

Special Soldier 831

Chapter 831: ?? strange school

This killer organization is very mysterious, coming and going without a trace, without any clues at all, Zhang Baoshan can only take the doctor to hide around, and it was at that time that he began to recruit a large number of bidders to ensure his own safety.

The strict precautions are getting stricter and stricter. These killer organizations retreated when they found out that they couldn't get their hands on it, but they were all trying to get the research vaccine, and they never gave up. Although the vaccine was developed, they didn't dare to test it. Also dare not produce.

Zhang Baoshan has already lost a lot of things. His wife and son, for the doctor, now that the results are still in his hands, there is hope. They must not give up so easily. They have already paid so much. Went to country M.

Research can be carried out in country M without restrictions. Their situation was really difficult at that time, and they were also being investigated in China, and those killer organizations were also chasing them. In this case, Zhang Baoshan had no choice but to We can only distribute the seedlings to several other partners, each of whom holds 10% of the shares.

These partners have also become his umbrella, which has allowed him to persist in country M for so many years, and because of this seedling, he has gained huge benefits. From the first generation of this seedling to the current third generation, this seedling has great side effects , but it is much better than before. Although it cannot be officially put on the shelves, it is sold on the black market. There are a lot of people who buy it, and they have also made huge profits from it.

But in the past two years, this killer organization has gradually risen again. His partners were all assassinated because they all held 10% of the shares. For safety reasons, Zhang Baoshan suggested dividing the research results into five He takes one share, the other four partners take one share, and the remaining 50% is in the hands of the doctor.

The research results of those partners disappeared one by one and were obtained by those killer organizations. Now only the doctor has 60% of the research results in his hands. Zhang Baoshan is very worried about his own safety and keeps recruiting powerful bodyguards. So escaped.

As he grows older, he also wants to have his own offspring. In order to protect their safety, his illegitimate children are scattered, but the background of this killer organization is too strong, many

things are investigated and they are killed one by one. , now he only has Zhang Xiaomin, his only daughter.

This killer organization is really powerful. He also wanted to draw out this killer organization for this high-profile promotion of the gun ban plan, and then let Long Xiaoyun and the others protect him. Originally, he wanted Qin Yuan to protect him, but he made a mistake. The one who became Long Xiaoyun, he knew that people like Long Xiaoyun were definitely not the opponents of those killer organizations.

"Captain Qin, I've told you so much, you should understand that I don't want our country's team members to die, so I thought of you. There is no way to do it, but don't worry, Captain Long and the others, I will definitely ensure their safety, and they will have no worries about food and drink in the maze."

"Hehe, you have said so much that others think you are righteous, but in fact you are a selfish bastard. For the benefit of the vaccine, you have drawn so many of us. I will tell you that I will settle the debt with you." of."

Zhang Baoshan heard Qin Yuan's tone, although he was belittling himself, he had already agreed to destroy that killer organization, "Captain Qin said that I accept all your criticisms, as long as you can solve them, then mine. If the daughter is brought back safely, Captain Long and the others will be safe as well."

Qin Yuan couldn't listen anymore, so he hung up the phone directly. This Zhang Baoshan was a selfish person from the beginning to the end. He would definitely destroy the killer organization. After all, what these people did was not a good thing, but this Zhang Baoshan He will not let go.

At this time, Zhang Baoshan also sent a message, he was worried that Qin Yuan also specially emphasized that everyone in the killer organization is very strong, and they all have some special abilities. This killer organization is called Lixiao, and it has existed for more than 20 years. year.

special power? Qin Yuan frowned after seeing this, is there anyone like him? Moreover, they have existed for a relatively long time, and they have not been wiped out for such a long time, which shows that their strength is indeed very strong.

Qin Yuan wanted to fight alone, he didn't want Li Erniu and the others to take risks with him, unexpectedly, Li Erniu and the others ran up and patted him on the shoulder and said, "Please, I saw your expression just now , do you want to leave us behind, I tell you there is no way, whether it is life or death, we brothers will go together."

To tell the truth, Qin Yuan was a little moved. This group of guys are like this every time, so let's live and die together. No matter whether it is a mountain of swords or a sea of fire, he will go for it.

Following the map, they came to a big mountain. The map showed that the base was inside the mountain. The mountain here was very high, and it was a test for everyone's physical strength. Fortunately, Qin Yuan had taken them to high-altitude training before, so They also quickly adapted. If ordinary people come to this high-altitude mountain area, they will immediately lack oxygen and may die at any time if their physical strength cannot keep up.

Qin Yuan was also worried that this might be Zhang Baoshan's trap. How could he know the exact location of this killer organization? Zhang Baoshan explained that he paid a high price to inquire about it. The map in his hand is worth 500,000 yuan. .

Before Long Xiaoyun, Qin Yuan and the others, Zhang Baoshan had found many mercenary organizations in the world to eliminate this killer organization. Many mercenaries had already heard the name of Li Xiao and expressed their disapproval.

Some daring ones who took on this task never returned, and this killer organization has risen too fast in the past two years. Zhang Baoshan found many bodyguards, but they were all assassinated in batches. Over the years, he has Didn't get a good night's sleep.

Later, he heard Qin Yuan's name in the world. After investigation, he knew that Qin Yuan had accomplished many important tasks in the world. .

When Qin Yuan and the others arrived at the center of the mountain, the dots on the map indicated that the base was nearby, but there was no such thing. It seemed that the map was still full of moisture. The base must be there, so you had to find it by yourself.

Qin Yuan and the others walked for more than an hour, and finally saw a building in front of them, but that building was really strange, what should I say? To put it bluntly, it is a school.

"Brother Qin, we didn't make a mistake, right! That looks like a school to me, and there is a lifting flag stand inside."

This is really confusing. The main thing is that the gate of this building says, "Iverson Experimental School"

Li Erniu and the others couldn't understand it because it was written in country M. Qin Yuan told them what he saw, and pointed to the signs on it. The letters on it stood for teaching buildings, dormitories and cafeterias. , which is really obvious, is a school.

And listen carefully, there is also the sound of children reading aloud, is this map wrong? In this big mountain, there is only this building. Qin Yuan asked everyone to sneak in and check it first.

The closer you get to this architectural love month, it must be a school. It looks like a normal school. There are a few security guards at the door who are reading newspapers. In the playground, a few eight or nine-year-old children are holding cleaning tools and laughing. , a piece of peace.

But if something goes wrong, there must be a demon. Who can build a school in such a high-altitude mountainous area? Fang Tian carefully smelled the smell in the air, and there was a faint smell of blood inside, but Li Erniu and the others didn't smell it. , he looked at the child inside and felt that there was no danger.

"Brother Qin, why don't we go in directly, I think this is really a school."

Qin Yuan nodded, let's go in and have a look. Just as Qin Yuan stood up, he suddenly made a gesture to tell everyone to get down, and a group of heavily armed patrols came out of the playground, and the routes these patrols took after they came out of the main entrance were very strange. Strangely, he twisted and twisted before starting to patrol around the school.

I go! I didn't expect that there was really a problem. They were almost exposed. This school is really hidden too deep. How can there be so many armed personnel in a normal school? Qin Yuan pointed to the playground in front of him and said:

"Besides, all the landmines are buried in front. If we stepped on them just now, the consequences would be disastrous. But, they came out just now, and I have recorded their steps. To be safe, we will wait until after dark. Go in and see the details."

"What! Brother Qin, you are too good! Just memorized their steps like this, are you sure there is no problem?"

"You brat, when did I miss it? And when I say I remember it, I must remember it."

Wang Yanbing nodded, and everyone just lay quietly on the hillside like this. This lie lasted for six hours, but it was nothing to them. Qin Yuan climbed for a full 24 hours when he was training them with devils. The time period of 48 hours is constantly increasing.

After it was completely dark, Qin Yuan asked Li Erniu and the others to follow behind him. He must remember his steps and never make a wrong step. Because of the darkness, everyone took out their thermal imaging sights and brought them with them.

Everyone was very nervous. If they took a wrong step, everyone would be wiped out. Now is the time to trust each other. Qin Yuan walked ahead and slowed down so that they could keep up with their own pace. They approached one by one. The security room is up.

The door of the security room was closed, and there was a window in front of it. I was willing to knock on the window. The security guard who was listening to the radio looked at the window for a moment. There were two people in the security room.

One of them picked up his baton vigilantly, "Who is it!"

Another person said: "Brother, relax, don't be so nervous, some brat in the school must have skipped class, go out and deal with him now!"

They were not worried that outsiders could come here, because landmines were planted around the school. Two security guards opened the small door with flashlights and walked out. As soon as they walked out, Qin Yuan's throwing knife flew out. Two security guards fell down, and Li Erniu and Wang Yanbing rushed forward to catch their bodies without making any movement.

Li Erniu quietly gave Qin Yuan a thumbs up. His skills were as steady as ever, without any mistakes.

In this way, they sneaked into the school. At this moment, there are still students in the school, and the classrooms in front are all lit up. This school is full of weirdness. After entering, they found all kinds of graffiti on the walls, full of violence and blood. .

Before, through the gate, they only saw the playground. Now, after entering, there is a uniform training ground behind the playground, with fighting bunkers, high wall barriers, single and parallel bars, and a shooting training ground on the side.

In the pitch-black playground, there were only two weak lights. There were a few patrolmen smoking cigarettes in front of them. Qin Yuan and the others took advantage of the darkness to approach quietly.

"Hey! Did you hear any footsteps?"

"No! It may be the sound of the wind blowing!"

As soon as the man finished speaking, Qin Yuan's throwing knife was deployed, and the four patrolmen fell to the ground and died in an instant.

Now only the direction of the teaching building is lit. They plan to go into the teaching building to check. In the first classroom on the first floor, there are more than a dozen children of different sizes, ranging from seven to eight years old, eleven or twelve years old.

But the content of these children's classes makes people's scalp numb. On the podium of ', a woman in black clothes is giving them a lecture, and there is a dead body in front of the woman.

She asked these children to go forward and throw throwing knives at the corpse one by one. These children were also very cold, without the slightest fear, they all stepped forward and picked up the knives. The child on the head, the woman will praise with a smile.

This kind of scene is really weird. What is it teaching? It seems that this is the place where this killer organization trains killers. Li Erniu was a little hesitant before, but now he sees this scene and grits his teeth with hatred. These children Having been taught badly by them at such a young age, he wished he could step forward and smash all these people to pieces right now.

Just as Fang Tian was about to make a move, there was the sound of running from the stairs, and then several darts flew directly towards where Qin Yuan and the others were standing. Qin Yuan shouted loudly: "Get down!"

A dart flew directly along Li Erniu's cheek, and as soon as blood flowed down from his cheek, "Damn it! This is too fast."

After such a commotion, the woman in the classroom also ran out. Without hesitation, the woman threw a few small bombs out of her cuffs.

Qin Yuan reacted very quickly, quickly kicked away two bombs, and left one behind. That bomb exploded in an instant, shaking the entire corridor, and the two bombs held next to it blew up the opposite wall collapsed.

I go! It's too ruthless for them to attack, this is obviously their territory, why don't they feel sorry for it at all, it's so big when they come here.

Chapter 832: ??? Horrible Arthur

Qin Yuan threw the flying knife quickly, and the woman turned over to avoid it, but one still hit her shoulder, but the woman pulled out the flying knife and stared at Fang Tian viciously as if she couldn't feel the pain.

"I remember you, you are the first person who can hurt me! Haven't you seen enough above?"

"Hahaha, that's not to see how your performance is."

As soon as the woman's voice fell, the two men above came down, and they were the two people who went to Zhang Xiaomin's house before, Abit and Amanda.

Qin Yuan felt very strange. Logically speaking, his actions should not disturb these talents. Qin Yuan was very confident in his stalking and lurking.

After Abit came down, he looked at Qin Yuan proudly, "Boy, I didn't expect it, you are really good, you can pass through our minefields, but you can't escape my nose, I smell blood from a long distance, and it's fresh blood."

Qin Yuan was taken aback, how could it be possible that someone could have the same sense of smell as his own, and it was because of the system.

Amanda next to him gave him a blank look, "You really know how to take credit for yourself. It's obviously me, and I heard the movement, so why are you taking all the credit?"

These two people are really interesting, they quarreled because of such a trivial matter, but Qin Yuan knew from the two of them that one has a developed sense of smell and the other has a keen sense of hearing. It seems that this is what Zhang Baoshan said before, the personnel in their organization all have some special abilities.

The woman next to him said very impatiently: "What time is it, you two are still arguing? I haven't felt hurt for a long time, and I'm going to chop that kid tonight."

This woman, Qin Yuan, doesn't know what his specific skills are, but she looks like a character who is not easy to mess with. He gestured for Li Erniu and the others to withdraw first. Now the entire front has been bombed by their bombs. People are really ruthless when they start their hands.

Wang Yanbing, who stood at the back of the line, shook his head, the guards were already surrounded below, let's fight together!

"Remember to save all those children, if this continues, these children don't know what they will do to them."

"Hehe, you still want to save people. We are here today, so don't even think about going out."

Amanda threw a few more special small explosives directly from behind. He laughed like a madman while throwing explosives crazily, exploding everywhere, and those guards were accidentally injured by him.

Li Erniu and the others could only dodge around. Qin Yuan turned around and jumped in front of Amanda, kicked him in the chest, and kicked him out. A bit next to him took out a special knife from his cuff and pointed at Amanda. As Qin Yuan stabbed at him, the woman behind him also jumped up.

These two people are really powerful, Qin Yuan can only get rid of these two people first, and the remaining guards Li Erniu and the others are dealing with it.

"Let me tell you, our boss has wanted to kill you a long time ago. I didn't expect you to come to the door by yourself. Just wait. I will take your head back to collect the bounty now."

A bit's knife skills, he avoided the vital point of Qin Yuan's stabbing with a knife, and the woman's weapon turned out to be a special whip. This whip was very strange. When she hit Qin Yuan, he had just bent down. Open, unexpectedly, the woman pressed a button and the whip suddenly turned into a stick with a knife stabbing at the front end, and Qin Yuan's abdomen was instantly bleeding.

The killers in this show are weird everywhere, and Qin Yuan has seen these weapons on everyone's body for the first time.

Abit's speed was very fast and his knife skills were also very fierce. Please be wronged to punch him in the ribs, and then hit his temple directly with the force of an elbow, knocking Abit to the ground.

The woman next to him took the opportunity to wrap a whip directly around Qin Yuan's body, trying to pull Qin Yuan away, but unexpectedly, Qin Yuan's strength was so great that she found that she couldn't pull the man away.

Qin Yuan stretched out his hand and grabbed the whip and dragged the woman over. He fell over his shoulder and smashed him to the opposite wall. The woman couldn't believe that they were all dealt with so quickly. Abit got up from the ground, Looking at Amanda who had been knocked out before, she shook her head.

"What should we do, Starscream, this man is really too strong, even the two of us teamed up can't beat him."

"Don't worry, we still have cards, I'll hold him back here, you go to the dungeon and release Arthur!"

"What! Are we really going to use Arthur? That's because the boss has explained that he can't use it unless there are special circumstances, and you are injured now, can you control him? What if he is out of control..."

"Okay, stop talking nonsense, hurry up and release Arthur, now is a special situation, if you don't want to die, just listen to me."

Starscream had already seen a strong killing intent on Qin Yuan. Qin Yuan touched the wound on his abdomen, and he had recovered at this time. This kind of small wound had little effect on him, but he hadn't encountered such a strong one for a long time. The opponent is really interesting.

Starscream stood up and moved his body, and then swung the whip in his hand. The whip made a sound in the air, and several guards also took the opportunity to rush towards Qin Yuan. They all went to the basement to cover Abit.

Starscream's speed was really fast, the whip was swinging very nimbly in his hand, he saw the timing and hit Qin Yuan's hands directly, and tied them tightly with the whip, then he stepped on a guard's shoulder. He jumped up in the air and kicked Qin Yuan directly.

Unexpectedly, Qin Yuan just raised his hand and yanked the whip, directly throwing Starscream out of the air, "You can still pull it with your strength, I'm just playing with you."

Starscream fell to the ground, and Amanda also woke up at this time, "You're always going to lose the chain at the critical moment, hurry up and **** me, I can't hold on anymore."

Amanda was still in a dazed state. After all, Starscream grabbed her shoulders and threw her towards Qin Yuan when she just woke up. This Amanda was covered in explosives, and she could find some small explosives anytime, anywhere.

He took out a few small red bombs from his belt and threw them at Qin Yuan. These bombs exploded instantly, raising huge clouds of dust and white smoke.

"Hahaha, my careful bomb is very powerful. I don't believe he can survive this."

As soon as the words fell, Qin Yuan jumped out of the white smoke, grabbed Amanda by the collar, and punched Amanda's face a few times, causing Amanda's teeth to be blown away.

What's the situation, how can he resist the power of the bomb? It's too exaggerated!

Starscream shook her head, she saw clearly just now, she was completely staring at Qin Yuan's every move, he could not have resisted the power of the bomb, the moment the bomb just hit the ground, Qin Yuan jumped backwards, This speed is really the first time she has seen it.

This Qin Yuan can be regarded as a talent, but it is a pity that he stood on the opposite side of himself. With his talent, it is not a problem to be a captain in the organization, but he has been blacklisted by the boss, as long as he is blacklisted by the boss People will be hunted down endlessly by the organization until they die.

Zhang Baoshan was blacklisted by the boss, those guards were almost dealt with by Li Erniu and the others, Starscream lashed out with the whip again.

At this moment, the sound of footsteps came, and the footsteps vibrated very loudly, every step vibrated, as if some huge monster was approaching.

what's the situation! Everyone looked in the direction of the source of the sound.

Amanda's mouth was covered with blood at the moment, and she lay on the ground laughing loudly, "Hahaha! Our real God of War is here, and today is your day of death."

Starscream wrapped a whip around Amanda's feet and dragged him to the side. When the guards heard the sound, they rushed into the building behind and were very frightened.

Several members of the red blood cell team quickly approached Qin Yuan, willing to stare at the entrance of the basement with a solemn face. Qin Yuan actually felt the sense of crisis for the first time in such a long time, and the things inside were very dangerous.

You must know that his current strength can be compared to a company. The previous combat system has never given a reminder. He did not expect that after such a long time, a reminder of crisis awareness came from his mind.

"Everyone backed up and retreated into the building next to them."

As soon as Qin Yuan's voice fell, a tall figure appeared, and it looked so strange under the moonlight. Then, this loud thing finally revealed his true face, and everyone's eyes widened. A monster!

It was a giant more than 2 meters tall, with strong muscles on its hands and legs, and it was very strong. It wore an iron helmet on its head, a special armor on its back, and a huge iron ax on its shoulder. An iron chain as thick as an adult's arm is dragged in his left hand.

Looking at it like this is very scary, the scene is very quiet, no one speaks, Qin Yuan stares at the monster vigilantly, Li Erliu swallows nervously, and after performing so many tasks, this is the scariest scene he has ever seen.

At this time, Starscream next to him suddenly took out a special snare drum and began to beat rhythmically. The giant who had been dull-eyed just now suddenly had scarlet eyes. Hearing the sound of the drum, the only one standing on the playground was Qin Yuan and the members of the red blood cell team, the giant ran towards them quickly.

"Run!" Qin Yuan yelled the word, telling the other team members to rush into the building, while he ran towards the giant.

This is actually the Arthur that Starscream said. This Arthur is mentally handicapped, but physically very strong. He was discovered and brought back by their boss in a small country in Southeast Asia, and named him Arthur. Arthur was in the jungle at the time, and he killed a tiger with his bare hands in front of everyone.

At that time, Arthur was like a savage. After killing the tiger, he tore the tiger in half, roared loudly, and gnawed on a tiger's leg like that. The scene was very bloody. I was also shocked, this person is really too strong, it would be even better if he domesticated him as his own killing weapon.

However, many of his subordinates were injured and couldn't get close to Arthur. At that time, they only had anesthesia for surgery, but all six of them hit Arthur, but he was very violent and had no effect. It seemed that he was right. This anesthetic has immune function.

However, the boss of the Dawn organization did not give up. He learned about it in the local primitive tribes. The local primitive tribes were very happy to know that these people wanted to take Arthur away, because Arthur's destructive power was amazing, and no one could see him at all. , can only hide around.

A wizard appeared in the tribe behind. This wizard created two drums by himself. When one drum was played, Arthur would become quiet and demented. After the other drum was played, he could let the quiet Arthur become manic.

The boss of the Dawn organization was very excited when he heard the news. This is simply a weapon tailored for him, so that he can directly control him. In the end, he used 500 kilograms of food as a transaction in exchange for the drums in the hands of the wizard.

In this way, Arthur was brought back. The maintenance effect of this bitter month is only one week. Every week, he must play quiet drums to soothe his spirit, so that he can stay quietly in the cell. Every day someone brought him food and drink.

The armor and iron chains behind him were all custom-made for him by the boss of the Dawn organization in repeated experiments. This boss used Arthur to kill many powerful enemies.

Then Arthur became their killing weapon and was transported here. Starscream couldn't do anything this time, she didn't know if she could control Arthur, after all, it was controlled by the boss' assistant every time. She also just followed and studied for a while, and never manipulated.

The situation is urgent this time, Qin Yuan is too powerful, if he doesn't use this trump card weapon, then they may all be wiped out here.

Qin Yuan had already rushed in front of Arthur, and quickly punched him in the abdomen. Arthur was wearing a thick armor, but the armor was only deformed by willingness. He took a few steps back and let out a more Roaring angrily, the person in front of him dared to provoke him.

The iron chain on his right hand hit Qin Yuan heavily, and Qin Yuan reacted relatively quickly, quickly rolled to the side, the thick iron chain hit the ground, flying sand and rocks in an instant, Arthur's strength was very strong, and then He swung the chain again.

Qin Yuan could only dodge by relying on the flexibility and speed of his body, and then jumped behind Arthur and kicked him directly on the back. The foot cover was riveted enough, and Arthur rolled forward, but there was no damage , but broke the trunk next to it.

Arthur stood up and picked up the huge ax on his body and slashed towards Qin Yuan. The force was so strong that everyone hiding in the building was stunned.

Chapter 833: ??1 group of white-eyed wolves

This is simply not a war they can participate in. It is too strong, this is the strong, and they can't intervene in the duel of the strong.

He Chenguang picked up the sniper rifle, aimed it at Arthur's head, and ejected it with the armor piercing. Unexpectedly, Arthur felt this kind of crisis, and turned his head to avoid the arc of the bullet.

I go! This is too awesome! It was able to dodge bullets, what kind of monster is this?

"I don't believe in evil anymore, Er Niu, Yan Bing, let's see how he hides together."

He Chenguang also wanted to help Qin Yuan from the side. The three of them took aim and fired quickly. Arthur bent down to avoid two bullets, because the bullet still hit his shoulder, and the power of this armor-piercing bullet was still strong enough. , but the bullet still didn't completely penetrate him.

Qin Yuan was also a little shocked. What kind of monster is this? Even armor-piercing bullets can't penetrate him. This is also because during various actual combats, Arthur was taken by the dawn organization to carry out various tasks, and various physical skills were also used by them. Drugs were adjusted and strengthened.

Now he was shot in the shoulder, blood flowed out, and he roared non-stop. He swung the iron chain in his hand and hit Li Erniu and the others. The powerful force came whistling with the wind.

"Quickly step back and get out of the way!"

A powerful force hit the building where they were, and the walls in front were smashed to pieces.

I'll be good! This destructive power is simply astonishing. This Arthur, unexpectedly learned to be smart, has been circling Qin Yuan, making it impossible for them to attack.

Qin Yuan reassured them, first find the opportunity to deal with him by himself, although Arthur is powerful, but his reaction is not enough, Qin Yuan kept dodging, and then took the opportunity to give him a few more punches, at this distance he quickly threw Unexpectedly, such a sharp flying knife only scratched his skin and did not pass through Arthur's body.

Arthur threw out the throwing knife stuck in his chest. At this moment, he was already in a state of rage, and he waved the huge ax at Qin Yuan indiscriminately. It was the first time Qin Yuan felt so pressured, and his strength was absolutely powerful. Yes, the strength of a punch is several hundred kilograms. I didn't expect that the punch would only deform the armor on his body. This armor seems to be specially made, which can resist absolute damage, and Arthur is originally strong.

At this time, Starscream saw that Arthur had even fought Qin Yuan. The two had been entangled all the time, and Qin Yuan didn't suffer. This person is really strong.

"Amanda, we are preparing to evacuate!"

"What! Let's not wait until the show is over. I think Arthur will win right away."

"Hehe, what can you tell at your level? Look at that Qin Yuan has spent nearly an hour with us since he came in, but he is fighting with Arthur now, and he hasn't exhausted his energy at all. , now, while Arthur is holding him back, let's retreat quickly."

Amanda was a little reconciled, but in this case, Abbit was already seriously injured, and Starscream's condition was not very good, so they had to retreat quickly. This was just a temporary stronghold for them, and the key was to go back and report to the boss.

Li Erniu and the others saw the red spider running out and quickly chased after them. They must not let these guys escape.

Amanda threw the bomb crazily while retreating, everyone had to dodge quickly, and the direction he threw the bomb was not only towards Li Erniu and the others, but also in the teaching building over there, which had been bombed by them once before. , was hit by Arthur just now on the load-bearing wall, and it was already crumbling.

This time the explosion directly led to the collapse of half of the teaching building, and the children inside were instantly crushed inside. They didn't know how many children there were, just as they saw that the dozen or so children on the first floor were quite a number.

"Damn! This group of beasts, don't care about those scumbags, go and see those children, and save as much as you can."

He Chenguang and the others hurried into the ruins. After all, half of them collapsed. At this time, Qin Yuan had gradually gained the upper hand. Arthur's physical strength was consumed by him, and the armor on his chest was about to be smashed by Qin Yuan. Cracked.

Qin Yuan threw out the throwing knife again, this time directly piercing his eyes, Yasef screamed loudly, now he can't see what's going on outside, he can only swing the huge ax indiscriminately, flying sand and rocks everywhere, Qin Yuan Yuan took the opportunity to take out the grenade on his waist at this time, and jumped directly on Arthur's shoulder.

Quickly threw the grenade into his armor. At this critical moment, Arthur suddenly grabbed Qin Yuan's feet tightly and did not let go. Qin Yuan kicked him **** the shoulder. Arthur felt the pain and loosened his grip. Kai's hand moved back, and Qin Yuan quickly ran away.

After the sound of "Bang!", the grenade on Arthur's chest exploded. At this moment, the giant fell unwillingly, and the helmet on his head was directly blown in two. Qin Yuan walked away

indifferently. Stepping forward, he threw out two more throwing knives, this time without the protection of the helmet, the two throwing knives directly pierced his head.

Arthur just didn't move like this, Qin Yuan breathed a sigh of relief, and finally killed this monster. It seems that this killer organization is really not simple, this kind of monster can be brought in, and the escaped Starscream and others Skills are also good.

After Qin Yuan knocked Arthur down, he grabbed a guard who was injured and couldn't escape, "How many children are there in this teaching building!"

The guard saw that Qin Yuan had dealt with this monster just now, it was too strong, he said tremblingly: "Don't kill me, this teaching building, there are not many students in it, only a dozen or so people, they just attend classes in batches , I haven't found so many good seedlings yet!"

Qin Yuan motioned him to continue talking, tell him everything he knew, and spare his life.

This school has been established for many years, and it is a temporary recruitment point of the dawn organization, which is to cultivate the most basic talents. Starscream and the others are teachers, and they will look for what they call good seedlings in the local area. Children with well-developed hearing, vision or fighting skills.

Then as a full-time training for them, the primary teaching side is on the side. After the primary teaching is over, these children will be sent to the organization for more in-depth teaching, and most of these children are orphans or abandoned by their parents.

Because even so, no one will care if they disappear. Most of these children stay here voluntarily, and they don't even think of escaping. After all, they still have food to eat and learn their so-called skills if they stay here.

Moreover, their teaching here is very cruel, and deaths happen every day. If the children selected by them do not meet their standards, they will be killed immediately, and there will be a mutual killing and elimination among these children every week. .

"Damn! You **** are really capable of dealing with these children. I just want to know where is the headquarters of this broken organization?"

"I really don't know about this. This is not something we can know."

"Get out of here, I will dirty my hands if I kill someone like you."

The guard kowtowed and thanked Qin Yuan for not killing him. He dragged his injured body and quickly ran outside, but he forgot that the outside was full of mines during his escape. With the sound of an explosion, the guard had been killed. Blown to pieces.

Qin Yuan shook his head, it wasn't that he wanted to kill him, it was his own bad luck.

Qin Yuan also quickly jumped into the ruins to save people. He used thermal imaging to quickly observe the situation inside the ruins. It was very pessimistic. Because of the explosion, some of these children were directly killed by the bomb, and some were collapsed. They died when they were hit by the rubble. In the end, they only saved six children, and the rest were all killed.

The oldest of these six children was fifteen years old, and the youngest was only six years old. Qin Yuan shook his head helplessly. If he could get rid of that monster sooner and kill Starscream and the others, maybe he could save these children.

There was no fear in the eyes of these children, they were very indifferent, even when they looked at the corpses of their companions next to them, they did not show the slightest pity. Qin Yuan felt very sorry, what happened to these children to become like this, it is really sad.

He greeted Li Erniu and the others, take these children back first! Hand it over to the local government and see how their local government handles it.

He Chenguang took out his water bottle and stuffed it into a child's hand, "Don't be afraid, child! We are here to save you, drink some water and we will set off."

The child nodded, and at the moment he took the water bottle, he suddenly drew a sharp knife from his cuff and stabbed He Chenguang's abdomen. But he was still stabbed.

Li Erniu who was next to him quickly kicked the child away, "Damn it! You wolf cub, I'll save you, and you're still attacking us."

Qin Yuan was still looking inside the ruins. He wanted to see if there were any other clues, but he didn't expect that there was a movement behind him. It turned out that He Chenguang was injured.

He ran down and stared viciously at the child who stabbed He Chenguang. He Chenguang's abdomen was bleeding profusely now. Li Erliu hurriedly bandaged him. It was like this. He still endured the pain of the wound and said: "Captain Qin , don't blame them, it's mainly because they were taught badly by those people, after all, this is also a group of children."

"Hmph, what kind of children, I think they are a group of white-eyed wolves. These white-eyed wolves are not familiar with feeding, so I just shoot them and save them from harming the world." Li Erniu said fiercely while bandaging the wound. .

"They were indeed taught badly by Starscream. After all, they taught them with the standards of killers. These children still don't understand the correct principles. Since we have saved them, we must teach them these principles. From now on, everyone, be careful."

At this time, the child who fell on the ground was very unconvinced and stared at Qin Yuan viciously, "It was you who ruined everything for us. Let me tell you, I know you are very strong. I can't kill you now, but one day I will kill you." Will definitely kill you."

The other children also stared at Qin Yuan viciously, with the same thoughts as that child. They felt that it was people like Qin Yuan who ruined their current lives.

"You child, why don't you distinguish between good and bad? You don't know that those are bad people! Look at the fact that you are killing each other every day, and you don't know when you will die. We saved you and handed them over to the local government. Going to school, you can find your parents, isn't that good?"

"You **** fart! I never had any parents. Those parents died long ago. Here they teach us survival skills. With those skills, we can kill those who bully us in order to protect ourselves. "

"That's right! It's not you **** who ruined our lives. We can obviously learn from it. Besides, it's right for the weak to be killed. It's just survival of the fittest, but you ruined all of this."

Qin Yuan looked at the little girl who was speaking eloquently. This little girl, who was about ten years old, was able to say such words. What happened to these children, it seemed hopeless.

These children took out their knives after finishing speaking, wanting to fight against Qin Yuan and the others, saying that they would not go no matter what, the local government would not accept their rescue, ' they were going to find Hong spider them.

"Hey! You little white-eyed wolves are really excited, aren't you! I tell you, I saved you, so now I'm in charge of everything."

Qin Yuan asked Li Erniu and the others to go up and tie up all these children, and then search for all the weapons on them. If they don't cooperate, they should be ***** and go. Although these children are fierce, they are still children after all. Li Erniu and the others were very strong, and they were ***** in a short while.

Qin Yuan went forward to check that He Chenguang's wound was not very deep, and there was no big problem. After all, he was still a child, and his strength was not strong. It was just a slight stab wound.

There were two children who were still swearing and swearing. Qin Yuan couldn't stand it anymore, so he picked up two rags from the side and stuffed them directly into their mouths.

"Brother Qin, I think these wolf cubs need to be dealt with. We still have to follow our Yan Kingdom's method. If a dutiful son is born under the stick, he has to be beaten up."

"It depends on how their local government teaches. We are saving people anyway, and these things are their business. Let's go, close the team!"

Qin Yuan asked the local embassy to contact the relevant personnel to make a connection with them. After a while, the local government personnel sent personnel to look at the staff who came to meet the children with disgust.

But after seeing Qin Yuan, he still smiled and said: "Captain Qin, there is actually no need to save them like this, but since we have contacted our internal staff, we have to execute the order, so you can rest assured and hand them over I'll do it."

The more Qin Yuan looked at this staff member, the more unreliable he felt, no matter how impatient he sounded.

"Hello, I would like to ask, what are you going to do with these children?"

Chapter 834: ? You should call Qin Dagou!

"Well, of course we have a way to deal with it!"

Seeing that the staff member didn't say anything, Qin Yuan still didn't give up. He kept asking, and finally the staff member said impatiently: "Captain Qin, this is not your country of Yan. There are countless homeless children like this every year in our country. To be honest, we can't control that much at all!"

"What do you mean you can't control so much? They are just children at this age, without the protection of their parents, then your country has to assume corresponding obligations!"

Qin Yuan really couldn't understand, shouldn't the government of a country protect its own civilians? Now these civilians are threatened with their lives, but they do nothing.

Unexpectedly, the staff burst out laughing, "Hahaha, Captain Qin, this is really the funniest joke I've heard this year. Do you know how many people like this we have here every day? They can't be rescued at all, and you don't have to." Meddle in your own business, since it has been handed over to us, you should go back quickly."

He Chenguang who was next to him stepped forward and asked loudly, "Then I want to know what you want to do with these children?"

Seeing the wound on He Chenguang's abdomen, the staff member thought he was trying to find the child who injured him, so he went straight to those children.

"Who stabbed the officer just now!"

Those children were very unified and didn't speak. Seeing this, the staff member kicked the shoulder of the frontmost child. The child was only seven or eight years old. Kicked to the ground.

Qin Yuan hurried forward to stop him and said, "Hey! What are you doing?"

"Didn't you see that some of your team members were injured because of these little bastards? I'll find the murderer for you and clean them up for a while. Let me tell you Captain Qin, you don't have to feel sorry for these children at all. Look, isn't this a white-eyed wolf? ? You saved him, and he gave you a knife."

He Chenguang was very speechless at the moment. He stepped forward and pulled the child up. These children are pitiful enough. They were abandoned by their parents or lost their parents for various reasons, so they were used by these killer organizations. If they are not educated and corrected now, these children When children grow up, they will only follow the path of those killers.

Qin Yuan has seen that these staff members don't want to take care of these children at all. They came to pick up these children only because they and the embassy made such a request. Maybe when they leave, these children will be sent away directly. ,

"If you don't want these children, can I leave it to me to solve it?"

"Captain Qin, I really don't understand what you mean. Since you contacted us at the beginning, we will handle it, but you have to solve it yourself. What is going on!"

The staff at the moment were also a little angry, feeling that Qin Yuan had played a trick on them, wasn't it just a few children? It was necessary for him to circle everyone around like this.

Qin Yuan looked at these staff and shook his head, he knew how to deal with this kind of person, he took out a wad of cash from his bag, "Brother, now I have changed my mind too, look at this and take the money away Drink, can these children be handed over to me?"

Seeing such a thick wad of money, the staff member's eyes lit up instantly, his attitude changed, and he immediately said politely, "Brother Qin, what are you talking about? Since you want these children, then You can handle it as you please, we are all brothers, so don't be so polite."

Although the staff member said so, he had already reached out to take the money, as if afraid of Qin Yuan's repentance, Qin Yuan smiled, and asked Li Erniu and the others to take out the money on his body, and he brought it now many.

Everyone knew what Qin Yuan meant, and hurriedly collected some money. Qin Yuan handed over the money to the staff member, "Brother, take a look, this is all our money, then can we let these children Just take it away, and you won't ask any more questions."

"Well, this is not possible in theory, but you are different. We are all brothers. This is no problem. You can take it away. When the time comes, I will tell them at the immigration side. It's no problem."

Sure enough, money is easy to do. For such a small amount of money, these staff sold these children. Fortunately, Qin Yuan and the others are not bad people, and they just want to save these children.

After the staff members left, the older child stood up, looked at Qin Yuan coldly and said, "Don't you pretend to be good there? Do you want to solve us now, then hurry up and give grandpa Bullets! Don't expect me to give you a good tone."

"What's your name!"

The child obviously didn't realize why Qin Yuan would ask such a question. He had already said enough ugly things to provoke Qin Yuan like this, but he didn't seem to be angry.

This made him a little embarrassed, so he could only whisper: "We don't have a name, only a code name, and I am number seven."

"Didn't you have a name before? Not yours now."

"Hehe, the old me is dead long ago, that name doesn't suit me, so I think number seven is pretty cool."

"No! Now you have a name, remember your Yan Kingdom name is Qin Dagou!"

Li Erniu and the others next to him burst out laughing when they heard Qin Yuan's name. The children didn't know what the name meant. After all, Qin Yuan used Yan Guo dialect when he said the name.

This Qin Yuan is really a bad namer. Since he gave the child such an ugly name, Li Erniu burst into tears. The child seems to not know the meaning of the name, and obviously thinks that the name Qin Dagou is better than his own. Number seven is more domineering.

"Brother Qin, you are too disrespectful, why did you name your child like this? Hahaha!"

"Don't you know? We have an old saying that a poor name is easy to support. This is what I randomly picked up now. Let's rethink it for them when I go back!"

These children don't know where Qin Yuan is going to take them. However, listening to their tone, they should not hurt them, and I felt a little uneasy in my heart. It was indeed Qin Yuan who saved them time and time again, and the mentality of these children gradually changed.

Because they still wanted to find Long Xiaoyun, Qin Yuan asked the staff of the local embassy to take these children back, and specifically explained that these children are very dangerous, so they can be locked up temporarily and find someone guard.

After the explanation, Qin Yuan was still a little worried, stepped forward and said, "Qin Dagou, you have to remember that we are here to save you, if you and your companions want to survive, then obediently listen to me and follow Those killers, you also fight and kill, follow me, then you may have a good way, you are the biggest person in it, I know you can understand what I say."

Qin Dagou turned his head, although he didn't say yes, but he already agreed in his heart that Qin Yuan's statement is indeed generally better to follow Qin Yuan.

Just when everyone was about to say goodbye, the youngest child came over, "Then will you pick us up later?"

"Don't worry, I have made a promise, I will forget to take you back."

Qin Dagou came over and pulled the child up, "Come here! Why do you trust others so easily?"

Qin Yuan shook his head. This kid really has a stubborn temper. Although he has such a temper, he still cares about his teammates and is worried that something will happen to these children.

Seeing those children being taken away by the staff of the embassy, Qin Yuan also breathed a sigh of relief and called Zhang Baoshan.

"I have wiped out that killer base according to the address you provided, now you tell me where my teammates are?"

Zhang Baoshan was very happy when he heard the news. As expected, Qin Yuan was very strong and did not disappoint him. If he had known, he should have found Qin Yuan immediately, so he would not have to sacrifice so many people and waste so much money.

Qin Yuan did not tell him that the base of this killer organization here is just one of the younger brothers, and their headquarters is currently unknown. After all, saving Long Xiaoyun and the others is the most important thing now.

And he will definitely go to the headquarters of this killer organization, just because these killer organizations are so cruel to these children and use these children, he must wipe out this killer organization, otherwise I don't know how many innocent people will be trapped .

"I believe in Captain Qin's ability to handle affairs, but I still want to see my daughter, please ask the captain to bring my daughter, I will tell him the address, and then you will bring him to find me."

Qin Yuan smiled, this old fox is really cunning, he is so worried about himself, doesn't he care about Zhang Xiaomin? Qin Yuan, who was going to take him there anyway, didn't say anything, just took everyone to the slums and brought Zhang Xiaomin out first.

But when they rushed to the slums, they found that the house Zhang Xiaomin and the others were in had been damaged, and there were many bullet casings outside the door. It was obvious that fierce fighting had taken place here.

Qin Yuan felt bad, why didn't Gong Jian inform him, he had already explained before, if there is any emergency, he must be notified, although he also believed in Gong Jian's strength, but if there were more people, then Gong Jian might have Dangerous.

Everyone rushed into the house and found that many furniture had been beaten to pieces, and there was a bullet necklace worn by Gong Jian at the scene, but the only good thing was that there was no blood at the scene, and neither Gong Jian nor Zhang Xiaomin was there.

"Brother Qin! What's the situation, haven't we wiped out those killer organizations? Who came to take them away?"

"Don't rush to draw conclusions, let's search around to see if there are any other clues."

At this time, there was a slight noise from the attic. Could it be that Gong Jian and the others were hiding there? However, it is not ruled out that there will be other armed personnel ambushing here, and everyone may become vigilant in an instant.

Moving quickly towards the attic, Qin Yuan smashed the small wooden door on the attic with a punch. He rushed up first, only to see Zhang Xiaomin lying on the narrow attic. Gong Jian was not there at all.

Moreover, looking at Zhang Xiaomin as if he had been knocked out, with a wound on his forehead, Qin Yuan hurriedly rescued Zhang Xiaomin. He didn't know whether Gong Jian was dead or alive. At present, Zhang Xiaomin should be the only one who knows the situation.

Zhang Xiaomin had opened his eyes slightly at this moment, and when he saw Ruan Yuan they immediately said, "Quick! Hurry up and save that brother!"

Zhang Xiaomin's mental state was very bad, Qin Yuan hurriedly treated her, and only then did Zhang Xiaomin intermittently tell what happened.

It turned out that after Qin Yuan and the others left, the man in black rushed in for a while. Zhang Xiaomin didn't know how they found this place. At that time, Gong Jian had no time to report and could only resist desperately.

The gunfire downstairs was very intense, Zhang Xiaomin shrank back in the room in fear, at this time Gong Jian ran in, told Zhang Xiaomin to hide in the attic quickly, and ran out to attract all the men in black away.

"Woo~ It's all my fault. Brother Gong Jian is here to protect me. Go find him now, we can leave him behind, right?"

Qin Yuan didn't expect that what happened this time highlighted his expectations. Originally, he just came to find Long Xiaoyun, but they were involved in a killer organization one after another. Now Gong Jian disappeared in a foreign country.

Wang Yanbing shook his head, "His positioning system can't detect it' It seems that this group of people came prepared, and they also know that we have a positioning system, so they should destroy his positioning system gone."

Li Erniu was very excited when he found out that Gong Jian disappeared, and according to Zhang Xiaomin, he was chased and ran away by those people. Know where people go.

Just to add a word, the reading app I am using recently, [\\Mi\\Mi\\Reading\\app\\] has many sources of books, complete books, and fast updates!

"Brother Qin! I think it's probably Zhang Baoshan who did it, **** it! I feel like we've been tricked by him."

"No! My dad probably wouldn't do something like that."

"Hehe, your father wouldn't do such a thing. Do you really think he's a good man? He's doing all kinds of selfish and outrageous things."

"Although I know that you all want to kill me, I don't allow you to talk about my father like that."

Brother Qin feels that his head is getting bigger now, so let Li Erniu and the others stop arguing quickly. The most important thing now is to find Gong Jian, and it is true that Zhang Baoshan does not need to do this. If he does, just take his daughter with him. Just go, why attack Gong Jian?

"Brother Qin, how about this, let's send Zhang Xiaomin back to his father and see if this matter has anything to do with him. Er Niu and I will stay here to look for Gong Jian."

This time the matter became more and more complicated, Qin Yuan didn't want any team members to act separately, because He Chenguang was injured, although the injury was not serious.

Qin Yuan asked He Chenguang and Wang Yanbing to stay here to guard Zhang Xiaomin. He took several other team members out to look for Gong Jian and asked the people nearby. After all, there must be witnesses to the gunfight that day.

Chapter 835: ???The temptation of money

In this way, everyone started to act. Qin Yuan always felt that this matter was too strange, but he couldn't tell what it was. After everyone separated, Qin Yuan quickly found nearby animals. Now he can only use his recovery skills to see if he can recover them. to animals that can be hunted quickly.

It is very easy to find rats in this slum. There are rats running almost everywhere on the street, and there are groups of rats in that kind of garbage dump.

Brother Qin saw a very nice mouse, and was about to arrest it, but unexpectedly, a ***** dog ran away and took the mouse away in one bite.

I go! This is really Cheng Yaojin who killed him halfway, and he was already ready to do it. Since he was killed by a dog like this, what's the situation?

This time the ***** dog quickly ran into the alley with a mouse in its mouth. How could Brother Qin let it go? The prey he finally found was intercepted by it. If so, then this ***** dog will be his pet Bar!

The ***** dog bared its teeth and let out a low growl at Brother Qin, and it was very fierce. It rushed towards Qin Yuan, and Qin Yuan grabbed the dog's leg just in time.

"System! Recycle!"

"Ding! Congratulations to the successful recovery of the host. The pet ***** dog currently has two skill points, has a certain IQ, and can have basic communication with the host."

Qin Yuan was overjoyed instantly. He didn't expect that a creature like a dog could communicate with him without upgrading step by step. You must know that the mice he captured before had no choice but to tame and upgrade them to achieve a conscious connection with himself. .

And the ability of this ***** dog should not be bad. First of all, it has two skill points, which looks good, and with the dog as a creature, its hunting skills are also very strong.

At this time, the ***** dog was very fierce just now, but now it was sitting obediently beside Brother Qin's lap. Qin Yuan quickly took out Gong Jian's bullet necklace and gave it a sniff.

The dog ran quickly after smelling it, and Qin Yuan followed the dog like this. The dog ran very fast, and ran out of the slums in a short while. It seems that Gong Jian was indeed transported out.

Qin Yuan hurriedly contacted the team members who went out to look for it just now, and asked them all to go back to the room, waiting for him to have a clue of Gong Jian, and now he couldn't let the other team members disperse again, and all went to that room to wait for him.

He Chenguang was very happy to know that Qin Yuan had news. He believed in Qin Yuan 100%. He said there was no problem, and he would definitely bring Gong Jian back safely.

It's just that Zhang Xiaomin was very anxious at the moment. After seeing them coming back, she kept asking if there was any news about Gong Jian. It could be seen that she still cared about Gong Jian very much.

"It's okay, don't worry, they can come back safely with our captain Qin here."

"Oh! Then I'm relieved."

Qin Yuan was still hunting, and he came to a hillside in a short while. There were messy footprints here. He looked carefully and found that the shoes on these footprints were all uniform. They should be from a group of people, but there was a pair of military boots in the footprints. He was overjoyed, this is definitely Gong Jian's.

Sure enough, the **** dog did not disappoint them. They ran forward quickly, only to see a cave in front of them. Just as the **** dog was about to bark at that cave, Qin Yuan quickly stopped it.

Now he can't startle the snake, he has to go to see if Gong Jian is inside, and the specific situation inside.

When Qin Yuan approached the cave, he saw the fire coming from inside the cave, and several people were talking.

"Damn it! This kid is really good at fighting. Four or five of our brothers died in his hands. Now I can't wait to tear him into pieces."

"Shut up, have you forgotten the boss's order? This person is still useful if he can't move now! As long as he is no longer useful, what do you need to say? I killed him myself."

"I don't know what the boss means this time. With just those few people, it should be fine for us to make a move."

"Wait! Someone is approaching."

Qin Yuan didn't expect to be discovered again, which is too strange, he didn't make any movement, he just lay down at the entrance of the cave, he didn't even see what was going on inside, he just listened to their conversation, why did he lose his mind? was found.

The people in the cave rushed out, seeing that the costumes were indeed organized by those killers, and now the relationship is clear, it seems that there are also people with a keen sense of smell inside, and they should have smelled his body, after all, no matter how I hide myself The smell cannot be masked.

"Where did the yellow-haired boy come from, since you heard about us, you can't let you go."

Qin Yuan didn't pay attention to these people at all, and quickly threw out the throwing knife. The three people in front fell down in response, and one person turned over and dodged. It seems that this person's speed is really extraordinary, and he was able to dodge His own throwing knife, this is relatively rare, and the previous Starscream could also dodge it.

"Who are you? How did you debut so quickly? Are you also a member of the organization?"

"I'm not your broken organization, I'm here to kill you."

Then Qin Yuan quickly threw two throwing knives, and the man on the opposite side also threw out the hidden weapon in his hand. Qin Yuan turned over to avoid the hidden weapon, and the man was hit by two flying knives in the middle of his head and fell down.

At this time, the other two people in the cave also rushed out, and they were quickly dealt with by Qin Yuan. Hearing the movement, there should be another person inside. Qin Yuan rushed directly into the cave, and saw that person hijack the unconscious Gong Jian.

"I know you are here to save him. Don't come here. As long as you let me go, I will let him go."

"You'd better put him down, or you'll regret your decision today."

That member of the killer organization doesn't care so much now, seeing his accomplices outside were all killed by the man in front of him, he was very scared. Since he left the organization, this is the scariest opponent he has ever seen. It is too fast, five minutes In just a short time, they solved all

those masters, and I was the weakest among these people, so I could only think of hijacking as a way to escape.

While talking, Qin Yuan flew a flying knife directly to the man's wrist, and before the man could react, Qin Yuan had already moved in front of him, kicked him on the shoulder, and kicked the man away go down.

This speed is too fast! !

The killer group could only kneel on the ground and beg for mercy. Qin Yuan went over to check on Gong Jian's condition, but he just passed out, but fortunately he was not seriously injured.

At this time, the killer organization wanted to take the opportunity to escape, but Qin Yuan didn't even look at it, and threw a throwing knife backhand, directly into his thigh.

Then he walked over, "You know why I didn't kill you, I already know about your dawn organization, what I want to know is where your headquarters is."

"This! I really can't say that the organization's punishment is terrible. You must never betray the organization."

"Oh! Then change the question, who is the boss you mentioned just now? Where is he?"

The killer was very hesitant. At this moment, the killer organization suddenly let out a "bang" in its body, and it exploded. I wish I didn't realize what the situation was. This killer doesn't look like a dead man! Looking at him like that just now, he felt very sorry for his life, so he probably didn't commit suicide.

For a while, the inside of the cave was ***** and bloody. Qin Yuan stepped forward and pulled it, and found a small fragment, which turned out to be a liquid bomb.

These people are really ruthless enough, let them take the liquid bomb in advance, it seems that if the mission fails, they will control the liquid bomb remotely, but what makes him strange is how the people above him know the mission failed and control the bomb of.

This time the matter is really getting more and more complicated, and more and more people are involved, now I can only rescue Gong Jian first, then go back to meet them, complete the task as soon as possible, and bring Long Xiaoyun and the others back, I will investigate these things slowly by myself later.

The first thing Gong Jian did after waking up after treatment was to say: "Captain Qin! I hid Zhang Xiaomin in the attic. Did you find her?"

"Don't worry, there's no problem, but I'm more curious. Didn't you say that no matter what happens, you will report to me? No matter how urgent it is, you still have to give me a message so that I can support you."

"It's not that I didn't send you messages. I didn't know what was going on at that time. All the communication equipment was disturbed as if they were disconnected. I couldn't contact you at all."

Qin Yuan was shocked when he heard this, that he still has this kind of problem. If he didn't have pet skills this time and found Gong Jian in advance, maybe those killer organizations would really use Gong Jian to threaten him, but he really couldn't figure it out. How do these people know? And the death of the killer just now, there are too many problems in it.

After Qin Yuan came out, he put the **** dog into the system grid. This dog has many uses, so let's keep it for now! In this way, Qin Yuan took Gong Jian back to the slum, and he was relieved to see that everyone was fine.

Zhang Xiaomin was very excited, and rushed forward to hug Gong Jian, "Brother Gong Jian, thank you very much, you saved me, I am relieved when I know you are fine, I am very worried, I am the one who hurt you I was the one who got hurt because of you."

Li Erniu said angrily: "It's not thanks to your father, don't say anything now, send you back quickly, and replace our teammates. There are quite a lot of things every day."

Gong Jian coughed and asked Li Erniu not to speak so directly, so as not to hurt the child's heart. After all, Zhang Baoshan is also his father, and now that Zhang Xiaomin's mother is dead, he only has Zhang Baoshan. a loved one.

After calling to ensure Zhang Xiaomin's safety, Zhang Baoshan told them the address and asked Qin Yuan to take them with him.

Zhang Baoshan's address is really hidden. They thought he should be in a villa before, but they didn't expect them to come to a cemetery.

Qin Yuan and the others still wondered what kind of place this is, without even a basic building. At this moment, the stone tablet of the cemetery rose up, revealing a dark passage below. After a while, there were footsteps, and a person walked up.

"Captain Qin, hello, I'm Boss Zhang's personal bodyguard, and now I'll take you in to meet him."

Unexpectedly, Zhang Baoshan hid so secretly. No wonder those killer organizations couldn't find him. Who would have thought that the place where he lived was actually an underground tomb.

Everyone went down the passage to a tomb. After entering, there were lights everywhere and the light was sufficient. Under the leadership of the bodyguards, everyone entered a hall. Zhang Baoshan was sitting in the hall at the moment, with Long Xiaoyun and others beside him.

Long Xiaoyun also has a lot of questions now, but Zhang Baoshan didn't tell him that he was the one who hijacked Long Xiaoyun, but just told him that an old friend will meet later, and everything will be revealed.

Long Xiaoyun was very excited when he saw Qin Yuan, and he was willing to run forward to let Long Xiaoyun come over and protect them behind him. This Zhang Baoshan is not a good thing.

After Li Erniu told Long Xiaoyun all the ins and outs, Long Xiaoyun was very angry, and looked at Zhang Baoshan angrily, "Damn it! You liar, you are playing us around, bah! Thank you for being so dedicated I will do my best to protect you."

"Captain Long, don't be so excited. I really have no choice but to choose. After all, the situation outside is very dangerous. Those killer organizations are really difficult to deal with, and I only have this one daughter."

Qin Yuan looked at Zhang Baoshan coldly, he was really despicable, "Aren't you afraid that I will do something to you now?"

"But Captain Qin, I didn't break the law. and the task you received was to protect me. Besides, I'm also a citizen of Yan Kingdom. It's your duty to protect me."

Qin Yuan clenched his fists. Now he really couldn't find any evidence of Zhang Baoshan's crime. He kept his mouth shut now to use Yan Guo to excuse himself.

At this time, Zhang Baoshan clapped his hands, and several of his subordinates brought a few boxes, "Captain Qin, Captain Long, I know I'm sorry for you this time, but I'm really grateful because you let my daughter and My reunion also guarantees my safety, I hope you will accept the tens of millions of dollars."

Zhang Baoshan asked everyone to open the box. This is the first time Li Erniu and the others have seen so much money. This is too exaggerated. So much money is just taken out at will. It seems that Zhang Baoshan is even bigger than what the media reported. rich.

Qin Yuan turned his head and didn't even look at it, "I won't ask for this money."

"Hahaha, this is the first time I've seen someone refuse so much money, but Captain Qin, if you don't want it, it doesn't mean that your subordinates don't want it."

Li Erniu and the others are very excited at the moment. Although this is their obligation, they are still very happy to receive so much money. The money is enough for him to take over his wife and father to buy a house together.

At this time, Zhang Baoshan continued: "Brothers, I appreciate your abilities very much. If you don't mind, you can stay by my side to protect me. Of course, this is just a small thing. If you agree, the quality of life of your family will be improved. be improved."

Chapter 836: ??A few troubles

Qin Yuan felt very ridiculous when he heard that Zhang Baoshan actually wanted to recruit his red blood cell team. This person really has a little money, and he doesn't even know who he is. This is affiliated to the country, how could it be possible to rely on him? It can be bought with this little money.

"Captain Qin, don't laugh at me. After all, I am a life-saving person, but I know much more about human nature than you. You brothers, you trust them, but they can choose my side for money. "

"Oh, but we'll see what their options are."

Li Erniu walked over with a smile, picked up two wads of money and smelled them in front of his nose. This is the smell of money. To be honest, these money are really important, so that his wife and parents don't have to suffer in their hometown. .

The rest of the people didn't move at all, they just looked at Zhang Baoshan coldly, and Li Erniu came back after a while, "You just want us to work hard for you for this little money, let me tell you, my lord!" What is missing is not the money, but the friendship."

Zhang Baoshan was a little stunned. He didn't expect that there are such people now, and he is really not moved by money.

"What do you think? This money is enough for you to live for a lifetime, and my later guarantee is also very good. Is it interesting for you to be such a big soldier like this?"

"It's just that our beliefs are different. It's not up to you whether it's interesting or not. Now that your daughter has returned safely, let me tell you, if it wasn't for your identity, I really want to settle a deal with you. I, Qin Yuan, have never suffered a disadvantage."

This Zhang Baoshan also knew that once Qin Yuan was exchanged to Long Xiaoyun, he would definitely attack him, so he specifically contacted the embassy, and once again confirmed the task of letting Qin Yuan and the others protect him and ensure his safety.

At this moment, Qin Yuan just wanted to go back quickly. More and more things happened here. On the way to the embassy, Li Erniu teased: "Brother Qin, what do you plan to do with your sons and daughters? Take them back Where shall we put it?"

Long Xiaoyun next to him was a little dazed. Why did Qin Yuan have sons and daughters as soon as he came out? Qin Yuan told Long Xiaoyun the ins and outs of the matter. Those children are now at the embassy. I can't bear to give up on them, so let's take them back and stay with the team for a while, and send them to Grandma Sun after making sure there is no problem.

"I'm afraid it won't work. I don't think those wolf cubs are easy to mess with. Don't let our own children be bullied at that time, and Grandma Sun is too old to control her."

Qin Yuan has also thought about it in many ways. At present, Grandma Sun's place is indeed the most suitable. It's just that before sending them to Grandma Sun's side, they need to get rid of their bad habits in the army and reverse their concepts first.

After all, the army is not a place for children to stay. Grandma Sun has someone to take care of their three meals a day, and someone to give them lessons.

Long Xiaoyun talked very little along the way this time, and she felt that Qin Yuan was a little dragged down. He was not like this before, but this time he did not expect to be plotted against by the object of protection.

Qin Yuan can only comfort her and tell her not to think too much. There are too many things this time, and the problems in this are very complicated. He will apply for that one later, and the account between him and Zhang Baoshan has not yet been settled. clear.

This Zhang Baoshan is really courageous, he didn't say anything after threatening himself, and even hijacked Long Xiaoyun, no matter which one, he had to settle it with him.

When everyone came to the embassy, the children were locked in a room alone by the staff of the embassy, and there were guards on duty outside the door.

A child was very happy to see Qin Yuan coming to pick them up. Qin Yuan kept his word to them and did not abandon them.

The oldest Qin Dagou saw Qin Yuan coming, his eyes showed some surprise, but he still didn't say a word, "Qin Dagou, you did a good job with them this time, and you didn't make trouble. Reward you well. I will go back and cook for you myself."

Long Xiaoyun rolled a blank look at Qin Yuan beside him, why is this person so dishonest, how could he give his child such an ugly name.

Seeing the injury on the child's face, Long Xiaoyun walked over to give him medicine, but unexpectedly the child stepped back very cautiously and refused Long Xiaoyun's treatment.

Qin Yuan shook his head and told Long Xiaoyun that these children are very vigilant and are still on guard against them. Now everyone doesn't trust them, so let's take them back first! At least give them a place to call home.

When Qin Yuan and the others returned to the army, Gao Shiwei was stunned for a moment when he saw the children getting off the plane.

Qin Yuan reported the matter to Gao Shiwei, and those staff members were very perfunctory before. Originally, he bribed those staff members with money, so that they would definitely be screened when they crossed the border later, so that they could manage their relationship. Who knows that no one asked these children when they got on the plane.

Now Qin Yuan knew why the members of the dawn organization chose to hide and run schools in country M. Although there was no war in this country, the government did nothing and ignored the ordinary people at the bottom.

After these children came, they were full of curiosity about everything. Looking at their large training ground, those training items were similar to those they trained there.

These children were brought into the guest room. Qin Yuan and the others had just left. After all, they still had to report to the higher-ups about the fate of these children. Everyone was discussing it.

At this time, these children also started a discussion in the room. Qin Dagou looked at the spacious room, everyone had their own boat, very neat and clean, some couldn't believe it, to be honest, he thought Qin Yuan To save them must be to use them as tools of war, just like those people.

This child's life experience is also relatively poor. He was abandoned by his family three times, and no one cared that he had been wandering since he was ten years old. He has been wandering for six years. Although he looks only 16 years old, his mind has surpassed his age.

He will think about many things, he doesn't believe that a person will be nice to them suddenly, it must be purposeful, so he is more defensive, including these partners around him, he can't fully trust, just because they only have each other now, We can only hug each other to keep warm.

Just to add a word, the reading app I am using recently has many sources of books, complete books, and fast updates!

"No. 7, no, Qin Dagou, I think the environment here is really good. You see, we lived on the floor before, and here we each have a separate bed. This bed is so warm."

"It's best not to let your guard down. He hasn't revealed his real purpose yet. I don't believe he has no other purpose. There is nothing wrong with everyone staying vigilant."

At this time, the guard outside the door came in with two bags of snacks. Although these children were abandoned by their parents and brainwashed by those killer organizations, they still have childish instincts when they see snacks.

The two younger children ran forward and surrounded the snacks that they had never seen before. They looked delicious. At this time, the guard put the snacks on the table and unpacked them. At this time, the back of the guard was just exposed in front of Qin Dagou.

Qin Dagou quietly touched it and looked at the surrounding things. There was only a big cup for drinking water on the table. Now that they came to this place, these people have treated them so well and arranged such a good room for them, and sent so many snacks, there must be problems.

So Qin Dabao planned to act first, this was his first lesson when he came to the dawn organization, no matter what he did, he had to act first.

When they arrived at the dawn organization before, they had to fight each other even where they lived, and they were only qualified to live in a good place with their own strength. This was the education they received at the beginning. Familiar with the situation, if he hijacks this guard, he can take the opportunity to escape without being controlled by Qin Yuan, Qin Dagou thinks a little simple.

Just when he raised his mouth and wanted to hit the guard, the sentry suddenly turned around. The sentry didn't notice anything unusual, but stuffed an open bread into his hand.

"Aren't you hungry, eat quickly! After all, our army eats here, and they all come according to the meal time. If you are here at this time, you can't catch up with the meal time. Let's eat something first, and it will be normal in the evening." ate."

Qin Dagou embarrassingly hid the cup in his hand behind him. He felt that the feeling inside was very different. These people seemed to be sincerely treating them well. At this moment, several other sentries came in and brought them some toiletries. Let them do a simple cleaning first.

He also breathed a sigh of relief. Fortunately, he didn't do anything just now, otherwise it would be embarrassing. There are so many people in this place. A few of them visited everywhere in the team.

Although there are people training everywhere, but after seeing them coming, they all look at them with a smile. Overall, this place feels good.

Li Erniu took them to the cooking class, where Qin Yuan was cooking. The squad leader of the cooking class asked for leave because of illness, but there were enough cooks, but Qin Yuan had agreed before, saying that he would do it himself. they eat.

Just like that, Qin Dagou saw Qin Yuan wearing an apron and was peeling potatoes. The contrast was really great. I saw him holding a gun in a dignified manner before, but now he is like the big brother next door. Cook while chatting with the people around you.

"Are you short of cooks here?"

"Then I remember that your official position should be very high, because those outsiders are very polite to you, why do you come here to cook?"

"Hahaha, you don't need to mind these things here. I promised to cook for you, so I'm here to make preparations."

Qin Yuan could only name these children according to their ages and arranged them in order. The first one was Qin Dagou, followed by Qin Xiaoer, Xiaosan, Xiaosi, and Xiaowu.

Give them a simple name now, as long as there is someone called them anyway, and when they are officially settled later, then give them a good name.

After a few days of getting along with Qin Dagou, they felt that these Yan Guo soldiers did not want to hurt them, but really wanted to save them, but they had developed a lot of bad habits before, and it was really hard to change, such as casually swearing at others, Don't trust the other party, as long as they find a chance, they will hide weapons privately. Qin Yuan has discovered it several times.

"You have to know that now you are well protected, and you don't need to hide weapons at all. This behavior of hiding weapons makes me think that you want to hurt others."

Every time this question was mentioned, those children avoided talking about it. These children have also learned to be smart. At the beginning, they would confront Qin Yuan hard, and later they

would not answer what Qin Yuan said. After the stomach fire, it felt like hitting soft cotton, with no outlet at all.

If it is about training soldiers, then he has no problem, but it is too difficult to face these children. This day was supposed to be a lunch break, and everyone was sleeping, so He Chenguang ran over.

"Brother Qin, hurry up and take a look, those boys are causing trouble again, and have injured our sentries."

what's the situation! !

Because after this period of observation, ' thought that these children had changed, so they did not restrict their freedom, thinking that they are children after all, not prisoners, and it is not wrong to trap them for a long time method, but let them come with them in their daily routine.

When Qin Yuan ran over, those children were already under control, and the sentinel next to him was covering his bleeding head with a painful expression on his face.

"Captain Qin, these kids are really too ruthless. Look at such thick bricks and throw them on people's heads. I just told them not to make noise during their lunch break. Their noise has already affected the rest of the soldiers. ."

However, the sentinel was bleeding from his head now, so he hurriedly treated his wounds because he was sick. Those few did something wrong, but the child was laughing beside him, because Qin Yuan never punished them severely from the beginning to the end. They just feel that it doesn't matter, and there is nothing wrong anyway.

Gao Shiwei was very angry when he found out about this. This is the army, not the place where children should come.

After coming here for a week, they deflated the tires of the grocery shopping cart four times, washed everyone's clothes in the drying yard, and threw mud on the quilts. It was a mess, and it was neat at the beginning. These children were scribbling on the walls, and there were obscenities everywhere.

"You can't solve Qin Yuan's problem, so let me solve it. Let me see the contact person and send it to the local orphanage! If it doesn't work, send all these boys to the juvenile detention center. His grandma's are all some What kind of person is simply not familiar with feeding."

Chapter 837: ??The message left by Starscream

The things that happened before were trivial. The most important thing is that these children are now hurting someone, and they still feel as if nothing happened. The most basic compassion and kindness no longer exist.

Qin Yuan felt a little bit regretful, wondering whether he made the wrong decision at the beginning, whether these children can't change at all, so they should be left there to fend for themselves.

He sat on the playground and looked at the children who were punished to stand by him. Although he said that they were punished to stand, they were all lying on the playground in the sun and did not obey orders at all. Qin Yuan was very helpless. At this time, Long Xiaoyun came over .

"I know it's difficult for you now, and I just wanted to save these children with good intentions. Although I don't have much experience in raising children, we can try to take it slowly, and I will give you some suggestions."

"It's really difficult. Originally, I was trying to impress these children with our pure feelings. After all, didn't all the children of our Yan Kingdom come here like this? He knows that the adults treat him well, but why don't they treat these people so well?" Have you used it? Is there really a regional difference?"

"After all, these children have different experiences. Although they are still very young, they have experienced things that many children can't imagine in their lifetime. I think you should manage them militarily, or you will really have to go to a juvenile detention center. ."

Qin Yuan nodded. Although the juvenile prison sounds like the best choice, he doesn't want to send those children to that place. After all, it's where all the bad boys gather, and going there will only increase their bad habits. , they are different from ordinary children after all.

Qin Yuan and Gao Shiwei applied for a period of 15 days. During this time, he would conduct devil training on these children, tidy them up, and then send them to the orphanage. Going to the orphanage will also be troublesome.

Qin Dagou and the others are getting more and more aggressive, because they find that no matter what they do or do wrong, they will not be life-threatening, and no one will force them with a knife like before.

Here, they challenged the bottom line again and again, doing what they wanted to do. When the next day just dawned, Qin Yuan kicked open the door of the dormitory and grabbed these children from the bed.

"From today onwards, everyone will get up and train with us. Aren't you very energetic? Then I will let you feel it."

They started to rely on it again, just like before, thinking that being a rascal can be passed. This time, the petition was very persistent. Whoever couldn't afford it was raised directly, and then they made a regulation for them according to the time, three minutes. It is necessary to pack up and gather all within one day, otherwise it will take more than one minute and do ten more push-ups.

"Do you understand all the collection?"

The look in Qin Yuan's eyes at this moment, Qin Dagou felt a little scary, that look and tone were completely oppressive, so everyone started training, before they dirty all the clothes that were washed in the air-drying tea, and everyone didn't say something and wash it again.

After training them in the morning, Qin Yuan asked everyone to take out all the training uniforms they trained today and hand them over to these children to wash.

"This is the mistake you made before, you have to bear it, especially you Qin Dagou, I think you, as a man, I will teach you what responsibility is today."

Although there is a washing machine next to it, Qin Yuan does not allow them to use it. He took a few big basins and asked them to wash by hand. The younger children are familiar with such mandatory orders after all, so they dare not have too much trouble. To resist, even though I don't want to in my heart, I can only clean it silently.

Qin Dagou is different, he is the oldest child in this place, he already has his own complete thoughts, he immediately threw his clothes on the ground and quit, Qin Yuan stepped forward and kicked him on the back, kicking him to the ground. In the big basin next to it.

"Damn it! How dare you hit me!" After Qin Dagou finished speaking, he hit Qin Yuan directly. With one hand behind his back, Qin Yuan raised his foot slightly and kicked him onto the basin next to him. It is simply absolute suppression.

After going back and forth like this more than a dozen times, Qin Dagou lost his strength, but Qin Yuan didn't intend to let him go, picked him up from the water basin and threw him directly on the ground behind him, punching him left and right. It hit him in the face, Qin Yuan tried his best to restrain his strength, let him feel the pain, and didn't want to really hurt him.

"Look at your trash, think about it for yourself, I saved you from the beginning, I really want you to go on the right path, otherwise I would have left you there long ago. Don't care about it."

"Now I'm giving you this chance, I'm pulling you, why do you refuse when others pull you, how decadent are you really going to be, everyone shouts and beats you, everyone hates you?"

Qin Dagou lay on the ground silently, although his body was in pain, but he gritted his teeth and insisted not to let himself hum. He is a very strong person.

"Think about it for yourself. I really gave you too many opportunities. If you want to stay, then follow me to train and reform. I want to change all your bad tempers. If you don't want to change, I will continue to send you back to that country, and let you fend for yourself."

After Qin Yuan finished speaking, he left. These are some small punishments for them, so that they can reflect again. These are all suggestions given to him by Long Xiaoyun. To be honest, Long Xiaoyun is indeed better in terms of education.

After an hour, when Qin Yuan passed by, those children were already washing their clothes seriously without any complaints.

"How did you think about my question just now? If someone leaves now, then stand up!"

Unexpectedly this time, these children did not utter any swear words, and just silently washed their clothes. It seems that educating their own children really requires a special method, after all, their experiences are different.

Afterwards, Qin Yuan led them to conduct militarized training every day, and Qin Yuan asked to whitewash the walls that were scribbled by them Wantu before the management. Qin Yuan really did it like a child. Became a nanny, and followed these children everywhere.

However, the transformation of these children also made him quite gratified. From the beginning of the lack of cooperation to the present, he all got up and assembled at the sound of a whistle. They had blown up the car tires in the cooking class before, and now Qin Yuan took them on foot for seven days. Eight kilometers to buy vegetables.

In the process of getting along with each other day by day, Qin Dagou's mentality has also changed. Qin Yuan is the most different one among all the people he has come into contact with. Before, everyone approached him with a purpose, but this person is trying to find ways Changing them, making them better, and all the training changes he was by his side, really like a father.

Gradually, everyone also felt the changes in these children. Qin Yuan also issued a lot of regulations. For example, once you curse someone, you need to add ten push-ups or other training items. Under such corrections, the behavior of these children has become very standardized. up.

Qin Yuan also mostly told them that they no longer need to risk their lives for survival. They are very safe in this place, and they don't need to think about the danger of their lives, nor how to live.

Qin Yuan also sincerely paid for them, took them to train, cared about their lives, and went to the hot springs with them, just like an old father, taught them how to behave, and even taught them how to box.

The girl who stabbed He Chenguang before was the youngest, named Qin Xiaoliu, and Qin Yuan never taught her these things and didn't ask her to go to He Chenguang to apologize. I didn't expect that after seeing He Chenguang, she would personally bow to him and apologize. .

Qin Yuan saw hope in an instant. These children are still very smart. As long as he makes some adjustments and leads them on the right path, there will be no problem.

Soon the 15 days of training will be over. These children are very well-regulated. After all, this is the army, and there is no way for them to stay here for a long time. Qin Yuan still wants to send them to Grandma Sun, and he is not at ease in other places.

On the day when we were about to leave, everyone came out to say goodbye. After all, we still have feelings after being together for so long. Those children shed tears for the first time, not because of fear, not because of pain, but because of the strange feeling of love. thing.

After parting with the members of the team, Qin Yuan drove them to the playground. Before that, they were trained in militarized management every day. After all, these are children, and they were very happy when they came to the playground.

When playing the roller coaster, Qin Dagou still wanted to see Qin Yuan's jokes, but he didn't expect Qin Yuan to finish the ride with a calm face, and Qin Dagou's legs were shaking when he came down.

"I don't know how little you think about it, but at this height, I have skydived before. For me, these things can be done with my eyes closed."

Everyone played and played together, laughing and laughing like a father and son, enjoying their happy time.

In this way, everyone played happily all afternoon, and Qin Yuan was going to take them to Grandma Sun's side, and those children were a little bit reluctant to part with Qin Yuan.

"Then will you come to visit us in the future? You abandoned us again like those people."

"This is not abandonment. That is my grandma. You can rest assured to live there. After all, that place is more suitable for you. You can receive a good education there. I will come to visit you."

"As long as you come, don't worry, we promise not to cause trouble."

When she arrived at the orphanage, she said that grandma felt distressed seeing so many children smiling from ear to ear. These children have experienced so much at a young age. Qin Yuan also made it clear to her on the phone, After all, these children are special and have suffered a lot.

When it was time to part, the children hugged Qin Yuan and cried loudly. Qin Dagou put his hands in his pockets and turned his face away, not wanting to look at Qin Yuan, but his eyes were already red.

Everyone bid farewell to Qin Yuan, only Qin Dagou remained indifferent, but when all the children were called in by grandma, Qin Dagou ran out, thought for a long time, and finally handed a pen to Qin Yuan hand.

"I know you are investigating that killer organization. This was given to me by that woman. He told us to take this pen to country H if we survived. We held a newspaper in our left hand. The people over there saw this pen will take care of us."

That woman really didn't give up, because in that situation, if the escaped child survived, that would be the best killer and the one worth cultivating.

"Aren't you afraid that you won't have a way out if you hand this over to me now?" Qin Yuan knew that the most difficult child had already been taken care of by him, and now he unconditionally believed in Qin Yuan, this pen must be his last way out, that's why he chose it Always stay by your side.

"I don't think I need it anymore. This kind of life is very good. Thank you for that. I asked Starscream. Anyway, they only recognize pens but not people. You just need to take this to the other side. Someone will meet you, if you need help, I am willing to go with you."

"There is no need for this. It is not for you to worry about these things now. Your task now is to study hard here and live a good life. Trust me."

Qin Dagou nodded and walked in. Qin Yuan held the pen in his hand' It seems that the matter here has been settled, and he needs to go to country M.

Although he sent them in, Qin Yuan didn't leave. He didn't want these children to know. It was probably an experiment he did. He was still a little worried. After all, there was no army to control them and they would escape.

After Qin Yuan quietly observed for a few days, these children were unexpectedly obedient here, and Grandma Sun was also very patient with them. It seems that this place is really good. The previous training has also changed them, and Qin Yuan also I felt relieved and left.

Qin Yuan received a rescue mission just after returning home, but it was very strange. The message for help was in the Yan Kingdom dialect, but it disappeared soon after it was sent. At first, everyone thought it was a prank, and the content of the message was that someone was chasing and killing He wants to seek police protection.

Li Erniu said speechlessly: "Why do all these distress messages come to us? It's not that we choose tasks, but that such trivial civil issues should be resolved by the police."

Suddenly this sentence awakened Qin Yuan, yes, why didn't the police receive the message, but their radio station received the distress message, and their radio station was a military radio station, ordinary people wouldn't be here A message for help was sent on military radio.

Gao Shiwei also felt that this matter was not simple. Could it be that other comrades in arms were in danger, and there were very few military radio stations, so they could only ask them for help, but they couldn't say it publicly, because the magnetic field of the radio stations was different, and they received The information he received was intermittent, probably because he was hunted down and wanted to seek protection.

Chapter 838: ??Laser Cyclops

This time the received message stayed for the longest time. Gao Shiwei and the others immediately located it and found that the place where the distress message was sent was actually country M. What's going on? Originally, I was willing to go there, but after double checking the location information, it seemed that Zhang Baoshan was the one who sent the request for help.

This Zhang Baoshan, Long Xiao frowned next to him and said: "This man is full of tricks, although he is a rich businessman from our Yan country, but we were tricked by him once before, could it be some kind of conspiracy this time? "

"This possibility is not ruled out, but he sent a message for help. As a citizen of our country of Yan, we also have the obligation to check the situation."

Gao Shiwei thought about it for a while and decided to wait and see. After all, he didn't know the specific authenticity of the distress message. In addition, Long Xiaoyun and the others did suffer from Zhang Baoshan before, and he didn't allow his special forces team members to To take risks, and this Zhang Baoshan is not a good person to be honest.

After another two days, no help message was received. Everyone thought that this matter might just pass away. After all, Zhang Baoshan was powerful and powerful, and he was surrounded by experts. Qin Yuan had observed his close body when he came out before. The four bodyguards were all retired from the US Special Forces.

Qin Yuan kept observing with that pen, and this matter had to be resolved as soon as possible. At this time, Long Xiaoyun came in, and Qin Yuan quickly put away the pen. He only wanted to complete this matter by himself.

Long Xiaoyun's observation was still relatively careful, and she soon discovered, "Qin Yuan, did you check a pen just now? Why do you feel sneaky in broad daylight?"

"This is a gift from Qin Dagou. I'm not afraid of being robbed by you."

"I'm here to tell you about this. His child is so old, and now he is learning the language of our Yan Kingdom. He will soon know what Qin Dagou means. Hurry up and give the child a good name." , he also has self-respect."

Qin Yuan didn't think much about it. After all, he didn't have such a delicate mind. In this aspect, he really didn't think about it. These children also lived with Grandma Sun for a few days, and he was willing to take Long Xiaoyun to see them on weekends , By the way, let's discuss the matter of naming the account.

After all, these children are now in the status of black households. Qin Yuan and Long Xiaoyun bought a lot of things on the weekend. When they went to the orphanage, they found that these children were actually cleaning in the orphanage. It seemed quite self-conscious.

"Big dog, this is a good performance. Bring your younger siblings to work together."

Qin Dagou was still a little embarrassed, Grandma Sun came out and gave him a blank look, "Don't be a big dog and bark all day, I renamed the child, he is now called Qin Zhengyang, isn't this name better than Big Dog? You're just screaming all day long."

"Hahaha, isn't it that this kid was also a little underwhelmed at the time, so he wanted to punish him."

These children have changed a lot. Everyone was having a lively meal in the orphanage, saying that grandma treats them like her own grandchildren, and treats everyone very warmly, which makes these children feel the missing family affection. Qin Yuan will also teach them boxing whenever he has time to keep fit.

After a while, the emergency call signal sounded, and it seemed that there was finally a mission out, and Li Erniu and the others were in a panic.

What everyone didn't expect was that this task was related to Zhang Baoshan. Zhang Baoshan sent a message for help again, and this time the matter was beyond his imagination. He had 10% of the anti-cancer vaccine in his hand before, and now that 10% of the shares have been inexplicably transferred to his daughter's name.

The point is that Zhang Xiaomin has now announced in a high-profile way that she will take over the company of the Zhang Group, while Zhang Baoshan has abdicated at home due to health reasons.

"Captain Gao, isn't this the rich man's own home? What does this have to do with us?"

"Can't you just listen to me? The point now is that his daughter has carried out public research in country M with these shares. To be precise, this request for help was sent by a doctor who developed an anti-cancer vaccine, not Zhang Baoshan."

It turned out that the doctor of the vaccine was also from Yanguo. They were several doctors at the time, and the results of their hard research did not want to fall into the hands of outsiders. Zhang Baoshan used to be a partner of this doctor and tried his best to protect him. Now that Zhang Xiaomin has come to power, it is different. He even hunted down the doctor everywhere.

The main reason is to get the 50% of all the vaccine shares in the hands of the doctor. After all, if they know the 50%, they will have complete breeding and they will earn more money.

This doctor, now he wants to return to the original country, devote all his energy to the research of vaccines, and wants to improve the pure activity of the vaccine and reduce its side effects to benefit the people of Yan country, but there is a problem with Zhang Baoshan. Zhang Baoshan couldn't be contacted, and Zhang Xiaomin secretly sent people to chase and kill him.

The vaccine doctor has now entered the embassy, and it is relatively safe under the protection of the embassy staff. This time, Qin Yuan and the others went mainly to bring the doctor back.

Country M is not in war. The country just brought back the doctor, which is relatively easy. Long Xiaoyun asked to participate in the war, but Qin Yuan felt that it was enough for him to take the red blood cell team. He just brought someone back.

"Then be careful along the way. I always feel that something is not right this time. That Zhang Xiaomin is a college student who is still studying. How could he be so smart and send people to hunt down the doctor?"

"I don't think his daughter came out to do it at all. It's probably that Zhang Baoshan did it behind the scenes. This old fox just used his daughter as a shield."

Anyway, this doctor also knows all the vaccine data, even if Zhang Baoshan holds 10% of the shares, as long as the doctor is brought back, it will not be a problem.

On the helicopter, Li Erniu really couldn't figure it out, "Brother Qin, what is the effect of the vaccine recently? Why are so many people fighting to the death for this broken vaccine?"

"This is not an ordinary seedling, but an anti-cancer seedling. Think about it, cancer is now a high-risk disease in all countries in the world. If this seedling is successfully produced, it can predict the cure of cancer cells, and how many lives will be saved."

"Brother Qin is right, and it's not that simple. What we see is a major event of saving people, but in the eyes of those businessmen, they can use these seedlings to double the price, and it may cost tens of thousands or even tens of thousands of dollars for a vaccine." Hundreds of thousands."

"I'm a good boy. No wonder Zhang Baoshan is so rich. He can easily sell tens of millions of dollars. How much money has this old boy made using this vaccine in the past two years?"

Brother Qin also felt a little helpless. This kind of person could not be sanctioned legally, because he couldn't get any substantive evidence, so he could only let him get away with it. This was also the reason why Zhang Baoshan came to M country.

Soon Brother Qin and the others went to the local embassy to find the doctor who developed the vaccine. The matter was going well, but the doctor was unwilling to leave, "You believe me, I must go and see Zhang Baoshan. I suspect his daughter has question."

"Come on, old man, is there any problem, and you said that our mission now is to pick you up, so hurry back with us."

Li Erniu really didn't want to stay here any longer, but the doctor insisted on it, and even quietly pulled Brother Qin out.

"Captain Qin, I know you are a smart person. You should know about that killer organization. They killed many of our partners and obtained 40% of the anti-cancer vaccine information in their hands. Zhang Baoshan only had 10% before. Because of the cooperation, I gave him another 10%, which is equivalent to 20% of the vaccine research results from him."

According to what this doctor said, if Zhang Baoshan is really controlled by the Xiaoxiao organization, then the Xiaoxiao organization can get 70% of the anti-cancer vaccine research, then there is no difference between this and getting all of them. They can also research the next 30%.

"So that's why it's not easy for me to reach the killer organization in the embassy safely. They want to kill people everywhere, but they didn't make so much effort to let me go, because the 30% in my hand is for them. It's not important anymore."

Listening to the doctor's analysis, Qin Yuan felt that it was very reasonable. It seemed that it was still necessary to go to Zhang Baoshan.

"Captain Qin, I really ask you to protect the security of those data. These things are not only the results of our research for many years. If these research projects are used by them, they can also become breeding grounds for murder."

Qin Yuan nodded and went in, talked to the red blood cell team about the situation, and everyone agreed, anyway, he would go to Zhang Baoshan to take a look after he came here, after all, he had sent a distress message before.

Didn't he give Qin Yuan something before leaving, "Captain Qin, this is a self-defense weapon I researched myself, no matter what, I still hope you come back safely, that killer organization is really dangerous."

Qin Yuan smiled, and originally wanted to refuse, but unexpectedly, the system in his mind suddenly lit up. It seems that this thing is very extraordinary, and it should be no problem if the doctor himself researched it.

"Then thank you doctor for your kindness."

Qin Yuan opened the box and found that it was a pair of ordinary glasses, but when he took the glasses into the palm of his hand, the system grid was automatically recycled.

"Ding! Congratulations to the host for successfully recovering the super see-through glasses. The system fusion has obtained the following skills. Please make a choice."

"1. Master key skill, under the action of glasses, all the lock cylinder equipment has been upgraded in perspective, so that you can see all the combination locks clearly, and the internal structure of the fingerprint lock can be deciphered and unlocked."

"2. The ability of binocular X-ray fluoroscopy to scan the damaged organs and bones can clearly see the specific fractures and organ bleeding, so as to provide better treatment."

"3. The laser light wave skill of both eyes, the laser rays emitted by both eyes hit the enemy within 100m, and the penetration power is 50cm."

Unexpectedly, after the glasses were recycled, there would be so many good skills. Qin Yuan had a hard time making a choice. All three seemed to be quite good, especially the one that could unlock the lock. Then there would be no need to use violence to open the lock. After all, like For some precious experimental data, complex passwords will be set, and if the lock is forcibly unlocked, the system will be automatically destroyed.

For the second one, I have the skills of a genius doctor and surgery, which is unnecessary. As for the third one, it sounds pretty good, laser light waves, this one is quite powerful.

After thinking for a while, "System, I choose the third skill."

"Ding! Congratulations to the host for choosing to successfully obtain the binocular laser light wave skill!"

Now Qin Yuan's eyes have been upgraded again. They used to have the function of thermal imaging vision, but now they have added a laser light wave. Now they can kill the enemy invisible even in the dark.

In this way, Qin Yuan brought the members of the red blood cell team to Zhang Baoshan's previous underground base again. It was still the same as before. Qin Yuan waited at the door for a while, and then someone opened the door. After all, there are hidden cameras nearby.

The person who came to greet them before was Zhang Baoshan's personal bodyguard. The big man was full of muscles, and he looked very powerful. I didn't expect that it was just an ordinary man in black who came to greet them this time.

Qin Yuan also felt a little strange. When he entered the tomb passage again, he didn't find Zhang Baoshan, and the person sitting in that position became Zhang Xiaomin.

The girl was still the same as before, when she saw and heard them running down bouncing down, she pulled Gong Jian very enthusiastically, ' After all, Gong Jian also saved him once before.

"Brother Qin Yuan, are you here to play this time? If you have nothing to do to have fun here for a few days, I can take you to play. After all, there are no more killers now, and it is very safe."

"We just came to see your situation this time. I received a distress message from you before, so I felt a little strange. Let's check it out. By the way! Where's your father?"

"Help message? Did someone send it randomly? Impossible, we are very safe here, my father has been sick recently and can't get up, so I manage all company affairs, he is still more cautious, no Get me out of here, fear for my safety."

Qin Yuan felt a little strange, Zhang Baoshan got sick too quickly, was it okay when they left some time ago, how can you say that when you are sick, you will be sick, and the sickness is so sick that you can't get up anymore.

"How could it be so serious? Well, take me to see him, and I will also help him with some basic medical skills to find out what the disease is."

Zhang Xiaomin became nervous when she heard that Qin Yuan wanted to meet Zhang Baoshan. She didn't expect Qin Yuan to be good at medicine, "Brother Qin Yuan, this is unnecessary. My father also has a private doctor, and that private doctor said he is quite powerful." For infectious diseases, it's best not to meet people, so as not to infect you, so he is now isolated."

The more Qin Yuan listened, the more strange he became. The more he went on, the more flawed the girl's words became. At the beginning, he said that Zhang Baoshan had a strange disease, but now he asked to see her and it turned into an infectious disease.

Chapter 839: ?his daughter

Moreover, Zhang Xiaomin immediately diverted her attention and said that it is too boring in this tomb passage now, so she should take Qin Yuan and the others up to treat them to a good meal and express her gratitude. She urgently wants to leave this place, and does not want Qin Yuan stay here.

Li Erniu was instantly interested when he heard that he could eat delicious food, and urged everyone to leave, "Brother Qin, it's okay to have a private doctor here, let's have a good meal now, and then go home."

"Since we don't eat this kind of food, after all, the previous help is also due, then you can tell your father for me, and we will leave first."

"Ah! Brother Qin, aren't we going to eat? I just ate a compressed biscuit this morning."

He Chenguang kicked Li Erniu from behind, "You know how to eat in a day, kid, and I will give you enough to eat every day after you go back."

He Chenguang and the others also felt that the problem was a bit wrong. Anyway, let's leave this place first. Unexpectedly, just as Qin Yuan reached the entrance of the tomb, he suddenly turned around and threw a few throwing knives, killing all the subordinates who were closest to them.

Then he rushed in front of Zhang Xiaomin with a stride, and stabbed at her with a flying knife in his hand. A surprising situation happened. When Zhang Xiaomin saw Qin Yuan's flying knife approaching, he did a backflip and quickly jumped behind the chair. The speed is very fast, not like a weak little girl at all.

I go! What's the situation? Gong Jian was completely stunned, because he had protected Zhang Xiaomin before, and he never realized that this girl was so good at martial arts.

Qin Yuan sneered and said: "I didn't expect that I doubted you before you really had a problem, but I always felt that something was wrong. After all, no matter how wrong Zhang Baoshan was, he was also your father, so you probably wouldn't be so cruel to him. ."

"Hahaha, who said he is my father? And I am not Zhang Xiaomin at all. I killed his own daughter a long time ago. He doesn't even know what his own daughter looks like, so he is ashamed to borrow his father's help." It's ridiculous to protect his children in the name of

Advertisement, the novel app I am using recently supports both Android and Apple phones!

Everyone didn't expect that there would be such a big reversal. It turned out that the person in front of you was a member of the Assassin of the Daybreak Organization. Her name was Amsa. She was also adopted and trained by the Daybreak Organization as a killer since childhood.

From the family banquet held for Zhang Baoshan's birthday, Zhang Baoshan's real daughter was killed, and Zhang Xiaomin's real mother was killed at that time.

As for Zhang Baoshan, who has so many wives and illegitimate children, he doesn't care if someone is gone. All he cares about is his own children, so Amsa successfully sneaked in using Zhang Xiaomin's identity and installed a bug in his house.

Qin Yuan actually had doubts when she was talking about it before. How could the real Zhang Xiaomin know how to install a bug as a college student with no worries about food and clothing? Moreover, Zhang Xiaomin was very surprised when she said that her other brothers and sisters were killed. calm down.

It was like telling other people's stories, but at that time Qin Yuan thought that these brothers and sisters probably hadn't met, so they didn't have much emotion, but he ignored one point, when Amsa said it, she didn't even feel a little scared No.

Amsa is the real boss behind the killer base, and Starscream is always dispatched by her. Amsa is an A-level killer like Daybreak, and has a very strong lurking ability.

Later, when Qin Yuan was going to their killer base, Amsa pretended to be afraid and wanted to test Gong Jian's true level. Gong Jian was really strong, but Amsa could kill him completely. She considered Qin Yuan at the time, Because she has been lurking for so long, in order to enter Zhang Baoshan's house and get his scientific research data.

This Qin Yuan is very difficult to deal with. If he had killed Gong Jian at that time, Qin Yuan would definitely have continued to investigate. By then, all the plans of the organization would be in vain. She had been lurking for such a long time, and all her hard work would have been in vain.

So I can only order the outsiders to come down and perform an assassination trick with myself, and then take Gong Jian away as a hostage. Even if Qin Yuan wants to destroy her good deeds later, he can also threaten Qin Yuan.

Everyone didn't expect that such a quiet little girl turned out to be a cold killer. No wonder those killers blew themselves up. Everything was caused by her. After all, the inner ghost was by their side, and everything they did was felt. Being led by the nose.

"Grandma, you little girl has so many evil intentions, and you were the one who directed and acted when you escaped and got caught."

"Hmph, your speed is not bad. I originally wanted to deal with those people myself, but I heard you coming, so I will play with you."

"Then do you think you can still run today? With me here, I will definitely bring you to justice, and you don't even want to take away those experimental data."

Amsa laughed loudly, then she quickly pressed a switch next to the seat, and ran towards the bedroom. Qin Yuan heard the sound of a mechanism starting, and shouted loudly: "Hurry up, there is a Something is wrong, get out of the passage!"

Li Erniu and the others could only quickly retreat to the back. My subordinates raised their guns and started shooting at them. In just a few minutes, the entire basement was covered in white smoke, and the white eyes were not simple. , just came out, Li Erniu felt that his feet were a little floating.

"No, there is a problem with the smoke. It's because they have too many people, and they have blocked the passage in front, so we can't get out."

At this time, Qin Yuan was shuttling through the smoke, he was not affected by the smoke at all, and then came to the entrance of the passage and used the laser laser eye that he had just obtained, and looked directly at the soldiers in the passage.

In an instant, Qin Yuan's eyes turned red, and two golden laser rays shot out. This kind of laser light has a very strong penetrating power, and the seven or eight people in front were instantly penetrated by the laser rays and fell to the ground and died.

"Er Niu, the people in this passage have been dealt with, hurry up and run out with their gas masks."

"Ahem, Qin Yuan, what should you do?"

"Leave me alone, I have no problem, you run out safely and wait for me above, I must catch Amsa, otherwise I will destroy the subsequent plan, and it will be very difficult to find the Daybreak organization."

Everyone knew that we had to retreat quickly, otherwise it would only drag Qin Yuan down. Seeing that Qing Yuan was inside, there was no serious problem. Li Erniu and the others quickly withdrew, because at the end Wang Yanbing had already fallen into a coma. Gong Jian quickly picked up Wang Yanbing and rushed out.

Those thugs wearing gas masks inside were quickly dealt with by Qin Yuan. Qin Yuan pressed the switch and walked into the bedroom where Zhang Xiaomin disappeared just now. A stone room, the decoration inside is very essence.

The innermost doors were all open, and Qin Yuan quickly chased after them. At this moment, he heard movement behind the door, and quickly turned sideways, and two rows of bullets directly hit the position where he was standing just now.

After Qin Yuan turned around and settled down, he looked inside carefully, but he didn't expect that it was the two bodyguards beside Zhang Baoshan.

"I don't want to entangle you here, I just want to find Amsa!"

"We don't know about Amsa. We only know that you want to kill our boss's daughter, so we have to protect her. This is the duty of our bodyguards."

Qin Yuan shook his head. Only these two people were still bodyguards. He didn't know that his boss was controlled by others. Qin Yuan didn't want to waste time with these two people, so he quickly shot at them.

But these two people are not easy to provoke, after all, they are retired special forces from the United States, and they have also experienced various angry scenes with Zhang Baoshan.

The cooperation between the two was very good, and they were able to match Qin Yuan with one or two tricks.

"I didn't expect you to be so powerful that you could resist the two of us."

Qin Yuan impatiently kicked a bodyguard's shoulder. With all his strength, that shoulder directly smashed towards the stone door behind him. The stone door was smashed by him, and he fell to the ground without moving.

"I told you just now that that woman is not his daughter. Your boss is already under control. You are still here talking to me about protection. Where is your boss? Take me to him quickly."

After Qin Yuan said this, the bodyguard also reflected, otherwise, with Qin Yuan's identity, and he is a soldier of the Yan Kingdom, there is no reason to trouble a little girl, there must be something wrong with it.

What Qin Yuan is thinking about now is that this Amsa has never left, but is lurking here instead, which means that he has not obtained Zhang Baoshan's anti-cancer vaccine data, which means that Zhang Baoshan is alive and useful, so it is only now that he finds Zhang Baoshan. is the most critical.

One of the bodyguards had already been knocked unconscious by Qin Yuan, and the other bodyguard hurriedly took Qin Yuan to Zhang Baoshan's place, "I think it might be too late, because that girl just asked us to come out and say that someone came in, let us We protected her, she has already entered the boss's room ahead of schedule."

When the two came to the place where Zhang Baoshan lived, they found that the door was closed tightly, and the bodyguards could not open it even if they pressed the switch outside. What should I do next?"

At this time, Zhang Baoshan was lying weakly on the bed, his hands and feet were tied with ropes. Amsa sat next to him and kept asking Baoshan for the remaining anti-cancer vaccine data. Zhang Baoshan also knew at this moment that this person had died. It's not his daughter anymore, the anti-cancer vaccine data is his trump card for survival, how could he say it so easily.

He shook his head desperately, expressing that he didn't know, but he didn't expect Amsa to insert a knife into his calf, Zhang Baoshan trembled in pain.

But before he could react, he stabbed a knife directly into the sole of his foot.

"Hehe, don't expect those people to save you. Thanks to the poisonous gas traps you designed yourself, Qin Yuan probably died outside. Even if he wasn't killed by the poisonous gas, your two bodyguards are enough to deal with him."

Zhang Baoshan's eyes widened in fear. This was something he hadn't expected, but he was still betting because he believed in Qin Yuan's ability, and he had done many investigations on this person. It seems that he has experienced that biological and chemical weapons can come out safely in biological and chemical weapons, then he will definitely be able to survive this poisonous gas and save himself.

"Even if you kill me, I won't give you those after watching for a second."

"How could I be willing to kill you? I know you are very cunning, aren't you just delaying time? But I have a lot of time, we can get better slowly, just see if you can't take it anymore, I Man, there is a study on torture."

After Amsa finished speaking, she took out a new set of torture instruments from the backpack behind her, and Zhang Baoshan introduced the uses of these torture instruments one by one. His scalp felt numb when he heard it.

The bodyguards fiddled outside for a long time, but there was nothing they could do. The secret room made of stone was very large, and the walls were very thick. It would be impossible to open it with brute force.

Qin Yuan walked over quietly, and slapped the bodyguard on the neck, knocking the bodyguard out, because he was going to use laser eye, and he didn't want others to see his skill.

The penetration of laser eye is 50m, and this wall is definitely enough. At this time, Amsa who was interrogating suddenly saw how the opposite wall penetrated, a strange light.

This bright light gradually formed a round hole, and suddenly the entire wall fell down, and a person quickly jumped in, turned out to be Qin Yuan.

Amsa looked at Qin Yuan in front of her in shock, "Impossible, how did you escape?"

Qin Yuan rushed forward and kicked Amsa in the abdomen, sending her flying, "You really are a failed killer! Why didn't you get to know your clients well before attacking them? People who want to kill me Qin Yuan, I basically killed them all."

Amsa gasped, this man was too strong, she took out a short knife from her back, anyway, she was fighting him now, if she had a chance to seriously injure him, she could still escape of.

In a blink of an eye, a dagger flew towards Qin Yuan's neck. Qin Yuan dodged the dagger with a lower back, then turned around and kicked Amsa's wrist. What Qingyuan didn't expect was that this The woman really could bear it, and the strength he used for this kick was also very strong. She actually took this kick deeply, and the dagger in her hand still did not fall.

Amsa was already sweating on her forehead at this moment, she shook her numb wrist, then picked up the dagger and stabbed at Qin Yuan, Qin Yuan smiled and punched her on the shoulder.

"You are too slow to play swords. I haven't mastered my sword skills yet, so let me show you now."

Then Qin Yuan quickly threw two throwing knives towards Amsa. At this moment, she only saw a burst of cold light flying towards her, but she couldn't see the shadow of the knives. Thinking of Qin Yuan throwing three more throwing knives.

Although Amsha dodged two throwing knives, the three throwing knives behind Qin Yuan pierced her abdomen and shoulders hard.

Chapter 840: ??Set off

Amsa fell to the ground clutching the wound on her abdomen. It seemed that she still underestimated Qin Yuan's ability. She didn't expect him to be so powerful. This time it was a mistake.

"Your killer organization is really not simple, but it's really ruthless enough."

"Hehe, you are really strong, but you don't know the power of our Daybreak organization at all. I have heard about your record, but how can those small-scale killer organizations compare with our Daybreak organization? You just wait to be defeated by us." Endless pursuit!"

Qin Yuan walked over and kicked Amsa on the chest, "There is a lot of nonsense, let me tell you, I am not only going to kill you, but also your entire killer organization, I will always be yours Nemesis."

Amsa burst out laughing suddenly, "Don't you want the research data on the anti-cancer vaccine? It's on me. If you have the ability, come and get it!"

Qin Yuan knew that this person was going to play tricks, so he mentioned Amsa, "I tell you, it's useless for you to play tricks in front of me."

At this time, Amsa suddenly had a gloomy face, and snapped her fingers in front of Qingyuan, that is, in a split second, Amsa suddenly exploded.

This guy is really ruthless, with so many liquid bombs on his body, it seems that she is also determined, if she is caught, she will die with herself.

But Qin Yuan's body already has a super strong defense ability, and just before she exploded, the system has already given a reminder, Qin Yuan used the instant burst ability to jump directly to the rear, and the explosion of this range did not cause any harm to him .

It's just that Zhang Baoshan is more pitiful, because he was restrained on the bed, and Qin Yuan didn't care about him at that time. Zhang Baoshan was directly blasted out by the shock wave of the explosion, and smashed ***** the wall.

At this time, Amsa has been shattered, and she is willing to go to check Zhang Baoshan's situation. He was just fainted by the bomb, but it seems that he has injured his spinal cord. If it is someone else, Qin Yuan will definitely treat him, but Zhang Baoshan A person like Baoshan, who involved so many lives for his own benefit, let him fend for himself.

As for the research results of the anti-cancer vaccine, she probably didn't get Zhang Baoshan's control. If there are only research vaccines in the hands of other shareholders, then only 40% of them are equivalent to a semi-finished product, even if he sends them to the Breaking Dawn Organization It won't be a big deal either.

Qin Yuan lifted Zhang Baoshan out of the catacomb. At this moment, Wang Yanbing had come to his senses. It seemed that the mist only had the effect of making people faint, and there was no fatal poison. Everyone sent Zhang Baoshan to the hospital together. After all, Qin Yuan Also ask about the whereabouts of the anti-cancer vaccine.

After Zhang Baoshan woke up and saw himself in the ward, Qin Yuan stood by the window and looked at him.

"You've finally woken up. Do you know why I'm waiting for you to wake up? You'd better give this vaccine to me, otherwise it will lead to endless disasters."

"Hehe, am I not miserable enough? I am the only one alive in the whole family now, and if I am like this, I will not be able to stand up in the future. All my wives and children have been killed. Do you think I will worry about those people now?" ?"

"Don't be so righteous in what you said. I know that you are very afraid of death, and you will definitely live. Anyway, you decide whether to give this thing to me. Those killer organizations will not let you go, and I There is no obligation to protect you 24 hours a day."

After Qin Yuan finished speaking, he was about to leave. This man didn't know how to repent. His wife and children were all killed by him. He was just a selfish villain, and he didn't use these anti-cancer vaccines to benefit Human beings are purely for their own benefit.

"Captain Qin! Alas! Alright! The seedling research results in my hand are next to the cemetery where I live. There is a tomb there. She is my first wife. The anti-cancer vaccine is under the tombstone. You take it with you." let's go!"

"No matter what, I still hope you can do it yourself."

Qin Yuan came to the cemetery mentioned by Zhang Baoshan, and found a black USB flash drive under the tombstone. It seems that it contained the anti-cancer vaccine ingredients he had.

Just such a small thing, how many people died for it, and how many scientists sacrificed? Qin Yuan shook his head, sure enough, wherever there are people in this world, there is war.

Qin Yuan went back to the embassy to pick up the doctor, and handed the USB flash drive to him. After all, it belonged to him. The doctor is over sixty years old, but the country has arranged a professional research team. The anti-cancer vaccine The research value of is very high, and now it has a lot of side effects, but they will continue to improve it.

The doctor is also willing to hand over his research results. He is very pleased to be supported by the state now, and there is such an excellent research team on the state side. He will definitely overcome these side effects and strive to market this research as soon as possible.

At this time, inside the Xiaoxiao organization, Starscream and the others knelt on the ground. They failed to complete the task this time, not only lost the base, but also released Arthur, who was killed by Qin Yuan.

The man in front of him was wearing a black mask, playing with the throwing knife in his hand, "Tell me how I can get rid of you guys? Just like this, I still have the face to come back."

"Boss, we also wanted to preserve our strength, and Arthur was out of control at the time, we couldn't summon him back."

Abit simply put all this matter on Arthur. At this time, the man stopped his hand and suddenly threw the flying knife in his hand. The speed was no less than that of Qin Yuan, and Abit hit the flying knife on the head. Falling down, Starscream and Amanda beside him trembled.

"You know, what I hate the most are people who lie. We must maintain absolute loyalty and 100% integrity within our organization."

"Boss, we made a mistake this time, but the relationship is really powerful, and we have no other choice."

The man stood up and kicked Starscream away, "You guys really made me angry this time, if it wasn't for the lack of manpower I have now, Amsa would have lost contact, do you think the two of you will still survive?" chance?"

Starscream got up from the ground and coughed violently, "Boss, please give us another chance, we will definitely lead the team to deliver Qin Yuan's head to you personally."

"As for you trash, I don't count on it anymore, go back to training! If you don't have that ability, don't go to death. I will have other ways to deal with this person. Just wait for the arrangement."

"Yes! Boss."

Starscream and Amanda backed away tremblingly. Their boss's temper was unpredictable. It was quite surprising that they were let go this time. But the training that the boss just mentioned, could it be that there is a new training method in the organization? Yet?

After the two came to the training room, they realized that this training method is not as good as knowing them on the spot, and there were waves of painful howls in the training room.

Although Qin Yuan has returned to the army, the matter of the Lixiao organization has not been resolved. Every day this organization exists will become more dangerous. This mission is very dangerous. Qin Yuan personally found Gao Shiwei and explained the situation to him. This time he just wanted to go alone.

"I heard from you that the Breaking Dawn organization is very powerful. I will send Long Xiaoyun to go with you on such a dangerous mission!"

"Captain Gao! I came to you just to tell you that I want to solve it alone. I don't want them to suffer other injuries. I have the ability to solve it by myself."

Gao Shiwei is very entangled now. This dawn organization has never been heard of before, and it is very mysterious. Although Qin Yuan has completed many tasks, it is too risky for him to go alone.

"Team Gao, just believe in my ability! I'm not the kind of person who shows off personal heroism. After all, this is a crisis, and we must resolve it as soon as possible. Now that I have this opportunity, I am also worried that I will miss it."

After thinking over and over again, Gao Shiwei agreed to Qin Yuan's going to the Daybreak Organization alone, but he also gave Qin Yuan a few positioning watches alone, "If you encounter something that cannot be solved by threats, we are behind you, and you send a distress positioning, we'll set off right away."

"Team Gao, don't worry, I'm fine."

Before leaving, Qin Yuan went to Grandma Sun to take another look at those children. These children had changed a lot, and now they could communicate with Qin Yuan in Yan Guo dialect. Grandma Sun was also more patient and used love and Caring thoroughly influenced these children.

The oldest child, Qin Zhengyang, called Qin Yuan outside, "Are you here to say goodbye to us this time? You're going to find that organization."

Qin Yuan smiled. He didn't expect this kid to be quite smart. He didn't say anything, but he saw it all.

"How did you see it, kid?"

"I don't know. It's just a feeling anyway. Maybe that's what they said. I have special abilities. Anyway, my mind seems to be more detailed than theirs. I can detect the emotional changes of the people around me. I can feel what you just said. bid us farewell."

Qin Yuan was a little surprised. He didn't expect this child to have this kind of ability. According to science, this kind of emotion system should be more developed than everyone else's!

"You are the oldest child in it now. I hope you can take good care of Grandma Sun and other children. To be honest, you are brothers and sisters."

"It's no problem. This is what I should do. Grandma Sun is a very nice person. I won't let her down, but I hope you can be careful that the killer organization is really powerful."

"Hahaha, I didn't expect your kid to be worried about me. Didn't you want to kill us before?"

Qin Zhengyang was a little embarrassed for what Qin Yuan said, and lowered his head, "I just said it casually, who will worry about you?"

After leaving the orphanage, Qin Yuan went directly to the airport and took a car to country H. Because Starscream was running out of time, he didn't tell Qin Zhengyang the specific meeting place. He just asked him to go to country H. After all, he was not sure whether those children could survive.

This is also a way for the dawn organization to select talents. Those who can stay are elites, and this is what they need.

Qin Yuan walked out of the airport. He was wearing casual clothes now. He pinned the pen on his chest. The position was very obvious. He bought a newspaper at the airport and planned to try his luck like this.

Country H is neither big nor small, but the scope is relatively wide. However, fishing requires patience. He is just like fishing now, and he can only rely on luck first.

Qin Yuan came to country H for the first time. This is a small country. He didn't know much about this country. After leaving the airport, Qin Yuan wandered around aimlessly.

After three days like this, there is still no news. Long Xiaoyun even called him, because Gao Shiwei said that Qin Yuan went to perform a special mission, but Long Xiaoyun knew that none of the members of the red blood cell team went. When she was there, she understood that Qin Yuan's mission was very dangerous.

Qin Yuan thinks of other people like this every time. If the mission is very dangerous, he will not bring any of his team members.

In the middle of the night, Qin Yuan really couldn't sleep. He planned to go out for a walk. The place where he lived was quite rich in nightlife. It was already 1 o'clock in the morning, but the street was still very lively.

In the small alley next to it, there were many women standing at the entrance of the alley to solicit customers. A woman saw Qin Yuan trotting over in high heels from a distance, "Sir, you are alone, why don't you come in and play? We are here There are many women."

"Thank you, I'm not interested and let go of your hand."

Qin Yuan directly shook her hand away, these people are very cunning, the ' woman touched Qin Yuan on purpose just now, and found that there should be a lot of cash in his pocket.

Because Qin Yuan thought about coming to a foreign country, it was inconvenient to stay in that small hotel, so he still took all the cash he got with him, just in case, so that he could leave as soon as he wanted.

The woman was not angry when she was rejected by Fang Tian, she still smiled and said: "Sir, if you don't like me, we have other sisters, and the price is very cheap, don't you plan to play?"

"not interested!"

Qin Yuan turned around and was about to leave, but the woman didn't intend to give up. At this time, he saw the pen pinned to Qin Yuan's chest, and suddenly said: "Sir, don't worry, we are safe here, and I have seen people with pens pinned like you before."

Qin Yuan's eyes lit up when he heard it, and he hurriedly took out the pen pinned to his chest, "Do you take a closer look and see if it looks like this pen?"

This fountain pen is specially made with special patterns on it. Qin Yuan has done research, and it cannot be bought in the market.

Seeing that Qin Yuan was interested, the woman nodded. It was just a gesture of hand gestures. Qin Yuan directly took out three banknotes from his bag and put them in the woman's hand.

The woman's eyes lit up instantly, "When did you meet the other man with this pen? Where did he go? Tell me all the information you know."

"Well, no problem, the person with the pen was also a foreigner, it happened last week, so I remember, but he was very anxious at the time, he said he wanted to finish things quickly and he was going to Longgang Wharf. "
