

Special Soldier 871

Chapter 871 Let's use you as an experiment

The power of this kind of explosion could not hurt him, besides, he was still wearing body armor, coupled with his own defensiveness, but his face was scratched by shrapnel, and he quickly recovered himself.

But Li Erniu and the others saw Qin Yuan collapsed in the smoke, and everyone desperately ran forward to call for Qin Yuan. In fact, he was just too tired, his energy was completely exhausted, and he passed out.

This is what Qin Yuan did not expect. He originally thought that it would be no problem to protect Li Erniu and the others with his own ability, but the accident happened so suddenly, and then the second and third rockets exploded beside them. Ruan Ruan ran towards the outside, but at this moment they were already surrounded by inside and outside.

"Damn it! I'm out of bullets, who else has any?"

After all, this battle has been going on for a long time, and the disparity in the number of their two sides is too great. They were pinched by people from both sides, and soon there was a shortage of ammunition for everyone, and after a while, the ammunition was also exhausted, but these People seem not to want to kill them, but to surround them all together.

"Damn, if you want to kill or cut, come now! Anyway, it's worth it to go on the road with the brothers!"

This may be the biggest crisis that the red blood cell team has encountered since carrying out its mission. They did not expect that once Qin Yuan fell, the entire center would be disbanded. It's special, and with a large number of people, it's normal for them to lose.

At this moment, Qin Yuan was unconscious. Li Erniu put it on the ground and wanted to check the wound for him. He didn't know where he was injured in the explosion just now, although he didn't see any bleeding.

"Yan Bing, come and see where Brother Qin is injured. I can't see the wound. Is it an internal injury?"

At this moment, Zhang Long came down. He looked at the members of the red blood cell team with a smile, especially when he saw Qin Yuan lying on the ground, he clapped his hands happily.

"Hahaha, I didn't expect you to have such a day, especially that Qin Yuan, **** it, do you know how many people killed me today?"

Speaking of this, Zhang Long gritted his teeth and directly picked up the gun next to him, aiming at Qin Yuan. Li Erniu rushed forward to block Qin Yuan. Even if everyone was going to die, he would block the attack for Qin Yuan. gun.

"Hehe, why are you still engaging in brotherly love? Let me tell you, there's no need for you all to die. I won't kill you now, it's just that I changed my mind. I want to torture you. Aren't you people calling for justice? I'll show you what it means to be human!"

At this time, a man who looked like an officer came out from the armed organization behind, and he stepped forward and said to Zhang Long with an apologetic face: "Boss Zhang, I'm sorry, we did have some problems just now, but fortunately We fought back desperately, and we won the final victory."

There was still a smile on Zhang Long's face, and he couldn't tell if he was angry. Unexpectedly, he quickly picked up the gun and killed the officer who came up to speak. The militants behind were shocked and raised their guns Gun, this is almost in an instant, this person is crazy, how can he do it to his own people?

"What? You trash want to fight with me to bring his body back? Tell your boss that I helped him solve a trash. When my people are desperately trying to escape, I tell you that if you don't catch him today Stop them, and you will all die."

Zhang Long must be very angry. In this battle, more than 200 people died in his 300-man army. This Qin Yuan is really not simple. He was able to lead the team to kill so many people. You must know this Humans are created by how many vaccines he has used and how long it takes to cultivate them.

That's why he changed his mind. He wanted to torture Qin Yuan well so he wouldn't let Qin Yuan die so easily.

After hearing what Zhang Long said, those militants silently put away their guns. Even their boss didn't dare to say anything to Zhang Long, so they could only go and take the officer's body away.

Zhang Long sneered, they are indeed a bunch of trash, these people have no blood at all, how can they be the king of this country? Although he is cooperating with the militants of country Y, his greater purpose is to replace these militants, and now he is just using these militants.

He has a big thing to do, and he must not be interfered by Qin Yuan and the others. These people are big troubles and must be resolved.

"Take them into my special cell."

But Li Erniu and the others are so easy to submit obediently. Anyway, they will die sooner or later. If they go in and be tortured by him, it is better to fight to the death here. Although everyone has been injured to varying degrees, they are not weak in fighting. Bullet, then start a hand-to-hand fight with them.

But Li Erniu and the others didn't notice that a person in the crowd shook his head slightly at them, wanting to remind these people not to confront them hard. Sure enough, the weapons in these people's hands had become electric batons, and they didn't want to kill these people. Kill them directly, but won't let them go easily.

After some fighting, Li Erniu and the others were still subdued, and they were taken down together with Qin Yuan. They didn't know where they were going to be taken. The whole corridor was dark and very damp. It seemed to be in the direction of the basement. .

Everyone came in from the outside and hadn't gotten used to the darkness inside. When they saw it clearly, they realized that this was not a basement at all, but a natural karst cave. The space inside was very large, almost as big as several football fields.

Immediately after Li Erniu and the others were escorted forward, suddenly the people behind pushed them down. Wang Yanbing held Qin Yuan tightly. He didn't want Qin Yuan to be injured in the process. They thought it would be a slope. Dao, everyone can just roll down, but it turned out to be a vertical space.

After everyone fell, there was a pool below. The water here was freezing cold. After Li Erniu and the others fell, the cold water irritated the wound. It was really uncomfortable, and Qin Yuan still hadn't woken up yet.

This pool is very wide and the water is very deep, you can't even touch the bottom, surrounded by bare stone walls covered with moss, when everyone got down, they only saw a wooden plank in the middle, and they could only swim desperately to the bottom of the wooden plank. Place climbed up.

At this time, Zhang Long's voice came from above. This place is very big, and Zhang Long's words echoed, "Let you enjoy yourself here, let you live for a few more hours, and before that Make a contribution for me, otherwise I will be wasted and so many people will die."

"You guard them well. If anyone wants to climb up, shoot them to death. Besides, they won't be able to climb up, hahaha."

After Zhang Long finished speaking, he left with his people. On the high rock wall, there were seven or eight guards standing on it, staring at them with guns.

At this time, everyone sat down and observed the surrounding environment. The wooden boards they were on were built behind a platform. The wooden boards had been soaked for a long time and had been dilapidated.

"I'll go. The water here is too cold. I don't know if this place is more than ten meters underground. I don't know what kind of experiment that pervert is going to use us for."

Gong Jian pointed to the water droplets on the cliff in front, "It seems that this cave was formed naturally, but he discovered it by accident, so it formed a prison. You see, there are still traces of climbing on the wall directly in front, but there are no traces of climbing." I can't climb it, it's so slippery, and there are people with guns on it."

Now everyone didn't know what to do, and Qin Yuan hadn't woken up yet, so after a few hours, the guards had already grilled food on it, and there was a burst of meaty smell from it, Li Erniu couldn't help it. He kept swallowing his saliva.

"If I knew I wouldn't have wasted two steamed buns on the plane, it would be nice to keep them and eat them now."

Wang Yanbing felt a little sorry, after all it was all because of saving him, "Brothers, I'm the one who dragged you down this time, alas!"

"Yan Bing, what are you talking about? You said that we are all brothers. Brothers don't talk about these things. If you want to live together, if you want to die together, what's the big deal? Besides, it's not surprising at all. you."

He frowned and looked at Qin Yuan who was lying next to him. Qin Yuan's condition should be fine, but at this moment he was snoring. He should have fallen asleep from being too tired as before. As long as he has no other physical problems, everything will be fine. When Qin Yuan woke up, there should be a way to escape.

At this time, the people above were restless. After all, they had killed so many of their brothers. They started throwing stones from above and hitting them, just like teasing monkeys, and laughed loudly on top. Li Erniu squeezed Fist wished he could go up and beat them all up now.

"Damn it, you guys have the ability to come down! What kind of men are you up there? I'm going to have a serious fight with you."

The people below didn't care about this at all, and continued to throw stones at them. Li Erniu and the others didn't dare to move, because just now, the board began to tilt if it moved casually. It's over.

At this time, everyone was holding a breath in their hearts. Even if they died later, they would beat these people up. Being a prisoner is really aggrieved, but these are okay. Qin Yuan also treated them before. Conducted captive training.

Gong Jian moved Qin Yuan to the back, and they used their bodies to block the flying stones. They couldn't hide in this narrow place. After a while, everyone was hit by the stones and their noses were bruised and their faces were swollen. Finally, the people above were tired from the beating , no more stones were thrown.

In this karst cave, everyone didn't know the time, they just felt very cold, just fell asleep and woke up from the cold, just like this repeatedly He Chengguan suffered the most serious injury, and his wound was already inflamed at this time, Gong Jian touched He On Chen Guang's forehead, he already had a fever, and Qin Yuan still showed no sign of waking up.

This is how to do ah?

At this moment, someone came in, and the people on it put down a small boat and slowly rowed over. Li Erniu had already clenched his fists and was ready to fight, but unexpectedly, the people on the boat threw over a smoky object. After instantly smelling this smell, Li Erniu who had just stood up fell down directly.

Gong Jian felt very dizzy. These people are really despicable. They even used such indecent means, "Everyone is well organized, and none of them can be taken away by them!"

But this is drug after all, they fell on the board in an instant, and then Qin Yuan was taken away by the people on board. Zhang Long was the first to attack Qin Yuan, he knew that this person was the most difficult to deal with, even though he was in a coma now. However, he still asked his subordinates to tie up Qin Yuan. This man's ability is too strong.

"Boss, are we worrying too much? This kid hasn't woken up since he came in. Could he be dead?"

"How can this kind of person do it so easily? Listen to what he's doing, he's snoring! I don't know what's going on, anyway, it's better to be cautious, and use him for experiments first."

Then Qin Yuan was brought to the laboratory by these people. The experiment that Zhan Long said was to let the professor transplant cancer cells directly into Qin Yuan's body. Aren't these people talking about justice? Just let them feel their past pain.

The professor just thought this plan was too crazy, and this kind of experiment with human body was too insane, but on the other hand, he also wanted to know whether cancer cells could be transplanted from one person to another.

At this moment, his eyes were also shining with excitement. He was willing to be fixed on the operating table, just waiting for him to transplant the cancer cells. During this process, he could not let this person die. Without any accident, the cancer cells were successfully transplanted into his body.

Now is the time to observe, to see if these cancer cells can produce a fusion reaction with his body.

Three hours passed. The doctor excitedly came to the laboratory and conducted a blood test on Qin Yuan, and found that the cancer cells had disappeared!

The doctor was shocked, what kind of physique is this person, can he actually fight cancer cells? Or is this kind of cancer cell transplantation itself unfeasible, as if these cancer cells had been absorbed by his body.

Zhang Long also couldn't wait to come to the laboratory, but he didn't see the result he wanted to see. Qin Yuan was still alive and well, and his body was normal. He was a little unwilling, and frantically picked up the equipment next to him, He was going to come in person.

"It must be that your dose is not enough. Give him all of it. I can't believe that his body can still absorb such a large dose."

The doctor looked at Zhang Long with some fear. This person was simply too terrifying. At this time, Qin Yuan was still in a deep sleep. Several hours passed like this. When they observed again, they did not expect the cancer cells in Qin Yuan's body to reappear. Disappeared, it is simply unbelievable.

This is originally because of Qin Yuan's physical problems. He is invulnerable to all poisons, and the same is true for cancer cells. For this kind of foreign things that forcibly enter the body, they are all regarded as poisonous substances and completely wiped out.

Chapter 872 Burned the Laboratory

Zhang Long sat on the stool unwillingly. How can these people criticize him from a moral point of view? A person like him will suffer from illness. He just wanted to live before. God is too naive. It's fair, that's why she has to fight against the sky, why are those people superior? He's the one who wants to be the one who stands tall.

So he didn't feel that what he did was wrong. The doctor explained that it might not be because of the special constitution of this person, but that the cancer cells could not be transplanted into normal human body.

"Hehe, since this doesn't work, let's just give him our vaccine, the maximum dose, and I'll see how he survives this time."

The doctor nodded and went down to prepare. No one noticed that Qin Yuan, who was lying on the operating table, slowly woke up at this time. He had already heard the conversations of several people. These people's ideas were really simple. It would be unavoidable to want to kill himself like this. It's too easy, but he is very curious about this vaccine. If this is the case, he will see who dies first.

Zhang Long walked up to Qin Yuan with his hands behind his back, "It's a pity, you are indeed a strong man, you can kill so many of my people, but you can't be used by me, there is no way, after all, if an opponent like you is let go now From now on, there will be no chance to kill you again."

After a while, the doctor brought the vaccine, and he signaled the doctor to give him three doses directly. Normally, when they just started, the maximum acceptance was half a dose. Now he pushed him three doses at once, but it would See how this person can handle it.

The doctor had just walked to Qin Yuan's side. Unexpectedly, Qin Yuan, whose hands and feet were bound, suddenly jumped up. The iron block that fixed his wrist flew out, and the vaccine was also pinched in his hand.

Zhang Long didn't expect such an accident to happen. He immediately picked up the pistol on his waist and shot at Qin Yuan, but Qin Yuan was faster than him. Now that he had slept, his energy had fully recovered. He turned over and hid behind, then kicked the operating table to the door, blocking the way.

He was just worried that Zhang Long would run away again, and he must be killed today.

Zhang Long turned pale with shock, how could it be possible that he had not been injected with anesthesia before the operation? It stands to reason that even if she woke up, she wouldn't be so fast.

At this time, Qin Yuan heard a system prompt in his mind, "Ding! Congratulations to the host for obtaining the anti-cancer vaccine. Will you recycle it?"

"Okay, let's recycle now."

When the subordinates outside heard the movement, they all raised their guns and wanted to rush in. Qin Yuan directly dealt with the few pieces in the laboratory with a few flying knives. Although these people have the ability to recover, the flying knives can only control their speed, but Qin Yuan jumped over to pick up the gun on the ground, and shot them several times in the head.

After solving the people here, Zhang Long hid behind the cabinet and kept shooting in the direction of Qin Yuan. The people outside were even more desperate and directly blew up the tempered glass of the laboratory with grenades. They Started a fierce fight with Qin Yuan.

At this time, Zhang Long was completely panicked. He seldom has such a panicked side. He felt that everything before was within his control. Only when Qin Yuan appeared, everything changed. After the previous battle, There are not many people left on his side, and this force is not comparable to Qin Yuan's.

She took out her mobile phone and called the militant boss who was cooperating with them, "There's something wrong here, send someone to rescue quickly!"

Unexpectedly, it took a long time for the opposite person to speak, "What? Do you, Zhang Long, still have time to beg for help? Besides, is this your attitude of begging for help?"

Listening to the other party's tone, Zhang Long couldn't get angry. Fuck, these people just used themselves up. I wanted to use them but was used instead. Those people must have talked about the situation of their troops when they went back. .

"I'm telling you not to go too far. If you are sure, we will terminate the cooperation. But don't go too far. I have a vaccine in my hand!"

"Then you can let your vaccines help you fight the war. Besides, my people are also people, Boss Zhang, don't you know that you have to ask for help? My subordinate yesterday was killed by your own hands. You Why don't you understand? I suggest you just surrender!"

Zhang Long directly threw his phone away. It seems that the armed boss has no intention of rescuing him at all. He sneered and said those words here. Surrender is impossible, because he knows that even if he surrenders, Qin Yuan will not let him go. In this case, he might as well fight to the death.

After the armed boss on the opposite side hung up the phone, he said unhurriedly to his subordinates: "Delete and deal with all the records of dealing with Zhang Long, including those who knew about it before. I don't want people to know. He and I There is a connection here, after all, we cannot afford to offend that Qin Yuan."

"Jennifer, are we sure we want to do this? But all our plans have come to nothing. To be honest, Zhang Long is a very good pawn, and we have invested so much money and troops. Wouldn't it be better to just give up like this? It's too bad."

"Huck, it's best to give up now and stop the loss in time. This is the most commonly used word among the Yan people. This willingness is very strong. We can't afford to offend him. If we don't stop now, maybe he will destroy our entire team."

The person next to him gasped, feeling that it was a bit exaggerated, this person can't be! I heard that he wiped out some drug lords before, but their side is also an armed base, which can directly confront the government army. How could he be his opponent with a small team?

"Since you said that, then I will do what you said. It's just that we gave up on Zhang Long. It's a pity for him. His vaccine army is quite powerful."

Jennifer was not talking, and nodded to let the people just go down to do things. The reason why these people died was caused by his arrogance. He has always kept a low profile, including Zhang Long, who thought he was very smart. Wanting to use himself has actually seen through his tricks a long time ago, and now he just uses Qin Yuan's hand to get rid of him.

There is no need to keep a dog who is not familiar with it. As he said, his vaccine army is indeed very strong. If things can't be controlled by him later, wouldn't he give up the position he has played for so many years to others? How could he be willing?

Coupled with the power he has accumulated over the years, he doesn't want to be completely eliminated by young people. This person is very famous. As the number one on the killer list, his reward is as high as 200 million, and no one has ever dared to accept it. .

This Qin Yuan has made a lot of moves in recent years, wiped out many criminal gangs, and has become the first person on the killer list, and the amount is still rising.

But no one wants to take risks. Money is important, but life is more important. Money can be earned again. If life is gone, nothing is left. He has always understood this truth, and being cautious is the way to survive. Such a powerful opponent, He doesn't want to provoke.

After that Huck came out just now, he took his hands down to deal with these matters. He couldn't figure it out along the way, and complained to the people next to him.

"I want to talk about what happened to Jenife in the past two years, why he has become more and more timid. Our base has a thousand or two thousand people, and we are still recruiting weapons, which are also the most advanced. Compared with those small groups , our strength is very strong."

"Maybe the boss has his own ideas. He wants to protect the brothers more, but I think he is a little confused in doing this."

"I really don't want to listen to him anymore. If he continues to lead like this, I don't know how long our accounts will last. To be honest, I'm a little tired. I always feel that his leadership is in the wrong direction."

The subordinate next to him looked around calmly.

"Otherwise, find an opportunity. In fact, we all elect you to be the boss. The boss must be loyal and ruthless. You are usually good to the brothers. He, Jeff, has never led us to fight. After the battle, I just stood tall in that command position."

When Huck heard this, the corners of his mouth rose. It was a good thing that someone supported him. One of them came out to work for power, and the other was for money. How could he be willing to be the second in command after so many years? And he, the second-in-command, has to lead his brothers to fight to the death, while Jennifer only needs to use his lips to command.

But he stopped it immediately, after all, walls have ears here, "Don't say such things in the future, let's just concentrate on obeying the arrangement!"

Although he said so, he winked at the subordinates next to him. He had planned this matter for a long time. Wasn't he afraid of that Qin Yuan? I don't want to just this person, this person's ambition is really great, let him consume Qin Yuan's troops over there, and when the time is almost right, he will be the one behind and then jump out to deal with Qin Yuan.

But at this time in the laboratory, everyone was fighting fiercely. Those people rushed forward desperately, but were all dealt with by Qin Yuan. Qin Yuan's marksmanship was very accurate. No matter how fast these people's physical reactions were, they were all blasted by Qin Yuan head.

He first threw throwing knives or playing cards to restrict the movement of these people, and then directly shot his head. Those people were not his opponents at all. Zhang Long was also shot in the thigh. Although he has the ability to recover, this Recovery also takes time.

Seeing the constant deaths of his subordinates outside, he was completely disheartened. He didn't expect that he would be dealt with by this Qin Yuan after recruiting so many people after so many years of planning. He was really unwilling. He had already died once. People, why should they be afraid of him anymore, even if they die, they will hold him back.

Zhang Long rushed up directly, pulled away the grenade and hugged Qin Yuan, because there were not many people on the opposite side.

"Damn, you ruined everything about me, then I won't let you live, let's all die together!"

Unexpectedly, Qin Yuan let out a cold snort, kicked Zhang Long who was holding him outside with a kick, and now his energy was fully restored, and he couldn't bear this explosive speed at all.

Zhang Long's eyes widened, he couldn't believe it at all, this person's strength was so powerful, he could feel his bones breaking the moment he kicked over.

Immediately afterwards, Zhang Longfei exploded outside and those men who rushed up. After the explosion, there were still two people lying on the ground crying continuously. Although they had the ability to recover, they would still be in pain.

"You guys are so loud!"

Qin Yuan stepped forward and fired two more shots at the two people. The laboratory became quiet in an instant, and there was no living person except Qin Yuan.

He sat on the ground and picked up a piece of clothing at random, and wiped the blood on his body. Now he can look at the rewards given in the system, after all, the anti-cancer vaccine was recalled just now.

"System, what is the skill recovered just now?"

"1. World-class cell killing technique, killing people invisible, completely killing the enemy's red blood cells, without any superficial wounds from the outside, reminding the host that this skill does not consume energy points, and the vaccine itself has a recovery function."

"2. Energy absorption and recovery skills. The energy consumed by the host can be extracted from other creatures, such as animals or people. When a large amount of energy is consumed, energy can be extracted from other creatures to supplement one's own physical energy."

"3. A world-class scientific research master who has mastered the basic format of multiple vaccine research, the host can be modified, and multiple vaccines have been developed to benefit mankind."

"Please host to make a choice."

Qin Yuan looked at the small vaccine preparation in the system grid. He didn't expect this thing to be so useful. Almost all the skills this time are very useful. To be honest, he wants every item, but now he lacks the most What's more is the energy recovery skill.

Scientific research is also good, but these things should be handed over to those scientists. Besides, there may be opportunities to recycle other things in the future Now my biggest drawback is that my energy value is too low, especially the energy consumption Worth, when saving people, like Wang Yanbing, he was actually in a very serious condition at the time, already in a state of shock, which was equivalent to being on the verge of death, so he almost exhausted his whole body's energy and used the eight anti-sky needles.

"System, I choose the second skill."

"Ding! Congratulations to the host for choosing to successfully obtain the energy absorption recovery skill!"

Qin Yuan stood up and stretched, looking at the corpses and the experimental data inside, those vaccines are really harmful, he found alcohol from the laboratory, and then lit a fire, these harmful Everything was burned.

It was only after he came out that he remembered where the members of the red blood cell team were locked up? After all, he was in a coma before and didn't know where they were being held, but he remembered that when he woke up, Sheng Sheng's upper body had been taken off, they

were undergoing surgery, and the pants on the lower body were all wet, indicating that they were not in a place with water.

He felt a little regretful. He had known about it earlier, so he had left a mouth to ask. Now he could only search around. After all, this place is not too small. After a while, Qin Yuan walked into this place along the underground cave. In front of him was a natural The air-raid shelter, you can still hear the echo after entering.

Chapter 873 The Strange Zhao Xue

The humidity inside was very heavy, and the sound of water droplets could still be heard, so he shouted loudly, "Terrah! He Chenguang, are you inside?"

At this time, he heard her faint cry, because the cave was very large, and there was an echo, and these boys were indeed inside, so he ran in quickly.

At this time, the wooden boards in the pool had broken, and because they couldn't support the weight of several people, everyone could only stand tightly together to avoid falling into the water.

The moment he saw Qin Yuan appear, Li Erniu jumped up excitedly. Unexpectedly, this movement completely broke the dilapidated plank, and everyone fell into the water.

"What are you jumping for, kid? Look, all of them fell into the water now."

"What's the matter, anyway, I've been wet for a long time, do you still care about this? Let's swim over quickly, Brother Qin finally came to rescue us."

Qin Yuan quickly put down the small bed above, and everyone quickly swam over. He picked up a few people and found that He Chenguang's face was pale. This time, he was careless about the situation of these enemies and put everyone in danger. .

After all, this is not a place to talk. After everyone went out, Qin Yuan hurriedly checked He Chenguang's wound. At this time, because it was very humid in the underground cave, his wound was exposed to water again, and the whole wound was already bleeding and turning white.

Now it is necessary to change his dressing quickly. Li Erniu suggested that everyone go in and look for it. There must be first aid supplies in this base. After all, those enemies have been dealt with by Qin Yuan, so let's deal with He Chenguang's wound first.

At this moment, there was movement behind him, Qin Yuan quickly threw out the throwing knife, and the people behind also turned over to dodge, everyone looked at the back vigilantly, Qin Yuan turned his head and realized that he almost accidentally injured his own people, unexpectedly I actually saw Zhao Xue in this place.

At this time, Zhao Xue was carrying a first aid kit. She looked at the flying knife behind her and smiled, "It's fortunate that I reacted quickly, otherwise I would have been killed by your flying knife."

Qin Yuan was a little embarrassed, and quickly stepped forward to get off the first aid kit, "I'm sorry, Instructor Zhao, I didn't expect it to be you, I thought it was the remaining enemies, I reacted subconsciously, I'm sorry."

Zhao Xue shook her head to express that she doesn't mind, it's fine anyway, the most important thing now is to treat He Chenguang, Qin Yuan looked at the bewildered expressions of the people in the red blood cell team, and quickly explained to them that Zhao Xue was trained there before. An undercover instructor.

It seems that the undercover they are going to pick up this time is actually Zhao Xue. She said before that she was going to carry out a very dangerous undercover mission, but she did not expect that she was the one who lurked into Zhang Long's organization. This organization is indeed dangerous.

Li Erniu scratched his head in embarrassment. He thought the undercover agent was a man, and he said he wanted to invite him to drink in their special forces team. He didn't expect it to be such a beautiful woman.

"Comrade, you are really courageous. You are able to lurk in such a dangerous place. You have really helped us a lot."

However, Qin Yuan noticed Zhao Xue's reaction at this time, and always felt that her body seemed to be a little different, and now that the sun was shining outside, she was wearing a black cloak to completely wrap herself.

Zhao Xue found that Qin Yuan was staring at her, and quickly changed the subject, "Captain Qin, thank you very much, it's all thanks to the moves you taught me before, and I used all the moves you taught before. The biggest hero, I just provided a little information."

Qin Yuan didn't know either. Anyway, he always felt that something was wrong with Zhao Xue's body. As for where it was, he couldn't tell. Looking at her, he didn't want to say that there might be his own reasons in front of so many people, so he would wait until he went back to ask. she.

"Let's go to the airport now. There are our helicopters over there. The situation in their country is very serious now. If they rashly appear in this airspace, there is only a small chance that they will be attacked. So we still go to the airport. There is a serious threat to our helicopters over there." People are also safer."

Everyone nodded. Li Erniu found a car from the base and drove everyone to the airport. On the way, Li Erniu was a little bit aggrieved. He didn't kill those people himself. They are insulting like that.

"By the way, there were also those militants who came to help them before. We almost forgot about it."

"Yes, those militants are not simple. Their conspiracy is huge. For vaccines, they also provide the biggest supporters. These people are also the most hateful."

But Zhao Xue said solemnly: "These militants have not taken actual actions against us now. We'd better not provoke them. After all, the situation in their country is very serious now, and we cannot participate in their civil war."

"Instructor Zhao is right. If we fight those militants, we will claim that our Yan Kingdom is helping their government forces, and the international community will definitely put pressure on us. After all, everyone will speculate whether it is because of other political reasons. ."

Qin Yuan walked over to drive. After all, he is more energetic now. Let them go to the back to rest first. They have been in the pond all the time, and everyone has been standing on the narrow wooden board. It is really exhausting. The whole process Zhao Xue didn't say another word, just rested with her eyes closed.

Qin Yuan originally wanted to ask something, but seeing her like this, he didn't speak any more.

At this time, Qin Yuan's mind suddenly heard the system's notification sound, that there is a danger ahead. The system has not issued such an early warning for a long time, reminding what is the situation? Qin Yuan stopped the car and looked around carefully.

There is an open area here, if someone is lurking, he should be able to see it, but there is an unfinished building not far away, I don't know if there are people hiding in it.

But the system prompts that it is directly ahead, and there will be danger. Could it be that there is something wrong with the road ahead?

Zhao Xue found that Qin Yuan had stopped the car, thinking that Qin Yuan was too tired, and walked over to change his car, but he waved his hand to indicate that there should be a problem ahead.

Everyone also woke up. Qin Yuan asked everyone to be vigilant in the car. After he got off the car, he squatted down and carefully looked at the road ahead, and finally saw the clue. This method was very professional, and there was a landmine in front.

I don't know who wanted to mess with them or it was just an accident. After all, there was a war in the local area. Qin Yuan straightened up. He didn't want to cause trouble, so he took everyone on a detour.

"We bypassed the sandy land next to it, I don't believe it, isn't there a way if we don't take this road?"

"Brother Qin, if you want me to say, let's get rid of these mines directly."

"It's not a question of clearing mines or not. The main thing is that we don't want to participate in their civil war. Otherwise, people will catch up on the topic and talk about it. Let's record it and be more cautious."

They drove down in a bus, and there was a piece of sandy land beside them. This kind of tires could not withstand wear and tear. They were thick and heavy like the tires of off-road vehicles, and the road ahead became more and more difficult to walk. There was almost no road. It was desolate, and there was a piece of grass everywhere. Thanks to Qin Yuan's good skills, he avoided the big rocks several times.

"Everyone is holding on for a while. After passing this section of the road, there is a road ahead again. Let's go around and look ahead."

As soon as Qin Yuan finished speaking, the rear tire blew out unexpectedly. After Qin Yuan got out of the car to check, there was no shop outside the wilderness here, let alone a spare tire. It was really unlucky.

"This kind of broken tire is really not comparable to our military off-road vehicle tires."

"If the tire blows out, let's just blow it out. Anyway, we're training. The airport is only a dozen kilometers away. Let's walk."

Everyone walked for a while, and now the sun was turning, and it was already shining directly in front of everyone. The black cloak Zhao Xue was wearing could no longer cover her. At this time, she took out an umbrella from her bag and started to fight. .

This reaction was very strange, Zhao Xue didn't say anything, just walked forward silently, He Chenguang was a little curious, and quietly walked to Qin Yuan's side.

"Brother Qin, is this Instructor Zhao you are talking about really an undercover agent? Why do I feel a little strange? Even though we soldiers don't mind about holding umbrellas, their training should not be so pretentious. They should be the same as us. Standing in a military posture, you shouldn't mind the sun!"

After Qin Yuan heard what He Chenguang said, he immediately realized what was strange about it? Zhao Xue's face was very pale, and she was completely wrapped in a black robe before they met. She avoided the sun whenever she could, and felt that she was very afraid of the sun.

In addition, the strangest thing is his throwing knife skill, which is a hundred hits, and almost seldom dodges. Like those who have received vaccine transformation before, their body reactions are already more sensitive than normal people, so some people can dodge.

The words "vaccine transformation" kept appearing in Qin Yuan's mind, and he seemed to be about to find the key to the problem.

At this moment, footsteps came from behind, but they were still far away.

"Everyone pay attention to the people behind."

Qin Yuan's judgment has never been wrong. The members of the red blood cell team quickly formed an attacking formation and squatted in the grass behind them. Zhao Xue also followed behind them. At this time, Zhao Xue had no choice but to put away the umbrella. Up, it is easy to expose them after all.

It was Huck who came here, and he also bought the landmines before. Originally, he wanted to catch Qin Yuan by surprise, but unexpectedly, he found out. At that time, they wanted to rush out of the unfinished building to deal with Qin Yuan and the others. However, he was still a little jealous of Qin Yuan's strength, so he followed them from a distance.

After all, that area still belonged to the sphere of influence of the government army. If Qin Yuan could not be resolved quickly, it was very likely that he would be flanked by the government army.

Now that they have followed to this wilderness, Qin Yuan and the others can just be dealt with, but when they catch up, they don't see Qin Yuan's figure.

Huck was a little puzzled, "It's strange, are they so fast? How come they just turned around and disappeared!"

At this moment, Qin Yuan flew out of the grass with a flying knife, and the two people standing in front of him were instantly killed by him.

"Damn it! They're in the grass."

Li Erniu and the others also fired quickly. At this time, Ruan Ruan jumped out of the grass and threw out a few poker cards while turning over. The militant who was still shooting from the side cut his throat and fell to the ground in an instant.

Huck was a little shocked, this man's speed was too fast, his marksmanship was already fast enough, and he couldn't catch him.

Originally, they thought that the sneak attack on Qin Yuan would be successful, but they didn't expect this man's strength to be too terrifying. The militants standing next to him kept falling down. He was a little anxious, and quickly fled with two of his men.

After a while, these people were dealt with by Qin Yuan and the others. Li Erniu was still a little unsatisfied, "These rookies still want to fight with us, but there is one thing to say—their assault rifles are too difficult to use, and there is no such thing as ours." The 95 style is easy to use."

"Brother Qin, do you want to chase those who ran away?"

"There's no need to chase. There's a gun battle here. The government army will definitely send people over. Let's leave this place quickly. I don't want to cause trouble. As for these things, I will settle with them later."

After all, everyone in the team is injured to varying degrees. Most of the problems with these people are solved by Qin Yuan. If it is another country, he will definitely rush down directly. He is a man who has revenge. Well, anyone who dares to provoke him so openly will definitely take revenge.

The main reason is that the current situation of country Y is special. Their president is very hostile to the outside world, and Qin Yuan doesn't want to cause trouble. It was originally a simple self-protection issue, but it will be raised to an international issue.

At this time, Zhao Xue had already collapsed in the grass, and Qin Yuan hurried up after finding out, Could it be that she was hit by a stray bullet? It turned out that no wounds were found on her body, she just flushed and passed out, and her exposed skin had already suffered from sunburn.

This kind of sunburn looks like a crack, and it looks terrible. Could this be the reason why she opened the umbrella just now? Ruan Ruan hurriedly took out the umbrella from the backpack, put Zhao Xue on her back and asked Li Erniu to hold the umbrella beside her, and carried her to the shade first.

After coming under the tree, Qin Yuan fed Zhao Xue some water from the kettle, and she woke up slowly.

"Ahem, Captain Qin has really dragged you down."

"What are you talking about? What's wrong with your body? Tell me honestly, I can save you, besides, it is our duty to protect you, and our order is to bring you back safely."

It turned out that it was not easy to lurk into this organization. Zhang Long was originally a cautious person. Zhang Long's people searched for cancer patients everywhere in the underground. Fake medical certificates.

But Zhang Long is very cunning. As long as the person who enters his organization must receive the vaccine, vaccination is the most basic thing. First of all, it depends on whether the person can withstand the vaccine. If he can withstand the vaccine, then he is eligible to stay.

Chapter 874 Zhao Xue's Real Situation

Zhao Xue reported this matter to the organization. The organization felt that it was too dangerous. If the vaccine was to be vaccinated, the risk was too great, so Zhao Xue was immediately asked to withdraw from the operation and wait until later to find an opportunity to lurk in.

But Zhao Xue knew that this opportunity was very rare. If Zhang Long missed this opportunity, Zhang Long was more cautious, and it would be very difficult to sneak in next time. He would definitely be prepared, so he simply injected the vaccine directly.

Zhao Xue was originally a normal person. After the vaccination, all the cells in her body changed. After the vaccination, she felt no pain anywhere in her body. At that time, her cells were being phagocytized and changed by the vaccine.

However, she persisted with her strong willpower, and Zhalong didn't notice any abnormalities. Just when he was glad that he lurked in, he discovered the changes in his body. She began to be very afraid of hot water, and she couldn't touch hot water. She couldn't eat hot food, as long as she came into contact with the heat source, her whole body would turn red, especially after drinking hot soup, she had a severe cough and almost suffocated.

What broke her down the most was that she couldn't even touch the sun, so she could only wrap herself tightly under the black robe, and just lurked in Zhang Long's base. After all, there were all kinds of patients in Zhang Long's place. Both, and no one else noticed her.

In this way, she sent the intelligence information to the country. Listening to Zhao Xue's narration, Qin Yuan frowned tightly. He quickly grabbed Zhao Xue's hand. He didn't know if he could help Zhao Xue solve the vaccine with his own skills. question.

Qin Yuan helped Zhao Xue feel the pulse, but found that the vaccine in her body had completely fused with her cells, and there was no way to separate it. If the separation was forced, the original cells in Zhao Xue's body would not be able to stand this kind of foreign separation and would rupture. It could lead to Zhao Xue's death.

Li Erniu comforted Zhao Xue from the side, "Don't worry, Instructor Zhao, our brother Qin is very powerful, he can save Yan Bing from such a serious injury before, you will be fine."

Everyone looked at Qin Yuan expectantly, but at this moment he shook his head helplessly. He had no choice but to deal with this problem in his body, and he couldn't solve it with external force.

Zhao Xue sighed slowly, "Oh, it's okay, I know you all want to save me, so don't embarrass Captain Qin, let's get out of here first, but there's nothing we can do. Aren't people still alive? At worst, it's fine not to eat hot food and avoid the sun."

Wang Yanbing listened to Zhao Xue's words, and felt very uncomfortable. For Zhao Xue, she was the best undercover agent. Now she is an instructor, but her inability to touch the sun means that she will not be able to do this job in the future.

"Brother Qin, is there really nothing you can do?"

"I really have nothing to do now, but I don't know if there will be in the future, maybe there will be another opportunity. As long as there is a way, I will definitely help her solve it."

Otherwise, it would be too painful to live like this. It's okay in the hot weather now. If it's cold weather, she, a girl, is doomed to only eat cold food in her life. Everyone's success is due to the silent contributions of the unknown soldiers behind the scenes.

There is no other way now but to leave first. Anyway, everything will be discussed after returning to the country. Maybe there are other medical experts in the country who can treat Zhao Xue.

Qin Yuan could only comfort Zhao Xue in this way and also comfort himself, but he knew very well that if he couldn't do it himself, maybe no other expert could do it, but he could go to the vaccine development expert, what kind of professor? .

After all, he was the one who developed the vaccine. Maybe he really has a solution. Hearing what Qin Yuan said, Zhao Xue also felt hopeful, and Qin Yuan also promised her that no matter what, as

long as there is a way in the future, he will definitely Those who saved Zhao Xue would not give up.

The task this time was generally quite twists and turns. After returning home, the entire red blood cell team added first-class merit. As for Zhao Xue, she also received first-class merit, and the country took her to a nursing home and wanted to personally recuperate her body. .

Before parting, Zhao Xue looked at Li Erniu and the others worried, and knew that she felt sorry for herself. To be honest, she really loves this profession, and she also wants to use her ability to teach more students, but now because of physical reasons Can't go on.

"You all be happy, it's no big deal. You see, your captain hasn't given up on me, and the country is also looking for experts to treat me. Don't worry, maybe I'll be fine after a few months."

"Instructor Zhao, although I haven't been with you for long, I really hope that you will get better. When the time comes, you will come to our team together and we will treat you to a drink."

"No problem. When I get better and eat whatever I want, I'll come and play with you."

Qin Yuan personally charged Zhao Xue into the car, asked her to cooperate with the treatment, and called him if there was anything. He originally thought that he was strong enough, but this incident made him hope that he could be stronger and be able to Protect those around you.

But it's still good. This time, the members of the red blood cell team came back intact. Compared with those foreign special operations teams, their death rate is the highest. Gao Shiwei stood in the office and looked at Qin Yuan below. People feel a little emotional, he is actually a contradiction.

On the one hand, he hoped that Qin Yuan would lead the red blood cell team to play internationally and become famous. This is their Yan country soldier, and now Qin Yuan has also achieved his red blood cell team. One dangerous mission after another.

As one of the United Nations, Yan Kingdom will give priority to many dangerous missions in the world. After all, they are also recognized as the ace team. Before this, they dare not imagine. After all, there are many famous special operations teams in the world, such as the Snow Leopard Commando , the poisonous bee commando team is relatively well-known, and now Qin Yuan has become as good as them, or even better than them.

Long Zhanjun placed the chessboard beside him, "Didn't you come to play chess with me? What's the plan? You want me to play here alone?"

"I feel a little emotional. We have trained such excellent soldiers. Now they take on more dangerous missions. You can see that they seldom came back with injuries. After the next few missions, almost all of them were wounded." ."

"This is actually a good thing, let them practice more! After all, there are people in the follow-up, and we can't be intimidated. Don't think so much, just let them do it."

"You old boy doesn't hurt your back when you stand and talk. Look at Xiaoyun who is also out to perform missions now, so I don't see you, a father, caring about her."

"Don't think too much, first of all, she is a soldier of the Yan Kingdom, and second is my daughter. I can't stop her from performing tasks just because she is my daughter! She has this ability, so she should serve our country To make contributions, the older you get, the more confused you become."

Gao Shiwei shook his head mockingly, now he might really feel a little emotional, maybe Long Zhanjun is right, they have this ability, they really chose this path, they should make a good contribution to the country, this is their mission.

When Li Erniu and the others recovered from their injuries, Qin Yuan felt that he still needed to strengthen training for them. His previous training was mainly based on physical fitness. Now it seems that he needs to strengthen training in skills for them, like the battle process this time. Among them, they are more sensitive to those who have received the vaccine, and they are confused for a while.

In this way, everyone hadn't received such a high-intensity training for a long time, and Qin Yuan suddenly stepped up again. Before dawn in the morning, he led the red blood cell team to start training, mainly shooting training.

And his requirements are very high. Let everyone drive an off-road vehicle. He throws cards at random and must hit the number he said. This kind of training is really very difficult. First of all, the shaking of the vehicle will affect the aiming. , but also hit the number that Fang Tian said, it was too difficult in those few seconds.

"Your design level really disappointed me today. Everyone did 100 push-ups and continued training after finishing. If I don't achieve the results I am satisfied with today, don't eat dinner."

The members of the red blood cell team didn't dare to complain about suffering or tiredness. After all, it was true that they failed to do it, but in the eyes of other soldiers, they were already very good. First of all, they were able to shoot under the shaking conditions of Mr. Lai and hit the cards. that's it.

Long Xiaoyun brought those new special forces to train beside him. Everyone was shocked when they saw this training method. This is simply too exaggerated. No one should be able to do it!

Qin Yuan's ears are relatively sensitive. He heard the arguments of those soldiers, so he asked everyone to stop the training first and give everyone a demonstration. It also showed the soldiers what no one can do.

"Li Erniu, drive the car to the maximum speed for me. Step on the accelerator to death!"

"Yes!"

Long Xiaoyun next to him folded his hands. This kid was about to start teaching these soldiers again, but she hadn't seen Qin Yuan behave like this for a long time.

Qin Yuan sat directly on the roof of the car. Li Erniu was driving very fast, and it was quite bumpy in this kind of sandy soil. He asked He Chenguang to throw out a card and say a number at will.

The moment He Chenguang threw the card, he hit it. The soldiers beside him were stunned. It was too fast, didn't he aim?

"I'm going! How did he shoot? It couldn't be a coincidence, could it? It was too fast, and the bullet went out without aiming!"

"It's just awesome!"

"He Chenguang throws it again, this time the number of cards is increased by ten!"

Unexpectedly, Qin Yuan actually increased the difficulty and increased the number of cards. No one should be able to do this kind of difficulty. It is too difficult to hit a three of diamonds with so many cards, and he is so fast. under speed.

As soon as He Chenguang threw out the cards, Qin Yuan's gun rang out and hit the square three again. The members of the red blood cell team applauded in admiration, and the soldiers next to them admired what they were going to train. Only at a certain level can he be like Qin Yuan! This kind of shooting is too accurate, and the marksmanship is too stable!

"There is nothing that training can't do. I'm strict with you. I just hope that you can get more self-protection plans on the battlefield in the future. If I really fall, the only one who can save you is myself."

"Brother Qin, what are you talking about? How could you fall down? You are our ***** of war!"

Qin Yuan shook his head. It's not that he spoke badly. After this incident, he was really worried. If he really fell down in an unexpected situation, like last time, if he didn't wake up at the last moment , or during his coma, if something unexpected happened to Li Erniu and the others, there was no way to save him.

"Each of you has your own family and friends. Everyone doesn't want you to have any accidents. That's why I have to strictly demand you in training. Everyone cheers me up and trains well. There is no end date for this intensive training until you train. I am satisfied with the results."

"Yes!"

The members of the red blood cell team were shocked by what Qin Yuan said. They really wanted to rely on Qin Yuan before, but after really thinking about it, if Qin Yuan fell, they would be the second Qin Yuan , not thinking about relying on him.

Everyone also began to train desperately. Long Xiaoyun also led the special forces to train. The soldiers were very excited when they saw such a shocking scene and made up their minds to train hard.

These soldiers used to be like treasures in various units. After all, they were the king of soldiers and the king of guns, but after coming here, they discovered that the strong have their own strong hands. Just their little tricks, let alone Qin Yuan, in the red blood cell team The team members, none of them can compare.

Everyone trained under the scorching sun like this. For a whole month, everyone's marksmanship met Qin Yuan's requirements, but Li Erniu lost a full eight kilograms in this month, and everyone was as black as coal. Long Xiaoyun's words can reflect light just by looking at it.

Qin Yuan is very satisfied with everyone's results, and now he is more at ease, but this is just the shooting training, and he also needs to strengthen the agility training. In the past, he used normal soldiers to ask them, but now he regards himself as the criterion. Come to ask them, so their training is getting stricter and stricter.

However, everyone worked very hard during this period of training. Qin Yuan also decided to let everyone relax for a few days. He also wanted to go back and see Qin Zhengyang. Qin Zhengyang probably didn't know that he had completely wiped out the Xiaoxiao organization.

Li Erniu must go home to see his parents and his wife after vacation. He Chenguang is fine. He said that he can go to the orphanage with Qin Yuan, maybe there is anything else he needs to help.

Chapter 875 Crisis

In this way, Qin Yuan brought He Chenguang to the orphanage. Qin Zhengyang smiled more than before. It can be seen that Grandma Sun cares for him very much and takes good care of these children.

Qin Yuan told Qin Zhengyang the news of the collapse of the dawn organization, and he personally killed Zhang Long. Qin Zhengyang was very happy and finally avenged his family. Although he did not avenge himself, he was very grateful to Qin Yuan.

"Uncle Qin, I don't know what I should say. Thank you very much. From now on, I will do whatever you want me to do, and I will listen to you in everything."

"Remember, your life is your own, and I can't make the decision for you. I don't want you to work for me just because you come back. You can live a good life and live out your own life in the future. Can you stop calling me?" I, Uncle Qin, do you know how old you are to call me like this?"

Qin Zhengyang had a runny nose and tears, but when he heard Qin Yuan say this, he burst into tears and laughed out loud. This Qin Yuan is really out of character. The revenge of his family has finally been avenged, and the hatred in the child's heart has finally been let go. After coming

down, he lived in hatred every day before, and often dreamed about the scene of his parents being killed, and now he can feel at ease.

He Chenguang had already been pulled in by Grandma Sun. Qin Yuan looked at Grandma Sun mysteriously and didn't know what to do. After he went in and saw He Chenguang's blushing face, he realized that Grandma Sun had found him a blind date. object.

"Let me tell you, don't make trouble for me. The girl will come later, so you should take Chen Guang out and clean up."

"Grandma Sun, I really don't need it yet. I think we should wait another two years. It's a bit early now."

He Chenguang was also very helpless. I didn't expect Grandma Sun to be too anxious, "Don't tell me so much, I don't understand, anyway, go out with Qin Yuan to buy good clothes now, grandma doesn't have money for you , tidy up and dress up for me, the girl will come in the afternoon, she is pretty good."

It seems that grandma is determined, and Qin Yuan finds it funny to introduce to He Chenguang, so now he can only drag Chengguan out with him, let's take him to buy some clothes first! By the way, he took Qin Zhengyang out together, he hasn't bought clothes for this kid yet.

He Chenguang was at Grandma Sun's place just now, and he said that he was still looking for it, but he didn't expect to go in and pick out clothes right after he came out, one after another, and kept asking Qin Yuan if he looked handsome in this suit ?

Qin Yuan was very speechless, this man really changed his face very quickly, that's not what he said just now! Qin Yuan turned his head and ignored him. He could just give a perfunctory answer, but Qin Zhengyang was more reliable and immediately helped him analyze it.

After the two of them picked out the clothes, Qin Yuan went to pay the bill, but He Chenguang refused. He planned to buy it himself. After all, it was his blind date, but Qin Yuan is not short of money now, so buying a set of clothes for his brother is nothing.

"You just have a good talk with the other girl. It would be even better if the negotiation can be completed. This will be given to you as a brother."

After buying clothes, there is nothing else to clean up. After all, their hairstyles are all uniform, shorter than the board inch. After returning home, grandma can't help but praise. It really depends on clothes. He Chenguang is also good-looking, so After wearing the suit, I feel a lot more energetic.

Qin Yuan smiled bitterly, wearing a suit worth more than 20,000 yuan, wouldn't it look good?

After eating, He Chenguang paced back and forth in the yard a little anxiously. Grandma Sun wanted to laugh when she saw him like this. He was so nervous before the girls came.

"Brother Qin, forget it, let's talk about it next time! I'm too nervous today, and I haven't prepared anything. What should I say when he comes?"

"I didn't expect you kid to be so cowardly. What are you afraid of if you give me directly, just like you talked to us. You have experienced all the big winds and waves. Are you afraid of this?"

Just as he was talking, someone knocked on the door. It seemed that the girl had come. He Chenguang was even more nervous and pulled Qin Yuan over, "No, no, Brother Qin, why don't you pretend to be me first?"

Qin Yuan glanced at He Chenguang contemptuously. What is this kid thinking?

Helpless, he could only order, "He Chenguang, stand at attention! Take a step back and sit on the stool."

"Yes!"

He Chenguang subconsciously completed the instructions, but he was still very nervous. At this time, Grandma Sun brought the girl in with a smile. She is a very gentle girl.

"Chenguang, this girl's name is Xiaoling. My friend introduced her to her. She is a kindergarten teacher and likes children very much. She has come here to help us several times before."

The girl had just glanced at He Chenguang, and his face blushed instantly, "Um, hello Xiaoling, my name is He Chenguang."

Seeing He Chenguang like this, the girl couldn't help laughing, why is this man so shy?

Seeing this, Grandma Sun quickly pulled Qin Yuan away, and let the two of them have a good chat now! When it wasn't time to disturb others, He Chenguang looked at Qin Yuan to ask for help when he saw Qin Yuan was about to leave, but Qin Yuan directly ignored him. He couldn't help him with this matter, so let him solve it by himself!

After a while, Qin Yuan saw Qin Zhengyang and the others eavesdropping at the door, and he couldn't help but quietly stepped forward to listen to the speculative conversation between the two inside, with laughter from time to time, it seems that this matter must have been done, after all, He Chenguang is not bad, and this girl seems to have a pretty good personality.

Grandma Sun was very happy. If this matter came to fruition, she would have made another couple. She hurriedly asked Qin Yuan to buy some food, and kept the other girl for dinner at night to promote them.

In addition, He Chenguang thinks that this girl is really nice, and he doesn't ask too much about his career. He only knows that he is a soldier. After all, they have discipline. Yes, Xiaolin also knew, just asking He Chenguang about some other aspects of life, and the two chatted a lot.

In the evening, Grandma Sun asked them to stay for dinner, so the two of them went to the movies together. At this time, Qin Yuan and Qin Zhengyang were washing dishes in the kitchen, "Look at how fickle this man is, don't let what he said earlier. , As a result, I went to the movies with my girl now, and left the two of us here to wash the dishes."

Unexpectedly, Qin Zhengyang said, "Brother Qin, why do I feel that Miss Xiaoling is a little weird?"

"What's strange, I don't think I see any problem!"

"That may be my feeling is wrong. She came to our orphanage several times before, but when she came, she always asked Grandma Sun about you. Later, when she heard that you were married, she asked Grandma Sun to help her introduce other people."

Hearing what Qin Zhengyang said, Qin Yuan felt that there was no problem. Maybe he just wanted to find someone to serve as a soldier. After all, he felt safe, and he saw that the girl was very good, so there shouldn't be any problems. Besides, there are problems. Where can it go?

In this way, during the five days of vacation, I couldn't even see He Chenguang's figure, and I went out to find that Xiaoling every day. I would rather just lament the man who fell in love, but I think their development speed is too fast! We just met once, and we started to get tired of being together every day.

When they were about to go back to the army, He Chenguang still complained a little. He felt that the vacation time was too short. He had just gotten to know Xiaoling well, and he didn't know when the next vacation would be.

"Brother Qin, our work is too busy. For the first time, I feel that the vacation is not enough. I used to think that the vacation time is too long, so I might as well stay in the team."

"I asked if you, kid, can be a little promising, and you have been fascinated by others in just a few days."

At this time, I didn't expect Xiaoling to come to see them off, and Xiaoling was very understanding, "Don't worry about me, if you can't come out, then if it's okay, I'll go to your place to see you or wait for you to take a vacation. You don't have to Don't worry about me, I think you are very nice, we can continue to get along."

When He Chenguang heard these words, he was very moved. He felt that he had met true love. There was such a considerate girl. Qin Yuan also thought that this girl was quite sensible, so he told He Chenguang not to think too much, and waited to go back. If there are not many things to do in the future, let him take a few days off.

For the first time, He Chenguang felt that it was such a good thing that someone cared about him. After returning like this, he couldn't help bragging with Wang Yanbing and the others that he had met a good girl, which made Wang Yanbing and his few single dogs envious. .

They all asked to go to the orphanage together next time and ask Grandma Sun to help them introduce them. Now Grandma Sun's place has become a marriage agency, but let's wait until next time! After all, this is also a major event in life. Generally, the people introduced by Grandma Sun are fine, so let's take them there to have a look at the next vacation, and introduce them to them if they are suitable.

Although they have closed training inside, as long as they don't reveal their location or their location, they can contact and call outside. After He Chenguang came back, he had to call Xiaoling almost every day.

If he can't make a phone call, he writes a letter. Letters from their side can only be sent to the company above, and the company above will send the letter to them and keep it secret.

Fortunately, there were no tasks during this time, and everyone was just doing basic training. Qin Yuan didn't say anything to him, so let him immerse himself in love! Anyway, without delaying the training, everything else is easy to say.

He Chenguang was on the phone with Xiaoling, when the emergency whistle sounded, he quickly hung up the phone, ran over to see that Qin Yuan and the others had already put on their equipment, and hurried in to pack the equipment.

This time their mission was relatively simple. It was a request for help from the international community. In the international high seas area, they discovered a pirate ship. This pirate ship not only attacked the patrolling warship, but also injured five soldiers. Some soldiers are not strict, but people from the Kingdom of Jin next to them.

The country of Jin immediately sent a team to fight back. This matter must not be tolerated. Unexpectedly, the special team sent by the country of Jin was hijacked by those pirates, and they threatened the country of Jin to spend 30 million US dollars, and only gave them a week. At that time, how could Jin Guo be so angry, and immediately sent troops to attack.

Unexpectedly, there was no trace of this living pirate at all, and the body of a special soldier was found after a few days. Those pirates were very rampant. They tied a box to the soldier with a letter in it, which probably means Let them better have their money ready, they kill a man for a day of delay.

It has been two days now, and the bodies of two special forces have already appeared. The Kingdom of Jin couldn't wait any longer, so it could only ask for help from the international community. After all, that team was also the best soldier of the Kingdom of Jin, and they couldn't give up like this.

Therefore, the international community entrusted this task to Qin Yuan and the others. It was not too late. Qin Yuan and the others hurriedly set off. According to the intelligence information sent

by the international community, those soldiers who were hijacked were at this coordinate. After searching, there is no whereabouts. This pirate ship is like a ghost, appearing anytime and anywhere.

The nearby islands are not there either. The most important thing is that the bodies of those soldiers appear at the coordinates where they disappeared, so everyone is very strange.

After Qin Yuan arrived, he surveyed the scene, and decided to dive down to see the situation. Since there are no nearby islands, it's useless to look for them. Why don't we go down to see if there are any clues.

Sure enough, Qin Yuan's thinking was right. Since these pirates were not on nearby islands, it meant that they had professional submarines, otherwise the radar would not be able to detect them, which is very strange.

He asked the other members of the red blood cell team to stay on top. He can go down to check the situation without diving equipment. Qin Yuan stood on the top and took a deep breath, then jumped into the sea. Yuan Yuan saw a submarine, but this submarine was very fast and passed by in a flash.

Qin Yuan smiled, and wanted to play a game of cat and mouse with him. He quickly swam forward. This little diving time was nothing to him, and there was no pressure. In addition, he was not wearing a diving suit. Clothes, well hiding his figure, he quietly hid in the coral bushes next to him.

Sure enough, after a few minutes, the other party couldn't sit still. They quietly turned on the probe of the submarine and started to investigate the situation. After not seeing Qin Yuan, the submarine retreated towards the depths of the sea.

Knowing about the situation, Qin Yuan swam up. He told everyone about the following situation. There was a submarine. After Li Erniu heard about the submarine, it seemed that the marines needed to track the missiles for the submarine.

"Brother Qin, you are really a god. I didn't expect that you would have predicted that they were hiding under the water."

"That's because they are stupid. They have been looking for it for so many days. Since they can't find it above, why don't they go down to have a look. After all, those are pirates. They are good at water, and it is not surprising that they have submarines."

Chapter 876 Acting Alone

"And this matter can only be solved by us. After the Marine Corps sent the missile system, they directly targeted and destroyed the hostages. The hostages must be finished. Now that these guys are hiding in the **** shell, we will go down and kill them Come up."

"Ah! Brother Qin, are we going to fight underwater this time? But I'm worried that our lung capacity is not as good as yours. Even if the water pressure is too high under the oxygen cylinder, it is not conducive to our fighting."

"Yeah! It's not that we admit cowardice, or we'll find a way to lure them up to the shore, and we'll have a better chance of winning if we fight with them. After all, many of our actions are restricted after we go into the water, and we can't shoot underwater. It's too difficult. ."

Qin Yuan shook his head. It wasn't that he didn't want to come up to fight, but that these people hadn't planned to come up, otherwise why would they prepare a submarine? Besides himself, it was also an accidental discovery that they had been alerted just now and wanted to let them It is even more difficult to come up again.

"I didn't say to let you all go down, but I went down and you supported me from above."

After Qin Yuan said this, everyone raised objections. After all, this is at the bottom of the sea. Although Qin Yuan has dived before and his strength is very strong, but after all, he is facing vicious pirates. How to open that submarine is a problem.

"This is too risky, no, we will also send submarines, let's contact the Marine Corps now."

"I am the captain of the command this time, and everything is under my command. If we send out a submarine, we will scare the snake away. Besides, our submarine will be detected by their radar when it goes down. Then the people in it the day before yesterday will be in danger. , so the best way is for me to dive down."

There was no doubt about Qin Yuan. He asked the red blood cell team to drive the boat around the nearby small island and take cover there first. The pirates had already been alerted just now, and it was best to retreat now.

At this time, the person in charge of the Kingdom of Jin called and was very upset, "I saw your actions at sea, what are you doing? Are you here to help us or are you deliberately delaying time? We have already quarreled over the small islands. There have been countless times without any clues, and you have not started to take action for a long time, and have been wandering around on the sea!"

"I am responsible for this operation. I guarantee with my military integrity that it will never seem like all life. I am trying to save them as much as possible, but you cannot interfere with my operation."

"I feel that you are wasting our time. I want to explain to the international community that you may be the strongest on land by redeploying special forces, but I don't know about the combat experience in the seabed. "

Facing the accusations from the person in charge of the Kingdom of Jin, Qin Yuan was also very helpless. He couldn't explain to these people at all, so he could only report the situation of seeing the submarine.

The person in charge didn't expect that Qin Yuan would actually find a clue. Before, he thought that the world would send Mi Guo to help them, but he didn't expect to send Yan Guo. He was very dissatisfied with this, so he found faults in various ways. Let Qin Yuan find a clue.

Originally, he wanted to take the opportunity to replace Qin Yuan, but he didn't expect that Qin Yuan had already found a clue, so he could only let him continue the investigation.

"No matter what you say, I will only give you three days at most. If our people still cannot come back safely, and those pirates continue to be at large, I will continue to report to the international community. You are simply not capable of handling this matter, no I know why the international community will send you here."

The members of the red blood cell team were listening, and the person in charge of Jin Guo clenched his fists in an instant. They were obviously here to help them, but they were so angry that they really didn't save them.

Qin Yuan was also a little annoyed, "Please pay attention to your tone! It is the international team that sent us, and that is their recognition of us. As for the three days you said are too long, I can let you see you tonight People, besides, you are not strong enough, a special forces team was ambushed by pirates, and it is not shameful to say it."

The person in charge of the Jin Kingdom on the opposite side blushed when he heard Qin Yuan teasing him like this, but the truth was right in front of him, they were indeed inferior to others.

After hanging up the phone, Qin Yuan breathed a sigh of relief, but Jin Guo's attitude really annoyed him, so he insisted on fighting for it, and now go rescue those people and slap them in the face, let them see I am the strongest special forces team, whether on land or under the sea.

"Dear comrades, did you hear that, people look down on us so much, I don't want to steam the steamed buns today, I insist on completing this task, and it's done beautifully."

Everyone was holding a breath in their hearts. Li Erniu and the others expressed that they were going to go into the sea with Qin Yuan in diving equipment, but he refused. Qin Yuan brought a positioning system. He went down to check first, and would send them a notification if there was any situation. information, and then go to meet him at the first time.

It is very dangerous in this kind of deep sea, not only the water pressure problem, but also all kinds of large marine life in the sea, and secondly, their ordinary people's sight will be blocked after entering the water.

If I take them with me, I have to take their safety into consideration. At present, the most important thing is to go down and complete the task by myself. According to Qin Yuan's plan, after all, those hostages are in the submarine and they don't have diving equipment, so when I rescue them In the future, a signal will be sent to Li Erniu and the others, and they will send down the diving equipment, and then they will take everyone up together.

Qin Yuan has a system with him, so it is not a problem to breathe underwater in this kind of water. It can be said that he is like a fish in water, but he still carries oxygen equipment on his back, which can also be used in case of emergencies.

After Qin Yuan warmed up and prepared on the shore, he jumped off. The members of the red blood cell team watched Qin Yuan disappear very nervously on the island. This was in the deep sea. Although he did not perform tasks once or twice, everyone Still worried.

This time the distance was relatively far. Qin Yuan swam for a long time, and finally came to the place where the submarine was found again. Based on his memory, he slowly approached the coral clump again, and swam towards the direction where the submarine disappeared before.

At this time, he found a light in the distance, which should be the submarine. It seems that these pirates dare not go too far. After all, there are radar monitoring in other places. After all, this area is an open sea area, but if they lurk near the border of any country, That would definitely be detected, so they didn't dare to go too far.

Qin Yuan looked carefully and found that there were two submarines. He didn't know which submarine the hostages were on. It seems that the pirates are quite rich, and they can afford a submarine. It seems that the background is not simple, but Qin Yuan What is strange is that he has already carried out a large-scale siege of those pirates near Somalia before.

This time the pirates were so courageous that they openly provoked the military. This was the first time that Qin Yuan swam up slowly.

At this time, the radar in the submarine detected something approaching, and the pirate who was monitoring quickly reported this to the boss.

"Boss, the radar shows that there is a person approaching us? But this is completely impossible!"

"Is it a large fish? It is absolutely impossible for a human to dive to such a deep seabed. Even if he wears a diving device, only our submarine can withstand the water pressure. Humans will definitely not be able to get down."

The pirate leader didn't take it seriously at all. It is absolutely impossible for humans to do it at this depth. He told his men not to worry, it might be some kind of large fish.

However, the pirate next to him reminded him: "Boss, we'd better be careful. After all, I found Yan Kingdom's naval ship at that location today. I'm sure I read it right. It's their national flag."

"Anyway, it's better to be careful, and it's best not to mess with them, his grandma, this is not right, how could Jin Guo ask Yan Guo for help? It's possible that they came here on patrol by chance."

"I hope they met by chance, but we didn't find that ship in the future, but it's not the same thing that Jin Guo has not given money, and we can't continue to waste like this."

"It's just a small country. I'm afraid he won't succeed. It's his people who are doing it. If he doesn't pay, we will go to their waters to make trouble in a few days and catch some of their fishermen and people. , since he doesn't want to take care of these soldiers, let's look at the people who messed with him, will he take care of it?"

"Anyway, just remember one thing, as long as you meet people from Yan Kingdom and try to detour, then it's safe."

At this time, Qin Yuan had quietly lurked under the submarine. He listened to the discussion of the people inside the submarine. After all, he wanted to determine where the hostages were.

Qin Yuan sneered, and wanted to mess with the people of other people. How could the country of Jin sit still and wait for death? They must have thought of looking for the United States or the international community at the first time, but the country of Jin did not expect that the international community would send themselves.

But I would rather not take care of those things. After all, their disputes will follow. I am only responsible for releasing their current hostages. As for what they want to do in the future, I can let them go.

But these pirates obviously had no chance, because they ran into themselves.

Qin Yuan listened outside for a while, and finally confirmed that those soldiers were locked in another submarine. After all, the submarine did not have much space. This submarine was full of pirate organizations, and three people were sent to guard it. On the other submarine.

He slowly swam towards the submarine on the right, and came to the bottom of the submarine. He knew that the upper part was the hatch of the submarine. Such a large sea pressure.

So we can only find a way for people to open it from the inside. There will be a water filtration system when opening from the inside. This is also a convenient way for divers to collect samples in the sea after going down. This is the original design.

Xia Qin Yuan slowly swam over and removed the screw below. He only relied on the flying knife in his hand, tilted the screw, and used his skill to remove the screw like this. Soon the submarine issued an alarm. error occurred.

The pirate boss of another submarine found that the diving roof next to him had malfunctioned, "What's the matter, send someone out to check."

The pirate inside put on his diving suit, opened the hatch and was about to go out for inspection. The moment he opened the hatch, a figure rushed towards him. Before he could react, Qin Yuan took the oxygen out of his body. The device was removed, followed by a knife slit across his throat.

The pirate was killed by Qin Yuan without knowing why, and he also quickly got into the submarine. The strong water flow rushed down along Qin Yuan. row out.

Because they were all wearing diving suits, a pirate poked his head out curiously, "Asiri, what happened, why did you come back so soon? The alarm has not been lifted! You don't know if you can do it, be careful and get beaten!"

Qin Yuan just turned his back to him and didn't answer. Seeing the cowardly Asiri, the man who was talking dared to ignore him, and walked over angrily. It seems that this kid has eaten the heart of a bear today.

Just when his fist was about to approach Qin Yuan, he only felt a pain in his throat. Looking down, a dagger actually cut his throat. He held his throat tightly and couldn't believe it. It was too fast, he couldn't make any sound, and then Qin Yuan stabbed him in the heart again.

Qin Yuan kicked the pirate's body down the drain below. According to what he learned just now, there were three pirates on this submarine. guarding those soldiers.

He walked in quietly, At this moment, the pirate lowered his head and was playing poker in his hand. , how about it, but this kid just owes the beating, but don't be too much, or there will be no one to cook later..."

Qin Yuan stepped forward and snapped, breaking the man's neck. The man fell straight on the ground. The man was sitting outside, and there was a small space inside. Qin Yuan tried to open the door, but found that he needed a key. .

"Are the people inside okay? I'm a soldier of the Yan Kingdom."

Qin Yuan had already heard the sound of breathing inside, but in order to be sure, he asked the person inside again for a quick response, knocking on the iron plate, Qin Yuan groped for the man for a while, but did not find the key, he did not Heart to find one by one.

"The people inside backed up, I'm going to break the door!"

The people inside couldn't believe it was made of iron. He used something to break the door, but since he said so, everyone still backed away subconsciously.

At this time, Qin Yuan took a deep breath and kicked towards the keyhole. After a "bang", the lock cylinder of the entire iron door fell from the inside, and the door was deformed. Pushing the iron door opened like this , The soldiers inside were shocked.

Chapter 877 The person in charge of hypocrisy

Only then did Qin Yuan see the scene inside the iron gate. It was pitch black, without lights, and it was just a small cargo box of a few square meters. He didn't expect that there were seven soldiers from the Kingdom of Jin crowded inside.

The soldiers of the Kingdom of Jin inside finally hoped for someone to save them. The moment they saw Qin Yuan, a soldier rushed out, hugged Qin Yuan and cried loudly. They watched their brothers die one by one every day, and they were helpless Been crammed in this small space for a whole week.

"Anyway, thank you very much for saving us! Let's get out of this place now."

Qin Yuan shook his head, he just rescued them now, they can take this submarine to go up, the problem is that the pirates next to him have not been solved yet.

At this time, the pirate leader in the other submarine felt that something was wrong. Why did it take so long and the alarm next to it hadn't been lifted, which means they haven't repaired it yet. As for submarines, he is also a half-expert in submarines.

"Who among you can operate this submarine and drive it directly? I will deal with those pirates."

Unexpectedly, those Jin soldiers shook their heads. None of them knew how to drive submarines. After all, they had never been in contact with them. Qin Yuan could only shake his head helplessly. The gap was too great.

Under their own training, Li Erniu and the others can directly control whether it is a submarine, a sea ship, or a fighter jet. It is also to deal with such emergencies. Unexpectedly, no one in this team can fly.

But at this moment, he didn't want those pirates to escape, because once he drove the submarine up, those pirates would realize that something was wrong, and they might attack them, or run away directly.

Qin Yuan could only take out the walkie-talkie and the positioning device. After connecting, he got in touch with the members of the red blood cell team and asked them to sail over to prepare for the response. After all, the safety of the hostages is the main priority now. Free these hostages.

Coupled with this water pressure position, the red blood cell team can't dive down, the water pressure is too deep, there is a certain pressure on the submarine, Qin Yuan walked into the cab of the submarine, and at this time the intercom in the cab The voice of the pirate chief came from inside.

"What the **** are you **** doing? It took half a day to repair the submarine and the car, and how did you operate it, let you stop at this position, why did you deviate to the top!"

Qin Yuan didn't pay any attention to the chattering of the boss on the pirate leader's side at all, and the scolding became more and more ugly later on, Qin Yuan was ripped off the communication equipment.

At this time, the soldiers of the Kingdom of Jin raised doubts. They felt that Qin Yuan's speed was too slow, so he would definitely be caught up by those people. They were very worried. There are their people.

After Qin Yuan learned of this information, he smiled. There were Li Erniu and the others on the top, so he wasn't worried that he could handle all the miscellaneous things below him by himself.

"You guys are really as arrogant as your person in charge. Don't use your ignorance as an excuse. Now we are in a place where the water pressure is so deep. If there is a sudden rise, I can bear it. Your body can't bear it at all. In serious cases, you may die. Lung self-explosion occurred."

A soldier of the Kingdom of Jin next to him became unhappy when he heard what Qin Yuan said, and said what they could do, they had to bring their chief, and this man's words also involved personal attacks, it was too much, even if he saved So what if you lose yourself?

"I think your words are really problematic, and we are just raising our own doubts, and I think what you said is too exaggerated!"

At this time, an older soldier next to him stopped him. I had indeed heard of such a thing before. In places with such deep water pressure, I can only rise slowly so that my body can gradually adapt to the water pressure. A self-destruct will really happen.

"I have been to your country to train you before, why don't you know you guys, it's too bad, go back and study hard! When you come out to be a special soldier, your level is placed in our country Ordinary players can't do it."

"Damn, the more you talk like this, the more you go too far, so what if you save us, I really can't stand it."

After the soldier finished speaking, he raised his foot and wanted to kick Qin Yuan. The people next to him wanted to hold him back. After all, Qin Yuan was driving a submarine. Unexpectedly, Qin Yuan directly controlled it with one hand, and then raised his hand to block the soldier. Kicked feet.

Immediately afterwards, he changed hands and threw out a playing card. The playing card rubbed against the soldier's ear and flew out, nailing it firmly to the wall behind him. The soldier covered his ears in pain instantly, and Qin Yuan just gave A small lesson for him, just let him bleed a little, otherwise his ear will be lost.

"You're **** incompetent, and you have a big temper. I advise you to sit still, otherwise you won't want to hear such disobedient ones next time."

The soldier is now afraid and in pain, blood is bleeding from his ears, his playing cards are too fast, and they are so sharp, not only scratching his ears, but the whole playing card has completely sunk into the wall behind.

It was only in this way that the inside of the submarine became completely quiet. According to the radar detection, Qin Yuan showed that you want to keep them at the top, and he just needs to go up and send these soldiers there.

At this time, the pirate leader felt more and more that something was wrong. What's going on? How could they dare to see that their instructions were out of control? But if it is out of control, why is the goal so clear, it is to go up.

"Boss, I think it's probably the fault of the soldiers of the Yan Kingdom. The ships before them suddenly appeared, and then our submarine issued an alarm, and then such a thing happened."

This boss couldn't believe it at all. Someone could really dive to such a deep seabed. This is too exaggerated!

However, for the sake of safety, he decided to give up chasing the submarine and hurriedly fled towards the deep sea area.

"Fred, hurry up and take your brothers to retreat. I saw their Yan Kingdom's warship hurrying around. Don't come to pick us up. I'll send you another address and we'll meet in another place."

The pirate leader quickly sent a message to the people above. He didn't want to have a war with these Yan troops. He really couldn't figure it out. Suddenly a name broke into his mind. Could it be that person? He was just an unknown person in Somalia before. The little pirate was still dawdling under the other bosses, but he didn't expect that the three bosses he followed were wiped out by Qin Yuan.

Since then, he has been very afraid of Yan Jun. He knows that these strict soldiers are very desperate, and they are also very strong, and they will never stop dying.

The pirate leader was a little scared, he didn't want to be caught by that Qin Yuan, or all these years would be wasted, "If it's really that person, we can only run away quickly, and maybe only he can do it."

At this time, a pirate ship suddenly appeared on the high seas. They had seen the warship in front of them was about to approach, but they suddenly received an order from the boss to retreat. They had no choice but to retreat quickly.

After a while, Qin Yuan came up with the soldiers from the Kingdom of Jin in a submarine. Li Erniu and the others also went down to meet them, picked up all the soldiers, and then contacted the person in charge. All the hostages have been rescued. As for the pirate leader, he probably has absconded, and he has no way to hunt them down.

"Hehe, then I would like to thank Captain Qin. I thought you were a powerful person, but I didn't expect to let that pirate leader escape. It's a pity. It seems that I overestimated you."

Qin Yuan didn't even want to hear it, so he hung up on these people directly. These people really don't feel pain in their backs when they stand and talk, and in that situation just now, they could obviously send troops to fight with him, so they can intercept them. These pirates split up, but they didn't do anything at all, didn't they just want to watch their excitement.

Anyway, it doesn't matter that I have already rescued their hostages. For this kind of ungrateful people, before the villains deal with them, the pirate leader said that he would attack Jin Guo, so let them fight in the nest!

Wang Yanbing looked at the soldiers of the Kingdom of Jin eating their food, and their leader still had such an arrogant attitude, "Look at these white-eyed wolves eating our food. We saved their lives and treated us. That being said, his grandma, he would have thrown all these ***** into the sea to feed the sharks."

Wang Yanbing was speaking in dialect. The Jin soldiers didn't know that he was scolding him, but just now they also heard the attitude of the people on their side towards Qin Yuan, and they were a little ashamed. Without this strength.

"There's no need to argue with these people. If you worry too much, you'll be too tired. Let's just do our own thing well. This time the task is considered complete and we can go back."

When the hostages were handed over, the person in charge of the Kingdom of Jin came. It was the first time Qin Yuan saw this person. As expected, hearing the voice, he felt that this cheap person also had a bitter look. The person in charge He hypocritically said a few polite words to Qin Yuan and the others, and then followed their soldiers and left.

"Bah, a bunch of ungrateful wolves might as well feed a dog."

Seeing Jin Guo's attitude, everyone was very angry, and they were simply treating them as tools. Qin Yuan knew that everyone was in a bad mood, so he could only change the subject, and he brought the topic to Xiaoling. At this time, He Chenguang heard that Xiaoling He smiled instantly, he should be able to take a few days off after going back this time, and he is going to find Xiaoling.

Qin Yuan directly agreed. After all, this kid's love has just started now. If he is not allowed to go, he must be unhappy. In addition, there is nothing to do later, so let him go.

After returning, Gao Shiwei received a commendation from Jin Guo. He sneered and threw the vote on the table. It was so fake and without sincerity.

Li Erniu and the others are still training, so they can only watch He Chenguang go out on a date with a happy face, but before leaving, they still confess to him, "I know this girl is good, but you should know our discipline, what to say and what not to say." It should be said that you should understand, including your leader Long, I have a lot of things that she won't forget, and we won't say anything about it."

"Brother Qin, don't worry! I don't think there's a problem. I'm stronger than them in terms of discipline."

Qin Yuan only gave him a three-day vacation. When He Chenguang came back, he had a sad expression on his face. He always felt that the time was too short, but after returning, the two of them still kept talking on the phone and writing letters.

When everyone was cleaning in the dormitory, you were second-rate, and suddenly saw that there was a silver mobile phone on He Chenguang's bed. Their mobile phones were all uniformly issued in black, because this kind of mobile phone has been specially processed so that it will not reveal the location.

"What's the situation with you boy, why did you bring contraband, I tell you that Brother Qin found out that you are dead!"

"Fart! What kind of contraband is this? Xiaoling bought it for me. I know it, so I didn't turn it on at all. I just took her with me as a memory. The girl bought it for me with a month's salary."

Li Erniu shook his head. This kid keeps his mouth shut all day because Xiaoling is completely confused, but He Chenguang still knows the discipline he should have. After another period of

time, He Chenguang suddenly looks sad, and the training is also difficult. He was absent-minded, and when he was partnering with Wang Yanbing, he almost made a mistake and Wang Yanbing fell off the high wall.

Qin Yuan went to talk to He Chenguang seriously. He always felt that He Chenguang was a very stable person, and he shouldn't make such mistakes. How could he fall in love with each other? The whole person has changed.

But He Chenguang just said that something happened at home. He wanted to ask for a few days off, and didn't mention that Xiaoling at all. Qin Yuan felt strange, could it be that these two people had some trouble? It seems that I have to take some time to ask Grandma Sun about the situation, but since He Chenguang said that there is something wrong with his family, anyway, he has nothing to do with the team, so he was granted a few more days off.

"He Chenguang, please remember that we are all brothers. If there is something that cannot be resolved, I will still be behind you. Brother Qin will always protect you."

He Chenguang smiled, he was quite touched, the brothers behind him have been supporting him, "Don't worry, Brother Qing, I can solve this matter, I'm just going to verify my guess, just take this opportunity to go out and adjust. After all, the past few days of training are really absent-minded."

A few days later, when everyone had just finished fighting training, Li Erniu looked at the gate with a smile on his face, "He Chenguang will be here in a while, and I asked him to bring me something to eat. When the time comes, let's have a dinner together." ."

Qin Yuan really turned a blind eye. After all, although it is forbidden to bring food, it is not a problem to bring some food. He also wants to improve the food.

But what they didn't expect was that it was already 7:00 pm, and He Chenguang hadn't come back yet. He left the team at 7:00 pm, and he had to return to the team before 7:00 pm. This was an order and a discipline.

Chapter 878 Spy Organization Xiaoling

"I think this kid is really drifting away. I didn't tell Lao Gao about his leave. I approved it for him. If Lao Gao knew, he would have to pick me up."

"Brother Qin, it shouldn't be that serious. Chen Guang knows how to measure it. He probably thinks that the vehicles on the road are delayed. Normally, he wouldn't do this."

Qin Yuan felt fortunate that Gao Shiwei went to the military region for a meeting today, and it was a good thing he wasn't there, otherwise he would be overseeing their training routinely as before, and it would be over if he was discovered.

"Call this kid quickly, he is getting more and more drifting now."

Unexpectedly, He Chenguang's phone was turned off. Everyone thought it was very strange. At this time, Qin Yuan suddenly wondered if something happened to him, because He Chenguang has always been a strict person. Except for special circumstances, the phone must be 24 hours a day. Power on so the contacts are in place.

Could it be that what he said before combining it was true that something happened at home? Thinking of this, Li Erniu hurriedly called He Chenguang's family, but they said that He Chenguang never went back.

Now everyone was completely confused, why did He Chenguang find such an excuse to deceive everyone? There must be something hidden in this, could it be because of that Xiaoling?

"Brother Qin, is it because of that woman that He Chenguang doesn't even care about discipline now? This time it's really a bit too much. We are all behind him."

Qin Yuan thought of this and shook his head. This is not He Chenguang's temperament. Even if he knows that He Chenguang is in a relationship now, he knows that an excellent sniper has a strong psychological will, and he will not make such low-level mistakes. .

"Now we don't know the truth of the matter. Don't rush to draw conclusions. After all, you have to trust your brother. Well, his mobile phone has a positioning system, but it can display his last location."

Just like that, everyone quickly used the computer to check the location of He Chenguang's phone at the last moment. Qin Yuan fell into deep thought when he saw this location, Phoenix Mountain! That area is a cemetery. The most important thing is that Phoenix Mountain and the orphanage are in the same place, but the distance between the two sides is more than 30 kilometers. After all, the orphanage is in the urban area.

It seems that there is something wrong with Xiaoling, or else He Chenguang suddenly went there to do something, Qin Yuan hurriedly called Grandma Sun to ask about Xiaoling's situation.

Grandma Sun thought He Chenguang's matter was settled, and she was quite happy, "Don't worry, Xiaoling's girl is definitely a good girl. She works in the kindergarten in front of our orphanage, and she is a serious child."

Qin Yuan knew that Grandma Sun was kind-hearted, but this time He Chenguang's disappearance was absolutely inseparable from this little Ling. After Qin Yuan's questioning, he found out that this little Ling came to the orphanage to help out as a volunteer. We know each other. Speaking of which, Grandma Sun and Xiaoling have only met each other a few times, but this person is eloquent and enthusiastic about taking care of the children. Grandma Sun also thinks there is no evil intention.

After hanging up the phone, Qin Yuan said solemnly: "It seems that our team went to this Phoenix Mountain to have a look. I hope that nothing will happen to He Chenguang."

"Anyway, he is also a member of our red blood cell team. He is the best when he takes it out. It should not be a big problem. It is probably because of special circumstances that he turned off the phone."

Qin Yuan nodded and prepared to set off with the red blood cell team. When he went out, the guards were registering. Qin Yuan explained with a smile that they went out for special training. This was also the privilege Gao Shiwei gave them, because Qin Yuan often brought The team went to places like Houshan Snow Mountain for special training.

The guards quickly let him go without any doubts. After he came out, Qin Yuan called He Chenguang's cell phone again, but it was still turned off. It was almost eight o'clock now, and he was sure that something happened to He Chenguang's side.

Everyone drove to Phoenix Mountain quickly, and when they arrived at Phoenix Mountain, it was already past 10 o'clock in the evening. Qin Yuan was driving all the way, and he was very worried about He Chenguang's situation. Chenguang's mobile phones are all turned off.

After Gong Jian got out of the car, he felt a little strange. They looked around and found that the location display was in this cemetery. Could it be that He Chenguang is in this? Or was his mobile phone in it, and they came to a tombstone according to the positioning system.

This Phoenix Mountain is an old-fashioned cemetery, still in the form of coffins, and occupies a relatively large area. The government will redevelop this area later, so no new tombs will be arranged in this area. Qin Yuan squatted down to check, and found that this area has a picture. Traces of being refurbished.

He asked Li Erniu and the others to be on guard, and the others quickly started digging. At this moment, while they were digging, Qin Yuan heard a slight knocking sound, and he quickly told everyone to stop. He listened carefully, Unexpectedly, it came from the tomb.

In this quiet night, the sound of knocking inside was heard again. This time it was very clear, and everyone's expressions changed drastically. Could it be that He Chenguang really quickly dug inside?

Qin Yuan kicked over the coffin lid above, and there was a man lying inside, not He Chenguang, but the man was holding He Chenguang's mobile phone tightly in his hand, which was damaged at this time.

The man's consciousness was very vague, and he was in a semi-comatose state. After all, this was equivalent to directly burying the person alive. Fortunately, the man's life was fatal, and he persisted until Qin Yuan and the others came. After the man breathed fresh air, Qin Yuan fed him some water, and his condition was restored. Come slowly.

What the man said next shocked everyone, "They have taken your comrades overseas, they are going to Myanmar, you hurry up and go out, otherwise it will be too late."

The incident happened suddenly, and here was the barren mountains and wild mountains. Qin Yuan could only let Li Erniu carry the man on his back first. They set off together. On the way, the man drank some water, and he seemed to be in a state of relief. Under his narration, Everyone found out that this man was a local policeman named Pan Zi.

However, he is also in a special department, which is responsible for investigating some espionage cases. The major cases involved between them, like the Black Cat Group, they have also participated in before, but it was with the cooperation of Qin Yuan and the others. It turns out that Xiaoling's original name is It was Li Xiaoling, but this time it was her alias when she came to Yan country. In fact, her real identity was a secret agent of Myanmar country.

The police had noticed the movement of their group before, and they had been lurking and following them, because they had tried to get close to the people in their team before, but these comrades in the spy department were not vegetarians, and soon discovered the clues, just as they were about to go down. During the investigation, this little Ling suddenly disappeared.

After a long period of time, Xiao Ling seemed to have disappeared from the world, and there was no news, but they never gave up. Finally, they found out that Xiao Ling came here and entered a kindergarten as a teacher, in order not to scare the snake away. , The police are only following, in order to catch the bigger gang behind.

During the follow-up, Pan Zi discovered that Xiaoling entered the orphanage, and got very close to Qin Yuan and the others. At that time, he didn't know that Qin Yuan and the others belonged to the special brigade, because the identities of both parties were kept secret. Pan Zi I have only heard of Qin Yuan's name before, but I have never seen it myself.

At first he doubted whether Qin Yuan and Xiao Ling were accomplices, but later on, he discovered that Xiao Ling was just using them. Although He Chenguang was with Xiao Lin during that time, they met each other for a relatively short time. No clues have been found here.

They also secretly investigated the orphanage and found that it was just an ordinary orphanage. It seemed that everyone was being used by this woman. Until later, He Chenguang also found out that something was wrong. This little Ling always asked him some questions about discipline. , He definitely wouldn't say these things.

At first, he just thought this girl was more curious. After all, it was Grandma Sun who introduced her, so he didn't pay much attention to it. The girl asked more and more questions. The mobile phone Xiaoling gave him was fine. Gave him a pair of headphones.

Originally, He Chenguang thought that such a small object would definitely not be checked, but he still kept an eye on it. After all, he had been a member of the Special Forces for so many years, and He Chenguang only discovered that there was a positioning system in the headset.

Now he began to suspect Xiaoling, but there was no conclusive evidence. He originally wanted to explain the situation to Qin Yuan and the others, but he still struggled in his heart. He was worried that if it was a misunderstanding and called Qin Yuan and the others to make things worse, then this good girl I was delayed, so I planned to verify the investigation by myself first.

He also came to investigate secretly, and met Pan Zi unexpectedly. Pan Zi also had a fight with He Chenguang. They didn't know each other before they knew each other. Only then did they know

that they were all on their own. The two planned to cooperate together. Why? Chen Guang notified Qin Yuan, but Xiaoling and the others discovered it unexpectedly.

In this way, the two were attacked. He Chenguang didn't have a pistol on his body, and his fists were hard to beat. There were so many of them. They directly knocked He Chenguang unconscious with an electric shock baton and took them away. The mobile phone was handed over to Pan Zi, and his mobile phone was damaged during the fight.

Pan Zi was buried alive in the cemetery by those people. Fortunately, Qin Yuan and the others arrived in time, and He Chenguang's mobile phone had a positioning system, so they found Pan Zi.

"Captain Qin, your comrades are really skilled, but those people are also very skilled. Two of them seem to be some kind of local masters, and finally I heard that they are going to take He Chenguang overseas. They have special means to Ask the secrets they want to know."

Qin Yuan was running all the way, and he was also very anxious. However, He Chenguang had also done counter-espionage and prisoner training before. He should be able to withstand those tortures. He was just worried that there were really some technological means It will be a big problem when He Chenguang really tells the military secrets he knows.

The members of the red blood cell team did not expect things to turn out like this. Everyone was very worried about He Chenguang's safety. They had to stop this group of people before leaving the country. Pan Zi was the last person they met, so Qin Yuan planned to take him with him.

"Brother Pan Zi, are you okay? Come with us on this mission. In fact, you just need to tell us what those people look like. After all, I have only met Xiaoling."

"My body is fine, but just now I was suffocated and sad, and now I am much better. This task is what I should have done, and I will definitely participate, and it was Brother Chenguang who saved me. At the last moment, he assigned the position to I."

Qin Yuan nodded, and just like that, everyone came to the border area. After communicating with the local customs department, everyone tried their best to search for these people. They searched the system at the customs, only then did they find that those organization members had been there for half an hour. before going out.

What's more, they used He Chenguang's own ID card and went out in a fair manner. This is also because they took advantage of the loophole, because He Chenguang belongs to the special forces and often goes out to perform tasks, so there is no need for too complicated a review, just like that , They successfully left the country, Qin Yuan kicked the marble next to him angrily.

"Damn it! I'm going to catch these people and tear them to pieces!"

Without further ado, Qin Yuan and the others hurriedly appeared on the scene. After all, they should be able to catch up in half an hour, but once they go abroad, this situation may not be certain. They don't know where these people are going. After all, Myanmar is not big. , No matter how small or small, we don't know exactly where they are.

Without further ado, Qin Yuan asked everyone to search separately, so that the chances of finding them are relatively high. Everyone has seen the pictures of those people in the monitoring room. He Chenguang was dragged out at that time. They told the customs that He Chenguang was born. Serious illnesses have to go abroad for treatment, and the customs has opened a green channel for them These people really took full advantage of them, so everyone searched blindly for more than an hour, nothing happened , Qin Yuan became more and more anxious. Originally, he wanted to use the system to recycle pet skills, and then find mice like last time, and use these mice to find them. After all, the hope of finding them is greater this way.

Unexpectedly, after searching for a long time, he didn't see a single mouse. Qin Yuan even came to the sewer. Although the sewer was very dirty, there was still no mouse. This made Qin Yuan feel very strange.

He asked the residents next to him and found out that the president of the Burmese country was coming down for inspection these days, so the whole street was cleaned up, especially the rats. In the past, rats ran around the streets here. After a period of time, After the renovation, the rats in the whole city were wiped out, including the sewers, and people regularly dosed the rats every day to catch them.

Qin Yuan shook his head, this is really a coincidence, watching the time go by, He Chenguang will be more dangerous if he stays in their hands for one more minute, there is no way, Qin Yuan ran to the pier again, here is The place where those people must pass when they disembark.

He took a deep breath and exuded the charm skill. There were a lot of people on the pier, those who shipped goods and those who were doing business. It took a lot of energy to control so many people at the same time, but now they can't manage that much anymore.

Chapter 879 Rescue He Chenguang

They also questioned these residents before, but no one paid any attention to them at all, and there is no monitoring here. After all, everyone is busy with their own work, so many people will not notice, Qin Yuan can only do this trick, he Using the charm skill to control the people on the pier.

Under the control of the charm skill, these residents told everything they saw and knew. Combined with their clues, Qin Yuan knew that these people were picked up by a minibus after disembarking, and he continued to ask for clues about this minibus. , he radiated more charm skills, and the whole pier extended to the back, and all the people who received him were controlled by him.

Finally, I found out the clue. The driver of the minibus and the owner of the store in front are cousins. The driver of this minibus received a business order to take these people to the local redwood forest. At least now we have a clue, Qin Yuan Already sweating profusely at this moment, it was the first time he had manipulated so many people, and he felt his feet were a little weak. After asking for clues, he quickly released the control.

At this time, Qin Yuan turned his head and saw two cows tied to the restaurant next to them, ready to be slaughtered. It happened to be a chance to try the skills recovered by the system before and use external creatures to restore energy. He walked slowly towards the two cows , put his hand on the cow's head, at this moment, he felt a faint energy coming in from the palm of his hand.

After a while, the expression of the cow became dull. He felt that there was strength in his body, but it was not enough. He turned his hand to another cow. After absorbing the energy of the two cows, Qin Yuan felt that he had almost recovered. Now full of energy.

This skill is really good. If it's like this, I don't have to worry about not having enough energy in the future. As long as there are other creatures around me, I can absorb their energy.

At this time, the boss next to him rushed out with a kitchen knife. He thought Qin Yuan was going to steal the cow, "Boss, you misunderstood. I just saw that the two cows were about to be killed. I feel a little pitiful. I was praying for them."

"Neuropathy!"

Although Qin Yuan was scolded, he was very happy. At least he found a clue, and his energy was restored. He hurriedly called Li Erniu and the others back, and they all found a local car and went to the redwood forest together.

The driver thought they were going to travel there, and recommended other places to them. After all, there is nothing interesting in the redwood forest, just some redwood trees.

"Uncle, in fact, we are in business. It is this kind of red cedar wood. We want to check the situation."

Qin Yuan was going to make a cliché, and wondered if the driver would know the situation over there. Unexpectedly, after chatting slowly, Qin Yuan actually asked some questions about the situation. It turned out that the driver of the minibus also knew the driver, and they This place is not considered a big sports car, everyone has connections.

"It turned out to be the wood over there. No wonder my brother often took people to the redwood forest. I said that there are some redwoods over there. What's so good about it?"

"I often take people there, are we Yan people?"

Qin Yuan was a little worried. He was worried that He Chenguang was not the first person to be taken away. Maybe other people in the country were also taken out by this organization in this way. That would be a big problem. If state secrets were involved, the number of personnel would be relatively large. too much.

The driver said slowly: "No, I haven't seen you from Yan Country. They are all from other countries. After all, your skin color is still easy to identify. What are you worried about?"

Qin Yuan could only change the subject, saying that he was worried that if other people from Yan Kingdom had already come, the timber would likely be bought by people from his own country, and if he pulled it back by himself, there would be competition. Hearing this explanation, the driver He also nodded without any doubts.

Pan Zi, who was standing next to him, secretly admired Qin Yuan's quick response, and he managed to get so much information without making a fuss, and it didn't arouse others' suspicion. This time, he happened to learn from him.

After an hour, they finally arrived at the redwood forest. The driver also introduced to them that there used to be a village in the redwood forest, but because mudslides often occurred here, the

government moved them out. Now it is an empty village, but they encountered If it's raining or something, let them go there to take shelter from the rain temporarily.

It seemed that there was a serious problem in that village. Qin Yuan and the others said goodbye to the driver and walked in slowly. It rained before, so the traces of the minibus are very obvious, and the minibus has been extended into the village.

At this time, Qin Yuan heard some movement, and hurriedly asked everyone to hide in the nearby redwood forest, and a minibus slowly drove up from the front. It should be the one that sent He Chenguang and the others. The road was bumpy, so the driver drove It was relatively slow, and I was willing to take a closer look at the car, and there was no one else in the car, only the driver. It seems that the driver has no problem, but they just took it temporarily.

After the driver left, Qin Yuan and the others came out and set off towards the village in front of them. As soon as they arrived at the entrance of the village, Qin Yuan heard the sound of fighting keenly. Chen Guang was half-kneeling on the ground with both hands, and was punched and kicked by these people.

The leader was Xiao Ling, and there were men and women next to him, about seven or eight people. At this time, He Chenguang's nose was bruised and his face was swollen, and his eyes could barely be opened. The wooden stick hit Synthetic Light's waist directly.

They didn't hit He Chenguang's key position, they just wanted to force out the information they wanted.

Xiaoling sneered and said, "Look at why you have such a hard mouth. If you said it, you would have been relieved of this pain. This is just an appetizer. We have a lot of torture here, such as tiger stool, pepper water, I believe you have heard of these , and electric shocks, and of course our special interrogation method, but I don't think it's necessary to waste it."

"Damn it! Get lost! You give up, do you think you can ask me something by bringing me here? It's ridiculous, all you get is my dead body."

"Grandma, keep calling me. Orff has already gone to prepare chili water. Let this kid taste the taste of pepper washing eyes first."

Qin Yuan gritted his teeth and rushed forward, Li Erniu and the others also clenched their fists. Xiaoling didn't expect their speed to be so fast. They have already found this place, but here, they

have guns, so they are not afraid of being fast at all. He raised his gun and shot at Qin Yuan and the others. Qin Yuan was twice as fast as them, and directly threw the throwing knife, killing the two people holding the assault gun instantly.

In a blink of an eye, Qin Yuan had already rushed in front of Xiao Ling, and he kicked Xiao Ling in the stomach, she stepped back, then turned over, took out a few darts from her waist, and shot at Qin Yuan directly. Go, Qin Yuan turned over several times to avoid the darts, and threw out the poker again.

The sharp poker sliced along Xiaoling's shoulder and neck, and he dodged quickly, but the clothes on his shoulders were torn apart by the sharp poker and blood flowed out.

Xiaoling was shocked, what kind of weapon is this, a card? How do cards get so sharp?

The ones holding weapons in their group were the two people just now, and they had already been dealt with by Qin Yuan. Li Erniu and the others rushed up to fight with those people. As soon as Yuan grabbed it, he threw it over his shoulder and slammed it ***** the dirt wall behind him.

Seeing He Chenguang being tortured like this by them, everyone was very angry. As for the two masters that Pan Zi mentioned just now, they were directly kicked to the ground by Qin Yuan's whip leg, unable to get up at all.

Xiaoling struggled to come up again, she knew she couldn't escape, so she fought them to the death, but Qin Yuan didn't pay attention to her at all, and kicked her on the shoulder, she only felt that her shoulder was broken Then it flew out and hit the water tank in the yard heavily.

Unexpectedly, this little Ling was pierced through the abdomen by the fragments of the water tank, her eyes widened like this, and she died unwillingly.

Qin Yuan didn't expect why he was so heavy-handed. Originally, he wanted to ***** Xiaoling back, but it seemed that there were only other people. He asked everyone to guard and control them. Those people had already been beaten to the ground. On the ground, there is no way to fight back.

The members of these espionage organizations are also very skilled. They didn't expect to meet Qin Yuan. This person's speed is several times faster than theirs, and his strength is also surprisingly great. He has no power to parry at all.

Wang Yanbing ran over to untie the rope from He Chenguang's body, and He Chenguang grinned, "Brother Qin, you are finally here."

"You brat told you before that we are brothers. If you have anything to say, you can tell us. You have to be brave and almost have an accident. Do you know that if something happens to you, our red blood cell team will be out of order?" It's..."

As Wang Yanbing scolded He Chenguang, his eye circles were red again. He couldn't imagine that if it wasn't for Qin Yuan, under his leadership, they would come one step later, He Chenguang might really be tortured to death by these people.

Qin Yuan was their hope at any time, and when everyone would give up if they couldn't find it, he suddenly told everyone that he didn't know how Qin Yuan asked him when he came to the redwood forest, anyway, their captain has always been so powerful.

These espionage organizations don't know what secrets they have stolen from the Yan Kingdom. Anyway, they want to take them back for careful interrogation. I didn't expect them to infiltrate in this way. That Xiaoling really couldn't see it at all, and deceived Qin Yuan. .

On the way back, He Chenguang shook his head. He thought it was a beautiful love, but he didn't expect it to be like this. He will not dare to expect any love in the future. Sure enough, the more beautiful a woman is, the more dangerous she is.

Qin Yuan thought that Qin Zhengyang was a pretty good kid. Before he could find out that something was wrong with Xiaoling, Qin Zhengyang had reminded him, but because it was introduced by Grandma Sun, he didn't take it to heart.

"Brother Qin, what should we say about grandma's problem later on, or don't tell her the truth, just tell her that Xiaoling and I are not suitable and we have already broken up."

"No, I have to tell her this. Grandma Sun is too kind-hearted. Tell him to be more careful in the future. Before this Xiaoling heard Qin Zhengyang say that she came after me. It is probably Grandma Sun who is shopping for vegetables and daily life. During the supply process, I told people that his grandson was a soldier."

Everyone nodded. These old people sometimes don't know the danger of things, and feel that they can be easily taken advantage of by those who care about them.

Pan Zi was very happy, with Qin Yuan's help this time not only saved his life, but also wiped out these spy organizations, especially the scene where Qin Yuan kicked the female spy away with one kick is really fresh in my memory Well, Captain Qin is really brave and resourceful.

Qin Yuan and the others sent Pan Zi to his sub-bureau. Pan Zi enthusiastically wanted to stay with a few of them for dinner, but He Chenguang was still injured, so everyone decided to go back to the army first. After all, Gao Shiwei was still there. I don't know what happened this time, but I still need to report to him.

During the period, they went back to find Grandma Sun. After all, these things have to be reminded to Grandma Sun. When she saw the injuries on He Chenguang's body, she felt distressed instantly, "What's going on? Why can't you children be careful when performing tasks?" what time?"

Qin Yuan shook his head, and told Grandma Sun the general story, but he omitted some things, Grandma Sun was very surprised, she did not expect that it was her who harmed He Chenguang.

At this moment, Grandma Sun was full of remorse, "Chen Guang, I was wrong this time, why didn't I ask more questions, I didn't expect to make you suffer so much, these bad guys really deserve to be cut to pieces."

"Grandma Sun, don't talk about me like that. Originally, you were doing it for my own good. Our captain told you about this just to make you understand. After all, we have special identities, and we will really be used by others."

Grandma Sun nodded her head desperately. looked at He Chenguang's injury. She felt very distressed. She would definitely not talk nonsense in the future. He just casually said that his grandson was serving as a soldier, but unexpectedly, he was taken advantage of by these caring people.

Qin Yuan called Qin Zhengyang into the yard, "You are a good scout, and you observe things very carefully. I will entrust the safety of the orphanage to you. If you have any special circumstances, please report to me."

Qin Zhengyang was very happy to be recognized by Qin Yuan. Besides, it had always been his wish to work for the orphanage. Grandma Sun took care of him like this, so he had to do his part.

"Brother Qin, don't worry, I will report to you immediately if there is any suspicious person entrusted to me in the future. And I envy you, I want to be such an excellent special soldier like you, to save more people."

Qin Yuan smiled, this kid does have the potential to be a soldier, but let's talk about it when he becomes an adult! It's still too early.

When everyone returned to the team, Qin Yuan took He Chenguang to find Gao Shiwei in person. He thought everyone would be scolded, but he didn't expect that the first thing he cared about was He Chenguang's injury, and he also praised He Chenguang for his quick response. , Not bewitched by these spies, this is their Yan country soldier, not fettered by any emotions.

Chapter 880: ??Captive Training

"But you still have to be more careful. After all, we have special identities. Many people are staring at us. There are too many people in this world who are obsessed with interests. Although we don't take action against others, we still have to be defensive."

"I must listen to Team Gao's instructions, but He Chenguang responded well this time. I regret that I killed the female spy directly, otherwise I really want to see their so-called special tools. According to Pan Zi, it can directly kill the spy." Let people speak their inner secrets in an unconscious state."

Gao Shiwei was shocked when he heard this, that there is such a thing. If so, their anti-reconnaissance and anti-espionage training will have to be strengthened again. This time the situation is also a wake-up call for the team. The soldiers led by Long Xiaoyun didn't need to do prisoner training yet.

But worrying about other external factors, the prisoner training was advanced. After discussing with Long Xiaoyun, Qin Yuan and Long Xiaoyun decided to give them the most authentic reaction. Without their knowledge, this is the only way to test the most authentic reaction. The way they special forces always do.

Gao Shiwei used this trick to punish Qin Yuan and the others before. The entire red blood cell team and the wolf warrior team had put on makeup. What they had to do was to be real. These soldiers didn't know what they were going to face the next day. The day before yesterday In the evening, there was talking and laughing, and the emergency assembly whistle blew the next day.

Gao Shiwei came to these soldiers seriously, "Although you have only been training with me for three months, you were also excellent soldiers at the army level before. Now there is an emergency, but the soldiers in our team The two special forces teams have already been dispatched to be on duty, so it's time to test you."

Hearing this, the soldiers were nervous and excited. Since they are going to be taken to perform missions, this is their dream. The nervous thing to be able to serve the country is that they don't know what kind of difficult missions they will face. You must know that there is nothing wrong with special forces. Easy task.

"This time the situation is quite special. You must fully distribute live ammunition. A group of armed criminals have absconded to the border area of our country. We need to arrest them to ensure the safety of the people on the border. I reiterate that this mission is very dangerous. But it's also your time to serve your country."

Qin Yuan listened silently behind the scenes, this old Gao's acting skills are getting better and better, better than they were before, and maybe his eyes will start to cry in a while.

Sure enough, Lao Gao's tears came as soon as he said it, and the circles of his eyes turned red instantly, and he tried hard not to let the tears fall, looking at these soldiers very reluctantly.

"I know that most of you are not married, or some of you have relatives at home, but this is our mission. We will pierce the enemy's heart like a sharp knife, and silently protect the safety of people's property behind the scenes. This is our mission. purpose!"

Gao Shiwei talked a lot again. Under his encouragement, these soldiers were all very excited, saying that they could set off immediately. Qin Yuan couldn't help laughing behind him. This old boy acted It's really a set.

However, this group of soldiers is also quite shrewd. They thought that this might be a test mission for them. They didn't expect that it was actually distributed to them at that time. They didn't know that it was real when they saw that the blank ammunition was not for training. of.

Then it was Long Xiaoyun's turn to play, and he asked these soldiers to prepare their suicide notes. After all, all unexpected situations would happen on the battlefield, and they might not even be able to prepare their suicide notes.

"The high team and I have made it clear that I should be talking about it. This time I will lead the team, but we are relatively democratic after all. This is a desperate thing to go on the battlefield. If you don't want to go, then quit now. After all, I don't expect someone to run away and cause me big trouble."

Such a test is also a test of the will of these soldiers. When facing the danger of their lives, what choice will they make? If someone quits now, then he is really not suitable for special forces, after all, special forces are doing dangerous things here.

Long Xiaoyun was not disappointed. None of the soldiers he brought said they would quit, so these soldiers were taken into the car and set off after checking their equipment. Although they resolutely went to the battlefield, it is human nature to be afraid, This is inevitable.

Inside the swaying carriage, the outer cloth covered the entire carriage tightly. It was dark inside, but someone could be heard sobbing softly. With the first one, there would be a second one, and a third one.

Someone finally couldn't bear this feeling, and said loudly: "You can vent your emotions for what you are doing, but there is no need to keep doing this, it really affects the morale of the army. You have to prepare for this day from the moment you enter the special forces, Otherwise, what are you doing in Special Forces? Just for the title?"

"Brother, you don't have to be so excited. After all, everyone is a normal person with emotions. To be honest, I haven't been home for a year. Everyone doesn't know if I can see them again on the battlefield this time. Let's all vent."

Hearing this, the soldier just quit. His idol is Qin Yuan, a figure of the God of War level. He has always aimed at Qin Yuan and worked hard in his direction.

"The army has no tears and can bleed, but you are too cowardly. Before we went to the battlefield, you were fettered by your own emotions. Can you still fight with your guns now? It's a pity that we got a few trash. "

The people who were weeping softly stood up and argued with him when they heard what the soldier said. Long Xiaoyun was a little helpless. Anything can happen. These soldiers are really noisy behind the scenes. When is it?

But it's really time to teach them a lesson. At this time, they still don't have a united heart. It's really too difficult. Training is very necessary.

On the other side, Qin Yuan was still painting the camouflage on his face, he applied a thick layer of camouflage, and even made a wig, "How about it, even Long Xiaoyun can't recognize my equipment, right? "

"Hahaha, Brother Qin, if your tone is more aggressive, you will be the same as the black boss on TV."

"What you want is this effect. Remember, don't be soft-hearted later, just hit when you should. After all, you all came from that stage, everyone knows it!"

Recalling the previous training, Li Erniu shook his head. At that time, Qin Yuan was much more ruthless than this. They were soaked in the water prison for four full days, and they were tortured continuously during the period. He once thought it was true. .

"By the way, what about Lao Fan, why haven't I seen him again?"

"He played the corpse this year. He has already mixed into that group of soldiers, and he will be the first to take the knife later."

In this way, everyone got ready and waited for Long Xiaoyun to bring the soldiers. After arriving at the destination, Long Xiaoyun let the soldiers get off the car quickly, and those criminals were lurking in the village ahead.

"You don't have to worry about this village being deserted. The government called for the villagers to be evacuated before, and it's an Arakawa. That's why they were allowed to occupy it. Everyone, pay attention to safety. According to my arrangement, don't be lenient and just shoot!"

This was also their first live ammunition lesson. Some soldiers had sweat on their hands. They walked into the village slowly according to the attack formation. The whole village was very quiet and everyone was very nervous. Suddenly, many people stood up and threw smoke bombs towards them. In an instant, these soldiers were surrounded by smoke.

Long Xiaoyun yelled decently: "Everyone stay in formation and squat down, and quickly evacuate from the smoke area."

Immediately after Long Xiaoyun smiled brightly, she quietly exited the smog area and came to the designated location. Why is Qin Yuan not here? She clearly agreed that she would come here to fight him. At this moment, Qin Yuan quietly Closely approached from behind Long Xiaoyun.

Long Xiaoyun felt it keenly, without hesitation, he turned over and kicked Qin Yuan with his right whip, "Alas, what are you doing? I'm joking with you, you are serious."

"Now it's time for training, can you have a positive form, hurry up and keep your voice down, and when they hear it, this plan will be ruined."

Qin Yuan nodded, put away his smile and began to fight seriously with Long Xiaoyun. At this time, the red blood cell team and the wolf warrior team also rushed in. They were not afraid of the guns in the hands of these soldiers. Live ammunition, that is just to show them a glance, worried about other accidents, and then changed all the equipment.

After they rushed up, they directly beat the soldiers in the smoke with sticks. They were wearing special masks, so the situation inside the smoke was clear, and these soldiers were caught off guard.

It was too late to react when he wanted to shoot, and the gun was disarmed in minutes. This is for sure. After all, the two special forces teams are professional, and these things are left over from their previous games.

After a while the smoke dissipated, and these soldiers were knocked down and controlled to the ground. These people were really ruthless in their attacks, and many soldiers were already bleeding. Qin Yuan saw this situation from a distance, and this training was quite suitable. They would rather have their blood broken in their own hands and let them remember the experience of this battle to avoid falling into the hands of those enemies in the future.

This is also their good intentions. Those soldiers panicked instantly. They didn't expect that they started to come out with full confidence before, and they were knocked down by others. At this time, they discovered that the Dragon Squad was fighting with the criminals in front, and Very vicious.

The criminals with sticks next to them were guarding. They were not allowed to move around at will, and all their weapons were seized. What made them strange was that these criminals seemed to know where they even hid their knives. .

They found the blade from the shoes on his body, and then he was beaten violently.

At this time, everyone put their hopes on Long Xiaoyun. Long Xiaoyun and Qin Yuan fought evenly, but so many of them were under control, how could Long Xiaoyun save them all alone? ?

At this time, in the crowd, Fan Tianlei covered his head, his grandma's kid took the opportunity to take revenge, and really hit him with a stick, saying that he would not beat his own people, so that he would not be a corpse next year, whoever loves to be who when.

Unexpectedly, at this moment, the criminal who was fighting with Long Xiaoyun suddenly took out a pistol from his waist and shot Long Xiaoyun twice. The soldiers saw with their own eyes that their captain was shot in the chest like that. It fell down, and it was the first time they saw so much blood.

At this moment, tens of thousands of grass and mud horses galloped past Long Xiaoyun's heart. What kind of equipment did Qin Yuan give her? She felt that half of her face was completely soaked in blood. She thought that she must settle accounts with Qin Yuan later, Qin Yuan Also to be more real, he directly prepared three big blood bags for Long Xiaoyun.

Those soldiers were completely stunned. They didn't expect that the most powerful captain in their minds would be killed just like that. They didn't care about that much. They desperately stood up from the ground and wanted to rush towards Long Xiaoyun.

"Damn! You bastards! You are actually killing people!"

"If you have the guts to let me go or beat me to death, I won't be humiliated by you!"

In fact, everyone couldn't believe that a living life disappeared before their eyes Long Xiaoyun's acting skills also exploded, and at the last moment he shouted desperately, "Remember your identities, Never betray the organization and the motherland at any time!"

Some of these soldiers were excited, some were crying, and some were afraid. Qin Yuan laughed loudly, "Are you all children? And we are really killing people. I am killing him, and you! If it wasn't for You are useful, and I have given you a few guns a long time ago."

It was not time for Fan Tianlei to appear on the stage. After all, Long Xiaoyun had just died, so he gave them an appetizer first, and we will talk about it later. Just like that, these unarmed soldiers were escorted into the village by them. There was a big yard inside. The cowshed, these soldiers were locked in the cowshed like this.

"Damn it, this is so aggrieved, I don't care, I want to go out and avenge the dragon team!"

"Don't act rashly. Now that we are defenseless, what are you going to do to get revenge? The dragon team said before that no matter what happens, we must deal with it calmly, and we can think of a way to survive in a desperate situation."

Every move of these soldiers was watched by Qin Yuan. He took a bite of the apple. There are a few boys in it who are quite smart and calm. They are indeed good seedlings.

Seeing that it was almost time, Qin Yuan walked to the middle of the yard, "I know you are all human beings and you want to live. Today I will give you a chance to live. I know you are all special soldiers. I am more curious about you special forces. Where is the base? And your officers, your numbers, I want to know everything about the Special Forces."
