

Special Soldier 971

Chapter 971: was targeted

Qin Yuan was speechless for a while, this old man's acting skills are quite high, he even fooled himself, he is usually very vigilant.

More importantly, he remembered that he kept calling him uncle, no wonder he was not happy.

"Qin Yuan, I can help you with this matter, let you enter the military factory, but I have to see your design drawings."

"Chief, as long as you let me in, there is no problem with the design drawings. I will research it anyway, and you will know it later."

"I don't care about that. After all, there are too many people in your special brigade. What if you really came to steal military secrets?"

Qin Yuan was speechless for a while, he helplessly spread his hands and looked at Wang Jinjin in front of him.

"Forget it, I'll call you Uncle Wang, it's more kind. Think about it, we've been friends for so long, do you think I'm that kind of person?"

Wang Qianjin also hesitated. To be honest, Qin Yuan is definitely not such a person. He is just curious about the blueprint of the main battle tank and how this kid got it.

After all, research on main battle tanks is impossible for a veteran like him who has been in the army for more than 30 years.

"I'm just curious. You don't seem to have studied at the Military Science and Defense University or the National Defense University before."

"Yes, I have never been in contact with these, but I can say that I just saw the tank and then researched it myself. I actually strengthened the research on it on the basis of our Type 95 main battle tank."

"Oh, tell me, what did you specifically strengthen?"

"On the basis of the Type 95 artillery, I have enhanced its firing range and armor-piercing capability."

What Qin Yuan said next made sense, Quan Jin became more and more interested, and felt that this kid was like a professor.

Moreover, the two talked for several hours, and the guards were a little curious. Behind him, Wang Qianjin's old partner came to ask him to go down with him. The guard came in to report and saw the two sitting together, chatting vividly.

"Just let him wait. I still have business to discuss here."

"Ah! Chief, do you want the political commissar to wait?"

Qin Yuan raised his watch to check the time, they were almost talking, and his main purpose was to enter the military base, he wanted to study the situation of the main battle tanks.

"How about it, Uncle Wang, it's getting late, you just say whether you allow me to go in, I will give you a brand new main battle artillery."

"My boy, after hearing so much from you today, I am becoming more and more interested in you. I agree with what you said, and now I will approve the documents."

The guard next to him was dumbfounded. If he heard correctly, it was Uncle Wang who Qin Yuan called Wang Jinjin just now, and the old man didn't even get angry at all.

"Thank you, Uncle Wang, for your approval. I will definitely live up to your expectations."

"Then how long it will take you, I can make arrangements, after all, I have to go and see for myself, how your research is doing, and more importantly, if your research takes a long time, I have to discuss with you The captain is talking."

Having said that, Qin Yuan stretched out three fingers.

"Does it take three months? Three months is not a long time. After all, they are currently researching one and it will take at least half a year."

"No, Uncle Wang, I'm talking about three days."

"I'll go! Are you kidding me wrong?"

Wang Jinjin looked surprised, he heard right, this kid really said three days, how is this possible? This doesn't mean researching any firearms. This is the main artillery. How can three days be enough?

"Boy, let me tell you, don't make fun of me. When the time comes, my approval document will be stamped with the official seal. Don't make trouble, what a joke."

Although what Qin Yuan said just now is sound, very reasonable, and of a high standard, but now hearing this boy say this, why does it feel more and more unreliable.

The main reason is that what he said was too exaggerated, how could it be completed in three days.

"Uncle Wang, don't worry, do you think I will cheat you? I will show you a brand new main battle tank in three days."

Seeing Qin Yuan's confident appearance, he didn't say anything at all. Anyway, this kid is here, so let him go and do it.

He signed the approval document readily, and then said to the guard: "You take him there yourself, and then tell Officer Zhang on the other side of the military factory that I personally dispatched this man, and everything in the past is mainly based on cooperating with him." ."

"Thank you, Uncle Wang!"

"You brat, you keep barking all day long."

Even though he said this, he still smiled and was not angry.

In this way, Qin Yuan successfully entered the interior of the military factory. After entering, he found that there was actually no difference, except that the approval was more stringent.

But because he was brought here by the guards next to Wang Jinjin himself, no one stopped him. The sentry in front looked at his approval documents and official seal, and let them go.

"I'm more curious, when did your kid have such a good relationship with our chief?"

"Well, the Shanren have their own tricks."

Looking at Qin Yuan's proud face, the sentinel couldn't help reminding: "People say that our chief has a bad temper, but in fact the old chief is very easy to get along with, and the one who is really difficult to get along with is Director Zhang, that's why he asked me to talk about it in advance. "

"Brother, thank you for your reminder, but don't worry, I have led many soldiers, there is absolutely no problem, I can definitely handle him."

"No, you don't know that it's not a question of how many soldiers you have led. I know that you are also very good in the special forces, but this person is not soft-hearted, and he is quite contemptuous."

When Qin Yuan heard this, he showed a meaningful smile. Since he looked down on people, he would teach him himself, and he should change his rules.

Like the one surnamed Zhao before, he found out why these people always have such a temper, they are not as strong as others. As a result, he still looked arrogant.

He came here today not only to study main battle tanks, but also to teach this group of people how to behave, but go and see first, after all, the rumors are all wrong, like the rumors that the old chief has a strange temper, he also thinks it's nothing what.

In the end, they didn't expect that they had just entered, and they were directly dismounted.

"I said what happened to you, but the sentry at the gate didn't say anything. What are you trying to register here?"

"I'm sorry, but the two comrades must register with military officer's certificates to enter our place."

This is obviously trying to make things difficult for others. Now that you are in the army, who carries your ID at all times?

"Comrade, can't you see it? I am the old chief, the guard next to me, don't you know me?"

"Comrade, please cooperate with our work, we only certify but not recognize people."

The guard next to him reluctantly raised his watch to check the time. If he continued to toss about like this, then today's work would definitely not be able to be carried out, and it would have to be postponed until tomorrow.

"Captain Qin, there is nothing they can do with their attitude. We can only go back to get the documents first. Let's come and have a look. If we can catch up, then we will directly invest in research today. If not, then tomorrow."

Qin Yuan frowned slightly. He really didn't know where there were so many broken rules, and he even set up a system that only authenticates but not recognizes people.

He felt quite curious. He didn't offend anyone in this military factory. After all, he just came here, and within a few days, he couldn't be targeted just now, maybe it was indeed his rule.

The second time he came, Qin Yuan came alone, he didn't have to come with that guard, so as to save trouble, he came again with his ID.

"Oh, I didn't expect to be a member of the special brigade. It's terrible, what are people from the special brigade doing here?"

"That's right! Didn't the captain of theirs come to us before and got a bad nose, and then went back?"

"It turns out that you still have to come to our place now. I really don't know. You are thick-skinned."

Qin Yuan had been tossed about just now, but when he went back to get his documents, he was already full of anger. He couldn't take it anymore, so he slapped the table hard.

"What exactly do you want to do? I have the approval documents, and I have registered the certificates. Can I go in?"

"I said, what do you want to do when you are so angry? This is our 602 unit, not your special brigade. Do you want to act wild if you want?"

Qin Yuan was very speechless. He had never seen what was going on with this group of guys. How could they feel that they were being targeted? Others didn't have that much malice towards the people in their special brigade!

At this moment, Qin Yuan turned his head and saw a familiar figure inside. Isn't that the one named Zhao from before? Unexpectedly, this guy was also inside, and he understood in an instant.

It seems that the person surnamed Zhao was having trouble with him, so he discussed with the people inside, trying to give himself a blow.

At this time, the two soldiers who checked the documents just now were very unhappy and chattered endlessly, asking Qin Yuan to apologize to them, otherwise this matter would never end.

Qin Yuan knew that it was not good to make trouble here, the most important thing now was to enter the military factory, and the trick of these people was to provoke him deliberately, Qin Yuan snorted coldly, turned around and walked out without saying anything.

Ten minutes later, Wang Qian rushed to the military factory.

"How on earth do you do things? You dare to stop the people I found!"

When those people saw Wang Jinjin coming down in person, they stood up and saluted quickly in fright. They didn't expect that there would be such a big commotion. Qin Yuan went out just now to go directly to Wang Jinjin.

They also kept muttering in their hearts, not to say that they didn't like the people of the special brigade at all, and they had conflicts with their captain before, which directly lost their face, so the special brigade didn't come these few years, they Recruit here.

But looking at his situation, it doesn't seem to be the case. Why do you defend this kid so much?

"Chief, we didn't know that it was the person you arranged to come, and now we will release it immediately."

"You don't know what's wrong. Don't you know how to read the documents that Lao Tzu personally approved? This is the official seal of Lao Tzu's office. What kind of tricks are you doing? Do you know how much time wasted?"

This Wang Qianjin has restrained his temper a lot in the past two years, and he seldom gets angry. He didn't expect to get angry in front of them because of Qin Yuan this time.

Everyone could only bear with it and was completely banned and sprayed with blood. In fact, he knew that these guys were very domineering in the team.

They are always relying on the fact that they are high-level researchers in the military factory. They are different from ordinary soldiers.

He wanted to deal with this matter directly for a long time, but unfortunately, he never had the chance. Today, he just took advantage of this matter to talk about it and criticize it properly.

"This time it was still with my official seal. You didn't even look at it, so you stopped him. Next time I come, you won't let me in."

Qin Yuan was also a little apprehensive, but he didn't expect the old man to get angry and have a temper.

This aura is quite full, and it is completely inconsistent with his previous image. When chatting with him, he is like an old man next door, talking and laughing.

He suddenly turned his head to look at Qin Yuan and said, "I'm sorry, Captain Qin, I made you a joke in our team. I hope you can forgive me for not managing my soldiers well."

"Report to the chief, it's their job too."

Everyone was a little unbelievable when they heard this. Their chief actually apologized to Qin Yuan. Is there a mistake?

Finally, when Wang Jinjin left, Qin Yuan also went in smoothly, and no one dared to make irresponsible remarks later, after all, everyone had seen what happened just now.

At this moment, the person surnamed Zhao stood with Officer Zhang, looking at Qin Yuan with disdain.

"This guy is really someone. I didn't expect that he ran to complain just now."

"Hehe, he really thinks he's awesome. It looks like he's been a soldier for a few years, and he really considers himself the boss. Just wait After he comes in, he will feel good of."

"Brother, but this kid is a bit difficult to deal with. After all, he really wrote the coordinates on paper by hand before."

"It's okay, I want to see the difference in the study of the main battle tank. I have studied it for so many years, almost eight years. Wouldn't it be better for this kid to study it for a few months?"

Director Zhang was very confident, and he was looking for his cousin. When he knew that his cousin had been given a slap in the face, he rushed to support his cousin.

Qin Yuan was originally the person who was most opposed to suing the leader like this, but this time the researchers he was facing could not fight or quarrel.

Talking with them there for a long time, it is better to directly find Wang Jinjin to solve the problem.

Facts have proved that Wang Jin's coming in is very effective. If he scolds directly, it is estimated that it will stop a lot later.

Since Wang Jinjin gave him enough face, he has set up a lot of WeChat accounts for him. It seems that the road ahead will be much smoother.

Chapter 972: Director Zhang's making things difficult

Tossing around like this seems to be impossible to study tonight, and Qin Yuan didn't say anything. Anyway, let's talk about the matter sooner or later. For me, today's goal has been achieved, and I have successfully established prestige for these people.

Just as he was about to leave, Officer Zhang stepped forward with a smile.

"Excuse me, your surname is Qin, right?"

"Yes, what's the matter?"

"Little Qin, take a look at our work here. It's like this every day. Because you just came here today, you may not know the rules. I have to tell you about the rules."

Qin Yuan snorted coldly, this title is really no one, it doesn't respect at all, he clearly knows that he is the captain of the special operations team, everyone calls himself Captain Qin, but he wants to specialize, what is he called Xiao Qin.

Qin Yuan also came to exchange courtesy, "Xiao Zhang, I will trouble you this time. After all, I just came here, and there are many ignorant things. I hope you will forgive me."

The corner of Officer Zhang's mouth twitched, what the **** is this guy doing? He called him Xiao Qin because he felt that as a veteran, he had the qualifications. Why did this guy call himself that?

But thinking about it, Wang Jinjin personally brought him here after all, so he can't go too far, otherwise he will be accused again, and it will be troublesome.

He also finds what happened today quite strange. This is completely quiet. He usually doesn't care about these things at all, especially those who rely on connections. He is even more disgusted. He didn't expect to alarm Wang Qianjin today. identity?

This is what Director Zhang wants to know. On the other hand, he really wants to give Qin Yuan another blow.

"It's okay. This is what we should do. Come with me first. I'll get you some information. It's all inside our military base. You should take a look and get familiar with it first."

When Director Zhang said this, he gritted his teeth. Although the guy turned his back to him, Qin Yuan could imagine his expression.

"Xiao Zhang, if that's the case, thank you very much."

With this title, Director Zhang clenched his fists, he must endure it!

In this way, the two came to an office inside. Director Zhang called up a document from the computer, and he deliberately converted the document into English.

"Oh, I don't know what they did. I didn't expect that there were only English templates in today's document. I don't know, Xiao Qin, can you understand it?"

Qin Yuan smiled, trying to baffle himself with a little problem, not to mention English, he knows dozens of languages, not to mention just this word game, it is too simple.

"It's okay, I can understand everything."

Officer Zhang snorted coldly, always felt that Qin Yuan was pretending to understand, how could he understand everything? For such an English level, at least CET-4 is required.

He had done some special investigations on Qin Yuan before. This guy didn't seem to have gone to any university, and he joined the army directly afterwards.

With his level, how could he understand the article in front of him.

"Xiao Qin, sometimes you still have to ask humbly for advice. If you don't understand something, you must ask as soon as possible to get familiar with it. After all, you are the person brought by Chief Wang."

This guy also deliberately emphasized the word "Shou Zhang Wang". I really don't know where this guy's confidence comes from. Does he really think of himself as the kind of person who can only rely on the backstage to do things?

Speaking of their old chief's temper, isn't it clear to him that this is what he dislikes the most, since he is always upright.

Anyway, he was not afraid of the shadow slanting, Qin Yuan read out loudly the above title, and the following situation. After reading a few rows, Director Zhang felt that something was wrong. This guy read it too smoothly. It seems that he I really understand it.

Officer Zhang didn't see that Qin Yuan could only sit beside him silently. What's going on with this guy, it's as if he's on the hook. There's a chief speaking for him in front of him, and he's so familiar with the English knowledge in the back.

Is this kind of person still a pig and a tiger? Because when he came here before, he was just an ordinary person, and he didn't have any special treatment, but he didn't expect to hold back such a big move.

In order to rectify Qin Yuan, Director Zhang has compiled hundreds of pages of content. If he doesn't read it for two or three hours tonight, he won't be able to finish it.

Anyway, it's past 7 o'clock now, and it will be past 10 o'clock after reading it. I'll think of other ways to give him a good treatment, and see if he has the energy to come here tomorrow.

Officer Zhang was shrewd in his calculations, he was planning his own little calculations, but Qin Yuan had already seen through it, and Qin Yuan put down the mouse in his hand within a few minutes.

Director Zhang smiled, as expected, he was still too young, and after only a few minutes of watching, he was already a little impatient.

He immediately stood up and began to speak in an official tone, "Xiao Qin, there are some things you should know. After all, you are new here. There are some things that you need to get familiar with as soon as possible. People say that the stupid bird flies first."

"I know this truth, but the stupid bird flies first is aimed at those stupid birds. For me, I have fully mastered these things, so I'm going back to sleep."

what! !

Officer Zhang was taken aback, did he hear correctly? This guy actually said that he had completely memorized it. How could it be possible that it would take two or three hours just to watch it. If you want to remember it, it is absolutely impossible.

He even felt that Qin Yuan was definitely bluffing, and it was impossible to deceive him.

"Xiao Qin, what are you kidding me about? This is hundreds of pages long, and you haven't finished reading it yet, so don't be so perfunctory."

"I've really mastered it completely. This thing is too simple for me, and there is no problem at all."

Director Zhang felt more and more that something was wrong, this guy was really too arrogant, even for this sake, he still refused to repent.

If that's the case, don't lose face. Anyway, even if the chief asks tomorrow, he will tell the truth that this guy doesn't obey the management, and he is also arrogant.

"Xiao Qin, sometimes, one has to be modest. After all, there is no need for everyone to make trouble for that. I was kind enough to teach you things. If you don't learn it, forget it. Why do you say such arrogant things?"

"Xiao Zhang, why don't you believe what I said? I really have fully grasped it. If you don't believe me, you can randomly check me. You can randomly check the contents of these hundreds of pages."

Officer Zhang snorted coldly, this was what he was waiting for, and since that was the case, he would not be polite.

Then he began to ask questions about the content of the previous chapters, and all the questions he asked were tricky, with almost no options, and all of them were big words that needed to be answered.

Unexpectedly, something unexpected happened and Qin Yuan not only answered fluently, but also said it in his own way.

He even asked a few questions, and he answered very fluently without any pause. Officer Zhang's eyes widened in disbelief, this is too exaggerated!

It's only been a few minutes, and he really remembered it completely. He thought it was really incredible.

"I just don't know what the person who wrote this thing thinks. There is always a lot of slobber. In fact, it is enough to simplify it, so that everyone can understand it better."

Officer Zhang smiled awkwardly, because he was the one who wrote this document, and he didn't expect that he was being complained by Qin Yuan now.

He could only suffer in silence, after all, what people said was really good, even better than what he wrote on the document.

This time the conversation really collapsed. Originally, he wanted to show off others, but now he was completely shocked by others.

"By the way, Xiao Zhang, is there anything else to do now? I have mastered it here, can I go back and rest?"

"No...it's all right."

At this moment, Director Zhang is already doubting his life. He hasn't recovered from the shock just now. It's all in English. I didn't expect him to still remember it so fluently. It's too exaggerated.

This document was made by him himself today, and it is absolutely impossible for someone to leak it in advance. Does that mean that this guy's memory is really so outstanding? In just a few minutes, I memorized the contents of these hundreds of articles.

If it was before, he would never have believed it, but now that it happened in front of him, he fell into self-doubt for a while, whether this person is too genius, or he met someone's real professional.

Qin Yuan was in a very good mood, and went back humming a song. Wei Xi ran up just after he went back.

"Captain Qin, how is today? I heard they said that even the chief went to the military factory. What's going on? I just said that the people on their side are very proud."

"It's okay, the others are quite easy to get along with, but that Xiao Zhang over there is a little fussy, but it's just a small problem."

Xiao Zhang? Wei Xi searched carefully in his mind, why hadn't he heard of a soldier surnamed Zhang, there was no soldier surnamed Zhang in the military factory, only one officer surnamed Zhang, who was a lieutenant-level figure.

"Captain Qin, if I heard correctly, do you mean Director Zhang when you say Xiao Zhang?"

"That's right, it's him. This Xiao Zhang is quite uninteresting. He always likes to play with people behind the scenes, but today I cleaned him up."

After Wei Xi heard it, he looked at Qin Yuan with admiration, and he probably was there too. He was the only one in the entire army who dared to call Officer Zhang like that, and Officer Zhang had a very weird temper.

Unexpectedly, in Qin Yuan's mouth, he became Xiao Zhang, and he was also a person who had been dealt with.

At this moment, Wei Xi has an adoring expression on his face, he just wants the boss to accept his Mobike.

"Okay, then I won't talk about these things with you. I will go to the military factory tomorrow morning. I will show my results and let them know what strength is."

"Captain Qin, I believe in you. You really surprised me. This is indeed it."

After Wei Xi said one, he gave a thumbs up.

Because I cleaned up people today, Qin Yuan thought it was funny when he thought of Director Zhang's shriveled appearance, so he slept very comfortably tonight, while the other person, Director Zhang, was not so comfortable.

When Qin Yuan said this, he fell into deep self-doubt. This is impossible. How could what he wrote be slobber, but recalling his answer just now, whether Qin Yuan's solution would be more effective.

So he simply sat in front of the computer, modifying his files over and over again, always feeling that something was wrong.

The next morning, Qin Yuan still went for a run with his equipment on his back. This was a habit he couldn't change.

Sure enough, I saw Wang Qianjin again at the top of the mountain, and this old guy had already practiced pulling the ring.

"Morning, Uncle Wang, but I think it's strange, why do you use such a crude thing to practice here, there are so many practice equipment in our army."

"You don't understand, boy. It's not because of my identity. As soon as I go, they will immediately yell and salute me."

"Such troubles are really strange, Uncle Wang, I can't help you with your troubles."

And the last time he wanted to do horizontal bars, he was directly stopped by his guards. His reason was that he was too old to do this kind of exercise.

Everyone has a kind of overprotection for him, which makes him feel very uncomfortable, so he came to this place to exercise secretly.

After all, Wang Qianjin is not the kind of person who admits defeat, and he has been on the battlefield before.

"My these are old things, let's talk about your situation, what's the matter with you kid? You shouldn't be going to the military factory today, why are you here for training?"

"Isn't it still early? I'm running for half an hour, and I'll go down later, and I happen to be exercising too."

Wang Jinjin nodded, this kid is quite self-disciplined.

"By the way, if you encounter any difficulties over there, you must report them to me in time. To be honest, they are indeed a little arrogant, but they are also really capable."

"Forget it, Uncle Wang, I don't want to be accused of being blackmailed, I'll do it first, and I will prove it to them with my strength."

"Good boy as long as you have this vigor."

In the situation like yesterday, Qin Yuan can only come once. If he comes too many times, he will be accused of going around as a criminal, which will not affect him well.

And he doesn't need it anymore.

In this way, Qin Yuan came directly to the military factory, and the way in was smooth, and no one stopped him. He came to the office yesterday. Director Zhang had two dark circles under his eyes, and he seemed very persistent. thing.

It seems that this guy was stimulated by himself yesterday, so he must have not slept all night.

Director Zhang was suffering and couldn't tell. Originally, his role was supposed to be reversed. He wanted to punish Qin Yuan so that Qin Yuan could not sleep well all night. In the end, he became himself.

"Xiao Zhang! I didn't expect you to come here to work and study so early. I am really moved by this spirit. I will definitely learn from you in the future."

Qin Yuan deliberately exaggerated. He just wanted to stimulate Director Zhang and see how this guy would react.

Chapter 973: Must apologize!

But I have to say that this officer is desperate for face. He obviously persisted here all night, and couldn't help but kept yawning.

"It's nothing to me. After all, everyone is here for work, and I can't live up to the trust placed in me by the leaders."

Qin Yuan just wanted to laugh when he heard this. This guy has a panda eye, and he is too stupid.

It's really not Qin Yuan hitting him, but Qin Yuan seeing English on the computer screen, wouldn't this guy switch to Chinese?

"That Xiao Zhang, I actually have a suggestion for you. In your situation, if you switch to Chinese, it may be faster."

At this time, Director Zhang noticed that he was busy all night last night, so he wondered why it was so slow?

It was only later that he realized that he had forgotten to switch this thing to Chinese, and had been modifying it as English. It is quite difficult to do English, and he needs to look up the dictionary in some places.

He was really shooting himself in the foot. The introduction in English was intended to make things difficult for Qin Yuan. He didn't expect that he didn't make things difficult for an adult, but made himself miserable.

Although they are researchers, they also need to train. They start running in the morning. Like the rest of them, this is the basics.

During the exercise, Director Zhang has been lacking energy, after all, he didn't sleep all night last night.

In this way, he gradually reached the end of the team. At this time, Wang Qianjin came over suddenly. Seeing Officer Zhang's appearance, he became very angry. This guy even claimed to be his soldier.

This morning, he didn't have any mental outlook at all. What kind of a system is this? Then look at Qin Yuan who ran 20 kilometers in the morning, and then he still trained with them after he came down.

As a result, Director Zhang received complete special care. He not only personally supervised him to start running, but also asked him to do push-ups beside him.

After this tossing, Director Zhang felt like he was going to faint. It was really uncomfortable, mainly because he didn't have a good rest last night.

The more this happened, the more he resented Qin Yuan, and he felt that Qin Yuan must have sued Wang Qianjin to come here.

But in this way, if he insisted on blaming Qin Yuan, he would feel wronged. This time, he really didn't say anything.

Moreover, it was purely accidental that Wang Jin came here. After all, everyone was training, and he saw a soldier with no spirit from a distance, so he couldn't help but come over and say a few words.

After this set of training was over, Director Zhang was exhausted. He dragged his exhausted body to the military factory, while Qin Yuan had already entered the research stage, and he quickly drew his own drawings on paper.

He was very curious about Qin Yuan's drawings. His original plan today was to see Qin Yuan's results, but now he couldn't hold on any longer.

He could only find an excuse to ask for leave and go back to rest. At this time, he called Lao Zhao who was next to him.

"I'm in a very bad state today. You should keep an eye on my relationship. Don't let him make any trouble. I always suspect that his plan is not right. Don't let him see our other things. When the time comes, we will make wedding dresses for others. ."

Xiao Zhao was shocked when he heard this, "Why do you have evidence? Could this guy really plagiarize our plan?"

"I don't know about this, but don't you think it's strange? Since he has never been in contact with these things before, he has been writing directly. You know, how long will it take us to produce a design like this?"

Xiao Zhao nodded, this question is very important, and even if Qin Yuan has received systematic study, it is not like this, it is too exaggerated to draw as soon as he picks up a brush.

So under the persuasion of Director Zhang, Xiao Zhao also felt that there must be something tricky about this matter.

In this way, although Director Zhang went back, Xiao Zhao has been staring at him outside. Qin Yuan has a separate desk on which he draws his drawings seriously.

The more Xiao Zhao looked at it, the more strange he felt. The blueprints he drew were done in one go, and he didn't change them halfway.

There will definitely be some revisions in the process of drawing, but I didn't expect that people didn't make any revisions at all, but the drawing became more and more smooth.

The researchers next to it couldn't help but wait and see. After seeing it, everyone let out a sigh of admiration.

"Captain Qin has to say, you are really amazing. This is the first time I have seen such a blueprint. The design is simply perfect."

"That's right, not only the entire gun body, but also the precision of the heavy warhead have been changed. How did you do it? It's simply amazing."

This is not drawn randomly, and there is a basis for it. According to his algorithm, it should be achievable.

Hearing the compliments from the people next to him, Xiao Zhao couldn't help but stepped forward. He wanted to see what this so-called blueprint looked like, but he just glanced at it and instantly his eyes widened in disbelief.

This is simply too exaggerated, and it can be described as a master level. There is no stain on the entire drawing, and every circuit and every design is just in place.

The entire cannon body feels very comfortable just looking at it on the blueprint. This person is too powerful. How did he do it?

But Xiao Zhao changed his mind again, he remembered what Director Zhang said before, maybe this kid just plagiarized the achievements of other masters, after all, at his age, how could he draw such precise places.

In their army, there are quite a few hidden masters, and this guy is from the special brigade. Maybe he has come into contact with some senior researchers and stolen blueprints from others.

Thinking of this little Zhao, he gave a cold snort of disdain.

Qin Yuan heard it, and he looked at Xiao Zhao indifferently, "Excuse me, does this comrade have any comments on my blueprints? You can say it."

"Captain Qin, did we hear you right? It's absolutely impossible for you to ask us to criticize such a perfect blueprint. I think it's already perfect."

"That's right, Xiao Zhao, what's the matter with you? Captain Qin can draw such excellent drawings, why don't you hurry up and learn!"

At this moment, Xiao Zhao listened to these people talking nonsense, and they were all flattering Qin Yuan.

He felt even more disdainful, "I think your design is perfect, but I'm very surprised, how can this be drawn, especially you."

"I don't know what kind of prejudice you have against me, why can't I draw it?"

"You can imagine it with your toes. You are just a big soldier. After several years of excellent performance, you entered the special brigade. What's so amazing about it? You haven't even been exposed to systematic courses. How can you draw well? Such a precise drawing?"

When the people around heard what Xiao Zhao said, they all gasped. What this guy said was too much. He not only denied his achievements, but also said that it was so easy to enter the special brigade.

"Xiao Zhao, hurry up and apologize to Captain Qin. What you said was too much. Not only did you question him, but it was also really rude."

"Yes, hurry up and apologize to Captain Qin. The words you said are really hurtful. Do you know where the special brigade is? They are all elites."

"Captain Qin is a person who has really been on the battlefield. How can someone who has fought **** battles for us and made contributions to the country be like us?"

"Hehe, I don't agree with your point of view? Why should talents who have been on the battlefield feel that they have contributed to the country? Don't we researchers? In my opinion, it's just a different division of labor."

"Besides, even if the people from the special brigade are pulled out to compare with us, they may not be as good as us. I'm talking about research."

This kid is really arrogant. Qin Yuan stared at him coldly. This person can insult himself, but he cannot insult the special brigade. That place is sacred to him, because everyone in it is worthy of respect.

"Apologize!"

Qin Yuan just said these two words coldly, but Xiao Zhao was not afraid at all, he said everything anyway, why should he apologize, besides, he felt that what he said was right.

"Why should I apologize? Do you think there is something wrong with what I said?"

"I want you to apologize to those comrades who died, because you are not worthy to talk about them. Do you know how many people are sacrificed every year in our special brigade?"

Qin Yuan's voice was not loud, but it touched the hearts of everyone present. Although everyone had no real contact with the special brigade, everyone had heard of their deeds.

They are also the most dangerous arms, both internally and externally, they perform the most dangerous missions.

When Xiao Zhao heard this, he also felt that what he said just now might be a little too much. He was clearly targeting Qin Yuan, and there was no need to transfer such anger to everyone.

Even the researchers next to him couldn't stand it anymore, and they all stood up and accused him, making him have to apologize.

Faced with such pressure, Xiao Zhao had no choice but to bow his head and apologize, but he still emphasized that his apology was an apology, but he was not convinced by Qin Yuan, because he felt that it was absolutely impossible for Qin Yuan to draw such a painting. drawings to make such a design.

Qin Yuan didn't want to talk to him, he had only a few more strokes to complete his drawings, and he would talk about it after he finished drawing everything.

This drawing is also after Qin Yuan came into contact with the paintbrush, a modified drawing appeared in Qin Yuan's mind, and he started to draw quickly.

So for him, it didn't affect him much, but Xiao Zhao next to him saw this scene and felt that Qin Yuan didn't even refute it. Did he agree with it?

After Qin Yuan drew the blueprints, he was going to practice directly, but this class is no more than firearms research. Heavy artillery like this needs to invest in several productive forces at the same time, so he needs to apply in advance and type in the application certificate.

More importantly, it depends on whether other researchers have time to accompany him to participate.

There is no problem with the researchers. Everyone is very interested in his design. This design is undoubtedly the best this year.

And everyone originally wanted to make achievements, and it is possible to practice with blueprints, but Xiao Zhao came out and said something weird, "No, I didn't remind you, Director Zhang is not here today, so everyone can't carry out research. "

"What kind of rule is this, and why he is not here, I can't study it."

"That's because Officer Zhang has a seal in his hand. If you want to enter the core research area, you must have Officer Zhang's seal before you can enter."

The researcher next to him also frowned. It is dead to follow the rules, but human is alive. Is there anything else to be divided now? Besides, the blueprints are all there, and it is normal research for them to go in, so there is nothing to worry about.

This matter was accommodating and passed, but Xiao Zhao's attitude was extremely firm, and he had to wait until Director Zhang came before he could go in.

A researcher standing on the side was furious, grabbed the report form on the table, and rushed back to the dormitory. He planned to find Zhang Zhang in the dormitory. Isn't signing a signature and a seal?

Even he could see that these two people were deliberately embarrassing Qin Yuan, I really don't know what they were thinking.

"I really don't know where I offended the two of you. Why are you targeting me everywhere?"

"I'm sorry, this is not aimed at you, but our work attitude must be like this."

In fact, Xiao Zhao also has his own selfish intentions. If he wants Director Zhang to come and see, will he design the blueprints?

When he saw the drawing, he thought it was perfect anyway, and he couldn't see any other problems.

"I see that you suspect that my work is plagiarized from others, and then feel that my purpose is not pure, and you are worried that the design will be detrimental to you, is it?"

Xiao Zhao was a little surprised, he didn't expect Qin Yuan to interpret his true thoughts.

Seeing that he had already said so Xiao Zhao no longer cared about anything, and nodded, anyway, that's what he thought.

"Then let me tell you this, I can draw a lot of blueprints like this at will. Today I am only modifying the Type 95 main battle tank."

He slowly walked to the front. As for the other Type 59 tanks and the anti-aircraft guns on the warship, he could modify them.

"As long as it is the range of the artillery chariot, no matter what it is, if you need it, I can immediately produce the blueprint."

Xiao Zhao frowned after listening, this guy is too crazy, how can he say these things so easily?

"I think who wouldn't be bragging? I also said that I can directly study fighter jets. Can you say something realistic?"

"Look, I'm telling you the truth, but you don't believe me, and I can really do it."

Xiao Zhao walked over and smashed the drawing tool on the table, "Okay, since you have said so, then I want to see if you can draw it or not, just draw the anti-aircraft gun you just mentioned."

Chapter 974: waiting to be slapped in the face

Qin Yuan is now waiting for him to say this. Since this person surnamed Zhao was still unconvinced when he punished him last time, Qin Yuan decided to convince him this time in his profession. oral.

"That's not a problem, but before we start, I would like to ask, which school did Comrade Xiao Zhao graduate from?"

"You've got the point, but I'm a top student at the International Academy of Military Science and Defense Studies. My research is main battle tanks." When he said this, Xiao Zhao was very proud, after all, this is what he was proud of thing.

"By the way, I heard you looked down on us frontline fighters just now."

"Captain Qin, if you want to say that, I can't help it. I've never thought about it that way."

"That's it. I'll modify the anti-aircraft guns on the spot. There are generally two types of anti-aircraft guns traditionally used on our warships. One is towed and the other is self-propelled."

"In terms of caliber, there are 60-100mm guns. These are all medium-caliber anti-aircraft guns. Those over 100mm are large-caliber guns. This one is mainly used on aircraft carriers." Listening to what Qin Yuan said Professional, Xiao Zhao is not too surprised, after all, these are not too professional knowledge, they are basically basic theories.

"These are very basic theories. It's not surprising that you know these things. It mainly depends on how many calibers you want to modify."

"I can do it. It's just that there are any problems on your side that haven't been overcome recently, or that can't be broken through research." Hearing what Qin Yuan said, the soldiers next to him became excited instantly, and there really are.

"Captain Qin, you are really good at predicting things. We have been researching anti-aircraft guns for a while, especially the warhead modification of anti-aircraft guns. The warheads are so precise that our calculations make mistakes every time."

"If that's the case, that's even better. I'll let you solve this problem." The soldier was very happy after speaking, turned around and ran to another office, and handed the research materials inside to Qin Yuan.

Qin Yuan frowned and looked at a thick set of materials in front of them. This is what they call research materials. The amount is too much. It would take a lot of time to read all these things.

"Um... how about this, you just tell me which type of these materials you want to modify, I really don't have time to read them." Everyone was stunned when they heard this, right? Look, how can you study it?

Xiao Zhao snorted even more. Originally, he was still thinking about this guy, didn't he just want to use their previous research data to make calculations?

I didn't expect that people didn't even bother to look at the research data. I really don't know where the confidence comes from. In fact, even with these research data, it is very difficult to calculate. Director Zhang and the others are in charge of this project. They have been studying it for more than three months, but there is no progress at all.

At this time, the person who stamped the seal also came, and dragged Director Zhang to come. In fact, Director Zhang wanted to come on his own initiative. He heard that Qin Yuan was going to start research on artillery, so why so fast.

"Xiao Zhang, I thought you were not feeling well, so why not take a good rest in the dormitory? What are you doing so quickly?" His face was almost turning green, and it was all because of this guy last night, otherwise would he be like this today?

Speaking of this, he suddenly thought of Wang Qianjin. Didn't this guy Qin Yuan stand and support him all the time? Then he might as well recruit Wang Qianjin and demolish him in public.

Zhang Gang thought about it, and then said with a smile: "You see, I have forgotten my brain. If you want to do generative research and research on anti-aircraft guns, this is a secret, and we must ask our highest chief to do it." signature." What?

The few people next to me were confused, why hadn't they heard such a statement, yes, this project was originally in charge of Director Zhang, in fact, as long as he himself nodded and agreed.

"But did you remember wrongly? I don't remember it like this. As long as you nod, you agree. You don't need to report this trivial matter to the chief."

"You guys are ignorant. I told you during the last meeting. I forgot to tell you that this matter must be rigorous." Qin Yuan touched his nose, then sat next to him and prepared to watch his performance. Anyway, he had already seen through it. Well, this guy just wanted to keep him from stepping down, and since that was the case, it was right in his arms.

"It's okay, I don't mind. After all, Comrade Xiao Zhang is also for work? Yes, I'll wait for you to find the chief here, and I'll start again." Officer Zhang nodded with a smile, and then brought Following Xiao Zhao ran out.

"Cousin, are we really going to find the Chief? The question is which one?"

"Are you stupid, boy? Of course, we should look for the biggest one. Isn't Qin Yuan a crazy guy, and he's so arrogant. When we call the old chief, we will let the old chief expose him in person."

"Hahaha, cousin, your trick is really good."

"Of course I was laughing inside. Let him relax his vigilance first, so as to prevent him from trying to run away and set him up. Now I will go to the chief." This director is still foolish enough to think that Qin Yuan doesn't know, but in fact Qin Yuan It's clear in my heart.

And at this time, Qin Yuan had already taken the drawings to other researchers and was talking about very professional things. He spoke fluently without any pause.

Everyone applauded involuntarily, which was simply too powerful.

"That's right, before they come at this time, why don't I take a look at the types of artillery chariots in your military factory now!"

"Of course this is possible, Captain Qin, I will take you to visit." These researchers are very enthusiastic, and Qin Yuan just told them so much professional knowledge, and everyone has benefited a lot.

More importantly, Qin Yuan wants to get in touch with other artillery tanks, especially anti-aircraft guns, and he will be ready later.

He walked over and pretended to touch, then tapped the flak gun in front of him lightly with his hand,

"This caliber is not bad. I saw it before in their marines on their warships. It's pretty good." The moment Qin Yuan came into contact with it, a blueprint appeared in Qin Yuan's mind. A blueprint is more accurate than the original blueprint, and the entire gun barrel shell has been modified.

Moreover, he is completely clear about the specific range, explosion range, and shooting intensity of this anti-aircraft gun.

At this moment, Wang Jinjin was going to personally go to 503 Gaojin to supervise their live ammunition training. After all, accurate calculations were required, and it was almost the end of the year. They had to make achievements, and there would be a big competition at the end of the year.

At this time, Director Zhang came to the door out of breath, and Wang Qianjin frowned. Anyway, he didn't know what to say, he didn't like this guy very much.

From his style of doing things, and including the previous words, he prefers Qin Yuan, although the time with Qin Yuan is not too long.

The main reason is that Qin Yuan is a man, seeking truth from facts, saying what he has, not like these researchers who are always superior, if it is not because of the status of his palm, these guys probably don't even think of him.

"Officer Zhang, shouldn't you be assisting in research in the military factory now? Why did you come to me suddenly?" Officer Zhang heard Wang Jinjin tell him that he was assisting Qin Yuan!

When did his own status drop so low, he, a researcher, actually went to assist Qin Yuan to say this, and he was not afraid of being laughed to death.

But that's not the point now.

"Reporting chief, it is precisely because of this matter that I came to you. Captain Qin seems to have made a new breakthrough. He said that today he will carry out the research and modification of anti-aircraft guns, and he wants you to go and have a look."

"Oh, it would be interesting to let me go and have a look, but anti-aircraft guns can't be completed in a day, what the **** is this guy trying to do?"

"Chief, you can go over with us to have a look, and you can also guide our work." Wang Qianjin didn't say anything more, and everyone talked about this.

On the other hand, he is also very curious about Qin Yuan's blueprints. This kid has been hiding them all the time, not letting himself see them, so let's go and see what's going on today.

Just like this, when Wang Jinjin and the others came, those researchers squatted in front of a blackboard like elementary school students, and Qin Yuan seriously talked about the knowledge of cannonballs on it.

They also took out their notebooks and scribbled down notes beside them. Wang Qianjin was stunned. What's going on?

Researchers like him are usually very proud, and they are not convinced by anyone, so why are they being subdued by Qin Yuan now.

"Ahem!" Wang Qianjin coughed twice, originally wanting to remind them, but because everyone was too focused, they didn't even notice him coming.

It was Director Zhang who ran over to remind everyone, so everyone stood up and saluted.

"Hi sir!"

"I think you are in a good state of study, and you have a lot of learning scope."

"Reporting to the chief, Captain Qin taught this well. He is really amazing. All the shell support is stronger than our theoretical foundation, and he can explain many aspects that we have not considered."

"Hey, today really opened my eyes. You kid can still praise people. If I remember correctly, didn't you not convince anyone before?"

"Boss, that's all happened in the past, and Captain Qin is really talented and learned, so I really admire him." Qin Yuan saw Wang Jin coming in, anyway, he didn't delay, so it ended early. In this way, everyone came to the innermost military factory together.

There is a large vehicle and boat on it, which is a basic modification of the anti-aircraft gun. Qin Yuan plans to modify the gun body first.

"Captain Qin, do you need our help? All of us can participate, as long as you order." When it comes to this, the researchers are very enthusiastic, and they all take the initiative to ask for help.

When Director Zhang saw this scene, his face turned green with anger. This group of guys had never seen them so active. When he wanted to research a project, they couldn't help but scream for a long time.

"It's okay, you just watch me explain to you below, so you can understand it better." Did you hear me right?

What he means is that he intends to finish it by himself, which is too exaggerated, although it is said that this kind of anti-aircraft gun is now controlled and modified by machines.

But it would be very tiring for one person, and it is still a question of whether the cannon body can be rebuilt today. Wang Qianjin looked at Qin Yuan with interest, he was looking forward to the surprise this kid would give him.

Qin Yuan stood on the lathe, and then he began to manipulate the machine next to him, and modified the front barrel according to the blueprint he designed.

"I'm shortening the length of the barrel now, which also increases the range, so that the shells can be shot out quickly." This is quite simple, but it depends on whether it can be implemented later. After all, after shortening, it will also have corresponding problems. If you can't hit the distance, the speed must have increased, and the distance is the problem.

Unexpectedly, Qin Yuan used welding equipment to make a pipe for Heijinwu below, and just put it inside.

In fact, Zhang Qian couldn't understand what kind of operation this was. He had studied various transformations before, and he had never seen such a peculiar technique.

Everyone also looked puzzled. Although Qin Yuan explained beside him, they still couldn't understand it. To them, it seemed a bit profound.

Moreover, Qin Yuan's speed is very fast, and he is also very strong in controlling the machine. He stopped immediately when he reached that speed.

You must know that they usually conduct such research, and they have to go through repeated experiments many times, and they don't know how much material and time will be wasted.

In this way, just ten minutes later, Qin Yuan has completed the transformation of the gun barrel, which is simply unbelievable, mainly because he did not waste any time and was precise in every step.

Director Zhang originally wanted to watch Qin Yuan get slapped in the face, but he didn't expect that he was the one who got slapped in the face. He couldn't understand Qin Yuan's operations at all.

After more than half an hour like this, Qin Yuan has remodeled the entire gun body. In addition to the reinforcement of the anti-aircraft gun, he also made precise adjustments, which is more conducive to increasing accuracy.

"Traditionally, we need to carry out manual auxiliary shooting, but now after I finish the design, it will become more accurate. It only needs to be adjusted once, and its accuracy can be determined." Qin Yuan said it was too simple, let Director Zhang couldn't believe it for a while, was he bragging or was he real?

Until the last moment, he still didn't want to give up. He wanted to see what the final result would be. Even if he remodeled it now, if he couldn't launch it, it would be just a pile of scrap iron.

Studies like this, which they've done a lot, are really, really tricky.

Chapter 975: Urgent task

Wang Qianjin next to him listened to Qin Yuan's wonderful speech, and when he took the lead, he applauded. What their troops lack is such capable and talented talents.

In this way, while Qin Yuan was explaining, he used the machine to control, and soon the entire cannon body had been transformed by him.

The next step is the most difficult thing is the modification of the projectile warhead. This step needs to be completed under a microscope, and it needs to pass through the auxiliary equipment next to it, because it needs to be very accurate. If there is a little error, the effect will be different when it is fired.

What's more, he is only modifying the front warhead now, and he will fill the whole shell with gunpowder later. Each of these steps requires professionals to complete.

It has to be said that Director Zhang was completely stunned by the sidelines. He couldn't believe that Qin Yuan did it, and he was very familiar with every step of the way.

It took him a long time to learn these steps, especially the theoretical basis at the beginning, which is really difficult until later, they need to carry out theory and practice.

So why these researchers are so precious is because it takes a long time, many years, to cultivate a research talent to learn these things.

Xiao Zhao next to him was also completely stunned. He originally wanted to watch Qin Yuan get slapped in the face, but he turned out to be very professional, and every step of his speech was in place, especially its operation, which was comparable to his previous teaching professor.

After he adjusted the machine, he let the machine perform natural grinding, which took about a few minutes. In this gap, he explained other types of anti-aircraft guns.

The main reason is that there are several different types of shell ports and their calibers. Immediately afterwards, he picked up the brush and drew a picture on the paper. Everyone didn't know what he was going to do. After a few minutes, he held up the whole picture. Unexpectedly, it was a new one. Study graph.

At this time, Qin Yuan turned his head to look at the operation on the machine, and then said to Director Zhang: "Xiao Zhang, please come over and turn off the machine for me first, the picture on my side will come out in a while." Officer Zhang didn't hesitate, and hurried over to turn off

the machine. At this moment, he didn't dare to say anything. After all, Wang Qianjin was also here. On the other hand, he was indeed shocked by Qin Yuan.

After a few minutes, Qin Yuan continued to process the drawing he had just drawn, and then lifted it up.

"The picture above was modified for the shells of the Type 59 tank. The main purpose is to change the structure of the barrel, which can greatly increase the shooting range." After listening to Wang Qianjin, a smile appeared on his face.

"Boy, you really didn't disappoint me. You actually came up with two or three design drawings in a short period of time." This is equivalent to having completed their work tasks for half a year. There are so many researchers in their research institute, carrying out transformation and research every day, the result is not as good as Qin Yuan's these few days.

To be precise, it should not be as good as Qin Yuan's today. Officer Zhang was even more angry, but he was angry with himself. Although he is usually quite arrogant, he mainly heard his cousin say that this person is too arrogant, so he couldn't help but target him. He is really talented.

If he had known this was the case, he would have invited him over without delaying him two days ago, and he would have saved so much time. What their research center lacks most now is time.

However, it took a long time to build the warhead. It's not Qin Yuan's fault, but the entire process of the machine, which is equivalent to completely remodeling and reprocessing a new warhead.

He looked at the time and suggested that everyone can go to eat first, and when they come back to see the results are almost the same, they can go directly to the testing ground to test.

Director Zhang walked forward with a smile, and kept looking at the blueprint designed by Qin Yuan.

"To be honest, this is the best design drawing I have seen in the past two years, without the slightest error, and the design is so perfect."

"Xiao Zhang, do you still have any doubts about me now?"

"No, no, Captain Qin, I'm sorry, my attitude was a little bad before, and I'm here to apologize to you, I'm just like a boss in front of you." The main thing is that Director Zhang remembered that he had made some English introductions, Show it to Qin Yuan, but he doesn't need to read it at all, what he knows is the core stuff.

In this way, the afternoon was complete, and the appointment was made, and those who went to play chess didn't even play chess, so they simply organized everyone to go to the training ground to see the products developed by Qin Yuan.

After Qin Yuan modified the anti-aircraft gun, it greatly increased its accuracy, blasting speed and armor-piercing performance. They compared the previous anti-aircraft gun with the current one. There are two differences. The current gun fire is stronger.

When they saw the results on the spot, they all stood up and applauded, and everyone cheered, which meant that their military research was one step closer.

Qin Yuan enjoyed the cheers very much. On the other hand, he also said that he had obtained the research blueprint of the aircraft carrier before, but it was a pity that he never had the opportunity to practice it.

Now he has just laid the foundation. Wang Jinjin has a very large network of connections. Coupled with his current transformation, it is estimated that these researchers will be able to promote him.

Now that he has changed his previous view, like an illegitimate fan, defending Qin Yuan everywhere, Xiao Zhao is very helpless, how did his cousin become like this, no matter how crazy he is.

In fact, it is Director Zhang, who really has a patriotic heart. He really hopes that his team and his country can develop newer products.

Hope that their country will go stronger, Qin Yuan broke their previous research speed when he came out, and this time they made a breakthrough.

And it's not just the one he's researching now, his research has been put into practice, and with the few blueprints he designed, they can all be made according to the template.

Well, they have the most basic research map. You must know that it took a long time for them to study this one before. Everyone has to go through calculations, make changes, and then go to the training ground to observe.

After repeating this way, they knew how much data they needed to make changes, and even after the design drawings were researched, there would be a big discrepancy with the product. They didn't expect Qin Yuan to be so perfect.

Wang Jinjin regretted that he didn't call Qin Yuan earlier. He organized a celebration party that night, and everyone had extra meals in the cafeteria.

He pulled Qin Yuan and was about to worship Qin Yuan on the spot. The guards next to him were stunned. Is this still their chief?

When did you lose your temper like this. At this time, the guards came to report that there was an urgent military matter concerning Qin Yuan, and Gao Shiwei asked him to return to the team quickly because there was an urgent task.

When Wang Jinjin heard that Qin Yuan was leaving, he became sober in an instant.

"What's the situation? How long ago did you come to me for a month? The month hasn't come yet."

"Chief, there is no way. After all, I have a military mission over there, so I can only go back first, but don't worry, I will come back after the matter on my side is settled."

"This is what your kid said. Everyone has heard it. You can't go back on your word. After you've dealt with the matter over there, you must come over to me and conduct research. You can enter this research factory as you like." The maximum authority given to him by Qianqian did not even require his signature to allow Qin Yuan to enter their research and experiment base at will.

I really cherish a research talent like Qin Yuan. In fact, he would rather stay in the rear for a research talent like Qin Yuan. It would be too dangerous to be on the front line.

It's just that as a chief, he can't say that, every soldier's life is fair, and someone has to do it.

Because of the sudden incident, Wang Qianjin sent a special car to take Qin Yuan back in person. As a result, when he was only halfway there, Gao Shiwei called again, telling him that all the equipment was ready, and he would go directly to the special airport of the army and someone would pick him up.

It seemed that this mission was quite urgent, so he told the soldier driving in front to go directly to the military airport.

It's not easy for the soldiers to ask too many questions. After all, this is a matter of their special brigade, and it's also about confidentiality.

When they arrived at the military airport, their helicopter was already ready to start. As soon as Qin Yuan got on the helicopter, everyone started to start.

While putting on the equipment, he asked He Chenguang to tell him about the specific mission this time. It turned out that their embassy in country K was suddenly attacked, and the personnel inside were kidnapped.

Qin Yuan was very shocked when he heard this. How is this possible? Country K is considered a relatively safe country. There has not been any war in recent years. How could such a thing happen suddenly?

"Are you sure who did it? Could it be a terrorist again?" At this time, He Chenguang clicked on a video for Qin Yuan to watch. This was a surveillance video from their embassy.

The people shown in the video were dressed in the costumes of their country K. They rushed into the embassy with guns and weapons in their hands, and directly injured the guard at the door.

One of the guards had passed away due to his serious injuries, and the other guard was now seriously injured.

A total of seven embassy staff were held hostage inside. This one is just too arrogant, Qin Yuan clenched his fists, and their national flag is very obvious at the front desk, don't these guys know each other?

No wonder this incident is so urgent, it turned out to be like this,

"What is country K saying now?"

"Lao Gao has already talked to their top officer on the phone, as well as their security officers. They are also investigating this matter now, but the dragon team has already gone to assist in the investigation." Qin Yuan nodded. Expressing his understanding, he looked at other materials. There was not only their embassy in country k, but also the embassy of country c five kilometers away from them, but it was safe and sound.

It was simply provocative, and the person in the video also made a move that made them all angry. He directly threw the national flag on their table on the ground and trampled on it at will.

When Qin Yuan and the others arrived in country K, the staff there immediately came to meet them. The woman with gold-rimmed glasses in front of them was their security diplomat this time.

The woman extended her hand politely.

"Hello, Captain Qin, I'm in charge. You can call me Anna." Qin Yuan gave her a military salute. Now he can't control so many rules, after all, their people have been hijacked.

Anna just withdrew her hand with a smile, didn't say anything, and hurriedly led the way. They came to the embassy by bus, and Long Xiaoyun and the others were also here. There were eight staff members present at the time, and one staff member escaped the disaster because he went out to use the toilet.

The staff member was obviously terrified, and he seemed to be in his thirties. When he talked about what happened at that time, he still had lingering fears.

Qin Yuan strode over, looked at him and asked directly: "What language did they speak at that time, can you know?"

"It's the local language, and I remember it very clearly. The person in the lead uttered a dirty word, and what he did was definitely their local." Anna was a little embarrassed to hear it, and she hurriedly asked: "But sir, were you not Did you say that you escaped unharmed because you were in the toilet? How did you hear them say that they are our locals?"

"Because they rushed in and searched every room, and when they were about to lose me, the alarm sounded outside, and then the person who came in cursed, and I heard it very clearly." Qin Yuan turned his head and looked at Anna. This woman really shouldn't appear at this time.

"Miss Anna, I'm sorry, but please avoid it now. After all, I'm asking about the citizens of our country, and it's not convenient for you to interrupt here." Anna smiled awkwardly. This Captain Qin really deserves his reputation. I've heard rumors about him, and he's really unselfish and doesn't give me any face.

She was here to solve the incident this time, because all the evidence now pointed out that it seemed that the locals had kidnapped the staff of the embassy, but she felt that this was completely slander.

"Captain Qin, no matter what, I still hope that you can trust the diplomacy between our two countries. Such a thing will never happen."

"Then I also hope that such a thing will not happen, but everything is still in the investigation stage, and I also hope that you can cooperate with us to conduct an active investigation." Long Xiaoyun came over and told Qin Yuan about the situation she came into contact with here, including the weapons they used at that time, judging from the condition of the shell casings at that time, this was the most common submachine gun in their local troops.

Moreover, they are very familiar with the roads. After the early warning, the local troops of K country immediately mobilized a team to chase after them. Unfortunately, they did not catch up.

Chapter 976: sudden attack

Regarding this point, Qin Yuan was very puzzled. They dispatched from country K, but they were professional troops, how could they not catch up with a few militants, and they were even carrying hostages in the downtown area. After a while, people from Long Xiaoyun's team sent a repaired video, which was the roadside surveillance. "What's the situation? The monitoring needs to be repaired." "When we first came here, it was also very strange. They didn't give us a normal answer at the first time, and I asked many times to see the monitoring on the roadside. I gave a video, which was deleted." Hearing what Long Xiaoyun said, Qin Yuan turned his head and looked at Anna, at this moment, Anna didn't know what to say, but just spread his hands helplessly. He and Long Xiaoyun walked into the embassy, and then left two team members to guard outside. They must not let anyone in, and now he will no longer trust these people. "Anyway, we are still on guard against those people outside. What they say is full of moisture." "I also feel that Anna seems to be hiding a lot of things from us, especially this monitoring, I can't figure it out "" "This time the matter is more complicated, including this monitoring, our team members said that someone maliciously invaded their system, so there were traces of the video being deleted." Now the copy

they opened is repaired . At this moment, it can be seen from the surveillance that the armed men stuffed the staff of the embassy into the small van next to it, and the two behind them were riding motorcycles, wearing black masks, and shooting at the crowd in the downtown area. . Judging from their situation, it doesn't look like they are here to kidnap, but more like they are telling others with great fanfare that they are here to kidnap, to take hostages. Moreover, it was not as fast as what Anna and the others had told them. It took more than forty minutes for their army to arrive for rescue. At this time, the street was already in chaos. After the troops arrived, they could only deal with the affairs of the people on the street. Many people were injured by accident due to this attack. In this way, two hours after the attack, they learned that the embassy staff of Yan State had been kidnapped. At this time, Long Xiaoyun and the others had already received a call for help from abroad, so she led the team here immediately. These staff members were not as good as Long Xiaoyun and the others. After watching the video, Qin Yuan frowned, these guys really didn't leave any flaws, they were just ordinary vans, and then they set off directly towards the city center, diverted to the side road, and completely disappeared inside. "What should we do now? The news seems to have been cut off, and it has been four hours since the attack and kidnapping incident, and there is still no news." After all, they often encounter such kidnappings and kidnappings. , most of the kidnappers have a purpose. They will leave their terms on site. In other words, he called directly after the kidnapping incident, because the sooner he could get rid of the hostages, the better. It was strange that the gangster didn't mention any conditions. "Well, let's go to the road where those guys disappeared first, maybe we can find other clues." As soon as Qin Yuan and Long Xiaoyun walked out, Anna hurried forward. "Captain Qin, Captain Long, I am deeply sorry for this incident, but if you need personnel, I have sent support personnel to work with you." "Then thank you for your kindness, but the support We don't need team members, we have our own team members." After speaking, Qin Yuan set off with the members of the Red Blood Cell Team and the Wolf Warrior Team. After a while, Li Erniu looked at the rearview mirror, "Brother Qin, they are following." This group of guys really didn't listen to persuasion, what are they doing here, is it a waste of help? As far as their work efficiency is too low, and people have accidents on their territory, it is very likely that their people did it. "It's time to test everyone's driving skills, and see if you can get rid of them." Long Xiaoyun made a confident expression, her team members are absolutely fine. "Xiao Yun, then you have to follow us closely, we have to speed up." In this way, Anna's people were following behind, but suddenly seeing Qin Yuan and the others in front speed up, they could only speed up They followed, but Qin Yuan and the others were so fast. And halfway through the chase, they threw smoke grenades directly out the window, and thick white smoke rose around them instantly, and they didn't dare to venture forward again, fearing that they would hit other things. By the time the smoke cleared, they were long gone. Before, Anna was always smiling. Now she stared at the front and snorted coldly. These guys really have some tricks. "Miss Anna, what should we do now? This way we can't tell which direction they are going from." "Well, the three of you will go with me, and the rest of the convoy can go back first, so as not to waste everyone's energy." When those people heard it, they immediately cheered. They didn't want to do such a hard job, and they didn't appreciate it, but this Anna kept sticking to it. I really didn't know what he meant. The three people who were in the same car as Anna were also a little unhappy. Obviously everyone could go back, but she insisted on going. But these three people couldn't say anything. After all, this is work. A female security guard was suddenly sent over at work, and they didn't know what they were responsible for. Besides, everyone has been lost, so is it necessary to search blindly like this? Anna raised a weird smile at this moment. She leaned on the co-pilot and began to close her eyes to rest, telling the driver to set off on the left

side of the road. In this way, everyone traced the road for a while, but still did not find Qin Yuan and the others. There was a gas station next to them. Everyone came down to refuel and take a breath. Anna went into the supermarket to buy something. The driver who was driving just now was a little unhappy. "I really don't know what the ***** this woman wants to do. I think she is torturing the brothers." "Besides, people in Yan Kingdom look down on us at all. They think we don't have the strength, so we went to find it with them." "As a result, she I have to keep sticking to others here, but in fact, they don't appreciate it at all and dragged us in. Is there something wrong with this person?" Everyone was talking excitedly, and the driver next to him gave a quick wink. A few people understood instantly and closed their mouths. Anna came over with something to drink, "Brothers have worked hard, and have been running around with me, but I hope you can understand, drink some water first." Apart from other things, this Anna is actually quite beautiful, and was When she said this, those people were also a little embarrassed, took the water and drank it. "I need to trouble a few brothers to bring me with me later. After all, this is also a task assigned to me by the superiors. I also want to do my best." "Miss Anna, it is too polite to see you say this. Don't worry, this It is also our responsibility." "But we will definitely do it according to your request." Anna smiled, and sure enough, men can't stand coaxing, she said a few words casually, and these people immediately changed their attitudes. She put her hand on the shoulder of the driver just now, "That's really great, I need to trouble a few brothers later." The driver was instantly elated. After all, Anna's voice is very sweet, and she is also very good-looking. Pretty, who can stand being acted like a baby like her. It's just that he suddenly felt that something was wrong. When he looked at Anna next to him, he felt a little dizzy, and there was a double image. The same was true for the two people next to him. He shook his head, trying to stay calm, but fell back heavily. At this moment, Anna smiled, and then pushed lightly, directly pushing the person next to him to the ground. "Just sleep well!" This was the last sentence they heard. At this moment, the three people had just fainted and walked out of the supermarket. Several people quickly dragged them in. After a while, they changed into these paragraphs clothes, got into the car and continued to set off. On the other side, Qin Yuan and the others have already reached the place tracked by surveillance, and there will be no surveillance any further. Their hostages disappeared here, and now there are two forked roads in front of them. I don't know where these guys came from. Long Xiaoyun stood up and looked at these roads, and then slowly said: "Well, let's move separately, which will be faster and save time. The fastest way is to find a way to ensure the safety of the hostages." Qin Yuan Nodding, it's no problem to act separately. It just so happens that he and Long Xiaoyun lead a team to set off, and they still have satellite equipment and walkie-talkies on their bodies, so they can contact them in time if there is any situation. After coming down from that road, the road was very desolate, and there were almost no buildings, so there was no surveillance here. "Brother Qin, I always feel that there is something wrong with this matter. It's not that I'm talking about the ability of their Wolf Warrior squad." "Just say what you have to say, don't mind so much." "I'll just say it, don't be angry , I think this incident is too coincidental, how could the video be deciphered by the members of their Wolf Warriors team." Li Erniu was a little unhappy when he heard this, and He Chenguang meant that he was suspicious of Long Xiaoyun are they? Never doubt your comrades in arms, this is their basic principle. Besides, there is complete unconditional trust between them, and such a thing will never happen. "Erniu, I said you boy just can't turn the corner. I don't doubt them, but I suspect that this is a trap set by the enemy." He Chenguang's suspicion is not unreasonable, after all, they occupy a small There are indeed computer experts in the team, but he doesn't know this kind of deleted video, can it really be completely restored? Brother Qin now has world-class hacking skills, so this situation can be

recovered, but he thinks he can do that to others, so he doesn't know. But in the current situation, this is their only clue, so let's check down first. At this moment, Brother Qin heard gunshots. He felt that something was wrong with Long Xiaoyun. Although the gunshots were far away, he hurriedly told Li Erniu to turn around. When they arrived, the gunfire had stopped, and they could see Long Xiaoyun's car parked in the middle of the road ahead from a distance. At this moment, Long Xiaoyun was standing in front, cursing, and when she saw Qin Yuan approaching, she quickly waved. "What's going on here, we rushed over just after hearing the gunshots, why didn't we see anyone?" "We were walking on this road, and suddenly a convoy rushed out from the side, and shot at us without any explanation. , We also made a quick counterattack, but their anti-reconnaissance capabilities are very strong." The strength can be said to be comparable to that of Long Xiaoyun and the others, and their main purpose is not to attack Long Xiaoyun and the others, but to destroy their car. The bullets all pierced the front tires, the vehicle blew out, and almost rolled over. After Long Xiaoyun and the others came down, they quickly counterattacked, and those guys retreated after finishing the tire. That's why Long Xiaoyun was so angry just now, their reaction speed was fast enough I didn't expect those militants to be faster than them. She felt even more provoked. Those people were very powerful and had been trained for a long time. "We fought down just now. I think those guys' strength is about the same as ours." Brother Qin looked at the tires, and then at the direction in which the militants were fleeing. He had a feeling that he was being watched. Because they just came here, those militants would never say that they found them so quickly and they were very purposeful, so they just hit the tires, which made him feel very strange. It seems that the hostages are definitely in this direction. They came out to interfere with Long Xiaoyun and the others. Now Long Xiaoyun and the others can only move on foot behind. Qin Yuan led his team to rush up to have a look. Originally, he wanted to leave the car to them, but Long Xiaoyun felt that Qin Yuan and his team could deal with those militants with their strength, so he let them go forward first. At this moment, there was a powerful friction sound, Qin Yuan turned his head, and saw a speeding car speeding towards them. Without the slightest hesitation, Qin Yuan first aimed at the tire of the vehicle on the other side. The bullet flew out and hit the tire on the right side. The vehicle instantly lost its balance and was about to roll over. Unexpectedly, the person inside was still an expert driver. After some maneuvering, the car landed on the ground smoothly again. He turned over and jumped out of the car window, and directly threw a grenade at Qin Yuan and the others. This guy's speed was really fast, and several members of the team failed to track him down. Qin Yuan aimed at him and fired a shot, but only hit his calf, making him lose his movement, so everyone chased after him. The man lying on the ground at this moment smiled sinisterly, without the slightest fear, "Your marksmanship is nothing more than that, if you have the guts, just shoot your head!"

Chapter 977: 1 additional RBC panel

Qin Yuan has seen many militants, and most of them will indeed appear fearless when facing death, but such arrogant ones are really rare. And this guy is obviously provoking him on purpose, wanting him to attack him. "Hehe, do you think I will shoot you like this? You are still useful to me, tell me, who sent you here, how would you know our whereabouts." "Kill me, what am I I don't even know." At this moment, Long Xiaoyun and the others also caught up, after all, they heard gunshots just now, so they also speeded up, worried about missing something. I heard what this man said when I came here. This kid is really too arrogant. What is more important now is

that they don't know where the hostages are. Whether they are still safe or not. Long Xiaoyun was also in a hurry, stepped forward and lifted the man, "Let me see if it's your hard mouth or my fist." Long Xiaoyun punched the man in the ribs. Still gritted his teeth and didn't say anything, unexpectedly he was a professionally trained dragon, Xiaoyun was tired from beating, this guy didn't say a word. "The situation should be that we have encountered a hard problem. This kind of fighting is not enough to persist!" The militant who fell on the ground spit out a mouthful of blood from his mouth. Anyway, his attitude is very firm. Unless he is killed, the other He won't say anything. Qin Yuan squatted down and looked straight into his eyes. Three seconds later, the man fell into a state of confusion. No matter how hard he persisted, he never thought that Qin Yuan would be hypnotized. Long Xiaoyun gave Qin Yuan a white look, wouldn't it be enough for this guy to be like this a long time ago? And let yourself waste so much effort. But it would be cool to teach them a lesson. All these guys dared to openly hijack their staff, which was clearly provoking Yan Country. "Tell me, what organization do you come from, and where did you send our hostages?" "My organization is called the Red Blood Cell Team, and I don't know where the hostages are." The militant in front of him answered mechanically, but his answer really shocked everyone. Is this guy serious? He said that the name of his organization is the Red Blood Cell Group, which is too exaggerated, what is the situation? And Qin Yuan is sure that this man is not lying, because he has completely controlled the man's consciousness. "What's going on? Who is the leader of your organization? How many people are there?" "There are eight people in our organization, and our elder brother is called Bai Yuan, because our elder brother said he wanted to replace..." The man hadn't finished speaking, Suddenly he vomited a mouthful of blood, then fell to the ground and convulsed, Qin Yuan screamed that something was wrong, and then quickly took out the silver needle, trying to treat the man, but the man was dead at this moment. It was so fast, from the moment he vomited blood to his final death, only a few seconds passed. What kind of poison is this? Long Xiaoyun and the others couldn't understand it, and thought it was Qin Yuan who did something to him. "Qin Yuan, what are you doing? This person is very important to us, why did he die?" "I didn't do anything. I took out the silver needle just now. I wanted to save him, but it didn't work." The poison is really strong." Judging from the situation, it should be that the man has already taken the poison before, and it will explode automatically after a certain period of time. These guys really have the smell of Deadpool. In his case, he should have taken the poison in advance, if he completed the task within the specified time. Then you can get the antidote. If you are not controlled by Qin Yuan and the others, you will be directly poisoned and died like this, and Qin Yuan and the others will not get any effective information. Faced with such a situation, everyone was stunned for a while. This was the first time they encountered him. He died in front of them on the spot, and the news shocked them. His organization was actually called the Red Blood Cell Group. Qin Yuan carefully searched for the name of Bai Yuan in his mind, but he really couldn't remember it, it sounded like a code name. "Brother Qin, what should we do now? This organization seems to have a strong background. From what it means, is it trying to imitate our red blood cell team?" "Hehe, a copy is always a copy, and there will always be flaws. If so, then I will find out this replica." "What's more important now is that they still have hostages in their hands. It seems that this is a long-planned kidnapping, which is deliberately targeted at you." Long Xiaoyun After finishing speaking, he squatted down and checked the man. Unfortunately, there was no other valid information. Qin Yuan and the others could only search in this area first. But he vaguely felt that the opponent this time was very difficult, not as easy to deal with as they imagined, and there seemed to be a pair of eyes staring at him invisibly. It had been a long time since he had this feeling of finding an opponent. Only this time the person could truly become an

opponent. In the past, he was the dominant player. It seemed that this time was really interesting. It had been a long time since he had the feeling of being treated as a prey. Because the car on Long Xiaoyun's side was damaged, Qin Yuan asked their Wolf Warrior team to search nearby, and he led the members of the red blood cell team to drive to a further place to search. After driving past, there are many buildings in this area, Qin Yuan asked everyone to check these buildings. At this moment, there was the sound of a car starting from behind, Qin Yuan turned his head, unexpectedly it was Long Xiaoyun and the others, but Anna was sitting in the front co-pilot. It turned out that after they parted, Anna's people came here in a car, just in time to pick up Long Xiaoyun and the others. After all, in this area, it would be impossible without a car. Qin Yuan stared at Anna coldly, what was going on with this woman, anyway, he always had a feeling that this woman was definitely not simple. "Miss Anna, with all due respect, I would like to ask, how did you find us? This area is so big, so it's not such a coincidence." "Captain Qin, it's like this, because our people heard that there were shots The voice, so I came here quickly to give you some help, I am really sorry for this incident, and I want to do my best to save it." "But I really feel very strange, since We came here to start, you have a lot of things, just like we concealed such behavior intentionally or unintentionally, I can't believe you." "This happened, I am really very sorry, this is not what I thought, But sometimes, I really can't help myself, and I sincerely want to help you." "For this incident, I apologize to you again, and I don't want the relationship between our two countries to be questioned in any way. I wanted to make up for this mistake, so I came here in person." Looking at her sincere apology, Qin Yuan also had an illusion, and at this time Long Xiaoyun also stood up to speak for her, after all, they used someone else's car. I feel a little sorry. At that time, Long Xiaoyun just wanted to requisition their vehicles, but it was really unsafe to put Anna and the others here, so he had to bring them along. And at this time, Anna was not like Qin Yuan and the others who dressed exaggeratedly when they first met. Now she is very low-key, wearing a camouflage uniform. From her clothes, she can see her determination, and it is estimated that she really wants to help. Anyway, Qin Yuan still kept basic precautions against this person. Fortunately, Long Xiaoyun's team also came. Now that there are enough people on both sides, he asked everyone to search the surrounding area. There are a lot of buildings in this area, maybe clues can be found here, and he also found wheel prints and many messy footprints next to it. When everyone was searching, Anna ran over suddenly, and she quickly called out Qin Yuan and the others. "The area to Captain Qin's left is covered with landmines. Tell your soldiers to be careful." "Miss Anna, how do you know about this?" Just as she was speaking, Anna raised the remote control in her hand, and the It is a UAV equipment, this is the latest UAV infrared mine detection equipment. "You see! We have this. I really want to help, and I have brought in some equipment." Qin Yuan thought for a while, and it seemed that he was worrying too much, and then asked Li Erniu and the others to pay attention to safety and bypass the area. minefield. He didn't say much to Anna, but just set off silently. Anyway, he should be on guard against this person. However, the other team members were chatting enthusiastically with Anna at the back. After all, she was a security officer sent from country K, so everyone was relatively wary of her. Coupled with her identity as a woman, it really gave her a good cover. At this time, He Chenguang stepped forward: "Brother Qin, that Anna gave us a clue. This area was the base of an armed organization before, but after the armed organization was wiped out by their local forces, it was completely dispersed. , so they suspect that this armed organization kidnapped our people." "This is meaningless to us, the most important thing for us is to know where the other party is, after all, I have already interrogated that person just now!" "Brother Qin , I suspect that what she said is the same group of people as we are talking about, and the more valuable information on his side is the

inside of these militants and their undercover agents." Qin Yuan became interested when he heard this, then this It means that Anna can lead them to find this armed group? After all, as long as there is a glimmer of hope, he will die, not to mention that this organization is too mysterious now, and the people who came here suddenly died. Whether or not they're talking about the same organization, but there's hope, give it a try. Qin Yuan found Anna, who was currently controlling her drone equipment to detect the surroundings. "Captain Qin, don't worry, I will definitely assist you. Our newest weapon can not only detect landmines, but also sense if there are people around." It looks like he is actively and eager to help. "Miss Anna is like this. I heard from my team members that you can find the whereabouts of those militants, can you?" "Yes, we have personnel inside, as long as I contact him and ask him to send us the location. "At this time, Long Xiaoyun and the others made a discovery. In the ruins, they found a badge of an embassy staff member. After they entered the ruins, they found that there were many messy footsteps inside. Judging from the situation, it was very likely that militants were stationed here. After all, they were familiar with the terrain here. If someone took hostages here, they might step on a mine, but if they were stationed here, they certainly knew where the mines were. So Qin Yuan also made a decision to ask Anna to contact the undercover of that organization first, without hesitation, took out a watch and started sending messages to the undercover over there, and after a few minutes, the undercover sent a status. That location is not too far from their place, more than 20 kilometers away, if they drive very fast. Everyone got in the car and set off. Originally, Anna was sitting in the car behind with Long Xiaoyun and the others, but she made an excuse that she wanted to keep in touch with the undercover agent at any time. Just get into Qin Yuan's car, and if something unexpected happens, they can make changes at any time Sitting in the co-pilot, Anna has been actively pointing out the route for them. At this time, Anna suddenly turned her head and looked at Qin Yuan, "Captain Qin, I have been so active in helping you, but I always feel that you are always on guard against me, which makes me very sad." "Anna Miss, you may have misunderstood, I never had such an idea, it may be because of my personality, I don't like to talk." "But I like to talk, so we can talk more, don't you have anything to ask? "Well, no!" Well, Qin Yuan chatted to death again, and He Chenguang felt embarrassed for him in the back. She is such a beautiful woman, and she has been actively helping them, so Qin Yuan's attitude cannot be improved. ? Later, Anna also made fun of herself, leaned on the co-pilot, and then looked at the scenery outside the window. Sure enough, this Qin Yuan was the most difficult to deal with. She had put in so much effort, but he was still wary of herself. But, such a person is more challenging for her. Twenty kilometers is not too far away, and they will arrive soon. There is still a distance to the destination, Qin Yuan asked everyone to hide the car, and now they are walking on foot, and the people inside must not find out. Anna had also contacted the undercover agent before, and the undercover agent quickly gave feedback. Indeed, several Yan people were brought here in the morning. It is indeed in the base now, but he does not know exactly where it is being held. He cannot participate in these things. Knowing the news, Qin Yuan and the others were very excited. It seemed that their guess was correct. Anyway, as long as the hostages were inside, it didn't matter where they were. I have to say that Anna really helped them a lot this time, finding the location of the base so quickly and identifying the hostages.

Chapter 978: quarrel

Just when Qin Yuan and the others were about to act, Anna suddenly stood up and stopped them.

"Captain Qin, wait a moment. The undercover agent inside me is helping us investigate and contact us later." Long Xiaoyun nodded when he heard this. After all, if there were people inside, it would be better. Okay, anyway, let's find out what's going on inside first, knowing more about the situation is not bad for them.

"By the way, Miss Anna, I want to ask how many people are there in their organization?"

"The news he gave me before, there were not many people, because they were all broken up before, so there were only seven or eight people." Qin Yuan nodded, and he also figured it out, why couldn't the undercover agent get in?

Because there are too few people, it is difficult for this undercover agent to lurk inside, and he can only do some marginal work.

And the news from their undercover agent is the same as the information they received before. They interrogated the man before, and the man said that there was an eight-member team among them. It seems that the situation is the same.

And Anna had already received the news that she did this to buy time for the people in the organization and let them make arrangements as soon as possible.

Anna was the female sniper in the former White Ape team. Although she looks harmless to humans and animals now, this woman is ruthless and murderous without blinking an eye. She is a dangerous person in every way.

But now he is just delaying the time for the organization, they are arranging poisonous gas inside. Moreover, their body structure has become faster and stronger after the previous doctor's changes.

All this is to kill Qin Yuan, everyone in the organization has a sworn hatred against Qin Yuan.

They would rather make themselves inhuman, but Qin Yuan must be killed. That doctor was engaged in biochemical experiments before, and the vaccine has something to do with him. Now he is just returning to his old business .

This time, they only used drugs to improve the physique of these people. In other words, they were just using drugs to forcibly stimulate them.

At this moment, the white ape in the organization took out a syringe and was injecting the medicine into his hand.

After injecting the potion, he seemed very excited, and went directly to the room where the hostages were held. He kicked open the door, and the people inside were trembling with fright. This guy is completely crazy.

After they were captured, they were locked in this dark basement. Until now, they don't know what happened.

And no matter what they say, how much they emphasize that they belong to the Yan Kingdom, it is useless at all.

"I really don't know what you want to do. In this, my official position is the highest. I am the person in charge of the embassy. I still hope that you will not hurt us. You can ask for anything." He can still stand up at critical moments, because he knows that there is a country behind him, and he is not afraid. The main thing now is to deal with these kidnappers.

The white ape in front laughed loudly when he heard him say this.

"Can I make any request? Then I want the life of the captain of your special forces team!"

"I want him to die, I not only want him to die, I want his entire team to die by my hands." The person in charge who spoke just now shook his head, he simply couldn't communicate as a human being, he was a complete lunatic.

He seemed to be drugged, uncontrollable, and in a state of excitement, he suddenly walked over and grabbed the hair of a hostage in front of him.

"I will definitely let you feel the fear, the fear of dying, none of you will leave, I will let you all be buried with him, let's all die together!"

"No! Don't ask, please, don't kill us, okay? Please!"

"Now I know how to ask for help, hehe, when that ***** killed my relatives, he never asked for help." Bai Yuan was very excited when he said this, he took out the pistol from his waist, and directly pulled the trigger. Aim at the head of the hostage woman.

This scene completely frightened the people around. What was this guy thinking, and he shot as soon as he said he would shoot. His mood was very unstable, and no one dared to speak. He was worried that he would be stimulated in the next second. .

The hostage was already trembling with fright, the person in front of her made her feel fear, this person was unpredictable.

At this time, a man walked in outside,

"Brother, the outside is ready, we can act now."

"Understood!" Bai Yuan took a deep breath, then let go of the woman,

"Wait! Baby, I'll come back later to deal with you, you will all go to ***** today." This is an out-and-out lunatic. At the same time, everyone didn't know what to do, and his tone seemed to have a grudge against the members of the Special Forces.

"What should we do now? We don't even have the chance to reveal the news from the outside."

"It's completely finished. This lunatic just wants to kill people. There are no conditions to talk about."

"Everyone, don't worry. Listen to their tone. It seems that special forces have come to rescue us. We must trust our special forces." Now that the matter is up to now, the person in charge just now can only stand up to comfort everyone's emotions , Now there must be no chaos here, they must believe in their players.

It's just that what the man said just now really made him a little puzzled. What preparations did these guys say they had made, would it be detrimental to their special forces?

Anna, who was outside at the moment, also received the news that the inside was ready for him to bring people in.

"Captain Qin, there is news from the people inside that we can go in. He said that he has discovered that our hostage is in the basement."

"Now that the location of the hostages has been determined, that's really great. Thank you, Miss Anna, you really helped us a lot this time."

"It's okay, this is what we should do, and I really want to make up for my guilt. I don't want you to misunderstand our country because of this incident." Anna's performance is so sincere that people can't see it. Flaws, I have to say, this woman is really too cunning.

Qin Yuan immediately made a tactical arrangement. He led the red blood cell team into the main attack and dealt with the kidnappers inside first, and then Long Xiaoyun's goal was to go down to the basement to rescue the hostages and be responsible for the safety of the hostages.

For them, this kind of rescue is only very common. After all, they have rescued the kidnapping case too many times, not to mention that there are only seven or eight people on the other side this time, it is too simple.

But Qin Yuan can't say that he has always had a feeling in his heart that this time things are not that simple.

The main reason is that I met the man who committed suicide by taking poison before, and he died before he asked about the specific situation.

So Qin Yuan was also a little cautious, he told the team members not to take it lightly. Anna told Qin Yuan that her undercover agent was inside, and she was there to support them. Everyone just walked through that passage, and there was no one on duty on this side.

Everyone didn't think much about it, mainly because of Anna's identity. After all, she was also a security officer dispatched by country K, so there would be no problem.

There were some abandoned buildings outside, and after they entered, they saw the passage that Anna mentioned.

It seems that there are really undercover personnel inside who are responding to her, and everyone hastened their pace and set off towards the passage.

Just when he was about to enter the passage, Qin Yuan made a warning gesture, and he heard some subtle sounds, which seemed to be the activation of an organ.

But when he listened carefully, the sound disappeared again, which was really strange.

"Qin Yuan, what's the matter? We have to hurry up now. If we delay, the hostages will be more dangerous."

"Wait a minute, I always feel that something is wrong with today's situation, will everything go too smoothly?"

"What do you mean? Haven't we been investigating and following up? I think this is a normal development."

"It's because it's so normal. Have you noticed that we are being led by the nose?" Long Xiaoyun didn't care so much at the moment. All she thought about was the safety of the hostages, and the most important thing was the one who was interrogated before. The news revealed by people is that they have set up a red blood cell group, which is very obvious, and it is aimed at Qin Yuan and the others.

So Long Xiaoyun was very worried, she just wanted to rescue the hostages now, she was worried that these people would use the hostages to threaten Qin Yuan.

Seeing that Qin Yuan hesitated, Anna quickly stood up and explained,

"Captain Qin, you can't miss this opportunity. My people are waiting inside. If we don't hurry up, I'm worried that something will happen later." Qin Yuan frowned and thought for a while, and then made a decision. Xiaoyun led the team to stay outside. He took the team in to check the situation first, and then sent them a message.

When Long Xiaoyun heard this, he was instantly unhappy. Why, why did he take the lead in every mission? He is a member of the Special Forces, so isn't he?

Long Xiaoyun was supposed to be strong. She felt that she had never lost to anyone before. Although Qin Yuan was indeed very strong, this guy couldn't be so domineering.

Every mission he tries to be brave, and he does it alone, this time again, they agreed to cooperate with each other, but every time this guy takes the lead.

In fact, the main problem is that Long Xiaoyun also has a feeling of uneasiness in her heart, so she urgently wants to save the hostages. She always feels worried that something will happen to Qin Yuan.

"I don't agree with your assignment. Why should the members of our bomb squad stay on the periphery? We are also special forces."

"Xiaoyun, listen to me, I always feel that things went too smoothly this time, something is wrong, you keep the perimeter as a cover for us, you can't let everyone in."

"Then I will take my people in, and you will protect us on the periphery."

"Xiaoyun, stop messing around, I'm only telling you seriously now."

"Hehe, what you said was serious. Am I joking? We are all members of the Special Forces. Although it is true that you are strong, our wolf squad is not vegetarian." This is really the first time that the captains on both sides started arguing.

In fact, both of them are doing each other's good, Long Xiaoyun is worried about Qin Yuan, he always has a feeling of uneasiness in his heart, and Qin Yuan wants to go in and see the situation by himself just because Long Xiaoyun is his lover.

Anna showed an imperceptible smile at the side. She wished that the two people would quarrel more and more. She hoped that there would be internal strife among these people. In this way, they could directly defeat them without firing a single soldier.

He Chenguang also hurriedly stood up to persuade the fight, after all, now is really not the time to quarrel.

"Qin Team, Dragon Team! Both of you are right, but now we really have to make a quick decision."

"Everyone in the red blood cell team listens to my order and sets off, then do as I say."

"I said, why are you so selfish? You do it every time. Since you want to do this, then I won't do it. Everyone in the Wolf Warriors team obeys the order! Let's go!" Qin Yuan felt a little overwhelmed at this moment. Why didn't Yun listen to him?

He was really worried that there was danger inside. In the end, Long Xiaoyun really couldn't hold back, Qin Yuan could only agree with everyone to go in together, but he wanted to be the leader of the army, so Long Xiaoyun had no objection now, as long as they could go together, there would be no problem.

In this way, everyone finally entered the passage. Unexpectedly, just after entering the passage, two iron gates suddenly descended from the front and the back.

Seeing this situation, Qin Yuan felt that something was wrong. He reacted quickly and quickly threw a blasting grenade backwards. In this case, his reaction was the fastest.

There are his lover and brothers in it, and they must not be allowed to have an accident He has to take on the mainstay.

But I don't know what material the iron door is made of. Under such an explosion, it was only slightly deformed.

This is simply too exaggerated, this is obviously a trap, they were locked here just after entering.

Qin Yuan turned his head and stared at Anna viciously, and everyone raised their guns to point at Anna.

"Tell me, what's going on? If you don't give me a valid reason today, I'll beat you into a sieve right now!" Qin Yuan was very angry. From today on, he had a feeling that he couldn't control it. He used to dominate the battlefield, but now he is always led by others.

"Captain Qin, what are you doing? I don't know how this happened. Besides, if I have any problems, will I still stand here with you?" Qin Yuan stared at Anna tightly, Anyway, he felt that something was wrong. The members of the Wolf Warriors squad were blasting the iron gate at the back, because they didn't know what would happen if they were locked here.

At this time, many small holes suddenly appeared from above the passage, and then white smoke began to rise from the small holes.

Chapter 979: This time the enemy is different

Qin Yuan immediately retreated to Long Xiaoyun's side, and then protected her behind him.

"Everyone quickly took out the rags on their bodies, wet them with water, covered their mouths and noses first, and did simple anti-virus treatment."

"Qin Yuan, what should you do?" Huang Xiaoyun saw that Qin Yuan had wet the rag, and immediately covered her mouth and nose.

"Don't talk for now, avoid inhaling too much of this gas. I don't know what these things are at the moment. Don't worry, I'm fine." Long Xiaoyun regretted it very much at the moment, and she blamed herself for holding Qin Yuan tightly. , if I had listened to him and stayed outside, maybe I could have saved them.

Now that the entire team has been brought in, they have no way out. She stared at Anna viciously, but at this moment, Anna was even more panicked, as if she didn't know that such a thing would happen.

Qin Yuan also found it quite strange, what the ***** is this woman doing? Looking at her like this, it seems that she really doesn't know.

"Miss Anna, don't you want to explain? Why did this happen just after we came in?"

"Captain Qin, hurry up and save me, give me a towel, I don't have anything on me now, I don't want to die yet."

"Tell me, is that person inside your accomplice, is it your collusion!"

"Captain Qin, it's already this time, don't you believe me? I don't have any accomplices at all, and I don't know why the people inside me suddenly betrayed me." Looking at Anna's anxious appearance, it doesn't seem like Deceitful, Qin Yuan took out another towel from his bag, wet it and threw it to her. At this moment, the white mist had completely descended in the passage.

Qin Yuan still didn't give up. He came to the passage, and continued to throw grenades towards the passage over there. Finally, he simply gave up the grenade, stepped forward, and pulled the iron gate in front with his bare hands.

The previous iron gate had been completely deformed by the grenade, so with Qin Yuan's efforts, a passage for people to enter and exit was finally opened.

"Everyone hurry up and leave from here." Although everyone covered their mouths and noses, the concentration of the white smoke was too strong. Qin Yuan had no effect at all because he had a constitution that was invulnerable to all poisons.

At this moment, Anna was a little surprised. This guy is too exaggerated. He is fine like this. What's more, he opened the iron door with bare hands. How powerful it must be, this guy really deserves his reputation.

Anna had known for a long time that poisonous gas would be released here, and this was a simulation they had done before. In order to completely defeat Qin Yuan this time, they have made a lot of efforts. They have also done many tests on poisonous gas like this, and the iron gate has been protected by special materials. Unexpectedly, Qin Yuan opened it.

This guy really has a physique that is invulnerable to all poisons, so there is no problem like this. When they were doing experiments, they also captured some local residents. Under this poisonous gas state, people would lose consciousness within two minutes.

Moreover, Anna had taken the antidote in advance, so she was not afraid. Just now, she just played a play with Qin Yuan and the others.

They have made a lot of plans this time, and she is responsible for lurking beside Qin Yuan and trying to gain his trust. If the previous plans fail, then she will be the last pawn, approach Qin Yuan, and then take the opportunity to kill him .

Unexpectedly, in this state, Qin Yuan had already led the team members out completely, and when the white ape arrived, Qin Yuan had already led the team out completely.

Bai Yuan didn't get angry, and he was very excited at the moment, he picked up a bazooka and rushed out.

The members of Qin Yuan's red blood cell team have improved their physical fitness because of the blessing of his meritorious deeds before. Under such a poisonous gas situation, the problem is not too big, and everyone can still stay awake.

But the Wolf Warriors team was different. The members of their team had already started to vomit and faint. Long Xiaoyun had been persevering. Her face was very pale, even with the simple anti-virus filtering equipment just now.

But the poisonous gas seemed to be able to penetrate through the skin, and she only felt dizzy and very sick at the moment.

Without further ado, Qin Yuan quickly took out the silver needle and told the members of the red blood cell team to be alert, and he treated them first.

Moreover, Qin Yuan can not only use his acupuncture techniques, he also has a world-class recovery ability that can quickly restore people.

He used this skill first, and now the main situation is Long Xiaoyun, who is his second captain and she cannot fall down.

At this time, a rocket fired towards them, Qin Yuan reacted quickly, pulled Long Xiaoyun over and then rolled over, tightly protecting her body.

At this moment, Long Xiaoyun only thinks that Qin Yuan is simply too handsome. At this moment, he is full of domineering. And Anna also silently called Bai Yuan a lunatic in her heart, didn't she see that she was still beside her?

Fortunately, she reacted quickly, otherwise she would have been killed by the bomb. Immediately afterwards, countless shells hit them, and the guy on the other side was really crazy.

"Brother Qin, let's get out now, that guy feels like he's desperate, we can't make an effective counterattack at all."

"Damn it, is this kid crazy? He shoots so many shells in one breath, doesn't he need money for the shells?" Qin Yuan pulled Long Xiaoyun behind him and asked her to check the situation of other team members, and then he rushed away go up.

"Be careful..." Before Long Xiaoyun finished speaking, Qin Yuan rushed directly into the smoke, because the dust that was blown up by the rocket launcher just now was flying everywhere.

Qin Yuan heard a man's crazy laughter, and he rushed towards that direction coldly. The poker cards in his hand were ready and ready to attack at any time. At this moment, he recognized the direction and quickly threw the poker cards.

What he didn't expect was that the person on the opposite side actually dodged his poker card. The poker card at this moment was just the shoulder of the man who was stuck in it, and blood flowed from the ape's shoulder in an instant.

"Hehe, I didn't expect to be injured by you in this state. It seems that your body is indeed extraordinary. I suspect that you have undergone a transformation."

"Who are you?"

"It doesn't matter who I am, but you all have to die here today, Qin Yuan, I've been waiting for this day for too long." After the ape finished speaking, he raised his bazooka and shot at Qin Yuan, regardless of his bleeding shoulder. go.

What Qin Yuan didn't expect was that the speed of the ape on the opposite side was comparable to his. You must know that his speed had already reached a world-class level, but he didn't expect that the ape on the opposite side was not bad either.

Some actions can even be done the same as Qin Yuan's. At this time, the opposite ape also threw a flying knife. Qin Yuan quickly paused, but the flying knife still scratched his cheek, leaving a bloodstain.

Qin Yuan just wiped the blood with his hands, and soon the blood on his face disappeared completely, which is his powerful recovery ability.

It's really interesting, for the first time in such a long time, someone was able to hurt himself. And the modification that this guy said just now, is it some kind of genetic experiment?

Qin Yuan was really curious. More importantly, he was very worried about the safety of those hostages. These guys were like lunatics, and they didn't know what to do with those hostages.

The militants inside also rushed out, and He Chenguang and the others quickly established a line of defense behind them and prepared a counterattack.

The militants inside were also very orderly, they formed a formation, and there were also special blasters.

Qin Yuan looked at the formation of these guys coldly. It was exactly the same as when they were training. It seemed that this was the legendary red blood cell team, but replicas were always replicas.

He rushed forward, and now he couldn't find the ape, and that guy didn't know where he went.

So now he's targeting the members of the squad, and he opens the breech and shoots quickly at the man in front of him.

Unexpectedly, the few people in front were also agile and quickly jumped away, but they still hit his calf.

Qin Yuan frowned tightly, this was really wrong, his marksmanship was always perfect, but he didn't expect that at this speed, he only hit the man's calf.

Moreover, they shoot very fast, and they have trained a lot. After this person was injured, someone soon came to make up for him.

These people are not ordinary kidnappers, they are very strong, and someone from the Wolf Warriors team has already been injured.

Qin Yuan snorted coldly, do you really think he only has these abilities? He rushed forward, exuding his ability to confuse. In an instant, the two soldiers in front were stunned.

Because the distance was too far, Long Xiaoyun and the others couldn't see clearly what Qin Yuan was doing from behind, they just saw him rushing up.

The top priority now, Qin Yuan planned to arrest someone first to ask about the situation. As for killing them, that would be too simple.

Qin Yuan had just caught a person, but Bai Yuan suddenly appeared behind him, and he shot the person next to him in the head. This person was too ruthless for his own people.

Not to be outdone, he fired quickly, and Li Erniu also threw a blasting grenade towards him. Qin Yuan also shot very quickly, directly hitting Bai Yuan's other shoulder.

He could only retreat backwards, and his shoulders were bleeding all the time. In addition to being injured just now, he could no longer hold a weapon at all, so he could only retreat towards the building inside.

Fortunately, although he only killed one person just now, the other person was grabbed by Qin Yuan directly, and the bazooka blasted out beside him, forming a huge crater.

Qin Yuan grabbed him and asked fiercely: "What's going on? Who are you?"

"We are the Red Blood Cell Team." Here it is again! Qin Yuan was angry, and asked in another way: "Did you undergo genetic modification, or did you inject something? Why are your bodies so strong?"

"Our body has undergone enhanced vaccine injections, so the physique has changed, and the speed, strength, and responsiveness have all been improved." What!

! Qin Yuan was very surprised when he heard the news, because he remembered the previous vaccine. Is there any connection between the two, or is it done by the same person?

However, the side effects of the previous vaccines were very serious. After Zhao Xue used it at that time, she became inhuman and ghostless, and could not even see the sun.

"Where is the doctor who studies ground seedlings? Where is your experimental factory?"

"Our experimental base is very large. It's on Senna Island, where our entire experimental base is." Just when Qin Yuan wanted to continue asking questions, he realized a powerful crisis in his mind, and he hurried to the side Jump away, just after jumping away, a howitzer fell directly into the crater where they squatted just now.

Good guy, these people's weapons are really too strong, not only have rocket launchers, but also automatic howitzers.

Under such artillery fire, Qin Yuan could only turn over and jump to the back. He turned his head to look, mainly to see Anna, whether this woman had anything to do with all this.

At this moment, Anna was curled up in a pit, shivering, and obviously frightened.

Long Xiaoyun came up and quickly asked him about the situation.

"I didn't expect these guys to hold such heavy weapons. What should we do now?"

"It can't happen to us. Those people don't care that they have such powerful heavy weapons. The hostages are very dangerous in their hands. You hold them here. I will see if I can get in from the back and rescue the hostages first."

"No, this is too dangerous. I feel that the enemy is too strong this time. Otherwise, we will ask for reinforcements first."

"Just now I know something, the situation this time is indeed difficult to deal with, reinforcements must be called for, but the most important thing right now is to rescue the hostages Long Xiaoyun can only nod , she held down the enemy on the opposite side first, the firepower on the opposite side was really fierce, everyone could only use the surrounding bunkers to fight back.

This time Qin Yuan didn't hesitate at all. In order not to let the other party find out his flaws, he used the instant explosive power to rush over quickly every time.

With instant explosive power like this, even if their bodies have been improved, they won't be able to find him for the time being.

These guys are really naive, do they really think that they have no other abilities except marksmanship?

He came to the position behind the building, then stretched out his hands, and the position of the wall was completely corroded by him. This is the corrosion ability he obtained before, and he has only been tested now.

The enemy this time was really unusual, allowing him to use so many skills at once. It was another genetic modification like last time, that's why he had to get out these hostages as soon as possible, otherwise these hostages would become chips in their hands.

He didn't know if he could trust Anna anymore. Before, Anna said that the hostages were held in the basement, and after he came in from here, the situation inside was also very chaotic.

Chapter 980: rescue hostages

After coming in, it was indeed the same as what Anna said, at least there really was a basement here. In fact, Anna didn't know that Ren Zhi was locked in the basement, but he also said it casually in the emergency situation at that time, but he didn't expect that the wrong hit was actually right.

At this moment, the white ape on the other side led the crowd to fight fiercely. Although he was injured, he was bandaged up forcibly. He must command on the battlefield. He must not relax his vigilance, especially when facing Qin Yuan.

This opponent is really terrifying, especially in the state just now, he failed to kill Qin Yuan, and even dodged the bazooka.

They have all been injected with genetic drugs, and their physical strength and responsiveness have been improved. They did not expect to face the red blood cell team to fight so hard.

He named himself the Red Blood Cell Group, hoping that he would remember this hatred. And the red blood cell team on the opposite side is because Qin Yuan has blessed them with merit points, so their physical fitness is relatively good.

At this moment, Qin Yuan quietly entered the basement, because everyone was fighting here, and no one noticed the situation in the basement at all.

And he did hear crying from the basement, it should be the hostages. Because there is no one here, the guards are very fast, and he kicked the front door open. Sure enough, there are embassy staff inside, but at the moment they are trembling with fright, thinking it is the lunatic from before back again.

"I am a soldier from the Yan Kingdom, are you the staff of the embassy?"

"Soldiers of the Yan Kingdom!"

"That's right, someone finally came to save us. We are all from Yan Kingdom." Everyone was very excited at the moment. Qin Yuan checked the number of people, and it was true that seven people were already there, and then he took everyone ready to go out.

At this moment, Qin Yuan made a silent movement when footsteps came from above, and he ran out quietly.

It is true that a person came down, this person was sent by Bai Yuan, because Bai Yuan always felt a little uneasy in his heart, these hostages were his cards that he must not lose.

At this moment, Qin Yuan was hiding in the corner of the wall. This person was completely defenseless. As soon as he got down, Qin Yuan quickly shot and directly hit him in the chest.

Even if they use genes and drug injections to change the sensitivity of the body, it is absolutely impossible to escape at this distance.

What Qin Yuan didn't expect was that this guy's vitality was quite tenacious. Under such circumstances, he was still struggling to touch the gun. Qin Yuan rushed forward again and continued to shoot.

He hurried up with these hostages. After these hostages went up, they saw the gunfire over there. They had never seen such a battle before, and they were too frightened to move forward for a while.

Qin Yuan kept urging him from behind, mainly because he was worried that he would be discovered. These guys' bodies are really too strong, after all, they have undergone transformation.

He also had to get nervous, these hostages were ordinary people after all, he could guard against them, but these hostages could not be guarded against.

There was no danger, Qin Yuan successfully brought these people back, Long Xiaoyun was very excited when he saw it, never thought that Qin Yuan really did it.

Now they can beat the teacher freely. Before, they were concerned about the hostages. Now that the hostages have been rescued, they have nothing to fear.

Qin Yuan and the others began to frantically throw blasting grenades to suppress firepower. After all, the firepower opposite them was too fierce at this stage, because they were all carrying medium and heavy weapons.

Bai Yuan didn't expect Qin Yuan and the others to fire so fiercely all of a sudden, and Qin Yuan approached them directly and threw a throwing knife at them. Fortunately, his reaction was quick, but the soldier in front was caught by his on the spot. Flying knife hit and died.

The white ape's anger didn't come out, and this time he only led this team, unexpectedly no one killed him with the poisonous gas.

"Go down and bring the hostages up, I want to see if they are afraid." At this moment, he was very confident, he decided to use the hostages to threaten Qin Yuan and buy him time, because what he has now is not just this Several people.

As long as you make sure to be those few core members, everything else will be fine. At this moment, the subordinates who ran down to take the hostages rushed up to report.

"Brother, no...it's not good."

"I've said it many times, can't you remember? Now I have to change my name, now call me captain."

"The captain is dead, and those hostages are gone."

"What! How is this possible? Didn't I ask Gail to go down and check? Where did this kid go?"

"Gail is dead. When I went down, I only saw his body, and someone should have come in from our back wall. There was a big hole in our back wall." Bai Yuan almost vomited blood, this Qin Yuan actually played such an insidious trick with him, when did this kid come over and take the hostages, and he didn't respond at all.

At that time, Qin Yuan, who was facing him, said loudly, "How about it? Is this gift a surprise? You are allowed to kidnap our people. Don't you allow us to rescue them?"

"Qin Yuan, you bastard, I will definitely kill you." It's a pity that his shoulder is injured now, and he can't even hold a gun. He kicked the dirt wall in front of him angrily.

"Hehe, who doesn't know how to talk big, and I have to tell you something, the red blood cell team is only one for me, and you are replicas, you will always be replicas." At this time, Qin Yuan was ready to attack again, after all, their side has gained the upper hand under the suppression of his absolute strength.

Unexpectedly, a cannonball landed directly next to him. She was fine, because his defense was fine. Of course, Long Xiaoyun was standing behind him, was directly hit by the cannonball, and flew out in an instant.

Everyone was confused by the sudden shell, and looked around, but unexpectedly there was a group of enemies on the side. He Chenguang and Wang Yanbing quickly separated their teams and went to the side for support.

Bai Yuan smiled sinisterly on the opposite side. He also wanted Qin Yuan to experience the feeling of losing a loved one, and this was just the beginning. Now he doesn't want to play with him anymore. After all, this action is 80% for him. If they fail, the other 20% can only rely on Anna who is lurking in their team.

This team is here to assist them in retreating, and they will definitely meet again later, and next time, he will become stronger and can completely confront Qin Yuan.

At this moment, Qin Yuan ran to Long Xiaoyun's side. At this moment, Long Xiaoyun was spitting out blood. It was obvious that her internal organs were injured by the shells.

Qin Yuan couldn't control that much anymore, he used his recovery ability to forcibly treat Long Xiaoyun.

It was because Long Xiaoyun was seriously injured this time, and Qin Yuan had already treated the members of their Wolf Warriors team before, which took a lot of energy.

He didn't care so much, now he completely handed over his back to He Chenguang and the others, at this moment he just wanted to bring Long Xiaoyun back.

"Qin Yuan, hurry up and direct the battle, leave me alone."

"How could I just leave you like this, please stop talking, I will definitely save you."

"Ahem...don't worry about me, Qin Yuan, you are a captain, now you have to think about the overall situation." Qin Yuan didn't care what Long Xiaoyun said, at this moment he only knew that Long Xiaoyun was his overall situation, and more importantly, he believed in his brother more.

Wang Yanbing and the others are right behind him, it's absolutely no problem, Qin Yuan used his silver needle skills, plus recovery ability, and finally his hands trembled slightly because he expended too much energy.

He has used too many skills today, and this organization is more difficult to deal with than he imagined, so his energy has been depleted.

Especially when he rescued the hostages just now, he also used the skills, so at this moment, his energy value is completely insufficient.

But at the most critical moment, he still rescued Long Xiaoyun. He smiled gratifiedly when he saw Long Xiaoyun recovered, and then sat down completely. At this moment, he could only rely on his willpower to persist. caught.

And at this moment, Anna who was standing by the side was even more stunned when she saw all this. What happened was too exaggerated.

She saw Long Xiaoyun's injury just now, and concluded that this person would never survive. With such a serious gunshot wound, the entire internal organs have been shattered, how could he be saved?

She didn't know how Qin Yuan did it. Anyway, this person was actually saved by him. This Qin Yuan is really too mysterious. What is his body structure like?

Anna was even more convinced that she must persevere, and if she figured out what was inside, she might be able to grasp the key to defeating Qin Yuan.

At this time, Wang Yanbing ran over,

"Brother Qin, those guys seem to be withdrawing from the team, and most of them have already been withdrawn." At this moment, Qin Yuan has no energy, his eyes are a little slack, he is really tired, just want to rest.

Long Xiaoyun hastily made a decision. At this time, he definitely can't chase anymore, because they don't have such heavy firepower weapons in their hands, and Qin Yuan has become like this again.

And after Qin Yuan knew that the group of guys had retreated, he was also relieved and fell asleep completely, because he knew that now that everyone was not threatened, Long Xiaoyun was enough for the next road.

"This! Brother Qin?"

"It's okay, he's just too tired, let him sleep for a while, since they withdrew, we won't chase, this time we didn't prepare well, so we won't be afraid of running out of firewood if we stay in the green hills, when we are ready , and bring weapons to destroy them."

"Yes! Team Dragon!" At this moment, Anna also ran over, she saw something wrong with Qin Yuan's state, wasn't this guy awesome just now?

Why are you falling asleep now? As soon as she approached Qin Yuan, Long Xiaoyun stared at her vigilantly,

"Miss Anna, our Captain Qin has rested now, and I hope you don't disturb him."

"Captain Long, I don't want you to misunderstand. The main reason is that I am thinking that he is still fighting now, so why is he resting?"

"I'm sorry, this is our internal matter. You may not be able to interfere, and we have nothing to say." Two members of the Wolf Warriors team also came over and stood in front of Qingyuan. Anna felt helpless and sighed. , and sit next to it.

There were two players who were too late to withdraw, and they were all dealt with by He Chenguang and the others. Not to mention, they fought this battle for too long and were really tired. These guys are not easy to deal with.

But now this is not a place to talk after all, there are still so many hostages, He Chenguang started to evacuate with those hostages behind Qin Yuan's back, and go to the place where they have cars first.

Anna has been observing Qin Yuan's state. This guy doesn't seem to be injured, but is really sleeping. What's the situation with him?

To be able to sleep so deeply is to be able to fall asleep in this state. If you need to understand these, it seems that you have to find a way to sneak into them.

In this way, Long Xiaoyun and the others took the hostages back to the embassy safely, and the embassy also sent a new guard team.

Anna was very enthusiastic and called the three people in the car before her to get off.

"Captain Long, I'm really sorry for this incident, because I don't know what happened to the undercover agent inside, and I haven't been able to see him until now."

"Miss Anna, I don't think you should explain to me about being an undercover agent. We have a lot of doubts now, but I don't think you should stay here anymore. After all, we have to start a team." Long Xiaoyun has already ordered the expulsion Anna couldn't help but admire, this woman was so smart that she could keep vigilant at all times.

"However, in order to make up for my mistakes, my three subordinates are all very powerful. I still hope that they can stay, at least they can help you."

"Thank you, no need. We have our own team here. Miss Anna, please go back as soon as possible." After Long Xiaoyun finished speaking, she walked directly into the embassy. The guard at the door stopped Anna. What I want to say, there is no chance at all.

Anna looked at Long Xiaoyun's back in a daze, this woman is too smart, she has to find a way to get rid of her, or find an opportunity to get close to Qin Yuan, otherwise it won't work. Before the real The men they dispatched had been killed by them a long time ago, and she also replaced the identity of the security officer.

In the current situation, they can only go back first. If they stay here all the time, it will easily arouse suspicion.

After this incident, the embassy has added another security guard as a precaution, and this matter is definitely not over.

Qin Yuan has been sleeping all day now, and has not woken up yet, Long Xiaoyun also plans to check the situation here first.

It wasn't until late at night that Qin Yuan woke up. He really slept so comfortably that he replenished all his energy.

When Qin Yuan came out, he found that Long Xiaoyun and the others were having a meeting.

"Hey, Captain Qin, I slept well this time. Is it comfortable?"

"It's just a pity. It's not very comfortable without Captain Long to accompany me to sleep." Long Xiaoyun gave Qin Yuan a blank look. So many players are here, what is this guy talking about?
