

## Special Soldier 861

Chapter 861: Factory accident again

Boss Abi ran over to look at Qin Yuan at this moment, his face was full of excitement, he did not expect this Qin Yuan to be so powerful, such a talent is suitable to hang out with him, why is it a waste of talent to follow that Chen Jinguo.

"Brother, are you interested in working with me? As much as Chen Jinguo pays you, I will pay you double."

Qin Yuan smiled, and he is still so popular, "Boss Abi was joking, I am just a cook, and I usually cook, and I don't understand other things, and now I just follow our boss's orders. protect him."

Boss Abi knew that this was rejected by Qin Yuan, but he still didn't give up, and continued to throw out an olive branch, "I will definitely not be inferior to what he gave you in terms of money, and you can have any status you want. You are my second in command here, managing these people."

"I thank Boss Abby for his kindness. I will consider what you said, but I still want to be completely heartfelt to our Boss."

Boss Abi listened to Qin Yuan's tone, no matter what he said, this person was unwavering. He really couldn't figure out how much benefit Chen Jinguo had given him, and it was worth this person's life for him.

At this time, Chen Jinguo and He Chenguang, who were outside, heard the gunshots inside stopped. They were very nervous, wondering whether it was Qin Yuan and the others who won the victory, or the militants who launched the attack?

The two of them hid in the plantain grove like this, and still didn't see anyone coming out. As time passed, Chen Jinguo couldn't sit still, "Go out and see what's going on."

He Chenguang snorted coldly, this old fox really used himself to shoot, but he didn't need to say, he wanted to go out and see for a long time, he must be Qin Yuan and the others who won the victory, Qin Yuan has never let them down , he strode out of the plantain forest, at this time a figure ran out from the camp.

Chen Jinguo was very nervous here, holding a pistol in his hand, which was his last life-saving weapon. He didn't expect that the person who ran over turned out to be Li Erniu. He Chenguang was very excited. He knew that Qin Yuan and the others would definitely be able to kill these people solve.

"Why are you the only one here, what about that old bastard?"

"Kid, keep your voice down, hide that old guy in the plantain grove, he doesn't dare to come out at all, send me first to find out, don't let him hear you later."

Chen Jinguo seemed to have no problem with his eyes, so he walked out slowly, "Come here, Boss Chen, I will tell you if there is no problem, you must trust us."

He Chenguang led Chen Jinguo into the camp. At this time, the camp was already covered in blood, with burning buildings everywhere, and bomb craters left by the explosion. The bodies of those militants were lying on the ground like that. The corpses of some civilians were filled with the smell of blood. Chen Jinguo took out a tissue to cover his mouth and nose, and stepped over the corpse of a militant in disgust.

Li Erniu saw Chen Jinguo's action from behind, so he couldn't help kicking him from behind, it was really a show.

Boss Abi saw Chen Jinguo coming in, and stepped forward to greet him happily, "Boss Chen, it's thanks to you and your brothers this time, otherwise we really don't know how many sacrifices we have to make, really Thanks to them for saving our lives."

Boss Abi has already changed the name of Chen Jinguo, and he said in a timely manner: "We are partners and brothers, and I will help if I can help, so I will let my brother come over to support you , you're all fine, that's great."

At this moment, He Chenguang only felt that this Chen Jinguo was too hypocritical. The one who was yelling to run away just now pretended to be here again, but he didn't poke him. Anyway, Boss Abi knew what kind of person he was. , is just doing surface work.

In fact, Qin Yuan didn't need to intervene. He could have led Chen Jinguo to retreat just now, but seeing the terrified eyes of those civilians, he couldn't bear it. These drug dealers really deserve to die, but these civilians are innocent and can protect them. Some people count as some, and as for the Abby boss, he will definitely come and eradicate him personally.

After a while, Boss Abi asked his subordinates to bring two boxes of money, "Boss Chen, take a look at my place, after all, a war just broke out here, and this money is what I have. It's not much, but it's okay if you accept it." My heart, thank you for your life-saving grace, and I will provide you with an additional 500 kilograms of raw materials."

When Chen Jinguo heard that Boss Abi wanted to provide him with 500 kilograms of raw materials for free, he instantly opened the flowers. This Qin Yuan really helped him a lot. After doing this, he saved a lot of money. This time he was stable. Earn or lose!

Before leaving, Qin Yuan looked at the injured civilians. He walked over and asked, "Boss Abi, I know it's rude for me to ask this question, but what are you going to do with these civilians?"

"Are you worried that I will abandon them? You can rest assured that I am not that kind of person. If I want to abandon them, I will not save them. Brother, you can actually think about it, I said The conditions will definitely not be worse than Chen Jinguo's."

At this time, Chen Jinguo saw that Boss Abi and Qin Yuan were muttering something, and he was a little nervous for a moment. He was also worried that this master would be poached by others, so he ran over quickly and patted Qin Yuan on the shoulder, "Brother, We are ready to go, there is nothing to say, and we will have a chance to meet later."

Although he said so, he has already secretly decided not to let Qin Yuan come here again. After all, what kind of generous conditions will this Abby boss give him?

Chen Jinguo was humming on the way back, and he was in a very good mood. After all, he was a businessman. For him, the sacrifices and deaths of those people had nothing to do with him. What mattered to him was making money.

Only then did they realize why Bilson had disappeared. After all, it was too chaotic just now. Qin Yuan was thinking about the civilians in the camp, Chen Jinguo was only thinking about himself, and He Chenguang didn't notice Bilson at all.

This Bilson jumped into the river quietly when the elephant was in chaos. He knew that he would never return when he came out this time. Those militants were too powerful, so he planned to run away quietly first. Just let Qin Yuan and the others be there to attract attention.

But he underestimated the urgency of the current, and was washed down by the river just after he swam halfway through. He finally struggled to climb onto the shore, and the whole area was the territory of that Boss Abi, so he could only crawl in quietly, after all. The gunfire inside had stopped, and Qin Yuan and the others had already left at this time.

After he climbed up, he was quickly discovered by Boss Abi's people. He was very happy after knowing that Boss Abi and the others had won the battle. It seemed that he was saved.

He rushed over excitedly, "Boss Abi, it's me, I'm Boss Chen's subordinate, I was washed here by the river just now in the scuffle..."

Before Bilson could finish his sentence, Boss Abi took out a pistol and shot him twice in the chest. The second time he looked at the person in front of him in shock. How could this person shoot him? Aren't he and Boss Chen partners?

"You! What are you doing! I have already said that I am Boss Chen's subordinate."

"Yeah, I know, so I have to send you on the road early." Immediately afterwards, Boss Abby shot him in the head again, and Bilson fell completely. He really couldn't figure out how this man would Shooting at him was actually very simple. The boss of Abby hated businessmen like Chen Jinguo very much, so he wanted to cooperate with him only because he had no choice.

Since it is his subordinate, why should he let it go? Besides, in this case, no one knows whether this person was killed by those militants or by him.

At this time, Chen Jinguo didn't care about Bilson's absence at all. Now that he has Qin Yuan, that kind of waste is gone. This is the essence of a businessman. They only see benefits in their eyes. In other words , if Qin Yuan had no use value, he would be so cruelly abandoned by him.

Standing on the deck, Li Erniu and Qin Yuan couldn't help sighing. Although Bilson is not a good person, as far as they know, this Bilson has been with Chen Jinguo for many years, and these people are too ruthless!

"Er Niu, you can't compare our emotions with these drug lords. They are for profit by nature, and they will do anything for benefit, so we can't be soft-hearted."

In this way, Qin Yuan and the others followed Chen Jinguo back to his residence. Afterwards, Qin Yuan had 100% gained his trust, and Chen Jinguo was more at ease and handed over some transaction matters to Qin Yuan.

However, they were all small transactions with little value. It turned out that Bilson was doing these things before, because Chen Jinguo was more cautious. , There has been no news from the police.

After a few more days like this, Chen Jinguo found Qin Yuan and took him out with a serious face. He was also very distressed when he was walking in the car, "Brother, I will not hide it from you this time, the one on my side Something happened in the factory again, after all, these things are some chemical raw materials, we have been researching new types of things, it is easy to explode, the last time my chemical factory exploded, I didn't expect it to happen again this time."

"Is this also an explosion?"

"No, this time it's because the raw materials they sent couldn't make the product. That's very strange. These raw materials are all brought from Boss Abby. There shouldn't be any problems. They are the purest. I plan to Go and have a look, and take you to familiarize yourself with it, and if you have any problems in the future, you can solve it! I feel that I am too tired recently."

Qin Yuan nodded. This was the opportunity he was waiting for. Qin Yuan and the others came to the gate of a factory, and saw the name of a pharmaceutical group hanging on the gate of the factory. It seems that they also borrowed the name of the pharmaceutical group To cover himself with a name, this place originally needs various chemical raw materials for medicines, so it will not arouse suspicion.

After Qin Yuan and the others entered the factory, they found that there were many people guarding them. He slowly turned on the camera on his chest. When they entered the door, Chen Jinguo asked them to put on chemical protective clothing and then go in. He is not like Boss Abi here. The most important thing about getting money there is that he doesn't want to have an accident, so the protection of workers is also more important.

Just like that, several people walked in after putting on their clothes. Qin Yuan was shocked by the scene in front of him. Inside, several large boilers were churning and stirring the raw materials. Those workers pack.

Although he was wearing a chemical protective suit, it was filled with a very unpleasant smell. Qin Yuan knew that this was the smell of raw materials. At this time, a man ran over in a panic,

"Boss, come and take a look! This thing is really not good. , It's like a fake, no matter how we compare it, it just can't be a finished product."

Chen Jinguo did not speak, and went straight to the production workshop inside. There was a huge table inside, and those workers stood on both sides. After all, there were no finished products, and they were helpless. Many chemical pipes were placed on the table, and they were processing those things. Keep blending.

Chen Jinguo stepped forward and picked up a small scale put the raw materials into the scale, and planned to test it himself. Unexpectedly, at this time, Chen Jinguo directly opened the chemical protective suit, took off the mask, and grabbed a handful. The raw materials smelled, and he breathed a sigh of relief instantly. He knew that Boss Abby would not lie to him. These raw materials were very pure and there was absolutely no problem.

Since there was no problem with the raw materials, he tried several steps one by one, and found that there was a problem with the blended chemical reagent. This reagent could not fully mix the raw materials, so the product could not be formed at all.

Chen Jinguo threw the bottle of chemical reagent on the floor angrily, "Who is in charge of this chemical reagent, call him over."

The man ran out tremblingly, and after a while, a woman came in. Chen Jinguo angrily pulled out the pistol from his waist and pointed it directly at the woman's head, "How on earth did you get the goods? There is such a big problem with this thing, Do you know how much raw material I wasted? 500 kilograms of goods just poured out like this, and everything was destroyed when it went in!"

"Boss, this! This is none of my business! The purchase channel is still the same as before, and we haven't changed it."

"Damn it, since he dared to blackmail me, after working with him for so many years, he really doesn't want to live anymore, so he called his brothers to prepare to go."

At this time, a worker ran in in a panic, "Boss, it's not good, there are cops coming nearby."

"What are you panicking about? Aren't they on normal patrols? Just wait a while and go out."  
Chen Jinguo was extremely angry at the moment. His 500 kilograms of goods were destroyed like

this, and he couldn't wait to settle the score. He didn't expect that there were those people outside Patrol police.

Chapter 862: ??You three are undercover agents! !

"Boss! Something is wrong, they are coming directly at us, and these notes are different, and there are special police."

what's the situation! Chen Jinguo panicked instantly, which meant that there was an inner ghost among them, and someone exposed the address of the factory, "Everyone rush to flush the raw materials into the toilet drain as quickly as possible!"

This was also one of the emergency methods he thought of. No wonder Qin Yuan felt something was wrong when he came in. How could a normal sewer pipe be so wide? Two long rows of drainage pipes were directly built here, originally to destroy these things.

At this time, the police had already started breaking down the door below, and Chen Jinguo was very flustered. At this moment, he couldn't control so much, and he just wanted to escape outside.

As soon as he ran out, because there were two gates here, he realized that the back door was also surrounded by the police. Chen Jinguo was about to jump out of the window, and turned his head to look at Ruan Yuan who ran up and shouted: "Hurry up, Go find the rope, and we'll go down here."

Li Erniu walked towards Chen Jinguo with a smile, "No need, Boss Chen, I'll tell you the fastest way, just trust us."

Chen Jinguo's eyes lit up in an instant, the place was surrounded by the police, even if he jumped out of the window, he couldn't escape, did Qin Yuan have other ways? He quickly turned his attention to Qin Yuan, after all, this person had saved him once at Bi Boss' side.

Then Li Erniu knocked Chen Jinguo to the ground with one punch. He fell to the ground hard and was blinded for an instant. What's going on? However, he reacted relatively quickly, and his back was covered in cold sweat instantly.

"You! The three of you are undercover agents. How could his grandma be like this?"

At this moment, Chen Jinguo subconsciously wanted to find out the pistol behind him. This was prepared every time just in case, even if Qin Yuan and the others were very powerful, but at this distance, they count as one if they can kill one. .

Unexpectedly, Qin Yuan stepped forward and squatted beside him. Chen Jinguo wanted to pull the trigger but found that there was no bullet. He pulled the trigger desperately, as if he couldn't believe it. I just checked, and the bullets are all intact. He is always cautious, and this kind of situation is absolutely impossible.

"I'll just say you're stupid. Apart from being arrogant and cold-blooded, you're really useless. I don't even know when I changed your gun."

Then Qin Yuan took out the pistol from behind and put the pistol on Zeng Guo's head. At this moment, Chen Jinguo panicked completely. He just wanted to open his mouth to pray for Qin Yuan, but was knocked unconscious by the \*\*\*\*\* of his gun.

"This old boy is too troublesome. Let him be knocked out first. Er Niu, hurry up and help He Chenguang, and don't let those criminals destroy all the evidence."

Qin Yuan found a piece of cloth next to him, and tied Chen Jinguo tightly to the pillar. Then he returned to the production workshop just now. He Chenguang and Li Erniu had already fought inside. Those workers were not their opponents at all. , that is, some local hooligans.

The force value was too low, they were all knocked to the ground by Li Erniu and others, and Qin Yuan dealt with those who wanted to escape outside.

At this time, the police also broke into the door, and there was a police dog in front of him. A drug dealer wanted to escape by jumping out of the window, but the Qin dog bit his trousers and yanked him down.

"Squat down on the ground with your hands on your head and hand over your weapon!"

In an instant, only Qin Yuan and the others were standing in the factory. The others were either slapped by them, or they had squatted down with their heads in their arms. At this time, Qin Yuan and the others were already covered with red spots. There are a lot of people, and there are even snipers.

"Brothers, don't get me wrong. I am a soldier of the Yan Kingdom. My name is Qin Yuan. I am the one who notified you."

At this time, the captain of the anti-drug brigade rushed up from behind and saw Qin Yuan. He knew this person, and they had dealt with him many times.

"Brothers, they are our own people, put down the gun quickly, don't accidentally hurt your own people."

"Captain Qin, thanks to you this time, we cracked down on this huge transnational drug cartel."

"Your speed is not weak. After all, this time is a transnational operation. It is really not easy for you to mobilize so many police forces. We just work together and everything is for the people."

Because Chen Jinguo's drug production site is abroad, this is a transnational operation, and with the assistance of Qin Yuan and the others, the operation was very successful. Only after Chen Jinguo was taken into the police car did he know that it was completely over.

In this operation, the police captured a total of 87 criminals, directly destroyed their drug production base, confiscated a total of 800 kilograms of drug production raw materials and finished products, and the head of the criminal police detachment was completely shocked. .

Because in the previous arrests, in order to escape legal sanctions, many drug dealers would desperately destroy evidence when the police arrived, and the sentencing in Yanguo was based on the weight of these drugs, so those drug dealers tried their best to escape the law. Punishment is also a desperate fight.

This time, with the help of Qin Yuan and the others, it was the most complete one preserved, and the number of arrests was also the largest. Assuming that the amount of his factory is enough for Chen Jinguo to die several times.

At this moment, he is like a bereaved dog, sitting in the police car. At this time, Qin Yuan also came out and sat directly next to him. Together, they will \*\*\*\*\* all these criminals back to the country and accept the laws and sanctions of the people of the strict country.

Chen Jinguo's eyes were red at the moment, and he was staring at Qin Yuan closely. He didn't expect that he would often fall on this person. He was always very cautious. It can be said that

there is no one who completely trusts him. He didn't expect him to be a soldier at all, so he can only say that Qin Yuan's acting skills are so good that they even fooled himself, an old fox.

I have always lied to others by myself, but now I was defeated by Qin Yuan and the others. As soon as Qin Yuan sat next to him, Chen Jinguo said, "Brother, I really didn't expect that it would be you who are still called me now!" For the sake of your brother. Can you find a way to let me escape? I have a lot of money, and I will give you all of that money, including those mansions. I will give you whatever you want."

"I'm sorry, I'm not interested in these things. We're not on the same road. My responsibility is to send people like you to prison and accept legal sanctions, and there's also the matter of your family's ancestral grave. These things are trivial to you Things should be sorted out."

Chen Jinguo didn't expect Qin Yuan to know about the Chen family's grave. What's going on? He was even more surprised how Qingyuan knew that he was a drug lord. He has always been very good at hiding, including many people in the circle. his identity.

"Speaking of this, it is thanks to the help of your ancestral grave and your good secretary. If he hadn't been too cautious and acted first, he would have killed someone while I was investigating, so I would go deep Investigation, followed the clues and caught you."

Chen Jinguo turned pale with shock, what's going on? That secretary is very reliable, he personally selected someone, so there should be no problem in letting him handle domestic affairs.

"It's useless for you to tell me these things now, and the murder cases you owe at the Chen family's ancestral grave, no matter how big or small, we have to settle them one by one."

On the plane returning to China, so many criminals were caught on this plane, and so many people were arrested in this major transnational case. Everyone was very excited, after all, this was a great achievement.

Li Erniu was very happy, and finally he could go back. He originally thought that the undercover mission this time was simply to investigate the occupation of the tomb, but he did not expect that such a big drug lord case would be involved. Qin Yuan was relieved. With a sigh of relief, catching such criminals also gave an explanation for those innocent people who died.

After Qin Yuan went back, he handed over all the evidence he took to the police, and the rest was for the police to investigate. For this reason, the police specially sent a pennant to reward Qin Yuan. But he did a great job.

On Anran's side, Qin Yuan also used his own abilities to give Anran an explanation. He brought the final criminal to justice. Wang Yanbing and the others came to pick Qin Yuan up and said a little unhappy: "Qin team, you are not mean enough. Why did we only take the two of them there at the beginning? Are we unworthy? Our red blood cell team can't do without anyone, and it's really uninteresting for you to complete the task secretly like this."

"Don't worry, there will be a mission soon, this time I will take you to destroy another gang of drug lords, because this time it happened suddenly, I didn't think too much about it, it was just a guess, so there is no need to use troops to go up So many people."

When Wang Yanbing and the others heard that there was a mission, they immediately became excited. Everyone had already rested for a long time. The gang of drug lords that Qin Yuan mentioned was the boss of Abi. Players shouldn't be a problem.

But they just came back, and he planned to settle down for a while, so that the Abi boss could relax his vigilance. After all, Chen Jinguo had just been taken away, and he was worried that he would be on guard.

Qin Yuan's missions in the past few years have been mainly international, and their Yan Kingdom has also gained a reputation internationally. Under Qin Yuan's leadership, they have grown from a cell group to the strongest special forces group recognized internationally.

The captain of the anti-narcotics brigade also came to find Qin Yuan specifically, intending to let Qin Yuan train and guide them. This time, they went in undercover as an undercover agent and were very successful. Police like them often have to perform undercover tasks, and many undercover agents failed. So he wanted to second and let Fang Tian go to their brigade to guide for a period of time.

After all, the military and the police are one family. As long as the training is in place, the sacrifice of those policemen on the front line can be reduced. Qin Yuan immediately agreed to this matter. When Gao Shiwei received this secondment document, Qin Yuan had already packed his luggage. After all, the detachment leader had greeted him before.

When he called Qin Yuan over, Qin Yuan had already walked over with his luggage on his back, "I said why are you so active, and the news is better than mine, but training is a good thing after all,

we all make progress together, you this time Go and guide them well, don't worry, I will let Long Xiaoyun take over for you if there is anything on this side."

"I don't worry if Xiao Yun is here, but if Captain Gao finds out about the whereabouts of Zhang Long from the Daybreak Organization, you must inform me. I don't want them to take this risk. I should take care of this matter."

"You're very thoughtful about this, don't worry! I've been keeping an eye on the Breaking Dawn organization, and I've been watching internationally. Once there is any news, I will notify you immediately. You can rest assured that you will be a training guide there."

The head of the anti-drug brigade personally drove to pick up Qin Yuan. He was very enthusiastic and admired Qin Yuan even more. After all, he saw his strength that day. He wiped out all the drug dealers inside, and even the drug lord Chen Jinguo was caught by him.

"Captain Qin, I am very grateful that you agreed to guide and train us this time, but our common hope is also for the country and the people."

"These are trivial things, so I will share with you what I know and how I do it. In fact, to be honest, you are the experts in this field, and I just happen to be."

The captain of the anti-drug brigade was very satisfied with this Qin Yuan. Not only was he very guilty, but he was also very polite.

After a while, after the vehicle got off the highway, it drove towards the village in front. Qin Yuan felt a little strange. Isn't their anti-drug brigade in the city center? How did you come to such a remote place?

"Captain Qin forgot to tell you, you are going to train us, and the guides are the comrades of our undercover organization. There is an undercover base, which specializes in training such personnel, so it is relatively hidden. This is also out of respect for them. protection of."

Qin Yuan nodded in agreement, this one is not that bad, and they are very thoughtful, because in the past two years like these anti-narcotics police, many of their family members have been threatened and persecuted, this can really protect them.

It's just that Qin Yuan didn't expect to be so far away, and his energy value is relatively good. He didn't expect to fall asleep in the car. The captain of the anti-drug brigade drove for more than six hours in total, turning around, and there was no way behind. Only then did I see a few buildings in the distance.

This place is deserted and there are only a few buildings there. This place is indeed a good place for training, because it is backed by a mountain, and there are no people around, but the conditions are indeed difficult.

"It's not easy for us comrades, but don't worry, the country also takes good care of us. There is absolutely no problem with it. We deliver food every day, and it is delivered by professional personnel. We must ensure the quality of the food. Fresh."

"These are nothing. After all, I am also in the army. We usually run farther than this in training, but I don't know what happened today. It may be because of the car, and I fell asleep too easily."Chapter 863: ?Smell training

The two were talking, and they arrived at the gate of the base in a short while. The captain of the anti-drug brigade took out his police officer ID and Qin Yuan's ID to scan the system on the door. Qin Yuan didn't expect to see such a dilapidated outside, but there is such a high-tech system, you have to scan your ID to enter the door, and you can only enter after approval.

"We have special personnel on duty here, and they are at the top, and then our visiting personnel are first registered with us, and our IDs can only be scanned in after logging into the system."

It seems that this place is also quite strict. After entering, there is an open training field inside the high wall, which is similar to that in the army. There are horizontal bars, obstacles, and a sniper training field. Many policemen are running in training uniforms. .

Seeing the team leader coming, they all stopped and greeted them warmly. Qin Yuan saw that these policemen were not very old, and the team leader explained: "Because the undercover requirements now require a very clean background, they are all police academy talents. Students who have just graduated are directly sent here for training, and after the training is over, they are directly assigned tasks."

The captain gathered everyone together, and Qin Yuan looked around. There were almost a hundred students in this training base. Because of the long-term closed training, they didn't know Qin Yuan's identity. According to this, the main project is Qin Yuan.

But seeing that Qin Yuan was about the same age as them, these young police officers were a little disdainful. After all, the instructors who came here before were all veterans. They didn't expect to send people from the military this time.

These police officers still knew the rules very well. Even if they had some doubts about Qin Yuan in their hearts, they didn't show it. They should be welcome or welcome, after all, they are not weak to be sent to this place.

After the brief introduction, the captain looked at the time, and he had to go back quickly, after all, there were a lot of things waiting for him to deal with, "Xiao Liu, come here, this is Captain Qin Yuanting, he is the leader of our red blood cell team." The captain of the special brigade, from today onwards, he will give you training guidance, he has actual orders for everything, and you will arrange his assistants."

"Captain, don't worry, it's absolutely fine to leave it to me."

This little Liu liked to smile, and he showed his white teeth after speaking. After greeting Qin Yuan, the captain left in a hurry. After all, it would take six or seven hours to go back from here.

Xiao Liu enthusiastically helped Qin Yuan carry the bag, but Qin Yuan politely refused him. There was nothing heavy in the bag, except two sets of camouflage uniforms.

As Xiao Liu walked, he led Qin Yuan around, "Captain Qin, the one who is leading us to run now is our old instructor named Ma Zhongping. We usually call him Instructor Ma, and he has relatively deep qualifications." , has been coaching here for more than ten years."

While talking about this, Ma Zhongping turned his head to look at Qin Yuan, and gave him a smile as a greeting. Then Xiao Ma introduced several instructors, but when he walked past a wall of photos, Xiao Liu pointed at the picture on the wall. A woman said:

"Captain Qin, this instructor is also our only female instructor, Zhao Xue. She is very capable and holds several positions. Not only does she lead us in sniper training, but she also teaches anti-reconnaissance and password deciphering."

After all, she was the only female instructor. Qin Yuan took a closer look at this person, and she looked very stern, a bit like Long Xiaoyun's Iceberg Beauty series.

"Captain Qin, don't get her ideas. This instructor is really not easy to mess with. When we first came here, we were all cleaned up by her. Her fighting skills are very strong. I have been beaten by her before. "

"Is it that good? But we are all instructors, and we will have the opportunity to learn from each other in the future."

When Xiao Liu talked about this Instructor Zhao Xue, he talked about her many deeds. Anyway, generally speaking, this person is very strong, no matter what aspect he is here, he is outstanding here. Let her have some points.

After a while, Xiao Liu took Qin Yuan upstairs. This is their instructor. All the living places are single rooms. Qin Yuan lives in the innermost room. The room that came over is Ma Zhongping's dormitory. There is a separate room at the back of the teaching building. After all, men and women are different, so they are far apart.

Because everyone is training, the team leader just called everyone who was training on the playground to explain a few words, but the news that Qin Yuan is going to come down has spread, and they have received a transfer order here before.

Ma Zhongping is the oldest person here, and he doesn't plan to engage in those virtual welcome ceremonies, but plans to welcome Qin Yuan with everyone during dinner. After all, everyone gathers together during dinner, and he will also coach in the future , Let's get to know each other.

Qin Yuan liked this method quite a bit. After the bed was made, Xiao Liu came to find Qin Yuan and asked him to eat. The cafeteria was next to the training ground. After entering, the police officers were already full. Xue and several other instructors were sitting in the first row.

Anyway, it's just a brief introduction, Qin Yuan plans to start teaching them tomorrow, anyway, the training is pretty much the same, and it's not a problem for him to be able to train some police officers like the red blood cell team, but he must change the training method, After all, they will face an undercover mission in the future.

Several instructors were also polite and greeted, but that Zhao Xue didn't smile at all, just nodded, and Ma Zhongping next to him said in a low voice: "Please captain, don't mind, she is That character."

Qin Yuan nodded, he doesn't care about such small things, after introducing Qin Yuan, he learned that the police officers here are divided into six groups, and they usually take turns to arrange classes.

After all, they also have a foundation in the police academy, so it is not difficult to start classes. Everyone is also curious about how capable this young man of their age is. Everyone is looking forward to tomorrow's training.

After eating, everyone disbanded and went back to the dormitories. Qin Yuan slept in the car for a long time during the day, and now he couldn't sleep anymore, so he came out to the training ground and planned to exercise, but he didn't expect to see Zhao Xue still training at the moment. There are sandbags on the field.

Zhao Xue stopped there when she saw Qin Yuan approaching. Qin Yuan just raised his hand to say hello, but he just walked away coldly. He was very speechless at the moment. This person is not considered cold anymore, right? It's almost rude, but it's hard work, and now that everyone's gone to bed, she's still punching.

The next day Qin Yuan officially started class, because the timetable was arranged in turn. His today is an indoor training class, which was also arranged by Ma Zhongping. He wanted Qin Yuan to take the indoor training theory class first, and then get used to it for a while. Then give them outdoor guidance.

These police officers also know the rules very well. They opened their notebooks and prepared to record just after class.

"You put away your pens, and you don't need to record in my class. I want you to remember to use your brains. These things are too hard to remember. It is useless to you. And I think the most important thing about an undercover agent is to be alert and face-to-face. You have to react quickly to all kinds of emergencies."

Just as Qin Yuan said his words, he received warm applause from below. Everyone felt that what he said was really reasonable. After all, they would fight alone when they went out, and it would be more difficult to lurk in. Too many things were remembered too deadly. On the contrary, it is not good for them.

Qin Yuan used to train and guide those soldiers. They were all about fighting skills, marksmanship and so on. It was the first time for him to be a teacher like this. to these students.

After finishing speaking, these students all lamented the large case of 800 kilograms. This is simply a legend. Some students began to ask, "Mr. Qin, can you really smell that smell? Smell the box, isn't that what police dogs can do?"

The student had just finished speaking, and there was a burst of laughter from below. Isn't this student just saying that Qin Yuan is a dog? Qin Yuan was not angry when he heard it.

"This thing must be smelled, don't laugh, the sense of smell is also very important for undercover agents, because first of all you have to judge your position, when your eyes are limited, you have to use the sense of smell and hearing to the fullest. To the extreme, I will take out a few things next, and you will come up one by one with your eyes blindfolded to smell it."

Everyone is very interested in Qin Yuan's teaching. After all, the theoretical knowledge they taught before is too boring. They are all notes from Tongtian. Those old teachers will tell them what to do and what not to do based on their experience.

But Qin Yuan felt that being an undercover agent needs to be flexible. After all, going undercover into an organization or group requires adaptability and responsiveness, because those criminal groups are real, not scripted, and will not develop according to everyone's expectations. The situation is changeable, so students also need to be changeable.

After all, they are a training base here, and they all have some training equipment. Qin Yuan took out the raw material powder and put it into mint water, and mixed these things with several glasses of water, asked them to come up and smell it, and then tell him which glass of water was in it. there is something.

These students were all eager to try. After seeing all of them participating, Qin Yuan asked: "One of the four glasses of water has raw material powder in it. Do you know which one it is?"

Hearing this, these students turned pale with shock. They didn't see Qin Yuan put the raw material powder in just now, they only saw him pouring water out of the bottle. This speed is too fast, and all the original ones are there. .

Most of the students were shaking their heads. At this time, a girl raised her hand and stood up and said, "Report to Teacher Qin, I smell a little bit, but I'm not sure if I can smell it again?"

Qin Yuan nodded. For these students, the first time they could smell it was already a good start. After the girl smelled it again, she pointed to the second glass of water and said, "This is the glass. There are raw materials in this glass." pink."

Qin Yuan nodded in satisfaction. Among the dozen or so students, some have a better sense of smell, but they are not really good at smelling. He trained Li Erniu and the others in the same way before. The sense of smell can be developed, and it depends on whether they really smell it.

Those students couldn't believe it, is there really something? But none of their dozen or so pairs of eyes saw when Qin Yuan entered.

"So this is what you need to learn. After lurking in the future, you will definitely be tested, or someone secretly wants to harm you. These raw material powders are very afraid of high temperatures and can only be used in ordinary drinks, so you must improve your sense of smell to judge."

"Besides, so many of you didn't see me go in, not to mention that you don't know when someone is going to do it behind your back, so you must be on your guard."

These students did not expect that the first lesson Qin Yuan taught them was to teach them to protect themselves. The previous teachers told them how to better complete the task, and then protect themselves and contact their superiors during the task, etc., but Qin Yuan taught them The first lesson is to protect yourself.

Then Qin Yuan asked them to experiment a few more times. only a few students could smell it and distinguish it, and then let them smell the smell of gun oil, ship oil, sea water, etc. Wait.

Qin Yuan still felt a little disappointed. After all, this is the most basic thing. Haven't they learned it all the time? As punishment for not smelling it, Qin Yuan punished them all for running 5 kilometers.

At this time, a big boy sitting at the back felt a little unconvinced, "I think the things you teach are useless at all. Although what you said is indeed very reasonable, it is too difficult! Maybe you yourself Can't do it."

Everyone followed the reputation, and finally someone wanted to pick something. After all, 5 kilometers is not a short distance. Just because they don't smell these smells, they must be

punished. This is too severe, and everyone is indeed a little confused. Qin Yuan was talking, but he didn't demonstrate it.

"I can do it. I'm blindfolded. You can mix these raw material powders with water at will. I mixed half a glass of water just now. Its smell is actually relatively strong. I can smell it wherever you point it. ."

Now that he said so, the boy immediately took action, and other students were a little curious when they saw the situation, and they also participated in it. Qin Yuan was blindfolded at the moment and didn't know what was going on outside.

The girl just wanted to remind Qin Yuan that what they did was too much. It turned out that the boy just poured Qin Yuan's best half glass of water into the bucket next to him. It is completely diluted with such a large bucket of water, how can it be smelled.

Then he changed another cup, took out a little water from the bucket, and after putting it away, he concluded that Qin Yuan would definitely not be able to smell it. He sniffed it carefully, and found that there was nothing but a faint smell of mint water. It's time to watch a good show.

#### Chapter 864: Competition with Sun Peng

Unexpectedly, Qin Yuan just sat on the chair just now with his hands folded, without moving, and said, "The third cup from the left!"

The students were shocked instantly. He didn't even come to smell it. How did he know that there was something in the cup? Could it be that he could smell it from such a long distance? Then this sense of smell is really against the sky.

The boy just stepped forward in disbelief, waved at Qin Yuan's eyes covered with black cloth, and made sure there was no response. This is simply too strange. How did he do it?

"No, this time it doesn't count. Let's change to other things. Maybe you are very sensitive to this raw material powder."

The girl just couldn't bear it anymore, she stood up and said accusingly: "Sun Peng, that's enough, you have gone too far, to this extent, even if he is sensitive to raw material powder, would you be able to smell it? "

Sun Peng was also a little surprised, but he was still unconvinced. The people he admired most in the school were Ma Zhongping and Zhao Xue. This person wanted him to run 5 kilometers and wanted to discipline him. impossible.

Qin Yuan also knows that this kind of student is also very smart. As long as he is convinced, he can listen to you. Qin Yuan shrugged his shoulders and said that he can let them put anything at will, no matter what it is, he can distinguish it.

"See, he said it himself. Since Instructor Qin is like this, then we have offended us. If you can really distinguish the 5 kilometers, I will run willingly."

Qin Yuan nodded and asked them to go down and prepare quickly. Then they increased the difficulty, and Sun Peng also had ghosts. Since this Qingyuan himself said that he can do anything, he took out a piece of paper. This paper is With a faint tea scent, he waved it in front of Qin Yuan.

"Okay, I remember this taste, as long as it is within the scope of this classroom, it can be anywhere."

Sun Peng smiled, and then put the piece of paper in his shoe. The girls next to him had ruthless noses. This Sun Peng really had a strong taste. What kind of smell did his feet smell so bad? This kind of paper The scent is long gone.

As soon as he put it away, Qin Yuan frowned, pointed at him and said, "Take out the paper! Don't spoil that one. I know there are still children who wash their feet a lot. Your feet smell really bad. I didn't even smell it, I could feel it."

Now Sun Peng was completely stunned, wishing to be in front of him, and he was wearing a blindfold, he let those classmates hit him in front of him, it was impossible to see, how did he do it? Is his sense of smell really so developed?

Immediately afterwards, Qin Yuan said a lot of things to him. This time he was completely convinced. This sense of smell was better than that of the police dog he saw in the police academy before. That police dog was an authentic anti-drug agent. Dog, this is simply too awesome.

Qin Yuan took off the blindfold and said slowly: "I know you don't think the sense of smell is important, but in fact this is the most important, because you can see it now, but when you can't see it, your sense of smell judges It might really save your life."

After all, Qin Yuan had performed many tasks before, and he told them about his previous tasks. These students admired them very much, and Sun Peng also admired Qin Yuan, because he could not do this.

In this way, these students were called by Qin Yuan to run 5 kilometers below the playground as punishment. Ma Zhongping sat in the office and drank tea. His class would not be until the afternoon. Looking at the students running outside, he smiled. .

"This new instructor is really capable. Why did he give these children physical training? Isn't this physical training done by us?"

The instructor next to him said: "What does this mean that he has a way, and he is from the special brigade. That set of training is actually quite effective, so let's strengthen their physique."

After Zhao Xue heard this, she turned her head and looked at Qin Yuan outside the window. At this time, he was running with the students under the sun. After she heard the name of the special brigade, she was a little curious about this talent. She had never I don't want to care about these things.

After taking these students for a run, the physique of these students is generally not bad. After all, everyone has also received training. During the break, Sun Peng ran up, "Instructor Qin, you are from the special brigade, then you The fighting must be very powerful! Can you teach us?"

"No problem, fighting is a basic skill for us, and it is quite practical for you, but fighting requires two people to fight each other, so that you can see the moves, and fighting with your team, I am afraid of hurting you. "

Sun Peng smiled when he heard this, how is this possible? His fighting performance has always been the first in the class, and he immediately took the initiative to stand up and said that he can compete with Qin Yuan.

"Instructor Qin, don't worry. With my physique, the two of us may be able to draw. I have been practicing this fighting since I was in the police academy, and I have always been number one. You can also guide me. Down."

Qin Yuan nodded. Sun Peng is quite smart, but he often plays tricks. This kid must think that he is good at fighting and wants to embarrass himself in front of so many people so that he can't get down.

The girl who kept reminding Qin Yuan before was called Li Lan, and she immediately said: "Instructor Qin, be careful, this kid is indeed the number one in our class, his fighting skills are too fierce, we are all a little bit beaten But he, he has been defeated by Teacher Zhao Xue before."

Qin Yuan nodded, reassuring her that she was absolutely fine. It turned out that this kid was waiting for her here, but from another perspective, the only female instructor, Zhao Xue, should be very powerful, and could be recognized by so many students And admire, but he Qin Yuan is here, he also wants to become such an instructor teacher.

These students sat around in a circle, Sun Peng proudly walked forward to do warm-up exercises, Qin Yuan looked at him calmly with his hands behind his back, for him, such things as fighting do not need to do warm-up exercises at all. can start.

Other students were also attending classes next to the playground, and some of them stopped to watch when they saw this situation in physical fitness class. After all, this Sun Peng was quite famous, and he was the first in martial arts in the school. The assistant teachers who came to challenge, they all have to see who will be better.

The instructor who led the training was introduced by Xiao Liu yesterday, and he also came over and nodded at Qin Yuan. In fact, it is not that these students want to see the instructors present here, but also want to see the special forces sent by their captain himself. What is Qin Yuan's strength?

"Boy, you have to pay attention later, I will know where your weakness is just by watching your warm-up exercise, and I can help you achieve it with one move, believe it or not."

Sun Peng was stunned. How could this be possible? This Qin Yuan is too arrogant. To knock down his physique with one move is simply a joke, and it is impossible.

"Instructor Qin, it's too big for you to say that! I am very confident in my fighting skills, so I will not be polite later."

Qin Yuan nodded, indicating that he could start at any time. Sun Peng put on a fighting posture. He clenched his fist and swung it directly at Qin Yuan. The other hand was on his chest to protect himself.

He calmly stretched out a hand, and firmly grasped the fist he swung over. Sun Peng unexpectedly found that his hand was completely grasped by Qin Yuan, unable to move at all. This Sun Peng's reaction was indeed very fast, and then He kicked quickly and kicked Qin Yuan. Qin Yuan just took a half-bowed horse step, and then punched Sun Peng in the abdomen, and he flew out in an instant.

The student next to him was going to step out and was completely stunned that he did! Just like this, Sun Peng was sent flying with one punch. This Sun Peng has a very big physique, about 1.8 meters tall, and he is also very burly. It is too scary to just fly out with a punch like a paper man. !

Sun Peng didn't expect that he would be sent flying with just such a punch, and Qin Yuan had to hold back some strength, otherwise he would really hurt Sun Peng. As long as Sun Peng was knocked down without hurting him, such strength Well controlled.

Sun Peng, who fell on the ground, was a little unconvinced. He felt that he was careless. How could he fly himself with a single punch, and to be honest, the punch was not too painful. Then Sun Peng played a trick, he Pretending to walk in front of Qin Yuan, he suddenly sprained his feet and squatted down. When Qin Yuan wanted to help him, he then kicked Qin Yuan in the face.

The corner of Qin Yuan's mouth was raised, he had seen it a long time ago, grabbed Sun Peng's ankle, lifted him up like this, then lifted Sun Peng's ankle for a circle, and gently threw it out for him .

He doesn't need to take action on these students. The soldiers in the army can train desperately, because they are facing the most real battlefield, but these are still children, and he doesn't really want to hurt them, although they will do undercover missions in the future It is also very hard and dangerous.

Immediately afterwards, Sun Peng got up from the ground again, and hit Qin Yuan. He was hit in the ribs by Qin Yuan's fighting posture again, and fell to the ground again. This time, Qin Yuan stepped up his strength, and Sun Peng felt the pain. It was only then that he realized that this man had completely restrained his strength the few times he hit him before, and he was able to control his strength so well. It was simply too powerful, and Sun Peng had already admired him.

Ma Zhongping also nodded in satisfaction. This instructor Qin is really extraordinary. He fought against Sun Peng in the form of horseback throughout the whole process. This person's foot is very stable and his strength is also very strong. Maybe he and him There is not much chance of winning in sparring, as expected, the background of special forces is really powerful.

The students next to him all clapped their hands. This is simply amazing. Once again, they refreshed their understanding of Qin Yuan. He was able to knock down Sun Peng, who had the highest grade, which showed that he was also very strong.

Then Qin Yuan asked Sun Peng to stand up. This kid's physical fitness is really good, so he fought with Sun Peng. He used one hand throughout the whole process, just to let these students see his fighting posture better. Almost all of these students are life-saving, and how to control the enemy with one move is very simple.

The instructor who was standing there just now couldn't help but stop and watch. These moves of his are indeed very practical, and they are not put on airs.

The students on the playground were very enthusiastic, they all surrounded Qin Yuan and kept asking about fighting skills, and everyone stepped forward to feel it one by one, Qin Yuan's strength is really too great, so they came to compete with him for a few rounds The students were easily brought down by him.

Zhao Xue in the office was somewhat disapproving. As far as these small moves were concerned, she felt that for these students, what was more powerful was that the ultimate move could directly kill the enemy, rather than relying on such opportunistic tricks.

Unexpectedly, the next second Qin Yuan said something, he slapped her in the face, "Students, I believe you think that my moves can only bring down the enemy, not kill the enemy, but this is the best for you! Yes, I will teach you ultimate moves later, but you also need to learn the technical ones."

"Instructor Qin, but wouldn't it be better if we don't learn the ultimate move directly, so that we can kill the enemy together and ensure our own safety."

"This student asked a good question, but this is also the crux of the problem, because most of you are partnering with your classmates during the training process, and everyone's strength is at the same level, so you think the killing move is very simple. When you meet When it comes to an opponent stronger than yourself, you can't kill him with one move So knocking him down is the key, to find a better way to escape for yourself."

Zhao Xue was a little unhappy hearing this, what is the escape route? What's going on with this Qin Yuan? Why is he constantly teaching these students how to escape? Their task is to lurk in order to better complete their tasks in the group of criminals, not to escape for their lives.

Zhao Xue slammed the cup on the table and walked out.

Ma Zhongping next to him yelled badly, and ran out quickly. Zhao Xue has a big temper, so don't get into an embarrassing quarrel. After all, Qin Yuan was invited by the team leader from the special team, so he was so stiff It's not good for both parties.

Several instructors also hurried out, but Zhao Xuefeng was in a hurry, and didn't listen to their advice at all, and walked directly to Qin Yuan.

When Qin Yuan heard the movement, he turned his head to see Zhao Xue walking towards him angrily, and felt a little strange, what's going on? Why do you feel like you owe her money?

"Instructor Zhao, what's the matter? I think your complexion is not very good."

"I think what you said is wrong. I suspect that you don't know how to teach at all. Look at what you teach. What we teach them is to complete the task. The most important thing for them to perform undercover missions in the future is to complete the task. Then If you can come back, why are you teaching them some escape techniques?"

Qin Yuan was a little speechless, why does this person have so many things, what he teaches has nothing to do with her, and he doesn't think there is a problem with what he teaches, it is really rude to deny himself in front of so many students.

Chapter 865: Wonderful teaching

"Instructor Zhao, I hope you can understand that for them, safety is the most important thing, and you don't want to turn them into killing machines! It is true that the mission is the most important, but safety is also important. I will teach them to escape Skills are not for them to blindly escape, at least for them to master the skills."

Moreover, Qin Yuan also has his own teaching method. Let these students have certain escape skills and a sense of safety before teaching them ultimate moves and how to hide. It's simply digested for a while, and I can't accept it.

"Hehe, it's really funny. I never knew the use of an undercover agent mastering escape skills. They are carrying out the most dangerous missions, and they are there to fight for their lives, not escape. I hope you can understand."

Qin Yuan looked at Zhao Xue in front of him and frowned. He admired this female instructor before. After all, she had a good reputation among the students, but why did he feel that this person was so unreasonable when he talked about it? Isn't the life of an undercover agent his life? He certainly didn't want these students to die when they were so young.

"Since Instructor Zhao feels that escape skills are useless, let's have a competition. If I don't use the ultimate move on you, I will just use the escape skills I use now, and I can knock you down."

The people next to him heard that Qin Yuan was going to compete with Zhao Xue. This was something to watch. After all, Zhao Xue's ability was really strong. Difference.

Ma Zhongping hurriedly came out to persuade: "Two instructors, I know that you are all thinking about these students. Everyone is wholeheartedly trying to train them, but their teaching methods are different. Instructor Zhao, let's not interfere with others. There are different ways."

Zhao Xue snorted coldly, "Cut, don't talk about that. It must be for the benefit of these students. I don't want to see him here misleading others and wasting my students' time."

What Zhao Xue said was getting more and more serious. Ma Zhongping was so frightened that he broke out in a cold sweat. This person is really too hot-tempered. How can he say that about Qin Yuan? When the time comes to offend Qin Yuan, he It's not easy to explain to the captain.

Seeing that Zhao Xue's temper was too violent, Ma Zhongping could only quickly turn to Qin Yuan, "Instructor Qin, she has that temper, so don't argue with her. You are all instructors after all, and there are so many students here. It's not good to go on like this!"

Ma Zhongping said so earnestly that he just didn't want this competition to go on, because no matter who loses, it would be disrespectful, especially in front of these students, so this is what they have stipulated before. The instructors should not be despised. After one party is defeated, the students must have some distrust of you.

But he didn't know that Qin Yuan was also stubborn, so he couldn't listen to others saying that he couldn't do it. What kind of person is this Zhao Xue? People's children.

"Instructor Ma, you don't need to tell me. After all, he started to provoke and question me first, so I can't sit still! Otherwise, people will really think that I am afraid of her, and I, Qin Yuan, will do what I say. I will not only challenge her, And blindfolded challenge, if I lose, I will leave directly, which means I am not qualified to coach here!"

What Qin Yuan said shocked the people next to him, this person dared to speak too much! Blindfolded to challenge, and being so cruel to himself, what he said made him have no way out, even if he lost, he really had to leave.

Ma Zhongping also felt a headache. Why is Zhao Xue so stubborn? Qin Yuan is also like this, and he can't persuade him at all, and this is too much to play. He also knows the ability to make blood. Qin Yuan actually said that he would challenge him blindfolded. It's too difficult to use his skill just now without the ultimate move, and he will definitely lose!

Zhao Xue laughed even more when she heard what Qin Yuan said. She concluded that Qin Yuan was arrogant and looked down on her, a female instructor, and even made a blindfolded challenge. He wanted to let this arrogant person know. Strength, immediately agreed to Qin Yuan's competition.

The words have already been said for this point, no matter how much everyone persuades them, it is useless. On the other hand, the written test of these two people is really worth seeing. One is from the special brigade, and the other is from their side. Strong female instructors, let's see who is better.

Just when the written test was about to start, Qin Yuan suddenly raised his hand to signal that he had something to say.

"Why, are you afraid? If it's still too late to admit defeat, as long as you admit that you have misunderstood the students, teach the theory class well, and don't use your teaching plan on my students."

"No, no, you really think too much. What I want to say is, as I said just now, if I lose the fight, I'll just leave. What if you lose?"

"How could it be possible that I can't say no to you? Since I said that, if I lose, I'll just kneel down and kowtow to worship you as my teacher. I, Zhao Xue, am not that kind of villain. What I admire

is strong people. If you If you can defeat me, I will humbly learn from you and worship you as my teacher."

"It seems that I will have one more apprentice."

When Zhao Xue heard Qin Yuan's arrogant tone, she couldn't bear it. She hadn't started fighting yet. How could he have such confidence? Let's talk about it after we call.

The students next to him were all talking about Zhao Xue's ability. They all witnessed Zhao Xue's ability. Just now, Qin Yuan's strength was not bad, but Qin Yuan himself put forward a condition. He wanted to challenge with a blindfolded eye. And Qin Yuan has always insisted on his fighting and defensive skills.

Ma Zhongping was a little nervous. He was worried that there would be some problems in the written test between the two of them. "Two instructors, we will stop at the end. You should know that you must control yourself in front of the students!"

Zhao Xue nodded, "Don't worry, I won't beat him too hard, just make him unable to get up."

Qin Yuan sneered, this woman is really too arrogant, it seems that she has no opponent in this place, she really thinks of herself as heaven.

Immediately after the written test for the two began, Qin Yuan took out a black cloth and covered his eyes. Zhao Xue thought that he was doing this only for his own strength, and was defiant. Unexpectedly, Qin Yuan would start his teaching next.

"Students, you must be optimistic. I am blindfolded now to let you know the importance of smell and hearing. Like the instructor Zhao in front of her, she has a faint smell of soap. You can know the location of this person through the sense of smell. ."

When Qin Yuan said this, Zhao Xue blushed instantly, and kicked Qin Yuan directly with a whip leg. He immediately stretched out his hand to block her leg, and then pushed Zhao Xue out with a light push. Zhao Xue Her reaction was very quick, the moment Qin Yuan pushed her, she directly punched Qin Yuan's temple, what she wanted was the killing move.

The change of legwork and boxing is relatively fast, and the ability to produce blood is also very strong. Ma Zhongping frowned. This speed is still quite fast. I don't know if Qin Yuan can catch it.

Unexpectedly, Qin Yuan was able to judge Zhao Xue's fist by raising his hand to block his eyes again. The students below all applauded. This is too amazing!

"We not only rely on the sense of smell, but also hear the words of the hematopoietic instructor. Her movements are too rude, which brings a lot of noise. Even if you are blindfolded, you can hear where her fists are coming from. You can just look like this."

After Qin Yuan finished speaking, he directly hit Zhao Xue's ribs with an elbow, and sent her flying. What he used was not a killer move, but some fighting skills, because what he taught the students just now was to meet a strong opponent, knocked him back, and then took advantage of the gap to escape quickly.

Zhao Xue did not expect that Qin Yuan not only repelled him in front of so many students, but also said that her actions were rude, and she was so angry that she directly used a 180-degree scissor kick in the air, trying to entangle him. Unexpectedly, Qin Yuan hit Zhao Xue's knee with both hands.

Just like that, another pair of fists directly pushed Zhao Xue back, she fell to the ground fiercely, turned around and Zhao Xue rushed up again, in fact, she also admired Qin Yuan's reaction to this person, the speed was really too fast, in the case of being blindfolded, not only can he catch his own kicks and punches, is it true that his actions are too rough as he said?

But now is not the time to think about these things, she must do her best to knock Qin Yuan down, otherwise she will not be able to teach in front of students in the future.

Unexpectedly, Qin Yuan took the initiative to attack at this time. Although Zhao Xue was on the ground, Qin Yuan had already locked onto her position, and walked over so fast that Zhao Xue had no time to react. Qin Yuan's hand had already grabbed her shoulder, immediately afterwards, she was lifted up directly, and Zhao Xue fell to the ground hard with an over-the-shoulder fall.

"Students, this is the most basic fighting technique. When you encounter an enemy stronger than yourself, you can use the skill of four or two strokes of a thousand catties. Throwing her ribs like me over the shoulder can knock her over, and then when the enemy falls. When you land, you can take the opportunity to escape."

The students next to him applauded, and Ma Zhongping secretly exclaimed, this person is too awesome! Even blindfolded, Zhao Xue's position can be judged, and his teaching is indeed quite useful.

Zhao Xue's face was as red as an apple at the moment. This Qin Yuan is indeed very powerful. What she said just now was a bit too big, but she is not easy to provoke. Why is this Qin Yuan chattering and teaching? Can't she?

Then Zhao Xue took out a wooden training flying knife from his waist, "Students, when you encounter such a powerful enemy, you can also use weapons, and you don't have to think about running away."

Qin Yuan smiled, this Zhao Xue even imitated him, but if she wants to use a weapon, she can do whatever she wants, anyway, she is not afraid, this is also just a teaching point, let these students see how to subdue an opponent with a weapon .

Then Zhao Xue stabbed Qin Yuan's neck with a wooden flying knife. Qin Yuan's reaction was very fast, and then he jumped directly behind Zhao Xue with a backflip, and then hugged Zhao Xue tightly with open arms .

At this moment, Zhao Xue found that she couldn't move, her arms were tightly bound by Qin Yuan, and she couldn't move at all. This person must have too much strength! Most importantly, this posture is too ambiguous in front of so many people.

But Qin Yuan said slowly: "For such an enemy with weapons, you can hug him and control his arms like this, so she can't move. This is also convenient for you to directly hijack him as a life-saving weapon in the future." means."

Zhao Xue's face was already flushed with anger, this love is really disgusting, in front of so many people, she never let go, no matter how hard she struggled, she really couldn't get rid of it, he kept saying that Zhao Xue's reaction was also faster , and then directly stretched out his legs and stepped on Qin Yuan who was behind him.

Qin Yuan quickly kicked Zhao Xue's waist with his knee, and Zhao Xue was subdued on the ground in an instant, and Qin Yuan grabbed her arm with his backhand. She was completely controlled, and the throwing knife fell to the ground.

"Students, it is like this that you can immediately subdue the enemy with a weapon. All my movements are technical. You need to find the weakness of people. The waist is the weakness of most people, and you are not unfamiliar with this posture. It is The grappling gesture that you police use, facing the criminal, she can completely subdue like this."

Zhao Xue's face was completely red. This is no longer a matter of embarrassment. In front of so many people, Qin Yuan really taught her a lesson. The instructors Ma Zhongping next to her also applauded This moment is really exciting!

I didn't expect Zhao Xue to be defeated. This is not the point, and Qin Yuan's explanation this time is really in place and very useful. For these students, they can really learn the most real things.

At this time, Qin Yuan let go of his hand and pulled Zhao Xue up from the ground. Although this woman's tone was quite arrogant just now, and her temper was also bad-tempered, but compared with her just now, her strength is still good, and her strength is also very strong. She is really good in these aspects, and she is also very good to these students as an instructor.

Zhao Xue shook her head, "I didn't expect that I really lost, Instructor Qin, this is really unexpected, no one has been able to defeat me for many years, and you defeated me blindfolded, which really makes me admire me Apologize for what I just said."

"This does not exist. After all, it is a good thing to have doubts. If there are doubts, everyone will solve them together. I know that you are also thinking about these students, but it is precisely because of these students that we have to give them the most authentic things. The first thing is to let them protect themselves, then they can perform their tasks better!"

Zhao Xue nodded, this is indeed, if they can't even protect themselves, how can they carry out the task? I didn't expect them to be educated by Qin Yuan after taking classes for so many years, and what he said was really reasonable.

The students around applauded excitedly. This duel was really exciting. They learned a lot. They didn't expect that there are so many skills in fighting. Qin Yuan is really amazing, and this explanation is very vivid , they were very impressed.

Chapter 866 See you later

At this time, Zhao Xue was a little speechless, and she was convinced by Qin Yuan. This person is really powerful, but after all, he is a special soldier. Zhao Xue walked directly in front of Qin

Yuan, stretched out one foot, and was about to half kneel. With sharp eyes and quick hands, Qin Yuan quickly pulled her up.

"I am convinced of this duel. You were blindfolded and didn't even use your ultimate move to defeat me. You are better than me, so I am willing to admit defeat. I also said just now that I worship you as my teacher. Why do you regret it? Yet?"

"No, no, instructor Zhao, you don't need to worship me as a teacher. After all, I also teach here. We can't talk about apprenticeship. We just need to learn from each other. You also have something worth learning from me. Let's learn from each other." ."

Ma Zhongping looked at Qin Yuan with great admiration. This man's bearing is really too great. Just now Zhao Xue said harsh words in front of so many students, and indeed said that he misunderstood his children. This is very serious. I didn't expect him to not care about it at all. .

Zhao Xue didn't expect Qin Yuan to have such a reaction. He was a little unexpected, and gradually developed a good impression of Qin Yuan. This person didn't seem so arrogant. It seemed that he had misunderstood him before.

Qin Yuan's class was also the most practical. He first taught these students how to escape, taught them how to protect themselves, and then taught them some mission skills. He is also an expert in code deciphering.

In the past, Zhao Xue was teaching code deciphering, because she was considered a high-achieving student at the police academy, and later she was sent here to teach because of her excellent performance. She also worked undercover for some criminal groups before, and the degree of danger was no less than that of Qin Yuan. After all, Female undercover often comes with many things.

Zhao Xue is very strong. Although she was defeated by Qin Yuan, she admired Qin Yuan very much, but she is also stepping up her practice. She doesn't want to admit defeat like this. This is also related to his previous undercover experience. It is already 12 o'clock in the middle of the night. Qin Yuan got up to go to the toilet and found that Zhao Xue was still practicing on the playground.

Zhao Xue carried a 70kg dummy on her back, and kept beating the sandbag dummy for training. She didn't expect that she would remember all the tricks I used on her during the day. It seems that this person has a very strong memory , Qin Yuan couldn't help admiring him. He wanted to go

there but didn't want to disturb her. He found it strange that Zhao Xue was already teaching here and didn't need to go to the front line. Why did he work so hard?

When he came back, he found that the light in Ma Zhongping's room was still on. It seemed that he was still awake. At this time, Ma Zhongping also heard footsteps, and opened the door to invite Qin Yuan to come in and sit down.

Qin Yuan was a little curious about Zhao Xue's affairs. Ma Zhongping took out a box of cigarettes from the drawer and planned to pass it to Qin Yuan. He shook his hand. He didn't smoke this. After all, he was performing tasks outside, and the smell of cigarettes would easily expose himself.

"It's a good habit not to smoke, as if I can't get rid of it."

Ma Zhongping lit a cigarette, slowly puffed out the smoke circle, and talked about their stories. Before that, Qin Yuan had performed some missions and contacted some undercover agents, but the contact time with them was not too long, but I also know that it is not easy for them. Many undercover agents cannot even have their names, and they have made great sacrifices for the mission and the people.

Ma Zhongping is an old criminal policeman who has been working for more than ten years. Later, one of his undercover agents died in a criminal group. In order to replace him, Ma Zhongping took the risk to go undercover, and Yi worked as an undercover agent for three years. I also learned it in that group.

For three whole years, Ma Zhongping has been trying to play another person. Before that, he never smoked. During the three years of being an undercover agent, he never returned home, and his family never saw him. Qin Yuan listened to Ma Zhongping's story silently, These undercovers are really hard work.

"We men are alright, but men like us tend to arouse suspicion, and it takes a long time to gain the trust of the higher authorities. Although Zhao Xue and the others are dangerous, they are also easy to gain trust."

"No wonder I saw that there are many female students in the school, but this is indeed too dangerous."

"There is no way, some things have to be done by someone. Instructor Zhao has been lurking in a drug trafficking group for two years. The drug trafficking group is one of his groups. There are more than 80 people involved in the case. Instructor Zhao also made a big decision at that time." thanks to

According to Ma Zhongping, Zhao Xue lurked in at that time, and the situation was very difficult. Not only was she severely beaten by those officers, but as a woman, she also suffered some physical torture. Said, but everyone knows that Zhao Xue has changed a lot since she came out as an undercover agent. She was a sunny and cheerful girl before, but she has been taciturn since then, and she can't even do normal criminal police work.

Then she was sent here to give teaching guidance. The reason why she worked so hard was that she didn't want these students to suffer the same harm as her. Therefore, her principle was to kill the enemy if she could, and she would never be merciless.

"So Instructor Qin's words are a bit heavy during the day, but it's also related to her experience. She really doesn't want these students to be hurt. I hope you don't mind this. After all, everyone's starting point is for the good of the students."

Qin Yuan nodded, looked at the time, and got up to go back to his dormitory. At this time, Zhao Xue was still sweating profusely on the playground. Qin Yuan walked down and saw that some of her movements were not very standard. Instructing her, Zhao Xue was actually quite surprised, she didn't expect Qin Yuan to come out at this time.

Zhao Xue's portrait is also very outstanding, and her figure is relatively good, so he went undercover successfully at that time, and received too many disgusting eyes, she even felt a little disgusted with men, and she didn't want to have more contact with them, but Qin Yuan It gave her a very different feeling, as if he came to guide himself now, he just taught her movements very seriously and had no other meaning.

"Thank you. If you can't do it so late, go to bed first. I'll ask you tomorrow. I can do it myself. I'll just practice for a while."

"It's okay, I can't sleep anyway, but I'm a little curious, why are you practicing so desperately, you don't need to go to the front line now, in fact, you can relax your life completely, practice these things slowly and don't worry of."

"Although I don't go to the front line, those students will go. Your method is indeed very effective. I will definitely study it seriously and hand it over to those students. Soon they will be sent out to perform undercover missions."

This Zhao Xue also seems to be a good teacher, no matter what, the starting point is for the sake of these students, Qin Yuan combined some of the fighting knowledge he usually studied with muay thai, and taught Zhao Xue earnestly.

On the second day, Qin Yuan was still in the theory class. Now Ma Zhongping not only arranged the theory class for him, but also practical operations. However, today's theory class was very unusual. Qin Yuan brought a backpack with a lot of things in it. Students are also more curious. His courses are generally very interesting. Those boring theoretical knowledge become interesting under his explanations, and he will intersperse some things about his own tasks.

He also passed on the experience of these tasks to these students, after all, he had personally experienced it.

Next, Qin Yuan opened the backpack, and there were some cosmetics and some clothes inside. The students were familiar with this, because undercover agents sometimes needed to disguise themselves.

It seems that they all know that Qin Yuan doesn't need to say much, such a makeup class is quite easy, and then Qin Yuan told them that the most important thing is to get used to it, because the habits they cultivated in the police academy are all straight and upright. Yes, but they need to unlearn these habits now.

"Starting class from now on, you can cross your legs as you like, or sit on the desk."

"Instructor Qin, are you kidding me?"

"For you, if most of the people who enter the criminal group are gangsters and criminals, they have bad habits themselves, and they are not as strict as us. Anyway, from now on, you will treat yourself as a criminal. You can also swear."

Everyone was shocked by Qin Yuan's words. They didn't expect it to be like this. Qin Yuan looked at these students. They were very well-behaved in this group, so they couldn't see any flaws. But once they were dispersed, put them in the It is very conspicuous in the crowd or that kind of

criminal group, and it is easy for people to see the problem, so now it is necessary to correct their habits.

Ma Zhongping very much agrees with Qin Yuan's teaching method. These things are very useful. For them, in addition to the appearance of camouflage, physical and psychological camouflage is also very important.

It seems that the captain did not choose the wrong person this time. This person is really good, not only in fighting make-up skills, but also in code breaking. These students have learned a lot this time, and their teachers can also use it. These things continue to be taught to more students and produce better talents.

In the process of getting along slowly, Zhao Xue's affection for Qin Yuan continued to increase. Everyone usually played basketball on the basketball hoop when they were not in class. Qin Yuan had acquired basketball skills before, and this kind of playing was very important to him. It's trivial to say.

Those students even found that Qin Yuan is really omnipotent, it's fine to be excellent in all aspects of teaching, but they didn't expect to be so good at playing basketball, too skillful.

Qin Yuan has been teaching here for half a month, and the time is almost up. The team leader called to prepare to pick him up in two days, and the red blood cell team does have other tasks. The captain can't occupy Qin Yuan's time all the time.

Knowing that Qin Yuan was leaving, Zhao Xue was still a little sad in her heart. Those students were also very reluctant to part with Qin Yuan. Qin Yuan taught them too many things in the past half month, and recalled the first time they were here. Some people are still very unconvinced towards Qin Yuan.

Before leaving, Zhao Xue showed a rare smile, and she ran to Qin Yuan, "Instructor Qin, you are very capable and pretty good, but I don't know if we will have a chance to meet again in the future."

"I should see you again, after all, maybe I will come here to give teaching guidance in the future."

Unexpectedly, Zhao Xue shook her head. It turned out that this time she received a relatively dangerous undercover mission. This criminal group is very well hidden, so many people were arranged in the organization, but they all failed. Zhao Xue went out.

"Then I will see you by fate. I don't know whether it is life or death to perform the mission again this time. After all, every time it is accompanied by danger, you should also pay attention to safety! We are all working hard in our respective fields ."

In fact, Zhao Xue is very grateful to Qin Yuan. She taught them so many things, but the parting came quickly. I would rather go back and deal with Boss Abi now. Besides, Chen Jinguo's verdict has also come down, and he will be sentenced soon. Execution by shooting.

This huge drug lord hiding behind was completely exposed precisely because of undercover agents like them. After getting along with these undercover police officers this time, Qin Yuan felt that it was not easy to go undercover. identity, and to be honest, Qin Yuan himself is not afraid of being retaliated.

Under this premise, it is the need to be strong, which is what Zhao Xue has been working hard for.

After returning to the special brigade, Qin Yuan couldn't wait to assemble the team. This time he will personally lead the team to wipe out Boss Abby, After all, there is always the source, and the source is continuous, even if someone keeps supplying raw materials to those drug lords, these harmful things will not stop.

It was also thanks to Qin Yuan's coincidence that he rescued Boss Abi at that time, so they were not blindfolded on the way here, and Abi sent someone to take them back, so Qin Yuan remembered the route.

After all, there are many civilians in that drug manufacturing base. Qin Yuan still explained that everyone must ensure the safety of civilians. Those civilians are innocent after all. They first deal with the drug lords with weapons, and then there are those who do harm. thing.

Qin Yuan asked everyone to stop the boat on a small island nearby, because this kind of motor boat was too loud, and he was worried that it would disturb Abby inside. Many of you used to have no problem with the members of the red blood cell team at this distance. Everyone usually trains That's it.

Moreover, Qin Yuan was dispatched at night, which was also due to the light. Boss Abi was not at all on guard, because their place itself was also very hidden. Everyone quietly landed on the shore, and came to the familiar plantain again. Forest.

At this time, the light from the lighthouse in front suddenly shot over, and Qin Yuan hurriedly signaled everyone to get down.

"He Chenguang, you turn on the lights, I hit people, I count to three and we go together."

Their sniper rifles are all equipped with silencers. Almost at the same time, the two shot together, the lights went out, and the person fell from the lighthouse. Although there was a little movement, they took advantage of this gap. He rushed up quickly, and the heavy firepower point next to him was not illuminated by the light, like a blind man.

Chapter 867: ?Chen Jinguo&#039;s last struggle

When the people with heavy firepower found Qin Yuan and the others, they were already standing in front of them. Qin Yuan directly threw out the throwing knife, dealt with the people with heavy firepower, raised his machine gun and rushed in.

Boss Abby also woke up from his sleep. Someone dared to attack his base. He was very curious about who knew his base, so he quickly organized people to fight back.

Boss Abi spent a lot of weapons and ammunition because of the last battle. He bought a batch of heavy fire weapons again. Qin Yuan and the red blood cell team just rushed in, and two rockets hit them directly. come over.

A rocket exploded on the earth wall behind, flying sand and rocks everywhere, Qin Yuan threw out the playing cards directly, and the people standing on the side were instantly knocked down by him. It turned out to be Qin Yuan.

"Why is it you? Could it be that Chen Jinguo wants to cheat! What's going on with him?"

"Hehe, keep your eyes open to see what I'm wearing right now. Let me tell you, I'm a soldier of the Yan Kingdom, Qin Yuan!"

Only then did Boss Abi know that Qin Yuan was an undercover agent, and even Chen Jinguo, an old fox, didn't find out. He knew Qin Yuan's strength, and these people couldn't beat him at all. The speed was faster than him, and two throwing knives were directly inserted into his chest.

Boss Abi did not expect that such a man of influence, with his own influence, would be solved so easily by Qin Yuan. What's more, he was not reconciled. He had been around for so many years,

and he hadn't enjoyed many things yet. He endured it. Pain took out two grenades from his waist, no matter what, he wanted to find a back, and rushed directly to He Chenguang who was opposite.

Qin Yuan jumped in the crowd on the opposite side and kept throwing throwing knives, coordinating with the light machine gun. At this moment, he noticed that Abi rushed over with two grenades, and he shot Abi directly on the knee. Immediately afterwards, the grenade exploded, and Abby, the drug lord, was completely blown to pieces.

Bada also rushed out carrying a light machine gun, and was directly headshot by Li Erniu with a sniper rifle. The cooperation of the red blood cell team is becoming more and more tacit, and Abi has been beaten to death by Qing Qinyuan. They started to flee, but they were all dealt with one by one, and the remaining civilians curled up in the house without weapons and fear.

They are very afraid of war, because every time they are victims, even if they have no weapons, they raise their hands and surrender, but those who have guns will always shoot at them.

"Don't worry, we are soldiers of the Yan Kingdom and we will never hurt you."

Qin Yuan asked Li Erniu and the others to organize and take these civilians out first. It was the first time for Wang Yanbing and the others to come to this place, and they were completely shocked. There was such a large field of poppies. Qin Yuan found it from the base. Gasoline, poured gasoline all along those lands, and he's going to burn all these harmful things.

The fire ignited in an instant, and there was an unpleasant smell. Everyone covered their mouths and noses, led by the red blood cell team, and evacuated onto the boat. Qin Yuan looked at the burning sea of flames, and instantly breathed a sigh of relief. Find drug production bases like this and destroy them all, otherwise these things will just keep coming out.

Qin Yuan didn't know how to resettle these people. Wars broke out everywhere in this country, but all he could do was to take those people out of that small island and hand them over to the local government. As for whether the local government would take care of them People, he can't do it, after all, there are too many people, not like Qin Zhengyang and the others, he can take them back, and he can't manage so many people.

The government department has been troubled by the war and can't control any drug lords at all, but they were shocked when they heard that Qin Yuan led a small team to wipe out Abi's forces. It turned out that Abi was also a member of the government army before. A force, but he felt that there was no hope for the government army, so he split it out alone.

Most of Abby's people are drug dealers, and some of them are regular government troops, and their strength is also very strong. Before that, the government army sent people to encircle them, and then Abi led those civilians into a small island. , but they don't know exactly where.

"Captain Qin, have you really dealt with them all? This Abby is very vengeful. If he doesn't kill the grass, he may retaliate against you."

"There is absolutely no problem with this. I killed him with my own hands. He has been blown to pieces. Those drug dealers are all dead. You can go to that small island to check."

The staff of the local government were shocked when they heard this. This is too exaggerated! There were only seven people on Qin Yuan's side. This kind of strength was too terrifying. A leader who looked like a leader backed away from the bodyguard with some fear.

"Don't worry, we will only attack those drug dealers, and if we have no grievances, we will not suddenly attack you."

The leader smiled awkwardly, and said that he would properly accommodate these civilians. I hope that such people must never be offended, not only the power of their team, but also their country is now very powerful, so they can only He politely sent Qin Yuan away, and thanked him all the time for helping them eliminate the drug lords.

It was only now that Qin Yuan was completely relaxed on the plane. After such a long backlog, the matter was finally resolved, and Chen Jinguo was also tried, which was regarded as revenge for those innocent people, but when he saw those civilians, he thought of Qin Zhengyang.

I had already promised him before, but Zhang Long of the Daybreak Organization seemed to have disappeared from the world, and there was no news at all, but these were all matters sooner or later, and he would definitely solve them.

After returning to the brigade, Gao Shiwei told Qin Yuan that Chen Jinguo was going to be shot in a few days. After all, he was captured by Qin Yuan, so the public security department invited Qin Yuan to go to the scene to watch the shooting.

"What's so interesting about this? It's not like I haven't seen it before. Gao Dui, can I not go here?"

Gao Shiwei smiled brightly, "I have to go, I already promised them, besides, you go is not the point, they have a group of new boys over there, let them have a look at the group of recruits you brought, Get up close and personal with death, feel it."

Only then did Qin Yuan realize that the old fox wanted to take the recruits with him, but there was nothing to do anyway, so let's go!

On the day of the shooting, Qin Yuan brought a car of recruits to the execution ground, and the car that escorted Chen Jinguo was also behind. Qin Yuan asked everyone to find a place to watch, and warmly greeted the former anti-narcotics captain.

The team leader was very grateful to Qin Yuan. He not only assisted them in defeating this gang of drug lords, but also taught their students.

"That's why your high team called me, and I immediately agreed to come down. In the future, if you have recruits who want to come and watch this kind of scene, you can speak up at any time."

Qin Yuan was a little stunned. This is different from what Gao Shiwei said. It turned out that the old fox was using himself as a shield. In fact, he wanted to train these recruits. He also said that it was strange for people to invite them to see him. The public security department How could they be invited to see this over there.

Those who came to watch today are not strictly recruits, they are all selected from various companies, but it is indeed the first time to experience death like this with their own eyes.

"It's estimated that you can smell blood at this distance. Prepare your bags yourself. Don't embarrass me by spitting on the ground. If you want to vomit, the sound should be quieter."

After all, those soldiers were soldiers kings in the New Year's team. Although they knew that Qin Yuan was also very powerful, it was somewhat contemptuous of them to say so.

"Captain Qin, don't worry, what is this kind of scene? We don't have to train every day, we won't vomit, and we won't be ashamed."

Qin Yuan smiled, then he will see what these boys said later, the real shooting scene was very shocking, Li Erniu threw up instantly when he saw this scene for the first time, next to him The

anti-narcotics captain was also a bit of a spectator, deliberately standing beside them, but he looked at his watch again with some doubts.

Qin Yuan walked over and asked curiously: "What's the matter, captain, I think we've all been here for half an hour at this time, and they should be here as well."

"I'm just surprised by this. Let's set up the venue first, and their car is right behind. It will arrive in more than ten minutes without accident."

The captain of the anti-drug brigade hurriedly called the escort, and the \*\*\*\*\* over there was also very nervous. He said that he didn't know what was going on, and there was a traffic jam. This kind of situation usually would not happen, because in order to avoid such a situation, They all set off very early, and it was only dawn at six o'clock in the morning. There should be no traffic jams at this time.

"We don't know what's going on. Since there was a car accident, and it was a large truck pulling goods, the entire horizontal frame was on the road. We wanted to retreat, but there were also trucks behind us. These trucks seemed to appear suddenly. Now We didn't dare to get out of the car rashly."

"Captain, why don't we do this? I'm worried that Chen Jinguo did it. They shouldn't be far from here. I'll go over now to see what's going on."

The captain nodded, that's all there is now, and Qin Yuan's ability is very strong, so it's more reassuring to leave it to him.

The location quickly sent by the \*\*\*\*\* was indeed not far from here, it was more than 20 minutes away, Qin Yuan hurried over, and at this time, Chen Jinguo in the car started his performance.

"I said, brothers, your work is actually quite hard, and you can't earn any money. Otherwise, you would let me go. I have money. You four, I will give you 10 million alone."

"To shut up!"

The escorts stared nervously at the big trucks next to them. The appearance of these trucks was too weird, as if they had suddenly appeared and surrounded them.

Although Chen Jinguo was arrested here, he has family members outside, and this kid is really rich. He asked his family members to make a lot of connections when they visited the prison for the last time, just thinking about whether he could buy the \*\*\*\* at the last moment. Take the opportunity to escape.

These truck drivers didn't dare to act rashly, but after all, the Chen family gave money to face the escorts with real guns, so they didn't dare to act too much, so they could only surround them with the car.

"Brothers, think about it, with 10 million yuan alone, you may not be able to make so much money in your whole life. Then you will say that something unexpected happened, anyway, at most, you will be dismissed, but in the future you will take this You can go anywhere you want with 10 million yuan."

The \*\*\*\* was already very nervous, but now he was even more irritable when he heard Chen Jinguo chattering here. At this moment, he suddenly saw a military off-road vehicle approaching in front of him.

Qin Yuan got down from the car, and Chen Jinguo was furious when he saw Qin Yuan. It was this person who caused him to the present state, and if this person appeared, it would be completely useless.

Qin Yuan came over to check the situation on the car, and told the escorts not to worry, he will take care of the truck in front, he stared closely at Chen Jinguo, "I know all the tricks you want to play, but I'm here You are out of the game, and today you will be put to Fa-rectification on the spot no matter what."

Then he walked to the front and looked at the large truck that was overturned on the road. The driver pretended to be on the phone, his eyes dodged, and he didn't dare to look at Qin Yuan. After all, he was wearing a military uniform.

"What's the matter with you, find someone to move away!"

"Comrade I can't help it, it's too early and I can't find anyone."

Qin Yuan looked at the large truck in front of him, and planned to take these compression personnel to detour! But when I went to find the drivers behind, I found that the drivers of the big trucks behind were all gone, and only the trucks were left in place.

At this level, you still want to tease me. You really underestimate me. Qin Yuan walked directly in front of the overturned truck, took a deep breath, half-hunted and concentrated all his strength on his right leg, Immediately afterwards, he quickly kicked the big truck, and the driver of the truck was completely shocked. Such a heavy truck is completely unscientific!

Chen Jinguo stretched his neck to look inside the car. He didn't expect Qin Yuan to be so heaven-defying. Such a big truck was not difficult for him. Then Qin Yuan kicked the big truck aside again. The car was fully enough to pass, and the strength was simply too great.

The driver of the big truck was completely petrified at this moment, how dare he come forward to stop him, Qin Yuan made a gesture and asked them to \*\*\*\* the people to leave first.

He directly stepped forward and mentioned the driver, "Let me tell you, no matter how much you charge, today's matter will definitely not be over. Now I have a serious business to do. After this is dealt with, you can't afford to go around, do you know Do you know how many people have been harmed by such garbage, and how many families have been harmed by the things he made?"

The driver of the big truck was trembling with fright. How did he know that the matter was so serious, because when the Chen family gave him the money, it was to let him make an accident, and he didn't care about other situations. Anyway, as long as they spent half an hour on the road, they Four people can get 5 million.

## Chapter 869 Resilience

Besides, apart from the former boss Abby, Qin Yuan and his side have not received any missions for a long time. Although the prosperity of the country and the safety of the people are a good thing, it is quite painful to be idle like this.

Gao Shiwei threw a document to Qin Yuan, telling him that Zhang Long already had news, and that he was in country Y now. This was the information obtained by their undercover agents from the police. It was in front of Zhang Long, and there was a specific location on his side.

"Qin Yuan, for this mission, you not only have to safely bring back the undercover organization personnel in our country, but you must also completely destroy this organization, but you must also be careful, after all, those who seem to be vaccinated have already transformed their bodies. "

"Don't worry, Team Gao, I will definitely complete the task, shall we start now?"

"No, don't be so anxious, we have to wait for the undercover to send us a message, because Zhang Long's whereabouts are very mysterious, and everyone is afraid of scaring the snake. Now at least there is news, as long as the notification comes, you will lead the team to act immediately."

Qin Yuan repeatedly looked at Zhang Long's information, and the news from the undercover side was that Zhang Long's Daybreak organization was not simple, his younger brother's place was just a bait before, and those people were equivalent to experimental products.

The people under Zhang Long's team were the ones who were actually exposed to the first batch of vaccines, and the side effects were quite serious, and their recovery ability became more and more amazing after the direct transformation of them.

The information from the undercover agent is that this Zhang Long trained those people, and even shot them with live ammunition, and increased the amount of vaccines. Their cells are renewing very fast, and some people's bodies have adapted to this situation. This kind of transformation, after being hit by a bullet, he won't even bleed, because his cells are repairing quickly.

The undercover also thinks this is too incredible. This organization is very dangerous. The most important thing is that their next plan is to assassinate the president of country Y. This is also Zhang Long's plan. He intends to join hands with local militants to replace the president. .

And he also wants to use this opportunity to witness his vaccine army. This Zhang Long is like a lunatic, but he is very cunning and has no fixed place. The undercover only knows that Zhang Long is lurking in country Y and can see His chances are few and far between.

So once the news is confirmed, we will immediately contact this side and cooperate with the military to completely wipe out this criminal group.

After waiting for a few more days, there is still no news from the undercover. It is already the end of the year, and the whole team is cleaning up. The Chinese New Year is only a few days away. Qin Yuan originally planned to let the undercover come back if he could solve it before the end of the year. Reuniting with family members, it seems that I don't know when it will be.

Speaking of the reunion, he still misses Qin Zhengyang a little bit. This kid is quite pitiful. In the past few New Years, he was out on missions. This time there is nothing wrong. He plans to visit Grandma Sun and meet Qin Zhengyang by the way. Tell me about her going to the Lixiao organization. After all, this child has a lot on her mind and has been thinking about it.

After Qin Yuan came to the orphanage, the place became even more lively. The one outside was the New Year's Shopping Street. Everyone was buying New Year's goods. After all, it's the 30th day of the Chinese New Year. Qin Yuan only had two days' vacation time. After all, the end-of-year team There are more things.

He also specially bought red envelopes for the orphanage, and the children inside distributed red envelopes. Qin Zhengyang and the others were rather curious. They did not expect such a custom to exist during the Spring Festival in Yan Kingdom, and they were very envious of children like them.

Qin Yuan explained to them that this is called a new year's bag, and every child has it. Qin Zhengyang was still a little unhappy. Qin Yuan called him outside, told him about the Poxiao organization, and told him that the Poxiao organization would soon If he solves it, he can avenge his parents.

Hearing this news, the child showed a rare smile. Qin Yuan told him to stay here with peace of mind, and he would take care of other things by himself, making him believe that his ability is no problem for the Xiaoxiao organization.

At this time, Grandma Sun came out with flour on her hands, "I said, where are you two running off to be lazy, everyone is making dumplings, come in and help."

Qin Zhengyang felt the warmth of home here for the first time. He said that grandma was very kind, and his partners here were also very good. He didn't kill people, and he didn't worry about whether he would not be able to survive today. All these were brought to him by Qin Yuan, and he was very happy. Thanks for this man.

His eyes were red and he wanted to thank Qin Yuan. Qin Yuan pushed him directly and walked in, "There is no need to say that between us, you have already said thank you many times, live a good life in the future, don't worry!"

This is the first time for these children to celebrate the Spring Festival. The festival in Yanguo is really lively. Everyone sat together to make dumplings. Grandma Sun and Qin Yuan cooked a lot of dishes. When Qin Yuan was about to eat, he remembered that there was no firecracker. He ran

away Go out to set off firecrackers, it's time for dinner, and every family starts to set off firecrackers.

With the sound of firecrackers, all the children who were happy just now got under the table. Grandma Sun didn't know what was going on. Qin Yuan came in with a dazed expression, and the sound of firecrackers outside kept going, which was very lively Why are these children crying?

Qin Zhengyang actually stood in front of Grandma Sun, looking outside nervously, "What's going on, why are guns being shot outside, Uncle Qin, what should we do?"

Qin Yuan smiled, looking at Qin Zhengyang's nervous appearance, he really regarded Grandma Sun as his family, and rushed to protect Grandma Sun immediately, it turned out that these children took the sound of firecrackers as gunshots, he patiently He explained to these children that this is also their custom. Adults and children will set off firecrackers during the Chinese New Year, and he will take them to set off fireworks after dinner.

After all, these children lived in war-torn countries before, and the sound of gunfire accompanied them at all times. It had been a long time since they heard this kind of movement, which made them subconsciously think that there was a war.

"Don't worry, our country is very safe here, and I will definitely not let you get hurt. Hurry up and eat. After eating, I will take you to set off fireworks. It's very fun."

Grandma Sun felt a little sad. These children are really pitiful. The children in Yanguo are really very happy. They don't need to think about these problems at all, but these children have lived too hard before.

Qin Yuan accompanied the children to set off the fireworks, and returned to the army after having breakfast the next day. Unexpectedly, he received a notice in the afternoon, and there was a letter from the undercover agent.

It seems that it is really time for him to come back, Qin Yuan hurriedly assembled a team, Gao Shiwei confessed that Qin Yuan's undercover code name was Baige, and their secret code for the meeting was "Do you have any cigarettes?" They would reply "I'm here Baihui is here, do you want to smoke?"

As long as you match this sentence and make sure his identity code is correct, then he is their comrade, so Qin Yuan must not accidentally injure him, but he won't. After all, they still needed the guidance of this undercover agent in the past.

Li Erniu took out a steamed bun on the plane and gnawed on it, "I was thinking that I could eat the dumplings made by the squad leader tonight. Yesterday's dumplings tasted really good. It seems that I can only eat them when I come back."

"You kid thinks about eating all day long. Anyway, we didn't go out to perform missions on Chinese New Year's Eve. These undercover comrades really worked hard. They were out during the Chinese New Year and couldn't reunite with their families. We must bring him back safely."

"It's no problem. He was able to go in undercover. Such a dangerous criminal group will bring him to our team when he comes back. Let's treat him well, but I don't know if this undercover brother can drink."

Everyone chatted without saying a word. For this mission, Qin Yuan only felt that it was like an ordinary mission. Anyway, with his ability, there should be no problem.

The undercover agent on the plane sent them another message, locating a small town in Country Y. It seems that Zhang Long is hiding in it. They must hurry up, and they don't know how long Zhang Long will be here.

At this time, Zhang Long came back this time because there were often problems with the vaccine, and the supply of the vaccine was not enough, and these were produced in country Y. The temperature of this vaccine is very controlled. The reason why he chose it here is because The conditions in country Y are very suitable for the production of vaccines.

Although they can now artificially control the temperature, no one interfered with him in this place, and some local armed forces gave him protection and support.

Qin Yuan and the others had already sneaked in and arrived at the location where the undercover agent was located. After all, it was daytime, so it was too blatant to charge in like this. Qin Yuan decided to wait until after dark to act.

The location sent by the undercover agent looked like a manor, and no one could be seen inside. Occasionally, one or two people in overalls passed by.

When it was just getting dark, the headlights in the manor came on. Qin Yuan had done investigations before, and they could climb in from the back wall. There are monitoring facilities at the corners on both sides. He took out two throwing knives to aim at the monitoring equipment, directly cut off the line of the monitoring equipment.

At this time, the people in the monitoring room looked at the monitoring that was suddenly blacked out. What is the situation? Could it be that there is a problem with the wiring? Grab your tools and get ready to go overhaul.

When he got there, Qin Yuan and the others were already squatting in the corner, waiting for that person to come, Qin Yuan directly dealt with the maintenance personnel with a throwing knife.

Because the undercover agent mentioned by the undercover agent had a very special physique. After all, he had undergone a vaccine modification. He also observed the person carefully, but he didn't respond, and died on the spot.

It seems that he is really just a staff member, not a core member of the internal staff. Qin Yuan and the others quietly climbed up from the ugly back. I don't know what happened to the vaccine this time. After being tested on those people, many people died directly.

He couldn't come with so many test subjects, and the doctor wearing white work clothes next to him said: "Boss, this is actually not to blame for the vaccine because people's physique itself is also changing. Like this vaccine, it not only kills cancer cells, but if it kills other cells kill, and therefore the man dies."

"I know that they have a lot of results. What I want now is for you to solve it. What's the use of you talking to me so much? Can you solve it?"

This doctor is also in a dilemma. After all, he did not personally participate in the design of this vaccine, and he only got a semi-finished formula. He doesn't know where the error is. It can't be as perfect as the previous vaccines.

"Boss, please give us some more time, my team is working hard to do research."

"Time! What I lack most now is time. In the end, I will only give you three days to get it done! I raise you people as vegetarians! I think you are not working hard enough, or I will use your people to test it. I'll see if you can figure it out with your own experiments."

The researchers next to him were shocked when they heard it. How could this be possible? They were originally specialized in research and knew the side effects of this thing, and none of them had cancer. If they tried it forcibly on themselves, they might be killed directly.

"Boss, this won't work. Our physical fitness cannot meet the requirements of the experiment. Doing so is also a waste of vaccines."

"Hehe, I don't think it's a waste, so let's start with you, take him down, and vaccinate him now. I haven't done any experiments on normal people anyway, so let's start now!"

At this moment, Zhang Long laughed like a lunatic. He just wanted to complete his experiment at the moment. If the vaccine could work on normal people, then he wouldn't have to look for those people with cancer.

The doctor next to him hurried out to stop him. Although he was not going to use him as an experiment now, it would be his turn sooner or later depending on the situation.

Unexpectedly, Zhang Long took out a gun from his waist and put it on the doctor's forehead, "Do you think you are valuable? Let me tell you I can find people like you Many, if you don't want to do it, I will kill you immediately, after all, you know too much, if you want to do it, let me do it well."

The doctor nodded quickly. This man is simply a lunatic, so he can only obey him.

Just like that, the meeting was dismissed, and Zhang Long planned to take the doctor directly to the laboratory. Unexpectedly, just as the elevator door opened, Hei Dongdong's muzzle pointed at the doctor in front of him and was instantly killed by Qin Yuan.

Zhang Long's smile was very fast, and he turned around to dodge. Qin Yuan quickly threw two throwing knives, and the flying knives pierced his shoulders and abdomen fiercely. Pulled out.

"I didn't expect you to be very capable, and you actually found me. It seems that there is something wrong with my staff, but who is it? But since you are all here, then stay and be me as a test product Come on, don't go back."

He Chenguang looked at Zhang Long in shock, and he pulled out the knife just like that. Although there was a wound, the wound healed soon. If they hadn't seen it with their own eyes, they wouldn't have believed it.

Qin Yuan is not surprised, he also has this kind of ability to heal wounds, but he relies on the system, he did not expect these people to rely on the effect of medicine to do the same.

#### Chapter 870 Unexpected Circumstances

At this time, more than 20 people rushed out from the meeting room at the back. These people were all transformed by the vaccine and had very high physical fitness. At this moment, they were staring at Qin Yuan and the others viciously.

"Boss, it turns out that you are talking about these people. You don't need to do anything about this trivial matter. We will solve them soon."

"Then don't let me down, take this as a quiz before you cooperate with Country Y!"

Zhang Long's conspiracy is very big, what he values is the interests here in country Y, and the militants who cooperate with him, he also promised to train them a strengthened army, just when Qin Yuan and the others came to his door, he thought Take them as an experiment, this Qin Yuan is really not simple, he killed his trash brother before.

"By the way, you were the one who killed my Arthur, right?"

"So what? People like you are punished by everyone. Your good days are coming to an end today."

"Hehe, that idiot Zhang Donglin put my people there. He can't handle such a small matter. Since you are so arrogant, then I will use you for experiments. Remember, except for this person, everyone else will be killed. gone."

As soon as Zhang Long's words fell, the people on the opposite side had already fired. For a while, everyone took advantage of the position inside to evade shooting. They would rather think that

since the throwing knife is useless, after all, the penetration of the throwing knife is still not as fast as the bullet. , then simply use an assault rifle.

After these people have been trained, their speed and reaction have been improved. Qin Yuan aimed at a person directly in front of him, and he quickly dodged. The bullet only hit his shoulder and almost passed through his aorta.

This person started to bleed, but he actually yelled and pulled out the bullet that hit his shoulder with his hand. Although their recovery ability is very fast, they can still feel the pain. This person was quickly killed by the side The person brought him down, and after a while, this person actually walked onto the battlefield again, and he seemed to be fine.

Qin Yuan gasped, this is too exaggerated! Although the bullet just now didn't completely penetrate the past, the bullet area of this kind of assault rifle is rotated, and the wound may be very large. His recovery ability is too fast.

At this time, Qin Yuan switched to a sniper rifle, aimed directly at the head of a person directly in front of him, and instantly the person fell to the ground and died of convulsions. Qin Yuan sneered, thinking it was some monster, he hit the head directly Let his brain cells die and see how he recovers.

"Attention everyone, those people who aim at the head are not without weaknesses. They are not immortal, as long as they shoot to the head, they will be fine."

Qin Yuan discovered their weakness, and these people on the opposite side are not to be outdone. These people seem not to be afraid of death at all. Even though they know that their head is their weakness, they are still rushing forward desperately. Ting Yuan thought that only twenty There were so many people, I didn't expect people to rush out of it continuously.

These people have had cancer before, and most of them are people who have experienced death and are on the verge of death, so they are not afraid of death at all. It was Zhang Long who gave them a second life, so these people also rushed forward so desperately .

Qin Yuan turned over and jumped out and shot the headshots of the two people with light machine guns on the trolley in front. He used the Desert Eagle, which was so fast that it almost stuck to the enemy's face.

"Damn! What is the origin of this kid, and why is he so fast?"

"I don't know, anyway, let's fight to the death today! You hurry up and tell the boss to retreat, this kid is hard to deal with, let's hold them back first."

As soon as the man finished speaking, he threw two grenades in the corridor, and the entire corridor was blown down in an instant. The building here is already very old, and it can't stand the power of such an explosion. In an instant, everyone fell from the corridor. go down.

Qin Yuan's reaction was very fast, and he pulled Li Erniu who was closest to him. Fortunately, he was not hit by the falling chandelier.

Wang Yanbing was not so lucky. His right leg fell from a huge ceiling and was firmly pressed down. Zhang Long's subordinates were not afraid of death at all, they jumped directly from the top and chased them down, non-stop towards Qin Yuan and the others. Shooting, willing to carry the assault rifle in front to cover Li Erniu and the others, and let them go to check on Wang Yanbing's injuries.

This kind of ceiling is very thick. I don't know what happened to Wang Yanbing's leg injury. Anyway, his face is pale from the pain, and he feels that his right leg has lost consciousness in an instant. Li Erniu and the others tried several times, but they couldn't remove the piece of cement. The slab was raised.

The opposite side was still throwing grenades, Qin Yuan raised the \*\*\*\* of his gun, and shot the flying grenades, but there were still fish that slipped through the net and exploded around them. It was the first time that Qin Yuan and the others were so fearless in the face of these Those who die are simply the ones who come up with their own words.

Everything can be their weapons. The assault gun ran out of ammunition, and they picked up stones from the ground and threw them at Qin Yuan and the others, and the people behind continued to make up for them. These people were simply desperate.

Qin Yuan rushed forward and kicked the three rushing people away instantly with his own strength, and then he shot quickly, and the three of them were headshot by him in succession.

"Erniu, how is your side? How is Yanbing?"

"Brother Qin, no, this cement board is too heavy, we can't lift it at all."

Qin Yuan had already repelled the enemies in front, and let Li Erniu and the others come up to cover first. He went to rescue Wang Yanbing. Qin Yuan grabbed the cement board with both hands and raised the whole cement board. This is the heavy ceiling above. , So it was really heavy, Gong Jian took the opportunity to drag Wang Yanbing out.

He became more and more worried about Wang Yanbing's injury. At this moment, footsteps came from downstairs. It seems that the rescue team invited by Zhang Long should be a local armed organization.

"Hahaha, hold on, brothers, our reinforcements are here!"

These people knew that someone was coming to support them, so they were even more excited and rushed forward desperately. Although their head is their weakness, these people are not vegetarians. Their cells have been renewed and reformed, so their metabolism is very fast and their speed is also high. Become more sensitive than ordinary people.

When Li Erniu was changing the magazine, a man in front had already rushed up, carrying an assault rifle and shooting at Li Erniu. Qin Yuan reacted quickly and threw a throwing knife, although the throwing knife could not kill them. , but at least it can slow him down.

"Brothers, please cooperate well. Don't focus all your attention on our side. Believe me, Yanbing is fine. You should pay attention to your cooperation."

Li Erniu was a little scared and nodded. If Qin Yuan hadn't reacted quickly just now, he would have died heroically by now. Although he was wearing a basic bulletproof vest, the bulletproof vest was useless at this distance.

Qin Yuan took the opportunity to quickly check Wang Yanbing's injuries. It was horrible. His entire right leg was completely deformed. Gong Jian couldn't bear to look directly at him. He turned his head away. At this time, Wang Yanbing was very weak and his right leg was bloody.

He also couldn't see the condition of his right leg. After all, he couldn't straighten up anymore. Qin Yuan could only comfort him quickly. This is no problem, and he can save it.

"Gong Jian, I need everyone to buy me ten minutes now. Yanbing's leg must be treated quickly, otherwise he will lose too much blood and he will really be in danger, and I will be helpless at that time."

Unexpectedly, Wang Yanbing bit his lips and said slowly: "Brother Qin, there is no need, you hurry up and take the brothers up now, let alone the reinforcements behind me continue to come, you are our key force now, I know we Such an injury is serious, the last time I saw you treat someone else, if you fell down, then we are completely finished."

"Yan Bing, what nonsense are you talking about? You have to trust me, I will definitely save you."

"Captain, don't make fun of the lives of your brothers. You see, He Chenguang is also injured. If it doesn't work, give me a grenade. I'll blow up all these rubbish. Grandma, I have a backup before I die."

When Gong Jian heard what Wang Yanbing said, his eyes turned red instantly, "What nonsense are you talking about, let me tell you, don't say ten minutes, even ten hours, I have to guard today!"

Li Erniu in front also said loudly: "You have to trust Brother Qin, there is absolutely no problem with him, no matter what, brother is impossible to leave, stop talking nonsense now, boy, and cooperate with Brother Qin for treatment. "

Gong Jian directly picked up the gun and rushed up. Qin Yuan quickly took out the silver needles to treat Wang Yanbing. It is estimated that there is really not much fighting energy left.

But now saving lives is out of the question. Wang Yanbing has already started talking nonsense, because the severe pain made him a little unconscious.

Li Erniu and the others were divided into two groups. One group was responsible for facing the enemies ahead, and the other group was responsible for dealing with the armed groups that came to reinforce them. Qin Yuan had to put all his energy into it at this time, otherwise even a little bit of trouble might happen. accidents.

"Brothers, I really can't be disturbed for ten minutes, it's all up to you."

"Brother Qin, no problem, trust us."

He Chenguang's arm has been shot, and now it is bleeding, he just wrapped a piece of gauze casually, and now he can't care so much, he wants to buy time for Qin Yuan and the others.

"Why are his grandma's garbage so deadly? It seems that we haven't fought for a long time, but I won't be afraid of them."

Li Erniu directly dragged his coat, raised his assault rifle and rushed up. He Chenguang was injured, which would still affect his marksmanship, so most of it was supported by Li Erniu.

Qin Yuan kept injecting silver needles. Wang Yanbing's bleeding had stopped, and his legs were slowly recovering. However, these were all superficial phenomena. The most important thing was that his inner bones were completely deformed. After using all the power, Qin Yuan went all out, and used all the eight sky-defying needles in one go.

He just felt suddenly a little unstable, and his feet began to feel weak. Fortunately, Wang Yanbing's complexion has slowly recovered, and the wound on his leg is also recovering quickly, but in order to pretend, he still used gauze to wrap Wang Yanbing. After all, Li Erniu and the others couldn't explain clearly even if they had to ask themselves. No matter how exaggerated it is, it is not so powerful.

"Brothers, it's all right, let's evacuate first, the situation here is more complicated than we imagined."

Brother Qin would have rushed forward with his gun before changing it, but now he has lost most of his energy in order to save Wang Yanbing, so he eliminated the few people in front and asked Li Erniu and the others to withdraw first. .

Qin Yuan threw throwing knives at the ordinary militants who rushed up from behind. These militants were afraid of them, but they were not as strong as those people. Many people who saw them died and retreated back.

"Retreat quickly, the man above is too powerful, I don't know what weapon he used to kill most of our people directly."

Qin Yuan only used flying knives and playing cards, but because the speed was too fast, these people couldn't see clearly, so they thought Qin Yuan used some kind of bacterial weapon, which was invisible and intangible.

In an instant, these militants retreated steadily, and Qin Yuan and the others quickly withdrew. Brother Qin was already insisting on relying on willpower. After all, he just used throwing knives and poker skills, and these were all consuming his energy. , he is already feeling very tired now, once before he passed out directly after using the Heaven-Defying Eight-Needle.

Qin Yuan asked Li Erniu and the others to retreat first, and only when they retreated can he fight freely here. He wants to use the charm skill but the charm skill requires more energy to control so many people high.

So he squatted at the stairs and came to fight one by one. The members of the red blood cell team were all injured to varying degrees. With Qin Yuan joining the battle, they breathed a sigh of relief and hurriedly treated the wounds on their bodies.

At this time, Wang Yanbing had already woken up. He felt that his legs were fine. Although they were wrapped in gauze, they could jump and jump. Seeing that everyone was injured because of him, he felt a little sorry.

Holding the gun and participating in the battle with Qin Yuan, Li Erniu and the others bought time to bandage. At this moment, Brother Qin felt that a double image had appeared in front of his eyes. This was the first time he had such a situation. It was a serious lack of energy. , he is already too tired and really needs to rest.

He yelled out with the last of his strength, "Erniu! You guys retreat quickly! Get out of this place."

The militants from behind charged up again, Wang Yanbing quickly ran to the rear to fight back, at this moment, a rocket hit the direction of Qin Yuan's station, Brother Qin had no time to dodge, and the instant speed did not have the energy to continue It worked out.

So be it! Qin Yuan felt too tired, his willpower could no longer hold on, and he fell down directly. In fact, Qin Yuan was not injured by the explosion, and his defense was super strong.
