

## **Special Soldier 961**

Chapter 961: Shocking horror power

Qin Yuan looked at the two submachine guns like this, and rushed directly into the battlefield.

I go! What's the situation with that guy?

Everyone was shocked when they saw Qin Yuan rushing in. This guy is dying. He dared to rush in with such dense bullets.

The bullets from the heavy machine gun in front hit Qin Yuan directly, he turned over to avoid the bullets, and then fired quickly.

He used his shoulder to resist the impact of the submachine gun, and directly solved a heavy machine gun position in front of him.

The few leaders who were still drinking were completely stunned, this is too exaggerated!

But then something even more unexpected happened. The speed of this man was so fast that no one could stop him. After Qin Yuan finished firing the bullets, he dropped the submachine gun and turned over. The man was already fast Close to their position, and then threw a grenade.

The grizzlies behind also tried their best to keep up. With Qin Yuan charging ahead to resist them, there was no pressure at all.

"Everyone catch up as soon as possible, follow Captain Qin's footsteps, and rush in now."

Grizzly's morale was greatly boosted at this moment, and the soldiers under him seemed to have been beaten to death. After all, someone had already taken the lead.

He couldn't help but sigh, if their country also has such excellent soldiers, it would be great, and with his leadership, it will definitely become very strong.

At this moment, Qin Yuan, like a ferocious beast, rushed into the opposite side and rampaged, and the three heavy machine gun positions on the opposite side were eliminated by Qin Yuan in this way.

Long Baichuan and the others inside the warship heard the sound of shooting from outside, and it seemed that it was time to act. At this moment, the guards inside the warship did not pay attention to Long Baichuan's situation, because the fighting outside was very intense.

Taking advantage of this gap, several people quietly untied the ropes on their bodies. Their weapons were in front, and they were only one step away from success. Just when they were about to succeed, a man in the hostage team suddenly yelled loudly. stand up.

"Come on, someone, someone wants to escape, come on quickly!"

Several people were taken aback, what is this guy doing?

The guards outside heard the movement and rushed in quickly. Seeing Long, Baichuan and the others had already untied the rope, directly raised the gun in their hand, and quickly shot towards them.

The guards at the back were the same, seeing that the situation was not right, a pounce directly blocked the bullet for Long Baichuan, this moment happened too fast.

This is the end, no matter how good Long Baichuan and the others are, they are holding guns, and now they are holding two daggers, so they can't get close at all.

"Damn it, it really gave you the courage to run away!"

"But I said that these can't be kept, they are too cunning, kill them all!"

At this moment, there were several gunshots from behind. The guard who was still shouting just now, his pupils dilated instantly, and then he fell directly to the ground, with two playing cards stuck in the back of his head.

The companion next to me was shocked when he saw it. What's going on? Just as they turned their heads, two flying knives shot directly between their eyebrows.

Long Baichuan was very relieved when he saw Qin Yuan. At the critical moment, he finally arrived, because the opponent still had heavy weapons, so Qin Yuan rushed in with the cannon, and his clothes were already ripped. .

It was also fortunate that he arrived in time, otherwise Long Baichuan and the others would be in real danger.

At this moment, Long Baichuan half-kneeled on the ground, looking at the body of the guard on the ground, feeling extremely distressed, obviously they were already one step away from success.

But she knew that now was not the time to be sad, listening to the sound of guns outside was still very intense.

"Qin Yuan, what's the situation outside?"

"There are indeed a lot of them, but this is not a problem. I mainly want to save you first, and I will rush out now. I haven't paid attention to these rubbish."

The people present gasped when they heard it, and Qin Yuan's movements were too fast just now, he rushed in and directly dealt with all three guards within a minute.

At this moment, the man who had just shouted loudly and exposed Long Baichuan and the others suddenly stood up.

"I'm going to report you, you lunatics, you're going to kill everyone here."

Long Baichuan looked at this person coldly, he didn't know what this person was up to.

"Today I have seen what a white-eyed wolf is. After our people kindly rescued you, you still betrayed us."

"This is not a betrayal, but for self-protection. Don't you know that there are bombs under this warship? You will anger them by doing this. I need to wait for our country's soldiers to come and go. I don't need your pity."

When Qin Yuan heard this, he snorted coldly. He looked the man up and down, but he really couldn't tell which country he was from.

"Oh, since that's the case, tell me which country you are from. So far, I haven't seen soldiers from other countries except from our Yan country."

This is indeed true. The country A they saw before even had their helicopters blown up. Some of the other countries were trapped at the airport, and some were blocked halfway.

They, Yan Kingdom, reacted as quickly as possible, rushed directly into the center of the battlefield, and rescued the overseas Chinese.

"Hehe, I will not accept your rescue, because I will wait for our country's rescue."

"I'm sorry, you may not have figured it out. I didn't intend to save you. I saved other people."

The man snorted coldly, and sat directly on the ground. Anyway, he would not accept Qin Yuan's rescue. The main thing he was worried about was the bomb issue, and even if he took them out now, it would be a dead end.

So he planned to sit and wait for death. Instead of rushing out now, he might as well stay here honestly and not provoke those militants.

Qin Yuan shook his head. People nowadays have no backbone at all. He didn't know what happened just now, because when he came in, he just subconsciously shot Long Baichuan and the others.

Long Baichuan had already picked up his gun and prepared to fight back with his own guards, and Qin Yuan had already rushed up and completely killed the leader on the deck, so now they can control the warship to fight back.

Compared with heavy weapons, their warships are real heavy weapons.

"Let them see what strength is called later."

Long Baichuan's eyes were red, he had to pay back the humiliation he suffered just now, and the soldier who blocked the bullet for him.

The other hostages and expatriates who were detained here all chose to go out with Qin Yuan and the others, because they believed that Yan Guo believed in Qin Yuan's strength.

"Sir, although I have never been a soldier, but at this moment, I can also fight for you, not only for everyone but also for myself."

Although the person who spoke was a woman, it could be seen that she really had a lot of backbone, and she also chose to fight at such a life-and-death moment.

She knew what was going on outside, and there were several times more troops outside than them, so she chose to fight. At this time, she could only save herself. She knew very well why their rescue hadn't come yet.

With women as role models, other expatriates also expressed that they can pick up guns and fight.

For a moment, the entire warship was full of enthusiasm. Everyone's self-help this time was for themselves, including Qin Yuan and the others. Obviously they could ignore these expatriates because they were not from their country, but Qin Yuan still protected these hostages without hesitation.

"Don't worry, I'm still in front of me, and I haven't fallen down. What kind of guns are you picking up? If someone really wants to charge up, they have to step over my dead body, but this is impossible."

What Qin Yuan said made everyone's blood boil.

Such a good atmosphere was ruined by the person just now. That person was still relentless. He stood up and looked at the people on board with a roar.

"You are crazy. You were brainwashed by them, and you still want to take up guns and fight with them. Why don't you wait for rescue now, but seek your own death?"

No one paid any attention to the man's roaring photo. At this moment, Ruan Ruan walked over and kicked him on the shoulder, knocking the man to the ground.

Then he lifted the metal bucket next to him and poured it directly on his head.

Endless killing intent emanated from Qin Yuan's body. The man wanted to get angry at first, but after seeing it, he couldn't help trembling.

"You...what do you want to do? Let me tell you, I am an unarmed civilian now. If you want to kill me, you will violate the international treaty."

Now that he knows that he is a commoner, seeing these people, he will really pretend to be weak.

Qin Yuan just found it very ridiculous, and the people around him also sneered at the man's behavior.

The woman who spoke just now stepped forward and slapped the man directly in the face.

"He can't hit you, so I can. I'm not a soldier. I can't take it anymore. What do you want to do, you bastard?"

"you!"

"You are simply crazy. What happened to you? We are hostages. Besides, they are from the Yan Kingdom. Why should they choose us? We should wait for our own country to rescue us."

"More importantly, have you forgotten? Our life and death are not in their hands, but in the hands of those militants."

Everyone knows what he means, isn't it the time bombs under the warship?

Qin Yuan looked coldly at the roaring man in front of her. She didn't know what kind of things this man had gone through, how he became so untrustworthy, and at this critical moment he was still instigating people's hearts.

Such people are the most despicable and hateful.

"That's enough. I'll answer your doubts now. First, our Yan State soldiers treat all civilians equally except for saving our own nationals. This is out of humanitarianism."

"Second, those bombs you called have been completely defuse by me."

When Qin Yuan said the previous sentence just now, the man was unmoved, until he heard Qin Yuan say that all the underwater bombs were dismantled by him, he couldn't believe it.

How is this possible? It is absolutely impossible. They showed the radar equipment to the militants before. There are at least a dozen such dense bombs in the underwater bombs. How did he dismantle them? There are so many outside. guard.

"Impossible, do you think I will believe your nonsense?"

Qin Yuan didn't speak, and at this moment, Long Baichuan was already controlling the warship, and the artillery on their warship began to attack the militants on the shore.

Qin Yuan left these expatriates here first. After all, the outside is very dangerous, and now the people below also need him. He doesn't want to talk nonsense with this person.

And when the man heard that the artillery on the warship had started, he completely sat on the ground.

"It's over. He is absolutely lying. How could those bombs be dismantled? They actually fired the artillery directly. Those militants will definitely press the bombs. We will all die."

The man's speech was a little close to madness. No one was approaching him, so he was just a lunatic.

It's just that he didn't wait for the explosion.

The leaders of the militants who commanded just now saw that something went wrong on the warship, and the artillery on the warship attacked them.

What is the situation, and why is there a problem with the warship.

Suddenly, the situation on the battlefield turned around. With the support of Long Baichuan and the others, Grizzly and the government army rushed to the position of the militants in one go.

"Damn it! Since that's the case, I still have other uses for the warship, so let's just blow it up."

After the black man finished speaking, he gritted his teeth and took out the remote control. Unexpectedly, he just pressed the remote control and suddenly felt something was wrong, because he was behind their command post and heard the countdown sound of Didi.

Because this explosion has a seven-second countdown.

At this position, the countdown sound should not be heard. Before he could react, A burst of strong explosions spread directly from their position, centering on their command post, a sea of flames spread, and a series of explosions occurred.

The leader probably didn't think of love before the temporary, so he directly dismantled the time bomb and placed it on their only-talking and rear positions.

He died very unwillingly, until he died he couldn't figure out what was going on.

The corners of Qin Yuan's mouth rose, and he rushed into the team with an assault rifle, and began to shoot quickly at the militants who were about to escape.

Because such a thing suddenly appeared on the battlefield, everyone didn't react, and what happened to the explosion, they were all confused for a while.

And the leader is dead, and these militants are running around like headless flies.

The members of the red blood cell team also rushed up, and Jiang Xiaoyu followed behind them. This time he really saw what strength is.

He had seen Qin Yuan's strength before, but this time he saw the strength of their red blood cell team.

The Grizzlies felt that the more they fought, the more enjoyable it was, all thanks to Qin Yuan.

Chapter 962: 1 time to fight fear!

The man who made trouble on the warship just now noticed something was wrong. Why didn't there be an explosion here, but instead there was an explosion outside?

Could it be that the bomb was really dismantled by the Yan Guo soldier? This is absolutely impossible!

At this moment, he couldn't believe it, he sat down on the ground, and the people around him looked at him indifferently, just now this man yelled madly and killed a soldier of the Yan Kingdom.

It was very intense, but there were also bold people who quietly looked outside.

The situation below is very chaotic. Those militants are already fleeing, and it seems that they will win soon.

A tall man among the hostages went directly to that person, "You bastard, do you know that you directly killed a person who saved us just now, if it wasn't for them, we would have died long ago."

"You...you'd better not do it, let me tell you, I'm a citizen of the United States."

When the people around heard this, they yelled coldly in disdain, what are American citizens? This \*\*\*\*\* just relied on his own identity and felt that no one would dare to touch him.

But now everyone didn't care so much, they went up and beat him up, the man's nose was bruised and his face was swollen, and he kept begging on the ground.

Although he kept begging for mercy, he was very sinister in his heart. He remembered these people viciously, and decided that when his team came to rescue him, he must make them look good.

He has never been angry like this before, and these people are too rampant, and he is in a weak position now, so he has no choice but to endure it first.

For his previous behavior, he didn't feel any guilt at all, he just felt that it was justified.

Long Baichuan's soldiers heard the commotion inside and rushed over to stop it. After all, with so many hostages, it would be unimaginable if a riot really broke out.

"Everyone, we can calm down now. After all, there is still a war outside and it is very chaotic. Everyone, calm down first."

Just like that, those people stopped and walked back silently, because violence only leads to more violence, so now they can only calm down.

The soldier also looked at the man who fell on the ground coldly. If it wasn't because of his identity, if he didn't take the overall situation into consideration, he really hoped that those people would just beat him to death like this, he would be a bastard.

The war outside soon came to an end. Under the leadership of willingness, they directly broke through the enemy's last line of defense. Those people were defeated and jumped into the sea. Everyone desperately wanted to escape outside.

After all, these militants were originally a force formed by several parties. When they encountered difficulties, the leaders were already dead, so they flew separately when they thought that disaster was imminent.

The Grizzlies fought harder and harder. He had never fought such an exciting station before, and the journey went very smoothly, thanks to Qin Yuan who took all the problems ahead.

Jiang Xiaoyu also rushed up, very happy to see that Long Baichuan and the others were all right.

In this way, the battle that everyone encountered that could definitely be lost, turned defeat into victory under the leadership of Qin Yuan, it is simply against the sky!

And Qin Yuan was unscathed. When he shot just now, Grizzly felt that the kingly aura in him was so strong that he had to admire it.

Jiang Xiaoyu was very happy after boarding the warship, because the dragon team and the others were fine, but he looked down and saw a corpse lying on the ground.

He froze for a moment, "Captain Long, what's wrong with Liu, why did this happen."

Qin Yuan and the others also rushed up. Seeing the corpse of their comrade-in-arms, everyone was very sad. Although they all knew that war was inevitable and there would be sacrifices, Jiang Xiaoyu couldn't help but feel a little overwhelmed the moment he saw the corpse.

"How did this happen? We were fine under such a dense fire outside, why did something happen to him here."

Long Baichuan didn't say anything, he just stared coldly at the man who spoke just now. At this moment, the man was leaning against the corner with a bruised nose and a swollen face, and everyone was isolating him.

Seeing Long Baichuan looking at him, the man felt a little guilty.

"Let me tell you, I'm a citizen of the United States, you don't want to hurt me, otherwise if my team comes, I won't let you go."

At this time, Qin Yuan came down from the deck and threw a corpse in front of the man.

The man turned pale with fright when he saw the corpse. The clothes belonged to their American army.

"What did you do to our people, you bastard!"

"Please be sober and understand the situation. Your people have been killed by them a long time ago, and all of them were killed at the port."

"Also, we are the ones who rescued you now! Of course, if you want to wait for your so-called army to rescue you, we can also keep you here, but this is our warship now, please go down."

As soon as Qin Yuan's words fell, everyone in the warship shouted loudly.

"Get off, you bastard!"

"You coward, get out!"

Seeing that everyone's emotions were so intense, Qin Yuan didn't know what was wrong. Although the man's words were a little aggressive just now, why did he suddenly become angry?

At this time, a woman in the hostage group stood up, "This \*\*\*\* killed the soldier on the ground."

Hearing this, the red blood cell team who rushed over were all taken aback, what was going on.

Long Baichuan could only tell the story slowly, and what he said was already very tactful, after all, he didn't want to see any worse things happen.

Jiang Xiaoyu couldn't bear it anymore, he rushed forward and mentioned the man, "You bastard, I'll throw you into the sea to feed the fish right now."

"Little fish, that's enough, don't make trouble!"

"Dragon Team, but Da Liu sacrificed like this, because of this bastard, should we just let him go like this?"

No matter what, this person is a commoner, they can't do anything to him, Long Baichuan shook his head, this is for the sake of the overall situation.

The man became even more proud when he saw this situation, and he even raised his head directly, "How is it? I see that if you dare to hit me, I tell you, if you dare to hit me, I dare to sue you to the International Military Court superior."

Jiang Xiaoyu gritted his teeth and looked at the man. At this moment, he really wanted to be desperate and beat him up hard.

The hostages around were already gearing up and couldn't help but want to step forward. Long Baichuan hurriedly took control of the current situation, and it really couldn't be more chaotic now.

Qin Yuan didn't want to think about what was common or not. It was the first time he wanted to do something to this person.

At this time, Long Xiaoyun's voice came from the walkie-talkie, mainly asking about the situation here, because they had heard that the gunfire had stopped.

Qin Yuan and Long Xiaoyun talked about the situation here, and then planned to take the team members to pick them up.

Although the militants here have been dealt with, there will be other dangers along the way. They brought so many expatriates with them, Qin Yuan planned to go there to meet them for the sake of prudence.

Grizzly even arranged all the rest of the team here. He and Qin Yuan promised to protect the safety of the people and soldiers of Yan Kingdom.

Besides, Long Baichuan was also here, so Qin Yuan felt more at ease. He set off directly with the team, but he always felt as if he had forgotten something and missed a point.

The main reason is that the current situation is very chaotic. He has too many things to consider. The major problems have been solved anyway. At least this side is safe. Let's bring the person back first.

At this moment, Grizzly looked at this extremely powerful warship and couldn't help but sigh, it wasn't them protecting others at all, but others protecting them.

"I have to say, your warship is simply too powerful. Once this warship shows its power, those people are simply ants."

"Don't worry, you will have some in the future."

Hearing this, Long Baichuan was extremely proud. They used to look up to others like this, but now they can also become the object of others' look up to.

Therefore, we must be strong, not only to strengthen ourselves, but also to protect our country and people more powerfully.

When Qin Yuan and the others came back safely, the expatriates here cheered. They are worthy of being soldiers of the Yan Kingdom, and their work efficiency is high.

"Boy, you did a good job this time. The speed and efficiency are really high."

"Hahaha, it's just serving the people."

Just like that, the convoy continued to set off again. It was only when Qin Yuan was sitting in the car that he realized what point he had overlooked.

Before Long Baichuan said that they were attacked by a hacker, and their system was actually invaded at that time. The level of this hacker is not ordinary, and he can invade their military system.

But in the process of fighting just now, he didn't find this mysterious team, because he didn't find any opponents who could match his strength, they were all trash.

At that time, Long Baichuan suspected that there was a special combat team, otherwise it would be impossible to have such capabilities. They reacted quickly and could plant bombs underwater.

Qin Yuan felt that with such strength, as long as he met the opponent face to face, he would be able to recognize him, but he didn't find such a person during the battle just now.

Whether this mysterious squad exists, or whether they have died on the battlefield, or have retreated, is unknown.

Qin Yuan told his team members what he thought, and when everyone heard what he said, they immediately analyzed it. According to what Long Baichuan said, this team must exist, because he has led soldiers for so many years and is more experienced. .

"Brother Qin, should we go over there and investigate?"

"When we go there, we shouldn't be able to investigate anything. The battlefield is already chaotic, and our focus is to protect the safety of the expatriates. Whether that mysterious team exists can only be seen later."

"That's right, and I think that under the artillery attack we had just now, he probably was killed at some point."

Qin Yuan hoped that this would happen, at least if this was the case, he wouldn't have to worry about anything else.

The military code used by their troops is very secure, and it was unexpectedly deciphered by someone, so it has to be taken seriously today.

Now, with his world-class hacker level, there is no problem, which means that this person's hacker skills are comparable to his.

In this way, under their leadership, the convoy traveled very smoothly and did not encounter any other problems. When they arrived at the port, Long Baichuan personally came down to meet them.

The expats in the car were very excited when they saw that their country had directly sent a warship to pick them up.

"This warship is simply too powerful. I want to thank the motherland mother."

"Shouldn't we be more grateful to these junior soldiers? If it weren't for them, would we still be able to stand here and speak?"

"That's right, it's our team that puts us first at all times, and it's a moment I really feel so proud of."

Especially when they saw the nationals of other countries in the warship, their faces showed envy. At any time, the army of the Yan Kingdom puts its own people first.

Moreover, under such circumstances, the army of the Yan Kingdom also protected their other expatriates. This is simply a proper style of a big country, and it is too magnanimous.

Seeing such a situation, the man who shouted before was exactly like the same eggplant, shrinking in the corner.

At this moment, the Grizzly Bear saw that they had converged, and that all the expatriates in the city had been completely withdrawn. The Grizzly Bear also wanted to go back to carry out its mission.

For them, this is just a cutscene for them. Their country is very strong and safe. There will be no war. Grizzly is different. He wants to go back and continue to guard his people.

Qin Yuan stepped forward and gave him a hug, because Grizzly was indeed a soldier he admired, at least he managed to defend his home and country.

Under such circumstances, he did not give up his country. Such a spirit is really rare. Although his strength is weak, his spirit is great.

"Come on, everything will be fine."

Grizzly nodded, and during this war he has gained a lot of experience, and even learned a lot from Qin Yuan and the others.

At this time, Grizzly's soldiers suddenly ran over to report, "Sir, we found an unknown armed group approaching us from the southeast."

Grizzly snorted coldly. I didn't expect these guys to dare to attack. They should know the news here, so I sent reinforcements to the pier.

"Captain Qin, let's go first. Leave this place to us. Now I want to take up arms to defend my country. Leave this place to me."

Unexpectedly, Qin Yuan jumped off the deck directly.

"I really need to find an explanation for today's matter. Otherwise, these guys really think that we Yan people are vegetarians."

What does it mean? Grizzly felt a little strange, now that Qin Yuan and the others could leave directly, the rest of the matter was none of their business.

Because Qin Yuan felt that these people still didn't seem to be beaten, he was afraid that they dared to challenge the majesty of Yan Kingdom, and they did it again and again.

So he decided to make a good move, let these people know what the real terrorist power is, and scare them all at once.

Chapter 963: 1 to take back

Gao Shiwei didn't intend to stop Qin Yuan, because these people were indeed too arrogant, and he really thought that they were easy to bully from the Yan Kingdom.

"Qin Yuan, I only have one sentence, if anyone commits a crime, he must be punished."

With Gao Shiwei's words, Qin Yuan has more confidence, he means to let him do it, not to mention they have warships here now.

But Qin Yuan felt that it was too much of a fuss to keep using warships against me, so he decided to take the red blood cell team directly to deal with them all.

The Grizzly next to him was completely stunned when he heard it. This is too crazy. Although the opponents were not as numerous as before, they were all carrying light and heavy weapons. Qin Yuan dared to do this in a team of seven. Directly and blatantly rushed up.

He really admires such courage. In fact, he also knows that Qin Yuan has the confidence and strength.

"Captain Qin, don't worry, those people we will follow you all the time are trying to make trouble in our country and deliberately start a war. I will definitely not let them go."

Unexpectedly, Qin Yuan turned his head to look at him with a smile and said, "It's okay, you are here to protect these expatriates, and I will take my team up now."

Grizzly was stunned for a moment, he heard right, Qin Yuan actually refused his help, anyway, he still has dozens of people here!

Besides, he felt that the expatriates here didn't need any protection. They were such a big warship, who would dare to approach them?

This is their strength, and now Qin Yuan is going to fight back, he will be chased and beaten by others.

Qin Yuan did not allow him to refute the opportunity, and directly led the team to rush up. Their speed was very fast, and each of them was stunned by the grizzly bears who were as \*\*\*\* as chickens.

What's the situation with them? Just now, everyone has experienced a fierce battle. For their soldiers, they all need to go through a buffer.

Unexpectedly, Qin Yuan and the others were still enthusiastically following one by one, and Qin Yuan rushed forward.

The leader of the armed group saw Qin Yuan and the others rushing over, and felt strange. What's going on?

"Look at the situation, how dare an off-road vehicle rush towards us."

"Boss, I think it is probably their human bomb, and they want to use their lives for their lives."

"Hehe, it's really whimsical. The sniper is going to blow up their tires."

After he gave the order, the snipers next to him had already aimed at Qin Yuan and the others, but what he didn't expect was that Qin Yuan was faster than him. While they were driving, Qin Yuan withdrew half of his body, A direct shot hit the sniper's head.

In an instant, blood burst out, and the boss next to him was also taken aback. What's going on? His sniper was killed before he even fired a shot.

When he looked carefully with the binoculars, he found that the sign on the car turned out to be a soldier from the Yan Kingdom.

"Retreat quickly! Give me the right direction and let everyone retreat."

The men next to him looked at their boss in a daze, what is the situation, they just started to be called to retreat by a sniper, which is too unreasonable.

"Boss, there are only a few of them, let's go straight up, and our heavy machine gun can directly bring them down."

"Damn it, I said to retreat, do you understand it, retreat quickly, this is a soldier of the Yan Kingdom."

This person was the leader who had a disagreement with the previous militants. At that time, he felt that the soldiers of the Yan Kingdom and their people must not be touched, otherwise they would die miserably.

As a result, these people didn't listen to him. When he received the news that the entire army on this side was wiped out, he still wondered where the armed forces actually had such great capabilities.

Because of the military power of the government army, he knows very well that with the strength of more than 100 people, it is impossible to completely break up their military power of more than 400 people. As a result, now that he sees this Yan country army, he will Understood.

The leader ordered to throw a few grenades directly at them, then changed formation and began to retreat.

He Chenguang sneered, he wanted to retreat at this level of saving them, and even wanted to hit them, it was absolutely impossible for him to escape the explosion of the grenade by drifting.

Under He Chenguang's operation, everyone escaped the explosion, and then Qin Yuan simply jumped out of the car. His speed surpassed that of the off-road vehicle. With a sniper rifle in his hand, he directly hit a person who was about to retreat. Soldier.

But the people in the car were not vegetarians, they also had heavy weapons in the car, the people on the other side retreated while fighting back, Qing Yuan sneered, and a bullet directly hit the person who fired the heavy machine gun.

Before the people next to him could make a move, they were directly dealt with by the lover. For a moment, the people in the car panicked. The speed of that person was too fast, and they couldn't lock the target at all.

At this time, they realized why their boss was so scared, that person was like a \*\*\*\*\* of war.

The speed was very fast, and he came directly in front of them in a blink of an eye, and at such a short distance, holding a sniper rifle was as easy as operating a pistol.

The soldiers were completely dumbfounded, they clearly saw that he was close at hand, but they just couldn't hit him, because Ruan Yuan's body skills were very sensitive.

Li Erniu and the others were also able to keep up. He Chenguang hit their mailbox directly with a bullet from behind, and the retreating convoy exploded in an instant.

Qin Yuan felt that the fight was not enjoyable, so he rushed directly to the convoy where they were fleeing, and started a hand-to-hand fight with them on it.

The soldiers above were all thrown out of the car by Qin Yuan, and those who were thrown out were dealt with one by one by Li Erniu and the others.

It's crazy, this level is like cheating, the leader just now panicked even more, he yelled at the driver next to him to speed up.

He saw in the rearview mirror that Qin Yuan was killing his soldiers in the car, and he felt even more afraid from the bottom of his heart.

Qin Yuan saw that the car in front was driving faster and faster, he would not let anyone go, he just threw a throwing knife on it, punctured the tire, the car lost its balance due to the high speed, and rolled over by the road.

In such a short period of time, all the good militants were eliminated by Qin Yuan and the others. The Grizzlies behind were completely stunned. The speed was simply too fast. Is this their real strength?

He couldn't help swallowing nervously, fortunately he was on Qin Yuan's side, otherwise he didn't know what would happen.

In such a short distance, not only can he switch marksmanship and knife skills at will, but his fighting skills are also very powerful.

This Qin Yuan is still the person he knew before, he is really too strong, his strength including the strength of his entire team has been improved now, even stronger than when he saw it before.

At this moment, the vehicle rolled over, Qin Yuan stepped forward, jumped on the vehicle and kicked open the door of the cab.

Only the driver and leader were left inside. The driver had died on the spot. Qin Yuan dragged his body out, and then pulled out the leader as well.

At this moment, the leader was already trembling with fright, he knelt on the ground directly, begging Qin Yuan not to kill him.

"We said before that no one can touch the people of our country. Since you attacked us first, we have to fight back."

"But it's not my decision, and I can't help it. I really didn't do anything to you."

Qin Yuan didn't care that much at all, he was one of these militants anyway, and he wouldn't let any of them go.

Just like that, Qin Yuan killed him directly with a single bullet.

At this moment, Long Baichuan and Gao Shiwei were sitting on the deck and drinking tea leisurely, "This kid's speed is really good, I think he really solved the battle in 15 minutes."

"Okay, I've hit the mark, hurry up and bring the money, you've already lost."

That's right, that's right, when the two of them went to the battlefield just now, these two people were unreliable and were betting against each other.

What they bet on is how long Qin Yuan can solve the battle.

Long Xiaoyun was very speechless in the rear. He could only go in first, make these people, arrange them properly, and then count them. Excluding their own expatriates, there were more than 300 expatriates from other countries on this warship.

The man who was the loudest before didn't say anything, and now he sat silently in the corner.

Because he saw that the soldiers who came to rescue them were all dead, and that their strength was not as good as these soldiers of the Yan Kingdom made him a little unacceptable for a moment.

What's more, their country of Yan actually sent warships to pick them up, which is impossible for their country.

In fact, what he didn't know was that Yanguo had made three sets of plans, sea, land and air had already been prepared, and the helicopter at the airport hadn't been included yet.

Anyway, they want to do whatever it takes, and they won't leave any expats behind, let alone miss any criminals.

When Qin Yuan and the others came back, the soldiers of the Marine Corps were all cheering on the deck.

"Look, our hero is back."

"Captain Qin did not disappoint us, you are still so fierce, of course I am talking about your combat ability."

Hearing Long Xiaoyun's ridicule, Qin Yuan raised his eyebrows, walked quietly to her side, and said in a low voice, "Aren't I not brave in other places?"

Long Xiaoyun's face turned red instantly. She said something just now to prevent this guy from playing hooligans, but he didn't expect that he dared to say it in front of so many people.

"You guys have so many people now, can you be more serious?"

"They can't hear it anyway, can they? Or you can try it tonight and see if you are brave or not."

Long Xiaoyun punched him directly in the stomach, "Many of us are undeserved, I think you are just looking for a beating."

The few people in the back were used to seeing the two flirting and flirting, and admired their combat ability and psychological quality even more. Under such circumstances, they could still talk and laugh happily.

This is the soldier he admires the most, and he saluted Qin Yuan with a standard military salute.

"Captain Qin, thank you for helping us this time. Although we may not have any contact with you after you evacuate the overseas Chinese, you really admire me."

"Grizzly, you are actually very good, and you are also a soldier I admire very much. Come on, we have experienced what you have experienced before, and everything will be fine."

He told Grizz that he would no longer look up to others and be like them in the future.

Grizzly nodded gratefully. Qin Yuan is really the soldier he respects the most, no matter in terms of his strength or his personality.

Gao Shiwei decided to bring these expatriates back to their country of Yan first, and then let people from each country come directly to Yan country to meet them.

At this moment, inside the Supreme Military Department of country A, a commander is angry at his subordinates.

"You idiots sent so many people out, but there is no news at all. You can't even save your own people. What else do you want?"

They have sent out three special operations teams, but there has been no news, and according to their investigation, their helicopter was directly destroyed.

"Commander, there is nothing we can do. We have already dispatched special forces three times, but now there is no news at all, let alone the bridge people."

"Idiots, those unarmed people, what can they do? They can only wait for us to rescue them."

The commander was very angry. It was useless to send so many people. It seemed that he had to play in person.

At this moment, the soldiers outside ran quickly with a document in their hands.

"Reporting the top military document coming from above the Commander."

"read!"

"My colleagues from neighboring countries, your nationals have been completely rescued by our Yan country soldiers. Our country has set up a whole house in the border area. All colleagues can come to the safe house and bring back your own bridge citizens."

This document has not been changed in any way, and it is the same as it is. This is Gao Shiwei's original words.

He also doesn't want to engage in those false just to be more direct, besides, if he is in the border area, he can hand them over to them.

People from so many countries, it is impossible for them to send them back one by one, and besides, they drove the warship, which was originally well-intentioned, but it would be troublesome if they were beaten up by some people.

This time Yan Country can be regarded as a glorious time, many countries have directly sent them thank you letters, as well as thank you awards, mainly because their own bridge residents were all brought downstairs by them.

Qin Yuan and the others went directly to the international news, but they didn't say their real information, they only said Yan Guo soldiers, and used Yan Guo soldiers to refer to them collectively.

At this moment, a man was doing push-ups in the basement. He was staring at the news broadcast, and then a throwing knife hit the TV directly.

A picture of snowflakes appeared on the TV. The man was struggling to do push-ups. He must become stronger.

A woman from behind slowly walked in, "It seems that you already know the news, and I wanted to inform you."

"As far as this matter is concerned, it has always been their international style. I am afraid that others will not know, what kind of big country style is waiting, one day I will step on him."

Chapter 964: Mysterious Special Operations Squad

After the talking man finished his push-ups, he called in all the people who proposed, and this is the team he formed now.

Long Baichuan's guess was right, they had indeed set up a special operations team, and this special operations team was the mastermind behind the outbreak of the battle.

This time, they gathered forces from several parties to make noise there, and then they wanted to attract Qin Yuan and the others.

Every member of this mysterious assault team has a grudge against Qin Yuan, and the only woman in the team is a female sniper, very powerful, and very good at disguising.

Her younger brother died at Qin Yuan's gunpoint, because Qin Yuan's reputation for exterminating pirates and drug lords during that time was huge. At that time, he said that he would kill pirates every time he saw them.

At that time, her younger brother was killed by Qin Yuan in that state. He wanted to surrender, but Qin Yuan didn't give him that chance.

This is still the man who escaped and the woman she said clenched their fists. Anyway, no matter what, she must avenge her brother.

The few remaining people had blood feuds with Qin Yuan, and their relatives or lovers all died at Qin Yuan's hands.

The man who just did push-ups is the leader of the organization. His name is Bai Yuan. Speaking of the hatred between Qin Yuan and him, there are too many.

Qin Yuan's several extermination operations were all related to him. His sphere of influence is very wide. Before the very beginning, his father was responsible for everything, including the previous research on biological and chemical weapons in Xiaomao. They all participated in it. It was destroyed by Qin Yuan.

He has been hiding in the dark to observe Qin Yuan. This guy is really too strong. At that time, the biological and chemical weapons did not kill him, and there was a danger of nuclear leakage later.

You have to know how many people died in that time and the line, and those who were contaminated by nuclear weapons in the end also died in pain.

Unexpectedly, Qin Yuan, who entered the center of nuclear weapons, would have no problems at all. What's more, Bai Yuan went to that place to investigate, and the nuclear devices there had completely disappeared.

This made him feel very unbelievable, so he has been secretly investigating Qin Yuan, this time only through the hands of these people, he wanted to see Qin Yuan's real strength face to face again, so he provoked all parties to let these people attack their Yan country soldiers.

At the moment in the basement, there is a blackboard in front of it. On the blackboard, Qin Yuan's personal information, as well as those of his other team members, are pasted.

However, the information they collected was very little, only one name, and the rest were about Qin Yuan's abilities.

"According to our tests and investigations, this person's speed has even surpassed that of an off-road vehicle, and his smartest thing is to fly to Jinan and play cards. This makes me very puzzled."

"I can't figure it out. My arm was directly pierced by his throwing knife, and then it was necrotic."

The man who spoke was called Da Fei. His arm had confronted Qin Yuan at close range, and was shot through by his flying knife, and he lost consciousness on the spot.

After falling from the cliff, he was saved by the villagers below, otherwise he would have died in Qin Yuan's hands.

Although this man has only one arm, he is a computer expert, and he was responsible for hacking into Long Baichuan's military system once.

But at this moment, an electronic prosthesis was installed on his empty cuff.

"I have to say that this person is very talented. Just think about how a normal person can outrun an off-road vehicle. You saw it in the previous battle. He jumped off the vehicle."

"I think there must be something wrong with his body structure. Under such an intensive battle, he didn't have any problems at all. Moreover, his body's agility is too strong for dodging so many bullets."

Bai Yuan nodded. This is what he wanted to say. The person they are facing now is not an ordinary person. There are many people who want to assassinate Qin Yuan, but they don't have the ability, and some people have tried to assassinate, but they all failed. end.

If they want to solve Qin Yuan, their physical skills must also be strengthened.

At this time, an old man in a wheelchair came out from the darkness. If Qin Yuan saw it, he must feel very familiar. This person is the professor who participated in the genetic research before.

At that time, their so-called anti-cancer vaccines suddenly strengthened people's physique, but a lot of side effects were also produced.

After this experimental base was cracked, most of the researchers had already been arrested. Because of his age, his defense lawyer also gave false testimony on his behalf, proving that he was not involved in this matter, but was forced to do some other research.

In this way, he escaped from prison, but during the previous interrogation process, his legs were directly crippled by those interrogators.

Qin Yuan didn't know about your situation, because the experimental base was established abroad at that time, so Qin Yuan was not responsible for it. He was only responsible for arresting people and reviewing them later, which was resolved by local people.

Although the disability of the old man's leg was not directly caused by Qin Yuan, it had nothing to do with him. If he hadn't exposed the base, they wouldn't have collapsed completely.

More importantly, he still insisted on his own research wholeheartedly. After the old man came in, he took out a USB flash drive from his bag. This time, the data they were conducting research at that time was now being researched secretly by the people he reorganized.

This time the vaccine has been strengthened compared to the previous ones, and it has been tested on animals, absolutely no problem.

"Dr. Amisi, whether our plan will succeed this time depends on your research."

"Don't worry, my research has made a breakthrough, and I have seen significant results in animal experiments, but I still need to improve on some minor aspects, and it will take up to two months."

Bai Yuan nodded, "Then I will give Qin Yuan another two months to live, and I will definitely step on him when the time comes."

The special operations team he organized was not easy, because he was more interested in strength. In fact, most of them wanted revenge, but they were not capable enough. Among the people he was looking for, these few people were considered top-notch.

What he values most is the female sniper in his team. Since her brother's death, she hasn't mentioned her name again, because her name is related to her brother.

She asked others to call her No. 1, because she felt that No. 1 was the boss, and she would defeat Qin Yuan one day to avenge her relatives.

Moreover, their action this time has received the support of many forces. Many people want to solve Qin Yuan, but they have no such ability.

Such a secret operation has been going on all the time, but Qin Yuan and the others don't know that it is the first time he has seen Long Baichuan specially ask people to strengthen their military system.

The radar is equivalent to the eyes of their warship. If it is controlled by the enemy, there is no way to do it, and it is difficult to move an inch.

That's why he suffered such a big loss this time, and Qin Yuan also found it strange that he also wanted to see what kind of strength he had in such a matter.

He sat in front of the screen, intending to look for the traces of the previous hackers, but the traces had been completely wiped out, and nothing could be found.

Qin Yuan shook his head, there was nothing he could do. This hacker was indeed very skilled, and it could be said that his strength should be comparable to his own.

My own hacking level is already world-class. I didn't expect to meet an evenly matched opponent this time. I just don't know if this person died in the previous battlefield. Otherwise, the existence of such a person is too dangerous.

After Qin Yuan went back, he clicked on the system to check. At this time, his meritorious value has been fully credited. When he went down to Long Baichuan and the others, the meritorious value in the system had already been reminded.

Still the same as before, Qin Yuan distributed the merit points to each team member. After this incident, he felt the necessity of being strong even more. He must be strong, and if he falls behind, he will be beaten.

Li Erniu and the others found that his strength seemed to have been strengthened during this period of training. Anyway, he always had this feeling that his body became more and more flexible, and his endurance seemed to have also improved.

After increasing the merit points for them, Qin Yuan planned to conduct a test first. There is no specific number of kilometers, and it depends on when they reach their limit.

That is to say, it is only from such challenges that we can see in what areas and how much their growth is, because their current strength can be regarded as uneven, but there will not be too much difference among them.

When Long Xiaoyun's Wolf Warriors team saw that Qin Yuan and the others were preparing to carry out a long-distance raid with heavy loads, everyone felt a little surprised.

After all, their two special warfare teams are also very strong now. They only need to carry out basic special warfare training and maintain their physical fitness. They train like this, which is to train themselves as recruits.

Suddenly Qin Yuan smiled brightly, if that's the case, then it's better to call the Wolf Warriors squad, and then let them see the gap between the two teams.

"Xiaoyun, is your team interested in competing with us?"

"It's not naive, besides, it's hot weather, what kind of long-distance heavy-duty raids are you doing, it's all left over from playing when you just came here before."

"Could it be that you are afraid, so you dare not compare?"

Sure enough, the best way to deal with Long Xiaoyun is the aggressive method, "Whoever said that my soldiers are afraid, the team I lead is definitely no problem, just compare."

If it was some other sports before, like shooting or rock climbing, they had Qin Yuan in the team, so the chances of winning would be high, but such a long-distance raid will test the endurance of the team.

The strengths of the two teams are also comparable, so if they compete this time, they may have a great chance of winning.

The Wolf Warrior team immediately agreed as if they had been beaten to death. After all, it had been a long time since such a competition.

"Wait, since it's a competition, let's talk about winning and losing first. What if you lose?"

Looking at Long Xiaoyun's raised mouth, Qin Yuan suddenly stepped forward and whispered in her ear, "If we lose, then tonight will be yours."

This guy started to be dishonest again, and he was still in front of so many people. Although he whispered it in his ear, Long Xiaoyun's ears turned red.

"Let me tell you, you'd better be serious, or don't force me to do anything to you."

These words sounded like a baby to Qin Yuan, they were not threatening at all.

"Dragon team, how about this? If they lose, we will maintain the equipment for a week."

Qin Yuan immediately agreed, the bet is not important, what is more important is that he has already foreseen the victory of this battle, because he believes in his meritorious deeds, after Li Erniu and the others are strengthened, there is absolutely no problem .

Long Xiaoyun frowned, "Wait, although I'm talking about you losing, but if we lose, what are you going to do?"

He lowered his voice, "I only have one condition. If you lose, you will belong to me. If we lose, I will belong to you."

Long Xiaoyun gave Qin Yuan a blank look. This guy is always so dishonest, and in front of so many people, isn't he afraid of being heard?

In this way, the two teams have prepared their equipment and started to carry weights. The other people who were training on the playground were stunned when they saw it. What are these two special forces teams doing?

There was even a loaded raid, and it was a long-distance raid, not limited to kilometers.

Because they were not limited to the number of kilometers, they were not in the training ground, but set off towards the road behind.

The surrounding fighters have speculated, who will be the final winner?

"I guess it's the red blood cell team. Their team's overall strength is very strong. This time they should win again."

"Yes, I also think there is no suspense at all. When did their team lose No matter what kind of competition they are in, they are not number one."

"Brother, I think you're going to miscalculate this time, because after all, this is a heavy-duty raid, and it's a test of endurance. They had Qin Yuan in their competition before, and Qin Yuan is the key to their extra points."

In addition to this kind of training with unlimited kilometers, this is the first time everyone has heard of it, and this is simply too \*\*\*\* yourself.

Sure enough, there is a feeling of a top student and a scumbag doing the questions. The top student still doesn't feel satisfied when doing the questions, and he has to strengthen himself.

In this way, everyone has already run for four or five kilometers. Li Erniu felt very strange that he didn't feel anything at all. Has his physical fitness been strengthened recently? Such kilometers are too easy for him.

He turned his head to look at He Chenguang and the others next to him. They were all the same, looking very relaxed.

Maybe it's because this is the beginning, he felt a little bored while running, and started talking with Qin Yuan next to him.

"Brother Qin, why don't we go to the opposite mountain and don't go back tonight. How about we roast rabbits on the mountain?"

"You kid knows how to eat in a day, but this proposal is quite good, yes."

Chapter 965: improved physical fitness

The people from the red blood cell team were still in the front, chatting so easily, the people from the wolf warrior team behind couldn't take it anymore, what happened to them, everyone was carrying heavy loads, and they ran for such a long time in such hot weather.

"I went to the captain, it seems different, why do they feel so relaxed, could it be... @Don't we run the same way?"

"Don't talk now, adjust your own breathing, you are an old special forces soldier."

Although Long Xiaoyun said this, he himself was quite curious about what was going on. He felt that Qin Yuan and the others did not make any effort at all, and everyone was still talking and laughing.

In this way, both sides have already ran ten kilometers, and everyone is insisting. After all, no one has conceded defeat. On the red blood cell team, Qin Yuan observed that they are in good condition, and he is very satisfied with this appearance.

"Brothers, since it's so boring to see you running, why don't I start, let's sing a song to cheer up the fun, the point is to cheer for the teammates behind us."

At this moment, the Wolf Warriors team was completely behind, and only Long Xiaoyun was still in the first place, so she couldn't figure out why other people's red blood cell team could do it, so she felt that her team must be able to do it too.

"Don't give me any advice, just work harder and rush forward."

"Ahem...Captain, this is not something we agree with. The weather is too hot. I feel like I'm going to suffer from heat stroke."

"Don't talk nonsense, just shut up if you can't say anything. Look at how you usually train. They still train the same way as us. Are you even incomparable in physical fitness now?"

At this moment, Qin Yuan and the others had already sang a song, they sang about two tigers, and they looked very happy.

And the sound was getting louder, Long Xiaoyun felt that Qin Yuan definitely did it on purpose, this kid was always showing off in front of her.

After running to the back like this, everyone couldn't hold on anymore, and the scumbag team fell behind even more, and the gap between the two sides was getting wider and wider.

Although Li Erniu and the others were almost at their limit, they were much better than before.

The members of the Wolf Warriors team couldn't hold on anymore, they were all asking how far away they were, but what Qin Yuan said today was to limit the number of kilometers, that is, to run to which side to lie down.

"Captain, I really can't do it anymore. We estimate that we will have to go 20 kilometers now. It's the first time I've run so far. Even if you usually practice extra, it's not that exaggerated."

"Captain, is it true that our certificate can't run away? After all, it's our own team, and I don't feel ashamed to admit defeat."

"No, you must insist on it."

Even though Long Xiaoyun said so, she herself couldn't hold on any longer, and she had already begun to pant faintly.

In the end, seeing that everyone couldn't hold on anymore, Qin Yuan had no choice but to give the order, after all, his goal had been achieved.

He is very satisfied that the red blood cell team can reach this endurance level now, although compared with him, it is still far behind.

But he thought it was pretty good, Long Xiaoyun looked at them panting, indeed this time she admired them a lot.

Usually in the training process, it's okay to be inferior to others in other events, but this time, she can't compare to endurance.

What method did Qin Yuan use to train the red blood cell team? Long Xiaoyun was also the captain. She could tell that their physical fitness was indeed better than before, because she had also led the red blood cell team for a while before. Qin Yuan went out to perform the task alone.

After everyone got the order, they finally breathed a sigh of relief, collapsed unscrupulously by the side, and began to rest. In this hot day, everyone was about to suffer from heat stroke.

Qin Yuan walked over and handed his water bottle to Long Xiaoyun, "How about it, Captain Long, how is the endurance of our red blood cell team this time?"

"I have to say that you guys are really strong this time. I'm curious about how you train and teach me, so that our team can also improve."

"Well, I can teach you alone, and then you will hand it over to them."

When Long Xiaoyun heard that this was a matter of training after all, her eyes lit up instantly, indicating that there was no problem.

"I will teach you well tonight, don't worry."

"You're really looking for a beating. It's past 5 o'clock now. When will we go back? Who still has the energy."

"Hey, Captain Long just said he doesn't care. Isn't this counting time here? Originally, I decided not to go back to the campsite here tonight. Since Captain Long wants to go back, I will carry it on my back now." You go back immediately."

Long Xiaoyun gave Qin Yuan a blank look. This guy is really getting bolder and more slick with himself now.

But they are really not suitable for camping in this position now. They are all out for training today anyway, and the equipment they carry on their backs also includes military tents.

But they are all small, but this location belongs to a sloping terrain, which is not conducive to setting up tents, and if it rains at night, there will be a risk of mudslides.

"How about this, let's rest for ten minutes first, and then go forward, this time I will take you to train well, and let you see how I usually train them."

Long Xiaoyun nodded, turned to the Wolf Warriors team and said, "You heard it, Captain Qing will take us to train well later, don't miss this opportunity, you know?"

"Yes!"

At this moment, everyone is thinking in their hearts that these two couples are really trying to torture people in different ways.

Seeing that everyone was resting, Qin Yuan also started to lead the team to set off, and he took the backpack from Long Xiaoyun.

Long Xiaoyun is the captain after all, how could she let Qin Yuan take special care of his team members who are training like her.

"Qin Yuan, don't make trouble, return the backpack to me quickly, I can do it myself."

"I'm not making a fuss, and training is over now, so it's not too much for me to help you carry the backpack. It doesn't violate any rules."

"No, anyway, I'm also the captain. You are in front of so many soldiers, which makes me feel too humiliated. I absolutely can't take special care of you."

"You are indeed the captain, but you are also my man, I love my man, can't I?"

At this moment, Long Xiaoyun just wanted to sew Qin Yuan's mouth shut. I don't know how this big speaker did it today. The love talk came and went, and he was afraid that others would not know.

When the people next to him heard this, they couldn't help laughing.

"I said Team Qin, Team Long, can you two stop showing your affection here, we haven't eaten yet, and eating your dog food is enough."

"Yeah, it's really too much for you to think about us single dogs."

Qin Yuan turned his head and looked at them, "Not only will I provide you with rations today, but I will also kill dogs in public."

Long Xiaoyun suddenly smiled softly at him, and Qin Yuan suddenly felt that there was something wrong with this smile.

"So I didn't realize that our Captain Qin is such a gentle person."

Seeing Long Xiaoyun's increasingly weird smile, Qin Yuan felt an ominous feeling ignited in his heart.

Sure enough, Long Xiaoyun stretched out her hands, and Qin Yuan subconsciously wanted to back away, but suddenly Long Xiaoyun gave him a hard look, "Why, are you afraid that I want to run away? This is not your Qin Yuan Captain's style."

"Hey, Xiaoyun, you think too much, why would I think of running?"

As soon as the words fell, Long Xiaoyun grabbed Qin Yuan's shoulders, threw him to the ground hard, then picked up his equipment backpack, and strode forward.

"You all have seen it. This is the end of dealing with hooligans. Whether you are a man or a woman, you must protect yourself. This is what you should do when you encounter hooligans."

Everyone snickered when they heard this, it was so funny, after all, only Long Xiaoyun could treat Qin Yuan like this! Who would dare to throw Qin Yuan directly over his shoulder?

Qin Yuan patted the picture on his body, he was not angry, and stood up from the ground, he just liked Long Xiaoyun's temper, and he didn't know why.

The main reason is that Long Xiaoyun is not hypocritical, he really likes such a straightforward personality, besides, it is just a slight shoulder fall, which does not constitute any threat to him at all.

"Brother Qin, I think your fighting skills seem to have regressed. The defense you usually teach us, why didn't you defend just now, and was directly thrown to the ground by the dragon team."

"Hey, you dare to tease me, don't you? Why don't you try it now, and I'll let you know what a backhand is."

"Forget it, Brother Qin, forget it. I'm afraid of you. My shoulder was directly dislocated by you when I was training with you. Have you forgotten?"

"Erniu, I think you just don't know what's good or bad, can the Dragon Team be like you?"

Long Xiaoyun stood in front, turned his head suddenly, and immediately closed his mouth, and there was no sound at all.

Long Xiaoyun's temperament is indeed quite cold, so when he looks at people, he feels a sense of oppression invisibly.

Wang Yanbing lowered his voice and said, "Brother Qin, go and take care of her, I think only you can suppress our dragon team."

"Don't push me, I don't dare to go forward! It's not that I don't dare, I respect you, you know? Good men don't fight with women, have you ever heard this saying?"

"Cut! If you are afraid of your daughter-in-law, you are afraid of your daughter-in-law. Just say it out."

Qin Yuan felt very speechless for a while, and he didn't know what to say. Long Xiaoyun walked in front, and he heard all these words, and he was very happy in his heart.

In this way, everyone walked for more than half an hour. Qin Yuan looked at the mountains and rivers here, and there was a message next to him that he could fish in it, so he would definitely not have to worry about dinner in the evening.

"This location is good. Everyone is stationed here. These few days are equivalent to me giving you special training."

In this way, everyone began to assign work, some specially set up tents, some went hunting, and then fished beside them.

There are a lot of hares and pheasants on this mountain, and Long Xiaoyun is also very interested. He and Qin Yuan are responsible for finding the pheasants and hares.

Originally, Li Erniu was very excited and wanted to go with Qin Yuan, but He Chenguang grabbed him.

"I said, why don't you have any vision, kid? Can you let the two of them get along alone? Usually, there are very few opportunities for them to get along with each other."

"Yeah, you don't even look at your big light bulb."

At this moment, Qin Yuan and Long Xiaoyun have already set off, but it's strange to say that there are really a lot of pheasants on this mountain, and Qin Yuan's eyesight can be regarded as top-notch, but now he didn't even see a single pheasant .

Originally, he wanted to show off in front of Long Xiaoyun, but the prey didn't even see it.

The two walked for a while, and there was already an open plain ahead. At this time, Long Xiaoyun suddenly saw a small hole in front, with a pair of ears sticking out, it was a hare.

"Qin Yuan, look at the rabbit in front of you."

Qin Yuan nodded to indicate that there was no problem. He aimed and just pulled the trigger, followed by a huge explosion.

Let me go, what is the situation, where is the explosion, Qin Yuan quickly stood up to check.

At this moment, he saw a cannonball drop from a distance of more than 100 meters directly in front of them.

Long Xiaoyun felt a little strange, this is not a military restricted area, if it was a military restricted area, there would be their soldiers patrolling below, and they would block off the mountain road, just to prevent them from being hit by shells during training.

They didn't see any patrolling people along the way, and they waited for a few more minutes, but there was still no other movement. It seemed that the shell should have deviated from its course.

Qin Yuan walked over and looked at this shell. This is the howitzer of the Type 95 main battle tank. Good guy, it has to be said that they are very lucky.

The explosion range of the Type 95 howitzer is 800 meters. In their position, this area will be affected. Unexpectedly, there was no explosion after it fell.

"Xiaoyun, it seems that we are lucky, this thing doesn't explode often."

"This area is all grass. It is estimated that when it deviated from the route, the location was not accurate, so there was no explosion for the time being, but it is still a safety hazard."

Compared with this Qin Yuan, I want to know which team made the oolong They actually deviated the howitzers. Fortunately, they met them. If they really met some ordinary people, it would be a success. There was an accident.

Qin Yuan walked over, picked up the rabbit and put it beside him, then took out a dagger and stepped forward.

"Qin Yuan, what do you want to do?"

"Of course it's bomb defuse, otherwise what would I do here with a dagger?"

"You are not joking with me, this is a howitzer is not an ordinary mine, you actually said that you are going to dismantle it."

"Of course, do you think I'm a joker? Besides, this howitzer has been here all along, and it's a safety hazard. Anyway, I'll dismantle it for him. When the people from their army come to look for it, they will also dismantle it."

Well, even if Qin Yuan helped them, Long Xiaoyun thought it made sense, but she had never experienced dismantling a howitzer before.

Looking at Qin Yuan's confident face, Long Xiaoyun felt a little unbelievable. Although the howitzer can indeed be dismantled, this is a matter for their armored troops.

Chapter 966: Dismantling the Howitzer

To be honest, they have not received such training, because the shells of the Type 95 main battle tank fall like this, and the possibility of not exploding is very low.

So even their armored forces rarely have such a situation.

Qin Yuan was very confident, and walked up with a dagger in his hand. Long Xiaoyun wanted to stop it, but she was also curious. She wanted to see how Qin Yuan would dismantle the howitzer.

"How about Captain Long? If you are afraid, you can leave first."

"You just have to concentrate. Besides, what's the use of me retreating? With the power of this shell, the range of 800 meters cannot be spared. Where can I retreat?"

Qin Yuan smiled and began to squat down to study. Just when his hand touched the main battle shell, a reminder sound came from his mind.

Sure enough, it seems that this thing can also be recycled.

"Drip! It is detected that the host has come into contact with the howitzer, but it can be recycled. The recovery will be converted into the following skills. Please make a choice for the host."

"1. A world-class artillery research master will receive blueprints and become an artillery research expert."

"2. World-class blasting masters, at the same time reward various bomb research values, precise blasting, directional blasting, nothing to worry about."

"3. A world-class bomb disposal expert, there is nothing that cannot be dismantled, only that it cannot be dismantled!"

Qin Yuan listened to these three skills, and he carefully looked at them. If according to the current situation, he really chose the third one, that would be the most ideal.

However, this system seems to be playing tricks with him. First, if he becomes an artillery expert, he will be able to understand the structure of the entire artillery. As for bomb disposal, he has no problems before.

Now even if he chooses the third skill, it's useless, it just strengthens his previous bomb disposal skill.

So he directly chose the first one.

"Drip! Congratulations to the host for winning the title of world-class artillery master!"

As the system's prompt sounded, Qin Yuan felt a lot of blueprints rushing in his mind, and the structure and functional performance of those artillery chariots were all displayed in his mind.

And this world-class artillery master actually has other blueprints, which are not just the ones they have developed now.

The corner of Qin Yuan's mouth turned upwards, as expected, it was the right choice to choose this skill, and he was almost tricked.

At this moment, Long Xiaoyun, who was squatting opposite Qin Yuan, looked at Qin Yuan with a smirk on his face, but he didn't dare to disturb him. After all, the movements of the two of them must be very light now. The howitzer will explode at an unknown time. This is a time bomb .

She could only shout in a low voice: "Qin Yuan, what's your situation?"

It was only at this time that Qin Yuan came to his senses. After all, he was receiving those blueprints in his mind just now, so it took a certain amount of time.

"I said, can you do it? Otherwise, don't try it, let their own troops come over, because they have a position, and they should come soon."

"Don't worry, why are you so unconfident about your husband?"

Although the relationship between the two had been established long ago, Long Xiaoyun still blushed a little when Qin Yuan said this suddenly, and she felt quite embarrassed.

Now Qin Yuan has become a master of artillery. He knows the structure of these howitzers very well, so he directly disassembled the howitzer with that dagger, and then disassembled the shell. This process directly made Long Xiaoyun feel I was dumbfounded.

Because Qin Yuan was so familiar, he felt that the artillery chariot was the one he studied, and he even explained every part beside him.

Long Xiaoyun learned a lot from the side, because they only needed to have a general understanding of artillery chariots before, and they could operate them.

"I'm really curious, what is in your mind, and when did you learn the research of artillery chariots?"

"Well, it's all trivial. I came into contact with them occasionally during the training before, and I only learned it for a few days."

Qin Yuan explained with a smile, Long Xiaoyun couldn't believe it, this is the result of studying for a few days?

At this time, they also heard movement in the distance, and a small pair of soldiers were moving towards this side in an off-road vehicle.

They held positioning instruments in their hands, and the screen showed that the shells landed at this position. They were the 607 troops stationed here, and their troops belonged to a heavily armored wing.

Artillery installations like theirs are now calculated by computers. As a result, there was a little deviation in the calculation process today. There was a deviation of 0.1 on the computer, but in the actual launch, the deviation was several kilometers away. .

Everyone knows that the shells are offset, and they are very nervous. After all, if they are not careful, military accidents will occur.

Fortunately, this area belongs to the mountains, and they did not hear the explosion. It seems that the location is not accurate, and the shells did not go directly.

So their company commander personally took them to recover and dismantle the shells.

As a result, two soldiers were seen squatting there from a distance.

"Hey! Comrade, quickly withdraw and don't move around!"

At this moment, the company commander squinted his eyes and looked at the two people in front of him. He always felt that the clothes were quite familiar, not like the equipment clothes of ordinary companies.

At this moment, Qin Yuan has already dismantled the howitzer, and was just explaining the internal structure to Long Xiaoyun.

Long Xiaoyun looked at Qin Yuan admiringly. Although this guy was usually a badass, he really knew a lot at this critical moment.

Just like this time, he was very serious when explaining the problem, and he also had a good understanding of howitzers.

When Qin Yuan heard the commotion behind him, he also stood up and said hello, "It's all right, I have dismantled your howitzer."

They were all very surprised when they heard this. How could this be possible? After they got out of the car, they came to the position of the shell. The howitzer had been completely disassembled, and every part was placed beside it in detail.

The company commander next to him noticed that Qin Yuan and the others were dressed like they should belong to the special brigade.

The howitzer was dismantled by him in this way, but this also successfully resolved a crisis.

"Comrade, I really didn't expect that you would dismantle our howitzer with a knife. I really never expected it."

"Actually, as long as you understand the structure, you can dismantle it no matter what tool you use. Since I didn't bring any professional demolition tools, I only had this small knife on me, so I could only use it."

Everyone was very surprised when they heard this. What this person said is too simple! Moreover, if it were someone else who dismantled this howitzer, they might not know what it would look like, but they were very low-key.

"Comrade, anyway, thank you very much. This time it was a mistake in our work. Fortunately, there was no explosion, otherwise the consequences would be unimaginable."

"It's okay, there is no crisis now, then you can use your things back, we happen to be training here, and this is just a matter of effort for me."

This person is too low-key, and his strength is also very strong, the company commander looked at Qin Yuan in front of him with admiration.

Looking at the two people in front of him, he always felt a little familiar, but he couldn't remember where he had seen them before.

At this moment, Long Xiaoyun walked over and picked up the rabbit, "We took this rabbit back for a long time, I'm afraid it's hard to explain, let's go ahead and see if we can find other ones."

"Don't worry, with you, Brother Qin, there will be absolutely no problem."

"I see you want to be beaten."

The two walked into the jungle behind talking and laughing.

At this time, the company commander slapped his thigh and remembered, where had he seen these two people before, Long Xiaoyun had performed teaching tasks in their company before, and at that time he had just glanced at them from afar.

"Company commander, do you think our shells are too simple, or they are too powerful."

"It must be that they are too powerful. You don't know what the identities of these two people are."

These two people are the special operations captains of the Wolf Warrior Commando and the Red Blood Cell Team!

Hearing his company commander's explanation, the soldiers next to him also recognized it. They didn't expect this to be the legendary God of War.

This is simply too low-key, these new recruits just entered this year, they have all heard of Qin Yuan's deeds before, but they did not expect this person to be so low-key.

At this moment, everyone has started a fire on the shore, and He Chenguang and the others are fishing nearby. For them, these basic survival trainings are too simple.

After a while, Qin Yuan came back with a few rabbits and Long Xiaoyun, and everyone around was booing. After all, the two of them had been away for a long time, and only Long Xiaoyun knew that they spent most of their time dismantling bombs up.

I have to say that Qin Yuan's roasted rabbit tastes really amazing, and Long Xiaoyun hasn't eaten it for a long time.

Because although they are said to be together now, the two commandos each perform their own tasks, and sometimes they can't see each other for several months, which is normal.

"Qin team, I think we should strengthen our joint training a few more times in the future. It would be really cool to be with you."

"You kid knows how to eat in a day, and you don't want to improve your level, so you have the nerve to say it."

After all, they lost again in this competition. In the previous competition on the training ground, it was fine if they lost. This time, they have never competed in the endurance competition.

"Hey, Team Dragon, that's not the way to say it. After all, someone has to be number one. Besides, we can also train slowly."

Fortunately, their opponent is Qin Yuan, and they are all on the same team, so even if they lose, they won't be ashamed.

Although Qin Yuan said that during the day, he deliberately teased Long Xiaoyun. After all, there were so many people, and the two of them slept separately.

When Long Xiaoyun got up the next morning, he found that Qin Yuan was already doing push-ups beside him, and he was quite energetic.

When Qin Yuan and the others went back, many of the team members came up to ask them about the results of the competition. After all, these two special forces teams are relatively tough in the team.

"The result of the competition is naturally similar, we drew a tie."

The members of the Wolf Warriors squad did not expect Qin Yuan to behave like this. To tell the truth, they gave them too much face. Not only did they maintain their image, but they were also too low-key.

They have already surpassed them by a long distance, and they are no match at all. It has to be said that Qin Yuan does have the style of a general.

After this competition, Long Xiaoyun led the members of the Wolf Warriors team to train hard, and she must catch up with Qin Yuan.

It's hard for Qin Yuan to say anything, but he doesn't have much meritorious service right now, and if he barely distributes it to Li Erniu, they are already enough.

Let's see later, if you have more meritorious service, it is not impossible to strengthen Long Xiaoyun and his team.

Unexpectedly, a few days later, a reward order suddenly came to their special forces.

Gao Shiwei smiled and called Qin Yuan to the office.

"You kid is getting more and more low-key now, you don't know to tell me when you do something good?"

Qin Yuan was stunned, he didn't go anywhere recently, he was training in the team every day, as if he didn't do anything.

After Gao Shiwei finished speaking, he put the certificate on the table where he took a photo.

"You did a good job, kid. Do you know that the chief of Unit 602 is an old antique. He usually sneaks around very much. He doesn't even pay much attention to us."

"He personally issued a commendation order to you. This honor is far greater than any fame. This is really rare. Their chief never praises anyone."

It was only when Qin Yuan received this that he remembered that he dismantled the howitzer before, but it was nothing to be proud of, he just dismantled a shell at random.

But this is just Qin Yuan's oversimplified thinking. If the shell explodes, it will be damaged, so Qin Yuan can be considered to have lifted the crisis in advance.

The head of the 602 is an old man over half a century old, but he is very arrogant. Their unit is also a veteran ace unit. They have been selected by their special operations unit before, but they have persisted and their results are not bad.

It has been baptized three times, but their troops still maintain a complete establishment without any changes.

From this point, the strength of and their troops can be considered very strong. No wonder Gao Shiwei is so happy. With this award, he is eager to show off everywhere.

"By the way, the old chief wants to meet you. After all, we haven't really learned how to dismantle this main howitzer. How did you know it? I'm curious."

"Hey, Captain Gao, isn't this a simple matter? I have come into contact with this kind of howitzer before."

Gao Shiwei didn't believe what this kid said so easily, anyway, he had already agreed to let Qin Yuan go there to study for a few days, and let everyone learn such bomb disposal techniques when he came back.

Although they don't have much contact with this aspect, but don't worry too much, anyone can dismantle it when encountering such a situation in the future.

"Qin Yuan, be careful when you go. The old chief has a weird temper. If you go, hold back your temper and don't have any conflicts with the people over there."

When Gao Shiwei said this, Qin Yuan felt a little weird, as if he had been betrayed.

Chapter 967: 1 recruit egg

This was inexplicable, and he was sent out again, Qin Yuan also couldn't figure it out, he just tore apart an egg, unexpectedly, it aroused the attention of the old chief over there.

Qin Yuan came back to pack his luggage. He will go there to report tomorrow morning, but he estimated that the time to go this time should not be too long. Besides, he is going to study this time.

"Brother Qin, why are you going out again? I feel that after your training for a while, the overall quality of our team seems to have been improved."

"Yes, I already feel that my own abilities have become stronger. Your training method is simply too effective, although I don't know exactly where it is."

"But our abilities have become stronger, which I can feel."

Qin Yuan laughed, of course, if they could feel it, it would be strange to blame him, but the meritorious value added for them was all earned by completing the task by himself.

"You guys just continue to do the training I explained this time. Don't worry, I won't go for a long time this time, maybe I'll be back in three or four days."

Qin Yuan thought that he was going to study there anyway, besides, he didn't need to learn too many things there, his current focus was not on those.

Besides, he is more at ease with the red blood cell team, even if he doesn't ask them about their training, they will train seriously.

In this way, the next day Qin Yuan came to Unit 602 with his luggage on his back. This unit is quite mysterious. After all, it still maintains the previous designation. This is relatively rare, and it is purely an old unit.

However, their troops were far away. When Qin Yuan arrived at their troops, it was already past two o'clock in the afternoon.

The main reason is that they belong to heavy artillery and the like, which requires remote battlefields, so their positions are relatively far away.

When he was still registering at the gate guard, he heard the sound of shelling from inside. It was really deafening and could be heard from this position.

Immediately afterwards, a squad leader ran over to take him.

"Captain Qin, you have worked hard along the way."

"By the way, it's nothing. By the way, should we go to the army to report now, or where?"

"Our chief said he wanted to see you, so he told me that if you come over, he will take you to the office first."

The squad leader was also very polite. The two of them chatted along the way, and they came to the office like this. Anyway, the structure of the army is similar.

It's just that when the squad leader was sending Qin Yuan in, he suddenly said, "Captain Qin, our chief has a bit of a bad temper, don't mind."

What kind of temper is this? Several people have reminded him that after Qin Yuan entered, he saw a middle-aged man sitting in the office.

Looking at the epaulettes of this middle-aged man, he should be the head of the regiment. According to them, the old chief should not be this person. After all, the age does not match, and the rank also does not match.

"Report! Qin Yuan, the red blood cell team of the special brigade, came to report."

"Your special forces are fast, come here quickly, you have worked hard along the way."

The head of this regiment is very polite. He is the head of the Third Army of the 602 Unit, because the profession of artillery is quite special, and they have been training in the field for many years.

"Captain Qin, you're welcome, but our old chief has already gone to the artillery base, and you can see him in a few days."

The man in front of him had dark skin, and he grinned his white teeth when he smiled, "Captain Qin, don't be shy, just treat this place as your own home, anyway, we are all comrades, let's learn from each other, I've heard about your reputation for a long time."

"Leader, you are too polite, these are all false names, and this time I also based on what our high team said, I came here to learn from you with humility."

Anyway, Qin Yuan is trying to keep a low profile at the moment. This is what Gao Shiwei told him before he left. Although he hasn't met the mysterious old chief, he just came to his place, so he should keep a low profile.

"Hahaha, you are quite different from the legends. I originally thought that a proud man like you, a \*\*\*\*\* of war, must be crazy, but quite humble."

He really admired Qin Yuan. After all, Qin Yuan was able to dismantle the shells of the Type 95 main battle tank without any special training. This was really unbelievable to them.

If it were someone else, they would have publicized the incident as a long time ago. As a result, Qin Yuan was very low-key and didn't mention it at all. It was the commendation they offered on their own initiative. Only after the award order was issued, the military region knew about it. .

After coming out of the office, Qin Yuan felt that there was nothing different, and he was very polite anyway.

There was a soldier in front of him who came to help him carry his luggage and took him to the place where he lived. At first, Qin Yuan thought that he just did a small thing, didn't he just dismantle the howitzer of a Type 95 main battle tank?

In his eyes, it felt like dismantling an ordinary bomb, no different.

As a result, the little soldier told him on the way back with him that there were very few people in their team who would dismantle such main battle tank shells.

So the old chief set up a special class to train the dismantling of the main battle howitzer. They are different from other artillerymen in that they specialize in how to dismantle the howitzer.

This is also a team that has just been formed in the past two years, but this is not so easy to complete. If you want to dismantle a grenade, you must first understand its structure.

So it was not easy to set up that class. It was all about the elite talents in it, and several of them were even graduate students.

That time Qin Yuan was going to study in this class. The soldier was very proud of that class, after all, the people in it were highly educated and capable.

While speaking, the two arrived at their place of residence. They also took this matter of Qin Yuan's arrival very seriously, and specially arranged for someone to meet him at the stairway.

When they saw Qin Yuan coming, they began to applaud enthusiastically. After walking in, Qin Yuan found these people. She knew that they were the soldiers who came to dismantle the grenades that day.

These few came by car that day, and he had never seen the ones behind.

"Warmly welcome Captain Qin to come to my class for study guidance, welcome everyone!"

"It's not a study guide, we are learning from each other."

"Captain Qin, you are too humble. Our chief values you very much, and you are really too low-key."

In fact, Qin Yuan didn't have much luggage, so he brought a carry-on bag with a few changes of clothes in it. He thought it would take two or three days at most, but he didn't expect the soldier who brought him here to say:

"By the way, Captain Qin, our chief told your high team to let you conduct a one-month guidance training with us."

what! Qin Yuan suspected that he had heard it wrong. Lao Gao didn't tell him what happened.

No wonder when he set out, Gao Shiwei's cautious eyes, he knew he had fallen into this old fox's trap, did he really intend to sell himself to Unit 602?

The main reason is that if Gao Shiwei had said in advance that he would come for a month, then Qin Yuan might not have planned to come.

But now that everyone has come and there is no other way, Qin Yuan can only nod helplessly in agreement, it must be crazy for a month, here, he really doesn't know what else he can learn.

After all, these things are too weak for their special operations forces. They can't carry these artillery to the battlefield at that time. What they are supposed to perform is special operations in the form of individual teams.

I really don't know what kind of medicine these old foxes sell in the gourd.

Qin Yuan's room was separate, just next to their squad, and two soldiers came in after a while, and a squad leader brought the squad deputy in, and introduced him to the specific situation inside.

This squad leader is called Wei Xi, who has the same name as him, and he also smiles when he sees Qin Yuan.

According to their introduction, because their class is special, it was established independently, so the tasks and daily training are different from theirs.

They not only have to disassemble the howitzer, but also calculate the launch trajectory of the howitzer, these things belong to their scope.

After all, they are high-achieving students, and such high-precision calculations are all performed by them.

"Captain Qin, we are explaining it like this now, and it may feel a little boring. You will know when I take you to the training ground tomorrow. It is very shocking."

"It's nothing boring. After all, I have also learned some theoretical knowledge before, and I still have some research on artillery chariots."

"That's really great. If you have basic theoretical knowledge, we can study together tomorrow."

Da Fei was quite happy. After the arrangements here, Qin Yuan had nothing to do and was going to rest early. Anyway, the old chief hadn't shown up.

In addition, they had been instilling that the old chief had a great temper, so Qin Yuan became a little cautious. If he didn't see him, it would be fine, and he would save himself the trouble of pandering.

The next morning, Da Fei took him to the training ground. Their training ground was also far away. After coming out, it was a desert from a distance.

This area belongs to the military restricted area. This main battle tank is different. There are all kinds of artillery. If there is a slight mistake in the type of tank, the deviation will be several thousand meters.

Therefore, their training range is very large, and a few kilometers around belong to their training range.

Because of the artillery training for many years, the wind and sand here are relatively large, and there is no way for the off-road vehicles with bumps in front of them, so they can only sit in tanks and chariots, which are very bumpy in the compartment.

"Captain Qin, this is probably the first time you have made such a tank."

"It's not the first time. I've already had contact with it before. After all, our requirements are basic tanks. We must be able to drive all types of chariots, as well as basic fighter jets."

"I've heard about your reputation a long time ago, but I didn't expect to ask for so many things. It's simply too powerful."

Qin Yuan just smiled. Half an hour later, they arrived at the real training ground. After getting off the car, Qin Yuan saw several Type 95 main battle artillery in front of them.

Their training goal this afternoon was to shoot artillery at the high ground ahead, two kilometers away, but today was different, their shooting target was very small.

They are using the computer to calculate the specific mileage, and then launch the shells. Da Fei and the others will be busy after they go down, so they will go to assign tasks first.

Because Qin Yuan was in the special forces, they were still classified as secret forces, so he didn't wear epaulettes, but just wore ordinary camouflage uniforms.

He walked down with his hands behind his back, looking at the artillery in front, the artilleryman next to the chariot thought he was a recruit who came down to study.

"Hey! That new recruit."

Qin Yuan didn't respond and squatted down to look at the howitzer inside, but the soldier next to him didn't give up, and continued to shout: "Hey, that recruit is talking about you, why didn't he respond when he called?"

Only now Qin Yuan turned his head and pointed at himself in doubt, did he mean himself? It's been a long time since no one called himself a recruit.

"Yeah, why do you feel like you came to this place in a daze, you should be smarter, you know, although I know you have never seen such an artillery chariot, you are more curious, and you can understand."

Qin Yuan felt speechless for a moment, because he squatted down just now and just glanced at it. The howitzer inside was a little different from the one he dismantled that day. It seemed that there were still two forms.

Seeing that Qin Yuan ignored him and lost interest, he just felt that these new recruits are too exaggerated. As a veteran, he wanted to explain a few words, seeing him so curious, since that attitude, let it go.

At this time, Squad Leader Wei walked over, holding the blueprint with a smile, and began to carry out a practical push-up drill on the target ahead.

The target this time is very small. Although they can't be accurate the first time, they can carry out repeated experiments. Qin Yuan is beside him, just glanced at the calculation method on the blueprint, and then slowly He said, "Squad Leader Wei, the values you made have deviated a bit. It's too bad. If you change it a little bit like this, I don't know when it will be changed. It's best to adjust the coordinates now."

This was calculated by computer, unexpectedly Qin Yuan could see where the error was at a glance.

When the soldiers heard what Qin Yuan said, they were dissatisfied and frowned, "I said you are too ignorant of good and evil, you are just a recruit, why are you still pointing fingers here?"

When Wei Xi heard that his soldier was talking to Qin Yuan like this, he hurried forward and almost covered the soldier's mouth.

"Xiao Liu, don't talk anymore, just shut up!"

"Squad leader, why don't you let me say it? It's the truth. Isn't this recruit assigned to come here to study?"

At this moment, Wei Xi's face was full of black lines. He directly called a military \*\*\*\* of his family as a recruit, and this person was a legend in their southeast military region.

Chapter 968: bet

At this time, Qin Yuan certainly didn't know what Lei Tong was thinking, but if he knew, he wouldn't care.

After all, Qin Yuan didn't attach much importance to power. If it weren't for the matter of the military factory, Qin Yuan would have cared even less about these matters.

What Qin Yuan wanted was to contribute to the country so that the people of Yan Kingdom would not be bullied in this world.

But if you think about it carefully, if Qin Yuanshang can have more rights, maybe he can do more things...

But these are not important to Qin Yuan now, anyway, doing his own thing well is enough.

Since he was going to see the Mars Competition, Qin Yuan naturally returned to the beast camp together. These days, two veterans, Liu Xiaoshan and Deng Jiuguang, led the training team, and now they are very happy to see Qin Yuan .

After Zhang Chong and Lu Yan saw Jiang Xiaoyu and Xiang Yu, they were also extremely excited, and asked them directly:

"Wow, I heard that this time you directly drove a submarine back, is it true?"

And Xiang Yu didn't say anything, but Jiang Xiaoyu said excitedly:

"Of course it's true. Let me tell you, we brought back the legendary 0 submarine before. I didn't expect it to be the submarine of Lao Maozi, and there are many corpses of Lao Maozi inside. That guy, okay! For decades, the corpses have rotted!"

At this time, Jiang Xiaoyu was talking about hype, and directly coaxed other people to be stunned, and Qin Yuan shook his head helplessly when he saw Jiang Xiaoyu's appearance.

At this time, Long Baichuan on the side said cheerfully to Qin Yuan:

"I finally hoped for you to come back. To be honest, if you were to be separated, I don't think you are so safe this time! Fortunately, both Xiang Yu and Xiaoyu are back, and you I also became a consultant, I guess with you watching this time, I will definitely win the championship this time."

When Qin Yuan heard this, he also said directly to Long Baichuan:

"If you say this, I guess those two veterans are unwilling. I think after such a long time of training, this time the Mars competition must be sure to win. Don't worry, I will definitely bring you back the trophy!"

"Hahaha, that's good, then I will wait and see, in fact, we are going to set off soon, so I will not take you to repair, take a good rest on the flight, oh, yes, this time the consultant You're not the only one."

Long Baichuan was also very happy to hear this, but he just mentioned something else.

"It's not just me as an advisor, who else?"

"Of course it is me!"

At this time, Shen Ge rushed over directly, smiled at Qin Yuan, and then said to Qin Yuan:

"I'm your life consultant this time. If there is anything that is not fully prepared, you can tell me directly, and I will prepare it for you."

"It turned out to be you. I thought it was some kind of mysterious person, so I'll leave it to you this time!"

Qin Yuan looked at Shen Ge, and said cheerfully, to be honest, I haven't seen him in the past few days, and found that Shen Ge's figure seems to have improved a bit.

And Shen Ge also noticed Qin Yuan's messy eyes, rolled his eyes at Qin Yuan angrily, and said to Qin Yuan:

"But this consultant is not just the two of us, there is another one."

"Also? Who is it? What's going on in this competition? Why did you send so many consultants?"

Qin Yuan was really puzzled at this moment. Although the Mars competition was indeed a very important event, it wouldn't be possible to send so many people over to watch it, right?

"it's me."

At this time, a long voice came from behind Qin Yuan, and Qin Yuan turned his head to look, and found that Tang Zhou was standing behind him. Now Qin Yuan's eyes widened, and he looked at Tang Zhou in disbelief. said:

"What? The consultant is you, what are you going to do?"

"Hehe, in fact, you and Shen Ge are both consultants in our team, and this Comrade Tang Zhou is a consultant arranged by the superior. According to the level, although you are considered equal, you have to take good care of it. Comrade Tang Zhou."

This time, Long Baichuan said with a deep meaning, but after Qin Yuan heard this, he just frowned, completely puzzled.

But at this time, Qin Yuan suddenly heard a voice:

"You don't really think that you are here to be this consultant, but don't forget, the superior still has tasks for you!"

At this time, Qin Yuan was really shocked, because he heard the voice, it was Tang Zhou's voice, but he glanced at Long Baichuan and Shen Ge, and found that neither of them had noticed. His eyes lit up immediately, isn't this the legendary sound transmission from thousands of miles away?

This is a good skill, whether it is fighting to pick up girls, it is very useful!

So Qin Yuan looked at Tang Zhou's eyes, and suddenly changed. He felt that this person seemed to have many abilities that he didn't have, but he had to squeeze them out!

And Tang Zhou also suddenly felt that his body was a little cold, but he gave Qin Yuan a strange look, and shook his head helplessly.

After the pleasantries, Long Baichuan directly recruited troops and lined up. Looking at the people in front of him, he said with a serious face:

"This time you participated in the International Mars Scout Competition to compete with the best scouts in the world. I hope you can show the style of our Yan Kingdom in this competition!"

"Yes

^0^Remember in one second 【】

, Chief! "

But after saying this, Long Baichuan changed the subject and said directly to the others:

"Of course, these are not the most important. The important thing is that you must let the world see the strength of our Yan Kingdom, and you must unite as one. I don't ask much of you. I just want the champion of this competition, Give me all the Warrior Awards back!"

"Yes! Captain Dragon!"

At this time, the people who participated in this competition also had a smile in their eyes, and they were sure about the champion of this competition!

Soon, everyone was ready and started to fly to the venue of this Mars competition!

In this Mars Scouting Contest, there are a total of 40 countries and more than 0 teams. It can be regarded as a relatively grand occasion.

At this time, Jiang Xiaoyu saw Zhang Chong's nervous look, and immediately laughed and said:

"Baldy, do you feel very nervous?"

"I'm a little nervous, but aren't you nervous? This is an internationally famous competition."

At this time, Zhang Chongman looked at Jiang Xiaoyu strangely. After all, according to his impression, Jiang Xiaoyu was not a particularly courageous person.

But after hearing this, Jiang Xiaoyu showed a wry smile. After experiencing the incident in the submarine, it is indeed difficult for Jiang Xiaoyu to get nervous about these things in front of him.

"Hey, it's no wonder that 100 times of training is not as good as an actual battle. Now I can see the gap between the two of us."

At this time, Jiang Xiaoyu pretended to sigh and said, but Zhang Chong was not convinced:

"Hey, stinky fish, are you arrogant, you went to a submarine and don't know what your last name is? When we land, let's have a good fight to see how much you have grown. How many catties and taels!"

"Tch, I'm not going to fight you."

On the other hand, Qin Yuan saw the appearance of the two of them, but frowned and said:

"Okay, okay, you two will feel uncomfortable if you don't pinch for a day, right? If you feel that you can't run out of strength, give me a good exercise!"

"Hmph, smelly fish, do you dare?"

"The body training technique is too small, we may not be able to use it, but I have another idea, come on."

Saying this, Jiang Xiaoyu directly made a demonstration. He directly propped himself on the support on both sides, and then let his \*\*\*\* leave the seat. Then they said to Zhang Chong provocatively:

"The two of us are better than this. Let's see who lasts longer, dare you?"

"Hmph, why don't you dare, you kid is definitely not my fault!"

Zhang Chong knew that this kind of movement seemed to exercise his shoulder and back muscles, but this kind of thing was fine for a short time, but if it took a long time, it would be really difficult to persist.

But how could he be afraid?

Seeing the appearance of these two guys, Qin Yuan also shook his head, and said directly to Tang Zhou on the side:

"I made you laugh, these \*\*\*\* all look like this!"

When Tang Zhou saw the appearance of these two people, he was a little dumbfounded. He originally thought that Qin Yuan's behavior was very serious, but he didn't expect that he would participate in the competition soon, and he would even think about doing such a thing.

"Now I know how your personality was developed. I'm afraid the soldiers you have are the same as yours."

It's just that after hearing this, Shen Ge, who was on the side, squeezed over directly, and said to Tang Zhou:

"Comrade, from your words, you seem to have met Qin Yuan before?"

And Xiang Yu said directly: "Tang Zhou is a member of the team newly formed by the captain, and he is a very powerful Gao, you must not underestimate him!"

Although Xiang Yu hadn't fought Tang Zhou before, Xiang Yu knew it just by seeing Tang Zhou come out. I will definitely not be Tang Zhou's right.

"Oh?"

At this time, Shen Ge was also surprised. Although Tang Zhou was tall and thin, he didn't look very strong, and he didn't look like he was very capable of fighting.

"He has dealt with the captain before, and there is no winner!"

Xiang Yu whispered to Shen Ge, but after Tang Zhou heard it, he shook his head and said to Shen Ge:

"Although I have fought against Qin Yuan, I am not his right."

It's just that Shen Ge looked at Tang Zhou in the wrong way. After all, Qin Yuan's strength is already very famous in their sea training camp.

It's not Qin Yuan's fault, that's a normal thing, but seeing Tang Zhou's appearance, he should have had a good fight with Qin Yuan, which is enough to prove how tyrannical Tang Zhou's strength is!

But at this time, Qin Yuan showed a smile, and said to Tang Zhou quietly:

"Anyway, if you're idle, you're idle. Why don't you compare the two of us? If we can win, how about agreeing to one condition?"

When he heard Qin Yuan's words, Tang Zhou's brows immediately tightened, but when he saw Qin Yuan's shining eyes, a strange idea suddenly appeared in his heart, and then he said to Qin Yuan:

"You're not planning on my secret technique, are you?"

"Ah? What are you talking about? Why did I come up with that idea? It's just that I want to make good gestures with you, and then I have some confusion about martial arts, and I want to communicate with you..."

Qin Yuan didn't expect that Tang Zhou could see his own at a glance.

^0^Remember in one second 【】

Thoughts, but this matter is naturally unacceptable, so Qin Yuan immediately made a haha, wanting to turn this matter over.

"Okay, in fact, it's not impossible for you to want this secret technique, but if you lose, then you have to tell me the secret in your heart."

At this moment, Tang Zhou said to Qin Yuan with deep meaning, and Qin Yuan saw the other party's eyes, froze for a moment, and nodded.

"Okay, since you agreed, how do we compare?"

Tang Zhou asked Qin Yuan directly, but Qin Yuan looked at Jiang Xiaoyu and Zhang Chong:

"Then compare it to this. Anyway, it will take a few hours to reach the goal now. No matter how we can tell the winner."

Tang Zhou also nodded when he saw Jiang Xiaoyu and Zhang Chong's flushed faces.

And the other people on this side are also excited. After all, Jiang Xiaoyu and Zhang Chong are already exciting. Why are Qin Yuan and Tang Zhou now also compared?

"Get ready! Start!"

At this time, Xiang Yu was the referee, and after that, Qin Yuan and Tang Zhou lifted their butts off the seat, supported the assistant, and then compared like this.

But both of them are powerful people It is not difficult for them to do such a thing.

These two people didn't look flushed like Zhang Chong and Jiang Xiaoyu, but they looked like normal people.

And seeing the appearance of these two people, the other people are also excited, each of them is supporting Fu, wanting to test how long they can last.

The one with the shortest persistence is naturally Shen Ge. After all, she is a girl. Although she has also undergone training, she is still much worse than these animals that have undergone body training!

And the second is Zhao Ziwu and Balang who are filling in. They are here to fill in. They are the two weakest people in this team.

And after that came Jiang Xiaoyu and Zhang Chong. After all, the two of them started relatively early. After persisting for a while, they couldn't hold on anymore.

And the others couldn't hold on one by one. In the end, only Qin Yuan and Tang Zhou were left. The two of them still looked normal and propped themselves up on the chairs!

Chapter 969: old man touching porcelain

In this way, the shells were fired, and the dust was raised. The surname Zhao was more satisfied. At least this time, your target was closer than before.

"Report! The distance from the target is 400 meters away."

The person surnamed Zhao was completely stunned when he heard this, how is this possible? He said Mi, this is too exaggerated.

Wei Xi applauded directly beside him. He applauded not for Zhao, but for Qin Yuan.

"Captain, you are amazing. You can know the specific deviation from the target before the shells are fired. Don't tell me you can tell your fortune?"

"Squad leader Wei, what you said is wrong. It's actually very simple. I just took a look at Comrade Xiao Zhao, and compared the coordinates he calculated with mine, so I can clearly know where it falls."

Although he said it so easily, everyone was still very shocked. Even if the two sets of coordinates were compared together, they couldn't tell exactly where they fell. This is simply amazing!

Next, it was launched at Qin Yuan's coordinates, and the result was still not unexpected. Qin Yuan won, and the surname Zhao was completely stunned. He couldn't believe it. If the first time was a coincidence, then what is the second time? , Does this person really have such a strong strength?

For a moment, he was a little skeptical. He wondered whether Qin Yuan came out of the same school as him, or whether he had studied this aspect before.

But he thought about it for a long time, and he was sure that he had never heard of the name Qin Yuan before, and he must be a legend in school if he could achieve such precision.

"Which school did you graduate from?"

"It doesn't matter which school I graduated from, but what I can tell you is that I didn't have any exposure to these before I joined the military, and I didn't go to military school."

The people around also clapped their hands. This love is really too strong. They have seen what real strength is just now, especially the soldier named Qin Yuan's recruit Danzi just now.

He stepped forward with some embarrassment, and personally apologized to Qin Yuan. After all, he was blind just now, and now seeing Qin Yuan's strength, he really admired him from the bottom of his heart.

"It's okay, everyone doesn't need to apologize, after all, we are all comrades in arms, and I came here this time to guide and study with you."

Wei Xi instantly felt that Qin Yuan was too low-key, this is not a guide to study, it is no problem to guide them completely.

"However, Comrade Xiao Zhao, you have to fulfill your promise. You have to apologize to the squad leader, and you really need to change your attitude."

The one surnamed Zhao frowned. It was fine for this guy to ask him to apologize, but why did he put on an educational attitude? What is he?

Although he was indeed better than himself in this aspect just now, but so many years of teaching experience, coupled with the achievements made here, made the surname Zhao very proud.

She felt that he would not convince anyone except her own teacher, especially the basic companies like them, which were not worth mentioning to him at all.

Qin Yuan also saw the dissatisfaction in this guy's eyes, and it seemed that he was still not afraid.

The heart surnamed Zhao said an apology reluctantly, and he was not sincere at first glance. Fortunately, Squad Leader Wei gave him a step down, and said with a smile, everyone is comrade-in-arms, there is no need to apologize.

Such a person should really deal with him, it is too arrogant.

But anyway, there is still such a long time to come, he is not worried that he will not be able to deal with this surnamed Zhao, he wants to let this person know what it means to be someone beyond others, and there is a sky beyond the sky.

And it was only later that everyone discovered that Qin Yuan not only studied the accuracy of shells, but also the entire Type 95 main battle tank. He was very clear about the structure inside and his specific operating range.

Qin Yuan even acted as a teacher for a while, and was responsible for explaining beside him. Qin Yuan had already explained many details for them that they hadn't noticed.

After finishing this class, Wei Xi immediately felt that he had benefited a lot. They also had to learn this before, but they were all taught by the researchers surnamed Zhao.

But those few people were always arrogant and arrogant, and they didn't use too much sincerity to teach them. Many things were just mentioned in one stroke, so they didn't know much about it.

Now through Qin Yuan's explanation, everyone is suddenly enlightened.

"Captain Qin, I finally understand what the teacher said now. They said that a high-ranking student becomes a famous teacher. I think you are a famous teacher who turns out a good student."

"That's right, when I heard these boring theoretical knowledge before, I fell asleep, but Captain Qin, you spoke very vividly, which left a deep impression on me today."

Everyone surrounded Qin Yuan for a while, and they were very enthusiastic at noon. They went to cook for Qin Yuan in person, and wanted him to stay here for a while.

"Don't worry, I will definitely stay here for a while, because I still have one thing to do, but let's talk about this later."

"Captain Qin, don't worry, just tell us what you want to do. As long as I can do it, I will definitely support you."

"Oh, Squad Leader Wei must remember this sentence, I really need your help later on."

Wei Xi patted his chest and assured that there would be absolutely no problem.

A few more days passed like this, and Qin Yuan's explanations continued, but their training was different from his own in the Special Forces.

The intensity of their training was not that great, mainly because Wei Xi and his team were rather special. They were mainly responsible for bomb disposal and blasting, as well as artillery and chariots.

For this kind of suddenly idle life, it is very boring. The most important thing is that his energy is very strong, and he still needs a lot of consumption every day.

Otherwise, he would really not be able to sleep at night. With his usual high-intensity training, it was just right for him to fall asleep after returning home. But now he can't. He wakes up after two or three hours of sleep at night, and then he can only be in a daze.

In this way, Qin Yuan got up at 5 o'clock in the morning. He went to the warehouse to find equipment, tied sandbags for himself, and started to practice.

His goal was the high ground opposite. The sentry at the gate saw that Qin Yuan took the initiative to train. What is the situation? Those soldiers were unwilling to let them practice, but this guy actually found him to train. He is indeed from the special forces. People are just different.

When they got up, they didn't find Qin Yuan coming out to gather. They thought he had slept, but they didn't expect him to go for a run.

But it's just basic training. The intensity of training like this is too low for Qin Yuan, so he can only do extra training alone.

At this moment, Qin Yuan saw that the sun had risen, and he had already run to the high ground opposite, and was doing push-ups for himself with a sandbag on his back.

At this time, he found that there seemed to be a person in the bushes on the opposite side, and he was hanging on the tree with a rope. Suddenly he felt that something was wrong, and ran over quickly.

After approaching, I could see clearly that it was an old man dressed plainly, hanging from a tree with a rope, looking like he was about to hang himself.

Qin Yuan definitely wanted to prevent such a thing from happening, he rushed forward and carried the old man down.

"I said old man, can you stop being so impulsive, there is something you can't think about, why do you want to do such a thing at such an old age?"

"Hey! You brat, meddle in your own business, hurry up and get rid of me."

"Old man, listen to me, you still have a great time now, you must think about it, there is something you can't think about, and you want to commit suicide."

what! !

The old man was stunned when he heard this, Qin Yuan hugged him tightly, he couldn't get away at all, he pushed him several times, this guy must have too much strength.

"Young man, I think you have misunderstood. How did you find out that I am going to commit suicide? I want to exercise."

"Old man, don't deny it, I've seen it all, why are you sophistrying? If there is anything you can't think of, just tell me, and I will definitely help you solve it."

This old man is the old chief with the weird temper they mentioned before, because Qin Yuan hasn't seen him since he came here, so he definitely doesn't know him.

In addition, he was not wearing a military uniform, but ordinary uniforms, which could not be seen at all.

At this moment, Qin Yuan felt the calluses on the mouth of the lake on his palm, this guy is still a veteran.

This position usually comes out only after holding the gun for a long time, and judging by his age, the calluses have been maintained to this extent, it seems that this old comrade was unusual when he was young.

"I didn't expect you to be a veteran. What's wrong with you? You actually thought of committing suicide."

The old man is also very speechless, how can he not listen to the explanation? He was a little angry, and then pushed Qin Yuan away, "You brat, I told you nicely, but you didn't listen, I didn't hang myself just now, I have only died in battle in my life, there is no such thing as suicide. "

Looking at the old man's fighting spirit, Qin Yuan also felt that he had misunderstood. He apologized to the old man with some embarrassment. After all, seeing that kind of situation, most people would think wrong.

"The main reason is that I saw a rope dangling from a relatively long distance just now, and I thought you wanted that."

"Fart, I will never do such a thing in this life. Suicide is an act only for cowards. If you die, you will die on the way to charge."

Qin Yuan's face twitched a little. This old man looked really irritable at his age.

After speaking, the old man was still a little unwilling. For fear that Qin Yuan would not believe it, he specially demonstrated it. It turned out that he tied the rope to the tree to do stretching training.

"That old man, I'm not talking about you. Although you were a veteran in the past, it's still not suitable for you to do this kind of exercise, otherwise you will really easily injure yourself."

When the old man heard that Qin Yuan dared to look down on him, he immediately became angry.

"Stinky boy, then I'll let you see how my old man's skills are."

"Let's forget it, old man. I originally respected you. You are a veteran. The two of us fight like this. We've just calmed down. Besides, let others think I'm bullying you when they see it."

"Stinky boy, don't be so confident. Did I tell you that I want to fight? If it were 20 years earlier, I would definitely agree, but now, you have the ability to fight Tai Chi with me."

The corners of Qin Yuan's mouth turned upwards, and he was fine with Tai Chi. He was already a Tai Chi master before, so it was a trivial matter for him.

"You guys, don't be too confident, let me tell you, my Tai Chi is very powerful."

Qin Yuan could only nod beside him, looking very perfunctory, which made the old man very angry, and he was about to start a duel with him.

Tai Chi does not pay attention to speed, but to use strength to strike force. This is a process of making use of conditions. The old man thought that his Tai Chi had already been practiced perfectly, but he did not expect Qin Yuan to be even better.

And it can be seen that Qin Yuan didn't use all his strength, he was just holding back the ground and beating the old man. Even so, the old man had already been beaten back by Qin Yuan. If he hadn't closed his hands several times, he would have been thrown to the ground .

After it was over, Qin Yuan looked at the old man's serious face and thought in his heart, if he doesn't know this old man, he should blackmail himself, if the old man lies on the ground all of a sudden, it will be troublesome.

Sure enough, the old man in front of him suddenly fell to the ground, and then began to yell loudly while covering his knees.

At this moment, Qin Yuan had a black line on his face, what is the point of this, his crow's mouth is really accurate.

"Cough cough... Let me remind you of that old man. This is a barren mountain with no people. If you look like this, no one else will be able to see you."

"Boy, I don't care. If you knocked me down here today, you will be responsible."

"My uncle, didn't I say you were kidding me? You said you were going to hit me just now. Besides, I didn't see you get hurt."

Just when Qin Yuan knelt down to talk to him, the old man made a quick move, trying to grab Qin Yuan's wrist and knock him over, but unexpectedly he remained motionless.

The atmosphere was a little awkward for a while, because the old man pulled it a few times, but found that Qin Yuan couldn't move it at all.

"Master, what are you doing? If you don't let go, I'll call you molested."

"Hey, young man, I'm just joking with you Don't mind."

Just like that, the old man got up from the ground. He patted the dirt on his body. Qin Yuan carefully looked at the old man in front of him. When he played Tai Chi with him just now, he did have some skills, and his body was quite tough.

More importantly, this place is a military defense zone, facing them is their 602 unit. This unit has always been very mysterious. How could there be an old man?

"I know your doubts. I am an accompanying family member here. After all, my son is a soldier here."

Qin Yuan frowned and felt a little strange, now he can still engage in accompanying family members?

"Just now you can see that I was a soldier before, so I can be regarded as a veteran. There is actually a living area under Unit 602, which are all military families."

"Oh, so that's the case, but you are still alone, sir, so don't go so far. It's hard to say that the journey is far from the barren mountains and wild mountains, and you will encounter any danger."

At this moment, the old man murmured in his heart that he felt that Qin was the biggest danger.

Chapter 970: call me Uncle Wang

Looking at the entire army, who dares to call himself uncle, probably only this kid.

"Master, how about this? Anyway, I'm going down the mountain too. I've finished training, so let's take you down the mountain together."

"Boy, don't call me uncle all the time. I have a name. My name is Wang Qianjin."

"Oh, yes, Uncle Wang!"

At this moment, Wang Qianjin wanted to kick this kid's ass. Qin Yuan looked at his malicious smile and knew that something was wrong, and then smiled awkwardly.

"Okay, okay, I can call you Uncle Wang."

"Ha ha..."

Then, under Qin Yuan's warm invitation, the two went down the mountain together. During this period, Qin Yuan still felt that the old man's physical strength was good, and he wanted to be loved by him.

When he was about to reach the camp, Wang Qianjin suddenly refused to go in and had already gone. He said he still had something to do and asked Qin Yuan to go back first.

Qin Yuan didn't think too much, after he went back, Wei Xi saw it from a distance, and he hurried over to say hello.

"Captain Qin, we thought you were sleeping, but we didn't expect you to wake up so early."

He looked down at the mud on Qin Yuan's feet and the sandbag equipment on his back.

"Captain Qin, have you gone to the back mountain?"

"Yes, I can't sleep at night, so I want to add some training to myself, otherwise it will be too boring."

Wei Xi was taken aback when he heard that, is this a human speech? They felt that this kind of training was just right, but others felt that the training was too light. As expected of being from the special brigade, the methods of the two teams were different.

In addition to being the strongest squadron armored unit, Unit 602 also has its own separate military factory.

The howitzer that Qin Yuan and the others dismantled before was produced from here.

Not only has the range of the howitzer been changed on the basis of the original, but it has also been replaced with a sharper armor-piercing projectile, and the explosive power is more powerful.

It's just that something unexpected happened during the test last time, otherwise it would definitely explode when it landed.

However, Qin Yuan was also lucky that there was no explosion at that time, otherwise he would be fine, and Long Xiaoyun was so close that he would definitely be affected.

Now there is nothing to say about the guidance here. Anyway, most of them are some theories, as well as some basic bomb disposal training.

Qin Yuan was very interested in this military factory, so he specially called Wei Xi to find out what was going on inside.

"Captain Qin, I'm sorry about this matter, but I can't help you. After all, this is a military secret in our army. Although we are all soldiers, you understand."

"Of course I can understand this, but if I want to get in, who should I apply to?"

"You can find our old chief, but he hasn't been around recently. If you want to find him, you can only try your luck."

Qin Yuan frowned when he heard this. The old chief was very mysterious. When he just came here, he said he wanted to see him, but he didn't see him now.

But he's not in a hurry now, he just came here anyway, and he called Long Xiaoyun in the team for a week, and nothing happened.

Originally, he came here to \*\*\*\* it just for guidance, but now that he knows about this military factory, he is quite interested in this military base.

In the past few days, Qin Yuan has been training himself every day, and he can meet Wang Qianjin every morning.

The two chatted a lot, and gradually became friends. Wang Qianjin admired Qin Yuan. After all, it was not far from the camp to come here, and he still carried the weight himself.

It's almost 20 kilometers round trip here, and it's rain or shine, even if it rains, people run against the wind and rain.

"Qin Yuan, I'm more curious. It's not necessary for you to train so hard. With your current strength, you don't need to stay number one. You are the standard of others."

"Ah! Uncle Wang, how do you know that I am someone else's standard?"

At this moment, Wang Qianjin was a little flustered, and almost slipped his mouth, so he could only quickly explain, "Well, after all, I live in the military compound, so I also heard what the soldiers over there said."

"So that's the case. In fact, I don't mean that I want to keep the number one in training, but I just want to use up the extra energy, otherwise I won't be able to sleep at night."

what! !

Is it that simple? This kid said it so easily, the purpose of his training is to fall asleep, this is too Versailles.

Cooperating with him, he runs 20 kilometers every day, and trains himself at night, just to sleep well.

At this moment, Wang Qianjin had a good impression of the Special Operations Brigade in his heart. Before, he always felt that the soldiers there were very proud. Besides, they were said to be strong. Ace, can it be strong?

Therefore, Wang Qianjin's troop was also the first one who did not agree to participate in the special selection, because he wanted to keep the top talents, and then cultivate and grow his entire team. All teams are strong.

So their 602 unit has always been excellent. From the beginning to the end, he upholds the excellent leadership to lead out an excellent team.

This is why everyone thinks he has a strange temper. After all, who would refuse the selection of special forces?

This is a good thing for everyone, and most people will be proud of it, and feel that they can be favored by people in the special brigade because of their strength.

Then the reputation of the old man's bad temper spread again and again, including Gao Shiwei, who was quite curious before, and he didn't seem to have offended him.

Then he went to the army himself to see what this guy had to say, but he didn't come to meet him.

But it was a complete misunderstanding that he didn't meet this time, because at that time, the old man personally went to the training ground to direct the training, and he had to calculate the explosion range of the shells in front of him.

So I stood relatively close, because I had to calculate accurately, and as a result, the fragments of the bomb that exploded in front flew out and shot directly in the abdomen.

The old guy insisted on carrying it down by himself and asked everyone to send him to the infirmary. He couldn't say anything about it. He couldn't let other leaders know, mainly because he was worried that others would think he was too old.

In this way, he was lying in the infirmary and couldn't get out of bed, because the wound on his abdomen was still relatively large. When Gao Shiwei came, he would definitely not be able to see him.

So a misunderstanding was formed in this way. People said that the old chief of Unit 602 had a strange temper. Even the captain of the Spike Special Forces Brigade went to him personally, but he refused to pick up the case.

Wang Jinjin also felt aggrieved. He wanted to explain why he had been blamed so much for no reason, but after thinking about it, let it go.

.

He chatted with Qin Yuan every day, and found that they were quite different, and the training intensity was much higher than what they didn't understand, because they were special operations after all, so they couldn't be compared.

However, today's Qin Yuan's nature does not seem to be very high. He punched beside him for a few minutes, and then leaned against the tree trunk to rest.

"What's the matter, I feel that you have something on your mind, if you have anything, you can tell me, maybe I can help you."

"Uncle Wang, you may really not be able to help me with this matter. Besides, it may be a military secret. I can't tell you about it."

When Wang Qianjin heard this, he was instantly interested in the group, military secrets? What the \*\*\*\* is this kid going to do? He must know.

"It's okay. Besides, I was also a soldier before. I must know the principle of confidentiality. You can tell me about it. Maybe I can really help you take advantage of my relationship."

Qin Yuan looked at him suspiciously, and thought about it for a while. This old man is so special that he can live alone in the team, which shows that his relationship must be unusual.

"Okay, then let me tell you, there is a military factory in our army, I want to go in and have a look, but I can't, I can't get in if I don't see the old chief."

"Why do you have to visit other people's military factories? This is a secret in their army."

When Wang Jinjin said this, some of his troops defended himself, and immediately refuted it.

"No, Uncle Wang, you misunderstood me, because I designed a blueprint of an artillery chariot myself, so I wanted to go in and try it out, but I didn't have the opportunity. Besides, what does the old chief do in a day?" Is it? No one can see it."

Wang Jinjin was speechless, the old chief's old chief, Lao Tzu is standing in front of you, can't you recognize it?

But what he was more interested in, Yuan said, he had a blueprint of an artillery chariot, how did this kid get it? If it was someone else, he might feel that he was absolutely bragging.

But Qin Yuan's possibility of this is unlikely, after all, his strength lies here, and he doesn't need to brag.

Especially that day when he saw Qin Yuan divide the coordinates, and draw them directly on the drawing, without computer calculation at all, he really admired it.

So this means that he intends to conceal his identity. He is worried that Qin Yuan will mind if he doesn't tell him the truth about his identity. This time, he really wants to make friends with Qin Yuan.

"I didn't expect you to be able to design blueprints. I'm more curious about this. Are you sure?"

"Uncle Wang, don't underestimate me, let alone artillery, I can set up several types of chariots, including his shells, I have done everything, unfortunately, I can't get in. "

Wang Qianjin, his eyes lit up when he heard this, this guy is really a treasure, let's have a look at his design pictures first.

"If you say that, I think you are bragging, or else you show me the blueprint, and I will believe it after I see it."

Qin Yuan frowned, this guy must be crazy, why did he show him his blueprints, and he said they were blueprints, but in fact, he memorized them all in his mind and didn't draw them at all.

"Uncle Wang, I'm sorry, this involves military secrets. I definitely can't show it to you. Besides, I will complain to you, and you can't help me solve it."

After Qin Yuan finished speaking, he stood up, stretched, and prepared to go back.

"Hey! Boy, don't rush away, maybe I can really solve it for you, please show me the blueprint."

"Uncle Wang, stop making trouble, I really want to go back!"

"I didn't quarrel with you, you show me the blueprint, I'll take a look first and then talk."

Qin Yuan shook his head, this old guy must be crazy, why does he want his blueprint so eagerly?

He speeded up and ran down the mountain, Wang Qianjin has been chasing after him.

In the end, Wang Qianjin sat on the side of the road to rest. Why did this kid run too fast like a rabbit? If it was twenty or thirty years earlier, he would definitely be fine.

After Qin Yuan went back, after lunch, Wei Xi suddenly ran to him in a particularly excited manner.

"Captain Qin, get up quickly, our old chief wants to see you by name, so get ready and let's go to his office."

As soon as Qin Yuan heard this, he immediately became excited. He was just thinking about when he would meet this old man, but he came back unexpectedly, so he must persuade him to let him go to the military factory.

In this way, under the leadership of Wei Xi, the two came to the office. Before entering, Wei Xi explained several times.

Wei Xi couldn't go in downstairs, because a guard took Qin Yuan in.

"Report, people have brought it."

"Okay, come in."

Qin Yuan heard this voice a little familiar, when the guards took him in, he saw a smiling person sitting on a chair, wearing a military uniform at the moment, isn't this Wang Qianjin?

"Uncle Wang?"

The guard next to him was almost speechless. Is this guy crazy? The chief is called Uncle Wang.

"Qin Yuan, what are you doing? This is our old chief called the leader, what is his name Uncle Wang."

"Um... Hello, Chief!"

"Oh, there's no need to be so restrained, Xiao Zhang, you can go down now, just leave him here."

It was only after the guards left that Qin Yuan understood what had happened. In fact, in retrospect, he was kept in the dark because he didn't think about it from that aspect. First of all, how could there be a military compound in this team.

Secondly Everyone has always said that the old chief plus his age, I should have guessed the result long ago, and just regarded him as an ordinary old man.

The more Qin Yuan thought about it, the more he felt that something was wrong. After all, he had been calling him Uncle Wang before, and he even called him Uncle Wang, which was really embarrassing.

He quickly recalled whether he had ever said anything bad about the old chief. After all, he said that the old man had a bad temper. If he held grudges, his military factory plan would be in vain.

"Why is it not like your previous style? Didn't you still call me Uncle Wang before? Aren't we two good friends?"

"Reporting chief, I know I was wrong, I shouldn't have said that."

"I knew it would become like this. If I knew it, I would have played with you for a while. I was worried that you would take the blueprint and run away, so I had to reveal my identity."

Wang Qianjin was worried that after Qin Yuan knew his identity, he would become estranged from him. To be honest, Qin Yuan was a good friend with unique insights, and it was very interesting to chat with him.
