

Special Soldier 951

Chapter 951: unexpected victory

He looked up at Lubenfu outside the door.

"Who did you just say? What is the origin of this kid?"

Lu Benfu already knew that the boxing champion was here, so he said this on purpose, just to completely anger the boxing champion. After all, the current boxing champion has restrained a lot, and he won't be too deadly when fighting.

This time, he must ask Quan Quan to clean up Qin Yuan, and kill the kid with the hand of the boxing champion.

"Oh, boxing champion, I didn't see you here, don't take it to heart, that's what I said."

The more he said this, the more curious the boxing champion became. He walked over and slapped the door frame hard.

"Don't talk nonsense, let me ask you who is that person?"

"This guy is just new here. That kid's name is Alec. Anyway, he is very arrogant. He beat up all the people in our dormitory on the first day he came here. Look at my hand, he broke his bone." of."

The boxing champion doesn't care about his hands at all, he just thinks that this kid is quite powerful, after all, he can defeat everyone in the dormitory by himself.

He finds it quite interesting, now that he has finally met an opponent he can fight, he has not met an opponent for a long time, this invincible state makes him feel very lonely.

Because he was sentenced to life imprisonment here, it is impossible to get out, so he can only vent in this way.

And he listened to this guy's tone, which was completely provocative to him. Now that he has been boxing in the military prison for so many years, he has obviously become the number one.

Even if he knew how dark this game was and most of the money was taken away by those prison guards, he was still willing, because it was not important to him to be in front of it now, fame was the most important thing.

And most importantly, these things can bring him more benefits, and he doesn't have to go to labor camp every day like everyone else.

It seems that he needs to teach this new kid a lesson.

"Okay, you can get out, I have already remembered this kid's name, and I will definitely play with him tomorrow."

"Champion, then I have to tell you one more thing. He even asked me to tell you to be careful tomorrow."

"Hehe, it's really arrogant, I know."

After the boxing champion finished speaking, he stood up and moved, and did push-ups directly on the ground. He planned to prepare for tomorrow's fight.

It seems that he really hasn't shot for a long time, even such a rookie dares to ride on his head.

The prison guards next to him were even more happy, and this match was even more exciting, after all, the boxing champion hadn't come out to fight for several weeks.

The main reason is that he has almost no opponents and is so strong that no one dares to challenge him.

In this way, under the hype of these warnings, the ticket price for this game was sold at an abnormally high price, and more and more people wanted to enter.

On the other side, in the cell where Semir was held, he was not allowed to propose that he wanted to participate in a boxing match.

The guard in charge of managing him was also a little surprised. Could it be that this kid really obeyed, because he was also allowed to participate in a boxing match before. At that time, the main purpose was to let him suffer in the boxing ring. I didn't expect that this kid would rather die than obey. , would rather be locked in a small black room.

In this way, I don't know how long he was locked up, but he still didn't want to bow his head, so he was always taken care of like this. After all, in prison, they have plenty of time to be nice to these people.

I didn't expect this kid to say that he was willing to participate in the boxing match.

"You guys should think about it. You said it yourself. Life and death in the boxing ring is up to God."

"Anyway, my previous fighting skills are not bad. Even if I am on the stage, my life and death are not in the hands of the sky, but by myself."

"A good boy is very arrogant, then I will help you, and I will help you sign up. If you fight hard this time, you won't have to go into the dark room."

The prison guard happily reported Shemir's name and called Amus.

"Mr. Arms, I've already taken care of the matter here for you. This kid has agreed to come to the front desk."

"Hahaha, let me feel at ease when you do things. Remember, you must make this kid suffer a little bit, and it's better to be half disabled."

"Don't worry about that, I will arrange for the most powerful opponent to fight against him, and this kid has been locked in a small dark room by us every day recently, and his skills are probably not as good as before."

Amus was very happy on the other end of the phone. Only in this way can he hold Shemir firmly. When Shemir is disabled, he will take this matter to talk to her sister, and then he will definitely be able to get the mercenary army.

After all, in such a powerful mercenary army, there are so many teams that can do many things for him, and many things that he can't do and can't get on the stage can be entrusted to these people.

Thinking of this, Amos was overjoyed, now he doesn't have to worry about that Eredar woman anymore, he just needs to concentrate on doing things in the prison well.

On the other side, Qin Yuan was resting on the bed, and the person sleeping on his upper bunk lowered his head, "Well, I want to tell you something."

"If you have anything to say, hurry up and don't disturb my rest."

This man knows that Qin Yuan is very easy to get along with. Although he has become the boss of this prison, he has never bullied them as the boss. It is only because they and Lu Benfu fought against him before, so he did it. of.

And recalling that when Lu Benfu was the boss, they endured bullying, poured water for Lu Benfu's face and feet every day, and washed his clothes and quilts for him, but here at Qin Yuan, there was nothing.

That's why he thought of kindly reminding Qin Yuan.

"Just now you asked Lu Benfu to sign up for you. This kid is full of bad things. He might say something bad about you. You must be careful when you go to the boxing ring tomorrow. If it doesn't work, just withdraw."

"Why do you look down on my body skills so much? Didn't you feel it before?"

Although he was indeed defeated by Qin Yuan, the man shook his head.

"You don't understand. There are no rules at all in the above rules, especially the boxing champion. His strength is surprisingly strong. He killed a person with three punches before."

Speaking of this man, he still has lingering fears, because he went to see that game in person. He never believed that someone beat someone to death with bare hands before, but during that game, he witnessed it with his own eyes.

"I really think you are pretty good, so I remind you that there is no need to die, and your crime will not be held for a long time, and you will pass it."

"Well, you don't need to worry about it, maybe I will become the new boxing champion."

The man who went to bed wanted to say something, but when he saw Lu Benfu came back, he closed his mouth, shook his head, and leaned on the pillow. He had already said what he needed to say. Since Qin Yuan didn't listen, he also no way.

Sometimes people are too stubborn, and there is nothing they can do about it, and although Qin Yuan said he defeated them, how could their strength be on par with boxing champions?

Because of this hype, the tickets were sold out very quickly, and many people couldn't squeeze in.

After all, the boxing champion was about to come out, and it was said that a new kid was going to challenge the boxing champion. Qin Yuan was kept in the dark about all this, he didn't know what was going on outside.

The next morning, with the towels whistling outside, everyone gathered at the door to take them to the ring.

The guard at the door looked at Qin Yuan's feet, "You should be fine with your previous injuries, right?"

"Report sir, there is nothing wrong, I think I am in good health."

"Then that's good. In fact, you don't need to be brave. If you can't beat it, you can surrender."

Qin Yuan smiled and nodded. It is not certain who will surrender at that time, and he has not been active for a long time.

In this way, everyone went to the venue, and the outside is the stand. The contestants who participated in the competition entered the ring, sat and waited, and accepted the challenge on the stage. The competition was a wheel system until the final winner was played.

This kind of game rules is very cruel just by listening to it. No matter how good a person is, he can't make it to the last game. Therefore, even those who can win at the beginning often can't win the final game. After all, they consume a lot of physical energy.

Qin Yuan also sat in the stands below. At this moment, he felt a bunch of eyes staring at him. He followed the eyes and saw that it was the black boxing champion.

The boxing champion at the moment stared at Qin Yuan coldly. He really couldn't see what ability this thin boy had. He dared to say such harsh words and challenge him.

But in the next second, he noticed Qin Yuan's eyes, which revealed the aura of a king.

This kind of look does not look like a deserter at all. He has seen deserters before, and those deserters are greedy for life and afraid of death, so there is no such look at all.

It seems that this kid is quite interesting, so I have to have a good time today.

Qin Yuan also saw Xie Mier sitting below, he quietly changed a seat with the person in front, and then sat behind Xie Mier.

"Look at the situation later, go on stage and fight a few random fights, then come down and watch me perform, and when I beat the boxing champion at the end, you will come on stage and challenge me."

"What! You want to fight to the end and challenge the boxing champion, isn't that crazy?"

"I'm very sober now, you don't have to worry about it so much, just do what I say."

Xie Mier turned his head and looked at Qin Yuan with a puzzled expression. He didn't know what kind of medicine Qin Yuan was selling in his gourd. Could he really beat so many people?

As the whistle blew, the game started, Qin Yuan was unmoved, anyway, let's see how well these players are playing.

There are already people who can't wait to take the stage. I always fight like that. Qin Yuan thinks it is very ordinary. Up to now, he has not seen any opponent that he finds interesting.

He stretched himself, and then slowly walked up to the front stage. When he stepped into the boxing ring, the people around him all boiled up.

Because what he is going to fight now is last week's boxing champion Dako, because the boxing champion did not participate at that time, so he became the champion.

At this moment, the people below started discussing enthusiastically.

"Hahaha, brothers, hurry up and place your bets!"

"Do you think it is necessary to bet on this? This is definitely Dako's win! I have seen him play many games, and this kid is very explosive."

"I really don't know whether to say that this new boy was lucky or how to say that he actually went to challenge Dako."

Then their betting directions were all bets until Da Ke won, but there were still a few people who felt that Qin Yuan was full of self-confidence, and it was very likely that he would turn around.

Dako heard the people around him cheering for him, he enjoyed it very much, and started running in the boxing ring.

Then he gave Qin Yuan a middle finger.

"I heard that you are a deserter, let me tell you, today I will take care of you for everyone."

"I'll make you kneel down and call Dad."

Qin Yuan ignored him and just looked at him coldly.

Until the referee next to him blew his whistle, Qin Yuan rushed over like an arrow on the string, and before Dako could react, he punched him ***** the cheek.

Da Ke immediately defended, but it was useless at all. Qin Yuan's strength was too great. Even if he defended, Qin Yuan still punched him ***** the arm, and he fell directly to the ground like this. A sharp pain in the arm.

The people below the stands were completely stunned. They didn't expect that Da Ke didn't even have the strength to fight back, so they were completely beaten by Qin Yuan.

The people who bet on Dako in the stands below became anxious instantly. After all, Dako lost, and all their money was lost.

Those prison guards were watching the fun, because no matter who wins or loses, it is a profit for them.

"Damn it, you bastard, hurry up and punch!"

"Don't you know how to throw punches, you trash? Or are you throwing fake punches."

The yelling and cursing below became more and more intense, and Da Ke was also very anxious to hear it. He wanted to fight back, but Qin Yuan was much faster than him, and he had no time to defend. He didn't know how many punches he had already received. He was completely dizzy.

"Aren't you very arrogant just now? Let me tell you I hate people who talk nonsense the most. There is a lot of nonsense, but their strength is average."

After Qin Yuan finished speaking, he directly kicked him in the abdomen, and then punched Da Ke's chin heavily, and Da Ke fell from the ring just like that.

And stood up unsteadily, then fell down again.

He couldn't believe that the person in front of him had made him so helpless to fight back. This was simply too exaggerated, and it was even more a shame for his career.

He was the champion last week, but he didn't expect to be defeated like this.

Everyone in the audience was shouting and cursing. After all, there were many people who bet on Dako to win, and they lost all their money.

When Dako was carried off the stretcher, people around him threw down towels and called him a waste.

The scene was really chaotic. If it weren't for the prison guards nearby, they probably would have rushed to beat up Dako.

The referee also announced the victory of this match, Qin Yuan raised his hand, and then he was going to meet the next challenger until he fell down.

Semir, who was below the stage, was also completely dumbfounded.

Chapter 952: must be respected

I didn't expect Qin Yuan to hide his secrets. He looks like a weak person, but he has such a powerful explosive power in the boxing ring.

Just now he has been watching Qin Yuan's offensive moves. His moves have changed too much. He has the shadow of fighting, the foundation of Sanda and boxing, and a little shadow of him before.

Because after all, he is already a mercenary now, and he is very familiar with these fighting moves. He has been involved in all aspects, but he is not proficient.

But Qin Yuan can say that every item can reach the standard of perfection.

The people in the audience were completely excited. They didn't expect such a big reversal in this game whose ending was already doomed.

At this time, a soldier in the audience was very unconvinced. He even wondered if it was Qin Yuan and those prison guards who made fake punches to make them lose the game on purpose.

After all, the mortgage situation at that time was completely different. If Qin Yuan wanted to buy him, he would almost lose everything. Unexpectedly, the situation changed.

"Hehe, kid, I don't care what tricks you play, but today I'm going to challenge you. I want to see if you are really capable, or what kind of tricks you are playing."

"Anything is fine."

When he felt very relaxed, he didn't pay attention to the other party at all. At this time, as the whistle sounded, the soldier simply took off his shirt, revealing his tendons all over his body, and his chest was covered with scars , and bullet scars.

Qin Yuan glanced at the one closest to the heart, which was wounded by an M16 assault rifle. Now M16 is used in a very wide range, but it is mainly some terrorist organization personnel.

The person in front of him had also participated in anti-terrorism, Qin Yuan couldn't help admiring him. Looking at the scars on his chest, it was hard to imagine why he came here. These are his honors. To be honest, he has sold for the country. Life, these things are his gold medals for avoiding death.

"Brother, don't worry, wait a moment, I will be merciful."

Seeing the scars on his body, Qin Yuan couldn't help admiring him, but the other party didn't appreciate it at all.

"Don't talk nonsense, you don't need me at all, I can knock you out in minutes."

Qin Yuan didn't say anything, but looked at him coldly. This time, he didn't make the first move, but out of respect, let him make the first move.

The man made a fighting posture, his left hand hit the front, and his right hand began to throw a heavy punch. He was just testing first.

Qin Yuan easily turned his head to dodge, and at the same time Qin Yuan dodged, his left fist also struck out quickly, Qin Yuan did a backflip and dodged again.

This man's speed and reflexes are really strong, and the man also started to get serious. Why is the man in front of him not like the one in the legend.

The rumors he heard before were that this person was timid and a deserter, but now when he actually fought against him, he found that this was not the case at all. This person was brave, resourceful and agile.

He could only use his best kick. Unexpectedly, Qin Yuan was faster than him. First, he kicked him in the chest with a 180-degree kick in the air, and then punched him in the chest. on the shoulders.

If Qin Yuan made a move normally, this punch should have hit him on the chin, or on the cheek, but he didn't do it because the person in front of him was a hero.

The person on the opposite side was also dumbfounded. He immediately subconsciously protected his face, but he didn't expect that Qin Yuan didn't hit him in the face at all.

"You... why did you attack other places? Didn't you attack my vitals?"

"Because I think you are a hero, so I respect you."

The man was stunned when he heard this. He has been waiting for this sentence for a long time.

To be honest, on such an occasion, he was really moved. After all, the people in front of him treated him as a hero and had the minimum respect for him, so that he wouldn't feel like a prisoner now.

"But even if you say that, our game will continue. Don't hold back. You try your best. This is the greatest respect for me. I want to see your true strength."

Qin Yuan nodded, this opponent is worthy of respect.

Then the man felt Qin Yuan's speed, strength, and his heavy punches that he couldn't receive at all.

He can throw two heavy punches in three seconds, this speed is simply too fast, and he can't catch it at all.

Not to mention attacking, he couldn't even defend. He suddenly understood that the previous people couldn't defend at this speed.

At this moment, Qin Yuan seized the opportunity to turn around and kicked him in the abdomen, and the man was kicked out directly like this. When he was about to fall off the stage, Qin Yuan stretched out his hand to hold him.

Those prison guards in the audience like to watch this kind of time, they like to watch these people being abused and beaten, but there is no picture as imagined, and Qin Yuan actually managed to control it.

The previous captain was very upset when he saw this scene, and he slammed his baton to express his dissatisfaction.

Qin Yuanli ignored him, since it's going to end here anyway, there's no need to be patient with him all the time, he will definitely be able to go out today, this is the belief he gave himself.

After getting up on the ground, he watched Qin Yuan bow deeply. This person is a truly respectable opponent, he knows how to respect others, and more importantly, he knows how to stop.

After the man stood up, he directly took Qin Yuan's hands, "He is the strongest."

The people below cheered even more. Unexpectedly, this new boy won two consecutive victories than the dark horse, and these two opponents were not so easy to fight.

A new champion will be born this week, but some people are curious, what kind of sparks will there be when this champion fights against the boxing champion?

At this time, a prison guard came over with a baton. He was very dissatisfied. What they wanted to see was the scene of being tortured. Why did Qin Yuan stop at this time?

While everyone was cheering, he took the baton and knocked directly towards Qin Yuan. When the man next to him saw it, he turned around and blocked the stick for Qin Yuan. The stick hit the man's calf heavily.

Qin Yuan quickly pulled the man up, what's going on, how could he hit him casually.

At this moment, the man felt severe pain in his calf. He was half kneeling on the ground, clutching his hands tightly, and was beaten to the ground.

"Why do you beat people?"

"4625, pay attention to your attitude when you speak, you must report what you say here, and add the word "officer"."

Qin Yuan stared fiercely at the person in front of him, "Report, sir, why do you beat people? Have we made any mistakes?"

"Because you broke the rules, and we made the rules."

Qin Yuan snorted coldly, he just didn't follow their ideas, so they felt that they broke the rules.

Do you have to watch these prisoners fight to the death? Even if they are prisoners, they still have personal dignity and should not be made fun of by them like this.

"No matter what, we also have dignity. At least we were soldiers before, so we shouldn't be treated like this. Everyone makes mistakes. No one wants to come here, and we hope to get the respect we deserve."

Unexpectedly, the prison guard burst out laughing, raised his baton, and hit Qin Yuan. Qin Yuan caught the baton and slammed it on the ground.

"I advise you not to use violence illegally, otherwise I will counter violence with violence."

"You kid is really out of order, come and get me to control this kid!"

At this time, the prisoners around couldn't stand it any longer. The anger everyone had suffered for so many years also exploded at this moment. After all, someone finally dared to stand up and tell the truth.

"Let him go!"

"Yes, why do you beat people? We used to be soldiers, and we didn't receive any respect at all."

"We're asking for an apology, we're asking to see the warden, we're asking for an appeal."

"I must apologize!"

The squadron leader who was sitting in the seat just now frowned when he saw this situation. The people on the stage are really a shit-stirring stick. After he came, everything happened, and these prisoners were not as easy to control as before. He dared to riot.

He stood up, holding the trumpet, and shouted loudly: "Everyone, kneel down with your heads covered. What are you trying to do? Are you going to riot?"

Taking advantage of this chaotic moment, Xie Mier quietly moved to the back, because his position was relatively forward, and if he had not been on the stage, he would easily attract attention.

Qin Yuan looked at him and said slowly: "We are not rioting, we just want to ask for an explanation, at least give us the most basic respect, respect! Do you understand?"

"It's a bunch of trash like you who still want to respect the people who come here. You made a mistake. Since you made a mistake, you should receive this kind of education, and you should have this kind of status, or even say that you have no status at all. "

Hearing what he said, the man standing beside was a little excited. He pointed to the wound on his chest and said loudly:

"I don't know what mistakes you are referring to. I once worked so hard for that country, and even almost gave my life. These are the proofs, and I still come here now."

In an instant, everyone resonated, and the surrounding prisoners became more and more violent. Seeing that the situation could not be controlled, the squadron leader could only take out his pistol and shoot into the sky.

"I'll talk about this matter later. We're in the game now. The game continues. I will report your requests to the warden."

But Qin Yuan was still unwilling to let go. He knew that this person was using a strategy of delaying the attack, and looking at his eyes, he probably wanted that boxing champion to come on stage later and kill himself.

"What I want is to apologize now, and apologize to this comrade-in-arms beside me now, he is the hero."

When the man next to him heard Qin Yuan call him a comrade in arms and a hero, his eyes turned red for so many years, and finally someone understood him.

Everyone was booing and asking them to apologize, even if they fired guns, it didn't work. It was really hard for the squadron leader to step down at this moment.

After all, they were not ordinary prisoners. They were soldiers before, so they got used to the sound of gunfire a long time ago.

In the end, he had no choice but to stand up and apologize in public, his face was flushed red. This was the first time a prison guard apologized to a prisoner, and he wrote down the hatred.

He stared at Qin Yuan viciously, and he must find a way to kill this kid later, so he won't even think about getting into the ring today.

The squadron leader just now walked directly to the boxing champion.

"You saw it just now, so you know what to do, I don't want to see him step down today."

"It's useless for you to tell me this. I want to know what good it will be if I kill him."

"As long as you can solve him, I will use a medical certificate to release you on bail for three months and live a free life outside for three months."

The boxing champion's eyes lit up when he heard this, three months, this is simply too much for him.

He has been imprisoned here for six full years, and he has never gone out. After three months, it is simply a huge temptation for him.

"I am very satisfied with this condition. I will definitely not let this kid step down alive today."

The squadron leader stared at Qin Yuan viciously, then patted the champion on the shoulder.

"I don't want you to disappoint me."

After Qin Yuan made such a fuss just now, the boxers below somewhat admired Qin Yuan. For a while, no one wanted to embarrass him on stage, so they admired his courage. At this time, the boxing champion went directly to the stage.

After the man saw the boxing champion, he whispered in Qin Yuan's ear: "It seems that he has colluded with the squadron leader, you must be careful, his right fist is very powerful, and then you need to be careful of his legwork. "

This is also what the man has observed through punching for a while, and he knows nothing about other things, so he can only help Qin Yuan do these things.

This boxing champion used his fist to solve many people they wanted to solve for those prison guards. Such a person has become a pawn.

Qin Yuan just looked at him sadly, her fists were the most powerful, but she hit her colleague.

The boxing champion looked at the man just now, pointed at him and said, "The loser get off the stage."

The man just turned his head and glanced at Qin Yuan, a trace of worry flashed in his eyes, and then walked off the ring.

At this moment, Xie Mier was also fidgeting in the stands. Unexpectedly, the situation had reversed. Seeing the size of the boxing champion in front of him, he also broke into a cold sweat for Qin Yuan.

Although he knew that there would be a duel between the two no matter what, it was too soon!

And just now he also saw that the squadron leader whispered a few words in the boxing champion's ear, probably very unfavorable to Qin Yuan.

And Qin Yuan didn't care at all, he just folded his hands and looked at the boxing champion coldly.

"Starting today, the rules here will change and I will be the new champion."

"You son of a bitch, cowhide is too good at bragging. It's really bragging. You don't even look at how many catties you have. I can smash you to pieces with one hand."

"It's not certain who is bragging. Some people are just well-developed limbs and simple-minded, so they are so willing to become other people's pawns. I feel sad for you."

"You are courting death! How dare you say that."

Chapter 953: knock down boxing champion

In fact, what Qin Yuan said was correct, but he said what most people dare not say. Many people have long been dissatisfied with this boxing champion, but there is no way to overturn such rules.

And with the start of their system, even if some people don't want to participate in the boxing match, they are forced to participate in the boxing match and die on the stage.

To put it bluntly, after entering here, life and death can only be determined by others.

Xie Mier in the audience was very nervous. He didn't expect the boxing champion to fight against the boxing champion so soon. He was worried that if Qin Yuan fell down on the stage, he might also be on the stage. After all, he had already signed the competition agreement.

The people below are all talking about it. After all, this match seems to be a huge disparity in strength, because the boxing champion alone is twice as big as Qin Yuan.

And most people have seen the glorious moment of the boxing champion.

"According to me, the kid on the stage is definitely dead. He dared to provoke the boxing champion just now. Does he not want to live?"

"That's not necessarily the case. I saw his boxing style just now. The speed and strength of the punches are great. Maybe he can turn defeat into victory."

"Are you kidding me? They're not both at the same level at a heavyweight. How is that going?"

Everyone is not very optimistic about Qin Yuan, after all, the strength of the boxing champion is recognized by everyone.

In this way, with everyone's discussion, the game officially started.

The boxing champion couldn't bear it long ago, he must press the kid who provoked him to the ground and rub hard.

In this boxing ring, there are no rules at all. He rushed forward quickly, intending to knock Qin Yuan over with his body. What he didn't expect was that Qin Yuan just stepped aside slightly and stepped aside, and even stretched out Foot, a kick on his lower back.

Being kicked, the boxing champion became furious, turned around and hit Qin Yuan.

Qin Yuan was very fast, grabbed his fist, turned over and grabbed his shoulder, and threw him to the ground.

The boxing champion who fell on the ground was completely bewildered. What is the situation? It is unbelievable that he was so easily thrown to the ground by Qin Yuan with such a heavy weight!

What's more important is that Qin Yuan can easily grab his fist, which is completely impossible, and this has never happened before.

The audience in the audience was completely excited, and even the prison guards next to him were stunned. This is too exaggerated.

This should be the first time in their memory that the boxing champion was knocked down.

"I'll go, what's the situation with that kid, he's so powerful, he seems to be stronger than the boxing champion."

"Boy! Come on, let me beat him hard."

"What's your situation? I remember when you bet just now, didn't you buy all the money and win? If this kid wins, wouldn't you lose all your money?"

"It doesn't matter whether you lose money or not. Anyway, it feels good to see that ***** being beaten, and my comrade-in-arms was beaten to death by him before, so it can be regarded as revenge for me."

The boxing champion who fell on the ground quickly got up from the ground and rushed towards Qin Yuan, followed by another heavy punch. Qin Yuan didn't defend, but directly hit his fist, and then hit his elbow position, followed by a kick on the chin of the boxing champion.

"puff!"

The boxing champion spat out a mouthful of blood, and then fell down on the ring behind him. Unwilling, he got up again. As long as he was not knocked down and he still had strength, he would continue to fight.

Xie Mier in the audience was also excited to see it, but he didn't expect this kid to really hide his secrets.

Qin Yuan looked at the boxing champion who charged up again and shook his head. This man is really unrepentant.

"I'm sorry, I take back what I said before. I said before that you have well-developed limbs and a simple mind, but now I find that your strength is as simple as your mind, and you are extremely stupid."

"you wanna die!"

Then he rushed forward and punched Qin Yuan directly in the chest. Not only did Qin Yuan not hide, but he went to meet him.

Just when his fist was about to hit Qin Yuan, he bent down and used his strength to directly push the boxing champion to the bottom of the ring.

If they fell into the ring according to their normal rules, it would be regarded as a loss. Now Qin Yuan doesn't want to fight with him, he just wants to end this boxing match quickly and take Xie Mier out.

But the boxing champion didn't accept it at all. He felt that Qin Yuan knocked him to the ground, which was a provocation to her, because he was like a legend in this military prison.

So in his mind, even if he was beaten to death today, he was willing to be in the boxing ring. At least he proved himself. If he stepped down in such a disheveled manner, how could he stand on the boxing ring in the future?

"Stinky boy, you are just a deserter, what's so good about it, don't hide and come with me to fight hard against earning money."

He felt that Qin Yuan hit him out of skill, because Qin Yuan hadn't really punched him hard until now, and he just used some skillful movements to knock him to the ground.

An older prison guard next to him shook his head. This boxing champion is too clueless. Qin Yuan's strength is much stronger than his. Even if he has skills, it depends on his own strength.

It seems that in today's battle, the boxing champion will undoubtedly lose.

The squadron leader came over, he patted the table beside him, and yelled at the boxing champion: "I tell you, you must win today's match, but I put all the money on you, if you lose, you know what the consequences will be."

The boxing champion gave the squadron leader a vicious look, then gritted his teeth and climbed up again.

Qin Yuan snorted coldly, since this person is looking for death, then I will fulfill him.

As soon as the boxing champion climbed onto the stage, Qin Yuan had already made a quick move. He punched several heavy punches within three seconds, and each punch hit the boxing champion's eye socket heavily.

At this moment, he couldn't defend at all. He only felt that his right eye was blind in an instant, and Qin Yuan's fist was getting heavier and heavier. He could only wave his fist indiscriminately, trying to rely on his own strength to resist, but it doesn't work at all.

The people around were completely stunned, this punch was too fast, and his strength was so strong that when he punched, his muscles with bulging veins could be seen.

What is a mere boxing champion? Qin Yuan has the level of a world-class gold belt, so it is no problem for him to fight against such a boxing champion with his strength.

Qin Yuan kicked him directly in the abdomen, and the boxing champion flew out like this, hitting the ring next to him.

Now he is completely blind in his right eye, and he can't get up again after falling down.

The squadron leader just now was so angry that he yelled at the side. After all, the boxing champion is his cash cow, and he was defeated by Qin Yuan unexpectedly, and judging by the situation, it will be very difficult to get on the ring in the future.

"Stinky boy, you are too arrogant!"

"If you think I'm arrogant, then come up and be equal to me. This is the game rule you set, why just watch us fight each other, come up!"

"It's out of the sky, who am I, you dare to talk to me like this."

The squadron leader saw Qin Yuan's strength, so he naturally didn't dare to go on stage. At this moment, he suddenly looked at the prisoners around him.

"Whoever dares to challenge him on stage now, and directly defeats him, can be exempted from labor for three months."

This condition can be described as very attractive, but everyone is afraid to step forward. Compared with working, most people care more about their own lives.

After all, the boxing champion is a legendary existence in this military prison. Unexpectedly, in just a few minutes, he was directly beaten to the ground by him, and there was no room for fighting back.

Everyone sees this, no matter how high the temptation conditions are, no one dares to step forward.

Xie Mier came to want to stand up, but Qin Yuan gave him a wink. Don't be too anxious now, it will be troublesome if someone sees the flaw.

The squadron leader snorted coldly, "Anyway, you used to be soldiers, show your blood, how about this, I will increase the conditions, he will not have to work for half a year, and I will give him a chance to apply for medical parole."

It is obvious when they are released on medical parole, there is a chance to go out, if their case can be reversed, maybe this is the opportunity to go out.

The people around are starting to move around, this condition is too tempting.

"Brothers, this condition is very good, otherwise I will try it."

"I advise you to think clearly. If it is considered labor here, he will stay for a few years at most. Haven't you seen the strength of that kid's punch? Quanwan's right eye is probably useless, and you still have to go out Opportunity, do you want to become a useless person in the future?"

Everyone listened to what the person next to him said, and fell into deep thought.

At this moment, a voice sounded.

"I would."

The squadron leader turned his head to look, and it turned out to be Shemir. He frowned. He couldn't make decisions about this person. After all, Ames had personally confessed that this person should be treated specially.

But looking at the audience now, only Semir dared to stand up. Besides, he had spoken in front of everyone just now, and if he regretted it now, wouldn't it be too embarrassing.

"Reporting officer, I am willing, but I just want to ask, if I really defeat him, are the conditions you just said really acceptable?"

The squadron leader also has his own wishful thinking, anyway, agree to him now, and then find an excuse to send him to the small black room later, and he is in charge of this place.

And even if this Xie Mier knocked Qin Yuan down on the stage, he could figure out a way later and would not let him go out.

If Qin Yuan knocks him down, it will kill two birds with one stone. In this case, it will be easier to explain to Amus.

He nodded with a smile.

"No problem, as long as you defeat him, I will do what I said, and I will say it in front of everyone today."

Seeing his expression, Xie Mier knew that this guy was definitely making a bad idea, but now he was more willing to believe in Qin Yuan. Qin Yuan's strength really shocked him.

This is also the last time to play with them here, so Xie Mier stepped onto the stage.

But the people around shook their heads, this kid is definitely crazy, he dares to step forward to someone who can defeat the boxing champion.

Seeing Xie Mier coming up, Qin Yuan stepped forward and pretended to say hello, and then whispered in his ear: "We must achieve something later, otherwise I'm afraid they will see the flaw and suffer a bit."

This kind of suffering is absolutely acceptable to Xie Mier, after all, what is it now, it is better than him being tortured in a small black room every day, and there is no freedom.

The squadron leader came over and looked at Qin Yuan coldly.

"Let me tell you, here, don't try to challenge my majesty. Even if you defeat him, I can still make these people challenge you one by one. I'll see how long you can persist."

Qin Yuan smiled and said nothing.

The squadron leader couldn't wait to blow the whistle, and the game started.

Xie Mier was not ambiguous, and directly hit Qin Yuan. He used traditional fighting moves, using kicks and punches.

Everyone in the stands felt that this kid's strength seemed to be on par with Qin Yuan, because the two had a tie in front.

The people in the audience kept booing, after all, this match was really interesting.

"Semiel, hold on, I'm going to get serious."

At this moment, he was shocked, what! It was only now that the real action was taken. He thought that Qin Yuan had already exerted all his strength just now. After all, he had been persevering hard all this time.

As soon as Qin Yuan's words fell, he hit him with a heavy punch. His speed was too fast, and Xie Mier had no time to backhand. He punched him on the shoulder, followed by another punch on the cheek. fell on the stage.

Just when Qin Yuan was approaching him, he suddenly jumped up with a pair of scissors from the ground, and locked Qin Yuan tightly with his feet.

This is just a cooperative play between the two. According to the usual situation, no one can control Qin Yuan at all.

The squadron leader saw it even more, and hoped to shout happily beside him.

"Strength! Just kill this kid, as long as you kill him, I will agree to any conditions."

Xie Mier snorted coldly, there really was no one here at all, in order to kill a person, he would agree to any conditions.

The two kept insisting, and then Qin Yuan suddenly stood up from the ground and then fell backwards, which was the direction where the squadron leader was standing.

Just like that, the two hit the squadron leader directly.

The table behind was also collapsed by the collision of the three people, and the scene was very chaotic.

At this moment, Qin Yuan hurriedly screamed on the ground, and Xie Mier was shocked. This guy's acting skills are too exaggerated.

And the reason why the squadron leader didn't make a sound was because he was already knocked unconscious by the two people. When Qin Yuan fell down, he directly hit the squadron leader's temple hard with his elbow.

The surrounding guards also ran over in an instant, first controlled the prisoner, and then Qin Yuan lay on the ground and yelled, and Xie Mier also covered his head in pain.

"What's the situation? Why did the two fall and hit the squadron leader?"

"Why do you care so much now? Hurry up and send it to the infirmary."

In this way, the three of them were sent to the infirmary together, and Qin Yuan's plan succeeded.

The prisoners next to him were all applauding. When Qin Yuan was carried by the medical staff, there were even people beside him saying cheers.

Chapter 954: escaped

After all, everyone couldn't stand this squadron leader for a long time, but everyone dared not speak out.

Relying on his special status and his status, he doesn't treat these prisoners as human beings at all. He fights and kills when he wants to. Send it to the ring.

After all, these prisoners used to be soldiers, and everyone valued their dignity very much. When they came here, they were completely tempered by him.

The other prison guards were also stunned by this situation. They took out their batons and knocked on the railing next to them one after another, signaling the prisoners to quiet down.

"What's the situation? How could such a high platform hit him in an unbiased way?"

"I don't know about this, but it should be an accident, because the two of them seem to be seriously injured, and the other one has passed out."

"Forget it, no matter so many, send them all to the infirmary."

Qin Yuan didn't expect that Xie Mier's acting skills were even more exaggerated than him, and he fainted directly, but that's good, as long as he can answer the rest of the questions, he will have to deal with the doctor later.

In this way, several people were carried to the infirmary, and the prison guards were the first to say to see the situation of the squadron leader first.

The doctor didn't dare to hesitate, and quickly checked. At this time, he found that his brain was injured, and the entire back of his head was completely swollen.

"He was severely smashed in this situation, and as I expected, he should have a concussion and passed out."

"We know he's passed out, so what should we do now?"

"I don't have any inspection equipment here. You need to go to the hospital to take an X-ray to see his specific condition."

The prison guards had no choice but to carry the squadron leader and walked out, leaving four people on duty.

After all, it is absolutely safe here, even if the prisoner wants to escape, it is impossible.

"Okay, then take a look at the situation of these two people now, one of them has passed out."

The doctor nodded when he heard it, and came to the side of Xie Mier to check his condition. In addition to his facial injuries, he also had a head injury. He must have also been hit and passed out. Then came Qin Yuan.

Unexpectedly, at this time, Qin Yuan suddenly sat up from the bed, and the handcuffs on his hands were opened at some point.

The doctor was taken aback, what's going on? The prison guard next to him was also stunned. When did this man open the handcuffs by himself?

The prison guard quickly pulled out the pistol from his waist, and pointed directly at Qin Yuan, "What are you doing? Put your hands up and squat down with your head in your arms!"

Qin Yuan just smiled, and in the next second, he released his own confusing information. Those prison guards and doctors didn't know what he was doing for a while.

"Take off your clothes now, and dance the three little bears."

These people obediently took off their clothes. Qin Yuan picked up two suitable clothes and walked out. He patted Xie Mier.

"Okay, stop pretending, I've already dealt with them, get up and go."

As a result, Xie Mier, who was lying on the bed, did not respond at all. What happened, did he really knock him out?

Qin Yuan was also very speechless at the moment, he remembered that he did not strike hard, why was Xie Mier also knocked out?

Later, Qin Yuan had no choice but to use silver needles to stimulate Xie Mier, and when he woke up, he looked at himself lying on the bed.

"Well, I'm sorry, I hit too hard just now, I didn't expect to knock you out too."

Xie Mier waved his hand to show that it was all right. After all, it was all to save him, but he was also surprised that he didn't know anything when Qin Yuan came over and punched him.

And when he was wearing a prison guard's clothes at this moment, he was handed another set.

"Don't talk so much first, just change your clothes quickly to avoid other people's suspicion, and then I will take you out."

Xie Mier was very shocked at the moment, how did Qin do it? When he stood up to change his clothes, he saw a few people bouncing around inside, but he didn't expect it to be those prison guards.

"What... what's going on with them?"

"Oh, it's nothing, it's too late to enjoy their dance? We're leaving, I'll just let them dance the three little bears."

Xie Mier's eyes widened, and the way he looked at Qin Yuan at this moment also changed. How did this person do it?

Qin Yuan came to the power room next to him, and there was someone talking and laughing watching Qin Yuan and the others come in three months ago, and felt a little strange.

At this time, Qin Yuan noticed that the person next to him was very close to the alarm. If he was not fast enough, if he pressed the alarm, all previous efforts would be wasted.

The person who was still talking in front turned to look at Qin Yuan and asked, "What's your situation? What are you doing here?"

"Brother, don't be so nervous, relax, we are just sending the prisoner here, and this side is being treated inside, if there is nothing wrong, we will come out for a stroll."

But the man in front of him was very serious, he still didn't change his face, and said loudly: "Please don't get close to me, leave now, this is the electricity, no one else is allowed to come in."

Qin Yuan could only smile, then waved his hands and said, "I know this, it's just that my brother wants to come over for a drink of water, you give us a drink of water, and we'll leave."

"Okay, then you guys leave as soon as possible, otherwise it will be difficult for me to do it, this is a rule after all."

"Don't worry, brother, how could I harm you?"

Then when Qin Yuan took the cup, he suddenly shot at the person next to him.

In just a few seconds, the person who was close to the siren was thrown to the ground by him.

Qin Yuan then grabbed the shoulder of the man who came to fetch the water just now, and fell over his shoulder to the ground. Xie Mier rushed forward to control him, and the other man was also directly dealt with by Qin Yuan.

This speed completely stunned Xie Mier, which can be regarded as his quick reaction. Didn't this guy say hello before making a move?

"I just want to say, can you say hello before you do it next time, so that I can prepare."

"I think your physical response is pretty good. You cooperated well just now. Besides, I don't have time to explain to you."

As Qin Yuan spoke, he opened the elevator in front of him. The wiring here is very complicated.

"I want to know what your plan is. Although you have shown me your strength now, I still want to know."

"Behind this is a power wall filled with 100,000 volts. We destroyed the power here, and then ran out from there. Behind the wall is a cliff. I will take you to jump off."

"How can you be sure you can cut off the power? What if the wiring over there is different from this one?"

"Then we will ***** it from others, but there are guards on other strong sides, so I will solve the guards."

What Qin Yuan said was that it was too easy, and he said that he had already done it.

Xie Mier was in a tangle for a while, he didn't know whether to trust the person in front of him, although he did see his strength just now.

But it may not be so when you go out later. There are prison guards with real guns and live ammunition everywhere, and a 100,000 V special power wall. This is no joke.

"I said, don't you have a specific plan? Why do I feel that these plans of yours are all arbitrary, and you can say what you encounter."

"Hey, you are right. This is my style of doing things. Anyway, don't worry, I will definitely take you out."

After Qin Yuan finished speaking, he directly cut off all the wires on it with a knife.

Then he walked out quickly with Xie Mier. He has been observing here for a long time. The reason why he chose to come to the infirmary is because after he came out of the infirmary, he didn't have to go through the blocked doors.

And their current clothes are their talismans, and almost no one will question them.

According to Qin Yuan's memory, Qin Yuan brought Xie Mier to the front of the power wall. Xie Mier did not dare to go forward for a while.

He was so scared that he hurried away, stepped forward and grabbed him.

"I said, are you crazy? This is 100,000 volts. What if the power is not cut off?"

"Don't interfere with my work, step aside quickly."

Qin Yuan pushed him away, and then tried to touch the wall, but there was still electricity. It seems that the power wall and the power equipment inside are not the same circuit.

"Okay, this time your crow's mouth is right, this power wall is still powered, we can only escape from other places."

Xie Mier was even more shocked when he heard this. He touched the wall just now and knew that there was still electricity. Why didn't the 100,000V electricity fly out? Could it be that he is not afraid of electricity, or is it just his constitution?

Qin Yuan's operation really shocked Xie Mier, so the two came to another wall.

Before the two of them got close to the wall, the snipers on the lighthouse had already pointed their guns at them.

"Which surveillance area are you two in charge of?"

"Brother, don't be so excited. We are here to find a friend. We are in charge of Room 702 in Area C."

The sniper looked again, as if there was nothing wrong with it, then put the gun back and continued to stand on it to observe.

There are seven or eight sentinels in front of them forming a small team, patrolling back and forth.

There is also a light machine gun on duty next to it, and Semir feels that such a defense cannot escape at all.

"Hey, the defense is so tight, how do you plan to get out?"

"Follow me and take you out swaggeringly."

Immediately afterwards, Qin Yuan took out a flying knife from his arms, "Do you believe that I killed that sniper with this flying knife?"

"It's absolutely impossible for such a high altitude. You can't throw it up at all. Besides, if you kill him, there are still these soldiers behind."

"Don't worry about it so much, you should jump on that wall, I'll do it later, you don't care about everything, just rush down that wall, you know?"

Xie Mier was very shocked, but he still nodded, he still planned to listen to Qin Yuan, this person is really too casual.

Originally, Qin Yuan didn't want to kill people. After all, these soldiers were innocent, but under the current situation, he really had no choice but to escape first.

Immediately after Xie Mier watched, he turned around suddenly, and quickly threw a throwing knife out. Without making a sound, the sniper fell down.

"Run now, and the soldiers over there will be handed over to me."

As soon as Qin Yuan finished speaking, he rushed in front of the soldiers.

The speed of willingness was too fast, those soldiers didn't react at all, they were directly thrown to the ground, these soldiers Qin Yuan didn't intend to kill them.

I just want to disarm them and control their actions, as long as Semir goes out, he can go out.

There was a commotion here, and soon the siren rang in the prison. Shemir had already jumped out, and Qin Yuan didn't hesitate. He kicked a soldier on the shoulder and jumped out.

Before leaving, he said hello.

"Goodbye everyone, I will never come to this broken place again."

Then he brought Xie Mier to the cliff he mentioned before. The waves below were rough and beautiful. He was afraid to jump for a while, but someone was already chasing him. Qin Yuan kicked Xie Mier without any hesitation. go down.

"It's hard to do things, don't you see that there are chasing soldiers behind?"

Then Xie Mier screamed from the cliff, and Qin Yuan jumped down quickly. What is there to be afraid of at a height of more than ten meters?

In this way, the two successfully escaped from prison, and Qin Yuan also ran out with Xie Mier, but the two kept floating in the sea, and finally saw a small island.

I have to say that Xie Mier admires Qin Yuan's physical ability very much. He has long been exhausted on the sea, and Qin Yuan took him with him.

"Brother You are really a ruthless person, you just kicked me off."

"Then why not, do I still want to hug you down? It's pretty beautiful."

With his closed mouth, Xie Mier really couldn't chat with this person, and he was very tired now, he looked around, this is a deserted island, what should we do now? If they come after them, it will be troublesome, and they escaped with great difficulty.

"Just wait, don't worry, I've already made an appointment with Eredar, I said that you will definitely be rescued within a week, so she will send a boat to patrol here every day."

Qin Yuan wasn't worried that they would come to him, if he did, he would just fight them back, but Xie Mier didn't think so, what would they do now that they were unarmed?

His throwing knife skill just now was really cool, the sniper was killed by his throwing knife just like that.

Xie Mier admired Qin Yuan very much, "How about brother, otherwise you will follow us after you go out. With this strength, it is not too much for you to be a captain on our side."

"I said, you brothers and sisters, why are you so keen on recruiting people? I've said it many times, I'm not interested."

Chapter 955: Blessing of Merit

To be honest, Xie Mier was still a little worried. He didn't know how far it was from the prison they escaped from, and whether they would catch up with them.

At this moment, Qin Yuan is already considering other plans. If Eredar has not come to pick them up, then he can only build a raft and get out from here.

Qin Yuan stood up and looked at the situation on the island. This small island is relatively large, and there should be a lot of supplies available.

He decided to wait another hour, and if he still couldn't see the eredar's ship, he would just build a raft and go out to sea, otherwise there would be too little time.

Next to him, who looked nervous, Xie Mier smiled and said: "You don't have to be so nervous, do you know how far we have swam? It's almost six or seven kilometers, and they may not be able to chase us in the direction we swam. Come."

When Xie Mier heard this, he was completely stunned, six or seven kilometers, this is too exaggerated, how did he know?

No wonder he was completely exhausted at the end, Qin Yuan led him to swim the whole time, this man's physical strength is too unexpected!

"How did you do it? Your physical ability can be described as miraculous."

"This is not difficult for me, and it's just pediatrics."

Xie Mier didn't know where his sister found such a powerful expert, not only brought him out of prison, but also led him to swim so far, it was simply too powerful.

"Then what's our plan for the next step?"

Qin Yuan told him what he thought just now, although he said that the distance they swam was relatively wide, and the people at the prison didn't know which direction they were heading.

But after another hour, the scope of their search will increase, and it will be a matter of time before they are discovered, so he decided to wait another hour, and then he must go to sea no matter what.

"But you're sure we're only making rafts that we build ourselves, that's just too risky a thought."

"I remember that you were also a special soldier before, didn't you take this kind of basic survival course?"

Speaking of this, Shemir's face was a little red. To be honest, after retiring from the special forces, they formed mercenaries, and then relied on various modern weapons.

It has been a long time since he made a raft like this, so he felt that it was an impossible task.

"When we were training before, everyone could do it. Why do you feel that you can't do it now?"

"I think you are really an interesting person. I guess your identity is also fake."

"Some things, you will know when you go back safely."

At this moment, the prison is in chaos. After all, this is the first time that prisoners have escaped from here since they established the prison.

When they went to investigate, the few people in the infirmary were still dancing together holding hands.

When the warden saw this situation, he was furious. This is what their so-called security personnel had been stripped off, but they were dancing foolishly here. They didn't know what they were doing.

In this escape operation, they lost a sniper.

There will be surveillance at this location. After the warden checks, he finds that he is just a very ordinary prisoner. His face cannot be remembered at all. He retrieved the information of this person, but he did not expect to be a deserter.

The guy who escaped from the battlefield to prison and escaped from prison is really a character.

Not only escaped by himself, but also took Xie Mier away.

Ames was very angry when he found out about this. He didn't expect that he had planned for so long and arranged so many relationships, and he let him run away.

It was definitely his sister who sent someone to rescue him, so Ames directly sent troops to surround their mercenary group td.

Eredar had already planned that every day they would have a team to go out to patrol the sea area that Qin Yuan mentioned before, but at this moment all of them were under control, and there was no way to get out.

When she heard the news that her brother had successfully escaped from prison, she was also very shocked. She never expected that Qin Yuan would actually do it.

The most surprising thing was their captain Tyrannosaurus. Before that, he laughed at Qin Yuan that he would never do it. He probably would put himself in it, but he didn't expect that he really rescued him.

This is simply too powerful, he doesn't know how this person did it, and he was able to rescue him from the surrounding environment.

At this moment, Ames, in Eredar's office, stared at her closely.

"I advise you to explain now, I know that your people rescued him."

"Mr. Arms, I don't know what you mean by that. You also see that there is no one available around me. Besides, I really don't have that ability."

"Stop acting with me. You'd better tell the truth if you escape from prison. It's a felony. If you refuse to obey and we catch him, then he will be imprisoned for life in the future."

Eredar smiled, is there any difference between life imprisonment and now? These guys wanted to convict his brother, but they just made up an excuse.

So now she will not believe these people's nonsense at all.

Eredar raised the cup on the table, took a sip of coffee, and said calmly, "I'm the officer. If I were you, I wouldn't waste my troops here. Why don't you really investigate the situation?" .”

"The more you say this, the more it shows that you have ghosts in your heart. I will definitely stare at you and find out your flaws."

"Then it's up to you."

At this moment, Tyrannosaurus and his team members have already gone out from Congo, and they are going to meet Qin Yuan and the others at sea.

The prison also began to assign a large number of patrol personnel to search. Qin Yuan watched the time go by.

At this moment, Qin Yuan saw a boat approaching in the distance, and he asked Xie Mier to lie down behind the tree and wait for him to observe the situation first.

After the ship slowly approached, he saw that the person standing on the deck was the captain Tyrannosaurus.

He jumped up and said hello, their boat slowly approached, and Semir and he also jumped on board successfully.

Tyrannosaurus was shocked to see that the two of them were unharmed. He felt that he had escaped from the inside. After all, the people inside were all real guns, and fugitives like them could be shot to death directly.

"How did you do it? You really escaped from that devil's camp."

"I generally don't say big words, and I will definitely do what I can say."

Qin Yuan also changed the clothes on his body, and then wiped off the makeup he had painted before, only now showing his true face.

Xie Mier's eyes widened. He couldn't believe that the person who came to rescue him was Qin Yuan. He had heard of Qin Yuan's name before, and this person was very famous.

Not only is he the first person on the killer list, but more importantly, his current training method is according to Qin Yuan's training, because Qin Yuan had been to Yuan State for combat guidance before.

At that time, he was just an external special warfare instructor, and he saw Qin Yuan's training at that time.

He rushed forward excitedly and held Qin Yuan's hand.

"You are my idol. I didn't expect your disguise to be so powerful, and I didn't realize it at all. I'm really sorry for questioning you about something I said to you before."

"Actually, it's nothing. It's just that although you have come out now, you still have to be careful. After all, they are looking for you."

"Don't worry about that, I will never go in again after I come out."

Now the base has been surrounded by Ames' people, so they can't go back for the time being, and the Tyrannosaurus took them to another secret base.

After entering this secret base, Qin Yuan heard the system prompt in his mind. Before that, he had been wondering why he had not reached the merit points even though he had already rescued Xie Mier.

It turns out that the system has to judge that he has completely entered the safe range, so it can determine the success of this mission.

"Ding! Congratulations to the host for completing the task and getting 5000 merit points!"

Qin Yuan is very excited at this moment, and with the previous meritorious service points, he can strengthen his special warfare team after he returns.

Three days later, Ereda transferred 200,000 US dollars to Qin Yuan's account, but Qingyuan felt that this person was a bit stingy, and she brought out his most important person, so she only gave this little money.

Fortunately, he had already obtained merit points this time, otherwise he really felt that it was too much of a loss, and he was a prisoner in there, living with them for a few days.

He will never want to go to that kind of place again in this life, it is too humiliating, especially as they are soldiers, and finally become prisoners, it is simply worse than death.

After Qin Yuan went back, Li Erniu and the others were still training on the playground, and they all ran to meet him when they knew he came back.

It was only later that Qin Yuan found out that Eredar had given them a batch of the latest equipment before, and also sent 20 howitzers.

He Chenguang and the others joked beside him, "Brother Qin, Team Gao told you that next time something like this happens, we must let you go. They are too generous. Just do them a small favor. So much equipment was given directly."

Qin Yuan is suffering at the moment and can't tell what it means to help such a small favor, they don't know what they have experienced.

In fact, they couldn't figure it out until now, Qin Yuan just sniped and killed the target boss for them, why did he send such a heavy gift directly?

Only Qin Yuan knew why, but he admired this woman. She sent this gift in advance, so he was so sure that he would help her.

This person is really unfathomable.

After Qin Yuan came back, he planned to take the members of the red blood cell team for special training. In fact, he wanted to add meritorious service to them. He wanted to find a suitable opportunity, and he didn't know how to do it.

"Brother Qin, what training program do you plan to take us this time? Did you study from abroad?"

"Yes, then we are looking forward to it very much. I want to see what good training methods that group of people can have."

"Actually, this is not their training method, but my own conclusion. I want to see if you have improved after training."

Qin Yuan actually said that it was not a special training method, he just strengthened the usual training, and then added some skills.

He looked at the meritorious value in a daze, and the team members were all training in front.

Is there any specific instructions on how to operate it? He can only try to click on the merit value. Unexpectedly, just after clicking, the merit value will light up, and then an option will pop up.

"The merit points have been activated successfully, please choose to bless yourself or bless others."

Qin Yuan clicked on blessing others, but unexpectedly, an infrared image suddenly appeared in his mind. If he wanted to add merit points to someone, he could just click on it.

This scene is simply amazing. He didn't know how to operate it before, but he didn't expect it to be so simple.

He first clicked on He Chenguang who was standing next to him. At this moment, he didn't respond. He added 1000 merit points to He Chenguang.

"Ding! The merit value has been successfully blessed, the host can click to view it in detail."

Qin Yuan clicked on He Chenguang again, and at this time, he found that a data appeared next to him.

"Strength: 100."

"Physical fitness: 100."

"Shooting: 100."

"Agility: 100."

At this time, Qin Yuan noticed that before the blessing, their foundation was 50, and now it has doubled after the blessing.

In this way, he blessed everyone with merit points.

It can be said that the strength of the red blood cell group is now doubled compared to before.

Now they don't feel much, but after a morning of training, everyone feels that their bodies are a little different.

Wang Yanbing was the first to discover it, because he has always kept statistics on his design level, but he did not expect to break the score this time.

At first he thought it was an accident. Later he found that his eyesight seemed to be better than before, and he could see more clearly through the sniper scope.

Several other people also found that in many aspects, such as physical fitness and fighting reflexes, they seemed to be happier than before.

"Brother Qin, your training seems to be the same as our usual training. Why do I feel that after today's training is over, I seem to have changed."

"This is probably your illusion. After all, I just went to training for a day, so it shouldn't have any effect."

Qin Yuan hurriedly changed the topic, and later he would slowly strengthen their bodies, and then their red blood cell team would become the strongest special warfare team.

And later on, he found that blessings can be carried out according to the specific situation of each person.

He Chenguang is currently in the team as a sniper, so he can improve his marksmanship alone.

Li Erniu is an assaulter, so his agility needs to be strengthened, and these can be individually blessed.

Qin Yuan's heart blossomed with joy, this skill is simply amazing!

Chapter 956: sudden action

This meritorious service is simply too strong, Qin Yuan found that everyone's physical fitness has been improved.

In this way, he doesn't have to worry. What will be improved in the future is the strength of his entire team. He will definitely spread the reputation of the red blood cell team and let those people in the world know that their Yan Kingdom's own special warfare team is also very strong.

Now he is relatively famous, and the team is pretty good, but he feels that this is far from enough, at least like the Alpha Commando in the US before, the Snow Leopard Commando is very famous, and they are all ranked in the top one, two or three.

Qin Yuan also analyzed this situation, because he led everyone to carry out tasks for a long time and a lot of times, but why has he not been famous?

Later, after careful analysis, he found out that because he stole the limelight every time, he did it independently in many cases, so it didn't stand out from others. Besides, what he wanted to strengthen was the entire team, and he alone. If it is strong, no one can see it.

Qin Yuan still led them to train in a calm manner, which can be regarded as slowly adding merit points to them, so that it would not be so obvious at one time.

Later, when Qin Yuan competed with them, he found that Li Erniu's agility had been improved, and all aspects were strengthened according to their specialties.

Everyone saw the effect, and the training was also very active. They all felt that it was Qin Yuan's training method this time that made them improve so much, and they looked forward to the training every day.

In addition, news came from the international side, and I would like to see news reports that the most famous military prison had escaped for the first time in the city for so many years.

Moreover, the jailbreak news also released the portraits of the two escaped prisoners. Qin Yuan and the others need to watch the news broadcast every day, so just after dinner at night, everyone watched the news broadcast together.

When everyone heard that someone escaped from the military prison, they were all very surprised. Qin Yuan was a little guilty at the side, and he carefully looked at the figure on the screen. Luckily, he thought there was some flaw.

And his disguise is absolutely fine, but it's not so easy for Semir, who is now a wanted criminal.

It's just that something is wrong with this situation, because the official death toll is different from Qin Yuan's estimate. Qin Yuan definitely did not attack anyone else. He just killed the sniper at that time, which was a helpless choice.

Now it is reported in the news that the two fugitives not only escaped from prison, but also killed a guard sniper and three prison guards.

This is absolutely impossible? Qin Yuan immediately thought of how these three prison guards died, three people? Could it be the three people who escorted them to the infirmary?

Several people nearby were discussing when they saw this kind of news.

"I didn't expect to be able to escape from the military prison. It is considered a talent with such heavy guards. I really don't know how he did it."

"More importantly, have you seen it? The two of them are unarmed, which is simply too exaggerated. I really don't know those guys, but are the things in their hands a decoration?"

"But in other words, if we are locked in, we really don't know if we can escape. After all, military prisons are not places for jokes."

"By the way, Brother Qin, do you think you can escape?"

Asking Yuan was a little unnatural by this sudden question, he stood up.

"You guys watch first, I'll go to the toilet and see if you ask this question, what can I do? Will I be sent to a military prison?"

Everyone nodded, but did not see Qin Yuan's abnormality.

It is estimated that the three dead opinions reported by them were their own hands. Qin Yuan snorted coldly and wanted to pay the debt to himself. These people are really despicable.

That man named Amus, you'd better pray that they don't meet each other in this life, otherwise, once Qin Yuan catches the handle, this old boy will never be able to escape.

Three days later, when everyone was sleeping soundly, the emergency call whistle sounded, Qin Yuan turned over and jumped up, and the others responded quickly.

Long Xiaoyun and the others also came out, Qin Yuan was a little surprised, what kind of mission was this, and two special forces teams set off together.

Under normal circumstances, the two teams would not carry out missions together, they would carry out tasks separately, so there would be sufficient guarantees, and there would always be people in the team.

But this time the situation looked very different, and then Gao Shiwei walked out with a serious face.

"The task this time is simple and arduous. I will give you an order. There is a war in country y. We have decided to evacuate the overseas Chinese. All countries have already started to act. You should go too."

What Gao Shiwei said was very simple, because the matter was more urgent, and there was a jet lag after all. Although it was three o'clock in the morning on their side, it was just dawn on the other side.

Unexpectedly, even Gao Shiwei was dispatched this time, and a sensational helicopter team set off behind him.

Their speed must be fast. Gao Shiwei was also very nervous, because he didn't know if there would be any problems at the airport, so he specially made two plans.

He also contacted the Marine Corps and asked them to prepare warships and pick them up at the port when necessary.

For this kind of evacuation operation, Qin Yuan has carried out it several times before, and he feels very familiar with it. There is nothing wrong with it, but is there any difference this time?

Gao Shiwei looked solemn, and he said slowly on the helicopter: "This time, the situation in their country is very special, there are opponents, terrorists, and gang members mixed in, and the forces of several parties are entangled. "

"Even so, they dare not do anything to the people of our Yan Kingdom. After all, our national flag is placed there, and our national prestige is also there."

"That's not how it is said now. After all, once a war breaks out, there is no way to know who started it. As far as I know, the embassy of country A was bombed by a plane early this morning."

Everyone gasped when they heard this. These people must have been too courageous to blow up the embassy directly.

This is what Gao Shiwei wanted to talk about. They need to be fast. Now that their own forces are entangled in their city, they don't know what will happen.

Then Gao Shiwei received a message.

"Everyone, the latest news came just now. The embassy of country A exploded, and the 32 staff members inside suffered varying degrees of casualties."

Everyone paid attention to this, this time the situation should not be underestimated, at this moment their Yan Guo embassy has hung their national flag on it, and there is a war outside, gunshots and cannons are everywhere.

The embassy has notified the nearby expats to come to the embassy to gather, but many expatriates are in the stage of war, so they are trapped at home for a while, and Qin Yuan and the others need to be dispatched quickly to rescue.

So this time to be on the safe side, two special forces were sent, and the marines also set off with them, and they decided to act together by land and air.

On the Marine Corps side, Baichuan personally led the team, while the Long Xiaoyun and Qin Yuan teams moved separately, letting some of the overseas Chinese leave first by helicopter and the rest by seaship.

The reason why the situation is so bad this time, the embassies of several countries have been attacked, is because the president of their country was stabbed to death last night.

Hearing this news, everyone was shocked. A country cannot live without a president for a day. Now that the president has fallen and has no control for a while, wouldn't that be chaos?

It is precisely because of this that their speed is even faster. Their own forces are entangled, and the government forces can no longer suppress them. Moreover, there are foreign troops just around the corner, wanting to take this opportunity to attack them.

Because the target of the helicopter is too big, and it is not conducive to concealment in the air, they still parked at the designated airport, and then drove to the bus to pick up Qiaoming.

When Qin Yuan and the others had just arrived at the airport, suddenly a helicopter started quickly and flew towards them.

"I'm going, who is this? Why are you so rampant, dare to fly a helicopter in the airspace of other people's war."

If Qin Yuan read it correctly, it should be the helicopter of country A. After all, something like that happened in their embassy, so it is understandable to be anxious, but it is too risky.

But now they only care about their own expatriates, and everyone didn't delay. They set off immediately. On the way there, they used the horns and played the national anthem, so that the nearby expatriates could hear them and come out to find them.

This time the situation was very different. Most of the expatriates did not arrive at the embassy to assemble, because they heard the sound of gunfire from all over the airport.

Gao Shiwei asked the embassy to send his phone number through the radio, so that they could save people.

I have to say that Qin Yuan's method is also very risky, but Qin Yuan is not afraid of fighting, at worst, he will directly hit the hard steel once.

Immediately after Gao Shiwei's phone rang, he unfolded the map and quickly drew the area. The calls came one after another, all from nearby expatriates. They all needed help, and most of them were trapped at home.

For them, it is impossible for unarmed people to let them get out of such artillery fire, so Qin Yuan and the others can only go to the war zone.

At this moment, there was a loud explosion, and Qin Yuan saw artillery chariots on the ground in the distance, and countless shells hit a place.

Most of the wars they saw before were gun battles or grenades. They didn't expect to use artillery and chariots directly this time. The fighting was really fierce.

Gao Shiwei picked up the binoculars in the car and looked into the distance. If he read correctly, it seemed that a helicopter was shot down in the sky above.

But what is more important at this moment is the safety of the expats. Soon the vehicle stopped outside, and there were already violent gunshots inside. The car must not be able to get in. They need a team to go in and bring the people out.

Because at the necessary intersection, the road there has been completely blown up and vehicles cannot pass through.

A big crater was blown out on the back. I wish that after they jumped down, the crater would be almost as high as their shoulders. Such a deep crater must have been blown out by an autonomous howitzer.

The battle here was really fierce, and they saw a shocking scene after they entered the city.

There were corpses everywhere on the ground, abandoned vehicles, and buildings were burning, and gunfire was heard from inside.

Looking at the corpses on the ground, there were civilians, some in camouflage uniforms, and some people who didn't know what kind of clothing they were wearing.

Long Xiaoyun and Qin Yuan split into two teams, they were in charge of the building on the left, and Qin Yuan and the others entered the building on the right.

After arriving at the designated place, Qin Yuan and the others found a family of four, and told the man in front of them that there was still a family living there. I don't know if they had retreated, because the communication was completely cut off now, and he wanted to contact him, but contacted him. less than.

Qin Yuan asked Li Erniu to take them back first, and he went up to see for himself. The center stage of the artillery fire was in front of him. He moved forward quietly and saw the soldiers who were shooting.

He Chenguang also stepped forward, and he stared vigilantly at the front, the two sides fought fiercely.

At this time, He Chenguang patted Qin Yuan and pointed to the front window.

The national flag of Yan State was pasted on the window, which meant that there were expatriates inside. This time they issued an order not to shoot unless they could, because there were too many mixed forces inside.

Qin Yuan planned to go around from the alley at the back, Qin Yuan and the others were very secretive in their actions, and the two groups were only focused on the battle and didn't notice what was going on behind them.

When they came to the building, Qin Yuan took a few steps back, then swooped down and jumped directly onto the window sill on the second floor.

He nodded towards He Chenguang, and He Chenguang also planned to rush once. If he had jumped onto the building in front of him as before, he would have been reluctant enough. Unexpectedly, after Qin Yuan improved his strength this time, he would also Barely reached the window sill on the second floor.

At the critical moment, Qin grabbed her, and lifted him up, He Chenguang was surprised and delighted, he never thought that he could jump so high.

"Not bad, boy, this period of training."

He Chenguang was very happy, and Qin Yuan was also very satisfied. He needs a lot of merit points now, and it is estimated that he will have a certain amount of merit points for rescuing Qiao Ming this time.

The two continued to climb up to the top. The overseas Chinese were located on the seventh floor. After a while, the two came to the balcony, and Qin Yuan knocked on the window towards the inside.

The overseas Chinese were taken aback by the movement outside, but then Qin Yuan explained in a low voice that he was a soldier of the Yan Kingdom.

He Chenguang put down the rope at the back. Now they definitely can't go out through the main entrance. If they go out through the main entrance, they will definitely collide with the people just now.

The people inside were very excited when they saw Qin Yuan. They rushed out and hugged Qin Yuan tightly. This is a beautiful woman with blond hair.

Without saying anything, Qin Yuan took off his helmet and asked her to put it on.

The main reason is that her yellow hair is too bright. If she wears a helmet, it can be regarded as concealment for her, preventing everyone from being exposed.

Chapter 957: losing contact

The blond beauty felt very moved, she thought Qin Yuan was caring about her.

"By the way, do you know if there are other expats around here?"

"I'm not sure about this, but it should be gone. I live here now, and there is a family in front. I saw that you seem to have saved him just now."

Qin Yuan nodded, there was not much difference from the number they called just now, and now they are looking at Long Xiaoyun.

However, there should be no problem with Long Xiaoyun, because Long Xiaoyun's side is close to the outside, not in the center of the war. Qin Yuan's current position is where the real battle begins.

A few of them had just put down the rope and were about to go down from behind when suddenly a shell hit the building on their left, and the building next to them collapsed in an instant.

The blond beauty just now was so frightened that she was about to scream loudly, but Qin Yuan quickly covered her mouth with quick eyes and hands.

He made a silent movement to remind everyone to be vigilant.

This situation should not have been discovered, their movements are so careful, it should just be the case of the shells being shot crookedly.

But everything is possible, everyone stared at the periphery vigilantly, worried that there would be another cannonball, after all, the position of the cannonball was too close.

Qin Yuan, who was flying around, hugged the blond beauty tightly and protected her under his body, so he didn't suffer any injuries.

A few minutes later, the shells hit another place. Thinking that it was just an accident, he quickly greeted everyone, quickly retreated, and left here.

When Qin Yuan and the others came out, they waited for a while, and Long Xiaoyun also came out with four or five people. The overseas Chinese here had been completely rescued, and they needed to rush to the next place.

The rescued expatriates were arranged on the back bus, with Qin Yuan and his car leading the way.

The blonde beauty just now kept yelling that she didn't want to get on other vehicles, and she wanted to stay with Qin Yuan.

"This is a special situation now, you must obey our arrangement, don't mess around!"

Looking at the people in front of him, Long Xiaoyun was really angry. It was such a chaotic situation, it was not easy to rescue them, and he took a big risk, but he even played something Miss temper.

"I don't care, because I don't trust you, I only trust him."

After the blond beauty finished speaking, she pointed at Qin Yuan. Qin Yuan also looked dazed, he didn't know what was going on.

"You have to trust all of us, and all of us are together, this is the safest, and my place is the most dangerous."

"I don't care, I want to be with you anyway."

"Miss, please obey our captain's arrangement, it's also for your own good."

Several other people stepped forward to persuade her.

Long Xiaoyun snorted coldly, she is the best at dealing with such a hypocritical person, anyway, their men are not easy to do, so she did it directly, directly picked up the blonde beauty, and threw it into the back of the bus superior.

This scene completely stupefied the people next to him. The speed was fast enough, without any hesitation, he threw them on the bus, and then closed the door, all in one go.

"I said, you ask a few men to do things, and they are just like a woman. Can you just throw it in the car?"

Everyone nodded in embarrassment, Long Xiaoyun's temper is well-deserved.

In this way, the convoy continued to set off, and they rescued some expatriates along the way. Looking at the number of people in the car, they could send them to the embassy first, and then arrange a helicopter to evacuate them.

Qin Yuan and the others had carried out this kind of evacuation mission before, and it seemed to be quite smooth.

Only at this time, a bad news came from the walkie-talkie. It turned out that Gao Shiwei had received the news that there was a terrorist attack and explosion at the airport.

Knowing which side it was, they actually attacked them at the airport. This is simply too bold. After all, all the people who came to the airport were troops who came to evacuate overseas Chinese.

But those terrorists, their armed forces are also very strong, and the two sides entered into an anxious battle for a while.

So Gao Shiwei temporarily decided to take these people to the port first and arrange them on the warship.

This is also the most dangerous situation they encountered in the evacuation operation, because even if there was a civil war before, no one would attack the airport.

I don't know what these terrorists are thinking, they just want to completely stir up trouble.

Qin Yuan and the others went back to the embassy, picked up the people together, and then went to the port together. The road to the port is relatively long, and it takes an hour and a half.

Gao Shiwei was also in the car, and he stared at the map with a serious face. This road is not easy, after all, because of the war and the large-scale weapons they used.

The road was full of potholes, and many big Joes were directly blown off, so they could only choose to take a detour. The original plan was an hour and a half, but now they don't know when they will arrive.

The bridge in front was blown up, so they could only take a detour through the mountains behind them. This detour took more than an hour longer.

At this time, an armed force was approaching them in the distance, Gao Shiwei ordered to speed up, and then hung the flag of Yan Kingdom.

The armed forces here are too complicated now, and they don't know which party organizes that force, anyway, they try not to provoke them.

What they didn't expect this time was that they speeded up, and those armed groups also speeded up. They drove three off-road vehicles and quickly approached them.

Gao Shiwei frowned. They should be able to see their national flag at this position. Why are these guys still chasing after them?

Long Xiaoyun and the others were the rear convoy. She stood behind and observed the people on the off-road vehicle. She suddenly turned pale and shouted: "Quick! Turn the steering wheel to the left."

The driver didn't hesitate, and turned the steering wheel directly. In an instant, a rocket exploded directly next to them. If Long Xiaoyun hadn't ordered it in time, their vehicle would have been hit just now.

Unexpectedly, there was an attack on the convoy. Everyone was very nervous, especially the expatriates in front. They had hit this kind of situation before.

How is this going? Didn't they see our flag hanging out? How dare you touch us.

Qin Yuan led the convoy around, and there were also some guards inside the embassy. Qin Yuan asked Long Xiaoyun to send the overseas Chinese to go first, and he came to stop.

"Qin Yuan, be careful, these guys are not friendly, and they dare to attack us when they see our national flag."

"Don't worry, I'll take care of these people. You take them to retreat first. I'm more at ease if you're here."

Long Xiaoyun nodded, now the overall situation is the most important thing, and she also believes in Qin Yuan's strength, and then she will bring the small team to protect the overseas Chinese and retreat first.

Qin Yuan's eyes are full of anger now. These guys are completely provocative. Seeing their national flags and their logos, they dare to do anything.

Li Erniu couldn't bear it long ago. After hearing Qin Yuan's order, he threw a grenade over.

And Qin Yuan even jumped out of the car window, and then rushed towards those convoys.

In the eyes of those militants, this is simply the behavior of a lunatic. This man is desperate. The boss of the front team quickly ordered everyone to shoot at Qin Yuan.

Qin Yuan's movement was very flexible, he kept shuttling and rolling on the ground, dodging those bullets, seeing that the timing was about right, he quickly threw the flying knife, the driver in front was directly pierced through the glass by the flying knife, and then shot Throat hit.

After the driver fell down, the vehicle lost control, hit the big rock next to it, and exploded.

However, many militants jumped out of the car and quickly fought back, but Qin Yuan didn't give them this chance. He rushed forward with an assault rifle in his left hand, and directly killed those people.

The boss who gave the order just now saw this terrifying scene, and stared at the boss, what is going on, this person is so strong that he can dodge bullets, this is too exaggerated.

When Qin Yuan didn't know which side they were in, but the firearms they used were relatively good.

These people were no match for Qin Yuan and the others at all. Those who were chasing Qin Yuan and the others just now were beaten and fled. The boss had already ordered to retreat.

Li Erniu and the others' eyes were red from beating at this moment, how could these guys let go of their majesty who provoked them so much, and with the blessing of Qin Yuan's meritorious service before, their body skills became more and more sensitive.

A small team cooperated very tacitly. After discussing like this, all the militants on the off-road vehicle were dealt with by them, and two or three people jumped out of the vehicle and fled.

He Chenguang snorted coldly, took a sniper rifle, and shot the man next to him in the calf, and Qin Yuan quickly shot the man next to him in the shoulder.

The two fell to the ground because they were shot, Qin Yuan and the others also stepped forward, and he looked down at the two of them.

"See clearly, what kind of sign is on my body?"

The lips of the person lying on the ground were white, and the calf was bleeding continuously.

"Look... see clearly!"

"See clearly, if you still dare to attack us, then I think you really don't know the heights of the sky and the earth."

"It's not our fault, we are all following orders."

The militants lying on the ground hurriedly explained that they belonged to the opposition army inside, and Qin Yuan couldn't figure out their specific classified camp anyway.

But what he was interested in was what this person said. The order from their boss was to hunt down and kill people from any side they saw, just to stir up all troubles.

"Brother, we don't want to do anything to you either. We know your power, but we can't do anything about it. This is a death order from our boss."

"Then there is no other way, I can only say that you will meet a good boss again in your next life."

After Qin Yuan finished speaking, he was about to pull the trigger. At this moment, an armed man lying next to him hurriedly said loudly: "Don't kill me, I have another important message."

"Oh, then I want to see if your news is worth your life."

"Our opposition forces have united with the terrorists on the periphery. They want to blockade the port, and they have already rushed to the port."

what! Hearing this news, Qin Yuan was shocked.

"How many are there in all?"

"There should be more than 400 people from both of us...they..."

Before this man finished speaking, Qin Yuan finished him with two shots, and then everyone quickly got into the car and rushed towards the port.

There is no need to be merciful to these militants. If Qin Yuan and the others hadn't put their strength here just now, they would have been the ones who died.

Qin Yuan hurriedly reported the news to Gao Shiwei. Gao Shiwei and the others had already arrived halfway. Hearing the news, he quickly ordered to wait for Qin Yuan and the others.

"Captain Gao, hurry up and contact Dragon Corps to see what's going on with them. A team of more than 400 people is not a small number, and they are also carrying heavy weapons."

"Okay, we are waiting for you in front, the gap with you will not be too far, you catch up as soon as possible."

"Yes!"

Gao Shiwei did not hesitate, and quickly notified Long Baichuan and the others, but he tried to contact them, but found that they were disconnected.

what's going on? A bad premonition ignited in his heart.

After repeated several times like this, they still can't contact Long Baichuan. This is absolutely impossible. Their communication equipment is specially made, and there will be no such thing as losing signal. There is only one possibility. The communication equipment is blocked. People are broken.

It's not because he is frowning now, the situation this time is more complicated than he imagined, the airport is also full of fights, and the same situation happened when he didn't get to the port, and there are so many expatriates behind him.

Qin Yuan and the others also caught up, and Gao Shiwei told him what he had learned. It is very likely that there has been an accident at the port. What is the specific situation of Long Baichuan and the others now, they need to hurry up to port.

"These terrorists are too arrogant. They openly provoked them. This is simply provoking the dignity of the world!"

"I can't control that much now. Besides, even if people from the world are sent here, it's already a mess. It's too messy."

I don't know what the current situation is at the port. Gao Shiwei can't take these expatriates to take risks.

It was Qin Yuan who took the red blood cell team to the port to check the situation, and Long Xiaoyun took his team members to hide here.

Protect the safety of the expatriates first, and wait for Qin Yuan and the others to report what happens after they go to the port.

"No, it would be too risky for you to go alone. I'll go with you."

"Xiaoyun is not the time to be impulsive. The safety of these expatriates is the most important thing now."

"Yes, I know this, so I go to the port, and you stay to protect the expatriates."

Everyone knows that going to the port is definitely the most dangerous, and both of them are thinking about each other.

Chapter 958: There is a bomb under the warship

"Xiaoyun, don't worry, I'm sure it's okay to go to the port, and now this is the most important thing. I'm most assured of the safety of these expatriates in your hands."

"But you just take them there. It's too dangerous over there. As you said just now, there are more than 400 of them."

"I'm going because it's dangerous. Have you forgotten? The difficulty of the tasks we usually perform is comparable to this."

Long Xiaoyun wanted to say something, but Gao Shiwei was already urging them to make a plan as soon as possible, mainly because Long Baichuan had been unable to contact Gao Shiwei, and Gao Shiwei was also very worried.

Long Xiaoyun was really worried, so he sent two members of their commando to participate in the operation with Qin Yuan and the others.

Because after Gao Shiwei came this time, he also brought a security squad, and there was also a security team member in the embassy, and then adding Long Xiaoyun should not be a big problem.

In this way, everyone started to act separately, Long Xiaoyun and the others were on this side to ensure the safety of the overseas Chinese, and Qin Yuan went to the port to check the situation first.

"Qin Yuan, you must pay attention to safety, I will wait for your news."

"Don't worry, I'll be fine."

After Qin Yuan finished speaking, he set off with the members of the red blood cell team. It was still seven or eight kilometers away from the port, but it was extremely quiet there, and no sound could be heard.

The more quiet it is, the more something is wrong in Qin Yuan's heart. Now there are wars everywhere in the city, and the sound of guns can be heard everywhere, but the port is very quiet.

At this time, Qin Yuan suddenly saw a burst of black smoke and flames rising in front of him. Qin Yuan made a gesture to remind everyone to be vigilant, and then slowly approached the place of black smoke.

After everyone approached, they realized that it was the helicopter from country A. They still remembered that when they just arrived at the airport, they saw the helicopter from country A departing directly.

At that time, Li Erniu complained in a low voice. He felt that these people were too arrogant. After all, wars are going on everywhere now, and they dare to directly control the helicopter. Isn't this exposing the target?

Sure enough, now their helicopter has crashed, and the pilot inside is already dead.

"It seems that the situation this time is even more serious than we imagined. Country A is also relying on these terrorists not to dare to do anything with them? It's just that he didn't expect these people to be so insane, and they came directly to kill them."

"These bastards, anyway, if they dare to attack us, our Yan Kingdom will definitely not let them go."

Several people continued to set off again, their speed was very fast, because time is life now, half an hour later, they arrived at the port, what happened along the way, what happened to them, and when they arrived at the port, they were instantly taken aback.

The surrounding area of the port is already full of troops, and the first few defenses are all heavy fire weapons.

The port has been controlled by them. At this time, Ye Feng saw that their warship was also leaning against the port, but he couldn't see anything else.

These people are too rampant, they actually dare to attack their warships.

Li Erniu couldn't bear it anymore and wanted to rush out to fight them, but was pressed down by Qin Yuan.

"Now is not the time to be impulsive. Wait a minute, everyone. Dragons are not weak against them. How could they be controlled so easily? There must be something tricky about it."

"But our warships are all built here. Doesn't that explain the problem? It must be the Dragon Squad. They have been hijacked. It is important for us to save people now."

"I know this for sure, but their numbers have a certain advantage, and if the Dragons are really in their hands, then we have to be cautious."

Li Erniu sighed and nodded. Qin Yuan told them to stay here first and pay attention to vigilance. He planned to touch them quietly to have a look.

Because the port here is very large, although the armed terrorists here have quit smoking in the port, there is no port around, and there are still some small reefs, which he can use to lurk underwater.

As soon as he got into the water, he received a notification from the system in his mind.

"Ding! Rescue the marines, and get 1000 merit points for each one rescued!"

"Ding! Rescue the internal hostages, and get 800 merit points for each one rescued."

The system has reminded him like this, the matter is really not simple, and he didn't make it very clear about rescuing the hostages, but he is sure that there is absolutely no brigeman in them.

Because the embassy has registered all the expatriates here, except for those who have already retreated before, and now they have brought the expatriates with them, the number is already correct.

Qin Yuan didn't know what was going on, anyway, he went over to have a look first.

He was like a fish in water underwater, and he was unaffected. He slowly dived underwater to the position of the warship. There were two militants standing on the deck of the warship.

The weapons they held in their hands were the latest submachine guns. These weapons were powerful firearms. Qin Yuan could only go around to the back, intending to quietly climb onto the warship from behind.

The warship is very large. Even if these militants are arranging patrol personnel, it is impossible to have no dead ends.

Just like that, Qin Yuan had already touched the warship, and it was silent. At this time, the voice coming from inside the warship was Long Baichuan. He seemed to be negotiating with those militants at this moment.

Qin Yuan touched the window, there were no patrolling personnel here, he looked quietly, there were many people inside, surrounded by militants with weapons, Long Baichuan and the others were detained in the middle, and the weapons had already been handed over to the front and piled up.

There are quite a few civilians beside them, but looking at them like this, they are not from their country, they all look like foreigners.

"I think you should know which team we are! I am not threatening you now, but telling you that it is best to leave our warship and let these civilians go."

"Sir, what a powerful official, you are now a prisoner, do you know that?"

"You are too courageous, you dared to move our army of Yan Kingdom."

"Haha, what is your country of Yan? If it weren't for the differences we had before, your embassy would have been blown up by us long ago."

"You are too courageous to do this, are you really going to be an enemy of the world?"

The militant snorted coldly and said nothing more, telling Long Baichuan to be quiet. They had even bigger plans.

This time, they took advantage of country y to cause riots, and then directly provoked a war. The reason why they came to the rescue and these civilians was to make things more and more chaotic.

They don't care about the life and death of these civilians. What they value more is their interests, and they have gained benefits in this war.

Long Baichuan shook his head. Speaking of which, they also felt careless. Just when they were about to approach the port, the communication was interrupted suddenly. He didn't know what was going on, so he hurried to get someone to check.

It turned out that someone had directly hacked into their system. Such a master hacker is really rare, because they use military codes, and it is generally difficult to hack into a military system like this.

After their communication was controlled, please follow them, and went straight to the bottom of the water, and planted bombs under the warship, using this to threaten Long Baichuan and the others.

In addition, they also have civilians from other countries in their hands, and these people are their hostages, so Long Baichuan and the others have no way to be arrested.

At this moment, Long Baichuan raised his head and just saw Qin Yuan at the window. He didn't expect this kid to lurk in.

I have to say that their speed is quite fast. Long Baichuan raised his head and quickly communicated with Qin Yuan. Qin Yuan made a gesture to reassure Long Baichuan that he will take care of himself.

What Long Baichuan was more worried about at the moment was that Qin Yuan didn't know about the bomb planted under the warship, which was more difficult, but it was because of this that they were caught by these people.

Qin Yuan didn't know it at the moment, so he counted the militants inside, there were 25 people inside, there were a few people standing on the deck, and there were people outside, they were indeed quite a number.

After understanding the situation here, he decided to go out and discuss with the team first. This must be done internally and externally. If someone wants to deal with the people inside the warship, then the people outside must also deal with it.

Just like that, Qin Yuan went into the water quietly again, and when he was going into the water, he was heard by a patrolling person, and that person walked over to have a look.

"That's strange, did you hear the sound of something falling into the water just now?"

"No, maybe you heard it wrong. Besides, there are our people outside, so don't make a fuss about what happens."

"All right!"

Although the man said so, he still stared at the water tightly. If it was a human being, he would definitely not be able to hold it for long.

Until four or five minutes passed, there was no movement at all, he shook his head, it seemed that he was indeed wrong.

At this moment, Qin Yuan had already swam to the reef just now, and quietly landed from there.

When He Chenguang saw Qin Yuan coming back, he gestured to the people behind him.

"Brother Qin, how's the situation inside?"

"The situation inside is a bit complicated. The Dragon Squad and the hostages are inside the warship, and there are also patrolling people on the deck outside."

"This group of ***** are really daring, they really dare to attack us."

"That's what makes me weird. Just now, that person was very arrogant. He said that if he didn't have a disagreement with someone, he would also attack our embassy. But I think the dragon team is even more strange."

He Chenguang immediately realized what Qin Yuan said. What he meant was that the dragon team could be caught by these people so easily, and they would resist no matter what.

They were not too far from the port, and at that position just now, if there was a gunshot, it would definitely be heard.

So it means that the dragon team was controlled by these terrorists without firing a single shot, but this is impossible. It is absolutely impossible for their marines to be so weak.

Qin Yuan also fell into deep thought. He felt that the problem here was definitely not that simple. Wang Yanbing watched the passage of time, and he was a little worried.

After all, these guys can do anything, they don't ask for anything now, and they kill people without blinking an eye. If Long really has something wrong with them, it will be troublesome.

It is very abnormal that these people kidnapped these civilians without knowing what the meaning was, and they did not ask for anything.

According to their previous experience with those terrorists, they usually kidnap civilians, and they will make demands, either for money or how to escape.

But it doesn't look like they are like this, after all, their troops here are very sufficient.

So everyone must hurry up before delaying, Long Baichuan and the others are really very dangerous.

Qin Yuan looked around and could only make a decision first. They rescued the people on the warship first, that is, they saved the people on the warship first, and then drove the warship away, or used the warship to fight back.

After all, there are too many people on the periphery, and they all have heavy weapons. These heavy firepower are completely suppressed for them.

Everyone agreed, but now there are still two hours before it gets dark, Qin Yuan decided to wait until after dark to act, he is fine, it is not a problem to dive completely in one breath.

But the other team members definitely can't do this. Although they use their merit points to strengthen them now, even if this situation lasts for four minutes at most.

The time of four minutes can only be halfway through, and then the enemy will be discovered by then, because they need to come up to take a breath. If it is said that it is night and the line of sight is blocked, it will not be so easy.

Qin Yuan planned to go there again to check the situation, and he was also a little worried about Long Baichuan's current situation.

This time, just as he was about to go into the water, he found a figure hiding on the reef, and it was their military uniform.

He quietly walked over to and saw a soldier covered in blood, and he also knew this soldier, it turned out to be Jiang Xiaoyu.

Qin Yuan rescued Jiang Xiaoyu ashore, and at this moment he has already fallen into a coma.

He treated him carefully, and soon Jiang Xiaoyu woke up, the blood on his head had completely stopped, the first time he opened his eyes, he touched his waist, because his gun was right there.

But when he saw someone he was familiar with, he instantly relaxed.

"Little fish, what's going on? Why did the dragon team get caught?"

"Captain Qin, it's really kind of you to come, mainly because those people are really despicable, so you should be careful."

"You Marines can't say that they were caught by them without firing a shot."

"That's because they planted bombs under the warship. These people are very good at water. We didn't even notice when they approached the bottom of our warship."

what! Hearing the news, everyone was shocked. They didn't expect it to be like this, so this can also explain why the Dragon Team and the others were caught without a fight.

Chapter 959: defuse the bomb

Besides, so many hostages were threatened by them, Jiang Xiaoyu began to talk about what happened at that time.

He was also curious about this, because their warships had radar facilities, and if something approached, they would definitely be able to detect it.

The strange thing is here, after they approached the port, these people rushed out suddenly, at that time Long Baichuan ordered to prepare for battle.

But before they could shoot, a boss inside came out and watched Long Baichuan raise a remote control in his hand.

At that time, Long Baichuan didn't know what was going on, but the boss directly said that they had planted bombs under the warship. Only then did Jiang Xiaoyu see it, and several people crawled out from the water.

This is simply too exaggerated, why their radar didn't detect it, Long Baichuan thought it was probably a bluff, because he believed in their equipment very much.

But in the next second, he was speechless, because their entire control system was completely paralyzed, and even the communication equipment had problems. Someone had invaded their system.

I didn't expect the other party's hacking skills to be so superb.

This was beyond Long Baichuan's expectation, that he was able to hack into their military system.

That's why Gao Shiwei couldn't get in touch with Long Baichuan and the others later on, because they were already under control just after they arrived.

In addition, these militants still had those civilians in their hands, so everyone was driven to the warship, and Long Baichuan didn't know what they were going to do, because the robbers hadn't made any demands since they were kidnapped.

Jiang Xiaoyu took advantage of the previous chaos, and then quietly jumped off the warship, but his position into the water was not very good.

In order not to be discovered, he kept diving to the bottom of the water, but he couldn't hold back any longer. He was hit by the waves as soon as he emerged, and hit the top of the reef, which is why the scene just now happened.

Unexpectedly, he happened to meet Qin Yuan. Jiang Xiaoyu's wound was not a serious problem. After Qin Yuan's treatment, he could go into battle.

The pistol at his waist was also washed away during the dive just now, Long Baichuan and the others also covered Jiang Xiaoyu's dive, mainly to let him go out and report, because there was a bomb under the warship.

At this moment, Long Baichuan was fidgeting inside the warship, he didn't know if Jiang Xiaoyu had met Qin Yuan, or if Jiang Xiaoyu had encountered any danger.

At this moment, Qin Yuan could only change the battle plan first, but he didn't expect that there was a bomb under the warship.

This is the biggest security risk, and he seems to have understood the purpose of these terrorists, because they will also retreat to this side, and he will take this opportunity to send all of them to the warship.

Anyway, they can threaten with bombs, plus Long and Baichuan, they have already become hostages.

If they wait until they actually get on the warship, they will be very passive and completely reduced to fish.

"Brother Qin, what shall we do now?"

"The situation has changed now, and our plan has to be changed. It seems that we won't be able to wait until dark. I'll go down first and dismantle the underwater bombs. After removing this potential safety hazard, you will follow me."

Li Erniu and the others all said that there is no problem, this is the most feasible way at present, and if Qin Yuan goes down alone, he will hardly be found.

Jiang Xiaoyu saw that his team members agreed, and was a little surprised. How could the captain go alone? Besides, what happened to the underwater bombs, it was very risky to defuse them underwater.

"Captain Qin, I still want to clarify some things with you. I don't know if you have ever been exposed to underwater bombs. Do you have any experience in dismantling them?"

"I know you have such worries, but don't worry, I think it's a piece of cake for me to defuse bombs without any problems."

Looking at Qin Yuan's confident face, Jiang Xiaoyu didn't know what to say.

He has indeed seen Qin Yuan's ability, but this time the situation is different, it is really dangerous, if there is any mistake, the people on the warship that caused the explosion will be completely finished.

He took a closer look. Qin Yuan didn't bring any equipment, so he planned to dive directly into the bottom of the water like this? This is simply exaggerated.

As a member of the Marine Corps, his highest diving record can only reach three and a half minutes. Is Qin Yuan planning to go over there in one go?

The main reason is that the incident happened suddenly and they did not bring oxygen equipment.

There was no time to waste, Qin Yuan asked the others to observe carefully, and he quietly dived into the water from the position just now.

What Jiang Xiaoyu wanted to say was pressed down by He Chenguang behind him.

"No, you just let him go, he didn't even carry an oxygen cylinder, how long can he be underwater, let alone bomb defuse!"

"Just calm down for a while, brother stay here well."

"I think you're all crazy, this is nonsense, it's absolutely impossible."

The few other people didn't bother to explain to Jiang Xiaoyu, because they knew that Qin Yuan's ability was lurking underwater, and this was definitely not a problem.

At this moment, Qin Yuan had already swam to the bottom of the warship, and he could hear the voices on it.

He grabbed the bottom at this time, and he saw the bomb below. He didn't notice it when he came just now.

Originally, he wanted to dismantle it directly, but after thinking about these things, since they were gifts from them, how could they be so wasted?

He just removed the time bomb from the warship, but didn't completely destroy it.

At this moment, the terrorists on the shore have also dispersed. They seem to be preparing to set up a defensive position in front. This scene makes Qin Yuan somewhat incomprehensible. If it is just to prevent their team, there is no need to do such a large project.

Qin Yuan took the opportunity to go ashore quietly, killed a person patrolling behind, and then changed into his clothes behind.

He now needs to figure out the motives of these people, and more importantly, these bombs are still useful.

At this moment, Qin Yuan came to the front position wearing a black mask, and all the heavy weapons were already in place.

He looked at the two soldiers who were busy in front, and stepped forward to help.

"Brother, what's going on here, why did you suddenly set up a position?"

Those two people looked at Qin Yuan with strange faces.

"Did you not pay attention to what the boss said just now? Get ready, a big battle is coming soon."

"Ah, how did this happen? Just now our captain asked me to deliver things on the warship, so I didn't hear what they said."

"Oh, so that's the case, then I'll tell you, anyway, be prepared, the people from the government army are going to fight over."

Before Qin Yuan could ask, the person next to him sighed.

"It's not because we hijacked a warship of the Yan Kingdom army, it's going to be a big trouble now."

"Oh, there is such a saying."

"That's right, because the Yan Kingdom helped our country at that time and extended a helping hand, so everyone remembers their kindness, and there is nothing we can do about it, after all, this is what we do."

Listening to these two people saying that Qin Yuan also understood, it turned out that the government army received the news, so they came to support, it seems that this means that there are also people in their government army, otherwise they would not have received the news so quickly .

And the government should have been notified by Gao Shiwei. After all, they have a team of more than 400 people, which is too big.

Qin Yuan came to the warship again, the situation outside was very tense, and the patrolling people on the deck also withdrew.

Because the people here are not very important now, after all, there are bombs below, and they only stayed behind a few people to guard, and all the others went to the position.

The guards were playing poker nearby, and they didn't ask Qin Yuan when he walked in.

Originally, Qin Yuan planned to save Long Baichuan and the others directly here, but there are still so many people behind him. If there is a commotion, the commotion will be too big, and he alone cannot protect the safety of so many people.

So he thought of another way, let Long Baichuan and the others cooperate with each other.

Qin Yuan came over with a few water bottles, and said to the card players, "Boss, let's bring them some water so they don't die of thirst."

Those people lowered their heads and played their cards. They didn't care about Qin Yuan at all, they just waved their hands and let him pass by.

After Qin Yuan walked over, he came to Long Baichuan, and the guards behind him quickly approached Long Baichuan.

Long Baichuan carefully looked at the person in front of him. Although he was wearing a black mask, those eyes were very familiar.

"Qin Yuan?"

"Hey, Team Dragon! Your eyesight is quite good."

"It's too dangerous, why did you come up here?"

Qin Yuan took out the kettle and poured water, and said in a low voice: "To make a long story short, I have dismantled the bomb below. When I act later, I need you to cooperate with each other."

Long Baichuan understood immediately, and he nodded. When Qin Yuan handed him the water bottle, he handed him a dagger, and asked them to untie the rope quietly later.

The people behind were also shocked when they saw this scene. They didn't expect Qin Yuan to lurk here, and no one outside noticed.

How did this kid do it? I feel that this warship is for him to come and go freely.

More importantly, there was a guard team of hundreds of people outside, how did he get in?

Qin Yuan took out two daggers and handed them to the people next to him. Their weapons would be stacked in front of them, as long as they released the control.

At that time, it will definitely not be a problem to cooperate with the inside and outside.

"Don't worry, there is absolutely no problem with this operation, because people from the government army have also come over, and we will cooperate with them when the time comes."

Long Baichuan nodded. This was too humiliating for him. They were hijacked without firing a single shot. It would be a joke if it spread.

Until now, Long Baichuan still doesn't understand how the hacker did it.

The card player next to him raised his head, looked at Qin Yuan and said loudly.

"Hey! Brother, just throw the water there and let them drink it by themselves. Come and let's play."

"Forget it, you guys play first, this is what the boss told you after all."

The person opposite snorted coldly, let him go anyway, for them, the safety of these hostages is nothing, let alone provide them with food and drink, that is impossible.

Qin Yuan also knew that he couldn't procrastinate here, and if he procrastinated any longer, it would be troublesome if he was discovered.

"Dragon team, it's up to you later, as soon as the guns around us are fired, you will start to act."

"I'm fine, but I still want to remind you that there seems to be a special combat team among them."

Hearing this, Qin Yuan was a little interested. He hadn't seen any special team forces among these militants.

It is not unreasonable for Long Baichuan to have such doubts. The most important thing is that the hacker invaded their system at that time, and followed them very quickly. It was simply a division of labor.

Planting the bombs and hacking their systems took place at about the same time, definitely a well-trained team.

Qin Yuan nodded, indicating that he would pay attention, then put down the kettle, greeted the people next to him, and walked out slowly.

When Qin Yuan came back, it was almost dark, Gao Shiwei also contacted Qin Yuan, he guessed right, Gao Shiwei asked them to cooperate with the government army to rescue Xialong Baichuan and the others.

Originally, he wanted to send Long Xiaoyun over, but was rejected by Qin Yuan. Now Gao Shiwei's safety is also very important. Although the government sent people over there, he would feel more at ease if Long Xiaoyun was there.

If Long Xiaoyun is there, he can solve his worries. If there is a real fight, he will have to take care of Long Baichuan and the expatriates behind him. It's also for safety's sake.

Jiang Xiaoyu watched Qin Yuan come back, and he also said that he saw Long Baichuan. Jiang Xiaoyu felt that he could not be confident. This is too exaggerated. He has done so much in such a short period of time thing.

"Now, everyone checks the weapons and ammunition first. When the government troops arrive, we will cooperate with each other. I have already explained everything."

"Brother Qin, it's good to have you here. Everything has been considered. We just need to be responsible for the execution."

"Of course, see if the two heavy machine gunners in front are there. Later, you will be in charge of the heavy machine gun, and I will be in charge of the grenade man on the opposite side."

Jiang Xiaoyu was also very excited when he heard that Qin Yuan was already making battle deployments. This was the first time he acted with members of the red blood cell team.

This time, he once again witnessed Qin Yuan's impossibility.

"Qin team, do you know what name you have in our team?"

"I still have a name?"

"Of course, besides God of War, you are still being ridiculed as impossible by everyone, because everyone said that there is no such word as impossible in your dictionary."

Jiang Xiaoyu didn't exaggerate, this time he really saw Qin Yuan's calmness and his impossible strength.

Chapter 960: amazing power

After more than an hour like this, Qin Yuan heard movement from behind, it should be people from the government army, and the defenders over there also became nervous instantly, and everyone was staring at the direction ahead.

Qin Yuan asked everyone to measure another 50 meters. Now we need to find people from the government army and work with them.

In order not to be discovered, several people crawled forward on the ground, and just touched the opposite side quietly.

They were indeed members of the government army, and they also carried heavy weapons, but their numbers were a bit small, only more than a hundred people.

For Qin Yuan, this is enough.

The officers of the local government army were a little surprised when they saw Qin Yuan. They were about to raise their guns when they noticed the clothes they were wearing.

"Don't shoot, they are one of our own."

When the soldiers heard this, they put down their guns one after another, and the officer stepped forward enthusiastically.

"Excuse me, are you Captain Qin?"

"Yes, hello."

"Captain Qin, I finally met you. This time, I must thank you very much. I didn't expect that we would have the opportunity to cooperate today."

This officer was quite enthusiastic, because Qin Yuan and the others were helpful to them before, but Qin Yuan didn't remember it at all, because it was just a trivial matter to him.

At that time, they went to participate in the competition, because their strength was very weak, and they were directly eliminated in the first round. At that time, this officer led the team. At that time, he was only a major.

At that time, they participated in an international military competition. They were eliminated in the first round, so they were ridiculed a lot.

More importantly, someone in their team was injured at that time, and no one cared about them. The referees ignored them and just let them wait here for the rescue team.

He knew that because they had no reputation at all, and their country was also weak, they had no right to speak.

At this moment, it was Qin Yuan who made a move and was willing to help them. He not only helped him bandage the wounded soldier, but also brought them to safety.

For Qin Yuan, this was just a matter of lifting a finger, but for this officer, it could be remembered for a lifetime. At that time, Qin Yuan was the only army that stood up to help him.

"I didn't expect you to remember this little thing all the time."

"Captain Qin, you don't have to be so polite to me. You are my savior, not only me, but also our team at that time. You can call me Grizzly."

This is also after the man was bullied over there before, he changed his name when he came back. He wanted to be as strong as a grizzly bear and let everyone remember how great they were.

Then this nickname has been with him until now.

He was very excited when he saw Qin Yuan again, and he was ordered to rescue Qin Yuan this time. He felt very honored to be able to act together with his former savior.

At this time, Jiang Xiaoyu stood up and expressed his own doubts. After all, the disparity in strength between the two sides is too great now. There are more than 400 people on the opposite side, and there are more than 100 government troops on their side. several.

No matter how you calculate it, the power is very different.

"If you want to help, you are not sincere. If you want to be sincere, you must send at least one counterpart. Otherwise, we can't take risks like this. After all, our captain is still inside."

What Jiang Xiaoyu said was not unreasonable, mainly because Long Baichuan and the others were being held as hostages in the warship.

Having said that, the Grizzlies are a little embarrassed.

"I'm sorry for causing you to have such a misunderstanding, but in fact this is all our troops."

what! Everyone was shocked when they heard the news. They are government forces, so how could there be only this little force left.

And the Grizzlies also said that not only their captain was detained there, but also teams from two other countries who came to support them were also detained there.

Speaking of this, Qin Yuan didn't notice it. Maybe it was because of their special status that they were detained elsewhere. Anyway, when he went in, he didn't see anyone wearing camouflage uniforms.

So they are also under tremendous pressure, this time not only to save Xialong, Baichuan and the others, but also to give an explanation to the other two countries.

Although this matter was not done by them, it happened on their territory after all, and he has a duty to be responsible for this matter.

Grizzly is a very ambitious officer, but very helpless, his country is too weak.

He is just doing his part, trying to maintain this so-called last piece of peace.

It turns out that after their president was assassinated and killed, their government forces were also hit. More importantly, these forces are now fighting fiercely in the city, and they have been completely dispersed.

Now some of them and the forces in the city are paying more attention, and some of them have already gone to the airport to support, and their last force has also been transferred here.

So the Grizzlies are also very helpless. He also wants to protect and support them, but they really don't have that many troops.

"It's just that our country is too weak. I really have no choice but to see these people being devastated by the war. I also want to work hard, but my ability is limited."

Qin Yuan stepped forward and patted Grizzly on the shoulder. He felt that this person had done a good enough job. In the face of this situation, most people had already flinched. courage.

Once upon a time, my own country was like this. A weak country has no diplomacy, and once the country is weak, it has no right to speak.

Qin Yuan understood Grizzlies very well. If he was in such an environment, he would definitely have the same choice as him. No matter what, he would definitely do his part and try his best to protect this fragmented country.

"Don't worry, even if there is a disparity in strength, we will definitely win. After all, have you said it before? It is impossible for me."

Jiang Xiaoyu was a little surprised, but no matter how impossible it was that there was such a huge disparity between them, the other party had 300 more people than them.

How to fight this battle, you will know the end from the beginning, and they also have heavy firepower weapons on their side.

"Don't worry, today I will show you the power of our red blood cell team."

Grizzly did not hesitate, and directly handed over the combat power to Qin Yuan. He believed in Qin Yuan very much, and felt that he would be able to command this battle well.

Everyone knew that there was going to be a fierce battle ahead, and neither side acted rashly. The people on the other side burst out laughing when they saw the number of government troops.

The few leaders who took the lead in the front felt that they were bound to win.

"I've taken a fancy to their weapons. I didn't expect that the weapons of their government army are the same as ours."

"What's the matter? After the fight is over, those weapons are not ours yet."

"I don't think there is any suspense in this battle at all. With so many of us taking care of them, it's not a matter of minutes."

Just as they were talking, they began to prepare to do it.

The leader next to them ordered a big surprise for them first, and then a row of bazookas was ready.

Looking at the opponent's bazooka, the power is not covered up. Qin Yuan asked everyone to find a good cover in the nearby building. Now is not the time to rush, first avoid such a heavy weapon, and then think of a way.

At this time, I would like to notice that there are 6-5 howitzers in the Grizzlies team. This kind of howitzer has a relatively long range, but if you want to fully exert its power, you need to find a good ambush point.

This small howitzer is easy to carry. The above-mentioned portability refers to the comparison with ordinary tanks and chariots.

That weight is not light, even if it is easy to carry, ten kilograms, plus ammunition, must be carried by two soldiers.

Qin Yuan walked over and took the howitzer and carried it directly on his body, and then lifted the ammunition box next to it as this one.

The soldiers next to him were stunned. This is too exaggerated. The howitzer alone weighs 80 kilograms, and there are a total of five rounds in that box of ammunition, which adds up to a weight of more than 50 kilograms. He just picked it up with one hand. up.

"You guys will take cover below, and I will go to the commanding heights. Since everyone has fired shells, we have to fight back."

Grizzly looked at him and nodded. There was great hope in his eyes. Sure enough, Qin Yuan, the same Qin Yuan, hadn't changed at all.

He was still a legend in everyone's mind as before, Qin Yuan was able to walk like flying with a howitzer on his shoulders, and went straight to the roof of the building behind.

Jiang Xiaoyu was a little dumbfounded, but He Chenguang next to him was very proud.

"These things are nothing to our brother Ting, so you can watch how we deal with them with peace of mind."

"I want to say that your Qin team is cheating? Why do I feel that he is more powerful than when I saw him before?"

"Well, Brother Qin has always been like this."

If it was someone else, Jiang Xiaoyu felt that he must be bragging, but for Qin Yuan, he really felt that it was too incredible.

As soon as the two spoke, the bazooka shells on the opposite side flew over densely.

This level is like a goddess scattering flowers, explosions are happening everywhere, the building in front has been completely blown down, and a small group of soldiers brought by the grizzly bear is completely overwhelmed by the fallen building.

The Grizzlies also had heavy weapons on their side, so he hurriedly organized people to fight back.

But their artillery fire is too weak for the opponent.

At this moment, Qin Yuan had already arrived at the top of the building. It was a good position for him to be prepared. The sound of gunfire below was constant. He looked at the target on the opposite side, and then directly put the howitzer into it.

The few leaders on the opposite side watched the government troops being hit by their shells and scurrying around. They sat in the back position and drank triumphantly. They had already started to celebrate in advance.

"Baar, it seems that this battle is about to end early. As far as our Red Banner force is concerned, it is estimated that they will not last long. When the shelling is over, people will rush up and wipe them all out."

"With their strength, they are too overwhelmed."

"Actually, to be honest, I was quite afraid of the strength of the government army before, but after fighting for so long, they have been exhausted."

"This opportunity is very rare, we must catch them all!"

A few people were talking in full swing, when suddenly a shell hit directly in front of them, and instantly those glass wine bottles were blown to pieces, and a heavy machine gun position next to them was directly blown away.

"Damn! What's the situation?"

Before he could react, the second and third shells hit him one after another.

With Qin Yuan here to ease the pressure for them, the other side was also bombarded after all. The Grizzlies quickly assembled their forces and began to prepare for a counterattack.

"As expected of Captain Qin, he stopped those people by himself."

"Yes, so let's hurry up and form a formation now."

The leaders were also baffled by the sudden bombardment. He picked up the binoculars and saw the people on the roof.

"Damn it, bring me the bazooka."

He carried the bazooka, and without hesitation, he shot directly in Qin Yuan's direction. Unexpectedly, Qin Yuan just smiled, and then jumped off the roof of the building.

And the leader at this moment is like a lunatic, directing people to fight towards the roof of the building quickly.

More than a dozen rocket launcher shells flew towards the roof of the building.

Brother Qin is almost done with the shells anyway, so he can retreat now.

The leader on the opposite side was taken aback when he saw this situation. Is this person crazy? The building was almost ten stories high. He jumped from here without any protection on his body. Such a person can still survive.

"It seems that you really pushed people into a hurry. You can do anything. Isn't this a dead end? What's the difference between being blown up by me and jumping to death?"

At this moment, the roof of the building has been flying sand and rocks. Grizzly turned his head and looked at the building that was blown into ruins, his face changed drastically in an instant, he didn't know if Qin Yuan ran out.

In the next second, Qin Yuan had rushed towards them.

"Wait a minute, all of you, take me as the target, I will take the lead in the charge first, don't worry, I will deal with the heavy firepower in front."

Grizzly looked at Qin Yuan with admiration, how did he escape and jump off? More importantly, in this case, a calm analysis can be made.

When Qin Yuan jumped down, he combined his own jumping ability to jump to the opposite wall and used it as a support point to jump off. Besides, he still has defensive power, these things are really important to him. less than the damage.

The leader on the opposite side also started to make people attack, and now he has to make a quick decision to catch all these people, otherwise he doesn't know what will happen later.

These armed forces are not vegetarian either. They have traveled in these war-torn countries for a long time and have very strong combat experience.

Qin Yuan ran up with two submachine guns. He put the handles of the guns against his shoulders, and then fired quickly. Grizzly looked at it from a distance, and thought it was too handsome.
