, and then slowly swim up.

Although the chest cavity was squeezed by the water pressure and the ears were hurting, but it was very happy to be carried by Qin Yuan underwater like this.

After going up, Qin Yuan helped her take off her diving equipment, while explaining to her that the process of diving must be slow, otherwise the pressure above and below the water will be different, and intracranial hemorrhage will occur after swimming up quickly.

An Ran looked at Qin Yuan adoringly, "You know a lot."

"It's all trivial, and you don't even think about what we do. We are all necessary for these diving trainings."

The people next to him looked at An Ran very enviously, and they knew that Qin Yuan was very professional based on his explanation of various clothes.

A few little girls walked over arm in arm, and An looked nervously at the side. These people were obviously here for Qin Yuan.

Chapter 810: ???1 go to Amazon

Although she knew that going to Qin Yuan was excellent, she really didn't want to share Qin Yuan with other people at this time. She nervously held Qin Yuan's hands, and those little girls also came over.

A girl who took the lead showed a sweet smile and said: "Little brother, I just saw that you are so good, can you teach us how to dive? Of course you won't do it for free, and you will also be able to do it with the help of a few beauties like us." accompany."

Qin Yuan just smiled, took An Ran's hand next to him and said: "Everyone, I'm sorry! I have already agreed to be this little beauty's personal trainer, and only for her, and no one else will accept it."

The little beauties curled their lips and ate a lot of dog food just now, but it is true that they shouldn't disturb others, after all, two of them are a couple.

After finishing speaking, she was going to pull An Ran away. An Ran was full of a sense of security at the moment, and Qin Yuan was not the kind of philandering radish. She really felt very happy at the moment.

Before leaving, Qin Yuan turned to those little girls and said, "You'd better go back to the hotel earlier, after all, the island is not safe these two days, and something like that happened just now."

"Handsome, thank you for your reminder, we will pay attention."

An Ran was a little puzzled when she heard this, Qin Yuan seldom mentioned these things to others, could it be that this philandering radish really fell in love with him, and he was just using this to flirt with those girls.

And at this time, after Qin Yuan finished speaking, he kept looking back, An Ran felt that Qin Yuan had a ghost in his heart, and pinched him fiercely on the waist.

Advertise an advertisement, it's really good, it's worth installing, even Android and Apple phones support it!

"You playboy, you are still not satisfied with Miss Xiaoyun and Xiaomu, you still dare to look at other girls, can't I deal with you if you wait for them not to be here?"

Qin Yuan was in a daze at the moment and didn't know what happened. How could he be misunderstood by An Ran? Qin Yuan comforted him, and An Ran whispered:

"How is it possible? I'm sure the three of you are enough. You wanted to sue just now. See how I'll deal with you when I go back."

In this way, Qin Yuan took An Ran back to the hotel. He didn't tell An Ran the specific situation. The reason why he reminded those girls just now was that he found someone following around, and the person who followed was the patrol member from just now.

He didn't think much about it at first, after all, it's normal for patrols to appear nearby, but this patrol is just as sneaky, and there are problems at first glance, so he paid more attention, and then reminded the girls, She looked up and saw two other people hiding in the bushes.

In order to prove his conjecture, he dragged An Ran back, and sure enough, a few people who were targeting them directly followed them out. These people's stalking skills were too poor, and he had already discovered this trick. up.

It seems that these patrol members and the tour guide during the day are in the same group, otherwise, how could they follow him for no reason, probably because they will act at night after stepping on it.

But he wasn't worried about this. He didn't tell An An because he was worried that he would be afraid. After all, he had been frightened before, and he would definitely protect her this time.

After going back, Qin Yuan first made an excuse and told An Ran that the room next to him could see more sea views, and asked An Ran to change a room, and they lived in the room next door first.

An Ran didn't have any suspicions either. After all, these are all sea view rooms with beautiful views, so it's normal to change rooms. Qin Yuan went down to keep them, and they didn't return their previous rooms, and they are still keeping them.

At night, those patrol members had already started to act. They looked at the time, and it was already one o'clock in the morning. These two people should have fallen asleep, anyway, no matter whether they fell asleep or not, once the smoke in their hands went in, they would be guaranteed to sleep. Be like a pig.

At this time, Qin Yuan quietly got up and locked the door of the room, and came to the next room. Now he is waiting in the room for the arrival of these people. These people are really like brown sugar, and they really want to teach them a lesson.

This time, she brought An Ran out to play, and she must not let these people spoil her mood.

At this time, Abyssie came upstairs quietly, and at this time, the cashier downstairs was not surprised, and he was used to this kind of thing and did not stop him, after all, he could not afford to provoke these people.

The cashier didn't know what room they were going to. These people never said anything. They didn't know the situation until the customer appeared and disappeared the next day. For such a thing, the best way is to shut up. trouble.

After a while, Abyssie arrived at the door of Qin Yuan and the others, "This is here, let's start to act. Today, my subordinates told me that they entered this room."

"Okay, I understand. You must take care of the drug. That kid is really hard to deal with today."

"Don't worry, it's absolutely fine to leave this to me, this is also my specialty."

The bottom door of this kind of wooden house on the island has a small crack. Qin Yuan turned around and looked at a lit stick of incense protruding from the crack.

It really is the despicable means of these people, they only use some dirty moves, it seems that Qin Yuan has to cooperate with them, and wait until they come in before acting, this kind of fragrance has no influence on Ruan Yuan.

In order to prevent himself from inhaling the scented gas by mistake, Abisi and the others even wore gas masks. He was caught when he used this kind of leaving home for the first time, and he brought two other team members with him. He was stunned together with the victim and passed out in the hotel.

And the victim woke up before them. Fortunately, he still had a hand behind him. At that time, there were other team members guarding the door. When they saw the victim rushing out, they immediately went up and subdued the victim. That was their first mistake. So kill people.

At the end, he had adjusted the measurement of all the incense, and he had also taken protective measures on his side.

Abyssie was still more cautious. He lay at the door and listened for a while, but there was no movement at all. It took another ten minutes before he took Yate and the others to pick the lock and walked into the room. Moreover, these people's lock picking process was very fast, and they were very familiar with the local people. The door lock, with a master key, can be opened as soon as it is inserted.

Yake bears the brunt of it with a lewd smile on his face and walks inside. He has already seen Qin Yuan sleeping outside, so his goal is An Ran.

"Don't do anything yet, wait until I pull that chick over, so as not to accidentally injure her later, you guys can hit me casually."

Just after Yake finished speaking, Qin Yuan turned over and jumped up from the bed, then quickly punched Abyssie who was standing next to him to the ground.

Then the two people who followed saw Abyssie being beaten, and immediately pulled out their sharp knives and stabbed Qin Yuan. All resolved.

Abyssie was very shocked. This is impossible. It is impossible for his incense to fail. He has specially tested this incense before and there is no problem.

"You! Why didn't you faint? What's the situation?"

"You really have a lot of questions. I should be the one who asked you. Why did you appear here? I let you off once during the day, but now you asked for it."

Qin Yuan kicked Abyssy in the chest, and he flew out in an instant, and let out a scream.

Qin Yuan was so frightened that he hurried over and covered his mouth, "What are you yelling here, if you wake up An Ran later, I'll see you."

Abyssy shook his head desperately, this person's skill is too powerful, they are no match, and this person is immune to Mixiang, it has no effect at all.

This physique was really terrifying, and then Qin Yuan interrogated them, and they also confessed their previous criminal experience. This group of people took advantage of being the local aborigines and was very familiar with the terrain, and had already entrapped many tourists.

Qin Yuan beat these people up again, and Yake knelt on the ground and began to beg for mercy. He really regretted this time, offending someone who shouldn't be offended, and he didn't know when and what happened, and kept on begging for mercy. It's all about him, he's the one who's been beaten all the time.

"Damn it, do you know why I hit you? Because you always want to spy on my woman, and you dare to miss my things. This is just a punishment for you."

Then Qin Yuan took out the other half of Mixiang from the Abyssic bag, and after seeing these people unconscious in the Mixiang in front of them, he left in peace.

Qin Yuan quietly returned to the next room and slept soundly without being woken up. The only good thing about this hotel is that the sound insulation is not bad.

It is also the last day for Qin Yuan and the others to play here, and they will be preparing to return early tomorrow morning. After all, this is such a rare opportunity and there are still so many days to rest, An Ran still wants to go to other places to play.

At dawn the next day, An Ran and Qin Yuan had already left hand in hand, and the waiter downstairs also breathed a sigh of relief. She was very glad that it wasn't these two people, because these two people were still very polite and took the initiative to see her. Say hello, and she doesn't want these two people to have an accident.

It wasn't until they checked out that they went up to clean up and found that all the patrol members were unconscious in the room. At this time, the patrol police outside the island also boarded the shore.

After clearing them away, Qin Yuan called the police, and left a recording pen on the table as evidence for the police. When these people opened their eyes in a daze, they found that the surrounding area was full of people. police.

Qin Yuan didn't leave any information either. He didn't want to get involved in these troublesome things anymore. He came out just for fun. He didn't expect to encounter such things on both sides. Anyway, he had already brought An Ran out safely. The rest of the things Just leave it to their local people to solve it.

After leaving the island, apart from the shells she brought to them, An Ran frantically started shopping.

"See if this rabbit hat is very suitable for Xiao Mu!"

Qin Yuan could only nod and pay.

An Ran was quite considerate, she bought everyone's gifts, the whole Red Blood Cell Team and Wolf Warrior Team, including Gao Shiwei's gifts.

Simply put, Qin Yuan didn't bring anything this time. Qin Yuan always brought two sets of clothes more casually, and was carried on his back by the two sets of clothes. There was a whole big password box, all of which were bought by An Ran as gifts. s things.

And An Ran didn't have enough fun, Yuan Guo's side is over, this time, An Ran actually said that she wanted to go to the Amazon jungle.

"This... An Ran, you can't buy anything in this Amazon jungle, it's a primeval jungle, and there are many dangerous factors, should we change to another place?"

"But I have also lived a stable life with you, and I want to feel it now, your usual battlefield, because I have heard you say several times that you will go there to perform missions, so I also want to see it. "

"But we came out to play this time. If we didn't go to perform the mission, those places are not interesting. Think again, where are you going? I'll take you there."

"I've already thought about it, and I'm pretty sure I just want to go to the Amazon jungle, and there is no risk factor. After all, you are here. Do you think I will be in danger with you?"

Qin Yuan shook his head dotingly, there is really nothing to do with An Ran, since she is going, then take her to have a look, but it is really inconvenient to go in with these things, they came to the small town next to Amazon and put the things first for storage.

Immediately afterwards, Qin Yuan made purchases. If wants to enter this kind of wild primitive jungle, it still needs a lot of preparation.

This time Qin Yuan prepared sleeping bags and tents. After all, he was mainly on missions before, so the living conditions were relatively poor. Now that he brought An Ran with him, he must let him have a good vacation.

An Ran was very excited when packing up, and after packing up, she asked for a backpack and followed Qin Yuan.

They haven't officially entered the Amazon jungle yet. This time they are still advancing in the small jungle area on the edge. After all, there is no means of transportation here. Before they came here, they used helicopters for skydiving. There are also skydiving here, but An Ran dare not. So it doesn't fit either.

He had just passed through two jungles, and Qin Yuanyuan was always opening the way ahead, using a machete to clean up the surrounding branches and leaves so that An Ran could pass through smoothly.

Qin Yuan raised his watch to check the time, and then looked at their walking process. At present, they have only walked seven or eight kilometers, and An Ran is already sweating profusely. He did

not expect that this tropical rainforest is very humid and stuffy, and it is completely irradiated. Before the sun, the whole sweat sticks to the clothes, which is very uncomfortable.

Qin Yuan walked to the front, bent down and motioned for him to carry An Ran on his back, An Ran knew that Qin Yuan's ability would not be tiring for him at all, and did not suggest to lie directly on his back.

The danger in the Amazon jungle is not only its natural climate and some wild creatures, but the most important thing is that there are drug gangs in it. Qin Yuan listened carefully to his surroundings along the way, worried that something unexpected would happen. They have been to the Amazon jungle many times. time.
