

Special Soldier 841

Chapter 841: ??Black Shark Gang

"Longgang Wharf? Where is that?"

"Longgang Wharf is the name of a city, but it is very dangerous. It is a place where all kinds of criminals gather. That city has been abandoned, and almost no one governs it. For the sake of the money you gave me, I It is recommended that you do not go to that place, it is very dangerous."

"I like to go to dangerous places. Is there any other news about him?"

The woman held the banknotes in her hand and said, "Yes, he left in a hurry and left a backpack behind, but I didn't open it, it's where I live."

Qin Yuan doesn't want to miss any opportunity now, he doesn't know if that person has received other messages, if there will be a reminder in the backpack, "You take me to where you live, as long as you find that backpack, money is not a problem."

"Hahaha, it seems that I really received a big deal today. I'll take you there."

After the woman finished speaking, she came up and held Qin Yuan's arm. Qin Yuan turned sideways, avoiding the woman's hand, "If you lead the way, you should lead the way well. Don't touch your hands. I don't like to have physical contact with others."

The woman didn't care about it either, with a smile still on her face, she led Qin Yuan into the alley, and they turned around to the depths of the alley, where there was only a faint street light.

The woman took out the key and was about to open the door of the room in front of her. Qin Yuan sneered and said, "Stop pretending, let them come out!"

The woman said with a look of surprise: "Sir, what are you talking about? There is no one there, it's just the two of us."

Qin Yuan smiled, and kicked the door open, and there were three or four big men with knives standing inside, "It seems that you are dishonest and wasting my time, you better pray that you just said That backpack is real, and if I find out that you lied to me, you will all be miserable."

Just to add a word, the chasing book app I am using recently, caches reading books, and reads aloud offline!

A big man inside held a knife and slashed at Qin Yuan, "Stop ***** nonsense and hand over the money if you want to survive!"

"Brothers, don't talk to him, just chop this kid up, I think he has a lot of money on him."

Qin Yuan kicked the big man's chest, and kicked the big man out, and several other people also rushed to attack. Qin Yuan punched a big man on the cheek, and then kicked him in the abdomen. Hit directly into the alley behind.

"Damn it! It seems that this kid knows how to use fists and kicks to take out the electric pot. I don't believe that the electric baton can't beat him."

Then the crackling electric current sounded, and Qin Yuan smiled, "You guys still have the nerve to use electric batons. Electric batons are things women use for self-defense? Just you guys are too rubbish!"

Qin Yuan jumped up and directly kicked down a big man who was rushing towards him with his knee. His knee hit the big man's chin. He did a backflip instantly and hit the ground. Qin Yuan picked up the electric baton that fell on the ground and slammed it Hit towards the big man.

In an instant, several people were completely subdued by Qin Yuan, and the woman hiding in the room was trembling, she didn't expect the man in front of her to be so powerful.

Qin Yuan kicked away the big man blocking the door, and walked in, "You can tell whether the backpack is real or fake, I only give you a minute, I don't have that much patience."

The woman tremblingly took out a backpack from the cabinet. It turned out that the backpack was indeed real, and so was the man with the pen before, but he was brutally killed after being tricked by the woman. After all, there were three or four of them here. There is only one man holding a pen. Although he is very powerful, he is outnumbered.

"What did you move in here?"

"We thought he was a rich man, but turned out to be a poor man. Except for some clothes and some unintelligible digital notes in his bag, there was nothing. We were worried that someone would follow the bag to find it, so Don't dare to throw this bag away."

Qin Yuan dumped the contents of the bag on the ground. Inside were some ordinary clothes, a few pieces of paper and a map. This map belonged to country H. Numbers willingly took the book back.

Several big men outside the door saw Qin Yuan coming out, and they were so frightened that they dared not move on the ground. This man was really too powerful, and these big men found that their bodies had broken bones. This man was very powerful. They Not an opponent at all.

"I just cleaned up your rubbish, but if I find you here again, causing harm to others, I will beat you once I find out."

"Brother, please forgive me. There will never be a next time. I really dare not."

Qin Yuan walked out of the alley with a sneer. He didn't expect to find such an important clue when he came out this time. He hurried to the hotel and opened the book to check.

According to the numbers on the note, he quickly opened the book to check the page numbers, and according to the results corresponding to the numbers, these numbers formed a sentence, "Break through force, and enlighten all things!"

Why does this sentence have the meaning of an idiom of the Yan Kingdom? It is not difficult to see that this sentence refers to the Daybreak Organization, and it should be the secret sign they have reached. Qin Yuan guessed at this moment, is the boss of the Daybreak Organization a Yan Country person?

Qin Yuan then opened the map again. An address was circled with a pencil on the map, but it was wiped off. However, it can still be seen that the mark is indeed in Longgang Wharf, and the location circled above is Weixi in Longgang Wharf. El Café.

It seems that the place where they agreed to meet was Visier Cafe, but this man was killed on the way, so it should not be too late, Qin Yuan hurriedly set off, this Longgang Wharf is still relatively far away, about four hours' drive away, he should be able to arrive before dawn in the past now.

It's just very strange, Qin Yuan took a lot of taxis, and everyone was reluctant to leave when they heard that they were going to Longgang Wharf.

Qin Yuan could only raise the price. If he was in Yanguo, he would drive away casually, but after all, it took more than four hours to go here by car.

At this time, under the price increase, finally a driver was willing to pick up the job, and the driver was very helpless, "I said, young man, why are you so reluctant? Why would you go to that kind of place, that place is the most evil place here? , full of violence and blood everywhere."

"I just went over there to find a friend. Is there such an exaggeration over there? And seeing that your country is quite safe, it shouldn't be so!"

"Little brother, look at the taxi drivers on our side. If it wasn't for the money, who would want to go there? There are four or five gangsters there who are completely occupied by those gangsters. It can be said that everyone is in broad daylight." There are incidents of murder and robbery, and no one cares at all."

Qin Yuan nodded. It seemed that he had indeed found the right place. The Daybreak Organization must be there. Maybe all these gangsters had something to do with the Daybreak Organization.

"Don't worry, uncle, just drive hard. Anyway, as long as I'm in your car, I can guarantee your safety."

The driver looked at Qin Yuan speechlessly. This young man is really good at talking big. Don't talk about protecting him. He will know the specific situation when he gets to that place.

The driver didn't dare to enter the city, and only agreed to send Qin Yuan to the edge of the city. He was about to leave, and Qin Yuan agreed. After all, he was not afraid after hearing the driver say that it was dangerous there. He was just worried that the driver would mess with him. other troubles.

Dawn finally arrived, and the Longgang Wharf was in front of it, and nothing else could be seen from the outside. Unexpectedly, at this time, a minivan drove up from the side, and the person in the car pointed a gun at the taxi driver.

"Stop!"

And he kept shooting at the taxi, which is too crazy, just robbing like this.

The driver turned pale with fright, so he could only quickly stop and do as he had done. The driver was careful enough on the way, but he was so unlucky. He encountered someone blocking the road and robbery. It seems that the order was for nothing, and could he save his life? , going back is a problem.

The taxi driver took out the trembling money and was about to hand it to those people, but Qin Yuan stretched out his hand and held him down.

Qin Yuan opened the door of the taxi, and the people in the van also got out, pointed a gun at Qin Yuan and said, "Are you looking for death, kid? Hurry up and take out all the money."

Unexpectedly, Qin Yuan jumped up and snatched the man's gun directly. This is a shotgun with a relatively large area of damage. He quickly changed the magazine and shot the man's head off with one shot.

The taxi driver was stunned. He didn't expect this young man to be so powerful, and his speed was too fast! The others also reacted quickly and shot at Qin Yuan. Qin Yuan dodged the bullets with a few jumps, and the moment he threw out the throwing knife in his hand, the few that were still clamoring just now fell into a pool of blood.

The taxi driver was already shaking with fright, Qin Yuan patted the window, motioning him to roll down the window.

The taxi driver shook his car and gave Qin Yuan the money, "Brother, don't kill me, I just took this order and came out of the sports car because I have children at home, I don't want your car money anymore OK?"

Qin Yuan smiled and took out another five banknotes from his bag and put them in his hand, "Don't get me wrong, uncle, I just said that as long as I sit in your car, I will guarantee your safety. Now that you are here, you Just go back!"

The taxi driver didn't expect Qin Yuan to be so powerful, and he gave him the fare, but he didn't want to stay in this place for a moment. It was too terrifying to see so many people killed by Qin Yuan in an instant.

"No matter what, I still want to thank you. You'd better be careful. Their clothes and tattoos should be members of a local gang. If you kill them, those people will definitely not let you go. You It's best to find your friend and leave quickly."

"Okay, uncle, then you can go quickly, pay attention to safety, as for me, you don't have to worry about it."

Qin Yuan looked at the equipment on the ground, most of them were shotguns, checked the van, and found a Desert Eagle under the seat, which is quite good.

Qin Yuan put the Desert Eagle into his backpack, and then prepared to enter the city. When Qin Yuan came to Visil Cafe, the place hadn't opened yet, because it was too early.

He pressed the pen to his chest, and with a newspaper in his hand, he went to a nearby food stand to eat something. Knife marks.

Qin Yuan casually ordered some food. This is a special local noodle dish. It was boiled like mush, but the taste was quite good. Qin Yuan was eating and suddenly a few people appeared in front of him.

"Damn it! Kid, are you so tired of your life that you dare to touch members of our Black Shark Gang?"

Qin Yuan instantly understood that it might be the trouble caused by those ***** killed in the morning, "So what? They provoked me first, and I'm eating now. I really hate other people eating while I'm eating." time to bother me."

"Hahaha, this is your last meal today. If you dare to kill the members of our Black Shark class, I will cut you into pieces and hang them on the city wall."

At this time, a subordinate next to him hurriedly said: "Brother, I feel something is wrong. There are so many of them, how could this kid kill him alone? He must have other accomplices, we must be careful!"

Qin Yuan ate all the batter in the bowl, "I'm the only one, how much more do I need to clean up the mess?"

"Damn! I think you are really courting death!"

After the man finished speaking, he raised his gun and pointed it at Qin Yuan. Qin Yuan jumped up and kicked his gun away. He turned over and kicked the man to the ground. The men next to him saw his boss being beaten and fired quickly, it was very chaotic for a while.

This place really lived up to its reputation, and it was exciting to see two shootouts in just a few hours.

The members of the Black Shark class who were shouting just now did not expect that this man was so fast that so many of them could not hit him, and this man hadn't fired his gun at all.

With two flying knives in his hand, Qin Yuan quickly stabbed at these gangsters. As soon as Qin Yuan's hands touched these people, the gangsters fell one after another.

In an instant, out of the dozen or so people who came just now, only two people were left lying on the ground. Qin Yuan stepped on these two people, "I said it just now, I hate being disturbed when I eat, and you are all a Virtue."

These gangsters are not good people anyway, they do evil everywhere, so Qin Yuan should be upholding justice. At this time, the people lying on the ground kept begging for mercy, hoping that Qin Yuan would let them go.

As soon as Qin Yuan mentioned the man, the gang member suddenly saw the pen pinned to Qin Yuan's chest, and trembled in fright, "So, you are actually a member of that organization! No wonder you are so powerful."

"Oh! You still know about this pen, tell me everything you know, then I may consider letting you die."

The Dawn Organization is indeed here. This is a very vicious killer organization. These gangsters just rely on the large number of people, but they dare not offend the Dawn Organization. They only know that people with other pens often come here. If the people in the organization offend them, they will be hunted down endlessly.

Chapter 842: ??drink it all

"Brother, we were wrong, please let us go, we didn't know you were from that organization."

The subordinate lying on the ground next to him shook his head desperately, "It's over, we all have to die."

Qin Yuan ignored it, these people didn't do anything themselves, and even this killer organization didn't exaggerate so much! They are members of the Mafia. Is the whole gang so afraid of these people?

He took out a few banknotes from his bag and picked up the shivering boss, who was squatting beside him, and put the money in his hand, "I'm sorry, boss, I caused you trouble in this stall, and this money will be regarded as an apology." ."

How dare the boss take the money, "Brother, hurry up, I don't want this money anymore."

After the boss finished speaking, he hurriedly closed the stall beside him. After all, the incident happened at his place. The Dawn organization is very unreasonable, as long as anyone related to this incident will be hunted down.

Qin Yuan still stuffed the money into the boss's hand, turned around and left, the cafe diagonally opposite had opened at some time, Qin Yuan took out a newspaper from his bag, fastened a pen and walked in.

After entering, I found that there was nothing special about this coffee shop. All the seats and benches were intact, and no fights had occurred. Moreover, there was a faint scent of sandalwood in the coffee shop. Qin Yuan felt that this killer organization was more involved. The boss behind it should be from the Yan Kingdom, who can light sandalwood, which is almost impossible for foreigners to light.

There was only one man standing in front of the bar in the entire coffee shop, and when he saw Qin Yuan coming in, he said, "Young man, the murderous atmosphere is too heavy outside, this sandalwood can remove the smell of blood, no matter what you want to ask, drink a cup of coffee first! "

Qin Yuan nodded. He was not afraid of these people being poisoned. Anyway, his constitution was indistinguishable from all kinds of poisons, so it didn't matter.

After the man finished speaking, he began to make coffee. The coffee was also freshly ground. After a while, the coffee was ready, and the man brought it to Qin Yuan. The whole coffee shop smelled of sandalwood and coffee beans.

Qin Yuan took a sip from the cup and frowned slightly. Anyway, he can't drink coffee, and it doesn't taste good except for the bitter taste. Compared with it, he prefers green tea.

"My name is Yasoni. I don't know if you have heard a sentence, break it out, do you know what the next sentence is?"

Qin Yuan smiled. Fortunately, he found the man's backpack. It turned out that he really wanted to match the code, "Xiao Xiang Wan Wu!"

After a while, Yassoni said to the opposite, "I don't ask where you come from, as long as you can get this pen, it means that you have been recognized by our organization, and it is true that you can come to this place. The ability is not bad, but it still needs some tests to enter our organization."

"Yes, I will accept any test."

"First of all, you have to tell me what special ability you have. Your ability is related to whether your status in the organization can enter the organization, and what benefits you can bring to our organization."

Qin Yuan thought for a while and said, "Does a hundred poisons not invade?"

Now it's Yasoni's turn to be curious, what kind of skill is the invincibility of a hundred poisons? He has received countless people here, some have developed eyesight, hearing or calculation geniuses, and those with strong memory since childhood, but it is a bit exaggerated to say that all poisons do not invade.

"It means that no matter what poison I eat, I am immune to it. This can be regarded as my special skill. It probably means that my body can purify these toxins and prevent me from being harmed by toxins."

Yasoni was a little shocked, this skill is too heaven-defying! This is no longer comparable to those ability users they received, it is a bit out of the norm, but I don't know if this kid is bragging.

"If what you said is true, you can definitely stay with your skills, then I'll see how you are invincible."

After a while, Yasone made a phone call, and a car drove up to the door of the coffee shop. He asked Qin Yuan to follow this car and someone would take him to the test place.

Qin Yuan noticed that there was a flag hanging in front of the window of this car, which looked like the sun and the moon. Anyway, it looked weird. It was a strange group, like a cult organization.

After getting in the car, the driver didn't talk to him. The car was driving in the small town, and the gangsters in the city had already started their activities. However, when those people saw the car, they all turned around to avoid it, not daring to look directly at the car. car.

It seems that the reputation of the Daybreak organization in the local area is still very terrifying. These gangsters are already considered extremely vicious, and it is really rare to scare these people.

Qin Yuan has been chatting with the driver, wanting to get some useful information. After all, he doesn't know anything now, and he is indeed a bit blind. He only knows about the Breaking Dawn organization, but he doesn't know exactly how many people they have or how big the organization is. .

No matter what Qin Yuan said, the driver just drove his car and didn't speak. Qin Yuan couldn't stand it and said, "Brother, are you dumb? If you can't speak, you won't be afraid of me running away."

"Hahaha, you are really talkative and naive. You entered this place and you still want to escape? That is just a dream. From the moment you stepped into that coffee shop, you have been targeted by the organization , whether the organization wants you or not, your life is tied to us."

"Why are you still buying and selling the whole thing? I just said to come here first. What will happen if I don't participate?"

"It's very simple not to participate. If you reject the organization, it is equivalent to making us an enemy, and we will tear you apart."

Qin Yuan felt quite boring, and didn't ask anything. Just like that, the man brought him to a place like a warehouse.

After entering this warehouse, there are several rooms. Anyway, there are all kinds of torture instruments everywhere in the hall, and the smell of blood can still be smelled here. It seems that this place is where they usually deal with people. Such a strong smell of blood is definitely not as simple as one or two dead people.

The driver next to him seemed like a pervert, and suddenly moved to Qin Yuan's side, "What's the matter, are you afraid, little brother? This place is our slaughterhouse, and it's a place where delicious food is produced. If you join our organization, you will be lucky Taste the delicacy."

Looking at this man's perverted smile, Qin Yuan felt that it must be something bad. He smiled, and took two steps back calmly, not wanting to get too close to this man.

The driver didn't mind, and took Qin Yuan through two rooms. This place is like an experimental place, with various medicines in it.

The man pointed to the row of potions on the table and said: "Yasone said you are immune to all poisons, so start from the first bottle. You test first, and I want to see if you are poisoned to death first or if you are really poisonous." Poison does not invade."

Qin Yuan looked at the row of medicines, all kinds of messy colors, stepped forward to open the first bottle of poison and drank it with his head up, followed by the second and third bottles, his speed was very fast, drinking these poisons was like drinking like water.

The driver next to him immediately told him to stop, "You are a starving ghost, it's the first time I've seen poison being drunk as a drink, so you can't drink it slowly, in case you react to a bottle of poison , then you don't need to drink anything else, saving wastage."

"Hey, don't I want to finish drinking it earlier? I've said it all, these poisons are really useless to me."

A few minutes later, Qin Yuan had already drank four or five kinds of poisons, but there was no reaction at all. Then the man signaled Qin Yuan to continue, and Qin Yuan picked up a bottle of pink medicine and drank it.

"This is not bad, how about the strawberry flavor, would you like some?"

The driver frowned and looked at Qin Yuan, this person is too heaven-defying! This is the latest poison they have developed, a drop of it can kill people, and this kid has no problems at all after drinking a bottle.

"You kid is really weird, then drink them all, I still don't believe in evil."

Qin Yuan began to drink these poisons bottle after bottle. After a while, Qin Yuan drank up all the bottles on the table. Unexpectedly, after drinking so much poison, miraculous changes took place in Qin Yuan's body.

At this time, the system issued a notification sound, "Ding! Remind the host, the host has fused dozens of poisons at the same time, and the system is recovering, please make a choice later."

This made Qin Yuan very surprised. He was actually a little nervous before. Although he was invulnerable to all poisons, he had only been exposed to a single poison before. He had never mixed so many kinds of poisons, but he tried the first few bottles and nothing happened. , and then let go of drinking.

"1. World-class poison king skills. The amount of poisonous gas in the host body has reached a certain level. After successful fusion and upgrade, the host can control the poisonous gas at will."

"2. World-class slow death skills, forming slow death toxins, which can be injected into the target's body, and the existence of toxins will not be found until the target is. It is a slow toxin skill that kills people invisible."

"3. World-class poison-making skills. The host's body will form a container. The more poisons you put in, the more new types of poisons can be cultivated. For example, it's like raising Gu worms. The second group of blood can also be used. as an antidote."

Qin Yuan didn't expect to have such an unexpected harvest, and these skills look good, the second slow death, I don't really need it, this kind of skill is to deal with the enemy, but can't kill people openly , but I also have a lot of other skills, it is very simple to kill a person, I don't need this.

The third poison-making skill also looks good. If it can really breed powerful Gu insects like raising Gu insects, then this kind of Gu insects can be used as a killing weapon.

Qin Yuan was struggling with the driver next to him, seeing that he hadn't spoken and there was no movement for a long time, he thought Qin Yuan was poisoned, so he came over and pushed him.

Only then did Qin Yuan come to his senses, he almost forgot that there was someone beside him, he was so fascinated by the thought just now, "What's wrong?"

"I thought you were really poisoned, but I didn't expect you to be fine after drinking all of this. Your ability is too heaven-defying!"

"There must be no problem, and I was relishing the poison just now, not to mention that your medicines are quite delicious."

The driver looked at Qin Yuan and looked down on this guy, he was really weird. It was the first time he had heard that poison was delicious. The driver called Yasoni in the coffee shop and told him that the boy was really fine. It's okay to drink all the poison.

"This kid is really talented, so there is basically no problem. Take him to see the boss directly! The boss likes people with special talents like this the most."

"Huh? Go directly to see the boss without taking him to our organization ceremony?"

"Oh! I forgot about this. After all, there have been no newcomers for a long time. I didn't like those before. Then you should make preparations and arrange a good person. I will show him our ceremony tonight. I haven't seen it for a long time. It's time to eat."

After hanging up the phone, the driver looked at Qin Yuan excitedly, "Hahaha, thanks to you kid who can join our organization today, I really haven't eaten meat for a long time, and I can finally eat meat today."

Qin Yuan didn't understand how poor this dawn organization was. They couldn't even afford meat. The driver had already treated Qin Yuan as his own and chattered beside him. He even introduced Qin Yuan to others and called him the fifth child. The previous name has long been forgotten.

"After all, I am also a newcomer. I am very curious about your organization. How many people are there? Why do I feel that after coming to this place, those people outside seem to be afraid of our organization."

"Those people are a bunch of cowards, and they must be afraid of us! Our organization is very large. Let's put it this way, the whole city is ours and our boss is leading it."

Recommended, it's really good, it's worth installing for book lovers, and both Android and Apple phones support it!

"But since we are in charge, Why didn't those gang members join our organization?"

Speaking of this, the fifth child smiled contemptuously, "Brother, do you really think that anyone in our organization can enter as soon as they want? Our boss doesn't like that rubbish. We only recruit elite talents here, right? Now, what's your name?"

Qin Yuan thought for a while, as if he had heard Starscream say that he had been included in the assassination list, but these people probably haven't seen him yet, so they didn't know.

"My name is Barbie!"

The fifth child frowned, what a strange name, how can a big man be called Barbie? But since he said so, the name is just a code name, and you can change it if you want to in the future.

It was funny for Qin Yuan to hear that the fifth child called him Barbie. It was originally a homonym. According to Yan Guo's dialect, it would be Dabi. The fifth child was taken advantage of, but he didn't know it yet.

The fifth child told Qin Yuan that there will be a welcoming ceremony for him tonight, mainly to welcome the newcomers. Everyone will eat meat together, and then he will introduce some rules of the organization. After officially joining them, he will be taken to meet the leader of the organization.

"Boss? What's the name of the boss of our organization?"

When Qin Yuan suddenly said this, the fifth child immediately looked around, as if he was afraid that someone would hear him and lowered his voice and said, "Barbie, let me tell you, for the sake of our company in the future, you must not ask the boss. This is a taboo, and no matter what you look like when you see the boss, you must not meet his eyes."

Chapter 843: ? Just fall out!

"Ah! There are so many rules here, why can't you look him in the eye?"

"You have so many questions, kid. If the boss sees any mockery or curiosity in your eyes, then you will be executed immediately."

Qin Yuan originally wanted to ask other questions, but the fifth child was already on the phone to make arrangements for the evening banquet. He sounded very excited, and he wanted to call other members of the organization to come together.

The information Qin Yuan collected is that it seems that the boss of this organization is either ugly in appearance or has some hidden disease, otherwise how can he feel that others will laugh at him.

Anyway, wait until tonight, and if you have the chance, we will take care of all the killer organizations that came to the banquet tonight, but when the time comes to see the situation, to avoid making a fuss, then first meet the boss of this organization and get rid of that boss first.

The fifth child took Qin Yuan to the upstairs room. The upstairs and downstairs here are completely different. The downstairs feels like purgatory on earth, full of ***** smell, but the decoration upstairs is very luxurious.

There is a row of single rooms here, and a large banquet hall at the top. According to Lao Wu, the banquet tonight will be held here.

"Tonight, I will let you taste the taste of fresh ingredients. They will be slaughtered downstairs, then processed immediately, and sent to the banquet hall. This kind of fresh ingredients is very delicious, rare, and it is also the boss's rule. You can only eat it when you welcome newcomers into the club, and you can't eat it without his permission."

Qin Yuan sneered, these people are really used to being dogs, so obedient? Isn't it just eating meat, and they have to get permission from their boss.

"By the way, brother five, you said earlier that our organization has a lot of people, so how can we still make money? After there are too many people, I'm afraid I won't be able to survive because of my lack of ability."

"Hahaha, you don't have to worry about this. Anyway, as long as you join the organization, you can even drive with me, but if you have good fists and strong abilities, then you can perform missions. The rewards are very high. Our boss doesn't take any money. The employer You can take as much as you give."

"There is still such a good thing. The boss doesn't want anything. Isn't she at a disadvantage? After all, she has to support so many people in the organization."

"How can the boss rely on our few things to support us? There are many things involved here. We manage the entire underground black market here. The money in the underground black market is enough. I find that you are really too problematic." Too much, that is, I am patient, if it was someone else, I would have scolded you long ago."

Qin Yuan smiled, took out all the banknotes in the bag and handed them to the fifth child, "Brother, after all, I just came here, and I was worried that I might say something wrong later, so I want to know more about it, this is just my heart, I only have this money on me, so it's a gift for our brothers to meet."

The fifth child was very happy with the money, this kid is quite upright, "Okay, I will tell you one more thing just out of your kid's heart, we still have the highest reward task here, but so far it has not been done." No one came to pick it up, this was issued by the boss himself, if you have the ability, you can show that you will take on this mission at that time, the boss promised, as long as the mission is successful, you can directly become the second in command of our dawn organization."

Qin Yuan was a little shocked when he heard this. What kind of mission is there, the reward is so high, and no one dares to take it yet.

The fifth child brought Qin Yuan into a room, took out a bottle of wine from the cabinet, raised his head and took a sip, and continued: "This mission is to assassinate a special soldier named Qin Yuan, because he killed the boss who is the most powerful Assef, his subordinate, and Amsa, who was sent out on a mission before, seemed to have been killed by him as well."

I go! It's still a little strange to hear his name from someone else's mouth, and he is standing in front of him, and he still wants to kill himself, which is really funny.

However, what Qin Yuan thought was that this old five, as a driver, specially received these newcomers. If he hadn't come into contact with his photo, he probably wouldn't know it, but would anyone who came to the banquet at night have seen him? And whether Starscream will come, it will be a little troublesome if it is revealed in advance, after all, we haven't seen the boss yet.

"Old Brother Five, do you have a picture of this Qin Yuan? I want to see it too. Maybe I've seen it before. After all, I'm also from Yan Kingdom."

"Not really, because our task here is that you have to accept the task, so that you are qualified to know the specific identity and appearance of the task target. So far, no one has dared to take it, so everyone doesn't know what he looks like, anyway, listen It's quite powerful, you still don't want to die."

Qin Yuan smiled and nodded, since he said that, he felt relieved, but he still had to find a way to cover up his face, because since it was a welcome banquet, maybe Starscream and the others would really appear.

Lao Wu was drinking beside him, talking to himself about the rules of the organization. This kind of foreign wine has a high alcohol content. After drinking half of it, he fell asleep on the chair next to him. Qin Yuan pushed it a few times , Seeing that he didn't respond, he walked out.

When the old fifth woke up, he felt a little strange seeing Qin Yuan wearing a rabbit mask next to him. Qin Yuan was also helpless. There was no special mask seller in this place, and the rabbit mask was bought from a cake shop.

Anyway, it feels childish to wear it, but fortunately, this mask completely covers the shape of my face.

"Barbie, what are you doing? Why are you wearing such a strange mask?"

"Uh, brother five, after all, we have a lot of people in our organization. I'm worried about meeting acquaintances or enemies. I have offended a lot of people before, so I'd better put on a mask to cover it up!"

"You don't have to worry about this, don't worry, as long as you join the boss of our organization, the first rule is that members of the organization are not allowed to fight privately, if it is stolen,

there will be very serious punishment, even if you really encounter something Qiu Jia, everyone will not be embarrassed to enter this organization, and it will be equivalent to starting anew in the future."

"I still have this worry. Is appearance not that important anyway? I will wear the mask first. After I go to see the boss, I am completely relieved, then I will take off the mask."

The fifth child shook his head. Is there something wrong with these people with special abilities? He has said it so clearly, a big man wearing a rabbit mask, he is not too shy to panic.

Qin Yuan was even more speechless. There was nothing he could do about it. If he had known earlier, he would have changed his face, but he didn't think too much about it at the time. Fortunately, the fifth child is easy to fool, so he just said it like this, and he shouldn't be at night. Someone will ask about this, after all, according to this old fifth, the leader of their organization is also wearing a mask.

In this way, people came one after another, there were men and women, but no children as old as Qin Zhengyang and others were seen, and those who were probably students were not qualified to come here. Those people met the fifth child to say hello, There are also those who walk over directly with cold eyes.

These members of the organization did not communicate with each other, but the only thing they had in common was the excitement on their faces. Qin Yuan looked at the time and it was past 4 o'clock, and everyone sat in the banquet hall.

"Old brother five, when are we going to start eating? I'm a little hungry." The main reason is that the people around saw Qin Yuan wearing a rabbit mask and cast curious eyes. Qin Yuan could only look for The fifth child changed the subject.

At this moment, Starscream came in, followed by Amanda. Seeing the familiar life, Qin Yuan quickly lowered his head for fear of being seen through. Luckily, he had prepared earlier, but unexpectedly, this Starscream really came.

And looking at the appearance of Starscream and Amanda, they seem to be different than before, they have a strong aura, it seems that their strength has been improved, this is the induction of the strong, he can sense the difference in everyone's temperament , Lao Wu really seems to be a driver. I don't know what special ability he has. Anyway, there are no other special reminders. This person's ability is very weak.

The fifth child looked at Qin Yuan and said excitedly: "Wait a little longer, they are going to fetch ingredients, and they will be here soon."

At this moment, Amanda came over, "Are you a newcomer who wants to join our organization? Why do you have this mask? It's too disrespectful to wear it."

"Brother, I also have my own unspeakable secrets, and there seems to be no rule in our organization not to wear a mask!"

Amanda always felt a little familiar when he heard this voice, as if he had heard it somewhere, but he didn't think too much about it. Looking at the size of this rabbit, he felt that this person should not have much ability, and he looked very dishonest.

"Then it doesn't matter to you, anyway, you joined the organization today, and you must eat the ingredients you are waiting for. If you don't eat our food, it means that you don't recognize our organization, and you will die miserably."

Qin Yuan nodded and ate, how could he not eat, even the poison itself was fine.

At this time, Lao Wu excitedly ran up to Qin Yuan and said, "Brother is ready, the ingredients below have been processed, the chef is sitting below, and it will be ready to eat soon, hahaha, I have been waiting for a long time You can finally eat fresh meat."

The members of the organization next to them also looked at the door expectantly after hearing this, wishing that the chef would serve the dishes now. At this time, a man walked into the middle of the banquet and climbed onto the table.

"Everyone be quiet for a while, don't be so excited, I know we will eat meat tonight, but the most important thing for us is to welcome the new brothers."

The following members of the organization gave a symbolic applause to welcome them.

"This rookie brother, tonight's banquet is a feature of our organization. Next, let me tell you about the rules of our organization."

Qin Yuan stood up and nodded, pretending to be very serious and listening to the man's explanation. These rules are the same anyway, just like other organizations. Anyway, you can't betray the organization, you have to listen to it. After joining the organization, life is to deal with it, all mean the same thing.

The man on the stage didn't think his mouth was dry either. Qin Yuan couldn't help but yawn when he saw that he had been talking endlessly for almost ten minutes. Couldn't this long talk be shorter?

At this time, footsteps came from outside the door, and the man suddenly stopped talking and jumped down from the table, sitting next to him, "Brother, I will tell you so much first, let's eat first, and then we will talk to you after eating." Say."

Everyone was visibly excited, very excited, and the fifth child next to him had red eyes, like a drug addict. Qin Yuan felt that something was wrong with these people.

Immediately afterwards, several people in chef uniforms pushed a small cart in. There were trays of ingredients on the cart, all of which were covered with lids, so that the contents inside could not be seen.

Then put them away table by table in order, each table has a total of ten dishes, when the chef opened the lid, Qin Yuan saw that the dishes in front of him were all meat dishes, but he didn't recognize the meat, Is it lamb or beef.

The plate in front of him is fried pork, and there is a casserole in the middle, which should be soup, and the rest are all kinds of stewed meat and steamed meat. Qin Yuan always feels disgusting when he smells this smell.

The fifth child sat next to him and picked up his bowl, "Brother, this is a good thing, I'll give you the first bowl first!"

The fifth child scooped up the soup in the casserole in the middle with a spoon. Qin Yuan took a closer look, what the **** kind of meat is this? There are human fingers inside, which is simply too disgusting, Qin Yuan instantly understood why these people were so excited, this table is full of human flesh.

Qin Yuan can be regarded as a person who has experienced big scenes, and he also stayed in the cannibal tribe before, but at that time, he was in order to survive, and the aborigines there were very simple, and the members of these killer organizations were like devils.

Qin Yuan couldn't take it anymore and patted the table and stood up, "This is the meat you are talking about. It's disgusting that you eat the same kind! No, I don't think it's disgusting, it's just a pervert. You people are all crazy .”

With Qin Yuan's commotion, everyone's eyes were on him. No matter what, he couldn't bear it anymore. How could he eat this kind of food, and where did these people come from? They are all crazy!

The old fifth next to him hurriedly pulled Qin Yuan to keep him from moving, "Are you stupid, this is a good thing. The boss said that this thing can last a long time, and these people are those gangsters. We think Grab a few if you eat them, that's why they are so afraid of us."

Qin Yuan shook his head. The people who are you are more disgusting than any people he has ever seen. They are simply a bunch of lunatics.

"Why don't you want to eat? If you don't eat this meat, you are rejecting our organization, and we will eat you!"

Qin Yuan can't bear it now, anyway, it's already like this, so let's just fall out! Just kill all the people here. As for the boss who killed all his subordinates himself, I don't believe that he will not show up.

Chapter 844: ??50,000 volts of current

Qin Yuan didn't expect that this place turned out to be such a cult killer organization, and he was very fortunate to have rescued those children at this moment, otherwise those children would become such people, it would be scary to think about it.

The old fifth next to him looked at the angry Qin Yuan and changed his face instantly, "This thing is a good thing, you can only be like us if you eat this, so that we can recognize you, otherwise you are not qualified to join our organization at all."

"Damn it, then get out, I'm not interested in joining!"

"I think you ***** don't want to live anymore, brothers, take care of this kid for me."

Starscream felt more and more familiar with this voice at this moment, Qin Yuan took off the rabbit mask, Starscream and Amanda changed their faces instantly, this person is Qin Yuan, the number one killer.

Starscream and Amanda knew how powerful Qin Yuan was. Before even Arthur was beaten to death by him, they could only hide by the side and look for a chance to make a move. Now they don't want to go up to die.

Qin Yuan kicked Lao Wu who was standing next to him, and then quickly threw the poker cards in his hands. Those killer organizations also showed their housekeeping skills, and there were moments when they were very good at knives and hidden weapons flew towards Qin Yuan.

Qin Yuan kept turning over, kicked over the table next to him, hid behind the table, and then threw out a few poker cards to deal with the person with the gun first. These killer organizations have never suffered such a big loss, and the grenade in an instant They all went to greet Qin Yuan.

"Fucking kill this kid!"

Immediately afterwards, the grenade exploded next to Qin Yuan, and the ground collapsed. The small explosive mine they used last time was also very powerful. These people are still quite difficult to deal with. After all, their strength is not bad. , Compared with the previous killer organization, everyone's ability is very strong.

The smoke caused by the explosion made it impossible for everyone to find where Qin Yuan was. There were crooked tables everywhere. At this moment, a woman said loudly, "He's at the table behind three o'clock."

Women have a relatively developed sense of smell. He smelled a different smell from Qin Yuan. Qin Yuan rushed over in an instant. These people didn't react. The woman who shouted just now had her throat cut.

Starscream also made a move at this time. He is good at throwing knives. This time their boss newly developed a weapon. They were receiving special training before, and now it is the first time to use it.

The strength of these killer organizations is very strong. Seeing that the flying knives could not hide for a while, Qin Yuan could only reach out to grab the flying knives. Unexpectedly, he felt the powerful electric current on the flying knives being directly blown away.

After those killer organizations found an opportunity, they all threw themselves on Qin Yuan. To be honest, Qin Yuan was also stunned by the sudden motor, but he was fine. After all, his defense was very strong. This electric current can only knock him back, but it can't hurt him.

"Damn it, there are so many of you rubbish." After Qin Yuan shouted, he threw all the organizations flying on him.

The fifth child got up from the ground and looked at Qin Yuan in horror, "This man is simply a monster. He can't die after taking so much poison. I didn't expect that this is the reason why no one dares to post the number one killer list."

Starscream turned around and ran over, throwing a throwing knife to attract Qin Yuan's attention from the side, and said, "What should I do, quickly call the boss, I think the boss can join hands to kill him."

"That's the only way now, you hold him back first, and I'll send a message outside."

Amanda also threw out that kind of small explosive. At this time, the careful explosive also had a slight electric current hitting the feet. Qin Yuan felt that his feet were slightly numb. Fortunately, he had a strong resistance.

Qin Yuan kicked a caution bomb that flew over into the crowd next to it, and it exploded instantly. A member of the organization was killed on the spot and his body was still electrified after the explosion.

I would like to be a little curious, what is this thing? It is amazing that it can add electric current to explosives. Although this killer organization is abominable, it has such a powerful technological force behind it. This is the first time I have seen it. of.

Qin Yuan had heard the conversation between the two of Starscream just now, and he purposely let Lao Wufan out, and now he wished that the boss would come quickly, just to take them all together, and save himself the trouble of searching everywhere.

There was a melee at the scene, and the entire second floor was blown down, but this did not affect the killer organization as if they were crazy. As long as they didn't kill him, even if he was crippled, his body would rush towards Qin Yuan as if he was sucking Like taking drugs, very crazy.

Qin Yuan kept turning over, swinging the throwing knife, picked up a submachine gun on the ground, and shot at these killer groups. After a while, most of the killer group members had been killed, and the remaining few people would soon die. It was solved by Qin Yuan.

Starscream and Amanda retreated to the door, hiding behind the wooden boards, "What should we do? The boss hasn't come yet, these people are about to be killed by him, this man is too cruel."

"We are delaying the boss for a while. He has a secret weapon that can definitely deal with this monster. The boss said that human beings have shortcomings."

As soon as the words were finished, a man wearing a black mask walked in. After seeing Starscream and Amanda, they quickly retreated respectfully.

"You bastards! You can't even wait for half an hour."

"Boss, we tried our best, he is really strong."

"Ha ha!"

Because of the cover of the mask, the man's face could not be seen clearly, and the man's voice seemed to have been changed, neither male nor female, and no waves could be heard.

There were several people behind the man, each of them held a rope in his hand and connected it to a large net in the man's hand, he stepped forward and threw the large net towards Qin Yuan, who was at this moment with Qin Yuan. The remaining killers organized a fight, and there was a wall behind them. They just wanted to turn over and leave, but found that there was no way out.

In an instant, the large net was covered, and several killer organizations were connected. What is strange is that the current was passed through this large net, and the current was so strong that Qin Yuan was stunned by the electric shock, and other killer organizations were even more so. Instantly fell to the ground and twitched.

"Hahaha, you really exceeded my expectations. You are fine with a current of 50,000 volts. Then I will strengthen it."

The man took out a switch and continued to press the button. At this time, Qin Yuan endured the intensity of the current, holding the power grid tightly with both hands.

Now he is really very angry, this killer organization is simply disregarding human life, turning this place into a purgatory on earth, it is really inhumane, he directly tore the specially made big net into two halves.

The man turned pale with shock, "How is this possible? I specially developed this. How did you do it with the strongest golden silk in the world!"

Qin Yuan didn't care what the man said, and directly tore the big net into half, and his remaining men had turned into charred corpses under such a high-intensity electric current, and it was Qin Yuan himself who had Super strong defense, so there is nothing wrong.

He didn't want to take advantage of these people. At this time, Starscream and Amanda saw that something was wrong, and quickly jumped out, "Boss, you retreat quickly, we will cover you, this person is really difficult to deal with."

"Hehe, it's too late to leave now, let's all stay!"

After Qin Yuan finished speaking, he slowly opened his hands, and he released a charming aura. In an instant, those few people were controlled by Qin Yuan, and they stood there dumbfounded.

Qin Yuan didn't want to kill them so cheaply. He wanted to recover the big net just now, but the system prompted that the previous skill had not been selected successfully, and he needed to select it before recycling, but Qin Yuan didn't recover it even after thinking about it. If necessary, just tear up that big net.

Since it was a skill he bought with poison, Qin Yuan looked at it again, and it was the first one that was more practical.

"System! I choose the first one!"

"Ding! Congratulations to the host for choosing to successfully obtain the world-class poison king skill. You can manipulate the toxins in your body at will. Warm reminder, the toxins in the host's body have been refined, and there are already 15 types. The toxin system will be automatically saved for the host to use later. ."

Qingyuan smiled, don't these vicious killer organizations like to use poison? Then I used all these poisons on them, and treated them in the same way as others, just simply killed them, it is too cheap for them so many children, so many people are suffering from their persecution .

At this moment, another group of children rushed in. These children looked at Qin Yuan angrily. Their boss was being controlled by Qin Yuan, and the person in front of them was their enemy.

These children slashed at Qin Yuan with their knives. They are the latest members of the dawn organization and are still being trained. Qin Yuan feels helpless. He can't do anything with these children. Get these kids under control.

It's a pity that he can't use this charm skill to change these children, because controlling them will become puppets without their own thoughts. This is not what he wants to see, but so many children left behind, he also Not sure how to fix this.

Qin Yuan snapped his fingers to remove the charm control on Starscream Amanda and the killer boss. These three people were very confused about what was going on just now, and suddenly they seemed to have fallen asleep without knowing anything.

Immediately afterwards, three puffs of green poisonous smoke floated out of Qin Yuan's palm. After being prompted by the system, this toxin is called ten thousand insects. This kind of pain penetrates into the bone marrow.

This toxin will not kill people directly, but will make people try this painful pain repeatedly in pain.

In an instant, the three of them fell to the ground and rolled in pain, and the man even took off his mask in pain. At this moment, Qin Yuan saw the man's ugly face. That face seemed to have been burned by sulfuric acid, and it looked horrifying.

"You! What did you do to us? I tell you, my brother will not let you go!"

"Oh! It turns out that you still have an older brother. Does that mean that he is the boss of the Daybreak organization?"

The man was rolling on the ground in pain at this moment, unable to say anything, "Ah! You kill me!"

Starscream next to him couldn't bear the pain anymore, he pulled out the knife from his waist, and stabbed it directly into his heart, the boss opened his eyes as if relieved instantly, and died in pain.

Qin Yuan shook his head, it's really a pity, he wanted to use her to try other toxins, why is he so careless? Qin Yuan turned his head and looked at those innocent children, feeling that this kind of punishment was simply too light for them, how many families and lives they had ruined.

The boss of the killer organization waved his hands desperately, and shouted loudly: "It's okay, I beg you, give me the antidote, I'll say anything."

Qin Yuan intentionally walked slowly to his side. At this time, the leader of the killer organization was already pale, with blood flowing from his ears and nose. He couldn't care about his image, and kowtowed desperately on the ground, and Amanda was in even more pain. Hit your head directly against the wall.

Qin Yuan tapped his forehead lightly with his hand, the toxin was absorbed back, the man instantly seemed to be sucked out of his soul, his whole body relaxed, without that kind of pain, he was lying on the ground panting heavily, next to Oman Da had passed out from the pain.

The man breathed a sigh of relief, struggled to get up from the ground, looked at Qin Yuan and said, "I didn't expect you to be a special soldier of the Yan Kingdom. People like you are really too ruthless. I think we are the same kind of people." No, I'm just mad at you guys because of the outrageous things you do, I'm just 100 times the way you hurt others, I've always hated people, and Is it interesting for you to say this now, I just want to hear what I want to know, otherwise I will continue."

At this time the man was very frightened, he shook his head desperately, he didn't want to experience that pain again, it was too painful.

From the man's mouth, Qin Yuan learned that this man was indeed a Yan country man named Zhang Donglin, and his brother was named Zhang Long. The dawn organization was also founded by his brother and him at the beginning, but later his brother suffered from cancer. At that time, they were

already rich and powerful, but once they got cancer, there was nothing they could do even if they were rich.

Zhang Long attaches great importance to this younger brother, and the two brothers have a very deep relationship. Zhang Donglin's face was injured by an incendiary bomb when they were doing the task before. It was also to cover Zhang Long, so his face His older brother took him very seriously.

Later Zhang Long suffered from cancer, so Zhang Donglin searched for sources everywhere, wanting to know if there was any specific medicine that could cure his brother. At that time, he found out that someone in China was researching this anti-cancer drug and successfully developed it. It's a pity. It's just that the side effects are too great, and he doesn't trust those researchers.

Chapter 845: ??The conspiracy behind

So I have always wanted to **** this formula, and I found a professional research team to study it, and he also proposed to buy it, but the doctor insisted on this thing. He must personally participate in the research, no matter what he will not give himself of research sold.

Moreover, Zhang Donglin didn't really want to buy it in the first place. What he wanted, he would do whatever it takes to get it back. In this way, he started tracking the doctor and Zhang Baoshan. His brother couldn't wait, and his body got worse. It's getting worse, he has no choice but to use the anti-cancer vaccine researched by his doctor.

The side effects of this drug are very large, and the side effects are changeable, because this anti-cancer vaccine not only kills cancer cells in the body, but also kills other cells. In order to adapt to this change, the body can only continuously Producer cells, in other words, his brother's body cells are being renewed every day.

The more terrifying thing is that he will age every time he updates, like shedding his skin, shed a layer of skin, and then he will be like a newborn the next day, and the horror of this side effect is not limited to this, Zhang Long's body becomes no longer Afraid of pain, even if he stabbed him hard with a knife, he could recover quickly without feeling the pain, because the cells were constantly renewing, so his recovery speed was very fast.

Qin Yuan was a little shocked when he heard this, then this Zhang Baoshan sold a lot of anti-cancer vaccines before, and this side effect is too unnatural if it continues like this! It is because of the help of the system that I have a super defense and recovery ability, but they rely on their own repairs. This is too strong, and it is simply making people evolve again.

"This kind of thing has such a side effect, and Zhang Baoshan has been selling it all the time. How many people are using this kind of drug with such a strong side effect?"

Zhang Donglin lay on the ground and shook his head, "Actually, most of the people in my organization are people who have used this vaccine. You also know that their bodies are really strong. Unless they are completely killed, they will not feel it." , the pain will continue to come."

I didn't expect that I would come into contact with these people. In the confrontation just now, it was true that these people are really strong. He has used all the skills and tricks of his body. The bodies of these people seem to have received evolution. No wonder this kind of medicine can't This kind of side effect is really terrible when it is developed and launched in China.

It is simply beyond the normal physiological characteristics of people. This is against the normal laws of nature. After all, people are born, old, sick and die. Such a body can be said to be a monster. How many people can accept it?

However, Qin Yuan was terrified that Zhang Baoshan had sold a lot of anti-cancer vaccines and how many people used them. He had no idea how many such cases were hidden behind this one. It was scary to think about it.

Qin Yuan always felt that Zhang Donglin still had some truths to tell. It seemed that this kid had forgotten the pain just now. He extracted another toxin from the palm of his hand and floated directly towards Zhang Donglin.

Before Zhang Donglin could react, he saw a black toxin getting into his head. Qin Yuan just wanted to know how many people used these vaccines, and what happened to Zhang Long behind him .

At this moment, Zhang Donglin was lying on the ground twitching non-stop, willing to quickly check the toxin. It turned out to be a toxin that can paralyze the brain nerves. convulsions, foaming at the mouth.

Qin Yuan let go of the worm addiction just now. Under this kind of double torture, Zhang Donglin slowly raised his hand. Qin Yuan was also worried that he would play this kid to death, so he better ask questions first, he Stop it, Zhang Donglin is already sweating profusely.

This kind of toxin is really easy to use. As a method of interrogation, it is really satisfying to deal with these people. Zhang Donglin looked at Qin Yuan in front of him at the moment, and felt very scary. This person has broken the Yan Kingdom soldier he knew. Just a monster, he has no rules at all, he is like a living Hades.

Zhang Donglin breathed a sigh of relief and continued. Zhang Long was the first batch of people who received this anti-cancer vaccine, and the side effects were very serious at that time. Later, after Zhang Baoshan and the others came to country M, the doctor was very concerned about this anti-cancer vaccine. According to the research conducted, the side effects are slightly better than now.

But the people they have used can't be changed at all. This Zhang Long thinks that they are like this anyway, and these human bodies that have been improved with anti-cancer vaccines have undergone other changes, which can just be used by him.

So he gathered all these people together to form the Daybreak Organization. Those people were the first batch of people who had been vaccinated with him. Because of the strange changes in their bodies, most of them were feared and looked down upon by their families, saying that they were monsters. They became homeless and were abandoned by the society. It was Zhang Long who accepted them.

And these subordinates around Zhang Donglin were only the third and fourth batch of people who had been exposed to the vaccine, and their physiques were not that strong anymore, because the vaccine had been modified after all.

So this is why they have been vying for this vaccine. Zhang Long wants to get the vaccine back, and then use the first set of plans according to his own research. This kind of enhanced human is what he needs most. Relying on this Some people with special abilities, after being trained by him to become killers, their abilities have also been improved and they have completed many tasks.

Soon their Daybreak organization became famous, and Zhang Donglin's here is just a branch of their Daybreak organization. They are mainly known for their fierce form, because they are bound to have many enemies if they continue to do so, so they all cut grass and roots.

"Then where is this Zhang Long?"

Zhang Donglin shook his head at this moment, he really didn't know, because Zhang Long was very mysterious, they hadn't been in touch for half a year, their relationship before was really good, after

Zhan Long's physique changed, his whole person also changed, In addition to giving Zhang Donglin material and financial support, he rarely interacts with him.

Qin Yuan looked at Zhang Donglin's lonely look, and he really didn't look like he was lying, but he didn't know that it didn't matter, anyway, Zhang Donglin was in his hands now, so he didn't worry about Zhang Long not coming to him?

"You call Zhang Long now and tell him that Lord Qin is waiting for him here."

At this moment, Qin Yuan wanted to quickly quibble with this killer organization. This matter was more serious than he had imagined before, and he had to go to Zhang Baoshan. After all, Zhang Baoshan had been selling this kind of anti-cancer vaccine underground. Knowing how many people are still suffering from the side effects of this anti-cancer vaccine, this kind of thing is simply not available.

And according to Zhang Donglin, those who survived turned into monsters with fast cell renewal. Those who did not survive were killed by anti-cancer vaccines after using anti-cancer vaccines. killed.

Zhang Donglin shook his head. He didn't know what was going on, and he couldn't contact Zhang Long at all, "You better not play tricks on me, anyway, if you can't find Zhang Long, I will only give you three days. I will let you spend the rest of your life in pain, I will not kill you, and I will not let you have the chance to commit suicide."

Hearing what Qin Yuan said, Zhang Donglin felt that Qin Yuan was very scary. No matter how he looked at this person, he didn't look like a good person. His behavior was really similar to himself. He became more and more curious. I did a lot of research, because this person is very capable and well-known internationally.

Moreover, whether this person is a biochemical weapon or a bacterial weapon, there is no way to take him, so Zhang Donglin also thought of a way, which is to use the power grid to deal with him, because he watched all Qin Yuan's battles in detail, and no one seemed to use electricity. To deal with him, explain that this is his weakness.

Unexpectedly, Qin Yuan was not afraid of this kind of power grid at all, and easily destroyed his power grid, which Zhang Donglin did not expect. The most important thing was that Zhang Long was behind him, so he was not afraid.

Now Zhang Long's side has not yet disappeared. Qin Yuan intends to go to Zhang Baoshan to inquire about the situation. Now he urgently needs to know whether these vaccines are still being produced and sold. He locked Zhang Donglin and Amanda in the basement below, and let those Take care of the children, these children, because of his charm control, are now very obedient, and Qin Yuan doesn't know how to deal with these children for a while.

It just so happens that I also need manpower on my side, so I can definitely rest assured that they are guarding them, and these two people have already been bundled into rice dumplings by myself, so there will be no problems.

When Qin Yuan found Zhang Baoshan, he had already recovered and was discharged from the hospital, but a rich man like him was lying in a wheelchair, and he would survive no matter what. Now Zhang Baoshan's lower body can't move at all, and he can only move in the future. The wheelchair is the main one, very desolate, but Qin Yuan doesn't sympathize with this person at all.

Zhang Baoshan was very happy when he saw Qin Yuan coming. He thought that Qin Yuan had brought him some special medicine. After all, he knew Qin Yuan before, and this person seemed to be able to treat some special diseases.

"Don't talk to me about those useless things. I just want to know if your anti-cancer vaccines are still being produced. You have no conscience for such harmful things. Aren't you f*cking hard to earn this money?"

Zhang Baoshan was stunned for a second, he didn't expect that Qin Yuan came to him to talk about this matter, "Hey, Captain Qin, don't be so excited, you also know that I am a businessman, I will definitely not reproduce this thing, after all, I have handed over my shares to you."

Although Zhang Baoshan said so, Qin Yuan didn't believe it at all. With Zhang Baoshan's scheming character, wouldn't he make extra preparations?

"I advise you to tell the truth, I don't want to use those methods against you, but I really hate you, a businessman who is troubled by profit, and you are 100 times more hateful than those terrorists. How many people have been harmed by these things?"

Zhang Baoshan was a little angry when he heard that, "Captain Qin, I have always been very polite to you. I didn't expect you to talk about this matter, so please leave. After all, this is my own business and has nothing to do with you."

"What do you mean has nothing to do with me? Let me tell you, I, Qin Yuan, have really managed this matter. Since you don't say that I will investigate it myself, I, Qin Yuan, will dig out everything related to this thing. "

"I thought you were a smart person before, but I didn't expect you to be so stupid. You don't know how many things are involved in this. Could it be that I, Zhang Baoshan, can support it? For the sake of saving me before you, I I advise you to stop, you can't control the things inside."

Qin Yuan smiled. He was never afraid of threats. Those who persuaded him to stop, those who advised him not to meddle in his own business, were all dead. Qin Yuan suddenly turned to look at Zhang Baoshan.

Using his charm skill again, Zhang Baoshan's eyes immediately became very hollow.

"Tell me, where is your factory?"

"In the basement of the Peninsula Hotel!"

Sure enough, you still need to rely on these special means to ask for the information you want. Next, Zhang Baoshan told Qin Yuan that it is not easy to go to this underground experimental base. All data in the destruction measures will be automatically destroyed.

Oh shit! What the ***** design is this? It seems that the people behind this are really not simple, and they can think of the experimental bases that I went to before, as long as they attack the data, they are all manipulated by humans, and they have not yet reached such a smart situation.

"Tell me directly how I need to enter that experimental base."

Zhang Baoshan took out half of the key from his pocket, , "This is my key, the other half of the key is on Zhang Long's body, it takes two keys to open the gate of the experimental base."

Qin Yuan was a little surprised when he heard Zhang Long's name. How could this Zhang Baoshan cooperate with Zhang Long? Zhang Long was the one who killed his whole family, didn't Zhang Baoshan know?

After questioning, Qin Yuan realized that Zhang Baoshan really didn't know that Zhang Long was the real boss behind the Poxiao organization. He only knew that Zhang Long was a very powerful boss. Under Zhang Long's control, half of country H belonged to him. Take control.

This successive news made Qin Yuan's eyes widen. This Zhang Long is really not simple. Baoshan's family pursued and killed him.

It seems that this Zhang Long just wants to take advantage of Zhang Baoshan, but Zhang Baoshan is not that stupid. Even in this case, his anti-cancer vaccine is tightly held in his hands, and Zhang Long has not been able to take advantage of it. opportunity.

Zhang Long has never been able to find a chance to attack, so he can only kill him, and Zhang Baoshan and Zhang Long have always cooperated. How many people have been manipulated, and it is really not easy to have half the power of country H.

Chapter 846: Just 1 pawn

Knowing the ins and outs of the whole thing, Qin Yuan feels that he is the person who understands the conspiracy the most now. Zhang Baoshan still thinks that he is the one in control, but in fact he is just a **** being used by others. In the end, his family is ruined and his wife and children San himself also suffered a hemiplegia, and is still being used by others.

This kind of person is really pathetic. Qin Yuan took away Zhang Baoshan's half key. It seems that the most important thing now is to find Zhang Long.

Zhang Baoshan, who was released from the control, lay blankly on the wheelchair. He didn't know what happened. He just felt like he was in a state of emptiness just now. He suddenly felt bad, and quickly touched his chest. Sure enough, the key was gone.

Zhang Baoshan regretted it unceasingly, and took precautions to prevent himself from being controlled by Qin Yuan. He really couldn't figure out how Qin Yuan did it, but after thinking about it, Zhang Long who cooperated with him was not a good person. The power is even bigger than him.

Since this Qin Yuan took the key away, he decided to use his plan and quickly called Zhang Long, "The big thing is wrong, you know the Qin Yuan I told you about last time! He now takes my half key Go, it is very likely to find you, you better be careful, this person is not easy to deal with."

Zhang Long on the opposite side did not respond to him, instead there was a sound of dice shaking, Zhang Baoshan was a little angry at the moment, it's fine that Qin Yuan didn't take him seriously, what is Zhang Long, he and he are no different It's just a partner, kindly remind him why this person doesn't want to eat at all.

"Hey! Are you listening to me? And this is not about you alone, the base is also invested by me, so don't mess it up."

"When is it the turn of a useless person to scream in my ears? Your role is to keep it. You don't have a key. Since you even lost this key, there is no need to continue living."

"what!"

Zhang Baoshan turned pale with shock and couldn't believe his ears. Why is this Zhang Long so arrogant? At this moment, she still felt that Zhang Long didn't dare to touch him. He had so much power, and the base was all his people, and even if he was paralyzed now, it still had power in this place.

At this moment, his personal bodyguard walked in, and without hesitation directly pressed the trigger on Zhang Baoshan's head.

Zhang Baoshan's eyes widened before he died. He couldn't believe all of this. In the end, he didn't understand that he was just a ***** of these people.

The bodyguard answered the phone respectfully, "Boss, that Qin Yuan and our people have been following him. I have already solved the problem here. I will report to you if there is any problem."

"No need to follow, withdraw people back! Or it is too late to withdraw, I will tell you how to do it later."

"Yes!"

After Qin Yuan came out, he found that he had been followed by someone. He smiled. The tracking level of these people is really bad. What does Zhang Baoshan mean? Did he overestimate his ability? He even sent someone to follow him, what else could he do with his power.

Qin Yuan shook his head, threw a throwing knife, and a man standing in the corner fell down in response. After a while, the voice of the walkie-talkie came from the man.

"Jack, you can come back now, no need to continue following, please reply."

Just as Zhang Long guessed, Qin Yuan quickly saw through their stalking. At this time, Zhang Long was having a great time in an underground casino, surrounded by beauties, and there was no sign of panic at all.

One of his subordinates ran in and said, "Boss, brother Lin was indeed imprisoned by Qin Yuan, and he has already told everything after Qin Yuan's torture and interrogation."

Hearing this, Zhang Long, who was still smiling, suddenly slammed the playing cards in his hand on the table, "Damn! Why are you a bunch of trash? That Zhang Baoshan gave the key to others easily. This trash brother can't use it at all." nothing."

The woman next to him didn't dare to speak. Although it was rumored that the relationship between the two brothers was very good, in fact, Zhang Long's city mansion was very deep, and all kinds of things he did were purposeful. It was just a routine that the younger brother took advantage of. affection.

"Boss, shall we rescue him?"

"Help? Hehe, I'll catch a lot of this kind of brother. Fortunately, I didn't bring him to the factory, otherwise the plan will be ruined by him. Let that trash continue to drag him for a while!"

At this time, Qin Yuan returned to the place where Zhang Donglin was being held. Now the clues on Zhang Long's side were broken. His brother had been arrested by him for nearly ten hours, but he didn't respond at all. I don't know if he didn't want to save this brother. , or deliberately let this brother delay his time.

The biggest problem now is these children, so many children are now under the control of Qingyang, like robots, they can only execute their own orders mechanically, but once the charm is removed, they are dangerous killer organizations.

These children have been completely brainwashed, and they were abandoned by this society before, and the Lixiao organization came to take them in. It is understandable that they are willing to work for Lixiao.

If this matter could not be resolved by him alone, he would not be able to bring so many people back. Qin Yuan could only contact the local government to see what the government said. He was very annoyed by the attitude of country M before.

Now that the country has contacted the authorities, although they heard that it was the Longgang Wharf, after all, this is a crime-prone area, and the government has completely abandoned this place, but Qin Yuan told them the seriousness of the matter. Sex, after all, let these children develop, and the crimes committed by these children in the future will also be borne by the government.

The government department quickly dispatched personnel to take over these children, which is similar to setting up a juvenile detention center and sending these children to strict supervision and education.

Qin Yuan was quite satisfied with this decision, and they acted very quickly. After contacting him, he immediately sent someone to make a connection the next day. Seeing those children being picked up, Qin Yuan only thought that they could really succeed in reforming. I don't want to see these children become my enemies in the course of future missions.

Now we are trying our best to find Zhang Long's whereabouts, but no matter how Qin Yuan presses him and uses his charm skills, but Zhang Donglin really doesn't know Zhang Long's whereabouts, Qin Yuan is worried that if he keeps going on like this, this person will soon die up.

Zhang Long's clue seems to be broken, but Qin Yuan doesn't want to give up. As long as these harmful vaccines exist for another day, innocent people will be used by this vaccine. In an instant, he didn't like that doctor in China, but It's just mutual use, there is no difference between that doctor and Zhang Baoshan.

The doctor kept saying that for the sake of research and the health of human beings, but the vaccine with such serious side effects, he still chose to go on the market to treat those people. No matter how Qin Yuan searched, he couldn't find any news about Zhang Long. , as if the person disappeared out of thin air.

In the end, Zhang Donglin couldn't bear this kind of torture and committed suicide. Qin Yuan felt that he had frightened the snake this time. He thought that Zhang Long would come to rescue Zhang Donglin knowing that something happened to his younger brother, but he ignored the fact that

Zhang Long was such a vicious man. Spicy people don't care about this kind of family affection at all.

Qin Yuan stayed in this place for another week, and couldn't find any news at all. There was no way to delay it like this. After all, he had other tasks. Gao Shiwei also called twice, because the red blood cell team had already Go out to perform the task alone.

And he, the captain, is still performing other tasks outside. After all, they are a special operations team. Qin Yuan is a little unwilling to let the clues be interrupted like this, but no matter what, he will definitely catch this Zhang Long, but sooner or later thing.

Qin Yuan can only go back to Yan Kingdom first. He has been out for almost half a month before continuing. It is not an option to delay it like this. After returning, he reported his recent situation to Gao Shiwei. He really rarely appears on missions. In the case of failure, but this time it is not considered a mission failure, at least we have figured out the mastermind behind the scenes, but it will be a matter of time before we catch this mastermind.

"Captain Gao, I think the greater the ability, the greater the responsibility, but this time the mission made me feel powerless. I seem to have made a mistake in my judgment. I should have found Zhang Baoshan in the first place, and I must protect him no matter what. After all, he was the only insider, and Zhang Baoshan and Zhang Donglin also died in the end, these clues were completely cut off."

"Qin Yuan, I know you are very capable, but don't take all the pressure and responsibility on yourself. We just do our best for some things."

Qin Yuan nodded, and walked out of Gao Shiwei's office. The red blood cell team had been dispatched to carry out a mission, and they haven't returned yet. Gao Shiwei also sent a message for help to the international community, hoping to use the strength of various countries in the international community to work together. Look for the Daybreak organization, and once there is news, we will work together to solve it.

Qin Yuan is also very strong, but there are many things he can't do, and now he needs to rely on everyone's strength.

Fortunately, the red blood cell team only carried out simple hostage rescue tasks. Qin Yuan thought that he had to take on the responsibility of the captain when he was running around outside alone, and put aside the affairs of the Lixiao organization. After all, this matter is also urgent. No, there are so many of them investigating together, once there is news, I will definitely solve it myself.

Li Erniu and the others had just come back, Qin Yuan felt that he was quite negligent in his duties as the captain, and he had not fulfilled his responsibilities as a captain even when he was on a mission, so he personally cooked for them and cooked them a table of delicious food.

"Brother Qin, you don't need to worry too much. We are all brothers, and you are also going to perform a mission. Your mission is much more dangerous than ours."

"Hahaha, but it's really a blessing to be able to eat what you make."

Everyone was talking and laughing while they were eating, when suddenly the emergency assembly whistle rang outside. It seemed that it was an urgent task again, so everyone put down their dishes and ran out.

Gao Shiwei shouted at the top of his voice: "Two minutes to pack up and set off, a huge mudslide occurred in Xiaonan Village, Nanhua City, and the situation suddenly gathered rapidly."

Everyone quickly disbanded and went back to pack up the first aid tools. This time, An Ran and his medical team cooperated with Qin Yuan and his team. It was still raining heavily outside, so flying was impossible in this situation. They could only pass through the village where the mudslide happened the night before.

It has been raining for a whole week, and it has not weakened at all. Xiaonan Village is at the bottom of a river. Because of the heavy rain, the river swelled, and many people were deeply trapped in the flood. The most important thing was that it was accompanied by mudslides. People are buried, so now is the best time to rescue them.

Qin Yuan and the others are the first team to set off as a special force, and they need to open up a road for the follow-up rescuers to arrive.

Qin Yuan and the others drove at the front as the leading vehicles. There was heavy rain and thunder along the way, and many rocks rolled down from the nearby mountains. When they drove to the front, a huge rock blocked the way.

Everyone hurriedly got out of the car and was about to push the boulder away. Qin Yuan shook his hand and said that he could do it alone. Below is the abyss. up the cliff.

I go! Brother Qin's strength is still so great, and with such a big rock, it is estimated that seven or eight of us may not be able to push him to kick the rock down. Li Erniu was very sighing in the car at the moment.

In this way, Qin Yuan took the lead in the front, clearing the obstacles on the road and ensuring their smooth passage. In this way, it was expected to take more than an hour, but it took half an hour after Brother Qin opened the way.

The situation at the scene is still quite serious, because the water level is constantly rising, and the highest water level has reached people's shoulders. Many villagers can only climb to the second floor or the roof of their homes to escape.

Going on like this is not an option, I don't know when the rain will fall, and the condition of the river next to it is not very good, and the river over there is very rough. If the dam is washed away, the village will be completely submerged.

There were a total of more than 800 people in Xiaonan Village, and the follow-up rescue team also came in. Everyone acted separately, rescuing and relocating while they were rescued. Qin Yuan and the others rowed rubber boats to search and rescue those trapped people.

At this time, Qin Yuan had sharp eyes and saw an adobe house. An old man was sitting on the dilapidated tile wall in front of him. Because it was an old adobe house, half of the adobe wall had collapsed. It was very dangerous at the moment, and the water level kept rising. , there are a lot of branches in front of it, and the rubber boat cannot row over.

Qin Yuan jumped into the water without hesitation, and swam over quickly. At this moment, the old man was still holding a sheep in his arms, and he refused to let go.

"The old man quickly put down the sheep and got on our rubber boat. It's very dangerous here."

"No, this sheep is all my property, and three of them have been washed away, and I will not let go of this one no matter what."

Qin Yuan had no choice but to carry the old man and the sheep on his back. The old man was completely wet from the wind and rain, and shivered while sitting on the rubber boat.

Chapter 847: ?Find out those who make bad comments

Due to the unexpected situation, the water level here continued to rise. Qin Yuan and his team first came to rescue the people here, and the fire department was responsible for rescuing the people covered by the mudslide. An Ran and his medical tents have been set up, and they are treating the injured people in an orderly manner. .

Qin Yuan asked Li Erniu and the others to save people first, and he wanted to check the situation of the dam. Now Gao Shiwei was watching over the dam, and the situation was not optimistic. Many armed police officers and soldiers were carrying sandbags, thinking To build a dam.

Gao Shiwei watched the water level continue to rise, with a serious expression on his face, "God can't have mercy on these poor people, the rain is getting heavier and stronger, and it hasn't weakened at all."

Qin Yuan took a closer look and found that there were cracks on the dam. Everyone desperately helped sandbags to block the front of the dam. Everyone kept relaying, but the power of this kind of water flow should not be underestimated.

In an instant, the sandbags just made were washed away by the current. Qin Yuan also wanted to join the construction team, but was stopped by Gao Shiwei, "Qin Yuan, hurry up and save people over there, we are watching over here." Let's move all the people as soon as possible, I guess this dam won't last long."

Qin Yuan nodded. It is true that this dam was originally built many years ago. He did not expect this natural disaster to be so severe that it could not stand it at all.

Qin Yuan and the others rowed the rubber boat. Li Erniu's hands were already blistered by the rubber boat, and he didn't give up. He couldn't care so much at the moment, and he didn't know how many people he had rescued.

"Erniu, look at a child sitting on the roof in front of him. Let's go over there quickly. It will be submerged over there. I don't think the child can hold on for long."

Li Erniu and the others looked in the direction Qin Yuan pointed, my good fellow, it's about a thousand or two kilometers away from here, how did Qin Yuan see it? It was raining very hard at the moment, and it was impossible to see that someone was sitting on the roof without looking carefully.

Everyone rowed the rubber boat desperately, and Qin Yuan also accelerated the speed. The situation of the child was very dangerous. The flood had already overflowed the roof, and the child was almost half submerged in the water. He was worried that the house would collapse and the child would be washed away.

At this time, a wave of water came in the flood, and the child fell directly from the roof where he was standing. Everyone's hearts were pulled together, because the flood was muddy, and the water was very large, and the child was very small. There was no trace, and Qin Yuan couldn't control so much, so he jumped into the flood directly.

Gong Jian shouted loudly on the rubber boat: "Captain Qin, come back quickly. This is too dangerous. Now the flood is too fast. Not only will the child not be saved, but you may also be washed away."

Qin Yuan can't control so much at the moment, he can't just watch the child disappear in front of him, and he is also confident that he should be able to fight against this flood with his own strength.

Qin Yuan soon swam to the place where the child disappeared. He quickly searched for the child's trace. The water surface was very muddy. At this time, he saw a pair of small hands sticking out of the water surface. He swam over quickly and lifted the child up. At this time The child choked a lot of water, but the problem is not serious.

At this time, when everyone on the rubber boat saw the child rescued by Qin Yuan, they breathed a sigh of relief. They just need to find the child. They are currently in the upstream state, and it is very difficult to paddle, and the water waves in the flood are very difficult. urgent.

"Captain Qin! Be careful!"

As soon as Li Erniu yelled, he saw a thick tree rushing directly towards Qin Yuan. Qin Yuan supported the child with one hand, and punched the floating tree with the other hand. The tree trunk flew out directly on the river.

After seeing this scene, the child who was still terrified just now looked at Qin Yuan with admiration. He was also soothing the child's emotions, telling the child to hug him tightly and not be afraid.

Li Erniu and the others hurried over to connect the child to the rubber boat, Qin Yuan also climbed up, and everyone rowed the rubber boat towards the gathering place. At this moment, the water in

the flood suddenly became larger. Some tall trees can be seen, but now they are completely invisible.

Qin Yuan felt that something was wrong. Was there something wrong with the dam? The intercom was intermittent, and the signal was not very good. The most important thing now was to **** the people on this ship back safely.

In this kind of flood, the rubber boat was beaten back and forth by the flood, and it was very difficult to keep balance. Qin Yuan placed the crowd in the middle of the rubber boat, and stood at the end of the rubber boat. He exerted all his strength to control the entire The balance of the rubber boat, and then Li Erniu and the others cooperated to quickly draw out this dangerous area.

With the person in the rubber boat and the continuous water waves beating the rubber boat in the flood, it was really difficult to master the balance, and the veins in Qin Yuan's hands were already bursting.

Fortunately, Qin Yuan controlled the rubber boat, and everyone arrived safely at the resettlement site. Looking around, the entire village behind them had been flooded, and many people on the shore were crying, looking at their submerged homes, An Ran and the others were also very busy, and there were injured people everywhere.

"Everyone, our home is gone now, and we can rebuild it. Now the main thing is to ensure our own safety. Don't worry, we will never let you get hurt again."

The flood is getting more and more fierce. It seems that they have to carry out a second transfer. At this time, there is bad news from the front. The dam has completely collapsed. The most important thing is that Gao Shiwei and several armed police officers and soldiers were killed. The flood washed away.

Qin Yuan didn't care too much, and ran to the dam quickly. In this case, he was the only one who could jump down. Maybe Gao Shiwei and the others could be found in the flood. Qin Yuan's speed was very fast, and in the blink of an eye, Li Er Niu and the others couldn't even see their backs.

Standing on the half-collapsed dam, Qin Yuan couldn't take care of that much now. Saving people was the most important thing. Gao Shiwei and two armed police officers and soldiers were holding a tree in the flood water and were beaten by the flood water. The situation was very critical.

Gao Shiwei hugged the tree tightly in the water, "Brothers, you must call the police, they will find a way to kill us, don't give up!"

Qin Yuan took out a rope and tied it around his waist, "Now I'm jumping down, you must pull this rope well and pull us all up."

"No, it's too risky for you to do this. If you jump into such an urgent flood, you may not be able to see anyone. You can't take this risk. We can't sacrifice too many comrades like this."

"Then don't we care about them? We can't control so much now. Someone has to start this. Believe me, I will definitely rescue them, as long as you pull the rope well."

This kind of rope is a special combat rope, very strong, and it can bear the weight of four people without any problem. The abyss that jumped down turned out to be a stable figure in the flood.

They swam quickly towards Gao Shiwei and the others, and Qin Yuan's speed was very fast. You must know that this was in the flood, and there was mud and sand everywhere at the moment, and it was impossible to see the direction clearly. There were still many branches and trunks, but Qin Yuan's The figure is very sensitive, and quickly avoided these obstacles.

Qin Yuan stretched out his hand and grabbed the tree trunk floating in the flood. The armed police soldier lying in the middle should have been hit on the head by the tree trunk when he got down. He is bleeding now and has fallen into a coma. The hands are tightly grasping.

"Qin Yuan, send this comatose little soldier up first."

"Captain Gao, no need, I will rescue you all up together, and you will all be washed away if you are a minute late."

"Nonsense! If we continue to delay, we will all be washed away. Send him up first."

Gao Shiwei's worry is not unreasonable. In this situation, let alone saving people, it is very difficult for him to maintain stability. In the current situation, he can save only one person.

Moreover, he had been holding on to the armed police soldier, his right hand was completely numb, and he couldn't hold on for long. At this moment, Qin Yuan grabbed the injured armed police soldier, put him on his back, and dragged him with the other hand. trees.

Gao Shiwei's side instantly relieved the pressure, and everyone on the shore saw that Qin Yuan had pulled them back, "Hurry up and pull the rope together!"

Qin Yuan now wants to support the armed police soldier on his back with one hand, and firmly grasps the tree trunk with the other hand. Now he dare not let go. Once he lets go, Gao Shiwei and the others will be washed away. His The balance depends entirely on the waist and the strength of the feet.

Gao Shiwei was very surprised by Qin Yuan's strength. This kid is too strong at the critical moment. How many people can do this kind of normal person. At this moment, he also wants to help Qin Yuan relieve the pressure, but after such a long time in the flood , Gao Shiwei has completely lost his strength.

Qin Yuan's fingers were already bleeding, but he still didn't give up, so everyone pulled them up together. Qin Yuan felt exhausted after he came to the shore, because he had been rescuing them from the beginning. The trapped people just jumped down to stabilize their balance just now, and now they have no feeling in their hands.

He Chenguang and the others rushed over to check on Gao Shiwei's condition. Gao Shiwei's calf was scratched by a tree branch in the water, and blood was flowing. Other problems were not serious.

"It's a pity. We didn't expect it just now. The situation happened so suddenly. The dam collapsed in an instant, and the six armed police soldiers standing in a row with me were washed down together."

Everyone was silent when they heard this. Those armed police soldiers must not be rescued. After such a long time, Qin Yuan has nothing to do. At this moment, he also feels very powerless, and he is not a god. If I insisted on being here just now, this kind of situation would not happen, and I could save them all in the first place.

The four fresh lives disappeared in the flood in an instant, and Gao Shiwei blamed himself very much, "The little soldier was only a few centimeters away from me just now, I almost caught him, but unfortunately I didn't catch him , that little soldier is just a child!"

Everyone's eyes are red, there is nothing to do now, and the most important thing now is to move these people out as soon as possible, the other half of the dam will collapse at any time, and we have to move everyone to a higher place.

Gao Shiwei could only put away his sorrow, and now he is needed to command. After a whole night of fighting, the masses were safely transferred. Everyone set up tents as a temporary resettlement site. The government's rescue was very timely, and many supplies were also delivered. All delivered in time.

Everyone was finally able to breathe a sigh of relief. At this time, everyone felt that they could not even lift their hands and fell asleep standing up. The new rescuers began to replace them and let them go to rest first. Volunteers were also helping everyone. The food allocated, Qin Yuan and the others were so tired after eating the bread, they just lay down on the ground and fell asleep.

At dawn, the rain finally stopped. Everyone was very happy to see that the rain had stopped. As long as the rain stopped, the water level would recede. The next step would be reconstruction work, and the body of an armed police officer was also salvaged. Seeing this situation, An Ran couldn't help turning her head and weeping softly, Gao Shiwei and the others also had red eyes.

These armed police officers and soldiers are all so young, but they are all heroes and martyrs who died on the way to rescue. Qin Yuan and the others are also responsible for escorting the remains of these armed police officers and soldiers back to their hometown.

Many reporters also came to report on this incident. It was because of them that the catastrophic flood disaster this time prevented more people from being injured and guaranteed the safety of people's lives.

Looking at the immature faces in the photo, it is a pity to see the people who heard about this incident, but I did not expect that after the news report was broadcast, some people would blackmail these sacrificed martyrs on the Internet.

An Ran was also with Qin Yuan and the others as a car follower, and An Ran discovered this matter because An Ran was carrying a mobile phone as a way to contact some medical relief supplies. After she turned on her mobile phone, she saw someone's comments below .

"Hahaha, what is there to be miserable about? Isn't it just a few people who died, as for mobilizing so many people? I guess they all have something to do with it. I don't know how many people died, so why didn't they report it."

An Ran showed them this comment, Gao Shiwei was so angry that he punched the car window, "Damn it, what kind of **** is this, it insults our martyrs so much! I really feel worthless for these martyrs, This matter must be investigated, and this villain who is fanning the wind behind his back must be caught!"

Gao Shiwei hurriedly contacted the local police. This matter is not a trivial matter. The local police quickly set up an investigation team to find out these people who deliberately slandered the martyrs. Unexpectedly, this person who posted comments was very cautious. He directly hid own id.

Qin Yuan and the others also came to the authorities to participate in the investigation. An explanation must be given for this matter, and these martyrs should be innocent.

"These keyboard warriors dare to say anything, dare to act but not to be, if you have the ability, don't hide your ID!"

The comrades in the technical department are also working hard, but they can't find the location of this id. Qin Yuan sits in front of the computer. He has world-class hacking skills. No matter what, he must dig out this person.

Chapter 848: ??Find the keyboard man

The comrades in the technical department are also very anxious. They have been monitoring everywhere, but no matter how hard they try, they can't find this id account. This person is too cunning and hides his id. The technicians originally wanted to find this person through the Internet. Unexpectedly, this person is also a master hacker, and he has also tampered with the Internet.

"This kind of hiding is so cunning that we can't find it at all."

"Not necessarily, let me see."

The one who spoke was Liu Changjun, a top student in the technical department. He was a little unhappy hearing Qin Yuan say this. Didn't he question his ability? He is a high-achieving student

who graduated from an orthodox police academy, specializing in computer technology, and he can't even break this thing.

"Comrade, I know you're in a hurry, but don't try to be aggressive in this kind of thing. If you break through forcibly, it may support our system to be infected with viruses. This person is really too cunning. Unable to decipher."

Qin Yuan smiled, ignored it, and quickly sat in front of the computer and input a series of codes, "It's ok, this kid is at No. 252, Building 13, Happy Home."

Liu Changjun was completely stunned, how did this happen? It's impossible, they spent several hours and couldn't find it, why did Qin Yuan come over and solve it in less than a minute, that's too awesome!

He hurried over to check the situation on the computer, and he really found this network cable. This wish was really hidden. The level of this kind of computer is at the king level among them.

"How about it, little comrade, now we can arrest people."

Liu Changjun was a little ashamed, he still looked down on Qin Yuan just now, "It's fine, you're the best, I'll listen to you."

And you can also check the records of this kid. The person who left the black comment not only left this one, but also made remarks insulting the soldiers many times before, all of which used this method of hiding his ID to escape the tracking of the law.

Li Erniu and the others gritted their teeth angrily when they saw the bad comments, "What the **** is this **** trash? We fought **** battles on the front line to protect their safety, and he just slandered us soldiers like this behind the scenes."

Just like that, everyone hurried to the happy community, when they knocked on the door, a middle-aged man wearing glasses looked at everyone with a confused face. After the policeman in front explained his purpose, the man immediately called him wronged.

"Comrade police, you have to figure it out, I would never do that kind of thing, someone must have framed it!"

What the man said was so affectionate that he was about to cry. It felt like he was really framed. Qin Yuan walked in and sneered, "If there is any wireless, you have to check your computer to know."

The man shrugged his shoulders, expressing his willingness to look casually at this man, his investigation will not be wrong, the ip shows that it is here, and this man is too calm, although he said framing, but the expression in his eyes Still a little flustered, it must be him.

Qin Yuan walked in, opened the computer chat records, online records, and found that they were all cleared by the man, turned his head to look at the man, the man said with a smile: "I said that you must have made a mistake, how could I Can you do those things? I don't use this computer very much."

The man's name was Li Daming, and he was still a teacher, but the more he said this, the more likely Qin Yuan felt. Did he think he couldn't find these records after deleting them? That really underestimated myself.

As a world-class hacker, he can not only decipher computer passwords, pass through firewalls, but also restore deleted records. These can be repaired, and this little trick is not difficult for him.

Five minutes later, all the records were restored. Seeing the ironclad evidence, Li Daming immediately lowered his head. He is a computer teacher, and he thinks that his computer skills are already very good. After all, he has made many remarks before. , have already escaped from the police's pursuit. I didn't expect this Qin Yuan to be so powerful, and he could get all the previous records in a few minutes.

The police immediately took him back for interrogation and asked him why he made these remarks. Unexpectedly, Li Daming felt quite proud, "Who made them publish these things every day? Now is a peaceful time, so why are there so many wars? How can there be so many sacrifices, it's just a gimmick."

"Do you know that what you are saying is insulting, what is no sacrifice, we are all real data."

"Hehe, it's up to you whether there are sacrifices or not. Don't talk about these useless things. I accept whatever punishment you like. I can't see it. Why should I still be a teacher? Why don't I be a teacher? priority."

When Qin Yuan heard this, he couldn't help being angry. This kid really didn't cry when he saw the coffin. According to his insulting remarks many times, he would be sentenced to three years at most, but the verdict came out. In the future, this kid will probably be released again. He doesn't know what is wrong at all, and he is not convinced now that he is locked in.

He also felt that he was right to make these remarks. Qin Yuan rushed into the interrogation room directly, "What the **** are you saying again? What is this thing called a gimmick? Today I will let you know why the military is the priority."

Qin Yuan rushed over and picked up Li Daming, because Li Daming was stuck on the stool with the handcuffs on his hand, Qin Yuan smashed the stool with one blow, Li Daming was completely stunned, "You! You What are you going to do? You know that beating civilians casually is against the law, so I can sue you."

"Hehe, I don't even bother that people like you will only get my hands dirty. I just want you to know what it means to give priority to soldiers."

The people next to him rushed over, Li Erniu really wanted to rush up and punch this kid directly, the police detachment captains rushed up to hold Qin Yuan down, for fear that he would make any mistakes, but they found that Qin Yuan's strength was too strong. It was too big, even four or five of them couldn't hold Qin Yuan down.

"Captain Qin, calm down, it's not worth making mistakes for this kind of scum!"

"Deputy detachment leader, thank you for your kindness, but I, Qin Yuan, know what I'm doing. If you lend me this man for a day, I will take him to see what is called military priority."

The deputy detachment leader was obviously hesitant. After all, taking the suspect out without authorization was not in compliance with the regulations, and if Qin Yuan made a move on the way, the impact of this matter would be great.

Li Daming also yelled in fright, "I tell you, what you are doing is illegal, why take me away? I am not going anywhere now, and I will sue you when I come out, you stinky soldiers, wait Go to court!"

Qin Yuan really wanted to beat up this manure-spewing trash, so he took out a silver needle and stuck it in Li Daming's neck, and he couldn't speak for a moment.

"Deputy detachment captain, look at this person's attitude, he doesn't mean to admit his mistakes at all, you know where I'm going to take him, don't worry, I will definitely not make mistakes for this person, and I am not so ignorant of the overall situation. "

What Li Daming said was really ugly, the deputy team leader also agreed, let them take it out!

"Captain Qin, but I want to see him in the interrogation room at 6 o'clock tomorrow night."

Qin Yuan nodded, threw Li Daming to Li Erniu and the others, and then walked out. Li Daming was terrified and wanted to break free, but he was controlled by Li Erniu and Wang Yanbing, and he couldn't escape at all.

Everyone listened to Li Daming's words just now, and everyone was furious. Everyone was sullen along the way. Seeing this state, Li Daming didn't dare to struggle any more. He just dared to sit in the car honestly, but the soldier Not the same as those cops.

Qin Yuan drove Li Daming all the way to the deepest part of the disaster area. Now the reconstruction work is still going on there, and the dam has not been repaired yet. Now it is mainly to help the local residents resettle.

After arriving at Xiaonan Village, Li Erniu lifted Li Daming out of the car and set up tents along the way. The local people greeted Qin Yuan warmly when they saw Qin Yuan and the others. They took their lives and walked all the way to the location of the dam. Now only a small piece of the dam has collapsed, and the river below is very turbulent.

Qin Yuan grabbed Li Daming and dragged him to the edge of the dam. Looking at the turbulent river below, Li Daming trembled with fright. He thought Qin Yuan was going to throw him down. He wanted to ask for mercy, but found that I couldn't make a sound at all, I could only shake my head non-stop.

"You kid, take a good look at this. It used to be a dam. I believe you should know what the dam looks like. It's the soldiers you mentioned. When they rescued this place, the dam collapsed and fell. You and I said fake, can you live if you jump from here?"

Li Daming was completely occupied by fear now, he didn't dare to look down at all, Qin Yuan directly lifted his hand to the side of the dam, Li Daming was completely suspended by the side, only relying on the strength of Qin Yuan's hand.

Li Daming was so frightened that he grabbed Qin Yuan. He was worried that he would fall if he let go, "Open your eyes for me to see what fear is. People like you only have the ability of that keyboard man. We Humans, not gods, but we have those ordinary people behind us, so we have to move forward."

Qin Yuan's words shocked everyone present. Ever since Qin Yuan and the others came and escorted a man in handcuffs, everyone became more curious and all came to watch. Seeing this situation, many people were shocked. Tears were shed.

An old man came forward tremblingly, "Children, I really thank you. I really thank you for saving our life. At the most critical time, you are the people we trust the most and saved our whole village." Human life!"

"Yes! It's a pity for those few children who died, but the people of our village will never forget them."

Because the surrounding villagers are more curious, how could this person be escorted to the edge of the dam, what is the situation? He Chenguang and the people next to him explained that this person was someone who insulted heroes and posted some false statements on the Internet.

When the common people nearby heard this, they looked at Li Daming angrily. If eyes could kill, Li Daming would have been killed hundreds of times.

"Damn it! So that's the kind of person, bah! Looking at the handsome man, it turns out he has such a vicious heart!"

"You trash bug doesn't deserve to live in this world, go to hell!"

For a while, the common people on the shore couldn't help but began to curse. Seeing that the situation was getting out of control, Qin Yuan quickly brought Li Daming back and sent him back to the car. Li Daming hadn't recovered from the situation just now. It was terrifying to feel the turbulent waves on the dam, as well as the look in the eyes of those common people when he came over.

Li Daming curled up in the car with his head in his arms. After getting in the car, Qin Yuan asked, "Now you should know why the soldiers are given priority. In any dangerous situation, we are the ones who get in first. Do you think we should be given priority?" ?"

Li Daming nodded, Qin Yuan pulled out his silver needle, and he could finally speak.

"I really know that I was wrong, so please send me back quickly. The eyes of these villagers are too terrifying, and their cursing words are too ugly."

Qin Yuan shook his head, this person still doesn't seem to understand the crux of the problem, he is only frightened by this kind of waves now, and also by the people around him, he thinks these people's scolding is ugly.

But the comments made by this Li Daming on the Internet are 100 times worse than this one, and they are all police soldiers who died for the country.

Qin Yuan greeted everyone to get in the car, and the people beside them were quite excited, so An Ran could only get out of the car and lead others to maintain order, so that Qin Yuan and the others could go out smoothly.

"An Ran, you stay here and carry out reconstruction work with them, I will take this kid to another place."

"Okay , don't worry, you can leave it to me here."

Qin Yuan nodded, Li Erniu and He Chenguang sat in the back seat, and the others went down to help together, Li Daming shook his head quickly when he heard that Qin Yuan wanted to take him to other places.

"Captain Qin, I really know I was wrong. Don't torture me like this anymore. Let's go back, shall we? I'm willing to punish me no matter how you punish me. I won't sue you when I come out. Don't worry."

"Hehe, do you think I'm worried about you coming out to sue me? Let me tell you, I'm not afraid of wearing this outfit. I'm not afraid of the shadow when I'm upright. You don't know your mistakes at all. I'll take you to take a good look, What is peacetime?"

Li Daming wanted to continue to refute, but Li Erniu next to him gave him a hard look, "Shut up and talk again, I really can't help but beat you up."

Li Erniu definitely wouldn't hit him, after all beating is illegal, and he just frightened Li Daming like this, but he didn't expect this kid to calm down immediately without being frightened at all.

Then the distance will be far away, the car keeps driving, Li Erniu and the others already know where Qin Yuan is going, Li Daming seems to have never arrived, the car is going around, but he is still cheeky in the car fell asleep.

Chapter 849: ? Scared to pee your pants

He Chenguang shook his head, "Look at this kid's sleeping appearance, he can sleep well in this situation, I really admire him, isn't this kind of person very good at the keyboard, let him watch it later Look at the real battlefield."

"I don't think it's useless to ask him to watch it. We might as well bring him to our army for training for a period of time to let him know that being a soldier is not so easy, but this kind of thing probably won't last for three days."

Li Erniu and the others spoke so loudly, but Li Daming next to him slept very comfortably and even snorted.

Four hours later, Qin Yuan and the others finally arrived. This is the border village of Yan State, opposite to Myanmar City, and there is only a river between the two countries.

There are many border soldiers and anti-narcotics police here. They patrol every day, and they are all issued with live ammunition. The situation here is very dangerous, because the border area is also an area where drug dealers trade.

In recent years, under the strong suppression of the Yan Kingdom, the situation here has improved a lot. Those drug traffickers are only operating abroad, but they will try their best to transport the drugs back.

Because the laws of Yan Kingdom have zero tolerance for drugs, the sentences are very high, which makes those drug dealers very crazy, because they know that they will be sentenced to death if they catch them, so every time they face these border soldiers, they will fight to the death Give it a go.

"Erniu, shake that kid up, don't ***** sleep again."

Li Erniu kicked Li Daming's ***** in disdain, "I got up and slept all the way. I admire you for falling asleep on such a bumpy road."

Li Daming was in a daze, and rubbed his eyes when he straightened up, "Captain Qin, where is this place? Are we still going back?"

"This is the border area of our country. People like you should never come here. You don't know what life is like here. Let me tell you first. The border soldiers and anti-narcotics police here are dead. Where the rate is the highest, they are all to protect you and protect the people of Yan Kingdom."

Li Daming didn't understand. After all, he didn't experience it himself. Qin Yuan directly took him out of the car. This is the gate to enter the border. Border soldiers are methodically inspecting the vehicles and drug detection dogs.

Qin Yuan walked over and greeted them. After all, they often had to perform tasks, and they also tried to enter and leave the country. He had already become friends with these border fighters.

"Captain Qin, why are you free to come here today? Are you going to perform some mission?" The person who spoke was Wang Hong, a border soldier.

"Not today, I just brought a guy who doesn't know what to do to see our work. Otherwise, if they think we are comfortable, we only need to eat and sleep every day."

The frontier soldier who was talking to Qin Yuan turned his head, and Li Daming jumped instantly. He saw a long scar on the face of this frontier soldier, from his eyebrows to his cheek. Such a terrifying scar made his heart skip a beat. Li Daming looked away in fright, not daring to look again.

"Don't you think we are very relaxed? The one standing in front of you is a border soldier. His scar was scratched by the drug dealer with a knife when he subdued the drug dealer. It was a little bit off, otherwise the left eye would be useless. "

This Wang Hong was quite proud when she mentioned the scar, "It's nothing, Captain Qin. Compared with some brothers, I'm lucky. At least I'm still alive, and I can still fight for the motherland and the people."

Qin Yuan stepped forward and patted Wang Hong on the shoulder. This soldier is very young, only 25 years old, but like them, he is experienced in many battles. It's just that everyone performs different tasks, but everyone has only one mission. It is all to protect the safety of the people of Yan Kingdom.

Li Daming did not speak, but lowered his head, not knowing what he was thinking. At this time, the entry vehicle came, and a border soldier walked up with a drug detection dog. Qin Yuan also looked at the side with his hands behind his back. After all, this is his job. , he can't interfere at will.

Two men got out of the car, and the driver was very enthusiastic. After getting off, he took out cigarettes and distributed them to the people around him, but the border soldiers all refused.

Qin Yuan smiled, the more enthusiastic the more problematic, he walked slowly to the frontier soldier, worried about other unexpected situations, these frontier soldiers are used to this kind of situation, and everyone knows that the anti-drug The dog worked hard, looked around in the tire compartment, and suddenly sat on the fuel tank, barking at the fuel tank.

Qin Yuan frowned, and it seemed that something was wrong. The border soldier just walked over and pointed to the fuel tank and asked, "What's in your tank, tell me the truth."

"How dare I hide things? Brother, there's a little bit of dog food in it. I guess you guys are hungry! I also brought a dog with me, but the dog died on the way."

After finishing speaking, the man took out a bag of dog food from the fuel tank, and opened it for everyone to see, "Comrades, you see, there is really nothing in dog food, maybe your dog is hungry, anyway, my dog He's dead too, let him eat this dog food!"

Wang Hong walked over and threw the dog food on the ground, "It's impossible to bring tools to open the mailbox. We are drug detection dogs, and they are trained for these things, so they can't make mistakes."

Wang Hong knew that this was just a trick to deceive them, but the drug detection dogs were so smart that they would never make mistakes. When the driver heard that the fuel tank was about to be opened, he became anxious.

"No, big brother, don't do that. How can I go back if the fuel tank is removed?"

Wang Hong and the others immediately picked up the guns in their hands, pointed at the two drivers and told them to squat down with their heads in their hands. On the ground, watching them take apart the gas tank.

Sure enough, as soon as the mailbox was opened, a package of things fell out of it, which was tightly wrapped in several layers of plastic sheeting. This thing was too familiar to these frontier soldiers.

Immediately, these two people were brought under control. At this moment, a man laying on the ground yelled, "Damn it, anyway, if you catch it, you will die. I will fight with you, and blow you ***** to death!"

This morning, a grenade suddenly fell from the waistband of the man's trousers. He pulled the grenade away and rushed towards the border soldiers.

When it was too late, Qin Yuan ran over in an instant and kicked the driver to the side. The explosion time of the grenade was very short. Five seconds after it was pulled away, it exploded instantly, and there was a violent explosion sound and blood for a while. The smell diffused.

At the moment of the explosion just now, He Chenguang who was next to him quickly protected Li Daming under his body. Even at this moment, he knew that Li Daming was just a commoner and needed their protection.

Thanks to Qin Yuan's speed, except for the drug dealer who was killed in the explosion, no one else was safe. The drug-sniffing dog next to him screamed at the man on the ground. It seemed that there was something hidden in the man. A homemade pistol was found on him.

At this moment, Li Daming was so frightened that he peed his pants at the moment of the explosion. He Chenguang pushed him to the side in disgust as a foul smell came. Isn't this kid very powerful when typing on the keyboard? ? Why are you so scared now?

Li Daming doesn't care so much now, even if He Chenguang dislikes him, he still hugs He Chenguang tightly. This kind of situation is really terrifying. This is the first time he has experienced it, and in the critical situation just now, he He said so many ugly things before and looked down on them so much, but He Chenguang still came out to protect him at the critical moment.

Wang Hong and several frontier soldiers clapped their hands. Qin Yuan's kick was really good, and everyone's crisis was instantly relieved, "Captain Qin, it's because you react quickly. I didn't notice any problems when I stood next to him." .”

The anti-drug dog is also more humane. It ran over and licked Qin Yuan's hand enthusiastically, "It's nothing, it's just a little effort for me. Just now I saw something wrong with them, but I didn't expect it to be so."

In the border area, situations like this happen almost every day, and this is just one of them, so they are all wearing bulletproof vests. Although they have bulletproof vests, such close-range explosions cannot withstand much damage.

Li Daming now fully understands his mistake. He used to think that there would be so many sacrifices in peacetime, but what he saw in peacetime were these frontier soldiers and people like Qin Yuan who exchanged their lives and bodies for of.

They are on guard every day, on duty, performing various tasks, in order to protect the lives and property of the people of this country.

At this time, Li Daming knelt on the ground, slapping his cheeks non-stop, and slapped him very hard.

"Hey, what are you doing, boy? Don't hurt yourself. When the time comes, frame us up and say we beat you. I can't bear the charge."

"Captain Qin, you misunderstood me. I really know I was wrong. I'm sorry, it's my mouth! I really should hit me and shouldn't insult those heroes like this. Thank you for protecting us silently. I'm sorry, I Really wrong."

Qin Yuan nodded in satisfaction. This is the effect he wanted. This kid finally knew he was wrong, so it was not in vain to come here, and it was worth it to save these border soldiers this time.

Wang Hong was very enthusiastic. After all, Qin Yuan helped them so much this time. He asked Qin Yuan and the others to stay and have a meal together before leaving. Take him back before 1:00 p.m. It happens that everyone will be delayed on the way back, so we will eat here.

Li Daming admired him very much. He was already respectful when talking to Qin Yuan and the others, and he was no longer as defiant as before.

Li Daming also saw what these border soldiers ate this time. He thought that these soldiers ate delicacies from mountains and seas. After all, they pay taxes every day and pay so much money. He did not expect these border soldiers to risk their lives to eat The food is the same as them, and the food is almost the same, all the vegetables and rice in the cafeteria.

Li Daming regretted it even more, and felt that what he said before was too much, that kind of behavior was really not considered a human being, and he didn't blame the common people for insulting him like this, that's how he insulted the heroes in the first place.

But even in this situation, when he ate here, he didn't treat him badly for the time being. Instead, he enthusiastically served him food. Li Daming felt very guilty.

"Captain Qin, I really want to thank you this time. You saved us once before, and I haven't had a chance to thank you properly. We have to carry out the mission, otherwise I really want to have a good drink with you."

"We are all fraternal troops, and we are all a family. A family does not speak two different languages. You can rest assured about drinking, but it is not this time. He made some wine by himself in our high team. The taste of the wine is very good. Someday I will bring two bottles to you."

Hearing what Qin Yuan said, Li Erniu felt a little funny. The wine was an exclusive secret recipe made by Gao Shiwei himself. Gao Shiwei ran all over the playground after him, but Qin Yuan even said that he would bring them two bottles. Wasn't he looking for a fight?

"Hahaha, Captain Qin is indeed a bold person, brother, I will wait for you to bring wine and let us have a good drink."

These frontier soldiers have just experienced life and death, but now they are like normal people, eating meals with everyone, Li Daming admires them very much, but they don't know that they have to go through such a situation every day, and they are already used to it.

After dinner, Qin Yuan took Li Daming back to the police station. After returning, Li Daming admitted his mistakes very positively, and strongly demanded that he be sentenced severely. He must punish himself once.

The deputy detachment leader saw how Li Daming's attitude changed so quickly. And it was the first time he heard someone make such a request, and he even asked for a heavier sentence. Did this person go outside for a while? Just go silly.

"Captain Qin, I didn't expect you to be quite capable of dealing with this kind of criminal at such a young age. Do you want to consider working as a criminal police here after retiring from the army?"

"Thank you for your kindness, but it should be too early for me to retire from the army, and it should not be possible. Even if I can't do it anymore, then I will train the next generation."

After Qin Yuan and the others settled these matters, it was because they had already returned to the army, because the remains of those martyrs had been sent back to their hometown.

Speaking of the next generation, Qin Yuan thought that he hadn't visited Qin Zhengyang and the others for a long time, and just happened to go to see these children now, and felt concerned.

Li Erniu was also furious, he said he wanted to see Qin Dagou's performance, and wondered what this kid had changed into.

"Er Niu, when you go back, don't call him Qin Dagou. Last time I called him, I was beaten up by Grandma Sun. Now he has a name of Qin Zhengyang."

"What's the matter, I think Qin Dagou is more pleasant. After all, that kid's temper is too bad, so he should have such a cheap name to make a living. I guess he doesn't know what it means."

Chapter 850: ??Grandma is critically ill

He Chenguang didn't say anything, there is still a scar on his abdomen, which was stabbed by one of the children, this time he also wants to see how these children are doing.

He thinks that these children should all get better, and it was only because they received a bad education before, but these children are also very smart and can distinguish right from wrong.

In the past, because of survival problems, they lived a life without a meal every day, and worried about whether they would lose their lives, so they had a sense of self-prevention, thinking that everyone was an enemy, so He Chenguang was very concerned about stabbing this One thing is not to blame these children.

Qin Yuan went to the supermarket to buy a lot of food for them, and carried the big and small bags to the orphanage. Just as he entered the door, he saw the child who had stabbed him before. He Chenguang smiled and waved to her. .

The kid ran over and bowed to He Chenguang, "Uncle, I'm sorry, it was my fault before."

Qin Yuan was quite surprised. Grandma Sun's speed is good. How long have they been separated? These children speak Yan Guo dialect so fluently, and they are quite sensible.

"It's okay. Seeing that you are so obedient now, I am more relieved. Fortunately, I was stabbed at the time. I have rough skin and thick flesh, so there is no problem."

The child enthusiastically pulled He Chenguang and the others in together. The other children were in class, and Qin Zhengyang also stood up to greet Qin Yuan. This child was more cheerful than when he saw it before.

Because this child is the biggest among them, her mind is more delicate. When Qin Yuan saw her for the first time, he thought this child was very gloomy, but now he is very cheerful.

Seeing the changes in Qin Zhengyang, Li Erniu was embarrassed to tease him as Qin Dagou. Grandma Sun was very happy to know that Qin Yuan brought his comrades to the orphanage to visit these children. A lot of equipment in the courtyard has been damaged, and it happened that Li Erniu and the others came to repair it.

Qin Yuan is repairing the damaged tables and chairs in the yard. He originally planned to buy a new batch of new ones, but Grandma Sun said that these tables and chairs can be recycled after being hammered with nails. There is no need to buy new ones. Qin Zhengyang left come over.

"Qin...Uncle Qin, can I ask you something? Is there any news from the Daybreak organization that you are going to perform the mission this time?"

Qin Yuan did not expect that Qin Zhengyang would ask him this question, "I will definitely deal with these issues. I did go to their side last time, but found that the organization behind the scenes has not solved it, but this is not your problem. You can live a good life here."

"But I really want to know about that organization. Can you tell me about it? This is really important."

"Then why do you need to know about this organization? At your age, you are safe now. Here you can rest assured that there will never be those killer organizations chasing you."

Qin Zhengyang sighed and said: "But this organization is about the lives of my parents and my whole family. I have been unwilling to leave this organization before I joined it. I just want to find the boss behind the scenes. I must kill him with my own strength." ."

Qin Yuan didn't expect Qin Zhengyang to hide so deeply, and this child still has such a great hatred. He originally wanted to persuade Qin Zhengyang to let go, but after all, it was the life of his whole family.

Qin Yuan told him the ins and outs, that Zhang Donglin was dead, but the boss of the behind-the-scenes organization called Zhang Long his brother, and he would definitely solve this matter, but there was no news about Zhang Long so far.

Qin Zhengyang nodded after listening, "Listen to Uncle, I know you are all good people, but I really want to avenge this, or I will join your army now and I will be your subordinate."

Qin Yuan smiled, this child's thinking is really simple, but at his age, his mind is full of revenge, which is not a good thing.

Seeing that Qin Yuan did not agree, Qin Zhengyang told his own experience. It turns out that there are indeed orphans among their children, but most of them are not orphans. Those killer

organizations will look for talents to strengthen Qin Zhengyang. He also ran faster, and he also won the sprint champion of the local elementary school.

Unexpectedly, this matter was known by the people of the dawn organization. They first came to talk to Qin Zhengyang's parents in the name of accepting apprentices, but Qin Zhengyang's family conditions are still relatively good. How could normal parents allow their children to drop out of school and become apprentices? The matter definitely disagreed, and they offered money to lure Qin Zhengyang's parents, but it was useless.

In fact, if his father disagreed at that time, this matter would be the same. After all, the dawn organization did not want to make a big deal, but the mistake was that his father went to the police at that time, claiming that someone harassed his family. After the police intervened, this matter would be resolved. If there is a big trouble, with the viciousness of the Lixiao organization, they will definitely not let them go.

The tragedy happened like this. At that time, Qin Zhengyang was still in school. When he got home, he found that his parents and elderly grandparents had been killed at home. The youngest sister was also killed when he was only three years old.

When Qin Zhengyang returned home, he almost collapsed when he saw such a situation. This is why he has been reluctant to mention his previous name. As soon as he mentioned that name, he thought of his father. The local police intervened in the investigation, and there was no. What went wrong in the investigation, I only know that the murderer is hiding very deeply, and the scene has been dealt with, but no clues can be found.

At this time, Qin Zhengyang discovered that people from the Lixiao organization came to him, and promised that as long as he joined the organization, he would avenge his parents for him. How could Qin Zhengyang control so much at that time? He was the only one left, and when he heard that someone could avenge him, he immediately chose to join.

Until later in the training process, they also fled around to avoid the local police. At that time, Starscream would take them to find other suitable children.

During this process, Qin Zhengyang discovered that they had brutally hurt the families of those children, just to achieve their own goals, and Qin Zhengyang also understood that his family members were killed by these Xiaoxiao organizations.

He didn't expect that he not only failed to take revenge, but also joined his own enemy organization, but at that time he couldn't help it, because his strength was really too weak, and to be honest, he

was just a child, and when faced with someone like Starscream, Master, he has no choice at all, he wants to wipe out all the people in the Lixiao organization, so he stays in the organization willingly.

He wanted to lurk in the dawn team and kill the final mastermind step by step. He didn't expect them to rush in, interrupt his plan, and kill Starscream. Qin Zhengyang was really happy at the time. I was happy, but after thinking about it, the real mastermind behind the scenes did not come out, and he felt that Qin Yuan didn't really want to help people like them.

So at that time, he was very hostile to Qin Yuan, and he wanted to return to the organization with all his heart. It wasn't until Qin Yuan picked him up later that he slowly realized that this person really wanted to save them.

That's why he began to trust Qin Yuan and handed him the pen. Qin Yuan did not live up to his expectations. He took this pen and killed all the relevant organization personnel, but the boss of this organization was indeed very cunning.

"You are still a child now, so you can live here with peace of mind, and leave these things to me. You don't need to take revenge. I will definitely deal with this organization."

Qin Zhengyang patted his head in distress, he regretted why he didn't inquire more about the news, otherwise he could help Qin Yuan now.

"Uncle Qin, I really appreciate you very much, but I will try my best to recall what happened there, and if I think of any useful news, I will definitely let you know."

Qin Yuan patted him on the shoulder, this child is quite sensible, at least for his parents, it is really not easy to lurk in such a terrifying killer organization.

At this time Grandma Sun came out, and the two hurriedly pretended to be working, saying that Grandma saw the two talking and laughing, and was very happy in her heart, thinking that it would be great if Qin Zhengyang was really Qin Yuan's child. Passed the water to the two, and told Qin Yuan to bring An Ran next time.

Speaking of Anran, Qin Yuan just remembered that he didn't know how the resettlement work for the victims was going. He took out his mobile phone and called Anran, but found that it was turned off. But thinking about it, the water was cut off at that place. There is no way to charge it if the power is cut off.

Grandma Sun had just finished cooking, and while everyone was having dinner, Qin Yuan received a call. It turned out to be An Ran's parents. Generally, An Ran's parents would rarely call him. Did something happen at home?

Just as Qin Yuan picked up the phone, there was a crying voice, "Woo, Qin Yuan, I know it's wrong to call you, but An Ran's child is really out of reach. Her grandma is dead, so hurry up and come back." Let's see grandma for the last time!"

When Qin Yuan heard the news, he stood up quickly. Now he was going to Xiaonan Village, and quickly picked up An Ran. The matter was urgent. After seeing Qin Yuan answering the phone, Li Erniu immediately put down the bowl and chopsticks.

"Brother Qin, why is there another mission?"

"No, but this matter is more urgent. You stay here to accompany Grandma Sun, or go there with me. An Ran's grandma is dying. I will rush over to pick her up to see grandma for the last time."

Grandma Sun heard that this was the case, and hurriedly asked Qin Yuan to leave quickly. When Qin Yuan and the others got married, she saw An Ran's grandmother was already in poor health, and she didn't expect it to be so fast.

Li Erniu and He Chengguang also decided to go together. After all, Grandma Sun's affairs are almost done. If they go to Grandma Anran's house to help them, they can do it. Qin Yuan was a little moved and took a picture. Pat them both on the shoulder, these two brothers are enough.

When the three hurriedly set off and arrived at Xiaonan Village, An Ran was distributing medicines to those victims. An Ran looked up and saw Qin Yuan's vehicle driving quickly, and smiled at Qin Yuan, "Why did you come to pick me up? Our troops evacuated together, and we can leave this afternoon, with almost nothing to do."

"An Ran, it's urgent, you should get in the car first, grandma may not be able to do it."

"what!"

An Ran burst into tears when she heard the news. She was brought up by her grandmother since she was a child, and she has a very deep affection for her grandmother. She didn't expect it to come so suddenly. She quickly got into the car and urged Qin Yuan to drive faster.

A few of them arrived at the airport, looking at the long queue for ticket purchases, Qin Yuan used his privilege for the first time, took out his military ID card and ran to the counter, "Hello, I want four tickets to Xiao A City , I must trouble you as soon as possible."

As soon as the staff saw that they were military ID cards, they immediately gave them priority. The people behind them didn't complain. After all, what happened in Xiaonan Village just happened, and these soldiers deserve priority.

An Ran can't think so much at the moment, her heart is full of what her grandma said before, she regrets it very much, she should take a few more days off at that time, stay at home to spend time with her grandma, and think about it when she grows up, especially when she enters the army. I seldom accompany my grandma anymore.

Li Erniu and the others don't know how to comfort An Ran. Qin Yuan has been comforting An Ran. He has observed grandma before. It is a normal birth, old age, sickness and death. There is no way to change this. Li Erniu and the others can only sit in the back, and everyone's atmosphere is relatively low. After all, this situation is not comfortable at will.

Two hours later, Qin Yuan and the others finally arrived at the hospital. After seeing Qin Yuan and the others, An Ran's parents anxiously asked them to go in.

"You guys are here. Mom, she was in a bad situation last night. She insisted on waiting for all of us to arrive I couldn't get in touch with An Ran. I know she must be on a mission there. Hurry up. come in!"

After An Ran ran in, she saw her relatives surrounded her grandmother. Seeing this scene, An Ran couldn't hold back any longer, and burst into tears.

"Grandma, I'm An Ran, I'm back!"

The grandma on the hospital bed heard An Ran's call, opened her eyes, and said in a low voice, "An Ran, come here, and Qin Yuan."

Seeing this scene, Qin Yuan couldn't help but have slightly red eyes, and grandma explained in a low voice, "I may not be able to wait until I can hold your two children, but no matter what happens in the future, you all support each other. Be good, you two are good children, I am also relieved..."

An Ran's grandmother had just finished explaining, when she saw an alarm on the ECG monitor, and then it became a straight line. An Ran's parents rushed out to call the doctor, but the doctor just shook his head when he came in. To toss her again, this is normal birth, old age, sickness and death.

"Grandma! Don't leave me, grandma!"

An Ran's heart-piercing cries resounded in the ward, and Qin Yuan could only comfort her. Grandma left relatively peacefully, without experiencing any pain.
