

Special Soldier 931

Chapter 931: Rebels!

Qin Yuan pulled Qin Zhengyang over and said in a low voice: "Then wait until you are really 18 years old. Everything follows the procedure, and you don't get special treatment. If you really want to be like me, then start as an ordinary soldier."

"But I want to go with you now. If you don't let me go with you, I'll tell Grandma Sun."

This guy even learned how to threaten others. Long Xiaoyun tried hard to persuade Qin Zhengyang, but this kid just didn't like it. Anyway, he wanted to go with Qin Yuan today.

Qin Yuan raised the corners of his mouth suddenly, and said, "Then you go and tell Grandma Sun, and I'll see if she won't let you go, or won't let me go."

Qin Zhengyang was stunned, Qin Yuan's reaction was too fast, it was obvious.

He could only sigh slowly, he really wanted to be a powerful person like Qin Yuan, and also a hero to protect others.

He patted Qin Zhengyang on the shoulder, and said earnestly: "Now you don't understand anything, it's a good thing to have this kind of heart, but you have to know that there is a price to pay for being a hero, and you don't know anything now, go To be honest, it's really holding me back."

Qin Zhengyang nodded, a little unwilling, but what Qin Yuan said was indeed true, and then he and Grandma Sun prepared to get into the car.

Grandma Sun also felt strange, why wasn't Qin Yuan with them? Long Xiaoyun walked beside him and said with a smile: "Grandma, isn't it enough for me to go back with you, and Qin Yuan, our leader, has given him another task, don't worry!"

"He's not going to chase that person, is he! The kid is real, as long as he's safe now."

"Grandma, don't you still believe me? He is going to perform other tasks, he is safe, don't worry!"

Grandma Sun was still puzzled, but after hearing Long Xiaoyun's explanation, he also nodded, and could only wave his hands at Qin Yuan outside the window.

After Grandma Sun left, Qin Yuan looked at the members of the red blood cell team with his hands behind his back and said loudly: "This time the matter is more complicated than we imagined, so we will conduct an infiltration operation to silently find out the killer behind it. "

"Brother Qin, you can give the order directly, no matter what, we will obey you."

"Yes, anyway, the brothers have been born and died for so many years."

Qin Yuan looked at these brothers and said that it was a lie that he was not moved, but this time, he really wanted to find out the real murderer behind the scenes, Andre, so to speak, to assassinate him.

In the previous international censorship, he was fine, which shows that this guy definitely has a lot of power inside. Since he can't kill her in such an open manner, then they want to play tricks, and it seems that he will accompany them to the end.

What's more important is that these guys can investigate the situation of said grandma, and the situation of other family members of the team members is also in danger of being exposed.

This time they were lucky, and they got out of the car in advance. If grandma said that the family members were directly assassinated in other circumstances, what should they do?

But before leaving, he still called Gao Shiwei. He couldn't decide this matter. Gao Shiwei on the other end of the phone fell silent after hearing it.

After two minutes, Gao Shiwei said: "Did you tell me anything just now? If not, then hang up, but come back safely, kid."

Although Gao Shiwei's words did not give him a clear answer, it was another way of implying that Qin Yuan could make decisions on his own, because he couldn't say too clearly, after all, the relationship was too complicated.

He also knew Qin Yuan's ability, if he did it quietly, there shouldn't be any problem.

With his words, Qin Yuan took reassurance, and usually led the team to set off immediately, and they were going directly to the country of America now.

Lucas, who absconded on the other side, quietly called Andre.

"Where is my wife and daughter?"

"Don't worry about this matter. How is Qin Yuan? As I said before, if you want to see your wife and daughter, you can exchange his head for it."

Lucas was a little excited. He stared at the surrounding vigilantly, grabbed the phone, and said in a low voice: "Our operation failed. The entire army was wiped out. I was the only one who survived. This matter is too risky. I now ask you to Hurry up and return my wife and daughter to me, I'm leaving!"

Andre on the opposite side was shocked when he heard the news. How is this possible? The few players he arranged were all the best.

Why was the whole army wiped out suddenly? How strong is Qin Yuan?

"I didn't expect this to be your strength, and you claimed to be the former captain of the Snow Leopard Commando. Lucas, I'm really disappointed in you."

"Don't talk to me now, I just want my family to live before I live. I have tried my best, but there is no way."

"Then no one should know that I am the mastermind behind this incident!"

Lucas thought for a while, probably not, because those people were all killed directly, and he also absconded, Qin Yuan probably didn't know.

"Don't worry, I have completely blocked this matter. He only knows that I am behind the scenes."

At this time, Andre on the other end of the phone suddenly laughed, "Well, then I can't help it. In this case, you go to the South Pier, your wife and daughter will be there, and I will also prepare a boat for you ."

Lucas couldn't think too much at the moment, and rushed to the south pier in a hurry. He just wanted to take his family and fly away, and he would never appear here again. The strength of this Qin Yuan was really terrifying.

After hanging up the phone, Andre fell into deep thought. Why did Qin Yuan let Lucas go alone, or did this kid really have his own escape skills and really let him escape?

Qin Yuan and the others must not be aboveboard when they go to the United States this time. In the end, Qin Yuan also chose to smuggle there, because Andre must be on guard now, and all he has to do is to catch him off guard.

There are many smugglers sending smugglers to the United States. This is a big business. There is no need to worry about no one going there. When Qin Yuan came to the border of Yuan State, he saw several men smoking on the pier.

It seems that it should be these people. He strode over, but he didn't expect those people to turn around and run away when they saw him. Qin Yuan still wondered what was going on with these guys, and suddenly realized that he was wearing a camouflage uniform now, and There is still a ninety-five style hanging in front of it.

Those guys probably regarded him as a border patrol, so they ran away, Qin Yuan was not to be outdone, how could he miss this opportunity, and quickly chased after him, and Qin Yuan caught a snake head that was running slower.

The man who was caught turned out to be a one-eyed dragon. Seeing that he couldn't run anymore, he turned his head and knelt on the ground, panting heavily.

"Brother, I said, why are you chasing me alone? You don't catch so many people, and I swear I haven't given them away recently."

Qin Yuan didn't care so much, stepped forward and grabbed his collar.

"Don't talk nonsense, I need to go to the United States now, you send us there."

The one-eyed man was taken aback when he heard this, what's going on? He realized in an instant that these guys must be fishing to enforce the law. As long as he agrees, he will not say so when he gets on the boat. He probably will only spend the rest of his life in prison.

"Brother, stop joking with me. I'm a good citizen who abides by the law. I really wouldn't do such a thing."

"Oh, then I need to requisition your ship."

Qin Yuan didn't want to expose his identity, so he decided to settle for the next best thing. The man didn't dare not agree, so he could only nod. Qin Yuan made a gesture, and the members of the red blood cell team ran up from behind.

Seeing this situation, the man didn't dare to refuse, and silently handed over the boat to them, and his boat already had a navigation system.

Smuggling ships like them cannot follow the normal navigation route, but can only detour around to avoid the inspection of the patrol.

However, these were not a big problem for Qin Yuan. In the end, the one-eyed man watched Qin Yuan and the others board the boat, and wondered why these guys would suddenly requisition his boat.

Although he was afraid, he was still a little unwilling. After all, he didn't know who to ask for the boat when the time came.

"Brother, although you confiscated it, I still want to ask, who do I go to ask for my boat later?"

Qin Yuan smiled and said: "This question is very good. Colonel Andre of the United States, you know! We are his people. Now if you have any problems with requisitioning your ships, you can go to him directly, and you can also ask him for it. to a fee."

"But I don't even know your name. If I go to him like this, will he not believe me?"

"Just tell him my name is Lucas."

After watching Qin Yuan and the others leave, the man was also a little worried, after all, this was the tool he relied on for survival.

After getting the boat, Li Erniu and the others laughed on the boat. Qin Yuan's trick was really clever, not only made Andre suffer from being dumb, but also successfully avoided their suspicion.

When entering the Yuan Kingdom, Qin Yuan had already removed all the national flags on his body, after all, they were going to sneak in this time.

Moreover, Qin Yuan's plan also laid the groundwork for the future. He wanted to make the old guy Andre never turn over, and he also wanted to expose this guy's ugly face to the world.

If he dared to touch his family, the end would be miserable.

At this time, Lucas had quietly come to the southern pier of the United States. He was still a little worried that people like Andre were unreliable and would definitely kill people, so he planned to come to the pier in advance to check the situation.

But what he didn't know was that Andre had already guessed that he would think so. After all, Andre had been wandering around for so many years, and everything on the dock was as usual. Lucas thought there should be no problem. After a while, a small boat docked at the pier.

But still did not see his wife and daughter, Lucas couldn't wait, he decided to go up to see the situation, because the pier here is really strange, there are usually many boats, but so far only this small boat come over.

Lucas had just approached the boat when a man suddenly stepped out of the boat, "Are you Lucas?"

"Yes, did Andre ask you to come here to pick me up?"

Before saying his name Andre, the man suddenly changed his face and shouted loudly: "You can also say Colonel Andre's name directly? You rebel."

Before Lucas could understand what was going on, a team of people rushed out from behind and shot him quickly.

what's going on? Lucas was startled, and he rolled over to escape.

The man who appeared just now gave the command and said, "Everyone must catch this rebel! Don't let him escape!"

"Oh shit!"

Lucas knew that he was being bullied by Andre, the old fox was not that simple, and at this moment, Andre also appeared.

He looked at the ship where Lucas was hiding, and said loudly: "Rebel Lucas, I am now arresting you on behalf of the Third Military Region. If you continue to resist, then we will directly kill you."

Lucas couldn't bear it, the old guy was biting back now, obviously trying to plant everything on him.

"Andre, I was **** used by you! Where is my wife and daughter now? I will guarantee you that as long as I bring my wife and daughter, I will leave here immediately and never come back."

But Andre ignored him at all, and continued to order to shoot at him. Soon the ships hiding in front of him were smashed into a sieve. These people's firepower was very fierce, and they obviously wanted to kill him.

Although Lucas dodged around, he had only one pistol on his body, and there was not much ammunition. In this case, he fought back hard and was also shot in the abdomen and seriously injured.

At this time Andre came out, and the soldiers next to him hurriedly stopped him, "Colonel, this rebel army is very dangerous now, you'd better not get close."

"After all, he was my former subordinate. I still want to say a few words to him at the end."

Lucas has no bullets now, so Andre is not afraid of him at all, he slowly walks to the position where Lucas is hiding.

Andre squatted down and peeled off a candy and handed it to Lucas. "Eat it, this may be the last time you eat candy."

"You bastard! Where is my wife and daughter? You asked me to take the blame for you. I admit it, but now I just ask you to return my wife and daughter to me."

Andre suddenly laughed, "Don't worry, you will meet them soon."

Hearing this, Lucas was taken aback. This guy was really so ruthless. Hearing this, he really killed his wife and daughter.

"You...they are all innocent, and you actually dare to attack them."

Lucas was seriously injured, and he spit out blood when he was stimulated by the sudden news.

"Well, I can't help it. After all, I am a family member of the rebels. You know, what I am best at is cutting weeds and roots."

Lucas didn't expect Andre to be so cruel. In fact, from the very beginning, Lucas's family has been killed by him, because he planned to let Lucas take the blame from the very beginning.

Lucas looked at Andre viciously, "I used to obey you because of my wife and daughter. Now that they are gone, I have nothing to be afraid of."

Chapter 932 Successful Reporting

Andre sneered and said: "Oh, then I'll see how you disobey me. If you don't look at your appearance before the addition, what are you fighting with me?"

After finishing speaking, he kicked Lucas's wound, and his wound was bleeding instantly. Lucas also grinned in pain, but still stared at Andre viciously.

This ***** not only used himself to work for him, but also killed his own family. Now it's a good show to put everything on himself.

Lucas thought about how stupid he was before. When he just started looking for him, he should have taken his wife and daughter away. Such a cruel person can do anything.

But it was too late now, he had now become the rebel in his mouth, and even if Qin Yuan and the others found him, he would probably become that scapegoat.

Lucas suddenly sneered, looking at De Andre proudly, Andre felt that she would never escape at the moment, he had so many people here, and he was so seriously injured, where could he run?

Unexpectedly, Lucas suddenly rolled over, and then jumped into the sea with all his strength. Andre had quick eyesight and quick hands, and shot quickly, directly piercing Lucas' shoulder.

Soon Lucas didn't come up, and other soldiers rushed up when they heard the movement, all raising their assault rifles and shooting into the sea.

After more than ten minutes, the sea was calm, and Andre burst out laughing. What kind of guy is fighting against him? Killing him is as easy as killing an ant.

Now the only person who knows his secret is dead. Others are not a big threat to him, and they are all restraining each other. He does have some relations with those above, but everyone has grasped each other's weaknesses .

Andre was relieved to get rid of Lucas' worries. He just didn't trust other people to do things, so he did it himself this time.

But now there is another trouble, Qin Yuan is still alive, this guy is really lucky.

He planned to kill him so many times, but he failed every time. He let this kid escape every time. This time he really couldn't figure it out. He had already tied his family and failed.

This time is a rare opportunity, so he missed it for nothing, and Andre was a little unwilling. He originally wanted to send another team, but unfortunately he didn't have any available people around him. It seemed that he needed to train some new people, especially A scapegoat like Lucas.

He will solve Qin Yuan's problem sooner or later. As long as this person exists for one more day, it will be a threat to him.

What he didn't know was that Qin Yuan had already led the team to the country of America. They had been to Andre's base before, and the defense was really tight.

After all, this guy still cherishes his life, but what Qin Yuan can't figure out is that he, who has already brought him to the world before, can escape.

He Chenguang snorted coldly, and said slowly: "I don't know how many people they have hooked up with. The fact that a traitor appeared in their team is enough for this old boy to drink a pot. I didn't expect to let him go unscathed." came back."

"So I will never let him go this time. Since the international community can't punish him, then use my Qin Yuan's method. I always retaliate with an eye for an eye."

"Brother Qin, just give the order directly, we will all obey you, anyway, brothers will accompany you no matter what."

Qin Yuan was very moved when he saw the members of the red blood cell team, "Brothers, it is enough to talk a little bit, but don't worry, I will never let you fall into danger."

Because if their team goes there now, the target is relatively big, Qin Yuan decided to set off at night, and now wait for the opportunity at the pier.

At this moment, Ruanyuan suddenly noticed a black spot floating on the opposite side, and looked carefully at the person floating over the sea.

He Chenguang and the others immediately signaled to jump into the sea and salvage the floating person. Only then did Qin Yuan realize that it was Lucas.

Is it really true that friends don't get together, and this kid actually delivered it to the door by himself.

But looking at his body, he suffered serious injuries. There was a penetrating wound on his shoulder, and the wound on his abdomen was already inflamed after being soaked in sea water.

"I'll go, Brother Qin, what did this kid suffer from being beaten so badly, and thrown into the sea, it's obvious that he doesn't want him to live."

Qin Yuan shook his head. He didn't touch this kid. That time he explained that a problem must have been done by Andre. Seeing that this guy probably had some reason to be caught by Andre, that's why he was willing to serve him.

I didn't expect the old guy Andre to come and deny it directly. Maybe this person can be used well.

Qin Yuan prepared silver needles and asked Li Erniu and the others to prepare gauze to heal this person.

Li Erniu asked a little puzzled: "Brother Qin, this guy is the direct murderer who kidnapped Grandma Sun, why not just throw him into the river to feed the fish, I would have known that I would not have saved him just now."

"This person wakes him up first. I have a lot of things to ask him, and maybe it will be of great use later."

Although a little reluctant, after all, this guy is the kidnapper who kidnapped Grandma Sun.

But hearing that it was still useful for Qin Yuan to keep this person, Li Erniu and the others could only debride his wound first, while Qin Yuan stuck a silver needle beside him.

In this way, after a while, Lucas slowly opened his eyes, but immediately he coughed violently, because he had been soaked in seawater for a long time, he began to cough violently until he coughed out all the seawater in his lungs.

He looked around and realized that it was Qin Yuan who saved him.

Lucas stepped back vigilantly, and subconsciously wanted to touch his weapon, only to realize that his gun had fallen under the impact of the sea water.

Seeing how vigilant he was, he even wanted to fight back, Li Er was furious, "Don't be ignorant, you boy. We saved you. You are really a dog biting Lu Dongbin, and you don't know good people."

"Hehe, I didn't let you do it, but you did it voluntarily."

Li Erniu couldn't help himself, and was pulled tightly by He Chenguang next to him, "Brother Qin, look at this guy's attitude, we rescued him, and he still doesn't know what to do, he's just a white-eyed wolf, just kill him killed."

"After all, we are not on the same level, and he is not playing for us. We are opposing parties. It is normal for him to be hostile to us."

Then Qin Yuan turned his head to look at Lucas and said: "Although I don't know what happened to you, I generally know that Andre should have done it, so you are also a smart person, you can choose to cooperate with me ."

Lucas felt very ironic at the moment, that he was rescued by Qin Yuan, and that he had kidnapped his family before.

He saved himself regardless of previous suspicions. On the contrary, Andre worked desperately for him. His wife and daughter were killed by him, and he ended up as a rebel instead.

Lucas shook his head mockingly, "It's all fate, and I can't help it. Andre threatened me with the lives of my wife and daughter. I didn't realize until the end that this old fox had killed them a long time ago."

Sure enough, it was similar to what Qin Yuan had guessed, and he also had something to pinch on Andre.

"So you are a smart person. You can choose to cooperate with me now. I can help you bring down Andre completely, which can be regarded as revenge for your wife and daughter."

Hearing that he could avenge his wife and daughter, a shrewdness flashed in Lucas' eyes, and he rekindled hope.

It was also God who couldn't bear to let her die like this. With such a serious injury, she could still survive after soaking in sea water for such a long time.

"Okay, I promise you, I choose to cooperate with you, what you need me to do, just ask me."

With Lucas joining, Qin Yuan felt that things were getting smoother, because it would be too simple to simply kill Andre.

In the end, it is very likely that this guy will end up with the title of a martyr. He doesn't want to take advantage of Andre, so he must expose all the ugly things he did.

The only witness to these things is Lucas, and Lucas also knows a lot of inside information, so he is the most suitable person to expose it.

Listening to Qin Yuan's plan, He Chenguang was also a little curious, "Captain, then according to what you said, didn't we go around in a circle? Because we caught Andre in this way, if the people under him still won't let him What about death?"

"I've considered this a long time ago. Not only do I want to ruin his reputation, but on the other hand, he won't be able to come out after he enters. He won't live to see the sun the next day."

Qin Yuan's plan is to get the international community to convict Andre first, and then he will sneak in and kill the old guy. After all, even if the old guy is convicted, he will not receive the punishment he deserves, and he will do everything possible escaped.

Regarding this point, Lucas very much agrees, "You don't know that these things above are now crumbling, they are all protected by layers of protection, even if Andre's crimes are exposed, he will still have a way to escape."

So it further proves that Qin Yuan's analysis is correct.

At this time, it was completely dark, but Qin Yuan still did not give an order to act, and everyone just lay on the beach like this.

"Brother Qin, aren't we going to act yet?"

"It's too early, just wait, it's going to be a good show."

Qin Yuan was referring to those snakeheads. He planned to use these snakeheads to divert attention. According to this time period, the snakeheads should come to find their ships.

After all, this is a tool for their survival, and many countries have actually acquiesced in the existence of these tongues.

In this way, Andre wanted to relax completely in the office, but this time the matter was finally dealt with, except that Qin Yuan did not die.

But overall, it's good to get rid of that trouble now.

After a while, the guard at the door knocked on the door and reported, "Report to the colonel, our team in Xunhai County has discovered something."

"Oh, what's the matter, just tell me directly."

"Several smugglers over there said that a man named Lucas on our side commandeered their ships."

Hearing this, Andre was taken aback, how is this possible? Lucas, but the guy he watched with his own eyes and was shot and fell into the sea, is he still alive?

no! This guy has to die. If he is still alive, it will be a big trouble. He must try to report himself, and these things reveal that he doesn't know how many relationships he has to deal with.

What's more important is that he was thinking about how to escape. After pondering for a while, Andre said to the guards: "You first detain the person, and then take two teams of troops to search over there. Remember, if you encounter When the rebel Lucas shot and killed him."

"Yes! Colonel."

At this moment, Andre was already restless, because he knew that Lucas was not dead. This was a time bomb. He was not at ease after taking pictures of the two teams. After all, the coastline over there was very long, so he simply sent another two teams.

So there was only one guard in the whole building on his side.

The few teams that set off were also confused about the situation. For a rebel army, they mobilized so many troops and got everyone out.

"I really don't know what our colonel thinks. It's enough for a small team of rebels to destroy him. Why send all of us out?"

"I don't know what the colonel means, but we are soldiers, and we obey orders. Remember, the death order we received was to kill the rebels directly when we saw them."

At this moment, Qin Yuan and the others had come to the periphery of Andre's station and lurked. Seeing several groups of soldiers leading the team to set off, Qin Yuan smiled, and sure enough, everyone was attracted.

"Lucas, now it's your heartbeat. Is your mountain okay? You go to the highest department to report him now, because no one here can threaten you."

"Don't worry, it's absolutely fine, even if I crawl, I will crawl there to report him."

It's just a matter of time As long as Andre's affairs are exposed, this old guy won't even think about it.

Lucas put on the whistleblowing document and set off quietly, while Qin Yuan and the others continued to lurk around the periphery, and the two parties paid attention to cooperation.

It has to be said that Lucas's work efficiency is quite high. In less than an hour, several military vehicles drove directly into the place where Andre was stationed.

Andre was also in a daze, he had no idea what was going on.

He said to the leading officer: "Brother, is there any misunderstanding during this period, where are you taking me in the middle of the night?"

"Colonel Andre, we have received reports from someone, and we don't know if these things are true, so please go back with our investigation team."

Andre was a little surprised, what's going on? Someone reported it, maybe it was Lucas, but he had already sent a team there, how could he come to this place to report himself.

The members of the investigation team waited a little impatiently, and walked out with their hands on Andre.

"I advise you to be more polite to me. There must have been a misunderstanding during this period, and now I have Colonel Yi's order to let you go."

Chapter 933: Best result

This matter cannot be mistaken, the people above are already dealing with it, and everything will be clear when it comes to the military court.

Andre was stunned, why did he go to the military court? According to the normal process, he should be reviewed before being sent to a military court.

If he entered the military court, he would be finished, and there would be no chance to refute.

At this moment, all the guards around Andre rushed in.

The members of the investigation team frowned, "Andre, what are you trying to do? Do you want to disobey orders?"

"It's not that I want to return to the order, it's just that there must be a misunderstanding about this matter. I can go with you, but can I make a phone call first?"

The captain of the investigation team looked at his guards. He only brought a small team with him this time, and he didn't want a head-to-head conflict.

The attitude is also somewhat relaxed, "I will give you a call time, but leave with us after the call."

The corner of Andre's mouth raised. He walked to the desk and directly called the supreme commander in charge of the investigation team.

"Commander, I think there must be a misunderstanding here. Someone is definitely trying to frame me. Everything I did was for this country."

After he finished speaking, he watched the investigation team turn around, and took the opportunity to whisper again, "If I get caught, I will tell everything."

The commander on the opposite side was completely silent. He didn't expect to become like this. If he had known earlier, he would not have accepted this guy's favor.

At that time, Andre spent a lot of money to bribe them, so he wanted to collect these ill-gotten gains and use them to buy relationships.

Now that everyone has received the money, they turn a blind eye to some things.

The commander-in-chief could only sigh silently, in order to protect his future, and Andre must not be exposed.

After hearing the answer he wanted, Andre smiled and said to the captain of the investigation team: "This is your supreme commander, and he wants to talk to you."

The captain of the investigation team knew that there must be a turning point when he heard this. Sure enough, after he received the call, the commander ordered the team to withdraw.

After hanging up the phone, the captain of the investigation team looked at Andre coldly. This guy must have a ghost in his heart, otherwise why would he not dare to accept their investigation?

He took his team members out unwillingly, and Andre showed a smug smile and said, "Let's go slowly, and I'll trouble you to figure it out and come back later."

A member of the investigation team came out disheartened, "Damn it! There must be something wrong with this guy. I also saw that report letter. It must be his fault."

"I know that too! But we are soldiers, and it is our duty to obey orders, do you understand?"

The team members have nothing to do if they are not convinced. After all, this is an order from the supreme commander, and they can only withdraw the team silently.

Qin Yuan, who was lurking outside, came out again after seeing how the investigation team got in, and there was no Andre in the car.

This is simply too exaggerated. Who is behind this old guy to protect him like this?

"I'm going! Brother Qin, is this old guy really a genius? Lucas, the report was written in such detail that it would definitely kill him, but he couldn't be caught like this."

"It's not the problem of not being able to catch him, but that the people in this hometown or behind are not simple, and they should all be in collusion."

Qin Yuan looked at the time. If Lucas went there to report it, he might not be able to come back. Now that the first plan has failed, he can only clear the old fox manually.

Sure enough, Lucas had been waiting for the news that Andre was arrested, but he waited for a pair of handcuffs.

"Damn it! What the ***** are you doing? Instead of arresting the real bad guys, you come to arrest the whistleblower instead. What's going on?"

"Sorry, now we want to arrest you in the name of framing the meritorious representative!"

"Fart, you didn't even bring anyone back to investigate, how do you know that I framed him."

But there was no rebuttal from Lucas at all, a rag was stuffed on his mouth, and these people escorted him out directly.

Although he was struggling desperately at this moment, he was injured in the first place, how could he deal with these people?

In this way, Lucas was locked in the cell, looking at the dark surroundings, he sighed, tears streaming down silently.

Unexpectedly, this is the country he has always been proud of, and it is so dark. Fortunately, he brought those brothers who were born and died to work for him.

He also thought of his murdered wife and daughter, who never saw his father before her daughter died.

Andre was getting angry in the office. "They can't even find anyone in this group of trash. I sent everyone out of the two teams. How did they do things?"

The guard next to him stood silently, not daring to make a sound.

"Damn it! Call them and tell them to get the **** out of here. Everyone has been detained by the investigation team, and they're still looking for a fart outside!"

Andre got angry, sat on the chair, unbuttoned his shirt, raised the glass next to him, and took a sip of wine.

Now he really lacks talents. Lucas is indeed a rare talent, but he can't use it for himself.

Surrounded by these incompetent waste, it was almost the end of him if he went to the military court today.

The more Andre thought about it, the more he felt annoyed. After all, all of this was caused by Qin Yuan. If this guy didn't die for a day, he couldn't sit securely in his position.

It seems that next time he can't find these retired special forces, he thought of a brilliant idea, he can find the death row inmates in the prison, there are a few guys in there, the strength is very strong.

He stared viciously out of the window, next time he must get rid of this person thoroughly.

He raised his head and drank all the wine in the glass.

The guard originally wanted to report the news, but the person at the door stopped him, "You kid, you will die, you will definitely be scolded if you go in now, maybe you will be clicked right away."

"But I have already done what the colonel ordered. If I don't report, will there be any problems?"

"What else can go wrong? Those people will come back later. Now he's drunk and sleeping inside. If we wake him up, we'll all have a hard time."

The two nodded, and retreated to both sides of the door tacitly.

Qin Yuan looked at the camp in front of him, took out a small wooden stick and drew on the ground the general situation of the entire camp.

"In this camp, most of the people have been distributed out. Except for the guards, there are actually not many people in the building."

He Chenguang tilted his head and looked at the picture drawn by Qin Yuan, "But these sentry points are difficult to solve. Their lights are all strong. Even if we destroy one, the others can still illuminate this area."

"I'll settle this matter. Give me three minutes. I'll go in and destroy their power facilities. Remember, we only have three minutes. Take advantage of this gap to go in."

Three minutes was too short, He Chenguang and the others had no problem getting in, but he was mainly worried about how Qin Yuan would get in now.

Because after Qin Yuan cut off the power, everything was plunged into darkness, they could take the opportunity to sneak in, but it would be more dangerous for him to go in now.

"Don't worry, I'm fine, now everyone is sure about the time on the watch and act correctly!"

Qin Yuan's attitude is very resolute and confident. Although everyone knows that it is definitely not a big problem for him, they are still quite worried.

Immediately afterwards, Qin Yuan quietly slipped to the mound below, everyone held their breath, his speed was very fast, taking advantage of the turning time of the lighthouse personnel above, he turned over and stuck directly under the gate.

"I'll go. Brother Qin's speed is too fast. Did you see how he passed by just now?"

"To be honest, I really didn't see clearly!"

In this way, Qin Yuan successfully entered the interior of the base, and now his speed and explosive power are at their peak.

The team members outside are still very worried, after all, it is not easy to find the main switch of the power supply in such a short period of time.

Gong Jian stared closely at the time on the watch, and there was no movement inside, but just three minutes later, the lights above suddenly went completely dark.

"Quick! Action!"

Everyone has put on thermal imaging sights in advance, which is also to ensure smooth progress in the dark.

Qin Yuan had already come to the gate to meet them, and the soldiers at the gate had already been brought down by him.

After all, their main target this time was Andre. These soldiers were all innocent. Qin Yuan just stunned them, and didn't really kill them.

At the moment when it was plunged into darkness, the sentry inside panicked. What's going on?

However, their reaction was also very quick, and they quickly restored the power facilities, but when they restored, Qin Yuan and the others had already successfully entered.

Everyone came to Andre's office building smoothly. The security here is very lax, because most of the people have already been sent out.

Including the guards at the gate, there are only six or seven guards.

Qin Yuan gestured to himself to deal with the two people on the far left, and He Chenguang and the others rushed forward to deal with the people behind.

In this way, everyone acted in unison and rushed up together. The guard who was still dozing heard the movement, and just raised his head, Qin Yuan's fist had already rushed up.

His strength was so great that the two people in front were instantly knocked down by him.

He Chenguang and the others were not so lucky. Although the speed was very fast, they still made a lot of noise.

Qin Yuan quickly looked at the door of the office, and listened carefully, but there was no movement. Fortunately, the old guy didn't notice.

After all, this guy is too cunning, the success of the operation must be guaranteed this time, and he must not be let go.

After opening the door, Qin Yuan realized that this guy fell asleep directly on the desk after drinking.

Andre in his sleep felt as if he was being tied up. He opened his eyes in a daze, and saw Qin Yuan.

He thought he was dreaming, so he blinked again, and he was sure that the person in front of him was Qin Yuan and his special team.

"You... what exactly do you want to do?"

At this moment, Andre was tied to the stool by Qin Yuan, and he looked around in horror.

"I should ask you what I want to do. You don't even look at the nasty things you did to kidnap my family."

Having said that, Qin Yuan directly punched Andre in the face, "This punch is for my family."

Then came another punch, "This punch is for you to frame our team!"

After being punched several times in a row, Andre refused to let go, and Qin Yuan was also interrogating him, mainly wanting him to explain the crimes he committed before, especially the gun reselling case he participated in.

But he only admitted that he had ordered Lucas to kidnap Qin Yuan's family, and he denied everything else.

Qin Yuan suddenly looked at him and sneered, "Do you think it's okay if you don't admit it, I'm a person, revenge must be revenged, don't worry, this matter will have a good result..."

The team that Andre sent out to find Lucas has returned, but they found something strange when they arrived at the door.

The guard under the gate was knocked unconscious to the ground. Several captains hurriedly sounded the alarm, and other sentries ran over to discover the situation.

"I really don't know how you do things, the enemy doesn't even know when they come in!"

The captains of several teams led the team and rushed to Andre's office. The moment they opened the door, they were instantly dumbfounded.

Andre was tightly tied to a chair, and there was a wound on his chest. At this moment, he was dead with his eyes wide open.

There was a confession letter in front of the table, explaining in detail the crimes he had committed over the years.

The captains panicked when they saw this situation, "Who is this, sneaked in and killed him, you don't even know!"

"Report to the Commander-in-Chief immediately!"

Soon after, A detailed confession and videotape appeared in the streets and alleys of the United States.

In a room, Lucas opened his eyes and was surprised to see Qin Yuan.

"How did you do it, you got me out of that place?"

"It's all trivial. For me, it's easy to save you. As for why I want to save you, it's because you are indeed being coerced."

Lucas looked at Qin Yuan moved. He didn't expect Qin Yuan to save him after going around. This was the second time he saved him.

"From now on, my life will be yours. I was already disheartened when my wife and daughter died, but now that you have saved me, my life will be yours."

Lucas was completely stunned when he heard this. At this moment, he didn't know what to say, but hated himself for following the wrong person.

He really wanted to go back with Qin Yuan, but his identity was embarrassing.

Looking at the back of Qin Yuan leaving, he said loudly: "I owe you two lives, I will remember it, and I will definitely pay you back."

Chapter 934 Assisted investigation notification

For Lucas, this is also a good thing, but he can never go back to the United States, and his wife and daughter are gone, and he doesn't want to go back to that place again.

The only hope that can keep him alive is Qin Yuan. He knows that Qin Yuan saved him twice, and he is not the kind of ungrateful person. He just hopes that Qin Yuan will go all out when he comes to his place in the future.

Looking at Qin Yuan's back, he admired him very much, because he was knocked out after being put in prison, and he didn't know what happened.

But he knows that he has entered the prison of the investigation institute, so don't even think about getting out. The guards here are very strict.

Qin Yuan did two major things. One was to kill Andre quietly without harming other innocent people. The other was to rescue him. He really didn't know how this man did it. of.

So Andre's death is still a mystery. The United States began a comprehensive investigation, but there was no result at all. In the end, they had no choice but to block this matter, declaring that Andre had been executed on the spot.

Once Andre died, his previous crimes were exposed, especially selling guns, which was a felony and implicated countless people.

But all of this is what they deserve. Although what they sell is only guns, there is no harm if there is no sale. These people use these guns to hurt many innocent people.

After Qin Yuan and the others went back, Long Xiaoyun was completely relieved to see him come back safely. She has been worried these days.

After all, the place where Andre is located is a military base in the United States, and the defense of that place is so strict.

Gao Shiwei was also standing beside him smiling, and Qin Yuan stepped forward to pay a military salute, "Captain Gao! Thank you for your support at the most critical moment."

"What? Did I support you? Did you call me?"

Qin Yuan smiled, it's a pity that this old guy doesn't act.

In the end, Qin Yuan also knew how Grandma Sun's information was leaked.

It was also because when Qin Yuan wanted to bring Qin Zhengyang and these orphans back, he did a simple identity registration.

Unexpectedly, at that point, the information was leaked. He just left a very simple contact address at that time, and didn't think about it at all. He didn't expect it to be leaked when applying for a visa.

Fortunately, there was nothing wrong with them, and Grandma Sun and the others returned safely.

They all have to pay attention to protecting the safety of their families, and Gao Shiwei even held a meeting to emphasize the confidentiality measures in the future.

It is also to protect them to a greater extent, so that they cannot bleed on the front line and their families are not hurt.

After returning, there were not many missions, they were basically small domestic rescue missions, which were all led by Long Xiaoyun, while Qin Yuan focused on everyone's training.

Just after the morning training, Li Erniu walked over solemnly after answering a call from the sentry.

"Brother Qin, I have something I want to tell you."

"When did you guys become so polite, just say what you have to say."

"I want to ask for leave to go back for a while, and there is something wrong with my father again."

When Qin Yuan heard this, he hurriedly asked, "What's wrong? Is it serious, do you need me to help?"

"No need, I can solve it by myself, but I have been on leave for a long time, and I hope..."

"Don't talk about it, hurry back to me now, please don't worry about how long it will be fine, if you have me here, you will be able to ask Lao Gao, don't worry, there is me."

Li Erniu was indescribably moved, he looked at Qin Yuan and really felt that he was following the right person.

Qin Yuan understands this kind of family responsibility better since he married An Ran. Now you want to stay and have a married family with parents and daughter-in-law.

But they worked outside all the year round, so they couldn't take care of their family at all, so Qin Yuan simply asked him to take a long vacation and asked him to go back and take a good look.

Hearing that Li Erniu was going back, He Chenguang and the others all came to ask him if he could help.

"What are you doing? It's not that I won't come back, don't worry, I can handle some things myself."

Qin Yuan walked up to him and looked at him and said, "Remember at any time that you are from the Specialty Brigade, and we have some things behind you so don't carry them alone."

Although Li Erniu didn't want to say it, Qin Yuan knew it was his family business, so he couldn't ask any further.

This guy is probably afraid of troubling them, but he has talked about this point, and if he really wants to help, he will not hesitate.

Li Erniu asked for leave to go home, and the rest of the team continued to train. Everyone trained in the field. When they lived in the mountains, Qin Yuan even roasted hares for them.

Wang Yanbing said while eating the rabbit meat, "Erniu hasn't sent a letter since he went back. He has been back for a week, and there is no news at all."

"I wonder if he ran away, hahaha."

"Don't worry, I think everyone in your group may run away, and Er Niu is absolutely impossible to run away."

"Brother Qin, listen to what you said is completely full of prejudice."

Everyone is used to it, and the red blood cell team really can't do without anyone.

Just like that, after another week, Li Erniu didn't even respond to a message. Qin Yuan thought that there were too many things at home, so let's deal with them at home!

When they were training, Long Xiaoyun suddenly ran over.

Wang Yanbing and the others were booing beside him with a clear face, but Long Xiaoyun suddenly said seriously: "I'm here to talk to you this time about something serious, do you know what I heard in Lao Gao's office just now?"

"Ahem, Comrade Long Xiaoyun, I'm going to criticize you on this point, eavesdropping on the leader's conversation, and even spreading it."

Long Xiaoyun gave Qin Yuan a white look, "Anyway, it's about your group Li Erniu's love or not."

When Qin Yuan heard this, he quickly grabbed her, "What's the situation? It's about Erniu."

He Chenguang and the others also surrounded him. They thought Er Niu was resting too much. Lao Gao asked, after all, they hadn't seen him for the past few days.

It turned out that when Long Xiaoyun was sending the report to Gao Shiwei's office, she heard Gao Shiwei answer a phone call, and she only heard the last sentence.

"It is absolutely impossible for the soldiers I lead to be like this, and I am sure that Li Erniu is not such a person."

Long Xiaoyun only heard this sentence, and several people fell into deep thought, what is the situation?

"Erniu, a stinky boy, doesn't tell us what happened to his family. Could it be that he has offended someone by solving it privately?"

"Besides, he has a bad temper. He goes straight and doesn't know how to turn. It is estimated that he was detained by someone."

Hearing this, Qin Yuan took the initiative to come to Gao Shiwei's office.

"You came just in time, kid. I was just about to find you. Has that Li Erniu in your group asked for leave recently to go home?"

"He has something to do at home, so I granted him a personal leave. I didn't tell you because I thought you were so busy."

"Boy, I don't even know about the two-week long vacation, you guys are playing with me."

After Gao Shiwei finished speaking, he got up and patted the table, "Everyone calls and sues me."

"Captain Gao, what's going on?"

"Li Erniu beat someone on their side. He was suspected of assaulting the police. The policeman who was injured by him is still lying in the intensive care unit. You know, this is a felony."

Qin Yuan was completely stunned when he heard this.

"Team Gao! This is absolutely impossible. I can guarantee with my personality that he will not do such a thing."

"Now it's not that we said he wouldn't do it. It's his local police station who notified me, and the co-investigation order has been issued."

Qin Yuan suddenly felt dizzy, what's going on? No wonder Erniu didn't contact them. He didn't expect such a thing to happen.

But no matter what, he chose to trust his brother. Li Erniu would never do such a thing. There must have been some misunderstanding during this period.

Gao Shiwei also sighed deeply. He knew that Li Erniu was definitely not that kind of person, but the local police station didn't think so.

Now their people were injured, but Li Erniu suddenly disappeared. It would be fine if he didn't leave, but his leaving like this made people catch him, and they thought there must be something wrong with him.

"Now you lead the team down to assist them in their investigation. Your task is to arrest the fugitive Li Erniu."

When Qin Yuan heard this order, he couldn't accept it at all. He is not a fugitive, he is his comrade in arms.

"I can't help it. Take a look at the arrest warrant sent from the top this time. I can understand your current mood very well. Just like others saying that you are a fugitive, I definitely can't accept it."

"That's right, Captain Gao, you know Erniu the best. He has a straightforward temper. How could he let such a thing go? It's absolutely impossible for her to do it."

"So before the police catch him, we need to find him first and ask the matter clearly. I am more willing to believe that there was a misunderstanding during this period."

Gao Shiwei is also known as a calf protector. He has said so, and he must be under a lot of pressure from above, and he has nothing to do.

Now that Qin Yuan is the captain, he still understands that he paid a military salute and walked down with the assisted investigation notice.

As soon as he came out, the members of the red blood cell team surrounded him.

He Chenguang took the assisted investigation notice in his hand and was stunned for a moment!

"It's impossible, it's absolutely wrong, what did these people do, I'm going to find them and ask them what a fugitive is!"

Everyone couldn't believe it after seeing it. Li Erniu's basic information was written next to Li Erniu's photo on the Xiecha bulletin, and it was clearly written in large characters, extremely dangerous and repeat offender!

"Brother Qin, this is impossible, how could that boy Er Niu do such a thing."

"I know, so we have to investigate the truth of the matter now, no matter what, let's lead the team first."

He Chenguang, Wang Yanbing, and Li Erniu were all soldiers of the same year from the recruit company, and their feelings were really deep. They couldn't believe that such a thing happened.

I didn't expect them to lead a team to arrest their comrades-in-arms now, which is really too ironic.

Everyone sat in the car together, the atmosphere was very silent, and no one wanted to talk, Wang Yanbing suddenly yelled, "Stop the car, I'm quitting, go whoever you love."

He went to catch his brother, he couldn't.

Qin Yuan pressed him down, "What time is it now, have you forgotten your identity? Besides, he is our comrade in arms, and more importantly, you are a soldier of the Yan Kingdom, understand?"

Wang Yanbing was a little emotionally broken, he couldn't accept such a thing at all.

"I know everyone is very sad, but we are not hunting him down. We are investigating the truth of the matter. I will never believe that Er Niu would do such a thing."

Gong Jian also stood up and said: "There must be some misunderstanding about this matter. Maybe Erniu is waiting for us to help him, because we are his last backing."

Hearing that Wang Yanbing sat down on the seat again, everyone knew that he was going to help Li Erniu now.

But Qin Yuan, as the captain, thought of another aspect. If this matter is really related to Li Erniu, and he did it, then he will definitely not let him go.

The soldiers brought out by him will be dealt with by him.

Qin Yuan and the others didn't go to the local police station at all, and went directly to Li Erniu's house. Unexpectedly, just as they got out of the car, a group of policemen rushed out of Li Erniu's house.

what's going on?

The captain who led the team in front came over, "Why are you here?"

"This is what I'm more curious about, why are you here, and do we need a reason to come to our comrade's house?"

"It turns out that it is like this. We are only conducting prevention and control deployment at the criminal Li Erniu's house. As soon as he comes back, we will arrest him immediately."

Qin Yuan felt very harsh when he heard the word "criminal". He said coldly: "The matter has not been concluded yet, and I hope you don't describe him as a criminal. At most, he can be regarded as a criminal suspect. You are better than me at this point." Be clear!"

"Hey! Let me tell you what kind of attitude you guys have. It's clearly the fact that our people are still lying in the hospital."

He Chenguang and others also rushed forward These guys' words are too ugly!

At this time, a man came out from the side. This man, Qin Yuan, had participated in the encirclement and suppression operation before he knew him, was their captain.

"What are you doing, why are you pointing guns at our own comrades!"

The captain yelled at his subordinates loudly, turned his head and said to Qin Yuan in embarrassment: "Captain Qin, I'm sorry, my subordinates are too impulsive."

Qin Yuan snorted coldly and led the team directly into Li Erniu's house without saying anything.

The policeman who spoke just now was a little unconvinced.

"I'll go! Captain, look at his attitude, isn't he just a special soldier? What's the big deal."

"Shut up, you can't say such things in the future, we are all serving the people, and you should also pay attention to your attitude, now we can't get evidence, don't talk about criminals."

"Yes!"

Also as the captain, he actually understands Qin Yuan very well, and to be honest, there are too many strange things about this matter.

Chapter 935 It Can't Be Him

Although it was his subordinates who were injured, he was also very distressed, so the superior personally asked him to investigate this matter.

But he had contact with Qin Yuan and the others before, and he felt that Li Erniu would never do such a thing.

And the person who had the conflict with Qin Yuan and the others just now was also because they were too worried about the situation of their colleagues. After all, they are still lying in the hospital.

Both parties have their own difficulties, and he also sighed deeply, hoping that this matter will be resolved as soon as possible so that both parties can have an explanation.

"Okay, let the brothers continue to hide."

"Captain, but they are like this. Will going to his house disrupt our operation? I really don't know what they think."

"Little Li! You haven't been a soldier, have you? I remember you should have graduated from the police academy, right?"

Li Hao was complaining about his dissatisfaction, because he felt that their deployment was very successful, and he didn't want his plan to be destroyed by these people.

Unexpectedly, the captain suddenly asked him an irrelevant question, and he nodded, "Yes, I graduated from the police academy."

"So, Xiao Li, you have never been a soldier, and you don't understand that feeling. Their beliefs are the same as ours. They understand each other. Don't jump to conclusions before you figure things out."

"Yes, Captain!"

Qin Yuan, when they came to Li Erniu's house, what they saw was his father lying on the bed, and his mother beside him wiping tears. When Li Erniu's daughter-in-law saw them coming in, she rushed forward and grabbed Qin Yuan's hand. hand.

"Captain Qin, go and tell them, our Er Niu will never do such a thing."

Seeing this scene, everyone was very sad. Li Erniu's father fell ill because of this incident.

"Brothers and sisters, don't worry, tell me the ins and outs of this matter, and I believe that Erniu is definitely not such a person."

Gong Jian and the others also hurried forward to check the physical condition of Li Erniu's father.

Li Erniu's father heard the movement, opened his eyes slightly on the bed, saw that it was Qin Yuan and they suddenly burst into tears.

"You guys are here. I know that only you can get justice for my Er Niu. He is not that kind of child."

This family is honest, and everyone feels very uncomfortable when they hear this.

In this way, under the narration of Li Erniu's daughter-in-law, everyone knew the cause and effect of the incident.

It turned out that something happened to Li Erniu's house when they called. A boss took a fancy to the land behind their village and wanted to buy it for a factory.

This was a good thing in the first place, and the village head ran around for them. Li Erniu's house occupied the largest area, because most of his family's land was in that area.

Because now that Li Erniu has also come out to serve as a soldier, the family members are actually unable to farm, so it happens to sell some, which can be regarded as a relief of pressure.

In the end, everything was agreed, even the contract was signed, and the factory over there started to be built, but the money for the sale of the land was not given to them for a long time, only a 10% handling fee was paid.

At that time, I signed the contract, saying that all the arrears would be made up in the second month, and then there was nothing left.

Not only Li Erniu's family, but everyone else in the village didn't get the money they deserved, so they all went to the boss.

But the boss just kept procrastinating, and he didn't give money anyway, and he found out various problems, saying that he had to wait for the economic turnaround and build the factory before he could give money to the villagers.

Everyone thought that since his factory was built here, he probably wouldn't be able to escape, so they waited for a while, and the factory was fully established later. After another few months, the boss still didn't move.

But when everyone went to look for it, they found that the boss had changed.

Now the person in the factory is another contractor, he doesn't know about this at all, he was completely fooled by the previous boss.

It is equivalent to the former boss who used the villagers' land to build a factory building with empty hands, and then sold it to the current person after the building was completed.

But even though the matter is said this way, the villagers don't agree with it at all, because they think that the factory is built here, which is their land, and if they don't receive the money, they don't want to operate it.

The boss who took over the factory didn't do it anymore. He obviously paid for it, so this matter has nothing to do with him.

And the original contractor boss had already run away, there was no other way, everyone was very unhappy, so they had to call the police.

When the police came, there was nothing they could do about it. They could only catch the contractor's boss first, because this person was also tricked into coming in now.

Li Erniu's daughter-in-law called him and told him about it. Li Erniu felt that he was being bullied because he was not at home, so he wanted to come back and have a look.

At that time, he did go to the current boss, because he wanted to ask where the previous contractor had gone, and he planned to use his own method to find this person.

He also kindly wanted to do something for the villagers. After all, it was the villagers' land, and the farmers' land was really not easy.

As a result, on the day I went there, I had a conflict with the security guard in the factory, but it was just a verbal conflict, and the security guard was unwilling to give the boss's contact information.

But this is not a problem for Li Erniu. After all, he is a factory like a special soldier, so he enters as soon as he wants, and successfully enters the office like this.

Li Erniu's daughter-in-law was waiting for him outside. She didn't know what happened inside, but she saw a police car coming later.

"As a result, when the police car came, they said that our Er Niu had injured someone and committed a serious crime, but it only took ten minutes. How could this happen?"

Your Er Niu's daughter-in-law was crying while talking, and Qin Yuan frowned while listening, what's going on?

According to Er Niu's personality, although he is sometimes impulsive, his temper has been worn down a lot in the past two years, and he will not do it so easily.

There is nothing more to ask here, Qin Yuan intends to ask those people outside.

"Brother Qin, I don't think there's any need to ask those people outside. Look at their attitude just now. I'm really annoyed."

"This is also a normal process. We have to understand the matter clearly, and it's better to be able to return Erniu's innocence."

After Qin Yuan came out, he saw the captain standing outside with his hands behind his back, waiting for him.

"Captain Qin, I'm very sorry. What my subordinate said just now was really inappropriate, but don't worry, we will definitely investigate this matter."

"I came here precisely for this matter, and I just want to know what happened in detail."

"Well, this matter is rather strange."

The captain lit a cigarette, and then slowly talked about the process of their dispatch to the police.

The current person in charge of this factory is Liu Jie. At that time, he called the police and said that someone was going to hurt him and broke into his office. When they arrived, Liu Jie was already lying in a pool of blood. Meet the suspect.

The police who went there at that time began to search the inside of the factory, and unexpectedly found Li Erniu with a **** knife in his hand.

Because it was more than 10 o'clock in the evening at that time, and the workers in the factory were off work. At that time, Li Erniu was very resistant, saying that he did not kill anyone, and then ran outside.

As soon as he ran, the other policemen must have followed behind him. As a result, halfway through the chase, all the lights in the factory area suddenly went dark, and it seemed that someone had activated the switch. At this moment, the policemen who accompanied him heard screams.

When they turned on the light, they found that a policeman had been stabbed several times and fell in a pool of blood.

When Qin Yuan heard this, Li Erniu was indeed very suspicious of what they said, but after careful analysis, he found that it was full of loopholes.

He knew Li Erniu's character, even if he did it, he would admit it openly, and would not hurt anyone again. This is the most basic principle, and it will never change.

And when the lights went dark, he could have just run away, why would he kill people in reverse? This is very unreasonable.

The captain also nodded after listening to Qin Yuan's analysis, "Yes, I thought so too at the time, but at present he is indeed the number one suspect, so we can only find him first."

"How is that Liu Jie now? There are also injured policemen."

"Liu Jie was seriously injured and died when he was sent to the hospital. Our policeman is also in a deep coma now, after all, he was stabbed eight times."

"Then can I go to the hospital to see the policeman?"

"This is no problem, but I can't ask anything. People are in a coma now."

"It's okay, I just took a look from a distance."

Qin Yuan intends to go to the hospital to arrest the policeman and see if he can find other clues. After all, he is the one involved.

After he went back, he told the other team members what he had learned, and everyone fell silent after listening.

"Anyway, now I'm sure that Er Niu didn't do this thing. With Er Niu's skills, he really wanted to kill someone, almost with one knife. Why did he kill so many people?"

"That's right, this is very suspicious. It's definitely not Erniu's doing."

"So now I'm planning to go to the hospital to see how the policeman is doing. If I can wake him up, maybe I can clear Erniu's suspicions."

Everyone nodded, without further ado, ready to set off immediately.

At this time, Li Erniu's daughter-in-law came over and knelt down in front of Qin Yuan.

"Brother and sister, what are you doing? Get up quickly."

"Captain Qin, I'm really grateful to you guys for running back and forth. Now I put my only hope on you. This is also the hope of our whole family."

"Don't worry, no matter what, we will make Er Niu innocent. He is also our brother, and more importantly, I will not let the person who framed him go."

Qin Yuan's gaze was very firm, he must seek an explanation for Li Erniu.

Especially when he heard those people calling him a criminal, he felt even more distressed. For so many years, Li Erniu could not return home, and he was performing missions outside, and to be honest, most of those missions were narrow escapes.

How many people know the real battlefield now? Some people have never even seen a gun. They all came from the hail of bullets to protect the safety of the people.

So he couldn't stand hearing someone call him a criminal.

Fortunately, the team leader was more understanding and drove them directly to the hospital.

When he was about to go to the hospital, the team leader suddenly answered a phone call, and he had to go back because of something in the bureau.

"Captain Qin, you can go in directly. I have already greeted them. They are in the intensive care unit, and our brothers are all there."

Qin Yuan nodded, and walked in with He Chenguang and the others.

It's really not hard to find. They are standing outside their ward, and many of them are policemen on duty.

After seeing Qin Yuan and the others coming, the police standing outside were obviously a little unhappy.

After all, subjectively, they already felt that Li Erniu did this, but their captain also called just now.

"Hello Captain Qin, our captain has called just now, I will take you to see him now!"

He Chenguang and the others wanted to go there too, but they were stopped by that person.

"I'm very sorry, the patient needs to be quiet, and the doctor said that too many people can't go in every time, and now he is in a coma. I don't want you to disturb him."

"Hey, what's your attitude, what do you mean we bother you? We just want to find out what's going on."

"Hehe, it's not because of your talents that you made it like this."

Seeing that the two were about to quarrel, Qin Yuan had no choice but to grab He Chenguang, "Forget it, after all, their people are lying inside and owe debts, don't worry about it so much, I'll go in and have a look, and you wait for me outside. "

"Okay, Brother Qin, I'll listen to you."

After Qin Yuan entered the ward, the policeman was seriously injured. According to the doctor, four of the stab wounds pierced the lungs, forming a penetrating wound that was very serious.

Qin Yuan is fine, he can definitely settle for this person, but seeing the few people next to him staring at him vigilantly for a year, is really nowhere to start.

"Brothers, although it is very abrupt for me to say this now, I still hope that you believe in me. I can save him and wake him up."

"Captain Qin, it's not that my words are harsh, you don't come here suddenly to destroy some evidence, do you?"

Qin Yuan frowned, this person must be too defensive!

But for the sake of Li Erniu, he endured it and could only patiently explain, "The matter has not yet been accurately concluded, how can I destroy the evidence, I really want to solve the matter, and I can really save him."

"I'm sorry, I don't think it's necessary. There are the most authoritative doctors here. Even the doctors here are helpless. I really don't know what you can do."

It's no wonder they didn't believe Qin Yuan. After all, the doctors said there was nothing to do. Qin Yuan suddenly said that he had a way. It was really hard to believe.

Because even though the operation has been done now, it is still a mystery when to wake up, and it is possible that I will never wake up.

"Brothers, I can use my military character as a guarantee that I will be able to save him. You can let me try. After all, his current situation is indeed very dangerous."

Chapter 936 Removal of suspicion

Originally, Qin Yuan really wanted to ask about the situation at first, but when he saw the person lying on the bed, he changed his mind and wanted to save this person.

If the level of the doctors outside is estimated, it will not be possible. After all, the surgery has been done, and it can only depend on his own situation. His injury is very serious.

But the few people guarding here did not let Qin Yuan approach at all, and were very vigilant.

At this time, an older policeman walked in, who should be his team leader.

"Captain Qin, with all due respect, you have already seen the situation. If there is nothing wrong, please cooperate with our investigation as soon as possible."

"But what I said is also true. I can save him. Now he is in danger."

"Of course we know that the situation is dangerous. Now we are all in the hospital, and a doctor will take care of his affairs. This is not your responsibility."

He Chenguang and the others all rushed up when they heard the noise.

"I said what's going on with your words, can you be more polite to our captain."

"We are being polite to you, so you have to see who caused this, and it's not because you didn't manage your subordinates well."

When Qin Yuan heard this, he recorded it immediately. He had been explaining patiently just now, but at this moment he couldn't bear it anymore.

"I'll say it again, take a close look at this man's wound. We are special forces, and we will never use two stabs to solve things that can be solved with one stab."

Hearing this, the surrounding policemen were stunned, reminding them that they had thought of this too, but they were unwilling to admit it, because that was the only clue.

"It's not that I speak badly, and I don't mean to look down on you. I can kill all of you present."

The team leader gasped when he heard it. This guy is too arrogant, so why don't he take them seriously?

Unexpectedly, Qin Yuan rushed forward, waved his hand casually, and then took out the pen that the team leader put in his pocket, and the next second the pen was already on his neck.

His speed was very fast, without the slightest sloppiness, and everyone around him was stunned.

"It's the real strength of our special forces, so in other words, it's very simple for us to kill people, and it won't be so troublesome."

The surrounding policemen were stunned. This strength was too terrifying. If it was a knife, their team leader would probably have fallen into a pool of blood, because at his speed, the people around them had no time to react.

After Qin Yuan finished speaking, he let go of his hand and apologized to the team leader.

Originally, he wanted to come first and then fight, but they didn't accept it, so he could only use this trick.

"You are also the team leader, so you should understand my feelings, and I told you that Li Erniu is also a very good comrade in our team, how many times he has performed missions abroad at the border, he shed blood and sacrificed for this country, It should not be insulted like this."

Qin Yuan's voice was not loud, but it struck everyone's heart, and everyone fell silent.

The colleagues they get along day and night are now lying on the hospital bed. Qin Yuan can understand their feelings, but he also needs to find out the direction of the investigation.

The scene was really strange, and he couldn't be identified as the murderer just because he was holding the murder weapon. Although he is missing now, there must be a reason for his disappearance.

The team leader sighed fiercely, "Oh, I really can't help it, you know? This person was brought out by me alone. His child was only two months old, I don't want to see the child die as soon as he is born. No dad."

"That's right, you guys understand this too, so what we have to do now is to catch the real murderer instead of internal strife."

The team leader's emotions were a little broken, and his voice gradually choked up. It was not easy for everyone to serve the people.

"So it's really difficult for me, mainly because he is really our only clue, and we have no choice."

"I can understand you, but think about Li Erniu, he also has his own family, and his father is still at home waiting for him to go back."

After Qin Yuan finished speaking, he walked directly to the side of the injured policeman, who now had various pipes inserted into his body.

"And I can actually save him, not to brag, but because I can."

After all, Qin Yuan had already revealed his hand just now, and these people also thought that he should not be able to speak, and there was no reason to hurt the person on the bed.

"But his condition, the doctor said it is very dangerous, the oxygen pipeline is not broken at all."

Qin Yuan stepped forward, picked up his wrist to feel his pulse, and then glanced at him.

"The most serious thing about him now is the penetrating injuries to the lungs in all four places, and then he stabbed the kidney with a knife. The main reason is that the internal organs are bleeding and the situation is definitely dangerous, but I can save him."

"What! You actually explained everything about him."

Because the condition of this person is also kept secret, currently only the attending doctor knows about it, but Qin Yuan just came in, and he knew his condition simply by taking a pulse.

The team leader instantly understood and called everyone out of the room.

The treatment can no longer be delayed now, he looked at Qin Yuan firmly, "Captain Qin, I had a bad attitude just now, I'm sorry, I admit my mistake to you, now I really hope you can save him, thank you very much."

The two people guarding the side were pushed out by their team leader, a little unwilling, and kept looking into the room.

"Team leader, do you trust him that much? Although what he said is right, what if something happens to Yu Yang?"

"That's right! At that time, we will have no way to explain to his family."

The team leader also stared at the ward, but he chose to trust Qin Yuan.

"He may be our last straw. As you all know, the doctor has come and issued three critical illness notices this morning. Yu Yang's condition is very bad."

Having said that, everyone was silent, and they stood silently outside the ward.

At this time, Gong Jian stepped forward to comfort him: "Don't worry, our captain has a set of ancestral medical skills, which are very miraculous. It can be said to be able to regenerate flesh and blood."

Hearing Gong Jian's exaggeration, the team leader was dubious.

Qin Yuan came out half an hour later, sweating profusely. The injury of this person was too serious. It was really only his breath left, and he was still maintained with medicine.

There is no way he not only used the eight anti-heaven needles, but also used the healing power. This time he really managed to bring the dead back to life, which took a lot of energy.

Seeing that Ruan Ruan was sweating profusely and came out very tired, the team leader and his team members rushed in.

A miraculous scene happened. When they entered, they saw that Yu Yang on the boat had opened his eyes, and the values on the electrocardiograph beside him had all returned to normal.

This is simply a miracle, the team leader rubbed his eyes, completely unbelievable.

"Yu Yang! You are awake!"

"Team leader, although I don't know what's going on, but I feel that the whole process is very easy now, and there is no problem."

Just as Qin Yuan came over, he wiped the sweat from his forehead, and said, "Of course, I replaced all the blood in your body, and you must feel reborn."

Yu Yang looked at the person in front of him and felt a little strange.

Unexpectedly, his team leader turned around and knelt down to Qin Yuan.

This was unexpected by Qin Yuan. A man who was nearly 40 years old actually knelt down for himself, and he quickly pulled him up.

Their team leader was very emotional, "Before the captain, I was blind and offended. Thank you very much for saving Yu Yang. You not only saved him, but also saved their whole family."

It was only then that Yu Yang realized that the person in front of him was his savior, and the person next to him also told him what had happened.

In the morning, the doctors had already given up, and they issued critical illness notices several times, but they were actually saved by Qin Yuan, which is unbelievable.

Colleagues from outside came in one after another to check on Yu Yang's situation. Now he is like a normal person, able to talk and laugh.

At this time, the doctor heard the movement and walked in a little unhappy.

"I said what's going on with you? This is a ward, the patient needs to recuperate, and his condition is unstable, you..."

Before he finished speaking, the doctor's eyes widened. The person who they had determined in the morning would never survive, was sitting on the bed talking and laughing, and even ate fruit.

Is this a flashback? But it's impossible, this person has suffered such a serious injury, even if he returns to the light, he can't maintain this state at all.

The doctor hurriedly called the other people, and everyone took turns to check on Yang. The final result was that his injuries had fully recovered.

This is simply impossible for a medical miracle.

The team leader next to him was about to explain, but Qin Yuan shook his head at him, he didn't want any more trouble.

Faced with the doctor's questioning, everyone came to ask three questions, the doctor really couldn't figure it out in the end, could it be that they made a wrong diagnosis, but how could it be possible to recover after such a large wound?

After seeing the doctor walk out, Qin Yuan couldn't wait to ask about what happened before.

"Yu Yang, what do you know, tell us as soon as possible, this is very important for us to arrest the suspect."

Yu Yang also nodded, he knew that it was the person in front of him who saved him.

He thought about it carefully, "When the lights were dark, I leaned against the wall subconsciously, but I didn't expect to step on someone. I can guarantee that it is definitely not someone in our team."

Because the position he was standing at that time was at the front, there was no one beside him, and before squatting down, he clearly saw that Li Erniu was more than 50 meters away from him.

And the moment he touched that person, that person suddenly pulled out his dagger and stabbed him frantically.

Hearing what Yu Yang said, this time he completely got rid of Li Erniu's suspicion, because in that case, even if he was more than 50 meters away, it was impossible for him to move to his side in an instant.

"The person who did it to you, do you remember any other characteristics?"

"This... right! This man is left-handed, and when he stabbed me with a knife, I caught his hand when I blocked it with my hand. There seems to be a scar on his hand."

This time the truth became clear, but what Qin Yuan couldn't figure out was why did Li Erniu run away?

The biggest possibility is that that person has an accomplice, and he went after him.

But until now there is no news about Li Erniu, he is very worried about Li Erniu's safety.

According to Yuyang, Li Erniu's suspicion was completely cleared, and the leader of the special case team apologized and withdrew Li Erniu's arrest warrant.

"Captain Qin, this matter was our negligence. I'm very sorry, because there was not enough evidence at the time, and he was the only person who saw it last, so we can only make this conclusion first."

"The most important thing for us now is to find the perpetrators, and their methods of committing crimes are also very vicious."

Below the factory area is the village, and out of the village is the surrounding towns. I don't know where the suspect will flee to and what kind of threat he will pose to the surrounding people. Everyone is lost in thought.

"But don't worry, we will participate in this matter all the way, after all, our team members are also missing."

"Thank you very much, Captain Qin, for your understanding."

In this way, everyone acted separately, Qin Yuan still planned to look around the factory area, maybe he could find some other clues.

Knowing that Li Erniu was framed and his innocence was restored, Qin Yuan was also relieved, but now he is more worried about Li Erniu's safety.

"Brother Qin, don't worry, Erniu, although he usually looks very simple, but he is still very clever at critical moments. After all, he has been a member of the Special Forces for so many years."

"Now we must hurry up and not let go of any clues."

Qin Yuan vaguely felt that Li Erniu would definitely leave other clues for him, but the policemen had turned the whole place upside down and found no clues, and even dispatched military dogs.

Except for a footprint on the wall, nothing else was found, because there was a dense forest outside the wall, and the direction was too wide, so it was impossible to know which direction they escaped from.

Now the clue has entered a dead endQin Yuan intends to use the most stupid method.

"A few of us work as a group on an individual basis. I believe in everyone's ability. Everyone should disperse. If any suspicious clues are found, everyone will be notified immediately."

This is sometimes the case in special operations, and what is more tested is personal ability. For individual operations, they are all fine.

In this way, everyone dispersed and started a carpet search.

Qin Yuan didn't let go of any clues, there were too many people here, the forest at the beginning was full of footprints, and there were trampled qualities, it was impossible to judge which ones were the suspects.

At this moment, there was a reflective object in front of him, which pierced Qin Yuan's eyes. He ran over quickly, and a silver sign was hung on the tree.

Qin Yuan threw a throwing knife and knocked down the silver medal.

This is Li Erniu's military medal. The tree is quite tall, so it might have been an emergency, so he had to throw the silver medal on it first.

At this moment, He Chenguang's voice came from the walkie-talkie, "We found Er Niu's shoes in the northwest direction."

Chapter 937: brave hero

Northwest direction? Qin Yuan was stunned when he heard this, it was the opposite distance from the northwest, how could Li Erniu run there.

However, since they found the clue, several people quickly chased after it.

When we got there, we found out that not only the shoes, but also the clothes you wanted to keep, the camouflage uniform he wore when he left the team.

But the shoes were neatly stacked and placed under the dead leaves. It seemed that Li Erniu had encountered an emergency and could not reveal his identity, so he had to take off his clothes first.

He Chenguang frowned beside him, he couldn't figure it out.

"Brother Qin, what do you think this kid did? If something happened to him, why didn't he tell us?"

"I think it's too late for this situation, and as expected, Li Erniu has lost contact now, and it's probably because he was kidnapped."

"Kidnapped with Er Niu's skills, the person who kidnapped him should be very strong, right?"

"That's not necessarily true. If the opponent has control weapons, it will be more troublesome."

A clue was found here, so everyone started searching from here, and the team leader is also leading people to search. Now that several people are dispatched together, the chances of finding Li Erniu are still relatively high.

At this time, good news came from the captain. They searched for clues based on the dead factory manager and found a few suspicious people. They probably bought the murderer for revenge.

Under their siege, one of the horse boys was found, who participated in the operation that day.

This person was quite stubborn at first, and he didn't want to say anything, until he saw Qin Yuan coming, it was a real knife and a gun, and he was instantly cowardly.

This person was also anxious to get rid of the relationship, and immediately explained the situation of the day.

It turned out that someone had hired them to kill Liu Jie who took over the factory. At this time, they met Li Erniu who came to Liu Jie. He wanted to ask about the compensation.

Although Liu Jie had called the police at that time, they had already entered the office, so Liu Jie was doomed. At this time, Li Erniu rushed in.

Li Erniu's skills were really good. He subdued all three people present at that time, but he didn't expect one of them to attack from behind.

Several people took this opportunity to escape outside, and Li Erniu kept chasing after him. At this time, the police also arrived, and they saw the scene of Li Erniu holding a dagger.

Then he mistakenly regarded Li Erniu as the gangster at that time.

Speaking of this, the few people next to him lowered their heads in shame. It was a good thing to do what was just right, but they were regarded as bad people in the end.

But now Qin Yuan doesn't care about these things, he just wants to know where Li Erniu is.

Go to that person and explain that the reason why Li Erniu ran out with them was because they hijacked Liu Jie's youngest son. They didn't want to hurt Liu Jie at first, but Liu Jie has been resisting desperately, so the attack was heavy. The son had come to threaten Liu Jie.

Li Erniu saw that there were hostages on them, and he didn't want to alarm the other kidnappers, so he chased them out together.

"What happened after chasing after you? Why did you enter the jungle over there?"

"I don't know what happened next, because we fled in batches at that time. Shanzi turned around and killed the policeman several times. I was terrified. I told him not to touch the policeman..."

It seems that we still have to find clues from the jungle, and now Liu Jie's youngest son is also missing. Unexpectedly, there is another hostage clue now.

The captain felt a little guilty. After all, they misunderstood Li Erniu and delayed the best time to rescue the hostages.

They didn't find this clue about Liu Jie's son at first because the youngest son was an illegitimate child, and Liu Jie had always kept the information about this son a secret.

"Captain Qin, this matter is indeed something we did wrong, I'm very sorry."

"I don't blame you for this. After all, there is a possibility of admitting mistakes in that situation, but the most important thing for us now is to find the two of them. If these kidnappers are only for threats, the child should be fine."

Listening to Qin Yuan's analysis, the captain nodded, immediately organized the police force, and began to search in the mountains.

Qin Yuan and the others set off first. Everyone knew that the only way to find Li Erniu was to look for clues from here. The members of the red blood cell team followed Qin Yuan's instructions and began to act in groups, and searched for the jungle on an individual basis.

Captain, they set off with the police dogs, but they didn't expect Qin Yuan and the others to go so fast.

"Captain, their speed is too exaggerated. We set off almost at the same time. They have already run five or six kilometers."

"After all, this is their strength, and it is true that we were too negligent. Let everyone speed up and catch up as soon as possible."

Qin Yuan's hearing was quick, and after searching like this, he heard a faint voice coming from a distance, and he quickly approached, waiting for the place where the two were talking.

Seeing that one of them still had blood on his body, the two of them sat and rested under the big tree next to them, gnawing on biscuits silently.

"Shanzi, what do we do now that this matter has become so serious, the boss outside can't be contacted anymore."

"Anyway, we must not go out now, so we will hide in the mountains first, and we will definitely be wanted after we go out."

"But we don't have anything to eat. If we continue to fall in love like this, if we don't get caught, we will starve to death first."

"Damn it, I said you kid is stupid. After climbing over this mountain, let's go to the village to get some food. Anyway, we've already done it now, so it doesn't matter if we kill a few more people."

Listening to the conversation between these two people, Qin Yuan frowned. It seemed that these two people were the bandits who killed people that day.

Qin Yuan rushed forward, his speed was very fast, before the man sitting on the ground noticed something was wrong, he felt a pain in his shoulder and was knocked down by Qin Yuan's punch.

"Fuck! I was discovered, run away quickly."

As soon as the words fell, the person who was about to run was kicked to the ground by Qin Yuan. The two of them knew that they couldn't run away. After looking at Qin Yuan, only one of them planned to take a gamble, turned around and called Qin Yuan.

Qin Yuan stared at the man with blood on his body in front of him. It was Li Erniu who was framed by this guy. Moreover, this guy was holding a dagger. Qin Yuan threw the flying knife without hesitation. Inserting his thigh, the man fell down.

The person next to him was kicked to the ground by Qin Yuan.

"Damn it! I can't beat it, run away!"

"Hehe, I still want to run under my men."

The members of the red blood cell team rushed over when they heard the commotion. When they arrived, Qin Yuan had already tied the two people to a tree for interrogation. Now he had to find out the whereabouts of the child and Li Erniu.

The person named Shanzi in front was very stubborn and refused to say anything. Wang Yanbing couldn't help it, rushed forward and slapped that person on the face.

"Even if you kill me, I won't say it. Anyway, it's worth it to take two more lives before dying. Someone will take the blame."

These two desperadoes thought they would die sooner or later anyway, so they didn't cooperate at all.

There was fierceness in Qin Yuan's eyes, he stepped forward, and with a click, the man's wrist broke, and he screamed in pain.

"Since your mouth is so hard, you will die sooner or later anyway, then I will let you die in the most painful way."

"You madman, you really dare to do it!"

"It also depends on who it is for. For a person like you, I will have a hundred ways to torture you."

Shanzi originally wanted to use this method to threaten Qin Yuan, but he didn't expect that Qin Yuan would not accept this at all.

In the end, the man next to him couldn't take it anymore, and tremblingly told what happened.

It turned out that when Li Erniu chased them out, they didn't know it, because they still had hostages in their hands. Li Erniu followed behind and injured one of them, and then changed into the man's clothes, trying to take the opportunity to get closer.

At that time, they were all running away in the jungle. The person in front was still holding a child, so they didn't notice what was going on behind them.

It was pitch black at the time, and everyone was unprepared. Li Erniu took the child smoothly. He planned to protect the child's safety first, and ran out with the child.

When Shanzi felt that something was wrong, your second-rate had already taken the child and ran out, and several people chased after him. During the escape, Li Erniu took the child, and the road was slippery in the dark, and rolled directly down the hillside below.

Hearing this, everyone was shocked.

"Where is that hillside?"

Shanzi spat hard, "Just do it. If he jumps from such a high place, he will be half-crippled if he doesn't die. After so many days, I don't believe that he is going to be alive. You are ready to collect his body."

Wang Yanbing's eyes were red, and he stepped forward and kicked Shanzi in the abdomen. This guy is really unrepentant.

Everyone is very worried about Li Erniu's situation. Now that many days have passed, everyone doesn't know whether he is alive or dead.

Qin Yuan looked solemn. If something happened to Li Erniu, he would never let him go. After all, he was the one who gave Li Erniu a false approval, and it was indeed his own fault that he hadn't asked about Li Erniu's situation for so many days. responsibility.

"Brother Qin, don't worry, Er Niu is lucky, he should be fine, and with his survivability, he can survive for a few days down here."

When Gong Jian said this, he lacked confidence. After all, the premise of survivability is not to be injured.

When they came to the slope, they realized that although it was a slope, it was actually a naturally formed karst cave, more than ten meters above the ground, and the situation below could not be seen clearly.

But at this time, there was a sound of a child calling from inside the cave.

Everyone was overjoyed, they were still alive, Qin Yuan jumped down without even buckling the rope.

"I'll go! Brother Qin, you don't want to die. You have to protect yourself first."

But Qin Yuan didn't care that much, and he could see clearly the situation below, there were some gravels underneath, and he saw bloodstains, although there was a child's voice, but he didn't know how Li Erniu was doing now.

After everyone came down, they found that it was a cave. Qin Yuan and the others kept calling, and the child finally ran out. It was an eight or nine-year-old boy.

When the child saw the camouflage uniforms Qin Yuan and the others were wearing, he ran up crying.

"Uncle, you are finally here!"

"It's okay, we're here to save you, don't be afraid."

The little boy hurriedly dragged Qin Yuan and the others into the depths of the cave, and told them that Li Erniu was inside. It could be seen that the child's body was relatively healthy.

When Li Erniu was found, the kid was already in a coma. He had a wound on his head because he was hit by a gravel when he jumped down, and he also had bruises of varying degrees on his body.

The child's thinking is relatively clear. After Li Erniu rescued the child, he passed out because he couldn't hold on to the wound on his head, and the child survived these days by eating the leaves inside.

Finally found Li Erniu, everyone was overjoyed. Under Qin Yuan's treatment, Li Erniu also woke up, and they were also very excited to see Qin Yuan.

Gong Jian couldn't help cursing: "Damn it, you kid didn't know to notify us earlier, and you still think we are brothers. If we didn't find you, you kid will really be a martyr now."

Li Erniu grinned, if he remembered correctly, this was Gong Jian's first time cursing someone.

"Hey, don't worry, I am very lucky, and I was saved by you, I have always believed in you."

Qin Yuan also gave Li Erniu a blank look, this kid is really worrying.

The truth of the matter finally came to light, and Li Erniu's grievances were also washed away.

Li Erniu's daughter-in-law was very happy. The family even killed a pig and invited the whole village to eat. At the dinner table, Li Erniu's father was very excited. He felt that it was all thanks to Qin Yuan.

"Er Niu, you are a good captain, you can't live up to the captain's expectations, and follow him well in the future."

Qin Yuan also smiled beside him, "Uncle, you can be polite when you say this, Er Niu is not only my comrade-in-arms but also my brother, it must be reasonable to save my brother As it should be."

Li Erniu's daughter-in-law was also busy serving dishes for everyone, "Just tell me what kind of character my man is, don't I know? He can't be a bad person."

"Hahaha, this kid is really tough enough to carry it down by himself."

"Look at what you said, I had no choice but to think about that child at that time, and I didn't think about it so much."

The local captain also specially sent a pennant to Li Erniu, also because he acted bravely.

After arriving in the team, Li Erniu came to Gao Shiwei's office. After all, such a big incident in such a long time really caused everyone a lot of trouble.

"Captain Gao, I'm at fault for what happened this time. Although Brother Qin gave me the vacation, he is also thinking of me. I hope you don't blame him. I will bear this matter alone."

Gao Shiwei snorted coldly, stood up and patted the table, "You brat, you made everyone so worried, do you think it's over like this? Do you know how serious this time is?"

"Captain Gao! Punish me, no matter what punishment you impose, I will accept it."

Chapter 938: International Sniper Contest

"Really? You can accept any punishment, so what if you are allowed to leave the red blood cell?"

Hearing this, Li Erniu was completely stunned. This was the only punishment he hadn't thought of. Leaving the red blood cells was absolutely impossible.

"Captain Gao, what do you mean? Do you really want me to leave the red blood cells?"

"Hahaha, you brat, I think your tears are about to fall, right?"

Li Erniu was speechless for a while, seeing Gao Shiwei's smile like an old fox, he knew he had been tricked.

Can the captain of their Spike Special Forces Brigade be more mature, why does he always like to tease them so much?

"Forget it, stop joking with you kid, to be honest, this time you acted bravely, and a medal was specially awarded to you, and a personal second-class merit was awarded once!"

Li Erniu looked at Gao Shiwei overjoyed, "I didn't expect there to be a reward. Anyway, as long as I am not allowed to leave the red blood cell team, I am willing even if there is no reward."

"You brat, do I still dare to expel you from the red blood cell? Your captain is afraid that he will come here every day to make trouble with me."

"Thank you, Team Gao! Hehe, you guys are really kind to me."

"Hurry up and get out, don't say such nasty things, brat, what time is it now, don't hurry up and train me, don't think that you dare to be so arrogant with a second-class skill."

When Li Erniu came out, he was very happy. He knew that Gao Shiwei was just a knife-mouthed bean curd. Although he said so, it was actually for their own good.

In fact, Lao Gao was also very worried about him. After all, such a thing happened outside, and he didn't tell the team.

When I went back, I would rather they were playing basketball on the playground. After seeing Li Erniu coming out, Wang Yanbing ran over first.

"How is it? Er Niu, did Lao Gao say anything?"

"Hahaha, there is no punishment, and the team even specially approved me for a second-class personal merit."

"Stinky boy, you are really blessed by misfortune, I will say that stupid people have foolish blessings!"

Everyone knew that Li Erniu had won second-class merit, and they were very happy to come over to celebrate with him.

After all, this time they almost paid the price with their lives. Fortunately, it was Qin Yuan and the others who found it in a timely manner.

"But I think the fame this time should belong to everyone. After all, if you didn't come to me, I don't know what to do?"

Qin Yuan shot a three-pointer from the side, and everyone around cheered.

"Okay, don't worry about it here, kid. We're not interested in fame. If you really want to thank us, go to the kitchen and cook some noodles for us! It's been a long time since I ate the shredded pork noodles with mustard greens that you made."

Li Erniu was very happy to hear this, "Don't worry, brothers, I will make enough shredded pork tonight."

The red blood cell group is now more like family to Qin Yuan. Now he always thinks of the past. At that time, everyone was competing with each other and regarded each other as opponents. Now they are all comrades-in-arms and brothers.

This kind of friendship is really rare.

An Ran knew that Qin Yuan was also relatively busy, and Long Xiaoyun couldn't spare time here, after all, both of them were the captains of the special operations team, and they often led the training on missions.

She often went to see Grandma Sun, but what she was more curious about was that she hadn't seen Mu Qingmei for a long time. She used to go to see Grandma Sun often, but Grandma Sun said that she hadn't seen this girl for a long time.

An Ran deliberately made a phone call, but found that the phone was turned off.

She went to the place where Mu Qingmei worked to ask, but she didn't expect that their military hospital was on a peacekeeping mission.

It was Mu Qingmei's initiative to apply for the peacekeeping mission, because registration is voluntary.

It is still more dangerous to perform peacekeeping missions, but she saw that Long Xiaoyun and Qin Yuan had made contributions in their respective positions, so she took the initiative to apply.

Originally, I wanted to call An Ran, but I was in a hurry at that time. After she went there, I wrote a letter here, but due to communication problems, the letter was cut off.

The Dragon Boat Festival is approaching, Grandma Sun made a lot of zongzi and asked An Ran to bring them back to Qin Yuan and his team.

It happened that An Ran told Qin Yuan about this, and Qin Yuan was surprised when he heard it, but Mu Qingmei didn't tell him anything.

An Ran gave him a blank look, "You really don't care much about her now, no wonder she doesn't want to talk to you."

Qin Yuan also felt that he had really neglected his duties. The most important thing was that too many things had happened during this period, and everything was inseparable from him and needed to be resolved by him.

So he completely ignored some things, and he felt that he was really incompetent.

Seeing that Qin Yuan was really thinking seriously, Long Xiaoyun smiled beside him.

"Whether you really don't understand or not, Mu Qingmei doesn't want you to worry. After all, we all know that our work is very special."

Seeing Long Xiaoyun approaching, An Ran warmly greeted her and handed her the zongzi in her hand.

"Grandma Sun made this package, and she specifically asked me to give it to you."

Long Xiaoyun took the zongzi and whispered a few words in An Ran's ear. Qin Yuan felt a little curious and just wanted to turn his head to listen, but Long Xiaoyun gave him a hard look.

"We girls are talking, what are you eavesdropping on? By the way, Gao Dui asked me to call you to the office just now, so hurry up!"

"Aren't we a family? It is necessary to conceal what is said between the family."

"No! Xiaoyun and I are family now."

Qin Yuan smiled, the relationship between the two is getting better and better, but just now Long Xiaoyun said that Lao Gao had something to do with him, so he went to the office first.

After arriving at the office, Gao Shiwei set up the game of Go, "By the way, it just so happens that you come over and play two games with me first."

Qin Yuan frowned, did he ask himself to come here just to play chess? Then he can't do it, after all An Ran is here, he is going to accompany An Ran and Long Xiaoyun.

"Captain Gao, if there's nothing else to do, I'm leaving first. You can play chess anytime."

"I just said that you value **** over friends. An Ran has just arrived, and your legs can't move?"

Gao Shiwei stood up, and then threw Qin Yuan a registration form, "Fill in your information, and hand it over to the Military and Political Section tomorrow."

Qin Yuan looked at the information on the watch, the registration form for international snipers.

"International? It's interesting to see."

"The first candidate I thought of for this competition was you. After all, you are representing our Yan country. The requirements for the sniper competition this time are very strict, and I heard that there is a particularly powerful master from the O country."

Hearing that a master Qin Yuan was interested, he has not participated in such a sniper competition for a long time, mainly because it is not challenging.

"A powerful master, then I want to see how powerful it is."

"Although I know you are very capable, don't underestimate the enemy. This time the Du International Sniper Competition is co-organized by the United Nations. Everyone attaches great importance to this competition."

"Captain Gao, is there any reward for winning the first place?"

"Haha, you finally got the point, kid. In fact, there are many competitions like this in the world, but I pushed it many times and didn't participate. But this time, the reward is very generous, so I let you go."

After Gao Shiwei finished speaking, he rummaged in the drawer for a while and found a form, which contained the specific rules of this competition and the rewards.

"It's been too long, I didn't intend to let you participate, but seeing this reward, I'm really tempted."

Qin Yuan took the form and looked at it. He divided it into three rewards, the first place, the second place and the third place. The prizes are from high to low. The first place won the title of Gun God and a reward of 300,000 US dollars.

The second prize is 200,000 yuan, and the third prize is 100,000 yuan.

"If Team Gao wants me to say it, if possible, I might as well bring all the people in our team with us. The first, second or third place can be covered by us."

"You kid is really unpopular, but they just want to prevent this from happening, so each participating team can only have one place."

The number of places has been reduced, so the requirements have also increased. They are all carefully selected masters. It is very easy to represent their country in the competition, and the requirements for ability are also very high.

"By the way, let Xiaoyun lead the team these few days! You kid, give me wholeheartedly practicing sniper marksmanship."

Qin Yuan spread his hands indifferently. This thing doesn't need to be practiced at all, "Gao Dui, don't worry, I can play well with my eyes closed."

"Okay! Come here and play two games with me."

"By the way, Captain Gao, I suddenly remembered that my marksmanship still needs to be practiced. In order not to waste time, you should find someone else to play chess with you."

After Qin Yuan finished speaking, he left Gao Shiwei's office in a hurry.

Gao Shiwei roared from behind, "You little white-eyed wolf, I don't want you to play two games of chess with me."

As far as his marksmanship still needs training, that is to say, he is very confident in Qin Yuan.

Although there are many masters in the international sniper competition held this time, he feels that Qin Yuan will definitely be in the top three.

Qin Yuan submitted the application form the next morning, and the comrades from the military and political department had already written the information for him.

This time, the competition venue is in country C, but the organizer is an international joint organization, and country C only provides the venue.

They screened the list one by one. At this time, the screener saw a familiar name, Qin Yuan!

"I'll go! If this guy comes, he is probably the champion!"

When the person next to him heard this, he turned his head and looked, "If you said this before, it must be him. He is relatively famous, but this year should be different. I heard that the sharpshooter in country O is also very powerful. "

"And it's not certain who will win. This year's competition is very fierce and there are many masters, so it is quite difficult to get the first place."

The rules of the competition this time are quite strange. They cannot use their own guns, but must use the guns provided by their organizers.

In previous sniper competitions like this, they could all use their own guns, as long as the guns were of the same model and specification, but this time they had to use the sniper guns provided by the organizer.

This also increases the difficulty. The more this is the case, the happier Qin Yuan is. After all, he likes to accept challenges. Those like the ones before are very boring and not challenging at all.

Time passed quickly, and it was the day of the competition in a blink of an eye, and no one came to see him off before the departure. Qin Yuan felt a little strange, what happened.

At this time, I saw Li Erniu and the others coming out of the canteen, eating popsicles while walking towards him.

"I said you guys are too heartless. Now that I am going to fight for the country, no one came to see me off?"

"Brother Qin, we all believe in your strength too much. After all, it is very easy for you. Your participation in this kind of international competition is like a small exam."

"Yes, so we are all used to it, and we cheer for you silently in our hearts."

"One thing to say, this popsicle is really delicious, let's go buy it again!"

"Okay! Whoever ends up at the commissary will treat you?"

The moment they heard this, several people were ready to run forward with all their strength, leaving Qin Yuan alone to look at these people with a dazed expression, it was too heartless, so he just let himself go alone.

They are too relieved of themselves! And even Long Xiaoyun didn't take it seriously, thinking that Qin Yuan was just going to take a small exam.

"Take a good test, anyway, the Gao team said the top three, no matter which one you get, we will all have money."

"Don't worry, the first place must be mine."

"However, there is one thing to say, you should pay more attention to it. I heard that there are many masters this time."

Qin Yuan nodded, looked at the time, waved goodbye to Long Xiaoyun, turned around and boarded the helicopter.

When they arrived in country C, there were special staff at the airport to welcome them to participate in the competition. I have to say that this time they chose to hold it here, and their service attitude is quite good.

They took the bus together to go to the competition site. At this time, the soldiers behind saw Qin Yuan coming, and sighed instantly.

"Sigh, I originally thought that I would be in the top three in this competition but I didn't expect Qin Yuan from Yan Kingdom to come, now it's completely hopeless."

"Yeah, I didn't expect him to come to this kind of competition. Didn't they stop participating before?"

"I'm not sure about this, but what I know is that this guy really put a lot of pressure on us after he came."

Hearing the discussion of several people, a soldier from country O next to him asked later: "Is this person really so powerful? Let you all discuss like this."

"You don't know that he participated in an international sniper competition before, and the competition even changed the rules for him."

"Oh, is there such a thing?"

"Of course, because he directly broke the original distance with a conventional sniper rifle, and the organizer at that time raised the difficulty on the spot."

Hearing this, the soldiers of country O looked at Qin Yuan who was sitting in front, then this opponent was quite interesting.

"But who is the first, that's still uncertain!"

When everyone heard what this man said, they all shook their heads. This man had never seen Qin Yuan's strength before, so he was talking big like this.

Chapter 939: Game start

Qin Yuan was just staring at the scenery outside in a daze. He hadn't participated in such a sniper competition for a long time.

Compared with participating in such competitions, he is more willing to perform tasks, and about Mu Qingmei, how could she suddenly perform peacekeeping missions, mainly because she hasn't told herself yet.

Mu Qingmei's personality is soft and sticky, it is really dangerous to go outside to perform peacekeeping missions, and can she adapt to such an environment?

Qin Yuan decided to wait for the end of the game here, and then inquire. The main purpose of going to Mu Qingmei was to see how she was doing.

Because Qin Yuan was thinking about the matter, the person behind called Qin Yuan a few times, but he didn't pay attention.

The man named Qin Yuan was the soldier from country O, and he was a little unhappy with Qin Yuan's attitude.

"Hey! Let me tell you what's going on with you, no matter how arrogant you are, you can't be like this!"

Qin Yuan came to his senses, looked at the person in front of him, and said a little embarrassedly: "Sorry, I was thinking about something just now, so I didn't notice it."

"Oh, I heard that your sniper is very powerful. Shall we compete first?"

Hearing the interest of the people behind here, because their competition has not officially started yet, some people will indeed find an opponent to compete in advance.

However, this is only done in private and does not count as a grade.

"Sorry, not interested."

The soldier who spoke frowned, this guy is really arrogant, "Don't you know that it is your honor that I invite you to compete?"

"Oh, I just don't want to beat you twice in the same spot."

The other soldiers nearby were all watching the excitement, but they didn't expect to see such a wonderful conversation at the beginning.

"I think that guy from Country O is just looking for discomfort. Doesn't he know Qin Yuan's reputation?"

"Having said that, he hasn't participated in competitions for the past two years. I don't know if he can still play to his previous level."

All of this was unpredictable. Seeing Qin Yuan's attitude, the soldiers of country O backed away with a cold snort.

He proposed to challenge Qin Yuan just now because he couldn't stand the comments from the people around him. His marksmanship is very famous in the local area, and he has never been questioned like this.

The discussions among the soldiers around him deeply stimulated him, so at this moment, he had already regarded Qin Yuan as an opponent. He originally wanted to dampen his spirit before the game, but he didn't expect that he would not fight at all.

In this case, he hoped that the two of them could be in the same group.

At this time, the vehicle slowly drove into a courtyard. After Qin Yuan got down, he saw that there were already many people in the courtyard, all of whom were contestants who had come to participate in the competition.

After everyone arrived, the organizer brought everyone into an auditorium.

A man with glasses stepped forward and began to speak.

"Welcome everyone to participate in this international sniper competition. Many people may be participating for the first time, and some may have participated many times, but this time is different from the past."

Immediately afterwards, someone came down and sent them the specific rules of the game.

In the traditional sniper rifle written test, various targets are usually set and then shot. Unexpectedly, the challenge this time is to score various levels of difficulty from low to high, from easy to difficult.

Qin Yuan didn't look at those low-level challenges, which were not worth mentioning to him. He was shocked by the last challenge. He didn't expect to play such a big game. This challenge is marked with a five-star difficulty.

The five-star difficulty turned out to be to directly shoot and kill the boss of a drug lord group.

This is still really breaking the rules, I didn't expect such a rule to appear.

People in the audience were talking about it, this was a direct injury, and the target was much more difficult than their traditional one.

Someone in the audience quickly raised objections, "Although it is so simple to kill the target, but this is the boss of the drug lord group, do you think it will be so easy? Where do you put our safety?" .”

"That's right, we are snipers, not a special team. Are you going to let us sneak in?"

The man on the stage adjusted his glasses and said with a smile: "Actually, I think a sniper represents the ability of a team, and can even represent a team. You will complete various sniper tasks, and you will become a team." The standard of a qualified sniper."

Qin Yuan quite agrees with this statement, because no matter how many times he trains, if he dare not shoot and kill living things.

Or if there is no way to snipe the designated target, then no matter how good the results in the usual training are, he is not a qualified sniper.

He has a deep understanding of this matter. Although the injured are criminals, it is difficult for everyone to understand the concept of death and facing death directly.

As for the soldiers who objected, it was only because most of them only received traditional training, and they were all excellent snipers in their ranks.

To another extent, they have never really shot the target.

Everyone didn't expect that this year's requirements would be so high. For a while, many people retreated.

Qin Yuan continued to look at the previous few requirements are quite simple, the most basic is the target of 800m, and then to 1500m, and then judge according to the shooting results of the size of the target.

A soldier sitting in the front said with a sad face: "This game is over, do I have to face real death this time? I have never shot anyone before. If so, then I will retire directly." gone."

Qin Yuan felt a little funny when he heard him say this, and couldn't wait to say: "You are quite interesting, as a sniper, if you dare not kill people, then why not be a sniper and serve as a soldier."

"But this is not the case in our training. I have no problem facing fixed targets or moving targets."

"But this is also the ultimate goal of our training. You can't spend your whole life in the training ground, so it doesn't make any sense at all."

Hearing what Qin Yuan said, the soldier turned his head and looked at him curiously.

"Looking at how young you are, have you ever really killed someone?"

"This is what we have to go through, and I also think this is the standard of a sniper. If you are a sniper just to complete the training, then it is not necessary."

The soldier frowned. He thought Qin Yuan was bragging, after all, he didn't look like someone who had been on the battlefield at his age.

At this time, the man wearing glasses on the stage motioned for everyone to be quiet.

"I know that many of you have objections, but this is the rule of this competition. If you don't accept it, then you can choose to withdraw now."

"And I'm the one who said bluntly that many of you want to pass the previous exams. It's not easy. If you can stay, the person who shoots the drug lord in the end is definitely the most perfect sniper."

Although he said to quit, many people present still wanted to give it a try. After all, as he said, it was not easy to pass the previous exams, so it was just an experience.

Looking at the sighing soldiers in front of him, Qin Yuan shook his head. These people haven't been trained in life and death, it's too late.

Li Erniu and the others are different. Everyone has undergone this kind of training very early on, so even when facing a living target, they can shoot subconsciously without the slightest hesitation.

The previous several projects were all shot together. First, some people had to be eliminated, and the remaining people were assessed against each other. Finally, the best snipers were selected to complete the task of shooting down drug lords.

Next, the organizer started to release guns. Everyone used the same sniper rifle, all provided by the organizer, and they were not allowed to use their own sniper rifles.

Qin Yuan glanced at it, and it turned out to be a Type 69 sniper rifle. This is an old-fashioned sniper rifle, mainly because of its effective range and its own scope. In the future, it can only reach 800 meters at most.

However, this should also be a difficulty deliberately set by the organizers.

"I'll go! I thought they had some good sniper rifles, but I didn't expect to use some we eliminated."

"Yes, what kind of distance can this kind of broken gun shoot?"

The man wearing glasses didn't listen to the complaints of the soldiers below. After firing the sniper rifle, he said: "Okay, everyone, get ready, let's go together now. In ten minutes, the first match will officially begin."

This is too fast, everyone has just arrived, and the buttocks have not yet warmed up, so they started the competition directly.

"I would like to ask, is our speed a bit too fast? We have been tossing so much along the way, at least we have to wait until tomorrow to start the game!"

"Sorry, this is our game rule this time."

What is this with? Does this person understand snipers? Snipers have to make a lot of preparations before shooting. Although everyone is dissatisfied, there is nothing they can do. After all, this is their rule.

After the man finished speaking, he left directly, and Qin Yuan followed the team out of the auditorium.

Many people are a little uncomfortable with this rhythm, but for Qin Yuan, this is normal, because a qualified sniper can pick up a gun to fight at any moment.

The soldiers from country O next to him looked at those complaining people with contempt. He felt that these people really embarrassed the snipers, and they couldn't be called snipers at all.

At this time, a familiar figure appeared in front of him, but Qin Yuan walked ahead silently without saying anything.

In this way, everyone came to the venue of the competition, because the range of this sniper rifle is 800 meters, the organizer did not make things difficult for everyone, the distance is about the same, but the target is very small.

Difficulty also starts one by one. Mineral water bottles, eggs, table tennis balls, and grapes 800 meters away have these four standards.

Hit the water bottle and get 20 points!

Hit the eggs and get 30 points!

Hit the ping pong ball to get 40 points!

Hit the grapes to get 50 points!

You can choose several kinds of goals according to your own ability. The more difficult the goal, the higher the score, which will definitely be beneficial to the future.

Most people looked at it, then went to look at the distant target and shook their heads. A grape was hanging on a tree 800m away, which was simply impossible.

It might be possible to switch to other sniper rifles, but the range of this sniper rifle is also problematic, so it might not be possible.

Those who are ready can shoot directly. Qin Yuan didn't hesitate, and was the first to go on stage, took a look at the target and shot quickly.

In the next second, a broadcast came from the opposite side, "Contestant No. 1 hits the grape and gets 50 points!"

The people next to them were completely stunned. Everyone was still preparing which target to hit. After all, it was very difficult to hit an egg. Unexpectedly, they all hit the target directly.

And it was the most difficult one. The soldiers of country O also looked at Qin Yuan with admiration, but he could do it to this extent.

Although he was not as fast as Qin Yuan, he still adjusted the focus, but he also hit the target.

The first round of the match took only one minute for Qin Yuan to end, and then came the second match. He saw that the soldier from country O who was next to him also followed up. This man's marksmanship is also quite good.

In the second game, they needed to find the angle by themselves and hit the dummy behind the wall. This was just a fixed target, but the angle was very tricky.

Qin Yuan made a gesture of please, and asked the O soldier to shoot first, but he was not in a hurry.

The soldiers from country O were not polite either. They found a commanding height that he thought was perfect, and then began to look for an angle.

It has to be said that this kind of sniper competition is indeed very difficult, and this position is too tricky, and he can't guarantee that he can hit the head.

This level is timed, although it is just a fake, but if you encounter such a situation in reality, you can't wait to make such a long judgment, so the shorter the time, the better.

Time passed by every minute and every second, and the soldiers of country O really couldn't make up their minds to fire this shot. Although they said they hit the target, they judged and scored according to the position of the hit target.

The referee next to him looked at his watch. The soldiers of country O were also a little nervous. He decided not to hesitate anymore. After all, the time is critical now. If you can't hit the head, let's hit the shoulder!

The next second he pulled the trigger and successfully hit the dummy on the shoulder.

After hitting the target, he breathed a sigh of relief, at least he didn't miss the target, but he looked at Qin Yuan next to him, he didn't know where he could hit.

Qin Yuan didn't look for the so-called commanding heights either, he just found a seat at random and sat down.

The people next to him were dumbfounded, what kind of sniper posture was this, and sat down directly.

In the next second, Qin Yuan fired directly. As the bullet was fired, his bullet actually shot through the wall and directly hit the head of the dummy behind.

This! It's just incredible.

Even the referee next to him was dumbfounded that there was still such a style of play. How did he know that the wall was the weak link, which could ensure that the bullet could penetrate it? And it hit the head directly.

Everyone stared at Qin Yuan in disbelief, this man is too exaggerated! It's just hanging up.

This is trivial to Qin Yuan, not to mention shooting a distance of 800 meters with this gun, even if he can shoot a distance of 1200 meters, he can do it.

When the soldiers behind saw this scene, they were all talking about it.

Chapter 940: The strength that astounds everyone

"If you see it, I'll say that he came here to win the championship, and now we're out of the game."

"It's not as exaggerated as you said, maybe it's just luck, but he showed us a new method, and we will fight like this later."

The soldier from Country O stood up and put away his sniper rifle. He shook his head. This is not something that just one person can do.

Ready for the third match, he came to the position where Qin Yuan was sitting just now, sat down according to his posture, and aimed at that position, there was no way.

This position is not optimal either from a sniper perspective or from other normal design perspectives.

He felt a little surprised, how did this person do it? It's definitely not luck, he never believes in luck, especially for marksmanship, and for the battlefield, he is also a person who has been on the battlefield.

Thinking of this, he hastened to catch up with Ruan Yuan. At this moment, Qin Yuan had just finished the third match, and he still didn't hesitate at all. The third match was even more difficult, as he had to hit a balloon a thousand meters away.

Although the target of the balloon is larger than an egg or fruit, the balloon is floating in the air, and more importantly, the range of this gun is only 800 meters.

This requires years of training and precise judgment. The main reason is that when you shoot from this position, after hitting the effective range, an arc will be formed. It depends on whether your judgment is accurate.

Due to the increasing difficulty of this level, there are three opportunities to challenge, and if you fail to hit it three times, it will be judged as a failure.

Qin Yuan smiled, this kind of challenge is quite interesting, it is much more difficult than in their country, but it is not the slightest problem for him.

He took a good posture, without hesitation, and shot directly, instantly breaking the balloon a thousand meters away.

The referee applauded even more excitedly. The current wind speed is still very strong, and the balloon kept swaying a kilometer away. Unexpectedly, he hit it directly.

The soldiers in the back all gasped, this man must have been screwed!

But some of them were not convinced, they suspected that Qin Yuan had tampered with the balloon.

"Report, why can he hit it with one shot, I suspect there is something wrong with his gun."

It's not unreasonable for everyone to have such doubts. After all, with such a distance and such a design situation, he can still hit it with one shot.

The soldier who spoke just now mainly suspected that Qin Yuan's gun was not 800 meters, but should have a range of 1,000 meters.

The referee didn't even look at the soldier and said slowly, "All games continue."

Because he didn't want to pay attention to such an unreasonable request at all, the hosting competition this time was very strict, and there was no chance of cheating.

But when the soldier saw that the referee ignored him, he became more and more active, and he felt that there was definitely something wrong, otherwise why would they be so anxious to separate the relationship?

In his eyes, if he doesn't pay attention to it, it means to separate the relationship.

He stepped forward and grabbed Qin Yuan, "Don't go, I suspect there is something wrong with your gun, it's unfair to all of us."

"It's better to let go, I don't like people to touch me."

Qin Yuan turned his head and looked at the soldier coldly. The soldier was taken aback. He wanted to let go, but when he looked around, there were so many people around. Wouldn't it be embarrassing for him to let go? ?

People around also started booing.

"Yes, this matter concerns us, so what we want is the principle of fairness. If it is not fair, then what is the game?"

"We need to inspect the gun ourselves, we have to see it."

Qin Yuan snorted coldly, but said coldly: "It's best to let go, the gun inspection is fine, but you must apologize for your slander against me."

"I won't let go. After all, maybe when I let go, you will make some small moves."

Qin Yuan shook his head, grabbed the soldier's shoulder with his backhand and fell over his shoulder, and the soldier fell heavily to the ground.

"I don't like other people's slander against me, not to mention that I have told you twice to let you go when I do something small under the watchful eyes of everyone. I don't like to say it for the third time."

"you..."

The soldier who fell on the ground couldn't say anything, and the people around were talking in low voices. This man was too exaggerated, and he shot as soon as he said he would, without the slightest hesitation.

"But his strength is there, so I'm not afraid at all. Believe it or not, look at his eyes, even if we fight together, we can't beat him."

"Nonsense, why should I fight him, I'm a sniper."

When the soldiers of Country O heard this, they sneered. These guys still want to fight him?

He had been paying attention to Qin Yuan just now. His chassis was very stable and his movements were agile. To be honest, he didn't see his movements clearly the moment he grabbed the soldier.

This kind of talent is a hidden master, and he also saw Qin Yuan's sniper marksmanship before, which really made him admire.

As for whether there is any problem with the gun, he can be 80% sure that there is no problem. Although he has never seen Qin Yuan's gun at close range, there is no problem when he hears the sound of the gun.

Seeing this, he was right, but he was a little curious, and stood beside him silently, because the noise caused the referees to come over, as well as several security personnel.

"What's going on with you guys? Do you want to be disqualified from the competition? If you fight privately in the arena, you will be expelled from the arena."

"I have no choice. After all, he attacked me first, and I can only react in self-defense."

The soldier who fell on the ground was a little bit wrong, but when he saw the referee coming over, he said loudly: "That's because we suspect that his gun is different from ours. There is definitely a problem."

"Oh, will there be such a thing?"

The referee turned his head and looked at the ordinary referee next to him.

"This soldier really suspects that there is something wrong with the gun. It's because the soldiers of Yan Kingdom shot a super long distance and hit the target with one shot."

"Hit the target with one shot?"

The referee next to him also couldn't believe it. For this sniper event, their best snipers had to test three times, and they only succeeded on the third time, so they set aside three opportunities for testing.

They have personally tested each of your competitions. If someone passes it, it can be used as a normal competition. Although these soldiers are complaining, there have been people who have passed it before.

Qin Yuan shrugged his shoulders when he saw that the chief referee, who was talking about it among the soldiers around him, also planned to inspect the gun himself. He said that he didn't care.

"The gun inspection is fine, but the person who slandered me just now must apologize."

His soldiers on the ground were not convinced by Qin Yuan's fall.

"So if there is no problem with the money, I apologize to you, but if there is a problem with the gun, you can get out of here on your knees, remember to get out on your knees."

"Then if this is the case, I can also ask for it. You asked me to go out on my knees, so I ask you to apologize on my knees."

"sure, no problem!"

Qin Yuan walked forward with a smile, and patted the video on the shoulder, "I hope you keep what you say."

"Go away, don't get close to me."

The soldiers of country O just watched all this silently from behind. Although the truth of the matter has not been revealed yet, he knew that Qin Yuan must have won, because the confident eyes on his face could never deceive anyone.

The referee put on the gloves, then put the sniper rifle on the table, and started the gun inspection in front of everyone. The gun inspection is to disassemble the gun body.

Disassembly is mainly to see whether the gun's pipes, magazines, and sniper scopes have been modified.

In this way, the gun body was disassembled under the watchful eyes of everyone. After the disassembly was completed, the referee shook his head. This gun is absolutely fine, and it is all original.

The shouting soldier just couldn't believe it. He quickly got up from the ground and ran to the front to look at the parts of the gun.

"It's impossible, if the gun is not modified, how can anyone hit the target with one shot?"

Qin Yuan stepped forward, picked up the sniper rifle and began to install it.

"Some people are just frogs in a well, and their strength is not as good as others. They still have to question others. More importantly, they are too sad and ignorant."

"You...Why do you say that to me? I'm just not convinced."

"Generally, the source of unconvinced comes from jealousy. What you can't do by yourself doesn't mean I can't do it, and I can say without exaggeration, let alone the balloon, I can directly hit the balloon line."

what!

After Qin Yuan said this, even the referee next to him was stunned. This is absolutely impossible, which is a bit exaggerated.

Hitting the balloon with one shot, this man's marksmanship is really good, but it is completely impossible to hit the balloon line. He picked up the binoculars and carefully looked at the balloon opposite. It was already difficult to see the balloon, let alone Can't see anything on the line.

What's more, the target was already out of range of the gun, and the line was too thin to hit.

"I can't help it. Since you all doubt it so much, I will let you frogs in the well see what your real strength is. Remember not to question others casually in the future, especially when you have no ability."

When Qin Yuan said this, he was not only sarcastic, but the soldier was also sarcastic to those people who were shouting at him just now.

For a while, there were different voices from the crowd, and everyone was a little unhappy.

"This kid is too arrogant! Isn't it just hitting the target at once, is it so exaggerated?"

"That's right, and it also denied all of us. It's not certain who is the frog in the well. Isn't it just a hit once? Is there such a thing?"

"I think this kid just needs a beating."

Qin Yuan had already installed the sniper rifle while speaking, and then he maintained a position occupying the ground, and fired quickly in the next second, followed by the sound of the gun.

Everyone saw the balloon on the opposite side rise into the sky, and he really broke the thread.

This! It's just incredible!

Everyone was completely stunned, what kind of marksmanship could be so accurate that it actually hit the balloon line a thousand meters away.

The referee was even more shocked. If this scene hadn't happened in front of his eyes, he would have suspected that he had seen an illusion.

This person may really be the champion this time, this marksmanship is simply amazing.

"If you see it, I will say that this matter is very simple."

Hearing what Qin Yuan said, everyone stopped talking. After all, he had already proved his strength, and no one present could achieve this result to be honest.

The soldier from country O stared at the boss just now. Qin Yuan hit the balloon at once, which surprised him enough, but he didn't expect to hit the balloon thread directly.

"Is this person cheating?"

The soldier from country O shook his head, stepped forward and stretched out his hand, "I'm sorry, let's get to know each other again. My name is Ozark. I offended you a lot before. I'm very sorry. Now that I see your strength, it really makes me Admiration from the inside out."

Everyone was surprised when they heard Ozark's name. This person is also relatively famous. He was most famous for shooting a mission that was impossible for anyone to complete.

Unexpectedly, he also came to participate in the competition. He is the mysterious master of country O.

This time the game is really exciting, there are many masters, and these masters are very low-key.

More importantly, a master like Ozark took the initiative to show his favor to Qin Yuan, and everyone around him couldn't help sighing. In this competition, the champion and runner-up are probably out.

Qin Yuan saw that Ozark was also very polite to him, and it was not easy to refuse, so he also extended his hand.

"That's not to say, it's all about learning from each other."

"I really admire your strength. In other words, you are a respectable opponent."

Qin Yuan smiled, and left with the sniper rifle on his back. He still has to participate in the next competition, so he has no time to chat with these people.

Shaking his hand was just a basic courtesy.

Ozark even secretly made up his mind. Before, he regarded Qin Yuan as his opponent, but at this moment, he clearly understood that Qin Yuan's ability was superior to his.

So he really wanted to worship Qin Yuan as his teacher, and hoped to learn from Qin Yuan, but it was a pity that he was still competing and there were many people around, so he couldn't say that.

After the game is over, he must find an opportunity.

Until Qin Yuan left, the people around hadn't reacted from the shock just now. This man's marksmanship was too fast, and he didn't sloppy at all. He shot as soon as he said he would shoot.

Moreover, the competitions here are really difficult. After such layers of screening, only a few dozen people were left after the huge team of hundreds of people was screened out just now.

In addition to the basic sniping competition, there is also a camouflage test.

Because of the particularity of the sniper profession, camouflage is also their most basic course. A sniper who can't camouflage is not considered a qualified sniper.

Everyone has one hour to prepare. They can hide in any place designated by the organizer. The later they are found, the higher the score. If they are not found, they will directly get 100 points.

After Qin Yuan entered the site, he realized that it was an abandoned building, surrounded by bushes and grass, and beside it was a piece of sandy land.
