

Special Soldier 821

Chapter 821: take away

The captain of Ba Guo asked: "Captain Qin, what are your plans now? Are we going to get rid of all these people?"

"Hehe, remember that we are only here to investigate the truth of the matter, and we are not involved in their country's war. Their president really hopes to use my hands to eradicate these people, but it depends on whether I am willing or not."

It's not that Qin Yuan is indifferent, but that the internal war inside is too complicated, he doesn't want to get involved, to be precise, he doesn't want to get involved in Yan Guo, and he is representing Yan Guo outside.

This is why Gao Shiwei let him make the decision so reassuringly. He knew that Qin Yuan was a very intelligent person and would not affect his emotions because of anger. Even if he was wronged again, he still had the right consciousness.

"Two cows! Yanbing! The two of you are in charge, one on the left and one on the right to deal with the headlights in front, and the soldiers under the lighthouse. The heavy machine gun firepower in front of Gong Jian depends on you."

The captain of Ba Guo was a little surprised, and hurriedly stopped him: "Captain Qin, you have confused me, what do you mean? What you just said is wrong, they launched a war, and they haven't found us now, so we can Lurk in."

"What I mean is that I don't want to wipe them all out. You must be covering me, and then you ask me to sneak in on the periphery. I just need to find the leader of the team, is it that Yabisi, and then put that Just bring the **** in front of their president."

Qin Yuan actually wants to act alone again. This time, he is not simply lurking inside those government troops, and once they shoot, they will expose himself in advance. How Qin Yuan can lurk in is too difficult. Bar!

Zhang Jianhua had no doubts about Qin Yuan's order, and now he believed in Qin Yuan very much. No matter what decision he made, he had his own reasons.

The captain of Ba State hesitated a little. At this time, he was really not at ease, and put his life in Qin Yuan's hands. Once they fired on the periphery, all the militants rushed out. The number of them was dozens of times that of them. The risk is simply too great.

His team members all believed in him unconditionally, but they really couldn't do it. Qin Yuan saw his hesitation, which is also human nature, because in this case, he must first ensure his own safety.

"It doesn't matter. After all, everyone has their own ideas. You can retreat 100 meters away and wait for us, but can you lend your guns to our team members first?"

Because Zhang Jianhua and the others don't have weapons now! The soldiers of the Eight Kingdoms looked at Qin Yuan. Now that he handed over his weapon, he would be completely protected by Qin Yuan and the others. Can he trust this person?

Ba Guo's captain thought for a while, then sighed heavily, let it be like this, let their stronger people fight, this weapon is useless in their own hands, just trust Qin Yuan once.

After they handed over their weapons, they began to retreat, and they were a hundred meters away. After all, the risk was really great.

Then they acted according to the plan, and the two soldiers on the lighthouse were dealt with by Li Erniu and Wang Yanbing almost at the same time. The door suddenly fell into darkness, and the heavy machine gunner at the door was also killed by Gong Jian.

Qin Yuan and the others also caught them by surprise. However, these militants are not vegetarians. After all, they are very experienced in fighting the government forces for so many years and respond quickly.

But at the moment when the lights went dark, Qin Yuan had already arrived under the city gate. Now as long as they come out to fight back, he can take advantage of the opportunity to run in. Originally, he also wanted to sneak in quietly. The problem is that this side is already armed. The only entrance and exit is this gate, and he has no choice.

To be honest, he didn't want Li Erniu and the others to take risks with him, and he also wanted to solve it by himself, but at this time, he really needed to rely on the team to complete it faster.

Because the range of the sniper rifle is relatively long, the militants in Li Erniu's position need to go out of the city before they can attack them.

The militants inside the town immediately raised the alarm and gathered everyone.

"Assemble urgently, someone has invaded!"

After hearing the movement, Yabixi quickly got up from the bed. What's the situation? Is it the government army? They launched an attack, probably not, since they are so strong, the government troops have come to break through several times before, but they all ended in failure, and the damage was very heavy.

Could it be that they discovered something, so they suddenly attacked themselves?

At this time, the peripheral subordinates quickly came in to report. They didn't know who was attacking them, but after finishing their heavy machine gunner and the lighthouse at the door, there was no movement.

"Grandma! These people are really tired of life. I told them to stop for a few days and have a good life, but they still have to come to find death in advance. Send an order to let the brothers go out of the city to fight back. I really don't dare to do it. !"

The heavy machine gunner at the door has been dealt with. Qin Yuan picked up the heavy machine gun and quickly threw it in front of Li Erniu and the others. What they lack most now is indeed a weapon. Zhang Jianhua was even more surprised when he saw Qin Yuan's speed. It's too dark to see clearly, but Qin Yuan's speed is too fast.

After throwing the heavy machine gun, Qin Yuan turned around and jumped back to the edge of the city gate. As soon as he came to the edge of the city gate, the gate of the city gate was opened and a small group of armed men rushed out with submachine guns.

Taking this opportunity, Qin Yuan ran in sideways, because these militants were attracted by Li Erniu and the others, so he didn't notice Qin Yuan who was lurking in after he came out.

Qin Yuan was running around in the city. There were militants everywhere. He followed the wall and used the shadow under the wall to quickly hide and hide himself. Gun yelled, "Who! Stop!"

Before they could shoot, Qin Yuan quickly threw a few throwing knives, killed them quickly, and then dragged the corpse into the alley next to him. He didn't want to be discovered so early, otherwise he would have lurk in for nothing.

And the most important thing now is to hurry up, Li Erniu and the others are still confronting these militants, and now they have to resolve it quickly, otherwise the longer it drags on, the more dangerous Li Erniu and the others will be. The most important thing is the issue of bullets.

Qin Yuan turned around blindly in the city. The place was too big. He grabbed a militant casually, put a knife on his neck and asked, "Where is Abissi?"

The controlled militant pointed at a building in front of him with trembling fingers, "Abisi is in that building, you, don't kill me."

As soon as his words fell, Qin Yuan directly slashed his throat, and blood gushed out instantly.

He quickly ran towards the militant pointing at the building, and he killed all the way upstairs. These people were killed by him quietly. At this moment, Yabixi stood at the window with a telescope to observe the situation outside the window.

But it was too far away to see what happened clearly. He paced back and forth anxiously in the room, then put away the binoculars, and planned to go out of the city to see for himself.

The moment he opened the door, a figure stood in front of him, and Qin Yuan kicked him in the chest, kicking Abixi into the room.

"You ***** court death! How dare you come to this place."

Yabixi quickly took out the pistol on his waist and shot at Qin Yuan. Several years of combat experience allowed him to take out the safety of his pistol at any time and shoot immediately.

Unexpectedly, Qin Yuan dodged his bullets by turning around a few times, and kicked his pistol out of the window with a kick on the wrist, and then kicked Yabixi to the ground.

Although Abissi was lying on the ground, he was very unconvinced and had a fierce look on his face. He didn't know how this person got in, but this person challenged his bottom line and shot him in this place, and what did his subordinates do? What's the matter, are they all dead?

He still remembered the gunshots outside, and he knew that this person must have sneaked in, so he immediately shouted: "People outside, are you dead? If you can't hear such a loud noise, hurry up and save me!"

Qin Yuan sneered and stepped on his back, "Don't waste your energy screaming, I have already killed all the guards in your small building!"

"Impossible! They are all my most powerful guards, how could they all be killed by you?"

After a while, there was no movement outside. Only then did he believe that everyone in this small building had been dealt with by Qin Yuan. He looked at the man in front of him in horror. This man was too strong, right? ! How it came in quietly.

"Do you want to participate in the internal strife in our country?"

"No, I'm not interested in any of your wars. It's just that you violated my bottom line. You are responsible for those peacekeepers!"

Yabissi rolled his eyes, so it turned out that this person came because of this, and this matter must not be said, it was also his own plan, and it would not be good for him if he really said it.

Qin Yuan shook his head, "It seems that you really didn't see your position clearly. Now your choice is the only answer for me, otherwise you have no chance of surviving. I'll talk nonsense with you here."

Qin Yuan mentioned that Yabixi fell over his shoulder and smashed him directly on the coffee table next to him. He clutched his chest in pain, but before he could recover, Qin Yuan quickly kicked him to the opposite side on the wall.

Qin Yuan walked over, lifted Yabixi easily, and squeezed his neck tightly, "My patience is very bad. You did all these things. If there were no such things, I would have gone back a long time ago. gone."

Coughing, Abissi begged Qin Yuan not to fight, and just like that, he told what happened, and it was indeed those peacekeepers who were pretending to be militants, just as Qin Yuan guessed.

Let me add a word, it's really good, it's worth pretending, after all, there are many sources of books, all books, and fast updates!

Qin Yuan found a rope to tie Yabissi up. He wanted to bring this man to the president and ask him to explain to the international community that their peacekeepers had never done anything to harm civilians, and they would not do it. Its mission is to protect civilians.

Abixi backed away in great horror. He kept begging Qin Yuan not to send him out. He is the leader of the armed forces here. It took so many years to achieve this position, and he didn't want to give up easily.

Qin Yuan didn't care about these things at all. For a boss like him, even if Yabisi died today, another boss would immediately come out to take his place. This is war, and what Qin Yuan needs now is an explanation of the truth.

"Well, as long as you don't send me out, with your ability, after we work together, what about half of the country's resources?"

"I said I'm not interested, so leave these things to yourself! And I don't want to participate in your so-called war. It's your own business to fight and rob as you like."

Abixi looked at the person in front of him and shook his head, "No, you can't go out at all, even if you lurk in, but the people on my side are not vegetarians, I'll see how you take me out, if you choose to be with me If I cooperate, I will also offer you generous conditions."

Qin Yuan really didn't want to hear this man twittering and knocked him out with a punch, and then carried him on his back. This time, Qin Yuan went out in Yabisi's car openly, and the militants in the fleet didn't know Their boss has been knocked out at this moment, but after seeing the boss's car, they all moved away.

At this time, the city gate was closed, and Qin Yuan asked the guards at the side gate to open it for them.

The guard looked inside the car curiously, only to see Yabixi leaning against the co-pilot with his eyes closed, he was a little surprised, why the boss didn't speak today.

Qin Yuan roared loudly: "Are you idiots still delaying the boss? He is going out to command the battlefield now, so if you don't want to die, open the door!"

The guard soldier was stunned by the scolding, quickly ran over to open the door, and kept apologizing, this is indeed the temper of the people around the boss, those people are very tempered, let them go quickly.

Li Erniu was fighting with those militants, and their bullets were almost out. Wang Yanbing asked loudly, "How many bullets do you have left? I only have two magazines now."

"What! I only have one magazine!"

"It doesn't matter anyway, even if you run out of bullets and go shopping with them, you will have to fight until Brother Qin comes out."

At this time, Gong Jian suddenly saw Qin Yuan coming out of the city in a car, "Brothers hold on for a few more minutes, Brother Qin is coming out!"

As soon as they finished speaking, the militants in front fired their cannons at Li Erniu and the others. In an instant, two shells quickly hit Li Erniu and the others.

"Hurry up, everyone, this kind of earth cannon is very powerful!"

The fuse of this kind of earth cannon was also very fast, and an explosion occurred in an instant. A peacekeeper on Zhang Jianhua's side had a leg broken in an instant, and was crying loudly. Li Erniu rushed up and pulled him over.

I go! The power of this earth cannon is too great! They are comparable to mortars, everyone pay attention to safety, we are ready to evacuate.

Qin Yuan was also behind, took out a grenade from the car and threw it at the soldiers behind, and it exploded instantly.

Chapter 822: ???Unconditional trust

The soldiers didn't react, how could someone attack them from behind? Qin Yuan crouched in the car, pulled out the brake of the car, grabbed Yabixi, and jumped out of the car from behind. The car rushed straight towards the soldiers just now.

The soldiers started to scatter in all directions. Qin Yuan quickly picked up the submachine gun behind him and aimed at the fuel tank of the car. An explosion occurred instantly. Taking advantage of this explosion, he retreated with Yabisi and the red blood cell team.

Qin Yuan threw Yabixi to Li Erniu and asked them to take the boy with him. He hurried to see the injury of the soldier whose leg was broken just now. Because there was a large artery in the leg, the soldier had already suffered from excessive bleeding. In a coma, his face was pale, and he was hanging with only one breath left.

Zhang Jianhua squatted beside him, his eyes were red and tears were streaming down his face. He didn't know how many times he had watched his brothers and soldiers perform those dangerous peacekeeping missions before dying in front of him. Some people died, but this time they were obviously able to evacuate gone back.

Everyone thought they could go home, but they didn't expect that he was still injured under such circumstances. Zhang Jianhua looked at the blood-soaked soldier and silently lowered his head. This was the doomed ending. This soldier would not survive them to get out up.

Qin Yuan pushed Zhang Jianhua away to check on the soldier. The most important thing now is to use acupuncture to stop the bleeding. As long as the bleeding is stopped, he can live without a leg.

But in this situation, the militants in the city rushed out one after another. Wang Yanbing and the others have been struggling, and they are almost out of bullets.

"Captain Zhang, trust me, I can save him."

Zhang Jianhua shook his head. He didn't want the rest of these brothers to continue to take risks here and sacrifice their current situation. There is no ammunition and there are so many militants inside. Double he can't do it.

"Captain Qin, forget it, take him with you, let's go, the situation is too dangerous now."

When Zhang Jianhua said this, his voice was already a little choked up. He patted the soldier on the shoulder. Even though he was in a coma, Zhang Jianhua still insisted on saying: "Brother, I am not the captain. I don't want to save you, but there are still so many Duo brothers here, I hope you can understand my good intentions."

At this time, the bow and arrow were also injured, and the firepower on the other side was too fierce. There was no other way. Qin Yuan had no choice but to let Gong Jian retreat first. He didn't want to have too much conflict with these militants, but now he had no choice.

Let's talk about the later things later, let's solve the immediate crisis first, Qin Yuan quickly took out the silver needles, and first inserted a few needles to stop the bleeding from the wound, otherwise, if the bleeding continues like this, within a few minutes, this person will really die 's dead.

Then he's going to go out and deal with those militants.

"All of you pay attention to cover me first go out and deal with these people who rushed out, and then leave quickly."

The members of the red blood cell team cooperated very tacitly. They knew that Qin Yuan was very confident in what he said, and he would definitely be able to solve it. Then they quickly sorted out the remaining ammunition and took out gauze for bandaging. Zhang Jianhua was dumbfounded. How could this be possible? Let your captain rush out alone?

Just now they agreed to let the captain go in alone. He was already very surprised. He didn't expect that under such a situation, with such heavy firepower, he just went out with a submachine gun. Couldn't his team members be responsible for the cover?

Zhang Jianhua shouted loudly: "I said what's going on with you! Your captain is going shopping outside, aren't you in a hurry?"

After Zhang Jianhua finished speaking, he was going to follow Qin Yuan's footsteps and rush out, because Qin Yuan's speed was very fast, he jumped out after he finished speaking, at this distance, he first used a submachine gun to knock down all the enemies in front of him with heavy firepower, and then turned around and rushed in front of those people, quickly using the throwing knife skill.

Li Erniu and Wang Yanbing rushed forward and pulled Zhang Jianhua down, "Captain Zhang, let me tell you, you'd better not make trouble for me now, our captain will definitely come back safely,

there is no problem with him alone, but if you continue to make trouble like this, if he has any problems, we can fight you desperately."

"Fart, are you guys treating your captain like this?"

Li Erniu was a little annoyed by hearing this, so he knocked him down with a punch, and the peacekeepers next to him rushed up immediately. Li Erniu only hoped that he would calm down quickly, as each of the team members had injuries to varying degrees, and even more so. The important thing is to trust Qin Yuan. Because it is the first time they cooperate, they still lack relative trust.

Seeing this situation, Gong Jian quickly stood up, his arm was bleeding continuously, and said in pain: "What's the matter, brothers, is there really going to be internal fighting? In this case, we are all Family, I can understand that you are worried about our captain, but I also ask you, please believe us and trust our captain."

Zhang Jianhua sighed deeply. There was nothing he could do now. After all, there were many wounded here. He picked up the bandages and quickly treated the wounds, hoping that Qin Yuan could really hold them back.

Those militants only saw a figure jumping out from the opposite side, and then countless people fell down. This man's throwing knife was too accurate, and his speed was also very fast.

"Damn! Hurry up and target you idiots!"

"No, this is a monster. You can't hit him at all. Where did he go?"

As soon as these people finished speaking, Qin Yuan threw a few throwing knives directly between their eyebrows. After a while, the other side became quiet. Zhang Jianhua felt that something was wrong. Did Qin Yuan have already been defeated? He hurried forward to find out, but Qin Yuan walked over slowly with a few submachine guns.

That small group of people just now has been dealt with by him, this is too exaggerated! Zhang Jianhua looked at the fallen body in front of him in disbelief.

"Captain Zhang, don't be in a daze. Go over and inspect those guns yourself. You stay here for five minutes. Give me five minutes. I will save that soldier and we will evacuate."

You Erniu and Wang Yanbing have already rushed forward to clean up the battlefield. Before those militants came out, what they lack most now is ammunition. Now that the ammunition problem has been solved, Qin Yuan will definitely be able to buy these five minutes.

It's really good to advertise, it's worth pretending, after all, there are many sources of books, all books, and fast updates!

"Two cows! Find a way to get a car, Yan Bing, and you will be responsible for breaking the rear later!"

"Yes!"

Qin Yuan ordered everyone to act in an orderly manner, and quickly formed an attack formation. Zhang Jianhua silently gave a thumbs up beside him. Sure enough, the special forces team is different. He also questioned his ability. Look at the tacit understanding, This reaction is too fast.

Many militants ran out of the city, but they were suppressed by Gong Jian's firepower. Qin Yuan didn't waste any time, and immediately came to treat the soldier. At this time, he had to keep his energy and not be disturbed.

The soldier's situation was more dangerous than Qin Yuan had imagined, which meant that he needed to spend more energy. When Qin Yuan pulled out the needle, his hands were already trembling, and he breathed a sigh of relief.

Zhang Jianhua also saw that the soldier's face had gradually returned to normal. Although he was still in a coma, he should be out of danger.

"Okay, he's fine, let's retreat!"

Li Erniu also drove a bus and asked everyone to get on the bus quickly. Wang Yanbing acted as a sniper to suppress firepower. With the cooperation of the red blood cell team, everyone got on the bus in an orderly manner.

As soon as the vehicle drove about 200 meters away, the soldiers of Ba State rushed up and waved at them. Qin Yuan told them to get on the car quickly. The battle between Ba State and Ba State saw

their willingness. They were injured to varying degrees, but they survived alone. , as expected, this person must be the militant boss.

Seeing this, he regretted not participating in the battle with Qin Yuan and the others. This battle must have been very exciting, and Qin Yuan was too strong. Although they were injured, none of them died.

Because the people of Pakistan did not participate in the war, they sat in the back of the car silently and did not say anything during the whole process. After all, they did not know how to speak.

The soldier who was most injured had a broken leg, but he had already woken up after being treated by Qin Yuan.

Zhang Jianhua walked to the front, plopped and knelt down, "Captain Qin, I really don't know how to thank you. If my brother wasn't for you, he might really have to die in a foreign country. The strength of my captain Not big, there is no way to protect them completely, but with you here, I really appreciate you from the bottom of my heart."

"Captain Zhang, don't say such things. I admire you peacekeepers very much. The tasks you perform are very difficult and dangerous. Besides, we are all brothers and don't talk about these things."

At this time, he became a militant and found that Abizi was gone. What happened? In this case, did Abishi escape?

These militants have no command, and the most important thing in the future is that the commander-in-chief above is gone, so they dare not act rashly, and after they started the war, they found that these were not government troops, and they didn't know which country's soldiers were responsible for the attack. They launched an attack.

The second-in-command of the militants hastened to withdraw all of them into the city and shut the city gates tightly. Now that the boss is gone, he is the one who can speak in this city. Now he is very worried whether Qin Yuan and the others are specially invited to deal with them internationally. Yes, because this small team is really amazing.

"Sawyer, what should we do now? The boss is gone. Just now, a brother said that the boss was kidnapped and left. Should we go out and rescue him?"

This Sawyer suddenly picked up the gun and directly killed the reporting militant. The people next to him were shocked and looked at Sawyer.

"Remember, now I am the new boss in this city!"

Everyone is used to this kind of thing, and silently tidied up the corpses. Sawyer also had his own thoughts. Before, Abisi refused to listen to his advice and insisted on attacking those peacekeepers. Now he has suffered retribution.

That's his own business, now that he has become the boss, he will lead the organization better, and he won't be as brainless as he is.

Yabisi woke up in the car, "Where are you going to take me? Can you let me go? I will ask my subordinates to send the money right away, or if you want a gun, I will satisfy you. You guys, I just beg you to let me go."

"I think you are really naive. You are caught by us and you haven't seen your brothers come out to save you. Accept your fate! The mistake is that you shouldn't provoke me. My name is Qin Yuan. Remember?"

Yabisi gasped when he heard the name. How could he not know about this person. He was very famous in the world before. People said he was a crime killer. This time, he saw his power with his own eyes.

This time, Qin Yuan asked Li Erniu to drive directly to the checkpoint set up by their government army. The sooner he leaves now, the better.

And the president in the temporary base also received information that there was a war at the armed base, and the people in front of the report were not theirs, they seemed to be some soldiers from the Yan Kingdom and peacekeepers.

The president knew that this person must be Qin Yuan, but he didn't have much ammunition, so could those few people win? Sure enough, after a while, the gunfire stopped, and he sighed silently. He had originally hoped that Qin Yuan could help him consume the strength of these militants, but he didn't expect them to be dealt with so quickly.

Qin Yuan and the others swaggered to the card scanning position, Those soldiers pointed their guns at them, telling them to get off the car and disarm them.

Qin Yuan opened the window and said loudly: "It is best to report to your President, I have sent him a gift."

The guards turned pale in shock, how did Qin Yuan know that their president was inside, and looked at Qin Yuan very vigilantly.

"We don't have any president here, you better get out of your car and surrender, or we're really going to shoot."

"Surrender is not in my dictionary, but you'd better report it quickly, otherwise you will delay the matter, and you will not be able to bear this responsibility no matter how much your life is."

The captain of the guard team was a little frightened by Qin Yuan's words, and it didn't seem like he was lying to them, and most of the people in their car were injured.

"Then you wait here. I'll go ask the supreme officer for instructions first, and then I'll let you in."

The guard immediately reported the situation here, and it was transmitted layer by layer to the president. The president stood up and patted the table.

"Quick! Don't delay bringing that man in."

In this way, Qin Yuan was invited in, and Yabisi was also brought in. The guard looked at Qin Yuan even more, and really couldn't figure out what kind of special president this man had to ask to see him directly.

Qin Yuan swaggered in and kicked Yabissi to the ground. The president laughed when he saw it. This Yabisie had fought many battles with them, but this time he was finally captured, and he was captured alive.

Chapter 823: ?100,000 sheep

Qin Yuan explained the general situation, mainly because this person framed the peacekeepers, provoked a war between the peacekeepers and the local civilians, and wanted to use their power to consume the government troops, and the matter came to light. The President was very happy, But I also admire Qin Yuan's strength very much. This person really does what he says.

"You really made me unbelievable, but when you dared to enter my camp for the first time, I knew that I admired your courage. Sure enough, I saw the right person."

The president valued Qin Yuan's strength very much, and he began to want to win Qin Yuan over. If their country had such talents and could lead troops so well, then there would be no worries about war, and those militants would be settled soon.

"Little brother, I don't know if you have an idea to join us. I can give you endless wealth, or I can agree to you if you want power and status."

"Why are you all of the same virtue? I've said it many times. I'm not interested in your wars. Let those peacekeepers go quickly. I'm going to complete my mission and go back."

The president was shocked. This person didn't respond to these things. Isn't that what he wants? Still a little unwilling to give up? He continued: "Or beauty, I can satisfy whatever you want."

Qin Yuan curled his lips. This person is really unreliable. The war in his own country has been going on for so long. He doesn't even have a government building. He set up a temporary camp. He lives here today and lives there tomorrow. How dare you promise yourself so many things.

And don't they understand? I am not interested in these wars at all. No matter how much they fight, this is an internal matter of their country. It has nothing to do with him as an outsider. The only thing that matters is not to touch people in their country, otherwise he will pay with blood Blood.

Seeing that Qin Yuan was not interested, and also a little impatient, the president had no choice but to stop talking and promised to release those peacekeepers. After all, the truth of what happened this time has come to light.

Qin Yuan also asked him to prove his innocence for these peacekeepers internationally and issue a notice. It is very difficult for these peacekeepers to come to foreign countries to perform tasks, which is why he has been asking to find out the truth.

For the peace of the world and to prevent more people from suffering from the war, they paid a great price with their lives. He didn't want these heroes to bear a bad name.

It's just that when the truth was in front of him, he saw the president shaking his head. These people don't care about the truth at all. They want to start a war and take revenge on others. This is just an excuse for them.

Before leaving, the president asked loudly: "Okay! Since you don't want to, I can't force you, but at least let me know your name!"

"Qin Yuan!"

After he finished speaking, he walked out without looking back. The president repeated Qin Yuan's name over and over again. He was so familiar with this person, as if he had heard it somewhere.

Suddenly he remembered that one of his subordinates was also his friend who went on a mission before, and at that time there was just a war in their country.

At that time, the subordinate told him that if he met Yan Guo soldiers in the future, especially a person named Qin Yuan, he must not provoke him and hide as far as possible.

The president was more and more rejoicing that he didn't order his subordinates to attack him at the beginning, and those militants would end up with it. It was too strong for so many people to die at the hands of this one person. He didn't want his strength to be used up by Qin Yuan just like this.

In this way, the peacekeepers imprisoned by the local government and the negotiating experts sent were all released, but the only thing missing was the people from the Yuan Kingdom.

Qin Yuan didn't care that much, anyway, those people were none of his business, and he had warned them not to do so before. If there is any conflict, and these people don't listen to advice, but also attack civilians, this is what their country will come to negotiate with these governments, and their mission has been completed.

After arriving at the airport, the captain of Ba Guo said with a smile: "Captain Qin, this time I saw your strength. Not only is your ability to lead a team strong, but you are also a good negotiator. I really admire you." ."

"It's nothing, I just want to save our people."

The captain of Ba Guo said that he would personally send a thank you gift when he went back. After all, this time he owed Qin Yuan and the others a favor, and he was escorted back by them along the way, and they also saved other people.

On the plane back, Zhang Jianhua was very moved. The peacekeepers from the Yuan Kingdom were actually pretty good. Everyone cooperated with them in carrying out their missions. Zhang Jianhua was also very sympathetic to being detained in a foreign country this time.

"So this is the role of a good general. When he meets a stupid general, it will not only drag him down, but also the entire team."

After Qin Yuan finished speaking, he closed his eyes and prepared to rest. It was the soldier with the broken leg that consumed him a lot of energy just now, and he didn't relax all the way. Now he can relax after returning home.

"Of course, forgive me for my previous ignorance. I didn't expect Captain Qin to be so young and promising. I admire him in every way."

Zhang Jianhua originally wanted to continue talking, but suddenly he heard legendary snoring next to him, Qin Yuan was already asleep beside him, smiled and closed his eyes and leaned against the side to rest.

After Qin Yuan and the others went back this time, they all received first-class merit awards, and this time Gao Shiwei chose to fully believe that Qin Yuan let him judge and handle these matters by himself, and Qin Yuan did not disappoint him and handled them very well. , and did not deteriorate the relationship between the two countries.

Zhang Jianhua felt that he deserved this first-class credit. The biggest creditor this time was Qin Yuan. When he first saw Qin Yuan, he always felt that this person had some personal heroism and liked to be brave in everything.

Later, he found out that Qin Yuan was not trying to be brave, but just wanted to reduce the casualties of the team. What he could do would not let his brothers take risks. This is why the red

blood cell team fully believed in him. Everyone cooperated with each other and felt very relieved. Give your back to the other party.

A week later, Yan Guo received a thank-you gift from Ba Guo. In order to commend their actions this time, everyone's training has been reduced. This week, they have been resting. Qin Yuan is lying on the bed, closing his eyes repose.

Li Erniu rushed in, "Brother Qin, get up quickly! This is really good news, Ba Guo sent a thank you gift."

"What are you making all the fuss about? It's affecting my rest. Just send it over."

"No, Brother Qin, this thank you gift is too big, 100,000 sheep!"

what! !

Qin Yuan also got up from the bed in shock, what's going on, 100,000 sheep! This is too exaggerated, they just did a little effort, they rescued their own people by the way, and gave them such a big thank you gift.

When Qin Yuan ran to the office, Gao Shiwei was answering the chief's call, and he could be seen to be very happy, with the corners of his mouth raised.

After hanging up the phone, Gao Shiwei said that the 100,000 sheep donated by the Eight Kingdoms had been donated to the national treasury as a gift, but the head of the government still allocated a few sheep to reward them, so tonight the whole team roasted the whole sheep. sheep.

"Qin Yuan, you really gave me another face this time, you did a good job!"

"Hey! It's just a matter of little effort, but Lao Gao, I want to say that you won't let me roast the lamb later!"

"You stinky boy, no matter how big or small, you don't need to roast this time. Later, I will personally kill the sheep with the cooking team. I will treat you well tonight."

Qin Yuan walked out of Gao Shiwei's office with a smile, this time he finally didn't have to work as a coolie, and Li Erniu followed behind, "Brother Qin, why are you so uncurious? Why don't you ask Lao Gao what they gave us? It's too exaggerated to send such a big gift, 100,000 sheep! I've never seen such a large flock of sheep."

"Your reaction is slow, kid. They have taken a fancy to our strength and imagined that we are showing favor, but this is just an excuse. Everyone is using the ***** to get off the donkey, so no matter where you are, you must rely on strength to speak. The stronger the strength, the more people want to win you over."

Li Erniu scratched her head, and she was even more puzzled by Qin Yuan's words, "No, Brother Qin, this is obviously about sheep, why did you get involved with donkeys?"

Qin Yuan gave Li Erniu a blank look. He shouldn't have explained to this person, "I told you to study more, kid, and you insisted on herding pigs. It's hopeless."

"I'm getting more and more confused by what you're saying. It's obvious that the donkey was involved in the matter of the sheep, so why is it involved in the pig now?"

Qin Yuan's face was full of black lines at the moment, and he really couldn't explain clearly to this cow. It seems that his organization should give them a good cultural course, then this kid is simply a fish that slipped through the net of compulsory education!

In the evening, the team roasted the whole lamb and organized a large bonfire party. All the people came to celebrate. Everyone danced hand in hand and were very happy to eat the barbecue.

But Qin Yuan always felt that something was missing, and suddenly remembered that if Long Xiaoyun saw him and the female soldier dancing hand in hand, he would have taken off his shoes and flew over.

But it doesn't seem to be there now. Looking carefully, no one from the Wolf Warriors team was there. Gao Shiwei walked over with a wine glass, watching Qin Yuan keep looking around in the crowd.

"Don't look, I've already gone out to carry out the task, I think you just need to clean up, you haven't been here for a day, you haven't reacted yet, wait for Xiaoyun to come back, I will report to her properly. "

"Don't! Captain Gao! I know I'm wrong. It's not that I didn't notice her. It's just that there are a lot of things going on today, so I didn't notice her."

Gao Shiwei smiled, just wanted to tease this kid, it seems that only Long Xiaoyun can cure him, and he is not the same as himself in the morning, so it is good to scare him like this.

Gao Shiwei told Qin Yuan not to worry. Long Xiaoyun's mission was not dangerous. He was performing a security mission in a nearby small country. It was very simple. He came back in a day or two. There was a rest adjustment time, so he sent Long Xiaoyun and the others.

The country where Long Xiaoyun performed the mission was not a war-torn place, so Qin Yuan was more at ease, but after two days, Long Xiaoyun still did not come back.

Qin Yuan was a little anxious and asked Gao Shiwei from the office, what's going on, and is there something else he's hiding from him?

"By the way, you are also the captain anyway, and you have performed missions yourself. Don't you know that the mission time is not specific. I just said that she will come back every day or two. If something happens there, she will In two more days, and with Long Xiaoyun's situation, who else can hurt her except you?"

Being bullied by Gao Shiwei like this, Qin Yuan didn't know what to say. What he said was indeed true. It seemed that he was too nervous. Ever since he got married, Qin Yuan found that he cared about the people around him very much. People, I am very worried that something will happen to them.

During the training, he was always thinking about Long Xiaoyun's affairs, and he was a little distracted during the training, and gradually became a little irritable, so he might as well take two days off to see Grandma Sun.

When Qin Yuan came to the orphanage this time, he found that there were fewer children in the orphanage, and Grandma Sun's back was also a little lumpy. She was very happy to see Qin Yuan coming. After all, Qin Yuan was so busy with work. She was very relieved that she could still find time to come back to see her. This child is quite filial.

"Grandma Sun is an orphanage and has she encountered any problems? Why do I see that there are so many fewer children?"

"There is no problem, everything is fine. It's because my health has been worsening year after year, and the government has taken away some of those children, which can be considered as a relief for my old lady. "

Since it was picked up by the government, it will be properly arranged for them. Qin Yuan is not worried anymore, and chatted with Grandma Sun about some homework. Unexpectedly, grandma changed her style of painting and asked directly about Qin Yuan's child. They have been married for a while, but An Ran still hasn't moved.

Although they are very busy at work, they went on their honeymoon before, so they should be pregnant at this time, and Grandma Sun is also very puzzled.

"Qin Yuan, tell grandma the truth if there is any problem with your health, just tell grandma honestly, if there is any problem, let's fix it quickly, don't delay."

Qin Yuan's face was full of black lines. He knew that he shouldn't have come, but after coming here, he became even more annoying. Could he not be clear about his own physical condition? That's pretty good, but now is really not the time to have children.

"My good grandma, how can you question your grandson? I'm sure it's fine. We're not in a hurry about the child. An Ran and I don't have this idea yet. After all, we are still young now, and the reason for work everyone They're all busy."

"You are still young, so I can't wait any longer. I want to have a grandson. You have a problem with your thinking. If you get married, don't you want to have a child right away? When will it be delayed?"

Chapter 824: ??World-class basketball master

Then Qin Yuan was talked about by his grandmother for more than an hour before he finally escaped. He originally wanted to come here to relieve his anxiety, but he didn't expect to be even more anxious after being told by Grandma Sun.

In this situation, I definitely cannot have children. Although he is very capable now, he is also very worried about unexpected situations. All these things will distract him, let alone not having children yet.

I am married now, but I always miss the people around me, worrying that they will have problems, and want to protect everyone around me.

Just when Grandma Sun was talking about the child, Qin Yuan thought about going to see Mu Qingmei. Qin Yuan quietly came to her work place, and saw her back to him and was arranging the gauze. He taught them a few things before. Women's self-defense, just try to see her reaction.

Unexpectedly, as soon as Qin Yuan's hand was placed on Mu Qingmei's shoulder, she reacted quickly, took a back lunge and stretched out her right elbow to hit Qin Yuan's ribs.

Qin Yuan dodged slightly sideways, Mu Qingmei grabbed Qin Yuan's arm and wanted to throw it over his shoulder, but was hugged tightly by Qin Yuan, just about to shout out, but found a familiar smell, And this hand is also very familiar, and immediately turned his face in surprise, it turned out to be Qin Yuan.

"Qin Yuan! Why did you come here? You scared me to death. Look at what self-defense you have. After being hugged by you, I can't break free at all."

"I'm not testing the results. In fact, you played well and reacted very quickly. But if you think about it, if you want to hit me, ordinary people can't do it."

Mu Qing rolled his eyebrows at him, "Will you not let me come to see me after all the trouble?"

Qin Yuan smiled, took Mu Qingmei's hand, punched himself on the chest, and then flew out in a very exaggerated manner, Mu Qingmei was stunned, this man came here anyway, he just now That is to say.

Qin Yuan rolled and flew out of the door, and Mu Qingmei's comrades beside him ran out after hearing the movement, looking at Qin Yuan in shock.

They read it right, Mu Qingmei is too good, and even sent the God of War flying out, what's going on! At this time, Qin Yuan who was on the ground clutched his chest, and shouted very artificially: "It hurts! Cough cough! How could you do such a cruel thing to your own husband?"

At this moment, Mu Qingmei just felt very ashamed. This Qin Yuan usually looks quite serious, but when he is not serious, he is really too childish.

Everyone watched outside one after another, which alarmed the people in the security department, "Who is making trouble inside? I don't know if it's because the medical team wants to keep quiet?"

Qin Yuan saw the squad leader of the security department coming over with a few soldiers, and he seemed to be overplaying it. Anyway, he was in Mu Qingmei's territory, so he didn't feel ashamed, so he immediately rolled his eyes and pretended to faint.

"Hey! Qin Yuan, stop making trouble, what time is it, hurry up."

Mu Qingmei only had one thought at the moment, she just wanted to leave quickly, she really didn't want to know this person on the ground, it was too embarrassing, the squad leader of the security department came over, and saw that the person lying on the ground turned out to be the famous **** of war Qin Yuan .

"Hahaha, let me tell you, our God of War Qin, don't pretend to be here. Before, I saw you knock down a dozen soldiers with my own eyes. Why are you knocked down by Xiao Mu now?"

"Hey, didn't I just come here to play a joke on you, there's nothing to see, everyone should leave!"

Qin Yuan turned over and jumped up from the ground, Mu Qingmei looked at him with black lines on his face, "I thought you were going to stay here for the New Year and you didn't want to get up."

The squad leader of the security department knew that this was a couple of people fighting here. After all, their profession is quite special, and it is difficult for the two parties to meet each other. Moreover, people of Qin Yuan's level often go out on missions. It's not easy to meet once, he didn't say anything and went on smiling.

Just before leaving, Qin Yuan was asked to play basketball with them at night, Qin Yuan agreed wholeheartedly, and he also wanted to take Mu Qingmei out to play, but she can't go out casually now, as long as she is with Mu Qingmei anyway, Then stay with her in the team for a few days!

Mu Qingmei also smiled happily, seeing that Qin Yuan got along well with the people in the team. After all, everyone knew his reputation, because Mu Qingmei didn't have anything to do here, but she just said that she couldn't go out. It can be seen that Qin Yuan is also very happy to come over.

The two also had a meal together in the team. After the meal, the squad leader of the security department came over and asked Qin Yuan to play basketball with them.

"Captain Qin, I heard your name a long time ago. I wonder if you are interested in playing with us."

Squad Leader Liu of the security department smiled slyly. Unexpectedly, at this time, Mu Qingmei saw Squad Leader Zhao who had brought her along before walking over, "Xiao Mu, it's your fault, why did Captain Qin come here? If I didn't notify in advance, I was almost caught by others, Captain Qin didn't agree to join his team."

Mu Qingmei was also confused, what is the situation, it turns out that their health team usually doesn't have too many training tasks, so everyone's hobby is playing basketball, so the security team and their medical class are formed. There are two teams, and the two sides have been competing.

Their results have always been very average, that is, today they may win the security department, and tomorrow they will win the medical class. Anyway, they are evenly matched. Like these few times, they were almost tied. The monitor of the security department happened to see Qin Yuan coming. After that, he instantly felt that this was a good opportunity to defeat the medical class, so he quickly invited Qin Yuan to join his team.

After all, Qin Yuan is a figure at the level of God of War. Both sides want Qin Yuan to join their team. Now the two squad leaders are really inseparable. Qin Yuan is also very speechless. He pulls Mu Qingmei aside and says:

"What should I do now? I thought it was just for fun, so I agreed. The squad leader of your security department didn't expect it to be a contest between their two teams, but I don't know how to play basketball at all!"

"You can't even play basketball!"

Mu Qingmei finally found something that Qin Yuan didn't know. Before, she thought that Qin Yuan was omnipotent, as if he could do anything in his hands, such as flying fighter jets, field tanks, and various training and fighting. He was very good at it, but To be honest, I haven't seen Qin Yuan have fun with these entertainment items.

Looking at the two monitors who were still arguing, Mu Qingmei wanted to come forward to explain, but Qin Yuan held her back. Now is not the time to say that she can't, one is that it would be embarrassing to say it out, after all, basketball is something for boys. Most of them will, and one more thing is that people don't believe it when they say it now, and they feel that they say no to escape.

"Then what to do, let's talk about whether you can play basketball first. Even if you can play basketball, which class will you join? It's too embarrassing for both of them to be the class leader, and it's not easy to offend either side!"

Qin Yuan patted his chest, reassuring Mu Qingmei that he would solve this matter without offending anyone.

"Let me tell you, why did Captain Qin come to our team? It was for Xiao Mu, and Xiao Mo is a member of our medical team. No matter what, Captain Qin is also a member of our team! "

"That's not necessarily what's wrong with comrades-in-arms visiting each other? Besides, I asked him first. Although he didn't agree now, but after all, it was I who first proposed it. Why did you let him join your team directly?"

Squad leader Zhao of the medical class looked at Squad Leader Liu and started talking nonsense in order to rob people. How could these two be pure comrades-in-arms? Anyone with a discerning eye could tell that these two were a couple. The two squad leaders are now very clear. No matter which team Qin Yuan joins, that team will definitely win.

Everyone thinks that Qin Yuan is worthy of the name the God of War and the king of soldiers. He is number one in any event, not to mention this kind of basketball is a piece of cake.

At this time, the two squad leaders looked at Qin Yuan standing behind in unison, "Captain Qin, what's the matter, which class are you considering joining? It doesn't matter, no matter which class you join, we will not be angry."

When Qin Yuan heard this, he felt very against his will. Hearing the dispute between the two monitors just now, he knew that the two of them wanted face very much and were competitive, so how could they not be angry.

Mu Qingmei snickered beside her, which made her discover something that Qin Yuan didn't know, and let the kid agree casually, let's see how he ends up this time.

"Two monitors, because no matter which class I join, it's not fair to the other side of you. After all, basketball is a sport that you all play among players. It's a little inappropriate for me to join in. How about you look at this? The two teams take turns. , and then I'm alone."

what! !

Squad Leader Liu suspected that he had heard it wrong. How could he play basketball when he was playing alone? Basketball requires not only individual skills, but also the cooperation of teammates to cover goals in order to score. Human words are simply impossible!

"Captain Qin, playing basketball alone is really a bit difficult. If people don't know about this, they will think that we are bullying you too much."

"Anyway, there are two games in this basketball game, the first half and the second half, so I will play one game with you each. Don't worry, I, Qin Yuan, will do what I say. How about joining your team?"

After hearing the condition Qin Yuan said later, the eyes of the two monitors brightened instantly. This is okay, and it's just for everyone to have fun. It is impossible for one person to play basketball.

"Captain Qin, then we will not be polite, don't say we bully you, and I think you will definitely come to our team."

"No! He will come to our team."

Seeing that the two squad leaders were still arguing, Qin Yuan shook his head, and took Mu Qingmei to the basketball court together, "Qin Yuan, you are too courageous, you said just now that you can't play basketball, why did you still say that you don't know how to play basketball?" Wouldn't it be a disadvantage for you to play against them alone? Although I don't know much about basketball, it sounds like a 1:5 will be a disadvantage for you."

"Don't worry, how could I suffer a disadvantage, believe me, I will solve this matter very well."

Mu Qingmei is still a little worried. After all, everyone here knows that Qin Yuan is here. A hero like him can be regarded as attracting attention. This kid is so concerned about face. She really can't imagine losing on the basketball court later. , but it's interesting to think about it, Mu Qingmei asked Qin Yuan to stand by the playground and wait for her, and she ran back to the dormitory to get the camera.

At this time, she has to hurry up and record the famous scene of Qin Yuan's first failure. At that time, she must show An Ran and Long Xiaoyun a rare opportunity in a thousand years!

Soon the news spread that Qin Yuan was going to play basketball with the medical team of the security department, and he was playing against the two teams by himself, which shocked everyone. After a while, the playground was full of people, all of whom came to watch the fun .

After all, basketball is a five-player sport, how can one play alone? Everyone was very curious and wanted to take a look. At this time, Qin Yuan began to do warm-up exercises on the side of the playground. When he saw the basketball thrown beside him, he stretched out his hand.

"System, can this be recycled?"

"Answer the host can recycle!"

Qin Yuan almost jumped up excitedly when he heard it, the system did not disappoint him, everything can be recycled!

"Congratulations to the host for successfully recovering the basketball and acquiring the following skills. Please make a choice as soon as possible."

"1. A world-class basketball master, a top scorer, and a dunk master! 100% from the three-point line!"

"2. A world-class freestyle basketball master, this skill is mainly street basketball fancy skills, and more of an element of showmanship."

"3. The world-class continuous take-off skill will increase the host's reaction force by another degree, and can perform 360-degree four consecutive take-offs in the air."

Qin Yuan was a little surprised why this jumping skill sounded so weak. used 360 degrees in the air for four consecutive jumps. Does this thing have any effect?

"Answer to the host, this continuous jump is mainly used to support the stage. After all, it is almost impossible to perform four consecutive 360-degree jumps in the air, but the host of air show skills can get high scores during diving performances."

Harmful! I thought it was a powerful move. I don't usually have access to this diving. This skill is useless. From this point of view, the first skill is the most useful. It is about basketball, and now I also need to get started quickly. .

"System! I choose the first skill."

"Ding! Congratulations to the host for winning the title of world-class basketball master!"

At this time, the recovery of the selected skills was successful. Qin Yuan only felt those basketball skills appeared in his mind. He closed his eyes, and when he opened them after a while, the corners of his mouth slightly raised. There is absolutely no problem now, and this is At the level of a world-class basketball master, forward, center, and guard, he can play all by himself, and he can play every position.

At this time, everyone was almost assembled, and the medical team finally seized the opportunity to start the first half of the game with Qin Yuan.

Chapter 825: ?Long Xiaoyun had an accident

Squad leader Zhao of the medical team said in a low voice: "It doesn't matter anyway, he's also from the security department. We must win this game, and this game is also very obvious. Dabing, you two will defend later. Stop him, don't let him shoot, leave the rest to us."

"Then it's no problem. Let's guard him by himself and see how he still shoots. We must win this game. I don't know what these captains are thinking. Isn't this making me unable to go down the stairs?"

"That's why I want to tell you not to let him lose too badly. It's best to put some water in the back so that he can make a few shots. Otherwise, it's not good for us to pass it on. After all, we are five against one."

The team members all nodded, and began to prepare for warm-up exercises beside them. Squad leader Zhao also deliberately walked over to tell Qin Yuan that he would definitely put a little water on his side, and told him not to worry, he was all his own and just played casually.

Qin Yuan pretended to be shocked and said: "Then I would like to thank Squad Leader Zhao. I didn't expect Squad Leader Zhao to be so nice and considerate of me too much. It's true that I'm not very good at playing basketball. You must take me with you."

Squad leader Zhao became a little proud of being praised like this. He is the God of War, a hero-level figure, and his basketball skills are not to be boasted. After all, he has played for many years. He reassured Qin Yuan that he would definitely guide him well.

"Captain Qin, it doesn't matter if you lose the game later. I will guide you well after stepping on it. Your ability is almost a skill. This skill is easy to learn. When the time comes, you join my team and let's take the security department together." Those boys have cleaned up."

Qin Yuan smiled, and nodded to cater to this Squad Leader Zhao. Anyway, let's keep a low profile now and give them face!

Squad Leader Liu from the Security Section saw Squad Leader Zhao pulling Qin Yuan and muttering all the time, and instantly became unhappy, so he ran over quickly. Did this kid whisper something behind his back? He couldn't let Qin Yuan be poached like this.

Squad leader Liu also ran over and said to Qin Yuan: "Captain Qin, don't worry, I won't let you lose too badly later on. I understand this. After all, we are all brothers in arms, but you must not Being fooled by Zhao Zhihua, compared to basketball skills, our class is the best."

Qin Yuan held his head helplessly, are these two going to start again? Why did the argument start again as soon as this was mentioned, he hurriedly stretched out his hand to smooth things over, "Okay, my two monitors, let's compete first, and talk about it after the competition."

The squad leaders on both sides are 100% sure of the victory of this game, after all, it is impossible to fight one against five.

Just like that, the first half of the game started. Following the whistle of the referee, he stood in the middle and threw the basketball up. Squad leader Zhao smiled as he was determined to win the first ball. He was considered a jumper. If it is higher, there should be no problem.

But he felt a figure jump up in front of him, and Qin Yuan on the opposite side was the first to grab the basketball and dribble quickly.

I go! Just now he said that he doesn't know how to play basketball, why is it different from what he thought! Squad leader Zhao was stunned for a moment, and quickly signaled the team members to cooperate with each other with his eyes. It seems that Qin Yuan is eating pigs and pretending to be tigers.

Mu Qingmei recorded the scene of Qin Yuan grabbing the basketball with a camera, and clapped her hands excitedly. According to the plan just now, Squad Leader Zhao, the two people here used to guard Qin Yuan, and now Qin Yuan was killed by several people Surrounded, can only keep going back.

Now outside the three-point line, it is absolutely impossible for him to shoot from this position. It is too far away, and the angle is also very bad, so he can properly grab the ball. Unexpectedly, at this moment, Qin Yuan jumped He threw the basketball in his hand, and just outside the three-point line, the basketball flew to the basket in a perfect arc.

The basketball goes flawlessly into the hoop! The referee was so shocked that he forgot to blow the whistle, and everyone around him reminded him to blow the whistle quickly, and Qin Yuan just threw the ball from outside the three-point line! This is too powerful, it can be shot from any angle.

Just like that, Qin Yuan took the first three-point lead in just one minute of the game. Squad Leader Liu who was watching the game next to him was stunned. This is not a level of casual play, it is simply a master level. No matter what, He must **** Qin Yuan.

Squad leader Zhao also started to get serious, and told the players to cooperate quickly. Although the basketball was on Squad Leader Zhao's side this time, a player here was just dribbling the ball when he suddenly felt a figure flashing by. When did the basketball in his hand be snatched away? up?

This speed is too fast! I didn't even see clearly, and there was no physical contact, how could the basketball pass by!

Qin Yuan smiled. The skill he drew was at the level of a world-class basketball master, but after all, he played one against five, so he used his instantaneous explosive power, speed, and his speed and strength during the game were all world-class. , Such a combination, they simply can't react.

Just like that, Qin Yuan made another shot from outside the three-point line, and it was a precise shot. Everyone around the basketball court was stunned. This is too amazing! If the first shot from outside the three-point line just now is considered lucky, then how to explain this.

The next thing was when Squad Leader Zhao slapped him in the face. Before going on stage, he said that he would definitely guide Qin Yuan and tell him various skills, but he did not expect that he was taught. Qin Yuan has mastered all kinds of skills of dribbling under the crotch, and the speed is so fast, let alone grabbing the ball, it is very difficult for them to defend.

Just seven minutes into the 20-minute game, Qin Yuan has already scored 15 points, while Captain Zhao is still at zero.

Captain Zhao had no choice but to quickly change tactics. Originally, he had arranged for defense and dribbling. Now everyone is defending. No matter how they defend or interfere, Qin Yuan can make shots inside and outside the three-point line.

This game was really exciting, and the soldiers next to it were even more excited, worthy of being the God of War! Even playing basketball at the level of a king is too good, this level can be on the national team!

Qin Yuan also wanted to give Captain Zhao a face, at least not let them lose so badly, so he deliberately slowed down the action. At the end, Captain Zhao finally grabbed a ball and made a three-pointer.

The final score was 32 to 3. This was due to Qin Yuan's disappointment in the middle of the process. Captain Zhao felt a little ashamed for a moment. At any rate, Qin Yuan gave him face by not letting him down so badly, and finally let him score a three-pointer.

At this time, several team members of Squad Leader Liu who were waiting below were stunned, "Squad Leader, do we still have to go up here? This is really amazing!"

"Go, why not! Even if you know that your opponent is a hundred times stronger than you, you can't give up the game because of this. Don't go up and fight hard for me. No matter you win or lose, you must fight well."

After Qin Yuan heard what Squad Leader Liu said, he still admired his spirit. It might be sportsmanship! Although this is the case, the ending was not as everyone expected, Squad Leader Liu was also defeated, and how did Qin Yuan do it? Keep their scores consistent.

Mu Qingmei, who was next to her, looked at the situation on the field suspiciously, because she didn't know much about basketball, so she could only ask the referee next to him in a low voice if Captain Zhao and Captain Liu were releasing water for Qin Yuan.

"Xiao Mu, this is absolutely impossible. This is not a problem of letting water out, but a crushing of strength! You can see that their scores are the same, which means that Captain Qin is directly controlling the field completely. This is really too powerful and hidden. ."

Mu Qingmei clapped her hands proudly. Qin Yuan said before that he can't play basketball, but he didn't expect to be so good. It seems that there is really no possibility that he can't, except to have children!

Just like that, the game ended, and cheers continued outside the court. Everyone kept calling Qin Yuan's name, wanting him to make a few more shots. Qin Yuan smiled, glanced at Nan Kuan's position, and then Turning around, with his back to the basket like this, he easily threw the basketball back, and even hit it just like that.

This is really amazing! Squad leader Zhao and the others were all dumbfounded. They asked him to teach him his dribbling skills quickly because of Qin Yuan, and the shooting was too exaggerated. It seemed that he could make 100% shots from any angle. The skill speed was so fast that no one could see it clearly.

Listening to the compliments from the people around him, Qin Yuan was a little proud, so let's show them again. After all, he hasn't performed a dunk during the whole process. This time, Squad Leader Zhao and Squad Leader Liu defended together. They are very tall. It is almost impossible for the tall one to jump over the two of them, so they can only go around from the side, so both of them looked at Qin Yuan very vigilantly.

Unexpectedly, Qin Yuan just broke this impossibility. He jumped over the two monitors with ease, and then directly and accurately dunked on the backboard.

This! The jumping ability is really good!

The soldiers next to him kept cheering. It was really amazing to see it with my own eyes. Otherwise, I couldn't believe that this is a real basketball skill. It really can reach the level of the national team, or even better.

"Captain Qin, you are really hiding something. I finally know the reason why you don't form a team with us. It seems that you are afraid that our strength will be uneven, so it will be unfair to either side."

Qin Yuan smiled, his goal was finally achieved, and it was only in such a way that he would not offend Squad Leader Zhao and the others and have a good time with them. Afterwards, many people surrounded Qin Yuan and asked him to teach him basketball skills. Qin Yuan quickly dribbled the ball in the crowd to demonstrate how to get on the board.

At this time, a soldier ran in anxiously and searched anxiously among the crowd. Suddenly he saw Mu Qingmei and hurried over, "Comrade, where is Comrade Qin Yuan who came to look for you earlier?"

Mu Qingmei was watching the excitement, but when she looked up at this anxious soldier, she had a bad feeling in her heart. Could it be that there was some urgent task? She rushed into the crowd with the soldier and called Qin Yuan out.

"Captain Qin, hurry up and go back to your special forces team to have a look. It seems that something serious has happened. Commander Gao is also looking for you. They didn't disclose the specific situation to me. This time, you are asked to return to the team as soon as possible."

When did you feel a little confused when you heard it, and something big happened? Could it be Lao Gao again? What kind of strategy, I want myself to perform the task.

After Mu Qingmei heard about the accident, she always felt flustered. She originally wanted to play with Qin Yuan for a few days, but it seemed that he was about to go on a mission again, "Qin Yuan, no matter what mission you go out to perform, you must be safe. Come back, I will wait for you at home!"

Qin Yuan nodded and gave Mu Qingmei a hug, and then ran out quickly. Captain Zhao and the others next to him also knew that a big man like Qin Yuan had tasks at any time, and they were busy to execute them, but they were still actively discussing Qin Yuan just now. Yuan's various skill moves.

When Mu Qingmei saw this lively environment, she suddenly felt very upset. Anyway, she always felt that there was something in her heart. Looking at Qin Yuan's back, she hoped that he would be safe when he went out to perform the mission.

When Qin Yuan returned to the team, everyone had already assembled. Li Erniu had packed Qin Yuan's equipment. Seeing everyone's dignified expressions, Qin Yuan felt something was wrong. He took the equipment bag and asked : "What's the situation? What kind of mission is going to be carried out this time, and Lao Gao is not here anyway."

"Brother Qin, something happened to Team Dragon at !"

what! Something happened to Long Xiaoyun! Qin Yuan's head is about to grow big. What's the situation? Didn't Long Xiaoyun go out to perform a mission, and Gao Shiwei also said that the mission was not dangerous, so how could something happen?

"Dragon Team has completely lost contact with his Wolf Warrior team. Team Gao has been called to an emergency meeting. After all, their entire team is missing. This is not a trivial matter. The details are in this document. He asked us to Get out as soon as you arrive."

Without further ado, Qin Yuan quickly took the members of the red blood cell team to the helicopter. He opened the file to check, and only then did he know that Long Xiaoyun's original mission was to protect a wealthy local overseas Chinese businessman. A very famous philanthropist, he has participated in various donation activities anyway.

Because although the local area is not a war-torn country, guns have not been banned in that country. Guns can be sold for general use, and many ordinary people are still threatened by guns. This wealthy businessman has made many people, so he took the lead in banning guns gun sport.

He held this event to hand over his own guns to the government. He wanted to be the leader and brought together many people who opposed guns. Wealthy merchants, so they sent Long Xiaoyun and the others.

Chapter 826: ?irresponsible attitude

Because foreign reporters are also constantly making hype. After all, this is a hot topic. This rich businessman is also from Yanguo. This event ended in just two days, but Long Xiaoyun and the others suddenly lost contact.

Qin Yuan looked at this document solemnly on the helicopter. The report was very strange. What is the relationship with this rich businessman? The country's special forces to protect him?

Gao Shiwei also sent a video, he told Qin Yuan, don't worry, Long Xiaoyun is just missing, there should be no danger for the time being, because not only Long Xiaoyun's entire team is in fashion, but also the one they want to protect Rich merchants, and to be honest, there are very few people who can hurt her with Long Xiaoyun's ability.

Gao Shiwei also kept this matter a secret for the time being, and he must not let Long Zhanjun know, otherwise, with Long Zhanjun's temperament, he would definitely rush abroad to rescue Long Xiaoyun regardless of everything. Old friend, it's hard to recover now, and I was implicated again peacefully.

"Qin Yuan, you must bring Long Xiaoyun back safely, I believe you have the ability."

"Yes! Guaranteed to complete the task."

Gong Jian next to him looked at the contents of the document and frowned. The rich businessman's name was Zhang Baoshan. He always felt that this person's name was familiar. After continuing to look at the photos, he suddenly realized.

This person has been doing business in China before, and the business is getting bigger and bigger. This person is in the car business and has his own car production factory. Later, he went directly to country M to develop, and then he has not come back in recent years.

Qin Yuan saw that Gong Jian seemed to know this person, "What is your impression of this person, does he have any other clues? The more detailed we know, the better."

"When this person was doing business in China, he was already surrounded by many bodyguards. It was also because a comrade in our regiment went to work as his personal bodyguard after retiring from the army. Unexpectedly, he was eliminated after signing up."

Qin Yuan was a little shocked that a soldier who was able to retire from the Iron Fist Regiment, logically speaking, it would not be too difficult to be his bodyguard, how could he be eliminated.

"According to my comrade-in-arms, this Zhang Baoshan is very demanding. His bodyguards are either veterans or Sanda masters. After entering, there will be selection. My comrade-in-arms was also eliminated in the last round."

In this way, Qin Yuan feels that this matter is not simple. With the safety of Yan Kingdom in China, what the **** is this Zhang Baoshan doing? He needs so much protection. He will definitely investigate the matter behind it. to wait for him.

Two hours later, everyone came to the villa where Long Xiaoyun and the others disappeared. The local police had already sealed off the villa. When Qin Yuan and the others came, the security guards at the door were lazy and did not register. until they go in.

Li Erniu complained very dissatisfied, "Damn, this group of people is guarding the scene like this, just letting people in like this, we don't know if there are other people coming in before us, in case there are some key clues It was destroyed, so how to fix it?"

"Forget it, there's nothing we can do now, let's go in and talk!"

At this time, two people in uniforms came over. They were the police officers who were in charge of guarding here. These two people just told Qin Yuan and the others about the general situation.

Because this disappearance is quite special, but the local police seem to be very taboo about this matter. They have been making excuses that Long Xiaoyun and the others are foreigners, and the local police are not good at participating. Just let them figure it out.

"What do we mean? Whether it is a foreigner or not, shouldn't you call the police as soon as possible when the disappearance case occurs on your territory first?"

Qin Yuan was very angry when he heard this answer. Long Xiaoyun and the others had been missing for two days. It was because Gao Shiwei could not contact Long Xiaoyun that they found out that something was wrong. The local side has not reported it, and they have no one at all care about it.

A fat police officer next to him drank a cup of coffee, spread his hands and said, "Sorry, sir, don't be so excited. In fact, we have also informed you as soon as possible as soon as possible. We are only responsible for leading the way. That's about it, it's noon, we're going to get off work for dinner, you can do whatever you want."

"Oh! By the way, do you want to order a pizza for you?"

Qin Yuan had a gloomy face, the attitude of these people really annoyed him, "Thank you, I don't need it anymore."

After finishing speaking, the two turned around and left. In the empty villa, only Qin Yuan, a member of the red blood cell team, was left to search for clues after telling everyone to separate.

Qin Yuan found out that there was surveillance in the villa. He asked others to find clues, and he hurried to call the surveillance to see what was going on.

The monitor recorded the situation of Long Xiaoyun and the others coming to the villa. She led the Wolf Warriors team. The man in the middle wearing a white suit was Zhang Baoshan and there was a woman standing next to him. I didn't see what happened between them and Long Xiaoyun during the whole process. communicate.

Long Xiaoyun also arranged her own security work very conscientiously, and asked the members of the Wolf Warriors team to guard the gates, windows and the main roads into the villa in groups, while she herself guarded the gates.

These looked normal. On the next afternoon, a black car drove up from the yard. The driver couldn't see clearly because of the monitoring angle, but when Zhang Baoshan came out and saw the man, his expression changed. After a while, Zhang Baoshan called Long Xiaoyun over, as if he was talking to her about something, the monitor couldn't receive the sound, only the pictures.

At this moment, Long Xiaoyun suddenly raised his head and took a look outside. The monitoring was instantly blacked out at this moment. Qin Yuan slapped the keyboard angrily. It seemed that someone had deleted the key monitoring in the second half. Xiaoyun and the rich businessman were taken away in this villa.

Qin Yuan used his world-class hacking skills to try to repair the deleted monitoring, but the murderer was very cunning. He also deleted the backup. In addition, it took them a long time to come, and the best recovery time was already missed. , cannot be recovered at all.

The members of the red blood cell team searched and found no other clues to join Qin Yuan. Qin Yuan told them about the surveillance.

"The moment Long Xiaoyun raised his head, something else must have happened outside, but this critical period was delayed because those grandsons didn't report, otherwise I could still recover."

"Qin team, what should we do now? This is a dead end, and we can't find any clues."

"There is another clue. The previous document only said that Long Xiaoyun and the rich businessman were taken away, but just now I saw a woman in the surveillance, which should be the wife of the rich businessman. Let's find this woman first and ask if we can Get other leads."

After all, everyone is in country M, so you still have to talk to them about finding someone. Using their local system to find them should be very fast. Qin Yuan and the others came out immediately and saw a few people guarding the door just now.

Qin Yuan just directed the video on his mobile phone. He came over and said to an officer on duty, "Hello, I need to find out where this woman is now?"

"Okay, we can use the photos in our country's data system to help you check."

Qin Yuan nodded and watched them operate, but it was obvious that the staff member was very perfunctory. I don't know how he checked it. Although the woman's photo was a little blurry, after the staff member imported the system, there were more than a dozen women and men. God-like person.

The staff shrugged helplessly, "It seems that your workload is quite heavy, I don't know which one you are looking for, anyway, the information of these dozen people is here, you can take a look for yourself!"

Qin Yuan felt speechless for a dozen people in an instant. What they lack most now is time. Time is life. He needs to find Long Xiaoyun quickly. If there is still time to investigate these dozen people, he needs more accurate information.

Qin Yuan scrolled the mouse to take a look at the situation. Did the staff really bully him for not understanding the above words? He obviously entered a search in the whole world. This kind of search must have similar looks, and the search terms are also very vague.

Qin Yuan wanted to do it himself, but he didn't expect the staff to stop it immediately, "No, no, you can't search by yourself, this is a confidential issue of our country, you can only search it through me, I have already told you The information of these people is here, go and check it yourself!"

"This is not a confidential matter. You'd better be serious with me. If you don't know how to do it, let me get out of the way. I don't have time to talk to you now."

Qin Yuan is now very worried about Long Xiaoyun's safety. From the attitude of these people at the beginning to the perfunctory attitude now, he has had enough. Anyway, this staff member will not touch the computer for Qin Yuan. It seems that he can only Come strong.

Qin Yuan gestured to Li Erniu with his eyes. Li Erniu and Wang Yanbing came over and dragged the staff aside. The staff was a little afraid that he didn't expect that Qin Yuan would really come hard, and was just about to call out loudly.

There are a few staff members on the periphery, but they are all talking and laughing while drinking coffee, not paying attention to the situation here. Qin Yuan took out a silver needle and stuck it in the staff member's neck. He suddenly found himself I can't speak anymore.

Then Li Erniu and Wang Yanbing held him tightly, and Qin quickly searched on the computer. After a while, all the information on this woman came out, and it was very accurate. This woman is called Suo Mina. According to the information, she is Zhang Baoshan's wife.

But this woman is very young. Zhang Baoshan is almost 50 years old now, but this woman is only in her twenties. The information shows that they only registered for marriage three years ago.

Qin Yuan quickly checked the property under the name of Zhang Baoshan. Since the woman was not missing, it might be in other properties. However, after such a search, Qin Yuan was instantly convinced that Zhang Baoshan was really rich, and the villa here was only for him. One of the properties, in country M, he has four properties in total, he quickly wrote down the address, this is much easier to check than just now.

There is also a company registered by Zhang Baoshan. The scope of this Zhang Baoshan is too wide, not only the automobile industry, but also several wineries and several garment factories.

After finding the information he wanted, Qin Yuan walked over, "I've found it now, but I hope you'd better stop barking, if it delays my time, I can do anything now, I hope you Understand this truth."

After Qin Yuan finished speaking, he pressed his hand on the staff member's shoulder, and he instantly felt that his right shoulder weighed a thousand catties. He wanted to make a sound, but he couldn't make any sound. He was a little flustered by being pressed by Qin Yuan like this. Yes, nodding desperately, the power of this person feels very terrifying.

Then Qin Yuan pulled out the silver needle for him. The staff member coughed softly. After realizing that he could speak, he immediately wanted to shout that he would not suffer such anger. After all, this was in their country. Qin Yuan turned his head and directly He gave him a look, exuding a terrifying aura all over his body, and the staff member froze in an instant.

He closed his mouth tremblingly, the man's eyes just now were too terrifying, he would definitely kill himself.

In this way, Qin Yuan set off immediately with the team members of the red blood cell team. He planned to separate the actions of these properties. Two of them on each side of the four properties should soon have clues. After all, the property is only one of his clues. and other companies under Zhang Baoshan's name don't know where this woman is now.

Gong Jian, who was next to him, saw that these real estates were not very close, which was a waste of time, "Captain Qin, should we take a look at this woman's recent consumption, and then it will be more convenient for him to get up early, so we can look at his bank card consumption records, we followed the location."

Qin Yuan turned on his computer with a wry smile. He had dumped part of the data just now and checked it with his computer. He had thought of this a long time ago. This woman is too exaggerated. Her consumption has been almost all over the past two days. The entire country of M, if you look carefully, is almost full of shopping malls, as well as cosmetics, and this woman even bought two cars for herself.

"Well, sure enough, no matter which country women are crazy about shopping, but her husband is missing, she still has the heart to go shopping."

"Look at the age gap between these two people. It seems that this kind of woman is with Zhang Baoshan only for money. I even suspect that this woman may have something to do with Zhang Baoshan's disappearance. Anyway, we must find this person first."

Everyone nodded and started to act separately. Qin Yuan recalled what the staff who brought them into the villa said in the morning. When Gao Shiwei couldn't get in touch with Long Xiaoyun, he immediately contacted the local police and asked them to go to the villa to check .

Chapter 827: ??illegitimate daughter

When they arrived at the villa, only Sonamomi was lying unconscious on the ground, and the others were completely gone.

Based on these points alone, we know that So Nami is a very key person. Maybe she knows the key clues to Long Xiaoyun's disappearance, but the local police just let her go without even investigating him.

Their reason was that local citizens could not be detained illegally. Qin Yuan was very speechless with their attitude, which completely dragged down his progress, and he had to check many things slowly by himself.

Qin Yuan took Li Erniu to one of the properties. It is located in the most prosperous area of the city center. Registration is required to enter. The security here is very strict. No matter what, Qin Yuan and the others did not have a visit certificate, nor did they receive the owner. There is no way to come to the door with an invitation.

"We are the soldiers of the Yan Kingdom who are responsible for investigating the disappearance of our internal personnel. Please cooperate actively, otherwise I don't mind going directly to your local government to solve the problem, but I don't want to make this matter a big deal."

After hearing this, the security guard thought for a while. If it would be too troublesome to contact the local government again, he waved his hand to let them in. After Qin Yuan entered, he found the address they uploaded on the computer.

Qin Yuan has been praying that you must have someone, otherwise he can't delay any longer. After ringing the doorbell, two minutes later, Qin Yuan listened carefully, and heard footsteps from upstairs. It seems that he is lucky, here I found someone, but I don't know if it's Sonamomi.

After a while, the door opened to a long-haired woman wearing pajamas very lazily. This person was Sonamomi. Looking at Qin Yuan outside the door, she was a little curious, "Who are you?"

Qin Yuan informed himself of his identity and walked directly into the room, "What happened before you passed out? I'll give you five minutes. I need to know everything before. Remember, pick up the important ones and say I don't have time to waste ."

"Damn! Who told you to come in directly, you have no right to enter my house, get out of here quickly, or I will call the police!"

Qin Yuan lifted the woman onto the sofa like a chick, and looked at her coldly, "I tell you that my patience is really not enough now, and I suspect that you have absolutely something to do with Zhang Baoshan's disappearance, your husband disappeared Now, isn't it problematic that you don't care about living such a luxurious life every day?"

"Hehe, you actually investigated me behind the scenes. Who gave you this right? Let me tell you, you said that you have caused slander, and I won't tell you anything. Please get out quickly, and I will report now. *police."

Qin Yuan has run out of patience, and it seems that he wants to give this woman some power. The Sonamite in front of him is very arrogant and domineering. He stretched out his right hand and patted the marble coffee table in front of him. After a "bang", the heavy marble coffee table Just like that, it broke into several petals.

"Ah! Madman!"

"I just want to know the answer I want. I know you are a smart person. If you don't cooperate, I can't guarantee what I will do in the next second."

After Suo Namei knew that Qin Yuan was a soldier of the Yan Kingdom, she concluded that he would not dare to act recklessly, but she didn't expect that Qin Yuan would not listen to him at all, and only wanted to know the information she wanted.

She was obviously frightened, and the power was too strong, so Sonamie stammered what happened that day.

At that time, Zhang Baoshan was going to attend the hearing. This was a hearing against guns. He was the main speaker. Long Xiaoyun and the others were responsible for escorting him to the hearing and protecting him at the scene. At that time, Sonam In the room on the second floor, suddenly, she heard the sound of a car suddenly braking downstairs.

Standing at the window on the second floor, she only saw some men in black getting out of the car. They were all wearing masks, and then these men in black dropped smoke bombs. It was very chaotic below. Sonamie screamed loudly in fright, she Hurry up and lock the door on the second floor.

Unexpectedly, these people broke into the door, and then she lost consciousness. When she woke up, she found that she was rescued by the local police.

After hearing this, Qin Yuan felt that this woman was not telling the truth at all. Even if these people dropped smoke bombs, with Long Xiaoyun's reaction speed, these people should be controlled by them before they entered the villa. How could they be allowed in? If we act in the future, Long Xiaoyun and the others won't be so stupid as to stand like this and let others come in and fight.

And what she said was that these people broke into the house. They investigated the entire villa and found no traces of destruction. This woman is really cunning. This situation threatened her. Before telling the truth, Qin Yuan asked Li Er Niu went out to guard himself, and he wanted to conduct some special interrogations on her.

"Brother Qin, pay attention, your mood is too wrong today, don't make mistakes!" After Li Erniu finished speaking, he walked to the door. The disappearance of Long Xiaoyun caused Qingyuan's entire mood to fluctuate greatly. Seeing such an irrational Qin Yuan for the first time, I felt like he would explode at any time.

Qin Yuan nodded and reassured Li Erniu that he had his own sense of propriety. He just wanted to use the charm skill on Sonammi. It would be inconvenient for Li Erniu to be present. He couldn't let others know, so he sent him away.

Seeing Li Erniu walking out, Suo Namei panicked instantly. He curled up on the sofa with a trembling voice, "You, what are you going to do to me? I've already told you what I saw and knew."

Qin Yuan sneered, raised his eyes to look at Sonammi, and her eyes immediately became hollow, and Qin Yuan asked the most real situation, but this news still shocked him a bit.

Unexpectedly, Suo Namei was stunned by Zhang Baoshan. He only knew that after Zhang Baoshan gave her a glass of water, he fell into a coma. He did not know what happened afterwards, but before Zhang Baoshan gave her water, someone did come When they arrived at the villa, those

people were invited by Zhang Baoshan. Anyway, she only remembered those people coming to the villa.

He has never seen anyone who came to the villa, and Zhang Baoshan did not explain to Long Xiaoyun and the others, but said that these are some of his customers, it seems that they are the people who came to the villa, but why did Zhang Baoshan stun Suo Namei? , this matter is really getting more and more confusing.

Moreover, according to Sonamie, Zhang Baoshan is not a simple person. He not only employs many powerful bodyguards, but also has practiced some self-defense jujitsu. The reason why he opposes guns so much is for his own safety. For him, gun assassination is indeed the biggest threat to him.

"Then do you know what he is afraid of? Did you find anything when you got along with him?"

"He is very careful and vigilant, and he didn't tell me some things, but he said before that if he disappears, don't call the police. He can guarantee that he is fine, but don't let the police get involved."

So this is the reason why the police are perfunctory. It seems that Zhang Baoshan should have other forces to obstruct the local police. Directed and acted.

According to this situation, Long Xiaoyun and the others should be safe, but why did Zhang Baoshan do this? Was he hiding from someone by planning his disappearance? Qin Yuan now feels that his head is not enough, and one problem after another comes one after another.

So Nami didn't know what was going on at the end. Qin Yuan stood up irritably and looked around in the villa. He came to Zhang Baoshan's study. Ordinary people would definitely not see any problems when they came in, but Qin Yuan With world-class hacking skills, it will automatically sense in the brain after entering.

There is a monitor in this, which is very interesting. This is Zhang Baoshan's own home, he will definitely not put a monitor, Qin Yuan took the monitor off, plugged it into his computer, and quickly checked for any other clues .

After the monitor was plugged into the computer, Qin Yuan quickly cracked the password and was able to track and show the receiving location of the monitor. He immediately walked out, ready to take Li Erniu to this location.

Before going out, Qin Yuan snapped his fingers, and Suonami woke up from the sofa. She was very surprised, why she fell asleep on the sofa when she was clearly talking to Qin Yuan just now, and no one from Qin Yuan Here, I don't even know when this person left.

Qin Yuan asked Li Erniu to inform the other team members of the red blood cell team. It is definitely not easy for everyone to install bugs in Zhang Baoshan's home. With Zhang Baoshan's suspicious personality, there are so many bodyguards around him. , must be someone close to him.

The location of the bugging device shows that in the blue house in front of you, after Qin Yuan went in and knocked on the door, there was no answer for several minutes. Li Erniu and the others looked inside the house and saw no one. no one?

"Erniu, go to the back door and guard it. There are people in the room. I have heard the movement and am going to force my way in."

"Yes!"

Qin Yuan grabbed the door lock with one hand, and with such a forceful pull, the door lock of the anti-theft device was removed by Qin Yuan abruptly. He Chenguang who was next to him was stunned. He was already prepared to kick the door I didn't expect Qin Yuan to tear down the door with his bare hands.

At this time, there was movement from the second floor. Qin Yuan and the others quickly went upstairs to form an attacking formation. Qin Yuan took the lead and came to the room where the movement was coming from. He kicked open the locked door of the room.

In the room, a short-haired girl was holding a gun, facing Qin Yuan and the others nervously. The girl was very scared, her hands trembling, and she was about to shoot in the next second. Qin Yuan rushed forward with a stride and the gunshot sounded, thinking that the girl missed the shot. , hit the chandelier on the ceiling.

He kicked the gun in the girl's hand and flew it under the boat, and immediately controlled the girl. How could this kind of girl be his opponent?

"Who are you? Why did you come to my house suddenly? Do you want money? My father is very rich, and he will give it to you, as long as you keep me safe."

"What father! Who is your father?"

"I, my father is Zhang Baoshan, he is very rich, as long as you let me go."

Qin Yuan let go of his hand when he heard this, but he didn't expect that the girl wanted to escape through the window, and was grabbed by Qin Yuan again, "I said you are so confident, can you escape? And we won't hurt you, I am a soldier of the Yan Kingdom, my name is Qin Yuan, this time I just want to find my missing teammate..."

Before Qin Yuan finished speaking, the girl interrupted him excitedly, "You are a soldier of the Yan Kingdom! Then I believe you, and I will tell you everything!"

Qin Yuan was confused by what and what? When the girl knew Qin Yuan's identity, she instantly became very excited, as if seeing a savior, she immediately told everything obediently.

The girl's name is Zhang Xiaomin, and she is Zhang Baoshan's illegitimate daughter. Why do you say she is an illegitimate daughter? It was because it had never been made public, so when Qin Yuan searched for information, he did not find Zhang Xiaomin's existence.

Zhang Baoshan is very rich, and it is very common for illegitimate children to have illegitimate daughters. According to Zhang Xiaomin, she has six or seven brothers and sisters, but she is the only one who survived.

Zhang Xiaomin's biological mother also died accidentally, but this is what Zhang Baoshan said. Zhang Xiaomin didn't believe that her mother would die accidentally, because her mother said before that she would not live long. The last time she saw her mother, the mother told her that if there is any situation, as long as she meets the soldiers of the Yan Kingdom, she can ask them for help. They are the most trustworthy people.

"Since you are all his illegitimate children, how do you know that you are the only one who survived? And maybe your mother died accidentally. Are you so sure that she was artificial?"

"I'm sure Hehe, he thought we didn't know about each other's existence, but in fact we are all connected. My half-brothers and sisters all died in accidents and disappeared, so I started investigating. For this matter, a bug was installed in his room."

Zhang Xiaomin did not lie about this point. As his illegitimate daughter, she must have been to his house. It is not difficult to install a bug in his house. After all, she would not suspect her own children.

After Zhang Xiaomin installed the bug, he learned that his brothers and sisters were all killed by Zhang Baoshan's enemies. He never released the information of these children, but the people behind them were able to investigate.

And her mother concealed her information to protect herself, so she was killed by those bad guys. Zhang Xiaomin handed the bug to Qin Yuan, which contained very important information. She told Qin Yuan that Zhang Baoshan's identity is not simple, and it also involves vaccines. It seems that it is related to vaccines that they are hunted down by those people.

"Then why do you trust us so much, aren't you afraid that I will attack you?"

"No, I believe my mother's judgment. She has arranged everything for me before she died, and what she said has been verified. She said that Zhang Baoshan would disappear, but she did not expect to disappear."

Chapter 828: Long Xiaoyun trapped in the maze

After she monitored Zhang Baoshan, she found out that it was not that simple at all. Her father's identity was not only a wealthy businessman, but also involved an anti-cancer vaccine.

It was precisely because of this vaccine that the whole family was hunted down, so the identities of their children could not be exposed. Every time Zhang Baoshan gave them living expenses, it was a cash transaction, so there was no evidence left.

Zhang Xiaomin is just a college student at school. She didn't know about these things at all. One day when she was in class at school, she found that her mother came to school in a panic, asked the teacher for leave, and took her back for a week.

She was not allowed to go out for a week. During this period, Zhang Baoshan visited them twice. Zhang Xiaomin was very strange to this father who only knew how to give them money, and had almost no communication with him. She only remembered that he came to find mother time.

The two whispered some secrets in the room, and Zhang Baoshan told Zhang Xiaomin's mother that those people might have just discovered it by accident, so she didn't have to worry too much.

But Zhang Xiaomin's mother was very emotional, she shouted loudly: "How could it be an accident, both their mother and child disappeared, I went to the scene, it was not missing at all, I saw blood flowing out of the room, you It's really scary, don't you know?"

Please help, you can steal book tickets like stealing vegetables, come and steal the book tickets voted for by friends' book tickets.

After Zhang Xiaomin heard this sentence, her nerves collapsed in an instant. When she wanted to continue listening to what was missing and what was bleeding, Zhang Baoshan found her and yelled at her mother, telling her not to mention this matter again.

After Zhang Baoshan left, Zhang Xiaomin immediately questioned her mother, but she didn't say anything, she just kept crying, and told Zhang Xiaomin to be careful on the road, and to run away immediately if she found any suspicious person following her.

After a week like this, nothing happened, and Zhang Xiaomin continued to go to school again. Her mother told her not to interfere. The things inside were so complicated that she didn't even know about it. Let Zhang Xiaomin just go to school with peace of mind.

Although Zhang Xiaomin promised her mother, she still conducted an investigation in private. Zhang Baoshan treated them well and was very generous financially, so Zhang Xiaomin also had a lot of money, and she used the money to scout for news.

Originally, she was not allowed to go to Zhang Baoshan's house in name, but Zhang Baoshan had several properties under his name, and it was also because of Zhang Baoshan's birthday that everyone gathered together. Only then did she know that with his Zhang Baoshan Baoshan has six children in total.

It was because of this opportunity that she installed bugs in the room, and quietly tracked down those brothers and sisters, knowing their exact location, and asked her mother many times. Only then did she know that the week before she was asked to come back was One of Zhang Baoshan's illegitimate children was murdered in the house together with the woman.

Zhang Xiaomin's mother is very low-key. Although they are not short of money, she asks Zhang Xiaomin to be an ordinary person in many ways. Zhang Xiaomin always takes the bus to eat after class. No one knows that her family is actually very rich.

It was also thanks to Zhang Xiaomin's mother being so cautious that they escaped unharmed. Although Zhang Baoshan hid these illegitimate children very secretly, they were still discovered by people behind the scenes. Those people threatened Zhang Baoshan with these illegitimate children and brutally tortured them. s damage.

After Zhang Xiaomin learned that her brothers and sisters were killed one by one, she was very worried about the situation of herself and her mother. Unexpectedly, this day came. Her mother never came home. Finally, her mother called. It turned out that she was followed on the road. , did not go home and took these people elsewhere.

Before she died, she made the last phone call to Zhang Xiaoming, telling her to hide well, don't go to Zhang Baoshan, that person is too cold-blooded, and told her that if she could meet Yan soldiers, she must ask Yan soldiers for help. Because the mother is also from Yan Kingdom.

After Zhang Xiaomin finished speaking, her eyes were full of tears. Later, she learned of Zhang Baoshan's disappearance, but before she had time to conduct an in-depth investigation, Qin Yuan and the others came to the door.

Qin Yuan picked up the bug, which revealed a very important clue. Qin Yuan could only amplify the sound, and he should be able to hear it with his hearing. The monitoring range of this bug was the inside of the study. The situation downstairs was also monitored.

The sound was very muffled, but I could barely hear the conversation of several people.

"Just do it like this, remember to clean up all traces of the scene!"

"Mr. Zhang, what about those people?"

"Take them all back. They are very important pawns. This step is very critical. Remember that this matter must be done in a leak-proof manner. You should also take care of the local police."

After hearing these few sentences, there was a very noisy interference sound at the scene, which should be caused by some kind of electronic equipment interference, and the range was relatively wide, Qin Yuan really couldn't hear what was said below.

Although he only heard these few sentences, Qin Yuan concluded that Zhang Baoshan's disappearance was likely to be directed and acted by him, and Long Xiaoyun and the others were

indeed taken away by him. This is one possibility, and the other possibility is He was really kidnapped, but what is the purpose of this man?

Unexpectedly, at this time, Zhang Xiaomin's phone rang. She saw a strange caller and looked at Qin Yuan very nervously. Since her mother died, no one would make this call at all, because this calling card is only her and her own. Mother knows.

"Should I answer this call? Will it reveal our location?"

Qin Yuan answered the phone, clicked on answer, and turned on speakerphone.

"Hi! Who are you?"

"Hahaha! I knew that if there were no accidents, you should be the famous Captain Qin Yuanqin, right?"

Zhang Xiaomin whispered next to him, this person's voice was Zhang Baoshan, He Chenguang and the others were shocked, so how could this person know Qin Yuan?

"Zhang Baoshan, what do you want? Where is my comrade-in-arms, I advise you not to play tricks, otherwise you know my tricks."

"Captain Qin really didn't let me down, but you should calm down first, I know I can find my daughter with your ability, now he is my only remaining blood, I hope you can protect her well, of course I still want you Help me with other things to keep your teammates and me safe."

"Hehe, your kidnapping is really self-directed and self-acted. Since you kidnapped yourself, why is it dangerous? Hurry up and hand over my comrades in arms. As for why I should help you with other things, I am I hate being controlled by others the most."

Zhang Baoshan over there burst out laughing, and said mysteriously, "Captain Qin misunderstood, it's because of my improper use of words, it's our cooperation, you will definitely cooperate with me!"

After Zhang Baoshan finished speaking, he hung up the phone. After a while, he sent a set of videos. After Qin Yuan clicked on it, he found that it was Long Xiaoyun and the others. At this

moment, Long Xiaoyun and the others seemed to be in a huge maze. Xiao Yun led the Wolf Warriors team around in the maze, but couldn't find a way out.

No wonder Long Xiaoyun's positioning system can't display it. It turns out that Zhang Baoshan has used special means to block this kind of maze. This person is really despicable. Long Xiaoyun is obviously going to protect him. One army?

Along with the video, there was also a passage from Zhang Baoshan, which roughly meant that Qin Yuan must do what he said, otherwise Long Xiaoyun and the others would be trapped in this maze. His maze is world-class, and they Can't get out at all.

Oh shit! This despicable villain Qin Yuan gritted his teeth with hatred, and he called Zhang Baoshan directly.

"What is your purpose for doing this? And your daughter is in our hands, so don't you worry that I will use her to blackmail you?"

"Captain Qin is worrying too much. In fact, I did all this just to lure you out. I want you to help me deal with those difficult opponents, but don't worry, those people are not good people. I will definitely not let you go." criminal."

"Didn't you hear what I said? Now that your daughter is in my hands, we are actually in an equivalent situation. I don't want to help you with those things. Now you let my teammates out, and I will put your Let the daughter go back, and the two will be settled like this!"

Zhang Baoshan still said calmly: "Captain Qin is a strict soldier, I know you will not do such a thing, and it is also your duty to protect the citizens of our strict country! Now your choice is very simple, just choose Cooperate with me, and I will send you specific tasks later."

After hanging up the phone, Qin Yuan gritted his teeth and wanted to smash the phone. This person was simply too despicable. Next to him, Zhang Xiaomin curled up on the bed and looked at Qin Yuan in great fear. Although his mother and father said You have to trust the soldiers of the Yan Kingdom, but seeing Qin Yuan's current state, she is also very afraid that she will suddenly attack her.

After all, Zhang Baoshan kidnapped his teammate, so why would he help him at a time like this?

Qin Yuan sighed, and adjusted his emotions. Recently, his mood swings are really too big. When the fetters of this kind of feelings are getting deeper and deeper, it is difficult to control his emotions.

"Don't worry, we won't hurt you. I know you are innocent too. We will not only protect you, but also rescue my comrades."

"Thank you! Zhang Baoshan is very cold-blooded, and now it's only because I am the only one left of his illegitimate child, otherwise he might not care about me."

Qin Yuan thought for a while, since he could find this place, and Zhang Xiaomin's mother was followed before, it means that this place is very unsafe, now move Zhang Xiaomin out first, and then he will follow our Baoshan policy just to see what he is going to do next .

After a while, Zhang Baoshan sent an address. Qin Yuan recalled that this address was not in Zhang Baoshan's property. Qin Yuan immediately set off with the members of the red blood cell team, just 20 minutes after Qin Yuan and the others left. , a black car stopped in front of the building where they were just now.

Two people came down from below. These two people sneaked into the house furtively, and they came to look for Zhang Xiaomin.

"It smells of gunpowder inside. Someone came in with a gun. In addition, there are marks of gunfire on the ceiling. According to this angle, the gun should have been shot by that girl. They left not long ago. If we came earlier All right."

"Abit, can you smell anything else?"

This Arbiter has a very sensitive sense of smell, and the other is Amanda. Both of them are members of a killer organization. Arbiter lay on the ground and carefully smelled the smell in the room.

"I didn't find any other clues, but I know that no one was injured, and there was no smell of blood at all. The girl was taken away by them voluntarily. Except for the shot on the ceiling just now, there are no other traces of struggle."

"Could it be that the girl was stunned by their drugs and then taken away?"

"No! No matter what drug it is, there will be some smell left, but I didn't find it. The room is very clean. It can even be said that they have done treatment before leaving to remove some traces. They are very professional. I doubt that it may be the same as We are the same people."

Amanda nodded, took out her mobile phone and reported the situation to the boss. It seemed that the girl had been taken away first by others, but I don't know if that group was also a killer organization.

"Did the boss send other brothers over before us? This method is very clean, could it be our brothers who did it?"

"I only photographed the two of you in the past. Since the target is the target, let's come back first. It's quite interesting. Someone dared to intercept our things."

On the other side, Qin Yuan and the others brought Zhang Xiaomin to the address issued by Zhang Baoshan. This place is not as prosperous as before, and it is obviously a local slum. The environment is very dirty and messy. There are garbage and lying on the ground everywhere on the street. vagrants.

When these people saw Qin Yuan, they were scared and hid in the alleys. After all, they were wearing camouflage military uniforms. It seems that these government personnel will clean up the people in the slums from time to time, so these people see them like this Fear.

Zhang Xiaomin has lived in a relatively superior environment since she was a child. Although her mother restricts her expenses, the conditions are better than this. She holds her nose and she doesn't like the smell here very much. I don't know what the **** Zhang Baoshan is doing. Let yourself come to this shabby place.

Qin Yuan and the others came to a dilapidated building, the big lock on it was already stained with rust, Qin Yuan tore off the lock on the door with a strong tug, and several people entered the room, which had been vacant for a long time, There was dust everywhere and a very bad smell.

A young lady like Zhang Xiaomin can't stand it at all, "What the hell, I can't live here today! I can't live in this kind of environment, how can people live here, it's just a garbage dump, I want to go back!"

Chapter 829: ? run away

"Okay, don't play your temper on your eldest lady, don't you know what's going on now? That place is no longer safe, so you just stay here honestly."

Qin Yuan and the others are not used to this young lady's temper. Now he only cares about Long Xiaoyun's situation, and this Zhang Baoshan also has his purpose in doing this. Relatively speaking, it will be safer in this kind of slum.

Because even those criminals would never have imagined that Zhang Baoshan would hide his daughter in such a dilapidated slum, and with the protection of Qin Yuan's people, the more dangerous the place, the safer it would be.

Zhang Xiaomin knew that Qin Yuan and the others were very powerful, so he didn't dare to resist, but he still wanted to find a chance to escape. After all, he couldn't stay in this kind of place for a minute, there was dust everywhere, and there was an unpleasant smell. There is no electricity. If there is no mobile phone and no electricity, she will have no way to live.

Qin Yuan and the others were not so particular, and sat on the ground waiting for Zhang Baoshan to send the next action instructions, because now Zhang Baoshan is in the dark after all, and Long Xiaoyun and the others are also in his hands, so they can only cooperate with him first.

At this moment, the Wolf Warriors team in the maze was in a state of collapse. Fan Tianlei looked at his watch and sat down beside him, "Dragon Team, we have been walking for four hours. The buildings here are all the same. According to the marks we made just now, We're back again."

Long Xiaoyun is also covered in sweat. The ventilation in this place is not very good. It is impossible to judge which side is the exit through the ventilation. It is extremely hot, and this maze is too big. They have been trapped in this place for two whole days. .

"Don't go, let's take a rest first! If this continues, our physical strength will be exhausted, and there is no way to deal with any unexpected situation later."

"Long team, what's the situation? The Zhang Baoshan we protected is gone. The most important thing is whether the country knows about our situation. If they know, they will definitely send someone to look for us."

"Don't worry about this, Lao Gao and the others must know about our situation, because it was agreed to report to him on the progress of the work every day. It seems that we can't get out of this

maze. Let's just rest in place today. Conserve your strength, Qin Yuan and the others must have come to us."

Long Xiaoyun didn't know what was going on. They were on duty in Zhang Baoshan's villa at the time. At this time, a gardener walked towards them pushing a large pot of flowers. This was also a routine inspection. After all, there are hidden dangers in flowers. Because of the factors, Long Xiaoyun asked him to stop and prepare to check.

The gardener shook the flowerpot with a smile and told himself that there was nothing wrong with it. At this moment, a strange fragrance came out of the flowerpot. The gun feels powerless.

Watching the team members fall down one by one, I couldn't hold myself down. When they woke up, they found that they were in this maze, and the weapons in their hands were gone.

This maze is very big, no matter how they go, they feel that they will return to the same place and cannot get out, and Long Xiaoyun found that this maze will change every six hours, even if they mark it before, all routes will happen Change, no matter how you experiment, you can't get out.

But there is a good news that they don't have to worry about food in this place. Some food and water will appear in the maze every once in a while. No more, Long Xiaoyun took the lead in experimenting with the food and let his team members eat it if there was no problem.

It seems that the person who brought them into this maze didn't want them to die, and Long Xiaoyun didn't know whether this person's purpose was to test the maze or to hold them back to achieve what purpose? After two days of trying, Long Xiaoyun also gave up a little bit.

Zhang Baoshan looked at the people in the maze and laughed. Even Qin Yuanlai would definitely not be able to get out of this maze. The blueprint of his maze was made by a world-class master. Once someone enters, it will be created every six hours. Changes will form a new map, and people trapped in it will never be able to get out.

The subordinate next to him asked: "Mr. Zhang, why did we imprison them in this place? In fact, their abilities are not bad, and we can use them to eliminate those people."

"No! You don't understand that their strength is not as good as those people. According to my dealings with those people for many years, only Qin Yuan's strength can defeat them at present."

"But why didn't you just ask Qin Yuan and the others to protect you? There's no need to imprison these people."

"I didn't expect these people to be sent by them. I originally went to Qin Yuan from the beginning. I have investigated this person many times. He is very capable. There is absolutely no problem. It's alright, there are some things It's not your place to ask, give them some food."

"Yes!"

Zhang Xiaomin's mobile phone was always held by Qin Yuan, because he was worried that Zhang Baoshan would send a message, and he had to see it immediately. At this time, the mobile phone vibrated, and Qin Yuan quickly clicked on it to check.

Another video was sent on the phone, it was Long Xiaoyun and the others eating, and Zhang Baoshan reassured Qin Yuan that he did not do anything to hurt Long Xiaoyun and the others, and then another message came.

"Tomorrow morning at 7 o'clock, No. 85 Baoshan Street, I will give you the specific mission location and time, but first of all, my daughter's safety must be guaranteed."

Gong Jian frowned when he saw this message, "Captain Qin! What happened this time was beyond our imagination. He asked us to complete these tasks. Could it be that he made us commit crimes on purpose? I suspect this is a trap. "

Qin Yuan thought for a while, "This should be impossible, and he didn't need to go around such a big circle, and heard from the previous bug that he was hunted down by a mysterious organization precisely because of the anti-cancer drugs he got. Nurturing."

Gong Jian and the others were actually worried that Qin Yuan would do wrong things under the influence of Long Xiaoyun. Although they were also worried about Long Xiaoyun's safety, if they went on the road of crime because of this matter, Qin Yuan ability, it may really not come back.

"But be careful in everything. When you get there, you will follow my command in all actions. If he really wants us to commit crimes, I will definitely not do it. Even if it is changed, Long Xiaoyun will not do so. Don't worry, I, Qin Yuan Not that kind of guy."

"Brother Qin, we all understand your temperament, but this time the situation is really special, but don't worry, no matter what decision you make, we will support you."

Gong Jian and the others also prepared for the worst. Although they said so, if something really happened at that time, they would definitely stand in the united front with Qin Yuan.

It's still early, everyone can rest first. Zhang Xiaomin came over and asked for her mobile phone back. She couldn't live without her mobile phone. Qin Yuan ignored her at all. Now the battery of the mobile phone is running out, so the mobile phone must be guaranteed unimpeded.

Zhang Xiaomin asked for it a few times, but Qin Yuan ignored her at all, and walked into the room dejectedly and locked the door. She didn't want to stay with these people all the time. Qin Yuan had already checked, that room had no windows, it was just a small attic .

Qin Yuan also let her go. After all, they are a group of men, Zhang Xiaomin is just a girl, and it is really inconvenient to be with them.

At this time, Zhang Xiaomin opened the door and yelled that she wanted something to eat. Li Erniu threw her a pack of compressed biscuits. They all had to have this kind of dry food. Unexpectedly, Zhang Xiaomin looked at it and threw it on the ground.

"I don't eat this kind of stuff. Is it human food? I want pizza. I want human food."

When Li Erniu heard this, he immediately became angry, what is meant by not being eaten by humans, how does this little girl speak with a gun, and the bag is still chocolate flavored, so he is reluctant to eat it.

"If you like to eat or not, you will starve to death."

Seeing that they did not compromise with her, Zhang Xiaomin was very unhappy, "My father asked you to protect me, so you will protect me like this? Then I will starve to death. If there is no pizza, I will bite my tongue and die. I will starve to death." Myself."

"I'll go! You are a brat! How old are you, you dare to threaten us?"

Qin Yuan looked at the battery of the phone. Even if Zhang Xiaomin didn't play with the phone, the battery might not last. He asked Li Erniu and the others to stay here and guard Zhang Xiaomin. He went out to see if he could buy a power bank, and then went to see Let's buy some food, otherwise Zhang Xiaomin won't be able to make such a fuss.

Qin Yuan and the others also felt that their heads were too big. If they faced those criminals, they could just knock them out, but a young lady like Zhang Xiaomin was really difficult to deal with.

After all, this is a slum and a crime-prone area, so He Chenguang and Qin Yuan went shopping together. They walked more than 3 kilometers before they walked out of the slum and finally saw a fast food restaurant.

The most important thing is that there are no electronic products sold in the vicinity, and you can't buy power banks. Qin Yuan's head is about to grow. Do you want to go to other places? The two planned to go to the fast food restaurant first and ask the local clerk, where can I buy a power bank here.

The cashier was playing with his mobile phone with his head down, Qin Yuan walked over, "Hi, please give me some pizza."

The cashier was a little upset when he was interrupted while playing with his mobile phone. He just raised his head and saw Qin Yuan's face. It's so handsome! Immediately changed his attitude and said with a smile: "Hello, guest, what flavor do you want?"

Qin Yuan has never bought pizza before, so I don't know which flavors, so let her do whatever she wants, buy seven or eight portions first, Qin Yuan also asked where to buy power banks, the cashier was helpless Spread your hands and tell him that there are no electronic products in the vicinity of 10 kilometers.

"You are foreigners, and you may not know the situation here, because this is a slum, and robbery cases often occur in this area, and no electronic products dare to open stores here."

Qin Yuan had no choice. Originally, he wanted to remove the calling card and put it in his mobile phone, but the foreign calling card did not match their mobile phone, so he couldn't put it in at all.

Unexpectedly, the salesman gave a charming smile, "But, handsome guy, I can help you solve it. I have a power bank here, and I can give it to you. You just need to give me your contact information!"

He Chenguang almost choked on water by the side, I'll go! This person is more popular than the dead! Are the people here so active? It seems that it is better to have a good-looking face to handle affairs, and the beauties are delivered directly to the door.

Qin Yuan took out the money in embarrassment and said that he could buy the power bank. The cashier curled his lips. In the other place, the cashier was too proactive, winking at Qin Yuan all the time, he couldn't stand it.

"Hahaha, Brother Qin, I think you are very lucky, peach blossoms will bloom wherever you go!"

"You kid is embarrassed to laugh. I didn't even come to help me just now. Because of this power bank, I was touched by the cashier several times."

He Chenguang felt like he was about to burst into tears. He used to be a man who molested a woman. He didn't expect Qin Yuan to be molested in this place.

Qin Yuan rolled his eyes at him. At this moment, his mobile phone was vibrating all the time. After he picked it up, Li Erniu's voice came in.

"Brother Qin, it's not good for you to come back soon, that chick has escaped."

"What's the situation with you guys, come out and look for it quickly, can't you even look after a child?"

Qin Yuan hung up the phone, took He Chenguang and quickly ran towards the slums, Gong Jian and the others had already led people out to search, and Li Erniu was waiting for Qin Yuan in the slums.

"Li Erniu! You are special forces members, you can't even look down on a child, making such a low-level mistake."

Li Erniu also felt very innocent. This Zhang Xiaomin said that he was going to the bathroom, so it is impossible for them and the elders to go into the bathroom, and he also checked that the window was very high and very small. He thought that Zhang Xiaomin must be won't run.

Recommended, the novel app I am using recently supports both Android and Apple phones!

Unexpectedly, there was no movement for a long time, and there was no response when they knocked on the door. Finally, they broke in and found that no one was there. Zhang Xiaomin really ran out through that window.

"What do you think she won't run away? This little girl has a lot of tricks. She is our only bargaining chip now. She shouldn't be far away now. Hurry up and go out together to find her."

At this time, Zhang Xiaomin was wandering around in the slums. The clothes she was wearing seemed to be expensive, and she was quickly spotted by some people. After all, this place is a crime-prone area.

At this moment, she didn't know the danger at all, she just felt that she was not afraid of the cage she escaped from after living alone for such a long time, and now she went out to buy something to eat, and she went back after shopping.

It's a pity that this place is too poor, and only a few broken breads can be bought. At this moment, she is hungry, holding the bread and eating it. At this time, several men walked up around her.

Chapter 830: ???1 penalty

The man in the lead smiled maliciously, "Is this little sister lost, do you want my brother to take you to play? Brother, there is a lot of time here."

Zhang Xiaomin gave him a blank look, turned around and was about to leave, but was grabbed by the man, "Let go of me, what do you guys want to do! You disgusting, stinky trash, get the **** out of here!"

When the men heard Zhang Xiaomin's scolding, instead of being angry, they laughed out loud, "I didn't expect this chick to be quite hot. She looks like a school girl. Today, I'm cheap."

Zhang Xiaomin was very scared, and now she regretted why she ran out, and she didn't bring any communication equipment with her mobile phone, and she couldn't contact them at Qin Yuan's place.

"What do you want to do? In broad daylight, aren't you afraid that I will call the police? Also, my father is very powerful, he will definitely not let you go."

"Hahaha, it seems that this student girl is quite naive. What area are we here? Let me tell you, even if you die here, the police may find out, but don't worry, A little beauty like you, I definitely can't bear to watch you die, I will definitely keep you well."

It's not that Qin Yuan and the others couldn't find Zhang Xiaomin, because this is a slum after all, and there are alleys everywhere. After the window Zhang Xiaomin jumped out of, there are more than a dozen alleys, criss-crossing, and it's really difficult for a while. turn up.

There were some beggars squatting in front, and Li Erniu ran over to ask them if they had seen a girl, and a dirty woman at the front said, "I'll tell you if you give me the money."

Li Erniu had no choice but to take out a coin from his bag and stuff it in her hand, "Tell me now, have you seen that girl?"

Unexpectedly, it was just such a move, but it caught the attention of the beggars nearby. Everyone saw that this man had money, and they all rushed over. Li Erniu could only keep avoiding to avoid confrontation with them.

The people in these slums have problems with how to survive every day. They eat three meals without a meal, so this is also a high-incidence area for crime. Suddenly they saw a man with money in his hand, so everyone wanted to come to share it. a cup of soup.

At this time, a woman rushed forward, trying to bite Li Erniu's arm, Qin Yuan who came out from behind kicked the woman away, and several people who came up next to him were knocked down by Qin Yuan.

Gong Jian immediately rushed up and grabbed Qin Yuan, telling him not to do anything more. After all, these people are ordinary people, "That's enough, please treat them as if you just want to live, there is no need to make such a big deal of death."

Gong Jian felt more and more that the mood of willingness was too unstable, and he would not usually make such a move. He was very worried that things would develop in the direction of deterioration, so Qin Yuan pushed him away.

"Who do you help me be? Look at what that woman is holding in her hand. If this thing is pierced into Er Niu's body, do you know what will happen?"

Everyone took a closer look and saw that the woman was holding a half-stained needle tube in her hand. Qin Yuan walked over and lifted a thin man to lift the clothes on his arms, which were densely covered with needle holes.

Everyone gasped. Li Erniu was obviously a drug addict and didn't know what kind of infectious disease he had. Li Erniu's scalp was numb, so he asked Gong Jian to quickly take out alcohol to disinfect him. After all, he and these people just now Been in close contact.

"The kindness to the enemy is the sacrifice of our own personnel. I will definitely protect you. From now on, everyone should be careful. This place is not bound by the law at all."

Gong Jian lowered his head after hearing this. It seems that he misunderstood his wish and felt a little ashamed. He really shouldn't doubt Qin Yuan. They have gone through life and death so many times, so he has to fully trust Qin Yuan's judgment.

Those addicts are just bullying and fearing hard. After seeing Qin Yuan's attack, they ran away in fright. At this time, Qin Yuan heard the call for help from the alley in front.

He quickly ran to the front. At this moment, Zhang Xiaomin was being dragged by those men. With tears in her eyes, she tightly pulled her clothes to prevent them from tearing them apart.

A man standing behind just felt a pain in his back and lay down on the ground, "Damn it! Who the **** hit me?"

Then Qin Yuan kicked him directly on the chin again, and the man flew into the trash can next to him. The people next to him were instantly angry. Someone dared to do something to them in this place, and they all rushed up.

These people were not Qin Yuan's opponents at all, and within two minutes they were all beaten to the ground by Qin Yuan, begging for mercy on their knees.

Zhang Xiaomin had tears in her eyes at the moment, she was terrified, she kept shaking her head and said, "I'm sorry, Captain Qin, I shouldn't have run out without permission, I know I was wrong."

Qin Yuan didn't say anything, he took off his clothes and put them on for her, and then everyone went back to the residence together. There is death in this slum, and violence is happening every day. This time it can be regarded as a lesson for the young lady Zhang Xiaomin.

Now she won't run away even if she is asked to run away. Before, she hated Li Erniu's sweaty body and didn't want to stay with them. Now she is sitting in the living room very obediently, eating with everyone.

Zhang Xiaomin thought it was over, but Qin Yuan suddenly stood up seriously and said, "Everyone, except He Chenguang, stand up!"

"Everyone is responsible for today's matter. Protecting hostages and guarding hostages is something we train every day, but you look at what kind of ghosts you are training. I really relax on you. The 100 push-ups will start now."

Without further ado, everyone started doing push-ups on the ground, because they did fail in their duty today. This is not a mistake that a special forces member should make. If they were later, the girl might have met with misfortune. Well, Li Erniu was almost hurt by those addicts today because of his carelessness.

Zhang Xiaomin saw that everyone was punished by Qin Yuan to do push-ups because of her, "Please Captain, I'm sorry, I really know I was wrong, it's none of their business, it's me who wants to escape, I swear I won't do it again next time." This is the case."

"It's none of your business. They are my subordinates. The mission we perform is full of danger. We must be vigilant at all times. They did make a mistake this time, and they should be punished for making mistakes."

Only at this time did Zhang Xiaomin know why her mother kept emphasizing that she should trust the soldiers of the Yan Kingdom. They were strict with themselves all the time, and Qin Yuan's subordinates, although Qin Yuan punished them, did not complain at all. .

Unexpectedly, Qin Yuan also lay down on the ground and did push-ups at this time. He, the commander, was also responsible for the matter. Since he was punished for what he said, he had to do it. He Chenguang also did push-ups beside him.

Looking at their actions, Zhang Xiaomin was even a little moved. This was no longer just a relationship between superiors and subordinates. They were brothers who shared life and death

together. It was a great honor for me to be protected by them now, and I could trust them unconditionally.

After the push-ups were over, everyone continued to eat. Li Erniu said while eating, "Brother Qin, this thing is called pizza! It looks a bit like my wife's pies, but they put the stuffing The ingredients are all spread on top, our pancakes are wrapped up and directly baked into pancakes, or our pancakes are delicious and a bowl of Hu spicy soup is delicious."

"These are two kinds of food. You are very earthy. When I go back, I will make a better one for you."

"Hahaha, as long as Brother Qin makes a move, anything can be very delicious."

Zhang Xiaomin looked at Qin Yuan meaningfully, this man is really too powerful, just now he rushed into the alley, there were only so many people like himself, he knocked those people to the ground by himself, and he was so angry when he taught others The field, and now I can mingle with these soldiers again, and my temper is too good.

The next morning, Qin Yuan left Gong Jian behind. Among these team members, Gong Jian is also a veteran. He is relatively calm and can handle all kinds of emergencies by himself. It is more at ease to have him protect Zhang Xiaomin. The other team members He took it with him to carry out the mission.

Seeing that Qin Yuan left only one person to protect her, Zhang Xiaomin felt a little unhappy for a moment, but Qin Yuan only rescued him yesterday, and it was not easy to turn against him, so he could only complain in a low voice, "Captain Qin, you are all alone, why are you alone?" If you can protect me well, what if something unexpected like yesterday happened again?"

Gong Jian smiled, it seemed that this little girl didn't believe in her own strength, Qin Yuan motioned to him, Gong Jian walked over and looked at the dusty table, he took a deep breath, tied his horse and walked The palm slapped on the table, and the table shattered in an instant. Although it was a wooden table, Zhang Xiaoming was completely stunned.

"See, don't worry, my team members can pull anyone out to protect you, and we still have guns in our hands, what are you afraid of?"

Zhang Xiaomin nodded, and Qin Yuan took He Chenguang and the others out. Now they are going to No. 85 Baoshan Street, so you are the address sent by Zhang Baoshan. When they arrive, they

will find that No. 85 Baoshan Street is already It has been demolished, but there is a trash can in front.

Qin Yuan and the others stepped forward and found a letter and a map in the trash can. The general meaning in the letter was to let Qin Yuan and the others reach the designated location on the map and eliminate the people in the base there.

At this time, Zhang Baoshan also called, "Captain Qin, I believe you have already got the map. With your strength, don't let me down."

"Who is in this base? Let me tell you, if you want to use my ability to help you do those bad things, I won't do it."

"Captain Qin, don't get me wrong. To tell you the truth, that base is a killer organization. I have been hunted down by them for the past two years, and several scientists before Yan Kingdom were also killed by them. You should do not know."

what's the situation! Qin Yuan was stunned when he heard this, why does this killer organization still have any connection with people in China? And if scientists like them were really moved, Gao Shiwei should have sent him to exterminate them long ago, but he didn't receive any news.

"Do you think I will believe your one-sided words?"

Zhang Baoshan was smiling on the other end of the phone. He didn't worry about the time issue, because now he had ensured that his daughter must be safe, so he told Qin Yuan about the specific situation.

It turns out that Zhang Baoshan was in China ten years ago. Qin Yuan hadn't even joined the army. money.

A friend he knows knows that a domestic seedling expert is currently researching anti-cancer seedlings, but there is no financial support, because his anti-cancer seedlings have very serious side effects, and he is still unremittingly persisting in the experiment, so the country directly rejected it.

This doctor has no choice but to come out and find someone who can give him financial support to let him continue his research. At that time, this research project was not favored because it had been studied for many years, and there were many investors before, and the money had already been

wasted. , This is simply a bottomless pit. At that time, my friend only said a few words to him while drinking.

But Zhang Baoshan listened to it. Although he was running an automobile factory at the time, there were many factories like his in the country. If his factory encountered an economic crisis, it would be easily annexed.

So looking at it now, investing in this seedling, although you can't make money now, seems to be at a loss, but once the vaccine is successfully developed and launched, it will be endless wealth. He immediately asked a friend to contact this doctor. At that time, the doctor spent all his money on Do research, can only live in the basement.

Zhang Baoshan also took the opportunity to sign an agreement with him. He can offer him financial support unconditionally. However, for vaccine research, he needs to occupy 50% of the shares. This doctor only wants to develop his own seedlings, and he doesn't care about shares. So the contract was signed right away.

In fact, his vaccine is about to be successfully developed. If those investors persisted at that time, it is very likely that it will be successfully listed. Unexpectedly, Zhang Baoshan picked up this bargain. Three months after Zhang Baoshan invested, the vaccine was actually sold. developed.

Although the vaccine has been developed, there are no experimental subjects, because the side effects of this vaccine on people were very serious before, and it was not approved at all, and the doctor was only conducting research in private.

At this time, a foreign killer organization also knew about the success of the vaccine research. They have been observing secretly, waiting for this opportunity.

These people don't care about the experimental subjects. As long as the vaccine is successfully developed, countless experimental subjects will definitely come to their door voluntarily. The killer organization immediately sends personnel to carry out the research plan to **** the vaccine.

That is, at that time, all three students who were conducting research with the doctor were all assassinated, and Zhang Baoshan's own wife and son at the time were also killed, just to press for the whereabouts of the research results.
