

Special Soldier 911

Chapter 911:

Qin Yuan also thought carefully about the humiliated American soldier before. That soldier had been picked on by their captain in various ways, and it seemed that his status in the team was very low.

The more such a person is, the easier it is to instigate rebellion. It can be seen that he is probably out of revenge.

If this happens, then he has to find a way to quickly notify Gao Shiwei and the others outside, and must take precautions against the people in the United States, otherwise he doesn't know what will happen later.

Speaking of this, Gong Jian frowned suddenly and said: "There is a situation now, if there are really spies in the country of America, will we be in a dangerous situation? Could it be that the mission this time has been leaked?" ?"

He Chenguang also stood up and said, "I also wonder if there will be a problem. Have you noticed this time that we went so smoothly that we sneaked in so quickly?"

Qin Yuan also nodded. This possibility cannot be ruled out. Everything must be cautious now. Although the deployment of troops here is not as much as they expected before, it is still quite threatening.

It is very likely that Xifangte already knows the identity of Qin Yuan and the others, all this is just to accompany them in acting, maybe it is a long line to catch big fish, and wait for Qin Yuan and his team to come in before collecting the net.

That's when the real losses will be heavy.

Thinking of this, Qin Yuan suddenly broke into a cold sweat. If this is really the case, then Xi Fante's acting skills are so good that they even fooled himself.

Li Erniu hurriedly asked: "Brother Qin, what should we do now? Otherwise, we'd better act first, let him do whatever he wants, and do it now."

Qin Yuan shook his head, now is not the time to do something, before he thought about doing it, it was because he could solve the problems inside, but now Miguo is also involved, this matter is not that simple.

While several people were discussing, there was a sudden knock on the door, and Qin Yuan quickly hid behind the cabinet.

A man walked in, "Clean up some of you, our boss has a task for you, hurry up and leave."

After the man left, Qin Yuan could only tell Li Erniu and the others not to act rashly, and wait for his order to say anything, and they must not do anything now.

The most important thing is to inform Gao Shiwei and the others, the fact that there is a traitor is not a small problem.

After returning back, Qin Yuan has been observing the movement around him, and there is no big movement, and there is no one around him to watch, the most important thing is that Xi Fante is very relieved of him.

It seems that they don't know Qin Yuan's identity at all, and if they knew, they should have done it earlier, there is no need to delay until this time.

But looking on the bright side, it is estimated that Emily and the others did a good job of keeping secrets. As far as he knows, Emily is responsible for their sneaking in, and besides the people in their team know, Others don't know how they got in.

And at the beginning, they were closely investigated by Dikale, but it was not right to think about it, after all, the traitor was a member of Abbas.

Dikale wanted to find security personnel here because he wanted to improve his strength. As his elder brother, he looked down on him, so he would not remind her, hoping that something would happen to him during the transportation.

Therefore, it is possible that the mootings at that time were just a normal process, but in the past two days, we still proceed with caution.

Just like that, the situation was calm again, and two days later, there was no movement, but Xi Fante even gave Qin Yuan a task.

Xifangte intends to ask Qin Yuan to deliver some things outside the city. Their gang needs to maintain and take over a lot of business. The purpose of Qin Yuan's delivery is to teach those troublemakers a lesson.

"I know you are very skilled. There are always people making troubles at the pier recently. Take someone to solve it. I don't support idlers here. It's time to show your value."

Qin Yuan nodded and walked out with Xi Fante's men. Anyway, these troublemakers are also from two small gangs nearby, and they are not considered good people.

It's just a good time to use this trip to pass on the information.

But right now Qin Yuan was surrounded by people, so he could only go to the pier to deal with matters. After arriving at the pier, he discovered that the workers on the cargo ships had gone on strike.

The man in black next to him introduced: "The dozen or so cargo ships here are under our control, and they are all under our protection."

When the workers saw them coming, they hurried up to meet them. After all, the clothes worn by the people on Heifante's side were relatively recognizable.

A worker said with a sad face, "You guys are here. We have been out of work for two whole days, and we dare not go to sea at all."

Qin Yuan stepped forward and asked, "What's going on? Someone dares to make trouble on our territory."

As soon as the words fell, a group of gangsters dressed in fancy clothes came over. The leader had dyed green hair, a machete on his shoulder, and a cigarette in his mouth. He walked over and kicked the worker who was talking.

With quick eyes and quick hands, Qin Yuan kicked the little ***** in the abdomen, and he flew out instantly.

The little ***** fell to the ground and cursed, "Damn it, someone dared to beat me! Who are you? Everyone give it to me."

At this moment, the man next to Qin Yuan picked up the gun in his hand and shot towards the sky. Everyone was stunned at this moment, but the little gangster was not afraid.

These little ***** also took out pistols from their waists, "Don't ***** think that only you have guns, and my father also has guns. At worst, the fish will die and the net will be broken."

Qin Yuan looked at this little bastard, this kind of guy is usually a small character, and he definitely has someone behind the scenes.

The man next to him snorted coldly, looked at him and said, "You really have the guts of a bear, don't you know that this is the place where our boss, Xiite, is in command? How dare you make trouble on our territory."

"Hahaha, it's Xifangte who I'm making trouble with. He's just an old man. What should I be afraid of? At such an old age, he still comes out to grab things with us. Hurry up and go home and enjoy yourself!"

"You'd better be responsible for what you say. I'll beat you all over the place later, and let you know the power of our gang."

"Hey, let me tell you, we are not afraid of you. You have been the boss of your family for so many years, and it is time to change. It is impossible for your family to continue to dominate. Now all the resources are dominated by you. Why?"

The man with green hair became more and more angry as he talked. He suddenly raised his gun and shot at the man in front of Qin Yuan.

Qin Yuan pulled the man's shoulder, and the man fell to the ground in an instant, and also dodged the bullet. He was about to stand up and get angry, but he didn't expect the bullet to fly past him, and he broke out in a cold sweat instantly.

He didn't expect that this guy would actually dare to shoot, and that such a small character would actually come to provoke them. Now that the old man really hasn't come out for a long time, these people have begun to become more and more presumptuous.

Qin Yuan didn't want to save him in the first place, but there was nothing he could do. This person couldn't die now, and he might be useful later.

Qin Yuan rescued this man. The man was a little angry. Now such a small character dared to shoot at them. He didn't get angry. He just picked up the pistol in his hand and shot at these gangsters.

These gangsters were not afraid, and soon the two sides started fighting in an instant, but after all, there was a lover here, and he was very fast, turning over and knocking out the gun in the hands of the leading man in front.

Quickly get rid of the gangsters in front. The green hair who had a proud face just now was stunned when he saw this situation. What is the origin of this person? The speed is too fast. He didn't even see clearly, and he fell down. up.

"You! Who are you, dare to sabotage our plan?"

"Hehe, ruin your plan. I said it just now. You still want to attack our organization. This is the end. I will not let you go."

Qin Yuan's speed was very fast. These people had no time to fight back, and they were all knocked down by Qin Yuan. The man who came with Qin Yuan laughed loudly. He didn't expect this kid to be really powerful. He didn't even need them to shoot. These people are all settled.

"Hahaha, as expected of you, Chen Jun, our boss is right, we will all follow you from now on, your skills are really amazing."

Qin Yuan could only smile, and then said: "This is all my own job, so I can't thank you for it."

The man stepped forward, kicked Lu Mao on the shoulder, and stepped on his wound fiercely, "You'd better explain to me what's going on, who is behind the scenes?"

It seems that this man is also quite a lot, he should also know that there is someone behind the green hair, so he dared to be so arrogant, but what he didn't expect was that Qin Yuan's speed was too fast.

Originally, he was someone who came to reinforce him, but he was knocked down by Qin Yuan within two minutes, and they didn't even have a chance for the members to ask for help.

A little ***** like Lumao was originally instigated by others, and after being beaten like this, he quickly revealed the person behind it.

"Brothers, please spare my life. I will say everything. None of this has anything to do with us. We are also being coerced."

"It's a good one to be coerced, so tell me, what's going on?"

It's just that the bosses of the gang here are fighting for the territory. Because the news of Xifangte's injury has been spread recently, these small gang bosses feel that Xifangte is about to die.

And there is another theory, that is, Xifante's power has also been suppressed by the military and is being greatly weakened, so they dare to be so arrogant.

At this moment, a group of people with sticks rushed up, and they were the reinforcements that Green Hair had mentioned just now.

Now that Lu Mao was beaten with blood all over his mouth, he could only say vaguely: "Quickly tell the boss, these few people almost killed me fucking."

Qin Yuan didn't give him this chance at all, just when the man rushed up, he kicked him on the shoulder, and then a playing card flew out.

The man who ran forward didn't see that Qin Yuan scratched his abdomen with something, but felt a pain in his abdomen. When he looked down, a wound spurted out with blood in an instant.

They are all small characters, and they cannot threaten Qin Yuan. Qin Yuan will solve all the gangsters here, and the news of their fight will spread quickly, and other gangsters who were planning to fight will not dare. Do not act rashly again.

The valet next to Xifangte stood up, looked at the gangsters on the ground and said loudly: "I don't know where your news came from, but our old man is living very well now, you dare to attack our organization, Then the end will be miserable, just wait to be wiped out!"

The **** who was still howling on the ground was stunned when he heard it.

What's going on? It's not that their strength hasn't been weakened. I didn't expect this man to call someone from the organization to exterminate them.

What is the situation? The gangster got up, just about to run, but was kicked by the man and put on the ground.

At this time, a man in a black suit next to him was lying on the ground and shivering. He was the team leader of these gangsters.

Qin Yuan stepped forward and lifted the man up, "Would you like to know and tell me where the news came from?"

When the man heard this, he quickly shut up and didn't want to say a word.

Qin Yuan didn't care so much, and directly punched the man in the face, and then rained fists towards the man. The man couldn't bear such torture in the end.

"Stop hitting, I'll say everything, I really don't understand, it's not the fault of your family, we got the news from Dikale."

Qin Yuan smiled, this is quite interesting, the son publicized the matter of his father's injury, but in the end, this group of idiots failed to get things done, and instead made the matter more and more serious.

When Xi Fang's characteristic personal subordinates heard this, their expression changed, and they directly picked up the man in the suit and prepared to take him back without saying a word.

This matter is very important He wants to bring this person in front of the boss himself, and confront him face to face.

The gangsters here have been dealt with, and those workers can start working smoothly. Qin Yuan only feels it is very ironic. These functions are originally used to fish and drive cargo ships for a living.

Unexpectedly, Xifangte stipulated that protection fees must be paid, and these fishermen risked their lives to fish, and some of the money earned by fishing would be allocated to Xifangte.

But these workers have nothing to do. If they don't get paid, they can't fish at all, and they don't even have a basic living.

That subordinate was going to take everyone back. At this time, Qin Yuan stood up and said, "Well, you take them back here first and I will stay here to guard them. If there is any problem, I can deal with it directly."

The man thought for a while and nodded, "I have to say, it's you who is more careful, just do it like this. If you have any problems, you can cut them first and play later. These ***** just need to be dealt with."

Qin Yuan nodded, just in time to find an opportunity for himself, he was just an excuse to stay, and more importantly, he wanted to send out the information.

Chapter 912: ? Hold a meeting

The man brought the gangster back to the gang, and he was anxious to report to Xifante. No wonder even members of these small gangs dared to attack them this time. It turned out that the news was revealed by Di Kale.

He secretly prayed for Dikale in his heart, this time he must be finished, because although Heifante did not object to his sons fighting for the first place for power, what he hated the most was to combine with outsiders, no matter how big the conflict happened inside them Conflicts can only be resolved internally.

But once outsiders got involved, the matter changed completely.

At this moment, the workers on the pier were already preparing to go to sea in an orderly manner. Qin Yuan stood by and looked at a man who was packing fishing nets and asked, "These **** are here to make trouble, why didn't you report it at the beginning?"

The man shook his head, "It's not that we didn't report it. We have reported it since the beginning when we were threatened, but I don't know why the news seems to be intercepted."

The man was about to say something, but an older man came over and yelled at him loudly, "Sibilly, what are you doing? I told you to go to work, and you're just messing around here. Believe it or not, throw you away." Feed the fish in the sea."

The man with the long face came over, slapped him on the head, and told the man to work on the deck viciously, Qin Yuan smiled, got up and left, he knew it was this man, and he didn't want to let himself know Other news.

Qin Yuan had just left. The older man looked at Qin Yuan's back and said, "You really don't want to die. Now their gang is so chaotic, they don't even know who is from which side. You dare to say anything." .”

The man broke out in a cold sweat when he heard this, so he could only thank the person next to him.

Qin Yuan didn't think too much about it, he didn't want to get involved in the disputes among these people, and now he just wanted to send the information out quickly.

When he was sure that no one was following him, Qin Yuan turned around and came to the place where Gao Shiwei and the others lived. The sound insulation effect of the place where they lived was very good. Qin Yuan jumped to the window on the third floor.

Gao Shiwei heard some subtle movements, and just stood up when he saw a black figure jumping onto the window sill, subconsciously took out the pistol at his waist, unexpectedly a familiar person jumped in, it was Qin Yuan.

He asked in surprise and joy: "What are you doing here now, kid? Do you know that this is too risky, it's just nonsense."

"Hey! Captain Gao, I can't do anything about it. This time it's mainly about your future actions. I can only inform you first."

"What's going on, tell me quickly."

Qin Yuan revealed that there was a traitor in Mi, and that traitor was a member of Dikale, and now he has completely gained Dikale's trust.

"Now I don't know if this traitor was planted by them or if it was a real traitor, but they probably wouldn't just send someone in without discussing with us, so I suspect that it is very likely to be a real traitor."

Hearing this, Long Baichuan fell into deep thought beside him. This may not be ruled out. The United States has been doing things in secret recently. To be honest, these people are too despicable. They not only concealed the news of heavy weapons in the organization, but also many. They don't report anything.

Gao Shiwei was also very worried, if a traitor got in, it would mean that Qin Yuan and the others were in a very dangerous situation.

In order to ensure the safety of Qin Yuan and the others, he could only quickly give an order, "How about this, all of you should withdraw first. Whether this mission is successful or not, I don't care for the time being. Everyone's safety is the most important thing. I can't do it for success. Let your own soldiers die in vain."

"Team Gao, but we've all worked hard for so long, wouldn't it be a pity to withdraw now? Because I'm not sure if they've discovered our identities yet."

"But the risk is half to half. If they find out your identity and attack you in advance, then you really can't come back. I can't let you die in vain."

Qin Yuan shook his head, even if there was only 5% hope that he would die, not to mention that the hope is 50/50 now, because it is not sure whether that traitor knew they sneaked in.

Because of such a situation, Gao Shiwei had no choice but to find Emily first. After all, she arranged all of this. I don't know if she disclosed it to Mi Guo.

Emily was also shocked when she saw Qin Yuan after she came in. This person was beyond her expectation. After entering like that, the strictly guarded organization could come and go freely.

Not to mention how he got out of the gang, but they were stationed in this place, and there were her security personnel below. It stands to reason that those security personnel could not have missed his trace, which is simply too exaggerated.

But on the other hand, she was still a little angry. Why did Qin Yuan contact them suddenly on his own initiative? It was agreed before that there are no special circumstances, and they must never meet, because this will lead to the failure of the entire operation.

Emily folded her hands with some displeasure and said: "Captain Qin, I don't know what you mean, you are here now, if there is any problem with our actions, can you take this responsibility?"

Gao Shiwei was instantly upset. He looked at Emily and said seriously: "The reason why my soldiers are here is all thanks to your so-called plan!"

Emily was also taken aback when she heard this, what's going on? Is there something wrong with the plan? This should not be the case! Their plan is very well designed, so there shouldn't be any problems.

Gao Shiwei told Emily about the appearance of traitors in the United States. She was also shocked by the news, which he did not expect.

Long Baichuan snorted coldly at the side, "Miss Emily, this matter is indeed very serious. What I want to know is how many people know the news that our team sneaked in."

Emily was also very embarrassed at the moment. She slumped on the sofa, put her hand on her forehead and said, "I didn't expect this to happen. The American side knows."

what!

Everyone fully recognized the situation when they heard this sentence. When they participated in the operation before, these people kept telling them that the news this time was top secret and they were the only ones who knew it.

The rest of the people have no right to know, this is also for Qin Yuan's safety.

Gao Shiwei was very angry when he heard this, "I really don't know how you handled the matter, how you ensured it before, and now you are joking about the safety of my soldiers."

"I'm also very sorry for such a thing. We didn't consider it carefully, because after all, this matter happened on the border of the United States, and they do have the right to know."

"Aren't you afraid that if they find out, the whole operation will fail in the future?"

Emily really didn't think about it that much. After all, the country of the United States is also top-notch in terms of military talent, and after all, this matter happened on their border. Their highest officer came to her, so she had no choice but to say everything. .

Long Baichuan said next to him: "Now that something has happened, I don't want to pursue any responsibility. I just want to ask a question, how should we deal with this matter? We will never let our soldiers continue to take risks. Now I am asking to withdraw troops. "

Qin Yuan originally wanted to refuse, because he felt that the risk was worth taking, and he wanted to do his best to complete every task.

And this time seeing those people living in dire straits, it was all because of the existence of these gangs, so he also sincerely hoped to completely eliminate these gangs.

Gao Shiwei also stood up and said: "Yes, and we will not participate in this operation after we withdraw our troops, because it is too hypocritical to cooperate with you people. We don't know what we should know, and they shouldn't know. They know what this is all about!"

Faced with such a situation, Emily could only keep apologizing. Of course, she hoped that the mission would continue, but she couldn't take such a risk.

If there were any problems with the soldiers on the Yan Kingdom's side, it was not what she wanted to see, but this time, they really put in a lot of effort, and she was really not reconciled to giving up halfway like this.

Looking at the quarrelsome people, Qin Yuan shook his head, stood up and said firmly: "It's useless to say this now, the matter is still unresolved, I came out, but my team members are still inside, no matter what, I still have to Go in first."

Hearing this, several people fell silent. This was indeed a problem that had to be faced. Qin Yuan had to enter that dangerous place again. Now their identities were in danger of being exposed, and he didn't know what would happen next.

Emily also felt very touched. Qin Yuan's spirit is something that no one else can do. He has already come out, but he wants to go in again for the sake of his team members.

"But if you go in now, if you are really exposed, you can't come back. The risk is too great."

Qin Yuan tidied up his clothes and prepared to go out from the window, "I know what a risk is, but I also know that my brothers are there, so I won't leave them behind."

Gao Shiwei stepped forward and patted Qin Yuan on the shoulder, "Good boy! I will definitely bring them back safely, many of them, and I will meet you outside!"

Qin Yuan nodded, then turned over and jumped out of the window without making any movement. Emily just wanted to remind that this was the third floor after all, and Qin Yuan didn't wear any protective equipment, so he jumped directly from here.

When she ran to the window, she only saw Qin Yuan's back. Although she only saw his back, Emily felt that it was very firm.

At this moment, Gao Shiwei in the room said solemnly: "Now that things have developed like this, I suggest that a general meeting be held immediately, and a thorough investigation of all of them in the United States, maybe there are other traitors in the team."

Emily also nodded in agreement, "I'm really sorry about this incident. I'm going to organize everyone to hold a meeting now. No matter what, even if it is a storm, we will go in and rescue Captain Qin and the others."

Hearing this, Long Baichuan sneered. It was too much for these guys to expect them to save Qin Yuan.

On the other hand, Qin Yuan planned to do it directly, regardless of whether they found out that they were going to do it or not. If they missed this opportunity, not only would they be at risk of being exposed, but it would be bad for everyone if they procrastinated.

Emily also hurriedly organized a meeting of representatives of each team, and everyone was very surprised by the appearance of traitors in the United States.

Especially Andre, the supreme official of the United States, was very angry when he heard the news. He stood up and patted the table, pointed at Emily and said loudly: "If you have any evidence, you can say that there are traitors in us, so you can frame us at will. Soldier, I can make you court-martialed, do you believe it or not?"

When Gao Shiwei heard what they said, he couldn't get angry at all. When these guys had problems, they didn't think about how to solve them, but instead shirked responsibility immediately.

"Do you have the final say on whether there is any evidence? Our people discovered it with their own eyes. Could it be true?"

"What! How is this possible, when did your people send you information?"

"Hehe, when our people send us information, do we still need to notify you? Then you know, okay, let your traitors go to inform you?"

"you..."

Andre was speechless by Gao Shiwei for a while, but he couldn't believe that there would be traitors in his team.

"Okay, I don't want to quarrel with you either. Now I want to put forward an evaluation opinion. I can't let my people take risks in it."

At this time, the other teams were not happy. They had been preparing for this operation for so long, how could they withdraw immediately?

"I asked you, Yan Kingdom, whether you can discuss the matter as it stands. No one knows if the situation in has been exposed. Now that you propose to withdraw troops, is it true that everyone's efforts during this period have been in vain?"

Looking at the faces of these guys, Gao Shiwei felt that it was too hypocritical. Now his soldiers are inside. If it were any of their teams, they would have retreated regardless. Now he is here to inform them.

"That's because my people are inside. If the person you asked was inside, what choice would you make? And the main responsibility for this incident is also in the United States. It was their internal problems that caused the operation to fail."

Andre was also a little unconvinced, "I really don't know what you mean by saying this. Now that the matter has not yet been concluded, it is really your style of a big country to put the responsibility on us."

Fan Tianlei clenched his fists beside him. These guys still have the same face. Really, if it wasn't because of their identities between countries, he would have rushed to beat that guy up.

In this way, everyone's talk and talk still haven't reached a result. Most people still agree to withdraw. After all, there will be opportunities in the future, but it would be too risky to let Qin Yuan and the others stay alone.

Chapter 913: gunfire

At this moment, Andre evaded the most important thing and put aside the fact that there were traitors in his team. He was the one who advocated not withdrawing troops.

"I don't know where your words come from. I even suspect that you are too cowardly and afraid that you won't be able to complete the task. That's why you say this and want us to agree to withdraw our troops."

When Andre said this, Xiao Maoguo next to him quickly echoed: "I also agree with what Chief Andre said. After all, we can't judge based on your one-sided words. This is the joint efforts of everyone, and you can't do this either." Be selfish!"

Gao Shiwei was instantly furious when he heard what these people said. Is this still speaking human words? It is obvious that a traitor appeared among them, which affected this action, but now they are biting back.

He stood up angrily at this moment, patted the table, pointed at Andre and said: "Just because we are the first in the exercise, the dirty ideas you mentioned are probably only you who can come up with them. We are open and aboveboard, so I will Wondering, if there is a traitor among you, how do you deal with it?"

Andre didn't expect that Gao Shiwei would dare to stand up and question him like this. At this moment, he was a little hesitant looking at Gao Shiwei's aura.

But he still said slowly: "None of us can make random guesses on this matter before making a correct judgment, and shake the morale of the army. You also know that this is the most taboo thing in war."

Long Baichuan shook his head at the side, looking at the faces of these people, he probably couldn't say anything to make them agree to withdraw troops, but he wanted Qin Yuan and the others to come out safely.

In this way, amidst the quarrel, this meaningless meeting ended. Gao Shiwei returned to the residence and the people frowned. Now he is trying to figure out how to rescue Qin Yuan.

"Old Gao! We can't go on like this, or we will lead the team ourselves and rescue Qin Yuan and the others!"

Gao Shiwei also fell into the embarrassment method. He had never thought about it. He had troops on his side, but this was not Yan Kingdom. These gang members were extremely vicious.

And according to Qin Yuan's report back, they possess weapons of mass destruction. If he led an attack, relying on his team alone, not only would Qin Yuan not be able to rescue him, but it is very likely that he would all be buried with these troops. here.

Now he really has flesh on the palms and backs of his hands. He is reluctant to let go of Qin Yuan's side, but he can't take these soldiers on the periphery to take risks.

Gao Shiwei was also in a dilemma. He instantly felt that he had failed as a leader and put his soldiers at double risk.

Long Baichuan could only step forward to comfort him, "Old Gao, it's not your fault, none of us expected such a situation to happen."

At this moment, there was a knock at the door, and it turned out that Emily had come over.

At this moment, Emily is full of apology. Regarding the meeting just now, she also saw the faces of those people, but she can't help it. After all, she is just the person in charge of a security company. Although their security company is very famous, but with these people It's nothing in comparison.

"Sir Gao, I am really sorry for this incident. I am willing to provide some troops to assist you when the time comes."

At this time, Gao Shiwei shook his head. He didn't want more people to make unnecessary sacrifices. Even if Emily provided troops, they might not be able to rescue Qin Yuan. They could only let these people sacrifice in vain.

Because analyzing their strength according to the previous situation, even if the teams of these countries gather together, they can barely draw a tie.

"But Mr. Gao, what do I really want to do for you? Captain Qin is indeed a very good person. I don't want to watch him die inside like this."

Long Baichuan shook his head beside him, signaling to Emily that there is no need to say anything more, and they will take care of their affairs by themselves.

Gao Shiwei locked himself in the room without saying a word. He was really tormented at the moment he could make this decision. To another extent, he was equivalent to giving up on Qin Yuan and the others.

But as the supreme officer, he has no choice. He can't make such a selfish decision. Both sides are his troops. Qin Yuan and the others are his own soldiers, and the soldiers he brought are also human beings.

After thinking for a while, he came out of the room, "Baichuan, now I have made a decision, you take the rest of the team to stay here, and I will meet them by myself. If we don't come back later, then you just take the rest of the team with you." Team go back."

Long Baichuan frowned, "Look at what you're talking about? You don't want those soldiers to take risks, so will we let you, the highest officer, take risks?"

Gao Shiwei was in great pain at the moment, he looked out the window and it was raining again, "But this is the only way, I don't want to give up on Qin Yuan and the others, and I don't want the soldiers here to take risks, so I have to go by myself, let's talk Don't underestimate me, when I was fighting, where were these boys?"

No matter what Long Baichuan said, it was impossible for Gao Shiwei to go alone. Compared with him, he believed that Qin Yuan and the others should be able to come out. powerful.

"Old Gao, let's not mess up now. You are the highest officer. You must stabilize your emotions. What we can do now is to trust Qin Yuan. After going through so many things before, I don't believe that this kid can't survive. ."

Gao Shiwei nodded when he heard what Long Baichuan said. He really can't mess with himself, and if he acts rashly, he will be framed again by the despicable people from the United States.

This is really hard to say, judging from their current appearance, they can really make things worse.

Looking at the heavy rain outside, Gao Shiwei could only silently pray that Qin Yuan and the others would tide over the difficulties and come out safely.

At this moment, Qin Yuan has returned to the camp and the people in the camp have no doubts about him. What Qin Yuan is most worried about now is Dikale's side. It is said that the dog that does not bark is the most biting.

After returning, he found the members of the red blood cell team first, "Comrades, the situation is very urgent now. Since I have lurked in, according to my temper, it is impossible to leave like this, but you must be careful of Dikale."

"Brother Qin, don't worry, we will never back down."

"Everyone is doing well, so let's do it now! I have been out for a long time. In order not to arouse suspicion, I will go back first. Look for opportunities to approach Dikale and keep an eye on their every move. report to me."

"No problem! Brother Qin, you can rest assured! The monitoring work here is left to us."

Qin Yuan nodded and left. Now he is going back to Xifante's residence, because he doesn't know if there will be any changes there.

Just as Qin Yuan went back, the secretary just came over to find Qin Yuan, "Chen Jun, you are back, the boss has been looking for you all this time."

"Okay! I'll go right now."

Qin Yuan was already ready to do something, and it would not be a good thing for Xifangte to find him now. He looked at the surrounding guards, and it seemed that there seemed to be twice as many guards around him as before, and there were still people in the woods below. The shadow shakes.

He secretly made a plan in his heart. If this is the case, he can use his poker skills to deal with the people inside first, and then hijack Heifante. This is the perfect plan in his heart.

When he came to Xifangte's room, he saw more than a dozen people inside, but Qin Yuan didn't pay attention to these people, and the poker cards in his hand were ready.

At this time, Xi Fante suddenly looked at him and said, "How is your investigation at the pier? Are those gangsters looking for trouble again? It's really itchy!"

Qin Yuan didn't expect Xifangte to ask him such a thing, so he could only quickly reply: "There is no problem that has been solved. After all, there is a saying on our side that kills chickens and respects monkeys. These people have suffered a lot. , dare not make any big moves."

"You did a good job this time. I didn't expect that I really raised a good son."

Xi Fante seemed very angry, and he didn't move down after asking, but just let Qin Yuan stay by.

A few minutes later, Xi Fante became a little impatient, "It's been so long since this group of trash asked you to find Dikale, why is it so difficult for one person?"

Then he pointed to the secretary next to him and asked him to go to Dikale in person. Unexpectedly, after a few minutes, even the secretary didn't come back, and Xi Fante faintly felt that something was wrong.

He stood up and said loudly: "It's really against the sky, everyone take up arms and follow me, I..."

Before he could finish his sentence, a bullet came directly in, and the bodyguard next to him quickly pushed Xifant away, but he reacted quickly enough, and Xifant was only shot in the shoulder.

Qin Yuan smiled and said nothing. The sniper was on the big tree outside. He had seen it before. The level of concealment of these people was really too low. At first, he thought it was Heifante.

But looking at the current situation, I don't know which of his sons sent him. Speaking of which, he also thinks that this guy is a weirdo. He even feels proud of his son who wants to kill Lao Tzu.

What made Xifangte angry was that his son dared to collude with outsiders. At this time, the room was very tense, and all the bodyguards formed a circle, protecting Xifangte in the middle.

Qin Yuan looked at the man outside who was just about to run away. He threw out the throwing knife directly, and the man on the tree fell down. The reaction of these bodyguards is really bad. From which direction the bullet hits, they should be the first React.

Unexpectedly, he still has to do it himself. Qin Yuan is just fishing in troubled waters. In this case, he will act as the middle party. Anyway, it is a good thing for him to die on either side.

Seeing Qin Yuan make a move, Xifang looked coldly out of the window, "Let the people downstairs bring that person up."

Qin Yuan didn't hit the man's vitals, but made him temporarily incapacitated. At this moment, the murderer was brought up holding his thigh.

The guy was also a little scared seeing this formality. After all, he had already planned his escape route, but he didn't expect to be hit by Qin Yuan.

Xifang looked at him condescendingly, "Tell me, who sent you here?"

The man was still hesitating, thinking about how to answer, but Hefant didn't give him this chance at all, picked up the pistol and shot him directly in the shoulder, the huge pain made the man scream.

"Boss, I said... Dikale sent me here."

"Damn it, it really is this rebellious son, playing with his father, he is still a little tender, he was not even born when my father killed someone."

Xifangte aggressively led his people to Dikale's residence. The strange thing was that his assistant, who was usually brightly lit, was now plunged into darkness.

At this moment, the bullets of the submachine gun sounded, and dozens of men appeared in it instantly, and quickly shot at Xi Fante and the others.

Qin Yuan turned over and hid behind a big tree. At this time, he noticed something strange in the nearby bushes. Worried about other threats, he ran over quietly, but he didn't expect it to be He Chenguang and the others.

"Why are you two here?"

"Brother Qin, what's the situation? Why did you start fighting without notifying?"

"I didn't start the fight. They dog-eat-dog. You ask what's going on here?"

It turned out that He Chenguang and the others had come to monitor Dikale, but found that the people sent by Hifant had not come out since entering Dikale's residence, and more importantly, the traitor from the United States had also appeared.

"Erniu and the others heard the news from the city gate that the traitor came in through the city gate with a team of more than a hundred people."

Hearing this, Qin Yuan snorted coldly. It seems that this time, he can reap the benefits of being a fisherman. First, he will quietly watch their internal struggle, and then fight himself when they lose both.

At this time, Gao Shiwei and the others heard gunshots from the other side of the city. Such gunshots were very prominent in the dark night. Although the sound was very small because they were far away, he was very Worried.

"Baichuan, what do you think is the situation? Could it be that Qin Yuan was discovered when he was evacuating?"

Long Baichuan shook his head. He felt that this possibility was not high. With Qin Yuan's personality, he would not withdraw his troops so easily. On the other hand, if he wanted to do something, he would definitely notify them in advance and would not act blindly like this.

At this time, Emily heard the gunshots, and came to the door nervously, "Sir Gao, what's going on? Could it be that Captain Qin and the others have started ahead of time? This is not in line with our plan. It's not arranged."

"I don't know about this situation, but since the inside has already been fired, we can't sit still outside. I suggest that since they don't agree to withdraw their troops, they should all go in."

Emily nodded, now everything is still going according to the plan, maybe Qin Yuan and the others can be saved in time.

At this moment, they didn't know what was going on in the city. After Andre's side came back, he was even more entangled. He didn't expect that there would be a traitor on his side.

Chapter 914: take advantage of the chaos to solve them

Although he tried his best to deny it in the previous meeting, it was because he wanted to protect the reputation of his team. After the news spread like this, how could they establish their dignity in the United States?

At this time, the captain of the previous team from the US came in, with gauze still wrapped around his shoulders, it seemed that the injury hadn't healed yet.

Andre looked at him seriously and asked: "The traitor is your subordinate, what is the situation with this person, please report to me truthfully."

He didn't expect such a situation to happen, because even if he was killed, he would never have imagined that such a cowardly person before would become a traitor.

"Sir, I have already investigated clearly. This person is called Arum, but he is a traitor. I really can't believe it."

Andre was very angry at the moment, he stood up and said viciously: "Now it's not a question of whether you believe it or not, Yan Guo normally doesn't joke about such things at will, but it's been so long on your side, I asked you to investigate the results of your investigation?"

He hesitated and couldn't say anything. Although he had a suspect, and it was probably Arumu, but when it was time to investigate, he realized that he didn't know this person at all. He even only knew the person's name. The situation is completely unknown.

After investigating like this, he found nothing, and he didn't dare to report to Andre.

Seeing his faltering attitude, Andre was furious. He tried his best to protect the name of their team outside, but he didn't expect to raise a group of waste.

He stepped forward and slapped the captain of the United States on the face. The captain didn't dare to resist, so he could only lower his head and let himself be beaten.

"Are you sober now? If you dare not be good to this captain, then take the opportunity to get out!"

He could only keep nodding, "Sir, you are giving me a day. I will investigate right away, and I will definitely get the latest information, but that Arumu seems to be..."

Speaking of this, he was a little afraid to say it, after all, this was also something that other subordinates reported to him.

Andre looked into his eyes and said loudly: "I feel ashamed of you. What kind of soldier are you? If you have anything to say, say it quickly."

"Report! Arumu seems to have his own private soldier. This person has been out of contact since the day before yesterday. He should have led the team into the city."

what!

Andre was shocked when he heard this. He didn't expect this to be true. He fell into deep thought for a moment. If this is the case, the traitors did appear on their side, and the subsequent operation failed. responsible for the failure of this operation.

In the future, his American army will not have any majesty at all, and more importantly, he may have to apologize to Yan Guo, which is the most unacceptable thing for him.

Mi Gao's captain also instantly realized the seriousness of the matter. It was the first time he saw Andre attaching so much importance to a matter.

"Sir, what shall we do now?"

"Hehe, what to do, it's not all good things done by you bastards."

Andre stood up and paced back and forth in the room. At this time, someone from the outside came in to report that Emily had asked everyone to assemble a team and was going to directly attack the Sanctuary City over there.

At this critical moment, they still have to send a team to attack, and the captain of the American country didn't know what to do. He immediately suggested to Andre, "Sir, otherwise we will follow the previous plan and pretend to attack outside. Let's save our strength first."

Listening to the report of his soldiers at this moment, Andre suddenly thought of an idea.

"No, now I order everyone to attack vigorously."

what! !

The captain of the United States thinks that he heard it right, their chief actually ordered them to launch an attack, so how can they eliminate those soldiers of Yan State.

Their main purpose this time is to consume their strength, after all, Qin Yuan and his team are too ostentatious.

"Sir, if we launch an attack now, wouldn't Qin Yuan and the others be rescued by us?"

"You idiot, you are still thinking about these issues. Don't you know that the most important issue now is to deal with the traitor? Let's go straight in now, deal with the traitor first, and then we'll have a death sentence."

Speaking of this, Andre looked outside the door, and then said in a low voice: "And if there is a chance, you can take advantage of the chaos and directly deal with Qin Yuan and the others inside."

After hearing these words, the captain of the United States was startled into a cold sweat. They had to say that their minds were too strong, and they were really vicious.

He didn't think of these aspects, and the officer has considered them all, and at present, this plan is indeed the best.

Gao Shiwei and the others don't know about the conspiracy of these Americans. They just want to form a team immediately to rescue Qin Yuan and the others. Emily's speed is also very fast. Everyone's respective teams have been formed, and they plan to launch an attack directly. .

There is no problem passing through that slum now, because there is a war in it, and it is estimated that no one has time to report it.

At this moment, Qin Yuan was following Xifangte, and he asked He Chenguang and the others on the side to continue to lurk, Xifangte was very angry at the moment.

"You son of a bitch! You are so bold that you dare to collude with outsiders. I think I really don't have a son like you in the future."

While speaking, another bullet hit, and Xi Fante quickly stayed beside him. Although he was his age, his skills were very good.

Qin Yuan took a closer look and found that there were Dikale among the people who were shooting inside, and there was also the team member from the United States before. They were very well equipped.

Dika was happy to see that he missed the hit, and felt very disappointed, so he rushed outside and shouted: "It doesn't matter if you don't recognize my son, anyway, you haven't looked at me for so many years, I've had enough, anyway, today is not You die and I live."

It could be seen that Xifangte was very angry, his face was flushed at the moment, his eyes were full of anger, and he shot quickly. Hearing the gunshots, Xifangte directly gave orders to the subordinates next to him.

"No one can be left alive, understand?"

Because from these gunshots, Xi Fant heard that this was not their own weapon, and this guy actually brought outsiders into their gang, he was too bold.

At this time, Abbas also hurriedly brought people over, as well as his elder brother. As soon as the people on both sides came, Dikale inside couldn't sit still.

He took the trumpet and shouted loudly towards the outside: "What are you two doing here? I understand now. You are actually here to kill him, right?"

Deng Jiuguang also found out, what's going on? Why are they so fast? They seem to know that they are coming to fight here, and they are prepared in advance.

Fang Tian smiled. It was not that easy to surround him. He turned over and jumped forward, holding a submachine gun. In an instant, all the soldiers in front of him were taken care of by him. Then when he turned over to avoid the bullets, he threw two explosive bombs. bomb.

His speed was so fast that the soldiers on the opposite side could not catch him.

"I'm going! Is this guy still at the speed of a human? Why is it so fast, where is our sniper?"

The sniper was sweating profusely at this moment, he couldn't aim at all, and before that, he had driven thousands of times and was dodged by Fang Tian. This guy seemed to know how to predict the direction of his bullets.

The observer next to him kept locking Fang Tian with his binoculars, "Old Liu, don't worry, you can shoot after I'm sure, and the two of us will cooperate together."

As soon as the observer's words fell, they saw a black figure jumping in front of them, and then white smoke rose from both of them, and the sniper was completely stunned!

How did this guy come here? You must know that he saw Fang Tian in the telescope just a few hundred meters away.

"You...how did you get here?"

"Sorry, I don't talk to dead people."

After Fang Tian finished speaking, he walked over in a swaggering manner, picked up their sniper rifles, and shot at the soldiers at their positions. Soon, white smoke rose from the people below one after another.

The sniper next to him was the real lesson. He watched Fang Tian's movements seriously. He didn't hesitate at all when he shot, because although it was a sniper rifle, there were many factors to consider when shooting.

Things like the rate of fire of the bullet, the speed of the wind, and the angle of the character are very critical.

But this sniper rifle was in Fang Tian's hands, as if it was hanging open, killing a person with one shot until the bullets in the sniper rifle were exhausted.

The sniper next to him couldn't help sighing, "This is the real gunslinger. It's amazing. It's the first time I've seen it."

After running out of bullets, Fang Tian turned over and jumped among the soldiers. He landed steadily and used a fighting posture to bring them down. After the soldiers fell to the ground, he quickly killed them with a submachine gun.

They were already at a disadvantage just now. Seeing that the encirclement was about to form, Fang did not expect Fang to explode his true strength. His speed was too fast, and his agility, these soldiers were no match for him at all.

The encirclement has been broken. It can be said that Fang Tian and the others want to retreat at any time.

Jiang Xiaoyu turned over and ran up, "Brother Tian, should we retreat now?"

"What are you doing retreating? I want to give Lao Gao a big gift. Since he wants to play, I'll have fun with him."

"Brother Tian, if I'm not mistaken, they should have two companies here, are you sure we can?"

"You don't need to talk nonsense, you're here anyway, and you're here to help me change the clips."

Jiang Xiaoyu nodded, Fang Tian's speed was very fast, soldiers around were constantly eliminated, and Fang Tian directly threw gas bombs among these soldiers.

A squad leader yelled loudly, "This guy is a lunatic, his people are still inside, and he just threw tear gas bombs, ahem!"

Jiang Xiaoyu and the others didn't mind, because they had practiced this kind of training many times. After returning from other people's schools, they got up for training every day accompanied by gas bombs.

Now they are used to fighting under gas bombs, and during Fang Tian's special training with them before, Jiang Xiaoyu's physical agility and responsiveness have been improved.

The whole team cooperated very tacitly, and soon they reached the center. Fang Tian looked around for Gao Shiwei's command post.

At this time, Zhang Chong saw two tents in front of him, and he ran in quickly. He didn't expect that just after opening the curtain of the tent, he directly triggered the laser inside, and the two tents exploded instantly.

Zhang Chong and Balang who followed him were eliminated in an instant, and thick white smoke rose from their bodies.

Seeing this situation, Zhang Chong was stunned, these people are too despicable! Unexpectedly, it turned out to be a trap, "What the **** is this? I just came here, so I was eliminated like this."

While shooting, Jiang Xiaoyu ran to Zhang Chong's side, shook his head, watched the two of them pick up Bai Yan, turned to Fang Tian and said, "Brother Tian, the bald man and Balang have already been eliminated. It's a trap, let's retreat quickly!"

Fang Tian snorted coldly, as expected of Gao Shiwei, this old fox, how could he let himself find his command post so easily, and sent so many troops to guard it, it seems that he really fell into his trap.

Deng Jiuguang also ran forward and said, "It seems that the information given to us by Staff Officer Shen is inaccurate!"

"However, we can't blame her. Although the information is inaccurate, they probably don't know. Gao Shiwei, an old fox, is too cunning."

Since this side is just a trap, there is no need for Fang Tian to stay any longer, and Gao Shiwei's troops are depleted. It is not an option to stay any longer, and reinforcements from outside will come to reinforce them soon.

"But I really can't swallow this breath. This old fox has really deceived me. I won't be reconciled if I don't get rid of more of his people."

At this moment, Zhang Chong and Balang had already been eliminated, so they could only put down their weapons and retreat to the side. There were many soldiers who were killed by them just now, and they all sat together.

The soldier on the opposite side couldn't help but tease: "Hahaha, you didn't expect it, right? This is our chief of staff's clever plan to make you rush forward in a foolish way. It's just a pity that Fang Tian couldn't be eliminated."

Zhang Chong rolled his eyes at the soldier who was talking next to him, "It's impossible for our captain to be eliminated easily like this. Besides, what are you doing here? You were eliminated by us."

Balang also took the opportunity to say: "That's right, our entire team has only eliminated two people, but look at your casualties, tsk tsk tsk!"

"You... you guys are too arrogant."

The soldier wanted to say something more, but was stopped by the squad leader next to him, "Sit down, boy, and be honest! Isn't that embarrassing enough?"

The soldier could only sit by the side despondently. Although Zhang Chong was eliminated, he whistled proudly beside him when he said this.

Fang Tian was very confident in himself, because he concluded that now Gao Shiwei had no cases and came here to increase the number of troops. Even if he wanted to transfer troops outside the city, it would be impossible.

Because Long Baichuan led the marines to attack on the outside, he has no extra cases to transfer here.

Chapter 915: catch the traitor

Hearing Dikale's words, Qin Yuan stopped his movements. These gang members here will be removed sooner or later, but it's just a matter of time.

"Now that things have happened, what else do you want to say? Since I dare to lurk in, I'm not afraid of sacrifice."

When Dikale heard Qin Yuan say this, he sneered twice, "Captain Qin is worthy of being a great hero, but I know you are not afraid of sacrifice, but do those brothers outside of you also want to be buried with you?"

He slowed down, and then said: "Actually, I knew your identities from the very beginning, and I put you in on purpose. I originally wanted you to deal with my two brothers, but I didn't expect that things were beyond my expectation. In other words, we are people standing on the united front."

"Don't put a high hat on yourself with you, we will never be able to stand on a united front."

Speaking of this, Qin Yuan was really shocked. He didn't expect this guy to know his identity from the beginning, but there was this traitor after all.

This Dikale's acting skills are really good. He knew Qin Yuan's identity from the very beginning, but he didn't expect to hold back and keep silent. Sure enough, only dogs that don't bark bite people. This talent is the one who hides the deepest.

Dikale is now desperately trying to win Qin Yuan over, because he knows that his current situation is very dangerous.

Originally, he thought that he would find a chance to attack Xi Fante later, but he didn't expect this matter to be revealed in advance, so now his only hope can only be pinned on Qin Yuan.

"Captain Qin, listen to me. We will work together. The biggest problem now is Heifante. Let's solve him together. We will not interfere with each other afterwards. You can do whatever you want with this gang, but let me live. It will also keep your people safe."

Qin Yuan snorted coldly when he heard this, this man was really planning for his own wish, even his own father was not spared.

"I think you think too much! Even if I don't cooperate with you, I can destroy all of you."

At this moment, Di Kale felt that Qin Yuan was too confident, and this was impossible. It seemed that there was no way to talk to this person, so he just kept on doing nothing, and let's all fight to the death together!

"I've already given you a chance. If that's the case, then I'll take a step back before I die."

Qin Yuan knew that if this guy dared to say this, his people must be hidden in the outside team. At this moment, he would reveal Qin Yuan's identity to save his life, so Xi Fante would not deal with him for the time being.

Dikale pulled out a walkie-talkie, and just about to give an order, Qin Yuan had quick eyes and quick hands, and a throwing knife was directly stuck in his throat. The traitor next to him was completely stunned. In this dark night, his throwing knife skills were so good Brilliant.

Then Qin Yuan turned over and jumped into the courtyard, dodging the machine gun fire, the traitor directly picked up the gun and shot Qin Yuan, Qin Yuan was faster than him, kicked him on the shoulder, the traitor fell backwards go.

At this time, people from outside also came in, and the rest of the people were fighting back desperately. In the end, Xi Fante couldn't bear to shout at the people inside: "Pay attention to me, Di Kale must be captured alive!"

But at this moment, no one can answer her, because they all only care about fighting back and running for their lives. They don't know where Dikale is, and Dikale has turned into a cold corpse at this moment. Stare big.

He also couldn't believe that he died like this. He was very confident in his strength, but what he didn't expect was that these strength were not worth mentioning in front of Qin Yuan.

At this time, people outside ran over to report to Xi Fante, "Boss, it's not good, we have been attacked outside the city wall."

what! !

Xifangte was taken aback, why did he attack at this time? And these people are too courageous! How dare you attack him so blatantly.

"What are you panicking about! It's not that the troops from the US came up, we just need to fight back. After fighting so many times, I don't believe they can really come in."

The subordinate was flustered and stammered: "Boss... No, no! Not only the army of the United States, but I saw several teams. I saw their logo and the army of the Yan State."

Heifante was not calm when he heard this. He had a premonition that something should happen before, but he really guessed it right.

If it was just the US team, he wouldn't be afraid at all, but judging by the number of teams like this, it is estimated that they were encircled and suppressed internationally, so it would be more dangerous.

Heifante had also been battle-tested before, and when he encountered this situation, he pondered for a while and immediately made a command.

"Everyone doesn't care about the situation here, and they all go outside the city to defend."

At this time, he turned his head to Abbas and said, "There are also those little actions you two made, don't think I don't know, but the situation is special now, I hope you can understand which is more important."

Abbas blushed for a while when he was told, he nodded quickly, "Father, don't worry, I will definitely lead the team with my eldest brother, insist on it, and won't let those people rush in."

At this moment, Abbas also understands that no matter how much they fight internally, if these outsiders take advantage of it, then they will be completely finished.

Xi Fangte also ignored the situation here, and rushed to the outside of the city with his people. At this moment, the outside of the city was already raging, and the air defense alarm had already sounded in the entire base.

But what made Xifante more curious was that this time they did not use planes to bomb, but bombarded in their direction.

This is of course also because Gao Shiwei considered that Qin Yuan and the others were still in the city. If air strikes were used, although Xifante had radar defenses, if the defense failed, it would be troublesome if he really injured his own people.

At this time, Qin Yuan took advantage of the darkness to directly carry the traitor on his shoulders, and then jumped out. Li Erniu outside saw only a black shadow, and rushed to meet him. He knew that he jumped from such a high wall. People, only Qin Yuan.

"Brother Qin, how is the situation inside? Who is this person?"

"This person is the traitor. Take a closer look. Dikale has been killed by me, and those shrimp soldiers and crab generals have been controlled by Xifante. Let's go over there to assist Lao Gao and the others."

Li Erniu watched the traitor come forward and slapped him on the face. This guy almost killed them. If Qin Yuan didn't react in time, maybe everyone would be wiped out.

"Bah! You traitor, let's just rebel, why do you involve us?"

At this moment, Alumu knew that he was bound to die, and stared at Li Erniu viciously, "You want to kill or cut, why are you talking so much to me?"

Qin Yuan stepped forward and kicked him to the ground, "It's a shame to be so arrogant as a traitor, just be honest with me! It will be of great use to keep you, after all, the people on your side are not very gentlemen. You kid must live well."

After finishing speaking, Qin Yuan directly punched Alumu unconscious, and then tied him with a rope in the green belt next to him.

Li Erniu felt a little strange. A traitor like this almost killed their entire team, so he should have been killed immediately. Everyone outside had been planning for so long, and all the troops were preparing, and they directly risked their lives to enter the enemy camp.

All plans were almost ruined by this traitor.

"Brother Qin, what's the point of keeping such a person, just shoot him dead."

"Now this person must not die, and you don't think about the faces of those Americans. Lao Gao is probably outside and has been speaking for us, so we must leave this evidence."

Gong Jian stood up and nodded. This person must be kept safe. "I agree with Captain Qin. It's just in case. If they bite back at that time, we can have evidence."

Qin Yuan moved a trash can over to completely block the view. Now that the outside is so chaotic, no one should notice this corner.

After doing all this, everyone quickly rushed towards the city wall, where there is now a scuffle, constant shelling injuries, and the sound of submachine guns and assault rifles.

Abbas came to the city wall and looked down with a solemn expression. This situation is not optimistic! They have fought these people for countless years, but they have never been so fierce.

This time they actually sent tanks and chariots. Of course, they have filmed before, but the people they placed in the slums notified them in advance, so they directly blew up the road they had to pass.

But it's too late now, and they haven't received the news. Now they haven't rushed up for the time being, because there are moats on both sides.

Because of the obstruction of the river, if they want to attack, they must use ships, but if they are in a condescending position on the ship, the people on the ship will immediately be regarded as living targets. Although there is a cover of artillery fire, there is still no one. Successfully stepped forward.

The team commanded by Gao Shiwei tried several times, but this position was really not good. They set up machine guns on the city wall, and even used sniper howitzers on them.

The power of this explosion is too great. The ship they just set up was blown down instantly. Fortunately, they ran in time, but the situation in Pakistan is not so ideal.

It can be seen that Ba Guo is wholeheartedly trying to save Qin Yuan. They all charged forward, and they also set up the boat, but they were hit by the enemy's howitzer, and the two soldiers on board died instantly.

Seeing this situation, Long Baichuan hurried forward and led the team to rescue the remaining Ba soldiers.

The captain of the Ba Kingdom looked at the casualties and couldn't help sighing, "It's because I didn't do my duty as a captain and didn't protect you well."

Long Baichuan patted him on the shoulder, "You are a very good captain, very brave, I really admire you."

Speaking of this, what surprised Long Baichuan was that the soldiers from the country of Mi had been charging forward, which puzzled him. According to their previous analysis, these guys were probably here to make soy sauce. Desperately.

Gao Shiwei held a binoculars and watched solemnly the changes on the battlefield ahead. These soldiers from the United States rushed forward desperately, and their equipment was also very sophisticated.

They were divided into several teams, and they were indeed more powerful than them. After all, this was their territory, and the highest officer commanded them.

Long Baichuan said strangely: "What the **** are these guys doing? Did they take stimulants? Are they so desperate?"

"They can't continue fighting like this. They just go up to die. I don't know how their chief commanded them. If they go on like this, the team will be wiped out by him!"

Although everyone had prejudices before, Gao Shi couldn't care so much at the moment. He couldn't just watch those soldiers die, so he hurried forward to find Andre.

At this time, a howitzer directly blew up, and the command post that Andre had just built was instantly blown down, and a raging fire ignited around it. Many soldiers were on fire, and it looked very tragic.

Gao Shiwei hurried forward, "Andre, you can't continue to fight like this. You should quickly order to retreat. Everyone retreat another 50 meters to avoid their attack range."

Andre looked at the situation in front of him. Although he hesitated, he still said, "Thank you for your concern. My soldiers don't need it."

"Now is not the time to be angry. As a commander, you should be responsible to these soldiers. Don't you just watch them die like this?"

When Gao Shiwei and Andre were arguing, Brother Qin also started fighting in the city at the moment. They directly attacked Xifante and the others from behind.

He thought it was the private soldiers brought by Dikale before. At this moment, he was extremely angry. He was fighting outside, but now he was also attacked inside.

He yelled at Abbas next to him: "You lead people to guard here now, and I will deal with those people behind. See, I said at the beginning that you can fight internally, but don't let outsiders get involved. that is..."

Heifante hadn't finished speakingA bullet directly pierced his waist, and he fell to the ground in an instant, and Abbas ran forward quickly.

No matter how much trouble they made before, they were never this serious. Now all they have to do is to speak out together.

"Father, why don't we retreat, this is not the way to go."

"Shut up for me and retreat. This is our home, and there are walls and anti-aircraft equipment here. Once we withdraw, we will not be able to survive."

Abbas didn't say anything more, but quickly took out the gauze and tightly covered his wound.

Although Xifangte said that he would lead the team to fight back, they had no room to fight back. In this dark situation, Qin Yuan's reaction speed was dozens of times faster than theirs.

Those mercenaries and gangsters had no time to react before they were shot to the ground by Brother Qin. At this time, Xi Fante saw clearly that a figure was actually Qin Yuan.

He looked at the jumping figure in the distance with some disbelief. He never thought that after so many years, he was tricked by a brat!

Chapter 916: Hear the toad

He muttered to himself, "It's impossible. I've seen people all my life, but why haven't I seen him through? Did he pretend so deeply?"

At this time, Qin Yuan jumped forward and took off the disguise on his face, "Show me clearly, I am Qin Yuan, a soldier of the Yan Kingdom!"

Heifante felt a little familiar when he heard the name, but he couldn't remember it for a while, and Abbas said in shock: "Father, he is the one who ranks first in the killer list. So far no one has dared to expose his name." list!"

what! !

Xi Fangte couldn't believe that this person's disguise was so good that he didn't find any flaws at all. What's more, they had talked with the client before this person.

Because they are now the biggest gangsters in the United States, they are involved in many black transactions, almost give money, and can do any task. The number one killer list has also been approached by them. After all, the Greek side Te's reputation is still relatively large.

But because Xifante was injured at the time, he didn't take the order, and no one dared to take it. Why did he touch this bad luck? The main reason is that he is old now and can't stand such a toss. this courage.

The moment Abbas saw Qin Yuan, he knew it was over. He had investigated Qin Yuan many times, and what he was most worried about had happened.

At this moment, he couldn't control so much, he just left Xi Fante and ran away towards the outside. The subordinates behind him saw his boss running away, so they also ran outside.

Xi Fante coughed violently on the ground, this son is really useless, thanks to him being so valued before, he doesn't have the demeanor he used to, why run to the big deal and fight to the death?

But at this moment, he couldn't talk so much, he could only carry out some simple counterattacks with his gun raised, but the willing figure kept flickering in the darkness, the speed was too fast, and he couldn't aim at all.

Moreover, Abbas, who just ran out, was hit on the head by Qin Yuan and fell to the ground. Xifante was extremely angry. If he didn't make a move, Di Kale would have been killed by this guy. He was dead on his hands.

Heifante struggled to get up and went to the side to pick up the sniper howitzer just now. The distance was too close, and the people around him would be injured, but Heifante couldn't control that much, and at worst, he would be killed.

Unexpectedly, just as he raised his hand, a bullet pierced his throat directly. He turned his head in disbelief and saw that the person who fired the gun turned out to be his eldest son.

He never thought that someone would shoot from behind him, because behind him was his own son and his subordinates for many years. He believed it very much, but he didn't expect to be shot black by his son under such circumstances.

This is really ridiculous to say, at the moment Qin Yuan is chasing those fleeing subordinates, Li Erniu and the others also rushed to counterattack quickly.

Xifante's eldest son ran up and kicked the sniper howitzer in his hand, "Old guy, you don't want to die, I want to die, such a short distance, you really want to drag me to be buried with you?"

The secretary who has been with Xifante for many years can't stand it anymore, "What are you doing? He is your own father, and you can even do it."

"You old guys, I can't stand you anymore, get out of here!"

After he finished speaking, he kicked the secretary to the ground, then led a small team, and quickly retreated. He prepared the boat outside, let these people guard here! He was about to slip away.

At this time, under the attack from inside and outside, mainly because the insiders were willing to attack so fiercely, their formation was soon disrupted, and Gao Shiwei and the others outside took the opportunity to break in.

They drove the boat through the moat quickly, and the people on the city wall were already in a mess. Gao Shiwei, who was far away, saw Qin Yuan standing on the city wall and lit a signal for them.

When they entered the city, they realized that it was quiet. Behind the wall were all the gang members and the corpses of mercenaries.

The captain of the Ba Kingdom was completely stunned. As expected of Qin Yuan, his strength has not changed. There are so many people, and he solved them with the strength of a few people. They are on the periphery, and to be honest, they really didn't help much. Busy, just attracted a firepower.

"Captain Qin, your skill is really amazing, your marksmanship is amazing!"

"It's nothing. Now let's hunt down those who escaped first, but there are not many people. There should only be a few people who escaped under my gun."

Abbas was originally handed over to Li Erniu and the others to keep an eye on. At this time, Li Erniu ran over and looked at Qin Yuan and said, "Brother Qin, I didn't complete the task well and let that boy Abbas escape. The terrain is too familiar, I put it in from the back bushes, and I didn't see anyone."

Li Erniu's ear was scratched by shrapnel, and now it was bleeding non-stop, but he couldn't care less, Qin Yuan stepped forward and patted his shoulder, then took out gauze to help him bandage.

"Don't worry, none of them can run away, I'll go after them."

"Brother Qin, it's because I didn't complete the task well. My little injury is nothing. I'll go with you."

At this time, the captain of the United States also rushed in with people, followed by Andre. After these guys came in, they hurriedly searched among the corpses on the ground.

Gao Shiwei snorted coldly, and in an instant he understood why these guys were so active. It seemed that they wanted to find the traitor first.

He stepped forward, looked at Andre and said, "Andre's side has been settled by my soldiers. I don't know what you are still looking for?"

"Hehe, it's nothing. I just want to check if there are other survivors. After all, for the sake of safety, Captain Qin deserves to be a God of War figure. I really admire him from the bottom of my heart."

Seeing this hypocritical compliment, Qin Yuan ignored him, turned his head impatiently, and bandaged Li Erniu's wound.

On the contrary, the captain of the American country next to him was a little unhappy. Seeing that Qin Yuan was so unreasonable to his highest officer, he said loudly: "What is your attitude? Our officer is talking to you."

Qin Yuan turned his head and looked at him coldly, "Oh, I'm sorry, I thought he was talking to our chief, after all, the artillery fire was too loud just now, and my ears are a little hard to hear."

"You... you kid definitely did it on purpose."

Qin Yuan smiled, and then said loudly on purpose: "I can't hear you at all, don't talk, my ears are too intense just now, now when you talk, I feel like a toad screaming next to me. "

The captain of Ba country couldn't help laughing when he heard this, Qin Yuan really has a way of hurting people, isn't it obvious that the captain of Mi country is a toad?

After all, he had never heard the ear shaken by the gunfire, and he could hear the cry of the toad.

The captain theory of the United States was reprimanded by Andre next to him, "It's all right, what time is it now, are you still making trouble here? Captain Qin is our hero, don't be so rude."

No matter how resentful the captain of the American country was, he could only hold back his anger when he heard what his top officer said. He didn't expect to let Qin Yuan go this time. The grudge between them has actually been going on for a long time.

In the past, when they came out to perform various tasks, they were overwhelmed by Qin Yuan and the others. Now they have been recognized internationally, and they will not have their status in the United States in the future.

But there is no way around this. Originally, they had planned very well and wanted to use the strength of these people inside to eliminate Qin Yuan first, but they didn't expect that these people were a bunch of waste, and they were killed by Qin Yuan instead.

Andre greeted him with a smile. Qin Yuan didn't intend to pay attention to this old fox who was full of bad food, and then ran inside with his soldiers.

Gao Shiwei looked at Andre's back, this old fox didn't know what to do, now they must find the traitor first, and they must not let these Americans take the lead.

Li Erniu touched the bandaged ears, quickly got up and picked up the gun beside him, "Brother Qin, I'm really fine, let's go now!"

Qin Yuan shook his head, and said in a low voice: "Er Niu, now I have a task for you. You take Lao Gao and the others to bring that traitor back. You must keep it secret."

Looking at Qin Yuan's firm eyes, Li Erniu nodded. He knew that this task was very heavy, especially when he saw the faces of Andre and others just now. If they found the traitor first, they would definitely kill that person and destroy him. Dead bodies.

"Brother Qin, don't worry, I will definitely complete this task and I will not disappoint your expectations."

Gao Shiwei brought a small team here, "Qin Yuan, everyone in this small team will follow you to catch Abbas who escaped. You must not let anyone go, otherwise these gangsters will come back after they escape. Form a new power organization."

"Captain Gao, don't you still believe in my strength? Don't worry! I won't let any of these people go. Take the people from these squads with you. I don't know if those guys from the United States have any bad ideas."

Long Baichuan next to him also nodded, and now they will split up. They will go to the second stream of the river to find the traitor, and protect that person first. This person is the last key evidence.

The captains of several other teams also led the team to rush in. The base was full of fleeing people. Most of the soldiers who resisted before had been killed, and a small number of civilians were fleeing.

People from Xiaomao Country also rushed up. At this time, two women ran out from the corridor in front. Qin Yuan was about to turn around and chase after Abbas when he saw the captain of Xiaomao Country raised his gun and aimed at the two women. He walked away. Stepping forward, he kicked Captain Xiao Mao's pistol flying.

Seeing that his pistol was kicked away and his wrist was in severe pain, he stood up and stared at Qin Yuan fiercely, "What are you doing?"

"I really don't know. Why do you have the same virtue? You always like to attack civilians. Those two women look like civilians. Are you going to shoot like this?"

"You... how do you know they are civilians? Let me tell you, don't think that you have been lurking here for a while, do you want to cover them up?"

"This is not a question of whether to cover up or not, but that you, as a soldier, should not attack civilians."

Long Baichuan and the others also ran forward, and the two women were so frightened that they crouched on the ground. He asked his soldiers to pick them up, and when he got closer, he realized that one of them was actually a pregnant woman.

The captain of Xiaomao Country was a little unhappy, after all, being so many people refuted his face, and Qin Yuan's speed was too fast, but he didn't dare to get angry with Qin Yuan, after all, this person is really strong.

"Even if these two people are civilians, they must be inseparable from those members within this organization."

At this time, the pregnant woman knelt on the ground and cried loudly, "Sirs, please don't kill me and my child. I was really caught by them. There is no way. I heard gunshots just now, and no one. The guards ran us out."

Hearing this, Qin Yuan snorted coldly, walked over and pulled the woman up, and looked at Captain Xiao Maoguo whose face was blushing and turning pale at the moment, to see what else this guy had to say.

"Ah! Some people are really hopeless."

After Qin Yuan finished speaking, he chased Abbas in the direction of your **** just now. The captain of Xiaomao Country was very unwilling, but he still said loudly, "Everyone follow me and search carefully, don't let anyone go."

Gao Shiwei is very helpless, this group of people is simply bandits, bandits with guns, the weapons in their hands are completely protecting themselves, not for the people.

He is considering whether to separate a few people to keep up with them, and if these people shoot and kill civilians again, they will rush to stop them.

At this time, Li Erniu said mysteriously: "Captain Gao, don't worry, these two people just slipped through the net, and the rest of the civilians have already been protected by He Chenguang and the others, don't worry!"

Gao Shiwei smiled when he heard this, Qin Yuan is really thoughtful.

At the very beginning he found out the map here and the residences of those innocent people, so he sent He Chenguang and the others to protect these civilians immediately.

Qin Yuan's speed is very fast, he has already surpassed the previous search team, according to the direction Li Erniu pointed just now, did this guy prepare a boat on the side of the moat?

When Qin Yuan arrived, he saw Abbas and several of his men sitting on the bed with more than a dozen boxes on it, which seemed to be their property.

Qin Yuan directly threw out the playing cards and the two men who were punting in front of him fell into the water.

Abbas was shocked when he saw Qin Yuan chasing him, and raised his submachine gun to shoot at Qin Yuan, but Qin Yuan hit his wrist directly with a throwing knife, and several people on board quickly fought back.

These people are not Qin Yuan's opponents at all. Abbas only saw a few figures jumping over, and saw that Qin Yuan had already jumped onto the boat. The two men in front had been killed by Qin Yuan with playing cards. The speed was too fast. Yes, the boat was filled with the smell of blood.

Huashu Pavilion

Chapter 917: Rainforest golden toad

Abbas can be regarded as a person who has seen big wind and waves. He has killed countless people before, but he didn't expect that it was his turn this time. Looking at the men next to him, he was killed by Qin Yuan almost instantly.

Qin Yuan exuded a strong murderous aura, looking down at him, Abbas couldn't help but knelt on the deck trembling.

"Brother, can you give me a chance? Let's do this! As long as you don't kill me, I will give you all the money, and I will give you all the millions here."

Although Abbas said so, his hands were very dishonest, and he quietly touched the position of the deck, and it was estimated that there was a gun hidden under it.

Qin Yuan had seen through it long ago, and quickly threw a throwing knife. Abbas let out a scream and fell on the deck in pain.

"It's impossible for someone like you to try to fight in front of me and try to bribe me."

This Abbas cannot be killed. After all, the other bosses have been dealt with. This guy will be judged by the people and the law. Qin Yuan jumped on the deck and grabbed his shoulder. mention it.

The captain of Ba Guo also ran over panting, "Captain Qin, your speed is really fast. We all set off earlier than you. I didn't expect you to come earlier. Fortunately, you arrived in time! Otherwise, let this kid run away." gone."

"It's nothing, because I said that no one will be spared."

Qin Yuan's eyes were full of firmness. He was just about to come up from the deck, and with his hands on the deck, he wanted to use it as a fulcrum to jump up, but he didn't expect the system to make a beep when he touched it.

"Ding! The host triggers the rainforest black golden toad, do you want to recycle it?"

Hearing this, Qin Yuan suddenly wondered what the **** it was. He thought that what Abbas wanted to take was a pistol, but he didn't expect that there were other things underneath.

Qin Yuan looked down below the deck and found a small cage with a palm-sized toad squatting in it. It looked dull and didn't seem to be threatening.

After he kicked the cage up, Captain Ba Guo on the shore turned pale when he saw it, "Captain Qin, quickly throw away that cage, this thing is extremely poisonous."

While talking, the golden toad was stimulated probably by the noise around it, and suddenly made a cooing sound in the cage, and then its body swelled several times, squeezing tightly on the cage.

When Abbas saw it, he lay down on the ground, covering his head tightly, and was very scared, "It's over, this guy is going to explode, it's full of venom!"

At this moment, Qin Yuan stretched out his finger and pointed at the golden toad. In the eyes of Captain Ba Guo, it was like playing with fire. The toad had already secreted a yellowish venom, let alone touching them and standing on it. A foul smell.

At this critical moment, Abbas, a cunning fellow, suddenly threw a smoke bomb, trying to take advantage of the chaos and escape, because everyone's attention was attracted by the toad.

When Qin Yuan came into contact with this toad, the system also issued a notification sound. According to what they said, this toad is quite useful. If so, then just take it back.

"System! Recycle directly!"

"Ding! Congratulations to the host for the successful recovery. The rainforest black golden toad ranks first in the world in toxins. A drop of venom can kill an elephant. I am merging skills to ask the host to make a choice."

"1. A world-class Breaking Bad master, the body is invulnerable to all poisons, and can fuse toxins."

"2. A world-class master of camouflage, the unique skin properties of the golden toad can be integrated with the surrounding dead wood for perfect camouflage."

"3. A world-class induction master, with enhanced perception ability, can perceive raindrops, wind speed and fallen leaves in nature, and the ability to predict in advance has been enhanced a hundred times."

Qin Yuan looked at the skills given by the system. He was more interested in this Breaking Bad master, but now he has healing skills, which seems to be a bit contradictory, and such poisons can't be used. He has no self-defense skills now. Enough is enough.

After thinking about it, he made a choice, "System, I choose the third skill."

"Ding! Congratulations to the host for successfully recovering the skills of a world-class induction master! Perceive everything and predict it in advance."

Listening to the system's introduction, Qin Yuan felt that this skill sounded a little magical.

At this time, a ray of light slowly radiated from his mind, and then he felt that every inch of his skin and every pore seemed to be able to feel everything outside.

Before, he only had sharp hearing and improved eyesight, but now it is different. His whole perception is beyond advance, and this perception will soon be transmitted to his mind as a moving picture, just like hundreds of meters away. Outside, a shadow came in.

The man clutched his right hand and bent down to see Abbas who had just escaped. At this moment, the Pakistani captain just ran out of the smoke. This was not an ordinary smoke bomb, but the latest gas tear gas bomb.

Moreover, it can emit a strong light in an instant, which will not only irritate the nasal cavity and mouth, but also make people instantly blind for eight seconds.

At this moment, Captain Ba Guo lay on the ground and coughed violently, "Damn! This kid is too cunning, ahem! Hurry up and chase after me!"

Qin Yuan jumped up from the deck, and then quickly chased in the direction where Abbas was escaping. At this moment, Abbas only heard footsteps coming from behind, and he didn't dare to look back.

But Qin Yuan was a hundred times faster than him, and soon caught up with him and kicked him on the back. Everything around him became clearer and clearer under Qin Yuan's perception.

How many people are approaching, and how many people are hiding in the building, are sent to his mind through the images formed by this sense, which is simply a human body radar.

Qin Yuan's kick directly kicked Abbas away. The boy rolled on the ground a few times and couldn't move at all. He stepped forward and stepped on his back.

"It seems that I should have injured your leg just now, seeing that you run quite fast."

Without the slightest hesitation, this man was so cunning that he was willing to squat down and forcefully broke Abbas's right leg. After a click, Abbas let out a scream.

It's not that Qin Yuan was too cruel to this person, but that what these people did is outrageous. Over the years, they have used their gang strength to win over power, and those people who are unwilling to give in are directly killed by them.

How many families were broken up because of them, and this Abbas was very lecherous, and kept finding some young girls outside to be detained for his pleasure.

Such a person deserves to die, but he just needs to wait for the people's trial, otherwise Qin Yuan would have killed him long ago.

The captain of Ba Guo ran forward, took out the rope from his backpack, and tied Abbas tightly, "Captain Qin, I really admire your skill. This kid can't escape time and time again. It's really amazing." ."

Qin Yuan smiled and didn't speak. He quickly ran to the opposite building, because according to his perception, there were still a few people hiding there.

The captain of Ba Guo was still wondering why Qin Yuan suddenly ran towards those buildings, and within a few minutes, Qin Yuan directly dropped a few people from the road on the second floor.

At this moment, he was completely stunned, the speed was too fast, how did he know that there were people inside, and the soldiers of the Yuan Kingdom who had just searched out of this building were also surprised.

what's going on? They conducted a rigorous search of the entire building just now, and found no one hiding. They did not expect Qin Yuan to go up and find out these people.

The captain of the Yuan Kingdom was very embarrassing at the moment, and shouted loudly at the subordinates beside him, "I really don't know what you **** are doing, and there are still fish that slipped through the net!"

Those subordinates were also dumbfounded. They did go through a rigorous search, and they didn't know that there was a tunnel inside. These guys were hiding in the secret tunnel inside.

Qin Yuan is very satisfied with the skills he has drawn this time. This perception ability is so strong that he can perceive it in a radius of hundreds of kilometers.

At this moment, an emergency call came from Captain Yuan's walkie-talkie, "Captain, hurry over here, there is something wrong here, soldiers from Yan State clashed with those from Mi State."

Qin Yuan ran forward quickly when he heard this, what are these guys from the US country trying to do? Was it the traitor who had the problem, or the civilians he asked He Chenguang to protect? Before he had time to think, he quickly moved forward.

The soldiers of other teams stared at Qin Yuan's back in a daze. This guy's speed was too fast, and he only saw his back when he was talking.

The further he ran, Qin Yuan sensed that two groups of people were confronting in front of a building, and these were the civilians he asked He Chenguang to protect.

He Chenguang didn't have the slightest fear, because there were only him and Wang Yanbing on the side, and a small team from the US side, and the two confronted each other with guns in hand.

He looked fiercely at the American soldiers in front of him and said loudly, "I don't know what you guys want to do, but I can assure you that there are innocent civilians in this house."

The American soldier in front said in a strange manner: "How dare you guarantee that these are civilians? And now we are searching for important traitors. If you let the traitors escape, can you bear this responsibility? Maybe the traitors are among these people. "

The people next to him also echoed and said: "Yes! And how can you be sure that they are civilians? Maybe these people and the members of these organizations are all in the same group. You are covering up and conniving."

They had blown a big hole in the building with grenades, and the civilians inside were huddled together in fear. Hearing what the American soldiers said, a woman in the front knelt tremblingly on the ground.

"Sir, we are really civilians captured by them. Here, I have been imprisoned by them for more than five months. We really have no involvement in other things."

But the soldiers in the United States didn't listen to this at all. Their purpose was to find the traitor, because they had been found elsewhere.

There was no news of the traitor at all, so they concluded that the traitor was likely to be protected by Qin Yuan among these civilians. They issued an order from above to find the traitor before Qin Yuan and the others, and eliminate the traitor, so that they could be destroyed. evidence.

The soldier from the United States stepped forward and pulled the bolt, "I think you, a woman, have a problem with your speech. It seems that you have to check carefully to see if you are a traitor among you."

After finishing speaking, he walked towards the woman and Chengguan with malicious intentions, rushed forward, and blocked the American soldier with his body.

"What exactly do you want to do?"

"I think it's what you guys want to do! How dare you stop us from carrying out a search. I don't know what you mean, so everyone rushes at me."

The American soldiers behind all rushed forward one after another. How could He Chenguang and Wang Yanbing stop them? At this critical moment, an American soldier behind felt a huge force and pulled himself backwards. Turning around, it turned out to be Qin Yuan.

The strength and speed of this man were so fast that the soldier didn't even have time to react, he had already flown backwards, the person next to him heard the movement, and was about to turn his head the next second before being knocked down by Qin Yuan.

The soldiers lying on the ground really couldn't figure out how Qin Yuan did it, the speed was too fast! Moreover, his strength is so great that even the tallest soldier here was knocked down by Qin Yuan.

The American soldier who was still clamoring just now pointed to Qin Yuan and asked, "What do you mean? How dare you attack us?"

"I'm sorry, I'm just doing something to some garbage that I want to do to civilians. After all, I like to clean up garbage the most."

This guy is really too arrogant. He mocked them openly and secretly. They wanted to resist, but their strength was not as good as human beings.

Andre also rushed over after receiving the news. Seeing that the soldiers who were knocked down on the ground were furious, this group of trash was really useless.

"You bastards, are the guns in your hands firesticks? Why did they get knocked down? Who did it to you?"

Before the soldier could answer, Qin Yuan said first, "Sir, was the one who attacked them, but you have to ask your soldiers, why did I attack them?"

Without the slightest fear, Qin Yuan stepped forward to help the woman who was trembling just now, "Don't worry, it's okay, we are soldiers of the Yan Kingdom, and we will definitely guarantee your safety."

Knowing that it was Qin Yuan who blatantly knocked down his soldiers, Andre couldn't take it anymore, so he took out the gun in his hand and pointed it at Qin Yuan.

"Captain Qin, I think you need to explain this matter. What do you mean by attacking my soldiers again and again? You don't take our country of America seriously at all, or do you mean you Want to start a war directly?"

Qin Yuan snorted coldly. He hated people pointing guns at his head the most. In the next second, he turned around and grabbed Andre's wrist, taking his gun away.

The conflict happened in an instant, and the other teams who came were stunned by this scene. It was very embarrassing for Andre to be robbed of his gun in public. This person is really too arrogant.

"As you all have seen, I am just defending myself. After all, people put a gun at my head, so I can only protect my safety first."

Chapter 918: International awards

To be honest, Andre was quite flustered in his heart, especially when Qin Yuan just showed his hand and snatched his gun in public. Andre had also been on the battlefield before and faced various emergencies.

Qin Yuan's speed was really too fast, he didn't even see clearly just now, when the soldiers from the US country saw that his officer's gun had been snatched away, they were dissatisfied and stepped forward to surround Qin Yuan.

Seeing that the situation was wrong, He Chenguang and the others also surrounded them. These Americans were too shameless. Two American soldiers took the opportunity to lean forward and drew a dagger from their waists.

Qin Yuan snorted coldly, he had seen through this little trick a long time ago, the two guys slowly stepped forward through the crowd, and when they were about to approach He Chenguang, Qin Yuan quickly stretched out his foot and kicked directly in front of him. The soldier flew out of the man's abdomen in an instant.

The soldier fell out, and at the same time the dagger fell, and the person next to him was also hit by Qin Yuan's punch, and his shoulder fell heavily to the ground. Although Qin Yuan only punched him, the soldier felt that his entire shoulder bone seemed to be shattered. It's broken and can't move at all.

Seeing that the matter was brought to light, Andre originally wanted to take the opportunity to kill them in the chaos, because the strict development speed now really scares them, not only their military strength, but also their strong team.

Now the red blood cell team led by Qin Yuan has squeezed into the top of the world, and they have become the strongest special team.

You must know that it was always Andre's Snow Leopard Commando, but now times have changed. Since Qin Yuan appeared, he has made breakthroughs time and time again, showing various impossible tasks.

The most important thing is that there are traitors in their team this time. If Qin Yuan and the others hold on to this matter, it is estimated that it will be difficult for them to stand up in the international arena in the future, and they may even be kicked out of the international team.

Because this action is related to several teams, it is not a matter of his own country. So many people planned together, and something went wrong among them. Not only did they not find the key to the problem in the first place, but they wanted to cover up the facts.

But Andre didn't understand this at all. He felt that Qin Yuan and the others had caused all this, so Qin Yuan and the others couldn't stay at all.

When he was kicked out just now, that soldier knocked down the two people behind him. Qin Yuan looked at those American soldiers coldly, and said slowly: "You guys had better not do anything else, or I will really attack you!" , you are not opponents at all."

Wang Yanbing, who was next to him, saw that these American soldiers were so arrogant that he even wanted to do something to him just now. What if He Chenguang was really stabbed if it wasn't for Qin Yuan's attack?

"At any rate, you can be regarded as the title of a big country. I didn't expect to do such despicable things. I really look down on you."

Wang Yanbing didn't care so much, he directly told the truth, the people in the next few teams were just watching, they didn't step forward, after all, no one wanted to cause trouble.

But hearing this, and seeing that the soldiers from the United States fell down just now, and the knives did fall out of their bodies, these people are really brave, and everyone talked about it for a while.

After Andre heard it, he instantly felt disgraceful on his face. He made mistakes again and again. He really didn't know what kind of waste these soldiers under him were.

At this time, Gao Shiwei and the others in the distance also led the team. Seeing that the situation was not good, Andre quickly picked up the pistol on the ground and shot directly at the two soldiers who wanted to assassinate Qin Yuan and the others just now.

He Chenguang was shocked when he saw it. This guy really knows how to do it, and he killed them to silence him, "What are you doing? You didn't know anything yet, and you killed them."

"Yes, after all, the two of them are also your subordinates. Is this your leadership style?"

Facing the killing of these two soldiers, the American soldiers next to them were shocked, but they still tried to pretend to be calm. They knew that the overall situation should be the most important thing.

Qin Yuan has long seen that he just didn't want to stop his actions. These people are really despicable. Even if these two people are left behind, there will be no results in the end. It's better to let him kill them so that they can clean up the garbage and save themselves. .

But it's really a pity that these two soldiers followed the wrong leader. They followed such people just to carry out the orders from above, and they were killed in the end.

Gao Shiwei and the others quickened their pace when they heard the gunshots, and Emily and an international official from the United Nations came with them.

Gao Shiwei knew that a despicable person like Andre would definitely find various reasons to want the traitor's life, so he brought these two along with him.

Andre narrowed his eyes and saw a man with a bruised nose and a swollen face behind Li Erniu. The captain of the American country whispered in his ear: "Sir, he is Alumu."

Gao Shiwei didn't even give Andre a chance to speak, he stepped forward and questioned him, "What do you mean now? Are you provoking my soldiers again and again, or are you provoking the majesty of our country? "

Andre squeezed out a smile, but at the moment his smile is uglier than crying, "Sir Gao, you are worrying too much, I just dealt with these two traitors just now, I didn't expect my team to appear like this one after another The people who almost attacked Captain Qin and the others."

"Oh! But the matter hasn't been investigated clearly yet, and you don't need to be so anxious to kill people! After all, maybe there are other unit organizations in your team, you should interrogate them carefully!"

"Sir Gao, you don't know that I've always been strict and never allowed such a thing to happen in the team. Just now I was too impatient to act rashly, but I will deal with problems in my team myself. "

Gao Shiwei snorted coldly, and turned to check Qin Yuan's situation. With Qin Yuan around, they wouldn't be injured, but he was a protector, how could he let his soldiers be wronged? These guys are just too crazy.

"This is not a trivial matter. It is no longer a matter of your team, but it concerns everyone's safety. My soldiers have been threatened with their lives, so I strongly request that your entire team be investigated!"

Hearing Gao Shiwei's words, Andre couldn't bear it anymore. He said loudly: "Why do you investigate my soldiers? This is my team. Where do you get the authority from?"

At this time, the international officer of the United Nations came out and said sternly: "Then you see if I have the qualifications. You all belong to the international team. I didn't expect such a thing to happen in the internal affairs of the team. You, the leader, are really dereliction of duty. ."

Andre could only nod and bow beside him and said, "What the international chief taught me is that this time I didn't lead the team well, and I really feel ashamed of everyone."

At this moment, he looked at the traitor and continued: "Sir, in order to make up for my mistake this time, I plan to interrogate this traitor myself, and then ask other clues to give everyone an explanation."

Originally, he wanted to kill Alumu when he came in, but he didn't expect this opportunity at all. He was staring at Qin Yuan at this moment. This guy really played a good hand. From the beginning, he expected that he would do this , so this person has been hidden.

So the best way now is to interrogate Alumu himself. Arumu knows that they have too many plans, and some things really cannot be known internationally, otherwise it will be completely over.

But what he didn't expect was that the international official of the United Nations didn't hesitate at all, and directly made a phone call. After a while, a small team came and shot his soldier directly without any explanation.

Andre turned pale in shock, turned his head and asked, "Sir, what do you mean?"

"What do you mean? I'm going to investigate your team carefully, and you are now suspected. This person must not be handed over to you for interrogation. All this teaches us to be responsible internationally."

This time, Andre was really trying to steal the chicken and turn the corner. He didn't expect things to turn out like this. This time it was completely finished. As long as he was interrogated by the international community, there might be some problems.

There were too many things they did, and he looked at the soldiers at this moment, wondering if they could hold on and pass the interrogation.

Originally, he thought that this incident was enough to disturb him, but at this moment Qin Yuan suddenly raised his hand and stood up and said, "Sir, I have another report here, which is about their American soldiers shooting and killing civilians. "

The international chief frowned and asked, "There is such a thing, can you testify about it?"

He Chenguang and Wang Yanbing stood up and patted their chests to ensure that they could testify. It was because they dissuaded them from shooting civilians that they started the conflict.

And at this time, the civilians behind also stood up and signaled that they could fight, and it was these Yan country soldiers who protected them.

For a while, the situation on the scene changed drastically. The international chief of the United Nations shook his head, looked at Andre and said, "You really let me down. I didn't expect you, the United States, to be in such a mess now."

Andre doesn't want to have any rebuttal at this moment, the matter is already like this, it is useless for him to say anything more, it is all related to Qin Yuan and Yan Guo, he has written down this account .

Qin Yuan didn't think it mattered. Anyway, when he went out to perform missions before, as long as he met soldiers from the United States, both sides always looked down upon them, and they always found fault first. He couldn't bear this tone long ago.

Watching Andre and the others being taken away, Gao Shiwei fell into deep thought while watching their backs, but Li Erniu didn't think too much, he said with a smile: "Brother Qin,

thanks to your ingenious plan this time, the This traitor is protected by the poor, otherwise I really don't know what these guys will do."

"Yes, this time it seems that they should be punished as they should be. It is estimated that this team will not be established."

Gao Shiwei shook his head beside him and said: "It is possible that the team will not be formed, but other teams will be formed soon. With so many of them in the United Nations, the status of the United States cannot be shaken."

From Gao Shiwei's point of view, these guys are probably just going through the motions, but their reputation will not be so good in the future, just like Qin Yuan and the others have become the best special operations team, and they will give priority to any tasks in the world. give them.

Qin Yuan had seen through all this a long time ago, so when Andre killed his people just now, he did not stop him. Even if the international chief wanted to investigate, he had no choice but to have many problems under his command.

This is not something they can grasp now. Long Baichuan stepped forward to comfort everyone and said: "At least our current strength can match them, don't worry! We will only become stronger and stronger, and will become the object they look up to."

Qin Yuan nodded and agreed very much. This day will not come too late, and he still has the design drawings of the ship mother in his hand, and their strength will only become stronger and stronger.

This time the mission was successfully completed, and the main contributors were indeed Qin Yuan and the others. For this reason, the international community specially issued an international circular to commend them.

This time, everyone was rewarded for their cooperation. As the first place, they carried out such a dangerous mission. The United Nations directly rewarded each of them with 200,000 yuan.

Qin Yuan really doesn't worry about money now. Seeing the faces of Andre and others this time, he understands the importance of strength even more, so he directly donated the money and put it into the national science and technology research.

He Chenguang also donated the money, together with Qin Yuan, Li Erniu originally wanted to be with them, but due to the situation of his family, this money is really needed for him.

"Er Niu, you should keep this money for yourself, everyone can do what you can, because I don't need much money by myself, you are different, you have a family after all now."

When Li Erniu heard Qin Yuan say this, he immediately felt relieved. Qin Yuan is indeed a good leader, and he can consider all aspects for the people below.

"Brother Qin, I didn't expect that there would be rewards for such an internationally organized mission. This is the first time I know."

"So, this time we stole a lot of their limelight. You see, those guys from the United States and Xiaomao are our enemies."

"That's right, they used to be the ones who stole the limelight, and almost all tasks were assigned to them first, but now it's different, we have completed the same as them, and even under Brother Qin's leadership, we have completed it even better. "

Speaking of this, Li Erniu also understood why those guys targeted them so much. One was the international awards, and the other was the issue of reputation. Qin Yuan and the others had become the best special warfare team.

The reason why the United States is so fierce, but their strength is not only because of the rise of Brother Qin and the others, but also because of Long Xiaoyun, they, they, Yan Kingdom, two such strong teams appeared at once.

At this moment, Andre had just come out of the review office. Although it was just a formality, after all, he had someone in the United Nations, but this time, he managed a lot of connections during the review.

Chapter 919: Andre's plan

The review during this period delayed his work a lot. He walked into the office aggrieved, and made a phone call as soon as he sat down, and a man walked in after a while.

If you look closely, half of this man's face is covered with scars, and his voice is also very hoarse.

"I didn't expect that you would take the initiative to find me. Are you not afraid that I will kill you directly?"

Andre was not angry when he heard the man say this, he just looked at the man and said, "You won't kill me, but on the contrary, I will reuse it, you just see if you can seize this opportunity."

"It's so funny. I've been tricked by you once, and now I've become like this. Do you think I'll still trust you?"

Andre knew that the result would be like this, so he was not in a hurry, and took out a photo directly from the drawer, "You have to pay attention to your attitude, now you should know who is the real home court."

The man was shocked when he saw the photo on the table. The person in the photo was his wife and two twin daughters. The man was very emotional. He looked at Andre and shouted loudly: "You bastard, what are you doing? What do you want to do?"

"Don't be so excited. We can sit down and discuss some things. Don't worry, they are safe. I have taken them to a secret place to protect them. After all, you know that there are too many bad guys now, and I am also worried that they will be hurt."

Hearing these hypocritical words, the man couldn't help but want to rush up and beat up this bastard, and put his wife and children under house arrest. What kind of despicable method is this, and the words are so high-sounding.

The man stared at the photo in a daze, without saying a word, clenched his fists at this moment, he didn't know what he would do in the next second.

Andre stood up, stepped forward and patted him on the shoulder, "Don't think about some things so extreme, after all, you are our former soldier, and it is my responsibility to protect the families of veterans, and..."

Before Andre finished speaking, the man said, "Stop talking about it, what do you want me to do now? I will do something for you one last time."

"Hahaha, you are still the same as before, with such a straightforward personality, I also like to deal with smart people like you, don't worry, I will give you a lot of money after it is done, and you can take your wife and daughter to live a good life ."

Then, Andre took out a document from another drawer and handed it to the man. The man's pupils dilated when he saw the document for the first time. What's going on? Andre is simply insane.

His hands holding the documents trembled a little. This half of his face belonged to this person. This person was simply too powerful to be provoked by him.

"You are crazy! Don't you know his strength? We are really nothing in front of him."

Andre's eyes were full of viciousness at the moment, "Don't worry! This time I have arranged for other people to act with you. You will form a team, and your duty is to lead this team and complete the tasks I entrusted to you ."

Now, the man has nothing to do. After all, his wife and daughter are under house arrest.

"Okay, then go down now, I don't want anyone to know what happened today, and I will notify you when I take action."

The man walked out of Andre's office with a dignified face holding the documents. The sun was shining brightly outside the room at the moment, but he felt that the sun shining on his body could not resist the cold sweat of fear on his back.

This man is Andre's former subordinate named Lucas. He used to be the captain of their Snow Leopard Commando.

Because his leg was injured at the time, he could no longer continue to serve in this special operation, so he was transferred to the rear.

The person Andre wanted him to deal with was Qin Yuan, because Qin Yuan had caused him a lot of losses this time, and he had spent a lot of money just to deal with those old guys in the United Nations.

But in comparison, he can still sit firmly in this position now, which is also worth it, because those things he did in private are really exposed, and he probably will stay in prison for the rest of his life.

She had heard of Qin Yuan before, because he actually had private contacts with some large drug trafficking groups. It stands to reason that he should not worry about money or rights in his position. If he has to do his best, his current position is indeed considered tallest.

But many years ago, he was designed to fall into a gambling turmoil, and most of his family property was completely trapped, and at that time he actually embezzled public funds in a mysterious way.

In order to fill this hole, he could only find some criminal groups that had contacted him before, mainly because he could deploy guns and ammunition at will in this position, and he sold these eliminated guns and ammunition to those criminal groups.

Although it was eliminated by them, it was made in China after all, and it was much better than the defective products bought from the black market.

At the beginning, he thought that after completing an order, he would stop doing it if he could not fill in the gaps, but how could people be satisfied?

Slowly, he developed more and more, from selling obsolete products to these organization members, and then openly started to cover up and protect these organization members.

Because these people are his God of Wealth, nothing can happen, and in the words of that organization member, they are now grasshoppers on a rope. If those organization members are excellent, he will not be able to escape.

Later, it was known that Qin Yuan was in a large-scale extermination campaign. At that time, a drug cartel that Qin Yuan was chasing had dealt with Andre for a long time.

The boss of the criminal group was trapped in the base by Qin Yuan's red blood cell team, and his team was completely broken up. He had no choice but to ask Andre for help.

But Andre planned to do nothing but let him be killed by Qin Yuan directly, so that his affairs would not be exposed. He had a good plan, but the boss of the organization had seen through it a long time ago, and he also made secondhand preparations.

At that time, he threatened Andre that if he did not save himself, he would leave a recording, which was the deal between him and Andre.

There was no way, Andre could only send Lucas at the time to secretly form a small team to rescue the leader of the organization. At that time, Lucas had just retired from the special operations team and was very skilled.

But when he learned that he was going to rescue the former crime boss, he couldn't accept it. Andre at the time lied to him, telling him that this person was their undercover member and must rescue him.

By the time Lucas arrived at the base, Qin Yuan had completely breached the base. That was also the first time Lucas saw Qin Yuan. This man completely overturned all his images of Yan Guo soldiers.

At that time, Qin Yuan rushed into the building with two assault rifles. The criminals inside were all vicious. In order to escape, they did everything possible to throw grenades outside. Half of the building was about to be bombed. It collapsed, and Qin Yuan came out of it unscathed.

Lucas did not reveal his identity because it was carried out in secret. Qin Yuan thought that they were also members of this group of criminals and launched a fierce attack on them.

In the end, although the leader of the criminal group was rescued by them in troubled waters, he was also left half disabled, and it was even worse for Lucas. The eight team members he brought all died under Qin Yuan's hands.

Half of his face was also caused by the burning of the blasting grenade at that time, and his throat was scratched by shrapnel, so his vocal cords were also damaged.

What he didn't expect was that after this incident happened, Andre didn't take those people with him. The Cui family became martyrs. After all, they sacrificed for the country. Lucas couldn't figure it out. Andre It turned out that it was only handled in secret.

Those brothers of mine followed him desperately, but they didn't expect to end up like this in the end, and they didn't even find a corpse.

Lucas made a big fuss at Andre's place, and brought the family members of other brothers. Unexpectedly, he was the only one who persisted in the end, because those family members had collected money from Andre, and everyone was silent.

It was also because of this Lucas that he carefully investigated Andre. He didn't expect that this guy had colluded with those criminals. At that time, Lucas went to report Andre. He didn't expect that the people above him had already been punished by Andre. All right.

He had just gone to Lin'an, and those people didn't even read the application, so they put him in prison directly, and charged him as a rebel.

You know, in Lucas's hometown, the crime of rebellion is very serious. Lucas has nothing to do. His wife and daughter have been bullied outside, after all, they are family members of the rebels.

Lucas was imprisoned by Andre on the charge of rebellion for three full years. Lucas couldn't bear it. When his wife came to visit him, she cried and said to him, let him bow his head and admit his mistake, otherwise the two daughters will be dead. There is no way to grow up.

For the sake of his family, Lucas could only bow his head to Andre. He wrote a letter of guarantee, vowing that he would not reveal this matter again in the future, and quit the army.

After he came out later, his life was very hard. He could only move out of his hometown, but the crime of rebellion has been followed in his file. He can't even do security work, so he can only do odd jobs around to barely support his family's expenses.

Who would have thought that the captain of the Snow Leopard Commando, who was all-powerful at the time, would end up in such a fate.

The next thing was that Andre contacted him again and used his family as a threat. Lucas had no choice but to understand that they were all on the same boat.

He is just a nobody, with no rights, no money, what to use to fight against others, all he can do is to do his best to protect the safety of his family.

Andre wanted to get rid of Qin Yuan more than once, but he never had a chance, and Qin Yuan's strength really made him very afraid.

In the past two years, Qin Yuan's red blood cell team has directly entered the international team, which put Andre into a huge crisis. He was worried that his things would eventually be exposed, so he simply acted first and killed them.

At this moment, after Qin Yuan returned, they received international awards. Gao Shiwei originally planned to give them a week's vacation, but unexpectedly came to a temporary mission.

Li Erniu had already prepared his luggage, and before he had even stepped out of the camp, the assembly whistle rang. After everyone came back, they found out that there were a few college students who went hiking together during the weekend vacation, but now they are missing.

The local firefighters and some volunteers were sent out to look for it, but after 12 hours, there was no news at all, so they asked the nearest army for help.

When Qin Yuan received the task, he looked at the surrounding terrain. They searched for 12 hours and only knew that this group of donkey friends entered the Dasong Mountain next to the building, but they didn't know where it was because the signal was cut off here. .

In the past 12 hours, those rescuers have walked more than ten kilometers on foot, half of the mountain has been passed, so Qin Yuan immediately decided to skydive directly.

In such a bad situation, only Qin Yuan and the others dared to parachute. There was still drizzle in the sky. The rain was much lighter than before. In order to rescue these donkey friends as soon as possible, they didn't care so much.

Under Qin Yuan's leadership, they landed steadily and came to the center of Dasong Mountain. They were quite familiar with this mountain, Li Erniu, because they had trained in it before.

However, the altitude of Dasong Mountain is relatively high, and the climate is relatively cold. Although it is only separated by a boundary, the temperature here is more than ten degrees lower than outside.

I don't know what happened in the past two years. For a while, this place has entered the city, and those girlfriends want to visit the Holy Land. As long as someone can climb this mountain or successfully cross it, they will be very famous in the donkey circle.

While searching, Wang Yanbing said, "I really don't know what these people are thinking. If you have this spare time, why not bring them all to our team for training."

"People say that this is some kind of extreme sport. The harsher the environment, the more challenging it is."

Everyone's vacation was ruined, especially Li Erniu, who hasn't been home for more than a year, "If you want to challenge, you have to see if you can do it. know the whole thing."

Qin Yuan rolled his eyes at him from the side, "Look at your attitude, we are always serving the common people, search for me carefully, and don't let go of any clues."

Li Erniu also realized that he shouldn't complain like this, so he nodded and began to search seriously.

At this moment, Qin Yuan saw a colorful thing floating on the trunk in front of him. Everyone stepped forward quickly. It was a wrist, and it looked very new. It should have been left recently. mark.

After walking for more than an hour, we finally saw the harvest. It should be left by this group of donkey friends. They should have lost their way in the jungle at that time, so they marked it.

After walking like this for a while, Li Erniu just lifted his foot and found that there was blood under the boulder next to him, but it had dried up.

"Brother Qin, there is a situation here!"

When everyone heard the news, Qin Yuan circled around the boulder, only to find that there was a ravine behind the boulder, and there was a person lying in it.

Chapter 920: poachers

He Chenguang rushed forward and took out the first aid kit beside him. Qin Yuan shook his head. In his eyes, this person had no vital signs.

Because his eyesight had improved, under thermal imaging, this man was already a cold corpse.

Sure enough, He Chenguang stepped forward and felt the man's pulse, "It's a pity, he's out of breath."

Li Erniu squatted down to examine carefully, he was quite curious, how did this person die? Generally, in this kind of jungle, you will probably encounter poisonous insects, poisonous snake bites, or fall down the mountain caused by accident, but there are no relatively high places nearby, and there will be no possibility of rockfall attacks.

He Chenguang and Li Erniu tried their best to turn this man over, but unexpectedly there was a knife wound on his chest. What's the situation? The two were taken aback.

Qin Yuan also stepped forward to check carefully. It seems that this person's death was not an accident, but a murder.

"Brother Qin, what's the situation? Are there any problems with those donkey friends?"

Qin Yuan shook his head, and now he has no way to make an inference. Under such harsh conditions, they have been missing for more than 48 hours, and the man's backpack is no longer there. It is not ruled out that they were killed because of fighting for food. .

"Now we have to step up, people have died and the rest don't know what's going to happen."

Everyone nodded and continued to search forward. Before they had time, there were markers on the road. Since the discovery of the man's body, the markers were actually broken.

Qin Yuan really couldn't figure it out, even if some of them accidentally killed someone, at least so many of them would want to live, so they wouldn't say that they didn't leave any marks.

We searched forward for more than an hour, the rain gradually became heavier, everyone was very quiet, only the sound of each other's footsteps could be heard.

Qin Yuan couldn't help feeling a little irritable in his heart, because although it was raining in this climate, it was extremely hot, and there was no wind at all. The rain wetted his clothes and stuck them tightly to his back. The sweat and rain mixed together, making him very uncomfortable .

Qin raised his head and looked around. The scenery here is the same. It seems that this jungle can't be finished. At this time, he found that there seemed to be something shiny in front of him.

When he stepped forward, he found that it was a small power bank, with three letters engraved in stone on the back, "SOS"

Looking at this situation, Qin Yuan felt more and more difficult. It is estimated that this group of donkey friends must have encountered some unexpected situation in the mountains, and they must have been hijacked.

After all, so many people were mobilized, and the firefighters and the local volunteer rescue team also mobilized nearby villagers. A team of seven, seven, eight or eight hundred people just searched in the mountains and forests, but there was no clue at all.

Moreover, the equipment of those donkey friends is relatively advanced, so it is not possible to say that they cannot receive any signal, but since they finished calling for help, they suddenly cut off contact.

Everyone could only speed up the pace of the search. When it was getting dark, Qin Yuan heard voices coming from the front, and he made a gesture to signal everyone to be vigilant.

Li Erniu quietly stepped forward and said in a low voice: "Brother Qing, if those donkey friends are right in front, why don't we go forward in a fair manner?"

"Wait first, I always feel that this matter is not that simple, everyone should be more vigilant, I will go up and have a look first."

Qin Yuan approached quietly, and saw a tall man with stubble all over his face, wearing a thick military overcoat, and there were three or four men dressed like him beside him.

There were a few young people in sportswear sitting among them. It seemed that these people were college students. Qin Yuan really guessed it. Sure enough, they encountered an unexpected situation and were kidnapped by these people.

The tall man in a military coat squatted under a tree, took out a cigarette, and just lit it, when a man with a scar on his face came over, snatched his cigarette, threw it on the ground, and stomped it out. up.

"Dalong, are you trying to kill us?"

"Brother, it's been a day. I haven't smoked this cigarette for a long time. Before it's completely dark, let me have a good time. Besides, it's not that exaggerated."

"I said, are you stupid? Those soldiers have military dogs, and the dogs have very sharp noses. Do you want us all to be discovered?"

After being scolded, Dalong sighed deeply, and then sat under the tree without saying a word. Immediately afterwards, the man with the scar took out a few compressed biscuits from his bag and threw them to several people.

A young man in a tracksuit in the middle said cautiously: "Brother, we haven't eaten all day, so please give us a bite too!"

Scarhair stepped forward and kicked the young man on the shoulder, "His grandma, if it wasn't for you brats who broke our plan, would we have to fight with you here? You'd better be lucky I can find the drone tomorrow, and if it continues like this, my patience is not so good."

Just as Qin Yuan was about to make a move, he suddenly heard the drone that this guy said. Could there be other clues in it?

A girl in pink sportswear next to her said: "Brother, we really accidentally photographed this incident, please let us go, please? And the drone was photographed by Xiaotian, and it has nothing to do with us." relation."

The man with the scar didn't care that much at all, he stepped forward and slapped the **** the face, "Where is there so much nonsense, I tell you that I can't find the drone tomorrow, so **** me to hell, including That kid is being guarded."

Hearing this, Qin Yuan realized that not only these few people were arrested, but one of them should be guarded by their accomplices to threaten them.

There was an earthen shotgun hanging on the waist of the man with the scar, and there were also crossbow arrows. After eating the compressed biscuits, several people did not dare to light the fire. They were afraid of being discovered, so they just cut off branches and leaves nearby and set up a simple tent.

At this time, Qin Yuan made a gesture, calling for the team members behind to come up.

Seeing this situation, He Chenguang asked in a low voice: "Brother Qin, these guys don't seem to be good at it. They all have crossbow arrows on them, so they should be poachers."

Qin Yuan nodded. The corpse they found just now was probably made by these people. "I will deal with the three people next to me later. Er Niu Gongjian is in charge of the two people on the right, and the rest will protect the hostages in the middle."

After all the deployments were completed, Qin Yuan started to act. It was a little dark now, and those people didn't dare to light the fire. It was so dark that only a rough outline could be seen.

Qin Yuan's eyesight played a big role in this situation, and it didn't affect him at all. He rushed forward with a stride, his speed was very fast, but the movement of several people quickly aroused the vigilance of those people.

After all, that group of people has been dealing in the jungle for a long time, so they are very sensitive to these movements.

Scarface picked up the crossbow bolt at his waist, "Get up all the fuck, there's a situation."

As soon as he finished speaking, Qin Yuan knocked him to the ground with a sweep of his legs. The man with the scar turned pale with fright. Who could move so fast, he didn't realize that everyone was already in front of him.

After the man with the scar fell down, Qin Yuan kicked the man next to him, then fell over his shoulder, and knocked down another man.

The man with the scar who fell on the ground was not a vegetarian either. He quickly shot a crossbow in Qin Yuan's direction, but Qin Yuan's movements were so quick that he dodged it with a stride, and the crossbow shot on the shoulder of the man next to him. The man howled in pain.

Then Qin Yuan grabbed the scarred man's wrist, and with a click, the scarred man's wrist was instantly broken.

Li Erniu and the others quickly subdued the people nearby, and the college students in the middle didn't dare to move at all, because they didn't know what was going on in the dark, they just heard the fight.

Moreover, these people prevented them from escaping and tied them together with ropes.

The man with the scar was stepped on by Qin Yuan, and at this moment he said viciously: "Fuck! Who the **** is it! I'm really tired of daring to sneak attack on me."

"You kid's mouth is really not clean, it seems that you are really eating **** in your mouth."

Then Qin Yuan punched him in the face, before the scarred man could react, the second punch came down, Qin Yuan's fist was too heavy, the scarred man couldn't bear it after only three punches live.

There was no cursing in his mouth, he just coughed and spit out a mouthful of blood. This guy's fist was too heavy.

Gong Jian turned on the flashlight, and the college students were overjoyed when they saw the clothes on Qin Yuan and the others, "Great, someone finally came to save us."

"Comrade, I didn't expect that we really waited until this moment. I thought I would never see the sun tomorrow."

The two girls in the team also sobbed softly, Qin Yuan untied their ropes, and handed them the dry food and water bottle on his body.

These college students seemed to have been really hungry for quite a long time, without the slightest hesitation, they took the dry food and gnawed without even finishing the package.

The boy wearing glasses said while eating: "Comrade PLA, thanks to you, we were tortured by these ***** for two whole days, and they didn't give us anything to eat."

Qin Yuan stepped forward, looked at the man with the scar and asked, "Tell me, what's going on?"

No matter what, he turned his head to one side, but didn't say anything. Just as Qin Yuan clenched his fists, the scarred man shouted: "Isn't your policy not to take prisoners? Are you going to kill them again?" If you dare to hit me, I will report you directly when the time comes."

Li Erniu snorted coldly at the side, "You kid looks at the big and the three rough, but you still understand these things?"

"Hehe, let me tell you the truth, it's useless to arrest us. There is still a kid in our hands among this group of people. If you don't let me go, we will kill him."

Qin Yuan stood up abruptly, he couldn't stand someone threatening him like this the most in his life, so he went straight up and wanted to beat this kid for a while.

Gong Jian hurriedly pulled him back, "Captain Qin! Calm down, you have become so many people now, and look at this guy's tone. Don't influence yourself for such a person."

And the man with the scar also deliberately stretched his head towards Qin Yuan, "Hey, why don't you beat me up, if you have the ability, kill me today, ***** it, they're all a bunch of cowards."

Although this sounded very angry, Qin Yuan also calmed down. This guy obviously wanted to provoke them, and Li Erniu also clenched his fists, very angry.

Qin Yuan just tied the scarred man with a rope a few more times, pressed him tightly against the tree, and then walked to the nearby fire.

Li Erniu couldn't stand it any longer, "Brother Qin, is this the way to go? We are the only ones here, look at this guy's arrogant attitude, so what if you beat him up?"

"Er Niu! Come and sit down, don't bother with that kind of rubbish."

"But..."

"Li Erniu, come and sit down, obey orders!"

"Yes!"

Li Erniu was very helpless, so he could only walk over and sit by the fire. At this time, those college students had also finished their food, and then began to talk about what happened.

It turned out that they came to climb the mountain, and everything went well. The boy with the glasses had climbed this mountain before, so he came here with his classmates thinking about the holiday.

Now it is popular to do outdoor live broadcasting, and they have also done it. They even bought special equipment and set up a drone, thinking that they can take this opportunity to play again and win some attention.

The drone was bought by that Xiaotian, and he was the one to control it. As a result, during the filming process, he accidentally took pictures of these poachers killing wild animals. At that time, several people did not notice it. They waited until the camping at night. At that time, everyone watched the pictures taken during the day together.

Only then did they discover the crimes of those people. Most importantly, they found that those people still had shotguns in their hands, and they panicked instantly.

They immediately decided to withdraw from the mountain area and go out to call the police with this drone, but these poachers had already discovered their whereabouts.

Someone noticed them when they were filming during the day. didn't catch them during the day because they were separated by some distance. Unexpectedly, they lit a bonfire in this deserted jungle with great fanfare at night.

The poachers suddenly appeared, and everyone had to run away desperately, but how could these few college students outrun these experienced poachers, and they were quickly caught. Xiaotian accidentally dropped his backpack from the cliff during his escape. Down, the drone is inside.

These poachers were worried that the contents inside would be picked up by others, and asked them to take the drone with them, because they didn't know how to manipulate it and how to destroy it.

So leave one hostage, let these few people take the rest of the people to look for it together.

Speaking of this, the ***** the side cried loudly, "During our search, Da Mao has been quietly leaving clues behind him. He hoped that we could be found by the rescuers, but unexpectedly they found us, and then they took him..."
