#### **Chapter 77: This Little Bird Is Still Very Cute**

Chi Yan put the white porcelain bottle in Dong Xi's hand and said indifferently, "Junior Sister, this is a pill specially used to clear the fire poison. Keep it well and don't let the fire poison remain in your meridians, it will affect your future cultivation!"

Dong Xi looked at the porcelain bottle Chi Yan had given her. She was stunned at first, but felt a little annoyed.

Little Senior Sister was really something! If she had sent the pills earlier, she would not have had to suffer so much!

Of course, Dong Xi was still very shrewd, and nothing could be seen on the surface.

Dong Xi cupped her fists and gratefully said, "Little Senior Sister! You're really timely!"

Chi Yan's face was slightly red, and she felt a little guilty.

When she had given Dong Xi the cultivation method, she had forgotten about her own bloodline of the demon beast. She did not think about the possibility of accidents.

When Chi Yan returned to the cave, she remembered that her ancestor had given the cultivation method to a person, and the person had suffered a backlash.

Thinking of this, Chi Yan hurriedly came to deliver the medicinal pill to Dong Xi, and in the end, she really made it in time.

Chi Yan put away the cultivation technique that Dong Xi had exchanged for and said indifferently, "Don't be discouraged. The heaven's chosen technique requires fate. My clan's technique isn't suitable. There are other techniques you can try."

Chi Yan still had an arrogant look on her face, and her words of comfort seemed to be an order.

Dong Xi felt it was funny, but he knew Chi Yan had good intentions and nodded. "Thank you for your comfort, Senior Sister. I will try the cultivation technique given by Second Senior Brother. If it doesn't work, I will think of another way."

Chi Yan gave the pills and left.

Dong Xi watched Chi Yan fly away in her original form and could not help but think that this little bird was still very cute.

Retracting her gaze, Dong Xi looked at the porcelain bottle in her hand, opened it, and ate a pill.

The high-grade pill did not need to be chewed. It melted in her mouth, and a cool feeling spread throughout his body, nourishing her meridians.

This feeling was very intoxicating, just like eating a piece of mint candy, very comfortable.

Dong Xi kept the remaining pills and remembered Chi Yan's kindness.

In the future, if Chi Yan needed Dong Xi, Dong Xi would definitely help.

The next morning, a message came from Dong Xi's communication jade slip. Dong Xi picked it up and read it. Ke Xin's voice came from it, "Sister! Let's go! I heard that there's an event at the store, and the second piece is free. If you're late, there won't be any!"

When Dong Xi heard this news, she was immediately overjoyed. No one could refuse a second item for free, including Dong Xi.

She immediately got up, cast a cleaning spell on herself, tied her hair, and stepped on a small leaf to go down the mountain.

Ke Xin kicked the small stones in boredom and sighed in her heart.

The inner sect was so far away, and by the time Dong Xi arrived, they did not know when they would be able to make it for the second event.

If he had known this would happen, she would have sent a message yesterday to ask Dong Xi to come down early and stay with her outside for the night.

However, it had already come to this. No matter how unhappy she was, there was no other way.

The next second, a voice suddenly came from above Ke Xin's head. Dong Xi said, "Sister, what are you standing there for? hurry up and come up!"

Ke Xin raised her head and saw a little leaf floating above her head. A girl was sitting on it.

It was Dong Xi, who Ke Xin had been waiting for.

Ke Xin's eyes brightened. The little leaf lowered its altitude and Ke Xin immediately climbed up.

Ke Xin said enviously, "Amazing, Sister! They all have flying magic tools?"

"Senior Brother lent it to me," Dong Xi said with a smile. "It costs a lot of spirit stones. I wouldn't have used it if I wasn't in a hurry!"

When the two of them reached the teleportation array, Ke Xin saw that the spirit stone was becoming dimmer and dimmer. She could not help but think to herself, 'Isn't this burning money?'

There were exactly eight people waiting for the teleportation array, so Ke Xin and Dong Xi had exactly ten people.

Having experienced this before, Ke Xin took out her snuff bottle and sniffed it before closing her eyes and entering the teleportation array.

When he opened his eyes again, he had already been teleported to the market.

They had arrived earlier today. The sun had not completely risen yet, and the entire market was dyed in gold.

Dong Xi walked out of the teleportation formation, but before she could stand still, Ke Xin pulled her hand and quickly walked towards the clothing store. Ke Xin said, "There must be a lot of people today. Grab me and don't let people squeeze me away."

Dong Xi agreed and quickened her pace. The two of them ran all the way to the clothing store and found that there were already many people lining up at the entrance.

Ke Xin pulled Dong Xi to the back and poked her head out to count the number of people in front.

"It's fine, it's fine," Ke Xin said as she counted. "There's only about 20 people. It should be our turn soon."

Dong Xi nodded. She was not worried that she could not buy it, but she was afraid that she could not afford it.

"Sister, what have you decided on?" asked Dong Xi.

## Chapter 78 - Embarrassed

### Chapter 78: Embarrassed

“I don’t know,” Ke Xin shook her head. “I’ll go in and take a look later.”

Dong Xi had seen Ke Xin’s anxiousness earlier and thought that she had already seen something good, but it turned out that she had come to spend on impulse.

There were rules in the shop. In order to serve the customers perfectly, only ten people could enter at a time.

By the time it was their turn, almost two hours had already passed.

The Rainbow Store was the largest trading place in the market. There were pills, spirit tools, cultivation techniques, and even beauties and demon beasts in the store. Anything that could be sold was here.

The person who received them was a 17 to 18-year-old boy servant. He did not neglect them just because they were two little girls. Instead, no matter what they were looking at, the boy servant would patiently explain in detail.

Ke Xin had her eyes on many things, but she was short on money. She had worked so hard to save up 40 or so low-grade spirit stones, so she could not afford most of the things.

Dong Xi also had something that caught her eye. He asked the servant, “The second item of today’s event is free of charge. Does that apply to anything?”

“That’s right.” The servant nodded and said, “You only need to pay the items with a high enough price.”

“Can I exchange it with something?” Dong Xi asked.

“Of course you can,” the servant replied immediately. “But the items you want to exchange must be evaluated by the elders. The high value of your item, the less you need to pay.”

Dong Xi understood. It was more humane to look at the store this way.

She walked around with Ke Xin. Ke Xin chose a set of clothes and a hairband. However, the hairband had an elementary barrier-breaking effect, so it was slightly more expensive than the normal ones. These cost 49 low-grade spirit stones.

Ke Xin's entire pocket only had 43 spirit stones, and she could only make up for the rest by exchanging her Spirit Restore Pills.

Dong Xi, on the other hand, had taken a fancy to the monastic bead bracelet that could conceal one's cultivation level. As long as she brought it along, no one below the Foundation Establishment stage would be able to discover her.

Dong Xi pointed to the items in the display cabinet, looked at the servant, and asked, "How many spirit stones does this cost?"

This string of bead bracelet was relatively simple. There was a Scarlet Sun Glass on the string of beads. This Scarlet Sun Glass even had an array formation. It was also because of this that it could conceal one's cultivation level.

"Little fairy, this one costs 12 mid-grade spirit stones," the servant said immediately.

Dong Xi did not say anything. Beside her, Ke Xin inhaled a breath of spiritual Qi.

Ke Xin almost shouted out loud, but on second thought, things were different now. Her Sister was already Master Lingxu's disciples, and was an inner sect disciple. Perhaps her master had already given her quite a bit of wealth?

Dong Xi was also shocked when she heard this. As expected, the price increased by so many times.

From the looks of it, those few bottles of supreme-grade Spirit Restore Pills would not last long at all.

Dong Xi pondered for a long time, then took out the demon beast's inner core from her storage bag and asked the servant, "How many spirit stones can this demon beast's inner core be worth?"

In the market, Dong Xi was afraid of causing unnecessary trouble, so she did not dare to wear her storage ring directly.

When the servant saw the fiery-red inner core in Dong Xi's hand, he was stunned. When he came back to his senses, he immediately apologized, "Little Fairy, this inner core doesn't look ordinary. I need to get an elder to appraise it. You..."

The Rainbow Store was a well-known big store in the East Continent and could be found almost everywhere. In addition, they had a communication jade slip, so the servant did not dare to do anything. If something happened, the servant would not be able to bear the anger of the owner.

Dong Xi very happily threw the inner core over and said, "Then take it and ask."

The servant took the inner core with both hands and turned to leave. Dong Xi and Ke Xin strolled around the shop.

Ke Xin had only taken a few steps when she realized that Dong Xi was nowhere to be seen. She quickly looked around and finally found Dong Xi standing in front of the pill cabinet, staring at the counter.

"What are you staring at?" Ke Xin asked as she hurried over.

"This thing," said Dong Xi as she pointed at the counter.

Ke Xin immediately went forward and saw a bottle of Five Element Blood Clot Pill.

The name of the pill sounded like it was used for healing injuries. Dong Xi was not injured, so why was she looking at this?

Ke Xin sized Dong Xi up curiously. Seeing that Dong Xi had already called for the shop assistant, Dong Xi asked, "How much for this bottle of pills?"

"38 mid-grade spirit stones," the assistant immediately replied with a smile.

Dong Xi was a little stunned. She bit her lip and asked, "A whole bottle?"

The smile on the shopkeeper's face grew wider, and he immediately said, "Little Fairy, don't joke around. This pill is a third-grade pill. How can it be so cheap? This is 38 mid-rank spirit stones for a single pill."

Dong Xi, "..."

The corner of Dong Xi's mouth twitched. She wanted to show an expression that money did not matter, but she could not do it no matter what.

Not long after, the servant who had brought the inner core for appraisal returned and said with a smile, "Little Fairy, this inner core belongs to a fifth-tier demonic beast. After our elder has appraised it, we can exchange it for two upper-grade spirit stones."

## Chapter 79 - How Generous

### Chapter 79: How Generous

Dong Xi's eyes lit up when she heard the servant's words. She did not expect the black snake to be so generous. Even something she casually gave out was worth so much?

Ke Xin, who was standing at the side, was even more shocked. She felt that she was unable to take it.

When she first entered the sect, this little sister was even poorer than her. Now, the things she casually took out were already so valuable!

"If I buy medicinal pills, is the second one free?" Dong Xi immediately asked.

After getting the answer, Dong Xi smiled. She said, "Since it's like this, if I buy 28 of these pills, will you give me 28 of them?"

The servant was stunned for a moment and said with a bitter smile, "Little Fairy, the shop has limited purchases!"

"Then how many pills are there in this bottle?" Dong Xi stroked her chin and asked.

"24," the servant replied.

"Then I'll have one bottle. You can give me another one," said Dong Xi with a smile.

...

Dong Xi walked out with a satisfied look on her face. The inner core had been exchanged for spirit stones, and a bottle of pills had been given to her after she had bought the pills. She had also bought the bracelet. In comparison, the bracelet only cost 11 spirit stones, which was just the tip of the iceberg.

Because the second item was free, Dong Xi also chose a pair of high-speed cloth shoes, which were worth 11 mid-grade spirit stones. The shop owner even gave her a top-grade spirit stone and 88 mid-grade spirit stones in return.

After the two of them came out, Dong Xi realized that Ke Xin was looking at her strangely.

Ke Xin asked, "Sister, what are you buying so much healing medicine for? You're injured?"

Ke Xin was not envious of Dong Xi's sudden wealth. As long as she worked hard at cultivation, she would be able to enter the inner sect at the end of the year. By then, she would naturally have more spirit stones.

Dong Xi sighed and explained, "I'm not injured. I bought it for someone else. Otherwise, how could I have a fifth-rank inner core?"

In that case, Ke Xin instantly imagined that one of Dong Xi's Senior Brothers had fought a demon beast and ended up seriously injured, so he could only hand the inner core over to his Little Junior Sister and have her run errands to pay for it.

But... Weren't they also Alchemy Sect's disciples? Why did she come out to buy medicinal pills?

Before Ke Xin could figure it out, she heard some movement not far away.

Ke Xin came back to her senses and saw that Dong Xi was already excited. Dong Xi said, "Sister! Hurry up and leave! I heard that if you sign up there, you can mine spirit stones!"

In Dong Xi's heart, spirit stones were money, and digging out spirit stones was the same as picking up money.

Whoever dared to stop her from picking up the money was equivalent to fighting her to the death.

When Ke Xin heard that they were going to dig for spirit stones, she immediately perked up and looked around, asking, "Where? Why didn't I hear about it? Let's hurry up, we can't let anyone get there first!"

Ke Xin was only at the first level of Qi Refinement and had not broken through to the second level, so her perception was much weaker than Dong Xi's.

The two of them ran forward for a while before Ke Xin heard someone talking.

Basically, they found a spirit vein not far from the market. This spirit vein was bought by a large family, and now the Zhang family paid cultivators to come over and help mine spirit stones.

Furthermore, as long as they were below the fourth level of the Qi Refinement stage. After all, cultivators with high cultivation levels had too many means and might hide many things.

Dong Xi squeezed through the crowd with Ke Xin and came to the table. She said to the uncle who was in charge of registrations, "We're together!"

The middle-aged man looked up and asked, "From the Ningtian Sect? What's your cultivation levels?"

Dong Xi was wearing a bracelet. There were no cultivators with high cultivation levels here, so no one could see through her strength. Dong Xi said, "We're both at the first level of the Qi Refinement stage."

"Names?" the uncle nodded.

Ke Xin was about to say something when Dong Xi tugged at her clothes. Ke Xin immediately shut her mouth and looked at Dong Xi.

Dong Xi's face did not turn red, and her heart did not beat as he said, "She's called Wang Wu, I'm Liu Qi."

Ke Xin, "..."

When Dong Xi said this, the uncle's face instantly darkened.

He put down the pen in his hand and looked up at the two little girls. He said with an irritated expression, "Are you making fun of me?"

Dong Xi was not afraid and said with a sincere expression, "Her surname is Wang, and she's the fifth child in her family. My surname is Liu, and I'm the seventh child of my family. They're all from the mortal world, and girls aren't valued, so they don't have a name. Uncle... If you don't believe me, don't be angry, we didn't lie to you..."

Dong Xi sighed as she spoke, a sorrowful expression on her face.

When Ke Xin heard this, she immediately cooperated and wiped her tears.

The uncle was stunned when he saw the two of them. Then, he waved his hand and said, "Forget it, forget it, I'll just sign you up, why are you crying? People might think that I'm bullying children!"

When Dong Xi saw the uncle write their names on the wooden sign, she quickly reached out to take it and respectfully said to the uncle, "Uncle, you're a good man!"

## Chapter 80 - Cultivating Here

### Chapter 80: Cultivating Here

After getting the token, the two of them boarded the waiting airship.

Although the spirit vein was not far, it would take a Foundation Establishment cultivator two days to fly there. If Dong Xi and the others were to walk, it would take even longer.

Dong Xi and his partner were very young and attracted many people's gazes as soon as they came up.

There were even some who saw that they were from the Ningtian Sect and immediately tried to strike up a conversation with them. Dong Xi was a little worried that Ke Xin would reveal their background.

However, he heard Ke Xin tell others that the two sisters were all daughters of the family and no one loved them. It was not easy for them to come here and they were also outer sect disciples. They could not even afford to buy clothes...

Dong Xi sighed in her heart. This Sister really knew how to set up a character.

The people around them did not know whether to believe it or not, but they were just two poor girls, and they were not worth their time.

Dong Xi found a corner and sat down. Ke Xin took out two coarse-flour mantou from her storage bag. She used a lot of strength to break them open and gave half to Dong Xi.

"Sister, eat something to fill your stomach," Ke Xin said.

Dong Xi looked at the steamed bun in her hand that did not have any spiritual energy and could not help but complain in her heart. It's really hard on them to actually find such food in the cultivation world.

Dong Xi immediately took a bite and almost choked to death.

Ke Xin was not any better. The two of them patted each other's backs and looked at each other with bitter smiles.

The airship flew for nearly two hours before it slowly landed in the valley.

The spiritual energy here was extremely dense, and even the plants were very tall.

The demon beasts here must be very powerful.

The person in charge of the Zhang family gathered them together and shouted, "My family has already sent people to clear out the mine. Although the large demon beasts are gone, it is inevitable that there will be some demon beasts that live underground. We still need to be careful."

Dong Xi made a mental note. It seemed that mining for spirit stones was not that safe.

The person in charge continued, "From now on, ten percent of the spirit stones you excavate every day can be kept as wages. The rest will be handed over. If your private collection is discovered, the Zhang family will no longer hire you."

Dong Xi did not know how the test would be carried out. After all, these people would always have other ideas. However, since the Zhang family had hired them, it meant that they had a way to test it.

Dong Xi and Ke Xin lined up to get their pickaxes, then followed the crowd to the mine.

When they passed through the cave, they could clearly feel a barrier and a fairy waiting for them inside.

"Two fairies, storage bags have been detected on you. Do you want to store them?" the Fairy said to Dong Xi and Ke Xin.

"We can't even bring our own things?" Dong Xi frowned and said. "What if you lose it?"

The Fairy laughed. "Fairies, you can seal it yourself. Other than you, no one else can open it. We'll also place a photostone here. If there's any accident, we can check it at any time. Of course, this is also to distinguish between your spirit stones and the spirit stones dug out from the mine."

Ke Xin knew how much Dong Xi had in her storage bag and looked at her worriedly.

Dong Xi immediately took out a storage bag and threw it to the fairy, saying, "Help me look after it."

Seeing that Dong Xi had already given it to her, Ke Xin did not mind either. After all, she had already spent that little bit of spirit stones.

After storing the items, the Zhang family's Fairy took out two storage bags and handed them to the two of them for them to put the spirit stones in.

The two of them walked to the entrance of the mine. Dong Xi stopped and asked, "Sister, which mine do you want to enter?"

“Anything is fine,” Ke Xin said. “It depends on which one you’re thinking of.”

When they were outside, their cultivation levels were not very high, so they had to be together.

“That’s easy,” said Dong Xi with a nod.

She had already learned the Eight-nine Cultivation Technique, and now she had the instinct to seek advantages and avoid disadvantages. Dong Xi felt that something was wrong with the left and middle caves. After eliminating them, she would definitely choose the right cave, which had less spiritual energy.

Not long after they entered, they could see spirit stones. Many people had already started digging.

Ke Xin’s eyes shone, “Sister! These are all spirit stones! I’m rich!”

Ke Xin picked up her pickaxe and charged forward. However, she could not dig out a single piece even after digging for a long time.

“Why is this thing so hard to dig out?” Ke Xin asked with a frown.

“If they’re easy to dig, why else would they give us 10 percent?” Dong Xi said with a smile. “Think about why they only hire cultivators.”

Ke Xin instantly understood what was going on.

Ke Xin attached the thin spiritual Qi in her body to the pick axe and used all her strength to chisel seven to eight times before she managed to dig out a small piece.

At first, she was overjoyed, but after that, Ke Xin felt the spiritual Qi and her expression turned ugly. “No way? So much spiritual energy?”
