

Special Soldier 981

Chapter 981: crazy white ape

Everyone around started to laugh, especially He Chenguang and the others who were already booing beside him. Long Xiaoyun's face was blushed, and she couldn't help but give Qin Yuan a blank look. This guy really said anything regardless of the occasion.

"Captain Qin, please pay attention, what is the occasion now?"

"I think such an occasion is normal. We are all our own people, right? And they don't mind."

"Yes, although eating this bowl of dog food is a bit full, but I am willing."

"Sister-in-law, you just follow elder brother." What is this, Long Xiaoyun really has black lines on his face, Qin Yuan's soldiers are just like him, not serious at all.

"Okay, I really don't want to talk to you anymore. We have to seriously analyze the form this time." Qin Yuan also walked over, and Long Xiaoyun opened it. This time it was all meeting minutes, and she even made a special one. The ppt is mainly to make a summary of the situation this time.

To be honest, she was quite emotional about this mission. Although Qin Yuan's red blood cell team had always been better than them in normal training, he still found a gap after he actually went to the battlefield. Combat capability and teamwork are very close.

Especially when Qin Yuan fell down, they were able to provide a good backup. On the contrary, the Wolf Warriors team lacked this kind of assertiveness.

In addition, he analyzed the battlefield. The enemy is really cunning and uses people to create threats. On the other hand, their weapons are all heavy firepower weapons, which also caused them to fail to catch the leader this time.

Listening to Long Xiaoyun's analysis, everyone agrees, after all, the opponent used large weapons such as rocket launchers and howitzers this time.

"By the way, what about that Anna? I always feel that this woman is a little abnormal." Qin Yuan still had some doubts about Anna, but Li Erniu shook his head.

"Brother Qin, I don't think there's anything wrong with Miss Anna. They said they were also deceived by an undercover agent. This undercover agent is a double agent."

"And under the circumstances at that time, if he was with the undercover, there was no need to enter the passage with us and get into that dangerous situation."

"I don't know either. Although I haven't got any evidence, I always feel that there is something wrong with this woman."

"By the way, when it comes to her, I remembered that she is quite active. She said that she can cooperate with us and can dispatch resources to us at any time." Anna's support Qin Yuan is still considering, I will talk about this question later, but now he has made his own analysis.

Qin Yuan told everyone about the news he inquired yesterday, mainly about genetic modification. Everyone is familiar with this project, and they have come into contact with it before.

They are very targeted this time. The courtyard has offended a lot of people in the past few years, but he doesn't know who they are, but they can find out from the batch of professors who modified the vaccine before.

Long Xiaoyun said that there is no problem. There are also computer experts in their team, and they can investigate immediately.

Qin Yuan really met his opponent this time. Although their captain at that time was injured by himself, he was also a smart guy.

In addition, after Bai Yuan and the others returned to the base, the injuries on his body were not worth mentioning. He recovered from such minor injuries relatively quickly, but it was a pity that in this battle, they directly lost four team members .

Although there is no shortage of players at their experimental base, every player has been carefully selected.

Originally formed to act, but their core members have lost four, and some other peripheral elements are countless in history.

He doesn't care about other people, because compared to those people, their physical fitness is not as good as those modified by these technologies.

Because not everyone can adapt to genetic modification, like their previous situation, the previous vaccine failed because of their different physiques, so they arrested all of them for experiments.

Now they will control the amount of vaccine injections according to their physical condition, and then carry out genetic modification to enhance the maximum potential of people.

Anna is the most successful example. After her genetic modification, especially her diving ability has completely made a breakthrough. Her current diving skill can hold her breath underwater for ten minutes.

Ten minutes was a very simple matter for Qin Yuan, but because Bai Yuan and the others didn't know it, it was already a super **** state for them to be able to hold their breath for ten minutes.

Everyone's promotion is different. Like Bai Yuan, he is his own vitality, and his vitality has been blessed.

He will not die if his internal organs are not completely damaged. This time, both of his shoulders were injured, but there was no problem, even if there was too much blood, he would not die.

But these are all obtained through genetic modification. They have carried out such modification now just for revenge, but unexpectedly, it has just started and failed.

He had some doubts about the professor's genetic medicine, this time he completely lost to Qin Yuan, and missed a good chance to kill him.

"Dr. Akazhi, I want to hear your explanation why the poisonous gas you provided is useless. That Qin Yuan, I saw in the screen that he was not disturbed at all."

"This...I can't guarantee this either. I can't guarantee that his physique will not be disturbed by the poisonous gas. Maybe he has a special physique."

"Then I hope this is an accident. I would like to ask how is your research on the third generation of genetic medicine?" Dr. Akazhi sighed. I dare not test it on humans, because the test on animals has serious side effects, and I don't know whether the human body can resist it.

After Bai Yuan heard about this situation, he directly ordered his men to go to the nearby area to catch some civilians. What they lack now is experiments.

Although Dr. Akazhi loves research like this, if he wants to use the human body and those innocent people for experiments, he really thinks it is a bit cruel.

"Bai Yuan, I still want to give you some advice. The civilians you brought last time are in poor health. They are all old, weak, sick and disabled." Dr. Akazhi wanted to remind Bai Yuan to see if he could bring Some militants came over to those terrorists. These people deserved to die. If they were used for experiments, he could at least have a good conscience.

"Okay, I understand. The people I brought this time will definitely satisfy you." Bai Yuan smiled. Could he not know what the old guy was thinking?

"By the way, we are now the red blood cell team. We are good people, and good people should do good deeds." After Bai Yuan finished speaking, he looked at the map next to him with his hands behind his back, and then pointed to one of the schools.

"There are quite a lot of young and strong people in this school. Otherwise, let's start here, right? Dr. Akazhi, these young and strong people meet your requirements!" He was instantly taken aback. It's really getting crazy, and it's all about these students.

"White Ape, I think this is a bit inappropriate, but after all, they are still children, these people..."

"Why, you have other opinions, or I will experiment with you first." Looking at the serious expression of the white ape, Akazhi knew that he was not joking. This guy is getting more and more crazy now, and he will do everything When it came out, he could only sigh deeply and let him go.

After finishing speaking, he walked out. He looked at the people training on the training ground. These militants were his last strength, and everyone was his genetic warrior.

He is experimenting with these people every day, but they also need to strengthen their training. The team he brought out before was also very tough, and they were all selected from these genetic fighters, but it's a pity that it is now incomplete.

After all, four of them were already dead, and the other one was seriously injured, so it was useless to come back. Also, although Anna managed to sneak out, she wasn't completely successful.

Because Qin Yuan is too cautious, she still has no way to get close to Qin Yuan, and she can't get first-hand information.

But he is not in a hurry on Anna's side. The most important thing now is to continue to transform his genetic reagents. Only after the transformation is successful, will he become stronger and be able to confront Qin Yuan head-on.

Speaking of this, he thought of the soldier he sent out to inform at the beginning. He wanted to test Qin Yuan's strength, but he didn't expect that soldier's thoughts to be completely controlled by him.

He called the subordinate next to him. This person has been following him since the establishment of the genetic experiment, but this time he did not go up to the battlefield. This is also to preserve their strength.

This person is called Cobra. As the name suggests, he specializes in the study of various toxins. This time, the toxin that his subordinate took was also studied by him.

He can not only study the toxin, but also the antidote, so this time, under their plan, it would definitely succeed, but he didn't expect that subordinate to be controlled, and the poison was over.

"Will there be any problem with your toxin? Is it possible that that guy was killed by Qin Yuan?"

"Captain, don't worry about this. I can assure you of this. My poison is absolutely fine."

"But how could that guy be dragged back? He knows that he has toxins in his body, so he should speed up his escape."

"Captain, as far as I know, Qin Yuan seems to be able to hypnotize a little bit." Bai Yuan snorted coldly, hypnotized?

This guy is really getting more and more interesting. He has now set up this red blood cell team to fight against Qin Yuan, but what his red blood cell team does is different.

Because the genetic experiment was going to be carried out, the White Ape brought his team members and prepared to go out to arrest people.

It can be said that there are usually no wars here, but the borders of several countries beside them are very long, and some armed elements often run in.

However, it was only some minor harassment of the residents on the border. They immediately sent troops to suppress it, and there was no major violence.

So relatively speaking, their awareness of prevention is relatively weak. The reason why Bai Yuan chose this school was because it was very close to the embassy, and his purpose of doing so was also to provoke.

The other team members actually felt that their boss was an out-and-out lunatic, especially when he killed people, he didn't need any reason at all.

This is a boarding school. At ten o'clock in the evening, most of the students have already rested, and the teacher has just come out of the ward round. Under this situation, the teacher has completely relaxed.

A team member in the car asked, "Brother, where will we get in later? Is it from the side of the wall or from the back door?"

"I've said it many times, I will be called the captain in the future, we are the red blood cell team, understand?"

"We don't rush in from the side directly through the main entrance." I was a little surprised when I heard this, is this guy crazy?

Rushing in through the main entrance, doesn't that tell everyone they're coming? But everyone didn't dare to disobey his intentions, they could only follow his method.

Bai Yuan was very excited sitting in the co-pilot, and he was very excited whenever he encountered a murderer. There are security guards at the gate of the school, but usually there is nothing to do at this point, so the security guards are also drinking coffee leisurely inside.

At this moment, an explosive bomb was thrown directly into the security booth.

"boom!"

"Hahaha, did you hear that? That's the sound of an explosion." Bai Yuan was completely insane. He stretched out half of his body, holding a shotgun, and shot when he saw anyone rushing over.

Moreover, music was still playing in the car, and the whole person had fallen into a state of madness. Even the team members behind him were completely frightened. This person was completely crazy, even though they were also terrorists.

But they haven't reached this state of killing people' They need at least one reason to kill people, but this guy has no reason at all.

"Everyone, why don't you do it? Do you want me to teach you?" When everyone heard this, their hairs stood on end, and they could only quickly raise their guns and shoot at the people outside.

For a moment, the whole school was in a state of chaos. They drove a car and crushed it crazily in the flower bed. While shooting, the white ape shouted loudly: "Do you know who we are? We are the red blood cell group." In the end they directly He rushed into the student dormitory, no matter how many people were inside, he randomly arrested a dozen or so.

For these people, it should be enough for experiments. If they catch too many, it will just waste their genes.

Anyway, if it is not enough, he will continue to come. At this time, there was a female student shivering and hiding under the bed. After seeing it, Bai Yuan walked over, grabbed the girl's ankle, and dragged her out. The whole person was still laughing wildly outside.

The girl was so frightened that she collapsed and cried. He looked at the girl and said loudly, "I need you to remember us. I want to tell you who we are."

"We are the Red Blood Cell Team!"

Chapter 982: red blood cell group name

Bai Yuan is now about to start attacking the surroundings in the name of the red blood cell team, and his purpose of doing so is to directly declare war on Qin Yuan. On the other hand, he was very worried that Qin Yuan would go back straight away, even though the security at the embassy has been strengthened now, and it is possible that the troops on the international side have also strengthened their patrols. So at the embassy, there are not many opportunities for him to make a move. He can only use this opportunity to completely attract Qin Yuan. However, Qin Yuan on the other side had no intention of leaving at all, after all, the matter had not been resolved, especially the red blood cell team that guy was talking about. Qin Yuan and the others who were still in the embassy heard gunshots from a distance, and everyone immediately became vigilant. You must know that in country K, such a situation usually does not happen. "Qin Yuan, what's the situation? Shall we go and have a look?" "Don't go out yet. After all, we have to ensure the safety of our own staff first. I don't know how many times such an attack will avoid them." It's a plan to divert the tiger away from the mountain." On the other hand, Qin Yuan doesn't really want to participate, after all, this is a foreign matter, not their domestic affairs, and sometimes he participates and gets beaten up, so it's not clear. Moreover, the situation in foreign countries is more complicated, and many of them are internal disputes, so it is best for them not to interfere. The staff in the embassy were very nervous. After all, they had just been attacked and kidnapped before, and they didn't expect the gunshots to be so close to them this time. The former person in charge was a little emotionally broken, and he still remembered what the lunatic said at the time. "Captain Qin, I really feel very unsafe now, or we should apply for evacuation with the country!" "Director Liu, the evacuation of overseas Chinese is not that simple, and we have many overseas Chinese here who have economic ties, Then the loss is really too great if this goes on." "But now our safety is threatened, I feel like I live in fear every day here, look at how long it has passed, how long did the shooting happen again "Director Liu, please don't be so excited, we will definitely leave here after we finish everything, don't worry, we will guarantee your safety." "But... that lunatic said he was aiming at Your special forces!" "So we can't retreat, don't worry, our two special forces are here to guarantee your safety." Qin Yuan also has his own plans, all these guys are too arrogant, this is blatant He provoked them all the way, and the matter of kidnapping their embassy staff hadn't been figured out before, how could he leave easily? And according to that lunatic's approach, there will definitely be a second time for such a thing, so he will definitely not go back until the problem is resolved. An hour later, the gunshots had completely stopped, and it was very quiet over there. Qin Yuan and the others kept guard until dawn. At dawn, Anna actually came. Qin Yuan was still very defensive towards this woman, so he didn't have a good face. "Miss Anna, may I ask why you are here this time?" "Captain Qin, don't you know?" What? Qin Yuan looked at her with some doubts, what was this woman talking about? "It's like this. A hostage-taking incident happened in one of our boarding schools yesterday, not far from your embassy." "Oh, I know that. I heard gunshots yesterday." "It's just...according to the survivors, and eyewitnesses

said that the group of gangsters with guns kept saying that they belonged to the Red Blood Cell Team." Hearing this, Long Xiaoyun walked out immediately, how is this possible? "Miss Anna, I think you should figure it out. We were protecting ourselves in the embassy yesterday, and the personnel here didn't go out at all." "Xiaoyun, don't get excited, she should be talking about the attack. Our gangsters seem to be the same group again." Anna nodded, "Captain Qin, I am sure I am relieved of you, but our side may come out later and investigators may conduct simple inquiries on you. They used your team's slogan for the matter." Anna came here to explain this matter, and she did this to improve Qin Yuan's goodwill. "Do you mean to come here first and tell us to get ready?" "Yes, I definitely believe you, but this is also an order from above, so I will tell you in advance to avoid conflicts." "Miss Anna, Then thank you for your reminder." Qin Yuan still had that lukewarm attitude, and he didn't intend to let Anna stay, so in the end Anna could only leave in embarrassment. Seeing Anna leave, Long Xiaoyun fell into deep thought, this incident seems to be really not simple. "Qin Yuan, what do you think the purpose of this group of criminals is? They use the name of the red blood cell team to kill people and set fires everywhere like this. Isn't this deliberately discrediting us?" "As long as they are reasonable people, just investigate. I knew it wasn't us who did it, and I think they are provoking me by doing this." Li Erniu and the others became even more aggrieved when they found out, after all, they would be happy to be pretended to have done something bad. After a while, the investigators that Anna mentioned really came, but they only conducted simple routine inquiries. Qin Yuan didn't say anything, anyway, he answered truthfully, and the surveillance inside the embassy also confirmed that they did not leave. The investigators who came here were quite polite. After all, they didn't get any substantial evidence. This was obviously a frame-up. After all, when someone attacked, they would call out their team's name loudly. Long Xiaoyun was even more fortunate that they didn't go out yesterday, otherwise even if they knew it was a frame-up, after they went out, the explanation would be even more unclear. In the afternoon, He Chenguang walked in angrily with a newspaper, and threw it on the table. "This group of bastards, these unscrupulous media just want to stir up topics, isn't it obvious that they want to stir up disputes?" Qin Yuan picked up the newspaper and looked at the headline on it, and it was impressive, "The red blood cell team launched a violent terrorist attack, hijacked The hostages are counted!" Li Erniu even came over and tore up the newspaper directly. These ***** are really good at talking nonsense, and they clearly know that they are not planning such a title, which is easy to misunderstand. Moreover, the content below him has nothing to do with the red blood cell group, but just wants to promote this enthusiasm. "These ***** are too exaggerated. As the media, shouldn't they report according to the facts? I'll go find them now." Just clean yourself up, why bother with other people's opinions." "Brother Qin, but look at our red blood cell team has done so many good things, and we haven't seen them report it. Now someone comes out to do bad things in our name, and what they report is pretty good. Positive." Qin Yuan is not surprised by such tactics, after all, these media need to rely on such enthusiasm and such topics to hype. Besides, why are they looking for so many news media now? Could it be that if they find this one, the others will shut up? On the contrary, it will make this matter worse. So what they need to do now is to wait and see what happens. The group of guys with their names will definitely appear again. At that time, Qin Yuan will definitely bring them to justice, and then announce it to the public, so that they can see these replicas. The news here spread quickly, and Gao Shiwei knew about it in the country, and he was very angry that he even used their names. "Qin Yuan, this time, no matter what, I must take down this organization. This is not only my task for you, but more importantly, it is also your opportunity to avenge your shame." "Yes! Team Gao!" With Gao Shi They were also ready for Wei's order, and Gao Shiwei

also dispatched a batch of heavy weapons for them. This time, the wolf warrior team and their red blood cell team belonged to a joint operation, and they all listened to Qin Yuan's command. Everyone was holding a sigh of relief. This was simply too insulting to their reputation. On the other hand, Bai Yuan was very happy to know that the news was in the newspaper, and now those guys can't find him. This feeling is really cool, and he is doing bad things in the name of the red blood cell team. Although everyone knows that it is infinite, it also has some impact on their red blood cell team, after all, they have poured dirty water on them. "Captain, do you think this Qin Yuan can sit still? Will he take the initiative to find us?" "Don't worry, he will definitely not take the initiative now. I know him too well. He is very calm." He is angry, he is waiting for us to take the initiative now." Bai Yuan spent a lot of money for revenge in the past two years, he even wants to live as Qin Yuan, he has deliberately imitated Qin Yuan. Only when he regards himself as an opponent and does it for the sake of the opponent, can he have a chance to win. Qin Yuan has not had many people who wanted to kill him in the past two years, but the strength of this person who has not succeeded is unfathomable. So every time he took action on a mission, he was thinking about what he would do if Qin Yuan was in charge of him, so he gradually guessed some of Qin Yuan's thoughts. Dr. Akazhi really had no choice. Facing these students, he couldn't do anything, but if he couldn't do it, White Ape would attack him. On the other hand, now that his genetic experiment has reached the third generation, it would be a pity to give up like this. He has been comforting himself that he does this kind of genetic experiment to benefit mankind and strengthen human physique, so it is normal for a small number of people to sacrifice. The opportunity that Bai Yuan is waiting for now is the third-generation reagent. As long as the reagent is successful, he can go directly to Qin Yuan. However, contrary to expectations, the effect of this reagent was different from Dr. Akazhi's expectation, and the side effects were too great. These students were also young and strong, and most of them couldn't bear the dominance of the reagent after they were injected with the reagent, and died on the spot. So it is conceivable that if this batch of reagents is used on them, it will not work at all. Dr. Akazhi also made a change right away, he now needs to re-study and then conduct experiments. Now Qin Yuan is also looking around for news. He wants to know the whereabouts of that organization. When he was looking for news, Anna came to the door again. "Captain Qin, I'm really sorry about the undercover incident before." "Those incidents have passed, besides, if we are investigating now, our own team members are also conducting investigations, so there is no need to bother you about this one." "Today's Anna is wearing a miniskirt and high heels, which is completely different from her previous outfit. "But now I know an inside news, which is very rare. Where is this organization?" Qin Yuan really became interested when he heard this. What he needs to find now is the whereabouts of this organization before continuing. If this delay continues, many things in China will not be completed. This organization is like a time bomb, they attack the people around them time and time again, and there is no way to continue like this. Country K is also very helpless. ' has dispatched a lot of people and stepped up patrols. Of course, the guys inside these organizations, as if they would know their actions in advance, pounce every time All of them were empty, and they all avoided their patrol routes. There have been three hostage-taking incidents like this, because Akazhi needs to do experiments, and the white ape is also crazy. The reason why White Ape and the others evaded their actions was because Anna was in the middle of it, and she always revealed the news in advance. This time it was Bai Yuan who gave the order to die, because he needed to get to know Qin Yuan as soon as possible and know Qin Yuan's weaknesses. Their deeds had been transformed and were about to be completed, so she had to lurk in as soon as possible. Long Xiaoyun was also very interested when he heard this. If he knew where this group of

organizations were, he should go out and solve them as soon as possible. "But Captain Qin's matter is related to my safety, so I just want to tell you alone." Long Xiaoyun frowned beside him. What exactly does this woman want to do is different from what Qin Yuan said and what he said of it? Anyway, everyone will know. Long Xiaoyun didn't mean to ask, Anna simply sat on the sofa, she was also indifferent. She used this trick really well, because it aroused everyone's interest first, but now there is no other way, Qin Yuan can only agree to her first. "Xiaoyun, why don't you go out first." "Qin Yuan, do you believe her? I always feel that something is wrong." He leaned into Long Xiaoyun's ear and said, "Don't worry, I will find out later, and I will definitely tell you, after all, we want everyone to act together." Long Xiaoyun nodded, and then walked out, she was very anxious outside the room, not knowing what Anna would say, and also Make it so mysterious.

Chapter 983: Image subversion

He Chenguang and the others kept looking inside, "I said this is too exaggerated, even if he told Brother Qin, our captain would tell us anyway." "Anyway, I always I think this woman is a bit abnormal, and I found out when I brought us in last time." Li Erniu disagreed, but he thought there was nothing wrong with this woman, after all, he had talked to him a lot at that time. "I don't think you should look at others with such colored glasses. After all, they are sent by country K, so what's the problem?" "I think you have a correct attitude, you should change your opinion." Now, you just trust this woman like that. Sometimes you trust a person too much, which is not a good thing." "Then you still talk about me, see if Brother Qin believes in her, don't you believe Brother Qin?" "Okay Now, you all be quiet, it's annoying enough, won't you know when Qin Yuan comes out?" Everyone quickly shut up, after all seeing Long Xiaoyun, she seemed to be in a bad mood, and now she probably caught her Whoever is the vent. And I don't know what these two people are doing inside, isn't it just talking about something, and there is no movement at all for more than 20 minutes inside. Long Xiaoyun wanted to go in several times, but she endured it and advised herself to stay calm. "I said, have you guys made tea in there, or else we've been talking about making some tea for them for so long, aren't you thirsty?" Do you have tea? You don't think about the guests at all, forget it, I'll go in person." Long Xiaoyun just wanted to find an excuse to go in, but this excuse was too clumsy, and everyone found out , He Chenguang stood beside him trying not to let himself laugh out loud. The members of the Wolf Warriors team were even more stunned. When did they see the appearance of the dragon team? Usually Long Xiaoyun is very cold, and his training is unambiguous, but he didn't expect to have the appearance of this little woman now. Holding the tea leaves, she was a little hesitant, whether it would be a bit abrupt to go in like this now, what if Qin Yuan blamed him for delaying her good business, and maybe he was spreading information, she had to choose to trust Qin Yuan. But now more than 20 minutes have passed, why haven't you come out, just talk about something, is it necessary to talk for so long? Long Xiaoyun was too entangled, and she felt even more irritated. Why did she have such emotions? It would be better to let her go directly to the battlefield to lead troops to fight. It is really annoying. This feeling of thinking about something all the time in her heart was so uncomfortable that she simply threw the tea leaves aside. "Which one of you bought the tea so hard to handle?" The team members next to him didn't dare to vent their anger. What's the reason? Sure enough, when a woman wants to start a fire, anything can become a fuse. Long Xiaoyun sat outside the door extremely irritable, and after another ten minutes passed like this, the door finally

opened, and Anna walked out from inside with a smile. When she came out, Anna did not forget to say hello to the team members beside her. "Everyone, we will have a happy cooperation in the future!" What's going on? Everyone was dumbfounded when they heard this. What did she mean by this? Everyone turned their heads to look at Qin Yuan. At this moment, Qin Yuan came out and stared at Anna with some seriousness, but the previous suspicion was gone in his eyes. "By the way, Miss Anna, she will bring his team members over later to assist us in the investigation. We will set up a task force to investigate this incident." Long Xiaoyun turned her head, puzzled. Looking at Qin Yuan, did she hear correctly? Didn't this guy say before that he must be on guard against Anna? Why did he change his attitude now and allow her to bring the team members in? Anna also smiled, "Captain Qin, I'll trouble you then, I'll go down and make arrangements now, and I'll bring my team members here in the evening." "Okay, then be careful on the road." I'll go! What kind of situation is this, Qin Yuan actually said to ask him to pay attention to safety, which is a bit ambiguous, and even said such ambiguous words in front of Long Xiaoyun, everyone looked at them with a look of eating melons. Long Xiaoyun was obviously a little unhappy, and her emotions were on the verge of exploding. She stared at Qin Yuan closely, wanting this guy to give her an explanation. Until Anna walked out completely, Long Xiaoyun finally couldn't bear it anymore. "Qin Yuan, what did she say to you just now, why do I feel that your attitude has changed." "She didn't say anything to me, she just said that the investigation team sent by the higher authorities wanted to cooperate with us, so I agreed, and it was sent by the highest officer of country K." "Is it that simple? Then what she said at the time was not this, he said that he told us the address of that organization." Long Xiaoyun was a little anxious, her tone It's very bad, even with a questioning tone, and now she doesn't know what's going on. She was not sure whether Qin Yuan was lying to her, she wanted to see some changes in Qin Yuan's face, but at the moment Qin Yuan was also expressionless. The other team members didn't dare to speak, and everyone stood by silently. After all, this was their business. Whoever gets involved now will become the point of explosion. "I don't know about this matter. To be honest, I was also very confused. She told me after she came in that what she was going to talk about was not this. What she told me was that the investigation team in country K took pictures and wanted to fight with us. Let's act together." "Qin Yuan, what's your attitude? You're yelling at me." "What the hell?" Qin Yuan was even more confused. Is there something wrong with his tone just now? He doesn't seem to be yelling. "Qin Yuan, please pay attention to your attitude. I am asking you now as a captain. Do I think you have a cell phone for me? This makes me very unhappy." "Xiaoyun, do you think I will hide you Am I that kind of person?" Long Xiaoyun didn't know what was going on at the moment, anyway, Anna appeared in her mind from time to time, and when she thought of that woman smiling at Qin Yuan, she couldn't stand it. So she was a little bit broken, and with Qin Yuan's attitude of knowing nothing, she felt even more annoyed. She didn't know if Qin Yuan was telling the truth, or if his deception was so famous that even she was deceived by him past. "I don't have time to play these mental games with you anymore, you like to talk or not." Long Xiaoyun also left this sentence inexplicably, then turned and walked into the next room, Qin Yuan also froze in place, What is this all about? It's already this time, is there still time to quarrel? He was also very helpless. Anna really didn't say anything to him. After the woman entered, she told him that she was a plan to delay the attack, and she also told him about her difficulties. She said that because someone in their team was watching her, their actions would be known, and Qin Yuan was the only one she could trust now. She wanted to cooperate with Qin Yuan to capture this organization. After thinking about it, Qin Yuan felt that there should be no problem. If this is the case, then they should cooperate together. Besides, it would not be a bad thing for them if there

was an extra pair of people. The current strength of this organization is unfathomable, and they don't know how many people are behind it. He didn't want the situation like last time to happen, he fell asleep before the battle was over, it was also because the members of the Wolf Warriors squad and saving Long Xiaoyun exhausted his energy. So this time, it would be better if Anna could bring someone here. Besides, he also considered that after all, they were sent by K country, so there shouldn't be any problems. Qin Yuan turned his head, looked at He Chenguang and asked, "Did I speak badly just now? Did I yell at her?" "No, I think it's normal to say that, and Brother Qin, your tone is worse than usual. Be gentle, no problem." "No, I feel that when your Qin team and our dragon team talked, you were indeed a bit fierce." "Yes, I also feel that it seems aggrieved." "I see it is what you think, I think our situation is fine, and the words are pretty good, obviously your dragon team thinks too much." "What do you mean we think too much, his tone is not good." Good guy, it was originally Long Xiaoyun and Long Xiaoyun. The dispute between Brother Qin has now caused a dispute between the Red Blood Cell Team and the Wolf Warrior Team. They all feel that their captain is not at fault, but the other party's problem. Qin Yuan sighed, he had to solve his own affairs by himself, he is not the kind of person who likes to be silent, he will definitely explain clearly when encountering anything, so he chose to go to Long Xiaoyun. Especially under such special circumstances, they were originally on a mission in a foreign country, and now a red blood cell team rushed out of nowhere, and he was also at a loss for the other party's situation. There should be no doubts between them. Teammates must trust each other very much, otherwise there will be problems among teammates, and troubles will follow. When he entered the room, Long Xiaoyun was sitting by the bed, sulking, and when he saw Qin Yuan coming in, he turned his head away. "Captain Qin, what can I do for you? If there are no special circumstances, please don't come in and out of my room casually." "Xiaoyun, I don't know if it was my tone of voice just now. If you think my tone is bad, then Let me apologize to you, okay?" "Oh, Captain Qin now feels that he is wrong and wants to apologize? Then tell me where you are wrong?" "It's all up to you, okay? What do you think I did wrong? I stepped into the door with my feet first, and I still said that the tone just now was wrong, as long as you think I did something wrong, I will apologize." When the two were talking, the walkie-talkie was not turned off, and then the team members outside looked like they were eating dog food. I go! It's too subverted the image. The image of these two people in front of their team members is really subverted. "I really didn't expect your Dragon Team to be so shy. I heard you right. It seems to be acting like a baby." "Me too. I didn't expect your Qin Team to be so macho. In front of the team, he has become so obedient, and if he admits his mistake, he will admit it." The team members outside were almost bursting out laughing, but the two inside didn't know it. "Then tell me, what exactly did Anna tell you? I feel like you are hiding something from me, do you know? Qin Yuan's feeling makes me very uncomfortable." Qin Yuan was also very helpless, looking The appearance is probably taken advantage of by this Anna, he can only let Anna in, and tell him everything that happened, really verbatim. He imitated all the movements including Anna's speaking, and this scene can be regarded as completely amused Long Xiaoyun. "Okay, then I will reluctantly believe what you said is true." "My aunt, you finally believed it. I really didn't lie to you. Besides, you think that with our relationship, it is necessary for me to Lied to you? And it was for an outsider." "Cut, who knows about you, you are a man with a lustful heart and a gall." "I'll go! Xiaoyun, you're okay." "What's okay?" Long Xiao Yun looked at Qin Yuan in a daze, and then Qin Yuan pointed to the walkie-talkie on his shoulder, the green light of the walkie-talkie was flashing at the moment. Xiao Yun came to his senses and quickly pressed the intercom. This is really embarrassing' Then everyone heard what they said just now. "It's all your fault, look, if it wasn't

for you, why would such a shameful incident happen." "Okay, I'm all to blame for this matter, but you have to promise me that you will never do this again. After all, we are not just comrades-in-arms, and you are also my most important person, do you know?" Facing Qin Yuan's sudden affectionate confession, Long Xiaoyun's heartbeat suddenly accelerated, this guy always came to play this trick every time. "Okay, I get it, but I was really anxious at that moment just now. After all, I saw Anna's appearance. It seems that being a woman is really not easy, and she did it on purpose." Qin Yuan will treat this woman even more after knowing it. Be on guard, what is her intention, or to be honest, are they thinking too much? Long Xiaoyun felt that it was too embarrassing. The team members outside heard all their conversation just now. Qin Yuan patted his chest and promised that he would go out and solve it now. Then Qin Yuan opened the door and walked out with a very loud voice, "Everyone has it, did you hear anything just now?" "Report! No!" "Are you sure? Even if you heard it, you have to tell me that you didn't hear it." See, do you know?" "Yes! Sir!" Long Xiaoyun was amused by Qin Yuan and his team's indecency, and walked out in embarrassment, her face was slightly red, but fortunately, the relationship between them. The misunderstanding was resolved, and Qin Yuan's method was appropriate. This Anna did it on purpose. She also saw that the relationship between Qin Yuan and Long Xiaoyun was very close, so she deliberately sowed discord between the two. What she said before was also deliberately said to Long Xiaoyun. Xiaoyun listened. But this woman has a lot of calculations, she didn't expect that the relationship between Qin Yuan and Long Xiaoyun would be so easily provoked by her.

Chapter 984: Prepare for bitterness

On the other side, Anna also had her own little calculations. He thought that as long as he successfully sneaked into Qin Yuan's red blood cell team this time, he would be able to find Qin Yuan's weakness. Now these subordinates around her have been replaced by his own people, so he can definitely rest assured. When Anna went back, she went to meet someone specifically. "Now what does Bai Yuan say, or else we should cooperate internally and externally, and I will control him inside, and then he will directly bring the team over, and we will destroy Qin Yuan together." "The captain said, don't act impulsively, and listen to him in everything. Orders come first, and now your task is to successfully sneak in first." Anna was a little displeased, and said this every time, and he felt that sneaking in was of no use, and now was the best time. "You have to know, this Qin Yuan is very cunning. How could I sneak in so easily? Besides, if I miss this opportunity, I really have no chance." He would say that, but he just asked me to tell you, remember your own mission, and don't overstep the rules." Anna nodded helplessly, now she also has something in Bai Yuan's hands, on the other hand, he really wanted revenge, There is no other way but to follow Bai Yuan's arrangement. The man opposite took out three injections from the backpack behind him. "This is a dose for a course of treatment. You can decide for yourself. The captain said that you have done a good job this time, so I gave you this month's dose in advance, but don't let the captain down." Anna looked at the potion, a little lost in thought, nodded, even for that potion, she would do her best. This is the side effect of their batch of medicine. The only side effect is that it is addictive, and I can't help but want to use it all the time. More importantly, the positive effect brought by this potion is stronger, and it can make oneself stronger, which is what Anna needs most. Anna longs to become stronger, because only by becoming stronger can Qin Yuan be eliminated. She has always wanted revenge. She took the potion, and then slowly disappeared into

the street. The man who had just handed over to her also looked around and left quickly. The reason why Anna was able to enter country K was because the real security officer had been killed by him without anyone noticing. The few people who knew the identity of the security officer were also completely eliminated by her. Now they are surrounded by her people, so she is not afraid at all. Now Qin Yuan has at least believed what she said, and felt that someone was watching her, and she was now one step closer, at least successfully lurking in. I have to say that Qin Yuan is really too difficult to deal with. She has met many enemies in her life, and with her appearance, Qin Yuan is not interested in her. Even his subordinates were a little bit uncontrollable, and she couldn't figure it out, where did the problem come from? "Number One, are we leaving now?" "Stupid! What time is it now? You told me many times before you called me this title. If you want to call me Miss Anna in the future, you must not be discovered by others." "Okay, Miss Anna, I was a little negligent just now, and it's called a habit in the organization." "This habit must be changed, or if it is because of the smallest problem that we are all exposed, then you can't afford it." Let's go." "Yes!" The man next to him kept bowing and apologizing, he knew that this woman was very vicious, if she said to kill someone, she would kill her, if he really said something wrong and was silenced by this woman, that would be normal. "But now I think the only problem is that Qin Yuan is too difficult to deal with. Even if I take you in now, I can't find out any news." Anna lit a cigarette beside her, and she put her legs on the sofa, she was already wearing a short skirt, with her entire thigh exposed. The men next to her couldn't help looking at her. "Hehe, I can't figure it out, even you guys can't control it like this, let alone Qin Yuan, doesn't it mean he doesn't like women?" "I think there is something wrong with that guy, maybe there is something wrong with him." The same..." "In this case, you guys should try to get closer to him later, I want to see how this guy reacts." "Ah! This...Miss Anna, do we have to do this?" "Nonsense! This is all For the sake of the organization, and I also made sacrifices, it's a pity that this guy is not tempted, if he really has that hobby, then you are the only ones who will get involved." If Qin Yuan knew that this woman framed him like this, he would probably vomit blood in anger. In this way, Anna brought her team members to the embassy. This was an agreement with Qin Yuan, because she said that some of the information they had learned might help Qin Yuan. The information between them can be shared, which is more conducive to catching the criminal gang. The main reason is that this criminal gang is too arrogant, burning, killing and looting everywhere in the name of the red blood cell team. Qin Yuan still had some doubts about Anna, especially Long Xiaoyun, she always felt that this woman didn't know what kind of plans she was planning. In this way, when Anna brought people here, Qin Yuan couldn't help but look at those people more. He looked at these people and frowned. Why did Anna bring different people every time. There are only two people here, who followed Anna before, and the rest are new faces. Because when Anna brought people over that time, she also had a few subordinates in the car. Qin Yuan already had a photographic memory, so he would definitely not remember it wrong. He doesn't want to do things that lure wolves into the house, so he must be cautious about this. "Miss Anna, I didn't expect you to come so fast." "Of course, after all, I'm also afraid that Captain Qin will regret it! After we are a cooperative relationship, I hope Captain Qin will take care of you." "Since it is a cooperation It doesn't matter, Miss Anna, can you tell us about your recent investigation, after all, this organization has attacked your surroundings so many times, and we don't know the internal situation." When Anna just came in, she noticed Qin Yuan has been sizing up the subordinates around her. She thought Qin Yuan was interested in the people around her. It seems that this guy really has special tastes! She pushed the man next to her, "Captain Qin, this person is my subordinate, his name is James, and he is the team leader responsible for

investigating the attack this time." James was unwilling, but for the sake of the mission, he also went all out. "Captain Qin, let's talk about the specific task in detail in the office." Qin Yuan frowned. Is there something wrong with Anna and his subordinates? Why do they like to talk alone. "No need, since the resources are shared, you can tell me directly here, so that I don't have to explain to my team members twice, it's unnecessary." James looked helplessly at Anna's failure, which made no sense. . At this moment, he couldn't control so much, so James told them about their recent investigation. He said it was an investigation, but it was actually the news deliberately released by White Ape, which can be regarded as confusing them. Qin Yuan frowned even more after listening to James' investigation statement. This is no different from no investigation. They have not found any traces of the other party, and so far, they have taken away more than 60 people . Not only took away these more than 60 people, but more importantly, in this attack, more than 100 civilians have been injured and died in this incident. Faced with such heavy casualties, they turned out to be clueless. "Captain Qin, this is indeed our previous work mistake, but now that you have joined us, as long as they continue to attack, you can investigate with us as soon as possible." "Okay, then we will have a pleasant cooperation later It's gone." Qin Yuan said it very officially, and after he finished speaking, he turned and left, taking his team members with him. For a while, Long Xiaoyun couldn't see what this Anna was going to do. Looking at her like this, she seemed to be very sincere, and analyzed all the situations with them. "Qin Yuan, I always feel that this team is a little abnormal." "I also have this feeling, but I can't get any evidence. Anyway, let's arrange it here first. After all, if we want to investigate, we can only rely on them. ""Okay, then I will send a few team members to monitor them, and report to us immediately if there is any movement." Things were confusing, so she went out specially, but she planned to supervise Anna herself. Qin Yuan drew a map of the locations of their several attacks. He wanted to find out the common ground, but found that there seemed to be none. These guys committed the crime randomly. But they took so many hostages, but they didn't release them, so what are they doing with them? Qin Yuan carefully recalled the people Anna had mentioned to her, and it seemed that the situation was mainly students and young people. A terrifying idea appeared in Qin Yuan's mind. He suspected that these people might be using these students to conduct experiments, and their current experiments should be said to be not perfect. Mainly, he analyzed it based on the situation they had mastered before, which is the most suitable statement. At this moment, there was a knock on the door. Qin Yuan opened the door and found that it was James. He also felt strange, but after a few minutes, James was kicked out by Qin Yuan, and the whole door was smashed, everyone was awakened by this movement, and rushed over to check. Long Xiaoyun ran over immediately, and she thought that these guys were making some kind of riot. The gun in his hand was quickly pointed at James on the ground. James couldn't get up at all at the moment. Qin Yuan kicked him and flew out. He felt that he hit the door, and his ribs were probably broken. "Qin Yuan, what's the situation? Why is this guy in your room?" "I don't know, this guy came to look for me at night, and then undressed in my room for no reason, **** it!" "I'll go! Do I have to guard not only women, but also men now?" He Chenguang and the others couldn't help laughing, it was so funny! "Hahaha, Brother Qin, I didn't expect that you almost lost your virginity, so boys have to protect themselves outside." "Get out!" Qin Yuan shuddered thinking about it, he thought of that scene , I feel hot eyes. At this time, Anna also ran over. He looked at James who was lying on the ground with a strange expression. Isn't James the type that Qin Yuan likes? "Miss Anna, is there something wrong with the person you brought, but let me make sure I'm fine first, I don't have any hobbies in that area." No idea of that at all. And looking at the situation, Qin Yuan is a proper straight man, he was beaten out just after entering. Anna could only quickly apologize,

these pig teammates are really unreliable, "Captain Qin, I'm sorry, this must be my team member's problem, I will take him back to educate him now." "Nonsense, it's not your team member's problem, Could it be my problem? I don't want to see him take him away quickly." Anna is really self-defeating here' I didn't expect that Qin Yuan would never get in, it seems that next time he will have to make a bitter plan , let Qin Yuan believe it. Otherwise, it would be really difficult to get close. In the current state, Qin Yuan even sent someone to watch, and they couldn't do anything at all. After two days like this, there was no movement from the White Ape. Anna quietly sent a message to the White Ape, asking him to cooperate with her in a bitter trick. Moreover, the genetic experiment of White Ape and the others was about to succeed, and it was not in vain for him to arrest so many people. Dr. Akazhi couldn't take it anymore. So he can only do research and transformation desperately, and now their third-generation reagent is close to perfection, which can enhance human potential to the greatest extent and make people burst out with the most powerful power. In a situation like this, it should be able to be used against Qin Yuan and his team! It's just that Bai Yuan is more cautious. After all, he knows that Qin Yuan is very difficult to deal with, and no one has been able to kill him for so many years. He immediately agreed with Anna's idea, and organized a violent terrorist operation that night. When Anna received the news, she immediately notified Qin Yuan and the others, and the two teams set off together. Qin Yuan is very sure about this opportunity, he must seize the mastermind behind the scenes. Their speed was very fast. Qin Yuan and the others had already arrived before Bai Yuan and the others had evacuated. The guy was very crazy. He drove an off-road vehicle directly in the residential area and crazily shot at those residents. Qin Yuan stared coldly at the person in the driver's seat. This guy was the one he hit in the shoulder last time. A gun battle immediately broke out between the two sides. Qin Yuan's speed was very fast, and he had been keeping a close eye on the off-road vehicle in front of him. This time, he would not let them run away again.

Chapter 985: Can't do it

Because she really wanted to know what kind of forces behind these guys, why they created the name of the red blood cell group, and what happened to the experiments behind them. He really doesn't know much about these things now. The most important thing is that this kind of incomprehensible situation is the first time he has appeared. Before, he didn't care about those enemies, and basically everything went smoothly. Only this time things were completely out of his control. This feeling was really bad and made him feel very insecure, especially now that he still had Long Xiaoyun by his side, and she was even more worried that he would not be able to protect everyone. At this time, the white ape in front poked his head out and made an insulting gesture directly at him. This time Qin Yuan was completely annoyed. He raised his gun and shot at them, but the guy was very fast and hid in the car. He just hit their reflector and hit the front reflector. down. They deliberately ran in front, and they circled around this area. Anyway, there was always a distance between the two sides, and Qin Yuan gradually felt that something was wrong. Long Xiaoyun also noticed it, and she said nervously at the side: "Qin Yuan, I always feel that something is wrong, have you noticed that they seem to be hanging us on purpose and want to take us somewhere?" "Yes , I found out just now, but I'm curious, where he wants to take us." "Should we withdraw first? I always feel very uneasy and have a bad feeling." "Follow up first It depends on the situation, besides, there should be no problem with me, I want to see where this guy wants to take us, since they are provocative, it is impossible for me not to accept the move."

Long Xiaoyun looked at Qin Yuan's confident face, she could only nod her head, Qin Yuan felt challenged now, so he followed closely. Anna from behind also followed her, and her bitter plan was about to be staged, but it needed the cooperation of the white ape in front. What she has to do now is to separate Long Xiaoyun and Qin Yuan. This Long Xiaoyun is also very smart, so the two of them must not be together, otherwise it will destroy her plan. At this moment, White Ape and the others caught up with another car, which was also arranged by White Ape. At the fork ahead, White Ape showed a sly smile, and then ordered the vehicles to separate. Qin Yuan from behind cursed secretly, this guy is really cunning. I didn't expect to separate now. Long Xiaoyun saw that the situation was wrong, "Qin Yuan, what should we do? Let's chase separately. Anyway, we have chased to this extent. We must not let that guy run away." "That's what I mean too. , but be careful, keep your distance as much as possible, and don't fall into their ambush." "Don't worry, my Wolf Warrior squad is not vegetarian, these guys have killed so many civilians, I will never let them go." Qin Yuan recognized Long Xiaoyun's ability very much, he nodded, and then Long Xiaoyun led the wolf warrior team to chase after the car that appeared behind, and Qin Yuan chased the front car. Anna smiled, their plan was half successful, at least the two teams were now separated, and her bitter plan began immediately. Just like that, Anna followed behind Qin Yuan and the others, and He Chenguang also noticed it at this time. "Brother Qin, Anna and the others seem to be following us. What's the situation?" "Forget it, don't care about her, let's chase the people in front first, whoever they like to follow, anyway, we will pay attention later, don't let them catch. There is a gap, you must not let the people in front run away." "Okay, don't worry, Brother Qin, you just trust my driving skills and you will never let them go." Just like that, both sides started to speed up, Bai Yuan smiled Laughing, and then threw the grenade directly out the window. He Chenguang subconsciously made dodging movements, and directly successfully dodged the grenade thrown by the white ape. He himself couldn't believe it, when did his reaction become so strong. Qin Yuan knows that this is all the effect of merit points, so he is even more urgent now, to get more merit points, and to strengthen his team members, or the Wolf Warriors squad. In addition, Long Xiaoyun and the others were also chasing the target ahead, but what they didn't expect was that in the middle of the chase, those guys also quickly threw the grenade. Long Xiaoyun and the others could only keep dodging, but their reflexes were not that good, and they were almost blown up, so they slowed down instantly. In this way, the gap between them and the target widened, and Xiaoyun punched the front glass angrily. Because looking at it like this, it is estimated that he will not be able to catch up, so he can only pin all his hopes on Qin Yuan. "What should the dragon team do now? Should we switch back and cooperate with Captain Qin and the others to see the people in front of us? We will definitely not be able to catch up with them." "I don't believe in this evil today. Qin Yuan's side must be fine. Let's keep an eye on this group of people, I want to see where he can go." "Yes!" In addition, Long Xiaoyun doesn't want Qin Yuan and the others to see jokes, although Qin Yuan can't, she can't. Said that she has been relying on Qin Yuan, and she also wants to make some achievements. Although she knew that she would definitely not be able to catch up, she didn't want to give up. No matter what, she would persevere until the end. In addition, Qin Yuan and the others seemed to be close to the target, and their dodge was very successful, which Bai Yuan did not expect. His body is still relatively strong because of the injection of genetic medicine. His physical fitness and aiming ability have been strengthened. He didn't expect Qin Yuan's men to escape him. What's going on? Is there anything special about his men? Are they as strong as him? In fact, White Ape wanted to capture a person directly, and then give it to Dr. Akazhi for research. He wanted to see if these people had undergone genetic modification, because he very much suspected that their physiques were different. The main

reason is that after these two battles, he found that not only Qin Yuan, but also the physical fitness of the team members around him is particularly good, which is different from other ordinary special forces players, they seem to be even stronger. At this time, the white ape had just crossed a bridge, and just as they got on the bridge, Qin Yuan heard a slight movement. "Something's wrong, reverse the car quickly!" Because the bridge is still very far away, it's impossible for them to rush across it. Qin Yuan heard the sound of the timer coming from below. If he guessed correctly, it should be It's a bomb. As expected, He Chenguang retreated quickly, and just as he was about to exit, an explosion occurred. The bridge blew up in an instant, and He Chenguang and his whole car rushed into the river, but because their bodies reacted quickly, everyone escaped from the car. But Anna in the back, they were not so lucky, they didn't notice the situation ahead, and rushed into the river directly. Both of their cars fell into the river at this moment, Qin Yuan just wanted to scold his mother, he didn't expect these guys to be too despicable, he ordered them again and again, he really ate too much from this group of people deficit. Because the river was very fast, but Qin Yuan had already climbed onto the bank quickly, and just as he got up, he saw Bai Yuan's car parked not far away, and he showed a provocative smile at him. Qin Yuan clenched his fists. He was about to rush over now. If he was alone, he would definitely be able to take down these people. At this moment, there was a sudden exclamation in the river. He turned his head to look, but he didn't expect it to be Anna. Their physical fitness was not that good, and they were washed out by the river. He Chenguang struggled desperately, but only managed to hold a staff member next to him. Anna had been washed farther and farther by the river, and the river here was very anxious. Qin Yuan looked at the white ape in front of him, then at Anna in the river, finally sighed, and jumped into the water. Bai Yuan made the right bet, because he has changed his mind now. If he were Qin Yuan, he would have made the same choice, because he is a member of the Special Forces, and their first task is to save people. He was sure about Qin Yuan's idea, and when Qin Yuan jumped into the water, Anna had already been rushed more than ten meters away, the current here was too fast. He quickly swam towards Anna, and at the moment, Anna was quite desperate. She really couldn't swim. Apart from swimming, she was good at everything. So this bitter trick was really too risky for her, and she felt like she was on the verge of death. She didn't know if she could bet right, until she saw the figure of Qin Yuan swimming towards her, at that moment, she didn't know what was going on in her heart, she even regretted it, she regretted using such a method. Qin Yuan quickly grabbed her, and then carried her on his shoulders, "Now raise your head quickly, try to put your head on it, and don't let the water enter your respiratory tract." Anna was touching her waist with one hand at the moment , although the river is very urgent, but Qin Yuan did not expect that Qin Yuan's strength is so great that he directly put her whole body on his back. Anna is struggling. She is wondering whether to attack Qin Yuan. If she directly attacks him now, she might succeed, because he is totally defenseless now. When Anna was struggling, Qin Yuan lifted her up again, mainly because he was worried that Anna would choke on the water. Anna shook her head silently. Now is definitely not the time. She dared not admit it, but her heart softened. At that moment, Qin Yuan had been trying to save her, but she really couldn't do it. She can only comfort herself constantly, now is not the time, because Qin Yuan is too strong, she is worried that if she takes action now, it will mess up her plan of Bai Yuanyuan. She sighed silently, she knew it was just to comfort herself, but in fact her heart had been shaken. He Chenguang and the others also went ashore quickly. They wanted to pull Qin Yuan and the others, but they had been swept farther and farther away, and they were no longer visible. Qin Yuan's speed was very fast. He was grabbing Anna and trying to figure out a way to lead her to the nearby shore. Finally finding the opportunity, Qin Yuan dragged Anna, and the two managed to get ashore. Anna was

choked on a lot of water. She really couldn't swim, and was kneeling on the bank coughing violently. Qin Yuan patted her on the back, and then looked around. "I think we can go up the side hillside, and we should be able to get to the position just now, and my team members will come to meet us." At this moment, Anna couldn't help complaining, this Qin Yuan is a straight man, no Seeing himself choking on the water and coughing up tears, he didn't know how to be sympathetic, come over and help him? But at this moment, Qin Yuan's thoughts were all about his team members, so he didn't put his mind on Anna's side at all, because he was worried that Bai Yuan would counterattack, anyway, he always felt a little uneasy. At this moment, he heard gunshots coming from a distance, and he immediately became vigilant. Could it be that his conjecture was confirmed? She didn't care too much, she picked up Anna who was on the ground, and walked quickly towards the hillside. Anna was not prepared either~ www.readwn.com~ Qin Yuan is so strong, he picked her up in one go. "What are you doing? Put me down quickly." "We are not making trouble now, and Miss Anna still wants you to cooperate with my actions. I heard gunshots, and it may be that my subordinates are fighting those militants." Anna couldn't help but Some admired, she didn't even hear it in this position, she didn't expect Qin Yuan to hear it so clearly. At this moment, Anna was quietly lying on Qin Yuan's back. She felt the strength on Qin Yuan's body. What kind of person is this guy? Before that, she really wished she could kill Qin Yuan with a single blow, but she hesitated at that moment just now, including now that she also has a chance, but she didn't know, how could she think that she couldn't do it. It may be that when she fell into the water just now, at that moment of life and death, Bai Yuan, as her boss, no one cares about her life and death. Although she proposed this plan, at that moment, at least Qin Yuan saved her, and she didn't expect that her enemy would save herself. Carrying Anna on Qin Yuan's shoulders did not affect his speed. His speed quickly reached the place where the shooting was fired. When he came, the gunshots had already stopped. what's going on? Qin Yuan frowned and put Anna down, and then ran forward quickly, because he saw Wang Yanbing and the others chasing forward, while Anna's two subordinates were lying beside her. Wang Yanbing turned his head and saw Qin Yuan coming. He immediately saw hope and was very anxious. "Brother Qin! What to do, He Chenguang was taken away by them." What! ! Qin Yuan was completely stunned when he heard the news, what's going on! Sure enough, they got caught in their plan to divert the tiger away from the mountain. It seems that they deliberately blown them into the water just to counterattack.

Chapter 986: He Chenguang was taken away

There are no traces in front of them. These guys seem to be well prepared and very fast. Qin Yuan did not give up and Chengguan, that was his brother, he ran forward desperately, the team members searched frantically, but there was no trace. He was a little excited, and grabbed Wang Yanbing next to him, "What's going on? Can you see which direction he walked from?" "Brother Qin, I don't know either... He gave birth too fast, and I didn't have time Reaction, I turned my head and didn't notice the morning light, and then those people suddenly retreated." "Where did the principles I usually let you train and remember go? Now that your teammates have been taken away, you don't even know where to go." I don't understand." Qin Yuan was almost roaring, saying these words, but after thinking about it, he also blamed himself for this matter, as a captain, he couldn't even protect his team members well, so what right did he have to blame others? What about the team members? He hasn't felt this kind of fear for a long time, because He Chenguang is

not only his team member, but also his brother to him. From the beginning to the end, those guys were just a trap. They were deliberately lured here. The purpose of blowing up the bridge was to take away their team members. He couldn't even imagine what those crazy guys would do to He Chenguang. And at this time, Long Xiaoyun also rushed from behind. She led her team members to chase in front, but the car couldn't catch up at all, so she simply gave up. Later she heard Qin Yuan and the others coming from their direction, the sound of explosions and gunshots. She knew that the matter was not easy, so she hurried over to support her. Unexpectedly, when they came, Qin Yuan and the others had already chased to the front. Anna and her team members collapsed to the ground. Long Xiaoyun stepped forward and looked at Anna coldly. "What's going on here? How could there be gunshots just now?" Anna was now at the time of her full performance, and she began to cry, and then made a very sad expression. "Captain Long, I think I'm a villain. It's my fault, but I don't know what happened. The captain jumped into the river to kill me. When we came back, I heard them say, Your team members have been captured." What! Long Xiaoyun was shocked when she heard this, what meant that their team members were taken away, she rushed up with the members of the Wolf Warrior team. When they were halfway running, they saw Qin Yuan and the others walking back dejectedly. She had never seen Qin Yuan like this before. Qin Yuan tried various methods, he even used his speed around and chased them for a few kilometers, but there was no clue at all, these guys seemed to disappear out of thin air. At this moment, Qin Yuan really blamed himself very much. If he had known that he would never leave him, he would definitely not leave his team members, at least he could protect them. "Qin Yuan, what's going on? Just now I heard Anna say that some of our team members have been taken away." "Yes, He Chenguang has been taken away." When Qin Yuan said this, he felt very helpless. He has always wanted to protect everyone, and now his ability is relatively strong, but it still hurts the people around him. And from the eyes of that **** just now, he knew that that **** was targeting him, why didn't he catch himself? In the situation just now, he would rather be taken away by himself. Li Erniu slapped himself on the face directly, "It's all my fault, I didn't notice Chen Guang at all, originally we two were working together, but suddenly a group of people rushed out from the side and broke us up It's gone." Qin Yuan sighed, stepped forward, and pressed Li Erniu's shoulder to tell him not to do this. "I know that I did have some impulsive emotions just now. I shouldn't blame you for this matter. I blamed me as the captain from the beginning to the end. I didn't make a correct judgment and let everyone fall into this situation." "And I didn't protect you well, as the captain, I should protect my team members, but I came late." He Chenguang was taken away, everyone was very sad, and this was the last thing everyone wanted to face. Long Xiaoyun could only try his best to comfort them. "Qin Yuan, in other words, He Chenguang should not be in any danger now. If these guys want to kill him, they might kill him on the spot." "I know that, but I'm more worried that those **** just want to I want to take him back to torture him, because I saw that guy in the car, his eyes are full of madness, he is a lunatic!" Qin Yuan clenched his fists even more when he thought of this, he regretted so much, he should have been Stay put, but Anna's situation was also urgent. This is indeed a dilemma, he sighed deeply, and then led the team back slowly. When she came to Anna's side, Anna also had tears in her eyes. She looked at him, lowered her head, and kept apologizing. "Captain Qin is all my fault. If you weren't here to save me, you wouldn't care about the situation here." "This time your team members were taken away, I really feel very heartbroken." Anna said, crying bitterly Runny, looks very regretful. Qin Yuan shook his head. He couldn't blame Anna. Although Anna was suspicious, the previous situation was indeed true, because he could see that Anna really couldn't swim. "Forget it, let's do this first, let's talk about it when we go back." On the way back,

no one spoke, and everyone fell into deep self-blame. The principle of their previous red blood cell team was that they would rather die in battle than be captured. . They have all been trained against captives and know how horrible it is to be a captive. Especially if it fell into the hands of such a lunatic, it would be no good. After they went back, Qin Yuan convened a meeting. They came back this time to send Anna and the others back first, and then he planned to set off by himself. He wanted to investigate what was going on in person. If there were no team members, then he There are no other worries. He has acted alone many times before, as long as he has no worries, it is very convenient for him to act, because if there are too many people, he will consider too many factors. Qin Yuan just proposed his idea of acting alone, but was immediately rejected by Long Xiaoyun. "Qin Yuan, I know that you are very powerful. You have acted alone before, but this time the situation is different. You have also seen that those people seem to be different." "I know this, so I have to go alone Action, and I will set off later, I must find He Chenguang as soon as possible, so that he will not be harmed." "But how are you going to find He Chenguang, now at this critical moment He Chenguang has had an accident, you as the entire special forces The captain of the team, you can't have any accidents, you know?" "It is because I am the captain that I have to stand up, believe me, only I can do it." Long Xiaoyun frowned, now this The situation was beyond their control, and he had to act alone. Now that something happened to He Chenguang, she really didn't want to see something happen to Qin Yuan. Because this gang of criminals is bigger than they imagined, and more difficult than any gang of criminals they have encountered before. They all came prepared and did a lot of homework, especially their red blood cell team knew them very well. "Qin Yuan, anyway, I will never agree to what you said." "I am not here to ask for your consent, but to inform you directly that from now on, you will stay at the embassy with the red blood cell team Inside, I will go out and act alone." "Qin Yuan, what kind of individualism are you talking about, we are a group, so we should act together." Seeing that the two were about to quarrel, Qin Yuan suddenly grabbed Long Xiao Cloud shoulders. "Xiaoyun, listen to me, I really think this is their conspiracy, I don't want to lose any of you again, this time it is He Chenguang, then next time, in case it is you or anyone in the team, I will I can't accept it, you know?" Long Xiaoyun looked at Qin Yuan's sincere eyes, she had no choice but to nod in agreement. Qin Yuan is really sorry for doing this, but he has acted alone before, and it was very successful, Long Xiaoyun chose to believe him in the end. At this moment, Qin Yuan made a gesture of hissing. Then he came to the door and opened it directly. Anna stood there in embarrassment. "Captain Qin, what a coincidence, I just wanted to go in and discuss this action with you." "Miss Anna, thank you for your kindness, but we don't plan to act this time." Qin Yuan's hearing is very good Quickly, An Da just came here, and he heard it, so Anna hasn't heard anything yet. Anyway, he was still a little worried about this woman. Even if Anna had already implemented a trick this time, it was all a coincidence! After all, according to this situation, the guy on the opposite side knew Qin Yuan very well, so when Qin Yuan left, he attacked his team members. Qin Yuan recalled the whole train of thought, the general aspect must be fine, but the details cannot be justified. If they want to attack, the moment they fall into the river is the best time to attack. Of course, that guy waited until he was gone before he teamed up to attack. How could he be so accurate? What about the intelligence? Regarding this point, Qin Yuan really couldn't figure it out. If he wanted to talk about a coincidence, it would be too coincidental. "Miss Anna, it's too late now, because we have nothing to do now. We plan to act again tomorrow morning. If you want, then come and find me tomorrow morning, and we will act together." Anna was a little stunned. Like Qin Yuan's character, she thought that Qin Yuan would act directly now, so she came here impatiently, she was worried that she might miss some news. "Captain Qin, we

don't want this kind of thing to happen. We still hope that you can adjust your mentality. Don't worry, your team members will be fine." "Okay, then thank Miss Anna for your concern." Then Qin Yuan closed the door with a smile, turned around and walked into the room, where he directly wrote his plan on the paper. There are too many problems with this woman, so now they have to be on guard. Long Xiaoyun looked at his plan, then nodded, now they need to put on a show first, just to make Anna think that Qin Yuan and the others didn't take any action. Just like that, they walked out of the conference room, and everyone went back to their rooms. An hour later, Qin Yuan put on his equipment and quietly jumped out of the window of his room. When he was still at the window, he saw a figure squatting furtively at the door. As expected, there is something wrong with this Anna, don't tell him, it's just a coincidence, he didn't expect to arrange a surveillance person, he didn't expect that he would leave from the window on the fourth floor. Anyway, no matter what purpose this Anna had in spying on him, he sent a message to Long Xiaoyun's side mainly to make them pay attention to Anna. With a light figure, he jumped out of the window, and then disappeared into the darkness with a bounce. Just in case, he also used the 'stealth function'. His speed is very fast, and ran wildly outside, no less than the speed of a car. He came to the place where Hechengguan was hijacked again, which is really strange. Could it be that there is something wrong with the terrain? Because according to his speed, he just searched in a radius of five kilometers without any trace. At that time, they seemed to disappear in this land without anyone noticing. This time, he started to search again according to the previous route. They must have missed some important clues just now. Because he was too anxious before, his whole mentality had already collapsed. Now he searched again and found the problem. There was a hidden path completely blocked by the master, so they didn't notice it before, thinking it was a dead end. But at this moment, he jumped over the big rock, and he found the wheel marks behind him. Qin Yuan snorted coldly, these guys are indeed cunning, but no matter how concealed they are, they will leave traces. Because the terrain here is sandy, so if a car passes by, it will definitely leave traces, and these guys don't dare to stay for a long time. Originally, they wanted to clean up the traces here tomorrow, but they didn't expect Qin Yuan I set off that night. Because the news that Anna gave him was that Qin Yuan was still in the room and did not move out. Bai Yuan was still worried, he immediately dispatched personnel, intending to remove all traces of the cars here, but unexpectedly met Qin Yuan who was on the way. Qin Yuan originally searched for it on the road, but suddenly heard footsteps coming from ahead, he quickly hid behind the nearby stone wall. Four or five people walked up ahead. Their clothes were the same as those of the previous terrorists. They seemed to be the same group. They wanted to clear the traces.

Chapter 987: Save He Chenguang

I have to say that this white ape is really cautious enough. Under such circumstances, he dared to send his subordinates to clean up the traces. Could it be that he is really not afraid of his own counterattack?

Qin Yuan also wondered if there was something wrong with him internally, otherwise how could they be so confident?

Just thinking that the militants were approaching, they held branches in their hands and began to remove the wheel marks on the ground. Moreover, these people cooperated closely without leaving any footprints, and they looked very professional.

Sure enough, this group of militants was different from what they had encountered before. Qin Yuan originally wanted to attack them directly, but considering the situation, he had better follow them back to have a look.

After 20 minutes, these militants had completely cleared the traces, and Qin Yuan slowly followed behind them, but they didn't notice, because Qin Yuan was so sensitive that ordinary people couldn't find it.

A bearded man who took the lead in the front turned his head and looked, "In my opinion, I think our boss is too cautious, can those guys have such a quick reaction? It is necessary to let the brothers have another big night Come once."

"Who says no? By the way, you must never call him the boss. You should call him the captain now, or you will definitely be scolded."

"Look at my brain, I almost forgot about it. Fortunately, you reminded me last time that the brother from the second team forgot, and called him the boss directly. As a result, he slapped his front teeth away."

"So everyone be careful."

Hearing this, Qin Yuan became more and more curious about this mysterious boss of the organization. Not only did he want others to call him the captain, it was completely imitating his own behavior.

Qin Yuan has been walking behind them for more than half an hour. In order not to expose the target, these guys came directly on foot, and they didn't even drive a car.

They are indeed very cautious. Compared with the militants they dealt with before, this group of militants is very intelligent and cautious in everything.

They came to an open space and stomped their feet. At this time, the position in front suddenly sank, and a large dark hole appeared.

These people also walked in quickly, Qin Yuan took advantage of the opportunity, turned over and rolled in.

At this time, the person in front noticed something strange, because he heard the movement, and the bearded man was relatively sensitive. He turned over and quickly raised the gun to look behind.

"Strange, why is there no one, did you hear anything just now?"

"To be honest, I also heard a little footsteps just now, but it was very slight, but can some be so fast?"

"Search carefully first, don't be sneaked in by others, it will be troublesome then."

Qin Yuan was a little surprised in his heart, the good guys could hear his movement, his movement was relatively slight, according to the past, it was absolutely no problem for him to come in and out like this.

In fact, the main reason is that these soldiers have now been injected with genetic drugs, so their bodies are more sensitive than before.

The most important thing is that Qin Yuan's position is really not long. If they come over, they will definitely be discovered. They have no choice but to quickly demonstrate his charm skills, and the soldiers froze in place for a while.

Taking this opportunity, Qin Yuan changed into the clothes of one of them, and then hid him in the place he had just avoided.

He looked at the bearded man in front of him, and said slowly, "Where is that soldier from Yan Kingdom that you brought today?"

"The captain said he would take him to do experiments, but we don't know the specifics."

"Where is your laboratory?"

The bearded man started to lead the way without saying a word, because Qin Yuan has completely controlled his thoughts now.

When Qin Yuan heard about the experiment, he felt a little flustered. This guy really wanted to attack He Chenguang, but why did he only catch them alone?

This is really too strange, but there should still be time now, after all, they have just come back, if these guys want to do it, they won't do it now.

In this way, he followed the soldiers through the long passage, and when he came in, he suddenly realized that this is an underground secret. It looks like it has been around for some years, and it should be that the old air-raid shelter has been remodeled and reinforced by them.

Going forward, there are some small rooms, and there are occasional voices in the room.

Because it is relatively hidden, there are no patrolling personnel on duty, and Qin Yuan looks at this place definitely a little strange, there are not many soldiers inside, just a few soldiers, most of them are wearing white research uniforms.

He looked at the bearded man in front of him and asked in a low voice, "Where is this place? Isn't it your base?"

"base?"

The bearded man was obviously puzzled by Qin Yuan's question, because he didn't know how to explain it.

Qin Yuan asked another way: "Where is your captain? And this place, is it just your laboratory?"

"This is Dr. Akazhi's experimental base, our captain is not here at the experimental base."

Sure enough, Qin Yuan really guessed right, he knew that such a cunning guy would definitely separate the experimental base from his lair.

But he was lucky, He Chenguang was also in this experimental base, and the bearded man in front was just a kid, so he couldn't ask any other specific information, so Qin Yuan followed him all the way to the innermost one. Room.

After reaching the front position, the bearded man shook his head, but they couldn't get in because only researchers could get in.

At this moment, a researcher inside came out with a report. Taking this opportunity, Qin Yuan controlled the bearded man, and they were scolded by the researcher just as they were about to go in.

"What are you doing? This is the experimental base. The captain said before that, except for our researchers, the rest of you are not allowed to enter."

In order not to be exposed, Qin Yuan could only ask the bearded men to suspend their actions. It seems that the requirements are quite strict. Although they are all the same type of people, there is still a clear assignment of work.

And because of the yelling of this researcher, several people inside kept looking outside. It seemed that this was not a good time, but it also made Qin Yuan see clearly that he was thinking of sneaking in just now. I didn't expect there were people inside.

In this case, let's control everything. He hasn't used such a charm skill for a long time, but in this case, this is the best use.

At this time, Qin Yuan noticed that there seemed to be surveillance in this research room, and there was no surveillance on the outside just now. He could not act in this room, in order to prevent surprises, because he has not yet found the location of Hechengguan.

So he backed out slowly, but the staff member just now had been controlled by him, and followed him out, and there was no other reaction seen in the monitoring.

After a few minutes, Qin Yuan changed into the staff member's clothes, put on a mask, and walked in slowly.

Just as Qin Yuan entered, the man standing at the door just now patted him on the shoulder suddenly.

"Harson, what are you still doing here? The doctor has been looking for you just now and asked you to send him the data as soon as possible."

Qin Yuan nodded, seeing that there were several passages in front of him, he didn't care so much, and walked in one indiscriminately.

"Harson, what are you doing? The doctor is waiting for you in the sixth laboratory, why are you going to the pharmacy?"

Qin Yuan didn't dare to speak, worried about being exposed, he nodded, then looked up, there was indeed a sign in front of him, he quickly changed the direction of the sixth laboratory, and walked over.

It would be more troublesome if there was monitoring. He was worried that this place was also being monitored by that white ape.

When Qin Yuan walked through the laboratory, he found that there were many people imprisoned here, all of whom were captured civilians, but they seemed to be in very bad condition.

Sure enough, this is the same laboratory they seized before, their scale, and their method of human experimentation are the same, very cruel.

But the guy he was facing now was even crazier. Not only did he capture these people for experiments, but he also shot them on the way to capture them and killed them at will outside. It was simply a massacre.

Qin Yuan followed the sign and came to the door of the sixth laboratory. As soon as he opened the door, an old man with gray hair stood up.

"Harson, where did you go just now? I asked you to get the report, why did you delay for so long?"

At this time, Qin Yuan turned his head and noticed that there was a person lying on the hospital bed. It was He Chenguang. At this moment, he had completely fallen into a coma.

He frowned, what did these guys do to He Chenguang?

Before he could speak, the doctor was already a little unhappy.

"Forget it, I really can't count on you guys, so come and help me first! Go to the next lab and get out his research data."

Qin Yuan hurried over and handed all the experimental data to the doctor in front of him. Now he can't act rashly, he wants to see what the ***** these guys are doing.

And now it's already 12 o'clock in the evening, the doctor's eyes are shining with excitement, and he doesn't know what they are studying.

At this time, the doctor glanced at the data above and frowned.

"Strange, this person turned out to be just a normal person, nothing happened."

Dr. Akazhi couldn't believe it, and seemed to be talking to himself. He looked at the test results over and over again.

"It shouldn't be. According to the situation he provided, this person should have undergone experimental transformation. Why is there nothing? Is it just talent?"

Qin Yuan couldn't figure out what they were going to do, and he couldn't bear it anymore. He stared at Dr. Akazhi in front of him, "What experiment did you bring him here for?"

"Harson, what nonsense are you talking about, let's put him..."

Suddenly the doctor realized that this person was not Hashen at all. He ran over quickly and wanted to press the alarm at his hand, but it was too late. When was faster than him, he grabbed his collar.

Now that he has found He Chenguang, so he doesn't have so many scruples, she grabbed Dr. Akazhi and looked at him fiercely.

"What the **** did you do to him?"

"You... don't get excited, I didn't do anything, I just anesthetized him."

"Then you did so many tests after anesthetizing him. What exactly do you want to do? Do you want to experiment on him? Are you **** still human?"

Qin Yuan was a little excited, and the strength in his hand was getting stronger and stronger, and he couldn't control it for a while. Dr. Akazhi coughed violently. It seemed that he was about to suffocate, so Qin Yuan let go.

"Ahem... I really didn't do anything, I just put our captain's order to conduct research on him, to see if he had undergone genetic modification."

"What is the situation, you'd better tell me the truth."

In order to save his life, Dr. Akazhi could only say all these things. Their current genes have been researched after the third generation.

As for why He Chenguang was arrested, it was because the White Ape suspected He Chenguang, and they had undergone genetic modification, so they wanted to see what their physique was like.

As a result, Dr. Akazhi found that everything was normal after research.

"Nonsense, of course we are normal, because we are normal people, not crazy guys like you who use so many people for experiments for their own benefit."

Dr. Akazhi shook his head helplessly when he heard this. In fact, his original intention was not like this at the beginning. He really wanted to research such a design that could transform people's physique.

At least those who can stand on the battlefield, reduce sacrifices and improve their physique.

Qin Yuan snorted coldly when he heard this. What this guy said was really high-sounding. To put it bluntly, it was for their own example of righteous deeds. They developed such a design, which can be sold to some countries at war to improve the combat effectiveness of their soldiers.

It is really shameless to still say these big words in a high-sounding manner'.

Qin Yuan punched Dr. Akazhi in the face so hard that the guy passed out immediately without hitting him.

He hurried over to check on He Chenguang's condition. Indeed, as the doctor said, he was only temporarily anesthetized. In this way, under Qin Yuan's acupuncture treatment, He Chenguang slowly woke up.

"I'm going...Brother Qin, am I dreaming?"

"Don't you know that your kid was taken away? Hurry up."

At this moment, a video suddenly appeared on the computer screen on their left.

The person playing on the video is White Ape. Unexpectedly, this guy has discovered that he has invaded their experimental base.

Qin Yuan stared at the screen coldly. At this moment, Bai Yuan was clapping his hands in the video with a crazy look on his face.

"Hahaha, I really didn't expect your speed to be so fast. It's really beyond my imagination."

"What the **** are you trying to do, bastard? Don't worry, I will catch you."

Chapter 988: Qin Yuan's strategy

Hearing what Qin Yuan said, the white ape on the opposite side was very satisfied, "But this time you lost this game. I have the final say at the beginning of the game, and I have the final say at the end. I am the real master." "You lunatic, you are not in control of anything, you are a killing machine." "Oh, then I quite like what you call me, killing machine." This guy is completely crazy, Qin Yuan Shaking his head, more importantly, he was completely controlled by this guy.

Everything seemed to be in his expectation, and he was always a bit late. What is going on, this situation has never happened before. At this time, the white ape in the video said slowly: "But this game, you are beyond my expectation, at least you found my experimental base in advance." "So let's wait for the next game to start, But the time for the game is up to me, and you can help me clean up the rubbish." After the white ape finished speaking, he showed a strange smile, and then waved his hands. At this moment, Dr. Akazhi on the ground let out a painful cry sound, and then half-kneeled on the ground. "No, no, I have done so many things for you, did you just abandon me like this?" "You lunatic, without me, you can't do other research at all." "Don't worry, I I have already found someone else to replace you. As for you, you are just an abandoned pawn." "You bastard, I am doing research and I listen to your arrangements every day. Why do you say abandon me and abandon me?" "" "Okay, I don't want to hear any more nonsense from you, because useless things will be discarded sooner or later." What's going on, Qin Yuan is confused, why are these two people arguing? stand up? Just after Bai Yuan finished speaking, his voice disappeared from the screen, replaced by a countdown, and a three-minute countdown. When Qin Yuan saw it, he felt something was wrong. This guy was really sinister, so he quickly ran out with He Chenguang, and Dr. Akazhi at the door was picked up by Qin Yuan. At this moment, he didn't think about how to escape at all, but he was already like a person who could see through life and death. "It's useless. We can't run out at all. There are bombs down here. This is his final destruction plan. I didn't expect him to actually activate it." Dr. Akazhi can't die now because he has mastered There is a lot of information about the white ape, especially the genetic experiments they did, Qin Yuan has to take these things back and interrogate them one by one. "Don't talk nonsense, I will definitely take you out." "Hehehe, really don't waste your energy, there are all bombs down here, in three minutes, we can't run out at all, even if we get out of this base, the next The shock wave will directly blow us to pieces." Qin Yuan ignored Dr. Akazhi's statement, and after going out, many militants and researchers rushed out of the aisle, because the entire underground research institute had issued a Screeching alarm. But at this time, those people no longer had any intention of targeting anyone, and they all ran outside desperately. When Qin Yuan ran over, he saw that the half-dead hostages in the laboratory had already been experimented on by them. From this point of view, even if he wanted to take them out, he couldn't take them out. He Chenguang stared blankly at him for a few seconds, then pulled Qin Yuan and pushed him forward. "Brother Qin, it's not that we don't want to go now, it's that there is nothing we can do. If we save them, then we may all end up in this place." Qin Yuan was really helpless, that **** just wanted to see himself in this dilemma In the end, Qin Yuan had no choice but to carry Akazhi and He Chenguang and quickly ran outside. He Chenguang's body has also been strengthened now, so his speed is relatively fast, but he can barely keep up with Qin Yuan, not to mention that Qin Yuan is still watching someone. Qin Yuan kept holding a breath in his heart, he would definitely catch that bastard, but after going back this time, he had to be more careful, because this guy was one step ahead of him every time, which meant that there must be something wrong with the people around him. One that comes to mind is Anna. But Anna is the security officer sent by Country K. What link went wrong? Could it be the people around her? As for Qin Yuan, he only has the Wolf Warriors team and the red blood cell team around him, so there will be absolutely no problems. But the staff of the embassy also lived with them during this time. Could it be those staff, or maybe there are bugs in the room? But these problems can only be considered after they go back. Seeing that time is running out, he simply grabbed He Chenguang and ran out like the wind under his feet. He Chenguang felt Qin Yuan's speed for the first time. He was a little surprised, he only knew Qin Yuan's speed was very fast before, but now he realized it at close range, and Dr. Akazhi

on his shoulder was also stunned for an instant. They have now run out of the range of the base, and according to this situation, it is absolutely no problem for them to run out of the range of the explosion. He has hope, and Dr. Akazhi's eyes lit up instantly. "As long as you take me out, I will tell you everything, including if you want the genetic reagent, I can make it for you." "Hehe, as for your harmful thing, you Keep it for use, I don't care about it." Qin Yuan knew that the situation was urgent, they just ran out of the range outside the base, and they didn't dare to delay, when there was an explosion from behind. However, because it was a continuous explosion, Qin Yuan and the others had already withdrawn from the safe range when this area erupted, but the strong explosion wave from behind still knocked a few people out, but the problem is not big. You must know that the bomb buried below is hundreds of kilograms. This guy is a lunatic. He had expected this day a long time ago, so he separated the laboratory from the base, including his base, which also has bombs. Because his purpose is to kill Qin Yuan, even if they die together, he is willing. Dr. Akazhi got up from the ground, looked at the flames soaring into the sky in the distance, and didn't know whether to cry or laugh. After all, that experimental base has carried too much of his hard work, and now he is also a narrow escape. "Everything is over. This is all the painstaking efforts of my life, and all the data have not been brought out." Dr. Akazhi is also in a state of madness at the moment. After all, he saw that the base he had worked so hard to manage was completely destroyed. Qin Yuan looked at He Chenguang, there were many things before, and he hadn't had time to ask them. "I'm curious, what was the situation at that time, how could you be taken away by those people with your ability, did Anna's people take action?" Qin Yuan actually mainly wanted to know the specific situation of Anna, he really became more and more It is suspected that there is something wrong with the people around Anna. He Chenguang frowned and thought for a while, "Although the fight was chaotic at the time, we still had needles. I didn't pay attention to the back. We were all focused on the front." "Did Anna's people attack you from behind?" , or do they belong to the situation of staying in place?" "Brother Qin, are you suspicious of Anna and the others, but I really don't know about this, but you know my position, and you must not see what's going on. I can only ask Dragon Team and them." Qin Yuan nodded and patted He Chenguang on the shoulder, anyway, it's good to be back safely now. The three of them were walking together in the desert. At this time, He Chenguang suddenly asked: "Brother Qin, why don't you let the dragon team come out? If they really have a problem, wouldn't it be exposed if we go back now?" Qin Yuan shook his head. Shaking his head, it's useless at all, if Anna was really with that white ape, he would have received the news long ago. But Qin Yuan immediately thought of another way, "No, let's not leave yet, I'll let Xiaoyun bring the commandos over now, since this guy wants to see us, then let's give him a fake show Really do it." He Chenguang didn't understand what Brother Qin was going to do, at this moment, Brother Qin turned his head and saw that Aka Zhiboshi directly slapped him unconscious. After finishing all this, Brother Qin called Long Xiaoyun. "Xiaoyun, you are now dispatching all the members of the red blood cell team and the fence team, I will send you the location, you come here." "Why, we heard the explosion just now, you can't be at the explosion Let's go on the spot." After all, there are so many explosives, it's not surprising that Long Xiaoyun and the others heard it. "Yes, we can't explain clearly in one or two sentences here, you come here first, and I will talk to you later, but don't worry, He Chenguang and I are fine." Knowing that they are all right, Long Xiaoyun relaxed tone. "But that guy Anna seems to have her people outside, or we should come out quietly." "No, you guys come out in the open, and the bigger the disturbance, the better. If you bring them too, it will be even better." Good." Although Long Xiaoyun felt strange, he still acted according to Qin Yuan's order. He Chenguang somewhat understood when he heard this, "Brother Qin, are you trying to

create a situation where we fake death for him?" "Smart, but it's not my death, because if I die, that guy will definitely not believe it." Qin Yuan carried Akazhi on his shoulders, and then came to the bombed base, which was now completely in ruins. From this position, he could feel that there should be a fire below, and the temperature was very high. It's just because the sand above collapsed and covered it. In this case, it is conceivable that there is no possibility of survival below. The most critical issue now is to find out the traitor inside. This Anna is the biggest suspect anyway, so Brother Qin will use his tricks this time. He planned to seriously injure himself, and then He Chenguang and Akazhi died directly, so that they could relax their vigilance and he could investigate. Just like that, Qin Geyuan tied Akazhi into a rice dumpling and threw it behind, "Chen Guang, it's up to you in the back, you must watch this guy, look like this, you can't go back to the embassy for the time being. It's over, after all, I don't know which link is wrong." "Brother Qin, don't worry, with me watching, this guy will never escape." Qin Yuan nodded, and began to pretend, why? Chen Guang was completely stunned by the side, how Qin Yuan's pocket looked like a treasure bag, it even contained a blood bag. This is mainly because of Qin Yuan's usual camouflage skills, so these things are necessary. He broke the blood bandage first, then poured it on his body, and then let He Chenguang take out the sand to cover his body. After making these camouflages, He Chenguang checked again carefully, and there was nothing wrong with them. Anyway, the corpses below were already torn to pieces in the explosion. Even if they wanted to look for them, they couldn't find themselves and Akazhi. Qin Yuan asked him to hide in a nearby cave first, and then he would look for opportunities to come and deliver supplies to him. Long Xiaoyun and the others were also very fast. Half an hour later, Long Xiaoyun and his convoy had already arrived. Anna has been following behind, and Long Xiaoyun asked the members of the Wolf Warriors team to block them on purpose, mainly to prevent them from approaching so quickly. As for the other situation, she didn't disclose it to any of the team members. It's not the right time yet, and Qin Yuan didn't say that only he and Qin Yuan know about this matter. After Long Xiaoyun and the others came down, they saw the ruins ahead, and then she took out the infrared life detector. The other team members were completely stunned when they saw this situation. They thought they were here to pick up Qin Yuan and the others, but they didn't expect that what they were facing now was a mass of ruins. Wang Yanbing couldn't believe it even more. He staggered to the front and picked up the ruins with his bare hands. "How is this possible? Are Brother Qin and the others here?" "No! Absolutely impossible, Brother Qin is so powerful, he will definitely be able to escape." Long Xiaoyun couldn't explain it to them, and thanks to them. The unreserved true feelings made Anna frown, and she couldn't figure out what was going on for a while. Anna has indeed received news from Bai Yuan, but Bai Yuan said that the bomb he activated at the base, whether it can kill them or not, is not certain, and Bai Yuan is very confident, he feels that everyone else. It is absolutely impossible for Qin Yuan to die. So he asked Anna to pay close attention to the situation here and report to him at any time. Unexpectedly, she happened to meet Long Xiaoyun and they left the team. She asked to fight the dragon this time, and Xiaoyun also brought her along. At this time, Long Xiaoyun pointed to the red dot on the screen, and everyone started digging in a hurry. "Don't use the shovel. The person under the shovel is alive. I don't know who it is." Anna was a little excited when she heard it. She hurried forward and asked her subordinates to go up to help. She didn't know what she was thinking in her heart, she really hoped that the surviving person was Qin Yuan. Long Xiaoyun was watching Anna's actions closely, and it seemed that she couldn't see any flaws, whether she was really worried for them, or wanted to inquire about the situation eagerly.

Long Xiaoyun couldn't tell the difference for a while, but when Wang Yanbing and the others in front dug out the people below, she was still shocked. Although Qin Yuan had explained to her on the phone before, when she really saw this scene, she suddenly felt a pain in her heart. At this moment, because of the effect of the blood bag, Qin Yuan's entire chest and abdomen were covered with blood, and he looked as if he had been bombed. Moreover, the whole person is already in a coma state. No matter how much Wang Yanbing and the others called Qin Yuan, they didn't respond. Now, it's the turn of the red blood cell team members to be dumbfounded. What's going on? It was the first time for them to see their captain injured so badly, and the important thing was that He Chenguang was not there either. Long Xiaoyun ran forward directly, she knelt beside Qin Yuan and kept calling his name, at this moment, she really took it seriously. At this time, Qin Yuan quietly clenched her hand, feeling the strength from the palm of her hand, Long Xiaoyun understood. At least she breathed a sigh of relief, now is the time to cooperate with the performance, Long Xiaoyun quickly stood up, then walked to Anna and said: "Miss Anna, the matter is more urgent now, can I borrow your car first?" Go, at this moment Qin Yuan is already unconscious, and she can't tell the truth from the fake for a while. But this woman is quite cunning, "Let's do this! Captain Long, I also have a doctor accompanying me here, or I'll let him show you first." Long Xiaoyun was thinking about what excuses to reject them, so he could Not so obvious, at this time Li Erniu rushed out directly, standing between the two of them. "I don't allow anyone to approach our captain now. I don't trust anyone except us." Li Erniu was very emotional, his eyes were bloodshot, and he looked very painful. "Captain Long, I think your soldier seems to have misunderstood. We also have an accompanying doctor here, but we just want to help him check the situation." "Go away! We don't need it." Li Erniu's mood was really broken, Because he didn't expect Qin Yuan to become like this, he turned his head and ran into his car with Qin Yuan on his back. "Long Dui, you don't need to beg them. I will drive Qin Dui back now. We have medical staff at the embassy. Don't worry, I will definitely not let Qin Dui get into trouble." Qin Yuan was speechless for a while. He originally wanted to Staying here, and He Chenguang is still here, once Li Erniu's temper comes up, no one can stop him from now on. It's not easy for him now to have a fit, so he can only pin his hopes on Long Xiaoyun, but it's even more difficult for Long Xiaoyun at this moment, how can she control Li Erniu's temper. Moreover, according to their previous plan, Long Xiaoyun and Qin Yuan went out together, and then picked up He Chenguang along the way, but now the plan was completely disrupted. "That dude! Don't worry, I'll take your Qin team back, and you stay here to continue investigating." "Long team, you can rest assured to leave this matter to me. You are our backbone now, and I will definitely Send Brother Qin back safely, just trust me." Long Xiaoyun was completely speechless, this Li Erniu didn't listen to persuasion at all, and if she insisted on leaving now, it would be a bit too obvious. So he had no choice but to give up. Besides, Qin Yuan would definitely tell Li Erniu the truth when he went out. Several other team members also hurried forward, "Long Dui, you can stay here, we must not be without you here, don't worry, Er Niu will definitely be able to send Brother Qin back." At present, they don't know Qin Yuan What is the condition of his injury, but judging by the amount of blood he bleed, it is estimated that it is more than auspicious, so Li Erniu was very anxious, and drove away directly in the car, Anna did not have time to refute behind. Originally, Anna wanted to send someone to follow him, but there was no chance at all. Several other people also started digging in the ruins. After all, He Chenguang has not been found yet, and

everyone is very anxious. At this time, Anna led his people to search the side, but it was just a show, she asked the accompanying doctor beside her in a low voice. "Just now, based on your opinion, let's see how that person is really injured." "I think this person probably won't be able to be rescued. Although I was far away from him just now, his breath was very weak, almost There is only one breath left." "Are you sure about this? After all, the captain asked us to obtain the most accurate information." The doctor at the moment frowned, and then he nodded, "According to my many years of experience, Said, this person will definitely not be saved, and even if he is saved, he will not be able to wake up. Looking at it like this, he is probably a disabled person." The reason why the doctor made such a judgment was because he also heard about this experimental base from Anna. With so many explosives down there and such a big shock wave, he was too close. Just now the doctor also saw bloodstains on Qin Yuan's entire abdomen and chest cavity, because he couldn't see clearly because of the light problem, but he estimated that he would not be able to save him, as most of his internal organs had been completely shattered in this case. Anna should have been happy when she heard the news. After all, Qin Yuan was her enemy, and this was her task in the first place. But at this moment, she couldn't be happy, and she couldn't say why, anyway, she felt a little unhappy in her heart. The team members next to them were a little happy, after all, this meant that their mission was about to be completed. "Miss Anna, it seems that we can return to the team early. As long as this guy dies, there will be no problems here." Unexpectedly, Anna became very sensitive when she heard the word death, and she didn't know where it came from. An unknown fire suddenly broke out. "What are you thinking? Our mission is not over yet. Even if this person dies, his team is still there, so our mission is not over yet. Do you understand?" It's not clear why Anna suddenly got angry, and they received the task from Bai Yuan before, which was to assist Anna in killing Qin Yuan. If they couldn't kill the target, they would supervise him. Have the commands or tasks above changed? It's not good for everyone to say anything. At this moment, Long Xiaoyun, because the distance was a bit far away, she looked at Anna opposite, and that guy got angry, it seemed that she was quite anxious. At this moment, the remaining members of the red blood cell team are also desperately running inside. They don't believe that He Chenguang is gone like this. The important thing is that under the irradiation of their thermal imaging, there is no sign of life below. Wang Yanbing's hands were covered with blood blisters. He used the shovel to go to the back and gave up the shovel altogether, and he threw some corpses from below. But he confirmed them all one by one, it was definitely not He Chen, he knew He Chenguang, even though the corpses were ***** and some were even broken limbs. Long Xiaoyun couldn't bear it, after all, she knew that He Chenguang would be fine, so she walked over and patted Wang Yanbing on the shoulder, telling him not to be so excited. "Dragon Team, I really can't believe it. How could Chen Guang die like this after our brothers were born and died for so many years?" "Yeah, I don't believe it either. I have to dig it out and take him back." Although Long Xiaoyun knew it was not true, he was still moved by their brotherhood. On the other side, Qin Yuan was sitting in Li Erniu's car. At this moment, Li Erniu couldn't care less about his image, and was crying bitterly, because he knew it. Qin Yuan is seriously injured now, and He Chenguang's side is even more ominous. It is estimated that there are no bones left. He was even more worried about Qin Yuan's situation, so he drove all the way, not noticing that Qin Yuan who was sitting in the back seat had sat up, and then patted him on the shoulder directly. "Stinky boy, stop for me!" "What kind of car to park, don't you know how urgent the situation is now? You..." Li Erniu didn't realize that it was Qin Yuan who was talking to him, he braked suddenly, Qin Yuan Almost flew out. He turned his head and looked at the person in front of him in disbelief. Qin Yuan held his head that was hit on the car seat. "Brother Qin, are you alright? You

can do whatever you want." "How many times have you told you when you taught you how to drive, you brat, don't slam on the brakes casually." At this moment, Li Erniu has already ignored The image, with tears and snot all over his face, stepped directly across the back seat and hugged Qin Yuan. "Brother Qin, you're fine. It's really great. When I saw you like that just now, I thought you must be finished." "The person who wants me to be finished has not yet been born. Besides, I It's not good now, and look, it's not my blood." Li Erniu felt a little strange, what's going on? "Okay, I'll be on the road later, and I'll explain to you slowly. Now let's turn back to pick up He Chenguang." Li Erniu was very excited when he heard the news that He Chenguang was still alive. He drove the car and drove towards the back. The position He Chenguang avoided was still a certain distance from the base. At this time, he was a little wary when he heard footsteps coming from outside, and slowly took out the dagger from his waist. Unexpectedly, it was Li Erniu who came in. Li Erniu rushed forward and hugged him. he. "Chenguang, it's really great that you're not dead." He Chenguang's face was filled with black lines. What do you mean he's not dead? This sounds too awkward. Anyway, let's do what we can, now that Qin Yuan has come out, he returned to the embassy with Li Erniu, but they completely avoided the staff of the embassy and went directly to the upstairs room. Because now Qin Yuan is not sure whether it is the staff of the embassy who made a mistake here, or whether it is Anna's side. He has to be on guard against people from both sides. Anyway, it is absolutely impossible to be someone from his team. . Because Li Erniu is always a fool, Qin Yuan specifically explained that his next step is to act, and it is time to test his acting skills. Qin Yuan asked them to wrap gauze on himself, and then lay on the bed. As for He Chenguang, he arranged him and Akazhi in the innermost room. If he wanted to go in, he had to get their consent, so Anna generally has no chance. The team members here have been searching for more than two hours, but there are still no clues. This area is really too big, and there are too many places where he put it down, so there is no clue at all like this. Anna was originally an actor, and she felt that He Chenguang would never survive in such a situation. She was more concerned about Qin Yuan, so she walked over slowly. "Captain Long, actually I would like to give you a piece of advice. According to the situation, there is absolutely no chance of surviving, and we can't do it if we dig with bare hands. I will ask them to send professional vehicles over during the day tomorrow." But Wang Yanbing became angry immediately when he heard this. What is it called? Why are they giving up now? He smashed the military factory on the ground and walked over. "What does it mean that there is no possibility of survival? I feel that my brother must still be alive. He might be waiting for us now' Even if I dig all night today, I will dig him out. "Anna frowned, she really didn't understand, what's the point of such persistence?" "Soldier, I sincerely advise you to give up. Don't you believe the results of your machine inspection? There are no signs of life down there, and with so many explosives, your captain was seriously injured. Do you think he ..." "You don't need to tell us what we are like." Long Xiaoyun quickly pulled Wang Yanbing back. Now their emotions are really broken, so they can't conflict again. Anna didn't appreciate it, and she just went downhill along the slope. If that was the case, she would make this excuse and go back to check on Qin Yuan's situation. After all, Qin Yuan's side was what she was most concerned about. "Captain Long, since you are going to insist on such unnecessary things, I have no obligation to accompany you any longer, so I will take my team back." The members of the team felt even more annoyed when they heard this. When she was handed over, she still had to leave. I really didn't know what the **** she was going to do. If Long Xiaoyun is a little clear, Anna is so anxious to go back, probably because she wants to confirm Qin Yuan's situation, and she must not let this situation get in the way. So she also made a decision, let everyone start to collect the team, go back together, and send a crane over tomorrow

morning. Wang Yanbing couldn't believe his ears. The other members of the red blood cell team were stunned. What's going on? Should they just give up like this? "Dragon Team, are you going to give up on success? I think he is still alive, give me a few more hours." "Yes, Dragon Team, I think that even though it is not displayed on the machine, But we can try again! What if something unexpected happens?"

Chapter 990: Cooperate in 1 play

Long Xiaoyun now has to consider the overall situation. After all, Qin Yuan's side is the most important. If Anna finds out, then their plans will be completely in vain. Because now Anna gave her a very positive feeling, and felt that she had been eager to know Qin Yuan's situation before she offered to help, and now when she needed her help, she said she would go back. So at present, this Anna is still very suspicious. Although she is a security officer sent by K country, it seems that everything is caused by her. Every incident is really a coincidence. "Red blood cell team, everyone in the Wolf Warrior team stopped their actions and assembled immediately." Wang Yanbing really didn't expect that he couldn't accept it. Why did he give up when he said he would give up? The one buried underneath is his brother. "Long team, I really don't understand. You made this decision. If our Qin team is here, then he will definitely agree. We will keep looking for it. He will not give up any brother." "Wang Yanbing, what do you say?" What does this mean? It's not that I want to give up, but that you have to consider the current reality. The machine has already shown that there are no signs of life, and going on here will only waste time." "Waste time? That's for me Said, this is not a waste, even if it is a corpse, I will take it back to him tonight." Wang Yanbing was a little excited, he really couldn't accept it, He Chenguang and he belonged to the same age, they were born and died so many times for so many years The mission, fighting side by side, he simply cannot accept. In addition, he felt that He Chenguang was taken away this time, and he was also responsible, because he was responsible for covering them as a fire support at that time, but he didn't find out when He Chenguang was taken away. Now that it has become like this, he just wants to make up for his regret and self-blame. Although he is also very clear that the results of the instrument still have such a large range of bombs, even Qin Yuan, who he thinks has always been strong, has been blown up like that, let alone He Chenguang. But he really didn't want to give up. Anna next to her was crossing her arms, looking forward to the show. She wished that the two parties would quarrel now. The situation on the scene was getting more and more subtle. She always felt that the two parties would probably start fighting later. However, she underestimated the obedience orders of the soldiers of the Yan Kingdom. It is not easy for Long Xiaoyun to explain anything to him now, so she can only give this order cruelly. "Everyone has a meeting, I don't want to say it again." Wang Yanbing clenched his fists. If it wasn't for Long Xiaoyun's identity, if it wasn't for Qin Yuan, he really wanted to take off this uniform and quit. , he was looking for his brother. His eyes were full of anger and he stared at Long Xiaoyun closely, but Long Xiaoyun didn't care, he would understand later, let's take the team back first. In this way, Anna originally thought that a conflict would break out, but she didn't expect it to be resolved so easily, but everyone was silent on the way, and the atmosphere was very embarrassing. Long Xiaoyun was still worried that something might go wrong, she sighed, and looked at Wang Yanbing who was sitting in the back seat, his face was livid. "Wang Yanbing, I hope you can understand the decision I made, because I am your captain now, and you will understand some things later, and your captain Qin is still waiting for you at the embassy." Anyway, this guy Anna

Everywhere, at this opportunity, she would insert herself next to Long Xiaoyun, and forcefully squeezed into Long Xiaoyun's car, using the excuse that there were not enough seats on their side. So Long Xiaoyun couldn't make it too obvious. Wang Yanbing analyzed it carefully. He was too excited just now, but now think about it calmly, and Long Xiaoyun said that Qin Yuan was waiting for them at the embassy. What does this mean? ? Could it be that things have turned around? Moreover, Long Xiaoyun made a subtle gesture, pointing at Anna, and he immediately understood that sometimes he really has to consider the overall situation. In this way, a group of people came to the embassy. The staff of the embassy had been taken care of by Li Erniu. When Anna and the others came back, they saw Qin Yuan lying on the bed covered in tea gauze. Li Erniu's acting skills exploded, his eyes were red, and he sobbed softly beside him. "Long Dui, you are back. Brother Qin is in a very bad condition. The doctor said that he might not be able to wake up." Long Xiaoyun knew the real situation, so he cooperated with Li Erniu to perform, but He Chenguang And the rest of the Wolf Warriors team didn't know, everyone was shocked, because Qin Yuan was like a ***** in their eyes. Unexpectedly, it turned out to be like this now, and seeing him lying on the bed was also very weak, blood was still oozing from the gauze. Wang Yanbing couldn't control that much, he stepped forward and grabbed Li Erniu's collar. "Erniu, what are you doing, boy? You sent Brother Qin back a long time ago, why didn't you send him to the field hospital here? Do you want him to wait here to die?" "Don't get excited, don't you?" Will I ignore Brother Qin? The medical staff here have already checked, Brother Qin's condition is very bad, and the bumps on the road may kill him." "I don't believe what you are talking nonsense , I'm going to take him to the hospital now, I don't care." Wang Yanbing couldn't accept such a blow, He Chenguang's departure already made him feel very unacceptable, and now he couldn't watch Qin Yuan die in front of him. Wang Yanbing was so excited that he rushed forward to pull the quilt and bring Brother Qin up. Li Erniu and Long Xiaoyun hurried forward to stop him. "Wang Yanbing, can you calm down?" "Long Dui, how can you tell me to be calm, and I really don't understand why you can still be so calm. Isn't Brother Qin important to you?" "I know he is very important to me, but now as the captain of the commando, I have to be responsible to all of you. I can't be arrogant, do you understand?" She believed it completely. She looked at Qin Yuan's state, as if it was a matter of one breath. Could this guy really be hurt so badly? She was actually very sad in her heart, but judging from the situation, there should be no fakes. She walked out of the room slowly, not knowing what to say. What she has to do now is to report the situation here to Bai Yuan . After leaving the embassy, she got in touch with Bai Yuan. Bai Yuan was shocked when he heard the news, because in his heart, it was absolutely impossible for Qin Yuan to die so easily. "Are you sure he's really going to die? Did you see it with your own eyes? Or did you check?" "Captain, his condition is really bad, and his players don't seem to be lying , His injuries are very serious, and I saw a lot of blood on the gauze." Bai Yuan sneered on the other end of the phone, did this guy really get killed by his own accident? But it didn't cost him so much energy, he buried so many explosives there, no matter how powerful he was, he couldn't escape so much explosives, right? "Captain, can I come back now?" "Come back? Why are you in such a hurry to come back? It's not confirmed yet. He's completely dead. You just stay there and find a suitable opportunity to kill him directly with your own hands." If it was changed before, Anna would definitely agree without hesitation, but at this moment her heart was shaken, she seemed to be unable to do it if she was asked to kill Qin Yuan, and she didn't know what was going on. The last time Qin Yuan saved her in the river, something changed in her heart. She has always wanted to take revenge, but to be honest, her father and her younger brother, those relatives were not as good as Qin Yuan to her, and no one really saved her, but at that moment, Qin Yuan swam towards her desperately Go, she

is really relieved. At that moment, she was also very moved, because in that dying situation, it was really real, and that person was the life-saving straw that she grabbed. "Captain, but I think this is too risky, it may expose me, and Qin Yuan's state of death is also a matter of these few days." "No. 1, what is your situation now, do you really think you are now It's Anna's identity, do you still have the right to question me now?" She had given herself the name No. 1 before, to forget everything, to represent everything from the beginning, and to prevent her from forgetting her hatred. "Okay, captain, I understand, I will carry out my mission." "It is not execution, it must be completed, you must personally deal with Qin Yuan, and let him watch him die under your hands, do you understand? That's how I feel at ease." Bai Yuan has been investigating Qin Yuan for so many years, and he knows this person very well, unless he personally watched him die, this person is really too mysterious, and he was able to be in the river island on the other side of Xiaomao before. Can survive, this is how powerful the survival force is. So he had no choice but to let Anna make the final preparations. Even if Anna sacrificed, he felt that such efforts were worthwhile, at least killing Qin Yuan. After finishing the call with Bai Yuan, Anna fell into deep thought. She was really entangled. Now Bai Yuan mentioned her identity again. She is not Anna, and she is not a security officer. What she wants to do is revenge, and she cannot Think about those messy things. In addition, the White Ape is also very cunning, and he knew that the woman seemed to be a little shaken from the phone call with Anna. I have to say that Bai Yuan is very smart. He also made another preparation and contacted another subordinate in private. If Anna's side is unreliable, he will let the subordinate over there go to deal with Qin Yuan. Qin Yuan is too cunning and powerful, so he has to make two preparations, that is, to ensure that he can kill Qin Yuan. At this moment in the room, after Anna and the others came out completely, Wang Yanbing squatted on the ground and cried, his emotions had completely collapsed, and at this moment, he couldn't bear it anymore. At this time, He Chenguang came out from the inner room and kicked his feet. "Go away! You heartless people, it's fine if you don't save He Chenguang, but now you are going to give up even Brother Qin." "Why am I standing in front of you now, do you still want to save me?" Wang Yanbing instantly Stunned, he raised his head and saw He Chenguang standing in front of him intact. He couldn't believe it, and squeezed his face. "Damn, what's the matter with you kid?" At this time, Qin Yuan also sat up from the bed, and he removed the gauze on his face, which made him almost airtight. "It's such a hot day, I didn't expect to be so tired pretending to be a patient." The people next to me were also completely confused. What's going on? Are they putting on a play? Wang Yanbing had a feeling of being cheated, so he rushed forward and punched He Chenguang in the face, "You bastard, I'm so worried here, how dare you lie to me!" After scolding, he continued He Chenguang laughed, although he said he was beaten, but his heart was still warm, after all, this guy was crying like a dog just now. "Okay, stop beating you kid, why did you just hit me, why don't you have the ability to beat Brother Qin' Later Qin Yuan told them what happened this time, because he now Serious suspicion, it is definitely the problem on Anna's side. This woman is too mysterious. They have no choice but to do this. He can completely rule out the staff on the embassy side. It is definitely not their internal problem, but Anna's. "Brother Qin, why don't you tell me earlier, you can see how I was crying there, it's really embarrassing. "Wang Yanbing also understood why Long Xiaoyun asked him to come back at that time, and they were kept in the dark when they co-authored. It was a shame. Qin Yuan stepped forward and patted Wang Yanbing on the shoulder. We have to deal with it specially, after all, there was no time to explain the situation at that time. "But Wang Yanbing also breathed a sigh of relief. Compared to him, he would rather be deceived, at least Qin Yuan and the others are fine. Long Xiaoyun also expressed her own analysis. She is becoming more and more suspicious of Anna now, and many

things are too much. Coincidentally, she has already contacted the staff of the embassy to investigate Anna quietly, mainly because of her identity as a security officer. "Qin Yuan, what shall we do next? Just sit and wait? ""We're not just waiting to die, we're just sitting on the sidelines, don't worry, if it's really Anna, then the news that I was seriously injured, she should have already reached that organization, so we just wait quietly. " "Do you mean they will shoot you again?" ""If I'm right, that guy is ruthless. He has targeted me from the beginning, so he must see me die with his own eyes, or send someone to kill me before he can give up." "Long Xiaoyun also understood that if he wants to catch the leader of this organization now, he must dig out the people around him.
