

## Special Soldier 891

Chapter 891: ??Threatened

Anyway, these leaders will not understand what they say now, if it is not because their current situation is so chaotic, this matter will not be left alone.

After all, they tampered with their own plane. If they hadn't reacted in time, it would have caused the plane to crash and died. So many people's lives were played by these people.

When Qin Yuan was about to leave, suddenly a pair of eyes in the alley stared at him closely. He noticed the eyes, took out the throwing knife, and was about to throw it, but saw a woman.

Qin Yuan didn't expect that he was careless and was found at the scene of the murder. Now he is very entangled, mainly because he hasn't had time to change into the obvious camouflage uniform.

The woman didn't speak, but stared at Qin Yuan closely. Qin Yuan felt very embarrassed at the moment, and could only say in the language of Xiaomao: "Madam, don't get me wrong, I just missed it just now, you know Is it? Actually, he and I are on the same team."

Unexpectedly, what the woman said next made Qin Yuan feel even more embarrassed.

"I've heard you speak the Yan country dialect just now, you are from the Yan country."

Hearing what the woman said, Qin Yuan could only helplessly spread his hands, cooperating with himself to perform here like a fool just now, and others have seen through everything.

"Well, since you can't do anything when you see me, I'm the only one who does things. If you want to report on me, you can report on me. I'm not afraid. It's just that this kind of \*\*\*\*\* can be punished by everyone. I can kill him. No regrets."

"But have you ever thought about it, is it worth it for this kind of person? If I really went to report and compensate such a powerful person like you, I think it is very uneconomical, so I decided not to report."

Qin Yuan looked at the woman with his hands behind his back. This person did not pose any threat to him, and he was not afraid of this person's denunciation, but now he didn't know what this person's purpose was and why he said these things to himself.

"Are you not afraid that I will kill you directly?"

"No, I've been watching you for a long time. You can read what this kind of person said just now, which also shows that you are a righteous person. More importantly, you are from Yan Kingdom. They will not do this."

Of course Qin Yuan knew what the woman was referring to, because the people of Yan Kingdom would never shoot at their own people, not just their own people, but all unarmed civilians.

"It's too chaotic here now. I can't wait for someone to come in. This is not a place to talk. Let me take you to a place!"

Anyway, this woman can't pose any threat to him. He is more curious. A weak woman like her can watch him kill people by the side, and there is no panic in her eyes. A little excited.

I have to say that there are really too many small alleys like Xiaomao Country. Under the leadership of the woman, Qin Yuan followed her and walked out of a passage. It was very quiet here, and there were no civilians, nor those police.

"Don't worry, it's safe here. No one will see that those of us have gone to the government long ago."

The woman took out the key from her arms and opened a door. Qin Yuan was completely stunned as soon as he entered.

When you enter the door, you will see a huge square table. There are four black-and-white photos arranged in order on the table. There are a man, two children, and an old man.

"You can do whatever you want, I'll do something first."

The woman took out some incense sticks from the drawer and lit them on the incense burner in front, "Mom, that \*\*\*\* is finally dead, although I didn't kill him, but someone killed him for me, and there are other bastards, I will use my Let them receive the punishment they deserve."

Qin Yuan looked at everything in the house. Except for this square table, the other places were covered with a thick layer of dust. It seemed that no one lived there for a long time, but this square table was often cleaned.

Besides the smell of incense, Qin Yuan also smelled a smell of gunpowder. There was a pot of flowers by the window sill that had completely withered, so he was willing to go over and reach out to touch the dirt, and sure enough, it was full of gunpowder.

The woman was a little upset when she saw Qin Yuan move her things, "Don't you know that it's very impolite to touch other people's things without their permission?"

"I know this, but I need to remind you that the method of making soil bombs like yours is too dangerous. It is possible that the fuse will explode in your hand before the fuse is ignited. When the time comes, the enemy will blow himself up first. died."

When the woman heard what Qin Yuan said, she was taken aback for a moment. This man could tell that what he made was a soil bomb just by touching it. How did this man judge?

Although I just saw that his skill is indeed very powerful.

The woman took out a pack of cigarettes, lit one, and handed it to Qin Yuan. Qin Yuan waved his hand to indicate that he didn't smoke. It could be seen that the woman had just learned to smoke, and her movements were very unskilled. She choked to tears at the first puff. , but still did not stop the action in his hand.

"I have no choice now. I can only use this smell to numb myself and keep myself awake at all times. They are the motivation for me to live."

The woman's name is Hongli, and the people in the photo are all his family members. She originally had a very happy family, one son and one daughter. Her husband is a doctor. The family life was very happy until the hijacking happened on the nuclear island. The incident broke the peace.

At that time, many government officials and some high-level personnel secretly smuggled abroad. These people needed to issue a health certificate if they wanted to go abroad. It was issued in her husband's hospital. At that time, her husband wondered why there was a sudden So many people come to issue health certificates, and they are all rich people.

After careful investigation, it was found that these people were those who knew the inside story, and they couldn't wait to run out. On the other hand, these government officials also said very hypocritically that they required all people to stay in the country and not allowed to go out.

Faced with such a thing, his husband was determined to define it, and secretly organized people to start a resistance together. He wanted to let everyone know about this matter. Although they were ordinary people, they couldn't sit still like this.

He also wanted to let these people see the hypocrisy of these government officials. At that time, she was also very flustered, worried about her husband's safety, and was afraid that other people would play tricks on her husband.

Hongli took a deep breath at this point, as if she didn't want to think about it, "I said that these people would definitely explode, but he didn't listen, he said that someone had to do this, and he didn't dare to treat them The people took action, but they didn't expect..."

That day, Kumamoto led a group of people into her home. She was out shopping for vegetables, so she survived. Her husband was killed by Kumamoto on the spot for rebellion because of his resistance. The two children saw their Dad was knocked down to the ground and rushed out desperately.

As a result, the tragedy happened because her daughter bit Kumamoto. Unexpectedly, the \*\*\*\* Kumamoto shot her seven-year-old daughter directly. Her own mother was killed by Kumamoto's men in order to protect the pair. .

"These people are bastards. They didn't care about it at all. After killing my family members, they declared to the outside world that this is the fate of traitors. The purpose is to disband those civil organizations."

Qin Yuan felt a little sorry when he heard this. This is indeed the style of that Kumamoto, and he can also think of why this person did this. His purpose is to kill chickens and respect monkeys. He didn't want to solve the problem at all.

Instead of solving the real problems for these people, he solved the people who raised the problems.

"So you planned to kill Kumamoto, but I didn't expect that I would kill you in advance?"

"Yes, this can be regarded as a mistake. I originally wanted to attack him, but it's a pity that I have been looking for opportunities. There are too many people around him, including his subordinates, so I just To think of homemade bombs dying with them."

"Then Kumamoto has been killed by me now. In fact, your wish has been fulfilled! The living people still have to continue to live, after all, you are their hope now."

Although Qin Yuan met this woman for the first time, he really sympathized with him after hearing what happened to him, and he also admired this woman's courage. A weak woman dared to confront those troops for the sake of her family.

"No! I haven't avenged my revenge yet. Although Kumamoto is dead, all the subordinates around him are accomplices. I remember every face and face, and they all deserve to die."

Hongli suddenly stood up and knelt down towards Qin Yuan, "I know you are very powerful, so I would like to ask you, can you do me this favor and help me kill those bastards."

Qin Yuan helped the woman up, he is a soldier of the Yan Kingdom, how could he do this kind of murder at will, although these \*\*\*\*\* should be killed, but it is not his obligation.

After all, this is an internal matter of their little Mao country. To be honest, he shouldn't be involved, and killing Kumamoto is already crossing the line.

"Forgive me for not agreeing to your request. Killing Kumamoto is already my last line. There are some things I can't do, do you understand?"

There was still hope in Hong Li's eyes just now, but when she heard Qin Yuan say this, she suddenly dimmed. She saw Qin Yuan's strength, this person is really strong, he can definitely kill all those \*\*\*\*\* with a casual strike.

Although Qin Yuan said so, Hongli did not give up. She turned and ran into the room, and came out after a while with a schoolbag in her arms. She unzipped the schoolbag and poured out all the money in it.

"This is all our savings. If it's not enough, I'll sell the house. You can spend as much money as you want. Can I hire you?"

"I said why don't you understand? It's not a matter of money or not, and there is no employment between us. First of all, I am a soldier of the Yan Kingdom. This is my discipline. There are certain things that I cannot commit. My hands are for saving, not for killing, do you understand?"

"But those people are bastards, they should be killed, shouldn't you save us people and kill those who should be killed, you have this ability, why don't you help me?"

When Hongli said this, she sat on the ground and burst into tears. She hated her weakness very much. She didn't have this ability. She originally wanted to make a bomb, but she never succeeded.

Qin Yuan was also hesitating. These people really should be killed. They didn't treat these people as human beings. It was abominable to attack these unarmed people with weapons in their hands.

In fact, he didn't even use to kill this Kumamoto today. After all, Kumamoto's body has already been transferred by him. The nuclear energy is in his body. After a while, this person will explode and die. He just wants Kumamoto to feel his fear. It is the fate of offending and provoking Yan Kingdom.

Hongli was still begging, Qin Yuan didn't agree, and was about to stand up and walk out the door, when she suddenly picked up the soil bomb in front of her like crazy, waved the lighter in her hand, and shouted loudly:

"I've begged you so many times, but why don't you help me? If this is the case, then we will die together. Whether you can help me or not, I will give you another chance."

Qin Yuan turned his head to look at Hongli. At this moment, her hand holding the lighter was trembling slightly. This person had never killed anyone, and even if she ignited the soil bomb like this, it would not explode.

"Miss, I think you may have watched too many TV shows. Even if I give you a torch, you won't be able to blow it up."

"It's impossible, I obviously followed the recipe in the book."

Qin Yuan found the formula in the book even more funny. Does this woman really have no common sense?

Qin Yuan walked over, put his hand into the flower pot, grabbed a handful and put it under his nose to smell.

"100g of saltpeter, 500g of gunpowder, 300g of sulfur, and everything else is this crushed soil."

The woman was a little surprised how Qin Yuan knew such a detailed formula. What he said was right, he weighed it out bit by bit.

"Then let me tell you something You are not as powerful as firecrackers. At most, the starting sparks can't reach the effect of explosion. I overestimated you just now. You use it as fireworks It's too whimsical to make explosives in this way."

Hearing what Qin Yuan said, Hong Li threw the flowerpot away and grabbed Qin Yuan, "Then take me as your disciple and teach me how to kill, okay? I don't want you to kill me and do it myself." , so it is not counted as your killing."

"I'm sorry, I don't have time for that. I'm going back now. I've been out long enough."

Qin Yuan waved his hand and gently pushed Hongli away, and opened the door to go out. Unexpectedly, Hongli tore off his clothes suddenly, "Since you don't want money, then my body...I will use my body in exchange How about it?"

Qin Yuan was really shocked by this operation, he quickly closed the door, and asked Hongli to put on her clothes.

"What are you doing, I tell you, I am a decent person, don't ruin my reputation."

"But I really have no choice. I really want to avenge my children. They are so young and haven't experienced many things, but they were killed by these bastards."

Chapter 892: ??Zhao Xue left

"I know all of this, but do you know? This is not something I should manage, because there are too many things involved in it."

This time Qin Yuan took the risk to kill Kumamoto and was seen by Hongli. He felt that he had made a mistake, but he was not worried.

Because he knew in his heart that Hongli would never report on her, Qin Yuan looked at the time and was about to turn around and leave. At this moment, Hongli followed.

Qin Yuan admired this woman quite a lot, but he definitely couldn't agree to this kind of request. Follow her as she likes, anyway, she will be dumped by just running around later.

"Go back, it's useless to follow me like this."

Hongli stopped talking and just followed silently. Qin Yuan felt a little helpless. In this case, he had to speed up. After a while, Hongli also found that this person was too fast, and she couldn't keep up at all. Qin Yuan disappeared in her eyes.

But Hongli didn't want to give up like this. Her relatives had already died, and those \*\*\*\*\* were still living freely in the world. This made her unbearable. To avenge her relatives, she has the idea of living again.

After all, Qin Yuan is a soldier of the Yan Kingdom, so she also understands that some things are not as simple as she said, and these things are likely to be the politics they are talking about.

Although Qin Yuan said so, after leaving Hongli behind, he came to the gate of the government of Xiaomao Kingdom. At this time, all the soldiers had gathered at the gate of the government, as well as the common people.

The current scene is very chaotic, and those soldiers didn't care where Kumamoto went.

Everyone thought that he might have run away. After all, they were the ones who caused all these incidents. The sudden agitation of the people just now was because they shot and killed someone.

Qin Yuan quietly came to the back of the car, and the shields were placed in front, so the common people could not come over.

A man who looked like a military officer came out and asked the team members loudly, "You bastards, look at what you have done. Where is that Kumamoto? Tell him to come see me."

"Report that our captain didn't know where he was going. The situation was too chaotic just now. He was injured by the objects thrown by those people. We didn't even have a look at it before we lost sight of him."

They didn't see the flying knife thrown by Qin Yuan clearly, because Kumamoto was very scared at the time and just wanted to run away blindly, so Qin Yuan took the opportunity.

"Does this \*\*\*\*\* think he has caused me enough trouble? Before, it was because of his own assertion that the chaos was caused, and this time it was because of him again!"

The officer was very angry. He had already issued many orders, just not to let everyone shoot at will to avoid such a situation. Unexpectedly, these guys still refused to listen to the advice.

"Now I don't care what you think of to bring that \*\*\*\*\* to me, you must give them an explanation in front of these people, otherwise this matter will only get worse and worse."

These soldiers also knew that they had something to do with it, but they were just ordinary soldiers after all, and it was their bounden duty to execute orders. All this had nothing to do with them, so the most important thing was to find Kumamoto.

The road ahead has been completely blocked by those people. They have no choice but to climb out from the surrounding wall.

Unexpectedly, the soldier in front had just jumped over the wall when he saw a man wearing a mask standing in front of them.

This person is Qin Yuan, and he intends to use his own way to deal with these bastards.

Startled by this sudden person, he raised the gun in his hand and shouted at the people in front:  
"Who are you, why are you here?"

Qin Yuan smiled and didn't speak, but approached them step by step. The soldier who got down from behind quickly grabbed the pistol of the soldier in front.

"Are you crazy? I didn't hear what the chief told us just now. No matter what the situation is, we can't shoot at will."

Then the soldier turned his head and said to Qin Yuan: "This gentleman still asks you to leave. The situation is very chaotic now. Staying at home is the safest way."

As soon as the soldier finished speaking, he suddenly felt that his body was out of control and his mind went blank. Qin Yuan casually used the charm skill to control their thoughts.

The other hand slowly injected the nuclear energy absorbed into his body, and now there is no trace of nuclear energy on his body. It is really thanks to these people who shared him, and the nuclear energy in his body is actually not harmful to him. influences.

Although he couldn't kill these people directly, he wanted them to die slowly in the most painful way, and this was also the most subtle way.

These \*\*\*\* were finally punished as they should be, and he used another method to avenge Hongli. To be honest, he sympathized with this woman. His family members were killed by these people. Will make the same choice as a woman!

At this time, Gao Shiwei in Yan's country was getting angry in the office.

"I said, I'm afraid that there are so many of you, what did you do for food in the past, and I told you to bring this kid back, what's the matter with you coming back alone?"

"Brother Qin said that he had something to do and would be back soon."

"Hehe, I have something to do. I don't know your little Jiujiu yet. Is he going to settle accounts with those people?"

Everyone knew that Gao Shiwei couldn't be kept secret, and Long Xiaoyun didn't say a word. She didn't know whether she was right or wrong about this matter. Anyway, she was a person who had revenge.

If the matter was really done by that Kumamoto, it would really be too provocative to their strict majesty, which is definitely unbearable for Qin Yuan, and she also very much supports Qin Yuan in taking revenge.

"No, now everyone set off for me to Xiaomao Country to find Qin Yuan back for me. He really made a big mistake this time."

Everyone was shocked when they heard this, what's going on? Gao Shiwei was not like this in the past, and they felt that this was as it should be, after all, they were the first to provoke.

"Captain Gao, I think Brother Qin has his own ideas, he should be sensible and won't make any big troubles."

"It's because he has his own ideas, that's why this kid is so difficult to manage. Do you know that it will be serious if the incident this time really gets bigger!"

Because this time it was only a conflict between the Jin country and the Xiao Mao country. If Qin Yuan's behavior was discovered, it would become a conflict between the three countries, and it would be impossible to explain it at that time.

He didn't want to be charged with such an unnecessary crime. Although he knew that Qin Yuan was very powerful, these things had two sides. Those people's actions were certainly hateful, but they couldn't solve them like this.

They don't have any evidence here. Although he is also very angry about this matter, they won't care so much, and based on his understanding of Xiaomao Country, they will definitely throw a wave of dirty water at that time.

"If you all don't want to harm Qin Yuan, then hurry up and find him and bring him back."

At this moment, soldiers outside ran in and said, "Captain Gao, Captain Qin is back."

Hearing this, everyone breathed a sigh of relief. Gao Shiwei walked out angrily with his hands behind his back. He wanted to ask carefully, but this kid dared to disobey his military order. His order was to come back after receiving them.

Just as Qin Yuan walked up the stairs, he saw Gao Shiwei walking down with a dirty face.

"You kid still knows how to come back. Now your wings are really hard. Don't I give you too much power, and you dare to disobey my military order?"

"Captain Gao, you've wronged me too much by saying this. I'm just thinking of everyone. After all, our brothers from Baguo are also there. I want to go back and explain something to them."

Gao Shiwei snorted coldly, doesn't he know what this kid is thinking? How could it be so simple.

"You'd better tell me the truth. If you cause me something later, I can deal with it."

What Gao Shiwei was most worried about was that Qin Yuan really went to Kumamoto to settle the score, and it would be difficult for him to solve the matter when it was exposed.

"Captain Gao, I really just went to talk to my brother in Ba Guo about something, how could I do those illegal things."

Gao Shiwei stared closely at Qin Yuan, trying to see some changes in his face, but it seemed that this kid really wasn't lying.

In the end, this matter was left alone. After all, Qin Yuan had returned, but Gao Shiwei still punished him physically, because he disobeyed the military order and left the team last time.

Qin Yuan galloped on the training ground with his backpack on his back, and the members of the red blood cell team followed.

"Brother Qin, we will always be a unit. If you are punished alone, our entire team is responsible."

"Aren't you stupid? This time Lao Gao didn't mention you at all, and he insisted on coming to follow me to be punished. Go back quickly. Are you really so weak that you have nowhere to go?"

"Anyway, if I don't go back, I'll treat it as exercise."

Wang Yanbing ran up grinning, "Brother Qin, tell us, don't you really just go to talk and not do anything else?"

"Nonsense, you want me to say it several times. I have said it many times with Lao Gao. I really didn't do anything. Why don't you believe me?"

Wang Yanbing shook his head. This is really not in line with Qin Yuan's style. After all, he has always been a person who hates evil, and it is not a pity for a \*\*\*\* like Kumamoto to die a hundred times.

Qin Yuan's speed was so fast that even Li Erniu and the others couldn't keep up with them. In the end, only Qin Yuan was left running in front.

"Brother Qin, it's just punishment now, you don't need to work so hard!"

"I didn't try my best. Look at all of you bears. I just ran around and you couldn't keep up."

Just like this, the training was over while being teased. Qin still had more important things to do. He wanted to go to Zhao Xue and see his current situation. After all, the skill he got should be able to help Zhao Xue.

Gao Shiwei told Qin Yuan that Zhao Xue had returned to her previous unit, and she was receiving treatment in the military hospital there. This was the last thing he knew, and he didn't know about the rest.

After all, this matter was followed up by their unit.

"But don't worry, we won't give up on Comrade Zhao Xue's situation. She is our hero. When I left, their hospital even hired the best experts in the country to treat her."

Qin Yuan nodded, and planned to ask Gao Shiwei for a few days off. He wanted to visit Zhao Xue, and he agreed directly. Li Erniu and the others admired Zhao Xue very much, and bought a lot of fruits to go with Qin Yuan. visit her.

A few months have passed, and Zhao Xue's situation is unknown, because they are all performing tasks on their side, so they have not been in touch with Zhao Xue.

They came to Zhao Xue's local unit and wanted to inquire about Zhao Xue's situation. An old criminal policeman received them warmly.

It's just that when he heard that he wanted to ask about Zhao Xue's situation, the old criminal policeman frowned, "Hey, you don't know that this girl is really strong, she has not left by herself in our military hospital."

Everyone was shocked when they heard the news. What's going on? Before Zhao Xue left, she clearly promised that she would cooperate with the treatment well.

It turned out that the military hospital here sent the best doctors to treat him, but Zhao Xue's condition got worse and worse. At the beginning, she couldn't even accept the normal light from the sunlight.

The ward where she lives is dark every day, and she dare not turn on the light. If she wants to turn on the light, she has to wrap her whole body. Her skin is too sensitive to light.

It was also the first time for domestic experts to see this kind of situation. Everyone was helpless. The experts came one after another. Zhao Xue felt as if she was being treated as a monster.

The long-term treatment also made her lose confidence, and she always felt that she was a burden. Colleagues from the previous unit came to visit her one after another, but this kind of visit made her feel more and more inferior.

"This girl's personality has always been very strong. She never allowed herself to become such a useless person. At the end of the treatment, she took those medicines every day, and her hair had completely fallen out. Because the medicine could not be absorbed on her face, she had not been exposed to the light source for a long time. become dimmed."

The old criminal policeman couldn't help but shed tears when he said this. It was really painful for Zhao Xue to hear him say that, so she chose to give up the treatment directly.

"Then where has he gone now? If he gives up the treatment, then there is no hope at all. Why would she think so?"

"She should have returned to her hometown. Our side has never given up. The unit also applied for a subsidy for her. Anyway, in the later stage, she became taciturn and hardly talked to anyone."

Qin Yuan didn't expect things to turn out like this, if he had come earlier, he could have persuaded Zhao Xue to stay, but it's not too late now, he was there to save her, maybe he would have recovered Zhao Xue directly.

"Then do you know the address of her home? We want to go to her hometown to see her."

Chapter 893: ? Use hacking skills

The old criminal policeman was also very enthusiastic. He quickly transferred Zhao Xue's file, because no one said hello to Zhao Xue before he left.

"That's because their local hospital called me and asked me if Zhao Xue had come back here. I didn't know she had left. At that time, I blamed their dean for being irresponsible and not even looking after a living person."

"Actually, we can't blame the dean for this. After all, we all know Zhao Xue's temper. If she really wants to leave, no one can stop her."

"That's right, that's what the dean said at the time, and they don't have the right to imprison Zhao Xue's freedom. As for whether to treat her or not, that's her own business."

The old criminal policeman opened a drawer. He said that because Zhao Xue came to the unit earlier, they were all paper files. Of course, they also had electronic files.

There are many files here, and many details are recorded, like each time Zhao Xue and the others complete the task, the specific process of doing the task, the time and the specific rewards.

"Take this paper file! It's also convenient for you to do investigations, and return it after you finish your work."

Qin Yuan was a little surprised, this is Zhao Xue's personal file, why this old criminal policeman will give it to him, and let him take it away casually.

Seeing Qin Yuan's doubts, the old detective explained: "Let me tell you the truth, Zhao Xue is my apprentice, and I am her first master. I know this child's personality best. She is just too strong. I don't want to cause trouble for others."

It turned out that when the old detective knew that Zhao Xue had left, he called Zhao Xue himself, but he didn't expect that the number she left had become empty.

The old detective didn't give up either, and even asked for leave to check on Zhao Xue's hometown, but when he went to the address left on the file, he found that the area had already been demolished. Zhao Xue's home, he didn't know the details. Where.

At that time, he originally wanted to go to the local Public Security Bureau to see if he could find other information about Zhao Xue, but time was running out, and he had a task on his side, so he had to come up first. Unexpectedly, Qin Yuan and the others just came, so he sent Leave this matter to Qin Yuan and the others.

"I really want to help this child. I don't want her to give up like this. If you find her, you must persuade her. You must take this file and get this file. The Public Security Bureau under them will Check it out for you."

Unexpectedly, things turned out like this. Everyone did not expect that after Li Erniu came out from the old criminal policeman, He Chenguang opened the file bag while Li Erniu was driving the car.

"The household registration address on the portfolio is in County A of Southwest City, so let's start from here, and then go to their local Public Security Bureau to check the situation."

Qin Yuan suddenly said in the back seat: "No, we should go directly to the person in charge of the demolition office now."

Because the Public Security Bureau also registers the population in real time, but because of Zhao Xue's special status, her files have always been kept here, so even if they went to the local Public Security Bureau, they could not find any valuable clues.

So the most direct way is to go to the staff of the demolition office at that time. Generally, there are two ways after the demolition is completed, one is to directly pay money, and the other is to subsidize the house.

It depends on whether Zhao Xue and the others chose to repair the house at that time. If they choose to ask for a house, they can find her new address.

"Brother Qin, it's better for you to react quickly, otherwise we might really have to make this trip in vain, why didn't I think of it, her files are all in our hands, why should we go to the Public Security Bureau to check?"

"That's why you kid is already a member of the Special Forces now, and you should calmly analyze everything you encounter."

"I still don't have your calm and analytical mind. Now I'm in charge of driving well! You are in charge of the brain."

Zhao Xue's hometown is really far away. No wonder the old criminal policeman was pressed for time. It would take seven or eight hours for them to drive down. After seven or eight hours of driving, they could only go to the county over there. Zhao Xue's home was still under the county seat. a little.

Zhao Xue's home is in a village below the county seat. That village has now been developed into a tourist area, and the entire village's land has been expropriated.

Qin Yuan turned on his mobile phone and checked the person in charge of this tourist area at the beginning. These things were not difficult to find, and soon Qin Yuan found clues. The person in charge of this one was called Chen Peng.

The previous demolition procedures were all handled by him, and this tourist area was also invested and opened by him with a few partners. It seems that he can go to Chen Peng first to find out the situation.

After driving for four or five hours, I finally saw Li Erniu get out of the car to go to the toilet in a service area. He drank a lot of water at the old criminal policeman's place just now.

After Qin Yuan got off the car, he still didn't give up. He continued to call Zhao Xue's phone number, and sure enough, it became an empty number.

He really couldn't figure it out, if Zhao Xue wanted to give up the treatment, he could just leave, why should he run away from everyone? This kind of situation can only show that her situation may be more serious than what the old criminal policeman said.

She didn't want to listen to anyone's persuasion. Anyway, she didn't want to be treated. This was also Qin Yuan's guess, but this was very inconsistent with Zhao Xue's personality.

Zhao Xue herself is also a very strong person, this kind of situation should not happen.

When Li Erniu came out, he saw Qin Yuan and He Chenguang each holding a bucket of instant noodles and eating them.

"Brother Qin, you two are going too fast, why are you eating? I also asked if we were eating after we got there. "

"I said you boy is slow to react, and you don't even think about what time it is now. It's already midnight when we arrived in the county. It's not bad if we can find a place to live there. Where can I find food for you in those small county towns? ?"

Li Erniu also realized that Zhao Xue was in a small third- and fourth-tier city after all, and they had been to such a small city before to carry out missions.

After two o'clock in the evening, there are almost no people on the street, only a few barbecue stalls occasionally, and the taste is really bad.

Besides, they didn't go there to eat, they just deal with it casually here, find a place to live after going down, and go directly to Chen Peng the next morning, this is also Qin Yuan's plan.

In this way, a few people in the middle of the night finally came to this county town. After several twists and turns, Qin Yuan and the others finally found a small hotel that looked good.

Li Erniu was already snoring as soon as he lay down. After all, he was still very tired from driving.

"What's wrong with this guy? I haven't seen him like this in normal training, and he doesn't wash his feet. The smell of his feet can be called a biochemical weapon."

The next morning, the biological clocks of the few people were very punctual. They usually trained in the team and got up at 5:30. They checked out of the room, drove for more than two hours, and finally arrived at the tourist area.

After all, I have gone to the development site for tourism now, and it is relatively lively. It has become an ancient town, and many shops in it have opened their doors.

Qin Yuan came directly to the management center here, and the person in charge there was indifferent at first.

"Did you ask for Mr. Chen's phone number casually? What do you want to do! If you are looking for someone, what are you doing here at the police station?"

Li Erniu went straight up and slapped the table, "I'd like to see who Chen Peng is. What's wrong with his phone number? Your attitude is really bad."

The person in charge saw that these men were aggressive and seemed a little difficult to deal with, so he immediately changed his smile.

"I'm sorry everyone, I was wrong just now, but I really don't know Mr. Chen's phone number."

The person in charge was obviously lying. He deliberately blocked the table while speaking. It seemed that there should be a phone number over there.

He Chenguang stepped forward and pulled the person in charge away. Sure enough, he saw a box of business cards on the table with Chen Peng's phone number on it.

"I mean, what about you guy? We need a phone call, so it's necessary to hide like this. Besides, isn't his phone right here?"

The person in charge was not happy when he heard this. Why did these people seem to be reluctant, and planned to ask the security guard Qin Yuan to stop him immediately, and informed them of the identities of the three of them.

After all, Qin Yuan didn't want to cause trouble here, he didn't expect to have such trouble asking for a phone number, and this person didn't know how he did it.

After the person in charge knew Qin Yuan's identity, he nodded and bowed instantly, and his attitude turned 360 degrees. It turned out that he didn't want to tell them their phone number because he was worried that Qin Yuan and the others were early debts.

"How can he still owe money in such a big tourist area?"

"Several officers, you don't know. It's too difficult to do business these days. All the money Mr. Chen invested was wasted, not only his, but also many villagers who participated in the demolition at that time. Some villagers can't receive money, so they come to make trouble every day!"

"Oh! There is such a thing. Is it in the list of villagers who were demolished at that time? Show me who they are."

The person in charge was very happy. He thought that Qin Yuan was here to take care of the troubles of the villagers, so he quickly got out the list.

"Several officers, take a look, we didn't make up for the house at that time, all the money for the demolition."

Qin Yuan took the book and checked it carefully. It was full of villagers surnamed Zhao. He remembered that in Zhao Xue's file, his father was named Zhao Guomin.

At that time, their family received a compensation of 230,000 yuan. Qin Yuan frowned slightly when he saw this figure. The compensation was too low. Could it have involved forced demolition back then?

Seeing the change in Qin Yuan's face, the person in charge quickly explained: "We didn't take any compulsory measures at that time. This was just the demolition fund distributed to them. The other part of the money was used as investment, and then they could get dividends every year."

Hearing this, Qin Yuan nodded. It turned out to be the case, but the first year introduced by the person in charge was okay, and everyone got a share of the money.

It will become more and more difficult in the future. After all, there is really nothing special here. The few hot springs they built are still artificial, and no one wants to come here to play, and the road is far away.

The villagers were naturally unhappy when they couldn't get the money. This matter has been dragging on for several years, and it has been making troubles, but it's not that Chen Peng didn't pay the money. less than.

And at that time, how could the money distributed by these villagers be enough to buy a house again? They had been counting on the dividends from this tourist area to make money, but they didn't expect things to turn out like this.

Not only is the house gone, but also the money has not been obtained. Qin Yuan vaguely felt that Zhao Xue might have something to do with this matter. It should not be too late. He directly called the phone number on the business card. As expected, Chen Peng's phone number turned out to be empty .

"You don't need to call, this call was disconnected half a month ago."

Unexpectedly, the clues on Chen Peng's side were broken. At this time, Qin Yuan and the others came to the tourist area outside and saw some villagers sitting in the square holding up banners, which probably meant to ask Chen Peng to pay back the money quickly.

"Uncles, I want to ask you something. Do you know where Zhao Guomin lives now?"

When these villagers heard that someone was inquiring about them, the people in the village immediately became vigilant, "Why are you inquiring about him, who are you?"

"It's like this. We are colleagues of his daughter Zhao Xue. We originally wanted to come here to visit him, but we didn't expect their house to be demolished, and his phone number can't be reached, so I can only trouble you."

"Oh! So that's what happened. I know that girl Zhao Xue, but Zhao Guomin said half a month ago that he would go out to find Chen Peng, but he didn't come back. We haven't seen him during this time."

"Then have you seen his daughter Zhao Xue?"

"That girl, I only saw her when I was a child. I haven't seen anyone in the past few years. I guess she has settled in the city long ago. I don't think Zhao Guomin is looking for Chen Peng. He should follow his daughter to enjoy the blessings. "

Hearing what these villagers said, Qin Yuan fell into deep thought.

Half a month ago was the day when Chen Peng disappeared Zhao Guomin also disappeared at that time, and none of these villagers had seen Zhao Xue, but he was sure that Zhao Xue must have returned home.

Besides, Zhao Xue should not be such a person who left without saying a word. She probably came back because something happened at home, but she encountered an unexpected situation. Everything happened half a month ago. What happened at that time? What?

Although all the clues here are broken, Qin Yuan still has a solution.

According to the clues provided by these villagers, he came to the place where Zhao Guoming lived. There are all local villagers here, and they can only rent houses to live here for the convenience of asking for money.

This place is not far from the tourist area, and now large and small monitoring equipment has been completely covered.

Qin Yuan took out his laptop from his bag, and then used his hacking skills to hack into the monitoring system here to check the situation at that time.

Li Erniu was stunned when he saw Qin Yuan's operation, "Brother Qin, although I don't understand your operations very well, this should belong to some kind of hacker skills, right? In other words, this kind of behavior is not considered Is it a crime?"

Chapter 894: Find Zhao Xue

He Chenguang next to him slapped Li Erniu on the head, "I wonder if you are stupid, what time is it now, and you are still bothering Brother Qin."

"Okay, don't do it, I'll shut up now."

Qin Yuan was not affected at all, he quickly manipulated the computer, and soon he deciphered the monitoring system here, he clicked on the monitoring to check, it was not that he was unwilling to greet these people.

After all, there are so many monitoring systems here, and if they want to check them one by one, how much time would be wasted, it would be better to come here directly, and what they lack most now is time.

It is possible that Zhao Xue has already encountered danger and is waiting for him to save her, so he must act quickly.

Half a month has passed, and now there is no news from Zhao Xue. Qin Huangdao is also very anxious. He doesn't know what happened to Zhao Xue, and how her father is doing now.

Soon the monitoring was called up, and the three of them stared at the screen nervously, because there were many monitoring systems nearby, Qin Yuan called up fifteen screens at once, and these monitoring systems were all divided into small tiles and laid out on the computer screen .

Li Erniu felt sore eyes after watching it for two minutes, it's too small, it's better to click and check one by one.

"You kid, if you don't understand, just sit by the side and click to check one by one. How much time will be wasted."

The monitoring time was half a month ago, and the angle was not bad. He Chenguang's eyes were already in tears. He felt that this job was too difficult, even more difficult than when he was practicing sniper rifles.

Because the eyes have to scan fifteen targets at the same time, this is simply impossible! Just as he was rubbing his eyes, Qin Yuan suddenly said that he found it.

What's going on, how could it be so fast?

He Chenguang hurriedly looked in the direction of Qin Yuan's finger, and sure enough, he saw a woman wrapped in black veil. This person was Zhao Xue.

At this time, Zhao Xue was carrying a backpack, and there was a man in front of him, and that man was obviously Chen Peng, but Chen Peng, who was under surveillance, covered his face with his hands, probably because his face was injured and he was beaten.

When Li Erniu saw this situation, he immediately said: "I think it must be Chen Peng. This old boy is dishonest. He wanted to take advantage of Zhao Xue, so he was beaten. In the end, he was so angry that he found someone to kidnap Zhao Xue." Snow, it's that simple."

Qin Yuan was speechless when he heard Li Erniu's deduction. Li Erniu is still not suitable for criminal investigation, so he should honestly be his special forces member!

"Let's talk about it, you still don't want to talk about some things, otherwise I really can't help but want to beat you!"

"Why is that? Why do you want to hit me? You think about doing it to me every day. I'm actively helping you analyze the problem."

He Chenguang and Qin Yuan said loudly at the same time: "Shut up!"

This guy's brains are really too big. Let me start with the first point. It is impossible for Zhao Xue to be taken advantage of. Besides, under this surveillance, Zhao Xue is obviously following behind Chen Peng. How can it be said that he will be taken advantage of by Chen Peng? Kidnap?

And now the most important thing is Chen Peng, Zhao Xue and her father. The three of them are all missing.

Besides, because Zhao Xue's family has not received the compensation now, the family's economy is definitely not that good. Although she has received a sum of compensation, because of her special status, no outsiders should know about the compensation.

So it can be completely ruled out that Cheng Peng kidnapped Zhao Xue because of money.

The two continued to look at the monitor, but at this time the monitor screen was suddenly interrupted.

"Brother Qin, what's the matter?"

"It's been too long. Some monitoring can only save the content for 15 days, but I will try to see if it can be restored. If it can be restored, then I can still see the later content."

After that, Qin Yuan performed another crackling operation. This kind of world-class hacking skills really lived up to its reputation, and soon a recovery method came to his mind.

A few minutes later, the surveillance screen reappeared, only to see Zhao Xue followed Chen Peng into a car, Chen Peng nodded and bowed in front, the people in the car could not be seen clearly from this angle of surveillance, but they got into the car voluntarily of.

Qin Yuan wrote down the license plate number, and He Chenguang was going to call the local traffic police team, asking them to help with the investigation.

Qin Yuan made another crackling operation, and then said lightly, "There is no need to call, I have already investigated it."

He Chenguang was completely stunned, and he didn't know how Qin Yuan did this kind of operation. Of course, Qin Yuan would definitely not tell them that he had invaded their system.

Because time is tight now, if they want to apply for an investigation, they still have to wait for a long time, so they can simply check it themselves.

According to his investigation, the information on the owner of this car is very complicated. It has changed hands to three people, and they just settled down some time ago. The current owner of this car is Wang Yong.

After finding out this person's address, Qin Yuan and the others hurried to Wang Yong's address. There were three private houses inside and a yard in the middle. The car in the surveillance video was parked in the yard, and it was quite quiet inside. No movement could be heard.

"Brother Qin, what should we do now? Should we just rush in? But in case Wang Yong has nothing to do with Zhao Xue, what should we do then?"

"Yeah, after all, we're breaking into a private house."

"Since we haven't got the evidence yet, let's knock on the door first and see what's going on here."

Wang Yong had just had lunch and was about to rest when he heard someone knocking on the door.

As soon as the door was opened, Qin Yuan rushed in, looking around at the yard.

"Hey! What's the matter with you, why did you suddenly break into my house?"

"Is your name Wang Yong?"

"Yeah, what's the matter?"

"Then Zhao Xue and Chen Peng, you should know about it!"

"Oh! So you came to look for those two people. It seems that Chen Peng owes you money too? Don't worry, brother, he has been locked up by me now."

Hearing this, Qin Yuan stepped forward and grabbed Wang Yong's collar, "What's the situation? I'm asking you where the girl you brought is now?"

Wang Yong had never seen such a battle before, Qin Yuan's strength was too great, he was picked up immediately, he was a little out of breath, he could only point tremblingly at the basement.

"Erniu, go over there and have a look!"

The moment Qin Yuan turned his head, Wang Yong suddenly took out a sharp knife from his sleeve and stabbed at Qin Yuan. Qin Yuan snorted coldly for such a trick, and kicked Wang Yong away with one kick.

"You are crazy, do you know who my boss is? How dare you break ground on us, you guys are dead!"

"Hehe, I want to see who your boss is."

Qin Yuan couldn't control that much at the moment, and walked over with Li Erniu, and lifted up the stones covering the basement. Just after opening the lid of the basement, there was a pungent smell coming from inside.

Sure enough, Chen Peng and Zhao Xue were inside. Chen Peng looked half dead, and Zhao Xue could only breathe a sigh of relief. The former Zhao Xue with beautiful hair no longer existed, and now she had a few thinning hairs on her head .

The whole person was very thin, and Li Erniu picked her up easily.

Qin Yuan hastened to treat Zhao Xue, and now she has passed out, leaving only a weak breath.

Seeing that the former people's hero was tortured by such a bastard, He Chenguang walked over and punched Wang Yong in the face.

This guy Wang Yong was cursing at first, but in the end, he had no chance to fight back at all, and he was scared of being beaten, so he could only beg for mercy.

"You bastard, you know you're in trouble."

"Brother, stop hitting, if you hit again, you will really die."

"You still know \*\*\*\* people, look at how you tortured them!"

"It's not my fault. Who told Chen Peng to owe money to our boss? I can't help it. I will listen to our boss."

It turned out that Wang Yong's boss was a loan shark. Chen Peng borrowed a lot of money from him before, but now he couldn't pay it back, so he sent Wang Yong and his men to collect the debt.

Unexpectedly, that day was also very unfortunate. Zhao Xue also went to Chen Peng to ask for an explanation. During the entanglement between the two, Wang Yong mistakenly thought that the two were a couple when he arrived. , no matter how threatened, he just refused to pay back the money.

Wang Yong thought that he might as well kidnap both of them, and Chen Peng was also smarter. He only knew that Zhao Xue seemed to be a policeman, but she didn't know exactly where she did it. To save his life, he could only drag Zhao Xue along.

After all, these loan sharks are ruthless people, so what Qin Yuan finds strange is that Wang Yong, a three-legged cat, can make blood with his kung fu, how could he be kidnapped by him?

Wang Yong, who was beaten on the ground, heard that Zhao Xue was actually a policeman, and his expression changed instantly. Although they were loan sharks, they didn't dare to provoke them casually.

"This! I really don't know about these situations. If I want to know that she is a policeman, would I still dare to kidnap her?"

"Besides, she doesn't have the same skills. She was easily knocked out by me with a stick, so I didn't think too much about it at the time. I just thought she was an ordinary woman."

"You're still reasonable, aren't you? Whether it's an ordinary person or a policeman, your behavior like this is already a crime, do you know?"

It seemed that there was indeed a serious problem with Zhao Xue's physical condition, and now he could only wait until Zhao Xue woke up before asking him about the specific situation.

At this time, under Qin Yuan's treatment, Zhao Xue also woke up slowly. As soon as she opened her eyes, she saw Qin Yuan.

She thought she was dreaming. She had dreamed of such a scene many times. During the half month of torture, she thought every day that someone would come to save her.

Zhao Xue's tears flowed from the corner of her eyes, "I didn't expect you to save me, I finally waited for you."

"It's okay, it's safe now."

Zhao Xue looked at Chen Peng lying on the ground and shook her head. It turned out that he went to Chen Peng because of his father Zhao Guomin.

Zhao Guomin rented a house with those villagers and lived nearby because he couldn't ask for compensation many times before. Zhao Xue was busy with work, and she was also undergoing treatment during the later period, so she didn't know what happened at home.

Zhao Xue's mother accidentally fell from the second floor while working and broke her spine, so she needed a lot of medical expenses. Zhao Guomin had no choice but to ask for these compensations. Chen Peng found someone to beat him up.

And it's not that Zhao Xue doesn't want to be treated, she just wants to slow down for a while, and she's had enough of the daily drug injections for this period of time.

Unexpectedly, after she came back, she found out that such a big thing happened at home. Now that her parents are both in the hospital, she has already settled the money. After all, she has the compensation, but she has to come to Chen Peng to settle the score.

"Hey! I'm a useless person now, and I can't even fight the most basic fighting moves. These drugs have been consuming my energy."

No wonder Zhao Xue was kidnapped. With her skill and Li Erniu, they had no problem fighting each other.

"It's okay now, I have found a way to treat you, you trust me."

Just after leaving the cellar, the light outside was too strong. Zhao Xue fainted just now and had no strength to struggle, but now her eyes are red and she can't open them gradually.

"Er Niu, you are guarding outside. I will go in and treat Zhao Xue. The light here is too strong, she can't bear it."

"Don't worry, Brother Qin, leave this place to us."

Looking at Chen Peng and Qin Yuan who was on the ground, he just ignored him, picked up Zhao Xue and stepped over him. Even if this kind of guy died, he deserved what he deserved.

And the more people like this, the longer their lives will be, and they won't die so easily.

After entering the inner room, Qin Yuan closed all the curtains, and the whole room was plunged into darkness.

Just now Qin Yuan just treated Zhao Xue with basic treatment and infused her with a little energy, now he is going to show his world-class healing ability and completely replace the cells in Zhao Xue.

"The next treatment process may be a bit painful, because I don't know, you must endure it for the first time, as long as you pass it, you will be fine."

"It's okay, I'm already like this anyway, I believe you."

Just in case, fearing that Zhao Xue's body would not be able to bear it, Qin Yuan still inserted the heaven-defying eight needles into her acupuncture points to seal her lifeline.

Then Qin Yuan's hand slowly fused with golden energy. Of course, outsiders couldn't see it. Zhao Xue only felt that Qin Yuan was piercing her with silver needles.

But soon she felt a warm current suddenly entered her body. Her body was always cold before, and she hadn't been exposed to light for a long time. It was the first time she felt this kind of warmth, which was very comfortable.

Under the effect of the eight-needling option, Qin Yuan saw the proliferation of cells in Zhao Xue's body, and those cells transformed by the vaccine were forcibly devouring and consuming her physical energy. I have to say that this vaccine is really harmful.

Chapter 895: ??cure

The healing power emanating from Qin Yuan's body is slowly devouring the cells produced by the vaccine in Zhao Xue's body.

This is equivalent to replacing all the cells in the hematopoietic body, and repairing every step. At first, Zhao Xue felt quite warm, but then the cells ruptured and the process of proliferation was actually very painful.

Zhao Xue suddenly felt a severe pain coming from his body, and felt like all the bones in his body were shattered. Although he knew that no one touched her, he felt like a heavy sledgehammer hit him every time he took a breath. generally.

She could even clearly feel that the blood in her body seemed to be boiling.

Zhao Xue said loudly in pain: "Qin Yuan, what's going on, why is it so painful! I feel like I can't hold on anymore, and it's even hard for me to speak."

"Zhao Xue, you must believe me. I will use the silver needle to help you stabilize your breath. You must persist in the past. The cells in your body are changing now. Just trust me and we will persevere together."

In the back, there were dense beads of sweat on Zhao Xue's forehead, and her entire back was soaked in sweat. This was a severe pain. Zhao Xue tightly grasped the bed sheet next to her.

There is only one thought in her heart, she believes that Qin Yuan will save her, as long as the pain passes, she will become the same as before, she has always held on to this belief in her heart.

Zhao Xue didn't know how long it had passed, she just felt that the time was too long, and every minute was a torment for him.

Suddenly this pain disappeared in an instant, Zhao Xue panted heavily, this pain finally ended.

Qin Yuan also breathed a sigh of relief. She had seen the cells in Zhao Xue's body gradually stabilize. She did not expect that the skills of this healing master would be so effective.

It's just that Zhao Xue couldn't see it. Under Qin Yuan's gaze, Zhao Xue was equivalent to replacing all the cells and blood in her body. This was a complete rebirth.

Although his master healing skills are also very powerful, it is still thanks to Zhao Xue's persistence. After all, many people may not be able to persist in such a painful replacement, and Zhao Xue's willpower is still very strong.

At this moment, Zhao Xue felt that she was full of energy, and she was no longer as sick as before. Before, she was taking medicine and injections every day, and her body could not stand the long time without exposure to light.

Those invited professors even invited a doctor who researched vaccines, but that guy himself didn't know how to deal with this sequelae, so he could only tentatively give some solutions.

In fact, they were doing experiments on Zhao Xue, using all kinds of drugs, but the new type of cell phagocytosis produced by this vaccine was too strong, very overbearing, and could not tolerate the invasion of other drugs.

On the contrary, the antibodies produced by this new type of cells were immune to most drugs. Zhao Xue was very painful during that time.

But all of this was nothing, because at that time she still had a belief that she had witnessed Qin Yuan's ability, and she felt that Qin Yuan would definitely have a way to save her.

Sure enough, it has finally come true now, Zhao Xue looked at Qin Yuan gratefully, "Did you know, during this period of time, I lived in that dark environment and suffered so much, the \*\*\*\*\*

outside came in from time to time to torture me , asking me about the whereabouts of the money, but I endured all of this.”

"Yes, you're all safe now, we'll be fine when we come."

"It's just that I was surprised. I didn't expect that you really saved me. How did you know that something happened to me?"

"Well, after all, it's a tacit understanding."

Zhao Xue gave Qin Yuan a white look, and this guy started to speak inappropriately again, but she also understood that every time Qin Yuan was asked something he didn't want to say, he would divert his attention.

Zhao Xue was finally able to take off the scarf, she walked out of the room slowly, Li Erniu and He Chenguang looked at her excitedly, Zhao Xue stretched out her hand, feeling the sunshine outside.

For this long-lost sunshine, she really longed for the burning pain that would have been felt all over her body when she touched it a long time ago.

And at this time Li Erniu discovered that Zhao Xue's hair had miraculously recovered, this is simply too exaggerated! When they just came out of the cellar just now, Zhao Xue's hair had almost fallen out due to the previous treatment, but she didn't expect to regain her beautiful hair now.

Seeing Li Erniu looking at her in shock, Zhao Xue felt a little strange, at this moment she suddenly thought of something and stroked the hair on both sides.

She burst into tears of joy in an instant. For a girl, hair is really important, and it is everyone's nature to love beauty.

Qin Yuan also came out from behind, Zhao Xue ignored him, rushed forward and gave him a hug, "Qin Yuan, thank you very much, you have such a miraculous cure, it's really amazing."

After all, so many well-known experts in the country have nothing to do with his condition. Unexpectedly, Qin Yuan not only healed her, but also made her hair recover in an instant.

Moreover, Qin Yuan didn't consume too much energy in treating Master this time. He didn't feel too tired when treating Zhao Xue this time.

At this moment, there was a sudden sound of brakes outside the gate, and Wang Yong who was lying on the ground suddenly jumped up.

"Let me tell you, you guys are playing big, my elder brother is here, so what if you are a policeman, none of you can leave today."

Qin Yuan snorted coldly, this kid seemed to have never been beaten, he rushed forward and knocked Wang Yong to the ground, and then threw countless fists at Wang Yong until the kid knelt down and begged for mercy.

The door was also kicked open by several men. The leading man carried a leather bag, wore sunglasses, and looked like a nouveau riche. He pointed at Qin Yuan when he entered.

"Hey, what about you kid? I've come here, and you dare to do something to my brother. It seems that no one wants to live today!"

"Er Niu, I'll leave it to you. I don't need to take care of this rubbish. I'll go and see how Chen Peng is doing. Although this guy is hateful, he can't just die here. He needs to accept what he deserves. legal process."

"Brother Qin, don't worry, I can clean up these messes with one hand."

The person who entered the door saw that Qin Yuan and the others didn't pay him any attention at all, and was still talking to himself. He was very angry in an instant, and directly picked up an electric baton on his waist and threw it at Qin Yuan and the others.

Li Erniu turned over and kicked the electric baton away, then rushed forward and punched the man to the ground.

"You are too courageous, don't you know me, Wang Jinhu? You dare to hit me, there is no one in my area who doesn't know me."

The subordinates standing next to him were also stunned for a moment. The opponent's speed was so fast that they didn't even react.

Wang Jinhu roared loudly: "What are you idiots still standing there for? I spent money to support you just to fight, so give it to me."

After receiving the order, these thugs picked up sticks and beat Li Erniu and He Chenguang. Although Zhao Xue was cured by Qin Yuan, her body had just recovered. Understand, these people are not the opponents of the two of them at all.

So Zhao Xue also stood by to watch the excitement, Qin Yuan walked over and kicked Chen Peng who was lying on the ground, this guy should still be alive, just because the recent toss made him completely fainted.

Zhao Xue walked over and said, "Don't worry, he definitely won't die, but he's been locked up for a long time recently, and he can eat something every day. After all, the people above don't want him to die."

"This kind of person is really despicable. He dared to use you. If he knew your identity, he would probably be scared to death. Moreover, this kind of person should be regarded as murdering a national official. This time, he probably plans to spend the rest of his life in it. !"

"This kind of person also deserves what he deserves. It's just a pity that this guy owes so much money, especially the villagers outside us. Now that he goes in, he probably won't be able to get the money."

"There is no way to hand over these things to the police at that time. They should deal with it, and it is estimated that the tourist project will be stopped."

The two were talking, but they didn't expect those thugs to be worth mentioning, they had already been knocked to the ground by Li Erniu and the others.

Li Erniu hadn't even finished beating yet, so he greeted the thugs lying on the ground, "I said, why are you so cowardly, Bai Chang is so big, hurry up and continue! Brother Niu, I haven't had enough beating yet ."

At this time, Wang Jinhu was like a bereaved dog, lying on the ground after being beaten by He Chenguang. Qin Yuan walked over with his hands behind his back, and kicked Wang Jinhu on the shoulder.

These usurers are all vicious people, and many families have been broken up because of their high-interest lending families.

Wang Jinhu couldn't control that much at the moment, he just lay down on the ground and begged for mercy, "Brothers, I am blind and offended today, but I just want to know which way you guys are from, brothers, I have never offended you guys !"

Qin Yuan smiled, took out a five-pointed star from his jacket pocket, and put it in Wang Jinhu's hand.

Even if this Wang Jinhu was being stupid, he knew that he wished they were members of the military, and he was stunned for a moment. He couldn't afford to provoke such people.

"The evil forces like you should have been eradicated a long time ago, and we are just doing things conveniently to eliminate harm for the people."

Wang Jinhu didn't say a word until he was brought into the police car. Now he was in a daze, and he just murmured, "This is the end."

When He Chenguang saw that guy's appearance, he was completely different from his previous arrogant attitude.

"Hahaha, Brother Qin, what did you say to him? This guy is so scared."

"I didn't say anything, I just showed him something. This kind of person is bullying and afraid of toughness. When he meets a tough guy like us, he will know to be afraid."

The matter here was settled, and Chen Peng was also sent to the hospital. Under the leadership of Zhao Xue, he returned to the military hospital where she was treated at that time. After all, he had to thank the medical staff there and his master.

But the director inside saw that Zhao Xue was wearing short sleeves, so she was exposed to the sun naturally, without any fear of the light, and there was no reaction on the skin.

This is simply amazing, the director couldn't believe his eyes at all, is this still Zhao Xue from before? How could she have fully recovered in only half a month?

Especially when he learned that it was Qin Yuan who cured Zhao Xue, he couldn't believe it even more. Zhao Xue said that she was cured by acupuncture.

But the director fell into deep doubts. It is not that he has never tried this method of traditional Chinese medicine. He invited many children from a family of traditional Chinese medicine to treat Zhao Xue with traditional Chinese medicine and western medicine. None.

Is this young man in front of him even more powerful than those children from a family of Chinese medicine?

Qin Yuan didn't want to show off too much. After all, if something happened to him in the future, he just said lightly: "Actually, it's not that amazing. Maybe it's my luck. You just used so many methods. I'm blind." When a cat kills a mouse, so does a mouse."

"Oh! Let me just say, we have tried all these methods, how could it not work?"

Zhao Xue originally wanted to argue that his illness was cured by Qin Yuan, but at this time Qin Yuan suddenly winked at him.

It seems that Qin Yuan didn't want people to know that he had such a miraculous cure, so Zhao Xue didn't say anything.

Because there are too many things going on recently, Qin Yuan doesn't want to cause too much trouble. Zhao Xue's master is very happy to see Zhao Xue recovering completely, but he didn't expect such a twists and turns in the experience.

"It never occurred to me that I have been working as a criminal police officer for so many years, and I didn't even notice that you were kidnapped. I am ashamed to say that, thanks to your comrades in arms."

"Master, I can't blame you for this. After all, you didn't know about the situation at the time. Now that I've come out safely, it's good that I'm fine. You don't have to blame yourself too much."

"It's a good thing you're fine. If something really happens to you, I won't be able to get over this hurdle in my life."

Zhao Xue chatted with the old criminal policeman for a while. It's about time for her to go back, after all, there are two patients at home to take care of.

Qin Yuan also asked about the situation of Zhao Xue's parents. Zhao Xue shook her head, but she was instantly hopeful again.

"By the way, Qin Yuan, can I ask you to help me with this? You can go and help my parents, maybe you can help my mother recover!"

Qin Yuan nodded. Even if Zhao Xue didn't say anything, he planned to go. After all, we are all friends, and he would help whenever he should. Zhao Xue was very excited when he saw Qin Yuan agreeing. He really didn't know how to thank him. Qin Yuan is gone.

"My father's condition is relatively good. It's just that his leg was injured and he can be raised at home. But I haven't been home for half a month. My father can't be contacted. I should be very anxious."

Qin Yuan also found it strange that when they returned to Zhao Xue's house, they didn't see Zhao Guomin.

"After all, it's a rented house. Because my mother was injured, they live in my grandmother's old house now, so it's convenient to take care of them."

Chapter 896: ? Is this Qigong?

After all, their village had moved after selling the land, and many addresses were not registered in detail. Qin Yuan and the others only came to Zhao Guoming's rented house based on the villagers' clues, so they didn't find him.

Zhao Xue felt apologetic all the way, and kept bothering Qin Yuan and the others.

"Qingyuan this time, I really don't know how to thank you for not only saving me, but also going to see my family with me now. I really think you are a worthy friend."

"Comrade Zhao Xue, this is your fault. Why do you only thank Brother Qin, and the two of us also participated in helping."

Li Erniu was originally joking and said that Zhao Xue's face turned slightly red when she heard it, and she didn't know what was going on. ignored.

"Of course I also want to thank you two. The three of you are very good friends. This time I really feel the importance of comrades-in-arms."

"These are trivial things. If you really want to thank you, go back to your house and have a meal first! I haven't eaten well in the past two days without stopping."

"Don't worry, the dumplings made by my grandmother are very delicious when we go back. We can eat dumplings together then."

Looking at the scenery outside the car, Qin Yuan felt that he was just doing a little effort, and now he was more worried about the situation in Xiaomao Country.

"Brother Qin, why does it feel like you have something on your mind?"

Qin Yuan nodded, and then said: "The matter of the Jin Kingdom last time is probably not over yet. After all, the little Mao country must take revenge, and the Jin Kingdom has openly provoked representatives of so many countries. I don't know what will happen. If the two of them If it really broke out, I don't know how many innocent people will be displaced."

"So it's this. Brother Qin, don't worry, I don't think there will be a fight."

"After all, Jin Guo's vitality is seriously injured now, and Xiao Mao Guo is also suffering from internal and external troubles. As long as there is no other anger between the two of them, then there will be no problem."

Hearing what they said, Zhao Xue looked at Qin Yuan with admiration. She didn't expect Qin Yuan to be such a person who cared about the country and the people.

In the past, she and Qin Yuan only got along for a while, and during the contact process, she felt that he was very powerful, and he was also a very interesting person, but she did not expect his ideal to be so big.

This may be what people call the general's style. No matter which country's civilians are targeted, he feels that these unarmed people should be the least hurt.

While talking, Zhao Xue's grandmother's house arrived. Just as Zhao Xue walked into the yard, her father, Zhao Guoming, came out. Now he is only recovering slowly on crutches, and it is no problem to rely on crutches to walk.

After seeing Zhao Xue, Zhao Guoming was very excited. Because of the special nature of Zhao Xue's work, everything was kept secret. Zhao Guoming also understood his daughter's work very well, so Zhao Xue disappeared suddenly, and he was not surprised.

He thought it was his daughter who went to perform a mission suddenly, because Zhao Xue was in a hurry to come back this time, but he didn't expect that a kidnapping incident would happen.

The most important thing was about Zhao Xue's illness. She didn't tell her family. After all, Zhao Xue was also very strong. When she came back, she just told her family that because of the mission, she had to completely disguise herself.

Although the family members also find it a bit strange, they still respect her work, and everyone has gotten used to it over the years.

Zhao Guoming warmly entertained everyone, "Sit down first, I'll make tea for you."

"Uncle, you don't need to be busy. We are not outsiders. This time, we just came to see uncle and aunt."

At this time, Zhao Xue's grandmother also heard the sound and came out of the room. She was taking care of Zhao Xue's mother just now. Seeing how lively the house was, her granddaughter was also very happy to come back.

Qin Yuan looked at Zhao Guomin's leg and blinked his eyes. He has already seen that Zhao Guomin's thigh is really serious. Because of his age, the whole bone is completely deformed. Now he can only raise it slowly, and the doctor dare not operate on it. .

After all, after choosing surgery, you will need to have a steel plate and a second surgery. The risk of this is indeed quite high.

When Zhao Guomin talked about his legs, his face was a little gloomy. After all, he can be regarded as the pillar of the family. Although they don't have to worry about their daily expenses now, Zhao Xue sends money back every month, but now both of them are down. He felt that Zhao Xue's burden was too heavy.

"There's no way around that. Those guys are too domineering. They were going to ask for money, but it turned out like this."

"Uncle, don't worry, those who deserved their crimes will definitely be punished by the law. This matter will not be left alone. Now let me look at your legs first!"

Zhao Guomin felt a little strange when he heard this.

"Huh? Young man, do you still treat people?"

Qin Yuan could only find an excuse, "Yes, my family has been practicing medicine for generations before joining the army, so I have learned a lot through my ears and eyes."

Li Erniu was also at the side striking while the iron was hot, "Yes, don't worry, Uncle! Brother Qin is very powerful. We had comrades who were injured before, but they all recovered after his treatment."

Zhao Guoming was a little dubious. He also tried the methods of Chinese medicine. After all, Western medicine did not dare to perform surgery. He also found some Chinese medicines, but they were all bandaged, and he felt that they were useless.

However, since she was her daughter's friend, Zhao Xue also kept nodding beside her and believed in Qin Yuan very much.

Zhao Guoming was sitting on the sofa next to him. Now that his leg could no longer be bent, Qin Yuan took out the silver needle. In fact, he has many choices now. He can use the silver needle to heal him, or he can use his own master healing skills .

Just after Qin Yuan's silver needle was inserted, Zhao Guomin felt the heat on both sides of his legs. He was very surprised, he did not expect such a miraculous effect.

His legs have been suffering every day for so long, but he just clenched his teeth and persisted, not wanting everyone to worry.

But Qin Yuan's hands were too good. After his treatment, Zhao Guoming actually felt that his legs were no longer so painful, and he gradually regained consciousness.

"I didn't expect the silver needle to have such a miraculous effect. I feel that this leg should be able to move."

"Of course, dad, don't worry! My friend is very good."

Zhao Xue's grandmother was also watching with a worried face. After hearing Zhao Guomin's saying that it was useful, she was instantly relieved and saw hope. It seemed that Zhao Xue's friend was really powerful.

After Qin Yuan pulled out the silver needle, Zhao Guomin stood up and threw away his crutches, and then slowly moved his leg. Unexpectedly, he recovered as before. Not only did he not feel any pain, but he also felt that his leg was not the same as before. same.

"I didn't expect it to be so miraculous. My leg suffered a little old injury before, but now I don't feel any discomfort, and it's better than before."

"Dad, that's great. You've finally recovered. Let me tell you that my friend can do it."

"I didn't expect that, young man, thank you so much. You are simply a miracle doctor of today. I feel that being a soldier is a bit inferior. You can pass on this skill to benefit and save people."

Qin Yuan just smiled hehe, "No matter what you do, you are making a contribution to the country. I think whether it is curing diseases and saving people or defending the country, it is my ideal, and I can do it at the same time."

Zhao Guomin couldn't help applauding. Qin Yuan really impressed him. He had such great ideals at such a young age, and his ability was also very strong.

Having said that, he looked at his daughter. If his daughter could be with such a person, he would be really satisfied with this son-in-law.

Zhao Xue's grandma was very happy to see that Zhao Guomin had fully stood up and resumed her movements, "By the way, young man, can you take a look at my daughter as well, but her condition is more serious, and she is in a coma now. People say it's a vegetative state, alas!"

"Don't worry, mother-in-law! When I came back with Zhao Xue this time, I also heard her talk about the situation at home, and she came here to see my uncle and aunt."

"It turned out to be like this. It's really great. I'm really relieved that Zhao Xue can have friends like you."

Qin Yuan just used some basic silver needles, and then added the effect of the master of healing, so he didn't feel too tired. After all, her father's leg injury didn't consume too much energy.

It's just that after coming in, I saw that Zhao Xue's mother's condition was indeed a little serious. The whole person was actually kept alive by the oxygen machine next to her.

Zhao Xue couldn't help crying when she came in and saw her mother's condition. The doctor told her before that her mother's condition was very complicated and her spinal nerves were damaged. Even after waking up, she could only spend the rest of her life in bed.

But now with Qin Yuan, she sees hope. With such a serious illness, so many experts and professors in the country can't do anything about it, but Qin Yuan has completely cured herself.

It took a lot of energy to treat Zhao Xue's mother, Qin Yuan, because her spinal injury must be restored first, and her other functions must be repaired during this period.

Zhao Xue saw that Qin Yuan's forehead was already covered with thin beads of sweat, and couldn't help feeling a little worried. Will it really succeed this time? Qin Yuan looked a little tired.

Li Erniu said in a low voice: "Don't worry! Brother Qin is like mobilizing his internal strength. This kind of treatment is really exhausting. He just needs to rest later. Let's not disturb him."

Zhao Guomin nodded in a sudden realization. Could this be the legendary qigong treatment?

After all, this kind of treatment was beyond the scope of what he had seen, and he had only heard of some qigong masters before, so he subconsciously regarded Qin Yuan's treatment as qigong.

A few minutes later, Qin Yuan let out a long breath of foul air, and after taking off the silver needle, Zhao Xue's mother still closed her eyes as before.

Zhao Xue was a little puzzled, "Here, Qin Yuan, what's going on? My mother, she..."

Before she finished speaking, Zhao Xue's mother on the bed had already opened her eyes, looking at everything in front of her. She looked around at the people around her, saw a familiar face, and held Zhao Xue's hand a little excitedly.

"Xiaoxue, you're back! I, I seem to have had a very long dream, and I was always sleeping in the dream."

Unexpectedly, after lying down for such a long time, Zhao Xue's mother actually uttered the first sentence completely, and the grandmother next to her couldn't help crying. This scene was what she had been looking forward to for a long time. Before, he felt that his daughter was hopeless. After all, the doctors gave such a serious diagnosis.

Grandma couldn't help but stepped forward and knelt down to Qin Yuan, "Thank you so much, little genius doctor, you not only saved Zhao Xue's father, but also made my daughter back to normal."

Qin Yuan quickly helped his grandmother up, but he couldn't bear her kneeling down.

"Mother-in-law, don't say that, we are all Zhao Xue's friends, this is what we should do, friends should help each other."

When Zhao Xue saw her mother wake up, she hugged her and cried with her mother. This scene of mother and daughter reuniting is really touching.

Zhao Xue got up and looked at Qin Yuan very gratefully. She really saved their family of three. Seeing Qin Yuan rarely show such a tired expression, she knew that Qin Yuan must be very tired.

After all, in the previous training, no matter how intense the training was, she had never seen Qin Yuan appear so tired, so she couldn't help feeling a little worried.

"Qin Yuan, will there be any harm if you treat your body like this? Don't cause any problems in your body just to treat us, then my crime will be serious."

Qin Yuan smiled and wiped the sweat from his forehead, "It's okay, this is a normal reaction, I just need to rest well now."

Grandma also reacted, and hurriedly called Qin Yuan to rest in the room inside. This person is the savior of their family.

Zhao Xue also talked to her mother about what happened just now. They can still meet now, and the family of three can sit together, thanks to Qin Yuan.

This kind of reunion scene is very touching, and grandma is also very happy. She made dumplings and ate together. When she heard that there was something to eat, Li Erniu's eyes lit up instantly. After the tossings of the past few days, he neither had a good meal.

"Let Brother Qin go and have a good rest, and we'll come to help, and let him eat together after the dumplings are ready."

I have to say that Zhao Xue's grandmother is very good at mixing dumpling fillings. From a distance, Li Erniu can smell a fragrance. If it is cooked, it will be too fragrant.

Just like that, everyone made bread and dumplings together, and watched the joy. At this time, Qin Yuan in the room had already fallen asleep because of exhaustion. He had indeed consumed a lot of energy today, and he hadn't relaxed like this for a long time. rested.

Zhao Xue's grandmother's house is in a quiet small mountain village, where the singing of birds and the fragrance of flowers are very relaxing. After sleeping for a few hours, Qin Yuan stood up and stretched.

He thought in his heart that it would be more perfect if this master healing skill could heal himself, but he only needed a simple rest, after all, he was not a robot, and having such a rest would allow his body to relax well.

After coming out, seeing everyone cooking dumplings, Zhao Xue said a little embarrassedly: "Did we wake you up because we were too loud? We have tried to be as light as possible. We wanted to call you when we were done."

Chapter 897: collective disappearance

"Hey, it's okay. I just have enough rest, and I can do it myself. The main reason is that the smell of your dumplings is so attractive."

Zhao Xue's grandmother also greeted everyone with a smile to prepare to eat dumplings. This scene also reminded Qin Yuan of Grandma Sun. After the matter here was settled, he still planned to go back to see Grandma Sun.

Li Erniu couldn't wait to eat it. This dumpling had a thin skin and big filling. It was really delicious.

And this guy Li Erniu was not polite, he really ate with his belly open, and even ate more than forty dumplings in one go.

He Chenguang felt that it was too embarrassing, and this guy wanted to continue adding, so he could only step on Li Erniu under the table.

Unexpectedly, not only did Li Erniu not understand what He Chenguang meant, but he stood up and said loudly: "Chenguang, I said what's wrong with you kid, you stepped on me with such a big foot, and you can step on me from such a wide distance. "

At this time, He Chenguang only felt that Li Erniu was a pig teammate, but Zhao Xue could see it, and she said with a smile: "It's okay, we are all friends, and you have helped us so much, just let you Eat some dumplings, this will definitely satisfy you."

Li Erniu said while eating: "That's right, you don't mind seeing that Zhao Xue's sister, besides, why don't you talk about Brother Qin, Brother Qin has eaten more than fifty."

Hearing this, Qin Yuan almost spit out a mouthful of dumpling soup. This kid really didn't forget to betray himself once at this time. Because he wasted too much energy, he could only rely on food to make up for it.

And there is a saying that the taste of this dumpling is really good, very homely.

Grandma Zhao Xue was very happy to see that they liked dumplings so much. After all, her craftsmanship was recognized, and she got up to make some dumplings, worrying that everyone would not have enough to eat.

After eating, Qin Yuan observed the situation of Zhao Xue's parents again. They are all recovering relatively well now, especially Zhao Xue's mother, who has lifted her energy and her face is very rosy.

Sitting outside basking in the sun and chatting with everyone, watching the fun.

Zhao Xue was very moved when she saw this situation. She had to keep it secret from her family because she had been performing tasks and she was engaged in work. In fact, she hadn't been home for more than three years.

Qin Yuan looked at Zhao Xue and said, "Then what did you think about this time? Otherwise, you would have just withdrawn. After all, you were seriously injured this time, so you can retreat to the back. You can also work in your local police station. Not bad."

Zhao Xue shook her head, "It is precisely because you saved me this time, which is equivalent to giving me a second life, that I want to make my life more meaningful, and I will use my ability to help more people."

What Zhao Xue has now is experience, because she has been an undercover agent for so many years, she can continue to work as a teacher in the school, and she can also perform dangerous undercover work when necessary.

"It seems that we are really the same kind of people, and we are all worried about our lives. Isn't that why you said before that I worry about the country and the people, and you are not the same."

Zhao Xue couldn't help laughing when she heard this, she can have such an achievement today, she really can't get away from Qin Yuan, "Captain Qin, maybe we can meet each other during the mission in the future. Advised."

Qin Yuan also gave her a standard military salute, "Yes! Comrade Zhao Xue!"

Zhao Xue was also amused and laughed. All the matters here were resolved, and Zhao Xue was also sent back to the original unit. He just had a short rest and couldn't wait to get into work, because he felt that there were no major health problems now. .

On the way back, Qin Yuan drove the car, and the whole car smelled like leek dumplings. It was also thanks to Li Erniu's thick skin that Zhao Xue's grandmother gave them a bowl of dumplings before leaving. .

He Chenguang opened the window and said helplessly: "I said, is it really necessary for you stupid cow? Bring this pot of dumplings to the car. It tastes so good. Do we have to go back with this smell?"

"Hahaha, it's not going to happen. Don't worry, I'll eat it all after my brother's stomach has digested it, and you won't be able to smell it."

He Chenguang really couldn't understand. Before he left, he also ate dumplings. They had eaten dumplings at Zhao Xue's house for two days, and he still couldn't eat enough!

"That's right! I want to go back to Grandma Sun and see if you want to accompany me. If not, I'll book a bus ticket for you and let you go back."

"Brother Qin, look at what you said, we are all brothers, Grandma Sun is our grandma, I must go to see it!"

"Okay, since that's the case, then you guys hold it up, I'm going to speed up."

Half an hour later, Li Erniu came down to the side and vomited violently.

He Chen covered his head with a look of disgust, this kid is really embarrassing enough.

"Tsk tsks, Comrade Erniu, it seems that you still have to practice your anti-vertigo training. This situation is not good. It seems that you don't work hard at ordinary times, right! Brother Qin."

"Very correct, I will give you a separate set of vertigo training when I go back."

Li Erniu said while drinking mineral water: "Don't talk nonsense here, I'm dizzy, I haven't done well in training, try eating a pot of dumplings instead, and don't give me dumplings now. Just mentioning it makes me want to throw up."

Qin Yuan originally wanted to tease him, but suddenly his phone rang, and he was curious who it would be, but he didn't expect it to be Fan Tianlei.

As soon as Qin Yuan picked up the phone, Fan Tianlei on the opposite side said very anxiously: "Captain Qin, come back quickly! Something serious happened in our team."

"What's the situation, where is your dragon team? Is she there?"

"Dragon Team has also gone out to perform a mission. Now I have told her to come back quickly, but her mission is not over and she can't leave, so I can only call you."

Fan Tianlei's tone was very anxious, Qin Yuan quickly grabbed Fan Tianlei who was still about to vomit, threw him into the back seat, and then threw him a bag.

"The situation is urgent now. We have to go back to the military region first. Hold on to me, kid. If you want to vomit, just vomit in the bag."

He Chenguang didn't care about Li Erniu. When he heard that there was an emergency, he couldn't help being a little nervous. After all, he hadn't received such an emergency order for a long time.

"Brother Qin, what's the situation? Wang Yanbing and the others should still be there, and they should be able to handle any situation."

Qin Yuan shook his head, "Fan Tianlei's tone is a bit serious, it is very likely that there is something wrong with Lao Gao."

When Li Erniu heard Gao Dui, he no longer wanted to vomit, how could this be possible? Gao Shiwei's skill is also very good, what can he do.

Unable to control that much, Qin Yuan directly turned on the running mode on the high speed. When they rushed all the way to the military area, the sentinel at the gate saw that they did not have a routine inspection in the future and let them go directly. It seemed that the situation was really urgent.

Fan Tianlei and the others packed up their equipment and had been waiting on the playground for a long time. Watching them come down, Fan Tianlei threw the equipment to them.

Then everyone quickly boarded the helicopter, all in one go, and only noticed that there were only members of the red blood cell team and Fan Tianlei above the helicopter.

"What's the situation, please tell me first, I'm completely confused now."

"I'm also confused, and the Dragon team led the team out to perform missions at this critical moment."

It turned out that Gao Shiwei, Commander Yuan of the Air Force Brigade, and Long Baichuan of the Marine Corps were invited to participate in a military parade abroad together three days ago.

The military parade invited the top officials of various countries. Gao Shiwei and the others also represented the Yan Kingdom. This military parade was organized internationally, and military representatives from many countries participated.

Unexpectedly, they have lost contact now. Not only them, but the military representatives who went to the military parade at that time disappeared, which caused international shock.

There is also a general missing from country A. Among this group of missing people, they are all representatives of various countries, very outstanding military officers.

Qin Yuan also felt very strange, how could this be possible! Everyone is the strongest and most outstanding representative in the military field of each country, how could it be possible to disappear like this?

"I don't know the specific situation. Anyway, the answer given to us by the international community is that they are missing. We will not know the specific situation until we get there."

Wang Yanbing couldn't help cursing after hearing this, "I really don't know what this group of people are doing. They disappeared, and I don't even know if I want to ask them for clues."

"Everyone calm down now. The main question now is who is able to plan this conspiracy, and you must know that all the representatives of this group of officers are outstanding, and their strength should not be underestimated."

Qin Yuan can only comfort everyone's emotions first, after all, now that the boss is missing, they must not mess up.

He can only collect the existing information. Gao Shiwei and the others are going to country O to participate in the military performance, because it is only a report performance, and it is also a military commendation meeting, and it also adapts to the requirements of various countries. The number of people cannot exceed too many, Everyone only brought a squad of troops.

Fan Tianlei regretted it very much at the moment, "At that time, I said that I would go with Lao Gao, but he scolded me at that time, saying that I was too hypocritical. I just went there to participate in a military parade, why did I get so nervous."

Li Erniu patted Fan Tianlei, "Actually, it's not your fault, don't worry! Brother Qin will definitely find them."

What happened this time was no small matter. The opponent's strength seemed to be very strong. They were able to hijack so many military representatives at the same time. How their military strength is remains to be investigated.

It was only after Qin Yuan and the others arrived in country O that they realized that the place was also a mess. Rescue teams from various countries had come, and everyone gathered in the reception area they had arranged.

At this time, a captain from the Ba Kingdom came over. He knew Qin Yuan, and he had performed two missions with Qin Yuan before, so he knew that this person was very strong.

"Captain Qin, I didn't expect you to come too. If you come, then there is hope for this incident."

"But there is no clue about what happened this time, and the person in charge is never here."

"We came half an hour ago, no one cares about us at all, they are even more chaotic here, and we still haven't figured out what's going on."

At this time, the loudspeaker on the head made a sharp sound, and then someone said: "Rescue teams from various countries, hello, first of all, we are deeply sorry for the occurrence of such hijacking and disappearances, which is also due to our security work. Do it."

Some people below are impatient, after all, they have been waiting here for a long time.

"Don't talk nonsense here, we just want you to save our chief what happened? Hurry up and give us clues."

"Yes, we have been here for such a long time, and no one has come out to give us an explanation. Do you know that if you delay for one minute, our chief will be in danger for one more minute."

"Everyone, with all due respect, don't be impatient. If you continue to make trouble like this, it will be bad for everyone and it will be a waste of time."

After the voice finished speaking, it ended, and then a woman in a suit came out, "Everyone, I am the person in charge of this event, and my name is Emily."

Everyone also understands that the most important thing now is clues and time. The scene is quiet, and everyone listens to Emily.

It turned out that the performance was supposed to last for four days, and it was also a kind of military parade performance, allowing everyone to share and see the military power of various countries, but on the second day of the performance, they took a unified bus to the hotel where they stayed.

These officers represent a large number of officers sitting in the front, and then the soldiers of the guard class are sitting in the back. There are a total of five people in the big bus. Unexpectedly, an attack occurred halfway.

There were also casualties of guards and soldiers at the scene, and the security personnel they sent were also killed on the spot. The situation was very chaotic, because it was in a downtown area, Those robbers seemed to fall from the sky, and then rushed towards these buses , took control of the officer representatives inside.

Then they rampaged in the downtown area, causing countless civilians to be injured. They also sent personnel to chase them, but they all returned without success.

Hearing what Emily said, the crowd below began to talk a lot, and the captain of the country of America was the first to be unhappy, "I really don't know what kind of security you are doing. It's so funny that the bus was hijacked by the robbers so easily. Treat our representatives as human beings."

"I am really sorry for this incident, but now that it has happened, I hope everyone will watch the video of the scene together, then make an analysis, and hurry up to rescue!"

Emily could only appease everyone's emotions, and then went on to say: "This group of gangsters are very cruel, and they will kill people at will after they come out, but their goal is very clear, and they are these officers' representatives."

Without further ado, everyone stood below and watched the events unfold on the big screen. Qin Yuan stared at the screen tightly, not wanting to miss any clues.

In the video, the bus convoy was driving in an orderly manner, when suddenly two cars collided into the convoy.

Chapter 898: ??The Missing Squad

It happened very suddenly. Li Erniu didn't see where the two cars came from. The speed was very fast and the purpose was very accurate. They should know the location of these officers.

Qin Yuan narrowed his eyes, and then said: "At three o'clock, the two black cars suddenly rushed out from the side alley, blocking the sight of the bus just now, so it feels as if they appeared out of thin air."

After his explanation in this way, everyone understood, and then continued to read below.

After the car accident, the driver walked down first, but he was shot and killed by the people in the car as soon as he reached the door.

The sentinels behind were also desperately resisting, and suddenly there was a loud explosion, and the entire camera shook, and then there was darkness, and it should be that the camera fell to the ground.

But some sounds can still be heard, the explosions are still ringing, and the gunshots at the scene are very noisy, followed by the sound of the bus starting, after the gangsters hijacked the officer.

Then they also took control of the sentinels behind them, and just like that, the five chariots were taken away by them smoothly, which is simply too exaggerated.

Qin Yuan also felt very strange, logically it shouldn't be like this, Lao Gao and the others were all in the car, it shouldn't be a problem to solve those things with Lao Gao's skill, could it be that something unexpected happened at that time?

"Not only Lao Gao, but also the Dragon Team of the Marine Corps. That guy is also a ruthless character. What's going on?"

"So this shows that the group of gangsters is very difficult. There must be some coercive weapon among them that made Lao Gao and the others have to submit, otherwise it would not be possible to go so fast."

Although Qin Yuan's voice was not loud, it attracted the attention of many people. After all, his analysis was indeed very reasonable.

Now that the video has finished playing, Qin Yuan continued: "From the beginning of the attack to the end, they left for no more than five minutes. This shows that they have planned many times and are well-trained, but let me What I don't understand is this weapon."

Emily saw hope. After all, they had been investigating for so long and had not received any other news, so she rushed off the stage.

She looked at Qin Yuan and asked, "Is there anything strange about this weapon? Can we start from this aspect?"

"Didn't you hear the gunshots inside just now? These gunshots are very chaotic. The sentries I asked all used uniform submachine guns, so they were very regular, but these gangsters had submachine guns, assault rifles, and pistols."

The captain from Baguo gave him an approving look when he heard it. As expected of Qin Yuan, this guy hits the nail on the head every time, and his analysis is very good.

But the people in Xiaomao Country are not happy anymore. They had conflicts with Qin Yuan and the others before, but they were not on the bright side. Now they can't say much, so they can only point the finger at Emily.

The captain of Xiao Maoguo's team this time is called Kimura Ye, who is very arrogant, but it can be seen that he is indeed very anxious.

After all, their little Mao country and Jin country had just had a civil war, and many things were still unclear. As a result, important military officers in their own country were kidnapped here.

Kimura stood up straight away, pointing at Emily, "I said you are still listening to his nonsense, now tell us the results of your investigation and where we should start saving people."

He Chenguang was unhappy when he heard this. What Qin Yuan said was nonsense, and it was obvious that Emily and the others had not investigated anything.

"I really don't know what nonsense you are talking about. Now everyone is analyzing this matter together. I really don't know why you are panicking. If this is the case, you should leave as soon as possible. I want to see where you go to investigate. "

"Hey! What are you, you dare to talk to me here!"

The people in the red blood cell team were completely angry, and they all stood up. Qin Yuan stood directly in front, staring at Kimura Ye closely. At this time, Qin Yuan exuded a strong aura, and there was such a thing in his eyes. Strong killing intent.

Kimura could not help shivering, those eyes were too terrifying, although he was very confident just now, but after seeing those eyes, he couldn't help but quickly avert his eyes, he didn't want to look at them a second time.

At this time, the captain of Ba Guo also hurried out to smooth things over, "Everyone calm down, it's time now, and I think what Captain Qin said is very reasonable. Now we want everyone to find clues and analyze together. After all, representatives from all countries There, everyone is in a hurry."

Emily is also very sorry, and apologized to everyone. It is true that they did not have any clues from the attack to the present.

At this time, Qin Yuan suddenly looked at Emily, could it be the ghost of their insiders? Being able to grasp their information in this way is likely to be an internal problem.

"Have you reviewed it internally? I now very much doubt whether it is an internal problem within you."

Emily was also taken aback. She didn't expect this person's reaction to be so fast, and she even suspected herself.

Hearing what Qin Yuan said, everyone expressed their opinions one after another. Such a statement is indeed suspicious, after all, the military representatives of these countries are not low-status.

Their trips are all carried out in secret. If they want to know the route, it must be passed from within them, and they can do it so quickly without leaving any clues, which is really suspicious.

Faced with Qin Yuan's questioning, Emily could only shake her head desperately, "This is definitely not our internal problem. We are the most famous security company in the world. We are also deeply sorry for this incident, because we Most of the personnel were also lost."

But Emily quickly said that on the bus, they installed GPS positioning. Although they located the final disappearance location, the search they had led did not have any clues. The bus seemed to disappear out of thin air there.

Qin Yuan stepped forward and stared at Emily, "Why didn't you notify such an important clue in advance, and your people went there to struggle in advance, if there are spies among your people, it must destroy all the clues. "

"That's right, why do you still call the strongest security company so stupid? Since you have found clues, you should notify us in advance."

Everyone is desperately expressing their opinions, expressing their dissatisfaction with this security company, and they are very suspicious that the gap is still in the security company.

After all, facing so many teams, Emily also feels very overwhelmed. Their leader is now unknown, and there is no leader now. These people have no leader and are making a mess.

Qin Yuan shook his head at this scene, now is not the time for everyone to compare their voices together.

He stood up and said loudly: "Everyone be quiet, now is not the time to get angry, since we have clues, let's go to that place and search again, maybe we can find something else."

As soon as Qin Yuan's words fell, the people in the country of America were not happy anymore. He stood up and pointed at Qin Yuan and said, "Although what you say is indeed quite reasonable, why should you command us? Everyone is the same here."

"It's really funny, then it's up to you, you can make as much noise here as you like, I'm leaving."

This group of guys was still as stupid as ever, Qin Yuan didn't want to talk to them at all, and immediately led the red blood cell team to prepare for departure.

Although the captain of the American country said this, when he saw Qin Yuan set off, he also said loudly: "Brothers, everyone should work harder, we can't let that kid find the clues first, we must find our chief first, understand?"

The other teams were noisy at first, but when they heard the people from the United States say such words, they instantly became nervous. Now which pair of people will find the clues and find their own people first.

Everyone also set off one after another. Qin Yuan turned his head and saw that those people were also following, and the speed was very fast. If they wanted to overtake them, Qin Yuan and the others were not to be outdone.

Li Erniu glanced at the people behind, "These guys really don't know what the \*\*\*\*\* they are doing, they suddenly speed up, we can't let them get ahead, we have to be the first."

The address Emily gave was an abandoned village. According to her, the situation in that village was very complicated because it was surrounded by tall camphor trees.

So a miasma would form, and many villagers lost their way in the jungle and were injured by those wild animals, so everyone moved the village, and that village was abandoned.

But the place where the GPS disappeared was in that village. They sent people to check, only the bus was parked there, and the people on the bus were gone. They also searched the village, but found no clues.

Because Qin Yuan and the others were leading the charge, they soon arrived at the forest full of miasma. Qin Yuan looked at the time and found that the sun was going to set in a few minutes. Now, taking advantage of the sun and the miasma is not so dense, they Can pass quickly.

Because there was a village in this woods before, there is a straight path for vehicles to pass through, and traces of vehicles rolling over can be seen from these bushes.

Just in case, and they didn't wear gas masks, Qin Yuan asked everyone to take out the cloth strips they carried with them, then pour out the tea in the kettle as a simple filter, cover their mouths and noses, and then quickly pass through.

Qin Yuan himself is not afraid of these miasmas, after all, his current physique is invulnerable to all poisons.

Mi Guo also arrived later, and they also made a crude filter device according to Qin Yuan's method, and then quickly passed through.

It was already dark when Qin Yuan and the others arrived at the village, and the teams behind also arrived one after another, but the number of people seemed to be much smaller.

Qin Yuan and the others can't control so much at the moment, the most important thing for them is to find clues.

Just now, the captain of Xiaomao Country, Kimura, ran to the bus first, wanting to check the situation.

Li Erniu also wanted to run over, but was stopped by Qin Yuan, "Erniu, don't go, that bus is worthless, I believe Emily and the others have already searched, I am very suspicious now, they must be there Inside the village."

"Brother Qin, shall we search the village now?"

At this time, Qin Yuan looked at the people in the team next to him, and said loudly on purpose: "I suspect that there must be tunnels or crossings in this dilapidated village, everyone must search carefully, maybe they are detained in this village. "

The captain of Ba Guo also ran over panting and asked, "Captain Qin, how did you determine that they must be in this village?"

"This is very simple. It is impossible for so many of them to have no footprints at all, and these people left their cars here, which means that this is the final destination."

The captains of the eight countries couldn't help giving a thumbs up. At this time, Li Erniu complained, "Brother Qin, why did you speak so loudly just now? You see, those guys from the US country have already gone out to look for it first."

"Silly boy, I said that on purpose. You don't know how powerful people are now, and you see that this village is not small. With the strength of just a few of us, when will we find it?"

Li Erniu didn't expect this either. As expected of Qin Yuan, he was more thoughtful than him in grabbing things. He couldn't help but nodded in admiration, and then everyone ran into the village and began to search.

Kimurano was very active, "You all heard, what that idiot said just now, we must find and rescue our general before they do, this matter is very important, do you understand?"

"Yes! Captain!"

It was completely dark, but everyone scattered with flashlights, and only scattered flashlights were seen in the entire village.

Li Erniu didn't spare any corners, he checked any place that he thought looked like a tunnel crossing, but there was no clue, how could this tunnel crossing be so easy to find.

He Chenguang could only comfort him, "You don't have to be in such a hurry, if this tunnel crossing is so easy to find, wouldn't Emily and the others have already discovered it, and they can wait for us ."

"But if we continue to search like this, what if there is no tunnel entrance?"

At this moment, there was a burst of gunshots below. Qin Yuan jumped out of the yard first to check, but seeing the darkness in front, because everyone can only rely on the light source of the flashlight, he can see clearly.

He was worried about other conspiracies, so he stayed with Li Erniu and the others, and when they arrived at the shooting location, they saw some scattered bullets on the ground.

The people from country A in front of them also looked puzzled at the moment.

"Did you see what happened when you came here first? Why did you shoot suddenly? Could it be that you saw the enemy?"

"We don't know. People from the Yuan Kingdom are searching for this area. I heard the sound of gunfire and ran out. That's all I saw. It was too dark, and I seemed to see a few dark shadows. But I'm not sure either."

People from several other teams also rushed over. Unexpectedly, not only did they not find the military representative they were looking for, but also people from another team were taken away.

Chapter 899: ??moving village

The genius remembers the address of this site in a second: []<https://>The fastest update! No ads!

What is the situation? Everyone is staring at each other. After all, Qin Yuan and the others also arrived at the first time. I didn't expect that the speed of those people was too fast, and a team disappeared out of thin air.

The captain of the United States rushed over and asked loudly, "What's the situation here, who is shooting?"

The soldiers next to them didn't want to ignore them and just turned around and left. These people are really rude, and they have no obligation to supervise them if they want to go out and fight.

The captain of the American country saw that no one paid attention to what he said, and there were people secretly laughing beside him. He was a little unhappy for a moment, and directly raised his gun and pointed at the people in country A and said, "Hey! What's your attitude? I was just asking Why don't you answer your questions?"

The people of Country A were not to be outdone, and immediately raised their guns at them, "What are you? Don't think that if you have guns, we don't have them. It's a big deal to fight a battle, and we didn't drive them away. It's really funny. "

"What! You're \*\*\*\*\* kind, say it again."

"Hey! How did you talk to our captain?"

In an instant, the soldiers on both sides quarreled. The atmosphere at the scene was very tense, and it was very likely that a gun battle would break out. The willingness was unbearable, and this group of people would only engage in internal disputes every time it came to a critical moment.

Qin Yuan stood up and said loudly: "Stop talking, okay? What's the point of arguing like this? Now that a team has disappeared, it's best for us to unite and investigate this place. It's really weird here. Already!"

It was completely dark now, and Qin Yuan's sight was not obstructed in the slightest. He found it strange that these people moved too fast, and they took away a team completely in such a silent manner.

That's why he doubted that there must be a tunnel inside. Now he suggested that everyone search the place where the soldiers from the distant country disappeared. There must be clues in this place. After all, he just disappeared, so there is still time to find it.

He thought so, but some people in the other teams were not happy about it, and everyone thought why the people from Yan Kingdom should stand up and take command.

Kimurano said a little unhappy: "I don't have time to help you find any soldiers from the original country. I just want to find our general now, and our general is the biggest official among these representatives, so we don't have time."

Qin Yuan shook his head, the people of this little Mao country were still as stupid as ever.

"I really didn't expect Xiaomao Country to send you people with low IQs here. It seems that there is really no one to send."

"What! You bastard! What are you talking about?"

Kimuraye was completely enraged by Qin Yuan, he rushed to Qin Yuan directly, this person was really unreasonable.

Qin Yuan just spread his hands and said: "What I said is also true, and being irritated by me so easily shows that you can't manage your emotions at all, and you are even more stupid."

Kimura couldn't bear it anymore, he rushed up, raised the assault rifle in his hand, and shot at Qin Yuan. Unexpectedly, at this moment, Qin Yuan was very fast, striding forward, followed by a He punched Kimurano on the shoulder, and then untied his assault rifle.

Kimurayee fell heavily to the ground, and his assault rifle landed firmly in Qin Yuan's hands. How did all this happen? He didn't react at all, the speed was simply too fast.

At this moment, Kimurano's eyes are full of doubts, how did this person do it?

The members of the red blood cell team didn't move at all, because they knew Qin Yuan's strength very well. Seeing that guy Kimura fell to the ground, everyone burst out laughing.

The people in Kimurano were instantly unhappy, and they all rushed forward to ask their captain for an explanation.

Qin Yuan just raised his hand and dropped his assault rifle on the ground, "You'd better control your people, if they have other actions, I'm not just talking about unloading the gun."

From the action just now, Kimurano has already understood Qin Yuan's strength. When he set out before, his chief had warned him in advance that if he encounters people from Yan Kingdom, it is best to take a detour. They have a captain who is very powerful , it seems to be the person in front of me.

Although Kimura was not reconciled, after all, he had lost such a big face in front of so many people, but he still said viciously: "You all don't talk, let me solve this matter myself."

Those of his subordinates closed their mouths instantly, and there was no more noise.

Kimurano didn't say anything, he stood up and took a picture of his body, then retreated silently, Qin Yuan didn't want to pursue it anymore, after all, now is not the time to talk about it.

People from other teams were shocked when they saw that Qin Yuan simply showed his hand just now. The captain of Ba Guo is used to it. He has dealt with Qin Yuan twice. He knows that this person is very strong, and these people are not him at all. opponent.

Qin Yuan looked at the quiet crowd and said loudly: "Whether you like it or not, we have only one purpose, to find our military representative, why the people from the Yuan Kingdom disappeared, he must be related to this matter, and it is very important to find them." It is very simple to find our military representatives."

After Qin Yuan finished speaking, he led the members of the red blood cell team directly into the courtyard where Yuan Guo disappeared. Now he doesn't want to explain any more to these people, as it would be a waste of time to talk about it.

Li Erniu ran up with a smile, "Brother Qin, you should have been ruthless just now, that guy just needs to be dealt with!"

"You kid can't tell the difference now, right, Lao Gao, their life and death are unknown, and you kid still wants me to fight with them."

Li Erniu shut his mouth instantly, he had completely forgotten about Lao Gao and the others being kidnapped.

People from other teams also followed, and everyone searched in the yard. Qin Yuan saw something strange about the wall in front of him. He stared at this wall. When they heard the sound just now, it seemed that there was no such wall here. what!

Seeing Qin Yuan's doubts, He Chenguang stepped forward and asked, "Captain Qin, have you found anything?"

"This wall? Did you find this wall here when you came?"

He Chenguang looked outside and then at the wall. He also felt very strange. When they came, they couldn't see clearly what was going on inside, let alone the wall.

"Brother Qin, our eyesight can't compare to yours. We can only see through the flashlight when we stand in this position."

Speaking of the flashlight, Qin Yuan suddenly realized, yes, even if they couldn't see it, the light of the flashlight can penetrate objects. From the distance just now to here, the flashlight can completely penetrate.

He clearly saw that the light of Li Erniu's flashlight passed through here, because behind the wall was the adobe house in the yard. At that time, he could see the windows, but now that the wall exists, he can no longer see the windows.

Could it be that this village is moving, and a wall appeared out of nowhere, making Qin Yuan feel a little nervous?

"Everyone is vigilant, the village may be moving, and these directions may change at any time."

He hurriedly asked the members of the red blood cell team to form a triangular formation, and everyone handed over their backs to each other. After all, in this case, there were a lot of people, and he might not be able to take care of so many.

When the soldiers in the nearby team heard what Qin Yuan said, they all burst into laughter.

The captain of the American country was even more arrogant, "I said that if you want to talk nonsense, you should also talk about a reasonable reason. You just talk like this. It's so funny that the village will move. This is the funniest joke I've ever heard. "

Others also think this is simply nonsense, how could such a thing happen,

At this moment, a pair of eyes were staring at them closely, and Qin Yuan also felt this feeling. His sense was very keen, and he suddenly turned his head to look in the direction of being stared at.

He also quickly threw a flying knife. He was sure that there must be someone behind the bushes. He didn't expect that the flying knife would hit something hard. Qin Yuan quickly ran over. Everyone was attracted by the movement and carried their hands. The gun was pointed behind the bushes.

Unexpectedly, another wall appeared behind the bushes, and everyone gasped. What's going on? They came here from this bush just now, and it is absolutely impossible for the wall to appear out of thin air.

The sudden appearance of the wall caused everyone to panic. This was simply too exaggerated. A wall suddenly appeared under the noses of all of them.

Is it true that this village is mobile as Qin Yuan said, then this is too scary. If this village is mobile, wouldn't they fall into an endless loop, and they would be drawn into it no matter what.

The captain of the United States snorted coldly, how could this little trick confuse him? He directly asked his subordinates to throw a blasting grenade, and with the sound of the explosion, the earthen wall was blown down.

He laughed loudly, "I really don't understand why you people are so flustered."

He walked over directly, and then shouted loudly: "I tell you, no matter who you are, we have the best equipment here, you dare to play us like this, I will definitely tear you to pieces!"

As soon as Captain Mi's words fell, suddenly an iron arrow flew over and directly pierced his shoulder. Qin Yuan quickly chased in the direction of the iron sword.

But this time it was empty again, Qin Yuan was even more convinced that there must be many tunnels inside, otherwise this person's speed would not be so fast, his speed is already fast enough.

He saw a man with a short cut, but unexpectedly, he disappeared the moment he turned around the fence.

Unwilling, Qin Yuan kicked the earth wall next to him, and the entire earth wall collapsed in an instant. At this time, a large dark hole was exposed under the collapsed hole, and there was a wooden board under the hole.

People from the red blood cell team also ran over. Li Erniu looked into the cave with a flashlight, but was blocked by the wooden board. It seemed that this should be their tunnel entrance.

Unexpectedly, everything was right by Qin Yuan, and the captain of Ba Guo admired him very much, "Captain Qin, you are really good at predicting things, don't worry, we will listen to you, I think listening to you will definitely save us sir ."

"No problem. Anyway, they will definitely be together. We have only just discovered it now, but as long as we find the tunnel crossing, we will definitely be able to find them."

Hearing what Captain Ba Guo said, soldiers from several other teams also followed. It seems that this Qin Yuan really has something.

But now there is a problem, should they go down from here? What if this is a trap set by the enemy and it is underground, what if they go down and wipe out the whole army?

And at this time, Kimura also stood up and said: "Everyone, it's not that I have a small belly, but I need to remind you that I feel that everything is his fault!"

Seeing Kimura pointing at him, Qin Yuan also felt puzzled, what the \*\*\*\* is this guy going to do?

He Chenguang stood up straight away and said, "You better have evidence for what you said, why should you frame our captain?"

"Hehe, I'm not framing this. It's like you are leading us by the nose. First you said that there is a tunnel from inside, and then you said that the walls in this village will move, and then we came to this place. It's really strange. It's weird."

The captain of the United States also took the opportunity to say: "Yes, maybe you planned all of this, and you may be the spy among them, trying to lure us into this trap."

He was shot in the shoulder by an iron arrow just now, and now he is being bandaged by the wounded guards, but it is only a small injury and nothing serious.

These two people really sang together and cooperated perfectly, Qin Yuan really couldn't see such a face, and snorted coldly.

"Oh! Since you think so, then you don't need to go on. To put it bluntly, isn't it because you are greedy for life and afraid of death, and want us to take the lead? There is no need to say those things, and if it was planned by me, I have to take you around like this Is it a big circle?"

Seeing that Qin Yuan had seen through his plan, the captain of the country of Mi had a very unnatural expression on his face. To be honest, he really wanted the people from the country of Yan to take the lead. After all, he didn't know what would happen below.

Li Erniu can see the faces of these people clearly You cowards are still saying these high-sounding things here, don't go on if you are afraid, it will become a drag when the time comes, and we have to save you. "

Qin Yuan carried the equipment on his back, and then said: "Er Niu, don't talk to these people, there is no need now, let's go down and find our people first."

At this time, Gong Jian frowned. He looked at the darkness below, "Captain Qin, but having said that, what if there is any danger?"

"Are we still afraid of this? And believe that I am here."

Just when they were about to enter the tunnel entrance, there was an explosion sound from the direction of the village entrance, and then the board they saw just now collapsed completely, and the entire tunnel entrance had collapsed.

Everyone was surprised by this situation.

Qin Yuan understood right away. Sure enough, there must be spies in this team. They just said they were going to go down the tunnel, but they didn't expect the tunnel entrance to be destroyed. It feels like everything is being watched, and they will always be slow in what they want to do. Others take a shot.

Chapter 900: ?? Conflict again

Li Erniu also felt that the situation was not right, it was not the right time for the tunnel to collapse! But he was also a little thankful that he didn't go down. If the tunnel they went down just collapsed, wouldn't they all be buried in it?

"I'm going! Thanks to God's blessing, let's go down a minute later, otherwise the tunnel will collapse easily, and we will have to finish playing."

"what!"

Hearing what Li Erniu said, Qin Yuan suddenly felt that something was wrong. Yes, this is very strange. If it is normal, these gangsters must hope that they will start the mechanism after they go down to the tunnel, and all of them will be buried below. .

But the strange thing now is that they activated the mechanism in advance, just because they didn't want to let themselves go down.

Qin Yuan expressed his doubts, and the behavior of these gangsters really became more and more confusing.

And although they kidnapped these military representatives, it has been so long from the beginning to the end, without leaving any clues, nor did they explain their purpose, because almost all kidnappings have a purpose, either they want money, Or want rights.

But they didn't mention these requirements, and they deliberately threw the car outside the village. This is an obvious behavior. Aren't they afraid of finding out by themselves?

Li Erniu was a little anxious, after all, the tunnel collapsed now, if Gao Shiwei and the others were really down there, it would be very dangerous.

"Brother Qin, let's go out and investigate now! They have already gone to the direction of the entrance of the village to investigate the explosion, and if those boys \*\*\*\*\* some clues later, if they take the lead, won't we be behind?"

However, Qin Yuan felt that now was not the time to investigate, and now he should take everything into account. He always felt that some key issues were missing.

"Now I'm going to go through the matter from beginning to end. Don't worry, even if they go to the entrance of the village, they won't find any clues. At most, there are some fragments from the explosion."

Qin Yuan slowly expressed his analysis, and everyone felt that it was quite reasonable, and he also expressed a key question.

"When this group of gangsters took hostages before, they knew their route and the specific number of people very well. They must know that the car has GPS positioning, but why do they have to drive to this village all the time?"

He Chenguang thought for a while and said, "This is really strange. It stands to reason that if they are so cautious, they should have lost the GPS on the way here, or diverted their attention."

Hearing this, Gong Jian suddenly said: "Divert your attention! Could it be that our investigation is in the wrong direction? They deliberately asked people to drive the car here. Maybe Team Gao and the others were hijacked by them on the way. ."

Qin Yuan nodded. This situation is not impossible. That's why he said that he must analyze it calmly. He didn't want to rush around and accompany these people here until Gao Shiwei and the others were transferred away.

At this time, the investigation team at the entrance of the village also ran back, and Kimura walked ahead aggressively, and it was obvious that they hadn't found any clues.

He came to the entrance of the tunnel angrily, and said loudly: "Everyone took out their shovels. Even if you dig it for me, you must dig out this tunnel. I don't believe it, we can't dig it out."

Qin Yuan really found it funny when he heard such a stupid statement. The soil on such a deep tunnel has completely collapsed. If they rely on their little manpower, everyone will dig together for two or three hours.

And after his analysis just now, he was very worried that this time it was the enemy's way of throwing bricks to attract jade, and he just wanted to lure them to this place. In fact, Gao Shiwei had been transferred away by them long ago.

The captain of Ba Guo came over to exchange views with Qin Yuan, and when he heard what Qin Yuan said, he nodded in agreement, but Kimuraye quit.

He led his soldiers to start digging, and they were so disgraceful, but now the tunnel just collapsed, and the surrounding earth kang was very loose, and they fell down as they dug, there was no way.

He came up, dropped the shovel angrily, and heard what Qin Yuan said, he walked over to Qin Yuan in an instant and said, "I said you must have a problem, even if there is a spy, you are the spy, because you along the way They are all misleading us."

Everyone gathered around after hearing what Kimura said. After all, there are no other clues now, and everyone fell into a dead end for a while.

Ruan Yuan looked at Kimurano coldly, wondering what the \*\*\*\*\* this guy was going to do, could it be that he didn't hit hard enough just now?

"It seems that you still want to fight again before you wake up."

Kimura was a little scared when he heard it, and they all backed away, Qin Yuan snorted coldly, this guy is really as timid as a mouse, it's really funny that he dared to yell at him with this little guts.

"Let me tell you, you don't have to threaten me, because you are the one who led all of us to act from the beginning to the end. You first said you came to find a car, then you came to find a tunnel, but the tunnel collapsed. Now you tell us that it is possible In other places?"

Another soldier also said loudly: "I thought it was strange before, why are you so predictable? You said that there is a tunnel, and the tunnel really appeared. It seems that you must have a problem."

Li Erniu saw that these guys changed their faces, and they blamed Qin Yuan one after another. He stood up and shouted at Kimura: "Can you show some face?"

Qin Yuan came over and patted Li Erniu on the shoulder. Now that something like this happened, everyone's emotions are very unstable and they are easily provoked.

He looked at the soldiers and said slowly: "It's true that I proposed these things, but did I give you an order? I'm not talking nonsense with me. You have to follow. It's none of our business. Are you all my subordinates?"

When Qin Yuan said this, the soldiers lowered their heads one after another. It was indeed when Qin Yuan started to speak that Kimurano was the most active. He wished he could be the first to rush to the scene.

Kimura's face turned red and white at Qin Yuan's words, he didn't know how to fight back.

Qin Yuan went on to say: "As for the gap that some people said, if I were a spy, I would have killed some stupid people outside the village long ago. Why bring you to this place? That's not torturing yourself?"

The captain of Ba Guo also stood up to support Qin Yuan. He felt that he followed Qin Yuan voluntarily, because he had dealt with Qin Yuan several times before, and he felt that this person was very reliable.

"Everyone, let me tell you everyone to think about it. To be honest, Captain Qin and the others treat me the strongest among us. Whatever you think, I'll follow him anyway."

The captain of the American country snorted coldly, "Hehe, I really can't see the strongest team. Who dare to say that we are the strongest here in the American country."

The captain of Ba Guo was just speaking out of good intentions, but he accidentally angered Mi Guo. He didn't want to make the relationship between the two sides so embarrassing, so he could only explain quickly.

"Captain of the United States, you don't have to be so anxious, after all, I am just my personal opinion."

"Then put away your stupid views, you frogs in the well, what do you know, if you say the strongest, we are the strongest."

Qin Yuan looked at the captain of the country of Mi very disdainfully, "I can't see the strongest one, but you are the ones who were injured first, and I also agree with the captain of the country of Ba, we are indeed the strongest."

The captain of the United States saw Fang Tian making fun of his injury, and pointed at Fang Tian angrily. He felt that since this was the case, there was no need to maintain the superficial peace.

Anyway, he has long disliked these people. What is the strongest, why not come and fight to see who is the strongest.

Li Erniu had long been displeased with them. Seeing the captain of the country of Mi raised his gun, he was not to be outdone, and directly pulled the bolt.

Qin Yuan can only stand up and stop it. Now is not the time to quarrel, and their behavior is too childish.

As a captain, he is the representative of the entire team. He must calm down now and get along with him to find a solution, because Lao Gao is still waiting for them to rescue him.

"Can you stop messing around now, this kind of behavior is really naive! We are here to rescue our respective officers, not to fight any more."

Hearing what Qin Yuan said, Li Erniu also silently put away his gun. It was true that he was a little impulsive, but it was because they provoked him first, that's why he was so impulsive.

Qin Yuan ignored the captain of the country of Mi and just sorted out his equipment, "All the members of the red blood cell team, now let's re-enter the place just now to see if there are other tunnels."

Gong Jian felt a little strange, "Captain Qin! But this side has completely collapsed, and it's useless for us to look for it."

"This is not certain. There may be other passages. After all, you have seen it just now. This wall can be moved at will. I still think there may be other passages."

Everyone nodded, and under the leadership of Qin Yuan, they entered the center of the village again, and the team members of Ba Guo quickly followed.

Seeing this situation, the other two teams felt that their willingness to say something made sense. Now this is the only clue, so let's look here first!

Kimura is in an embarrassing situation now, he doesn't know whether to follow up, but he has no other clues when he goes out, and the most sensible thing to do now is to follow the large army, after all, it is really dangerous to act alone.

He originally wanted to form an alliance with the country of the United States, but the captain of the country of the United States didn't care at all, and just turned around and left, ignoring him.

The captain of the United States also began to re-investigate, and he went in another direction.

Kimura's subordinates looked a little anxious, everyone had already started to act, and they were still standing in place.

"Captain, what should we do now? Should we act with them?"

"How is it possible! We definitely can't act together with them. That Qin Yuan just now was really arrogant. He said that we are not his subordinates. I don't believe that there is really no way to leave him. Let's look outside."

"Yes!"

In this way, the several teams were completely separated. Qin Yuan and the others searched the village for more than half an hour, but still had no clues. However, when he jumped into a yard, he found some fresh footprints.

Not only in the yard, but also on the furniture inside, although there is a thick layer of dust, there are a few clear handprints.

He was very excited about this discovery, and everyone rushed in and looked at the traces on the table with flashlights. It seemed that someone had moved the table not long ago, and maybe this was the entrance to the underground passage.

Qin Yuan asked everyone to be vigilant, and he began to try to turn the table. With the sound of clicking, it was indeed a mechanism.

But what surprised them was that it was not the tunnel entrance, but an earthen wall in the yard, which slowly sank like this. In the direction Qin Yuan turned again, Li Erniu said loudly in the yard:

"Brother Qin, this time the earthen wall has turned to the northwest."

Sure enough, the walls in this village are all movable, and this is how they manipulate them!

No wonder they only heard the sound of shooting just now, and those soldiers disappeared in an instant. They used the earth wall to block their sight and isolated these soldiers inside.

However, Qin Yuan also realized that it is definitely not good to go on like this. He suggested that everyone gather together and conduct a unified search of this place. After separation, there is a high possibility of being attacked.

Pug's captain nodded, and the two teams that followed in just now were searching outside, and quickly called together.

But now including Kimura and the American team, the remaining four teams have disappeared, which is simply too strange.

Qin Yuan and the others have already passed through the village, so they should meet them no matter what, but the village is very quiet, there is no sound at all.

At this moment, they heard footsteps coming from the darkness, everyone's flashlights focused on that direction, and Li Erniu and the others also raised their guns. No Thinking that the person who ran over turned out to be Kimura, he was ashamed and embarrassed at the moment.

Seeing Qin Yuan and the others holding their guns at him, he was very scared, and quickly shouted: "Don't shoot, you are all your own."

This kid still knows his own people now, wasn't he quite arrogant just now?

But now I can't control so much anymore, Qin Yuan stepped forward and asked: "Why are you alone, where are your subordinates?"

Speaking of his subordinates, Kimurano's eyes darkened instantly, "They were all taken away, and they are probably dead."

Everyone was shocked when they heard the answer. How is this possible? Although everyone searched separately, the village is very quiet. If there is any movement, they can hear it. How is this possible?

Kimuraye and the others were originally patrolling outside the village. There was a grove outside the window. They walked in front and felt someone was following him. They thought it was Qin Yuan and the others who followed, but they were suddenly attacked.
