

Special Soldier 881

Chapter 881 Qin Yuan Acting Alone

Hearing this, everyone was silent. The purpose of these people turned out to be the entire special brigade. It seems that it will definitely not be easy in the future, and everyone will be tortured and interrogated.

Seeing these soldiers remained silent, Qin Yuan walked in directly and randomly assigned a few soldiers. These soldiers were relatively united at the moment and pulled together tightly, but when Qin Yuan asked them to step forward, they were beaten up violently, killing them all. pulled out.

Among the soldiers pulled out was Fan Tianlei. It's time to start acting. Some of the soldiers who were selected were trembling. After all, no one knew what would happen next.

Unexpectedly, Ruan Ruan smiled at a soldier, then raised his foot and kicked the soldier to the ground, and then picked up the stick next to him and beat him up.

"How? Don't you understand the current situation? Only smart people can survive. If you are willing to say it, I will spare your life now."

Although the soldier was afraid that his body would tremble uncontrollably, he gritted his teeth tightly, no matter how afraid he was, he would not betray his belief.

"No matter how you beat me, I won't say anything, and I don't know, even if you kill me, my officer and my comrades will come to avenge me!"

Hearing these righteous words, Qin Yuan couldn't help being moved. At this time, Fan Tianlei rushed out. He wanted to pretend to be a sneak attack, and then caused everyone to riot.

Fan Tianlei rushed out and jumped forward directly to control Qin Yuan and snatched the pistol from his hand. This happened so suddenly that the soldiers next to him recognized why this man didn't discuss with them and started a riot directly.

But this must be an opportunity, the soldiers in the cowshed also desperately pushed up the fence gate, at this moment, Qin Yuan kicked Fan Tianlei in the abdomen, kicked him to the ground, and then opened the door at him two shots.

Fan Tianlei fell down clutching his wound in pain. This scene was either real or not. It was said that the kid actually kicked him before he was hit with a stick. Next year, he will not do anything with this corpse anyway.

"I didn't expect there to be such stupid people among you. Let me tell you, your lives are lighter than ants here. I will kill them as soon as I want."

Immediately afterwards, Qin Yuan ordered people to come down and drag Fan Tianlei's body down. This shocking scene happened in front of everyone's eyes. The dragon team was killed by them before, but they didn't expect them to attack these soldiers at will.

In this way, the three-day brutal training began. During these few days, these soldiers were subjected to beatings, electric shocks, tiger stools, pepper water, and some common criminal methods. To Qin Yuan's satisfaction, no one flinched.

These soldiers were already covered with scars at this moment, they had completely lost their sense of fighting, and they didn't know how to resist. Perhaps they all felt that they had no power to fight back. Just like that, they were locked in a special water tower.

The water here is very deep, and we can only stand upright. After squatting down, the whole water will overflow our heads. We have endured the cruel torture of the past few days, and now we are hungry and can only hug in this cold pond. Shaking together.

"Brothers, we must stick to our bottom line. The dragon team has already sacrificed, but we may also sacrifice, but our sacrifice must be valuable and cannot be used by these criminals."

"Yes, no matter what, I will not betray my motherland."

Qin Yuan walked up with a smile, you people are really difficult to deal with, I wasted so much time, I will give you one last chance to say it or not.

The attitude of these soldiers was very unified, Qin Yuan directly pulled out a few more people from the water prison, because the water pond was very deep, they couldn't see the outside world, and after a while they only heard gunshots.

The soldiers in the water prison began to yell, and the brothers who had been with them for so many days were shot and executed like this, "You bastards, give us a good time, we are all brothers, good companions on the road to Huangquan , trying to get something out of our mouths, there is no way."

Qin Yuan continued to drag people from the pond to make them feel the fear of dying, but until the last moment, no soldier stood up and confessed, and the soldiers who were thrown out were also dumbfounded.

These people fired a few shots at other places, and then invited them into the house. There were all kinds of food and clean clothes in the room. Only then did everyone realize that this was a drill!

In this way, everyone was brought over one after another before slowly reacting. Unexpectedly, all precautions could not be calculated against them. At this moment, these soldiers felt like they were being played by monkeys, and they were very angry.

He asked them loudly, "Is this kind of training interesting for you? It is trampling on our personality. Even if I am no longer in the special forces, I will go to a military court to sue you! What you have done is simply too much."

"And you actually killed someone. If the dragon team is on your side, she faked her death. What about our former brother, who saw him fall to the ground and die with your own eyes. Are you really so terrific? "

"Brothers, you performed well this time. I'm quite satisfied. The brother who said he was going to sue me, don't rush to draw conclusions. The brother you are referring to should be this one!"

Immediately after Qin Yuan brought Fan Tianlei up, he took off his hat, and everyone's faces were painted with camouflage, so these soldiers didn't see clearly before, it turned out to be Fan Tianlei.

"You idiots, how could we kill people? Besides, this is also a kind of training for you. Everyone has experienced this training. It is also necessary for all of us present."

"We conduct this kind of training more realistically, just to prevent such emergencies on the battlefield in the future, so that you can deal with them. Although you have not completely broken through, after all, you have only just trained for three months, but your willpower is so strong." I am very satisfied, at least none of them betrayed the country."

These soldiers nodded when they heard what Qin Yuan and Long Xiaoyun said. It is undeniable that this kind of training is also very meaningful. At this time, everyone has been hungry for a few days. Seeing the food on the table, they began to eat like crazy .

To say that Qin Yuan and the others are really ruthless, many people were really tortured to the point of inhumanity, but these are considered minor compared to those criminals, after all, those criminals would kill them directly.

There is a saying that life is worse than death, Qin Yuan went back to teach them how to escape, but these are all training later, and then Qin Yuan told the story of He Chenguang's encounter with a spy this time, which is also To remind everyone.

He Chenguang doesn't mind, it's worth reminding the brothers of these things, "So don't think that the peace in front of you is real peace. In this dark corner, there are many things that we need to deal with. We are the new Soldiers who guard the peace of the times! We are responsible for bringing light to the people!"

After this mission ended, Long Xiaoyun also looked at these soldiers with admiration. Before that, she expected that some people might not be able to stand the torture. After all, the state of these soldiers before departure made her very worried. It seems that she really thought too much up.

After returning to the team, Long Xiaoyun gave these soldiers a vacation. After all, after undergoing such training, everyone was exhausted physically and mentally. Qin Yuan stretched himself. Acting was also quite tiring. He also planned to go back and have a good rest , Unexpectedly, the emergency assembly whistle blew at this time.

The soldiers were already on vacation, and Long Xiaoyun quickly assembled with the Wolf Warrior team. Unexpectedly, Gao Shiwei said that Qin Yuan's red blood cell team could only pick up this mission.

Long Xiaoyun was a little unconvinced, she knew that Qin Yuan was very powerful, and everyone was her own, it was the same for anyone who took on the mission, but he was leading troops during this time, and he hadn't accepted the mission for a long time.

"Captain Gao, my Wolf Warriors team will not show weakness, I think we can accomplish the tasks that their red blood cell team can accomplish!"

The members of the Wolf Warriors Squad took a breath in their hearts. Now most of the tasks were done by their Red Blood Cell Squad. This time, they must grab the task no matter what.

Unexpectedly, Gao Shiwei shook his head, "The situation this time is very special. I don't want both of your teams to be in danger. Both of your teams are my best special forces, and the palms and backs of your hands are full of meat, but the balance Next, if Qin Yuan goes, the chance of surviving will be even greater."

Before Gao Shiwei even used the word "survival", he always said that the mission was successful. Could it be that this mission is so dangerous?

"Reporting to Team Gao and my team of Wolf Warriors are not afraid of sacrifice, they are all contributing to the country."

At this time, all the members of the red blood cell team had prepared their equipment and came to gather. Gao Shiwei saw that everyone was there, so in order to clear their doubts, he told them about the mission.

It turns out that this mission was also issued by the international community. The Xiaomao country had studied nuclear weapons before, which led to the leakage of nuclear weapons. There is a small island on their side that is full of nuclear radiation. With current technological means, there is no way to eliminate those nuclear leaks. They can only be prohibited. Let people get close to the government and that area is also circled to prevent the people from getting close.

When the president of Jin State went to Xiaomao for a diplomatic visit, he was hijacked by local militants and taken directly to the nuclear radiation area. In that area, no one dared to shoot at will, and could only watch helplessly as the president was taken away. go in.

But that area is also quite special, and the impact of radiation on the periphery will not be too great, but if it is urgent and these criminals bring the president and those diplomats in, it will be more troublesome.

Negotiation experts have been dispatched internationally, but the purpose of these people seems to be not money, but a bigger conspiracy. There is a large nuclear power plant on the small island where the nuclear leak occurred. Their purpose is to detonate the nuclear power plant and make the entire nuclear power plant If the harmony of the country is leaked, then not only the countries around the small Mao country will be affected.

I didn't expect the situation to be so serious this time. They also took the president of the Jin Kingdom as a hostage, so that the military would not dare to attack rashly.

This time the world will provide us with chemical protective clothing, but you also know that even if the chemical protective clothing enters the nuclear radiation area for a long time, it will penetrate. This kind of thing is irreversible damage, because this time the accident happened suddenly, the international Elite special forces from the United States and the Yuan Kingdom have been dispatched.

But their actions all failed, they were completely helpless, and they didn't dare to attack rashly, so the international community entrusted this task to Yan Kingdom.

"It's really difficult to make this decision. This mission is very dangerous. Everyone is uncertain about nuclear radiation. I don't want to watch you take risks. At least one team must be left for us."

Qin Yuan also understood the seriousness of this incident. He took the initiative to stand up and planned to go alone. Because of his special body, he should be able to resist it. If he dragged the red blood cell team again, it would be a meaningless sacrifice.

"Team Gao, I know the importance of this task, but you have to trust me, I will complete it alone, this will reduce sacrifices, and I can complete the task."

When Long Xiaoyun heard that Qin Yuan was going to the nuclear radiation area alone, he immediately proposed that he would go with him.

"No, I said this time, I'll go alone, and I won't take anyone with me."

It's rare to see Qin Yuan so serious, because he knows that this matter is not trivial, and only he can solve it.

"Qin Yuan, are you crazy? We are all comrades-in-arms, and we should help each other under any circumstances. How can you do it alone? It's like sending yourself to death!"

Long Xiaoyun's emotions have collapsed at this moment, she can't let her lover go to such a dangerous place alone, no matter what she wants to try, she hopes that Team Gao will never agree to such an unreasonable requirements.

At this time, Gao Shiwei frowned and thought for a while. What Qin Yuan said was indeed very reasonable, and Qin Yuan had performed many solo tasks before, and he completed them very well, but this time the situation was very special. Can he really do it alone? At that time, the enemy will be attacked from both sides, and even Qin Yuan will not be able to come back.

However, it was also the first time for them to deal with this kind of nuclear weapon. Seeing that Gao Shiwei was entangled, Qin Yuan became a little anxious. Time is of the essence now.

"Captain Gao, don't hesitate, send me directly! Please believe me, I'm never the kind of person who talks big, but I want to protect my comrades in arms! I don't know what to do if I delay those criminals any longer. If there is any action in one step, if they detonate their nuclear weapons in advance, we will definitely be affected in the surrounding areas."

Hearing this, Gao Shiwei nodded as if he had made up his mind, "Okay, then I will let you act alone this time, but you must pay attention to safety and come back alive, even if...even if you become a useless person, there is still a country Keeping you!"

Gao Shiwei said the latter sentence with great difficulty, this was the last thing he wanted to see, Long Xiaoyun and the others didn't expect Gao Shiwei to agree, Long Xiaoyun couldn't accept it, no matter what she wanted Accompanying Qin Yuan, in fact, as an officer, Gao Shiwei was also very embarrassed.

Chapter 882: ? Conflict!

They are all his best special forces members. As the chief, he thinks more. To be honest, it takes too much time to train so many outstanding special forces members, so he can't accept anyone's sacrifice. What I didn't tell everyone is that the entire special forces team sent by the United States was completely wiped out.

The special operations team in the United States is considered the strongest in the whole world. I didn't expect to go to that place and the whole team was destroyed. This kind of death of the whole team is unacceptable to everyone. .

Originally, Gao Shiwei could have refused such a task, but Jin Guo took the opportunity to turn his finger on Yan Guo. They stood at the commanding heights of morality and blamed Yan Guo. He reluctantly took out a document and handed it to everyone for reference.

The above is Jin Guo's accusation that they do not act. After all, this incident happened in their neighboring country. If a nuclear explosion really happened, then the surrounding countries will be involved, and how many innocent people will be deeply involved in it .

Qin Yuan angrily threw the accusation report on the ground. These guys don't speak human words and don't handle human affairs. They were obviously the ones who cowarded themselves and were caught by others. Now they blame them for not participating in the rescue.

"You can't even protect the president of your own country. It would be embarrassing to be taken away by others. How dare you come out and post such **** explanations."

Everyone saw this unfounded accusation, and instantly became angry. This is simply too exaggerated, so Gao Shiwei accepted this mission under pressure, and he had no choice. He didn't want to watch his subordinates sacrifice At present, nuclear weapons are recognized as the strongest destructive weapons.

In that case, human beings are very small. After reading this statement, Long Xiaoyun and the members of the red blood cell team were determined to go with Qin Yuan.

"Even if there is no discipline for us to survive this mission, we still have to fight together because we are brothers who share life and death."

Qin Yuan shook his head. It was precisely because of this that he couldn't take everyone on an adventure. If he went alone, he might have a higher chance of surviving, and he would be able to bring the hostages back safely.

"Brother Qin, maybe you are also worried that we will drag you down, but if in that situation, you have no backup behind you, no one to cooperate with you, in case of any emergency, we still have room for discussion, let's go If I can help you on the periphery, I would be willing."

Hearing this, Qin Yuan thought about it carefully. It would be good if he had his own team members on the outside to respond. After all, if there is an emergency, he can only trust his back to these team members.

"This time I will take the red blood cell team to set off, Xiaoyun, I am not selfish, you really want to stay for the sake of the overall situation, I mean in case, in case our entire team does not come back, at least in a short period of time, Yan The security of the country will be guarded by you."

After all, the new generation of special forces is also on the rise. Long Xiaoyun lost her composure in front of so many people for the first time, and she cried bitterly. At this moment, she really wants to abandon those national righteousness and go to the battlefield with her lover, even if they Sacrifice together.

But her responsibilities do not allow her to do this, she has to bear a lot of things, Gao Shiwei is also very helpless, he stepped forward and patted Long Xiaoyun on the shoulder, which can be regarded as comforting her, and now there is no delay, so he can only let Qin Yuan hurriedly set off.

After boarding the helicopter, Long Xiaoyun led the members of the Wolf Warriors team to salute them below. They didn't let go of the helicopter until the helicopter went away, because they didn't know whether they could meet again after this parting.

Maybe the one just now was the last one. Looking at Qin Yuan's resolute face, Long Xiaoyun seemed to understand. At this moment, she can only pray that Qin Yuan and the others can successfully complete the task.

Everyone on the helicopter didn't say a word, Li Erniu looked at everyone with a smile and looked very dignified, so he could only speak to ease the atmosphere.

"Look at what you are doing. Our brothers have experienced many life and death situations. What is this? Besides, isn't Brother You Qin here? You still don't believe in Brother Qin's ability. Besides, we are all dead No matter how many times you have escaped, it's not worse than just one or two times."

"Yes, what Er Niu said is right, don't worry, I will go alone to enter the core area this time, and you will be responsible for the support at the periphery. I will not let you take risks."

"Brother Qin, we said that before because of Lao Gao and Dragon Team. We can go in and help. We are not afraid of life and death."

Qin Yuan shook his head, "This is not a matter of life and death, but everything is unknown after I enter. I am worried that if something happens to me, you will be me. The last strength and backing, the last thing I believe in is You, so you must stick to the periphery for me."

Hearing this, everyone nodded in agreement. Qin Yuan asked everyone not to be too nervous. If the psychological burden is too heavy, there will be deviations from the task. Let everyone relax and treat it as an ordinary task. They went back to travel as a team to relax.

When it came to travel, everyone changed the topic, excitedly discussing where to go after they came back, talking and laughing, in fact, Qin Yuan also knew that this was everyone changing the subject, and just didn't want to make the other party feel too sad.

When they arrived in Xiaomao country, special staff members drove to pick them up. Xiaomao country is now in a state of alert, and patrolling personnel can be seen everywhere on the street. The street is extremely deserted. Except for the patrolling personnel, no one can be seen common people.

The pier and the airport have been blocked, only Qin Yuan and the others came out.

The middle-aged uncle who came to pick them up greeted Qin Yuan with a warm smile.

Qin Yuan was a little curious, and couldn't help asking: "Have all the affairs of the common people on your side been transferred? I see that only the patrolling personnel are left."

Speaking of this, the driver uncle sighed, "Oh, what are you transferring? There is no way, there are so many people in the country, everyone knows the danger of nuclear weapons, and they desperately want to escape. A riot broke out just yesterday. Everyone I desperately want to run out, so the government can only take compulsory measures, no one is allowed to enter the country, and everyone stays at home."

At this time, Li Erniu looked out the window of the car, only to find that some residents around him had raised banners in the windows of their own homes, which were some actions against the government anyway.

It seems that their little Mao country is not only facing the danger of nuclear weapons, but also the people of the whole country. Their leaders can't help it. After all, how to transfer so many people is a big problem, and the more they are in this chaotic situation Time is more likely to be dangerous.

The road was unusually quiet, and they were the only car on the whole street that was slowly moving forward. At this moment, a few men rushed out of a residential building. They held sticks and aimed straight at Qin Yuan and the others. The car is coming.

When the driver saw someone rushing over, he had no choice but to stop. Unexpectedly, the soldier with a gun next to him put the gun on the driver's head, "What the **** are you doing, why stop and rush over!"

"Are you crazy? That's human, that's human life!"

The atmosphere in the car was extremely tense. Qin Yuan knew that this was also the driver's subconscious action. Normal people would not think of running over others. Looking at the tense state of the soldiers next to them, it seems that this kind of riot is no longer a one-time two-time riot. time.

The soldiers saw that the car had stopped, but there was nothing they could do. The residents held sticks in their hands and kept beating on the car body, loudly telling the occupants to get off. The car body itself was made of reflective glass, so they couldn't see clearly Unexpectedly, when the car door opened, a soldier with a gun came down, and the man froze in place in fright.

The soldier raised his gun and pointed at the man, "Go back quickly, or I will shoot!"

Unexpectedly, the man knelt down suddenly, and a woman walked out from behind the man, holding a child. The man was crying bitterly at this moment.

"Senior officers, I really have no choice but to beg you, if you want to go out, please help me take my wife and children or take my children and send her to other countries, it is too dangerous for us gone."

Unexpectedly, this soldier didn't care so much at all, and just shot. This was an unexpected reaction from everyone. I would rather be stunned on the spot. What's going on? This soldier belongs to their little Mao country, and the people are also citizens of their little Mao country. How can they shoot at their own people?

The soldiers thought they would be able to suppress these residents after shooting, but they didn't expect that they would be angered instead, and more people ran out of the building in an instant, and they surrounded the car in groups.

The soldiers didn't expect that things went beyond their expectations, and the operation developed in an uncontrollable direction. Qin Yuan looked at the man lying on the ground, angrily stepped

forward and kicked the soldier away, trying to give first aid to the man, but for It was too late, the man tremblingly said to Qin Yuan with his last breath:

"It's over here, we really can't do anything, I beg you, my daughter was just born, I don't want her to die, you..."

The man died before he finished speaking, the woman next to him burst into tears, and the residents behind were also extremely angry and rushed up.

"You **** will only point your guns at us people who have the ability to kill us all!"

"Look at what you **** are doing!"

At this time, the other soldiers in the car came down, and they shot into the sky, "Everyone is quiet, don't you know what's going on now? We don't want things to turn out like this, but the ones in the car are the strongest soldiers in the country of Yan." Elite Special Forces, they are here to solve this matter, do you still want to stop it?"

Unexpectedly, the people in front didn't listen to this at all, picked up the stones on the ground and threw them at them, "You liars, you have taken away so many officials in this way, can we people just wait at home? Died? The so-called government officials you called were sent out in batches like this, and we all saw it with our own eyes."

Qin Yuan didn't expect that this matter would be involved so much, and the soldier next to him ran over, "Captain Qin, this time things are beyond our control, you get in the car first, we will solve this matter here, the driver will Take you to break out from another road."

Qin Yuan looked solemnly at the people around the car, how did so many people break out? The people outside became more and more excited, Qin Yuan had no choice but to retreat into the car, the atmosphere inside the car was also extremely tense, the driver looked at the people helplessly and shed tears.

"Captain Qin, I'm not afraid of your jokes when I say it. In the face of such a life-and-death crisis, those so-called government officials have been secretly sent out by the military, and these people have no power to resist and can only wait at home to die. There was such a riot."

At this time, there was only one soldier left in the car, and he stepped forward angrily, just about to punch the driver's hand, but was held tightly by Qin Yuan.

"What are you doing? Do you still want to use violence to control violence? Look, this is the result of your handling. Using violence will only lead to more violence."

This soldier also seemed to be afraid of Qin Yuanyuan's strength, but he shook off Qin Yuan's hand impatiently, then stood at the door of the car and stared out the window nervously.

Turning to the driver, he said, "You'd better recognize your responsibilities. You are just a driver. If you involve too many other things, you will die."

The driver at this time was also a little crazy, he laughed at himself, "Hahaha, dead? Should we wait for the nuclear weapon to explode and we will all die, or be killed by you first? You incompetent soldiers will only point their guns at each other. Quasi-people."

Hearing this, the soldier couldn't bear it anymore, and rushed forward to beat the driver, Qin Yuan stepped forward and kicked the soldier into the carriage, you want to stay, they also quickly stepped forward to control the soldier.

"Captain Qin, I respect you, but what do you mean? After all, this is our country's affairs. I hope you don't interfere, and we are dealing with our family affairs. Your hand is too long!"

Qin Yuan snorted coldly, and looked at the soldier coldly, "No matter what, I always know one truth, we are to defend the people, and our duty is to protect them, not to point guns and fists at them."

The driver was very moved when he heard what Qin Yuan said. At this moment, the situation inside the car was under control, but the situation outside the car was not optimistic. A large number of people rushed to the street, and the patrol officers couldn't control it at all.

Seeing the people pushing and shoving the soldiers with sticks in their hands, the atmosphere was extremely tense. At this time, no one dared to shoot rashly. Qin Yuan shook his head. The last time he came to Xiaomao Country, it was still a thriving scene. Unexpectedly, it has become like this now.

Even after the nuclear weapons crisis is resolved, the riots in this country are expected to continue. They underestimated the power of the people. Water can carry a boat, but it can also overturn it.

At this moment, the captain's order came from the intercom of the soldiers in the car, "Everyone! Get ready to shoot! Shoot at the people in front and make a way for the car!"

Chapter 883 Retrograde Hero

Immediately afterwards, there was a sound of pulling the bolt of the gun from the walkie-talkie. Seeing that the situation was out of control and it would definitely lead to chaos, Qin Yuan hurriedly got out of the car, and the driver also got out of the car.

Qin Yuan picked up the Type 95 assault rifle in his hand and fired a few shots into the sky. The sudden sound of gunfire scared everyone.

"Everyone in Xiaomao Kingdom, I am a soldier of Yan Kingdom, my name is Qin Yuan, and my special forces are in the car. We are ordered to solve this incident. I hope you can trust me, and I will definitely resolve this incident. crisis."

Qin Yuan's voice was very loud, resounding in everyone's heart, and the driver also knelt down directly at this moment, "My fellow citizens, I am the driver this time, they are really soldiers of Yan Kingdom, they are here to save us Yes, please let them pass, only at this time will they go retrograde, you can all see clearly! This is the way to the nuclear island, not to the so-called airport border at all!"

"I know you are very angry at the moment, and you don't understand, but someone has to solve the problem. I am not the kind of person who escapes. No matter what unpleasantness happened to your country before, but at this moment, we are here for these tens of millions of people. Fight, I hope you can understand!"

The soldiers next to them were stunned. They didn't expect that the words of these two people would calm down the angry people in this way. Many people had tears in their eyes, yes! People's route is indeed to go to the nuclear island, but they are too excited.

And it was mainly because these government departments made them disappointed again and again. At this time, someone in the crowd shouted: "Everyone get out of the way, **** our reverse hero! He is here to save us, we can't stop him! "

As soon as the words came out, everyone gave way one after another. The soldiers didn't expect to solve it so smoothly, and hurriedly urged everyone to get into the car. After getting into the car, Qin Yuan didn't even look at the captain. People like them are not worthy at all. For actually arguing with ordinary people to shoot, they are simply ***** to the extreme.

The captain looked at Qin Yuan with a flattering smile and said: "Captain Qin, you are still the best. You are really good at convincing the people of Yan Kingdom, and it is worth learning from us."

"This is not a performance, but a sincere feeling from the heart. Besides, no one in our Yan army has ever shot at ordinary people under any circumstances. This is our bottom line!"

Hearing what Qin Yuan said, the captain just smiled awkwardly. He knew that Qin Yuan was implying to mock him to order people to shoot indiscriminately. lift.

At this time, the people gave way and stood in two rows. Everyone shouted loudly: "I hope all heroes have a safe journey!"

Only then did Qin Yuan feel the power of the people, but the soldiers in the car didn't take it seriously at this time. They were too ignorant. They didn't know how powerful the people were when they united. It couldn't be solved with guns in their hands. , It's not that whoever holds the gun is the boss.

After this little episode, everyone finally arrived at the nuclear island, near the periphery. Everyone was wearing heavy chemical protective clothing. Qin Yuan thought this was too exaggerated! The soldiers in the car took out their chemical protective suits and asked Qin Yuan and the others to put them on quickly.

Qin Yuan pointed to the data on the big screen opposite, "You guys are too exaggerated. Look at the data. The radiation is not as high as that of mobile phones."

"After all, everyone thinks that this is near the nuclear island, and it is more dangerous and helpless."

Qin Yuan disdained that these anti-chemical suits were thick and heavy, which would hinder his actions. He asked the members of the red blood cell team to put them on, and then they got out of the car. Regarding the matter, he knew all the people from the State Council, and the person in charge of Jin Guo who spoke eccentrically before was also there.

These people were terrified of dying, and they came here out of helplessness, but although they said they were here on the nuclear island, they were actually hundreds of meters away from the nuclear island, and they came here only after seeing Qin Yuan from a distance.

I didn't see the new president of Xiaomao Country, but I saw a so-called person in charge, who greeted Qin Yuan hypocritically, "Oh, Captain Qin finally expected you to come, you must be careful later! "

The person in charge of Jin Guo also said beside him: "Captain Qin, I still hope that you will let go of the past. After all, I offended you by what I said before, but this time it is about our president. I hope you can let go of your prejudices."

When Li Erniu heard this, he really wanted to step up and call him big ears. Why does this person deserve to be beaten so much? It was nothing at first, but according to him, even if the mission failed, they would still say that it was because Qin Yuan was emotional and carried out the mission with emotion, which led to the failure of the mission.

Not to be outdone, Qin Yuan said directly: "When and what did you say, why don't I remember? Some people, don't be too self-righteous, in fact, I don't even have any impression, but they are all small characters, you think so, Jin represent!"

"you!"

The person in charge of the Kingdom of Jin blushed with anger, but with so many people at the scene, he was not easy to get angry. At this time, some nuclear weapons experts came forward to explain, and they were shocked when they saw that Qin Yuan was not wearing a chemical protective suit.

"You soldier, do you want to die or don't understand? Put on the chemical protective suit quickly. This is not a joke. You are going to enter the dangerous area later."

Qin Yuan didn't answer his question directly, but instead asked: "Since it's so dangerous inside, President Jin and those robbers, do they have chemical-proof suits?"

"Don't worry about this, we have already provided the highest quality chemical protective suits, and according to their requirements, they were sent in by robots."

Qin Yuan nodded. In this case, at least there is still some time for them to prepare. Looking at the anxious eyes of those experts, Qin Yuan is also very helpless, so put on the chemical protective suit! After putting it on, he told the red blood cell team to wait for him outside, and he went in to check the situation first.

Seeing this, the person in charge of the Jin Kingdom became unhappy again, and rushed over directly, "Qin Yuan, what are you doing? Are you trying to kill our president? What's the use of you going in alone? Your whole squad is here to keep him safe."

Qin Yuan directly pushed the person in charge of the Kingdom of Jin away, "What are you, you can call me by my first name? I want someone like you to take care of the decision I made. You'd better shut up quietly, otherwise My temper is not as good as mine."

He saw that Li Erniu next to him had already clenched his fists at him, and he didn't dare to make a sound for a moment, because the people around him were just watching the fun, and if there was a real fight, no one would help him.

He could only snort coldly and turn his head away, but before he left, he still said a harsh word, "Captain Qin, then I hope you can come back safely, don't die inside!"

"Damn it! Is this kid drunk? Why does he speak so badly? I really can't help it. I'm going to beat him now!"

He Chenguang quickly held him down beside him, "Calm down, look at your temper, Brother Qin hasn't said anything yet, don't let Brother Qin distract you now, as for this kind of rubbish, we'll deal with him later."

Qin Yuan walked into the nuclear island resolutely like this. His back was so small, but he was so determined in this nuclear island, but no one noticed. At this time, on the opposite hillside, someone quietly patted Down it all.

Just after entering, Qin Yuan took off the chemical protective suit. He stretched out his hand to feel the air here. The defensiveness of his skin is world-class, hundreds of times better than this chemical protective suit. These nuclear weapons are nothing to him. The damage was just for monitoring, and he also carried an instrument with him. Sure enough, the more he walked inside, the greater the value on the instrument.

However, he didn't know where these robbers were hiding. After he took off the chemical protective suit, his body became more flexible, and he walked quietly along the ruins. At this time, he smelled a **** smell in front of him. It should be the place where the war broke out in the United States.

Sure enough, when he looked over, the corpses of those American soldiers were still on the ground. In order not to anger the robbers, the people on the outside did not dare to come in rashly, so no one had dealt with the corpses of these soldiers.

Now the whole island is very quiet. Qin Yuan lay on the ruins and listened carefully to the sounds around him. These people should be in the ruins in front of him, and he heard the slight sound of conversation.

As far as there is no monitoring equipment here, it is all patrolled by people, and those robbers wearing heavy chemical-proof suits will be blocked. Going forward, Qin Yuan saw the patrolling robbers.

They stood on the tall buildings and stared at everything in front of them. They chose this place because there was an open field in front of them. This building was a former school, and in front of them was a wide playground.

Taking advantage of the time when the patrolling robber turned his head, Qin Yuan turned around and jumped directly to the bottom of the teaching building. The whole process was not sloppy at all, and the robber did not notice it at all.

He squatted in the corner, listening to the robber's footsteps approaching slowly, when it was time, she quickly threw the throwing knife, the flying knife directly pierced through the chemical protective suit, and stabbed the robber's neck fiercely, because In this position, he could not make a sound.

Qin Yuan dragged the robber's body to the corner of the stairs to hide it. He went upstairs carefully, and the conversation became more and more clear.

"Black Shark, it seems that there is no way out for us to do this, but is it worth it for us?"

"There is nothing worthwhile, what we do is such a thing, why not pull everyone to sing along, think about it, tens of millions of people will die with us, how spectacular and proud it is! Hahaha."

It was unreasonable for Qin Yuan to hear such a crazy tone. This kind of person was too frenzied. He was just about to go up and do something, but he didn't expect the person next to him to speak again. He listened carefully again. Now he should understand the situation before doing anything.

"Thinking about it like this is really worthwhile, but the boss doesn't know what to do. They have been studying that switch for so many days, but they still haven't been able to detonate it."

Qin Yuan was shocked when he heard this. It turned out that these robbers were targeting the nuclear device from the very beginning. They wanted to detonate the nuclear weapon, but they couldn't handle the launch device. The president of the Kingdom of Jin was hijacked here to delay time.

He didn't dare to imagine that once the nuclear weapon really exploded, Xiaomao Country, as the center of the nuclear explosion, would be reduced to ruins. This kind of terrifying destruction was unimaginable.

Qin Yuan rushed in and kicked open the door. The two robbers in chemical protective suits were stunned. They didn't expect someone to rush in.

The diplomats from the Kingdom of Jin were all here. Qin Yuan took a look, and found that seven or eight of them were safe and sound, and these robbers were quite humane. They were all wearing chemical-resistant suits. I guess he didn't want them to be so die early.

The only strange thing is that there is no president among these people. Qin Yuan has seen the appearance of President Jin. He is not among these people. It seems that he is imprisoned in other places. After all, his status is different.

"Come on, someone has invaded here."

"Stop shouting, the people below have already been dealt with by me."

Hearing this, the robber turned pale with fright. How is this possible? There are so many people stationed below them, and they were all killed by the man in front of them quietly. This is too exaggerated!

Qin Yuan directly killed one of the robbers with a throwing knife, leaving behind the robber named Hei Sha. It seems that this person should know more, and he tore off the mask of that person's chemical protective suit.

Hei Sha covered his mouth and nose in horror, and Qin Yuan directly punched him in the face, "With your ability, you want tens of millions of people to be buried with you, aren't you afraid of death? You know what I want to ask, where is the president of Jin Guo?"

The black shark in front of him rolled his eyes, he wanted to find other excuses to drive this man away Unexpectedly, this little trick was discovered by Qin Yuan, without any hesitation, he directly stabbed the man's thigh with a knife .

"In the face of **** like you, I will never be soft-hearted. Let me ask again, where is the president of Jin Guo?"

"Ah! You! You madman is more terrifying than us."

Seeing that he didn't intend to say anything, Qin Yuan stabbed him in the waist again, "It's fine if you don't say it, but I won't let you die so easily, I can stab you 360 times, and you should avoid the vital point with a knife. Know what it's like to die in pain."

Hearing this, Black Shark was a little frightened, and shouted loudly: "You madman, you have the guts to go to our boss, he is at the nuclear weapon installation with the president of Jin Guo!"

After asking the answer he wanted, Qin Yuan wiped the robber's neck with a single knife, and hurried over to untie the diplomats. At this time, even if an older diplomat was wearing such a chemical protective suit, his body Unable to bear it anymore, he panted loudly, and then took off the mask directly.

"Sir, I thank you for coming to rescue us, but you really must try your best to rescue our president. This is a conspiracy! Cough cough, I know I won't live long, the one who hijacked us is People from the Kingdom of Jin, they want to start a world war!"

Chapter 884 The Provocation of Representative Jin

This news quite surprised Qin Yuan. He didn't expect it to be an internal dispute in their own country. This matter is more troublesome. Maybe those people on the outside are hooking up with those inside.

Qin Yuan first doubted Representative Jin, "I want to know if people outside know about this, otherwise there will be a combination of inside and outside, what actions are they doing outside, and I am trapped here again. My team members are here Outside."

He was very worried about what to do if he was trapped here and people outside were in danger. This conspiracy is really big enough.

This diplomat from the Kingdom of Jin was already dying, and he couldn't hold on any longer. This was the last thing he knew. It turned out that there was indeed a problem with the representative of Jin, but they only found out after they came in. The people inside had been secretly giving the representative send a message.

They just plan to cooperate with the outside world, mainly to destroy the little Mao country. After all, the Jin country is next to the little Mao country. Their president of the Jin country must not agree. After all, no one wants to trigger a world war. They find that they can't persuade the president, so then Just kidnapped him directly.

These people are patriotic, saying that everything is for their country, because there has always been a conflict of interest between Xiaomao and Jin, and neighboring countries have always had a lot of conflicts because of some border issues. The most important thing is this time Xiaomao China has directly become the top three seafood powerhouses.

The country of Jin is also a coastal city, and they also rely mainly on the export trade of seafood. Unexpectedly, this operation of Xiaomao directly monopolizes the entire market.

The conflicts between the Kingdom of Jin and the Kingdom of Little Mao have finally broken out for many years, which is why this diplomacy took place. However, many people in the Kingdom of Jin do not accept such diplomatic interviews. They feel that such interviews are meaningless. The big problem is that the country has been divided into two parties, and this time it was the other party who directly hijacked the president of Jin Guo.

They feel that this president is too incompetent, and such a diplomatic backlash is useless at all. The little Mao country has always been unable to use their Jin country's military power, so they are not afraid of them at all.

The leader of the other party is called Park Younan. For all this, he has been planning for many years. He has been referring to the nuclear island on the small Mao country. He also knows that

his country's military strength is not as good as that of Xiao Mao country, so he thought of it. such a method.

Qin Yuan shook his head when he heard this, "But this is not right. Even if they detonate the nuclear device and the entire nuclear island leaks, your country of Jin, as a neighboring country, will inevitably be affected."

"They don't think about these things at all, and this riot movement has been planned for a long time. Except for us, most people in the country support it. Although it can be affected, it will only affect a few cities along the border."

These people spoke righteous words. They felt that if there is a war, there must be sacrifices, and those border cities are the things to sacrifice. What is it to sacrifice a few border cities for the sake of the whole country?

After hearing this, Qin Yuan felt that it was really crazy. Just for their own self-interest, he did not hesitate to drag tens of millions of people to be buried with him. The citizens of Xiaomao country and several surrounding countries are really crazy, but this When something happened to him, he must try his best to stop it.

The diplomat had already vomited blood, and Qin Yuan saw that his eyes had become lifeless, and the time limit was approaching, "Comrade, no matter what, please save this human catastrophe, we are really powerless to stop them." The periphery, the periphery also..."

The diplomat vomited blood and died before he finished speaking. Qin Yuan knelt down and called desperately, but he didn't respond. Why couldn't this man finish the rest of his sentence? It seems that there is a bigger conspiracy in the periphery. No wonder that representative Jin has been provoking them since they came. In fact, it is to let Qin Yuan and his entire team come in.

Unexpectedly, Qin Yuan would not accept his tricks at all. It is the most correct decision for the red blood cell team of Qingyuan Street to stay outside. He took out the walkie-talkie to contact people outside, but found that he did not know whether it was the blocking problem of Director He or What's going on, there is no response from the walkie-talkie, it seems that they are responsible for it, and they have completely lost contact with the outside world.

At this time, Li Erniu and the others were anxiously waiting for news from Qin Yuan, and the representative came up from time to time to sneer and say that they were wasting time.

The behavior of this representative Jin is really abnormal, Gong Jian found out that something was wrong, if he was just provocative before, but there is no need to repeat it a few times like this, and it is not obvious that he cares about the president Any look of concern.

Gong Jian whispered to Li Erniu and the others: "Brother Qin has entered now, and we are his backing. I always feel that this person has a big problem. Let's be careful later, don't be fooled by others, Qin Brother is still inside, and that is the most dangerous place."

"Don't worry, what's the matter? If this kid really dares to make any moves, I will knock him down with a few punches. I have long wanted to beat him up."

"Er Niu, what I'm talking about is that you are not impulsive now. Haven't you noticed that the troops around here have also started to join? And all of them are soldiers from the Kingdom of Jin, which makes people very confused."

Speaking of this, everyone also felt strange. It really started unconsciously. The number of soldiers stationed outside unexpectedly increased. They were originally soldiers from the Xiaomao country, but now the soldiers from the Jing country suddenly appeared, and Even more than Xiaomao's.

Everyone had to keep an eye out, and now they can only pray that everything goes well for Qin Yuan inside.

Because it is a severe nuclear radiation area, Qin Yuan still kept these diplomats here, and told them to be careful, and he would come out to pick them up after he finished solving the problem. These diplomats actually had the mentality of dying.

After all, whether it can be stopped is a question. Only the dead diplomat knows what will happen in the periphery, and none of them know.

Seeing Qin Yuan's leaving back, the diplomats said silently, "You must come back safely, it's really up to you whether you can organize all this."

It was also the first time Qin Yuan felt such pressure. The lives of thousands of people were actually on his body. If he could not stop it, relying on his own system body, he might be able to barely survive in such an environment. Come down, but those people on the periphery, with so many people, there will be no survivors.

After Qin Yuan entered the inside, he realized that the land inside had become scorched black. Qin Yuan looked at the instrument in his hand, and the value of the instrument was getting bigger and bigger. You are like a place where there is no grass and water. There will always be moss, but I didn't expect those damp walls to have no moss.

This is the power of nuclear weapons. This kind of land cannot be used again in the past hundred years, because after the nuclear weapons are leaked, the damage to these lands and the large surface layer is irreversible. So far, human beings have not found a better way, so nuclear The island has always existed.

This is a ticking time bomb, but everyone can do nothing, after all, no one can solve it.

Qin Yuan is holding a map in his hand. This is the map he found from the military when he came in. The location shown on the map and the device is in the factory area ahead. Even if Qin Yuan's skin resistance is world-class, entering this He also smelled a strong pungent smell, which is hard to describe, like a mixture of various chemicals, which irritated Qin Yuan's nose, but he took out a mask and put it on, the smell was too strong.

As Qin Yuan went deeper, he actually found that the system issued a danger alarm. It seems that this nuclear weapon is really powerful, and his skin resistance has reached the upper limit. Besides, he glanced at the instrument, and the instrument has now exploded.

He took out the chemical protective suit in his backpack and put it on in this place. He still had to protect himself first, and he was even more fortunate that he didn't let the members of the red blood cell team in. He had already reached his limit in this place. Wearing a chemical protective suit to come in, you can feel the double pressure.

When he came to the downstairs of the nuclear plant, Qin Yuan saw two corpses at the door. They didn't have any trauma, and it seemed that they had been in this environment for a long time, and the human body couldn't stand it even wearing chemical protective clothing.

Qin Yuan touched it quietly, but he didn't make any movement, and the people above didn't notice either. After all, they had arranged guards on the periphery, but they didn't know that those guards had been killed by Qin Yuan long ago.

He quietly looked inside through the glass, and there were six or seven people wearing chemical protective suits inside, and another person wearing chemical protective suits was **** with ropes and thrown on the ground nearby.

It is not a simple matter to detonate this kind of nuclear device. There was a leak before, so Xiaomao also made an emergency plan. Their scientists can only use the computer system to shut down the nuclear device permanently. Deciphering it is even more difficult.

"Boss, we have tried for the 187th time. I believe we will succeed soon if we try again. Their system has already crashed."

"Hahaha, our grand plan will be completed in the end. Take a look. I want you to witness our great act of righteousness with your own eyes. We are all heroes who sacrificed for our country, and future generations will always remember us."

The president who was sitting on the ground snorted coldly with disdain, "Hehe, with your insane behavior, you still expect future generations to send you dreams, you lunatics! Really, I beg you to stop, With so many people involved, how much murder will be caused! How will our Kingdom of Jin gain a foothold in the world in the future?"

"That's because you are too incompetent, which led to the cowardice of our Jin country, so now we should rewrite history. After such an outbreak, it will cause irreversible losses to the surrounding countries, and we can rise quietly! This plan I It's been ten years of preparation!"

They have been preparing for this nuclear war and have simulated some nuclear explosion plans many times. The residents of the border cities have been completely transferred out, and that side is some abandoned land for them.

"However, there are no exceptions. For those who support you and the diehards, I have put them all in those places. Since they are not willing to cooperate, let's die together, so as to avoid disagreements at that time. I The world does not allow such doubting voices."

Qin Yuan quietly came to the door. He pushed the experimental door and found that it was locked inside. This kind of tempered glass is originally tempered glass, so it seems that he can only rush in.

At this moment, the Jin representative on the outside looked at his watch. He had been staring nervously at the situation inside the nuclear island. He wanted to evacuate as soon as possible. Evacuate everyone.

And the army of these Jin Kingdoms is mainly to prevent their deciphering failures. These armed forces directly control the people on the side of the Xiaomao Kingdom to buy time for them. All plans have been in preparation for ten years. They will not allow it. There are any failures.

At this time, Representative Jin already felt that Qin Yuan must have died inside. There was no news for such a long time, but it was a pity that his entire team was not allowed in, but it didn't matter. Anyway, they were the final winners anyway. People can't live, they can evacuate safely.

Even if no one explodes, the armed force behind them can kill all these people.

The people in Xiaomao also felt that something was wrong. Why are there more and more soldiers in the Jin country, and they are still in a state of reinforcements one after another, and the Jin country also thought of another plan. The relationship with the people is very tense.

They planted a lot of people among these people, and kept inciting these people to want to trigger their riots. The more chaos here in Xiaomao Kingdom, the better, and the chances of them escaping will be greater.

Park Younan was also in charge of the battlefield on the Jin side. He asked the representative of Jin to release those demagogues right now, and let their people riot first, because the little Mao country had already begun to suspect, and they were very dissatisfied. Why should the soldiers of the Jin country More and more, what is this going to do?

"It's too much for Jin to do this on your behalf, so what the **** are you doing? Why have so many soldiers been transferred? You must know that this is our territory, and it is very dangerous for you to ask."

"It's really funny for you to say this, then we must also think about our safety. You also know that this is your territory. Our president is still in it. I must be worried about our safety. Maybe you will give us behind the scenes." Come to a song and we have nothing to guard against."

"It's really dangerous for you to say this. You have to make it clear that the relationship between our two countries is already tense. Are you trying to provoke a war? Our little Mao country does not accept any framing."

Representative Jin turned around and saw that several international leaders were there. He cleared his throat and continued:

Chapter 885 Recovery of nuclear devices

"It's not unreasonable for me to say this. Your military power is really scary. Look at this nuclear weapon. It's made by you. It's simply harmful to mankind. Moreover, our president was hijacked on your territory. Say Maybe you directed and acted on your own."

If you say that the Jin Kingdom is really shameless, they actually say that they want to protect themselves, and they put such a big hat on the little Maoguo, and the little Maoguo is also speechless at the moment.

After all, what he said was also true. The president of the Kingdom of Jin was really hijacked on their territory. They didn't know what was going on at the time, and most of their own people were killed. Everything happened too fast, and there was no time to react.

After being said by Representative Jin, several responsible persons in the world also stepped forward to accuse Xiaomao. They really thought that Xiaomao wanted to start a war. After all, the atmosphere between the two sides is very tense.

"I advise both of you to be self-aware. The current situation is not an internal struggle, and everything in it is unknown! Especially, you should do your best to protect our safety."

The people of Xiaomao country could only grit their teeth and nod their heads after they couldn't be said that. They really had to swallow their breath. After all, in front of so many people, they were randomly charged with an unwarranted crime.

The members of the red blood cell team watched their dispute and did not intend to participate. Unexpectedly, the gold representative jumped out and said: "Look, I said that Yanguo has a prejudice against us and deliberately did not carry out the rescue. They Now there is only one person sent in, and there is no news about that person, I doubt that he has died inside! However, these soldiers are still sitting here waiting to die, I don't know what's going on."

Hearing this, Li Erniu rushed forward and punched that representative Jin in the face. This kid's words were simply too harsh. He first provoked Lijian Xiao Maoguo, and now he wanted to use the same method to provoke Yanguo.

"Oh! Look at the soldiers from Yan Kingdom beating people. I said that they have prejudiced against us at this time. Is there anyone who cares?"

The Jin representative fell to the ground, and Jingguo's soldiers also rushed up. They raised their guns one after another, facing Zhou Hongxue's team, the atmosphere at the scene was extremely solemn.

Several international representatives also stood up to persuade them to make peace. It is the most irrational behavior to have a war now. The youth representative kept telling Yan Kingdom all kinds of discomforts on the ground, and repeatedly emphasized that Qin Yuan must have died. They died inside, and they were still waiting here foolishly.

He Chenguang pressed Li Erniu tightly, and no one could persuade this kid when he got a bad temper.

"Don't drag me, are you guys talking human words every day? Our captain is inside, working hard for these people. Today I really want to let him know how good we are."

"Er Niu, can you be a bit more ***** calm? The captain's life and death are uncertain inside now, do you want to make trouble for him? Besides, you also know that he is the radical method. They must have other plots to keep stimulating us. Thinking of you being foolishly fooled."

Li Erniu didn't expect the situation to turn out like this. He sighed and sat on the ground. Because of the commotion, the representative of Jing quit. The two people in charge discussed to confiscate the firearms of their red blood cell team.

"These people are too impulsive. I don't know when they shoot us suddenly, and we can't control it. We definitely won't do such a thing. After all, we didn't do anything during the whole process. They just think If you are a big country, you will bully us small countries."

All the members of the red blood cell team clenched their fists. This man's words were really thorny, which not only provoked their relationship, but also made other responsible persons wary of them.

Under Representative Jin's accusation, those in charge also felt that for safety reasons, the members of the red blood cell team automatically handed over their firearms.

"How is this possible! The gun is our second life, how can we hand over the gun!"

"Are you bullying us because of the number of people?"

The atmosphere at the scene was very dignified, and the people from Xiaomao Country were also watching the excitement. They didn't want to participate, but Representative Jin didn't care so much, so under the persuasion of those in charge, Gong Jian let go.

Now they can't cause any trouble for Qin Yuan, this country of Jin is too despicable, maybe they will make a fuss about it later.

The person in charge of Ba Guo also stood up and said: "Dear strict brothers, don't worry, the firearms are not handed over to Representative Jin for safekeeping, we will keep them for you, and if there is any emergency, you can come to us to claim them at any time. It happened suddenly, and I hope you can understand."

Everyone nodded. It was the first time for He Chenguang to feel the power of this language. He didn't expect these people to give their guns to the corner with just a few words, and everyone couldn't make any resistance. It seems that it was really Underestimate this gold representative.

At this time, Jin represented the achievement of his goal, and walked over triumphantly with his hands behind his back, and deliberately swayed in front of Li Erniu. Li Erniu also knew that everyone's guns were confiscated because of him, so he was not angry. He gave himself a slap in the face, under what circumstances can he not control his temper?

After they come out now, they represent the Yan Kingdom, not themselves, and any actions they take will be magnified.

In this way, this farce finally came to an end, but everyone didn't know that a bigger farce was still to come. This was just an appetizer. At this time, Qin Yuan didn't know what was going on outside because he had no way to contact the outside world.

Now he just wants to save the president of Jin Guo, and then get rid of all these people in it, so that this incident and the explosion can be stopped.

At this time, Qin Yuan took a deep breath and kicked the explosion-proof glass door open. Everyone was so frightened by the movement that they turned their heads away. They didn't expect someone to break in.

Before they could react, Qin Yuan rushed forward first, and killed the nearest militant with a throwing knife, and then kicked the militant who rushed over, and he smashed heavily on the nearby instrument. Above, the instruments sounded a shrill alarm.

The man who kept shouting just now took out his pistol from behind and was about to shoot at Qin Yuan, but he seemed to be concerned about something. After all, if the small explosive nuclear device that happened here was destroyed, then their ten years of preparation would be in vain. up.

"Everyone is not allowed to shoot. I don't believe that we can't solve this kid. He has only one person."

When the president of the Jin Kingdom saw someone rushing in, his eyes sparkled with excitement. Finally, someone came to rescue him. He hoped that this catastrophe could really be stopped.

The militant next to him picked up a stool and threw it at Qin Yuan. Qin Yuan dodged sideways, and then kicked him on the chin. The militant did a backflip and hit the ground hard.

Qin Yuan threw out the flying knife and finished off the two people behind him. The militants turned pale with fright. This man's speed was too fast, and his flying knife was so amazing that it was impossible to dodge.

"What should I do, boss, this man is so powerful that we can't seem to beat him."

"Don't talk nonsense, if you can't fight today, if you want to fight, just hold him back. There are so many of us, and our hard work for more than ten years, is it going to be in vain because of him?"

At this moment, he was very unwilling and rushed towards Qin Yuan with eyes full of anger. Qin Yuan just snorted that such a demon, everyone can be punished, and he still stood on the commanding heights of morality, thinking that they are making contributions to mankind, which is simply Disgusting.

Qin Yuan kicked him to the ground with a whip kick, and the two people who rushed up were thrown to the ground by Qin Yuan's backflip, and then they were dealt with with throwing knives.

Now he was the only one left, and he fell to the ground, very unwilling, "No! You can't kill me, we've been planning for ten years, I can't just die like this! No!"

Qin Yuan didn't give him this chance at all, and immediately threw two throwing knives, one stuck in his head and the other directly pierced his heart, he fell to the ground with his eyes wide open, the whole chemical protective suit It's all blood. He doesn't believe that ten years of planning will end like this.

But they still hope that there is Representative Jin outside of them. This is also their second plan. If the detonation device fails, Representative Jin is their last hope. Anyway, Xiaomao Country will suffer a catastrophe.

The president of the Kingdom of Jin didn't know about their conspiracy outside. At this moment, he just told Qin Yuan to leave this place quickly. After all, the nuclear gas here was too serious, and his body could no longer bear it.

But Qin Yuan doesn't intend to leave just like this. He wants to solve this time bomb. This nuclear device has always existed, and someone will keep making plans for it. This time, he appeared in time to resolve the crisis, which can be regarded as his own luck. Fortunately, I discovered it in advance. If there is no such good luck next time, it will be a catastrophe for mankind.

"Mr. President, give me a few minutes. I want to get rid of this nuclear device first, at least make it never appear in the world again, otherwise there will be many people thinking about it."

The president of the Kingdom of Jin nodded. He didn't expect that this young Yan soldier had such great ambitions. Anyone who came here would want to escape first, but this young soldier carried so many lives on his shoulders.

Qin Yuan had world-class hacking skills before, and he was an absolute master when it comes to computer control of the system. When he saw the nuclear device system, he was stunned. There was no way to remove this thing. It seems that Xiao Maoguo was also I thought of a way to destroy it, but I couldn't.

Qin Yuan suddenly thought that if it cannot be destroyed, can it be recycled? Wouldn't it be the safest if this thing was recycled into his own body, at least it would not be so dangerous if he had been guarding him all the time.

Qin Yuan put his hands on the nuclear device, which was like a valve, "System, can this be recycled?"

"Answer the host! It can be recycled!"

Qin Yuan was very excited when he heard this. He didn't expect that this kind of device could be recycled separately. This is too awesome!

"System! Then quickly recycle."

At this time, President Jin just saw Qin Yuan standing in front of the nuclear device in a daze, and didn't know what he was doing. At this moment, the system prompt sounded suddenly.

"Congratulations on the successful recovery of the array, please select the following skills."

"1. A world-class master of nuclear weapons, possessing blueprints of research plans for various nuclear weapons."

"2. A world-class destructive master, the core power of the nuclear device will be transferred to the host body, providing the host with destructive power, and a city can be destroyed with a flick of a finger."

"3. A world-class master of the healing department. Nuclear weapons are destructive in themselves, but everything is reversed. The host can transform this destructive power into a healing power, which can heal all damaged and irreversible objects and human bodies."

Qin Yuan thought about it for a while, this master of destruction is really very tempting, the skill of destroying a city without anyone noticing it with just a flick of a finger is too terrifying, as for the weapon master, he is not interested, this kind of thing is originally Harmful, although it can make other countries fearful.

But now the international community is strictly prohibiting the study of nuclear weapons. This is under everyone's supervision. After all, this kind of destructive weapon can not only bring harm to the opponent, but the power of this kind of weapon is not considered.

And let those research experts think about these nuclear weapons! He chose the third skill. This healing skill might be the most useful, and it might be able to change Zhao Xue's situation after returning.

"System! I choose the third skill."

"Ding! Congratulations to the array recovery choice for successfully obtaining the world-class healing master skill!"

Immediately afterwards Qin Yuan only felt some faint light surround his mind and slowly inject it into his body, every cell felt reborn, this healing effect is really powerful , although he was wearing a chemical protective suit.

However, the skin was severely exposed to the outside and was attacked by some nuclear gas. Unexpectedly, the skin that turned black just now is recovering quickly, and his body is like a brand new one. This healing skill can also heal himself. Great, I didn't make a wrong choice.

At this time, the President of the Kingdom of Jin didn't understand what happened, but the nuclear device in Qin Yuan's hand disappeared out of thin air. How could this be possible?

He couldn't believe it, and rushed forward to check it carefully, so the big nuclear device was not there.

"Mr. President, we can go out now. This nuclear device will no longer exist from now on. It also solves one of our hidden dangers. Don't worry about it in the future. What you should worry about now is how to deal with the situation in your country!"

President Jin nodded. Although the catastrophe of mankind had been stopped, greater difficulties were still waiting for him. At this time, Jin Guo didn't know what had happened inside.

Chapter 866 Our Hope Has Come

At this time, Qin Yuan had already brought the president of the Jin Kingdom out slowly. Since there was no such nuclear device on the nuclear island, the nuclear gas inside suddenly became much thinner.

Qin Yuan glanced at the meter he was carrying with him now. The value of this meter had been rising before, almost reaching the level of exploding, but now the value in it has gradually decreased and is now very stable.

Qin Yuan also shook his head. This is the threat of nuclear weapons. Even if he has taken away the nuclear device, there is still no way for these leaked nuclear gases to disappear completely. These things will remain forever. will be gradually diluted.

After this incident, the president of the Kingdom of Jin also became very emotional. This is really life and death. They came to the place where the representatives of the Kingdom of Jin were, and they saw that their president was still alive and was rescued by Qin Yuan. Very happy to be down.

"President, I didn't expect that we could still meet. When you were taken away, I thought it was over."

"It's really thanks to Yan Guo's friends this time. To be honest, his ability is too strong. He took care of all the people who rushed in just now."

At this moment, there was a sudden gunshot outside, Qin Yuan felt that something was wrong, there must be something wrong outside.

"Everyone, now is not the time to chat, or we should go out first."

The president of the Kingdom of Jin also frowned, and slowly retreated under the leadership of Qin Yuan.

The situation outside is very complicated. Li Erniu and the others have already formed a defensive team, but unfortunately their firearms have been confiscated, so they can only jump to the periphery. It is the people from Jin Kingdom and Xiaomao Kingdom who clashed.

Not knowing what was going on, Representative Jin suddenly went crazy and shot at the soldiers of Xiaomao Country. Almost instantly, the soldiers of Jin Country who were standing outside also started shooting at the people nearby.

Members of the red blood cell team hid behind sandbags, as well as representatives of some other countries, none of whom knew what was going on.

A representative of the United States shouted loudly: "What do you guys from the Golden State want to do? Are you really going to start a war?"

"It's not us who want to start a war, but you! All of your countries are our threats, especially Xiaomao!"

Everyone was confused by Representative Jin's words. What exactly did he mean by this? However, He Chenguang is a little clear that for Jin Guo, these neighboring countries are their threats.

A villain like Representative Jin didn't have the guts to launch a surprise attack at all. It must be that a coup d'état had already taken place in the country of Jin, and someone gave him an order. Now he is more worried about Qin Yuan's safety.

"Brothers, it seems that we have to go inside. No matter how dangerous the nuclear weapons in that small island are, but our Qin team is inside, this is simply a conspiracy."

"I said before that this kid is not right, and sure enough, this kind of despicable villain."

"Brother Qin doesn't know what's going on now. I've tried to contact him, but it didn't work. I guess the magnetic field around here is affected."

The fighting at the scene was very fierce, and the soldiers from Xiaomao Kingdom were also caught off guard. They overestimated themselves. After all, their military strength was indeed stronger than that of the Jin Kingdom, so they dared to conclude that the people of the Jin Kingdom would never dare hands on.

In addition, this is their territory, don't these people want to live?

The captain of the Xiaomao country snorted coldly, "Hehe, a small country like you still wants to compete with us? Sooner or later, we will be wiped out. Since you provoked it first, then let's go to war, and we will also fight." Don't be afraid."

"Hahaha, don't be so full of words sometimes, our small country also has the way of survival of a small country, anyway, you will all be finished today."

The captain of Xiaomao Kingdom was very confident. He took out his walkie-talkie and planned to send reinforcements from the city. Unexpectedly, there was an explosion from the direction of the city center at this time.

what's going on?

After the continuous explosions, there was a burst of gunshots. Unexpectedly, there was also an attack in the direction of the city center. The captain felt very strange. How did this happen? Could there be people from Jin Guo over there?

At this moment, a voice came from his walkie-talkie.

"I am the first team here. The people in the city suddenly launched a suicide attack. The situation is very serious. A large number of people walked to the street and headed for the direction of the presidential palace. All teams except those who stayed on the nuclear island began to support!"

"What's the situation! After these despicable villains, we also fought on the nuclear island side, and we also need to send troops to the nuclear island side."

Unexpectedly, the news that it was not their reinforcements came from the walkie-talkie.

Instead, a death order came, asking them to guard it at ordinary times and prevent these Jin Guo soldiers from attacking. The most important thing for them now is to protect the safety of the presidential palace.

The captain of Xiaomao Country was completely dumbfounded. It stands to reason that this shouldn't be the case. No matter how troublesome they are, they will give priority to sending troops to this side. Moreover, their troops have always been in good condition. How large-scale the riot is? All the soldiers were called to go over there for reinforcements.

"Okay, you all heard it! Our order is to protect this nuclear island with all our might. Even if these people want to go over, they will step over our corpses."

Representative Jin laughed loudly from the opposite side at the moment. This was their second plan, and he was convinced that the people inside should have failed, after all, it was too difficult to deal with the device.

After all, if it were really that easy, the people in their little Mao country would have already started researching it.

So if this is the case, it is better to adopt the second plan early, and then attack them from inside and outside. Anyway, this time they will deal a heavy blow to Xiaomao.

At this time, the red blood cell team was originally hiding behind sandbags. They were very far away from the battlefield. Unexpectedly, a grenade exploded directly in front of them.

Li Erniu quietly looked out, it was the representative Jin, who was smiling sinisterly at this moment.

"Damn! Are you crazy?"

"After all, this is a war, and there will definitely be sacrifices. You are so close, maybe you were accidentally injured by soldiers from the Xiaomao Kingdom. Yes, that's it. I will write it like this when I wait for the report later."

It was really despicable. Not only did they want to kill the representatives present, but they also wanted to frame all of this to Xiaomao. At that time, Xiaomao really couldn't explain it clearly. After all, things happened in their country.

Moreover, those representatives also tried to contact the outside world, but it didn't work at all. It should be blocked by their Jin Guo's hair.

Now they are completely trapped here and can't contact the outside world. A few representatives can only gather together, and there are a few protectors around them, but this is not an option at all, because there are too many soldiers in Jin Guo.

The representative of Pakistan stood up and said: "Now we are united to the outside world, and everyone takes up guns together. I don't believe that we can't stop them. As long as one person rushes out to get in touch with the outside, he will surely be able to fight back with a large force."

Unexpectedly, the representatives of those countries suddenly fell silent. To be honest, none of them wanted to participate in this way. These people would not think about cooperation in the face of disasters, but how to let the other party save themselves.

And looking at the violent gunfire outside, the number of these soldiers from the Kingdom of Jin was several times that of theirs, and it was a war with no chance of winning.

"What do you mean? There are so many of us, are you so willing to be cowards, are you willing to be counted by them?"

The representative of the United States was unhappy when he heard this, stood up and said angrily: "Don't force your ideas on us. To be honest, this is their war with the small Mao country. It has nothing to do with us. They They won't attack us after the fight, so we're safe."

"Are we safe? But you also saw just now that they have thrown grenades towards Yan Country. There is no safety at all. We are all on the united front."

"Okay, don't be alarmist here, that's their own business, anyway, I don't see them posing any threat to us now, as long as we stay here with peace of mind, we can go out after the conflict on their side is resolved gone."

The representative of Ba State shook his head. He really doesn't know what these people think, are they just so greedy for life and afraid of death?

He didn't want to stay with these people at all, it was too stupid, and immediately led his people to move towards the people in the red blood cell team.

Li Erniu saw the representatives of the Ba Kingdom waving at them, and he had already come behind him, "Brothers of the Yan Kingdom, I don't know if you agree with my plan, but those people are really too cowardly, and they don't want us to participate at all. Otherwise, if we launch an attack together, there may really be a possibility of survival."

"We have nothing to do. Our guns have been disarmed just now, and they are now in their hands. Otherwise, if we had guns, we would have fought back. Who would like to be useless?"

"Sure enough, our front is united. Don't worry, with my people here, we will definitely help you get your weapons. When the time comes, we will attack together. As long as we can go out, no matter which side goes out, we will win. gone."

Unexpectedly, Li Erniu said with a smile: "Brothers from the Eight Kingdoms don't need to be so nervous, our hope has come, now you can stay with us in this place with peace of mind."

"what!"

The soldiers in Pakistan couldn't believe it. What exactly did he mean by hope? At this moment, a bullet flew directly from the side of him and hit the soldier who had just shot at them. The soldier responded instantly. And pour.

Li Erniu just saw Qin Yuan coming out of the small island, and instantly opened the flower. He saw hope, yes, Qin Yuan was their hope.

The representative of the Ba Kingdom was also taken aback. He didn't expect that the soldier of the Yan Kingdom was still alive after such a long time. It was beyond his expectation. He didn't know how the soldier survived under such circumstances.

What shocked him even more was that he was still behind, willing to hold his assault rifle, without any hesitation, and quickly shot at those soldiers, and his marksmanship was fast and accurate. Force, can only retreat to the bunker behind.

"Representative Jin, something is wrong. That person is too strong. It is simply too exaggerated for him to be able to attack so violently by himself."

Representative Jin snorted coldly. He didn't expect that Qin Yuan was still alive. This kid is really lucky. He has been killed so many times. Why can't he be killed?

He originally planned to frame Qin Yuan before, but failed. He thought that he could use nuclear weapons to kill Qin Yuan this time. After all, the person who threatens them the most is Qin Yuan.

"Don't panic, there are so many of us, are you still afraid that he won't be ready for me all by himself, don't back down!"

Seeing this opportunity, Qin Yuan quickly came to the back of the bunker, followed by the President of the Kingdom of Jin.

As soon as the representative of Ba State saw the president of Jin State, he rushed forward and grabbed him by the collar.

"Look at the good things your people have done. If you don't stop them quickly, are you going to make the situation worse?"

The president of the Jin Kingdom also spread his hands helplessly, "I can't solve it, they don't obey my orders, and it's possible that they are discussing ***** me now."

Sure enough, He Chenguang guessed it. They had a coup d'état. Qin Yuan also told them the news he knew. Now he is the only one who can save them.

"But don't worry, I don't have a problem with this little force. I will take you out safely. Now your duty is to protect President Jin, and he will be needed to explain the truth to the world."

At this moment, a rocket flew directly towards them. Qin Yuan had quick eyesight and quick hands, and quickly pushed away President Jin who was next to him, telling everyone to retreat quickly.

The bunker in front of them was blown to pieces in an instant, could only retreat to the back.

"You are crazy, don't you see the president here? What on earth are you trying to do?"

A few representatives passing by here couldn't bear it anymore, and they roared loudly. Unexpectedly, they were violently attacked after they finished speaking. Qin Yuan shook his head. Why can't these people see clearly? They just came for them of.

Representatives of those other countries were watching the fun. They only wanted to protect themselves, and they were sure that people from the Jin Kingdom would not attack them. They did not expect another missile to explode directly behind them.

The power of this explosion was so strong that their bunkers were also washed away in an instant, and several soldiers behind were killed on the spot.

"Hey! What are you trying to do? Are you crazy? Are you going to start a war with all of us? Can you bear the consequences?"

"Hahaha, you are really naive. You have already heard about this place, and you still want to go out. How could I let you out? All the insiders must die today."

"You are too arrogant to say this, you are simply crazy, I advise you not to do anything to us."

Chapter 887 Vicious Circle

The representatives of several other countries were very confident. They concluded that Jin would not dare to attack them. After all, the forces behind them were also very powerful.

But it was this kind of blind self-confidence that cost them their lives. If they followed the suggestion of the representative of Pakistan and cooperated together, they might all fight back now.

The representative of the United States stared at Representative Jin viciously, "You bastard! If you dare to attack us, then I will take our army and destroy the country completely."

"Hahaha, what time is it, haven't you realized the reality yet? It is impossible for everyone who stayed here today to get out of here. After all, only the dead can't speak."

Immediately afterwards, he raised his gun directly and hit the representative of the United States in the chest with one shot. The man fell to the ground, his eyes widened, and he looked at him in disbelief. This man actually dared to attack them.

Immediately afterwards, the captain next to him also raised his assault rifle and shot at them. In an instant, the battlefield changed drastically. These representatives who had been at ease before, unexpectedly became living targets now.

Qin Yuan didn't hesitate, and then fired quickly, quickly attracting the firepower from Representative Jin and them. Originally, there were also soldiers from Xiaomao country stationed

here, but more and more soldiers came to Jin country later, and everyone didn't know what to do. Notice.

So now the Kingdom of Jin is relatively dominant in terms of numbers, and the main problem of the Xiaomao Kingdom is internal and external worries, and they are now experiencing internal riots.

And all of this has something to do with the Kingdom of Jin, because they planted people from the Kingdom of Jin among these people, and they took the lead in a riot. They just took action on their side, so Representative Jin also shot.

Representative Jin's main purpose is to contain these people around the nuclear channel and wipe them out in one fell swoop, and then pour all the dirty water on Xiao Maoguo. At that time, he will say that they want to destroy the corpse and wipe out the traces to cover up the crime of nuclear leakage.

Originally, the Xiaomao country was condemned by the World Health Organization because of the nuclear device incident before, so it happened to lead this wave of crimes to them.

He really thought of this move very well, he considered all aspects, but the only problem he didn't consider was Qin Yuan.

Qin Yuan's speed was so fast that the snipers on the opposite side couldn't catch him. The soldiers of the Kingdom of Jin fell down one by one. Representative Jin panicked instantly. He wanted to retreat quickly, but Qin Yuan hit him directly on the shoulder with a throwing knife.

Representative Jin took out the walkie-talkie and yelled frantically, "Sniper No. 4, what on earth are you doing? Get rid of this lunatic!"

But the No. 4 sniper didn't respond anymore, because Qin Yuan had already dealt with it directly, and he didn't even have time to lock it in. Qin Yuan's gun was faster than him, and he had already found his position and shot him in the head.

Representative Jin slammed the walkie-talkie on the ground, "This group of trash really don't know what the country used to support you before. It's useless at all, so they were wiped out so easily?"

At this time, Qin Yuan had already jumped to his side, saw him with a smile and said, "It's not that they are trash, but that the opponent's strength is too strong!"

"What! When did you come here? What about the defense in front of me?"

"Oh! Are you talking about the trash in front? It's not enough. My fighting strength is too weak. I have wiped out many drug lords and pirates before, but their motley crews are stronger than your regular troops."

The captain next to him was instantly angry when he heard this, and rushed up with a gun, but Qin Yuan did a backflip and kicked him on the shoulder, and he flew out heavily, clinging to a throwing knife and directly hitting his chest, the captain died before he had time to react.

The soldiers panicked when they saw it. Now their captain is dead and the snipers are gone. Taking advantage of this gap, the red blood cell team rushed up and grabbed the guns, and quickly counterattacked. Soon their encirclement already routed, completely broken up by the red blood cell team.

The Ba Guo captain next to him was completely stunned. He was prepared to fight to the death with the determination to die just now, but he didn't expect that the battlefield would turn so fast, and the key to this spread was Qin Yuan.

The captain of the Yan Kingdom is really too strong, he can break this situation by himself, and what everyone didn't notice is that he entered the center of the nuclear island by himself, and even took Jin The President of the United States brought it out intact and wiped out all the criminals inside.

Representative Jin didn't expect things to turn out like this. Now that his shoulder was injured, he quickly ran behind a bunker and took out a phone to call for help.

"Prime Minister Park, what should we do? We need support here. The opponent's strength is too strong, and we can't beat it."

"You bastards, you have three times the number of others, what are you doing for food? If the mission is not completed, then there is no need for you to come back."

Representative Jin called the acting prime minister of the rebellion, but what he didn't know was that the interior of the country of Jin was also messed up by them. country here.

There was no need for extra military support anymore. Representative Jin, who was still clamoring triumphantly just now, was like a bereaved dog. He collapsed on the ground and had no hope in sight.

And the soldiers he led were few and far between under the siege and force of the red blood cell team and Xiaomao country's captain.

The captain of Xiaomao Kingdom ran over with an innocent face and bowed deeply to Qin Yuan. He was completely convinced by Qin Yuan's strength. This special team with only a few people was so powerful, and their tacit understanding was also very good. So high, no wonder the international will send them over.

The conspiracy this time was unexpected by everyone. Representative Jin looked around in horror at this time, and he was the only one left.

Qin Yuan stepped forward and stepped on his wound, and he howled like a pig, "Damn! Kill me if you have the ability, don't torture me like this, and no matter what you ask, I will I won't say it."

The president of Jin Guo also came out from behind, "Look at what you are doing? Now we are completely finished, and I don't know how to explain to other countries. The meaning of your actions will only lead to more wars. This is a vicious circle, don't you understand this truth?"

"Ahem! You are the most cowardly prime minister I have ever seen. You are not worthy to lead us! Although I know that I will die today, you will not live long."

"Is this the result you want? Look at how many people have been sacrificed. Sometimes cowardice is not incompetence, but the protection of your own people."

Representative Jin stood up and shook his head at this time, "Your pedantic thinking will always live in the past, and the sacrifices of these people will only serve as a foreshadowing for us, making most people live better."

President Jin wanted to say something at first, but Representative Jin stood up staggeringly at this moment, and suddenly rushed towards Passing Zhongtong. This was too fast, but Qin Yuan reacted and kicked Representative Jin away. Going out, he slammed heavily on the wall behind.

In an instant, the entire wall collapsed, and Representative Jin was buried under the wall, and then there was no movement.

The captain of Xiaomao country gasped. Fortunately, he didn't offend Qin Yuan just now. This person's strength is too terrifying, and he can be kicked out with just one light kick.

He ran up to Qin Yuan with a smile, "Captain, I really thank you this time. You not only solved the crisis for us, but also killed these traitors. You are really the savior of us all."

Qin Yuan turned his head and ignored the captain at all. This person shot at the people on the way here before. He didn't even want to look at people like this. He felt that the one who could point the gun at ordinary people would always be a coward, even if he has a powerful weapon in his hand, he still looks down on it.

Although the captain of Xiao Maoguo saw disdain in Qin Yuan's eyes, he still didn't mind at all. After all, he didn't dare to say anything in the face of such a strong man.

He just smiled awkwardly, and then said loudly: "Everyone must protect the safety of the representatives of various countries. By the way, control the passing of the president. The culprit of all this is him!"

In an instant, President Jin and several representatives around him were surrounded.

The situation has become very serious. It is indeed because President Jin is a bait, and everyone came here because of this bait. Unexpectedly, it turned out to be a trick played by them, and everyone was tricked.

A representative next to President Jin shouted loudly: "What are you doing? We are also victims. Our president has just been rescued. Are you going to do something to us?"

"Hehe, the victims, we are the real victims. You see, it's all because you messed up our country! Anyway, it's all caused by you Jin people."

"But we didn't know that such a thing would happen, and the real culprit has been killed by everyone, don't you see it? We are now going to deal with the conflicts in our country. If no one stops it, this matter will It's going to get worse."

The captain of Xiaomao country sneered, he didn't want to put President Jin back, he wished that their country would become more and more chaotic, and just took this opportunity to suppress their strength, and this time the country of Jin was doomed, they It should have offended all the representatives present.

The representatives next to them saw this situation, and no one came out to speak for them. They were still as indifferent as before, and everyone felt that it was indeed the problem of the Kingdom of Jin.

Their little Mao country and Jin country have indeed been in conflict for a long time, let them handle these matters by themselves! And they certainly won't help.

A representative of the Yuan Kingdom also stood up and said: "I didn't expect you to have heard of such a person. I will definitely bring our army to attack you directly."

Captain Xiao Maoguo sneered, this is what he wanted, and he successfully provoked disputes among these people.

Qin Yuan shook his head from behind. Although he was very capable and prevented this battle, there were still a steady stream of troubles coming one after another.

As President Jin Guo said, war is a vicious circle, and the use of violence will only lead to worsening incidents.

The atmosphere at the scene was very anxious. At this time, Qin Yuan couldn't take it anymore. He took out his gun and fired a few shots into the sky, so that the scene was completely quiet. Everyone was a little afraid of Qin Yuan's strength. So fast, so many people have nothing to do with him.

"We are all here to solve problems, not create more problems. I hope you can understand that there is no point in hijacking him like this."

"Then should we just let him go like this? Who will compensate for the losses of our country and those of us?"

"Then you can get compensation for hijacking him here, and what meaning can you get? Now we mainly want to solve the problem. After he goes back, let's see how he solves the internal problems. Besides, the problems of your little Mao country, Most of the root causes are of your own making."

The captain of Xiaomao Country was a little unhappy when he heard Qin Yuan say this, but it cannot be denied that what he said did make sense.

It is also because of their reckless actions against the people and shooting at them at will that they completely lost the people. Moreover, at critical moments, most officials left the people and fled privately.

"We have seen a saying that water can overturn a boat and carry a boat. These things are relative. I hope you can think about it clearly. If you can be firm enough, how can you just listen to a few provocations from others to initiate Riot? Think about your own problems!"

After Qin Yuan finished speaking, he packed up his equipment and prepared to leave with the red blood cell team. This mission was really tiring, not physically, but mentally. He witnessed the fundamentals of human nature again and again.

"Brother Qin We'll just do our best, there are some things we can't do no matter how capable we are."

Qin Yuan nodded, he didn't want to take care of these things anymore, and they should solve them by themselves.

The representative of the Ba Kingdom was completely shocked by Qin Yuan. Before that, he was only surprised by his strength and brains. He did not expect that he also had his own unique views on the way of governing the country.

Seeing that Qin Yuan was about to leave, the president of the Kingdom of Jin shook his head helplessly. Among these people, only Qin Yuan stood in a neutral position. At least this person rescued him.

"Captain Qin, although I don't have this ability now, I still thank you very much. Thank you for saving me. At least let everyone understand the truth of the matter."

"This is what I should do. If you really want to thank you, then govern the country well and stop this war. I believe that you all don't want to really have a big war. This is not good for anyone."

"Let's go, Er Niu, let's go home and eat hot pot."

Qin Yuan's mission was to rescue the passing president. As for the subsequent situation, he said what he should say. These people can listen to them if they can, and he can't help if they don't.

Chapter 888: Airplane accident

But at this time, the captain of Xiaomao Kingdom stepped forward with a smile and stopped Qin Yuan, "Captain Qin, with all due respect, everyone here today cannot leave first."

"Why, do you still have such an Overlord Treaty? First of all, I have helped you solve two crises, and my main task is to rescue the President of the Jin Kingdom. Now that he has come out, I have solved all those people inside."

"Of course I know this, and I also admire Captain Qin's strength, so I want to keep Captain Qin."

"Whether to stay or not depends on my personal wishes. Without your way of staying, we have completed our mission and are ready to go back."

At this time, suddenly the captain of Xiao Maoguo issued an order, and all guns were pointed at Qin Yuan and the others.

Li Erniu was instantly angry. Is there an end to these people? He just managed a golden country, what the ***** is his little Mao country trying to do now?

The members of the red blood cell team were not vegetarians either, and they raised their guns one after another, and the atmosphere was very tense for a while.

Seeing this situation, the representative of Pakistan could only stand up quickly, "You don't need to be like this, our main crisis has not been resolved yet, and Captain Kumamoto, you should also

pay attention to your attitude, after all, the battle of love is our lifesaver Benefactor, one more thing, you are still engaged in civil war, your guns should not be aimed at us."

"It is precisely because we have a civil war that no one can leave. You must stay and deal with these things with us."

Qin Yuan was speechless for a moment. He had seen shameless people before, but he had never seen such shameless people. The first shameless person just now was Representative Jin. He didn't expect this to be comparable to Representative Jin.

Captain Kumamoto only took a fancy to Qin Yuan's ability. Now the situation in their city is precarious, and on the way to pick up Qin Yuan and the others before, he controlled the people with just a few words.

This made him very admired, so he would definitely not let Qin Yuan go in this situation, which was also the order they gave just now.

At this time, Qin Yuan was really speechless to these people. Not only was he selfish, but also why he wanted to help them. They caused this mess by themselves, so they had to clean it up by themselves.

Fortunately, President Jin was rescued by Qin Yuan just now, and he was very grateful. He went directly to Captain Kumamoto, "Captain Kumamoto, I have indeed heard about the cause of this incident. Although we have a rebellion now, I still have some I have the right to speak, and I will definitely be responsible for this incident."

"Hehe, what do you have to do with the person in charge of you to sow discord, riots have occurred everywhere in our city, can you be responsible for these losses? Besides, you are now a criminal, kneel down to me."

At this time, Kumamoto didn't pay attention to President Jin at all, and kicked him on the knee directly, forcing him to kneel down, while several representatives of Jin Guo ran forward one after another.

Unexpectedly, the gun rang in the next second, and a Jin Guo representative fell to the ground with his head hit.

"Are you crazy? Why shoot him? He's unarmed."

"Oh, really? But I clearly saw that he wanted to attack the captain. For such a person, I must be the first to attack."

Just as Qin Yuan was about to leave, Captain Kumamoto pointed a gun at the president and said, "Captain Qin, don't move around now, if I'm in a bad mood, pull this trigger, and the person in front of you will become a man." dead body."

"If you want to kill this person, it has nothing to do with me. My mission is to bring him out of the nuclear island. I am not responsible for his safety now."

What Qin Yuan said was just a tactic to delay the attack. Taking advantage of Captain Kumamoto not paying attention, he rushed forward and snatched the pistol in his hand, and then he kicked it out instantly. Kumamoto could only dodge sideways, but was still caught. He kicked his thigh and fell hard.

Although he fell out, he still ordered his men loudly, "Don't shoot, you know?"

He still didn't dare to shoot, especially when facing Qin Yuan. He didn't want to make these relations bad. Among this group of people, Yan Guo was the one who couldn't be offended.

"I hate people threatening me the most in my life!"

After Qin Yuan finished speaking, he walked over and pulled Captain Kumamoto up. This move surprised everyone.

Li Erniu also didn't understand. This kid spoke too aggressively just now, and he was threatening people in the open and in the dark. Seeing his appearance, he wanted to rush up and beat him up. Unexpectedly, Qin Yuan would give him such a step Down.

Kumamoto was also a little surprised when he got up, "I didn't expect that Captain Qin is also a big-hearted person. Captain Qin is really unwilling, so I can't help it. I will send someone to send Captain Qin back safely."

"Yeah, see you later!"

Qin Yuan is not so kind, especially in the face of such a person, such a despicable villain will not be like Representative Jin in the future, Qin Yuan has quietly infiltrated part of the nuclear energy into his body when pulling him , but he didn't find it.

This layer of nuclear energy was stained on Qin Yuan's skin when he entered. He was thinking about how to transfer it, but he didn't expect to find that as long as he was in contact with others, the harmonious energy would slowly seep into other people's bodies .

That's why he chose close combat just now, and had physical contact with the soldiers of the Jin Kingdom. In this way, most of the nuclear energy has been transferred, and the last small part of the nuclear energy has also been transferred to the captain of Kumamoto.

Kumamoto just tried it out just now, but he didn't expect Qin Yuan's reaction speed to be too fast. He didn't dare to force this kind of people to stay, so he could only let them go, although he was a little unwilling.

He nodded and bowed to those representatives with a completely different attitude. He sent Qin Yuan and the others to the bus in person, and then planned to send them to the airport.

"Captain Qin, no matter what, I still thank you very much. The main reason is that you are also very capable. You sent those mobs away with a few words like before."

"This is not a matter of my few words. It is mainly based on your heart. If you really want to consider these people, they don't want riots at all. Everyone wants to live in peace."

Qin Yuan was also talking about the fundamentals, if everyone's life is going well, why bother to make trouble? And now is indeed their most critical moment, and those people also know that they don't need to have civil strife at all.

The main problem lies with them. They must first treat the people as their own, so that the people can completely trust them.

But Qin Yuan didn't talk to him so much, this Kumamoto is not like a person who can solve problems at all, he will only make the problem worse.

Representatives of Yuan and Ba asked below: "What's the matter with you? Then what should we do?"

"You guys, just wait. We will send you back when we have time. I will go to support Captain Qin and the others after sending them off. You can stay here, or find a way to get out on your own."

This treatment is simply different. Facing Qin Yuan politely, it is really a powerful person who has the right to speak, and these people dare not refute. Now that they are rioting outside, relatively speaking, this place is the safest.

These countries have all experienced riots before, and no matter how many people there are, as long as they see people in military uniforms, they will step forward.

The representative of Ba Guo was very smart. He smiled and said, "Then you go first! I'm relatively comfortable in this place."

Qin Yuan understood what he meant, but Qin Yuan was not afraid that he would have a solution to those people. Besides, they were not targeting themselves, but the unfair regulations of this country.

Although Li Erniu and the others didn't like this Kumamoto, they had no choice but to leave in their car. After all, they didn't know the situation outside.

The car returned the same way, but several main roads have been blocked, and some policemen are maintaining order.

The street was in a mess. It was empty before, but now you can see the traces of many people passing by, as well as some banners and red paint.

These angry people should have gone to the presidential palace. Xiao Maoguo should be familiar with this procedure. After all, these people have not made trouble once or twice.

The vehicles passed smoothly under the command of the people on both sides, and Qin Yuan was instructed to notice a girl and a woman squatting on the side of the road. The little girl looked five or six years old and was squatting on the ground crying.

"I know that you also have difficulties, but I still want to say treat these people better. If you treat them as people, they will naturally regard you as their protector."

Qin Yuan didn't care whether Kumamoto listened to it or not. Anyway, what he should remind now is that the most painful thing in war is the people, so he only hopes that all this will end soon.

He Chenguang saw that Qin Yuan had many problems. He was able to come out of the nuclear war zone safely, but the most important thing was that the damage of this nuclear weapon would not be prominent on the surface, and might be hidden in the body, so he was a little worried .

"Er Niu, don't be heartless, you should pay more attention to Brother Qin's state."

Because Li Erniu was the closest to Qin Yuan, but it didn't look unusual, it was still the same as usual.

Soon Captain Kumamoto sent Qin Yuan and the others to the airport, and watched them get on the plane with a look of resignation. With Qin Yuan's strength, he should be able to quickly help them solve the atrocities.

It seems that what Qin Yuan said just now was all in vain. Now he just wants to solve these atrocities as soon as possible, but he doesn't want to solve them fundamentally.

On the contrary, at this moment, he not only blamed all this for being a ghost, but also blamed Qin Yuan for not helping them.

"What's so great about these soldiers of the Yan Kingdom that they are so ignorant of the situation. Since they want to do this, then don't blame us for making small moves."

Kumamoto showed a sinister smile, and then gave a few instructions to the subordinates next to him.

Everyone on the plane was relatively relaxed. To be honest, the mission this time was quite simple. They all relied on Qin Yuan, and they didn't really enter the core area.

"Brother Qin, you are so awesome that you can safely enter and leave the nuclear war zone. What is your body made of?"

"It's not the same as you. It's just that I did wear a chemical protective suit after I went in. Otherwise, there's nothing I can do. But it's also possible that I have a better physique, so I resisted it."

Li Erniu cast an envious look. This body is simply too heaven-defying. They wear two layers of chemical protective clothing, and they can't even shoot. Qin Yuan not only can come and go freely after entering, but also Everyone inside has been dealt with.

But Qin Yuan always felt that something was wrong, how could this Captain Kumamoto let them go so easily? But this person really made him very upset. He obviously wanted to ask them for help, but he put on a condescending attitude.

He really wanted Qin Yuan to help them solve the riot, but he even threatened Qin Yuan and promised Qin Yuan many benefits, but he was not moved at all.

Watching the plane slowly take off and rise into the air, he doesn't want to worry about the situation below, at least this time he solved a human catastrophe, prevented the outbreak of nuclear war, and absorbed the nuclear device Yes, this is the best.

It is not far from Xiaomao country to Yan country, and the flight time is only four hours. Because they don't need to make a transfer, the team members on the plane have also relaxed. Now the task has been completed.

Everyone was in a state of rest. At this moment, the flight attendant in front ran over and pressed the emergency button.

Qin Yuan got up quickly, "What's the situation, what happened in front?"

"Captain Qin, I'm very sorry. There seems to be something wrong with the position of the fuel tank in our cabin. The fuel is seriously insufficient now, and it has been leaking during the flight."

The situation where Qin Yuan frowned tightly is easy to solve, they just need to parachute later. But why did this mailbox suddenly have a problem? You must know that this kind of plane is their special plane, which is of military grade.

The incident happened suddenly, and the flight attendant quickly brought the skydiving equipment for everyone. "Now everyone can only prepare for the skydiving. If the fuel is enough to reach the nearby airport, we can apply for landing."

Qin Yuan went directly to the cab to look at the fuel situation. There was only 25% of the fuel and it was still leaking. He looked at the nearest airport nearby. It was too far away from their location, and it was impossible to complete the landing. Now we control the plane to stop. "

"what!"

The captain was taken aback. He had never seen a plane in such an environment. After all, he didn't know the situation below, so he could only find a suitable landing point after landing.

The main reason is that they are now in a very awkward position. They have not reached any cities, and there is a primitive jungle below. There is no runway in this kind of place, so they can only find grass to complete the emergency landing.

"But Captain Qin, if we persist for a while, we might be able to get to that place."

"Do you trust my judgment or the plane?"

The captain understood immediately when he heard this, Qin Yuan walked over to signal him to get up, now that he came to stop the plane, the captain didn't dare to neglect, and hurried to the emergency position to sit down.

Thanks to Qin Yuan's timely judgment, there was an emergency shortage of fuel, and now they had to make an emergency landing. The plane was descending very fast, and the entire cabin was very bumpy.

Chapter 889: Impossible Landing

He Chenguang also became a little nervous, what's going on? This has never happened to their military aircraft.

Qin Yuan is relatively calm. He just feels that he may be being calculated. Every part of a military aircraft is very precise, and it will go in before and after departure. Regular maintenance and repairs will not cause such a situation.

Now he very much suspected that Captain Kumamoto from Xiaomao Country was the one who did it, but this guy must be too courageous, he actually dared to do something to him.

They can skydive, but if it is not necessary to skydive, it is equivalent to giving up the plane.

Qin Yuan's landing the plane was a way to get the best of both worlds. The captain sat in the co-pilot's seat and watched Qin Yuan's operations. He was so proficient in every operation, but in his impression, Qin Yuan didn't seem to have ever driven the plane before. Most of these military aircraft have operated helicopters.

How can this person know everything, what else can he not?

But after a while, the plane was descending rapidly, and the captain's eyes widened. The speed was too fast, and there was not enough runway for the plane to stop like this.

This situation is very dangerous. After the plane cannot stop, it will directly hit the mountain in front.

"Captain Qin, I know you are very good, but if we want to skydive now, it's still too late."

"Just trust me, it's just a roller coaster ride, everyone get ready."

Qin Yuan quickly controlled the plane to land. He took a closer look and found a green bush, which was considered a relatively low building.

And now skydiving is not a wise move, this position is too low, jumping down has no time to open the parachute, and it will definitely fall into a meatloaf.

Qin Yuan took the walkie-talkie and said to everyone in the cabin, "Everyone pay attention, tighten the seat next to me, and fix it firmly on the seat for me, there may be some small bumps in the future."

Everyone believed in Qin Yuan more, but they were too surprised by the small bumps that followed. How could this be a small bump?

After Qin Yuan controlled the plane to land, because of the lack of runway, he had no way to complete the landing after gliding across the grass, so he had to get up and circle again.

The huge shock wave directly bounced Li Erniu off the chair, and his head hit the upper luggage rack.

"Oh, let me go, brother Qin, you are not a little bumpy, you are like a roller coaster!"

Gong Jian grabbed Li Erniu at the side and pushed him on the seat, "I said you can't be honest, kid? What's the point of talking now, just sit down for me."

Li Erniu just sat down, and then the whole plane tilted seriously, and they could hear the alarm from inside, it was serious shortage of fuel.

In this situation, everyone was very nervous. Qin Yuan's strength was indeed very strong, but it was aimed at the enemy. If faced with such an emergency, after all, he had to control this kind of aircraft, and he couldn't solve the fuel problem.

"Am I going to sacrifice here today?"

"You stinky cow, shut your crow's mouth quickly, don't worry Brother Qin, he will definitely take us out safely."

"Bah, bah, bah, it's really unlucky to say that now."

Then there was heavy turbulence. Qin Yuan controlled the plane, pulled up the landing lever next to it, and landed on the grass again. After circling three times like this, he finally landed the plane steadily.

The captain next to him was sweating profusely, and his entire shirt was completely soaked. This may be the most memorable flight he has ever experienced.

"Captain Qin, you are simply amazing. You can land perfectly in such a situation, admiration!"

"Small, I can still descend lower than this. With this little fuel, I can still circle for half a circle. Even without this grass, I can stop it."

The captain nodded. The violent turbulence just now, and the whole person was in a state of high tension. Now that he is relaxed, he feels that his whole body is exhausted.

Qin Yuan came to the cabin to check everyone's situation. Fortunately, the members of the red blood cell team were not injured.

"Brother Qin, what's going on? We've come and gone so many times and the plane hasn't had any accidents. What's going on?"

"I also want to know why we went down to check first. I suspect that someone has tampered with it."

"Gong Jian, after you adjust, take out the map to see where we are, and I will lead the team down to check the situation now."

"Yes!"

Qin Yuan took Li Erniu and the others down to the fuel tank, and the captain followed. His face changed drastically when he saw the fuel.

"That's wrong, this fuel tank is not our fuel tank!"

what's the situation? When everyone heard what the captain said, they all expressed their doubts. It all went wrong, and the more they listened, the more confused they became.

"What I mean is that our fuel tank was replaced by others, and the whole thing was replaced. This is just the fuel tank of an ordinary aircraft. No wonder it couldn't bear it at all, and the fuel leaked halfway."

Qin Yuan's face was solemn, he wanted to know who was plotting against him now, if he knew that if he played tricks on this kind of thing, he would put them to death!

Wang Yanbing was also very excited. The bump just now made him run into the nearby grass and vomit for a while.

"Damn it, which ***** plotted against us? When I find him out, I'll beat him up."

As soon as he finished speaking, Wang Yanbing felt his stomach turning again, and ran over to vomit again.

"I very much suspect that Kumamoto is the one who did it. This kid has a bad stomach. People like them can even do things to their own people, let alone us."

"Aren't they afraid that we will go back and retaliate?"

"When the time comes when our plane crashes and people die, who knows what's going on here? Even if we report to the higher authorities and survive, who knows it will be their fault."

What Qin Yuan couldn't figure out was that he was there all the time, why he didn't notice such unimportant things as the mailbox being swapped, and it would take a lot of time to disassemble and replace the fuel tank.

So this shows that all of this is planned. Maybe when they entered the nuclear island, these people were already in action.

Qin Yuan was very angry at the moment, and after figuring out all this, he punched the tree trunk next to him.

The action this time was really annoying, they were being calculated all the time, first by the representative of Jin, and then Xiao Maoguo also came to join in the fun.

Kumamoto of Xiaomao Kingdom also made two-handed preparations. If Qin Yuan agreed to help them, he would send them away safely at that time. If Qin Yuan did not intend to help them, then he would simply let them come and go. This person is better than Representative Jin And meaner.

The captain only remembered at this time, "By the way, when you were leaving, the people from Xiaomao Country came over to overhaul the plane for us, and I said why they were so kind, so they took this opportunity to swap our fuel tanks. gone."

Gong Jian also came down, he held the map, "Qin team, this area is a virgin jungle, we can wait for Gao team and they rescue us."

Li Erniu walked over and glanced at the map, he didn't care, "With this little distance, let's treat it as training, so let's go out in one go."

Qin Yuan gave Li Erniu a blank look, "I said, can you use your brain when you speak? The few of us can go out, but what about the captain and these flight attendants?"

"Uh, I didn't think of that."

"Besides, I didn't want to destroy our military aircraft when I landed the plane. I'm going to contact Team Gao now and ask them to send fuel tanks over. If they dare to bully me, I'm going to fly this plane and kill them. "

Although Gong Jian was also very angry, he immediately became nervous when he heard Qin Yuan's words. Now is not the time to act impulsively. There are conflicts between Xiaomao Kingdom and Jin Kingdom.

"Qin team, otherwise we can take it easy, and it's better to let Gao team solve this matter."

"The Gao team definitely wants to solve it, but these people can only play football, and finally made this matter a big deal, and we have no proof."

Gong Jian nodded, what Qin Yuan said was indeed reasonable.

"And when the time comes, you go back first, and I will go to Xiaomao alone."

Everyone was shocked when they heard Qin Yuan say this. How could it be too dangerous for him to go to Xiaomao country alone.

"The situation in Xiaomenguo is very complicated now. I think we should go together, or wait until their incident subsides before we settle accounts with him."

"I can't wait any longer. I've always had revenge. Besides, it's not just once or twice that this happened in their country. Don't worry, I don't have any worries if I go alone."

Everyone knows that as long as Qin Yuan decides, it will be difficult to change. Since he said so, there is nothing he can do, and if he goes alone, he can indeed escape directly.

After Wang Yanbing vomited three times and emptied his stomach, he finally didn't feel the nausea, but the severe vomiting made him very uncomfortable.

"I'm going! Yanbing, what's the situation with you? It's not like we haven't done this kind of dizziness training before. Why are you so weak today?"

"I ate a little too much on the plane just now, sorry."

"Okay, let's rest here for a while. I've already contacted Team Gao. They'll send a helicopter over later. Based on this distance, it will take more than an hour."

At this time, Kumamoto, who was inside Xiaomao Country, had a sinister smile on his face. He felt that his strategy had succeeded, and he had used this method to solve people from other countries before.

This strategy can be said to be perfect, after all, in the high altitude, no matter what happens, the little fuel is definitely not enough for them to go to the nearby airport.

The worst result would be a crash. Even if their plane didn't crash, and they parachuted into the virgin forest, it would still make them suffer.

"Captain, that Qin Yuan is very powerful. He might not be able to kill him like this. What if he comes back to make trouble?"

"Hahaha, what trouble can he cause? He has the ability to produce evidence! At that time, he will only suffer from being dumb."

"It's just a pity that this person is very powerful. He is not from our side. This person can be worth an army. He is really strong."

It was very rare for the soldiers next to him to hear that Kumamoto had such a high opinion of Qin Yuan, because Kumamoto hardly praised others very much.

What Kumamoto admired very much was that Qin Yuan was able to withdraw from the river safely. This surprised him, and he also saw Qin Yuan's strength in the subsequent battles. This man's marksmanship is too fast. , very agile.

After Gao Shiwei knew Qin Yuan's situation, he immediately sent Long Xiaoyun and the others with a helicopter to meet them.

Long Xiaoyun could see the fire burning below from a distance, Qin Yuan and the others were really in the mood, the plane almost crashed, but they were not affected, and even roasted rabbits in this place.

The wind blown by the helicopter's huge propeller was so strong that Li Erniu, who was standing in front, couldn't open his eyes.

Qin Yuan shouted loudly: "Xiaoyun comes down to eat roasted rabbits, and then brings down the oil, we need to refuel here."

Long Xiaoyun came down the soft ladder, very speechless, how could this guy still want to eat at this moment.

What's more, they can't fly in this position even with refueling! But he still listened to him and brought the oil down.

Qin Yuan stepped forward with a smile, tore off a roasted rabbit leg and handed it to Long Xiaoyun.

"I told you not to try to bribe me, I just want to know what's going on with you guys, besides, even if I give you the fuel in the tank, you won't be able to go up this place!"

The airport also nodded next to it. It is impossible to take off from this location. The plane needs a certain runway to take off. This location is too narrow, and the landing just now was forced.

"Captain Qin is my employee. No one can do it in this place. I have ten years of driving experience. I also admire the landing just now, but it is probably impossible to take off."

"That's because you can't do it. I'll show you later."

Long Xiaoyun was a little anxious, she looked at the surrounding environment, it is too difficult to take off this plane here, and it is not a helicopter, if it is a helicopter, then it must be no problem.

"Qin Yuan, let me tell you, don't mess around with me. Safety is the most important thing now. Captain Gao has already said that if it doesn't work, throw this plane away and take the important things back."

"Why do you want to lose it? If you want to lose it, I won't add it to him. Let's just skydive directly. That's ok, give me the fuel tank first."

Just do what you say, Qin Yuan went over to fix the fuel tank. The person who replaced the mailbox is also a talent. Such a sophisticated plan can be imagined. After all, who knows what happened to the fuel tank, most people will do something small. , I didn't expect it to be a direct replacement.

"Okay, it's safe now, you all stand aside, I'm ready to take off."

The captain also wanted to persuade him that he really couldn't fly in such a position, but seeing Qin Yuan's resolute attitude, he couldn't say anything more.

The members of the red blood cell team were full of confidence in Qin Yuan. Qin Yuan got into the cockpit of the plane, called the captain up, and asked him to be his co-pilot.

Chapter 890: Pick up the trash

The captain was a little worried when he saw this situation. Before they made a forced landing like this, he was already too nervous, let alone operate it now.

"Captain Qin, although I have bought insurance, I don't think we need to take this risk. If it doesn't work, just leave this plane here!"

Qin Yuan gave the captain a blank look. Why is this kid so cowardly now? After all, he flies a military plane, so he needs to show some confidence!

"Song Kaifei, come and sit with me as my co-pilot, the two of us will send this plane into the sky together."

Song Kaifei's sudden name-calling is a little bit embarrassing. He was indeed a member of the Air Force Brigade before, but he flew a fighter jet. He has never tried this kind of passenger plane.

"Why are you still standing there, kid? I finally wanted to teach you something myself. Don't you want to learn?"

This is also more risky, Song Kaifei gritted his teeth, anyway, Qin Yuan is not afraid, he just walked up what he was afraid of.

Long Xiaoyun stared at them nervously, this person really didn't listen to persuasion, even in this situation, she still insisted on driving the plane up, although she had never flown this kind of plane before, but she also knew that the conditions for such a takeoff were really bad. too poor.

Before flying, Qin Yuan also jokingly said to Long Xiaoyun: "If I die with honor, please hand over my party dues and my ashes to Captain Gao."

"roll!"

Long Xiaoyun didn't want to pay attention to Qin Yuan at all. This guy did this every time. Although she said so, she was still very worried, and her hands were slightly sweating.

Qin Yuan unhurriedly pulled up the joystick. In order to avoid the space, everyone retreated into the jungle behind.

It's not that Qin Yuan insisted on taking risks to fly the plane, the main reason is that he didn't want that guy from Kumamoto to take advantage of it, and he, Qin Yuan, was not the one who suffered such a disadvantage. will lose its own interests.

Song Kaifei pulled the joystick on the co-pilot and acted at the same time as Qin Yuan. The plane glides steadily on the grass, and the distance is not enough. Unexpectedly, in such an extreme

situation, Qin Yuan's supernatural operation is actually executed, and the plane is slid. Take a sharp 90 degree turn.

This operation stunned the airport nearby and the flight attendants. This is the first time I have seen this kind of operation.

In this way, the runway time of the plane is enough, Song Kaifei also admires it very much, Qin Yuan's control ability is too strong, and even in such a situation, Qin Yuan can feel the boulder bumps under the plane, this is a must How high the sensitivity can be perceived.

"Did you see the small ***** in front? Let's rush up in one go, and then pull up the operating lever with all our strength and it will surely rise."

"Brother Qin, are you sure? I entrust my life to you. If we don't get promoted, we will be finished."

"Don't worry, the engine oil we use is the best in the country. It's not like the inferior engine oil used in Xiaomao. I won't let you sacrifice here so easily. Besides, I have to go to those garbage to settle accounts."

Qin Yuan was manipulating the plane, and the two quickly rushed towards the slope, and then the plane fell off a high cliff. The moment Long Xiaoyun saw the plane disappearing from his field of vision, he felt his heart skip a beat. , quickly ran over.

The other team members were also taken aback. They didn't expect such a result, and they didn't see the plane take off for a long time.

When they just ran to the side, they saw the plane controlled by Qin Yuan hovering in the sky, and then the plane rose steadily.

This is simply too shocking. I didn't expect this kind of operation to exist. Qin Yuan just created everything impossible. Everyone thought it was a miracle that he couldn't fly under such circumstances.

The plane was very stable and very high, and the team members on the helicopter were also cheering.

Qin Yuan asked Song Kai to fly over to take the lead, and then he went over to change into the skydiving equipment and prepared to skydive over Xiaomao.

"Brother Qin, is it too risky for you to do this, just you."

"Is there anything I do that is not risky? You all think that this plane can't get up, but I get him up anyway. Similarly, I always have to deal with some ***** myself."

How domineering words really only Qin Yuan can say, Song Kaifei is very admired.

For this kind of thing, Long Xiaoyun is used to it. Whatever happens to this guy later, he always likes to go alone, but Qin Yuan does have that ability. She takes the rest of the team to go back, and Song Kaifei controls it alone. There is nothing wrong with that plane.

There are still two or three kilometers away from the airspace of Xiaomao Country. Qin Yuan is going to parachute here. After all, they also have radar monitoring equipment there, and he intends to enter quietly.

Skydiving directly at an altitude of more than 1,000 meters is something only Qin Yuan can do, because the current record of their domestic skydiving training is 800 meters.

For this kind of skydiving, Qin Yuan thinks it is commonplace, because his skills can perfectly resist the wind factor in the air.

After Qin Yuan landed perfectly, he put away his parachute backpack. This is the border of Xiaomao country. He lurked there quietly. There are some soldiers in the border area guarding a piece of water ahead.

For Qin Yuan, who has world-class diving skills, this is nothing to worry about, he quietly lurked from the bottom of the water.

In this way, he entered Xiaomao country without anyone noticing, and now he has only one purpose, which is to find Kumamoto, and then settle accounts with that garbage.

When Qin Yuan arrived at the airport, the soldiers here had completely evacuated, leaving only the representatives of Pakistan and several other countries here.

They also have no choice, now Xiaomao country is too busy to take care of itself, and relatively speaking, this place is the safest place, from time to time they heard the sound of petrol bombs exploding in the city, and the representative of Ba country looked serious.

At this time, Qin Yuan entered the gas station at the airport. He knew that the people here must have tampered with it. There were four or five people chatting inside. When they saw Qin Yuan walking in, these people were very vigilant.

Especially the small man in front was very shocked when he saw Qin Yuan, because he was the one who replaced the fuel tank, and he felt that everything was safe. At this time, Qin Yuan should have been smashed to pieces, or trapped in the primeval jungle.

Because of his guilty conscience, this small man turned around and wanted to run. Qin Yuan rushed forward, kicked him on the back, and the man flew out heavily.

Seeing that the situation was wrong, the people next to them picked up the guys and beat Qin Yuan one after another. These things were a piece of cake for Qin Yuan. The person behind took the iron rod next to him and hit Qin Yuan's head heavily. Hitting it, I didn't expect such a hard iron rod to be directly dented.

"Damn, something's wrong, what's the situation with this man?"

"Now that you're done fighting, it's time for me to perform."

Qin Yuan punched the man just now, and the man flew out in an instant, and then kicked on the shoulder of the person who rushed up from behind. In an instant, these people were all knocked down by Qin Yuan. The little man who was kicked away lay motionless on the ground.

Qin Yuan walked over and stepped on his shoulder. The man grinned in pain, but he still clenched his teeth to prevent himself from making a sound.

"You like to play dead so much. I'll count to three. If you haven't got up, I'll really let you die."

"One, two..."

Hearing this, the man quickly got up and kept begging for mercy, "Brother, it's really not me, and I haven't offended you."

"You stammered before I even asked you what's the matter. It seems that you won't say it without making you suffer."

Without the slightest hesitation, Qin Yuan waved his fists to make fun of the man. He punched seven or eight times in a row. The man's face was swollen and his teeth were blown away.

"Brother, don't hit me, I'll say what I say."

It was indeed Kumamoto who told him to do all of this, but he didn't think of replacing the fuel tank at the time, he just wanted to tamper with their fuel tank. Kumamoto just wanted to teach them a lesson, and when they came again later, Kumamoto changed his mind. He wanted Qin Yuan to come and go.

"Where is this **** Kumamoto now?"

"Captain Kumamoto should go to support and maintain law and order, and it should be near the government area."

After Qin Yuan asked what he wanted to know, he strode out. Now it's time to settle accounts with the real mastermind behind the scenes. The men who were beaten up by him just backed away in fright. The man in front of him was really terrifying. They didn't have the slightest strength to fight back, and they were knocked down by the opponent.

The streets outside are chaotic, there are security police* everywhere, and people from the army. This scene is very familiar. It was the same scene when they came to Xiaomao last time. A good leader is really very important. This The country is already crumbling.

Many civilians threw incendiary bombs and stones at those soldiers. In this situation, these soldiers and policemen dare not shoot at will. After all, if there is no order to shoot again, the conflict will definitely worsen.

"What should we do, captain, should we shoot directly? These mobs are really terrifying."

"Are you crazy? Shooting now is courting death. Hold back your shields tightly. You must not shoot."

Qin Yuan nodded while listening to the conversation of the two officers in front. These people are quite smart.

At this moment, a burst of gunfire rang out from the front. Early in the morning, the sound of the gunshot-style assault rifle should not be ordinary people. Qin Yuan quickly ran forward, and he mixed in with the crowd.

After hearing the gunshots, most of the people squatted down quickly, Qin Yuan turned over a few times, and used the car next to him to block his figure, and came to the street. Sure enough, the person who fired the gun was Kumamoto.

This guy really is really stupid, it's not chaotic enough at this time, although the shooting did suppress these people, but soon most of the people stood up again.

"Did you all see that this is the so-called protector god, and that's how they protect us, point their guns at all of us and fight with them!"

"Yeah, how can garbage like you protect us and kill us all if you have the ability."

The scene became even more chaotic for a moment. The civilians rushed towards the soldiers regardless of their care. The subordinates beside Kumamoto were also very nervous, and the hand holding the gun trembled.

"Captain, what should we do now? Should we keep shooting?"

"Grandma, these mobs are really against the sky. They all shot me and killed them all. I don't believe that if the people in front are dealt with, the people behind will dare to attack."

"But the superiors have explained that they must never be shot at them. We have violated the regulations by shooting just now."

"Are you a pig's brain? When they ask, they will say that the spies from the Kingdom of Jin are taking the opportunity to provoke you. We only kill those spies."

"Everyone obeys..."

Before Kumamoto finished speaking, he felt something flying towards him, and a throwing knife stabbed hard into his shoulder.

This feeling is so familiar, a powerful killing intent made Kumamoto shudder, he looked around nervously, and instantly met Qin Yuan's eyes, those eyes are so terrifying now.

Kumamoto was very frightened and ran towards the soldiers. The common people rushed forward and threw the soldiers in front of them to the ground. The scene was very chaotic. Qin Yuan took this opportunity to rush forward.

Qin Yuan threw another throwing knife and stuck it in Kumamoto's back. This guy was so lucky that he was hit by both throwing knives. Although his body was bleeding profusely, he still ran forward desperately, and then passed through. Entering the alley next to him, Qin Yuan didn't hesitate and rushed in directly.

At this time, Kumamoto fell down in the alley like a bereaved dog and desperately climbed ahead. Qin Yuan caught up and kicked Kumamoto to the opposite wall.

"You! How dare you do something to me, do you know that this is the territory of Xiaomao country? Do you, Yan country, want to do something to our country?"

"Ah! What are you talking about? I'm just helping your little Mao country eliminate some traitors just to remove some **** by the way."

"No, it's impossible for you to be alive, it's impossible, even if you're still alive, how did you come here again in such a short time?"

"All of this is really thanks to you. Let me tell you, I am a person who must take revenge. It is really easy to kill you, but before you die, I want you to know that our country of Yan is not so good. messed with."

Kumamoto didn't have the slightest strength to fight back, and was knocked down by Qin Yuan with another punch, and then a throwing knife was directly inserted into Kumamoto's chest, and Kumamoto's pupils slowly dilated in fearful eyes.

"Don't worry, I will let you die clearly, just as you said, since you think those people are spies from Jin Kingdom, then I can also say that I am a righteous man from Xiaomao Kingdom, and I am here to kill you Such rubbish."

Qin Yuan put away his throwing knife and walked out of the alley calmly, because the shooting scene just now was even more chaotic, many people rushed out from the nearby buildings, Qin Yuan shook his head, and now the situation is getting worse The more critical it was, he didn't want to care about these things anymore.
