

Special Soldier 901

Chapter 901: ?1 acting

At this moment, Kimura was panting heavily on the ground, took a water bottle handed by a soldier, drank a few sips of water, and then said slowly: "This group of gangsters are really fierce, they have definitely received professional training, I suspect that they It's mercenaries."

Everyone was shocked when they heard this result. Before, they thought they were ordinary gangsters. If they were mercenaries, the difficulty would increase.

Li Erniu stepped forward with a smile and looked at Kimura, "But I said, captain, did you just leave your subordinates behind and escape alone?"

Hearing Li Erniu's ridicule, Kimura could not care so much at the moment, after all, it is very important to save his life.

"You don't understand at all. In that case, two of my subordinates fell directly in front of them. The weapons they used were all cold weapons, and they didn't make a sound at all."

Hearing this, Qin Yuanye became serious, and asked Li Erniu not to interrupt, and let him finish the situation first.

At that time, they were ambushed and wanted to retreat quickly, but when Kimura and the others were about to shoot, the other party was faster than them and disarmed them immediately.

Qin Yuan interrupted suddenly: "You mean they took down your guns and then arrested you?"

Kimura nodded. After the two soldiers in front of them fell down, the people behind them and the gangsters didn't hurt them, they just shot their guns, and then planned to tie them together. Taking advantage of this opportunity, Kimura escaped .

"Strange, the behavior of these people is really getting weirder."

Hearing what Qin Yuan said, the captain of Ba Guo couldn't help asking: "Captain Qin, what do you think is so strange?"

"Think about it, the main target of this group of gangsters is our military representatives, but since we came here, have you noticed that some are missing or injured, but we haven't seen the real death. "

Speaking of this, Kimurano suddenly retorted: "Why didn't they die, the two subordinates in front of me were killed by them with knives."

Qin Yuan shook his head, "This black light is blind, are you sure your eyesight can see that they were really killed, or were they just brought down!"

Kimura was a little skeptical when he heard what Qin Yuan said. Could it be that he really made a mistake just now? But these people tied them all up, what is going on?

But Qin Yuan understood a little at this time, he was a little suspicious, this might be a good show that Lao Gao played with them.

But looking at these people in front of him, he is not easy to break. After all, he does not rule out the possibility. If Lao Gao and the others are really kidnapped, it is still important to save people.

And the most important thing now is that the entire team of Mi Country has disappeared, so there are only five of them left, and everyone panicked for a while.

The captain of Country A suggested, "Brothers, or else we should go back now, or wait here until dawn, it's too dangerous."

The soldier next to him was not happy, and he stood up and retorted: "Go back? What are you thinking? Don't you ignore our chief?"

"Now is not the time to take care of them. Even we are in danger. Didn't you see that a team from the United States disappeared quietly like this, and the team from the Xiaomao State also did the same."

"Hehe, I think you are a coward. If you want to go, you can go by yourself. I want to stay here and look for my officer. You people are really holding me back, so I don't care."

After the captain of this team finished speaking, he led his team into the center of the village. He didn't want to waste any more time here. He wanted to find out what was handed to him now. He moved towards the buildings in the village like crazy. Throwing grenades.

Qin Yuan shook his head when there were bursts of explosions, this man is really crazy.

Now everyone's emotions are very unstable, the captain of country A feels that the current situation is too dangerous, and it is not worth their continued risk.

Because he felt that if this continued, everyone would be wiped out, or they would gather together and wait until after dawn, then go out and find a team to come in, and make a decision after dawn.

But after all, there were different opinions in the team. They quarreled with the people next to them, because the people next to them thought that the incident happened in their country A, and he wanted to escape responsibility even though he was here.

"I really didn't know you were such cowards. Your cowardly behavior made me feel very shameful. Our chief disappeared with you, and now you want to shirk responsibility."

"Can you pay attention to what you say? What does it mean to shirk responsibility? Our chief is also missing, okay? I'm just thinking about everyone now, and I don't want to make more sacrifices, do you understand?"

For a while, the team started to quarrel again. Qin Yuan felt that his head was going to grow big.

When there are too many people, there will be chaos. Like them, they will only quarrel non-stop, and they will shirk responsibility when they encounter any problems.

At this time, Qin Yuan stood up and shouted loudly: "Can you calm down? Listen carefully, the explosion inside has not been heard for a long time."

Speaking of this, everyone was stunned. That's right, from the very beginning they entered very loudly, and the sound of explosions along the way shouldn't have stopped so quickly.

Could it be that they were killed too? Thinking of this, everyone ran in one after another, and sure enough, the team disappeared again.

The captain of country a couldn't take it anymore, his spirit was already in a state of collapse. In the current situation, they could only rely on the light source in the flashlight, and the surroundings were full of unknown fears.

He shouted loudly: "You lunatics, I don't know where you are, come out if you have the ability, don't hide."

Then he rushed into the village suddenly, Qin Yuan yelled that it was not good, and hurriedly led the team to rush in, and the soldiers of country a quickly followed his captain.

Seeing that Qin Yuan was about to catch up with the captain of country a, a wall suddenly appeared in front of him, blocking Qin Yuan's path, so he stretched out his foot and kicked down the earthen wall in front of him.

He really has had enough troubles this night, these people are so mysterious, and the people rushing out next to him are completely dumbfounded, they were going to catch the captain of country A, but they didn't expect Qin Yuan to be so fierce, so he just shot Kicked over the wall with his feet.

Qin Yuan snorted coldly. Sure enough, these people showed up. His speed was very fast. He rushed directly in front of a man in black with one lunge, and fell over his shoulder.

The two men in black hurried up to help. I have to say that the two men in black are quite fast.

Qin Yuan kicked a black man on the shoulder, and he flew out heavily, fell to the ground and let out a scream, but Qin Yuan felt a little familiar with this scream.

At this time, the person in front of him suddenly threw a smoke bomb, and then retreated quickly. Qin Yuan could see the direction clearly in the smoke bomb, grabbed the black man and tore off his mask, unexpectedly it was Long Baichuan.

When the four eyes met, it was really awkward, Long Baichuan sat on the ground with a smile, Li Erniu and the others also rushed up, what is the situation? If this is Long Baichuan, who flew out just now?

At this time, the man in black who flew out stood up holding his chest, cursing, "Qin Yuan, your feet are not light or heavy, I can't stand this bone! Cough cough!"

The person who spoke was Gao Shiwei. Seeing the incident revealed, several men in black beside him also took off their masks, and they turned out to be the officers of the military representatives they had disappeared.

what's going on? Everyone is dumbfounded.

Qin Yuan understood, he looked at Gao Shiwei with a smile, "Old Gao, if I'm not wrong, this is another exercise trick you played, and you tricked everyone, and this time I really believed it, I didn't realize it until just now, it might be you acting."

"Hey! You don't know and want to deceive you, little fox, but it's not easy. I didn't even tell Fan Tianlei this time. No one knows about this operation. Only a few of us know about this operation."

Fan Tianlei felt that his face was full of black lines. This guy even lied to himself. Thanks to his worried face on the plane, he almost cried.

No wonder these people didn't hurt them when they came in just now, and what they didn't expect was that Qin Yuan thought of the tunnel immediately, so they had to quickly get the tunnel, he didn't want Qin Yuan to come in.

Immediately afterwards, I wish they would engage in internal strife. Only after internal strife will there be differences, and when they have differences, they will be broken one by one.

Originally, these officers were already in the cards, but they didn't expect Qin Yuan to have such a strong leadership at the critical moment.

Unexpectedly, this turned out to be an exercise planned by them, and everyone realized it. At this time, Emily came out of the village applauding.

"Captain Qin, you are really good. It is very difficult to deceive you, because your reaction is too fast."

Qin Yuan laughed loudly, "To be honest, I was deceived by you, what kind of game are you playing?"

"This is an exercise we planned. We want to select the strongest team, because the strongest team is qualified to complete this mysterious task. It seems that it is Captain Qin, your team Excellent."

Kimura was completely stunned. He was sitting on the ground at this moment. He didn't expect it to be a drill. It was really embarrassing. He ran away so quickly just now.

Then several top officers also came out. They were still very satisfied with the result of this performance. In fact, it was a kind of confrontation between these officers and their subordinates. Qin Yuan did not expect to know it first.

Yuan Guo's military representative walked up to Gao Shiwei and said, "I didn't expect that, Captain Gao, your people are still so good. We are really willing to bow down."

This is indeed because their team was caught immediately, followed by Kimura and the others. At this moment, the captain of the country of Mi walked out of the village with a dark face. He did not expect this to be the case.

He claimed to be the strongest before, but he didn't expect to be caught, and judging from this exercise, Qin Yuan was indeed able to lead the victory.

Emily stepped forward happily and announced the result of this exercise. Qin Yuan and the others won the first place, and they were also qualified to participate in the mysterious mission.

"Because the task this time is to eliminate the internationally notorious Hifant pirates!"

Hearing this name, the people around took a deep breath. They didn't expect that the international community would still attack this organization.

Everyone has heard of the name of Pirates of Heifante. This guy has been a pirate for more than 30 years, and then you used the assets you plundered when you were a pirate to directly establish the largest gangster company.

They turned gangsters into corporations. Because of their strong financial resources and strength, the government can't compete with them. They can only turn a blind eye. I didn't expect that the strength of this black spot has gradually grown. , Gradually threatened the status of the government.

There are four to five hundred people in his team, and these people are almost doing all kinds of evil, forming their own forces in the southeastern region of the United States.

Their existence is not only a threat to the local government, but they even robbed the army's supplies before. At that time, they showed their sufficient firepower resources, so they asked for help from the international side, hoping to send the strongest team.

This organization lives up to its reputation, so it needs a team to lurk in first, and then cooperate with the inside and outside, otherwise it is impossible to know how much their military strength is.

Before that, they also sent teams to lurk into this organization to find out the news, but it was not that easy, and all of them were seen through. Now the organization's defenses have been strengthened.

So they held such an exercise, wanting to select the strongest team, and this exercise was proposed by military officers from several countries, they also wanted to see the strength of their subordinates.

The representative of the United States shook her head, she had to admit that she was too arrogant to be unscented.

"Captain Gao, I didn't expect you to win this time, but we were also convinced that we lost. I didn't give up. I really have to change it. This is too proud."

Gao Shiwei is very proud now that he has such excellent subordinates, but at the same time he is also very worried, because winning the first place means sneaking into that pirate organization, which is very dangerous.

The captain of the United States held his injured shoulder. He was really the only one who was injured during the whole process, but that was also an accident. Everyone had planned it. He didn't expect that he would suddenly go uphill, and the arrow hit him.

At this moment, he looked at Qin Yuan viciously, and made this kid show off all over again, but the first place is not good, to put it bluntly, the first place is to die.

He knows that organization very well. His previous captain led a team to destroy that organization, and then the whole team died. The strength of this organization is not that simple.

Chapter 902: ?? sneak into action

He wished that Qin Yuan and his entire team would set off now, so that the organization could wipe out Qin Yuan and the others.

But now they are not in such a hurry. After all, the time is not yet. Now everyone will go back to the previous training camp, and the players from other countries will also stay. To sneak into this organization.

Seeing that everyone else had left, Gao Shiwei was still standing there, Long Baichuan still felt a little strange, just now this old boy had been standing there, and others praised him, but he kept laughing without seeing him expressing anything.

Now, with a painful expression on his face, seeing Long Baichuan walking towards him, he quickly stretched out his hand and asked Long Baichuan to support him.

"I'm sure I can't finish this matter with Qin Yuan, that stinky boy. His kick really gave me a flash in the waist, and now I can't move at all."

Li Erniu and the others kept laughing beside him, but when he didn't expect to make Lao Gao suffer, Qin Yuan also ran over with a smile, "Captain Gao, I don't know, after all, I usually attack the enemy The heavier ones, thank you for your quick response just now, otherwise the throwing knife in my hand would have been thrown, and you would have..."

"What's the matter with us, let me tell you, brat, your brat is really not serious, but fortunately I am agile, otherwise I think my shoulder bones will be broken."

Qin Yuan couldn't help laughing when he heard this, and was kicked out by himself. How dare he say that he is agile?

But this time, it was true that they didn't say hello at all. Qin Yuan put his hand on Gao Shiwei's waist calmly, and the healing power in his hand slowly entered Gao Shiwei's waist.

Gao Shiwei, who was cursing just now, suddenly felt a warm feeling in his waist, and then he moved a bit, and the pain stopped.

When he lowered his head, he saw Qin Yuan's hand quickly leave his waist, and then ran over with a smile to urge Li Erniu and the others to pack up their equipment and get ready to go.

This kid is really hiding his secrets. He has heard that it uses silver needles to treat other people's diseases. When did he ***** himself, he didn't feel it at all.

But now that it has been recovered, these are not important, what is important is the matter of the pirate organization, and now Gao Shiwei is in a dilemma.

After getting in the car, Long Baichuan sat next to him. He had heard of this pirate organization. It was also very rampant on the high seas before. Their Marine Corps also participated in several raids, but all ended in failure.

At that time, this pirate organization was very good at sea battles, and because of the extra money that came from everywhere, the boss was also deliberate, and almost all the money he robbed was bought for guns.

Later, with the growth of their naval power, the naval strength of several surrounding countries gradually increased. This group of pirates knew that they could not survive at sea, so they moved to land.

That time they carried out a large-scale siege. They thought they had completely wiped out this pirate organization, but they didn't expect that it was just a small team of them.

At that time, Xifante and these people came to escape the shell with a trick. He moved most of the soldiers and horses to land, fled around, and then used those properties to form his own power, which developed rapidly.

Now they have formed a family business. He has three sons who are in charge of their gang business. Hefant was cautious in doing things because he was exterminated before. Give it to the sons to deal with.

These few sons can be said to be very arrogant, and their own soldiers and horses are strong, and they directly robbed more military supplies last time.

In addition, they robbed the shops of their expats before. In order to avoid the harm of those people at that time, Long Baichuan and the others also organized an evacuation operation.

Evacuate all the expats in that area, because it was true that they were not strong enough at the time, but it is different now. They are strong enough to completely wipe out this pirate organization.

However, it is too dangerous to rely solely on Qin Yuan and the others to form a team. Long Baichuan said solemnly: "Well, it's not enough for them to be the only team. I'll call those boys from our Marine Corps."

Gao Shiwei shook his head, "This infiltration operation is very dangerous. I can't trap more soldiers in, and the fewer the number, the better. After they enter, they don't want to completely destroy these organizations, but do something inside. Well prepare for the response, we will cooperate internally and externally."

"But this is too dangerous, can a few of them do it?"

Qin Yuan was sitting in the back seat, he felt a little strange, if that was the case, why did he do any infiltration? They have so many people and so many teams. To be honest, everyone is a member of the Special Forces, so it's okay to just fight in.

Hearing Qin Yuan's doubts, Gao Shiwei smiled, and then handed Qin Yuan a map, "Look at this map first! This place is easy to defend and difficult to attack. Their local military has attacked several times. But there is no flaw at all, not only that, their counterattack and revenge are even more frenzied."

After all, these people will not come to fight the government army in an open and honest manner. They all attack innocent civilians and cause attacks everywhere. The local officials are also very troubled.

Qin Yuan snorted coldly when he heard this, "Hehe, it's just a bunch of trash who only attack civilians. If you have the ability, come face to face with us soldiers."

Speaking of this, Qin Yuan really hated those who attacked those unarmed civilians, but he looked at the map carefully, and had to say that this gang organization really developed very fast, and the scope of influence was so wide.

Gao Shiwei went on to say: "Not only that, they are full of eyeliners. There is a slum next to their camp. The situation there is very complicated, so every time the government forces make rash moves, they can know in advance."

Looking at the map, if Qin Yuan and the others want to attack, they must pass through this slum first. There are not a few people in this slum. It is really too difficult to avoid so many people without being discovered. This is impossible. .

So this requires someone to cooperate internally and externally. Qin Yuan and the others need to sneak in and control the main members of this gang organization. It would be even better if they can be taken down.

To put it bluntly, this is also a coordinated operation, but Qin Yuan and the others are more dangerous because they need to enter the core area.

Qin Yuan also knew what Gao Shiwei was worried about. Judging from their drills just now, several teams really had a big prejudice against Yan Kingdom, and wondered if they would play some tricks then.

Long Baichuan was more open-minded, he felt that this was an international action after all, no matter how prejudiced these people were, they would not turn their faces on the spot.

"We can't think of the problem so simply. After all, you have seen the previous situation. Under such a dangerous situation, they are still fighting among themselves. It is really too difficult to organize this loose sand together. ."

But there is no way around this situation now. After all, this is what they promised at the time. It was a unified action organized internationally. What Gao Shiwei thought at the time was that according to the strength of the United States, he should be able to tie for the first place with his team.

Unexpectedly, such a thing happened, and Long Baichuan suddenly understood when he heard this.

"All of this is just a trick they played. I said why the arrow shot at the captain of their American country in an unbiased manner. It is probably the fault of their representative."

Only in this way can the team of the United States be preserved to a greater extent. These people are really insidious. After all, everyone knows that the team that sneaked in is almost dead.

Gao Shiwei sighed, and then said: "The more important thing now is that after Qin Yuan and the others go in, we still have those teams that will become their logistical support. I'm sure there will be no problem. I'm really afraid that when the time comes What's wrong."

Qin Yuan didn't think too much about it. After all, he didn't count on these so-called backup teams at all. He could directly bring his own team inside to wipe out all these people.

Although the situation inside is very complicated and there are a lot of people, it should be no problem with my own ability. The most critical factor now is to find a suitable opportunity to sneak in.

Gao Shiwei told Qin Yuan that all of this was arranged by Emily. Emily and the others are indeed the largest security company in the world, and important leaders of many countries have their personnel present to protect them.

They also had a way for Qin Yuan and the others to successfully complete the infiltration operation. While speaking, they had already returned to the training camp at that time.

When I came here before, several teams were in a mess together. After all, everyone was worried about the situation of their respective officers. Now under the leadership of the officers, they are quite orderly, and they all lined up.

Emily shook her head. These people were just pretending. At critical moments, the one she admired the most was Qin Yuan from Yan Kingdom. He could not only find key clues in critical moments, but also stabilize the morale of the army.

Such a talent is really rare. To be honest, she also has her own selfishness, and she doesn't really want such a person to carry out sneak operations.

Although she knew that if he sneaked in, the success rate would be much higher, but she didn't want such talents to die in such a battlefield.

Emily had no choice but also introduced on stage that the rules of this operation were the same as what Gao Shiwei and the others said in the car. The other teams were mainly responsible for supporting and cooperating outside, and then Qin Yuan and the others needed to sneak in.

This can also be regarded as a swearing-in meeting, but the specific action time has not been announced yet, just let everyone wait in the camp for arrangements.

The team had just been disbanded, and everyone was assigned to different dormitories. Qin Yuan and the others, as the first team, of course did not live in the same place as them, but lived in a five-star hotel nearby.

And on the other hand, the tasks they perform are also the most dangerous, so they should enjoy the best treatment.

Kimura came over, and said in a strange way: "I really don't know whether you are lucky or unlucky? Captain Qin, I wish you good luck anyway, and I will definitely help you on the periphery."

Qin Yuan knew that this guy was just here to see the joke, and the meaning behind the words, it is estimated that he would not make much effort on the periphery.

He also just made superficial efforts, "That's really thanks to Captain Kimura, you should also pay attention, after all, it is very dangerous to be on the periphery, so don't run away like this time."

Hearing that Qin Yuan poked his sore spot again, Kimura's face turned red with anger, and the general of Xiaomao country was even more angry. Seeing this guy go out and lose face again, he told him to get back to the team immediately.

Several teams had their own thoughts, and the only ones who really came forward to care were the representatives of the Ba Kingdom. They had dealt with Qin Yuan several times and were very familiar with them.

The captain of Ba Guo said helplessly: "To be honest, I really don't want you to get the first place. The first place is really boring."

Qin Yuan stepped forward and patted him on the shoulder, "It's okay, don't worry! I have saved myself from danger so many times, and something like this has to be done by someone."

This is the real hero! I really admired him too much, and the captain of Baguo even expressed his deep respect. No matter what, he will definitely do his best on the periphery.

The American side had just returned to the dormitory they assigned, and they immediately discussed it. All of this had long been expected in their plan.

The only one who was kept in the dark was the captain of the American country, and now he understood the good intentions of his chief, which was to get them out first during the exercise.

Then let the other teams take the first place. Originally, they wanted to keep Yan Guo's team at the end as planned, but unexpectedly, Qin Yuan was ahead of their plan.

"Hahaha, this idiot Yan Guo thinks he won the first place, this time is a good opportunity to eliminate their strength."

After all, they have also dealt with Yan Guo several times. Yan Guo's military strength is getting stronger and stronger, especially Qin Yuan's team that suddenly appeared now.

Under the leadership of Qin Yuan, their red blood cell team in Yanguo has already made a name for themselves internationally, and many important tasks have been entrusted to them.

All this has deeply threatened the United States. This time, the international extermination of this pirate organization was originally what they expected, but they wanted to use this opportunity to eliminate another strong opponent.

The military chief of the United States is smiling proudly at this moment, "Remember, even if they sneak in and are on the periphery, if they say they want to launch an action, they will pretend to attack me."

"Hahaha, sir, your trick is really good, let them fend for themselves inside!"

A military officer next to him raised his doubts, "But will the international people see us like this, and what will we do if we are caught by them?"

"Hehe, when the time comes, no one will care about us. This opportunity is very good, we must not let it go."

Chapter 903: ?? into the slums

The genius remembers the address of this site in a second: [<https://>The fastest update! No ads!

Although the captain of the United States was angry that he was injured during the exercise and was ridiculed by those people, he thought about it, if he could completely wipe out Qin Yuan's team during this confrontation.

Then they will have no worries in the future, and at that time is the real revenge, he has already foreseen the scene where Qin Yuan begged him bitterly inside.

At this time, the top official of the United States suddenly said seriously: "Although our plan is like this, we still have to ensure that the pirate organization can be completely wiped out. That is better. Try to consume them first, and then the secondary tasks are delayed." Defeat that Yan Kingdom army."

Hearing this, he didn't understand. Could it be that his chief really believed that those strict soldiers had such great abilities? This is simply impossible.

They have wiped out that pirate organization so many times, and it is not unreasonable for them to exist for so many years. Their eyeliner is placed everywhere, and he even suspects that their team has their eyeliner.

That's why this pirate organization has gradually grown, and now it's time for the international community to come forward to solve it.

Although he also saw the strength of Qin Yuan and the others during the exercise, if he wanted to confront such a huge organization, he probably still had a long way to go.

Qin Yuan and the others still don't know about these people's conspiracy at the moment. Everyone has their own thoughts. They were arranged in a five-star hotel. The accommodation and eating conditions are indeed very good, but Gao Shiwei has always looked sad. .

Li Erniu is a heartless person. He ate the steak and said, "Don't worry, Captain Gao. Our Brother Qin's strength is absolutely fine. When the time comes, you will be outside to support us. Let's fight together inside and outside." Bright, and then go home together."

"You guys really take the problem too simply. What I'm worried about now is not only the strength of this organization, but also how many teams can really contribute when we play peripheral battles later."

Qin Yuan picked up the black tea in front of him and took a sip, "Captain Gao, I think we worry about this matter a little too much. As for the strength of that organization, I haven't paid much attention to it. If I can solve the peripheral problems, it will be fine."

He also agrees with Lao Gao's guess, but he thinks that when he goes in, he will solve them all inside, and then they don't need to go in and participate.

In this way, he no longer has to worry about unexpected situations that will happen outside. Even though he said so, he still picked up the information in front of him and read it carefully. He had to learn more about the specific situation of this pirate organization.

There has been no news from Emily, and it is estimated that they are trying to get them in. The most important thing is the problem of the slum. No matter where they look from, they have to pass through the slum.

It was relatively easy for him to bring the red blood cell team in, because the number of people was small, so there should be no problem. Even if Gao Shiwei and the others wanted to fight outside in the later stage, it would be impossible for no one to notice.

Qin Yuan finished the black tea in the cup, then got up and prepared to go out.

He Chenguang shouted from the side: "Brother Qin, where are you going?"

"I want to go to that slum to see in person. Although I said to Emily, there are some things I still want to see in person. This is more secure."

After all, Qin Yuan is going to lurk in with the members of the red blood cell team this time, so he has to consider the retreat route for the team and the situation of being exposed inside.

"Brother Qin, I'll go with you!"

Qin Yuan shook his head, he planned to go alone this time, and he didn't want to expose so many targets, and if he went, he mainly wanted to see the retreat route and the forward route, and he didn't know what Emily was doing there. Moths, able to sneak them in.

"You guys just stay here. It's not good to be more popular. I'll come back as soon as I go, and I won't be found."

Gao Shiwei also agreed to let Qin Yuan go and see for himself, and with Qin Yuan's skills, he was quite at ease.

After all, they are still in country A. The pirate organization is hiding in the country of America. Qin Yuan is not afraid of trouble. There are some things that he wants to see for himself. In this way, they went all the way and finally came to the country of America.

After Qin Yuan got off the plane, he bought a set of clothes locally, and when he came out of the alley, he completely changed himself. This time, Qin Yuan disguised himself as a drug addict.

After he came out, he kept yawning and walked towards the slums. After all, the performance was about to start now. There were snakes and dragons in the slums, and there must be eyeliners of pirate organizations in the slums, so he had to be careful.

There are too many addicts dressed like Qin Yuan in the slums, no one noticed him at all, it was just over 1 o'clock at noon, and most people were leaning outside to bask in the sun.

Qin Yuan also wandered aimlessly and saw a lot of people. The living conditions here are really too chaotic. There are more than a dozen people squeezed into the small space of one-story houses built with broken wooden boards.

It's hard to imagine, after all, the United States is glamorous on the outside, looking at their such a developed economy, there is such a dark side.

There is no law and order at all here, and some gangsters outside are holding guns at hand. This situation is also a high-incidence area for crimes, but although they are holding guns, the people around them did not show much panic.

So it shows that these people are the people in that gang organization. To put it bluntly, they are also responsible for the security here. If this is the case, they protect these people, and these people become their free eyeliner.

After people like Qin Yuan came in, they didn't notice it at all. After all, there would be countless addicts like this in a day here.

On the contrary, if people dressed brightly or found that people in uniforms entered here, those people were very nervous, and the people around them were all staring at those people closely.

Qin Yuan turned the slum completely around, and he couldn't get through any further. A high wall was built a few hundred meters away from the slum, and the other side of the wall should be the territory of these gangster organizations.

According to Emily's introduction, this gang organization has anti-missile devices and anti-air attack equipment here. This is quite beyond Qin Yuan's expectations. Such a small organization has such a large organization. military countermeasures.

You must know that many countries do not have this kind of anti-missile equipment, so the United States has carried out many raids and exterminations, but they have not eradicated this organization.

Although a fence was built, it was difficult for Qin Yuan. He found a suitable position and leaned down. No one around him paid attention to him. He opened his own perspective eyes.

The inside is really heavily guarded. The weapons they use are uniform submachine guns, and high-tension lines are installed all around. This is only part of what he saw.

The scope was too wide, and he couldn't see clearly what was going on inside, but there were always mercenaries patrolling inside, Qin Yuan rubbed his sore eyes, and continued to look inside.

In order to see further away, he opened his eyes wide. After passing through the patrol team, the inside was like a small town, with shops and streets.

It can be seen that their boss really has a set of management skills. The life inside is orderly, and the defense is also very strict. More importantly, not only this, there is actually a road behind the high wall. waterways tens of meters wide.

These people are really cunning. Although there are surveillance cameras installed everywhere, if there is a waterway here, if you destroy the surveillance and plan to enter from here, you have to go into the water and there will be a sound.

The people above will be alert, this is only the first line of defense, it is not worth being so close, it is conceivable that their boss is really very cunning.

After all, this pirate leader has been fighting for so many years, and has competed with soldiers from all over the world, so he has also figured out some of their combat plans. It can be said that this old guy can be regarded as half a general.

Can't see anything else, Fang Tian stood up, lazily, and was about to go back. He didn't know the escape route inside, after all, he hadn't gone in yet, but if he wanted to cross this high wall, he guessed there was something inside. organ.

He has figured out the situation in the slums outside. If he wants to escape, he can use the alleys here. If there is any accident in the back, as long as He Chenguang and the others run into these alleys after they come out, they will be safe.

Seeing the seriousness of the situation this time, Qin Yuan also wanted to act alone, but it was precisely because of the seriousness of this incident that the international community required the whole team to set off.

Because it is no longer their own business, what they have to fight is to cooperate with the people outside the station to cooperate with them, and they also need to cooperate to pass information to the outside people.

After Qin Yuan went back, he told Gao Shiwei what he had learned, and he felt that the problem was not serious.

Gao Shiwei was stunned when he heard that there was a waterway tens of meters wide inside the wall. They never told him about this situation in the US side!

These people have dealt with these pirate organizations several times. After all, they have fought several times. It stands to reason that they should know their situation better.

But the news from the United States from the beginning to the end is that these people are very strong, and the others don't seem to provide any effective clues.

The most important information like this was obtained by Qin Yuan. If there is such a long waterway, then he has to think carefully about how to get there. Even if they pass through the slums quietly, they have to cross this waterway without being discovered. That is impossible.

Long Baichuan was also a little angry, "What's the situation? What else are they hiding from us in the United States? They haven't told us the real situation until now."

Li Erniu stood up immediately when he heard this, "I think these **** just need to take care of their things. We are going to fight with others. They don't even say the specific situation. I'll go find them now."

Qin Yuan pressed Li Erniu down, and this kid's temper was broken again, "Now you go to him, what will he tell you, is it really going to be a fight with them in this situation?"

"But Brother Qin, you see, they are clearly bullying people, and I really think it's like Captain Gao said, what if they don't help when the time comes?"

"I didn't expect them to be of any help at first. I guess they won't come out until we have cleaned up all the people inside. I have seen through these people a long time ago."

Qin Yuan turned around and told Gao Shiwei that they must be careful, after all, anything can happen in the periphery.

Three days have passed like this, and there is still no news from Emily. Gao Shiwei now even hopes that there is no way for Emily to let Qin Yuan and the others sneak in, which means that this operation cannot be carried out. Qin Yuan They will be safe too.

I didn't expect that the more people are afraid of anything, the more they will come. Gao Shiwei was relieved, but Emily came.

Seeing her look very happy, she seemed to have resolved some important matter, and walked over beamingly, "Warriors, get ready! It's time for you to perform."

"Emily, what's going on here, please tell us in detail, so we can prepare."

Emily nodded, and handed them the document bag in her hand. After all, they are the largest security company in the world, and they will take on all the tasks. catch.

Although Qin Yuan despised their actions, after all, they also secretly protected many people who deserved to be killed.

Speaking of this, it was only after Qin Yuan opened the files that he discovered that all of them had a new identity, and they mixed with other people into this gang organization.

Emily pointed to the situation on the information and said: "You need to change your identity this time, we have sent the largest security company to cooperate with them internally."

Li Erniu frowned This is what he dislikes the most. If you use your own identity, you won't worry about calling the wrong one. If you want to adapt to the new identity, you have to prepare too much. too much.

"Emily, I'm sorry to say it bluntly, you guys have too many tricks, and these people have never seen us, so it should be fine for us to use our identities!"

Emily smiled, "It seems that you all really don't understand your worth at all."

After she finished speaking, she took out another piece of information from her bag, which was the information on the killer list. She didn't expect their security company to have this.

Qin Yuan took the information and looked at it carefully. He is now ranked first by these killers. It seems that he has offended many people in recent years.

And the amount of reward offered later is also very high. Before he looked at it, he remembered that he was worth 20 million, but now he turned over and got 200 million.

But even so, no one has ever taken over this list. After all, he has never encountered any killer organization.

Chapter 904: ? Super memory

So seeing this list, Qin Yuan smiled, and Emily felt a little strange. Normal people see their names listed on the killer list, and become the bounty list of those killer organizations. No matter what, there will be Worry about it!

But the person in front of him felt a little ridiculous, and didn't care at all when he saw this kind of thing.

"Captain Qin, don't you feel scared or worried when you see these things?"

He Chenguang said first from the side: "Hahaha, you are paranoid about your worries. We feel quite proud. After all, we are their nemesis. They don't even dare to take this list of killers. From now on, we, Brother Qin, will only It's going to get better and better."

After all, no matter how good Qin Yuan's secrecy work is, someone will investigate and leak it, just as they hold the information of these criminals in their hands, similarly, their information is also held by those criminals.

So seeing such a situation, Qin Yuan was not surprised, even thought it was a little funny, and jokingly said: "Emily, how much money can you make as a security company, or you can still earn money if you just send me out." Two hundred million."

Seeing Qin Yuan's unscrupulous answer, Emily's face was dark. This guy really didn't take his own life seriously. What she didn't know was that Qin Yuan was very confident that no one could hurt him.

"Forget it, I won't tell you this now, so this is the purpose of camouflage. After all, you are all so famous, you must carry out some basic camouflage."

Fortunately, they didn't have any specific information about the other members of the red blood cell team, they only knew their names and Qin Yuan's photo.

So in the whole process, as long as Qin Yuan prepares the disguise equipment alone, the others only need to keep their identity information in mind, so as to avoid mistakes during the interrogation process.

After Emily finished speaking, she sent another document to each of them. Li Erniu felt dizzy when he saw the thick document. What's going on? Don't you want them to pretend? Why did you send them so much information.

As soon as he opened it, he was completely shocked. The person he was going to play was named Liu Ming. At first, there were basic information about this person, and then there were this person's living habits, catchphrases, etc., and there were more than ten pages recorded. In detail.

Qin Yuan was also slightly shocked when he saw these materials. As expected of the largest security company, they are so meticulous in their work.

Emily said with some pride: "These are our daily jobs, but you must be familiar with the specific situation and identity information of these people now. You are going to play them now."

Emily's plan is to let Qingyuan and the others sneak in as security personnel, because recently, there have been constant wars between the gang organization and the local government forces, and ammunition consumption is very high.

They used to go out to **** them by themselves before, but this time the situation didn't allow it. Although the pirate leader at the beginning didn't care about these things, under the influence of the recent situation, he guessed that the military must have a big move.

So make full preparations, the most important thing is to prepare weapons, ammunition and other things, they will definitely not be able to go out and transport them by themselves, so they found the most famous security company in the world.

Emily's security company is originally, as long as there are customers, as long as the money and price are in place, they will accept all tasks.

Speaking of this, Qin Yuan was quite curious. Since this is the case, why did they suddenly turn against the water and suddenly cooperate with the international side? This is a bit unreasonable.

Emily knew that Qin Yuan couldn't be fooled. This person had too many questions, and his reaction was quick.

"Well, let me tell you the truth, because our company protected a person who shouldn't be protected before and offended an organization, and now that organization is also hunting us down, it's ridiculous, we were supposed to protect others, I didn't expect to be hunted down by people now."

When Emily said this, she continued to talk about the previous incident. After they offended this disposal, as long as it was a place where their security company passed by.

All customers will be destroyed, even if they have no hatred against this organization, as long as they are under the protection of their security company, they will kill people.

It greatly affected the reputation of their security company, and more importantly, because this matter cost them a lot of money, and that organization was too powerful, so they could only turn to the international community for help this time, and they chose to cooperate with the international community. Then the international community also helped them eliminate that organization.

It can be said that both parties are together for the sake of profit. Qin Yuan looked at Emily and asked suddenly: "Since this is the case, there is no need for you to spend a lot of time choosing to cooperate with the international community and offend a big gangster. Isn't this going around in circles?" ?"

Speaking of He Chenguang, they also reacted, staring at Emily closely, this woman doesn't seem to be telling the truth! That's true, they don't need to offend people on both sides at the same time, and now they can't guarantee that this gang organization will be completely removed from the international community.

Emily could only stick out her tongue, but she didn't expect that everything could not escape Qin Yuan's eyes.

"Well, there is really no way, because the leader we played has changed, and everyone's plans need to be changed. In the future, we may cooperate with international earning organizations. As for those who should not be protected, even if they are given to us No matter how high the price is, they will not come forward to protect them."

It seems that they are planning to wash their hands and become a real security company, which is to protect the safety of the leaders of various countries, but it will definitely offend most people in the world, especially those criminal organizations.

Therefore, they need the support of the strongest military force in the world. To get this support, they choose to cooperate with the international community and become international organizations.

Qin Yuan was a little worried when he heard this. Usually, like this, we are together for the sake of our mother, especially for such a beneficial purpose. It is estimated that it will be really difficult to do anything later. They are all in a state of disunity, and we are together for the benefit. .

So she was very worried about whether they could lurk in. When it came to Emily's conversation, she suddenly changed the subject. Although their purpose was not pure, everyone was out for profit, but she could guarantee that their business would be fine.

Emily said very confidently: "You must believe in the strength of our security company, and it will definitely allow you to sneak in, but you really must memorize it, these materials are very important."

Qin Yuan nodded, then he has to see how strong these people are, and he can read all his information after just a few glances. The person he wants to play is quite similar to him in character, both Leadership talent.

Now that the problem of sneaking in has been solved, he is now a little worried about Gao Shiwei and the others who are on the periphery.

Amy looked at Qin Yuan and frowned. She had a good impression of Qin Yuan before. After all, this person has a quick reaction and good strength. I didn't expect to simply ask him to memorize the information now. Be patient, just flip through a few pages and leave it there.

These materials and their research on this plan took a lot of effort, especially the overall data. They selected different personnel according to each person's different situation, which is fully equipped.

That gang organization is very cunning, even if their security personnel will definitely go through interrogation after entering, if they don't memorize the information by heart and delay the plan, then everyone's efforts will be in vain.

Now it's not just about their security company, it's also about teams from several countries. Everyone is waiting for this battle to start.

She walked to the sofa with some displeasure, looked at Qin Yuan with his legs crossed and said, "Captain Qin, I know you are very strong, but I still want to remind you that you must memorize these materials now, otherwise if you Later, because this affected the actions of all of us, can you bear the consequences?"

After Li Erniu heard what Emily said, he felt a little funny. This woman really didn't know Qin Yuan, and they couldn't compare with Qin Yuan. It is estimated that he had already memorized these information by heart.

Qin Yuan just spread his hands, "I'm really memorizing, because I've memorized all the information."

Hearing this, Emily was taken aback. How could this be possible? In just a few minutes, she didn't see Qin Yuan reciting the materials at all. On the other hand, Li Erniu and the others next to him took out their pens and were scribbling and recording themselves. the key of.

It seems that this guy wants to fool himself out first, but he didn't expect him to be too irresponsible as the captain! He didn't set an example for such a trivial matter, and he wanted to dismiss himself at will.

This was the plan they had been planning all along. Emily was also a very serious person. She grabbed Fang Tian and said, "How is this possible? There are more than ten pages of background information. How could you Remember in just a few minutes, Captain Qin, if you want to find another reason, please find a perfect one."

The more Emily thought about it, the more unhappy she became. Does this person really treat herself like a three-year-old kid?

Qin Yuan smiled, and handed the information to Emily, "Well, I won't believe it anyway, you can try it yourself, read the content, ask questions, and I can even memorize it backwards."

Emily didn't believe it at all, this guy's tone was too arrogant, she took the information in Qin Yuan's hand, turned to the middle and asked: "The Chen Jun you played was injured when his sister was young. May I ask which sister it is? Where is the injury?"

Gao Shiwei beside him couldn't help admiring how meticulous their work was, and how such details were taken into consideration.

Qin Yuan replied unhurriedly: "It's his second sister. The injured part is the little finger of the left hand. The whole one is cut off and missing a little finger."

Emily didn't expect Qin Yuan to answer, but she thought that this person must be trying his luck, so she continued to search the information unwillingly,

She wanted to find the most difficult and detailed question to ask him, and she couldn't believe that this guy still had such good luck.

"Fortunately, the next thing you have to answer is why is he afraid of swimming?"

"Because his parents were shot and killed in the swimming pool, he was very afraid of water from then on. After that, because this incident changed the trajectory of his life, he joined a security company and conducted security training."

Unexpectedly, this was also answered by Qin Yuan. Emily was a little shocked, and then she asked several questions in succession, and Qin Yuan answered them all without the slightest mistake.

Gao Shiwei showed a satisfied smile at the side, and this kid started to show off again, because Emily found that she couldn't ask other questions, and then Qin Yuan actually started to memorize the contents of the materials, not bad at all, even the punctuation marks They all recited it.

This guy really has his tail up to the sky.

But I have to say that this kid's memory is really too powerful, and everyone present admired him very much. Everyone could only quickly and silently memorize the materials in their hands. They cannot be compared with Qin Yuan.

Li Erniu thought it was not surprising that Qin Yuan could recite these things.

After all, he just glanced at the military map casually before, and drew the map completely, even the route is not bad, this is what he admires the most.

Emily was completely shocked by this, she didn't expect that someone could actually do it.

"Captain Qin, how did you do it? It's really amazing. You can memorize so much content in just a few minutes."

At this time, Emily's eyes widened and she was still in shock. Qin Yuan was really the person with the strongest memory she had ever met. If this information had not been obtained by her own investigation, she would have wondered if it was Qin Yuan before. I have secretly remembered this information.

Facing Emily's shock, Qin Yuan just smiled lightly, "It's nothing, if necessary, I can even memorize all their information."

Emily is completely convinced now, Qin Yuan's words are not exaggerating the facts but that he can really do it.

Such people are simply too perfect. If they can join their own security company, their strength will also be greatly enhanced.

But how could Qin Yuan join their security company? Emily couldn't wait to persuade Qin Yuan, but because Gao Shiwei and the others were still there, after all, the chiefs were all here, how could she poach someone face to face?

So she planned to wait until later to find a suitable opportunity to be with Qin Yuan, so when it comes to coming to the security company, such talents are the strongest security personnel in her mind.

To put it bluntly, their security company is responsible for the bodyguard business to protect the safety of the executor.

The time given to Emily is also very tight. Qin Yuan and the others only have three days to write down these materials, because it is difficult to sneak in if they miss this opportunity.

The time given by the gang organization is also to be seen in three days, Emily's security personnel on their side.

There must be no problem with Qin Yuan, and Emily left with peace of mind. She felt that the odds of winning this time were really great.

Chapter 905: ?? was killed!

Qin Yuan also took this opportunity to get to know Emily and the others. The discipline in this security company is very strong, it can be said that it is managed militarily, and many of the security personnel inside are veterans.

Several of the security personnel, Qin Yuan, have seen them before. After all, they have cooperated before when they went out to perform missions. These people will protect some important leaders, so Qin Yuan and the others will also be present.

In order to better adapt to these roles, Qin Yuan brought the red blood cell team to the inside of the security company, wanting to see their specific daily life.

The training here is similar to that of Qin Yuan and the others in the team, but the most training items for these security personnel are investigation, fighting, and covering the retreat of customers.

When Qin Yuan and the others came to the security company, the first thing they saw was that there was a security check at the door, and everyone brought by Emily had to be checked, including Emily.

It is not allowed to bring any weapons into here, and there are many regulations inside.

He Chenguang frowned, "This is not allowed! Our policy is that the gun should never leave the body, and what are you doing, why are you treating us like the suspects?"

Qin Yuan shook his head and signaled that he didn't need to care about these things, "Since we have come to other people's territory, we should follow their rules and deal with it in special times."

Just like this, several people walked in together after the inspection. They only heard Emily's introduction before, and they felt quite spectacular after entering.

Emily smiled, "I didn't expect Captain Qin to be quite caring. We have dealt with the same situation as you before, but the action failed because of them."

Qin Yuan smiled, as expected of being the leader of the security company, when something happened, he would quickly push the responsibility away.

Li Erniu joked beside him: "Then it seems that your professional ability is not very strong. It seems that there will still be failures, but are there many such failures?"

Emily was a little stunned when she heard it, this guy asked too directly!

She went on to say: "You can rest assured that the reason for the failure of the operation is definitely not that our security company's business ability is not good. After all, we still need people to implement the plan we have given."

Sure enough, the responsibility for the failure was pushed to others.

Qin Yuan also wanted to join in the fun, "It seems that according to your statement, if we fail this operation, it will be our fault?"

Emily still maintained a polite smile and said: "This possibility is unlikely. After all, we have Captain Qin who is known as the God of War, so the operation will definitely be successful."

Qin Yuan looked at Emily, this woman is indeed very smooth, she knows when to say something, and when to say it, and her eloquence is also very good.

Emily also started to change the subject, and introduced the situation of their security personnel to them, "Captain Qin, are you interested in our side? Skills like yours, if you join us, you will do well. In our place status will be high."

Li Erniu smiled, and came to poach Brother Qin again, "Don't you think about us?"

"Hahaha, comrade, you are joking. After all, you are Captain Qin's subordinates. I definitely believe in your strength. If you want to join, you will inject a lot of fresh blood into us."

Qin Yuan just smiled and shook his head, he was not interested in these.

Emily asked a little strangely: "Captain Qin, don't you ask me about my treatment? The treatment is very impressive, and you can understand it."

Before Qin Yuan could speak, Wang Yanbing said beside him: "You don't have to waste your time talking about this. There are too many people who want to poach Brother Qin. That old man from a family of traditional Chinese medicine didn't let Brother Qin go."

"That's right! Brother Qin is very popular, even if he wants to leave, Lao Gao probably won't let him go."

Qin Yuan suddenly turned his head to Emily and said, "I will consider this after I retire."

"What! Retire!"

Emily has black lines on her face. What does this guy think? After retirement, he can figure it out. Isn't he curious about the treatment he gives here? It will definitely be more than what he gave in the army.

Doesn't this person love money? Emily has seen too many mercenaries and veterans. They are indeed very powerful, but they are also troubled by financial problems.

So she was very curious. This person was at the top of the killer list. It would be the wisest choice to join their security company. After all, they are now in line with international standards, which is equivalent to being protected by the United Nations.

She has met too many people, so she doesn't know what Qin Yuan is for. What she doesn't understand is that Qin Yuan is for her own belief.

After Qin Yuan and the others came in, they found that the members of the security company were undergoing training. These moves looked very familiar, and they were all trained by them.

Li Erniu watched them practice basic fighting in the mud pit. In addition, they also had cold weapons in their hands. The training was relatively similar to that of their special forces.

Qin Yuan plans to stay in their security company today, and leave here tomorrow morning, and he can learn about their basic daily situation here tonight.

There was not much communication between these members, and everyone was training separately. After Emily brought them in, she declared to the instructor at the time that they were new security personnel.

Because their identities are also kept secret, they have already entered the role state from this moment. Emily has seen Qin Yuan's situation that day, and he has absolutely no problem.

Several other people had already kept the character's situation in mind, so Emily still conducted spot checks on them and found that their grasp of the role was also very solid.

"From now on, you must remember your own role, and don't call the role's name wrong."

In fact, it doesn't need to be said by Emily, since last night, they have already entered the role state, and they have already called each other by the names played by each other, which makes everyone more familiar, but this time the time is really too tight.

This is also the case of the gang organization, so they try to shorten the time to find security personnel to prevent such a situation from happening, but they did not expect that Qin Yuan and the others did it, and took three days to write down all the characters.

What these characters have experienced in these years, as well as their personalities, should also be imitated.

Qin Yuan has no doubts about everyone's roles, but is a little worried about Wang Yanbing. His role is very similar to his own situation, but the only difference is that the father of this role is really a prisoner.

He hoped that Wang Yanbing would not make mistakes in this process, and He Chenguang thought more comprehensively, "Well, if it really doesn't work, we two temporarily switch roles."

Wang Yanbing shook his head, "It's okay, it's too late to switch now, I can get used to it, don't worry!"

In this way, Qin Yuan and the others stayed here all night, and no one from the security personnel here asked them anything. After all, everyone knew about the confidentiality agreement, and they were brought in by Emily herself, so their identities must be different from theirs.

Gao Shiwei was fidgeting in the room, Long Baichuan was drinking tea leisurely beside him, and even poured him a cup.

"Old Gao, I told you not to be in such a hurry, come over and have a cup of tea slowly."

"Looking at what you said, how can I not be in a hurry, Qin Yuan and the others are going to start sneaking in today, I'm really too worried about whether there will be any problems after going in, by the way, is this security company reliable?"

Long Baichuan couldn't help laughing when he heard this. Gao Shiwei usually looked too serious, but he didn't expect to be thinking like a little daughter-in-law now.

Gao Shiwei looked at Long Baichuan and could still laugh. He rolled his eyes and said, "I think you are heartless. Now that they are going deep behind the enemy lines, you can still laugh."

"I think you have become less and less courageous in recent years. You have so many scruples. You don't even think about who Qin Yuan is. It was no problem for him to go deep into the enemy's rear before, and this time he went with a small team."

Speaking of this, he is quite proud, after all, Qin Yuan's strength is unmatched in the entire team.

But the more this happened, the more he was afraid of losing, and this time their entire team went in.

On the other side, Emily enriched an instructor and took them to the hospital, where they went to meet the gang boss.

Although it is said to be the boss of the gangster, it is actually one of the sons of the boss, Dikale. This person broke Qin Yuan's impression of the son of the gangster boss.

In his impression, he has been in contact with many black second generations like this, and they will give him a very rough feeling, but the person in front of him has a clean face, no tattoos on his body, wearing gold-rimmed glasses and a suit, Jian Ran is like a teacher.

So when the person next to him introduced him, Qin Yuan wondered if he heard it wrong. This person turned out to be the son of the gang boss.

But the more such people are, the more dangerous they are. He looked at Qin Yuan and the others with a smile, "I will trouble everyone this time, and accompany us on this trip, but you can rest assured that as long as the goods arrive safely, the benefits to you will definitely be indispensable."
"

He also sounds very polite when speaking, unlike the kind of person who would embarrass others.

Li Erniu felt a little strange, and this Di Kale stepped forward and said slowly: "Everyone, follow me, and I will take you to the place where you live."

After all, Qin Yuan is the captain of this team. He is wearing a suit at the moment. This is also the outfit of the captain of their security personnel. The other personnel are all in black uniforms.

At this time, a man in black in front asked: "Mr. Dikale, aren't we going to act today?"

Unexpectedly, the face of the person who was still smiling just now suddenly changed drastically, and he raised his gun and shot, which was so fast, he shot in an instant.

The man in front who was still talking just now fell to the ground in an instant, and the rest of the people were completely stunned, what's the situation.

It can be seen that this person should belong to another security company, and the captain of this man took a step back in fright.

"Mr. Dikale, this... what's going on."

"Hehe, this person has a problem, so I even doubt whether you have a problem!"

Just as Dikale said this, a group of people suddenly appeared around them. They all had guns in their hands. The man just kneeled on the ground in fright. Just one was killed.

"This is absolutely not! Mr. Dikale, our security company has absolutely no problem."

"Hehe, yes, what did he mean by that sentence just now? How would he know that I have to act today."

The man tremblingly took out a document, "Mr. Dikale, this is written in the notice to carry out the mission, so he asked that."

Speaking of this, Di Kale seemed to have thought of something, and said with a broad sense of enlightenment: "Oh, damn, I forgot, this is what I sent."

Although it was their mistake, Dikale seemed a little disbelieving, and ordered his men to investigate this man, and their entire team.

Qin Yuan looked at all this coldly from a distance. It seems that this gang organization attaches great importance to this operation. Not only did they invite their security company, but also two other security companies. The number of people is about the same. There are more than thirty people.

It's just that this man really surprised him. He looked at the gentle man just now, but he didn't expect to make such a decisive move. In an instant, the man on the ground turned into a corpse.

And Di Kale suddenly laughed, and then stepped forward to pat the captain just now, "I'm sorry, it was just a small mistake, but don't worry, as long as you don't ask too many questions, everything will follow my arrangement. I will not kill casually."

Even though I said this, no one believed it anymore, after all, the lesson just now was right in front of my eyes.

Finally, after investigation, this security company really has no problem, just because the man asked one more question, it seems that Dikale is a very suspicious person. As for why Dikale did this, and they there was no action for a long time, and Qin Yuan guessed that he wanted to investigate them. It seems that this batch of goods is not simply a batch of arms.

Sure enough, after Qin Yuan and the others arranged their accommodation, someone took them out of the room in batches. Qin Yuan was very confident in his team members, and everyone passed the review. After all, they had already memorized these roles in their hearts.

At this time, He Chenguang had to admire the meticulous arrangement of the security company. These people really asked too many details. It seemed that they had investigated the people on the list before they got the list.

Before, he thought that these people were doing too many tricks, but he didn't expect them to know the situation of gangsters so well. These people were too suspicious, and everything had to be sorted out before they could be assigned tasks.

Moreover, as the captain, Qin Yuan not only accepted the interrogation, but more importantly, after he went in, someone tested his ability. It stands to reason that their security company is dedicated to protecting the safety of these people or the safety of goods.

But the test Qin Yuan accepted turned out to be marksmanship, and he took the initiative to attack.

Chapter 906: knockout test

It stands to reason that the most important thing for security personnel like them is to protect the safety of the hostages, and they conduct more tests on defense and protection. Unexpectedly, there are marksmanship tests.

This kind of test is to complete a direct kill. In this case, it is not protection, but more like helping them perform tasks.

Although Qin Yuan was curious, he didn't ask too much. After all, he knew that it is not appropriate to act rashly now. After such a test, the team of more than 30 people was shortened to 15 people in an instant.

Almost half of them were eliminated. Did Dikale make any explanation, just saying that it was not suitable to participate in the mission with them.

Although this kind of test is over, Qin Yuan and the others still haven't performed the task. It can be seen that Dikale is still worried about them, and is still conducting various overt and secret investigations on them.

Among these people, Dikale is most satisfied with Qin Yuan, who has good skills and brains.

At this time, Di Kale was sitting in the office, looking at the photos of these team members, he pointed to Qin Yuan and said: "This captain is very capable of leadership, and it can be seen that those under him listen to him very much. This time we You can rely on him to minimize casualties."

The man next to him actually heard his boss make such a big comment on Qin Yuan, "Brother, this should be impossible, I think this kid is quite ordinary, and his appearance is almost unimpressive."

"These are not important. The important thing is that we find these people. To put it bluntly, they are our scapegoats, but the number is not enough, because among the people recruited this time, those people are really bad. You need to find another group of people. "

The man next to him nodded, and immediately followed Dikale's request.

The security personnel who came with Qin Yuan and the others were somewhat dissuaded and dissatisfied. They felt that their abilities were not insufficient, but they did not expect that the requirements of this place were so high. After all, the amount of reward offered for this mission is very high .

When they came back to pack their things, Qin Yuan noticed a tall man, mainly because this man's appearance was easy to remember at a glance, so Qin Yuan paid more attention to it.

Qin Yuan greeted him with a smile. After all, he had to conform to the character design. The character he played was very talkative. He didn't reach out to hit the smiling face, and the man responded with a smile.

"By the way, which security company do you belong to? I see that your clothes are more advanced than ours."

Qin Yuan didn't expect this person to notice this, "We belong to Anxu Security Company."

When the man heard this, he gave him approving glances. No wonder none of their team members were eliminated, while most of the other teams were eliminated.

Their Anxu security company is very famous in the world, and the security company he works for is relatively large, but compared with Qin Yuan and the others, it is not worth mentioning.

"Brother, I didn't expect you to come from there. That place is very strict. It's hard to explain even if you want to go in. Your strength is really strong."

"Hahaha, this is just average. I think everyone is similar."

Speaking of this, the man lowered his head and seemed to be a little regretful, "I really envy you for participating in this mission. The rewards you get must be very high. I actually cherish this mission very much. I didn't expect to be eliminated. It seems true It's lack of ability."

Qin Yuan didn't agree with the lack of ability. When he took part in the test before, the man was next to him. This man's fighting ability is really strong, except that his marksmanship is slightly weaker.

The men's marksmanship is all defensive, and has no offensive tendency. This further shows that he is a security guard, and his main responsibility is to protect safety.

But such a person was eliminated, Qin Yuan couldn't figure it out, what the ***** is Dikale going to do?

The scope of their activities is limited to the place where they live. If they want to go to other places, there are people guarding them, and they are forbidden to go out at will.

Li Erniu originally wanted to go out for a walk, but was turned away, and walked in sullenly, "When will we make progress in the investigation, now I feel like I'm under house arrest."

"Don't be in such a hurry, kid. Relax here if you eat delicious food and drink, and treat it as a tourist. Some things are impatient and you can't eat hot tofu."

Wang Yanbing's attitude is not in a hurry. After all, he feels that as long as Qin Yuan is on the mission, he can succeed in the mission. Although this mission is very dangerous, their entire team sneaked into such a large group.

In this way, another two days later, another group of people came, it seems that they should be left after selection, this time Qin Yuan counted them, and there were 30 people in total.

The number of people has reached his ideal value, and Dikale called all these security personnel together for a meeting.

"Guys, I know you are very impatient now, why am I not? Because this is an opportunity to make a fortune! You are the most powerful security personnel I have selected. As long as you complete this **** mission, I will reward each of you with an extra 500,000 yuan!"

Everyone was shocked to hear this amount. What is the situation? When they accepted this **** mission before, the amount was very high, and the rewards were many.

I didn't expect that as long as the task is completed, there will be extra rewards, and it is very dangerous here, taking a lot of risks, because Dikale is really a murderous demon, not only him, but also the other two bosses. Pass.

Hearing the bonus, everyone was full of energy.

Qin Yuan fell into the future, how could such a high bonus be possible? If it was really that high, they would have already sent their own people there, so why should they come to participate?

Dikale looked at the happy people and continued: "I will take everyone to carry out the mission at eight o'clock tomorrow morning, as long as the goods are escorted back safely, I will honor the rewards I said, and I will do what I say. "

Immediately after he made a gesture, a subordinate next to him came over with a box, took out money from the box and began to distribute it to everyone. Everyone distributed a wad of money. Qin Yuan looked at it, and it was almost ten thousand dollars.

I have to say that these guys are really generous, but it is also because the mission is full of danger.

Qin Yuan had no choice. Originally, they came in to support them, but they were sent directly to do some tasks. This is rather embarrassing. He originally wanted to catch these people by surprise, but now he can't even go out. The security here It was stricter than he imagined.

What's more important is that there are still two bosses who haven't shown their heads. I don't know what kind of people his two elder brothers are. Compared with these, Qin Yuan is more concerned about the mission situation this time.

In the room, Gong Jian said with a puzzled look on his face: "Will there be any problem if we help them carry out their tasks? Do we really want to help these people?"

"Now we can only take one step at a time, and we are not helping them. I think this task is definitely not easy. It is very likely that this task will become our breakthrough point."

Hearing what Qin Yuan said, everyone nodded, let's wait until the next day to see everything! They can't act rashly now, after all, the situation inside is not clear.

The next day everyone gathered on the playground, and Dikale stood on the playground, looking at everyone with a smile, still with the same expression, "Good morning everyone, do you know, I like this kind of sun the most, it is full of vigor , just like you."

Qin Yuan felt that if this Dikale didn't think about his previous murder, he would really look like the leader of an MLM organization.

Because it is too easy to brainwash, I will give you a wave of positive energy quotes in the morning.

Then he said: "I know you are all security personnel, so you should know, if you want to rob our goods, or hurt the people you want to protect, how will you solve it?"

A team member next to him raised his hand and shouted loudly: "We will definitely protect the safety of the goods and customers!"

Hearing this, Kadile shook his head, "What I want is not only your maintenance, but more importantly, the initiative to attack, do you understand? Everything based on our goods or people who want to hurt us should be resolved by you. "

Hearing this, everyone understood, and Qin Yuan also knew why they had been tested with firearms before. This was an active attack. Could it be that they were asked to help kill someone?

But it's not the last moment, and everyone doesn't know the specifics of the mission. What happened before, no one dares to ask questions now.

Then everyone also set off. What Qin Yuan didn't expect was that Di Kale would go with him in person. It stands to reason that a person of his status is only escorting some goods, so there is no need to go there in person.

But Dikale paid great attention to it. Not only did he arrange more than 30 security guards on Qin Yuan's side, but he also had more than a dozen people on his side, and these people were well-equipped.

When they went to the hospital when they were moving the goods, they noticed that there were sniper missiles. You must know that this is positioned, and its lethality is very high. Does it need such a strong firepower to simply **** some goods?

Li Erniu and the others also noticed it, but everyone was silent. Now he was a little puzzled. He finally got in, but he didn't expect to go out like this now.

He could only lower his voice and say, "I guess Lao Gao and the others don't know about it. We worked so hard to get in, and now we're going out like this. We're not even inside."

Qin Yuan looked at the equipment and fell into deep thought, "Now is not the time to talk about this, everyone should pay attention to safety later, I always feel that this trip is not easy, after all, such a high reward, and they are all equipped with you is too exaggerated... "

Before Qin Yuan finished speaking, the car stopped, and then a person ran over, "Chen Jun, our elder brother has something to do with you, come here."

Hearing this, the members of the red blood cell team instantly became tense, and Gong Jian even showed his eyes that it is not a good thing to be called by Dikale now.

They were very worried whether their identities had been exposed. Everyone thought about it carefully, and it seemed that there was nothing wrong with it.

When Qin Yuan came to Dikale's team, he was still smiling, "Captain Chen, I've heard about your record before, and it looks pretty good. Compared with it, I'm very optimistic about it." you."

Qin Yuan didn't know what medicine this guy was selling in his gourd. He nodded and said, "Actually, protecting customers is what I should do. This is my duty."

Qin Yuan's answer was very official, and he didn't want to show any flaws.

Dikale went on to say: "I don't need such an official answer, I know you are very smart, so I will talk to you alone, after we receive the goods, you will cover us as the main team. "

Di Kale gave the order directly, and Qin Yuan did not hesitate, and nodded in agreement. In this way, everyone continued to set off. The car drove for about seven or eight hours, and after turning the corner, they saw a small independent villa.

Everyone was very quiet during the whole process, and no one asked any questions. After getting out of the car, Dikale directed everyone to move things into the car.

Qin Yuan remembered before that the content of the mission seemed to be to ask them to receive some ammunition equipment, but these things seemed to be very ordinary, just some 92-type pistols and grenades, which were not considered good heavy weapons.

Although it is also arms, there is no need to protect it like this, and the bonus is so high just to let them protect these things, which is really weird.

The man next to him was overjoyed when he saw the ammunition, "Hahaha, I didn't expect it to be so simple. If so, then I don't worry about it. I thought it was some kind of dangerous mission."

As the man spoke, he talked about a protection he had participated in before.

"Let me tell you quietly that last time I also carried out a security mission with them, but I helped them **** a special weapon so that no collisions could occur. We drove carefully throughout the whole process. A normal day's journey is just It's been three days."

Hearing this man talk about this kind of weapon, Qin Yuan's pupils were shocked If they have this kind of weapon inside, they have to think carefully, after all, Gao Shiwei and the others are playing foreign aid outside, if it really explodes , that must be dangerous.

This kind of weapon that is easy to collide should be a contact missile, and the explosion range is very wide. There are often some natural objects such as phosphide in the middle of this missile, and violent sparks will be emitted after the explosion.

To put it simply, the explosion will cause the whole body of the person being bombed to burn. The power of this weapon is very terrifying.

But now we have to worry about the things in front of us. They will finish moving these goods soon, and there are only two trucks in total, which seems really worthless.

But at this time, Dikale walked out of the villa with a serious face, followed by his men.

Qin Yuan noticed that the person behind him seemed a little different. He remembered that there were no older people in Dikale's security team.

But at this moment, there is a man who looks to be in his sixties. Although he is wearing a hat, the white hair on his head is already exposed. It can be seen that the people around him are keeping a certain distance from this old man. I respect him very much. Feel.

Chapter 907: Attacked

At this time, the security personnel here noticed the situation on Dikale's side. After all, these military supplies are not worth mentioning at all.

However, most people didn't notice the old man's situation, because they had focused on the military supplies before.

After all, the rewards were very generous, so no one noticed that Dikale and his staff had changed.

Qin Yuan pretended to carry the last few boxes of goods beside him, and he called He Chenguang to the side.

"It's not easy for you to draw everyone's attention to the old man behind Dikale. I suspect that old man is the real target."

He Chenguang understood what Qin Yuan was talking about, and he didn't look over there, because if he looked at it now, it would easily cause alarm, and he could feel that the people over there were very nervous just from his peripheral vision.

The people on their side were in a very relaxed state before, and Dikale had a smile on his face, but at the moment everyone is serious.

Until Dikale and the old man got into the car, Qin Yuan and his side had finished transporting all the military supplies, but Dikale still did not give a signal to start.

No one dared to ask, after all, everyone had vividly remembered what happened before, and it was because of talking too much that they died.

After a few minutes, the people in Dikale's car came down, and then explained a few words to the people next to them. After a while, several people in work clothes came out of the villa.

They took out some very sophisticated weapons and equipment and handed them over to Qin Yuan and the others. Good guys, all of them are Tom-style submachine guns. This kind of gun is very powerful.

Now that they have arranged excellent weapons, it seems that a big battle is inevitable, Qin Yuan and the others are just watching the fun, these things are not unusual for them.

Moreover, Qin Yuan now suspects that the old man may be the boss of this gang organization, the pirate back then, after all, it can be seen that Dikale has put away his usual jokes and has become very serious.

He was very serious in front of the old man, and combined with the current situation, there was no need for such ordinary military supplies to be so fanciful, and such excellent equipment was distributed.

After distributing the equipment, Dikale's people asked them to rest at the place first, and now the time is not up, and they will set off together after the time is arranged, and everyone has no objection.

Dikale and his car went around to the back of the villa. Qin Yuan could see that they wanted to go directly at first, but it seemed that Dikale answered a phone call, and then they stopped moving.

Everyone waited like this, and when it was time for dinner, they didn't intend to set off. Qin Yuan looked at his watch. If they waited like this, they probably wanted to set off at night, which might be safer.

The other security personnel didn't mind, anyway, they took people's money and did things for them, and everyone felt that the job this time must be very easy.

Qin Yuan and the others sat together. He shared his analysis with Li Erniu and the others. Everyone exchanged opinions. No matter what happens, they will keep a close eye on the old man. die.

Wang Yanbing felt a little strange, and couldn't help asking: "Brother Qin, if that old man is really the mastermind behind the scenes, that is, the boss of the gangster, then we might as well just deal with him directly, wouldn't it be better? ?"

"You silly boy, don't think about it. What is our task now? Our main task is to cooperate with the Gao team. They are operating outside. We haven't figured out their core strength yet, so we can't act rashly."

Gong Jian also agreed beside him and said: "I also agree with what Team Qin said, and maybe this matter can bring us a turning point. Anyway, let's take a step and listen to orders when the time comes!"

In this way, when it was completely dark, Dikale and his car drove out from behind the villa, and then signaled that they could start.

This time, the formation of the team has changed. Before that, Dikale was leading the way. Now they are divided into two groups, enclosing Dikale and his team in the middle, protecting each other one by one.

On the contrary, the supplies that needed their ***** were thrown at the end. Although everyone felt strange that they came this time to protect these supplies, they still followed their orders.

Qin Yuan cautiously stared at the situation outside all the way. He carefully observed all the places where enemies would be lurking. His hearing and vision were higher than these people, but he didn't find anything yet.

The man who had been chatting with them before saw how nervous Qin Yuan was, and couldn't help laughing beside him.

"I don't think you seem to be participating in a mission for the first time. Why are you so nervous? You don't know that this job is too easy."

Qin Yuan shook his head, and didn't want to talk to him too much. Now his attention can't be diverted, but this person doesn't seem to want to let Qin Yuan go and keep talking to him.

"Brother, let me tell you, don't pretend like that, can you? Everyone knows the current situation and there is nothing wrong with it. Just sit back and wait for the bounty!"

"It's not that I'm pretending, but we have taken the money, so we must work hard for others. Now I'm just performing my own job."

The man snorted coldly, thinking that Qin Yuan was really capable of pretending, and even said such things. Seeing that Qin Yuan ignored him, the man sang a song on his own, and even stuck his head out of the window, looking out of the window scenery.

In the next second, a bullet pierced the man's head directly, and blood spattered everywhere in an instant.

Qin Yuan reacted quickly and jumped out of the car, and the car was forced to stop. After all, there were snipers outside, so no one dared to act rashly, and everyone leaned nervously around the seats.

Di Kale was a little surprised. He didn't expect Qin Yuan to be so fast. He spotted the enemy immediately and came to their car quickly, which made him appreciate it very much.

Sure enough, he saw the right person, and the members of the red blood cell team also walked out.

Qin Yuan came to Dikale's window and whispered: "Mr. Dikale, do you have a sniper rifle here? I can take out the sniper."

Hearing such a result, Di Kale was overjoyed. Originally, he was still thinking about how to let these security personnel kill people, but he didn't expect that since Qin Yuan proposed it on his own initiative, he wouldn't be able to control so much.

Immediately arranged for someone to deliver the sniper rifle to Qin Yuan. The sniper did not act because Qin Yuan made a timely judgment. When he got out of the car, he threw smoke bombs around the vehicle to confuse the sniper. .

He made an excuse to use a sniper rifle, but he didn't really want to deal with this sniper, because it was unclear whether the opponent was an enemy or a friend.

At least Dikale is not a good person here, he is just pretending.

The vehicle was surrounded by thick white fog, and the snipers were not moving. At this time, a group of armed men suddenly rushed out from the bushes in front of them.

Without further ado, these people shot directly at Qin Yuan and the others. Seeing that these people were dressed like mercenaries, Qin Yuan immediately made a decision.

"Everyone shoot quickly and finish off the people in front."

Li Erniu and the others received the order, quickly formed a formation, and launched an attack in an orderly manner.

The security personnel next to them were completely stunned. Sure enough, their international security company is very powerful, and they were able to counterattack so quickly, because their main task is usually to protect.

There are very few opportunities to take the initiative to attack, and now there are snipers outside, generally they dare not act rashly in such a situation.

At this time, Dikale in the car was a little flustered when he heard the gunshots. The constant smell of gunpowder mixed with the smell of blood was really making people nervous.

The old man next to him stared at the outside with a serious face, "What are you panicking about? You followed me through life and death, and fought so many battles for so many years. Why don't you have any experience at all? You really can't compare with your two older brothers." ."

This person is just as Qin Yuan guessed, he is the biggest pirate leader, Xifante. Because of the various changes before, Xifante had to come out to preside over the battlefield in person.

But unexpectedly, a traitor appeared in their gang, not only wounded Dikale's brother, but also seriously injured Hifante in order to protect his son. Although the traitor was wiped out, Hifante was transferred to the This villa is for recuperation.

So this time, Dikale came to receive the news of his father. They don't know if the remnants of the traitor knew about it, because although they shot and killed most of the people related to the traitor, there is no guarantee that there will be fish that slip through the net. .

And the reason why Dikale came to pick up Xifante this time was to reduce his concentration. After all, among the three sons, Dikale was the one his father thought was the most incompetent.

He came out to pick up his father. Even if most people knew about it, they would think that he was a normal **** of goods, so it was best to entrust this task to him.

What everyone didn't expect was that they were still attacked on the way, and the news seemed to have been spread.

Dikale felt a little wronged in his heart. Since he was a child, his father felt that he was always inferior to those two brothers, but no matter how hard he tried, he couldn't meet Xifante's requirements.

But now his father's regime is very heavy, and he has no way to resist, so he can only endure it.

Soon Qin Yuan confirmed the identities of these attackers and shot them quickly. Before the mercenaries could react, they found countless bullets flying out of the white mist, and they were very precise.

The speed was so fast that the mercenaries in front didn't know what was going on, so they could only keep shooting with their machine guns, but then Qin Yuan appeared behind them and finished them off with one blow.

Soon this group was wiped out under Qin Yuan's leadership, watching the remaining people being dealt with, Qin Yuan came to Di Kale's side.

"Mr. Dikale, I suggest that we should not follow the original plan for the next road. We can change another road, which is more secure."

Qin Yuan also said this at a risk. The people next to him were completely shocked. He dared to give Di Kale advice. This person is not as good as he looks.

Before, someone just made a little doubtful suggestion, but he shot and killed him without saying a word.

The people around were sweating for Qin Yuan. This person is too daring to speak out, but there is one thing to say. You have seen the strength of Qin Yuan and the others just now. They are really strong. In the battle just now, these security guards There are also cases of loss of personnel.

These people knew that this **** was really not that simple. Such a fierce war broke out just at the beginning, and they rarely encountered such a situation during the security process.

After all, large-scale gun battles are indeed rare.

Dikale rolled down the window and nodded, "Then do as you said, now we temporarily change a route, you pay attention to guard around and protect our safety."

This is also Xifangte's suggestion. Dikale doesn't understand his father. This is the first time they meet. Why does his father believe him so much?

"Father, I said bluntly, although this person is the strongest security company in the world, but do we really have to trust him?"

"You just learn it, relying on the first time I saw him just now, and the courage in him, look at the trash around you, who has the aura of him, and who has the courage to speak up, explain He's not afraid at all."

Dikale suddenly understood, yes! If he really had a ghost in his heart, he would not dare to make such a suggestion.

It seems that there are still remaining traitors in them this time, and Heifante fell into deep thought. This time is their biggest crisis.

Not only do they have to face external crises, but they also have internal problems, but who is this traitor? He had some doubts that what he killed before might be just a puppet.

Xi Fante asked casually: "I know you think I'm partial to your two brothers, but I also want to test you. Who do you think is the mastermind behind the traitor this time?"

Dikale didn't expect his father to ask him such a question at this time For a while, he didn't know what to say.

Although he already had a guess in his mind, he didn't dare to speak nonsense.

In his mind, that traitor should be his second brother. Although they are three brothers, they don't have that much emotion at all. After all, they have lived in such a harsh environment since childhood.

In the early years, Xifante had not come to the inland and was still engaged in a pirate career. At that time, they felt the harshness of life at a young age.

Under the influence of such benefits and power, his second brother attaches great importance to power. Now there are three brothers, and each of them is responsible for the operation of the base, and the proportion of responsibility is different.

Now their market is getting bigger and bigger, and the economy is getting more and more strange. For example, his elder brother owns 60% of the shares of the base, and his second brother owns 30%. There is a 10% stake.

This was also assigned by his father after identifying the abilities of the three of them.

Chapter 908: interesting family

His second brother is Abbas, who has always yearned for power. After all, he is the youngest compared to him, and he has not been valued for many years. He thinks these rights don't matter. The two brothers are fighting to the death.

He hid leisurely in the back, but Xi Fante especially looked down on his character. He thought that every one of his sons should be brave and aggressive.

He will not prevent this kind of struggle between his sons, because he feels that if he wants to lead the entire gang in the future, he must meet the highest requirements in terms of talent and leadership.

So on the contrary, he hopes that several sons can use this form of competition so that he can see which son is the best.

Dikale's state of not fighting or grabbing made him feel very annoyed, but he also had someone to suspect. Regarding this attack, if his second son really did it, then he really has the style of his aunt, ruthless.

If a normal person faced such a situation, after all his son came to kill his father, he would have been furious long ago, but Xi Fangtian felt very happy, because he used to sit in this position like this.

At that time, he personally killed the old man who was in charge of him, and then took the position of leader.

At Qin Yuan's suggestion, they changed to another road, and there were no other problems along the way. When they were about to reach the base, they had to pass through the slums.

Qin Yuan noticed that there were a few soldiers beside him, they were from the country of Mi, and Dikale's car was also parked beside him. After a while, a man in black got out of the car. He came over and said to Qin Yuan and the others: "Boss I order you to deal with those soldiers now."

what!

Not only Qin Yuan, but the security personnel behind them were shocked. What's going on? Those are soldiers from the United States. No matter what they say, they are just security personnel. This time they agreed to protect this batch of goods. If they take action against these soldiers, they will definitely not be able to eat and walk around in the future.

Everyone couldn't make up their minds for a while, and they didn't make a move for a long time. Qin Yuan was even more surprised. How could the soldiers from the United States appear in the slums at this time? According to the previous plan, they should stand still now.

Wait for yourself to signal Emily before attacking.

At this time, the captain of the country of America also came out. He was self-righteous and thought of coming to the slums to check the news first. They mainly wanted to retreat early. When the time came, they really wanted to attack. He wanted to find a perfect retreat for himself. route.

He didn't see Qin Yuan beside him. At this moment, Yuan Yuan was thinking about how to rescue these American soldiers, and more importantly, he couldn't let them destroy the plan in advance.

A security guard stepped forward and whispered, "What should we do now? We can't do anything to those people."

"Let's take a step and see a step first! But who would ask this kind of question now, the person who asks it will definitely end badly."

At this critical moment, the captain of the country of Mi retreated with his team members. Qin Yuan was relieved. Originally, he was thinking of a suitable reason to refuse. Now that they retreated, he could rest assured. up.

At the same time, Dikale, who was in the car, also breathed a sigh of relief. He didn't want a gunfight to happen at this time. After all, his father was still in the car, but he was the one who gave the order, and he didn't understand why. To attack those soldiers suddenly.

After all, even if they come, everyone avoids conflicts, because the slums here are not their boundaries.

Heifante looked at the American soldiers walking away, and said to Di Kale next to him, "Do you think I'm confused? They haven't even shot at us yet, why did they suddenly attack?"

Di Kale quickly shook his head and said, "No, I think my father has a certain reason for everything he does."

"It's a good thing you have a brain. Recently, I always feel that something is wrong, so I asked them to shoot just now to test it out. It's a pity that I didn't have this opportunity."

"If this is the case, then I will strengthen the security patrols around when I go back."

Xi Fang nodded, closed his eyes and didn't say anything, but judging from his performance just now, Chen Jun from the security company was pretty good, and he felt that this person could be poached to develop on their side.

At this time, the convoy moved forward slowly, and Qin Yuan was completely relieved until he entered the interior of the high wall. After all, with so many security personnel, he really didn't want to have a conflict outside.

Abbas' face changed drastically when he received the news that his father and Dikale had returned. Under what circumstances, he had sent so many people to ambush on the road. How could they come back safely, and it seemed that there was not much loss in number.

Moreover, after Xifante came back, he immediately asked the other two sons to come to his residence together.

Abbas was very nervous. He felt that his affairs had been exposed, because the subordinates he sent came back to report that they did not move forward on the previously planned route at all.

This made him feel very strange. His useless younger brother would definitely not think of this. Even if there was an attack, he would retreat according to the previous route. He also didn't have the ability to direct so many people to go to other routes.

So he wondered if it was the old man's own idea?

When they came to the residence, they realized that what Xi Fante wanted to say was not about this matter at all, but just told them to pay attention to vigilance recently, and there was some unrest outside.

"Recently I received some news that those guys outside may have a big move."

Abbas nodded, and then said: "Father, don't worry, it's absolutely fine. The weapons we have haven't really been used yet. Even if they dare to come up and attack me, I will let them come and go."

"Sure enough, he is indeed my son. What he needs is this kind of courage. However, I don't care what small moves you guys have in private, but when it comes to facing the real world, I still hope that you can unite."

Abbas turned his head and glanced at the elder brother next to him. After the two looked at each other, it became clear that his father actually knew what they were doing in private, and they were responsible for the recent attacks.

Including the last time Xifante was injured, they secretly sent people to stop the reinforcements. Abbas felt that if he had been more ruthless at that time, maybe this position would have been his own.

Even if it is his own brother, he is not willing to share. He thinks that he has done the most for this gang, so why should the elder brother have more power than him.

Moreover, they own more shares than him. After leaving Xifante's residence, the three brothers who were smiling just now stopped doing superficial work and left separately.

When Abbas returned to his place, he learned from his subordinates that everything was done by the security captain Chen Jun.

He snorted coldly, looked at his subordinates and said, "I'll just say how my idiot brother would make such a decision, and the old man probably wouldn't care about such a thing, maybe he still thinks it's a test."

"Brother, and according to the people who went there, that Chen Jun is very powerful. That person's marksmanship and physical skills are very good. The first batch of people we sent out were dealt with by him like this."

This surprised Abbas. Previously, these security personnel were personally selected by his younger brother. Unexpectedly, he really did the right thing this time.

At that time, Dikale came to him and wanted to second some manpower. He didn't have enough manpower on his side and needed to **** Heifante back, but he found a reason to refuse.

And it wasn't just me, the eldest brother also rejected him at that time, and found other reasons. This time, he was asked to **** his father, originally intending to let him come and go.

This time it wasn't just Abbas' ambush on the way, their elder brother also sent people out.

Both of them sent people, but they didn't expect that Qin Yuan rushed out halfway and destroyed all their plans.

Abbas didn't take it seriously. If this is the case, since this Chen Jun is so powerful, he can develop into his own person.

He beckoned for one of his men to come over, "Go get that Chen Jun now."

The subordinate nodded and ran out. After a while, Qin Yuan followed the subordinate to Abbas.

He found it really strange that the two brothers probably came to him for the same purpose, and before Abbas came to him, Hefant's eldest son also came to talk to him.

After Qin Yuan walked in, Abbas smiled and asked his subordinates to smoke for him. Qin Yuan smiled and took the cigarette and pinned it behind his ear. Although his character doesn't smoke, he can't refute Abbas' face .

"Brother Chen Jun really deserves his reputation. I heard that you did your best to protect my father on the road. This time, I also want to thank you very much."

Hearing what Abbas said, Qin Yuan only felt that this person was too hypocritical. Anyway, the person he went over there just now told him the truth, and he wanted him to join the team there.

"This is what I should do, and it is also my job. Mr. Abbas praised me so much."

Abbas is very cautious. He went around and didn't mention the main issue, because he still can't tell which side Chen Jun is from.

Qin Yuan, who was going around, was a little impatient, "Mr. Abbas, you can speak directly if you have any questions. Although what I said now is very bold, I also went to your elder brother just now."

Hearing this, Abbas froze for a moment. He didn't expect that the eldest brother found this person before himself. It seems that it can be ruled out that this person is from the elder brother's side.

But now he was not sure, so he had to let Qin Yuan go back first. This person was indeed very capable, so he asked his subordinates to ask about their coming in that day.

This person is indeed just a security officer of a security company. With such a powerful skill, he must recruit this person.

In this way, he called Qin Yuan over again that night, and Qin Yuan was very happy. After coming and going like this, he had a clear understanding of the relationship between these few people and the deployment of troops.

Although it is said that Xifangte has distributed power to several sons before, the greatest power is still in his own hands.

That's why these two sons have evil intentions and want to kill him. After all, everyone wants the highest power, and now with the development of their gang, this place is completely unsatisfactory for them.

Both sons wanted to re-expand their territory, but Xi Fante felt that this time was not the best time, because they mentioned this matter many times, and Xi Fang Te also reduced their troops for this reason, just to prevent them from messing around .

It has to be said that after all, Xifangte has experienced many battles and has dealt with the military for so many years, so he will be aware of many things.

This time, Abbas looked at Qin Yuan and said directly: "Brother Chen Jun, I think you are very capable, and I also value you very much. Since my elder brother has looked for you, I will not go around with you. Would you like me?" Don't you want to come to my place?"

Before Qin Yuan could speak, he went on to say: "I know your ability, you will definitely not treat you badly when you come here, I will double the conditions my elder brother gives you, and after you come here, Just be my deputy."

This condition is very tempting. Not only does he have real power, but his status has also been improved.

Qin Yuan looked at Abbas and said slowly: "But I'm just a small security guard. It's really my honor that you two value me so much, but I'm worried that I'm not capable enough."

"Hahaha, brother Chen Jun, then you are really worrying too much. Not only you, I think your team is also very capable. If possible, I can accept all of you coming over."

When Qin Yuan heard this, the corners of his mouth rose, which really hit his fancy. He was still thinking about how to bring the whole team in.

Unexpectedly, this Abbas actually took the initiative to say it, so the whole team will be brought in first to start with him.

But Qin Yuan couldn't be so obvious, he said slowly: "If this is the case, it would be better, at least it will find a way out for my brothers, but I need to go back and discuss this matter with them. Abbas saw that Qin Yuan meant that he would come here this time, and nodded confidently, "Yes, no problem, as long as Brother Chen Jun is willing to join me, in the future I have become the real boss here, and the benefits must be indispensable to you. "

Qin Yuan smiled, said nothing more, and then left Abbas' residence. After returning, he discussed with the members of the red blood cell team.

Gong Jian thought it was a good idea, at least he could get in first, and then Abbas might be a breakthrough.

"Brother Qin, what do you say now, we will listen to you."

"Let's wait for this matter, maybe someone else will come to us."

Qin Yuan was very confident. He thought that these two brothers had come to him. Maybe Dikale would come later, so that he could better understand their military strength.

It's just that what Qin Yuan didn't expect was Dikale, but Xifangte. These people are really funny, and the whole family came to him as an outsider.

Chapter 909: ??start to act

Xi Fante's attitude was rather condescending, and when he saw Qin Yuan, he called him over to the side, "I know that my two sons have both looked for you, so you should understand why I came to you?"

"Sorry, sir, I don't want to participate in your infighting, and I'm just an ordinary security officer, and I didn't expect such a thing to happen, but I just want to do my job well."

Qin Yuan can only avoid the topic as much as possible, he doesn't want to get entangled in things like you, and he doesn't know how this Xi Fante will react.

At this time, the man next to him shouted loudly: "What's your attitude? This is the boss of our gang!"

But Xi Fante kept smiling and waved his hands, "It's okay, I still admire your courage, you know who I am, but you still dare to talk to me like this."

"It's nothing. Although I'm not very old, I've experienced a lot of ups and downs, and I think it's good to have a clear conscience no matter how you behave or do things."

"Hahaha, you have a clear conscience. I really appreciate people like you. What I'm more interested in now is which son you promised me?"

Qin Yuan shook his head and answered truthfully, he hadn't agreed to anyone yet.

"I also said before that I don't want to participate in such disputes. I am just an ordinary security team member. This may be one of my previous missions. After the mission is over, I can go home."

"Well then, if you didn't promise them, why not join my camp and work with me, you should also know that I am the real master here."

Xifangte also appreciates Qin Yuan's talent. He doesn't want his sons to compete because of an outsider, so if he wants to become this neutral person, he must first take Qin Yuan under his command.

The corners of Qin Yuan's mouth turned upwards, so that's better. Originally, he was still thinking about those two sons. No matter where he went, he would definitely offend each other. Since he came to his father's side like this, that's even better.

After Qin Yuan went back, he told Li Erniu and the others the news, but what Xifangte said was that Qin Yuan was alone, so it would be easier for Qin Yuan to start later, because he didn't have to worry so much.

"Brother Qin, but we will be separated in this way. If there is any situation, we can't contact you in time."

"I don't think things are that simple. I will definitely go to Heifante. They also know your skills. It is estimated that you will be recruited by them."

"These people are really interesting. They ran to find these security personnel out of nowhere. I don't know what kind of medicine is sold in the gourd. I don't think there are too many people under them."

Qin Yuan shook his head, he couldn't figure it out either, but what he was sure of was that the organization was recruiting members now, and it was estimated that Xifangte had received some news.

Abbas was very angry when he knew that Qin Yuan had gone to join his father. He felt that he had already talked so well with Qin Yuan, and he had agreed to so many requests.

"This kid is really shameless, it seems that it is necessary to deal with him properly."

The subordinate who came to report hurriedly persuaded: "Brother, I don't think this matter is appropriate. Now that kid has become the boss's person. If we touch him, the boss may not be able to explain it."

Abbas kicked over the table in front angrily when he heard this, "It's the old man again, why is this old guy still alive? If he is dead, I should be the one to decide these rights. I didn't expect to see his face now." act."

The men next to him were trembling. They knew that if Abbas got angry, it would be a serious matter. Sure enough, he took out a pistol from his waist and beat the buildings in the house, especially the vase that Heifante had given him before.

Unexpectedly, at this time, Xi Fante actually came. As soon as he arrived at the door, he heard gunshots and frowned. His second son was good in everything, but his temper was too violent.

When he walked in, those subordinates didn't dare to show their air. Abbas felt that something was wrong, and when he turned his head, he saw Heifante standing behind him.

He kicked the subordinate next to him, "What the ***** are you eating? Why didn't the old man notify me when he came?"

Xi Fante scolded: "I told them not to notify, you see what's going on with you now!"

Abbas lowered his head and said apologetically, "I'm sorry father, it's all my fault, but I'm really in a bad mood recently."

"Hehe, I think you are angry because of that person named Chen Jun, right?"

Abbas froze for a moment when he heard this, but he didn't expect his true thoughts to be known by Xifangte.

"It is said that knowing a son is better than a father, you don't have to hide this matter. The reason why I called Chen Jun to my side is that I don't want you two brothers to have disputes because of this outsider."

Abbas nodded respectfully, and he couldn't say anything else. After all, he didn't want to make his father angry. Dikale was put under house arrest for two months by Xifangte just because he said something wrong.

And now when he saw the leather whip in Xifante's hand, he trembled slightly, which was the shadow of his childhood.

The reason why the three brothers have developed to this level is actually inseparable from Xifangte. At that time, he was very strict with the three sons, and they also had to train with those soldiers.

That's why their gang can develop so fast, especially the industry that was assigned to Abbas has almost monopolized more than half of the beer industry in the United States.

This industry is very profitable, so his elder brother has always looked down upon it, thinking that Hifant is too partial and gave the best things to Abbas, but Abbas doesn't think so, he thinks his elder brother owns Those shares are the strongest.

Abbas waited until Heifante left, stared at his back fiercely, gestured for his subordinates to come over, and whispered a few words.

After a while, this subordinate appeared in Qin Yuan's previous accommodation, but now Qin Yuan has moved to Xifangte's side, and there are only Li Erniu and a few people left in the residence.

Seeing Abbas's people walk in, several people were a little nervous, because logically they should be able to leave now, but they didn't receive any notice.

After the subordinate came in, he looked at a few people and said, "Our elder brother would like to invite some of you over for tea."

Gong Jianzhan came out and said with a smile: "Our captain has not come back since he went out, or we can talk about it after our captain comes back."

After all, he doesn't want to act rashly now. If something happens in the past and messes up the entire team's plan, it will be troublesome.

Unexpectedly, the subordinate suddenly changed his face when he heard it, "I tell you, it's better not to be so ignorant of flattery, our elder brother is not as patient as I am."

He Chenguang stood up and signaled to Gong Jian that it would be no problem to go. Anyway, everything is played by ear. If you don't go, Abbas will be provoked, and the rest of the day will be difficult.

When they came to the place where Abbas lived, they found out that they wanted Li Erniu and the others to submit to him. Qin Yuan really guessed it, but that's okay, they spread out, and they can work together if they have any actions. conduct.

Before Qin Yuan left, he had told them that no matter which side they wanted to recruit, they just agreed, so that they could occupy their own power in several parties.

The remaining security personnel have been sent back. Gao Shiwei and the others have been observing from the sidelines and found that some security personnel have come out, but they still haven't seen Qin Yuan and the others, and there is no news so far. He is very worried.

"Baichuan, what do you think is going on? I'm really worried."

"I think this is the best. At least it shows that Qin Yuan and the others successfully lurked inside and were not dismissed like these security personnel. Otherwise, our plan will all come to nothing."

Gao Shiwei nodded when he heard this. The mission this time is indeed quite dangerous. Everyone continued to observe and found certain patterns. Before, they thought that the gangsters in the slums had placed eyeliners.

Unexpectedly, the people in the entire slum are their eyeliners. As long as there is any movement from their side, someone will report it soon.

So there has been no progress on the outside, and they can only rely on Qin Yuan and the others to provide news from the inside.

Another two days passed like this, and a food delivery truck came out slowly. During this period of time, Gao Shiwei and the others strictly guarded the vehicles coming in and out from here.

Because they don't know which car will have information, Qin Yuan's style should inform them in advance.

After the car drove out of the slums, Gao Shiwei and the others led a team to search the entire vehicle for the purpose of inspection. Such searches are relatively common, and the driver did not become suspicious.

Gao Shiwei jumped into the car and rummaged inside. They came out to pull the ingredients inside, so the car was empty, but Gao Shiwei found a newspaper under a basket.

Before this newspaper, Gao Shiwei said that if there is information, it can be brought in through newspapers, because newspapers can be seen everywhere.

This will not arouse suspicion. There is also secret information Qin Yuan left for them in the newspaper. This is also an agreement between them, and others cannot understand it.

Gao Shiwei tightened the bag inside his cuffs calmly, and then jumped down, "Yes, there is no problem and we can let it go."

The driver nodded and left. According to the information sent by Qin Yuan, it roughly talked about the deployment of troops inside.

The situation inside is not as many people as they expected before, it seems that they have been fighting everywhere in the past two years, and their strength has been greatly consumed.

The most important thing is their defense, Qin Yuan has not found any flaws yet, there are too many guards at the gate, Qin Yuan may not be able to open the gate from there in time.

But Qin Yuan got another news, which is to make them pay attention to vigilance, they have sniper grenades on their side.

Gao Shiwei fell into deep thought when he saw this information. He didn't expect that there was such a new weapon with great damage. He said beside him, "Shall we share this matter with the other teams?"

The reason why he has such doubts is also because there was a lot of information from the United States before, and he did not share it with them.

Long Baichuan shook his head and said: "Let's consider this matter first, I even suspect that the American side already knows this information."

Gao Shiwei pondered for a while, and decided to share this information. Even if the American side knew it, other teams did not know it, and it was for the success of the final battle.

Because in the end they still have to cooperate and launch an attack together. If everyone does not know that there is such a lethal weapon and does not defend, the loss will be heavy later, which will affect the success or failure of the entire battle.

After getting to know Qin Yuan's side, he probably knew the strength of the troops here. He carefully calculated that if his side started with Xi's characteristics first, then Li Erniu and the others would receive the notification.

If the two parties work together, first disintegrate them from the inside, and he thought of an even more brilliant idea.

It was just dark, and He Chenguang and the others had just rested when they heard two strange calls from outside.

Li Erniu rolled and jumped up, and quietly came to the bedside, this was their previous agreement, Qin Yuan saw that you wanted to keep them to the window, and threw a note.

Qin Yuan's plan is to take Li Erniu's side. Now that they have become Abbas's people, they should take the lead in provoking Dikale and let them have internal disputes first.

Taking advantage of their confusion, he spread the information by himself, and then Gao Shiwei and the others acted outside. In fact, it is okay not to tell them to act, but because he is worried

that some members of the organization will escape. They can at least prevent these people from escaping at the periphery.

Gong Jian looked at the news from Qin Yuan, he meant that he planned to act tonight.

He was a little curious, "Has Team Qin discussed it with Lao Gao and the others, or are we acting alone?"

"I think what he means is that we are acting alone again. He likes to do everything and walks alone. I guess he can't count on Lao Gao and the others?"

"However, with so many people inside them, relies on just a few of us, how is it possible?"

Hearing what Gong Jian said, everyone fell into deep thought. It is true that they have to consider practical issues this time. They have carried out many missions before, but this time they have the most troops.

But Qin Yuan has already issued an order, and they can only cooperate with it. Moreover, Qin Yuan's ability is relatively strong, so nothing should happen.

"That's it! If there is anything going on in the future, Lao Gao and the others will definitely launch an attack when they hear the battle inside."

Just like that, everyone waited for the night to come, and Qin Yuan would inform them when to act.

In addition, Xifangte appreciates Qin Yuan's leadership ability even more. After he came here, he assigned a captain to do it for him. Everything was done in an orderly manner. It seemed that he had been the captain for many years, but he remembered this person's According to the information, he was only promoted to captain this year.

And he is very capable of commanding, so it is very important to Qin Yuan, and all the big and small things are entrusted to him.

Chapter 910: There are spies!

Qin Yuan originally planned to start operations at night, but Xi Fante suddenly called him to his room.

"Chen Jun, this time I called you here mainly to test your time, and I saw that you performed well before, so I want to teach you some other tasks."

Qin Yuan pretended to nod respectfully. During this period of time, he had already figured out Xifante's temper. It seemed that this guy probably had something important to explain, and he had found himself here at such a late hour.

"Boss, you can order anything here, as long as I, Chen Jun, can do it."

"Hahaha, young man, I admire your courage, but there is no need to mention life and death. This time, I mainly want you to see what my little son is doing."

Speaking of Dikale Qin Yuan, he really didn't notice this person. Recently, he has put all his energy on Abbas and the others, because relatively speaking, he thinks these two people are the most threatening.

Moreover, the intelligence he has mastered is that almost all the deployment of troops is in the hands of Abbas and his elder brother, and most of them are in the hands of Heifante.

Qin Yuan also didn't understand why he wanted to investigate Dikale all of a sudden. At this time, Xi Fante continued: "Recently, I feel that the outside is not peaceful, and we also feel that there is going to be smoke everywhere. You are also my youngest son. Come in, what's your impression of him?"

"This, I don't think it's easy to evaluate."

"It's okay, just tell the truth. Now I just want to hear something useful. These guys are too respectful to me, they dare not tell the truth, but what I admire is your courage. Only people like you can point wake me up."

Hearing what Xi Fante said, Qin Yuan was not sure whether what this guy said was true or not, but since he had this opportunity, he might as well provoke him.

"Boss, let me tell the truth. I hope you don't get angry. Mr. Dikale is actually a gentler person, but when it's time to make a move, he won't hesitate at all, and he is very decisive."

Having said that, Xi Fante nodded, fell into deep thought, and then beckoned to the secretary next to him.

"Now you take him down to arrange the tasks he and I have to do. Remember that this matter must be done in secret, and no one can know."

"Yes!"

Qin Yuan didn't know what kind of medicine this old guy was selling in his gourd, whether it was another new test for him, or if he really wanted to target his son.

After going out, the secretary next to him told Ruan Yuan the specific situation this time. It turned out that Xi Fante suspected that Di Kale had raised private soldiers outside, which was absolutely forbidden in their gang.

Although the old man Xifante did not object to his sons vying for his status and rights, he did not want to be snatched away by outsiders.

He has always felt that the soldiers outside are not reliable at all, and now the men he brings are all working with him, and even generations have been working on his side.

And he also has a unique way of controlling people, he is very good at controlling people's hearts, but Dikale thinks it is impossible, he does not have that ability now, he dares to raise private soldiers, such words may destroy the entire gang once.

So he sent Qin Yuan to investigate, mainly because Qin Yuan was still a new face among these people.

Qin Yuan already had his own idea at this moment, even if he didn't raise private soldiers, but he had to find some evidence, first let them want to start internal strife, and then it was a good time for them to capture.

At this time, it was more than 10 o'clock in the evening. Li Erniu and the others hadn't slept all the time, and they were all waiting for news from Qin Yuan, but they didn't send any information for a long time.

At this moment, Qin Yuan changed into a set of night clothes, and quietly came to the outskirts of Dikale's garrison. The guards here are very lax, and it can be seen that his strength is almost small.

Qin Yuan jumped over this kind of wall with a little force, and when he entered the inside of the wall, there were a few sparse guards standing in the corner smoking, not paying attention to the movement here.

Looking at this situation, Qin Yuan even wondered if Xifant was thinking too much. His son didn't seem to want rights at all.

Several turned over and came to Dikale's room. The room was still lit at the moment. Qin Yuan turned over from the balcony and stood on the outer wall. Only he could maintain his balance at this width.

He quietly looked inside, but there was no one there, and the documents on the desk were only half opened. Dikale seemed to be in a hurry to leave suddenly because of something, but the lights in the room were also on. It's a little strange.

Qin Yuan calmed down and listened carefully to the movement around him. At this time, a soldier was patrolling and suddenly found Qin Yuan on the wall. He was about to shout, but Qin Yuan glanced at him and instantly released his charm skills. The soldier was like this Standing in place in a daze.

Since Qin Yuan's skills were strengthened these two times, he never expected that he could control people from such a long distance.

But the most important thing right now is to find Dikale. No matter what, he has to investigate clearly. He really ignored this person before. If this person really does something big, it will cause unnecessary trouble later.

At this moment, the cabinet behind the bookcase suddenly started to move, and Dikale came out from it, followed by two men.

Qin Yuan took a closer look, isn't this the previous security guard? The security personnel had been dismissed before, but why did they appear here again?

One of them was the captain who had spoken to Qin Yuan before. At this moment, they changed their clothes and respected Di Kale.

Looking at the situation, is it true that Di Kale used these security personnel to raise private soldiers outside, or is it that his private soldiers are these security personnel?

Dikale looked around, and then whispered: "Do as I said today, and start doing it in three days."

The previous security captain asked respectfully: "Sir, how should our soldiers outside come in?"

"You don't need to worry about this. I will send you a message when the time comes. Where you go to Beicheng, Beichuan has all been replaced by my people."

"Everything that is good is subject to the arrangement of the husband, success or failure depends on it."

"Don't worry, after this matter is successful, I will never treat you badly. This place will be my world from now on. It is not in vain that I have been lurking for so long."

"So we are willing to follow Mr. until death, Mr. will definitely succeed."

Dika laughed loudly. He has been pretending for such a long time. No matter in the eyes of outsiders or his family members, he is a role that cannot be contested or snatched, and it makes his brother feel that he is a waste, so he relaxes. alert.

Everyone likes power, how could he be willing to be someone else's plaything like a fool, and if his two elder brothers don't care who is in power, they will definitely not let him go.

So he can only act first, and when the time comes, he will contact the soldiers outside and come in and directly capture Heifante's residence, and then kill Abbas.

In this way, he can justifiably come out as a hero to save the field, and make Abbas deeply suspicious.

"By the way, remember that when you come in from the north gate, you must knock on the city gate with stones six times, and they will know it is you."

"Mr.'s move is really high. We will follow Mr.'s arrangement."

Hearing this, Qin Yuan planned to delay his action for another two days. Originally, he was thinking of sowing discord, but he didn't expect him to make a move at all. The brothers had long been at odds with each other, and they all wanted to put each other at risk. deadly.

It seems that the task this time is really easy, and there is no need to do it yourself.

Qin Yuan heard about the same, seeing that the two people were about to leave, and he planned to leave too, but before he set off, the man behind him suddenly said:

"By the way, Mr. Decatur, the people brought by that kid Chen Jun are not simple. I don't know where this kid has gone, but his subordinates seem to have gone to Abbas's side."

"This is quite in line with my brother's style. Since he was a child, he has had to take all good things."

"Sir, don't worry, our security personnel are not too bad, and the people I've found for you outside are all mercenaries who have just retired and joined. Their fighting skills are definitely not inferior to these people."

"It's good that you understand, and when the time comes, let's take these people first. I saw this kid was upset before, and he kept asking for credit in front of Xi Te. It turned out that he was really favored. When the time comes, he will deal with his people first."

Qin Yuan felt a little funny when he heard this. It's good that Di Kale is ambitious, but why is he so brainless? He should have seen his strength before, how could he fight against himself with these shrimp soldiers and crab generals?

But this family is indeed quite strange, just like the ancient fight for the throne, this is really too exaggerated, what is there to tempt them with this kind of power?

Qin Yuan took out a miniature camera to take a few photos, and then left. At this time, Di Kale felt a black shadow fly by. He turned his head and looked out the window, but saw nothing.

The man next to him asked with some doubts: "What's the matter, sir, what's the matter?"

Dikale looked at the silence outside the window and shook his head, maybe he was thinking too much.

"There's nothing wrong with it. You should hurry down and make preparations now. I don't want any problems with the ratio. Once this matter becomes a benefit, you will definitely be indispensable."

When Qin Yuan returned to Xifangte, he gave the photo to Xifangte.

Holding the photo, he asked with some doubts: "What can this explain? I want you to investigate whether he has a private soldier."

"Boss, this is the evidence, because when I went, he was negotiating with these two people and had been trying to win them over. He also set a time. A week later, his people would come in from the south gate."

Qin Yuan roughly changed the content of the information, he didn't want this old fox to be vigilant.

But there is one thing to say, Xifangte has indeed worked hard for so many years. Although he is about to retire now, his mind is very bright. He looked at the map around him and frowned based on Qin Yuan's words.

"It shouldn't be. The south gate is guarded by Abbas's men. As far as I know, the two brothers have always been at odds. Even if they want to let soldiers in, it's not so easy."

Qin Yuan quickly pushed a wave of good assists, "Boss, I don't think this matter is certain, maybe Mr. Di Kale wants to play a surprise?"

Hearing this, Xi Fante also felt that it made sense, and nodded slightly, he waved his hand to let Qin Yuan go down first, and now he has to think about the countermeasures.

Qin Yuan happened to walk around near the assistants of Abbas and the others, quietly climbed up the window, and came to Li Erniu's room.

The point is that Qin Yuan didn't move at all. Li Erniu and the others only found out when he opened the window.

Sitting beside the bed and dozing off, Li Erniu jumped up instantly. What's going on? He Chenguang remained awake all the time, and Qin Yuan had just seen it when he climbed onto the window.

Li Erniu fell into a drowsy sleep, "Brother Qin, I said it's late at night, can you stop being scary and come in quietly?"

"You guys are ashamed to say that although there is no mission tonight, your vigilance is too low. No one noticed when I came in."

At this time, Wang Yanbing behind the door raised the gun in his hand, "Hey! Brother Qin, I think we may lose both. You can't take advantage, and neither can we."

Qin Yuan turned his head with a smile, and suddenly rushed towards Wang Yanbing, throwing him over his shoulder and knocking him to the ground.

"Look at you guys, I told you to train hard and not listen, and you were subdued by me like this, do you still think you can take advantage of it?"

"Brother Qin, I really think you're a bit of a bully. Are our skills comparable?"

"Hahaha, forget it, I won't quarrel with you, today is to talk about business."

Qin Yuan shared the information obtained from Xifangte with everyone, and Li Erniu also discovered an important piece of information.

"When I went to eat today, I heard the person next to me say that I wanted to contact someone outside. I thought it was their eyeliner, so I kept an extra eye on it."

Li Erniu followed this subordinate and quietly came around the warehouse, only at this moment did he find a man jumping out of the basket in the warehouse.

"Let me tell you, it's not that I brag about my good eyesight. I can assure you that that man is in Mi Ge's team."

what!

Everyone was shocked when they heard this, how is this possible? It is reasonable to say that this situation will not happen to the people in the American team.

Li Erniu said very confidently: "When we performed the exercise mission together, this kid was next to me, and he was humiliated by their captain. You should remember this incident."

Speaking of this, everyone came to their senses. They didn't expect this matter to be related to the United States, but only this person contacted him, indicating that it was a spy arranged by the gang organization in the United States.
