

Special Soldier 811

Chapter 811: ?One-eyed dragon appears

After a while, An Ran was also a little embarrassed. She told Qin Yuan that she could come down and walk, after all, she was the one who said she wanted to come to Amazon to play.

Qin Yuan looked at the surrounding environment. Now they are about to officially enter the Amazon jungle. The jungle is relatively dry now, and the road is easy to walk. Let An Ran try it.

After getting down safely, she saw all kinds of plants. After all, this is a virgin forest, and the climate conditions have not been damaged, so there are all kinds of rare plants.

At this time, Qin Yuan heard a little movement, he turned his head to look forward to the right, walked over and pulled An Ran who was squatting on the ground looking at the flowers, An Ran was a little puzzled before he wanted to ask a question.

Qin Yuan put his hands on his lips to signal her to keep quiet, An Ran was a little nervous, did she encounter any situation? When he came in before, Qin Yuan explained that there should be drug cartels in this place, but he will take An Ran to detour, he knows where those drug cartels often appear.

At this time, An Ran's palms were covered with sweat, Qin Yuan looked at her like this a little funny, shook his head at her, told her not to worry, and raised his finger to the front right.

An Ran looked in the direction of Qin Yuan's finger, and it turned out to be a sika deer drinking water by the stream, beside this sika deer there was a small deer, very cute, An Ran couldn't take her eyes away instantly, the girl couldn't take her eyes off this cute creature It is irresistible.

In addition, I had only seen it in the zoo before, but this time I saw it with my own eyes, and An Ran was very excited at such a close distance.

She whispered to Qin Yuan, "Can we get closer, I want to touch it."

Qin Yuan smiled, An Ran had never been in contact with these wild animals, she didn't know, as long as there was a slight movement, these animals would run away, and there was no chance to touch it, he wanted to explain to An Ran, but An Ran looked expectantly. with him.

"Brother Qin Yuan, just take me there~"

This! An Ran is acting like a baby! Qin Yuan couldn't stand it, in order not to disappoint An Ran, he exuded a charming aura from his body, and the two wild animals stood there with dazed eyes when they were drinking water.

In order to prevent An Ran from discovering the strangeness, he could have called the two wild animals over, but he still dragged An Ran over.

An Ran was very excited, the two sika deer did not run away, they just stood there, she got closer and closer to the sika deer, carefully stretched out her hand, trying to touch the sika deer.

He looked at Qin Yuan nervously, Qin Yuan nodded to her, told her that there was no problem, An Ran touched the head of the sika deer, and the two sika deer did not escape, she was very happy.

"I didn't expect them to be not afraid of people. It's amazing."

"It's possible that they were overwhelmed by your beauty. After all, who can refuse such a big beauty?"

"Hate!"

An Ran's face was a little red when Qin Yuan said that, she observed the two sika deer at such a close distance, she was very attentive, and the surroundings were very quiet, at this time Qin Yuan suddenly pulled An Ran behind her.

"Be careful!"

An Ran didn't know what happened, but a black panther pounced on him in the next second. His target was the sika deer. The black panther was very fast, and it directly pounced on the sika deer, biting the sika deer's neck. superior.

In an instant, blood gushed out, and a lot of blood sprayed to Anran's feet. Qin Yuan picked up Anran and led her to escape quickly. In this situation, he could have controlled the black panther, but Anran was beside him, and everything He still took her away first, he didn't want An Ran to be in any danger.

Almost at a safe distance behind, An Ran was very shocked. The sika deer just disappeared in front of her eyes. The black panther was very fast, and fled quickly after killing the sika deer.

This is really too cruel, this is the law of nature, the law of the jungle preys on the strong, these practical animals have no resistance at all.

An Ran's eyes were red, obviously frightened, "Qin Yuan, go and kill that black panther!"

Just as Qin Yuan was about to stand up, An Ran immediately pulled him back. Although she knew that Qin Yuan was very powerful, he was a wild animal after all. She didn't want Qin Yuan to take the risk, and she just said it in a hurry.

"No! You'd better not go, let's get out of here."

An Ran was depressed along the way, the **** scene just now kept replaying in her mind, although Qin Yuan blocked her behind, she still saw it.

It's too dangerous here, not only these wild animals, but she felt sorry for Qin Yuan very much in an instant, he performed missions again and again in this environment.

Qin Yuan made a garland and handed it to An Ran, wanting to adjust her mood. After all, An Ran had never been in contact with these real death scenes, and such small scenes were no surprise to Qin Yuan.

The two walked for a while, Qin Yuan saw that the surrounding environment was good, and there was a piece of grass, and planned to set up camp here.

An Ran nodded. Before, she always asked Qin Yuan to help. This time, she took the initiative to gather firewood and set up a tent with Qin Yuan. She knew that Qin Yuan was not easy, but Qin Yuan didn't think these things were difficult at all. , these are easy for him.

The two set up a tent, lit a bonfire, and ate some food they brought. It was getting dark quickly in the primeval forest, and the temperature difference at night was very large. Qin Yuan walked into the tent with An Ran.

When sleeping until midnight, Qin Yuan suddenly heard some movement, looked at An Ran who was sleeping soundly next to him, and quietly walked out of the tent.

Looking at some flickering figures on the opposite side, he walked over, "Don't hide, come out now that you are here."

At this time, a man wearing a single blindfold came out, he was a one-eyed dragon, and several other militants were carrying guns on their bodies. They laughed when they saw Qin Yuan.

"Captain Qin's reaction is still so fast, we just came close to you."

"There is no need to praise me. I am already far away from your territory. You should not appear on this side. Now we are not in trouble with each other, and I don't want to touch you. If you are sensible, you'd better get out, otherwise all of you will die." Don't even think about leaving."

These are the criminals who are active in the Amazon region. These people, Qin Yuan and others, have been wiped out several times, but they can't be completely wiped out. After killing a wave, another wave of new forces came in to occupy them.

After all, the Amazon jungle here is a very good hiding place, and as long as there are people, there will be wars.

The one-eyed dragon who spoke just now, his other eye was blinded by Qin Yuan with a flying knife. Although he flattered Qin Yuan, he hated Qin Yuan to the bone and wanted to find opportunities to kill Qin Yuan many times. , but found that Qin Yuan's strength is very strong, he sent several waves of people before, but they were all solved by Qin Yuan.

Later, after Qin Yuan returned to China, he had no chance. He didn't expect to meet Qin Yuan again in the Amazon jungle. Although the Amazon jungle is huge, his people are all active in this area, and he will be notified whenever anyone comes in.

This time, it was really a narrow road to enemies. To be honest, he really wanted to have a good fight with Qin Yuan right here, but he was very afraid of Qin Yuan's strength, so he came here to test him out while it was dark. Unexpectedly His reaction is very fast.

Cyclops thought for a while, and now is not the time to fight Qin Yuan, "Don't get me wrong, I just heard that the Prime Minister brother said that someone is coming, so let's check it out, after all, be more cautious, if it's you, there's no problem of."

Cyclops retreated quickly with his men, wishing he didn't enter the tent, he knew that this person would definitely not just let it go, he sat by the campfire, threw a few sticks of firewood into it, and when it was about to dawn, he Just walked into the tent.

After a while, Qin Yuan woke up An Ran and planned to take her to the stream to wash her face, and then see if she could go fishing. Today, she could grill fish.

An Ran was very happy to hear that she could go fishing. After she got up and packed up, she asked Qin Yuan to take her there quickly. After all, it was her first time fishing in this kind of stream.

At this time, after Cyclops returned to the camp, he immediately called the bosses of other Amazon forces. The Amazon jungle is very extensive, divided into four areas, east, west, north, south, and each of the four forces occupies one area.

Cyclops knew that he was not Qin Yuan's opponent. After observing, he made sure that Qin Yuan didn't bring other teams over, and he didn't even have a gun on him. This was a good opportunity to kill him.

"Boss Ning, the four of us can meet each other. With our four forces and so many guns and ammunition, we will definitely be able to kill Qin Yuan in the Amazon jungle this time."

"I think you are blind, are you also blind? How can we kill Qin Yuan? We really can't offend that person. At that time, I saw him carrying a submachine gun like that. He rushed into my team, and he killed more than a dozen people in an instant."

"Don't be so anxious to make a conclusion. This time I observed that he brought his horse to play here. Hahaha, that girl looks good."

Boss Ning listened to the one-eyed dragon talking endlessly, and was also a little moved. After all, they were all dealt with by Qin Yuan, especially his father, who died under Qin Yuan's hands. If this is indeed an opportunity, he I will definitely not let it go.

But in the case of ensuring his own safety, Qin Yuan's strength is still quite terrifying. Although this person did not bring a team, he is a danger himself. As long as he is allowed to get a gun, these people will not even want to live .

Cyclops saw that these bosses were all here, and felt that Qin Yuan could be killed this time, especially Boss Lin. He heard that he had received a few special forces retired from Inter Milan, and his strength was very strong.

Boss Ning rolled his eyes at him and said, "You are quite well informed, and you dare to investigate me."

"I'm just saying it casually. Now we'd better not start internal strife. I know that everyone doesn't trust each other. But this is an opportunity. We all need to cooperate, as long as we kill Qin Yuan together!"

Let me add a word, it's really good, it's worth installing, even Android and Apple phones support it!

"Qin Yuan is definitely going to solve it, but it depends on whether we have the strength. After all, if this person exists for a day, he will be more dangerous. Maybe he will lead a team to wipe us out again at any time."

"Yeah, look at how right Boss Bai said, so I said this time is an opportunity. I'm sure he doesn't have any weapons, because the rules of Yan Kingdom are that they don't go out on missions, and they are not allowed to be armed. ."

In this way, the four of them began to conspire. If it is true what Cyclops said, then they have a great chance of winning this time. There are two or three hundred people in their four forces, and they are only lurking in the Amazon jungle. The forces are also summoned back.

Qin Yuan always felt that it was very bad. This one-eyed dragon had a strong desire for revenge and would come to him for no reason. Last night he should have just come to see his reality.

Although he is not afraid of this one-eyed dragon, but now with An Ran, she still does not want more troubles along the way, and are there other forces in this Amazon jungle? Will they unite together.

Qin Yuan frowned tightly, a little worried, An Ran didn't know about this, he only saw Qin Yuan's hook move, "Qin Yuan, why are you so dazed, the fish has taken the bait."

Only then did Qin Yuan come to his senses, and quickly pulled the fishing rod, "Don't worry, the fish in my hand won't run away."

He thought for a while, and left with An Ran, After all, we have already seen Cyclops in this jungle, and it would not be very good to have a confrontation with them.

While grilling the fish, Qin Yuan told An Ran that the two should leave first, An Ran was a little puzzled, since she just came here, she didn't have enough fun, how could she leave.

"This is the primeval jungle. Except for these plants and wild animals, there is nothing interesting. Don't you want to buy beautiful clothes? Or let's go to other places and I will take you to other places to play, and then we will go back ."

It makes sense for An Ran to think about it, but she still wants to stay here for another day, because she wants to take pictures of the big jungle at night, and she went to bed too early last night, so she didn't have time to take pictures.

Qin Yuan nodded, that is, one night should be no problem, as long as An Ran took a picture of the light, they would leave directly in the morning.

When night fell, Qin Yuan stood beside An Ran, squatting on the ground and patting the flowers. He listened to the movement around him and there was no other situation. At night, after An Ran fell asleep, he came out again. He always had some bad premonitions It's better to come out.

Fortunately, nothing happened that night, the surroundings were very quiet, not even a single animal came over, Qin Yuan thought about it, maybe he was thinking too much, now it was dawn, and he could take An Ran back.

After packing up the tent with An Ran, An Ran still wondered why Qin Yuan didn't sleep last night, because his sleeping bags were all put away, and she always felt that Qin Yuan was hiding something from her.

"I just couldn't sleep last night, so I went out for a while, don't worry too much."

Chapter 812: ??Secret Weapon

An Ran stretched her waist. It was too quiet in this primeval jungle, and she slept quite comfortably. "Why can't I sleep? Could it be that I snore at night?"

"Hahaha, this has nothing to do with you. It's my own fault. I train every day in the team, and suddenly I can't sleep when I'm free."

Qin Yuan quickly changed the subject. He didn't want to worry An An. When the two were packing up, Qin Yuan heard footsteps coming from the outside, and there were a lot of people. The problem is that I came to find out their truth before.

"An Ran, don't clean it up yet, hurry up and get in the tent now, wait for me to call you, you are coming out, hurry up!"

Seeing Qin Yuan's serious appearance, An Ran was a little frightened, what's wrong? She wanted to ask a question, but she also heard movement from the outside, because the original jungle was already very quiet.

An Ran didn't know it was those criminals, he just wanted to see if there were wild animals, she pulled Qin Yuan nervously, "Should we hurry up and run away from the tent now?"

"It's too late to run, so I can only confront these people head-on. You trust me, I will definitely protect you. You should hide in the tent now."

An Ran was pushed into the tent by Qin Yuan and zipped up. An Ran in the tent was very disturbed. Before, she thought it was a wild animal, but when she heard Qin Yuan say that she was confronting these people, could it be those drug dealers?

She suddenly regretted it very much. She was the one who wanted to come to this Amazon jungle before, but she didn't expect to get into such troubles. Now she is very worried that something will happen to Qin Yuan. After all, he didn't bring any weapons on him, but she can't go out now. Worried that he would only add chaos to Qin Yuan.

"Qin Yuan, you must pay attention to your safety. If it doesn't work, let's run away quickly."

"Don't worry, with me here, I won't put you in danger."

It's not that Qin Yuan doesn't want to take An Ran away, it's because the target of these people is him, even if they run out of this jungle, they will be targeted later, and these people are too courageous to provoke him openly like this, It seems that he hasn't carried out beheading missions internationally for a long time.

Holding a few throwing knives in his hand, he stood in front of the tent like a king, and said a few words to An Ran, and quickly ran forward, because the footsteps were getting closer, and he didn't want a war here, in case he got accidentally injured safely.

When Qin Yuan ran over, he saw the one-eyed dragon in the lead. The people standing beside the one-eyed dragon were very familiar, and they should all be drug dealers he had exterminated before.

Cyclops made a gesture after seeing Qin Yuan, "Hahaha, I didn't expect you to come to the door in person, where is your bastard?"

"It should be you who came to the door in person. Today I will put my words here. You provoked me first, and I am only doing harm to the people with your rubbish."

"Qin Yuan! Your tone is really arrogant. Don't look at how many people here tell you directly. Today you don't want to get out of the Amazon jungle alive. To be honest, your kid is really capable, but if you don't kill me You, we have to die, that's the way the world is."

"Then stop talking nonsense, you all go together, get rid of you as soon as possible, and I will go back as soon as possible!"

At this moment, a bullet hit Qin Yuan directly. With a strong sense of crisis in his mind, Qin Yuan quickly turned to the rear right, and just after he jumped over, an armor-piercing bullet directly hit the place where he was standing just now.

Before he could make another reaction, countless bullets flew towards him. It seemed that he still underestimated the strength of these criminals. There were indeed a few of them who were quite good.

While dodging, Qin Yuan threw the throwing knife very fast, and the criminals in front were instantly knocked down by him.

"Damn it, didn't your kid say he didn't have a weapon?"

"How do I know? I mean he doesn't have a weapon, he really doesn't have a gun, but don't worry, even if this kid has throwing knives, I don't believe how many throwing knives he has with him."

Qin Yuan smiled, these people really underestimated him, so many people didn't hit Qin Yuan for a while, and Qin Yuan was very fast, turning over to avoid bullets, and even threw knives at them.

Qin Yuan jumped into the crowd, and many militants were kicked away by him. Holding two throwing knives in his hands, he kept slashing at the throats of those militants.

Boss Ning's eyelids twitched, this person's speed was too fast, it was still the same as before, because before he came with a team, he didn't expect that he could resist for such a long time alone.

An Ran, who was hiding in the tent, was very flustered when she heard the dense gunfire outside. She kept praying that Qin Yuan was a God of War figure after all, and she hoped that Qin Yuan would be safe and sound.

Suddenly there was a burst of explosions, and An Ran was very worried. After struggling for a while, he rushed out of the tent.

And here, Qin Yuan was still fighting fiercely with those militants. He picked up the guns that fell on the ground and started fighting with those militants. The sound of explosion just now was just a grenade thrown from him by the militants.

"Damn it! This man is a monster, even the grenade failed to kill him!"

"It's not that we failed to kill him, but that he was too fast and escaped our attack. Now we have to find a way to slow him down."

"Didn't you say you have a special weapon? Take it out quickly! Otherwise, we are not enough to kill him. Look at how many brothers have fallen."

Cyclops immediately asked his subordinates to bring his latest secret weapon, this thing, but he also saw it at an auction in the underground black market. It was researched by a scientist. bullet.

But everyone thinks this thing is too useless, no one wants it, but Cyclops has been studying Qin Yuan all the time, he knows Qin Yuan's speed is very fast, this can slow down his speed.

Surrounded by those criminals, Qin Yuan quietly ran out, hid behind a big tree, and looked at the chaotic battlefield. Qin Yuan still had the upper hand, and it seemed that he was relatively easy to deal with.

Qin Yuan's side is now fully involved in the war, and he had no time to take care of An Ran who was hiding behind the tree, and he didn't even notice that An Ran came out quietly.

Although Qin Yuan is now going smoothly, those criminals are not their opponents at all, but with such dense gunshots, An Ran is amazed at Qin Yuan's reflexes, the speed is too fast, but people will have accidents, just Just now, she watched a bullet fly past Qin Yuan.

An Ran was so frightened that she covered her mouth, not letting herself cry out. This was also the first time An Ran saw such a war scene. This was Qin Yuan's daily routine of carrying out missions. Qin Yuan at this time was in a different state than usual, The courage like a king is really admirable.

At this time, Cyclops raised his secret weapon and shot at Qin Yuan. Boss Ning and others next to him carried submachine guns to cover him, and he rushed to the rear to shoot black guns.

The clip speed of the submachine gun is very fast, and Ruan Ruan can only turn over and dodge constantly. He has noticed the danger coming from behind. Although he has a strong sense of crisis in the system to remind him, but in the case of such dense gunfire, the surrounding area of the system All point to danger.

For a moment, he couldn't judge, just like that, Cyclops fired quickly, and two bullets with strange shapes shot towards Qin Yuan, but these two bullets only hit Qin Yuan's feet.

What the hell! !

Qin Yuan only felt a numbness in his feet, but he was not too worried, because he had super defensive power, and this kind of bullet should not hurt him much. He was not worried about ordinary submachine gun bullets, his main worry was It was still the armor-piercing bullet of the sniper rifle, and he couldn't defend against that.

But what he didn't expect was that after his legs became numb, his speed would slow down instantly. He tried to use the instant burst rate but it didn't work, and his speed was only a little higher than before. As soon as his speed slowed down, these people would have an opportunity to take advantage of it. Cyclops shouted loudly:

"You all cover me, as long as this kid's speed is slowed down, we have hope."

After all, they had all gone through a bloodbath just now. These militants didn't use submachine guns at all, but adopted human tactics. They all rushed up and hugged Qin Yuan. So many people jumped up like lunatics.

Qin Yuan kept shaking his body, his strength was very strong, and these people were all thrown away by him as soon as they rushed forward, but this time also gave Cyclops a chance.

He quickly fired a few more shots at Qin Yuan. Qin Yuan dodged two shots and picked up a militant to block the bullets, but the rest of the bullets still hit Qin Yuan. I don't know what was inside these bullets. After being hit, I felt numbness on my body, as if being anesthetized by everyone.

But I am invulnerable to all poisons, what is the situation?

"System! Can this be recycled?"

"Answer the host, you need to get the original body to recycle, the current problem is that the bullet cannot be decomposed and recycled!"

"Then do you know what this ghost thing is? Why does it affect my speed so much after hitting it? I feel like I'm being weighed down by a thousand catties. It's just very tired."

"The recovery analysis of the whole can only be carried out after recovery, and the host needs to recover as soon as possible."

Qin Yuan was very speechless, didn't he know this, but now that there are so many militants, after slowing down, he only has the force of a body, and he was able to dodge the throwing knife just now.

"Hahaha, it's useful, brothers, hurry up! Let me all go up and press him down. I'll see how he moves by himself."

Qin Yuan noticed that it was the one-eyed dragon who did the trick. The gun in his hand should be the original body, as long as he got the gun, he could recover it.

An Ran in the distance saw Qin Yuan surrounded by so many people, she didn't see Qin Yuan being hit by a special bullet, and thought that Qin Yuan was exhausted. on the ground.

These militants are also the forces of the four bosses. This time, in order to solve Qin Yuan, they gathered more than 400 people. There were so many people with guns and bazookas in batches. Qin Yuan struggled desperately and hugged him directly. The militants kicked out of the thigh.

In order to kill Qin Yuan, Boss Ning and the others simply used all means, regardless of whether their own people were still there, and directly asked their subordinates to fire. There were many people hanging from Qin Yuan's body, and in an instant, those subordinates and Qin Yuan flew out directly, and these militants stopped them In addition to his own defense, Qin Yuan was not injured.

An Ran was so frightened that she rushed out and ran towards Qin Yuan. The moment Qin Yuan landed on the ground, he rolled on the ground and avoided those militants. At this time, the one-eyed dragon behind saw An Ran running towards him.

"Since this monster can't be killed, now he slows down and kills that woman, so that he can also taste the loss."

In an instant, their guns were aimed at An Ran, and Qin Yuan was still entangled by those militants, jumping and dodging bullets, when he saw An Ran running over, he shouted loudly: "Run quickly, don't come over!"

An Ran's eyes were filled with tears, she had already decided that she would stay with Qin Yuan even if she died, Qin Yuan was very speechless at the moment, why did An Ran not listen to his arrangement, he should be able to get away by himself.

The snipers behind also aimed at An Ran, Qin Yuan yelled and kicked all the people around him away, and rushed towards An Ran with all his strength, he felt the weight on his body increase with every step he took.

Countless bullets flew over, An Ran could only wait to squat down to avoid the bullets, and Qin Yuan's movements became slower and slower.

Cyclops laughed loudly from behind, "Unexpectedly, this can inhibit motor nerves. You are honored to be the first person to use it. Today is the day of your death!"

An Ran lay on the ground and saw that Qin Yuan had been shot in the arm, blood was streaming down from his arm, she shook her head desperately, "No, don't come to Qin Yuan."

Qin Yuan hadn't felt this kind of bullet hit for a long time, his eyes were red, as long as these people dared to hurt An Ran, he would not let them go.

Qin Yuan was almost crawling on the ground. Boss Ning grinned and signaled his subordinates not to shoot. He raised his gun and shot Qin Yuan's leg with ease. This feeling is really cool. This is The smell of revenge.

He raised his gun again, but Cyclops stopped him, "Don't kill him, we are useful, how could he die so easily, so many of our brothers died in his hands."

An Ran struggled and crawled over, and she was also shot in the calf, and now she regrets it very much, this is the first time she saw Qin Yuan get such a serious injury, he is covered in blood now, I don't know what it is The militants' or his.

"I'm sorry, I shouldn't be so willful to let you take me to the Amazon jungle. I didn't expect it to be so dangerous."

An Ran cried while talking, Qin Yuan wiped her tears with his hands and said: "Don't cry, I was careless this time, but don't worry, I said I will guarantee your safety, you have to trust me."

Chapter 813: Long Xiaoyun is here

Cyclops and the others came over, surrounded the two of them, and An Ran opened his arms to block Qin Yuan.

At this time, Qin Yuan took off his watch, put it quietly on An Ran's body, and turned on the ball device on the watch. This is specially issued by their special forces, because they have to perform special tasks, and they can use this in case of emergency. Watch for help.

At this time, Long Xiaoyun in Yan Country suddenly received an alarm on her watch, because this watch is specially made for each team member, she only saw the serial number 1 popping up on the watch. If I remember correctly, 1 represents Qin Yuan.

The watches of other team members also screamed, this is all one, everyone ran to look for Long Xiaoyun, what is the situation? Could it be that Qin Yuan is really in danger?

Long Xiaoyun immediately clicked on the positioning system on the watch, and asked everyone to quickly check where this location is. After a while, they found out that it was in the Amazon primeval jungle.

Didn't Qin Yuan go on honeymoon with An Ran? How could it run into the Amazon jungle? That must have happened.

Without further ado, Long Xiaoyun asked Gao Shiwei for instructions and led the team to set off immediately, but from here to the Amazon jungle, it would take them three hours at the fastest by helicopter.

Long Xiaoyun felt that Qin Yuan should have no problem, the most important thing was An Ran, she was very worried now, and only hoped to arrive soon.

"How about it, weren't you very arrogant before, and felt that you were invincible in the world, let me tell you, I will let you know what is lost later, we will never let you go so easily."

Qin Yuan struggled to stand up and pulled An Ran behind him. The most important thing now was to delay time. He had already sent a distress message, and Long Xiaoyun and the others should arrive soon.

The problem is that during this period of time, I don't know if these people will attack An Ran. It seems that he has to find a way to lure these people outside.

"I know that all your brothers died at my hands, but these are all my own affairs, and have nothing to do with her. You let her go, I want to kill or cut as you like."

"Hahaha, do you think we'll let her go? The more you value her, then I'll let you know what it's like to lose her. Besides, look at how qualified you are to negotiate terms with us."

"That's right, this little beauty looks pretty good, so it's cheaper for my brothers."

While talking to him, Qin Yuan found things that could be exchanged in the system mall. Points can be used to exchange things in the system mall. What he is looking for now is someone who can help An Ran escape.

At this time, he saw a piece of Lingbo Weibu chocolate, and he quickly clicked on the profile to view it. As long as he took a bite of this Lingbo Weibu chocolate, he could escape quickly. The fastest speed can reach 110 kilometers per hour, which is equivalent to a The speed of an adult cheetah.

But this Lingbo Weibu chocolate can only be exchanged with system skills. Qin Yuan didn't have time to think so much, so he quickly chose one of his skills. Exchanged for a piece of chocolate.

The most important thing now is to ensure An Ran's safety, as long as An Ran is safe, he can also escape.

"Wait, even if you want to do something, you have to give us something to eat. Anyway, I'm already like this, and I don't pose any threat to you. Even if we die, we still want to be a hungry ghost."

"Damn it, you really have a lot of demands, kid. I've already said that now is not the time for you to make demands."

Qin Yuan ignored him, quickly took out a piece of chocolate and handed it to An Ran, "An Ran, eat this piece of chocolate, hurry up!"

An Ran looked at Qin Yuan very strangely, what time is this, why are you still eating chocolate? But looking at his tone, it didn't look like he was joking at all, and he was also very anxious.

Qin Yuan just hated that he couldn't raise his hand, otherwise he would have been fed into An Ran's mouth. Seeing Qin Yuan's anxious look, An Ran took a bite of the chocolate and swallowed it quickly.

Qin Yuan turned sideways and hugged An Ran, and whispered in her ear: "I put the positioning watch on you, Long Xiaoyun and the others will be here soon, they can find your location, remember! Run forward vigorously, don't care about what happens later, I can escape."

An Ran's eyes widened in horror, she wanted to leave Qin Yuan and run away alone, she couldn't do this, she shook her head desperately, "Really, you believe me, I escaped death by a narrow margin, the person who killed me so many times has not yet Born, as long as you go out, I will be able to escape, and now you are here, I am very distracted."

"Hey! What are you two muttering about? Guys, bring that chick to me."

Qin Yuan yelled, and pushed Anran with all his strength, Lingbo took small steps, the chocolate also released its effect at this time, Anran quickly ran forward, and the few people surrounding them were all crushed. An Ran knocked down, An Ran couldn't control her footsteps at all.

Let me add a word, it's really good, it's worth pretending, after all, there are many sources of books, all books, and fast updates!

She wanted to stop, but she couldn't control her body at all, her feet didn't feel like her own, and she only knew how to run forward desperately.

Since Cyclops and the others were stunned, when did this little girl move so fast? Before everyone could react, it took only a blink of an eye to see her back.

"Damn it! I knew you were playing tricks on me, the little girl my brothers chased after me."

"Stop, your opponent is me. Even if I, Qin Yuan, die here today, I won't let you catch up with her."

Seeing An Ran run out, Qin Yuan also heaved a sigh of relief, because this Lingbo Weibu chocolate is effective for one hour, and An Ran should be able to run out of this place at a speed of 110 per hour in one hour.

Cyclops walked forward angrily and kicked Qin Yuan's chest. The pain was like a massage to Qin Yuan.

"Did you **** not eat? You won't try harder."

"You kid is courting death!"

Cyclops raised his gun and just wanted to get close to Qin Yuan, but suddenly backed away. Qin Yuan almost succeeded. He deliberately provoked Cyclops. As long as he touched the gun and let the system recover it, all these people would be finished. .

"Hehe, don't you just want me to kill you with a single bullet? How can it be so easy, I want you to die in the most painful and tragic way."

In this way, Qin Yuan was ***** with a rope by Cyclops and the others, and dragged to the ground. They were riding a motorcycle in front, and Cyclops thought about dragging him all the way back like this.

They waited there for another half an hour, and the person who went out to chase An Ran came back and said out of breath, "Boss, no, this little girl's speed is too fast, we didn't even see anyone when we ran out, there was no one at all." Know in which direction she ran out."

"Damn it, you ***** can't even catch a little girl, what do I support you for?"

Cyclops originally wanted An Ran to die directly in front of Qin Yuan, so that he could taste the loss of a loved one, but this plan fell through, and now he raised his gun angrily, and directly shot the leader to death.

Qin Yuan shook his head. Sure enough, these people are cruel and merciless. When he recovers, he must smash them all to pieces.

And the death of this subordinate was just a small episode for those people, everyone set off, Qin Yuan was dragged to the ground by the motorcycle, because he couldn't keep up with the speed, he kept rubbing on the ground after falling to the ground .

Fortunately, there are grasslands and vegetation in the primeval forest, but those branches are also very sharp, hitting Qin Yuan's body constantly, and Qin Yuan's defense force can resist these branches, these problems are not big, but he There were wounds on the hands and legs, which were bleeding all the time.

He hadn't felt bleeding for a long time. This one was an armor-piercing bullet from a sniper rifle. Although it broke through his defense, the wound was not deep and didn't hurt the bones. This one was fortunate.

After these people returned to the camp, Cyclops walked to the back of the motorcycle, kicked Qin Yuan who was lying on the ground, and found that the boy was still alive. Although the clothes on his body had been tattered, he had not suffered any damage.

"Damn it, you kid is really lucky. If you can dodge the bullet, I'll see how you can dodge this high cliff later."

Cyclops intends to take Qin Yuan to the opposite cliff. Below that cliff is a valley of death. No one has ever gone down it. He doesn't believe that Qin Yuan can't fall off such a high cliff to his death.

Although Qin Yuan is ***** now, Cyclops is still very cautious and has never dared to approach Qin Yuan, so he has not been able to succeed.

After capturing Qin Yuan, these people were very happy and cheered in the camp. Cyclops and the others discussed how to execute Qin Yuan in the camp.

"In my opinion, this kid was tied to a stake, doused with gasoline, and burned to death with a big fire. My father was burned to death when he hit the fuel tank in the car."

"No, no, it's cheap for him to do so, and this kid's physique is so special that our submachine guns couldn't hit him just now, and only the armor-piercing bullets of sniper rifles can hurt him."

"You also found this!"

The one-eyed dragon's observation is very good. In order to get revenge these years, he has specially studied Qin Yuan. He also did an experiment just now, and has been observing that Qin Yuan can completely dodge under the submachine gun. However, the submachine gun bullets actually touched him twice, but It didn't hurt him.

In the end, he asked the sniper lurking behind to target him with the armor-piercing bullets of the sniper rifle, only to find out that the armor-piercing bullets could hurt him, and finally the Desert Eagle in Boss Ning's hand, the bullets inside were also modified.

It is also a standard armor-piercing projectile, which is very powerful and can penetrate bulletproof glass.

"In this case, add a few more barrels of gasoline, I don't believe he can't be burned to death!"

"This is not a solution. You know Death Valley, the cliff is so high that no one has ever gone down it. When the time comes, just shoot him twice and then drop that cliff. That is the most painful!"

Cyclops had heard before that the cliff was so high that it would take more than ten minutes for someone to fall to the ground, but he had only heard about it, but this kind of talent left the boy with no bones left.

"Even if those **** special forces came to him, they couldn't even find his body. This is the best revenge."

"Hahaha, just do as you said, it's a pity that the little girl escaped, otherwise the brothers can be happy, every day in this primitive forest, I'm going crazy."

"After killing this kid, we can go wherever we want, and other people won't pose a great threat to us."

Listening to the obscenities of the people in the tent, Qin Yuan was glad that he sent An Ran out. He is not afraid now, there will always be a chance anyway, as long as he takes back the **** gun, then these people will be nothing to worry about , Calculating the time, An Ran should have stopped by now.

At this moment, An Ran has left the primeval forest, and the forest that Qin Yuan brought her in before has passed through. She really wanted to go back to find Qin Yuan, but Qin Yuan said that Long Xiaoyun and the others would come.

She must take Long Xiaoyun and the others back to rescue Qin Yuan. Long Xiaoyun and the others are still on the plane. Long Xiaoyun has been staring at the situation on the watch, only seeing the red dot on the watch moving rapidly.

Li Erniu said suspiciously: "What's the situation! How come the speed is so fast."

"It should be that they found the car, but it's still nearby. We just need to get there as soon as possible."

In this way, Li Erniu is even more confused, and there is still a car? That's the original Conglin, is it a motorcycle?

An Ran found a cave nearby, and she was very afraid that those people would come to find her. Now she must ensure her own safety before she can lead Long Xiaoyun to rescue Qin Yuan.

An Ran has been hiding in the cave anxiously. This An Ran heard the sound of a helicopter in the distance. She held her watch nervously, not daring to make any other movements. She didn't know whether these people were Long Xiaoyun and the others or those armed molecular.

Because it is not easy to land here, Long Xiaoyun asked the helicopter to find a good location, and they parachuted here, and the positioning showed that the person was below.

After a while, Long Xiaoyun and the others landed. This time she led the red blood cell team and the wolf team. After all, it was the first time that Qin Yuan could call for help, which showed that the situation was still very serious.

Long Xiaoyun walked into the cave according to the location, and she called out tentatively: "Qin Yuan?"

Only then did An Ran confirm that it was Long Xiaoyun and the others, she ran out excitedly, hugged Long Xiaoyun and burst into tears.

Li Erniu and the others breathed a sigh of relief when they saw that An Ran should be fine. An Ran was fine, and the captain was fine.

The militants in the camp drank wine to celebrate, and Qin Yuan was ***** outside. After all, Boss Ning's father died at the hands of Qin Yuan. He vented his anger and beat Qin Yuan with a stick, which broke.

Qin Yuan looked at him and said mockingly: "I think your physique is too weak. I haven't massaged enough yet. Continue! If you have the ability to call out that one-eyed dragon, I'm not afraid of you at all."

The one-eyed dragon sitting inside was originally called An Ersi, and he hated people calling him one-eyed dragon the most. This eye was given by Qin Yuan.

Chapter 814: throw off a cliff

When An Ersi sat inside, he heard Qin Yuan's voice. Qin Yuan yelled so loudly on purpose, and kept emphasizing the three words Cyclops. An Ersi stood up in a hurry and threw the wine glass directly on Qin Yuan's body.

"Damn it! I wanted to keep you boy for a while to torture you, but now you are challenging our bottom line, do you know that I really want to tear you apart."

"What are you? If you have the guts, come and untie the rope. Let's fight one-on-one."

At this time, An Ersi laughed loudly, "Do you think I will beat you up with tricks? I have investigated you. You are very mysterious. You have actually been caught several times, but you can escape easily, so Don't give me the chance to let you go."

Qin Yuan felt that this An Ersi was really able to hold his breath. He provoked him like this, but this kid just couldn't come over. The boss Ning next to him dragged An Ersi in and continued to drink, so that he should not think so. The brothers who had enough to eat and drink will send this kid on the road.

Qin Yuan tried to move his body, the feeling of heaviness was still there, he didn't know what it was that could last for so long.

He is not worried about his own situation. After all, with his own ability, these problems are not big. He is mainly worried about An Ran now. He wonders if Long Xiaoyun has found her. big jungle.

The positioning watch in her hand can be found no matter where it is, but it is the first time he has seen and used Lingbo Weibu and chocolate. I don't know if it is really that powerful? Qin Yuan was also a little worried.

On the other side, Li Erniu and the others originally thought that since Anran was not in danger, let alone Qin, the task this time was relatively easy. They also thought that Qin Yuan was in the cave, but they didn't expect that there was only Anran in the cave.

An Ran sobbed and said, "It's all my fault, I got him involved, and now he's been captured by those criminals."

what!

Long Xiaoyun even suspected that he had heard correctly. How could this be possible? With Qin Yuan's ability, he could kill those criminals even without a gun.

An Ran was crying out of breath, she had reflected in the cave just now, she was actually to blame for this matter, if she had listened to Qin Yuan then she would have stayed in the tent with peace of mind. Qin Yuan will not be distracted and hurt.

"He was shot in the hands and legs in order to save me, and he was bleeding."

Everyone became nervous when they heard this, this was the first time they heard that Qin Yuan was injured, who could actually injure Qin Yuan, Long Xiaoyun hurriedly asked An Ran to take them back to the place where they separated before.

"What kind of situation is this? They can even injure Qin Yuan. Is there anyone among them who is particularly powerful?"

An Ran thought about it carefully and said: "I remembered, Qin Yuan's speed was very fast before, he jumped into the criminals and fought smoothly, and those people were not his opponents at all, but when he got to the back, he suddenly appeared He was physically exhausted, and his footsteps became heavier and heavier, and he even felt that he was struggling when he was close to me."

"Lack of strength?"

Long Xiaoyun carefully considered this issue. After all, knowing oneself and the enemy is the only way to win every battle. Now that Qin Yuan is such a powerful person, he is actually controlled by

those criminals. They have to understand the situation first. She wants to save Qin Yuan, but now after all She led the two teams to ensure the safety of these players.

Qin Yuan almost never suffered from lack of physical strength. In the previous training and contact process, his physical strength has always been a mystery. Gao Shiwei even said that this kid is never tired.

Could it be that the other party has some secret weapon that can make Qin Yuan run out of energy or slow down? Long Xiaoyun and the others told everyone about this situation as they walked. After all, everyone analyzed it together, and finding out the problem quickly is the key.

He Chenguang agrees with this point of view very much. After all, Qin Yuan is very capable. They all know that these criminals are obviously looking for Qin Yuan. If they come here for revenge, they will definitely know about Qin Yuan's situation.

Long Xiaoyun and the others walked for more than half an hour, and found that they had not reached the place where Anran and the others separated before. Long Xiaoyun felt a little strange. Anran was already physically exhausted at this moment. After all, walking in the mountains and forests was very difficult.

"An Ran, are you sure you didn't take the wrong path? We've been walking for more than half an hour. With our marching speed and your physical fitness, it should be about the same."

An Ran shook her head, "I'm sure it's not too late, you won't believe me when I say it, at that time Qin Yuan gave me a piece of chocolate, after I ate it my legs became uncontrollable, I started running crazily, and very fast , Only then escaped the pursuit of those people."

This matter is getting more and more confusing. An Ran will not lie, but is there really such a thing? But think about it, if An Ran's speed is not fast, she must have been captured by those criminals long ago, Long Xiaoyun felt that Qin Yuan really had more and more secrets, which he hadn't discovered before.

When you find Qin Yuan this time, you must ask him clearly. An Ran can no longer walk at this time. Although she has been insisting, she has fallen to the back of the team and has been guiding the way with the people in front.

Long Xiaoyun ordered people to carry Anran on their backs in turn. The most important thing now is to find Qin Yuan quickly, otherwise it would be very dangerous if Qin Yuan was really unable to resist.

An Ran felt very guilty at this moment, feeling that she was a drag, not only caused Qin Yuan to be caught, but now it is also a problem to lead the way.

Wang Yanbing carried An Ran's back first, and he saw An Ran's self-blame, "Actually, don't think that way, after all Brother Qin values you the most, he must ensure your safety first, you are safe first, and he will not No worries."

"Then can we really save him?"

"Don't worry about that. He is our captain. No matter how dangerous it is, we can rescue him. He was the one who rescued us before."

An Ran didn't speak any more. She felt that she had an unlucky physique that not only harmed herself, but also implicated Qin Yuan. It was she who proposed to come to the virgin forest here before. Long Xiaoyun should know, so she didn't ask An Ran.

This can be regarded as saving her last face, after all, for a cautious person like Qin Yuan, he usually would not bring An Ran to such a dangerous place.

Everyone was very anxious about Qin Yuan's situation and almost started to trot. These physical trainings were a piece of cake for them, and they quickly shuttled through the jungle.

When they ran to the place where they fought before, everyone gasped. This place is no less than a large-scale war. How many people are there? Qin Yuan really defeated hundreds with one enemy Enemy!

There are submachine guns everywhere, and the shell casings of assault rifles are densely packed, and the tree trunks next to them are full of bullets, there are countless bullet craters, and there are many bodies of militants on the ground.

The corpses of these militants were at least one or two hundred, and all of them were shot or injured in the chest and head. This kind of precision can only be achieved by Qin Yuan.

"Brother Qin, this is too awesome. Judging by the number of bullets, there are at least a few hundred people on the other side, and the battlefield here is really fierce. He doesn't even have a gun, so he just fought like this."

"This is still not up to his full strength. If he hadn't been plotted against, it is estimated that all these people can be solved by him."

An Ran also nodded at the side. Anyway, there were a lot of them. The most important thing was that Qin Yuan was injured in the back. She was very worried about Qin Yuan's wound.

Seeing this situation, Long Xiaoyun felt that Qin Yuan must have been plotted against, because the situation on the battlefield was very smooth at the beginning.

Next, they saw a trace of being dragged in the jungle. They ran up along this trace and found that there were many strips of cloth hanging on both sides of the number.

Long Xiaoyun's heart suddenly thumped, these dragged traces are...

"Damn! These beasts!"

Everyone also knew that this dragging mark was caused by Qin Yuan, and the fabric of the clothes next to him was also his, and the traces of the motorcycle in front were very obvious, so everyone quickly chased after this trace.

Now Qin Yuan's situation must be very dangerous, and Long Xiaoyun is very worried. In this dragging situation, it is not known whether Qin Yuan is safe or not.

At this time, Boss Ning who was in the camp raised a question, "Should we go and deal with Brother Qin first? I'm afraid that if he runs out, that girl will spoil our good deed."

"Hahaha, I think you drank too much alcohol, and you are really confused. With the ability of that little girl, I don't believe that he can run out of this jungle. I don't know what the **** they are doing. They ran very fast just now, but you have to know that this is the Amazon jungle, I don't know if it will fall into a deep pit, and the corpse will rot after two days."

"That's right! When you say that, I'm quite relieved. It's true that the danger in this Amazon jungle is very great. I don't believe that she can run out of such a girl. Come on, brothers, continue to drink. "

This is the first time Brother Qin has been treated like this. After his ability became stronger, he never expected to be damaged by this kind of insidious trick. When he was at the doctor's side of biochemistry, he was at least able to move, and such a powerful biochemical virus actually attacked him. None worked.

He now wants to release the system's charm ability. After all, this skill is very useful, but he finds that his speed and physical energy can't be released after being restricted. He wonders if there is something wrong with this charm ability.

This is really strange. If Ans's secret weapon is useful to him, it should only limit his physical strength, how could it make the charm skill useless.

He still has a skill available now, which is the super corrosive ability he obtained when he recovered the bacterial weapon before. He also heard a few people talk about the situation where he is now more and more worried about An Ran. After all, why is there a problem with the system now?

But he found that it was useless at all. No matter what skills he used, there was no response. The system seemed to be asleep. Qin Yuan was very anxious. Could it be that the system is gone? This is the first time this has happened.

"System! What's going on? Why can't I use other skills? Are you still there?"

But no matter how Qin Yuan called, the system didn't respond at all. Brother Qin felt very strange. What's going on? And Ans inside felt even more strange.

When he took pictures of this secret weapon, the professor who studied the weapon clearly said that this weapon not only suppresses the motor system of a person, but also controls the nerves of a person, can paralyze the nerves, make people lose consciousness instantly, and even become paralyzed. Come back in one sentence.

But Qin Yuan's situation is not like this. Apart from being restricted in his actions, his consciousness is clear. He patted the table in dissatisfaction, it seems that he was fooled by that professor.

But it's okay, at least Qin Yuan was captured by using this secret weapon. Anyway, he has already been caught, so if he doesn't lose consciousness, he will be thrown directly from the cliff later.

Qin Yuan felt that his head was getting bigger now. Why did the system go wrong at a critical moment? Then even if he recovered it later, what would the gun do? It seems that this time I really fell into a big hole, I can only pray that Long Xiaoyun and the others find An Ersi and come to save themselves.

Brother Qin sneered, it's really ironic, he has been saving others by himself for such a long time, never thought that there would be a day when others would come to save him.

Long Xiaoyun and the others were still in the jungle, following the traces, while An Ersi had already come out, drunk, and ordered his subordinates to take Qin Yuan to the opposite cliff. He wanted to leave Qin Yuan behind. Death Valley.

In this way, Qin Yuan was dragged all the way to the top of the cliff again. The wind on was very strong. An Ersi stood beside the cliff and looked down a little. He was almost blown down by the wind, which scared him stand back quickly.

"Qin Yuan, you never thought you would have this day! You are so arrogant, you don't know how many people you have offended, let me tell you, today I will let you die without a place to bury you, even if your Teammates come to you, and let them not find your body, so you can become the nourishment of this primeval forest."

An Ersi drank a lot of wine, although he was a little sober from the cold wind, he still walked over and lifted Qin Yuan up. Qin Yuan was dragged all the way, but there was no problem, but he still pretended to be dead in this situation. Better.

Boss Ning frowned, is this kid dead? No matter how you move, you don't move.

"Drag it all the way here, and there are so many stones next to it, so it's unlikely to die. It's probably just passed out. Don't worry, it's absolutely fine. I'll throw him down now."

An Ersi was still more cautious, and asked two of his subordinates to carry Qin Yuan over. He originally planned to shoot him a few times before throwing him down. It seems that there is no need for this kid now. Waste of bullets.

Chapter 815: ? Gain super defense ability

When An Ersi stretched out his foot and wanted to kick Qin Yuan off, Qin Yuan suddenly stood up and rushed towards An Ersi. This was his last chance, and he had gathered all his strength. Touching that gun gave him a chance.

An Ersi backed away in fright. He thought Qin Yuan was going to jump down with him in his arms. The people next to him immediately came up to help and kicked Qin Yuan down. At the moment of going down, the corner of Qin Yuan's mouth rose, Got it!

"System! Recycle!"

An Ersi was stunned, the pistol he had on his chest was gone, and at the moment when Qin Yuan rushed over, he felt his chest was empty, and the pistol disappeared out of thin air.

He was very surprised what was going on, that Qin Yuan's hands and feet were tied, how did he take out his gun?

But now I don't think about it so much, anyway, he has already fallen, even if he has great abilities, it is impossible for him to come up from this cliff alive.

The moment Qin Yuan came into contact with the gun, the system finally made a sound, "Ding! Congratulations to the host, the recovery of the super-power suppression gun was successful! The previous state has been lifted, and the host can obtain the following abilities to make a choice."

At this time, Qin Yuan was in the mid-air of the cliff. I have to say that the cliff is really high. It has not landed for such a long time. Now Qin Yuan has no time to make a choice. He has to find a way to stop first. Yes.

Now that his system ability has been restored, he immediately used the instant explosive power to break the rope on his body. Now that his speed and explosive power have recovered, he doesn't have to worry about other problems. Before when he was restricted, he felt his whole body It was very heavy, but now it is a lot easier.

There were many vines on the edge of the cliff. He quickly jumped over and grabbed the vines. These vines were very strong, so it shouldn't be a big problem.

Qin Yuan had just finished thinking, but he didn't expect the cane to snap off in an instant and he quickly fell down.

I rely on! What's the situation, why am I so unlucky today, usually there should be no problem.

Qin Yuan had no choice but to use his explosive power again and leaned sideways on the cliff. The cliff was indeed very steep. Qin Yuan stood on the cliff like this, but his body kept sliding down. The most risky way now is to run directly. Going down, it shouldn't be too far from the ground, just sprint down like this.

Qin Yuan kept bouncing down on the cliff. As long as he landed, he would be fine. A few minutes later, Qin Yuan finally landed safely. It turned out that there were indeed many animals and human bones under Death Valley.

There is a thin mist formed by the fermentation of these corpses and the surrounding plants. Qin Yuan doesn't know if the mist is poisonous or not. Anyway, his system has recovered now, so it doesn't do much harm to him.

Now that it has landed safely, let's take a look at the selection ability given by the system just now.

"1. Super neuroinhibitory! The host can control the nerves, paralyze the person instantly, and lose consciousness and become a puppet at will."

"2. Inhibition of neuroimmunity. Simply put, the array will not be controlled the next time it encounters this situation, and it will become immune to this neuron."

"3. Super paralysis ability, the host can paralyze people without knowing it, and instantly lose the ability to move."

"Please host to make a choice as soon as possible!"

Qin Yuan thought for a while, the temptation of the first one is really great, it can make people paralyzed instantly and become a manipulative puppet, but he already has the charm ability, that charm ability is more useful than this, it is better to choose Second, if you encounter this situation next time, you will be immune.

"System! I choose the second one."

"Ding! Congratulations to the host for obtaining the ability to suppress neural immunity!"

Qin Yuan has a lot of problems now. After all, the system did not respond for a moment just now. Is there any other problem with this gun? He looked inside the grid for a weapon that looked like a pistol.

What is the function of this thing? Now that it has been recovered, he can click on the system to check it in detail. After checking it, he knows that there is something that suppresses nerves in this weapon.

The moment just now was equivalent to the system generating his second consciousness, which protected Qin Yuan from being manipulated. Otherwise, if Qin Yuan not only lost the restrictions on his actions, but also lost his consciousness, he would really die today. There is no burial place left.

This thing is really powerful. I didn't expect the current research to be able to achieve such a level. He blamed the system just now. If it wasn't for the system, he would have lost consciousness.

Now that he has figured it out, he has to find a way to go up. This kind of cliff is not a problem. He has rushed over it a few times before, and now all the abilities of the system have recovered.

All the functions of Qin Yuan's body have recovered, and he took out the bullets on his arms and legs just now. These problems are not serious, and he doesn't feel anything now. Currently, only armor-piercing bullets can cause him harm. Now he There are still some who feel that they are not capable enough.

If I can be stronger and immune to the damage of this kind of armor-piercing bullet, it will be more perfect. If I want to be immune to armor-piercing bullets, I may need to recycle some more resistant substances.

This cliff is very high, its height is about several thousand meters, so Qin Yuan didn't know the situation above after he came down, and Long Xiaoyun and the others rushed to Qin Yuan just after he was pushed down.

From a distance, Long Xiaoyun saw Qin Yuan being pushed down. Long Xiaoyun and the others attacked these militants like crazy. She saw Qin Yuan fall down with her own eyes. The height of this cliff is unknown. How many, whether Qin Yuan is dead or alive now, anyway, she must kill all these criminals.

These criminals did not expect that Long Xiaoyun and the others came so quickly, and Long Xiaoyun and the others were originally an elite special operations force. Although these criminals had an advantage in numbers, their sudden appearance also hit them. The criminals were caught off guard.

The two sides fought fiercely. Qin Yuan also heard some fighting sounds from under the cliff. Just now he was mainly focused on escaping. Cloud and the others have already arrived?

Qin Yuan listened carefully to the movement above, he was sure it was Long Xiaoyun and the others, because there was the sound of a submachine gun on one side, and the sound of Long Xiaoyun and the others using a Type 95 assault rifle on the other.

Qin Yuan was very happy, since Long Xiaoyun and the others had already arrived, it meant that An Ran had no problem, as long as he went up now, it would be fine, and those criminals should not be a big problem for Long Xiaoyun and the others.

Qin Yuan retreated into the valley. He was about to dive straight to the cliff, but when he was about to dive, something dazzled his eyes suddenly.

A strange black stone was exposed not far away. This black stone was black and reflective. This was the first time he saw such a strange stone. A system beep sounded.

"Ding! Does the host need to recycle the black diamond when it touches it?"

What is this black diamond, but the name is quite domineering.

"Answer to the host, black diamond is recognized as the hardest substance in the world, but at present countries are already in a state of extinction and black diamonds are rarely found. Black diamonds were used in large quantities in the manufacture of various armored vehicles, as well as bulletproof Material."

Qin Yuan's eyes lit up instantly after hearing the bulletproof material. Should he really say that he was lucky or unlucky? He was just saying that he was too unlucky to fall into this cliff. He found the black diamond unexpectedly. Recycling this thing might improve one's defense.

"System! Recycle directly."

"Ding! Congratulations to the array for successfully recovering black diamonds. The system is merging. Please make a skill choice for the host."

Qin Yuan was very excited when he saw the black stones floating in the system grid, not knowing what kind of skills he could use.

"1. Obtain super defense power, can resist 1000 kilograms of damage, and the damage of armor-piercing grenade to the host is reduced by 90% at a distance of 100 meters!"

"2. Obtain the black camouflage ability, which can perfectly blend with the night at night, and cannot be found under the thermal imager. It can not only camouflage the host itself, but also completely hide the host's smell."

"3. Black diamond regeneration function, but the regeneration function can only produce 50% of the body's weight."

Qin Yuan saw that the third skill could produce black diamonds again. This ability seemed useless, and the diamonds it produced were of no use to him.

At this time, the system prompts: "Host, black diamonds are already in a state of extinction all over the world. Some people in the world have issued them before. As long as someone finds black diamonds, the price of one gram of them is now 1 million U.S. dollars. Take this diamond in the array system as the price." For example, it can appreciate to \$30 million."

I go! This is too exaggerated, just such a small piece of diamond is worth 30 million US dollars, if you produce 50% more weight, wouldn't you be a billionaire?

Because Qin Yuan has never been in contact with weapon manufacturing before, he is not clear, and the current weapon manufacturing is replaced by other materials because of the lack of black diamonds. This kind of black diamond is very rare, especially in the construction of various chariots and spaceships. Add a little and it will perfectly resist the strong air pressure.

So this is the reason why it is precious. It was already very rare when humans first discovered it. Its value has always been high, and its price has remained high even after it became extinct.

Qin Yuan thought for a while, if he chooses the third skill, he will get hundreds of millions of wealth, but he does not lack money now, and he can also earn it through other means.

The most important thing now is the defensive ability. I was lucky in this situation, and immediately played dead. If they shot me in the head at such a close range, it would be over.

At present, the first skill is the safest. Although it can reduce the damage by 90% at a distance of 100 meters, like armor-piercing bullets, if the damage is only 10%, then there is no threat to your life.

And I will not let this happen again in the future, such a short distance of 100m, he will never let this happen again.

"System! I choose the first one."

"Ding! Congratulations to the host for successfully selecting and gaining super defensive capabilities."

Qin Yuan already had a world-class defense ability before, and now with the super defense power obtained by this black diamond, his defense power has now risen to a higher level.

Qin Yuan thought that the things in this Death Valley were really good, and he could find black diamonds. Hearing the weakening gunshots above, it seemed that the battle should be over, and Long Xiaoyun and the others had no problem.

In this case, let's go around this Death Valley first, maybe you can find other good things, Qin Yuan went around a few more times, except for the black diamond he just discovered, there is no other special thing. Some very common ores, these things have little meaning, he was a little disappointed.

It's better not to waste time, go up quickly, otherwise Long Xiaoyun and the others will probably come down later, she knows Long Xiaoyun's temper, no matter what, she will definitely come down to save herself.

Qin Yuan retreated back, holding his breath and rushed towards the cliff quickly. The cliff was nearly 90 degrees very steep. Unexpectedly, Qin Yuan's speed was very fast, and he rushed up directly. Now he uses the violent momentum and endurance to let his strength play out To the extreme.

At this speed, as long as he doesn't stop, there is no problem. After a while, he climbed to the place where the rattan broke just now, and he used the rattan to quickly shuttle and climb on the cliff.

The battle above Long Xiaoyun and the others is almost over, and now only the few power bosses are left. They want to escape but are surrounded by Li Erniu and the others.

"Damn it! You ***** actually threw our captain off a cliff! I'll tell you what he has, and I'll tear you to pieces anyway."

Aners knew that he was doomed to die this time, anyway, the situation has become like this, "Bah! Don't tell me some big things here, anyway, the kid can't climb up such a high cliff alive. You can kill him however you like, he won't survive anyway."

He Chenguang and the others rushed forward and slapped Aners frantically. Although they knew what this guy said was right, they still couldn't accept it.

"Captain Long, let's gather all the ropes and go down to see for ourselves. No matter what, even if it's... even Captain Qin's body, I will bring him back!"

Long Xiaoyun's eyes were red at the moment. In that situation, he wondered if Qin Yuan could really survive? She couldn't even hear the word "corpse", and she burst into tears instantly. She was relatively strong and rarely shed tears in front of her team members.

Chapter 816: ?Women's self-defense

An Ran felt even more regretful that she had killed Qin Yuan. She stood on the edge of the cliff and looked at the bottomless cliff. In an instant, he wanted to jump down with Qin Yuan, and Ans, who was next to him, laughed when he saw this situation, and kept urging them all to jump down.

Hearing the man's triumphant laughter, Long Xiaoyun got angry and rushed forward to kick An Ersi to the ground. At this moment, a figure suddenly jumped up from the bottom of the cliff.

"Oh! It looks like I'm going to disappoint you. I just said that the person who killed me, Qin Yuan, hasn't been born yet."

An Ersi looked at Qin Yuan jumping up intact, very terrified, the clothes on his body were completely torn, this was caused by dragging him with a motorcycle before, now Qin Yuan's body showed strong muscles, his body The wound was no longer bleeding, just those two bullet holes.

Qin Yuan can actually recover his body completely, but he didn't want to arouse others' suspicion after recovering in such a short period of time.

"Damn, you're a monster, why can't you kill me, you didn't die in this situation."

An Ersi broke down and yelled, in order to kill Qin Yuan, he has made so many preparations, and they can be said to be sure this time, with so many men, they failed to kill Qin Yuan, and How on earth did this man survive such a high cliff?

An Ran rushed forward excitedly, threw herself into Qin Yuan's arms, and felt Qin Yuan's body temperature, she knew that all this was real, and in a trance, she felt like she was dreaming, after all, such a high cliff, people must fall off There is no doubt that he must die.

Li Erniu and the others also cheered nearby.

"Let me just say, how could it be so easy for our group to be so easy, because he is the God of War! A well-deserved god."

Qin Yuan smiled and said: "Don't exaggerate me so much. I was just lucky. When I fell, I caught the vine on the cliff and climbed up like this. Otherwise, I might really die without a burial. land."

Long Xiaoyun looked at Qin Yuan and nodded, no matter what, it's good that he comes back alive.

A few days later, everyone returned to the country of Yan. At this time, a shocking news was uploaded by the international community. The four forces in the Amazon jungle disappeared overnight. The international community also sent troops to check, but only found these dead body.

After investigation, I found out that it was only the two teams of Yan Kingdom who had solved all the three or four hundred people, because Ans and the others were mainly engaged in the gun and drug trade. After such a large-scale criminal group was wiped out, Many resource chains were broken, and for a while, it caused a great shock to other criminals in the world.

The people in the world only investigated the peripheral news, and some militants who participated in the battle at that time also escaped. After they came out, they gave stern warnings not to offend the Yan Kingdom, especially that guy named Qin Yuan. They were monsters, and one person killed one or two hundred of them.

At this time, a mercenary boss wearing a turban was sitting in the room and listening to his subordinates' reports, "Hehe, I knew they wanted us to do it together, so I thought there was a problem. How could Qin Yuan be captured so easily by them? of."

"The boss is still wise. We didn't participate in that war to save our lives. I heard from the person who escaped before that that person was simply a demon."

The boss of the mercenary army nodded. He knew Qin Yuan very well. This Qin Yuan was very famous in Country A and Country C of Xiaomao Country. This kind of person would not easily offend him. Anyway, he should stay away from him. up.

"However, I still hope that he will not meddle in what we are doing. Otherwise, I really don't want to have a confrontation with this kind of person. After all, the brothers I know have all died in his hands."

"That shouldn't be the case. We're not doing things in his country. Besides, no matter how much we chatter, it's just our internal problem, and he won't interfere."

The boss of the mercenary nodded. He hoped that everything would go well. At this time, the boss of the mercenary was planning a conspiracy.

Qin Yuan and the others received awards and commendations after they returned to the country. Where Qin Yuan lived, the certificates and commendations could no longer be put down, so a special cabinet was set up to store these certificates.

When Li Erniu helped Qin Yuan move the certificate back to his place of residence, he said enviously, "Brother Qin, you are still the best, with so many achievements, and you solved a criminal group just by spending your honeymoon."

"It's not like that. After all, you will solve the problem later. We are all brothers in arms. It is really thanks to you for rescuing An Ran this time."

Li Erniu was also very proud after hearing what Qin Yuan said. He admired Qin Yuan very much and was always eager to do something for him. After all, Qin Yuan was always helping them.

At this time, He Chenguang ran in, "Brother Qin, go out and have a look, An Ran has come to our side."

"Come here if you come, you must be looking for Brother Qin, why are you making such a fuss?"

"No! She came here with her equipment and her own luggage on her back. Now she is in Lao Gao's office, and she said she will train with us. Tell me, can she stand our training?"

Qin Yuan also ran out after hearing this, Lao Gao probably wouldn't agree to such a thing, but as soon as he ran to the office, he heard Gao Shiwei say: "Comrade An Ran, I really admire you for having such awareness. , then I agree with you to train together! But don't force yourself too much, their training intensity is very high, but if I hand you over to Qin Yuan, he should be able to measure himself."

Brother Qin was very speechless. He originally thought that Lao Gao would not agree, but he didn't expect the old guy to agree so readily. What is this all about? Isn't it nonsense to ask An Ran to come here for training?

Seeing An Ran coming out, Qin Yuan hurriedly stepped forward to explain to her, this time, An Ran didn't tell him anything, and went straight to the company with his backpack.

An Ran was also worried that Qin Yuan would not agree, so she made her own claim. After the previous incident, she felt that she was too weak to drag Qin Yuan down. She also wanted to make herself stronger and become like Long Xiaoyun.

Qin Yuan and An Ran talked a lot. After all, they are a special brigade, and the training intensity is very high. If An Ran wants to strengthen her physique, she can go to the ordinary company for training. If she continues to train like this, her body will definitely not be able to bear it. .

Unexpectedly, An Ran was very persistent. He knew that he was not dragging Qin Yuan down once or twice. Even if she couldn't do it, she still had to learn some self-protection skills, otherwise she would drag Qin Yuan down again in any emergency next time.

Qin Yuan had no choice but to bring An Ran to Long Xiaoyun's dormitory, because there was only Long Xiaoyun, the female captain, so he could only temporarily arrange the two of them to live together, and train him later. .

Long Xiaoyun was also very surprised. She also found that she couldn't persuade An Ran at all, but she still understood An Ran's mood. Long Xiaoyun came out to warn Qin Yuan that it would be better for him to be a little more modest when training. If something happens to An Ran , she will never let him go.

Tsk tsk tsk, when did these two become so close, they are really sisters, but now I have become like a bad guy.

Besides, how could he allow An Ran to do those powerful trainings? Long Xiaoyun was because she had been receiving this kind of intensive training before, and her body had already accepted it.

In this way, when everyone gathered for training, An Ran also stood in the team with the equipment on his back.

"That's An Ran, you don't need to carry the equipment on your back. Our equipment is all weight-bearing. You don't have to worry so much now. You can train with us without carrying weight."

"Report to the captain, now I am accepting your training, please treat me equally, I am your team member now."

Seeing that An Ran is so serious, Qin Yuan has no choice, so let her try it, if she really can't hold on anymore, he will help.

Although Qin Yuan and the others are already the trump card of the trump card and belong to the strongest combat team, they must not relax in the training. Now they are carrying out a 10-kilometer raid with a load of more than 30 kilograms. There is also shooting training.

An Ran was also a little surprised when she heard about this training program. She couldn't imagine carrying a 30-kilogram load for 10 kilometers. This is too difficult, but she will definitely do what she says.

Unsurprisingly, just after running for a few kilometers, An Ran was already far behind the team. Qin Yuan directed Li Erniu and the others to continue running forward, and he accompanied An Ran at the back. She ran, but her legs were like lead, and the sun was so hot, she was hot and tired now, and she felt that she had reached her limit.

Qin Yuan stepped forward directly, carried An Ran on his back, and ran forward with her equipment serially.

"You put me down quickly, I said I want to train by myself, even if I can't run until dark, I will finish this run."

"Oh, my aunt, please stop making trouble. How can you accept this kind of intensity? Li Erniu and the others couldn't stand it when they first came. This has to be done step by step and slowly. Besides, If you want to become stronger, you can directly practice self-defense!"

Only then did An Ran realize that what Qin Yuan said was indeed reasonable. If he practiced this one by himself, it would take a long time to increase his physical fitness, and it was very difficult. Now he could indeed learn some self-defense techniques, but he had learned some before. , but she felt it was not enough.

She learned it from Long Xiaoyun before. After all, Long Xiaoyun has a lot of fighting moves, and they all need years of practice, so An Ran didn't learn much after learning them.

Qin Yuan put An Ran down, and reasoned with her well, telling her that he had just returned from his honeymoon during this period, and that he must pay close attention to the training here, and as soon as the training here was over, he would go to An Ran and Mu Qingmei, give them two special lessons on self-defense for women, this one is more hands-on, and they also have certain skills.

An Ran nodded after hearing Qin Yuan's assurance, this is indeed a solution, and it would be better if she brought Mu Qingmei with her.

"But I've just started training now and I'm admitting it. Isn't that embarrassing?"

"How did this happen? It's normal for you to give up such intense training now, because this training intensity is specifically for these special forces, and you must not be used to it."

An Ran felt a little embarrassed, so she stayed at Qin Yuan's side, pretending to train for a few more days before going back, but the training was arranged by Qin Yuan, so it was very easy.

Li Erniu looked at An Ran enviously, "Brother Qin, can our training programs be the same as An Ran's?"

"I think your skin is itchy again, and you need to clean up."

"Let's make a joke!"

Finally sent Anran back, Qin Yuan breathed a sigh of relief, Anran was here every day during this time, Long Xiaoyun's eyes almost killed him, although they were indeed good sisters, but Anran was like this, every day and Qin Yuan Together, Long Xiaoyun couldn't stand it anymore.

Now that An Ran is gone, he can only hurry up to coax Long Xiaoyun. Gao Shiwei stood in the office and saw Qin Yuan being chased by Long Xiaoyun and running all over the playground.

"These young people are still too energetic. Look at how energetic and harmonious they are."

The guard next to him looked sad. Is this called harmony? If he was not mistaken, what Long Xiaoyun was holding should be an electric baton, chasing Qin Yuan with the electric baton to beat him, is this called harmony?

Gao Shiwei did it on purpose. He didn't have any missions recently. Now that An Ran came here for training, this is a good opportunity to eat melons. I can just eat melons and watch the show. I didn't expect it to end so soon and I'm not happy. .

"Do you think I want to transfer An Ran's girl over again?"

The guard has black lines on his face, this old urchin started again.

There were no tasks for these two months, and Qin Yuan changed some training methods for Li Erniu and the others. The training here was almost over, so he went to find Mu Qingmei and An Ran.

Mu Qingmei has also returned from studying in the hospital, and they are training and guiding in the medical team where Mu Qingmei is. After all, most of them are medical soldiers, and most of them are female soldiers. A set of boxing fighting moves is very easy to learn, and it is also very practical, so they all started to learn together.

Qin Yuan didn't mind either. Anyway, teaching two people is also a teaching and bringing them along is not a problem. This female self-defense technique was found by Qin Yuan when he recovered it before. Because he recovered too many things, he forgot about it. I don't know when I came up with something similar to martial arts cheats.

The women's self-defense techniques here not only have self-defense movements, but also have certain offensive and fighting skills. Without the rest of the show, they are very practical moves, and they are easy to use.

I don't know how to pass it on like this. At first, just a few female soldiers who played well with An Ran and the others came to practice boxing together.

Chapter 817: This is a misunderstanding!

Then the number of people became more and more, from a few people at the beginning to a dozen people, and now there are more than fifty people practicing with Qin Yuan.

"Do you know? The God of War from the special brigade came to our side for training and taught him that boxing method is very practical. If you want to learn it, hurry up and don't miss the opportunity."

"When did this happen? Why don't we know? If it's the martial art of God of War, it must be very powerful. I want to learn it too."

In this way, the news spread. At first, only the female soldiers followed the training. Unexpectedly, some male soldiers also came to follow the training. Qin Yuan could only explain helplessly that

this was a self-defense technique for women, but those male soldiers thought it was the God of War. It's definitely okay to teach it, no matter what women's self-defense is, as long as it can defend itself, and it's taught by God of War, it's good.

More and more people knew about it, and as a result, the entire company here followed Qin Yuan in boxing training, and Qin Yuan's head was getting bigger. Before, he only taught An Ran and Mu Qingmei, but now he has to teach so many people.

In this way, Qin Yuan originally planned to finish teaching in a week, because there were more and more people and more things to manage, Qin Yuan stayed with Mu Qingmei and the others for a whole month.

Mu Qingmei and their leader also praised Qin Yuan, thinking that his awareness is very good, and if he has something good to share with everyone, he can teach his comrades. This spirit is very worth learning.

Qin Yuan was also very speechless. He just wanted to teach his daughter-in-law. He didn't expect so many people to be involved. It's hard to explain now, so I can only say this.

After he went back, He Chenguang and the others looked at Qin Yuan with folded arms and said, "Brother Qin, I heard that you taught them a lot of special moves over there. teaching."

"You also believe that. I have already said that this is women's self-defense, but they insist on learning it, and I can't help it. I just teach An Ran and the others a little basic self-defense. Who knows that the more they spread it, the more exaggerated it will be."

At this time, the emergency assembly whistle sounded, and Qin Yuan and the others rushed to the assembly. It had been a long time since there was an emergency assembly whistle, which meant that they hadn't been on a mission for a long time. After Qin Yuan heard it, he was still very excited. After all, like him Such strong people hope to exercise themselves and express themselves in the task.

Unexpectedly, even Gao Shiwei himself could not explain this mission clearly, because this time he received the mission of international peacekeepers waiting for you. They were stationed in a small country in Alido. There are a total of peacekeepers from three countries performing tasks there.

The international community did not give a clear explanation as to why the evacuation was necessary, but only asked countries to seize the time to cover the evacuation, which made Gao Shiwei feel very abnormal.

First of all, where did their peacekeepers appear, which means that there is war in that country, and they are in a war-torn country, and their peacekeeping mission is mainly to protect those civilians, but now they actually ask to evacuate, and Qin Yuan and his mission are to cover the evacuation, which is why It's very confusing.

"Anyway, you should pay attention to safety when you set off this time, and bring our own team back safely. It is a good thing for the peacekeepers over there to detect it. The war in their country has been going on for several years. Our consumption and sacrifice over there It's also very big."

Qin Yuan nodded and took everyone on the helicopter. The task this time should not be difficult. They have experienced various evacuation operations before. Those expatriates are civilians, and it is still difficult to evacuate them. But this time, What they need to take away are peacekeepers, who have a certain combat foundation, so the task should be very easy.

On the plane, Li Erniu asked suspiciously: "Brother Qin, we will only take away our peacekeepers this time. Are there any local overseas Chinese that we should take away together?"

"There is no need to worry about this one, because that country has always been in a war-torn situation. The internal war in their country has been developing for a year or two, and we have no expats there for a long time."

After hearing what Qin Yuan said, everyone felt that this task was relatively simple. Qin Yuan told everyone not to take it lightly, complete the task well, and go to the hot spring together after everyone came back.

After they arrived at the airport, they had to drive to the local peacekeeping camp. Qin Yuan checked the time. Because of the time difference, it was already 6 pm local time when they arrived, and the sun was almost setting.

However, it was better to evacuate in this dark night. They had just entered the country when they heard the sound of fierce gunfights in the distant city.

Qin Yuan heard these sounds carefully. The weapons used are very mixed. There are all kinds of sounds from assault rifles, submachine guns, pistols, and grenades. This is simply a hodgepodge!

"Brother Qin, is there a war between their local government army and foreign troops over there?"

"It's hard to say. The sound of gunfire is very chaotic. Anyway, it's not a regular army. It's not a big problem. The place we're going should be able to bypass that town. Don't participate in any of their infighting. We'll leave after picking up people. "

When Qin Yuan and the others came to the village where the peacekeepers were stationed, they found that soldiers from the other two countries had already arrived, but they were all wandering around the village and no one entered.

Qin Yuan still felt strange, what was the situation, didn't he just pick up the person and leave?

When the soldiers from the Ba Kingdom saw that it was the soldiers from the Yan Kingdom, they came forward to greet them very enthusiastically. Qin Yuan asked him what was going on in a strange way, why didn't everyone go into the village, did they want to wait for the peacekeepers to come out by themselves?

The captain of Ba Guo frowned and said, "The situation is very urgent now. The villagers are blocking us from going in, and the peacekeepers inside can't get out, and we can't use force. It's really difficult."

The captain of the Yuan Kingdom came over. The captain who led the team looked at the age of those who should be in their forties. He was very calm. He folded his hands and said, "I think we will use force directly. If we drag it on, who will we be punished for?" It's not good for these troublemakers, we can solve it in a few shuttles, take our own people and leave quickly."

When he said this, the captain of Ba State and Qin Yuan immediately stopped him. First of all, this is not in his own country, but in another country, and the villagers inside are all civilians. How could they attack those civilians.

Qin Yuan walked to the front and saw the situation. At the entrance of the village, a group of villagers stood. They held the most crude weapons, sickles, kitchen knives, and hoes in their hands, and looked at Qin Yuan and them aggressively.

The captain of Ba State spread his hands helplessly. He has already said a lot, everyone is just here to pick up people, but the villagers here don't know what's going on, and they don't want to enter, so they just resist with them. To be honest, they arrived Now I don't know what's going on inside.

Qin Yuan looked at these villagers, is there some misunderstanding? He also took other peacekeepers to other places before, and they were very popular with the local villagers. What's the situation?

He Chenguang walked over and said, "I guess they heard that the peacekeepers were about to evacuate and there was no one to protect them, so they made such an aggressive move."

Qin Yuan nodded. He Chenguang's statement is indeed very reasonable. Then he should explain it to these villagers. After all, there is no way to evacuate. Try to pick up his own people before the sun goes down. We will delay here The longer it takes, the more other surprises will arise.

Qin Yuan stepped forward and shouted to the villagers in the local language: "Everyone, please put down the weapons in your hands and let our own peacekeepers come out. We will also take them home. It is helpless to take them home this time." This move, but I believe that the international community will soon protect you and dispatch other resource forces to protect you."

Unexpectedly, at this time, an old man in front suddenly threw the kitchen knife in his hand at Qin Yuan, but because of insufficient strength, the kitchen knife deviated and just fell in front of Qin Yuan's feet. The soldiers behind immediately raised their guns and pointed at the old man , Qin Yuan shook his hand, indicating that he has no problem.

"It's very wrong for you to take such aggressive actions against us. After all, we are also protecting you. This time we will also perform normal evacuation."

Unexpectedly, the old man on the opposite side said with red eyes: "Bah! What are you talking about protecting your peacekeepers? They are just a group of beasts, wolves in sheep's clothing. They killed so many of our relatives, so they want to leave like this. Ha ha, even if we are today All of them died here, and I have to ask for an explanation, is this the peacekeeper you photographed internationally?"

Qin Yuan was very shocked when he heard this. What's going on? Ba Guo and captain Yuan Guo didn't know the local language and just looked at Qin Yuan suspiciously.

"There must be a misunderstanding. Our peacekeepers will never attack your civilians. I can guarantee this."

"You despicable foreigners, I don't trust you anymore. It was because we trusted you too much that our relatives lost their lives. Get the ***** out of here. It's impossible for you to take them away."

Qin Yuan shook his head, it seems that this matter is really unclear, he walked over to the captain of Ba Guo, and they exchanged the information he got.

The captain of the Yuan Kingdom was very shocked. He said with certainty, "This is absolutely impossible. Even if some peacekeepers do something to the local people, it can't be from our country. Maybe it's from two of your countries."

Qin Yuan gave the captain of the Yuan Kingdom a blank look. It's just the beginning, and he actually engaged in sowing discord, and even dumped his own responsibility completely.

"Now is not the time to talk about this. No matter which country's peacekeepers they are from, they have only one purpose, which is to protect the local civilians. I believe that no peacekeeper will attack the people! There must be a misunderstanding."

The captain of Ba Guo also agreed with Qin Yuan's point of view. No wonder they were asked to pick up these peacekeepers to evacuate. They were indeed trapped in the village by these villagers. No matter what Qin Yuan and the others explained later, the villagers would not let them go.

Qin Yuan just wanted to meet the peacekeepers inside and understand the real situation. After all, he only heard the one-sided words of these villagers. What is the truth of the matter? Still have to ask the peacekeepers inside.

The captain of the Yuan Kingdom couldn't bear it any longer. He pulled the bolt of his gun and rushed forward to clash with these villagers. The villagers were not afraid, and the old man also said just now: "You better not mess around, you people But it's in our hands."

Qin Yuan held back the captain of the Yuan Kingdom. There must be a reason for this old man to say this. After all, the peacekeepers also have guns and can protect themselves. But there is no movement from inside, so there must be something wrong.

It turned out that everyone shared a water cellar, and the peacekeepers in it drank the same water as their villagers. These villagers knew that they were not opponents of the peacekeepers, so they drugged the water, and the peacekeepers are now in a coma, so it was controlled by the villagers.

Hearing this, Qin Yuan was a little excited. He asked the old man loudly, if they really wanted to hurt these villagers, they would have shot them in. Why wait until now?

The old man was also a little hesitant at this time. Their various behaviors really did not look like they were going to hurt them. Under Qin Yuan's persecution, the old man revealed the situation. It turned out that just three days ago, the peacekeepers stationed in the village needed to go out and rescue scattered refugees.

Unexpectedly, after a while, these peacekeepers came back, suddenly shot at the people in the village, and killed all the refugees they rescued in front of the villagers. Only then did everyone feel that these peacekeepers were not at all to help them.

Qin Yuan felt a little strange when he heard this. Why did these peacekeepers kill the refugees in front of the villagers? If they were going to rescue the refugees, why didn't they kill the refugees after the rescue? There must be something wrong with it.

"Are you sure they are our peacekeepers?"

"Why can't we be sure that they are all wearing the clothes of those peacekeepers? Behind all of our villagers were scattered, but this is our home after all. When we came back, we found that they dared to stay in the village inside, that's why they were drugged first to make them faint."

"Old man, when I heard you say this, I think you must have been deceived. The peacekeepers who planned to station you in the village must not be the same group of people. Those people may be the militants who deceived you by wearing clothes that were not merged. of."

Qin Yuan has already made a judgment, this one is the closest to the truth, but now those villagers are very emotional, they don't listen at all, they only know that they are the people who killed themselves for the peacekeeping force, so they have to be **** stand up.

After Qin Yuan told the situation here to the captain of the Ba Kingdom, everyone agreed with Qin Yuan's statement, it must be so.

Li Erniu looked at the angry villagers on the opposite side, "Brother Qin, I don't think they can do it like this. After all, these civilians have limited energy. Do we want to go around and see if there are other paths to enter the village? Bring it out and talk about it."

Chapter 818: ?Conflict

Qin Yuan shook his head. It's not that he hadn't thought about this method, but after he went around, he found that the village was indeed like what the villagers said. There had been a war before, and there was a gap wall on the west side.

But now that the gap has been plugged, obvious repair materials can be seen, and there are some traces of bullets and blood around it. It seems that the shooting they said was formed here.

Most of the people in the village went to guard the front, and although the earth wall on the west side of this side could not be repaired, a few villagers were assigned to come here, but they were all children of seven or eight years old, and these children stared at Qin Yuan viciously.

There was no fear in his heart, and he had already guessed that Qin Yuan and the others were with those peacekeepers, and killing their relatives was their enemy.

Just as Qin Yuan brought Li Erniu and the others to the west side to check, a gunshot suddenly came from the front.

"Not good! Didn't I say, don't have any conflicts with these people, who is it?"

When Qin Yuan and the others ran over, they saw that the scene was in chaos. A row of soldiers standing in front raised their assault rifles and shot at the civilians in front. Qin Yuan rushed over to stop them.

The old man who was talking to Qin Yuan just now had been knocked to the ground, and many people behind him were shot by submachine guns. With such a policy, Renqing who was still making noise just now raised his hands and lay on the ground in an instant, not daring to have any more other moves.

The captain of the Yuan Kingdom laughed loudly, "See, this is the most correct way. As I said just now, it should be suppressed by force. Anyway, these unscrupulous people are not good people."

They didn't say that we shot and killed them." They, what we haven't done at all, let them do it now."

"Damn! Are you still a soldier? Are you worthy of your military uniform? They are all unarmed civilians. The weapons in your hands were originally used to protect them, but now they are used to attack them."

Qin Yuan was very angry. He looked down on this kind of people the most. He had no ability and could only vent his anger on these common people. The captain of the Yuan Kingdom was about to explode when the soldiers beside him stopped him.

"Captain, they are from the Yan Kingdom. We'd better not have conflicts with them, as this will have a bad impact on the future."

The captain of the Yuan Kingdom snorted coldly after hearing this, "I tell you, the boy doesn't care about you now, the entire God of War team will come with me, just ours."

Li Erniu looked at those people with disdain, "Bah! What's there to be proud of? At this level, you still call yourself the God of War team. They are a bunch of **** who only attack ordinary people."

Qin Yuan didn't expect that things would turn out like this. Those unarmed civilians saw their relatives being killed, but there was nothing they could do about it. After all, the weapons in these people's hands were something they couldn't afford to provoke, and they all lay on the ground without moving. Dare to move.

Originally, he tried to find a way to solve it, but the matter was disturbed by the people of Yuan Kingdom, and the explanation was even more unclear.

The people's eyes were full of horror, they all pushed back, crouched down with their heads in their hands, and watched them enter the village. The captain of Ba Guo stepped forward and patted Qin Yuan on the shoulder.

"Brother, let's go in first. There is nothing we can do when things get to this point, but at least we can go in now. No matter what, let us go first. They are the ones who caused the trouble, and they were killed by the Yuan Kingdom. of."

Qin Yuan shook his head, he just walked over with the red blood cell team to bandage the injured villagers.

As soon as they walked over, the villagers raised their hands and lay down on the ground begging, "Don't kill us! Please, I still have children at home, I can't fall down."

Qin Yuan could only speak to them in local dialect: "We are soldiers of the Yan Kingdom. Don't worry, we will definitely not do harm to you. Now we just want to treat you. Please trust us completely."

Although the villagers heard what Qin Yuan said, their eyes were still full of vigilance and fear. Everyone in the red blood cell team had received first aid training, and stepped forward to take out their own first aid kits to bandage the villagers.

The power of this submachine gun is still relatively large, and the villagers have no resistance at all. The people standing in front of them were shot and fell to the ground in an instant, and the people behind will also be affected, and the wounds are very large.

After Qin Yuan and the others finished bandaging, they saw Yuan Guo's captain come out with their peacekeepers cursing.

"You are really embarrassing the people of our country. What are the guns in your hands for? They are controlled by those ignorant villagers!"

A peacekeeper shook his head helplessly, "We can't attack them in any way, after all, our mission is to protect them, Captain Jin, I think although you saved us, you shot and wounded these people just now. Villagers, I think this approach is really wrong."

The army commander of the Yuan Kingdom saw that someone refuted him, and he was one of his own. Just now, Qin Yuan refuted him, and immediately glared at the soldier angrily. Get you out, you bunch of trash!"

He clenched his fists after hearing being scolded as trash, but he couldn't do anything about it. The fact is that he was indeed rescued by him. He looked at the villagers who were injured and killed, shook his head helplessly, and rushed at them. bowed.

When walking past Qin Yuan, "This brother from Yan Kingdom, thank you very much for treating them. The people on our side are really rude, so I'm very sorry."

The captain of the Yuan Kingdom couldn't stand it any longer, he came over and pointed his gun at the soldier, "Don't f--- stop talking here, now I'll give you two choices whether to go or not, and I'll kill you with one shot." Here you die for your country."

This peacekeeper is very respectable. Qin Yuan rushed forward and hit Captain Jin on the wrist. The pistol in his hand flew out and landed firmly in Qin Yuan's hand.

Seeing this situation, the soldiers behind raised their guns one after another. Li Erniu and the others were not to be outdone, and the two teams faced off like this.

"Damn! Put down your guns, who told you to point your guns at our captain?"

The captain of Pakistan also hurried over to smooth things over. After all, apart from being neighboring countries, we also have friendly and cooperative relations internationally. Under such circumstances, there should be no more civil strife.

Qin Yuan sneered, and threw the gun back to Captain Jin, "You'd better take care of yourself, you will never end killing these civilians today, get out of here quickly, I don't want to see **** like you."

Captain Jin gritted his teeth, and looked at Qin Yuan viciously. He really wanted to rush up and fight Qin Yuan, but just now he still had the strength of the person in front of him. This kid is definitely not simple. Knowing what was going on, the pistol had already flown out, and now his entire wrist was useless.

"Hehe, let's go!"

The soldiers of the Kingdom of Jin swaggered and drove away, and Qin Yuan and the others also walked into the village to find their own peacekeepers.

There are a total of 16 Yan Guo peacekeeping troops stationed in this village. Now these 16 people are very safe. The villagers just stunned them and imprisoned them, and did no other harm to them.

The captain of this team is called Zhang Jianhua. He just heard the gunshots coming from the door. What he is most afraid of is that Qin Yuan and the others have clashed with these villagers. He breathed a sigh of relief, but when he came out, he frowned when he saw the injured people.

"It's really ironic. I didn't expect that in this situation, we used to protect them before, but now we have caused harm to them."

"There is no way. After all, we are not with them along the way. Now we just do what we can."

Qin Yuan was a little curious. The weapons and equipment distributed by these peacekeepers were relatively advanced, but no weapons and equipment were found when they were rescued. What is the situation?

Zhang Jianhua shook his head and said helplessly: "To be honest, I don't know. When I woke up, they had tied me up in the cellar. However, one of my villagers said before that they seemed to have sold the guns and ammunition to the local people. Armed Forces."

Among the civilians who were injured just now, there were old people and children. One child was crying because of the pain of the wound. The woman holding her tightly covered the child's mouth, trying not to let her make a sound.

Qin Yuan walked over, the woman kept shaking her head and begged Qin Yuan, "Please don't hurt her, she's just a child, I'll let her be quiet right away."

Qin Yuan waved his hand, took out a few fruit candies from his bag and handed them to the child, "Don't worry, I told you just now, we are soldiers of the Yan Kingdom and we won't hurt you. From the beginning to the end, we only Want to help you guys."

The villagers also discovered that this army of the Yan Kingdom was really different. The others didn't care about their lives at all, and retreated after taking their own people with them, especially the team that took the lead before was the culprit.

The woman kept thanking Qin Yuan, she heard Qin Yuan's discussion, and she could still get a rough idea of Yan Guo's dialect, although she didn't hear it completely, but she heard the important information.

"Well, sir, if you want to ask about weapons, that's what the village chief said. We don't know how to use weapons, so we sold those weapons to the local armed forces. They came to protect us and returned them to us. food."

"Haven't the local armed forces been killing your civilians and fighting against the government forces? Why did they suddenly say to protect you?"

The woman shook her head, she didn't know much about these things, she only knew that those people gave them food and promised to protect them.

Qin Yuan gave all the healing medicines on the team members to the villagers, and they had no choice but to do everything they could, and their main task this time was indeed to bring these peacekeepers back to the country safely.

In this way, the car slowly drove towards the airport. Qin Yuan was still quite curious about this incident. He first asked Zhang Jianhua if they went out to perform the mission that day, if there was any other situation?

Zhang Jianhua in the car thought about it carefully, and told what happened that day. A villager came to the nuclear base and told them that some villagers on the outskirts were coerced by those militants, and they were told to rush to rescue them. There are quite a few molecules.

The number of Zhang Jianhua and the others is quite large. The 16 people are divided into two shifts, so they only sent one squad. The same is true for the other two countries. They only sent one squad, so the other squad stayed in the base. personnel.

Zhang Jianhua was the first to go out as the leader of the team. After they went out, they did find the armed force and rushed forward to rescue the kidnapped civilians. Unexpectedly, those armed elements had a fierce conflict with them.

But these militants are very strange, and at this time the refugees they rescued suddenly attacked them, but only snatched their communication equipment, which is very strange.

But Zhang Jianhua knew about it later, because after a while, soldiers from another squad in the base also rushed out.

Zhang Jianhua also criticized the squad leader on the spot, accusing him of why he didn't guard the base in the village, and why did he run out now?

Unexpectedly, what the squad leader said was that teams from other countries also came out, because a villager ran over and told them that Zhang Jianhua and the others had come out to carry out missions, too many of them were surrounded by those militants, and the situation was very dangerous, so he asked him to come out for help.

And when the members of their other teams expired, those militants fled suddenly, without the momentum of the conflict with them just now.

Zhang Jianhua was also in a daze. What is the situation? Anyway, he knows that he has been caught in a trap. There are no refugees at all, but these militants directed and acted on their own. They robbed the communication equipment, It is to keep them from contacting the base, and then find a way to lure the people from the base away.

Zhang Jianhua's first reaction at the time was that these militants would definitely attack the civilians in the village, so he deliberately lured them away, and ran back with the team.

It wasn't until they went back that they found that there was indeed a situation in the village, and several villagers were injured and died. But when they rushed forward to treat these villagers, those villagers showed terrified expressions at them, and all ran back home.

Everyone didn't know what the situation was. No matter what they asked, these villagers ran away quickly when they saw them. They couldn't ask the truth at all. All were found unconscious.

At this time, Li Erniu interjected, "I said Captain Zhang, you are too careless, don't you know that there is a problem with the water?"

"Hey! You don't know the situation here. This country is very short of water, or we built a water cellar for them after we came. We share a water source. At that time, we didn't expect that there would be a problem with the water source."

Chapter 819: Countermeasure

After what Zhang Jianhua said, Qin Yuan has confirmed his conjecture. This is indeed a counter-intrigue scheme by those militants. There is also a reason why the villagers can't tell the difference.

And combined with the time when they attacked the local villagers, the sun had already set at that time, and it was almost seven or eight o'clock. In the dark, the villagers could not recognize whether it was the peacekeepers who had helped them before, and could only be identified by their clothes. , so there was a misunderstanding.

Qin Yuan frowned all the way. He saw the helpless and panicked eyes of those people, and he couldn't change it. What worried him most was that people from Yuan State shot at these civilians. He didn't know what would happen. s consequence.

He Chenguang saw Qin Yuan's worry, and he said comfortingly, "Qin Yuan, anyway, we have already received Captain Zhang, let's go back and talk about it first, Yuan Guo and Ba Guo have already left, so it shouldn't be a big problem."

Qin Yuan nodded. After all the troubles just now, it is already eight or nine o'clock. This is a war-torn country, and the entire road is pitch-black. Only Qin Yuan and his convoy have faint lights on.

Qin Yuan hoped that the journey would be safe and sound. He didn't know what was going on. When they came here, there were constant sounds of fighting in this country, but it was very quiet at the moment.

Qin Yuan stared out of the car window tightly. This night's silence was too abnormal. At this moment, he squinted his eyes and saw a bright light coming from a distance.

"Everyone pay attention to the situation ahead!"

Just as Li Erniu was about to take a nap, he immediately picked up his gun and pointed it out the window, "What! What's wrong?"

Seeing this situation, Zhang Jianhua thought it was a little funny. Qin Yuan must have had too much heart with these soldiers, and even wanted to sleep. This is a war-torn country, and war may break out at any time.

"We are all brothers who were born and died. We have performed many missions, and we are very relieved to leave our backs to everyone and take turns to rest."

Qin Yuan had already seen the sign on the car, "It's a car from Baguo, why are they back?"

Zhang Jianhua looked at Qin Yuan in bewilderment. In such a visible situation, how did he see that it was Ba Guo's vehicle? It was pitch black outside, no matter how he looked, he couldn't see clearly, he could only see how many people were in a car, and he didn't know what the sign was.

Qin Yuan went on to say: "There are seven people on their bus, two of them were injured!"

The members of the red blood cell team have become accustomed to it and trust Qin Yuan very much. Generally speaking, there is no problem with what he said. After all, Zhang Jianhua saw it for the first time and was very shocked. He rubbed his eyes again. How did he do this?

Some couldn't believe it, until Ba Guo's vehicle was completely close, Ba Guo's captain got out of the car, his shoulder was bleeding all the time, and ran directly to Qin Yuan's convoy.

There were indeed seven people, and two were injured. Zhang Jianhua looked at Qin Yuan in admiration.

"Captain Qin, don't go any further. We were ambushed. I took a few brothers and escaped. Most of the other brothers were arrested by them."

"What! Was it captured by the local militants?"

"No! It seems to be their local government army."

Zhang Jianhua immediately said in the car: "This is absolutely impossible. The local government forces are very supportive of us. Is this another countermeasure?"

"Believe it or not, but that's the way it is, and I've been a soldier for so many years, can't you tell the difference between the government army and the militants? It's a well-equipped local force."

But Qin Yuan and the others didn't hear the gunshots, but it's really not the time to talk on the road. Qin Yuan led the Ba soldiers to the dirt road next to them and penetrated into a ruined building.

It turned out that Yuan Guo was in front, and the captain of Ba Guo led the team to follow. They were all going to the airport. Unexpectedly, it was Yuan Guo's car that stopped at first. At the checkpoint, I didn't intercept them when I came here before, and I let them go directly after seeing their state-owned enterprises.

But now they are not allowed to leave. The captain of the Ba Kingdom came down to negotiate and found out that the local government troops knew that they had taken action against the local people, and those government troops were very excited.

After all, no matter how they go to war, it is also a matter within their country. Now that they have taken action against their own civilians, they want to participate in this war.

The captain of Ba State also immediately explained that the killing of civilians was also done by Yuan State, and the attack had nothing to do with them, but those government troops did not listen to the advice at all, thinking that they were all one, and the killing of civilians by peacekeepers before Nothing came to light.

In this way, the two sides clashed, and they were also caught off guard. These government troops were very well equipped, and they were all equipped with silencers. They were also used to raid the enemy at night. In this way, most of them were captured alive. The captain of Pakistan He could only break out of the encirclement desperately, and ran out with a few brothers.

Qin Yuan kicked on the tire next to him, "I said that this time they got tricked again. We absolutely can't do such a thing as killing civilians. Now they have completely angered them, and I feel that this is the local A hole dug for us by the militants."

"I agree with this statement. They just want to use our strength to consume the local government forces so that they can reap the benefits."

The captain of Ba Guo was also very helpless about the current situation, "Captain Qin, what can you do now? Otherwise, if you have more people on your side, take us back together and bring those brothers back."

"No! There must be no more conflicts with them now. This is obviously a trap. Why should we jump into it? Now we just hide and try not to conflict with them. I believe the international community will soon send people to solve it. "

Qin Yuan also immediately contacted Gao Shiwei to explain the situation here. After all, the situation is urgent now, and they must send a professional negotiation and reconciliation expert to talk about it, because this matter is full of doubts from beginning to end.

Now everyone is in a stage of mutual distrust. Gao Shiwei also told Qin Yuan that they must not have any conflicts with the local government forces.

Soon the international side sent negotiating experts, and formed a special investigation team to conduct a thorough investigation of this incident, but the local government forces did not accept this at all, and they no longer believed in these people.

"Shut up your hypocrisy! Talk about helping our country, but look at what you have done to hurt us time and time again."

Qin Yuan didn't expect the local government to become tough, but he also admired that these government troops and local armed forces have been fighting for so many years, but once other countries participated in this dispute, they immediately stood on the side of their own people. .

Qin Yuan and the others hid in the ruins for a night. Nothing else happened that night. At dawn, they received bad news. The negotiators sent by the international community were also detained by the local government forces.

"What's the situation? They are such a small backward country with frequent wars, and they want to make an enemy of the world?"

Qin Yuan shook his head, "It may be that they can't see hope in the end. After all, they have been fighting for so many years. No matter what, they will not take advantage of outsiders. This time it seems that things are not small."

Although some soldiers from Ba and Yuan were detained, and there were also experts who came to negotiate, the international community cannot wage war against this country, otherwise many factors will be triggered. After all, most countries do not want war. Peace is the most important thing, and if you can negotiate, try to negotiate successfully.

Qin Yuan planned to negotiate with the local government army in person, so he asked Li Erniu and the others to stay here. When he came back, the members of the red blood cell team believed in Qin Yuan's ability and said that there was no problem, but Zhang Jianhua quit. It's just nonsense, what can he do by himself?

"I know you're impatient, but you're only going alone now. The risk factor is too great. If you can't, give me a gun too. Our two captains will go and keep their team members behind."

"Hey! Captain Zhang, don't worry about letting Team Qin go. He's fine. We'll be a drag on him if we go too many people. Just wait here for his good news!"

The captain of Baguo is injured himself now, that is, when he seeks shelter from Qin Yuan and the others, he must not be able to speak, so he sits obediently on the ground. Anyway, he cannot and will not participate.

Zhang Jianhua has always insisted on going with Qin Yuan. As the captain, he understands Qin Yuan's mood to protect the team members, but it is too dangerous for him to go alone. Qin Yuan found that he couldn't make sense with this Zhang Jianhua. Brain, too stubborn, planned to leave first.

Zhang Jianhua didn't expect Qin Yuan to turn around a few times, directly climbed over the 2-meter-high ruin wall, and jumped out like that. He hurriedly chased him out, but Qin Yuan was no longer in sight.

I go! Is this person so fast? It took less than a minute, how come the person disappeared after running out.

He walked in dejectedly, and found that Li Erniu and the others had arranged a sentry post, and asked their peacekeepers to rest first. Zhang Jianhua smiled. He had always been protecting others before, but now he was protected by others, and he felt a little uncomfortable. Habit.

However, Qin Yuan's soldiers are indeed very strong in combat. The captain is the same when he is gone, and everyone can even be used as an on-the-spot command. This team is really very strong. He saw Yan Guo. hope.

Li Erniu came over and said to him: "Captain Zhang, just come over and have a good rest. Brother Qin is absolutely fine, and he will definitely do what he said."

After Qin Yuan ran out, he ran wildly along the road. He threw the assault rifle behind his back, and then accelerated to run forward. His current speed was comparable to that of a small off-road vehicle.

After a while, he saw the checkpoints set up by the government troops in front of him. Before, he was worried that these government troops would round them up, but now he realized that these government troops did not have many troops. Now their main force is to reach the front, and he is also worried about other troops. The country suddenly went to war against them.

The soldiers at these checkpoints are also very clear that the people from Yan Kingdom have not come to show that they are still in the city, but they are not in a hurry to find them. After all, this is the way out of the city, and they will definitely go from here.

The checkpoint intercepted by the government army here is very long, blocking the entire road. If you want to go around, you can only go from the cliff next to it. The cliff is very steep, and they didn't expect Qin Yuan to rush down from it. .

Qin Yuan rushed up this small cliff in one breath, these things were a piece of cake for him, seeing the soldiers below were still talking and laughing, he didn't notice Qin Yuan at all.

Qin Yuan followed the local government army to their temporary office. The local government building was dilapidated. After so many years of fighting, they moved around. At this time, he looked at a tent surrounded by heavy soldiers. Their leader It should be inside that tent.

Qin Yuan looked at the time, and it was not easy to conflict with them now, so he waited until it was dark and sneaked in while the light was dim.

The red blood cell team is still not in a hurry. It's time to eat and eat, and take turns to rest. Zhang Jianhua can't sit still. It's getting dark. I haven't seen Qin Yuan back yet. Could something happen?

Seeing that the soldiers were not in a hurry, he was also a little speechless. Could it be that they believed in Qin Yuan's ability so much?

It was getting dark at this time, and Qin Yuan, who was lurking under the car at , saw an opportunity. After dark, they still didn't turn on the lights. After all, turning on the lights in this situation would expose the target, even though I don't know what's going on, but the local armed forces haven't clashed with the government forces these days, but it's better to be careful.

At this time, a soldier standing by the tent felt a gust of wind blowing the tent, and he vaguely felt a figure, but seeing that no one else responded, he wondered if he was thinking too much.

The tent was tightly wrapped, and a weak desk lamp was lit inside. A middle-aged man was sitting at his desk, looking at the documents.

Qin Yuan walked over slowly, stood in front of the middle-aged man and said, "Dear Mr. President, good evening!"

The middle-aged man screamed in fright, but Qin Yuan's speed was very fast, he rushed up and covered his mouth with a stride, he was very shocked, how did this man get in, he was surrounded by heavy soldiers outside, and he even knew about himself identity of.

"Mr. President, don't be so nervous. If I really want to kill you, those people outside won't survive tonight. I'll just kill you tonight. There's no need to sneak in like this. I think we can talk."

Chapter 820: see

The president looked at the man in front of him in surprise, and asked tentatively, "Are you a soldier from the Yan Kingdom?"

Qin Yuan nodded, "Although he spoke to the president in the local dialect, he is still wearing a team uniform and has the national flag of Yan State on his arm."

The president instantly understood Qin Yuan's destination, and he must want him to agree to let the Yan Guo soldiers go there.

"Let's do this! Regardless of whether you did the previous thing or not, I will let your people go, and I will do what I say."

The president actually looked at the man in front of him, and still wanted to negotiate terms with him, to ease his emotions first, and he didn't know if Please Yong would attack him suddenly. This man can bypass so many guards and enter the tent. Certainly not low.

And to be honest, he didn't catch any Yan country soldiers, so they had the conditions to negotiate and let them go directly.

Unexpectedly, Qin Yuan directly refused.

"No! Didn't I ask for our release?"

"Do you want me to let everyone go? I can't meet this condition. First of all, those people killed our country. We will also investigate Guo. It is true that they shot our people. This matter is for sure. It's not over, you have to know that as a president, I must ensure the safety of my people."

"Mr. President, I am not asking you to let us all go, but I want to investigate the truth. It is true that the soldiers of the Yuan Kingdom shot at your civilians today. They did not handle it correctly, but the peacekeepers shot and killed the civilians before. This matter must be investigated clearly."

The president looked at the man in front of him and felt a little strange. Is this man crazy? He offered him such a good condition and promised to let people from their country go. Why did he still want to get involved in this dispute?

The president frowned, he was a little hesitant, could this person be plotting against their country's internal affairs, what is the truth of the matter? Now everyone doesn't need the truth of the matter, and more importantly, they only need to get the result.

"I know you have other worries, but I will do what I say, and I will definitely investigate the truth of the matter. I don't want our country to bear these grievances."

"This matter is not good. I have to think about it first. If you said that the establishment of the investigation will do other things to us during the investigation."

"Mr. President, to put it bluntly, if I really want to make a move, do you think there is still a chance to sit here and talk to me now? The purpose of my investigation is just not to want our peacekeepers who were here to perform missions to die in vain. They have always insisted on The people I protect, I want justice for them!"

This really reminded the president that those peacekeepers were very helpful to them before, because they had a civil war and the militants attacked them. At that time, he had no time to take care of civilians, and these peacekeepers came to help them.

When he found out about this incident, he was quite shocked, because he did not believe that the peacekeepers would do such a thing to civilians, but he had already photographed the team investigating the civilians in the early stage, and what he said was indeed what he saw with his own eyes.

Qin Yuan said that he was dismantled. He very much suspected that the local armed forces wanted to sow discord and use international forces to wipe out the government forces.

"Okay, think about it for yourself! During this investigation, I don't want your people to take action against us, but I will not let any of the militants who framed and hurt us."

The president was shocked by the aura of the man in front of him. Although it was only a few words, he spoke so righteously.

"Okay, I promise you, I will not shoot you during this period, but I can only give you a week, you must know that I have a lot of things to consider in this position, and I also want to give my soldiers a Confession."

"One week is enough, so it's settled!"

Qin Yuan was actually blocking him, because the president could have sent outside soldiers in to arrest him at this time, but the president didn't do that. He just looked at Qin Yuan and said, "I'm curious about how you got in."

"Well, look at the window on the right."

After the president finished listening, he turned his head and looked at the tent window on the right. There was indeed a small ventilation window there, but how could it be two palm-sized ventilation windows, and people couldn't get in at all.

Suddenly he felt a gust of wind, which seemed to blow up the curtain of the tent. When I voted, I found that the wish was gone. He ran out quickly. The soldiers outside looked at the president nervously and asked: "What's the matter, President?" gentlemen?"

"No, no!"

This person's speed is really too fast, he looked at the heavy guards outside and fell into deep thought, if he really came to investigate the truth, then he hoped to give him a satisfactory truth, and this person's ability is really not good Low.

He also hopes to use this person's hand to solve those militants. After all, the current internal strife has put the country in jeopardy, and it is almost unbearable.

Just because the strength of this person was indeed very strong, he was a little thankful that he didn't call the guards in just now, otherwise, as he said, none of the people here would be his opponent.

At this time, Li Erniu, who was inside the ruins, heard the movement. He picked up the sniper rifle and pointed it outside. It is not known if it is the enemy.

"Everyone, don't sleep! Be vigilant in case of a situation."

The captain of Ba Guo was very nervous and quickly got up. Everyone looked in the direction of the sound of footsteps outside. Unexpectedly, it was Qin Yuan. He just came back intact.

"Brother Qin! You are finally back."

"Well, did anything happen while I was gone?"

"Everything is normal! How is your negotiation going?"

Qin Yuan talked about his negotiations with the president, and the captain of Ba Guo next to him was completely shocked. How could this be possible! It's not that he doesn't believe in Qin Yuan, but that the guards in that place are very strict, how did he get in, and how he convinced the president.

He looked at the time, this person is too exaggerated, how did he do it, because according to his suggestion, if Qin Yuan didn't have a car, it really wouldn't work, it would take at least two or three hours, so Qin Yuan Also come back when it gets dark.

What he didn't expect was that Qin Yuan had rushed to that place long ago, but because he wanted to lurk in, he waited until dark.

Qin Yuan immediately made an investigation plan. Now they need to go to that village first. He thinks that the group of militants who sell weapons to those militants is very problematic. Secondly, in the place where the peacekeepers fought for the first time, Surely traces of those people can be found.

Zhang Jianhua also said very positively that he was there at the time, and he could guarantee that he had not hurt any civilians, and that it was a trap, and the so-called rescue of those refugees was just an excuse.

Qin Yuan looked at the soldiers of Ba State, "Are you waiting for us here, or do you want to act with us?"

"I admire Captain Qin's ability very much. We will definitely follow you and offer our strength."

Qin Yuan nodded. Anyway, there are many people and strength. He is new to this place. The errand work allows them to solve dangerous things by themselves.

The captain of the Ba Kingdom also wanted to bring his soldiers to witness Qin Yuan's strength with his own eyes, so everyone set off.

When Qin Yuan and the others rushed to the village, the villagers were very scared when they saw them coming back, and refused to come out of the closed gate. Qin Yuan could only patiently explain that he was here to investigate the truth.

But no matter what, those villagers didn't believe them at all, because Qin Yuan knew the local language. In order not to waste time, he first asked the whereabouts of those militants in the village, and asked Zhang Jianhua to take the soldiers from Ba to see what happened before. Where there is war, can we find traces of those criminals escaping?

Everyone moved separately, and the villagers inside saw that only Qin Yuan and the others were left. These few people had treated them before, and Qin Yuan was also persuading them earnestly. He really wanted to tell everyone the truth.

"I know that what happened in the morning is a great harm to you, but first of all, I didn't shoot you, and there must be something strange about the previous things. You should understand the meaning of these peacekeepers to you better than us. They They will not attack civilians at all."

At this time, a man came out with a bandage on his head. Qin Yuan remembered that his child was also injured at that time, and Qin Yuan even gave him all the food on his body.

The man came out and said loudly: "Come on, everyone, I believe they are not bad people. Now that the village chief is dead, I also want to know the truth of the matter. Aren't you curious?"

It turns out that these villagers are also quite suspicious, but the biggest one in this village is the village head. They can only listen to what the village head says, and in this war-torn era, people just need to survive.

Qin Yuan asked him to tell him what happened. The man only knew the general situation. Anyway, the village chief contacted those militants, and they promised that as long as the people in the village guarded these peacekeepers, they would send them Food for a week, and keep them safe for the rest of the year.

"Do you just trust the militants who attacked you before?"

"Hey! There's nothing we can do about it. Although they are local militants, we are all from the same country after all, and the village chief decides what matters, so we can only follow him."

Originally, they also trapped these peacekeepers according to the requirements of those militants, but they did not expect to kill Qin Yuan and the others halfway. Those militants were very sure that even if someone came to rescue these peacekeepers, they would not attack them civilians.

It's just that he didn't expect to meet a group of unreasonable people in the Yuan Kingdom. That's how the accident happened, and the village head was killed. This man only knew that the armed leader who the village head sold the gun to was called Yabixi, the largest in the area. militant leader.

How could the leader of the biggest militants in the area speak out to protect their safety? These people want to be as messy as possible, so there is definitely a problem.

The villagers also had doubts, but the village chief's order was unquestionable. They also regretted doing such a thing. After all, these peacekeepers had helped them before, and the man knelt on the ground and cried loudly.

"Some things we really can't help. I am very grateful to your peacekeepers. At that time, my wife was seriously ill. We didn't have the money to go to the local hospital for treatment. They helped my wife to see a doctor. But in this war-torn area we There is no way."

Qin Yuan pulled the man up and reassured him that he would definitely report this account and investigate the truth of the matter.

After knowing about Abizi, the man told Qin Yuan the general location of these militants. Abizi's main purpose was to capture the city, because the resources in the city are the best. After they entered the city, they burned, killed and looted everywhere. A town to the west.

But the news that the man knew was also heard three months ago. He only knew that Yabizi and the others were lurking there, but he didn't know their specific location, which was not something that ordinary people should know.

Anyway, now that he has at least a little information, Qin Yuan plans to go to the towns to the west to see if he can find that Yabixi better.

Now Qin Yuan took the members of the red blood cell team to join Zhang Jianhua. He got the news from his own side, and after talking to Zhang Jianhua, he wanted to see his reaction. After all, they were performing peacekeeping missions here. He should somewhat familiar.

"I know about Abizi, but they are very mysterious. Our mission was to protect these civilians before. cannot investigate them."

However, the investigation results of Zhang Jianhua and his side also showed that the militants fled in the direction of the western town.

This war-torn country finally has a sliver of peace. The people pray for this peace to last forever. They don't want to hear the sound of guns and guns again.

At this time, Yabisi was resting on the bed. He had already told all the team members not to act without authorization, and to cease fighting for the next two days. This was originally his conspiracy. Let those people fight with the government forces first.

Qin Yuan and the others rushed to the town to the west, where the lights were brightly lit and all of them were occupied by those militants, and seeing that their equipment was really miscellaneous, including light guns and heavy machine guns, new and old, Qin Yuan and the others climbed to the opposite ruins On the building, looking at the situation in the city, there are even small earth cannons.

Recommend an app, which is comparable to the old version of the book chasing artifact, and can exchange all source books for \Mi\Mi Reading\\!

This kind of thing has been eliminated by Yan Guo many years ago and is useless. I didn't expect it to appear here, but it also shows that they have indeed run out of ammunition and food, and they have begun to use all kinds of weapons.

This kind of small earthen cannon is relatively powerful, because its lead wire is relatively short, and the firing time is relatively fast. It is precisely because of the short winnings that it is easy to cause damage to your own side, but the damage to the enemy is also relatively small. bigger.

These militants are relatively organized. They are indeed the largest militants in this country. They are very organized. Even if there is no war, they should still be patrolling. They are divided into several teams.
