

Amongst Cultivators, I Stand Above All

Chapter 81 - The Benefits of a High Cultivation Level

Chapter 81: The Benefits of a High Cultivation Level

“Let’s go,” Dong Xi said with a smile. “Let’s go a little further in. This place will be very crowded in a while.”

The more she thought about it, the darker it became. Of course, there was no one inside, only the faint light of the spirit stone.

Dong Xi brought Ke Xin in for a while before stopping. Dong Xi said, “It’s good that it’s here. It’s a little too deep inside.”

Just as Dong Xi finished speaking, Ke Xin had already picked up her script and started to work on it.

Dong Xi smiled and also picked up the pickaxe to try chiseling a few times.

In the beginning, she wrapped the entire pickaxe with spiritual energy. After a few chisels, she realized that it was a waste. She only needed to attach the spiritual energy to the point where the pickaxe touched the spirit stone.

After digging out three low-grade spirit stones, Ke Xin had almost used up all the spiritual energy in her body. When she looked at Dong Xi again, she realized that she had already dug out seven or eight, but she was still fine.

This was the benefit of having a high cultivation! Ke Xin was truly envious.

However, when she sat down to recover her spiritual energy, it was as if a door had been opened. She said, “Sister! This place is filled with spirit stones. I want to cultivate here!”

If a first level Qi Refinement cultivator wanted to go out, each person had to hand in at least 10 spirit stones a day, 20 spirit stones for the second level, and an increase of 10 spirit stones for every level of cultivation.

Dong Xi and Ke Xin were young and had not taken the cultivation test, so the registration uncle directly registered them as first level Qi Refinement disciples. This gave Dong Xi, who was at the third level Qi Refinement, a huge advantage.

The spirit stones he saved could be used to pay Ke Xin's share so that she could focus on her cultivation.

Ke Xin had also touched the door to the second level of the Qi Refinement stage. If she could break through here, it would also be her opportunity.

Dong Xi looked at Ke Xin, who had already sat down and was focused on her cultivation. She walked away to avoid the noise of her gathering spirit stones from disturbing Ke Xin.

She placed her hand on the stone wall and used her spiritual energy to sense it. Suddenly, her heart moved and she looked at the stone wall beside her.

The spiritual Qi here was much denser than in other places, so it should be a high-grade spirit stone.

If they could dig out Supreme-grade spirit stones, they would really make a big profit.

Before entering, the barrier used by the Zhang family to detect Dong Xi did not discover the jade pendant she carried with him, which surprised Dong Xi.

Back then, Senior Wang Ying had said that this jade pendant was of the lowest level of spiritual Qi. But now, it could avoid the test?

However, this was also good. She could store the extra spirit stones that she had dug out.

Dong Xi rubbed her hands excitedly as she thought of this. She aimed at the right position and started digging.

The rock was like tofu under the spiritual energy-imbued pickaxe, and it did not take much effort to dig out a large piece.

After digging a few times, he touched a very hard place.

According to Dong Xi's previous experience of digging up spirit stones, his perception should not be wrong. There really were spirit stones here.

And according to the concentration of spirit Qi He had sensed before, it was at least a middle-grade spirit stone.

Thinking of this, Dong Xi became even more motivated.

She pulled away everything around the spirit stone, revealing it in front of Dong Xi.

The fist-sized spirit stone glowed, and it was purer than the high-grade spirit stones she had seen in the store.

Dong Xi's heart beat faster. This should be a top-grade spirit stone!

Such a large piece should be able to cut into seven or eight spirit stones. Dong Xi waved his hand and the spirit stone entered the jade pendant.

Putting away the spirit stones, Dong Xi dug even harder, but there were no more spirit stones of such high quality. There were only three mid-grade and thirty low-grade spirit stones.

After her spiritual Qi had been exhausted, Dong Xi ate a Spirit Restore Pill. In any case, this kind of low-grade spirit replenishing pill was the most worthless in the sect.

While Dong Xi was busy, Ke Xin had also finished her work and was digging at the spirit stones with her pickaxe.

Dong Xi turned to Ke Xin when she heard the voice. "You're not going to continue cultivating?"

Ke Xin's hands did not stop moving. She only smiled and said, "If you break through, you'll have to pay 20 spirit stones. It's not appropriate!"

"That's right, such meticulous planning still depends on us sisters." Dong Xi could not help but laugh.

Ke Xin had also decided to continue digging for another ten days and break through directly after settling the accounts.

She had just dug out a middle-grade spirit stone, and before Ke Xin could show it off, a black figure appeared out of nowhere, picked up the spirit stone, and ate it in one bite.

Ke Xin jumped in shock and immediately screamed.

Following that, a series of footsteps could be heard.

Dong Xi did not continue digging. She looked up and saw three people walking over.

The leader was a young man with a pretty face. When he saw that it was two little girls, he looked down on them. He asked, "Kid, did you see a Flaming Frost-skin Rat?"

As soon as this person finished speaking, Ke Xin said angrily, "What rat are you talking about, I don't know! It was as big as a spirit hound!"

Chapter 82 - Cornucopia

Chapter 82: Cornucopia

The three of them looked at each other and continued to ask, “Then did you see where it ran to?”

The mine cave was very large, and it extended in all directions, so it was not easy to find.

Ke Xin was still a little scared. She calmed herself down and pointed to the tunnel, “That thing ate my spirit stones and ran forward.”

The three of them cupped their fists in thanks and immediately chased in the direction Ke Xin pointed.

After Ke Xin saw them leave, she turned around and saw Dong Xi holding a communication jade slip.

“Flaming Frost-skin Rat, a third-rank demon beast,” Dong Xi said. “It’s very picky with its food and eats spirit stones of middle-grade and above. There’s also a pouch in its abdomen that stores food.”

Hearing Dong Xi’s words, Ke Xin was no longer afraid. Her eyes lit up as she said, “Isn’t this a treasure basin?!”

“That’s right,” Dong Xi nodded. “But we can’t catch up to them, let alone defeat it. Don’t even think about it.”

Ke Xin could only sigh softly. She picked up her pick and continued digging. However, she had only dug a few times when she heard movement from the stone wall beside her.

A piece of rock on the stone wall suddenly fell and a head popped out from within. Its eyes were glowing red and Ke Xin instinctively took a few steps back. Her voice trembled as she said, “Sister, Sister! A... A demon beast!”

Dong Xi turned around and discovered that this demon beast's aura was very similar to the one that had run away just now. It seemed that even this little thing knew to find people who were easy to bully.

The demon beast opened its mouth and revealed its sharp teeth, staring at Dong Xi.

Dong Xi suddenly felt a great sense of danger. She immediately took out her White Jade Sword and assumed a defensive posture.

In the next second, the Flaming Frost-skin Rat charged directly at Dong Xi, so fast that it left an afterimage behind it.

Dong Xi leaned against the stone wall and blocked the demon beast's attack with an upward slash.

The Flaming Frost-skin Rat's target was very clear, and it was the jade pendant on Dong Xi's body. The Flaming Frost-skin Rat's movements became faster and faster, and Dong Xi was somewhat disorientated.

Dong Xi instantly knew that the Flaming Frost-skin Rat must have smelled the scent of top-grade spirit stones.

After failing several times, the Flaming Frost-skin Rat was a little angry.

The Flaming Frost-skin Rat stopped its attack. The fur on its back stood on end as it threw a fire blade at Dong Xi.

Dong Xi immediately dodged, and the Flaming Frost-skin Rat took advantage of this time to bite again.

Dong Xi instinctively used her sword to block. The Flaming Frost-skin Rat was just about to touch the blade of his sword. Then, Dong Xi heard a 'crack'.

Her heart trembled. She immediately checked and found that the White Jade Sword had been broken in the middle!

Dong Xi was instantly dumbfounded. As expected, you get what you pay for! After all, he had bought it for eight low-grade spirit stones! How could it be cut off at this time!?

However, what happened next surprised Dong Xi even more. The White Jade Sword broke apart and turned into a Purple Jade Sword.

Dong Xi hurriedly picked up the sword. She was not used to it. It was just that the sword was a little short. A little longer would be fine. An inch longer was an inch stronger. It would always be better.

Just as this thought appeared in Dong Xi's mind, the Purple Jade Sword in her hand had actually grown by three inches.

This made Dong Xi extremely happy. What a good sword!

Ke Xin, who was watching the battle between Dong Xi and the Flaming Frost-skin Rat, was so shocked that her mouth was wide open. Dong Xi and this rat were moving too quickly. Ke Xin, who wanted to help, could not do anything at all.

Ke Xin had thought that Dong Xi was joking when she said that she wanted to practice swordsmanship, but it seemed that there were indeed benefits to it!

Otherwise, if two alchemists encountered a demon beast, wouldn't they just be delivering food to the demon beast?

Dong Xi held her sword with both hands. On the surface, she seemed to be evenly matched with the Flaming Frost-skin Rat, but Dong Xi knew that she could not even break through the Flaming Frost-skin Rat.

Now that Dong Xi's spiritual Qi had been used up, she and Ke Xin would be meat in the demon beast's mouth.

The Flaming Frost-skin Rat also realized that Dong Xi was difficult to deal with. It immediately retreated, and its pair of red eyes kept rolling. It was very strange in the dark mine.

Dong Xi was on guard. Even such a demon beast had intelligence, let alone a rat that was publicly acknowledged to be smarter!

The Flaming Frost-skin Rat barked at Dong Xi a few times, then scratched the ground with its claws a few times, causing sparks to jump out.

When Dong Xi saw this, she wished he could keep an eye out and listen in all directions. She was on high alert. If she was caught, she would get hurt, right?

However, just as the two sides were about to reach a stalemate, the demon beast actually retreated carefully.

When Ke Xin saw that the demon beast was about to leave, she heaved a sigh of relief. It seemed like the little rat was trying to escape.

In the next second, the Flaming Frost-skin Rat's speed was raised to its maximum, and it charged straight at Ke Xin.

It was too fast. Before Ke Xin could react, the Flaming Frost-skin Rat had already reached her.

The moment the rat moved, Dong Xi threw the Purple Jade Sword.

Chapter 83 - Killing a Demon Beast in One Move

Chapter 83: Killing a Demon Beast in One Move

Ke Xin saw the Purple Jade Sword stab into the ground in front of her and the Flaming Frost-skin Rat dodged to the side.

Ke Xin came back to her senses and began to counterattack and save herself. She condensed the only attack she had learned, the fireball, and immediately threw it at the Flaming Frost-skin Rat.

The Flaming Frost-skin Rat was extremely fast. Even if Ke Xin managed to hit it, it would be impossible to hurt the Flaming Frost-skin Rat due to its fire resistance, let alone whether it could hit the target.

Even though her attack missed, she had successfully delayed the Flaming Frost-skin Rat for a moment.

At this moment, Dong Xi also formed a seal. This was the first time she used it.

The golden mark seemed to be falling slowly, but it still caused the entire mine to shake.

The Flaming Frost-skin Rat wanted to drill into the stone wall directly, but its two legs shook a few times and it stopped breathing.

Ke Xin looked at this scene in shock and turned to look at Dong Xi.

What spell was this? It could actually kill demon beasts with a single slap?

This demon beast was comparable to a human at the eighth level of the Qi Refinement stage. The three cultivators only dared to chase it because they were in a group.

Dong Xi knew that she was now an arrow at the end of its flight. That magic art really could not be used easily.

Dong Xi's spiritual Qi had been completely sucked dry. Now, even a child could easily beat her to death.

She immediately ate the Spirit Restore Pill and confirmed that the demon beast was no longer breathing. Only then did Dong Xi step forward and pick it up, placing it in a storage Jade.

After everything was done, Dong Xi turned to Ke Xin. "Let's hurry up and leave. The noise just now was too loud. The others should be coming over by now. I'll bear with this demon beast first and divide it up when we get out!"

Ke Xin immediately waved her hand and said, "There's no need. You killed the demon beast yourself. You even protected me. I won't share it with you."

Dong Xi was using a pickaxe to clean up the traces on the wall. When she heard Ke Xin's words, she held her hand and said, "Let's go quickly, they should be here soon."

As soon as the two of them left, the three people who had been chasing the Flaming Frost-skin Rat appeared.

The three of them took out an oil lamp and began to search for something on the surrounding stone walls. In the end, they found blood stains under the stone walls that Dong Xi could clean.

The leader squatted down and touched the blood with his finger. He put it to his nose and sniffed it. Then he stood up and said, "Seems like someone snatched it."

The Flaming Frost-skin Rat was extremely fast and knew how to dig holes. The three of them lost track of it several times in the mine.

One of them said, "according to the requirements announced by the Zhang family, those who come into mine are all below the fourth level of Qi Refinement stage. The Flaming Frost-skin Rat is a third-level demon beast. How could it be killed? "

Lei Wufeng glanced at the two of them and said indifferently, "That was such a loud noise just now. Do you think a fourth-stage Qi Refinement cultivator has such a great ability?"

The other person who had not spoken all this while pondered for a moment and said, "Could it be that someone here has hidden their cultivation?"

With his hands behind his back, Lei Wufeng nodded and said, " "It must be like this."

"Could it be those two girls?" one of them asked.

“He must have realized that something was wrong and ran away,” Lei Wufeng said with a scornful smile.

The two little girls looked like they were only in their early teens. How could they be so powerful?

If he was a genius from a big family, how could he be interested in such a small amount of spirit stones?

Dong Xi ran out with Ke Xin, but not long after, the ground began to shake and some rocks began to fall from the ceiling.

Dong Xi realized that the situation was not looking good, so she quickly changed into the high-speed cloth shoes she had bought earlier and immediately started running with Ke Xin on his back.

Along the way, there were people who were also running away. They had just come out of the cave when they heard a strange roar coming from the depths of the cave.

After that, two of the three mine caves collapsed. They were the two mine caves that Dong Xi had not chosen to enter at the beginning.

Ke Xin grabbed Dong Xi’s hand nervously and whispered, “Why was it that I was almost buried alive after digging for some spirit stones? The Zhang family is too unreliable. They don’t even know how to clean up the demon beasts and dare to hire us to work?”

At this moment, Dong Xi was very clear that she had to leave as soon as possible. At her level, she could not take such risks.

She hurriedly brought Ke Xin to hand over the spirit stones, then imprinted a spirit seal and took out her own storage bag. After checking that nothing was missing, she quickly ran out of the barrier.

There were still screams in the barrier. Dong Xi took out the little turtle that her master had given her, injected spiritual Qi into it, and made it the size of a palm. Then, she jumped up.

Ke Xin watched her actions and was extremely curious. How many good things did her sister hide?

“Sister, hurry up and come up!” Dong Xi turned around and said.

Ke Xin, “??? ”

Go up? How could she do it? Dong Xi could only stand on one foot, so how was she going to stand?

Chapter 84 - Escape!

Chapter 84: Escape!

“H-How am I supposed to go up?” Ke Xin asked with a strange expression.

Dong Xi directly pointed to her back and said, “Quickly come up! I’ll carry you!”

Ke Xin looked at Dong Xi’s small figure and hesitated. Dong Xi said again, “Hurry up, or we won’t be able to escape!”

Ke Xin gritted her teeth, lifted her skirt, and jumped onto Dong Xi’s back with a run.

The moment she jumped up, Dong Xi grabbed her arm, stabilized her body, and drove the turtle to escape quickly.

Ke Xin was older than Dong Xi by two years, so she was naturally taller. Now that Dong Xi was carrying her on his back, her legs were suspended in the air, making her look extremely pathetic.

Dong Xi could not care too much. She quickly circulated the Eight-nine Cultivation Technique. The intense sense of danger made Dong Xi think of only one word.

Escape!

Carrying Ke Xin on her back, Dong Xi circulated her cultivation technique madly. The turtle under her feet also flew forward quickly, leaving a green light in the air.

Dong Xi ate the Spirit Restore Pills in big gulps, as if they did not cost anything. She had just run a dozen miles when a strange roar came from behind her.

This sound wave almost caused Dong Xi to fall off the turtle.

She felt a sharp pain in her ear, but she could not care about it at this time. After flying another 30 miles, Dong Xi could not hold on any longer. She controlled the turtle to sway and fall to the ground.

When they were still a distance away from the ground, Dong Xi's spiritual Qi was completely squeezed dry. The two of them fell to the ground with the turtle.

However, Xin's cultivation level was low to begin with, and she was lying on Dong Xi's back, so she felt extremely uncomfortable after being hit by the sound waves.

Just as the two of them were about to land, Ke Xin pulled herself together and hugged Dong Xi. She turned around and used the thin spiritual energy in her body to protect her back.

"Hiss..."

Ke Xin could not help but take in a cold breath as she turned around to rub her back.

After a while, Ke Xin recovered and asked hurriedly, "Sister, are you alright?"

However, Dong Xi, who was at the side, did not react at all. She did not answer at all.

Ke Xin realized that something was wrong. Ignoring the pain in her body, she immediately got up and hugged Dong Xi.

Dong Xi lay in her arms, motionless. Her hairband had broken at some point, and her black hair was scattered.

Ke Xin hugged Dong Xi nervously, her hands trembling as she placed them in front of Dong Xi's nose.

Sensing that Dong Xi was still breathing, Ke Xin finally relaxed.

However, Ke Xin did not have any pills on her, so she could only feed Dong Xi two Spirit Restore Pills.

Dong Xi's condition was quite serious at this time. There was almost no trace of spiritual Qi in her Dantian, but the inner core suspended in the Dantian was still releasing green spiritual Qi.

The spirit energy of the big snake was poisonous. Previously, Dong Xi's Dantian and meridians were still protected by the spirit energy, so she could resist it. But now, she could only face it directly.

It was not until Ke Xin fed her a Spirit Restore Pill that some spiritual Qi appeared in Dong Xi's Dantian.

Dong Xi opened her eyes and saw Ke Xin's anxious expression. Ke Xin immediately asked, "How is it? Do you still want the Spirit Restore Pill? I still have more."

Dong Xi shook her head and took out a porcelain bottle from her jade pendant. She poured the Five Element Blood Clot Pill she had bought earlier and ate it.

As expected of a third-grade pill, not long after she ate it, a cool feeling spread through her body and flowed through her meridians.

As the discomfort in her body slowly died down, Dong Xi finally got up and gave Ke Xin another pill.

Ke Xin remembered that Dong Xi had spent so many middle-grade spirit stones to buy the pill, and refused to take it.

Even though her ears were a little uncomfortable, it was not a big deal. Ke Xin rejected, "No need to give it to me, I'm fine!"

Dong Xi threw the pill into Ke Xin's mouth while she was speaking.

Ke Xin covered her mouth and looked at Dong Xi in disbelief.

Dong Xi calmly put away the pill and said, "We'll treat it as your store treating us to food. One for one, what's there to be sad about? Let's talk about it after we're well, in case there are any side effects."

A high-level demon beast seemed to have appeared in the mine cave just now. Just a roar was enough to cause the two of them to suffer such heavy injuries.

Dong Xi had transmigrated from the modern world and believed that physical injuries were irreversible. If her eardrum was injured, her hearing would decline in the future.

As the pill entered her stomach, Ke Xin's torn muscles and expanded meridians were all healed by the pill. This comfortable feeling almost made Ke Xin moan.

She stood up and stretched, looking at Dong Xi and saying, "As expected of a third-grade pill. It's so cool!"

"Help me keep an eye out, I'll need to recover," said Dong Xi as she sat down.

Although Dong Xi's internal injuries had improved, the poison spat out by the snake's inner core had not been resolved. Her entire Dantian was covered in green spiritual Qi.

She ate the supreme-grade Spirit Restore Pill and absorbed the spiritual energy from the pill. She used the spiritual energy to rewrap her Dantian and meridians, devouring the green spiritual energy bit by bit.

Ke Xin sat beside Dong Xi, slowly recovering her spiritual Qi, but she did not dare to enter a meditative state. In this wilderness, if a demon beast came, the two of them would really be dead.

Chapter 85 - Beast Tide

Chapter 85: Beast Tide

The sky slowly darkened, and the surroundings were eerily quiet. From time to time, there would be cultivators riding on flying swords passing by in the sky, all rushing towards the Zhang family's mine. Ke Xin looked at Dong Xi, who was still meditating, and felt a little uneasy.

This was the first time Ke Xin had looked down on herself so much. Her cultivation level was so low that she could not help her sister at all and could only drag her down.

She bit her lip and secretly encouraged herself. When she returned to the sect, she would definitely work hard to cultivate. Even if she could not catch up to her sister, she would strive to not be the one who dragged her down.

The moon came out, and Dong Xi's physique immediately took effect. She slowly gained the upper hand in his battle with the big snake's inner core.

She gradually refined the green poison in her meridians. When her body was filled with purple spiritual Qi again, she opened her eyes.

Hearing the roars of the various demonic beasts in the forest, Ke Xin's face turned pale. She sat beside Dong Xi and hugged her legs tightly, her entire body trembling uncontrollably.

Even so, she did not forget to pay attention to Dong Xi's movements.

Seeing Dong Xi move, Ke Xin immediately went forward and tugged at Dong Xi's sleeve. "Sister, you're finally awake, are you okay? Let's hurry and leave. There are so many demon beasts here, so many..."

Dong Xi's Eight-nine Cultivation Technique began to operate on its own. In the next second, his expression changed. Instead of taking out the turtle given by her master,

she took out the little leaf given by Song Qingfeng and put it in the middle-grade spirit stone.

Dong Xi immediately sat down and cast a spell, saying to Ke Xin, "Hurry up and get on, let's go!"

Ke Xin did not hesitate for a long time and jumped up.

As the magic tool flew further and further away, Ke Xin frowned and pouted, "I've been mining for a long time. How did I end up encountering such a thing? I really don't know what's hidden there. Countless cultivators rushed over during the day, but I don't know if they could catch that thing."

Dong Xi finally said, "I think so. This place is also under the jurisdiction of the Ningtian Sect. The sect will send people here."

Hearing Dong Xi's words, Ke Xin calmed down a little and said, "There are many elders in the sect, so nothing should happen."

Just as she finished speaking, Dong Xi suddenly said, "The Beast Tide, the Beast Tide is coming."

Ke Xin had just heaved a sigh of relief when Dong Xi's words brought it up again.

She looked at Dong Xi with her eyes wide open and said with some doubt, "A Beast Tide?!"

"There were many demon beasts in that mountain just now," Dong Xi said with a nod. "The aura of these demon beasts is very obvious. If we had left 15 minutes later, the demon beasts would have come out."

Ke Xin immediately sucked in a breath of cold air and patted her chest, "It's a good thing we escaped quickly. Otherwise, the demon beasts would have eaten us up!"

After saying that, Ke Xin seemed to have thought of something and suddenly turned to Dong Xi, asking, "Dong Xi! Do you think the sect has sent enough people? What would they do if they encountered a Beast Tide? Wouldn't we be pincered from the front and back?"

Dong Xi could not say for sure. She immediately took out her communication jade slip and wanted to send a message to her Master, but then he remembered that she did not have her Master's spiritual breath. She had no choice but to find him physically...

Forget it, I'll just look for Second Senior Brother.

“Second Senior Brother, it’s suspected that a Beast Tide has occurred near the Zhang family’s mine.” Dong Xi said while holding the Jade slip. “Do we have enough people from the sect?”

Song Qingfeng did not do anything, and Dong Xi became anxious. She wished that the little leaf could fly a thousand miles in an instant.

This matter was too important. Even though Dong Xi was a little afraid of her Eldest Senior Brother, she still decided to send a message to him.

However, she did not expect that the message he sent to Eldest Senior brother would also sink like a stone in the sea.

It was so strange. Could it be that Eldest Senior Brother and Second Senior Brother were both in closed-door cultivation?

She could understand if Eldest Senior Brother went into seclusion, but didn’t the Second Senior Brother just come out of seclusion? Why was he in seclusion again? Could it be that they were going to kill each other?

Dong Xi did not have much time to think about it and immediately sent a message to Little Senior Sister Chi Yan. She could not possibly let Little Senior Sister go into seclusion as well, right?

As expected, Chi Yan quickly replied, “A total of 4 Golden Core experts and 16 Foundation Establishment cultivators went. Eldest Senior Brother and Second Senior Brother also went, two from the Alchemy Sect and two from the Sword Sect.”

Dong Xi was stunned at first. No wonder neither of them replied and they were both sent there.

Dong Xi frowned and quickly sent a message: “Little Senior Sister! Quickly go find Master! The demon beasts aren’t weak to begin with, and there’s a Beast Tide not far away. I’m afraid that Senior Brother and the others will be attacked from both sides and will be in danger. Quickly go and rescue them!”

Chi Yan’s voice was raised a lot as she sent the message. She said in a sharp voice, “Junior Sister! How do you know all this? Could it be that you’re also there?”

Dong Xi immediately replied, “I just escaped from there. Little Senior Sister, quickly go and find Master. Otherwise, it will be too late!”

Chapter 86 - Destiny Valley Overturned

Chapter 86: Destiny Valley Overturned

When Chi Yan heard that Dong Xi was fine, she immediately heaved a sigh of relief. She told Dong Xi to quickly return to the sect, put down the jade slip, and go directly to find her Master.

At this moment, Song Qingfeng and Liang Yan had arrived at the Zhang family's mine. They came with array disks and sealed the place as soon as they arrived. The tiger-like demon beasts kept hitting the array disks, shaking the array.

Liang Yan said as he injected spiritual Qi into the formation plate, "Immediately tell those with low cultivation to leave! The barrier might not be able to hold on for too long, hurry up!"

The Zhang family did not dare to delay, and quickly sent people to organize the evacuation of those with lower cultivation base.

Song Qingfeng glanced at the people who left and asked immediately, "Are there any disciples from our Ningtian Sect?"

The manager of the Zhang family recalled and said, "I think so. If I remember correctly, they were two little girls around ten years old."

Song Qingfeng and Liang Yan were shocked when they heard that he was around ten years old. They immediately asked at the same time, "What are their names?"

The manager of the Zhang family thought about it carefully and said seriously, "They should be called Wang Wu and Liu Qi."

Song Qingfeng, "..."

Liang Yan, "..."

Even though the names did not match, the two of them had a strange feeling.

It's her! No question about it!

Song Qingfeng asked with a gloomy face, "Then where did they go? Are they still alive?"

Even though Liang Yan did not ask, his expression was ugly.

When the steward saw the two of them like this, he immediately thought that these two girls probably owed money.

"I don't know," the steward replied immediately. "But someone saw them take the storage bag before the monster attacked."

After hearing this, Song Qingfeng and Liang Yan's expressions became a little better.

Song Qingfeng said, "They better be fine. Otherwise, don't say that this demon beast is dead! Your Zhang family will also be buried with it!"

Although Song Qingfeng's expression was calm, his words were like thunder. Liang Yan could not help but look at Song Qingfeng curiously.

The Zhang family's manager's expression turned ugly. Originally, buying the spirit vein was a good thing, but who would have thought that it would end up like this?

Besides, didn't the Dong family just go to Destiny Valley? Saying that this was a good place?

This was not a good place at all, it was clearly a place of great danger.

On the square on the communication jade slip, many people were scrolling through messages. Some were looking for friends, and some were asking if they could go and pick up the leftovers.

Most of the replies were about gossip.

[Destiny Valley overturned? The Zhang family had asked Elder Li Li of Destiny Valley to read their fortune, and only then did they know that the spirit vein here was a blessed land. So, they bought it at a high price, but they didn't expect that not only did so many people die, but the mine also collapsed.]

Li Li?

Dong Xi immediately blocked him in his heart. If he needed a divination from Destiny Valley in the future, he would definitely not look for Li Li.

But this was gossip, after all. What if it was a misunderstanding? Dong Xi found a good friend, Mo Han of Destiny Valley, and asked about it.

[Immortal Master Mo Han, it's said that your Destiny Valley's Immortal Master Li Li tricked the Zhang family. Is that true?]

After asking, Dong Xi felt that it was too gossipy to ask so directly, so he immediately sent a message to make up for it.

[If it's fake, explain it as soon as possible. Rumors are harmful!]

Soon, Dong Xi received Mo Han's reply. "The rumors are true."

Dong Xi had sent a text message, while Mo Han had sent a voice message. Dong Xi listened to Mo Han's cold voice, which was as clear and warm as a clear spring.

To be able to have such a temperament, he was also a strange person. Originally, Dong Xi had thought that he would be some big man who would pick his feet, but it seemed that he had misunderstood.

Could he be a bashful sissy?

After a light cough, Dong Xi came back to her senses and hesitated on how to reply. Mo Han sent a message.

[Fairy, you were scared but you were not in danger this time. If there's nothing else, don't leave the sect for the time being.]

Dong Xi looked at the text and was stunned on the spot.

She had not said anything, but Mo Han had already known that she was safe?

If the Zhang family had looked for this Immortal Master Mo Han back then, could this be averted?

Dong Xi pondered for a moment and wrote and drew on the jade slip for a long time. She missed the input methods of her previous life very much.

[Immortal Master, your divinity is so accurate. Can you help me calculate if my two Senior Brothers will be in danger this time?]

Although Chi Yan had already gone to report to her Master, Dong Xi was still a little worried.

As for whether the demon beast was powerful or not, Dong Xi did not know. When she had read the original book in her previous life, it had mainly been written from the perspective of the female protagonist eight years later.

Because of this, Dong Xi could not do much. She could predict the future and also wanted to have it, but she could only face the current situation head-on.

Mo Han looked at the words on the jade slip and frowned. He replied, "My fees are very expensive."

Chapter 87 - Ambiguously Dirty

Chapter 87: Ambiguously Dirty

When Dong Xi saw that it was a voice message, she subconsciously held the jade slip to her ear. When she heard the words, her face immediately turned red. If she did not look at the context, this voice and these words were ambiguously dirty!

“Dong Xi, who were you talking to?” Ke Xin asked.

Just as he was about to say ‘random netizen’, Dong Xi reacted and said seriously, “An Immortal friend who can tell fortunes.”

Dong Xi had almost forgotten that she was only an 11-year-old child. She could not let her imagination run wild.

But Ke Xin’s interest was piqued and she asked, “Fortune-telling? From destiny Valley?”

Dong Xi nodded, and Ke Xin immediately said, “Is the calculation accurate? Help me calculate too! He’s asking me if I can break through to the Golden Core stage!”

“This guy said his fees are very expensive,” Dong Xi shrugged.

Ke Xin touched her storage bag, which had no more food left, and said after a moment of silence, “Forget it, I’m not worthy.”

“Sister, don’t panic. Wait for me to talk to him,” said Dong Xi with a smile.

After saying that, Dong Xi picked up the Jade slip and wrote another line of words.

[My alchemy is also very expensive. Are you going to use money to measure the value of friendship between you and a future master?]

The moment the message was sent, Dong Xi immediately felt some regret.

The other party had already predicted that she had just escaped from danger, so how could he not know what she was like? How could he not have calculated that she was a fake grandmaster who did not know how to refine pills?

However, thinking of this, Dong Xi was very puzzled.

Since he could calculate it, why did he tell them the whereabouts of the long white ice shards so easily? Was he just talking nonsense?

Dong Xi was still fantasizing when Mo Han saw the message Dong Xi sent.

A smile appeared on Mo Han's pale face. He shook his head and said to himself, "You're boasting shamelessly."

After thinking for a while, Mo Han still replied, "Don't worry, your Senior Brothers are fine."

Regardless of whether these words were true or false, at least Dong Xi was no longer worried.

Dong Xi heaved a sigh of relief and asked tentatively.

[Oh, there's one more thing. Can you help me look at my sister's luck?]

Mo Han, "..."

In the past, he had only heard others say that he was shameless, but today, he had really seen what it meant to be shameless. Mo Han immediately sent a voice message, "I don't really want your friendship with a future grandmaster."

Dong Xi, "..."

You can't afford to play? It was fine if he did not want to look at her sister, but how could he 'threaten' her?

This friendship was a must. It was already locked in!

Dong Xi looked at Ke Xin and sighed. "Sister, I didn't succeed. When I earn money in the future, I'll bring you to a master and let him read your fortune properly."

Ke Xin could not help but laugh. "I'm just playing around. If you don't want to help me read my fortune, then forget it. Besides, there's no need to read it! I will definitely pass the Golden Core stage!"

Ke Xin stood up excitedly, exuding an aura of supremacy.

However, Ke Xin's movements were a little too big, and the little leaf immediately started shaking as well. Dong Xi immediately grabbed Ke Xin's arm and said, "Good! I believe you! Don't talk about Golden Core, just work hard and have some luck! It was not impossible to Ascend! But... let's talk while sitting down, okay?"

Ke Xin was also shocked. She immediately sat down beside Dong Xi and asked, “How long do you need to go back? I didn’t notice how far we were on the airship. You’re so smart to remember the way here.”

Dong Xi raised her head and innocently said, “Actually, I don’t know the way either.”

Ke Xin was instantly dumbfounded. She quickly asked, “What did you just say? You don’t know either? Where... where are we going now?”

Dong Xi’s face was embarrassed. She coughed and said, “I don’t know. I didn’t think too much at that time. I just wanted to run away.”

In other words, she was lost.

Ke Xin bit her lip and suddenly realized that this Sister who had always been very reliable was not that reliable.

Dong Xi looked at Ke Xin’s confused face and pretended to be calm. “It’s alright. When we see a city, we’ll ask around. Someone will show us the way.”

Dong Xi’s words made Ke Xin think of something. Ke Xin immediately said, “That’s right. The sect has foundation in all the cities. When the time comes, we can go directly to them. The Senior Brothers and Sisters who are stationed there will definitely send us back to the sect!”

The two of them continued to fly for about two hours. They have already replaced the spirit stones on the small leaf once, and a huge city appeared not far away.

Compared to this city, the market city was very small.

Dong Xi landed the little leaf from a distance. Then, she took out the dead Flaming Frost-skin Rat and the Purple Jade Sword. She pointed the sword at the stomach of the Flaming Frost-skin Rat.

Chapter 88 - I’m Afraid You Won’t Be Able Cut It Open

Chapter 88: I’m Afraid You Won’t Be Able Cut It Open

When Ke Xin saw Dong Xi's actions, she was stunned at first. Then, she said "Umm... What are you... You want to do it yourself?"

"Eh?" Dong Xi asked in surprise, "Is it against the rules of the Immortal cultivation world by doing it myself? "

Ke Xin shook her head and frowned, "No, but this is a corpse after all!"

Dong Xi finally understood. This little girl had not adapted to the world where the strong preyed on the weak.

Dong Xi looked at Ke Xin and said with a serious face, "Sister, you have to understand that in the Immortal cultivation world, the weak are prey to the strong. You may encounter danger at any time, whether it's the demon beasts, the ghost race, or the human race. If you don't dare to make a move, you will eventually become meat on the chopping board. The fur, inner core, and even bones of the demon beasts are all good things. Do you still want others to help you clean them up every time? "

Dong Xi was not very old, and the childishness of her face had not faded, but now she had a stern face like an adult, and she really did look a bit frightening.

Ke Xin also listened and seriously considered this question.

It was understandable that Ke Xin could not bear to kill the demon beast this time, but what about the humans in the future? Could she bear to do it?

Dong Xi's words also sounded Ke Xin's alarm, and she began to pay attention to the problem.

Dong Xi had already asked on the jade slip and found that the fur of the Flaming Frost-skin Rat was good material for making shoes. It had the effect of giving the wearer a speed boost.

In order to make the fur valuable, she had to think of a way to completely peel off the fur from the skin.

Just as Dong Xi was about to make a move, Ke Xin said from the side, "Dong Xi, why don't you let me do it?"

Dong Xi's hand paused, but she still shook her head after some thought.

Ke Xin saw Dong Xi shake her head and became anxious. She said, "With you here today, I'll just take it as a way to train my courage!"

Dong Xi's face was a bit embarrassed. She sighed and said, "It's not that I don't want you to practice it, but I'm afraid that you won't be able to... cut open its skin,"

Ke Xin fell silent. She had no way of refuting Dong Xi's words.

The skin of a tier-3 demon beast was not something an ordinary person could cut open. Ke Xin did not have a spirit tool and her spirit energy was pitifully low. Even though the demon beast was completely dead now, Ke Xin was still unable to cut open its skin.

Ke Xin sat on the grass and looked up at the sky, sighing, "I'm really useless!"

"No, you're not," said Dong Xi seriously. "With you here with me, I am not afraid. Don't be like this. After we're done dealing with this demon beast, we'll divide the loot of spirit stones."

Dong Xi inserted spiritual Qi into the Purple Jade Sword and drew it according to the position she had chosen from the beginning.

In her previous life, she had helped the head of the orphanage's mother kill chickens, so this level of blood was still within Dong Xi's tolerance.

Dong Xi shaved off the demon beast's skin and flesh. Its bones and tendons could be used as medicinal herbs. Since they were entering the city in a while, she would sell them together.

The Flaming Frost-skin Rat's storage bag was very full. When she opened it, he saw that it was full of spirit stones.

There were about 80 high-grade spirit stones, over 300 mid-grade spirit stones, and even 11 supreme-grade spirit stones.

Other than these, there were two crystals that Dong Xi and Ke Xin did not recognize.

Dong Xi split everything in half and gave one to Ke Xin.

However, Xin refused to accept it and said anxiously, "I didn't do anything, and this demon beast was killed by you, so why should I get so much? If I accept it, my Dao Heart will be unstable!"

Ke Xin was very determined. Dong Xi thought for a moment and said, "You helped me attract its attention and even protected me. It's not like you didn't do anything. You should have a share of this spirit stone."

Ke Xin said, "This is just a small contribution. You have to give it to me. Just give me two pieces."

The two of them argued for a while before Dong Xi finally gave Ke Xin ten mid-grade spirit stones.

Ke Xin took the spirit stone and said happily, “I can use these for a long time.”

Dong Xi cast a cleaning spell to clean up the surrounding traces of skin and flesh, as well as the ones on the two of them. She tied her hair back into a ponytail and said lightly, “Come, let’s enter the city.”

After walking for about an hour, the two of them arrived at the city gate.

These large cities all had no-fly formations. Everyone who came near the city had to come down and walk in.

“Fotai City?” Dong Xi looked up and read.

“I know!” Ke Xin immediately replied excitedly. “This Fotai City is one of the five main cities in the East Continent!”

When it came to gossip, Dong Xi could not compare to Ke Xin.

They had been in the cultivation world for more than half a year, but Dong Xi had no idea how many continents there were in the cultivation world, or what city it was!

“Which direction is this Fotai City in?” Dong Xi asked.

“The west!” Ke Xin said happily, “Since we know the direction now, let’s head east. Can we return to the sect then? Otherwise, we need to pay five low-grade spirit stones to enter Fotai City. If we don’t go in, we can save the money.”

Chapter 89 - Don’t Have the Heart to Harm Others

Chapter 89: Don’t Have the Heart to Harm Others

“Sister, have you ever forgotten that there’s still a Beast Tide coming?” Dong Xi shook his head.

The smile on Ke Xin’s face instantly disappeared. She grabbed Dong Xi’s hand and walked towards Fotai City, mumbling as she walked, “It’s more important to stay alive. I’ve earned money, but must have some money to spend.”

After entering the city, Dong Xi first went to sell the fur of the Flaming Frost-skin Rat, then sold the inner core and bones.

However, no one wanted this meat. Dong Xi planned to return to the sect and have a small barbecue in front of the cave.

Ke Xin did not quite understand. They could have sold them together, so why did they have to sell them separately?

Dong Xi patted Ke Xin's shoulder, pretending to be mature. "Little girl, you can't have the heart to harm others, but you can't be unguarded!"

The smile on Ke Xin's face froze again. Ke Xin said, "You're not big, but you're quite scheming."

Dong Xi laughed. She did not have any sense of security, which was why she was so vigilant.

Dong Xi's actions would indeed reduce a lot of trouble, especially in a strange place.

After asking around, the two of them finally found the Ningtian Sect's encampment in Fotai City. Looking at the sign on it, the two of them felt as if they had seen a family member.

The Senior Brother at the encampment received the two of them warmly and was about to send them back to the sect when the city's protective array lit up.

Following that, a deep voice rang out and entered the ears of everyone in the city, "The Beast Tide is coming. Cultivators above the Foundation Establishment stage, immediately go up the city walls! After this, the City Lord will definitely give you a reward!"

Dong Xi and Ke Xin looked at each other, then looked at their Senior Brother.

"Senior Brother Li He, why did this Beast Tide suddenly appear?" Dong Xi asked.

Li He sighed and said, "I've been trying to find out some news for the past two days. It seems that the king of demonic beasts has awakened. It's useless for you to know. Stay here and don't wander around. When I'm done with my work, I'll send you two back to the sect!"

Li He was about to leave.

"Senior Brother, are you also going up the city walls?" Ke Xin asked immediately.

Li He nodded. "These demon beast knows how to group together. If the humans don't stick together, there won't be many people left alive in the city when they break through."

Dong Xi pondered for a moment, then took out a bottle of supreme-grade Spirit Restore Pills from his storage bag and handed it to Li He. Dong Xi said, "Senior Brother, Junior Sister's cultivation is too low. I can't climb the city wall. This pill in my hand might be able to help you."

Li He wanted to refuse. After all, these two Junior Sisters who had just entered the sect would not have anything good. It was better to keep them for his own use. However, after Dong Xi opened the box, Li He held back what he wanted to say.

He thought that the Alchemy Sect were all rich indeed.

He might not be able to use other things, but this supreme-grade Spirit Restore Pill was really too useful at this time.

"Thank you, Junior Sister!" Li He cupped his fists at the item. "I'll definitely repay you when the Beast Tide is over!"

There was some distance between Fotai City and the Zhang family's mine. Although the Beast Tide was frightening, only a small portion of them came to Fotai City because some of them went to the mine.

Dong Xi and Ke Xin stood at the entrance of the Ningtian Sect's encampment, looking up at the sky. The light blue barrier seemed to have fused with the sky.

There were a few powerful beings in the air, and they could be the City Lords.

The people in the city acted as if nothing had happened and did what they were supposed to do.

Thinking about it, it was not wrong. The commoners could not help.

Dong Xi was sitting at the door, bored. He suddenly frowned and took out his communication Jade slip. There was a message on it.

[Little Daoist Nun! Where are you?]

Dong Xi did not even need to look at the name to know who had sent the message and immediately replied.

[Second Senior Brother, I'm at the camp of the Ningtian Sect in Fotai City.]

Song Qingfeng, Liang Yangang, and the others worked together to seal the big demon and had the time to read the communication jade slip.

“Where is it?” Liang Yan asked.

“He went to Fotai City,” Song Qingfeng said with a frown.

Liang Yan’s expression changed and he quickly said, “Not good! I just heard someone say that Fotai City also encountered a Beast Tide!”

Hearing this, Song Qingfeng did not even bother to recover his spiritual energy. He stood up and ate a handful of supreme-grade Spirit Restore Pill. “This girl is so young, why is she still a calamity-magnet? Wherever she went, something would happen! With such a low cultivation level, any demon beast in the Beast Tide could eat her clean!”

As he said this, Song Qingfeng took out his spirit tool.

Liang Yan had rarely seen Song Qingfeng like this. Even though they were not on good terms, he still stopped him, “Fotai City is guarded by the City Lord. An ordinary Beast Tide can’t rush in at all. Ask her again. Don’t wait for you. She’s already back in the sect.”

Song Qingfeng frowned and said impatiently, “It’s best if they’ve already returned. I can also kill the resting demon beasts without restraint and help them once!”

Chapter 90 - He Looks Like a Warrior

Chapter 90: He Looks Like a Warrior

Then, Song Qingfeng disappeared in front of everyone.

Seeing that Song Qingfeng had disappeared, Liang Yan started to think. He never knew that Song Qingfeng was so enthusiastic.

However, Song Qingfeng seemed to be... too concerned about Dong Xi’s matter.

It was really strange.

The manager of the Zhang family stood at the side and asked with a worried expression, "Daoist Liang Yan, can this great demon still escape?"

Only then did Liang Yan come back to his senses. He looked at the Zhang family's manager indifferently and said, "It's hard to say. Go back and tell your family head not to continue mining the spirit vein here."

The Zhang family's manager immediately frowned and said in a panic, "How can I do that? We spent a huge sum of money to buy this spirit vein!"

Hmph! Liang Yan snorted coldly. "You want to continue mining? Sure, but get your Family Head to kill this demon."

The Zhang family's manager fell silent. The people of the Ningtian Sect had to rely on a seventh-tier formation disk and so many high-grade talismans to barely seal the great demon. If the Zhang family wanted to kill this great demon, the price would be enough to buy another spirit vein.

Liang Yan continued, "This spirit vein was planted here on purpose to seal this big demon. Your mining has loosened the seal. The next time the big demon comes out, the Zhang family will have to think of a way."

When the Zhang family's manager heard this, he was shocked. He asked with a bitter face, "Daoist Liang Yan, I wonder what kind of great demon is this? Please tell me, so that I can go back and explain to the Family Head."

"Spirit Illusion Night Spirit," Liang Yan replied.

The Zhang family's steward followed, "Spirit Illusion Night Spirit?"

Just as he was about to continue asking, he raised his head and realized that Liang Yan had disappeared.

The Zhang family's manager stomped his feet, took out his magic tool, and flew toward the main house.

The Family Head must have been deceived at that time, which was why he spent so much money to buy this spirit vein. He did not expect that there would be such danger inside.

Those who deceive the master must be punished!

Song Qingfeng sent a message to Dong Xi, telling him not to run around and to stay in the city. Then, he drove the spirit tool to the extreme.

The distance to Fotai City was not far. With Song Qingfeng's speed, it would not take long for him to get there.

Seeing that Futai city was safe and sound, Song Qingfeng, who had been rushing nervously, heaved a sigh of relief.

The light blue barrier was like an eggshell, protecting the entire Fotai City. The Beast Tide kept attacking the formation, and there were a few powerful people in the air who kept injecting spiritual energy into the formation.

Song Qingfeng looked at the Beast Tide with disgust. He raised his hand and cast a spell to attack the demon beasts that were charging at the array.

Now, Song Qingfeng was also in the late-stage of the Golden Core stage. These demon beasts that had not yet awakened their intelligence could not withstand his attacks at all.

In an instant, he attracted the hatred of the demon beasts, and all of them turned to attack him.

Song Qingfeng took out many talismans from his storage ring and threw them around as if they were free.

Inside the barrier, on the city wall, the people who were desperately killing beasts for the City Lord's reward felt a little sour in their hearts as they watched the others throw out large amounts of talismans.

At this moment, a voice came from somewhere, "Wow! That person was so brave! That's amazing!"

"He's so handsome!"

Then, everyone also recognized him and said, "Look, this is Daoist Master Song Qingfeng, one of the ten most handsome men in the world of cultivators! I've seen it before, I can't be wrong!"

Song Qingfeng himself is even more handsome than those portraits!

"I feel like I'm in love!"

"I didn't expect Master Song Qingfeng to be such a warm-hearted person!"

...

Dong Xi and Ke Xin stood on the roof of the Ningtian Sect's encampment and could see into the distance.

Unexpectedly, just as she looked up, she saw a man standing outside the barrier, throwing talismans as if they were free.

Dong Xi narrowed his eyes and nudged Ke Xin, who was beside him, “Sister, look, doesn’t that person look like a peacock spreading its tail?”

Ke Xin took a look and quickly said, “I think it’s Second Senior Brother.”

Dong Xi took two steps back and said with his eyes wide open, “Sister, your eyesight is so good that you can see it from so far away? Besides, Second Senior Brother should be fighting with that big demon again, right? Why would he be here?”

Ke Xin’s face was also filled with confusion as she said, “You can’t even recognize your Senior Brother? Even if you can’t recognize him, you should be able to recognize his magic tool, right? Don’t you recognize the folding fan under his feet?”

Dong Xi, “...”

Raising his head, Dong Xi saw the folding fan at the man’s feet. It looked very familiar, but it had grown so big that she could not recognize it at first.

Now that he heard Ke Xin say this, she took a closer look and realized that it really was Second Senior Brother’s magic tool.

But what was he doing here?

Thinking of Song Qingfeng’s message, Dong Xi suddenly thought, ‘Second Senior Brother didn’t come here to save me, did he? It turned out that I’m a Little Junior Sister who was doted on?’
