

Amongst Cultivators, I Stand Above All

Chapter 91 - Worthy of Being One of the Top Ten Most Beautiful Men

Chapter 91: Worthy of Being One of the Top Ten Most Beautiful Men

A cool breeze blew past, and Dong Xi felt a chill. Goosebumps slowly rose all over his body.

Dong Xi could not help but shiver and immediately cleared the thoughts in her mind.

What a joke. Song Qingfeng wouldn't be happy if he didn't mess with her. Why would he come all the way here to save her? In order to save the people, it was still more credible.

Ke Xin, on the other hand, looked at Song Qingfeng outside the city with a fangirl look. Ke Xin said, "Second Senior Brother is indeed one of the top ten most handsome men. Look at his movements. He's so cool and handsome!"

Sure enough, no matter how big or small a woman was, she would never be able to reject a handsome man.

"Of course he's handsome. You'll be very handsome if you scatter that many talismans," said Dong Xi.

Ke Xin's hand that was tugging on Dong Xi's sleeve paused. After a moment of silence, she nodded and said sincerely, "You're right."

Dong Xi raised her head and looked at the screen-opening tool outside the city. No, it was Second Senior Brother. She was a little worried.

It was a Beast Tide outside. Although Song Qingfeng had a high cultivation level and many talismans, they were not inexhaustible. At that time, wouldn't Song Qingfeng become food for the demonic beasts?

At this moment, another person appeared not far away.

Even if this person turned into ashes, Dong Xi would not be mistaken.

"Sister, look!" Ke Xin exclaimed excitedly, "Eldest Senior Brother is here too!"

"It seems that the great demon in the mine has already been dealt with," said Dong Xi after some thought.

"That's for sure!" Ke Xin beamed with joy and said, "If the Eldest Senior Brother and the Second Senior Brother of the Alchemy Sect attack at the same time, any demon beast will have to submit to them obediently!"

Hearing her say this, Dong Xi's heart also started to surge.

Was this the pride of being in the same sect?

Seeing the Senior Brother who came to help, Qingfeng's face turned dark. He asked lightly, "Why are you here?"

Liang Yan looked at Song Qingfeng calmly and said, "That girl is also my Junior Sister. Why are you here?"

Although Song Qingfeng and Liang Yan did not get along, he had other plans when he saw Liang Yan.

Song Qingfeng put away the talisman and said to Liang Yan, "You stand guard for me."

After saying that, the folding fan under his feet flew back into his hand. He stood in the air and made a hand seal with both hands at a speed so fast that no one could see it clearly.

Liang Yan and Song Qingfeng had been fellow disciples for a hundred years. Every year, the two would spar countless times, so Liang Yan was very familiar with Song Qingfeng's techniques and moves.

Seeing Song Qingfeng's hand seals and the terrifying power that appeared in his hands...

The second move, Fearless Array, was one of Song Qingfeng's killing moves.

After a long time, Song Qingfeng opened his eyes. There was a faint golden light in his eyes. His face was calm and solemn, like a god who saved people in distress. He pushed out the array map in his hand.

A ball of golden light exploded in an instant, and Dong Xi, who had been sitting on the roof, stood up subconsciously.

Dong Xi's eyes widened, her face full of shock. She muttered, "F*ck! This, this!"

Ke Xin did not understand why Dong Xi was so excited. She thought that Dong Xi was simply admiring her Senior Brother, so she stood up and smiled foolishly.

Dong Xi looked at the golden light in the distance, and then at the silly girl next to him, Ke Xin. Fortunately, this girl did not seem too smart, or else she would have realized that the move Dong Xi used to kill the Flaming Frost-skin Rat was similar to the one Second Senior Brother was using now.

It turned out that Dong Xi was not the only one who knew how to form hand seals. Song Qingfeng must have learned it from the Cultivation Techniques Hall as well. The burden in Dong Xi's heart suddenly lightened a lot.

Since everyone knew how to do it, there was no need for Dong Xi to continue hiding it!

When she returned to the sect this time, she would raise her cultivation a little. Next time, she could not secretly use the big snake's spiritual energy.

What if this bit of spiritual energy caused the big snake's enemies to come after him? That would be terrible, right?

"What's the situation now?" Dong Xi asked. "Since Second Senior Brother had used such a powerful move, the Beast Tide should be over, right?"

Turning around, Dong Xi found Ke Xin crying. She was shocked and immediately asked, "Sister, are you crying tears of joy? Do you really have to do this?"

Ke Xin raised her hand to wipe away the tears on her face and slowly said, "No, the golden light is too glaring!"

Dong Xi heaved a sigh of relief. As the two conversed, the golden light slowly dissipated, and Dong Xi could see the outside of the city clearly.

Song Qingfeng's big move created an empty space in the Beast Tide, and those demon beasts that were gathered did not even have a corpse.

Dong Xi's heart ached when he saw this scene. So many demon beast furs and inner cores.

That was all money!

When he thought of the talismans that Song Qingfeng threw out, Dong Xi was in so much pain that he could not breathe.

This prodigal Senior Brother, why did he not use his ultimate move earlier? He could have just used it immediately, and there was no need to waste so many spirit talismans, right?

Chapter 92 - I Wouldn't Even Bother With You

Chapter 92: I Wouldn't Even Bother With You

Song Qingfeng opened his eyes. The spiritual energy in his body was almost used up, and it was difficult for him to maintain his posture in the air.

But at this time, the Eldest Senior Brother, who was far away from him, suddenly appeared beside him and stealthily held Song Qingfeng, helping him to stabilize himself.

"Let go," Song Qingfeng frowned and said.

Liang Yan immediately stuffed a supreme-grade Spirit Restore Pill into Song Qingfeng's mouth and said lightly, "If I wasn't afraid that you would embarrass the sect, I wouldn't even bother with you! While you're bickering with me, why don't you hurry up and defend the city?!"

After taking the supreme-grade Spirit Restore Pill, plus the spirit tools that Song Qingfeng had, he quickly recovered more than half of his spiritual energy.

"Protect?" Song Qingfeng asked in surprise.

Seeing that Song Qingfeng had recovered a lot, Liang Yan let go of Song Qingfeng's hand and took out his sword.

"You've already used your ultimate move," Liang Yan said. "Why would I just stand there and watch? Don't even think about going back and using this matter to complain to Master."

With that, Liang Yan charged out with his sword in hand.

Dong Xi clutched her chest. She could not care less about the pain as she stared at Eldest Senior Brother's movements.

It was also Dong Xi's first time seeing someone use sword techniques with her own eyes, and she also knew what sword techniques were like.

Liang Yan used a heavy sword, and her swordsmanship was plain and unremarkable.

However, it was because of this that Dong Xi could see it even more clearly.

In Dong Xi's eyes, the sword was like an extension of his arm. The Eldest Senior Brother's movements were neither fast nor slow, but every time he moved, the sword seemed to have the momentum to stir up the wind and clouds.

The sword slashed down with the power of heaven and earth. When it hit the demon beast outside, it immediately cut a three-meter-wide deep pit.

Even the City Lord of Fotai City sighed. "He's so young and has already comprehended so much. His future is boundless!"

At this moment, the chaos in Dong Xi's mind was like the clouds had been cleared and the moon had appeared. She hurriedly sat down cross-legged, closed her eyes, and entered a profound realm.

A sword was a weapon. Even if it was a spirit tool or a treasured tool, it would be too narrow to use it as a medium to unleash one's strength.

Borrowing the power of the sword, the power of heaven and earth, the power of thunder and lightning.

In this way, she could borrow the force, using it for herself. Even if it was an ordinary sword, it could not be underestimated.

...

Ke Xin sat by the side and watched as Dong Xi suddenly entered a meditative state. Although she did not know what was going on, she did not dare disturb her and could only stand guard obediently by Dong Xi's side.

After the Beast Tide outside the city was resolved, Song Qingfeng and Liang Yan entered the city with Li He and returned to the encampment of the Ningnian Sect.

Song Qingfeng shouted as soon as he entered the door, "Little Daoist Nun! Hurry up and come out!"

He did not see Dong Xi for a long time, but instead, Ke Xin ran down from above.

Ke Xin cupped her fists and bowed to her Senior Brothers. Li He asked, "Junior Sister Dong Xi isn't here?"

Ke Xin pointed at the pavilion with a strange expression and said, "She's meditating on the roof."

When Liang Yan and the other two heard this, they were all shocked. Wasn't her attitude too good?

The Beast Tide had surrounded the city, yet Dong Xi was still able to enter a meditative state and cultivate?

Li He was also very surprised. He asked Liang Yan, "Is Junior Sister Dong Xi always this hardworking?"

Liang Yan did not say anything, but Song Qingfeng said proudly, "That's right. Otherwise, how could she improve so quickly with such poor aptitude?"

It was rare for Liang Yan to agree with Song Qingfeng, "That's right, Little Junior Sister has always been this hardworking."

As soon as Liang Yan finished his words, Song Qingfeng had already walked up and said lightly, "I'll go up to see her."

The rest of the people quickly followed.

When they reached the roof, they saw that Dong Xi's eyes were closed. It was as if her entire person was about to merge into the world. They were all very shocked.

At this moment, Dong Xi was no different from everything on the roof. He could not feel her spiritual aura at all. They could not even feel her breathing or heartbeat.

The Great Dao was the simplest. The more simple it was, the more it showed that the Dao she had comprehended was not ordinary.

The corners of Li He's lips curled up into a bitter and envious smile. He looked at Ke Xin and asked, "Junior Sister, you said this is meditation?"

Ke Xin didn't understand why Li He had such an expression, so she asked in confusion, "Isn't this meditation?"

Song Qingfeng gently waved his folding fan and said with a smile, "Of course not. She's in a state of Enlightenment now. I didn't expect this Little Junior Sister to be a genius!

Hearing Song Qingfeng's words, Ke Xin's face was also filled with happiness, and she also puffed out her chest.

Even the Alchemy Sect's Second Senior Brother said that the sisters were geniuses. The sisters were too powerful! Ke Xin had such an amazing sister, so of course, she would be proud!

Liang Yan noticed Ke Xin's small action and asked, "When did she start to gain Enlightenment? What did you see?"

Chapter 93 - The Future Grandmaster of Alchemy

Chapter 93: The Future Grandmaster of Alchemy

Ke Xin thought about it seriously for a moment. When she looked up, she saw the three of them staring at her. She said sternly, "That's right. It was when she saw Eldest Senior Brother using a sword."

"What?"

He had also seen Eldest Senior Brother use a sword, but why did he not have any Enlightenment?

Li He coughed and continued to ask, "I'm sorry, is Junior Sister Dong Xi from the Sword Sect?"

Song Qingfeng rolled his eyes at Li He and said, "Junior Brother, you're shallow."

Li He was stunned and asked, "What's wrong?"

In the next moment, Ke Xin's voice carried a hint of showing off and naively said, "My Sister is a future alchemy grandmaster, how could she be from the Sword Sect?"

Li He looked at Dong Xi and Liang Yan in disbelief and whispered, "Umm... Eh..."

Forget about Senior Brother Liang Yan. After all, he was a genius. But now, another one had come!

The two alchemists were even more talented than Li He, who was from the Sword Sect?

Li He suddenly felt a little tense.

Liang Yan also realized that Li He's Dao Heart was unstable. He looked at Li He and said, "Li He."

The voice carried a Buddhist mantra. The others could not hear anything, but to Li He, it was deafening.

Li He came back to his senses. Liang Yan said, "Everyone has different opportunities. It's only a matter of time."

Liang Yan's casual words almost caused Li He's heart to waver. Embarrassed, Li He cupped his fists at Liang Yan and said, "Thank you for your advice, Senior Brother."

"Let's go," Song Qingfeng said with a smile. "We shouldn't disturb Junior Sister's enlightenment. Eldest Senior Brother can stay here to protect her."

Liang Yan was speechless. He frowned and said in a low voice, "You're really good at instigating people."

A glint of success flashed in Song Qingfeng's eyes as he said with a smile, "If Senior Brother is not willing, I can stay here."

"Forget it, you guys can leave now," Liang Yan said with a wave of his hand.

Song Qingfeng walked down with Ke Xin and Li He, and the low-level disciples in the encampment immediately served tea.

Song Qingfeng took a sip, frowned, and stopped drinking.

Ke Xin, on the other hand, finished the entire cup of tea and asked Song Qingfeng, "Senior Brother, how much more time does Little Xi need?"

Song Qingfeng played with his folding fan and said lightly, "It's hard to say. It depends on Dong Xi's comprehension. If she's good, she might even take a year or so."

Of course, Dong Xi was still young and did not have much experience, so she probably would not need that long.

Ke Xin's mouth was wide open in shock. Song Qingfeng put away the fan in his hand, stood up, and asked, "Do you have a room? I'm going to rest first. When that girl wakes up, just call me. "

However, no one had expected this.

This wait really took half a year.

In this period of time, Ke Xin had already broken through to the second level of the Qi Refinement stage. Although her cultivation level was still low, she had already reached the threshold of the new disciple trial.

Eldest Senior Brother was still meditating on the roof, guarding Dong Xi while Second Senior Brother remained in his room. Ke Xin was so bored that only Li He was able to chat with her.

Li He said, "This year's trial for new disciples will be led by Eldest Senior Brother Liang Yan. He will give each of you a spirit talisman. If you encounter any danger, you will automatically come out of the Secret Realm."

Ke Xin was both curious and uneasy. She pressed her head on the table and asked, "Senior Brother, what's inside the Secret Realm? Is it dangerous?"

Li He answered, "There are all sorts of things inside. Spirit plants, demon beasts, and some demon beasts can even be tamed as demon pets. There are also some rare natural treasures. As for those demon beasts, they were all selected by the sect to train and reward new disciples. Although it's a little dangerous, Immortal cultivation is a heaven-defying cultivation in the first place. How can there be no danger at all? Compared to the other Secret Realms, the sect's newbie Secret Realm is already considered very safe. You'll know when you get there."

Ke Xin's interest was piqued when she heard Li He's words. She could not wait to enter the Secret Realm.

"I hope Little Xi wakes up soon," Ke Xin said with a sigh. "It'll be a pity if she misses the Secret Realm."

Li He smiled and said, "If she can have more time to gain Enlightenment, perhaps she will gain more than going to the Secret Realm. Eldest Senior Brother is right. Everyone has their own opportunities. Whether it's a blessing or a disaster, you can't avoid it."

After two days, Liang Yan, who had been meditating with his eyes closed, opened his eyes.

He looked at the little girl who had been sitting there for half a year without moving. Suddenly, he realized that the little girl's fingers moved, and so did her shoulders.

"The little brat should be waking up soon," Liang Yan muttered to himself. A smile appeared on his face, and the next moment, he heard a loud sneeze.

Chapter 94 - Thank You, Senior Brother

Chapter 94: Thank You, Senior Brother

The people in the room were shocked and ran upstairs.

Dong Xi was just about to stand up, but she swayed and inhaled a breath of cold air.

Liang Yan hurriedly stepped forward to support Dong Xi's arm.

Dong Xi turned around and saw Liang Yan's face. She revealed a smile that was uglier than crying and called out, "Eldest Senior Brother."

Liang Yan immediately used his spiritual energy to probe Dong Xi's meridians. He asked, "Where do you feel uncomfortable?"

Dong Xi bent over and rubbed her legs, saying with a smile, "I'm fine. My legs are just numb from sitting for too long."

Liang Yan was a little speechless. Coincidentally, everyone in the room had also come up to the roof and heard Dong Xi's words.

Ke Xin couldn't help but laugh out loud. Dong Xi looked at the crowd with an embarrassed expression. No one had expected her to be on the roof for so long. She was covered in dust, and even the slightest movement would cause her to fall off.

Dong Xi could not hold it in and sneezed. Liang Yan could not stand it and cast a cleaning spell.

Only then did Dong Xi feel better. She cupped her fists at Liang Yan and said, "Many thanks, Senior Brother."

Unexpectedly, just as she raised her hand, her sleeves actually became much shorter.

Dong Xi was stunned for a moment. He looked down at the clothes and said, "Ah... I seem to have grown taller?"

"Of course," Ke Xin said with a smile. "You're getting older, so you grow taller. Isn't that good?"

"It's indeed good," Dong Xi said in a low voice.

Dong Xi furrowed her brows and thought for a moment before continuing, "When we were buying clothes, the waiter said that the clothes would automatically become fitting. Why is it short now?"

When Li He heard Dong Xi's words, he said with a smile, "Maybe there's a one-time use formation on the clothes. It won't change if you keep growing taller."

"You really get what you pay for," Dong Xi muttered with a frown.

Li He pondered for a moment, then took out a set of clothes from his storage ring and handed it to Dong Xi. Li He said, "Junior Sister, I haven't worn this set of clothes yet. If you don't mind, you can put it on first."

Before Dong Xi could say anything, Liang Yan, who was beside him, said, "No need,"

Dong Xi turned to look at Liang Yan. Liang Yan also took out a set of clothes and said, "This is a set of Sky Sea Silk Clothing. I don't like this color, so Junior Sister can just wear it."

Dong Xi's gaze fell on the white clothes in Liang Yan's hands, then back to the white clothes he was wearing. She was a little confused.

How did Eldest Senior Brother lie without panicking or blushing?

Dong Xi bit her lip and cupped her fists at Liang Yan. "I don't deserve it. I really don't dare to accept such good clothes from you."

Liang Yan's expression did not change, as if he was not surprised by Dong Xi's words. He said, "It's okay. If Junior Sister feels bad, remember that you still owe me 60 years' worth of pills. When we go back, Junior Sister will help to refine them and hand them over to the sect."

What? 60 years? Dong Xi was dumbfounded. Even if she added both of them, it did not even surpass 30 years! Now, Liang Yan was asking Dong Xi to work for him for 60 years just for one piece of clothing?

Dong Xi cupped her fists and continued, "Senior Brother, I feel that although the clothes are a little short now, they're not bad. Let's leave it at that for now."

Lian Yang frowned. Before he could say anything, Ke Xin went up to Dong Xi and whispered to her.

Ke Xin asked, "Little Xi, you've taken quite a long time this time. What did you gain Enlightenment about?"

Since they were all from the same sect, Dong Xi did not hide anything and casually said, "I comprehended a trace of borrowing the momentum of heaven and earth for your own use."

Then, Dong Xi saw Ke Xin's bright eyes. Ke Xin quickly said, "So awesome? Show me what you've got!"

Dong Xi immediately said with some difficulty, "What? Are you sure you want to see it?"

Ke Xin immediately nodded like a little chick eating. Dong Xi sighed helplessly. “Okay then.”

When Dong Xi said this, Li He also looked at her expectantly. He was waiting to see what Dong Xi had comprehended in half a year.

Dong Xi stretched out her hand, and with a thought, a leaf from a tree on the roof fell into her hand.

Dong Xi immediately held up the leaf happily and showed it to everyone, “Take a look? Aren’t I amazing?”

Ke Xin was dumbfounded. Following Dong Xi’s actions, she controlled her spiritual Qi and took a leaf from the tree. She then asked, “Is it like this?”

Dong Xi was stunned. She looked at the leaf in her hand and then at her own, deep in thought.

Only Liang Yan understood that Dong Xi had borrowed the power of the wind. The leaves had been delivered to Dong Xi by the wind, while Ke Xin’s leaves had been plucked by her own spiritual energy.

Liang Yan thought that his Little Junior Sister had such good comprehension at such a young age. Her future was bound to be boundless.

The few of them came down from the roof. Dong Xi seemed to have thought of something and hurriedly asked, “Has the Beast Tide retreated?”

“It has subsided a long time ago,” Ke Xin said. “You’ve been in a state of Enlightenment for half a year. The outside world has been peaceful for a long time.”

Chapter 95 - Wishful Thinking

Chapter 95: Wishful Thinking

“What? Half a year?” Dong Xi was extremely shocked. There was no time in cultivation. This saying was indeed true. Dong Xi did not think that the days would pass so quickly. No wonder her clothes were so small.

“That’s right,” Ke Xin said. “Half a year. In the beginning, the seniors thought that you would wake up in at most half a month. No one expected you to actually take half a year.”

While they were talking, Li He called out Song Qingfeng.

Every time Song Qingfeng appeared, he paid great attention to his appearance, but this time, he was in a daze.

“Little Daoist Nun,” Song Qingfeng said. “You’ve been in a state of Enlightenment for a long time. If you continue like this, even I’m going to break through here.”

Dong Xi looked at Song Qingfeng’s confused face and knew that he had just woken up. Could it be that he could cultivate in his sleep?

Dong Xi was extremely envious of such an ability. She asked, “Senior Brother, you’re cultivating in your sleep? Can you teach me?”

Hearing this question, Song Qingfeng smiled and said, “Wishful thinking.”

Dong Xi immediately wilted and lay on the table.

When Liang Yan saw Dong Xi’s dejection, he explained, “There’s no such technique. It’s because of the Song family’s bloodline.”

Dong Xi was even more envious. No wonder those clans could have such a high status in the cultivation world.

He had already won from the moment he was born, and the others could only admit defeat.

“That’s so great!” Dong Xi sighed.

Dong Xi’s talent was average and she did not have any bloodline, so she could only read the inner scroll.

Song Qingfeng played with his folding fan and said, “Stop sighing. It’s been half a year. Hurry up and go back. Otherwise, Master will think that Eldest Senior Brother and I sold you to someone else!”

When Dong Xi heard this, she also recalled the great snake that had been left in her Immortal’s cave for half a year.

In her previous life, Dong Xi had also raised a cat. Once, she had gone out for three days because she had to do something.

When she returned home, the kitten was mad at Dong Xi. Not only did it not let Dong Xi touch it, but it even scratched Dong Xi.

She had left the snake for half a year this time. How would the snake deal with her?

Forget it. Anyway, she had not been back for a few months. At most, she would just let the snake throw a little tantrum.

They bade farewell to Li He and took the teleportation formation of the Ningtian Sect.

Originally, 20 people were needed to return from Fotai city, but Second Senior Brother was rich and generous, so he just set off.

After returning to the sect, Dong Xi was in a good mood. Although the Ningtian Sect did not treat her any different, to Dong Xi, who currently had no family or friends, it could be considered a place to return to.

Dong Xi's stretched lazily bade farewell to the others, took out her little leaf, and prepared to return to her cave.

But Song Qingfeng asked her to wait. Dong Xi turned around and threw a cloth on her face.

"Senior Brother, what are you doing?" Dong Xi asked, puzzled.

"Look at your clothes," Song Qingfeng said. "They're really tattered. Wouldn't you be disgracing me if you go out? Go and change your clothes immediately."

"I can't accept this!" Dong Xi felt that her communistic willpower was about to be broken. They can't keep using materialistic things to erode her poor soul!

Song Qingfeng immediately laughed and said, "Little Daoist Nun, do you really want to calculate it this way? Then how much should I charge for the little leaf?"

The solemnness on Dong Xi's face instantly collapsed. In the end, she could only mutter in a low voice, "Didn't you want to lend it to me first? I can just pay the rent."

Dong Xi lowered her head. Song Qingfeng looked at Dong Xi's ponytail.

Song Qingfeng suddenly felt like laughing. He had never met such a girl before. Sometimes she was clever, and sometimes she was like a fool.

Song Qingfeng also said, "That's fine."

Dong Xi looked at the storage ring with a pained expression and asked, "Senior Brother, how much is the rent for this?"

Song Qingfeng played with the folding fan in his hand, thought for a moment and said, "Why don't I ask Junior Sister to help me make all the pills I owe the sect!"

After Dong Xi heard this, he suddenly had a bad feeling and immediately asked, "Senior Brother, how many years do you owe?"

Song Qingfeng said with a trace of mockery, "Not a lot, just 60 years."

Dong Xi, "..."

Dong Xi was a little suspicious now. Had Eldest Senior Brother and Second Senior Brother already discussed that they both owed 60 years? Why didn't the Sect Master drive them out?

"Can I refuse?" Dong Xi tried to struggle.

"It's not impossible. Perhaps you want to help me with something else?" Song Qingfeng's expression was as if he was waiting for Dong Xi to jump in.

Dong Xi took the clothes and asked curiously, "What is it?"

Song Qingfeng turned his head and said with a proud smile, "Can you help Senior Brother catch two deep sea Flood Dragons to use as mounts?"

The anticipation on Dong Xi's face immediately disappeared and she quickly said, "Forget it, I'll choose alchemy and refine you the pills!"

Chapter 96 - Debt

Chapter 96: Debt

Song Qingfeng turned around with a smile, and his figure slowly disappeared. Before he disappeared, Song Qingfeng said, "After refining 60 years' worth of pills, the debt between us will be cleared. That little leaf will be yours."

Dong Xi retracted her gaze and looked at the clothes in her arms. She thought of the debt she was in and wanted to cry, but she couldn't.

By the way, Dong Xi still owed him half a year. It was a total of 60 and a half years.

“Forget it, I haven’t refined any medicinal pills yet anyway, so I’ll just treat it as practice.”

By the time all these debts were paid off, even if her alchemy technique was not top-notch, it should be close to top-notch by then. At that time, she would be considered an alchemy master!

Dong Xi put the clothes made of an unknown material into her storage ring, took out her little leaf, and flew back to the cave abode.

They passed by the small wooden house outside. A year had passed, and many things had already grown in the garden. The flowers were also exceptionally beautiful. Dong Xi could not help but sigh.

At this time, the noonday sun shone on the flowers, making them even more vibrant.

Seeing that the wooden house seemed to be empty, Dong Xi thought about how she had watered it for a long time. It would not be too much to pick a flower and bring it back, right? Just one flower was good.

Dong Xi controlled the magic tool to land in front of the flower garden, and a refreshing fragrance wafted over.

Dong Xi took a deep breath. Her face was filled with happiness. She lowered his head and saw a bright red flower. This flower seemed to have been watered by blood.

Dong Xi was about to ruthlessly destroy the flower!

After thinking for a moment, she did not take it down in the end. Instead, she dug it up along with the soil and roots.

At that time, would it not be better to focus on the outside of the cave?

Dong Xi had just reached out to push away a bit of the soil when she touched something hard.

She dug it out curiously and found two scales.

Dong Xi picked up the scale and pondered for a moment. Her expression changed and he hurriedly put it away in her storage ring. Then, she quickly dug out the flower.

She used an earth-type spell to restore the nursery before jumping onto the magic tool and flying toward the inner sect.

Dong Xi thought for a moment. The black snake should like to sleep very much, so it probably would not wake up now, right?

Dong Xi decided to first make a trip to her Master's cave abode. Only when she arrived did she discover that her Master had actually gone into seclusion.

Left with no choice, Dong Xi could only return to her cave abode and quietly open the restrictions.

She had thought that the cave would be full of dust, but recently, she found that the cave was very clean, and the snake was not here.

"He left?" Dong Xi muttered to herself. "Forget it, it's fine if he leaves. It's just that I've raised the big snake for so long, and he didn't even say goodbye when he left."

Dong Xi went outside to plant the flower, then came to the pond in the backyard to take a bath.

She held a handkerchief in one hand and some flower petals in the other, planning to take a flower bath.

However, she did not expect to see a man by the pond when he walked over. The lower half of his snake tail was reflecting the water, and his upper body was already wet and stuck to his body. Dong Xi could clearly see the outline of his figure.

She did not expect that someone would shower without taking off their clothes. What kind of habit was this?

Su Cheng turned over and supported his head with one hand. He squinted at the little girl who seemed to be a little taller.

He had thought that this girl had escaped with his inner core. Now, she had actually returned with some flowers.

Su Cheng could clearly feel his aura all over the flower.

Dong Xi immediately felt a little embarrassed. She tried to break the awkwardness by playing dumb and said, "Haha, it's been a long time,"

"I haven't seen you for half a year, and your cultivation hasn't improved at all," Su Cheng said coldly.

Dong Xi, "..."

Suddenly, she did not want to pay attention to the snake. She cast a cleaning spell and walked into the cave.

As soon as Dong Xi entered the door, Su Cheng followed.

Dong Xi looked at him, thinking that the snake was going to say something venomous, but Su Cheng said, "Where did this flower come from?"

When Dong Xi heard the black snake change the topic, she did not react in time. The snake felt a little bored and said indifferently, "I'm still looking for the scales that I left in the outer sect residence."

Dong Xi took out the scale from her storage ring and handed it to the snake. Dong Xi said, "Here, I'm returning it to you."

Su Cheng looked at it indifferently and casually said, "I'll give it to you."

Anyway, Su Cheng could not put the scales back. The scales would grow again the next time it shed, so it was useless to keep it.

The snake's words surprised Dong Xi. This great demon had given her his inner core and scales? Was he going to give him the snake blood next time? Finally, possession?

It shouldn't be, right? Dong Xi's aptitude was average, but the black snake actually 'took a fancy' to her?

Dong Xi's face turned pale as she thought about it. She quickly said, "I don't want to!"

Su Cheng glanced at her and said with disdain, "I'm not willing to give it to you either. But you're just too weak. If you suddenly die, you'll implicate my inner core!"

Share to your friends

When Dong Xi heard this, she felt a little embarrassed.

"Hmph, even if you die, I can't die!" Dong Xi gritted his teeth.

"That's right," Su Cheng nodded. "Good people don't live long, but evil people live for a thousand years."

Dong Xi, "??"

Could snakes be so shameless? Didn't the black snake have any sense? How could he say such vicious words?

"Don't you have any conscience?" Dong Xi's eyes widened. "Who's the scourge, you or me?"

Su Cheng frowned and said, "I don't. All I know is that a little girl ate my inner core."

Dong Xi was instantly furious. She said, "Then quickly take the inner core out and leave this place."

Su Cheng glanced at Dong Xi and softly grunted. His voice was so gentle that Dong Xi thought she had heard wrong. Then Su Cheng said, "That's right. It's time to leave. I'll leave the inner core with you for the time being."

Dong Xi was stunned for a moment and hurriedly said, "You're not even bringing your inner core?"

"You really think I don't want to?" Su Cheng said indifferently.

Dong Xi saw the hidden bitterness in Su Cheng's eyes. After a moment of silence, Dong Xi said, "Forget it, it's fine if you don't want to bring it. When your cultivation base is back, remember to come back and get it. I was really screwed over by this inner core."

Then, Dong Xi gave the two bottles of Five Element Blood Clot Pills she had exchanged at Rainbow Store to Su Cheng. Dong Xi said, "I used the inner core you gave me to change for some medicine."

After saying that, she even gave him a communication jade slip. Dong Xi continued, "This is the communication jade slip. I've bought it for you. You can use it after you drip your blood on it."

After giving everything to Su Cheng, Dong Xi turned around and walked to the practice room. As she walked, she said, "Don't forget to close the door when you leave. I'm going to cultivate!"

Su Cheng looked at the things in his hands and then at Dong Xi's back, a strange look flashing in his eyes.

Demon beasts all grew up barbarically and basically did not know how to refine pills. The Five Element Blood Clot Pill was at least a third-grade pill. It was worth a lot among demonic beasts, and she actually gave it away?

Su Cheng touched the porcelain bottle, still confused.

Weren't humans all cunning and selfish? Why was this little girl so different from other humans?

Su Cheng's divine sense examined Dong Xi's body and found that she was wearing a bead necklace, but it could only block the detection of Foundation Establishment cultivators. The mark Su Cheng gave her could block anyone below the Golden Core stage. Basically, she wasted her money.

Su Cheng stood at the door for a long time. After taking one last look, he disappeared with the porcelain bottle.

Dong Xi had also been paying attention to Su Cheng's movements. Only when Su Cheng really left did she quietly heave a sigh of relief.

The serpent was right in front of her Master, but he had not been discovered. It must be a very powerful great demon, and Dong Xi did not dare to offend it.

With such a great demon by her side, how could Dong Xi cultivate in peace? Perhaps it was good that he left now.

Tomorrow, Dong Xi would definitely go to the Library Pavilion and look through it to see what exactly was going on with her constitution. She would also need to find out how she could take out the snake's inner core.

If she did not take it out, the big snake would come looking for her for the inner core sooner or later.

In the half a year that she had spent in Enlightenment, her cultivation had not improved at all. However, she could clearly sense that her state of mind had improved significantly, and it would be much easier for her to cultivate in the future.

The moon hung high in the sky. Dong Xi immediately sat cross-legged and dispelled all distracting thoughts.

Su Cheng, who had disappeared for half a day, returned to the courtyard and dripped a drop of blood on the flower. The originally bright red flower was now purple.

Su Cheng waved his hand and his aura on the flower was wiped away. He looked at the cave, then turned around and completely disappeared.

At the same time, there was no longer any trace of Su Cheng's aura in Ningtian Sect.

The next morning, Dong Xi slowly opened her eyes.

She stretched her back, cast a cleaning spell, and ate a Fasting Pill before heading to the library.

With her current cultivation, Dong Xi could only read the books on the first floor, hoping to find the answer she wanted here.

There was a collection of all kinds of books in the Library Pavilion of the Ningtian Sect. When Dong Xi first came here, she found a dual cultivation technique. Her face turned red and her eyes widened as she read it, but in the end, she quickly fled the place.

On this trip to the Library Pavilion, Dong Xi avoided the cultivation techniques and headed straight for the general knowledge section.

For a month, Dong Xi cultivated at night and roamed the ocean of knowledge during the day.

A month later, two eyes discovered that Dong Xi had not signed up for the sect's new disciple trial and could not be contacted.

After asking around, they got some clues from Ke Xin.

Liang Yan immediately went to the Library Pavilion and saw Dong Xi sitting on the ground with a book in her hand. There were many books around him.

Liang Yan took a quick look. 'Human Body Structure', 'Questions on Human Anatomy', and 'How Strong Is an Innate Spirit Body'...

Liang Yan, "..."

"Little Junior Sister," Liang Yan called out softly.

Dong Xi's thoughts were interrupted, and she raised her head in anger.

Seeing that it was Eldest Senior Brother, Dong Xi was stunned for a moment and asked, "Senior Brother, what are you doing here?"

Liang Yan frowned. "I couldn't get in touch with you. The sect trial is about to begin. Registration started seven days ago, and today is the last day. Aren't you going to register?"

Dong Xi had previously heard Ke Xin say that every batch of new disciples who had reached the second level of Qi Refinement could register to participate in the sect's trial test.

Trial! That was clearing a dungeon, right? All the lucky ones would start their counterattacks from here.

Dong Xi did not dare to hope for a counterattack, but if she could go in and obtain two heavenly treasures, that would be great!

Dong Xi put down the book and stood up. She quickly nodded and said, "I'll register! I must register!"

Liang Yan immediately took out a scroll.

After opening it, he took out a writing brush and wrote Dong Xi's name on it.

"Thank you, Senior Brother, for making you come personally," said Dong Xi with a smile.

"How do you plan to thank me?" Liang Yan nodded.

Song Qingfeng had shown off to her countless times, and Dong Xi had promised to help him refine pills for 60 years.

Liang Yan felt that this was unfair.

Why could she take Song Qingfeng's clothes but not his?

When Dong Xi heard his Eldest Senior Brother say this, she was stunned at first. After thinking for a moment, she said, "How about I arrange for Eldest Senior Brother to have a meal?"

"A meal?" Liang Yan asked, confused.

Liang Yan was now 150 years old. He had become a disciple of his Master at the age of seven, and had not eaten for 143 years.

"Yeah!" Dong Xi nodded. "A meal! Come to my Immortal's cave abode and have a small barbeque, enjoy the night breeze, eat barbeque, and drink some wine. Isn't that great?"

Dong Xi's thoughts had already drifted back to her high school days. On the day of graduation, she and her classmates had had a lot of barbecue and beer. They were happy and sad at the same time. They had even promised to meet up often in the future, but that day had become their farewell.

Dong Xi sighed in her heart, feeling a little sad.

"You can't drink," Liang Yan said.

Dong Xi was stunned for a moment as she looked at Liang Yan.

Liang Yan placed his hands behind his back and lowered his head to look at Dong Xi. With a serious expression, he said, "You're just a little girl, yet you still want to drink. If Master finds out, he'll definitely punish you to clean the mountain path."

When Dong Xi heard this, she felt a little strange.

Liang Yan saw that Xi had her head lowered and her expression was a little dejected. He thought that Dong Xi had already taken his words to heart, so he asked, "What's this barbecue you're talking about?"

Dong Xi did not expect Liang Yan to not know what barbecue was. Dong Xi was very shocked and raised her thumb and said, "Eldest Senior Brother is indeed an Immortal. He's above the common mortals!"

Liang Yan frowned and said, "Why do I feel like you're not saying anything good?"

"So you're not going for the barbecue?" Dong Xi said with a smile.

"I'm going!" Liang Yan said.

Liang Yan did not have much of a desire for food, but he was very interested in Dong Xi's so-called barbecue.

Dong Xi placed all the books on the floor back onto the shelf. Only then did Liang Yan see the book in her hand.

'How to Give the Strongest Demon Beast Body to Humans'

Liang Yan, "??"

There were many ways of cultivation, but one must never be evil.

Liang Yan was afraid that Dong Xi was young and insensible, and would walk the path of evil, so he was prepared to give her a good beating.

"Dong Xi," Liang Yan called out.

When Dong Xi heard this, she turned around and saw her Eldest Senior Brother's serious face. His aura was comparable to that of a middle school teaching director.

Dong Xi was shocked and immediately asked carefully, "S-Senior Brother, did I put my book in the wrong place?"

Liang Yan frowned and shook his head. When he saw the little girl heave a sigh of relief, he said, "You can read books, but in the future, don't read random books. There are no shortcuts in the path of Immortal cultivation. You have to cultivate step by step."

Dong Xi listened for a long time before he slowly understood.

It turned out that Eldest Senior Brother had seen the title of the book and thought that Dong Xi was being reckless. How could she have the Strongest Demon Beast Body? Dong Xi only wanted to remove the inner core from her Dantian, and it was that simple.

“Have you memorized everything?” Liang Yan asked.

Dong Xi realized that when Eldest Senior Brother lectured someone, he was actually so eloquent. How could she dare to say that she didn’t? “I have!”

Seeing that Dong Xi’s attitude was sincere, Liang Yan brought her out of the Library Pavilion. He took out his flying sword and asked Dong Xi to come up.

Dong Xi thought of her unpleasant flight and decisively refused the Eldest Senior Brother.

“Eldest Senior Brother, you can go first. Junior Sister will be there in a moment,” said Dong Xi.

As she spoke, Dong Xi immediately took out her little leaf.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

No matter what, this was the little leaf that she had exchanged for with a huge debt. Wouldn’t it be a waste if she did not use it?

Liang Yan flew slowly in front, occasionally checking on Dong Xi, who was moving at a turtle’s speed behind him. Fortunately, the Alchemy Sect was not very big, or this dinner would probably have become supper.

When Dong Xi returned to her cave abode, she found that Song Qingfeng was there.

Song Qingfeng was very curious when he saw the two of them come back one after the other. He asked, “Why are you two together?”

“Eldest Senior Brother came and find me to register for the trials,” said Dong Xi. “I’ll treat you to some barbecued meat.”

Hearing this, Song Qingfeng immediately said, “Why do you want to eat that? It’s stinky and unpalatable.”

“How can it taste bad?” Dong Xi asked, puzzled.

As soon as he finished speaking, Dong Xi thought of why Song Qingfeng was here and asked, "Second Senior Brother, what brings you here?"

Song Qingfeng's face turned serious as he said, "Of course I came to take a look, but I couldn't contact you. You promised me 60 years of pill refinement, but a month has passed and I haven't seen a single pill. I want to see what you're busy with every day, Junior Sister."

"I went to the Library Pavilion to read," Dong Xi coughed a few times and said.

As Dong Xi spoke, she shot a look at her Eldest Senior Brother, afraid that he would spout nonsense. She really would not be able to explain himself.

Luckily, Liang Yan did not say anything this time. It was Song Qingfeng who asked curiously, "Reading books? Why don't you ask me if there's anything you don't know?"

Dong Xi was stunned for a moment. She had long been used to relying on herself for everything, and for a moment, she did not think that she could ask her two Senior Brothers.

Dong Xi's eyes brightened. She looked at Song Qingfeng and then at Liang Yan, and immediately said, "What do you guys think? Is this possible? I'm saying that maybe... Well... If humans accidentally swallowed the inner core of a demon beast? Could the human use the spiritual energy of the inner core?"

As soon as she finished, Song Qingfeng knocked Dong Xi's head with his folding fan and said seriously, "What are you thinking about all day? The path of Immortal cultivation can only be filled with diligence, one can not walk the path of evil!"

Song Qingfeng used a lot of strength this time. Dong Xi held her head and felt a bump immediately.

Dong Xi raised her head and looked at Song Qingfeng with grievance, "I didn't walk the evil path, I'm just... Just..."

Dong Xi could not finish her sentence after a long time. She could not just say that she had eaten the inner core of a great demon, right?

She was really suffering in silence. In the end, Dong Xi muttered in a low voice, "I'm just curious!"

"That won't do either!" Song Qingfeng said seriously.

Song Qingfeng was usually a happy-go-lucky person. It was rare for him to be so serious, which surprised Liang Yan.

"I know that I cant, but... Is something like this possible?" Dong Xi asked with a frown.

Song Qingfeng's eyes flashed, as if he was about to teach her a lesson.

"No, it's not possible," Liang Yan said directly.

Dong Xi turned to look at Liang Yan. Liang Yan continued, "The inner core of a demon beast is extremely violent. Even if you use spiritual energy to suppress it, the violent energy will not disappear. It will only accumulate in the body. As your cultivation level increases, this violent nature will trigger Mental Demons at any time. Almost no one has been able to overcome this kind of Mental Demons from appearing."

Dong Xi's face was full of shock, and Song Qingfeng also scolded, "Don't even think about taking shortcuts. You've been cultivating for tens of thousands of years. Someone has already tried these evil ways. What you're cultivating now is the essence that has been improved many times by your ancestors. These little tricks will not work. You'd better cultivate diligently."

Although Dong Xi could not clearly explain her own situation, one thing was certain. Her two Senior Brothers were being so strict for her own good.

"I'll remember it all!" Dong Xi said with a smile. "Since two Senior Brothers are here, why don't we call Little Senior Sister over and have a barbecue together?"

Hearing that, Song Qingfeng immediately smiled and said, "She's a Flame Bird, and you're treating her to meat?"

Dong Xi, "?"

Dong Xi had never thought about this question, but she quickly reacted and said with a smile, "It's fine, I'll roast some spirit fruits for Little Senior Sister to eat."

This time, it was Qingfeng song and Yan Liang who were dumbfounded. They asked together, "You can roast spirit fruits too?"

Hearing this question, Dong Xi replied with a serious face, "I can roast anything!"

Song Qingfeng and Liang Yan were confused, but seeing Dong Xi's serious look, they were even eager to try.

At this moment, Dong Xi also thought of Senior Brother Rui Xiang, and immediately said, "Since we're going to roast the spirit fruit, I'll call Senior Brother Rui Xiang over to eat together> Also, my Sister Ke Xin too!"

Liang Yan could not understand. It was originally Little Junior Sister thanking just him. How did it become a big dinner party?

Share to your friends

When Dong Xi sent the message to Chi Yan, Chi Yan hesitated for a moment before agreeing. Rui Xiang and Ke Xin had not hesitated at all, and had excitedly agreed.

It was just that Ke Xin could not enter the inner sect, so he could only ask Senior Brother Rui Xiang to help bring her in.

The two Senior Brothers, who had abstained from food for a hundred years, followed along to enjoy the meal. Dong Xi started a fire. The wood was found under the spirit fruit tree, and the meat was also caught from the mountain.

She washed the meat with the water in the pond, threaded it on a tree branch, and smeared some ingredients on it. When she pickled the meat, Dong Xi also skewered many spirit fruits.

When everything was ready, Dong Xi used the inferior fireball technique to start a fire. In front of everyone, she placed the meat on the fire to roast, then sprinkled some unknown things.

Miraculously, a fragrant smell floated up.

Dong Xi handed the roasted spirit fruit to Rui Xiang and Chi Yan, and found that they were both looking at the meat skewers.

“What’s wrong?” Dong Xi said with a smile, “You want to the meat skewers?”

The two of them immediately shook their heads and said together, “No, I’m just curious.”

Liang Yan was the first to be invited to dinner, but he was the last to get the barbecue.

The fragrance was so strong that one could not help but want to take a bite.

Song Qingfeng had already put the roasted meat in his mouth. He had tried it before, but the taste was far from the same.

Could it be because Little Junior Sister had scattered some random things on the barbecue?

When they were almost done eating, Liang Yan suddenly remembered to remind the little girl. He said, “Tomorrow is the trial. You must be at the sect square at seven o’clock. Don’t be late.”

Liang Yan looked at Dong Xi as he spoke. Dong Xi immediately nodded and said, "I've never been late."

Even though she seemed a little unreliable, she was still a very punctual person.

Liang Yan looked at his two other Junior Sisters, and the two of them immediately nodded.

After Dong Xi sent everyone away, she used a cleaning spell to make the courtyard clean. She looked at the flowers she had transplanted.

She could not tell what was wrong, but it looked much better than before, and the color was more vibrant. What kind of flower was it? That day, when she read the Encyclopedia of Immortal Cultivation Plants, she did not find anything.

Dong Xi did not hesitate any longer and turned to enter the cave.

After cultivating for a night, she would enter the Secret Realm tomorrow.

Dong Xi now had the large snake's small spirit gathering array formation, so she was not afraid of the day at all. Her spiritual Qi recovered much faster.

However, she had never expected that after refining the last bit of meridians in the second half of the night, she would actually break through directly.

She broke through to the fourth level of the Qi Refinement stage just like that. Dong Xi immediately guided the spiritual Qi to circulate in her body. She only opened her eyes after her cultivation level had stabilized.

Looking at the time, Dong Xi exclaimed, "I'm finished! I'm going to be late!"

Yesterday, she had told Eldest Senior Brother that she had never been late. This was too quick a slap in the face.

Dong Xi took out a small leaf and quickly jumped on it, immediately flying towards the sect square.

By the time Dong Xi arrived, everyone had already arrived.

Liang Yan glanced at Dong Xi and noticed that her cultivation level had changed. He was surprised for a moment, but he did not say anything.

He only explained how to use the protective talisman, as well as how they would be separated when they were teleported in, making it useless to stick together.

They only had ten days in the Secret Realm, so they had to cherish it because the harvest of these ten days might be the biggest harvest they would get in the next few years.

Liang Yan had always been imposing, and now that he had become serious, his aura became even more imposing. His words made everyone excited, but they were also very restrained.

Liang Yan took out an airboat and asked everyone to board it. The new disciples were instantly excited.

Ke Xin and Chi Yan stood beside Dong Xi. Ke Xin grabbed Dong Xi's arm and said, "Why are you only here now? If it wasn't for Senior Brother hosting today and intentionally waiting for you for 15 minutes, you would have missed the trial."

"She has broken through," Chi Yan said lightly.

Chi Yan's words surprised Dong Xi. She did not know that the snake had set up a magic art to hide from her Senior Brother and Master, so it blocked those below the Golden Core stage. But she was also wearing the necklace she had bought the other day, which could block detection. She had spent so much money, and this was it?

"You can see my cultivation?" asked Dong Xi curiously.

Chi Yan did not wait for her to say anything. She knew that she should have an item that blocked divine sense, so she explained lightly, "It's the Flame Bird's talent."

Dong Xi was relieved, but she could not help but feel envious. Why were they filled with talents and skills?

It was really too good!

While they were talking, many disciples had already boarded the swift airboat. Dong Xi and the other two also hurriedly boarded.

The Secret Realm was not far from the sect. It was a small world sealed by the Sect Master.

It took about a morning to reach the Secret Realm.

The flying boat stopped in the middle of a mountain range. Liang Yan took out a scroll and cast a spell. The air seemed to have been broken by something, and circles of ripples appeared.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Slowly, a hole large enough for several people to enter and exit at the same time appeared in front of them.

Liang Yan kept the scroll and turned to the group of new disciples. "Alright, once you enter, you can begin the trial. Hurry up and go in."

Everyone looked at each other. No one was willing to be the first to jump in.

Dong Xi, however, did not hesitate at all and quickly entered the cave. She thought to herself, 'Why aren't these guys picking up treasures for free? There must be something wrong with their brains!'

Chi Yan and Ke Xin were both beside Dong Xi. When they saw Dong Xi rushing in, they were both stunned. When they came back to their senses, they quickly followed behind Dong Xi and rushed into the newly opened Dimensional Rift.

When the crowd saw the three of them enter, they began to feel anxious and shouted one after another.

"Don't push!"

"Argh! Who touched my butt!"

"Don't push! I don't see anyone in front!"

...

Liang Yan looked at the chaotic crowd and finally could not help but wave his sleeves and stuff all of them in.

After a moment of silence, Liang Yan once again cast a spell, and the Dimensional Rift closed bit by bit. In the end, it disappeared as if it had never existed.

Liang Yan sat down cross-legged. These new disciples would only be able to come out after ten days, so he could have ten days of peace and quiet.

Dong Xi entered the door and felt a strong suction force. Then, she felt the world spin, just like she had played with a swivel chair in an amusement park in her previous life.

Not long after, she felt a sense of weightlessness.

"Ah!" Dong Xi covered her butt and stood up from the weeds. She looked around and started to feel a little dazed.

Dong Xi, who had landed, stood in the middle of the swamp. She was surrounded by swamps, and only this place was clean.

Dong Xi immediately took out her little leaf and tried to fly out, but the little leaf had just flown up when it fell to the ground, swaying.

Dong Xi was really stunned this time. He muttered to himself, "What's the situation? Could it be that there's a flying-restricting array formation?"

However, wasn't this trial rumored to be a place for picking up treasures? Why was she trapped here the moment she entered?

Based on this, Dong Xi could also be considered a 'Child of Destiny'.

...

Dong Xi pondered for a moment. She remembered that in a survival video she had watched in her previous life, it had explained that to safely cross the swamp, one had to tie a wooden board to the soles of their shoes to increase the area they could withstand the force.

However, there was no wooden board beside Dong Xi. there were only two scales given by the big snake.

Dong Xi took out the scale, but it seemed to be a little too small.

She frowned and was in a dilemma.

Since the snake could change its size, this scale should be able to do the same, right?

Thinking of this, Dong Xi wanted to try inserting spiritual Qi to see if she could make it bigger.

After Dong Xi injected spiritual Qi into it, he realized that there was no reaction at all. It was fine, Dong Xi still had the snake's inner core!

Dong Xi carefully used the spiritual Qi in her body to wrap the green spirit Qi, guiding a trace of it to inject into the scale.

Bang bang bang!

The scale in Dong Xi's hand was like an inflated balloon, instantly becoming much bigger. Dong Xi was instantly happy and continued to inject spiritual Qi.

Dong Xi only stopped when the scale had become as big as a basin.

The snake's scale was a treasure, like a spirit tool!

If Su Cheng knew what Dong Xi was thinking, he would probably laugh in disdain. This little girl had not seen the world at all.

Dong Xi attached spiritual Qi to her feet and stepped on the scales. She tried to walk to the swamp at the side. After confirming that she really did not sink, she continued to try to walk into the distance.

Dong Xi had just taken a few steps forward when a string of bubbles suddenly appeared in the swamp not far away, as if they were escaping.

Dong Xi's mind was completely focused on her feet, so she did not notice this at all.

When Dong Xi realized that she really did not sink, she immediately became happy. The snake's scales were quite useful!

Surveying her surroundings, Dong Xi chose the direction of the forest. However, just as she entered, she seemed to have discovered something and stopped.

She turned her head and looked at the patch of weeds where she had been standing.

This was clearly a swamp, so how could there be a patch of weeds there?

Especially when Dong Xi had only taken a few steps, how did the weeds become so far away?

Dong Xi immediately pretended to leave. Then, she quickly turned her head and saw a tail sticking out of the weeds before sneakily hiding away.

Only then did Dong Xi react. What weeds? That was simply a feint used by a certain demon beast to prey on other prey.

Lowering her head and looking at the endless swamp, Dong Xi suddenly felt a little uncomfortable. It was hard to say when or where something would come out.

Dong Xi raised her spirits and walked out of the swamp step by step.

Fortunately, no one dared to enter the swamp all year round. Dong Xi had also picked up some very old spirit pearls along the way, which could be considered a blessing in disguise.

Along the way, Dong Xi also received messages from Ke Xin and Chi Yan. Dong Xi could only honestly say that she was trapped in the swamp. She estimated that she would need more than 20 hours to get out.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Dong Xi had just replied to the message when the next second, her omnipotent Sister sent over a map.

After Dong Xi saw it, she sent a voice message in shock, "Sister, where did you get this?"

Ke Xin said a little haughtily, "Sister, I've always prepared in advance. I bought this from a Senior Sister who came here before. The price is one-tenth of what it costs to get it here."

Dong Xi could not help but sigh. Her sister was ruthless. She knew the principle of giving up the child to trap the wolf.

It had to be said that with this map, she could relax a lot. Dong Xi roughly looked at the map. According to her current direction, she should be able to reach the Secret Language Forest on the map if they walked further.

Dong Xi put away the jade slip and hurried to the forest.

On the way, Dong Xi could clearly feel the demon beasts below moving quickly, but what was amazing was that no demon beasts launched an attack even after she walked out.

All the demon beasts seemed to be frantically avoiding her...

Were the demon beasts in the Secret Realm so afraid of people? Were they too shy?

After walking out of the swamp, Dong Xi immediately put away the scale.

She turned around and entered the secret language forest. She had no idea that the demon beasts in the swamp had become active again after she left.

The demon beasts rejoiced. The terrifying fellow had finally left!

The Secret Language Forest was at the edge of the Secret Realm, and in the center of the map was a palace. After years of investigation and plundering by the disciples of the Ningnian Sect, the things in the palace had long been gone.

Dong Xi and Chi Yan agreed that everyone's positions were too far apart, and it would be a waste of time to search for each other. It would be better to use the time to quickly find treasures and then gather at the central palace together.

The forest was very quiet. The deeper she went, the stronger the smell of decay became.

Dong Xi used spiritual Qi to seal her mouth and nose, and asked doubtfully, "This is miasma?"

The forest was dense, and there was no sunlight in the depths of the forest. It was cold and easy to breed poisonous gas, and the demon beasts here had also become poisonous.

Dong Xi immediately held the Purple Jade Sword in her hand and injected spiritual Qi into it, nervously on guard.

At this moment, a little thing cried out and suddenly came down from the sky.

The sword in Dong Xi's hand moved without her even thinking, and she immediately slashed out.

However, this little thing's reaction was even faster. Its body actually changed direction in the air, and it pounced on a big tree at the side.

In just one exchange, Dong Xi had already discovered that this little thing was no match for her at all.

As the saying goes, pick the soft persimmons to pinch! Pick the weak demon beasts to fight!

Chase after it!

Dong Xi gathered spiritual Qi on her legs, her eyes fixed on the little thing, and her feet chasing after it without stopping.

This little thing did not look big, but it ran very fast. Dong Xi was wearing speed shoes and had spiritual Qi, so her speed was not weak either.

After chasing for a while, the little guy that Dong Xi had been staring at suddenly disappeared.

Dong Xi stopped and frowned as he looked around. How could the little fellow disappear into thin air? It must have a nest here.

Dong Xi inspected it bit by bit, and finally found something wrong with a towering tree.

"This little thing actually knows how to use illusion spells?" Dong Xi asked in surprise after checking the item.

However, the illusion spell was too clumsy. Who had ever seen grass on a tree? Dong Xi felt a little amused. Anything else was more reliable than grass.

Dong Xi immediately walked over. The closer he got, the quieter the entrance was.

Dong Xi casually cast a spell and threw out the mud.

The little fellow who was hiding inside was frightened and quickly ran out. Dong Xi was also shocked.

Seeing the little fellow run into the treetops, Dong Xi did not give chase, but looked into the cave.

As expected, there were many things in this little fellow's cave.

Dong Xi took out many spirit fruits, spirit plants, and two Cold Fire Silver Roots from the tree hole.

This was a medicinal pill that could be used to refine body tempering pills. It was a pill that was so great that body cultivators could not ask for more. Because Dong Xi was about to become a body cultivator, she naturally could not let go of such a good thing.

Dong Xi was not polite at all. She took away all the things in the little fellow's cave, but she felt that it was not good, so she put in a few spirit fruits she had brought from the sect.

After all this, Dong Xi was just about to leave when she saw a little squirrel sitting on a branch with a spirit fruit in its hand. Its watery eyes looked as if it could cry at any moment.

Dong Xi felt a little uncomfortable, but she still hardened her heart. What was the use of being cute? This was a world where the strong preyed on the weak!

Dong Xi's face was cold as she said with a serious expression, "You were the one who made the first move just now!"

The squirrel stood on the tree branch and immediately cried out twice. The man and the demon beast did not understand each other's meaning.

"If you keep doing this, I'll catch you and make you into jerky!" Dong Xi immediately said.

However, the only response was still a squeaking sound.

Chapter 103 - 103 Spirit Pet

103 Spirit Pet

Dong Xi did not want to waste any more time. She turned around to leave, but after taking a few steps, the little squirrel jumped down from the tree and climbed up Dong Xi's pants.

Dong Xi instinctively reached out to hug it. The squirrel was small, about the size of two palms. Its small body dragged a large tail. It raised its head and stared at Dong Xi with its dark eyes. It was very cute.

Dong Xi immediately said very seriously, "I can't return those things to you! Who told you to make the first move? I have to teach you a lesson so that you can be a good squirrel in the future!"

The little squirrel let out two shrill cries.

In any case, Dong Xi could not understand what it was saying, so she did not care and continued to walk forward. As she walked, she threatened, "If you don't leave now, I'll turn you into roasted meat for dinner."

When the squirrel heard that, it turned anxious and bit Dong Xi.

Dong Xi's palm was in pain, and she hurriedly lowered her head to look.

An ancient pattern appeared in the eyes of the little squirrel. Dong Xi instantly understood that it was forming a contract with her and becoming her spirit pet.

The ancient runes lasted for a while before disappearing from the squirrel's eyes.

Dong Xi noticed that the little squirrel seemed to be a little vexed. Then, new lines appeared in the squirrel's eyes. This time, the lines landed on Dong Xi's chest and then disappeared.

Dong Xi was stunned for a moment. She hurriedly touched her chest and circulated her spiritual Qi in his body twice, but she did not find anything unusual.

Just as Dong Xi was about to put the little squirrel back, a childish voice suddenly appeared in her mind, "You scoundrel!"

Dong Xi was a little surprised. Then, she looked at the squirrel in his hand and asked, "You're talking to me?"

"Of course!" Squirrel replied, "You scoundrel!"

The squirrel's eyes were filled with grievance. This made Dong Xi feel guilty for bullying a child.

On second thought, Dong Xi was only 11 years old. She was a child too, okay?

"You attacked me first!" Dong Xi argued shamelessly. "You just bit me again, so you're the bad guy!"

The squirrel said, "Songsong didn't want to bite you. Songsong wanted to form a contract with you! Otherwise, I won't understand what you're saying!"

Songsong wagged its tail, as if it was very proud of this method.

Dong Xi was silent. She had thought that this little squirrel was just a little stupid, but it was actually too stupid. It did not even know that it had sold itself.

However, what Songsong said next surprised Dong Xi. "Songsong formed a contract with you, but you've already formed a contract with someone else! I can only sign a master-servant contract, I'm so angry!"

Dong Xi understood what it meant.

But when did Dong Xi form a contract with someone else? Who was it?

Ever since the original body entered the sect, she had taken over the body.

Chi Yan was from the monster race, she had innate intelligence and could transform. She had long since broken away from the ranks of monster beasts. Senior Brother Rui Xiang was also raised by the elder, and had long formed a contract with the elder.

Other than Chi Yan and Rui Xiang, Dong Xi had only come into contact with the Flaming Frost-skin Rat, but she had already killed the rat, so there was only the great snake.

At the thought of this, Dong Xi's eyes were filled with shock, and there was only one sentence in her mind.

"It can't be?!"

But on second thought, if it was not for the contract, the snake would not have placed his inner core in Dong Xi's body and let Dong Xi run around with it, right?

Dong Xi had just entered the Immortal world, so she did not know much about forming contracts with demon beasts.

Dong Xi smiled and took out a spirit fruit from his storage ring and gave it to Songsong. She probed, "This contract, what sort of contract is it?"

"A Contract of Equals!" said Songsong.

"Can there only be one contract?" Dong Xi continued to ask.

Songsong explained, "No, but your consciousness is weak and the one you formed the contract with is too powerful."

After listening to Songsong's explanation for a long time, Dong Xi finally understood.

Simply put, Dong Xi was too weak.

Dong Xi sighed. "You can't blame me for this. You've all come here to form a contract with me. I can't even resist."

Dong Xi suddenly felt as if she had become meat on someone else's chopping board. her heart felt heavy, and Songsong in her hand also felt much heavier.

Songsong seemed to still be angry as it said unhappily, "Of course I can. This master-servant contract between you and me can be terminated at any time. But if it's terminated, I won't be able to understand you, and you won't be able to understand me either."

Dong Xi thought for a moment and then asked, "Is the Contract of Equals the same?"

Songsong explained, "Sure, you can, but you need to get the permission of your divine sense. However, the other party's cultivation realm is too strong. Your divine sense can't even resist. The contract was automatically formed."

When Dong Xi heard this, she was instantly dissatisfied. This was not an equal contract at all. It was clearly an Overlord's contract. Otherwise, why couldn't Dong Xi contact him?

Chapter 104 - 104 Stupid Head

104 Stupid Head

"Can the Contract of Equals be terminated at any time and place?" Dong Xi continued to ask.

"Sure!" Songsong nodded.

Dong Xi's face immediately lit up with joy, but before she could be happy for long, she heard Songsong continue, "Anyone with a high cultivation base can do it anytime!"

Dong Xi, "..."

F*ck... In the end, Dong Xi was the stupid head who had signed a contract to sell herself without being aware of it!

Originally, Dong Xi had thought that the big snake was only treating her as a tool to protect her inner core, but she did not know that Songsong had something else to say.

That was to consume half of her cultivation if she were to initiate the contract.

"If I'm injured, will it affect the demonic beast that formed the contract?" Dong Xi asked.

"Of course," replied Songsong. "If I'm injured, you'll be affected as well. We have a soul contract! If you're was injured, my soul would also be damaged! In the future, you have to protect me well!"

Songsong seemed to be very happy, its black eyes sparkling.

Dong Xi seemed to have understood something. She looked at Songsong and said, "It turns out that you, this little fellow, pestered me and didn't leave because you actually had such thoughts!"

After Dong Xi understood, she threw this unhappy matter to the back of her mind and continued to walk forward with Songsong. She casually asked, "Songsong, you grew up here, so you should know what kind of treasures are here, right?"

Songsong sat on Dong Xi's shoulder, wagging its tail and said, "Of course, but these treasures are all guarded by extremely powerful demon beasts. You'll just be courting death if you go."

"I might not be strong enough, but you're here with me!" Dong Xi said, "We should be able to do it together, right?"

With that said, Dong Xi suddenly remembered that she did not know anything about Songsong's situation.

“Songsong, how’s your cultivation base now?” Dong Xi asked. “What’s your talent? Can you learn cultivation techniques?”

Songsong did not expect Dong Xi to have such high hopes for it. She even wanted it to snatch the treasure from the mouths of those demon beasts? What was the difference between that and killing it now?

The spirit fruit in its hand instantly lost its fragrance. It lowered its head and said, “But... Songsong is only at tier 1!”

Songsong’s cultivation base was within Dong Xi’s expectations, so she was not too disappointed.

From Dong Xi’s point of view, a pet was just a pet. It was best if it could help, but it did not matter if it could not help.

On the path of Immortal cultivation, the strong would always strive for self-improvement. Whether it was a pet or a magic tool, it was just an additional flower on top of a brocade. One’s own strength was the foundation to stand firm in this world.

As Dong Xi walked, she took out a jade slip and looked at the map on it. Songsong also stuck its head out.

Their heads were pressed together, and Songsong asked, “Xiaoxi, do you really want to go? That wolf is very fierce!”

Dong Xi did not even raise her head as she softly said, “Didn’t you say you ran very fast? Don’t tell me you can’t run as fast as a wolf?”

When Songsong heard this, it was on the verge of tears. She said anxiously, “That’s a Wind Demon Wolf, a wind-type beast. It’s faster than me.”

“But you also know illusionary techniques!” Dong Xi said. “If you can’t run, can’t you just hide?”

After Dong Xi said this, she suddenly thought of something and warned, “But you have to remember that the grass only grows on the ground!”

Songsong was a little scared and wanted to get Dong Xi to give up on the idea of suicide. “But what if I can’t hide? You’ll lose Songsong...!”

Dong Xi raised her eyebrows and rubbed Songsong’s tail, saying, “You’re as timid as a mouse. You little fellow, why are you so timid? How did you dare to attack me back then?”

Songsong was also very regretful now. At that time, Songsong only wanted to chase her out of the Secret Realm. It never thought that this human girl would not leave but insist on throwing her life away!

The Wind Demon Wolf was a tier 2 demon beast of the wind element. Its talent was the wind blade, and it was extremely fast. It could not beat it, nor could it run away. It was too dangerous.

Dong Xi glanced at Songsong indifferently, only to see that Songsong's eyes were filled with regret.

Dong Xi almost laughed out loud when she saw Songsong's expression. She said indifferently, "I've told you, I'll distract the wind demon wolf while you sneak in and steal the mushrooms. I'll be the one in danger, okay? As long as you're fast enough, we'll be able to escape."

When Dong Xi came out of the marshland, the flying-prohibition array formation was already gone, and she could now fly.

When Songsong stole the Fairy Mushroom, Dong Xi would immediately take Songsong and run away on the little turtle!

Fairy Mushrooms were good stuff. They were an important ingredient in making Resurrection Pills. Resurrection Pills had the effect of repairing the soul. Any Resurrection Pill could be sold for a sky-high price.

Dong Xi thought of the huge snake that was covered in wounds and did not have an inner core. She did not know when this huge snake's soul would start to get damaged. It was better to quickly prepare the medicinal pills for him.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Wealth came from danger. Since she had come across such a precious medicinal herb, and she did not dare to take the risks to obtain it... Then what was the point of all her training, all her experience?

Songsong was terrified the whole way, but it did not run away when they were in the Wind Demon Wolf's territory.

Lying on Dong Xi's shoulder, it covered its eyes with its two small hands and wrapped its whole body with its tail, but its body was still trembling.

Dong Xi stopped and helplessly looked at the terrified Songsong and said, "If you're afraid, then don't go over."

Dong Xi was still able to deal with a tier 2 demon beast.

When Songsong heard this, it immediately stood up and jumped on Dong Xi's head, saying, "That won't do. We've already formed a contract!"

"Don't be afraid, kid," Dong Xi said with a smile. "I have a teleportation talisman. If we really can't do it in the end, we can just teleport out."

Songsong was stunned for a moment, then it sat back on Dong Xi's shoulder and said, still a little angry, "Since you have a teleportation talisman, you should have said so earlier! Songsong was so scared!"

Dong Xi felt that the little fellow's courage still needed to be trained. If she really brought such a timid fellow back, it would just be hiding in her cave abode, right?

"I'm ready, Songsong," said Dong Xi. "I'll go and lure the Wind Demon Wolf away first. When we're far away, you can go in and get the stuff."

After Dong Xi said that, she walked directly into the Wind Demon Wolf's territory.

From the moment Dong Xi entered the territory, she was already 200 percent prepared.

However, she did not feel any movement even when she walked to the Wind Demon Wolf's nest.

Dong Xi could not help but be a little puzzled. Could it be that this wolf had gone out to look for the little female wolf?

She could not be that lucky, right?!

Although this was her guess, Dong Xi did not dare to relax. She threw a stone into the cave, and the sound of the stone hitting the ground echoed. Then, she calmed down.

It was as if nothing really existed in the nest.

Dong Xi's vigilance was at its peak. In the next second, a strong sense of danger rose in Dong Xi's heart.

The Eight-nine Cultivation Technique was frantically activated, and the Purple Jade Sword in Dong Xi's hand immediately blocked behind her.

Clang! Clang! Clang!

An ear-piercing sound rang out. Dong Xi had successfully blocked the wind blade. Following that, a gray figure pounced over from above.

Dong Xi immediately retreated, but this beast was really fast. At this critical moment, Dong Xi activated the wood spiritual energy in her body, causing the vines beside her to wrap around the Wind Demon Wolf's hind legs.

Dong Xi heaved a sigh of relief. She turned around and saw the Wind Demon Wolf produce a wind blade in its mouth, which swept toward the vines.

Dong Xi knew that things were not looking good. She immediately converted her spiritual Qi into earth spiritual Qi and then slapped the ground with her hand.

The ground under the Wind Demon Wolf's feet suddenly caved in. The Wind Demon Wolf was caught off guard and could only let out a wolf cry. When it looked at the young human, it realized that the little thing had already run far away.

This was a little easier than when she had dealt with the Flaming Frost-skin Rat. This was all thanks to the improvement in Dong Xi's cultivation realm.

Dong Xi wore a pair of Storm Shoes and ran into the forest. At this moment, Dong Xi's heart was very clear.

Although she had a small spirit gathering array on her, the recovery of spiritual Qi could not keep up with the consumption. The Wind Demon Wolf's endurance was particularly good. By then, even if they both had run out of spiritual Qi, the wolf could easily tear Dong Xi to pieces.

If she wanted to live, Dong Xi had to end the battle quickly!

Dong Xi held the Purple Jade Sword in her hand and thought of the technique she had comprehended earlier.

Borrowing power!

At this moment, Dong Xi was standing in the forest. The wood spiritual Qi was very dense. If she made use of the forest's power, she would see if the Wind Demon Wolf could still escape!

The pit she had just created was not enough to trap the Wind Demon Wolf. Dong Xi knew her own strength.

When she closed his eyes, it was as if her entire being had become one with the forest.

Suddenly, Dong Xi's ears twitched as he heard the sound of wind.

Dong Xi knew that the Wind Demon Wolf had come!

Dong Xi raised the Purple Jade Sword in her hand and thrust forward in an ordinary manner.

Awooooo!

Dong Xi opened her eyes and looked at the Wind Demon Wolf, who was baring its teeth. She said, "What, you're not convinced? Then let the wolves come!"

Dong Xi raised her sword with both hands, stomped on the ground with force, and jumped high up to pounce at the wolf.

Dong Xi held her sword and accurately blocked the wind blade, splitting it into two halves. Then, she blocked the Demon Wind Wolf's next attack.

"Little guy, you have to keep working hard!" Dong Xi said with a smile.

Back when she just transmigrated here, Dong Xi would have been scared to death by a wild beast like the Wind Demon Wolf, let alone fight it. However, after the time with the big snake, the Wind Demon Wolf did not look that scary at all.

The sword technique in Dong Xi's hand became smoother and smoother. Even at the moment when the Demon Wind Wolf jumped, Dong Xi could sense it and defend herself with her sword.

it was no wonder that the cultivators of the Sword Sect were either fighting or on the way to fight. For sword cultivators, this was also a kind of cultivation.

Dong Xi regarded this battle with the Wind Demon Wolf as sword practice. When she felt that it was about time, she once again used her wood spiritual energy and wrapped the wolf with vines. At the same time, she changed her earth spiritual energy and used mud to cover the wolf's mouth.

Haha, this time, I got it! Now, all I have to do is... Run!

Dong Xi was now strong enough to kill the Wind Demon Wolf on her own, but the wolf had been training with her for so long. Not only had it made a contribution, but it had also put in a lot of effort. Moreover, Dong Xi had asked Songsong to steal the treasure that the Wind Demon Wolf had protected for so long...

If she were to kill it after all this, the Wind Demon Wolf would be too miserable!

Dong Xi quickly ran to the location Songsong had told her about. Halfway there, she heard the Wind Demon Wolf's angry roar. The Wind Demon Wolf must have realized that it had lost something it was protecting.

Dong Xi immediately took out the little turtle, grabbed Songsong, who was waving wildly not far away, and ate a Spirit Restore Pill. She then used all her strength to drive the little turtle into the distance.

"Did you get it?" Dong Xi immediately asked.

Songsong took out the Fairy Mushroom that she had been hiding in its pocket and said, "Of course I got it! Songsong is really amazing!"

Seeing that the Wind Demon Wolf was not chasing after them, Songsong became very active.

However, before Songsong could celebrate, it realized that Dong Xi had already barged into the area where the Silver Demon Trees were.

All the fur on Songsong's body stood on end as it let out a series of cries!

"What are you doing here?" Songsong shouted. "Hurry up and get out! Hurry up!"

Dong Xi stopped and asked in confusion, "What happened here?"

"This place is a forbidden area!" Songsong immediately replied. "It's highly toxic. Even breathing in it will cause spiritual energy to be attached to the poisonous gas. When the spiritual energy is completely corroded by the gas, it would start to corrode the flesh and blood! Hurry up and leave! Songsong still wants to live!"

Dong Xi's expression changed when he heard Songsong's words. She immediately flew out.

Moreover, from the moment she entered, Dong Xi seemed to have entered some kind of formation. No matter how she flew, he would eventually return to her original place.

"Xiaoxi, look at that white bone. We're back to square one," said Songsong.

Dong Xi frowned and found that it was indeed the case. Dong Xi said, "Yes, we're back here again. How are you feeling?"

Songsong shook its head. It was no longer as lively as before and looked a little dispirited.

Dong Xi frowned. She did not know why, but she seemed fine.

Her spiritual energy was also fine. There was nothing wrong with it.

Seeing that Songsong was a little dispirited, Dong Xi hurriedly circulated her spirit Qi and helped to sort out Songsong's meridians.

Songsong regained some of her energy, and Dong Xi said, "I'll put you in the Jade Space first. You can rest. If this continues, you won't be able to hold on for long."

Songsong asked with a worried look in its eyes, "But what are you going to do?"

"Don't worry," said Dong Xi indifferently. "I'll be fine. I'll definitely get you out."

The space in Dong Xi's jade pendant could store living things, so there was no terrifying poisonous gas inside. She could only release Songsong after they left the Secret Realm.

Dong Xi was left alone. She decided not to fly and directly landed on the ground. She planned to study this place and what was going on.

There was a layer of fallen leaves under Dong Xi's feet. As she walked, she seemed to have stepped on something.

Dong Xi immediately stopped and smacked down with her palm. The wind from her palm blew away the fallen leaves, revealing a layer of terrifying white bones.

Dong Xi frowned and took out a jade slip. She wanted to ask Ke Xin if there were any forbidden areas in the Secret Realm, but the jade slip was blank. Not only could she not contact anyone, but the news plaza that was usually there was also gone.

It seemed that this was a place that could block out spiritual breath. This also meant that it was impossible for Dong Xi to send out a message for help.

Dong Xi sighed helplessly and kept the jade slip. She closed her eyes and circulated her Eight-nine Cultivation Technique to the extreme. In the end, she chose a direction based on her perception.

This time, Dong Xi did not go around in circles and even picked up many inner cores along the way.

At the same time, she also saw many human bones. She felt sad for the death of her kind.

Just like that, Dong Xi followed her instincts and walked on. After an unknown amount of time, Dong Xi finally saw the sky.

At the same time, she realized that she did not walk out of the Silver Demon Forest. Instead, there was a large clearing and a large pit in the middle of the Silver Demon Forest. It looked like a huge battle had taken place here.

There was also pink mist in the pit, and together with the Silver Demon Tree, it was beautiful. However, it was also extremely dangerous.

This pink mist seemed to be the same as the mist at the edge of the Silver Demon Forest, but it was thicker. This was probably the reason why the demon beasts and cultivators had died here!

Chapter 107 - 107 So Beautiful

107 So Beautiful

Dong Xi did not know why, but this pink mist did not seem to be harmful to her. Her spiritual aura was still normal.

Dong Xi also tried to throw a fireball into the pink mist. The next moment, the pink mist was like a super large firecracker, crackling and flashing with sparks.

Dong Xi's mouth was wide open as she saw this. She could not help but say, "It's so beautiful!"

After the burst of flame, the pink mist in the air seemed to have reduced a lot. Dong Xi stood at the edge of the giant pit and looked down. Because the pink mist was much thinner now, Dong Xi could directly see the bottom of the giant pit.

There was a pool of water at the bottom of the pit, forming a Lake. The water was also slightly pink, without any waves, beautiful but strange.

Dong Xi's intuition told her that the source of the pink mist was down there and that she should go down and take a look.

According to the iron law in the novels of transmigration in the past, there must be a big treasure in such an outrageous place.

It was just that the main character in this book was not Dong Xi, and Dong Xi did not have the protagonist's halo, but she still had to give it a try. What if she picked up a rare treasure?

Dong Xi ate a Spirit Restore Pill. After her spiritual energy recovered, she used wood spiritual energy to hasten the growth of the nearby vines into the deep pit.

The vine had already reached the bottom of the deep pit. Dong Xi tugged at it with her hands to make sure that the vine was very solid. Then, she wrapped her feet with spiritual Qi and walked down bit by bit.

The lower she went, the thicker the pink mist became. Dong Xi threw out two more fireballs, and her vision became a little clearer.

After descending for a distance, Dong Xi measured the height and felt that he could jump down. She immediately let go of the vine.

Just as Dong Xi landed, Su Cheng, who had just entered the spirit mine, suddenly felt his heart tighten.

"This little girl is overestimating herself!" Su Cheng said.

With that, Su Cheng disappeared from his spot.

The big demon sealed by Song Qingfeng and the others immediately panicked and said, "Could it be that you're playing with this demon?"

Su Cheng snorted and said in a low voice, "So what if I'm playing you? You're just a sealed piece of trash!"

The demon beast was named Huan Ye, and he was furious. He said, "You're just a stinky snake, yet you dare to act so arrogantly in front of me! Ah..."

Before Huan Ye could finish his sentence, another barrier appeared around him. The barrier even carried poisonous gas and was even stronger than the barrier of the Ningtian Sect.

The green poisonous gas attached itself to Huan Ye's wound, slowly corroding the bit of spiritual energy that Huan Ye had just recovered.

Recently, Huan Ye had been constantly sending out the demon beast clan's distress signal. However, he did not expect that after so long, only a single snake came.

Huan Ye also did not expect that this snake was actually a lackey of the Ningtian Sect!

“Stinky snake,” Huan Ye cursed, “You betrayed the demon race and will die a horrible death! Ah!”

Su Cheng casually tore open the space and walked in. He could not hear Huan Ye’s voice at all.

Since he was asking for help, he had to act like he was asking for help. No matter how glorious he used to be, he was now a sealed piece of trash.

Although Su Cheng failed to Ascend, he had already passed the Lightning Tribulation. Huan Ye was just a piece of trash, and this trash dared to shout in front of him?

Damn it!

Su Cheng reappeared in the Secret Realm where Dong Xi was, and also appeared in the swamp.

The originally quiet swamp instantly boiled up like a pot of boiling water, and the muddy water surged wildly.

In the beginning, even his little aura emanating from Dong Xi’s body almost scared the demon beasts to death. Now that the main body had personally appeared, who would dare to stay here? Even some water-type demon beasts wished they could grow a pair of legs and run away.

However, Su Cheng did not have the mood to care about all these small fries. That little girl took his inner core to court death. If he delayed any longer, she would really die!

Su Cheng’s snake tail moved quickly.

Dong Xi had been walking for almost 24 hours, but Su Cheng could catch up in a moment.

The snake’s tail left a long trail on the ground. when the wind blew, the fallen leaves covered the trail.

...

Dong Xi suddenly had a bad feeling. Beneath her feet were white bones. These white bones were different from the ones above. The white bones here were emitting a faint pink light.

All of a sudden, a thought appeared in Dong Xi’s mind.

“This place... There can’t be a formation here, right?” Dong Xi mumbled in a low voice.

Just as this thought flashed through her mind, the Pink Lake was like a soul-stirring demon, making Dong Xi want to walk over.

The closer she got to the lake, the more bones there were on the ground.

Dong Xi walked to the lakeside without feeling anything. Just as she was about to enter the lake, a gust of wind came from behind her.

A huge snake tail wrapped around Dong Xi, and the next moment, it threw Dong Xi onto the fallen leaves at the side.

Dong Xi happened to fall on the white bones. She was in so much pain that she immediately sucked in a breath of cold air, and she also woke up.

She looked at the figure in front of her. With the pink mist acting as the background, even Su Cheng's cold face looked a little cuter.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Dong Xi rubbed her eyes in disbelief and said, "Big snake? What are you doing here? Am I hallucinating?"

Su Cheng looked at Dong Xi and coldly said, "If you want to die, then go by yourself. Don't bring my inner core with you!"

Only then did Dong Xi come back to her senses and realize that she was already on the ground. Recalling everything she had seen at the bottom of the pit, she frowned and said, "What did I just do?"

What exactly was so attractive in the lake that she wanted to go down and find out?

Su Cheng's face was dark, but he still said, "Your cultivation level is too low, so you've been bewitched!"

Hearing the big snake's words, Dong Xi's expression became even more curious. He could not help but ask, "What's confusing? There's a living thing in the water?"

"You stay here and don't move. I'll go down and take a look," Su Cheng said lightly.

Before Dong Xi could reply, Su Cheng had already disappeared.

Dong Xi immediately lay on the edge of the huge pit and looked down, but the rising pink mist was so thick that she could not see the ground clearly.

She then threw out a series of fireballs.

Su Cheng, who had reached the bottom, heard the sound. He looked up and saw a series of 'fireworks'.

The thing in the lake was poisonous to others, but it was a great supplement to Su Cheng.

Su Cheng immediately returned to his original form and entered the lake.

At the bottom of the lake, there was a pink flower in the middle of a pile of white bones.

It was a lotus flower, and there was a lotus seed head beside it. The lotus seed inside was round and full, and one could tell at a glance that it had been there for a long time.

The lotus flower emitted a pink mist, turning the entire lake water pink, making it look like a young girl who had just come out of the bath.

However, Su Cheng did not appreciate it at all and pulled the entire lotus root up.

He turned around and was about to leave when he looked at the lotus flower again and pulled it out.

Dong Xi was still waiting to watch the show, but there was no movement for a long time. Not a single sound could be heard.

Dong Xi sat by the pit in boredom, her two little feet shaking one after the other.

The sky was about to turn dark, and it seemed that they had been in the forest for five days. The trial lasted for a total of ten days. There were many places on the map that Dong Xi had not explored. Was she going to be trapped in the same place for ten days?

She was unwilling to accept this!

As Dong Xi's thoughts ran wild, the fallen leaves on the ground moved without any wind.

Dong Xi turned around and saw a huge lotus flower, and it was a pink lotus flower.

Dong Xi was stunned for a moment. The next moment, a refreshing fragrance entered Dong Xi's nose. It was as if a filter had been added to her eyes, and even the large snake had turned pink.

She did not even think about what happened before she fainted.

Her entire body seemed to have no bones as she fell toward the bottom of the pit.

Su Cheng subconsciously wrapped his tail around Dong Xi and brought her back.

Looking at Dong Xi's pink face, Su Cheng frowned.

This girl seemed to be more fragile than he had imagined. He could not even handle the fragrance of such a small flower?

Su Cheng reached out and pressed on Dong Xi's Dantian, guiding the spiritual Qi in his inner core to help Dong Xi remove the poison.

This time, Dong Xi's risk might be related to the inner core. Such a poisonous substance that was tens of thousands of years old had a huge attraction to Su Cheng's inner core.

The sky gradually darkened and the bright moon hung high in the sky.

Su Cheng looked up at the sky and thought of the little girl's unusual physique. He pulled back his hand and threw Dong Xi under the moonlight.

When the moonlight shone on Dong Xi's body, the surrounding earth, wood, and fire spiritual Qi immediately enveloped Dong Xi. Even the remaining pink mist in the air started to avoid her.

Seeing Dong Xi's spiritual Qi absorption speed, Su Cheng was also very envious.

When Su Cheng was still a small demon, if he could have such speed, he would not have been bitten off by other demons!

Of course, the demon beasts that had once bullied Su Cheng were all dead.

If it was not for the fact that Dong Xi's current cultivation was too low, the pink mist would not have been able to affect her at all. Dong Xi's spiritual Qi was circulating in his meridians.

With every great Qi circulation, the pink mist in Dong Xi's body would decrease a lot.

Finally, she woke up once again.

Only then did Su Cheng stop. Dong Xi glanced around before looking back at Su Cheng and asked with a puzzled face, "Why isn't it pink?"

Su Cheng was confused.

What pink? Su Cheng was a black snake, so how could there be pink?

Seeing that the snake was unwilling to pay attention to her, Dong Xi sat up and scratched her hair. The teacher mumbled, "It was pink just now!"

Su Cheng could not help but explain, "You were poisoned just now."

Dong Xi was a little shocked. She remembered that she seemed to have seen a huge pink lotus flower before she fainted.

Dong Xi's expression was very serious. She gritted his teeth and said, "Are you trying to poison me to death and then use my body to do bad things?"

108 Am I Hallucinating?

Dong Xi rubbed her eyes in disbelief and said, "Big snake? What are you doing here? Am I hallucinating?"

Su Cheng looked at Dong Xi and coldly said, "If you want to die, then go by yourself. Don't bring my inner core with you!"

Only then did Dong Xi come back to her senses and realize that she was already on the ground. Recalling everything she had seen at the bottom of the pit, she frowned and said, "What did I just do?"

What exactly was so attractive in the lake that she wanted to go down and find out?

Su Cheng's face was dark, but he still said, "Your cultivation level is too low, so you've been bewitched!"

Hearing the big snake's words, Dong Xi's expression became even more curious. He could not help but ask, "What's confusing? There's a living thing in the water?"

"You stay here and don't move. I'll go down and take a look," Su Cheng said lightly.

Before Dong Xi could reply, Su Cheng had already disappeared.

Dong Xi immediately lay on the edge of the huge pit and looked down, but the rising pink mist was so thick that she could not see the ground clearly.

She then threw out a series of fireballs.

Su Cheng, who had reached the bottom, heard the sound. He looked up and saw a series of 'fireworks'.

The thing in the lake was poisonous to others, but it was a great supplement to Su Cheng.

Su Cheng immediately returned to his original form and entered the lake.

At the bottom of the lake, there was a pink flower in the middle of a pile of white bones.

It was a lotus flower, and there was a lotus seed head beside it. The lotus seed inside was round and full, and one could tell at a glance that it had been there for a long time.

The lotus flower emitted a pink mist, turning the entire lake water pink, making it look like a young girl who had just come out of the bath.

However, Su Cheng did not appreciate it at all and pulled the entire lotus root up.

He turned around and was about to leave when he looked at the lotus flower again and pulled it out.

Dong Xi was still waiting to watch the show, but there was no movement for a long time. Not a single sound could be heard.

Dong Xi sat by the pit in boredom, her two little feet shaking one after the other.

The sky was about to turn dark, and it seemed that they had been in the forest for five days. The trial lasted for a total of ten days. There were many places on the map that Dong Xi had not explored. Was she going to be trapped in the same place for ten days?

She was unwilling to accept this!

As Dong Xi's thoughts ran wild, the fallen leaves on the ground moved without any wind.

Dong Xi turned around and saw a huge lotus flower, and it was a pink lotus flower.

Dong Xi was stunned for a moment. The next moment, a refreshing fragrance entered Dong Xi's nose. It was as if a filter had been added to her eyes, and even the large snake had turned pink.

She did not even think about what happened before she fainted.

Her entire body seemed to have no bones as she fell toward the bottom of the pit.

Su Cheng subconsciously wrapped his tail around Dong Xi and brought her back.

Looking at Dong Xi's pink face, Su Cheng frowned.

This girl seemed to be more fragile than he had imagined. He could not even handle the fragrance of such a small flower?

Su Cheng reached out and pressed on Dong Xi's Dantian, guiding the spiritual Qi in his inner core to help Dong Xi remove the poison.

This time, Dong Xi's risk might be related to the inner core. Such a poisonous substance that was tens of thousands of years old had a huge attraction to Su Cheng's inner core.

The sky gradually darkened and the bright moon hung high in the sky.

Su Cheng looked up at the sky and thought of the little girl's unusual physique. He pulled back his hand and threw Dong Xi under the moonlight.

When the moonlight shone on Dong Xi's body, the surrounding earth, wood, and fire spiritual Qi immediately enveloped Dong Xi. Even the remaining pink mist in the air started to avoid her.

Seeing Dong Xi's spiritual Qi absorption speed, Su Cheng was also very envious.

When Su Cheng was still a small demon, if he could have such speed, he would not have been bitten off by other demons!

Of course, the demon beasts that had once bullied Su Cheng were all dead.

If it was not for the fact that Dong Xi's current cultivation was too low, the pink mist would not have been able to affect her at all. Dong Xi's spiritual Qi was circulating in his meridians.

With every great Qi circulation, the pink mist in Dong Xi's body would decrease a lot.

Finally, she woke up once again.

Only then did Su Cheng stop. Dong Xi glanced around before looking back at Su Cheng and asked with a puzzled face, "Why isn't it pink?"

Su Cheng was confused.

What pink? Su Cheng was a black snake, so how could there be pink?

Seeing that the snake was unwilling to pay attention to her, Dong Xi sat up and scratched her hair. The teacher mumbled, "It was pink just now!"

Su Cheng could not help but explain, "You were poisoned just now."

Dong Xi was a little shocked. She remembered that she seemed to have seen a huge pink lotus flower before she fainted.

Dong Xi's expression was very serious. She gritted his teeth and said, "Are you trying to poison me to death and then use my body to do bad things?"

- Chapter 109 - 109 Restraint Fire

Chapter 109 - 109 Restraint

109 Restraint

Su Cheng was so angry that he laughed. He said coldly, "Just with your thin arms and legs? Hehe!"

In the quiet forest, only Su Cheng's cold laughter could be heard. Su Cheng used his tail to roll Dong Xi up and brought her to his eyes.

The cold vertical pupils looked into Dong Xi's eyes. Dong Xi could clearly see the big snake's mouth slightly raised. Su Cheng said jokingly, "Isn't my body more suitable for doing bad things?"

Dong Xi, "..."

"Big snake, restrain yourself, your tongue is about to lick my face!" Dong Xi said.

Su Cheng's recovered from his instinct when he heard Dong Xi say this, and he held back.

Then, he flicked his tail and threw Dong Xi on the ground.

Dong Xi sat up and looked at the snake, who did not change in the slightest but was obviously unhappy. She immediately said, "What was that flower just now?"

Dong Xi did not know that snake had only plucked the flower off to make her happy. It was human nature to seek advantages and avoid disadvantages, and snakes were the same.

"Andromeda," Su Cheng said lightly.

When Dong Xi heard this name, she was stunned. She seemed to have seen this name before in a book.

Andromeda, highly toxic, releases poisonous gas to kill living things.

However, the book did not mention that Andromeda had such great power. What was wrong? Could it be because of that formation?

"Is it a formation?" Dong Xi raised her head and asked.

Hearing Dong Xi's question, Su Cheng looked up at Dong Xi and lightly said, "Looks like you have a good eye."

Dong Xi was a little dissatisfied. She turned her head, indicating that she did not want to pay attention to the big snake.

Su Cheng did not care and continued, "This should be raised by someone else. The formation is also an illusionary formation with the effect of gathering spiritual energy. No

matter if it's a human or a demon beast, as long as they enter, they will uncontrollably walk towards the lake and eventually become the nourishment of this flower.”

Su Cheng took out the flower again. He did not throw it directly to Dong Xi, but picked a few petals and threw them over.

Dong Xi looked at such a huge flower, but there were only two petals in her hand. She was a little stunned. She carefully recalled the books she had read before and was even more stunned.

The Andromeda was a highly toxic plant, and it had miraculous effects when used to refine demon tools or puppets.

However, Dong Xi was a Righteous cultivator. It was impossible for her to learn these unorthodox ways. What was the use of these petals?

“It’s pretty, but I’m a cultivator of the Righteous Path, so I don’t need it, do I?” said Dong Xi. “Are you suggesting I just use it to soak my feet?”

Su Cheng sneered and said coldly, “Oh, a Righteous Path cultivator who carries my inner core?”

Dong Xi’s expression suddenly became a little tense, and he retorted forcefully, “I’m Righteous! Nothing but Righteous! Just you wait! I’ll destroy your inner core sooner or later!”

Su Cheng was disdainful of this statement. Dong Xi looked at Su Cheng’s appearance and seemed to remember something. She immediately asked, “Why are you in the Secret Realm? Didn’t they say that Foundation Establishment cultivators and above can’t enter?”

Su Cheng frowned and said coldly, “Don’t ask what you shouldn’t ask.”

Dong Xi looked at Su Cheng curiously for a long time. Then, she suddenly had an idea. She stared at Su Cheng and said, “You can’t be”

Hearing Dong Xi’s words, Su Cheng immediately panicked.

However, in the next moment, Dong Xi blinked her eyes and asked, “Is it because you don’t have an inner core, so your cultivation level dropped? Now you’re in the Qi Refinement stage like me?”

Su Cheng was confused.

His originally nervous mood instantly relaxed, and he did not say anything. He only glanced at Dong Xi with an unknown meaning.

Dong Xi blinked, not quite understanding. What was with the snake's eyes? Could it be that she had guessed correctly, so he was feeling guilty?

If the big snake was only at the Qi Refinement stage, why was Dong Xi still unable to defeat it?

Dong Xi carefully thought back to the books she had read in the library. Demon beasts could not cultivate before they took human form, and only had innate skills. They relied on their physical bodies to fight.

Dong Xi suddenly understood, and the body cultivation mentioned in the 'Feasibility of a Loser's Counterattack' appeared in her mind.

As expected! The ancients did not lie to me!

If Dong Xi could also have such a physical body, wouldn't she be able to fight with the great snake?

Su Cheng looked at Dong Xi's constantly changing expression and did not know what this girl was thinking.

Su Cheng looked at the dark sky and said coldly, "This petal can repair my inner core. Once it's repaired, it won't stay in your Dantian."

When Dong Xi heard this, she said in surprise, "Alright!"

Su Cheng saw that Dong Xi was about to eat the petal and could not help but ask, "Have you forgotten that you are an alchemist? You can concoct pills, right?"

Share to your friends

As an alchemist, shouldn't she be thinking about how to refine pills when she got any materials?

Who would eat it raw?

Dong Xi was asked by Su Cheng and remembered that he seemed to be an alchemist.

It's just that... Up until now, she hasn't refined any medicinal pills!

At the thought of this, Dong Xi could not help but sigh. It had been such a long time since she had become a qualified alchemist. She finally understood why her Eldest

Senior Brother and Second Senior brother had been delaying the completion of their tasks.

It seemed that one could only owe 60 years of alchemy tasks to the sect at most. Otherwise, the two Senior Brothers would probably owe them 120 years' worth of work!

Dong Xi smiled and spat out what she had already eaten, putting it into her storage ring.

Dong Xi tried to explain. "It's not that my grade is not high enough. Forget it. I'll keep it first. I'll refine it when my grade is higher."

Su Cheng was also used to Dong Xi's flowery words, so he just nodded and said, "Let's go."

Dong Xi took another look at the formation at the bottom of the pit and asked, "What should we do with this formation?"

Although this poisonous object had already been taken away by the big snake, as long as this formation was still present, no one dared to say what other poisonous objects would appear.

Su Cheng, who saw through Dong Xi's thoughts, said, "Isn't that better?"

Dong Xi was stunned for a moment. She casually picked up a bone from the ground and threw it at Su Cheng.

Dong Xi said, "How many lives would be taken by such a poisonous creature? How can you just casually say that this is better?"

Su Cheng dodged sideways and looked at Dong Xi coldly. He said indifferently, "What do the other lives have to do with me?"

Dong Xi was shocked. How could the snake say such cold words? However, after thinking about it carefully, he was a venomous snake. How could Dong Xi make him feel the same way?

Looking at Dong Xi's cold face, Su Cheng only said, "Let's go."

Dong Xi shook her head, glanced at Su Cheng, and coldly said, "We walk different paths, so we can't work together."

Dong Xi turned around, grabbed the vine from before, and climbed to the bottom of the pit again.

Su Cheng looked at Dong Xi's actions and was also confused. Weren't humans all selfish, sinister, and vicious? Why was this little girl like this?

She knew that the formation down there would kill her, but she still went down?

Su Cheng stood by the pit, watching Dong Xi's thin figure go down bit by bit.

With that little cultivation base of hers, how could she even dream of destroying the formation? She was too naive.

Then, she saw Dong Xi stop when she was about to reach the bottom of the pit.

Both her feet were wrapped in spiritual Qi as she stood on the cliff, skillfully forming hand seals. Feeling the spiritual Qi gradually gathering in Dong Xi's hands, Su Cheng could not help but be surprised. This human youngling was actually more powerful than she had imagined.

Dong Xi's movements were getting faster and faster. It was obvious that she was running out of spiritual Qi. Without any hesitation, Dong Xi used the spiritual Qi in the big snake's inner core.

Dong Xi did not know how high the snake's cultivation was, but she could feel that even if she extracted the spiritual Qi from it, there seemed to be no end to it.

Dong Xi was extremely shocked. It was only when she felt that the spiritual Qi in her hand had reached its limit that she slapped out the seal.

The golden-green Mark had a trace of purple Qi. Su Cheng's face turned green as he stood on it.

This was his cultivation! The little girl's heart did not ache at all! She was using it without hesitation!

But fortunately, his realm was still the same, so he did not want to argue with the little girl for the time being.

The imprint slowly landed in the center of the formation, and the blast from the explosion almost flipped Dong Xi to the ground.

Dong Xi's spiritual Qi had all been used on the imprint, so she had no power to resist at all.

Dong Xi felt her hair pulling on her scalp.

Her entire body was smacked onto the cliff by the air wave, and her facial features were also distorted.

The next second, a figure appeared in front of Dong Xi and brought her back to the pit.

The suffocating feeling disappeared and was replaced by an extremely uncomfortable and soft stomach.

Fortunately, she had been taking Fasting Pills for the past few days. Otherwise, she would have vomited miserably.

Dong Xi put her hands on Su Cheng's shoulders and lifted her head to breathe. She did not expect that she was so high up that a branch would almost knock her head.

Is this how it feels to stand on a giant's shoulder? Hmm, it's nothing to shout about.

"Put me down," said Dong Xi immediately after she caught her breath.

"I'll carry you," Su Cheng said coldly. "You can't get out on your own."

Dong Xi naturally did not mind hitchhiking. The big snake was very fast. If they relied on Dong Xi's flying device, not only would it be laborious, but the important thing was that it was too costly!

However...

Dong Xi said, "But you're carrying me like this, my shoulders are jolting so much that I want to throw up. Can you please..."

before he could finish speaking, Dong Xi was lifted up and changed into another position.

At this moment, Dong Xi was sitting on Su Cheng's shoulder, exactly the same as when Songsong had sat on her shoulder.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Dong Xi was more or less embarrassed, but the feeling of sitting on someone else's shoulder was really great! It felt good to sit down, and she could see far away. The comfort level was perfect!

Dong Xi took out a Spirit Restore Pill and quickly ate it. After thinking for a moment, she took out a supreme-grade Spirit Restore Pill and stuffed it into Su Cheng's mouth.

It was not right to keep everything to herself. Even children knew how to share, let alone Dong Xi!

Su Cheng, who was suddenly forced to feed it, was stunned for a moment. Then, he realized that Dong Xi had given him a supreme-grade Spirit Restore Pill and fell silent.

As expected, alchemy cultivators could take pills anytime and anywhere. Would it be too late for Su Cheng to learn now?

Dong Xi's spiritual Qi recovered a little, and she quickly made a protective shield over her head to avoid being hurt by the branches again.

After finishing everything, Dong Xi looked down at the snake. Although the snake's skin was rough and thick, its face was really handsome. Dong Xi could not bear to let this face be scratched by branches, so she put on a protective shield for Su Cheng.

Su Cheng, "..."

What was this thing?

Heh, a protective shield that could be destroyed by a sneeze.

Although Su Cheng did not like it, he did not destroy the protective shield. The two of them put on the yellow 'helmets' made of earth spiritual energy and quickly moved through the forest.

Su Cheng's speed was very fast. it was as if he was flying. No, it was as if he was a flying snake!

The array that had trapped Dong Xi for a long time had been broken out by Su Cheng in just a few minutes.

Standing at the edge of the forest, Dong Xi looked at the forest behind him and asked curiously, "Songsong and I couldn't get out even after walking for a long time. Why did you come out so quickly?"

"This is a natural formation," Su Cheng explained. "Those who rear poisonous creatures use this formation to deceive everyone."

If it was not for this formation, how could the Ningtian Sect not have discovered it and left behind such a 'harmful' thing!

However, this poison was a great supplement for Su Cheng!

At this moment, Dong Xi also noticed that her communication jade slip was constantly sending out notifications. She knew that she could contact the outside world from here.

She hurriedly took out the jade slip. The jade slip immediately glowed brightly, and a series of messages were sent over. Dong Xi did not know where to start.

There were the training strategies sent by the two Senior Brothers, and Chi Yan telling Dong Xi where there were some powerful demon beasts, telling her to stay away.

However, most of the messages were sent by Ke Xin.

[Sister, I'm picking up the Dragon Grass! The trial was really great, it was like picking up money! I should be able to exchange it for a lot of points when I go back!]

[Sister, I just came out of the Demonic Bamboo Forest! I suspect that the bamboo there is actually a human. It hurts so much!]

[Sister, you might not believe it, but I was chased by a rabbit and it took me a lot of effort to escape. When I go back, I must learn a special movement technique!]

[Sister, why didn't you reply to my message?]

[Xiaoxi, where are you?]

[What happened to you?]

...

Ke Xin's tone became more and more anxious.

[Are you still in the swamp? [I'll go find you now!]

This message was sent four hours after Dong Xi entered the forest. When Dong Xi saw this message, she immediately replied.

[Sister, I was trapped in the formation just now. The jade slip was blocked, and I couldn't send messages. I'm fine now. There's no need to come!]

Dong Xi suddenly realized that even though Ke Xin was a chatterbox, she still came despite knowing that there was danger. She did not know if Ke Xin was a loyal friend or a little silly.

However, Dong Xi's heart was filled with warmth. Now that she had escaped the formation, she naturally had to go to the center of the map that the group had agreed on. There was no need for Ke Xin to make an extra trip.

In the next second, another message came through the communication jade slip.

[Ah!! Help!]

When Dong Xi saw this message, she immediately asked, "Ke Xin, where are you? I'll be there immediately!"

Ke Xin also sent a voice message, panting as she said, "In... In the grass, I'm being chased by a few killer rabbits!! Ah..."

Dong Xi was just about to take out the little turtle to save Ke Xin when she remembered that she was sitting on the snake's shoulder.

She raised her head and met the snake's eyes.

Of course, Su Cheng was not looking at Dong Xi, but at Dong Xi's jade slip.

Su Cheng frowned and asked in confusion, "Why is no one contacting my jade slip?"

Dong Xi, "...."

Dong Xi put the turtle back into her storage ring and then bargained like a profiteer. Dong Xi said, "I can teach you, but can you take me somewhere?"

Su Cheng threw the 'baggage' on the ground and coldly said, "I don't want to learn anymore!"

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Dong Xi had a helpless expression. She did not expect the big snake to be so heartless.

Su Cheng looked at Dong Xi and coldly said, "You used my cultivation just now, and I didn't even argue with you. Now you still dare to talk about conditions?"

Dong Xi smiled, knowing that she had gone a bit too far just now. She said guiltily, "Well... Your inner core is also in my Dantian. When I cultivate, I can help you recover."

Su Cheng did not know why, but he just did not want to argue with Dong Xi.

Dong Xi also felt a little apologetic. After all, she had used someone else's cultivation. After thinking for a moment, Dong Xi took out two crystals from the Flaming Frost-skin Rat and gave them to Su Cheng.

Su Cheng looked at the two earth spirit stones that Dong Xi handed over and reached out to take them.

With a sneer, he threw it back to Dong Xi and said disdainfully, "These little playthings, you keep them and play with them yourself. Protect my inner core!"

Su Cheng disappeared as soon as he finished speaking.

Dong Xi looked at the big snake's ability and was truly envious.

One day in the future, Dong Xi would also have such abilities!

Dong Xi took out the tortoise and flew toward Ke Xin's location according to the map.

The grass was still quite a distance away from Dong Xi. As she flew, she ate medicinal pills and did not forget to make a protective shield for her head.

Although she was still young, she could not mess around with her hairline.

As she rushed to Ke Xin's location, Dong Xi ate a whole bottle of Spirit Restore Pills.

Dong Xi's heart ached a little. When she caught those two rabbits, she must vent her anger!

Very quickly, Dong Xi found Ke Xin, who was running for her life.

There were three crickets and three rabbits chasing after her?

Dong Xi was extremely surprised. This thing was a rabbit?

The rabbit was taller than Ke Xin and was very muscular. Its red eyes were like the front fangs of a beast.

If she was bitten, wouldn't she be broken into two?

Dong Xi immediately threw out two fireballs, helping Ke Xin draw some of the aggro.

Ke Xin looked up and saw Dong Xi stepping on a turtle. She quickly shouted, "Xiaoxi!"

Dong Xi saw that the rabbit behind was about to catch up, and immediately threw out a fireball to help Ke Xin.

"Let's deal with the rabbit first!" said Dong Xi.

For this trial, Ke Xin had already started her preparations long ago and had even learned a few offensive spells.

"Fire!" Ke Xin shouted.

Dong Xi, who was throwing fireballs, was startled by Ke Xin's roar. She looked over and saw Ke Xin throwing out a skill that looked like a pulse wave.

Dong Xi was a little shocked. This magic spell was too cool! When she returned to the sect, she would definitely learn it!

But why did she shout it out? Was there an additional bonus?

Dong Xi immediately followed suit and shouted, "Fireball!"

Ke Xin also looked at Dong Xi in confusion. Both of them looked at each other in confusion.

Then, she ignored the other party and continued to clean up the rabbit in front of her.

Even though Ke Xin's cultivation level was not high, she could still manage to take care of a rabbit. As she ran, she released two spells.

Dong Xi found that the damage of the magic spell was not great, and she immediately took out the Purple Jade Sword.

"Sword!" Dong Xi shouted.

A year after Dong Xi entered the sect, other than cultivating and comprehending the Dao, she had been practicing the sword. Although he had always been using basic sword techniques, this was currently Dong Xi's most powerful attack.

Jumping down from the turtle, Dong Xi charged at the rabbit with the Purple Jade Sword in her hand.

As she charged, Dong Xi gritted her teeth and said, "Sisters! There's rabbit meat to eat tonight!"

Dong Xi's borrowed the momentum of the plants to stab out with her sword. The rabbit had no time to dodge at all and was injured by the sword's momentum, letting out an ear-piercing cry.

Dong Xi also gave up on defending, and with a casual swing of her sword, she continued to attack.

Facing Dong Xi's attack, the rabbit wanted to counterattack, but it could not avoid the sword. It could only dodge in all directions, but it was still killed by Dong Xi.

With one less rabbit, the remaining two were much easier.

After the three rabbits were dealt with, the two of them directly lay on the ground side by side.

Compared to Dong Xi, Ke Xin's condition was even worse.

Before Dong Xi's arrival, Ke Xin had already been chased by three rabbits for a long time. She looked especially miserable now, with obvious wounds on her body.

It did not stop Ke Xin from looking up at the sky, her eyes shining as she said, “Sister, your sword technique is very cool! I’ll also learn it when I get back!”

“That’s why I said learning the sword is useful,” said Dong Xi with a smile.

As they were talking, Dong Xi and Ke Xin’s communication jade slips rang. The two opened it and saw that it was a message from Chi Yan. Both of their messages were exactly the same.

Ke Xin sat up and looked at Dong Xi. She asked, “Chi Yan said to pick mushrooms. Are we still going to roast the rabbits?”

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Dong Xi pondered for a moment before shaking her head, “First pick the mushrooms, then roast the meat. I can help Chi Yan roast a few mushrooms to eat.”

Chi Yan found a patch of Mystic Spirit Mushrooms in the ghost woods. Such mushrooms could only be found in the ghost woods, and they were also an ingredient for refining the Cooling Pill.

When a fire attribute cultivator broke through to the next cultivation realm, the rich fire spiritual energy would burn his meridians. As long as he took the Cooling Pill in advance, he would be much better.

Of course, cultivators like Dong Xi, who refined their meridians while cultivating, didn’t need any cooling pills.

After Chi Yan had refined the Marrow-cleansing Gold, she had turned into a pure fire spirit root. She was surrounded by fire spiritual energy at all times, so she naturally did not need it much. She should be asking them to collect some and exchange them for points.

Dong Xi thought about it, then told Ke Xin about the meridian-tempering.

“You have to think carefully according to your cultivation speed,” Dong Xi reminded her. “Don’t delay your breakthrough just because you’re tempering your meridians.”

If one could not reach Foundation Establishment by the age of 60 and did not have any fortuitous encounters in their life, they could only reach the Golden Core stage.

Ke Xin thought for a while and said, "Sister, I've thought it through. When we return, I want to be like you. I'll cultivate at night. This way, I'll have a few more hours of cultivation than usual. I'll use this time to temper my meridians!"

The ghost woods was indeed the ghost woods.

As soon as the two entered the ghost woods, they felt a cold aura.

Thanks to the fact that both of them had fire spiritual roots, the fire spiritual Qi only needed to be circulated once to dispel a lot of the cold.

The two of them walked in the direction Chi Yan had pointed out. Not long after, they saw a large patch of Mystic Spirit Mushrooms.

Chi Yan also sensed that the two of them had arrived. She put all the mushrooms she had just picked into her storage ring and got up to walk toward them.

Chi Yan said, "There are a lot of mystic mushrooms here. I can't take all of them. You guys should be able to use them too. So, I asked you to come over."

"Thank you, Senior Sister," Dong Xi said with a smile. "I'll roast some mushrooms for you later!"

Chi Yan was stunned at first, then she smiled and said, "Alright!"

If it was any other cultivator, they would not dare to eat such a cold thing, but Chi Yan had the heavenly spirit root, so she was not afraid.

"Xiaoxi, why couldn't I contact you yesterday?" Chi Yan asked.

When Ke Xin heard this question, she added, "That's right, I was so worried. Is everything alright? Didn't you say you were trapped in the formation?"

"I'm fine," Dong Xi shook her head. "It's a natural formation. I came out after going in circles a few times."

Dong Xi said it so casually. She did not say anything even though she almost lost her life there.

After observing this place full of mushrooms, Dong Xi felt a little strange.

Dong Xi said, "Did you notice that there are mushrooms on one side of the tree and no mushrooms on the other? Also, did you notice that all the trees in the outer circle are like this? And it's even colder at the side where there are mushrooms."

When Chi Yan heard this, she began to think.

Ke Xin asked curiously, “Oh, really? Where was it cold? Why don’t I feel anything?”

Little Junior Sister is right,” Chi Yan said, looking at the two of them. “This place is colder than other places.”

Then, she looked at Dong Xi and asked, “You think there’s a problem here?”

Dong Xi vigilantly looked around and nodded, “Maybe there’s something else here!”

Chi Yan looked around, and a trace of fire flashed in her eyes. This was a natural skill of Chi Yan’s clan, but no matter how she looked, she still found nothing.

“There are no illusions, ” Chi Yan said. “If there’s really something, it’ll be a real attack. Be careful, everyone.

Dong Xi said, “The Mystic Spirit Mushroom is a cold yin object. It should be accompanied by demon vines. I suspect that there should be some here. We should be careful. The demonic vines may not appear from anywhere.

Chi Yan looked at Dong Xi and suddenly understood. No wonder when her master accepted her as a disciple, he also accepted Dong Xi. Now it seemed that her master had a reason for accepting Dong Xi.

As soon as Dong Xi finished speaking, Chi Yan took out the Blazing Flame Sword, and Dong Xi also took out the Purple Jade Sword.

Ke Xin looked at the two of them enviously. She was even more certain that she would practice her swordsmanship properly when she returned.

A pill refinement master who did not know any sword techniques was not fit to be a disciple of the Alchemy Sect of the Ningtian Sect!

The three of them vigilantly observed their surroundings as they picked the mushrooms.

Just two meters behind the three of them, a mound of earth suddenly appeared.

When Dong Xi heard the sound, she immediately stopped her movements and raised her Purple Jade Sword to guard herself.

The next second, a black vine attacked the three of them.

Dong Xi and Chi Yan attacked with their swords at the same time and shouted, “Sword, come!”

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Ke Xin stood on the spot and could only watch, unable to help.

Dong Xi and Chi Yan fought with the vines for a long time. Suddenly, another vine appeared on their right.

Ke Xin immediately became anxious and shouted, "Fire!"

Although the demonic vine was powerful, it was still wood-type and had a natural fear of fire!

Dong Xi was already used to hearing Ke Xin shout slogans, but this was Chi Yan's first time, and her sword technique stopped for a moment.

Dong Xi smiled and used wood element spiritual Qi to control ordinary vines to wrap around the demonic vine. She turned to Ke Xin and said, "Sister, give me a fire!"

"Fire!" Ke Xin immediately shouted.

Looking at the burning demonic vine, Chi Yan and Dong Xi immediately retreated, while the demonic vine wanted to drill back into the ground.

Dong Xi looked at the two of them and said, "We've also picked a lot. Let's leave now. The rest can be left to the Junior Brothers and Sisters."

The three of them left the ghost woods. Dong Xi looked at Chi Yan, who wanted to say something but held back. She asked, "Little Senior Sister, what's the matter?"

Chi Yan's expression was conflicted for a moment before he couldn't help but ask, "Junior Sister, why do you have to shout every time you make a move?"

Dong Xi and Ke Xin looked at each other and could not help but laugh.

Ke Xin stomped her feet in embarrassment and rolled her eyes at Dong Xi. "I was just trying to boost my courage! You don't know how terrified I was when I was being chased by three rabbits!"

Hearing this, Chi Yan smiled and said, "That's not a bad idea."

Dong Xi took the jade slip and looked at the map. She turned around on the spot and found the location according to the sun. Dong Xi said, "We're from the south. There's a river there. Second Senior Brother said that there are Skylark Fishes in the river. It's great to pair them with rabbits at the barbecue."

When the three of them arrived at the river, the sky had already turned dark.

The moon hung in the sky, the grass by the river was green, and there were some fireflies. Fish often jumped out of the river.

Not to mention the high attack power of these fish, just this scene alone made people feel like they were in a fairy tale world.

However, the next second, Ke Xin was attacked by the water jet that the Skylark Fish shot out.

Ke Xin sucked in a breath of cold air and sat on the ground, paralyzed. She clutched her knee and said, "It hurts. It's like I've been shot by an arrow."

Dong Xi immediately stepped forward to check, gathering wood spiritual Qi in her hand and pressing it against Ke Xin's knee.

Slowly, the pain in Ke Xin's knee dissipated.

Ke Xin's brows also relaxed. She looked up at Ke Xin with joy in her eyes. Ke Xin said, "Sister, wood spiritual energy can be used like this? I've learned a lot today!"

Ke Xin's Wood spirit root was slightly stronger than Dong Xi's, and her root value was close to 70.

Ke Xin immediately mimicked Dong Xi's earlier action, gathering wood spiritual energy in her hand and pressing it on the wounds on her body.

As she watched the wound slowly disappear, Ke Xin cried out in even greater surprise, "It's really useful!"

"Sister," Dong Xi said with a smile, "Actually, you can directly circulate wood spiritual energy to the wound!"

Ke Xin was stunned for a moment before she smiled and said, "I was so stupid, but now I really know."

Chi Yan looked at the two of them talking and laughing, and she felt a little envious.

She even felt that even if she had the heavenly spirit root, it would be great if she had a wood spirit root.

Dong Xi took out the rabbit and mushroom from her storage ring and was about to go to the river to wash them when Ke Xin immediately said, "Sister, be careful of the fish in the water!"

"I have my ways!" Dong Xi turned around and said with a smile.

Ke Xin's eyes widened to see what Dong Xi was going to do, but in the next second, she saw a yellow protective barrier appear around Dong Xi.

Dong Xi was washing the rabbits and mushrooms by the river while Ke Xin took out the bamboo she had cut down in anger.

The rabbit meat also had a bloody smell, which attracted the demon beasts in the river.

Dong Xi's movements stopped for a moment. She raised her hand, and a thick protective cover appeared. Then, many water pillars shot out from the river.

The protective shield on Dong Xi's hand shattered in a moment, and the one on her body seemed to be about to dissipate after withstanding this attack.

Dong Xi immediately got up and dodged out of the shooting range, but when she turned around, Ke Xin saw that Dong Xi was in a sorry state.

Dong Xi's clothes were covered in mud and Ke Xin could not help but laugh when she saw it. She imitated Dong Xi's previous actions and blinked her eyes, saying, "I thought you have your ways?"

Covered in dirt, Dong Xi cast a cleaning spell on herself and said to Ke Xin, "It's already impressive that I'm not injured. It's fine if I'm a little dirty!"

Chi Yan saw the two of them and asked, "The fish... Do you guys still want to eat them?"

"Of course!" The two of them replied at the same time.

Chapter 115 - 115 Fishing

115 Fishing

"Although the fish's attack power isn't very strong, they're in the water. After all, we're on the shore, so it's a little difficult to catch them," Chi Yan said.

Dong Xi picked up the bamboo that Ke Xin had contributed, looked at Chi Yan, and asked, "Why don't we... Go fishing?"

As she spoke, Dong Xi took out the rabbit fur that she had packed up in front of the two of them. She rolled the rabbit fur into a long line and tied it to a bamboo. On the other side, she hung a bamboo stick with a piece of leftover rat meat stuck in it.

Ke Xin and Chi Yan were slightly dumbfounded. They could do this? They could catch the fish like this?

Dong Xi asked the two of them to prepare the meat while she gave herself a yellow protective shield. Then, she sat on the shore, her mind clear of distractions.

A true warrior would not only dare to face the brutal fish, but would also catch them and eat them!

Dong Xi's attention was all on the fishing rod. Once the fishing rod reacted, Dong Xi would also be able to react immediately.

Not long after, a fish bit the hook.

These fish were only tier 1, so how could they resist such a temptation?

Dong Xi immediately picked up the fishing rod and said with a smile, "Sisters! Hurry up! I caught it! It's our turn to take revenge!"

Ke Xin and Chi Yan immediately ran forward. Ke Xin said, "She actually caught it?"

Dong Xi took the fish and threw it to Ke Xin. Dong Xi said, "Kill the fish! I'll fish for more!"

By the time the three of them were full, the sky had already turned completely dark.

Ke Xin immediately sat down cross-legged and began to cultivate. Of the three of them, Ke Xin's cultivation was the lowest, and she did not dare to relax.

"You should also recover your spiritual energy. I'll keep watch for the night," said Chi Yan while looking at Dong Xi.

Dong Xi shook her head. How could she dare to cultivate in the middle of the night? If they found out that there was something wrong with her spiritual energy, wouldn't her little avatar be exposed?

Dong Xi said, "There's no need. My spiritual energy recovery is too slow. I'd rather take two medicinal pills. You should hurry up and cultivate. The spiritual energy here is quite rich. Don't miss it."

When Chi Yan heard Dong Xi's words, she did not try to be pretentious and immediately said, "Alright, then you'll keep watch tonight. I'll take over tomorrow."

“You’re welcome,” Dong Xi said with a smile. “I’ve been practicing my swordsmanship for the past two days. You two meditate while I practice my swordsmanship at the side. It’s just right.”

The night was long, wouldn’t it be a waste to just sit there the whole night?

When the sky was about to turn bright, Chi Yan opened her eyes and saw Dong Xi practicing her swordsmanship by the riverbank.

The demon beasts in the water would spit water pillars to attack Dong Xi. Dong Xi dodged them one after another and then slashed the water pillars with her sword.

As soon as she dodged it, another water pillar followed. Dong Xi switched her sword to her left hand and once again split the water pillar.

Chi Yan was a little shocked. This Little Junior Sister’s comprehension of cultivation was amazing, and she was also very good at adapting to the immediate conditions.

Chi Yan looked at Ke Xin, who was still meditating. She stood up, took out her sword, and walked to the river.

Compared to Dong Xi’s basic swordsmanship, Chi Yan’s was a lot more gaudy.

Ke Xin looked at Chi Yan, who was also practicing her swordsmanship by the river, and said with a smile, “Senior Sister! Isn’t my idea good? If it wasn’t for the fact that I don’t have a sack to store them, I would have caught them all.”

Dong Xi’s words reminded Chi Yan. Chi Yan’s hand movements stopped, and the corner of her mouth rose slightly. she said, “I have it!”

Ke Xin had also woken up at this time and saw Dong Xi and Chi Yan by the river, holding a fishing net made of grass.

It also carried Dong Xi’s wood spiritual energy, so the fish could not break it with one bite.

“That works too?” Ke Xin asked in shock.

Dong Xi felt that it was about time and immediately pulled in the net. Needless to say, she really caught some fish.

Chi Yan took out a bottle and put all the fish in it. Then, she filled it with some river water. Dong Xi continued to cast the net twice until Chi Yan’s bottle was full of fish.

Having caught these fishes, she could have a bite if she became hungry from her swordsmanship training

The three of them erased their traces by the river. After a short discussion, they decided to set off for the central palace.

Even if everyone said that there was nothing left, the disciples who came in each time would not believe it without taking a look by themselves.

There were still four days before the end of the journey, and Dong Xi had taken two days to get there.

The closer they got, the more Dong Xi and the others began to meet other disciples of the sect.

She even heard people arguing.

“Take out the Spirit Light Orchid!”

“Why? I’m the one who found it. Why do I have to take it out?”

“I saw it first! I was the one who lured the monsters away!”

“It’ll only count if you get it, don’t be naive! what’s the point of just watching?”

...

Ke Xin’s ears perked up when she heard the argument.

Rabbit? Ke Xin had lured away a few before, but she did not see any Spirit Light Orchids?

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

While Ke Xin was still in a daze, Chi Yan and Dong Xi had already walked far away.

Ke Xin came back to her senses and immediately caught up. Ke Xin said, “Don’t we need to stop the fight?”

Chi Yan did not say anything. Dong Xi looked at Ke Xin and said with a smile, “I promise, if you go over now, they will think that you are going to snatch the treasure.”

“They were talking about rabbits.” Ke Xin said with a frown, “But we killed three of them and didn’t see any treasures.”

Dong Xi looked at Ke Xin's conflicted expression and immediately said, "Sister, you have to know that what's yours is yours. What's not yours will never be yours."

Ke Xin suddenly understood. She heard Dong Xi say, "It seems that it's not just luck, but also good eyes!"

Ke Xin, "..."

Did she really not see it?

Ke Xin thought to herself that when she returned to the sect, she would definitely ask if there were any cultivation techniques that could improve her eyesight! When she successfully cultivated it, she would never miss out on treasures again!

However, just as the three of them were about to leave, the two people who were arguing suddenly shouted in unison, "Stop!"

Dong Xi and the others did not pay any attention to him and continued walking forward. In the next second, a spirit talisman was thrown over.

Dong Xi immediately conjured a protective barrier of earth spiritual energy, protecting the three of them.

Ke Xin was also shocked when she saw the spirit talisman. Then, she was extremely disappointed in the spirit talisman.

This talisman only produced a small flame, similar to the firecrackers in the mortal world during the new year.

Ke Xin said, "Second Senior Brother's talismans are still the best. Every one of them can kill many demon beasts. This one can only be used as a firecracker during the new year.

Dong Xi couldn't help but smile at Ke Xin's words. "It's probably because the talisman sect trusts their disciples, but their abilities are not up to par."

Dong Xi removed the protective shield and turned to look at the two of them. "What are you doing? Junior Brothers, are you telling us to stop because you want to give us a share?"

As soon as Dong Xi finished speaking, the two of them immediately became alert.

One of them was holding a spirit talisman while the other was holding a sword. Judging from their waist tokens, they should be inner disciples of the Sword Sect.

“Don’t come over,” one of them said. “If you harm your fellow sect members, your cultivation will be crippled and you’ll be thrown out of the sect.”

“Then you want to harm us?” Dong Xi immediately asked. “Why else would you call us? Do you want us to help you two split this loot?”

The two of them looked at each other, afraid that Dong Xi and the others would call someone else over.

Chi Yan did not have much patience. She was a monster beast and had a violent temper.

Chi Yan took out her sword and said impatiently, “You want to fight?”

The disciples of the Sword Sect recognized Chi Yan and immediately shouted, “Chi Yan! Hurry up and run!”

Which of the new disciples of the Ningtian Sect did not know about Chi Yan?

It was said that Chi Yan had already entered the Alchemy Sect, so Master Lingxu gave her the Marrow-cleansing Gold. Now, Chi Yan already had a heavenly spirit root.

Who would dare to fight her? Moreover, Chi Yan was a demon beast. Even if the two of them attacked her together, they might not be able to break through Chi Yan’s defense.

The Talisman Sect’s disciples immediately shouted when they saw the person running away, “Don’t run, give me back my treasure!”

Chi Yan was very disappointed when she saw them running away.

Dong Xi said from the side, “These disciples are nothing. They don’t even fight. How can they become good swordsmen?”

Chi Yan nodded in agreement. How could a swordsman run? To practice the sword, one must have the heart to move forward bravely. Even if one knew that one was going to die, one must never retreat half a step!

Chi Yan put away her sword, and the two people who had run away turned back.

Not only did the two of them come back, but there was also a huge beast behind them. The two of them shouted.

“Help!”

“Save us!”

“ ... ”

Dong Xi turned his head and saw a demon beast that looked like an ox. It was extremely huge and was chasing closely behind the two of them.

In front of the giant beast, the two of them were like small stones on the ground, which could be trampled to death by the giant beast.

Dong Xi had a bad premonition and was about to run when she saw Ke Xin in a daze. She immediately pulled Ke Xin and said, “Sister, run! This is a tier 3 Brass Bull. We can’t beat it even if we work together!”

A tier 3 demon beast was equivalent to a human’s Foundation Establishment stage. Even if they added up, they would not be able to withstand the demon beast’s stomp.

As she ran, Dong Xi took out the little leaf again. She first threw Ke Xin onto it, then jumped up herself.

Chi Yan transformed into her original form and flew into the sky.

Dong Xi sat on the leaf, helping her two Junior Brothers attract the beast’s attention.

Fireball, vine binding, crater.

Dong Xi had used all her spells, and the Brass Bull was completely unscathed. However, she had helped her two Junior Brothers gain some breathing time.

When Ke Xin saw Dong Xi’s actions, she also threw the spells she knew at the Brass Bull. However, this little bit of force was like scratching an itch on the Brass Bull. It did not have much effect.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Although the Brass Bull would not be hurt, it was still very irritated.

The Brass Bull roared and changed its direction, chasing after Dong Xi.

“Don’t worry,” Ke Xin said. “It can’t fly.”

Ke Xin had just finished speaking when a bolt of lightning struck the two of them.

Thanks to Dong Xi’s control of the leaf, they dodged quickly. When the two saw the Brass Bull’s horns flashing with lightning, they felt bitter in their mouths.

Chi Yan also spat out a flame at the bronze bull. The two Junior Brothers from the sect ran away immediately. They had no intention of fighting the enemy with them.

Dong Xi did not have time to get angry. She immediately took out the little turtle, ate the Spirit Restore Pill, and shouted to Chi Yan, "Little Senior Sister, we can't win. Run!"

"You guys run first, I'll hold it!" Chi Yan said.

Dong Xi looked at Chi Yan's agile dodging and spells. Dong Xi shouted, "Let's run!"

With that, Dong Xi immediately carried Ke Xin on her back and quickly ran away. At this time, Ke Xin also threw out a bind.

Dong Xi stepped on the little turtle and ran quickly. Chi Yan also took the opportunity to escape.

The Brass Bull was so angry that it kept roaring, and a large amount of gas was spewing out of its nostrils. Its front hooves dug at the ground with all their might, and the lightning on its horns flickered frequently.

Dong Xi could not turn around to look, so she asked Ke Xin, "Sister, let's see if little Senior Sister has run away?"

Ke Xin turned around and immediately said, "She ran away! She's above our heads!"

Dong Xi heaved a sigh of relief. Ke Xin shouted, "Quickly run! The bull is going to use its skills!"

Dong Xi's Eight-nine Cultivation Technique circulated rapidly. Ke Xin shrieked, then used the pitifully little spiritual Qi in her body to create a thin protective shield for her final struggle.

Dong Xi's little turtle increased its speed to the maximum before the lightning struck, and they dodged it by a hair's breadth.

A tree beside them was struck by lightning and turned black. They looked at the tree with lingering fear.

Chi Yan, who had been flying above them, turned back into his human form. She stood beside a tree and took out a spiritual talisman. She injected some spiritual Qi into it and threw it at the Brass Bull, shouting, "Sacrifice!"

Seeing Chi Yan's action, Dong Xi immediately turned to look at the Brass Bull.

The spiritual talisman turned into a golden cage and trapped the Brass Bull firmly. The Brass Bull roared and hit the cage. There was a loud bang, but it was still trapped in the cage.

Dong Xi finally understood why Chi Yan had asked them to run first. As the Young Master of the Flame Bird clan, Chi Yan was naturally a trump card.

Chi Yan heaved a sigh of relief and immediately said, "Let's run quickly. I'm afraid this talisman won't last long. Let's go to the palace in the middle. There's a formation there, so the demon beasts outside can't get in."

Dong Xi nodded. She changed the turtle he used to escape to a leaf and put away the tree that had been struck by lightning. No matter what, this was still considered a piece of wood struck by lightning. One day, she would be able to use it.

Ke Xin saw Dong Xi's actions and asked Chi Yan, "Little Senior Sister, didn't you say that the Secret Realm was cleared a long time ago? Why are there still tier 3 demon beasts?"

Chi Yan landed on the edge of the leaf and said indifferently, "He might have broken through. I'll report this to the sect when I get back."

Since there were already tier 3 demon beasts, it was not safe for these new disciples to come in for the trial.

The three of them saw the sword sect disciples who had just run out, but the Talisman Sect disciple had disappeared. They wondered if he had used the sect's teleportation talisman.

At that moment, the Sword Sect disciples were facing off against a Soul-snatching Bee. Ke Xin said angrily, "Hmph, we were kind enough to help them escape, but they actually abandoned us."

"We don't have to seek revenge," Dong Xi said with a smile. "There's always karma for what you do outside."

This time, the three of them did not care anymore. After all, the disciples all had the sect's teleportation talismans. If they could not win, they could always escape.

Especially for such a person, he was not worth the three of them saving him.

After flying for more than two hours, they finally left the forest.

An ancient and solemn palace appeared. The entire palace was made of white stone, and only the northeast corner remained the same.

“This palace is different from the ones we’ve seen before!” Ke Xin said happily.

Dong Xi quickly accepted it. In her previous life, Dong Xi had seen many of such buildings, and it had a western feel to it.

“It seems that this Secret Realm doesn’t belong to the Eastern Continent,” Dong Xi guessed.

The little leaf flew to the palace and fell to the ground uncontrollably.

Only then did Dong Xi realize that flying was prohibited here.

Dong Xi used her spiritual Qi to protect herself and slowly descended.

Many disciples had already gathered near the palace. After all, this was the only building here. Perhaps there were some treasures that had not been discovered before?

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Seeing that someone had come over, everyone looked around but did not show any emotion. This was because there really wasn’t any treasure left in this palace.

Dong Xi and the other two put away their spirit tools and walked into the palace. Dong Xi looked around and saw that any random stone here was much taller than them.

“Dong Xi!” Chen Farong shouted.

When Dong Xi heard someone shout, she looked up and saw a familiar figure standing on the stone steps, waving her hand vigorously.

This person was Dong Xi’s neighbor, Chen Farong. Chen Farong had arrived here more than two hours earlier than the three of them.

Now that he had met someone familiar, Chen Farong ran over happily.

“You’re all here. What a coincidence,” Chen Farong said.

Dong Xi also greeted her. Chen Farong continued, “If it wasn’t for your influence, I probably wouldn’t have reached the second level of the Qi Refinement stage and wouldn’t have been able to enter this Secret Realm!”

Dong Xi was stunned for a moment, then said with a smile, "That's because you're willing to work hard. I don't want the credit."

The reason why Dong Xi cultivated at night was that it was faster to cultivate under the moon at night. It was as simple as that.

Chen Farong was somewhat grateful for Dong Xi's encouragement. Chen Farong whispered, "I've been here for more than two hours. I've searched the entire palace, even the ruins, but there's nothing."

"Thank you for telling me, Senior Sister," said Dong Xi.

"You guys just arrived," Chen Farong said with a smile. "You still need to walk around. I'll be leaving."

Watching Chen Farong leave, Dong Xi looked at Chi Yan and Ke Xin. She asked, "Do you still want to walk around?"

Ke Xin did not even think about it and said, "Since we're already here, why would we leave if we don't see it for ourselves?"

Dong Xi looked at Chi Yan, and Chi Yan nodded.

Dong Xi smiled and said, "Opportunities can only be found if there's fate. Let's also take a walk. We'll meet here in a while."

The three of them separated. Dong Xi's Eight-nine Cultivation Technique was activated, as if guiding her to a ruin.

The ruins were supposed to be a garden. The white pavilion had been destroyed, and the roof was gone. Only a few pillars were left, and they were also broken.

It looked as if it had been cut by a knife.

Dong Xi stood there and discovered that the murals on the pillars had been exposed to the wind and sun for who knew how long. They had already fallen off, and the crystals that should have been embedded in them had long since been taken away.

All that was left was this pile of ruins, but why did Dong Xi want to stay here?

Dong Xi stepped over the pillar, pushed away the fallen leaves, and saw a fountain.

Dong Xi took a look and saw nothing.

Just as she was about to leave, she seemed to have tripped over something.

Dong Xi lowered her head to take a look and realized that it was a statue. It had originally been in a fountain.

Dong Xi looked at the statue and thought of putting it in the pond in her cave abode. It did not seem too bad!

Dong Xi picked up the statue and looked around. There was nothing special about it. It was just an ordinary stone.

She casually threw it into her storage ring. Little did she know that the statue just happened to hit the spirit stone in her storage ring.

Dong Xi strolled around the garden, and anything that should have been used had been taken away by the previous people.

Dong Xi sighed. However, just as he was about to leave, her Eight-nine Cultivation Technique once again became somewhat strange.

What exactly is going on...

Dong Xi was a little irritated. She wanted nothing more than for the cultivation method to communicate and tell her, what was it hinting at?

Dong Xi directly sat cross-legged in the middle of the pavilion, throwing away all distracting thoughts and seriously feeling every trace of strangeness in his heart. What exactly was it?

After a while, Dong Xi opened her eyes and looked at the pillars in front of her.

It was no different from an ordinary stone.

Dong Xi pondered for a moment, then raised his hand and sent a few spiritual auras over.

This time, one of the pillars moved, as if it was stuck. Two white lights flashed, and then the light stabilized.

A ray of light stopped in front of her. There were two people in the image, a man and a woman. They both had golden hair and blue eyes. The pavilion in the image was intact.

Dong Xi thought for a moment and understood that this pillar was made of a photostone.

Dong Xi was sitting here alone, surrounded by dense leaves, watching a film.

In the image, the man and woman were cuddling intimately. Then, a group of people in armor suddenly appeared and surrounded them, ruining what was going to happen next.

The woman in the video was frightened and protected the man behind her.

A middle-aged woman appeared. No one knew what she was saying. Then, they started quarreling. The pretty girl suddenly started chanting some incantations. A huge fire dragon slowly appeared behind her.

Even though it was recorded by a photostone, it still shocked Dong Xi.

The flames that filled the sky seemed to set the sky ablaze. The fire dragon roared toward the sky, and a huge fireball descended from the sky!

Chapter 119 - 119 Cool Moves

119 Cool Moves

Seeing the fireball falling from the sky, Dong Xi could not help but say with wide eyes, "What the hell is this chant?!"

Dong Xi carefully looked at the girl's mouth in the image, wanting to see what she was saying.

However, the fire dragon in the image directly charged toward Dong Xi.

Dong Xi rolled back instinctively and found that the fire dragon had passed through her and was rushing toward the people behind her.

The middle-aged woman raised her hand and a water-type protective barrier appeared, protecting everyone. It was only when the fire dragon disappeared that the protective barrier was retracted and she ordered people to capture the man.

However, she did not expect the man to put a dagger against the beautiful girl's neck directly.

The pretty girl's eyes were heartbreaking.

The scene completely disappeared at this point. Dong Xi was a little dissatisfied. This romantic film was not outdated at all, and it was so melodramatic!

However, Dong Xi was very interested in the fire dragon. It was a particularly cool move. If she could learn it, she would have a place on the Eastern Continent's Celebrity List in the future!

Dong Xi pondered for a moment, then raised her hand and patted the pillar.

She could not read it clearly, so she decided to take it back and read it slowly. It was just a mantra. She would learn it sooner or later after watching the movie a few more times.

Dong Xi put away the pillar, and the sense of guidance in his heart disappeared.

Dong Xi could not help but smile bitterly. It seemed that this Eight-nine Cultivation Technique was not anything good. She would not leave when he encountered a small movie.

No matter what, she did not come here in vain. She picked up a large photostone and a frog statue. She could bring them back to decorate her cave.

Dong Xi glanced around again and used the Eight-nine Cultivation Technique to make sure that there was nothing left. then, he turned around and left for the place where the three of them had agreed to meet.

When Dong Xi went over, Ke Xin and Chi Yan were already waiting for her.

"How is it?" Dong Xi asked. "Did you all get anything?"

"There's nothing left." Ke Xin shook her head. "What did you find? "

"I picked up a few stones and went back to make a scene for the pond," Dong Xi shrugged and said.

The two of them looked at Chi Yan and Chi Yan said, "There should be nothing here. Why don't we go outside and take a look? Maybe we can find some treasures."

"That's right," Ke Xin said. "There are still three days. If we can find more treasures, we can go back and do fewer missions."

The three of them decided and left.

Three days later, thunderous rumbles came from the sky.

Dong Xi stopped practicing her swordsmanship and looked up at the sky.

The sky started to blur, and the clouds and the moon twisted together.

Dong Xi knew that they were about to leave the Secret Realm, so she immediately woke up the two sisters who were meditating.

“Little Senior Sister, Ke Xin, wake up. We’re going out soon!” Dong Xi said.

Chi Yan and Ke Xin opened their eyes. They saw that Dong Xi was also beginning to fade. Ke Xin quickly took out her Snuff Bottle and took a puff before the three of them were teleported out.

Ke Xin opened her eyes again, still holding a Snuff Bottle in her hand. When she came back to her senses, she immediately took two puffs.

Dong Xi was not feeling very well either. It was as if she had just drunk a pound of white wine, and her entire body felt light.

Ke Xin immediately handed the Snuff Bottle to Dong Xi. She took a puff and it really did get to her head.

Suddenly, she heard a commotion. Liang Yan resigned himself to his fate and exited his cultivation state.

He glanced at the new disciples and saw that most of them had already come out. It was normal for less than five of them to die. This way, he would be able to explain himself when he returned.

Liang Yan took out his spirit boat again and brought the new disciples back.

When Dong Xi arrived at the sect, she immediately returned to his Immortal’s cave. When she arrived, she activated the restriction and acted as if she did not want to be disturbed.

Song Qingfeng’s messages were also all silent. He sighed, wondering when this little girl would remember to do the 60-year alchemy task.

Dong Xi entered her Immortal’s cave and cast a cleaning spell. Then, she released Songsong from the jade pendant.

At this moment, Songsong had fallen into a deep sleep. Dong Xi instilled spiritual Qi into her and circulated it once. She was relieved to find that Songsong was fine.

Songsong was toyed with by her. It woke up and stared with its big black eyes for a long time before it recognized Dong Xi.

Songsong happily hugged Dong Xi's wrist and wagged its tail. It said cheerfully, "Xiaoxi! You finally let me out! I've already slept for a few nights!"

"They've already come out of the Secret Realm," said Dong Xi with a nod.

When Songsong heard that they were not in the Secret Realm, it was so happy that it wanted to go out. However, Dong Xi warned, "I need to go into seclusion for the next two days. You can play in the courtyard and don't go out. If you get caught, I won't be able to save you."

"I understand. I'll listen to you. I won't run around!" said Songsong obediently. "Xiaoxi, don't worry!"

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Seeing that Songsong was so obedient, Dong Xi opened the stone door and let Songsong go to the courtyard.

When the stone door closed again, Dong Xi took out her storage ring and tapped on the items she had obtained from the Secret Realm. It would have been better if she did not take a look, but she was instantly stunned.

Dong Xi discovered that the spirit stones in her ring were gone! Such a large quantity of high-rank spirit stones were gone? Where did the spirit stones go?

Dong Xi thought it was covered by something, so she poured out everything in the ring and searched carefully, but there was nothing.

!!

Dong Xi carefully recalled. Did she accidentally lose something when she was taking it?

But that did not make sense either. The storage ring had always been used as one pleased and would only take out what one needed. Why would it be thrown away?

Just as Dong Xi was in a state of confusion, she saw the frog statue at the side and was instantly stunned.

Eh? What was happening?

Dong Xi held the statue and looked at it carefully. She muttered to himself, "This stupid frog, why is it getting greener?"

It clearly did not look like this when she picked it up!

The two things were quickly linked together. Dong Xi used her spiritual power to scan the statue but did not see anything.

Dong Xi was furious. She directly flicked the frog's mouth toward the ground, but there was still nothing.

"What the hell are you?!" Dong Xi angrily said. "Hurry up and return my spirit stones to me!"

However, the frog was like a dead object, not moving at all.

Dong Xi angrily threw the frog to the side and was angry for a long time.

In the end, she thought of something and threw a low-grade spirit stone into the frog's mouth. She gritted his teeth and said, "You've eaten some spirit stones, so it better be useful! Otherwise, I'll refine you into a pill!"

He did not know if the warning was effective or if it was because the frog had eaten the spirit stone, but a white light flashed on the frog's body. When Dong Xi looked again, she saw that the frog had spat out a seed.

That's right, a green seed.

Dong Xi picked up the seed and looked at it carefully, but she could not tell what it was.

After thinking for a long time, since she did not know anything, he would just plant it and wait for it to grow out.

Dong Xi immediately took out four spirit stones and fed them to the frog. The frog spat out the seeds just like before.

Based on Dong Xi's experience and observations, these seeds were all different. It seemed like they had been given randomly.

Dong Xi marked out a piece of land in the corner of the courtyard for experimental use. It was best if the things that grew out were worth it. Otherwise, she would definitely throw that broken frog into the alchemy furnace!

in order to increase the survival rate of the seeds, Dong Xi used wood spiritual energy to nurture the seeds for a long time.

After finishing everything, Dong Xi returned to the room and studied the image in the pillar.

It was lonely to watch a movie alone, but it was a different story when it came to studying. Dong Xi watched it over and over again, imitating the shape of her mouth.

Because there was no pause or rewind function, Dong Xi could only watch it again and again.

When Dong Xi closed her eyes, her mind was filled with the movement movies. She subconsciously imitated the shape of his mouth.

After a long time, she finally managed to imitate the obscure sound. A faint fire appeared behind Dong Xi.

it was a success!

Dong Xi opened her eyes and a glint flashed. She looked up and let out a long howl, feeling very delighted!

Dong Xi could not help but praise herself. I'm really a genius! Hahaha!

She cast a cleaning spell and combed her hair, planning to go to the Mission Hall to exchange some points for a Fasting Pill.

Along the way, she would exchange all the treasures she had obtained in the Secret Realm for points.

As soon as Dong Xi left the room, Songsong jumped down from the roof and landed on her head.

"Xiaoxi, you're finally out!" Said Songsong happily.

Dong Xi removed the tail from her face and said to Songsong, "Did you cause any trouble during my seclusion?"

Songsong jumped up from Dong Xi's head, puffed out her chest, and said proudly, "Of course not! I'll help you water them! Even the seeds have become tall!"

Unfortunately, Dong Xi could not see it.

Dong Xi then remembered the seed she had planted before and immediately said, "Oh, really? Have the seeds gotten taller? I'll go take a look."

Dong Xi immediately went to the experimental area and saw five saplings. How tall were they? They had indeed survived.

"How many days will have I been in seclusion?" Dong Xi asked after pondering for a moment.

“It’s been dark 68 times!” Songsong said after some thought.

Dong Xi was stunned for a moment and said in disbelief, “Two months? That long?”

Dong Xi sighed with emotion that time was scarce in Immortal cultivation. At the same time, he took out a jade slip and looked at the news square to see if he had missed any important news.

As soon as she took out the Jade slip, the messages on it bombarded her. This time, besides the sister Ke Xin, there was also Second Senior Brother Song Qingfeng.

a lot of information came from Dong Xi’s jade slip.

[Little Daoist Nun, did you forget something?]

[Did you disappear again?]

[Little Daoist Nun, the sect is starting to rush you. Where are the medicinal pills? Didn’t you agree to do it?]

...

Dong Xi was a little speechless. She had been wondering what had happened, but it turned out that the creditors had come to collect their debts. Not only was it her Senior Brother’s 60 years, but Dong Xi was also in debt for another two months.

Dong Xi took a deep breath, and after exchanging her points, she began to refine pills.

Up until now, Dong Xi, as a pill cultivator, had yet to refine a pill.

After settling the matter at the hall of missions, Dong Xi went straight to the alchemy room.

Before entering, she specially reviewed the instructions for alchemy twice at the door. Then, he took ten sets of medicinal materials and walked into the alchemy room.

Now that he was at the fourth level of Qi Refinement, she should be able to refine ten medicinal ingredients once, right?

However, reality was always cruel. Even if Dong Xi’s theory was excellent, she did not know where she had gone wrong. The instant the pill was formed, the furnace exploded.

One or two times was still acceptable, but after the third furnace explosion, Dong Xi gave up on refining by herself. He took out the jade slip and sent a message to Song Qingfeng.

[Senior Brother, is there a possibility that I don't have any talent in alchemy at all?]

Song Qingfeng quickly replied.

[What do you mean? You want to renege on your debt?]

Dong Xi also replied.

[I've started refining pills today. So far, three furnaces have exploded, and I have no harvest!]

Song Qingfeng couldn't believe it when he saw the message.

[Furnace exploded? Y-you're amazing! If the furnace explodes, you will have to pay spirit stones!]

Dong Xi smiled before sending the message.

[That's right, that's why I'm here to find Senior Brother! Senior Brother, hurry up and save me. If this continues, Junior Sister will use herself to pay for her debt.]

Song Qingfeng looked at Dong Xi's message and was speechless. He could only send messages.

[Wait for me there!]

Dong Xi sat cross-legged in the alchemy room, thinking about the actions and steps she had taken to refine the pill. She began to doubt her life.

The furnace should not have exploded! All the steps had been done according to the contents of the book. How did it become like this?

No matter what, the most she could do was not form the pill. How could the furnace explode? What was the problem?

Song Qingfeng was also worried that Dong Xi would owe more spirit stones, so he rushed over.

When he pushed the door open, Song Qingfeng saw the room was in a mess and there was a dark little girl. It was really embarrassing.

"Junior Sister," Song Qingfeng said helplessly, "Aren't you a little too cruel?"

Dong Xi shrugged and said with a helpless expression, "I didn't expect it either. all the steps were according to the book. I don't know what's wrong."

Song Qingfeng sighed and said to the person in charge of the pill room, "Help my Junior Sister change a room. The Feng Shui here is probably not good."

When Dong Xi heard this, she immediately raised her head and said, "That's right! Why didn't I think of that before?"

Song Qingfeng glanced at Dong Xi in disdain and said lightly, "Change rooms. You can continue with your alchemy. I'll see what the problem is."

Dong Xi looked at Song Qingfeng and was very touched.

Perhaps no one would believe it, but after entering the sect for so long, Dong Xi was finally not a free-range pet!

In the past, it was said that the Master led the way, but the cultivation was up to the individual.

But what about Dong Xi? After becoming Master's disciple, Master had been in seclusion for almost a year... She did not get to see him very much.

"Thank you for taking care of me, Senior Brother!" Dong Xi said with a genuine expression.

The location of the new alchemy room was very good. It sat in the north and faced the south. There was an alchemy furnace in the room, which was the work of a disciple of the equipment refining sect.

Dong Xi first cast a cleaning spell on herself, then bowed in all directions. She looked up and saw a pair of hands in front of her, holding an incense stick.

Dong Xi was stunned. She looked up and saw a face that was asking for a beating. Song Qingfeng said lightly, "You're so unlucky, and you think you solve it by just bowing a few times like this? Be more sincere and light the incense."

Song Qingfeng had seen through Dong Xi's thoughts. She bit her lip and took the incense stick with a cold face. With a wave of her hand, the incense stick was lit, and then she bowed in all directions.

After Dong Xi finished paying her respects, she looked up and saw Song Qingfeng's thoughtful expression. Song Qingfeng said, "Junior Sister, what kind of God are you worshipping?"

Dong Xi's expression was calm as he lightly said, "Heavenly Dao!"

Song Qingfeng was stunned at first, then he said meaningfully, “Junior Sister, you’re really gutsy.”

Dong Xi did not understand what he meant. She waved her hand and the incense in her hand burned out.

“Senior Brother, I’m ready. Shall we start now?” Dong Xi said.

Song Qingfeng found a corner that was furthest away from Dong Xi and sat down, then said lightly, “Then, let’s start refining the pill now!”

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Dong Xi began to refine the pill according to the normal steps, including removing the impurities. She did a good job until she raised the flame and fused the liquid.

“Bang!”

Dong Xi’s expression did not change. She wasn’t surprised at all. This was already the fourth time her furnace had exploded today.

Dong Xi looked at Song Qingfeng and found that he had made a protective shield for himself. The room was full of dust, and only his surroundings were clean.

“Sigh!” Dong Xi let out a light sigh and asked in confusion, “Senior Brother, did you find anything?”

If he could find the problem, the explosion of the pill furnace this time would be worth it.

But Song Qingfeng coughed and said slowly, “I didn’t see it clearly either. How about we try again?”

Dong Xi suddenly wanted to fly into a rage. If this continued, she would probably be able to write a sequel to ‘Furnace Explosion Experience Summary’.

“Senior Brother, are you not good enough?” asked Dong Xi doubtfully. “Why don’t I call Eldest Senior Brother over?”

Although Dong Xi had some psychological trauma when facing her Eldest Senior Brother, he was different from back then. Dong Xi thought that she should not be too quick to judge.

Hearing Dong Xi's words, Song Qingfeng's face suddenly became serious, "Continue! If your furnace explodes again, Senior Brother will pay for it!"

When Dong Xi heard this, she immediately revealed a smile.

Dong Xi was not a materialistic person, but if anyone mentioned material things, Dong Xi would compromise reluctantly.

Dong Xi asked someone to bring her a new pill furnace. Song Qingfeng used a cleaning spell and the room was cleaned.

Dong Xi once again sat in front of the pill furnace, and this time Song Qingfeng sat directly next to her.

"Junior Sister, do you need to worship the heavenly Dao this time?" Song Qingfeng asked.

Dong Xi shook her head and did not dare to speak without thinking. She said, "Maybe the heavenly Dao is very busy right now and can't take care of such a small matter like me. Let's figure it out ourselves and not trouble the heavenly Dao."

With a smile, Song Qingfeng hit Dong Xi's head with his folding fan and said, "Alright, don't be talkative, hurry up and refine the pill! I'll let you know today that your second Senior Brother is the best! Even Eldest Senior Brother can't compare to your Second Senior Brother!"

Dong Xi rubbed her head and asked with an innocent look, "Not even Master?"

Song Qingfeng's face suddenly became serious and he said sternly, "Hurry up and refine the pill!"

Dong Xi sat down with a pitiful expression and took out a set of medicinal herbs from her storage ring.

She continued to repeat every action she had done, this time with extreme caution. However, just like before, the fusion continued, and the furnace was on the verge of exploding.

Dong Xi was already experienced and immediately covered herself with a protective shield.

But this time, Song Qingfeng immediately injected some spiritual energy into the furnace. The furnace shook and became a silent bomb.

When the furnace stabilized. Dong Xi immediately cast a spell and opened the lid of the furnace. A burning smell came out.

Dong Xi fanned himself and made a hand seal. She turned her head and asked, "Senior Brother, do you understand the problem?"

Song Qingfeng glanced at Dong Xi, who was a little confused. However, Dong Xi dared to say that if Song Qingfeng asked her to refine another furnace, she would immediately complain to her Master!

Song Qingfeng did not let Dong Xi down. He said lightly, "I've found the reason,"

Dong Xi's eyes immediately lit up and he immediately asked, "What is it? Senior Brother, please enlighten Junior Sister!"

Song Qingfeng did not say much. He took out an alchemy furnace from his storage ring and placed it in front of Dong Xi. "Use this to refine pills!"

Dong Xi looked at the pill furnace in front of her. The luster and patterns on it made Dong Xi a little afraid to use it.

Song Qingfeng saw that Dong Xi did not move, so he immediately urged, "What are you doing? Start!"

"S-Senior Brother, what if I a-accidentally blow up this furnace?" Dong Xi stuttered. "Junior Sister is really poor now, I can't afford it!"

Hearing this, Song Qingfeng smiled disdainfully. He waved the folding fan in his hand and said slowly, "If this furnace can also explode, then you don't need to be a pill cultivator. You can just be a seal cultivator. The power will definitely be very great!"

Dong Xi knew that Song Qingfeng was just teasing her, but his words made her feel at ease.

Dong Xi closed her eyes and calmed her heart. She cast a spell, and an endless breath flowed out of the alchemy furnace.

Dong Xi was not an idiot. He could tell that this alchemy furnace was not ordinary!

Perhaps, now that she's using this special alchemy furnace, she would succeed?

Although Dong Xi was also a little puzzled, she did not stop her movements.

Chapter 123 - 123 Success

123 Success

The furnace had exploded a few times before, so Dong Xi's technique of refining medicinal ingredients was particularly skilled at this time.

By the time all the herbs had turned into liquid and fused, Dong Xi suddenly had a premonition.

This time, there should not be any problems with the pill refining.

Dong Xi's spirit Qi spread inside the pill furnace and carefully wrapped around the liquid. The spiritual Qi was like a hand, slowly holding all the liquid together.

Dong Xi focused his attention on sensing the state of the medicinal liquid.

Finally, all the medicinal liquids began to show signs of fusion under the drive of the magic spell.

Dong Xi was immediately overjoyed, and her movements became even more careful.

After the time it took for an incense stick to burn, Dong Xi's hand gesture changed, and she even seemed a little excited.

Finally! She finally used the pill formation technique!

At this point, the success rate had reached 99 percent. Even if it failed, the incomplete pill would still be effective.

Song Qingfeng, who had been paying attention to Dong Xi, also let out a sigh of relief and smiled.

That's right, as Song Qingfeng's Junior Sister, how could she not have any talent in alchemy?

It wasn't that Dong Xi's talent wasn't good, it was just that his talent was too good.

Dong Xi's hand movements became faster and faster. It was not until the last spell was cast that the temperature of the alchemy furnace slowly dropped.

Dong Xi looked at Song Qingfeng and said excitedly, "Senior Brother! Did I succeed?"

"That's right," Song Qingfeng nodded and said. "Open it now!"

Dong Xi sat on the spot and didn't move for a long time.

Song Qingfeng looked at Dong Xi in surprise and saw a thin layer of sweat on her forehead.

"Is it successful?" Song Qingfeng asked, "What's going on?"

Dong Xi rubbed her hands and nervously said, "Senior Brother, I'm nervous. Why don't you help me open it?"

Song Qingfeng, "..."

Song Qingfeng waved his folding fan, and the lid of the furnace flew up. He said, "Look at you, is this all you've got?"

As soon as he finished speaking, the fragrance of pills filled the room.

Song Qingfeng was stunned. He immediately stood up and waved his hand to take out the pill from the furnace.

There were a total of nine pills, and each of them had dark golden patterns. They were all high-grade.

Song Qingfeng turned his head to look at Dong Xi, who was looking at him with a worried expression.

Dong Xi saw Song Qingfeng's expression and asked nervously, "Second Senior Brother, don't tell me..."

Hearing this, Song Qingfeng did not know what to say. Back then, Song Qingfeng was also a genius, but he produced five mid-grade pills in his first furnace.

Dong Xi became even more nervous when he saw Song Qingfeng's expression of wanting to say something but not saying it.

How did this happen? There was already a pill fragrance!

Dong Xi really wanted to know the result, so she stood up and ran to Song Qingfeng's side, taking the pill from his hand.

Seeing the pill, she turned to Song Qingfeng with excitement in her eyes and said, "Ah! Senior Brother! All nine of them are high-grade!"

At this moment, Song Qingfeng put away his complicated feelings, opened his folding fan with a calm expression, and said lightly, "Very good!"

Dong Xi took out a porcelain bottle that she had prepared in advance and put the nine high-grade medicinal pills in it. She said without the slightest modesty, "I'm really amazing!"

Hearing Dong Xi's self-praise, Song Qingfeng smiled and said, "Not bad. Since that's the case, I'll rent the alchemy furnace to you."

Hearing this, Dong Xi stopped laughing and looked at Song Qingfeng in disbelief. Dong Xi said, "What? rent? Senior Brother, aren't we close?"

Song Qingfeng looked at the little girl in front of him. It was probably because she had a lot of debts that she could not be tough.

"Not at all," Song Qingfeng said. "Someone once said that I don't deserve a reward!"

Dong Xi, "..."

She had dug a huge pit for herself.

No matter what, she was the one who said it. Dong Xi lowered her head and asked in a low voice, "How much do you want for the rent?"

Song Qingfeng waved the folding fan in his hand and a smile appeared on his face. He said, "I don't want much. Every time you form a pill, give me one. If it doesn't work, then forget it."

Dong Xi's tone immediately rose as she said in surprise, "What? One pill? Senior Brother, are you a loan shark?! Even loan sharks don't do this!"

"Junior Sister, think about it," Song Qingfeng said lightly. "All the other furnaces would explode if you used them. Only my furnace is fine. If you succeed, won't this furnace also have some credit?"

Hearing Song Qingfeng's words, Dong Xi felt that he was right.

Song Qingfeng paid attention to Dong Xi's expression. Seeing the change in Dong Xi's expression, he continued with a smile, "Junior Sister, there's no need to be anxious. Think about it before you make a decision!"

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Then, Song Qingfeng put away the alchemy furnace and turned around to leave.

Seeing that Song Qingfeng was about to leave, Dong Xi immediately shouted, "Senior Brother! Yes! I'll rent it!"

There was probably no other alchemist in the cultivation world who was more miserable than Dong Xi. Every time she succeeded in refining a pill, one of them would go to Second Senior Brother!

Song Qingfeng was not surprised at Dong Xi's words. He put down the pill furnace with a smile and said, "Since Junior Sister wants to rent it so much, then my pill furnace will stay with you."

Looking at Dong Xi's defeated face, Song Qingfeng turned around and left with a smile.

After Song Qingfeng left, Dong Xi was left alone in the alchemy room.

Dong Xi looked at the pill furnace in front of her and began to think.

It was said that a perfect furnace of pills had exactly ten pills, but there were only nine in the furnace just now. If she could make ten pills, one of them would be given to Second Brother.

As she thought about it, she suddenly realized that she did not feel so distressed anymore!

Dong Xi touched the jade pendant on her neck and took out the furnace explosion experience book from the medium.

Dong Xi was now studying more and looking more to see where she needed to improve.

One day, she would be able to make a perfect batch!

According to the book, Dong Xi had sorted out three main points: The first was to ensure that the impurities of the medicine were completely removed, leaving only the pure medicine. Any impurities could lead to the final failure.

The second was that the order in which the ingredients were mixed together during the process of congealing the pill also had some influence.

The third and most important point was that the pill formation technique had to be fast. If it was slow, it would affect the success rate of the pill formation later on!

After Dong Xi concluded, she sat on the ground and began to practice the hand seal technique. When her hand speed was very fast, Dong Xi slowly opened her eyes and began to refine the pill again.

Song Qingfeng came out of the alchemy room and went straight to his master's cave.

His master had been in seclusion for a few days, and he did not know when he would come out. When he realized that his master had not come out, he could only leave behind a voice transmission talisman and turn to leave.

When Dong Xi had been in the alchemy room for a whole month, Master Lingxu had come out of seclusion.

During his seclusion, he had comprehended an ancient medicinal formula.

In ancient times, this place was filled with spiritual energy, and people's cultivation improved very quickly. At that time, it was truly a place where hundreds of flowers bloomed.

Many people with special abilities had created cultivation techniques.

This time, what Lingxu comprehended was the medicinal formula that had been passed down to this day from that time. At that time, in order to be able to increase their cultivation faster, people wanted to hide the bad spirit roots and only focus on the best spirit roots. This way, they could avoid being distracted during cultivation, and it was also a kind of cultivation method.

This method was called the Spirit-Concealing Pill.

Master Lingxu clicked his tongue in wonder. The thoughts of the people of ancient times were really strange!

Lingxu stretched lazily. He thought of the two disciples he had taken in previously, and wondered how they were doing now.

Lingxu sensed the voice transmission talisman at the door. He waved his hand to open the restriction and put the voice transmission talisman away. The voice transmission talisman was placed in front of Lingxu, and it started to burn.

Song Qingfeng's voice followed, "Master, Little Junior Sister has already started to refine pills, but there was a small accident. When you come out of seclusion, I will explain in detail."

When Lingxu heard that something was wrong with Dong Xi, he immediately made a hand seal and asked Song Qingfeng to come over.

Song Qingfeng was summoned by his master. He did not cultivate and rushed to his master's cave.

Song Qingfeng arrived at his master's cave and shouted, "Master!"

Before he bowed, Master Lingxu directly asked, "What's wrong with Dong Xi? I handed her over to you, how did you take care of her?"

Song Qingfeng immediately bowed and explained, "Master, this isn't bad. We've probably all underestimated Little Junior Sister's talent!"

When Master Lingxu heard this, he was stunned for a moment. Then, he calmed down and asked, "What? what's going on?"

"Little Junior Sister started refining pills a month ago, and she blew up five furnaces in a row!" Song Qingfeng said.

Master Lingxu's expression turned serious when he heard this.

Ordinary disciples might not succeed in refining pills, but it was still very difficult to cause the furnace to explode.

"But the equipment refining sect only gave inferior products?" Lingxu asked.

Song Qingfeng shook his head and said, "No, it's because her fire spiritual essence is special. According to my observation, although her fire attribute is not high, the temperature is very high. Ordinary elixir furnaces can't withstand it."

The high temperature of the fire spiritual energy was a good thing for alchemists. Some medicinal materials had a very high melting point. If the temperature was not high enough, they would need to rely on external help.

It was good if some could borrow external forces, but if they couldn't, they could only watch and couldn't do anything. There were many limitations.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Under normal circumstances, the temperature of the fire spiritual energy was equivalent to the spiritual root value. The higher the spiritual root value, the higher the temperature.

Song Qingfeng's root value had reached 91 points, but her furnace did not explode when she was refining pills. However, Dong Xi's furnace exploded when she was only in her 70s?

The master and disciple were also very confused. Master Lingxu had a faint guess in his heart that perhaps this was related to Dong Xi's physique.

Thinking of this, Lingxu felt relieved and said with a smile, "This is considered a good thing, right? This means that this little disciple was born to be an alchemist!"

Song Qingfeng also agreed with his master.

Song Qingfeng continued, "Master, I lent the Heavenly Mountain Cauldron to Junior Sister. Can you guess how many pills she made in the first batch? What grade did she make?"

After thinking for a moment, Master Lingxu said indifferently, "Little Disciple's talent is very good. I think there should be at least seven, right?"

Song Qingfeng shook his head, and Master Lingxu asked, "How many?"

"Nine in total!" Song Qingfeng said lightly.

when Master Lingxu heard this, he instantly sucked in a cold breath and asked in disbelief, "What? Did you say nine?"

Song Qingfeng saw his master's shock and nodded, "And they're all high-grade ones!"

Master Lingxu's originally dormant heart was completely awakened as well. He said loudly, "What? All nine of them are high-grade?"

Song Qingfeng nodded and said seriously, "That's right, when Little Junior Sister was refining the pills, this disciple was on the side and personally watched."

Master Lingxu was silent. He was thinking about the treasures he had collected over the past few hundred years, trying to see which one was suitable to give to his talented little disciple.

It was Lingxu's good fortune to have such a disciple!

However, in Song Qingfeng's eyes, Lingxu's expression looked like his master was questioning him. Song Qingfeng continued, "Master, Little Junior Sister is currently in seclusion in the alchemy room. Do you want to go and take a look?"

As soon as Song Qingfeng finished speaking, the master in front of him disappeared.

At this moment, Dong Xi had already turned into a pill refining machine. Her movements were becoming more and more skilled, and she could basically not waste a single bit of spiritual Qi.

For the past month, she had been refining pills day and night. She had completed the task that he owed Second Senior Brother for 60 years.

Now, the lines on the pills were clear. Each pill was of the best quality, and he guaranteed ten pills each time!

If this success rate was spread out, who would believe that Dong Xi was just a newcomer who had only started refining pills for a month?

Dong Xi cast a spell and then ate a spirit replenishing pill to recover her spirit Qi.

At this moment, the space in front of them suddenly distorted, and Master Lingxu appeared.

Dong Xi was stunned for a moment before she suddenly remembered that this was her master! She almost did not recognize him!

Dong Xi immediately stood up and saluted. She respectfully said, "Disciple Dong Xi greets Master!"

Dong Xi's body seemed to be lifted up by something. Lingxu said, "there's no need to bow."

As he said this, Lingxu's divine sense scanned the pill furnace.

It was also this glance that made Lingxu even more shocked.

Without any guidance, she could refine a perfect batch? This little disciple of his was indeed very talented!

After that, Lingxu saw a piece of paper filled with words beside Dong Xi.

Ling Xi curiously picked up the paper and unfolded it to take a look.

The handwriting was not the best, but the content on it made Lingxu even more shocked.

Lingxu could not help but read out, "The three essential factors and ten details to increase success-rate and quality!"

Dong Xi said with some embarrassment, "Master, I'm used to jotting down notes. I've seen all of this in the books, so I've jotted it down."

Master Lingxu nodded and passed the paper to Dong Xi. Lingxu said, "Xiaoxi, this is a good habit. Although learning is easy, it's very difficult to summarize. You're already better than many cultivators if you have such a mentality."

Dong Xi wanted to say that in the 21st century, learning summary was a small skill that every student had to have.

Dong Xi smiled. Fortunately, those students had not transmigrated. Otherwise, the cultivation world would have been swept up by these students until they died!

“This isn’t a skill, master,” said Dong Xi.

Master Lingxu thought that Dong Xi was being modest and had a better impression of this last disciple.

Lingxu touched his beard and said with a kind expression, “Xiaoxi, what are the chances of your spirit refilling pill being a perfect batch?”

“Honored Master, since half a month ago, I have been producing ten top-grade pills in each cauldron!” Dong Xi said respectfully.

Master Lingxu was shocked and said with relief, “Not bad, not bad at all! Xiaoxi, now that you’re already familiar with refining the Spirit Restore Pills, i think you should learn how to refine other medicinal pills!”

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Hearing Master Lingxu’s words, Dong Xi smiled bitterly and looked at him, saying, “Master, it’s not that I don’t want to learn, but I still have debts to pay!”

When Master Lingxu heard this, he asked in surprise, “Where did the debt come from? It’s already been half a month and you still haven’t paid off your due of Spirit Restore Pills?”

His little disciple had only entered the sect for a little more than a year, so how could she have so much debt?

Sighing, Dong Xi explained to Master Lingxu, “Second Senior Brother gave me a flying magic tool before, so I agreed to help him pay off the 60 years of alchemy task he owed the sect. When we started refining pills last month, Second Senior Brother rented this furnace to me, and I promised to give Senior Brother one pill for every successful batch as rent.”

Master Lingxu, “...”

This Song Qingfeng! Sure enough, the richer you are, the stingier you are! He even had to be so calculative with his Junior Sister!

“I understand,” said Master Lingxu.

With that, Lingxu took out a furnace from his storage ring and passed it to Dong Xi. Master Lingxu said, "This alchemy cauldron is for you. Return your Senior Brother's one to him. We are alchemy grandmasters. Other than having a lot of pills, we also have a lot of alchemy furnaces!"

Dong Xi looked at the furnace that her master had given her. It was black and gold in color, and there were many runes on it.

Dong Xi was stunned for a moment, and then said with some worry, "Master, my spiritual energy seems to be a little different. I blew up five of them before, but what if... this one..."

Without waiting for Dong Xi to finish, Master Lingxu already understood what she meant. He said, "It's fine, this is very sturdy, don't worry!"

Dong Xi was pleasantly surprised. Her eyes flashed with a touch of brilliance and she immediately cupped his fists and said, "Thank you, Master, for your reward! This disciple can not thank you enough!"

Then, Dong Xi put away Song Qingfeng's furnace and put away the one her master had given him. She was ready to continue making pills.

When Master Lingxu saw Dong Xi's actions, he thought that Dong Xi wanted to try out the feeling first. Thus, he stood at the side and watched. If there was anything wrong, he could give some pointers.

However, he did not expect that after Dong Xi finished refining one batch, she would continue to refine the next batch as if there was no one else around. Master Lingxu stood at the side and watched Dong Xi refine five batches of pills. When her spirit Qi was exhausted, she ate a Spirit Restore Pill with great familiarity and then continued to refine.

Master Lingxu, who was ignored by Dong Xi, could not help but shout, "Xiaoxi."

Only then did Dong Xi come back to her senses. She looked at Master Lingxu behind her and seemed to be even more shocked than him. Dong Xi said, "Master, what's the matter?"

Why aren't you leaving yet?

It was just that she did not finish her sentence, but Master Lingxu could already tell.

"Have you always been refining pills like this?" Master Lingxu asked.

Dong Xi shook his head. Just as Master Lingxu was about to heave a sigh of relief, he heard Dong Xi say indifferently, "I only do this during the day. There's moonlight at night, so I still have to cultivate."

Master Lingxu, "..."

Th-this was simply the best role model! If the alchemy sect's disciples were all so diligent, not everyone would have so many debts on them, and the alchemy sect would have long become the richest in the Immortal cultivation world!

Although Master Lingxu was shocked, he only gave her two bottles of Fasting Pills and left.

As soon as Master Lingxu left, Dong Xi immediately sent a message to Song Qingfeng.

[Second Senior Brother, I'll return the furnace to you. You're a loan shark, I can't afford to borrow it!]

Song Qingfeng also replied quickly.

[Why? The debts have all been settled?]

Dong Xi proudly sent a voice message saying, "Master, you've come to see me and even gave me a furnace. I will never be exploited by you again!"

Hearing Dong Xi's proud voice, Song Qingfeng laughed. This little girl, I wonder where she learned so many new words. Song Qingfeng also sent a voice message, "That's hard to say."

At first, Dong Xi thought that Song Qingfeng was trying to save face, but Song Qingfeng immediately sent a voice message saying, "A squirrel suddenly ran into my cave and bit my spirit plant."

Dong Xi's smug expression instantly disappeared. A thought ran through her mind. Could she pretend not to know this squirrel?

Song Qingfeng sent another voice message, breaking Dong Xi's thoughts. Song Qingfeng said, "I can sense your aura on this squirrel, why is that?"

Dong Xi, "..."

Everyone else would become rich if they worked hard, but why was it that the harder she worked, the more debts she had?

Dong Xi sent a voice message with a cold face, "Keep a close eye on her. If she destroys anything, I won't pay for it."

Dong Xi's heart was bleeding.

She had told Songsong not to go out, but now she was in even more debt.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

With such a thing happening, Dong Xi did not have the mood to continue refining pills. She had already covered about 9 out of the 60 years of pills she owed to her Senior Brother.

Dong Xi put away the furnace, walked out of the alchemy room, and flew to Song Qingfeng's cave on the small leaf.

This was also Dong Xi's first time visiting. There were all kinds of restrictions in front of Song Qingfeng's cave, so Dong Xi could only send messages at the door.

This made Dong Xi even more curious.

There were so many restrictions in Second Senior Brother's place, so how did Songsong get in?

Before Dong Xi could figure it out, the restrictions had already been deactivated.

The originally ordinary-looking mountain peak seemed to have its mysterious veil removed. Pavilions, rockery, and flowing water were all revealed.

Dong Xi looked at the scenery in front of her and sighed. Wasn't this the life that people should be living?

In comparison to Second Senior Brother's residence, Dong Xi's cave abode was clearly a place where savages lived.

Dong Xi was so shocked that her jaw almost dropped to the ground as she stepped into the Immortal land.

Dong Xi walked across the small bridge and the flowing water. The koi fish in the water were clustered together, which was very beautiful.

Dong Xi wished he had eyes all over his body to see all the beautiful scenery at Second Senior Brother's place.

Song Qingfeng lived in the palace. As soon as Dong Xi came to the steps, a neon light extended from the palace to Dong Xi.

Dong Xi, “....”

Was this an elevator in the world of cultivators?

Dong Xi carefully stepped on it and found that she could actually stand steadily. The neon light slowly took her to the palace.

As soon as Dong Xi arrived at the door, he heard a voice from the palace. Song Qingfeng said bitterly, “Junior Sister, Senior Brother has been waiting for a long time!”

However, when Dong Xi thought about how Songsong had ruined a third-grade spirit plant, her scalp could not help but go numb.

At such a young age, she had to bear so many debts and especially wanted to renege on them.

Standing at the door, she was hesitating whether to go in or leave. Song Qingfeng seemed to have seen through her thoughts. He said, “Junior Sister, you’re not thinking of running away are you?”

His words were spot on. However, thinking that even if she were to escape now, she would still have to return to her Immortal’s cave. She heaved a sigh and gritted her teeth before entering the palace.

Song Qingfeng was wearing white clothes made of unknown material. The clothes seemed to be glowing, and with his face, he looked like a fairy.

There was a squirrel on Song Qingfeng’s leg. Dong Xi was a little nervous when she saw it. She immediately asked, “What’s wrong with Songsong?”

Dong Xi and Songsong had signed a master-servant contract, and their souls were connected. If anything happened to Songsong, Dong Xi would be able to sense it.

Song Qingfeng grabbed its tail and lifted it up. Its little claws drooped down powerlessly, and she looked like it was half dead.

“What happened to Songsong?” Dong Xi asked in panic.

Song Qingfeng put Songsong back in his hands and walked toward Dong Xi.

Dong Xi subconsciously stepped back when she saw Song Qingfeng walking over as if he was going to force her to pay her debt.

Seeing Dong Xi’s action, Song Qingfeng’s eyes lit up with a smile. He said, “It became like this because of its greed. A tier 1 squirrel actually dares to eat a tier 3 Illusion Rain Orchid. It would be strange if it didn’t end up like this, right?”

“Senior Brother,” Dong Xi asked, “There are restrictions everywhere. Songsong is just a tier one squirrel. How could it get in?”

After saying that, Dong Xi looked up at Second Senior Brother and found that he was a little speechless.

Dong Xi asked even more nervously, “What’s wrong? Is there something wrong?”

Song Qingfeng raised his hand and took out a huge book. He said, “Junior Sister, take a good look at it.”

Dong Xi saw the words ‘Complete Guide to Demon Beasts’ on the book.

Dong Xi, “....”

Dong Xi admitted that she did not know much about this, but she did not dare to accept this book. If she accepted it, she would have a few decades of debt. What was the point of cultivating? It was even more miserable than a slave worker.

“No need,” Dong Xili said, shaking her head. “I’ll go to the library to borrow some books.”

Of course, Song Qingfeng knew what Dong Xi was thinking. He smiled and said, “You’re so useless. I’ll lend you this. You don’t need to pay any rent!”

Dong Xi heaved a sigh of relief and revealed a smile. She cupped her fists and said, “Thank you, Senior Brother. Little Junior Sister won’t hesitate!”

Song Qingfeng looked at Dong Xi happily holding a book that was about the same height and felt a little funny. He kindly said to Dong Xi, “The innate skill of the tier one Broodbreak Squirrel is immunity to all restrictions.”

It was because the little squirrel was immune to all the restrictions that it was able to run to Song Qingfeng’s cave. Seeing that Dong Xi had understood, Song Qingfeng continued, “You should be happy that it came to me. If you went to other places, I’m afraid you would be implicated.”

Dong Xi frowned and her expression became serious.

“Thank you, Senior Brother, for stopping it for me,” Dong Xi said sincerely with cupped fists. “I’ll compensate you for the spirit plants.”

Song Qingfeng did not care too much. There were spirit herbs in the yard anyway. Even if he strolled around, he could stomp a few third-grade spirit herbs to death.

!!

The reason why he said that was just to tease.

Looking at Dong Xi's serious expression, Song Qingfeng thought for a while and said, "It's not necessary. Didn't I tell you to catch more fish in the Secret Realm? You can pay with fish."

When Dong Xi heard this, she immediately heaved a sigh of relief.

She might not have caught anything else, but she had caught quite a few fish.

With the fish in one hand and the goods in the other, Dong Xi carefully 'redeemed' Songsong back into her hands.

Songsong lay softly on Dong Xi's arm with its eyes closed. If one got close, one could hear it breathing.

The corner of Dong Xi's mouth twitched a few times. She looked up at Song Qingfeng and asked, "Senior Brother, how long will this little thing sleep for?"

Song Qingfeng returned to his soft couch and said lightly, "That depends on how long this little thing can take to absorb the spirit plant. It could be a few months, or a few years. It depends on this little thing's own luck."

Dong Xi sighed softly. Forget it. In the future, it would be safer to put it in the jade pendant.

Song Qingfeng looked at Dong Xi's worried face and comforted him, "There's no time in Immortal cultivation. Don't mind it too much. When you wake up next time, you'll be able to advance."

Dong Xi nodded. This could be considered a good thing!

After leaving Song Qingfeng's cave, Dong Xi sat on Xiao Yezi and returned to the cave.

More than a month had passed, and she wondered what the five seeds were like now.

As soon as Dong Xi landed, she immediately went to take a look at the experimental field.

She looked at the experimental field, then at the red flowers she had brought back and planted at the side. Why did it feel a little off?

Some of the surrounding plants had their nutrients taken away by the flower, and they became a little wilted.

As for the two spirit plants that were originally nearby, they had also moved to other places.

This? What was happening? Spirit plants could walk on their own?

Dong Xi was extremely curious, and she might as well take action.

Dong Xi used her wood spiritual energy to protect a spirit plant and carefully dug it out, wanting to plant the spirit plant next to the red flower.

However, just as she was about to plant it, she saw the leaves of the spirit plant trembling.

Dong Xi stood up and was about to walk into the cave abode when she discovered that the spirit herbs were actually quietly moving to the side.

Dong Xi's soft eyes were truly a sight to behold! The spirit plants could move on their own?

What kind of monster was this? In the 'Complete Guide to Spirit Plants' she had read before, it said that if one found such a Spirit Ginseng Plant, they had to immediately use 'Ground Prison' spell to lock it down. Otherwise, who knew where they would run to next time?

Could it be that the one moving was a Spirit Ginseng Plant?

With such a thought in mind, Dong Xi was somewhat satisfied.

If it was a ginseng, its grade would definitely not be low, so there was no need to throw away the frog statue.

This time, Dong Xi did not plant the spirit herbs by force. He was only worried that this ginseng would run around like Songsong, so she used Ground Prison.

When she returned to the cave, Dong Xi was completely relaxed.

Sure enough, no matter how good other places were, they could not be better than his own 'kennel'!

Dong Xi put Songsong on her lap, took out the Complete Guide to Demon Beasts that Second Senior Brother had borrowed, and turned to the page where Songsong was.

The Broodbreak Squirrel was a tier 1 demon beast. It could grow, and its peak level was still unknown.

Unknown?

Dong Xi was a little confused. The word 'unknown' usually meant two extremes.

One was extremely powerful, while the other was indescribably arrogant.

Dong Xi did not dare to think too much. If her expectations were too high, the disappointment would be too great. It was better not to have too much hope for a guy who could transform grass into a tree.

Dong Xi found it a little difficult to carry such a large book, so she placed Songsong, who was sleeping on her lap, on her shoulder and placed the book on her lap to continue reading.

This page had detailed records of the habits and skills of the Broodbreak Squirrel. It ate all kinds of spirit fruits and nuts as its food. Although it was very timid, it was very alert. Someone had seen this little fellow in the Daxing Forest of the Eastern Continent before, but he had only seen it once before disappearing without a trace.

Dong Xi read it carefully and looked at the limp Songsong. She suddenly fell silent.

Timid but very alert?

However, Songsong was rather reckless. Could it be that she was the only one like this, and she so happened to meet it? It can't be such a coincidence, right?

Share to your friends

Dong Xi thought that since she had already borrowed the book, she might as well read it and understand the demon beasts.

In the book, Dong Xi found Senior Brother Rui Xian's sky crane race, as well as the fish she caught from the Secret Realm.

However, it was strange that there was no record of the big snake in the entire book.

The snake's scales were pitch-black and lustrous. He had dark golden vertical pupils, and his spiritual energy was still green and poisonous.

There were also many snake races in the book, but after careful comparison, there was no one like the great snake.

Dong Xi closed the book and muttered to herself, "Maybe it's a hybrid? It can also mutate?"

Since she did not have a clue, Dong Xi did not want to think about it anymore. She ran to the Second Senior Brother's cave dwelling again and returned the book and the furnace.

Song Qingfeng looked at Dong Xi with a faint smile and asked, "You're really not renting it? What kind of furnace did Master give you? Can it withstand the damage?"

Dong Xi firmly shook her head and showed off the furnace that Master had given her. Dong Xi said, "I'm not renting it! Senior Brother, look, Master gave it to me. It's very good, and I'm using it quite well. You don't have to worry about it!"

Song Qingfeng looked at the furnace and could not help but sigh, "Master is so biased! You even have this furnace?"

This golden pattern furnace naturally could not be compared with his furnace, but it was much better than the one Song Qingfeng had when he had just entered the sect and his master had casually given it to the disciples of the Magic Tool Sect.

Dong Xi put away the golden-pattern cauldron and took out 95 bottles of pills from her storage ring, filling the jade table in front of Song Qingfeng.

"Senior Brother, this is to pay my rent," said Dong Xi.

Seeing so many bottles, Song Qingfeng's interest was immediately piqued. But when he saw more and more porcelain bottles on the table, he was dumbfounded.

"Rent? " Song Qingfeng was confused. "This is all rent?"

"That's right," Dong Xi nodded.

Song Qingfeng looked at the pill on the table and then at Dong Xi. he smiled and said, "one pill per batch. Little Junior Sister, you finally understand. If you're wrong, I won't return it.

"That's right." Dong Xi nodded and said seriously, "I've concocted 950 cauldrons of pills, so I should give you 950 pills. Ten pills per bottle, so it's exactly 95 bottles."

Song Qingfeng's folding fan fell to the ground, but he didn't even pick it up. He looked at Dong Xi with shock in his eyes and said, "You've refined 950 cauldrons in just one month? More than 30 cauldrons a day?"

The shock in his tone made Dong Xi think that he had done something incredible.

However, Dong Xi did not do anything except refine some medicinal pills. Although it was boring, she got used to it after a long time.

"That's right," said Dong Xi indifferently. "It's a little slow, but I have to cultivate at night, so I need some time."

Song Qingfeng's eyes widened as if he was looking at a monster.

Song Qingfeng asked in disbelief, "You've been cultivating every night?!"

Dong Xi nodded and looked at Song Qingfeng with confusion. She did not understand why her Second Senior Brother would ask such a question.

"That's for sure. My aptitude isn't good. If I don't work hard in cultivation, I'll fall behind others by a lot, right?" Dong Xi said.

Song Qingfeng, "..."

This girl was already at the fourth level of the Qi Refinement stage. Those new disciples who joined the sect together with her were still at the third or second level of the Qi Refinement stage. Only Chi Yan and a few others who were more talented had barely reached the fourth level of the Qi Refinement stage.

Who was left behind?

Song Qingfeng suddenly understood why his master was so good to his Little Junior Sister. A diligent child was always liked. In addition, his Little Junior Sister should be the main pillar of the Alchemy Sect this year.

But Song Qingfeng was wrong about this.

The news that the Junior Sister of the Alchemy Sect, Dong Xi, had refined 9,500 pills in a month in the alchemy room had spread very quickly. It was also because of the support of Dong Xi's large number of pills that the number of Spirit Restore Pills that the disciples of the Ningtian Sect could return this month increased.

Song Qingfeng was already numb to this news. His Junior Sister had made 950 cauldrons of pills and produced 9,500 pills. She had reached her limit almost every time.

Song Qingfeng took out a porcelain bottle. As soon as he opened the bottle, a strong medicinal fragrance came out of the bottle.

Song Qingfeng was speechless.

Song Qingfeng could not believe it. He opened a few bottles and found that all of them were top-grade spirit refilling pills.

It turned out that Junior Sister was actually able to form a perfect pill in this one month.

Chi Yan, who had also received the news, looked at the communication jade slip and could not come back to her senses.

Chi Yan hesitated for a moment, then made up her mind. She picked up the Jade slip and sent a message to Dong Xi.

[Little Junior Sister, I have some doubts about alchemy. I wonder if I can ask Little Junior Sister for some advice?]

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

These days, Master had been in seclusion. Chi Yan had tried to send messages to her Eldest Senior Brother, but there had been no response. Perhaps he was also in seclusion. Chi Yan himself could not figure it out. Now that Little Junior Sister had suddenly appeared, it was naturally a better choice.

Dong Xi had also just finished refining a furnace of medicinal pills. When she saw the message about pills, she immediately replied.

[Senior Sister, if you have any questions, just ask. Little Junior Sister will definitely know everything and teach you everything she knows.]

Chi Yan must have been waiting for Dong Xi's reply, and as soon as she sent it, she saw a voice message. Dong Xi opened it and heard Little Senior Sister asking seriously, "Why do the cauldrons keep exploding?"

Dong Xi, "..."

If the questions were too profound, Dong Xi might not know how to answer. But when it came to exploding furnaces and cauldrons, no one in the sect understood it better than Dong Xi.

Dong Xiao laughed and sent a voice message, "This matter is a bit troublesome to talk about. If Little Senior Sister has time, come to the alchemy room and we can discuss it together."

Chi Yan put away the jade slip, cast a cleaning spell, and tidied up the cave abode. She took off the broken feather on her head, turned back to her original form, and flew directly to the alchemy room.

Chi Yan flew across the sky and landed in the alchemy room. Then, she strode towards Dong Xi's room. Many people saw her.

Dong Xi saw Chi Yan enter, and then looked at the sign above her head that had already disappeared. She immediately understood everything.

Chi Yan noticed that Dong Xi was looking at the top of her head, and suddenly felt a little uncomfortable, as if her secret had been discovered.

No one would have thought that Chi Yan had blown up her own feathers because she was refining pills.

Looking at Dong Xi's shining eyes, Chi Yan was stunned for a moment. Dong Xi immediately came forward affectionately and whispered, "Senior Sister, do you also keep exploding furnaces?"

When Chi Yan heard the word 'also', she suddenly guessed something. She looked at Dong Xi in disbelief and asked, "Little Junior Sister, could it be that you also..."

Dong Xi's face was slightly red as she nodded and sighed, "Sigh, it exploded five times."

When Chi Yan heard this, it was as if he had seen his clansmen. She pulled Dong Xi's hand and said, "Xiaoxi, how did you stop the explosion? I blew up three furnaces, and the ones I brought from home were all blown up. I asked the questions anonymously on the jade slip square, and no one knew."

"I went to Second Senior Brother before," said Dong Xi. "He told me it was a problem with the furnace."

Dong Xi pondered for a moment and let Chi Yan sit in her seat. Dong Xi said, "Senior Sister, if you try using my furnace now, maybe you can solve the problem?"

When Chi Yan heard Dong Xi's words, her heart calmed down a little, and she sat directly in front of Dong Xi's furnace.

Chi Yan closed her eyes and was about to start when she suddenly thought of something and said to Dong Xi, "Little Junior Sister, don't be afraid. If I blow up your furnace, I'll definitely compensate you with something better than this."

"Don't worry, Senior Sister," Dong Xi said with a smile. "If it really explodes, we'll go to master for advice."

Chi Yan closed her eyes and circulated her spirit Qi. Scorching fire spiritual Qi entered the furnace. The temperature was much higher than Dong Xi's.

Even Dong Xi, who was sitting at the side, had a layer of sweat on her forehead.

Although it was very hot, it did not affect anything. At this time, Dong Xi was completely focused on the alchemy furnace, feeling the spirit plants gradually turning into nothingness under the high temperature.

If the furnace were to explode this time, there wouldn't even be a scrap left.

Chi Yan slowly opened her eyes. Dong Xi was still thinking about how to comfort her when she saw Chi Yan looking at her with a happy face. Chi Yan said, "Little Junior Sister! This time, the furnace really didn't explode!"

Dong Xi, "..."

This could be considered an improvement, right?

Through her observation, Dong Xi felt that it would be very difficult for Chi Yan to form pills.

It was not because Chi Yan's fire was not good, but because Chi Yan only had a fire spiritual root, and it was difficult to control that degree. No wonder everyone said that if one wanted to be an alchemist, one must have the fire wood spirit root.

However, it was not as if there was no way. Just like when he was studying in the past, if she had no talent, she could not just wait for death, right? What could she do? She could only rely on rote memorization. There was no formula that could not be understood, as long as it was a lazy child!

Dong Xi said, "Little Senior Sister, don't be anxious. I think I know why. This time, you should slowly inject your spiritual power. If I say stop, stop!"

When Chi Yan heard her say this, she immediately felt more at ease. Dong Xi then took out a set of materials and handed it to Chi Yan.

Chi Yan threw the materials into the furnace, and according to Dong Xi's instructions, she poured in spiritual Qi bit by bit.

The furnace slowly heated up, and Dong Xi also injected a little wood spiritual energy into it. Sensing the state of the materials in the furnace, Dong Xi said, "Now, add a little, a little, yes, good, it's done!"

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

When Chi Yan heard Dong Xi's words, she immediately stabilized the temperature and did not dare to increase it any further. The alchemy furnace was also roasted red by Chi Yan's fire spiritual energy. At this time, Dong Xi asked Chi Yan to put in a second spirit plant, using the same method. After a few times, all the spirit plants had been burned into liquid. Dong Xi immediately said, "Little Senior Sister, now! Spread out your spiritual energy and prepare to fuse the medicinal liquid!"

Chi Yan did not dare to hesitate. Following Dong Xi's instructions, she spread the spiritual Qi all over the alchemy furnace and carefully wrapped up the spirit liquid. The impurities in the spirit liquid were burned away by the high temperature.

The temperature in the alchemy room had also become particularly high, and one could even hear the sizzling sound of the spirit liquid in the furnace. Dong Xi and Chi Yan's faces were slightly red, one caused by excitement, and the other by being too hot.

In the end, all the liquid was mixed together. Dong Xi immediately said, "Senior Sister, form the seal now! It's about to form into a pill!"

the movement of Chi Yan's hand changed, and the temperature in the furnace also slowly dropped. Dong Xi withdrew the wood spiritual energy.

Chi Yan opened his eyes and looked at Dong Xi. Dong Xi said with a smile, "Senior Sister, hurry up and open the furnace!"

Chi Yan's eyes were filled with surprise and nervousness. She gritted her teeth and nodded. "Alright!"

When Dong Xi saw Chi Yan use the technique, she immediately became nervous.

Chi Yan waved her hand and five pills flew out.

However, the pills Chi Yan refined were much smaller than other pills. They looked like the size of hawthorn pills in her previous life.

Chi Yan frowned and said, "So is this considered a failure?"

Dong Xi picked up a medicinal pill and looked at it carefully, but she could not see any problems, so she simply ate it.

The spirit power in the pill instantly filled Dong Xi's meridians. After a long time, Dong Xi opened her eyes. Chi Yan immediately asked, "Did you succeed?"

Dong Xi gave Chi Yan a thumbs up and said, "Amazing, Senior Sister. Your pill doesn't take up much space, but its effect is not bad!"

When Chi Yan heard this, she could not believe it. Dong Xi said, "You'll understand after eating one."

Chi Yan thought for a moment and ate a pill. She immediately realized that the effect of the pill was not bad.

"Why is it so small?" Chi Yan asked.

"Senior Sister, perhaps it's because your fire spiritual Qi is too dense that you've refined the spirit liquid to be too pure. But this is very good!" said Dong Xi. "You can sell 20 pills per bottle to those cultivators. They used to take them bottle by bottle, so they must have bought a lot."

Chi Yan had also just sensed Dong Xi's Wood spiritual energy in the furnace. She immediately frowned and said, "Junior Sister, I can't ask you for help every time. I don't have a wood spirit root, so I can't feel the changes in the furnace."

"No need, Senior Sister," said Dong Xi. "Did you remember it just now? How long did it take to temper each type of spirit plant? How long would the fusion take? Remember this feeling, and you can also refine pills in the future!"

When Chi Yan heard Dong Xi's words, she was suddenly a little dumbfounded. Would that be alright?

"Junior Sister, can we just memorize something like this?" asked Chi Yan. "Should I try again?"

"Senior Sister, if we want to increase the success rate, we need to experiment a few more times!" Dong Xi said after some thought.

"Experiment?" Chi Yan asked, puzzled. "What is it?"

In her previous life, Dong Xi had been a science student, so she had naturally experimented a lot. However, for a monster race, it was a new word.

Dong Xi brought Chi Yan to the side and sat down. She began to explain, "Senior Sister, different spiritual plants have different timing to remove impurities. You don't have a wood spirit root, so you can't accurately sense the right time. However, if you're about the same age, the time should be about the same. Try a few times and get a rough idea of the time. You should be able to solve the problem of not being able to sense it, right?"

Chi Yan's eyes lit up when she heard this. She said, "If I can learn it, I'll be the only alchemist in the clan!"

Dong Xi could hear Chi Yan's excitement from her words and said with a smile, "Then I'll have to congratulate you in advance, Senior Sister!"

Chi Yan scratched her head in embarrassment and said, "Shall we start now?"

In order to help Second Senior Brother complete the sect's mission, Dong Xi had received many spirit herbs that were 10 years, 30 years, and even 50 years old.

People in the world of cultivators all had very good memories, so Chi Yan should not have any problems.

"Alright!" Chi Yan's face turned serious.

She watched as Dong Xi threw the spirit plant into the alchemy furnace.

Chi Yan immediately focused her attention and extracted a trace of rich fire spiritual energy into the pill furnace.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

The process of experimentation required patience. There was no time in Immortal cultivation. It would take months at any time, and after a few years. Dong Xi even felt that if there was a timer for the recycling of pills, it would greatly improve little Senior Sister's alchemy skills.

She even wanted to make an hourglass for her Little Senior Sister, but neither of them knew how to refine artifacts, nor did they know anyone from the Spirit Tool Sect. They did not know where to get such an item.

After the two of them had tested it over a hundred times, it could be considered to have some results. Chi Yan's control of the fire spiritual energy was better. Dong Xi also took out a spirit plant and handed it to Chi Yan. Dong Xi said, "Senior Sister, this time, you can try it yourself."

Chi Yan was stunned for a moment, the fire spiritual energy that had already gathered in her hand instantly dispersed, and a touch of uncertainty flashed in her eyes. Chi Yan said, "Junior Sister, I'm afraid..."

!!

Dong Xi appraised the spirit plant and put it in Chi Yan's hand. Dong Xi said, "Senior Sister, we've already tested more than a hundred cauldrons. You'll definitely be fine."

“Even if it fails, it’s just a spirit plant. It’s okay.”

When Chi Yan heard this, he felt that it made sense, so she calmed down.

She took out the spirit herbs and quickly identified how old they were, then threw them directly into the alchemy furnace.

Before she made her move, Chi Yan was still worried. However, when she really started, she calmed down.

If one had to ask why it was like this, one could only say that practice makes perfect!

Chi Yan injected spiritual energy into it and stopped almost immediately. She then threw in a spirit plant and continued with her actions skillfully.

Slowly, Chi Yan’s movements stopped, and she felt that the pill had been formed.

Chi Yan opened her eyes and let out a breath. Dong Xi said, “Senior Sister, quickly open it and take a look.”

Chi Yan nodded and cast a spell. The lid of the furnace was opened. Chi Yan quickly formed a seal and six pills flew out.

Chi Yan’s face immediately relaxed, and a smile appeared on his face. Dong Xi said happily, “Little Senior Sister, our experiment is a success!”

Chi Yan looked at Dong Xi’s happy appearance and seemed to be infected by it. She smiled and said, “Xiaoxi, I’m really grateful to you!”

“Little Senior Sister, aren’t you being too polite?” Dong Xi blinked and said. “Didn’t Master say that we’re fellow disciples and should help each other?”

Chi Yan shook her head. “It’s not that. The spirit plants I used for alchemy this time are all for you. Junior Sister, count how much I have. I’ll make up for it.”

Hearing Chi Yan’s words, Dong Xi directly laughed and said, “Senior Sister, I have to thank you this time!”

“Thank me?” Chi Yan asked, puzzled.

“That’s right, Senior Sister.” Dong Xi nodded and said, “Do you know that I owe Second Senior Brother 60 years of sect missions?”

Chi Yan immediately understood. She looked at Dong Xi and said in disbelief, “Junior Sister, you’re saying that... these are all for Second Senior Brother?”

“That’s right,” Dong Xi said with a smile. “It’s a good thing I have Senior Sister’s help. Otherwise, I don’t know how long I would have been refining pills by myself!”

Dong Xi’s own pill refining was especially taxing on spiritual Qi, and she was able to persevere all thanks to the Spirit Restore Pill.

Now that Little Senior Sister was injecting fire spiritual energy, things were immediately different. Dong Xi only needed to inject a little bit of wood spiritual energy.

The two of them became more and more skilled in cooperating, and the efficiency of their alchemy also increased.

And now, she had already helped Second Senior Brother to accumulate more than a year’s debt!

Dong Xi did not hide anything, like a cat that had stolen a fish. Chi Yan did not get angry when she heard this. Instead, she felt that her Junior Sister was so cute!

Chi Yan turned to Dong Xi, blinked, and said, “Junior Sister, if that’s the case, then we’re even.”

However, they did not know that while the two of them were in seclusion in the alchemy room, rumors about them had spread throughout the sect.

As soon as Liang Yan came out of seclusion, he heard someone say that Chi Yan had gone to find trouble with Dong Xi in an aggressive manner. She had gone directly to Dong Xi’s alchemy room and had not come out until now. They did not know if the two of them had fought inside.

Liang Yan did not know how many things he had missed in such a short time. He asked in surprise, “They started fighting?”

“You two, wait!” Liang Yan shouted.

The two young disciples turned around and saw the token on Liang Yan’s waist. Their expressions immediately turned respectful as they saluted, “What’s the matter, Senior Brother?”

“What did you guys just say?” Liang Yan asked with a serious expression. “Chi Yan and Dong Xi are fighting?”

The two disciples laughed and immediately said, “Senior brother, you also like gossip! Chi Yan and Dong Xi’s matter has already spread throughout the sect. I heard that Dong Xi was favored by Second Senior Brother Song Qingfeng, who personally guided Dong Xi in alchemy. Chi Yan was jealous, so she went to Dong Xi directly!”

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Liang Yan, “....”

These two little girls were actually jealous of Song Qingfeng? To be honest, Liang Yan could not imagine it.

“Who spread it?” Liang Yan asked, frowning.

The two well-behaved disciples said honestly, “We don’t know either, but that day Chi Yan aggressively went to the alchemy room, many people saw it.”

!!

Liang Yan’s face was filled with anger as he said, “They’re both eleven or twelve-year-old kids, how could they have such thoughts? You’re not doing your proper work and slandering your fellow disciples. Immediately go to the Mission Hall to receive an additional year’s worth of missions!”

Even though Liang Yan did not believe that Chi Yan and Dong Xi would fight because of Song Qingfeng, he could not just leave them be. It was time to teach these two brats a lesson. Liang Yan immediately flew toward the alchemy room.

Liang Yan anxiously rushed to the door of the alchemy room. He used his divine sense to check the room and found two people in the room talking about something with a communication jade slip.

The two of them were still talking and laughing. They did not look like they were fighting like the rumors said.

However, if the two of them were to really fight, it was really hard to say who would win.

Liang Yan knocked on the door and walked in, just in time to hear Dong Xi say, “Little Senior Sister, it’s great to refine pills now! But Little Senior Sister’s pill furnace kept exploding. Master, what should we do? Why don’t you see if you still have a pill furnace?”

Upon hearing this, Liang Yan was taken aback. He turned around to look at the two little heads.

Then, he looked at the pill furnace in the room. Why was the pill furnace here? Could it be that Master had already been here?

Before he could understand anything, he heard two people shout, "Senior Brother!"

Liang Yan came back to his senses and smelled the fragrance in the room. "You guys can form pills?"

Dong Xi and Chi Yan nodded. Liang Yan continued to ask, "Eh? Two people?"

The two of them nodded. Liang Yan smiled and said, "It seems that Song Qingfeng's guidance is not bad."

Dong Xi immediately stopped smiling and said indifferently, "Eldest Senior Brother, we can't rent Second Senior Brother's furnace. It's very expensive. I had to pay 950 pills as rent!"

Even Liang Yan, who had seen much of the world, was shocked. He said in disbelief, "What? 950 pills? Is Song Qingfeng afraid that Master will come to settle the score?"

Dong Xi had a helpless look on her face. Liang Yan looked at Chi Yan and asked, "Junior Sister Chi Yan, you can also form pills?"

This was something that Liang Yan had not thought of. The monster or demon race basically had a single spirit root. This had also limited the development of the demon race's medicinal pills, weapon refinement, and other aspects.

Chi Yan's heavenly spirit was of the fire attribute, and the fire spiritual energy was particularly rich. If such a talent was used in sword techniques and spell techniques, it would certainly make rapid progress, but it was really not easy to refine pills.

But how did Chi Yan do it? Liang Yan was extremely curious as well. If the other demons knew about this, they would be extremely envious.

The sharp-eyed Liang Yan quickly saw the paper that Dong Xi had casually thrown on the ground. On it were written the different years of spirit herbs and how long they needed to be condensed.

One could tell at a glance that this was Dong Xi's handwriting.

Liang Yan's expression became even more shocked. It was as if the clouds had parted and the moon had appeared. He muttered to himself, "So, so it can be like this?"

If this method were to be promoted, all disciples would be able to refine pills!

It did not matter even if there were no fire spiritual energy. They could still use earth fire.

If there was no wood spiritual energy, it would be even less of a concern. He just had to remember the time.

All of Liang Yan's thoughts turned into one.

I'll go find Master immediately!

Of course, before he left, he did not forget to say to the two, "Although it's good to cultivate diligently, you still need to go out for a walk and strike a balance between work and rest."

"Yes, thank you for your advice, Senior Brother," said Dong Xi with cupped fists.

After Liang Yan left, Dong Xi looked at Chi Yan beside him and asked, "Little Senior Sister, are we going out for a walk?"

Chi Yan shook his head. "You can go for a walk. I've just mastered this method. I need to practice more."

Dong Xi nodded. There was indeed something she needed to do.

When she came out of the room, she did not know what had happened, but everyone looked at Dong Xi in surprise.

Dong Xi was too lazy to ask, and directly went to hand in some missions, then took out the feather that Rui Xiang had given her and said, "Senior Brother Rui Xiang, are you there?"

Rui Xiang immediately replied, "Yes! Junior Sister, you stay there. I'll go over immediately. Oh, by the way, you can call me Rui Ming now."

Dong Xi giggled and told him the location, and then waited there.

Rui Xiang was a flying demon beast, and his speed was extremely fast. Dong Xi must have something to tell him, and Rui Xiang quickly flew towards Dong Xi.

In less than half an hour, Rui Xiang flew in front of Dong Xi and transformed into his human form, shouting loudly, "Junior Sister! Are you looking for me to play?"

"Senior Brother!" Dong Xi said with a smile. "I can concoct pills now!"

Rui Ming seemed to be even happier than Dong Xi, as he said, "Junior Sister, you're amazing!"

Dong Xi generously took out ten bottles of top-grade Spirit Restore Pills and handed them to Rui Ming, saying heroically, "Senior brother, I made these myself, take them! I said before that I'll take care of all your future pills. Now, I'll fulfill my promise!"

Rui Ming was even more excited, the minds of demon beasts were generally relatively simple, and did not have so many messy thoughts.

!!

Dong Xi was so good to him, and Rui Ming also showed his kindness.

Keeping the pills, Rui Ming took out many spirit herbs from his inner space and gave them to Dong Xi, Rui Ming said, "Since Junior Sister can already refine pills, these spirit herbs are for you! I still have many, many more!"

Dong Xi looked at the spirit plants that Rui Ming took out, they were basically all third grade, some were even second grade and above, and there were even a few heavenly treasures.

Although Dong Xi's bottles of restore spirit pills were of the highest quality, they probably could not compare to one of the heavenly treasures!

Dong Xi said in surprise, "Senior Brother, this is too precious..."

"Didn't you say that in the future, you'll give me all the medicinal pills I need for cultivation? Don't tell me you're going to go back on your word?"

"No!" Dong Xi immediately shook her head and said. "If Senior Brother doesn't believe me, I swear on my Dao Heart!"

Rui Ming knew that the Dao Heart was very important and immediately said, "No need! I don't have much use for these spirit herbs, but it's different to give them to you, Junior Sister. You can refine pills! It's very powerful!"

In the end, Dong Xi still accepted the spirit herbs, thinking that next time, she could refine some pills specially for demon beasts for Senior Brother Rui Ming.

"Senior Brother, I'm planning to go out for a walk," said Dong Xi. "I'll also go to the market on the way. Do you want to come with me?"

Rui Ming's eyes brightened, and immediately said, "I'll go!"

Although it might not be as lively as the big assembly, it was still not bad.

At the meeting place, there was a fortune-telling stall, and the cloth behind the stall had the words 'Divine Foresight'.

Dong Xi remembered that Mo Han had been unwilling to read Ke Xin's fortune last time, so it was not a bad idea to ask here, but he had to see if it was accurate.

Dong Xi immediately went forward and saw the stall owner holding a communication jade slip. Dong Xi asked, "Immortal Master, do you still do fortune-telling?"

The stall owner raised his head and saw the two little fellows. They were only slightly taller than the table and they were not old.

The stall owner said indifferently, "Fortune-telling at such a young age? I'm afraid you don't even know what fate is."

The stall owner was waving a fan in his hand, and his sideburns swayed with the fan. He also had a relatively young appearance.

However, Dong Xi knew very well that in the world of cultivators, one could not just look at one's appearance. Some people might look young, but in reality, they were all over a thousand years old.

When Dong Xi heard the stall owner say this, she immediately asked, "Could it be that... Your calculations are not accurate, so you don't dare to do it?"

Dong Xi squinted her eyes. Her suspicious words immediately made the stall owner very unhappy. The stall owner chuckled and leaned back in his chair. He said arrogantly, "I am Lili. Why don't you go and ask if I am not accurate?"

Dong Xi frowned when he heard Li Li's name. Li Li? Why did this name sound familiar?

Dong Xi pondered for a long time before suddenly remembering something. She raised her head to look at the man in front of him and asked with a surprised expression, "You're Li Li from Destiny Valley?"

Li Li waved his fan proudly and said, "That's right! It was me! Since you've heard of my name, I, Li Li, don't need to say more about my ability, right?"

Dong Xi frowned and shook her head, "Indeed, there's no need to say more."

Li Li immediately became more proud, but not long after, he heard the girl in front of the table and the crane beside her say, "This is Li Li. Let's go. Everyone else wants money, but Li Li wants life!"

Rui Ming did not want to read his fortune. He was a crane, and even if something happened, there was still that old man Ruifu.

Hearing Dong Xi's words, he nodded, "Let's go. I'll buy you some spirit fruits."

When Li Li heard the conversation between the two of them, his face became angry. Was there anyone in this world who did not know how to transmit their voice? He actually said it out loud in front of the person in question?

Li Li stopped the two children who were about to leave. He said, "You two, stand there!"

Dong Xi looked back and saw Li Li standing up. His hands were shaking with anger. He pointed at the two with his fan and scolded, "Y-you, Qianqian, make it clear. What do you mean when others want money, I want my life?"

Rui Ming instinctively took a step forward, and blocked Dong Xi behind him!

Chapter 135 - 135 Self-Judging

135 Self-Judging

Rui Ming knew that this person's cultivation was above the two of them, and even if the two of them were to join forces, they still would not be this person's match. But no matter what, he was still a demon beast, and his original body was much more resistant to beatings than Dong Xi.

Dong Xi was extremely calm. Although this was not a large city, it was still a city under the name of the Ningtian Sect. Fighting was prohibited here, and it was also the method the Ningtian Sect used to protect its disciples.

Dong Xi imitated Li Li's manner, raised her chin, and said, "Immortal Master Li Li should be a smart person. I'm just talking about two people. Whether it's right or wrong, you have your own judgment."

When Li Li heard Dong Xi's words, he also became serious and had a bad premonition in his heart. He heard the little girl in front of him say, "Spirit vein..."

!!

Li Li suddenly panicked and immediately admitted defeat. He cupped his fists and said, "Alright, alright, I'll give it to you for free, alright? You don't need to say anymore."

When Dong Xi saw his reaction, the smile on her face became even wider. Dong Xi said, "Thank you for your kindness, Immortal Master. We don't need it. Goodbye!"

Looking at the girl walking away with the crane, Li Li frowned and threw the fan on the table, then took out the clothes and bones.

"If you don't want to, but I do!" Li Li muttered to himself.

In fact, when Li Li was helping the Zhang family to calculate their fortune that day, he was taught a lesson by someone who blocked the heavenly secrets. That was why Li Li did not predict the danger and almost caused a tragedy.

Because of this, Li Li was almost driven out of the Eastern Continent. He had no choice but to come here. Not many people knew this place, and it was also the base of the Zhang family. If there was a chance in the future, he would think of a way to help the Zhang family and end this karma.

However, he did not expect that no one would know about the good things, while everyone knew about the bad things.

Even a child from a small place like this knew that his divination was bad? Could it be that he still had to use an alias to earn his living expenses in the future?

Li Li quickly cast a spell and at the same time, he opened his heavenly eye to look at the Oracle Bone's divination. He was stunned!

What kind of divination was this? The Oracle Bone did not work?

Or was Li Li really dying? He could not understand the fate of a little

No! How could this be?! A man must never say no!

Li Li made another hand seal, squeezed out his blood essence, and inserted it between his eyebrows.

"Pfft!" Li Li spat out a mouthful of blood and became dispirited.

Damn it, what exactly is this little girl? He was suffering from a backlash?

It did not matter if he suffered a backlash, but he still did not see anything.

Li Li had been cultivating for so many years, and he could be considered a genius. However, this time, Li Li began to doubt his life.

Could it be that from now on, he really could not perform divination anymore? It's no longer working?

As soon as this thought appeared, Li Li suppressed it. He recited the Clear Heart Incantation in his heart and exhaled. He took out the communication jade slip and found Mo Han to send a message.

[Junior Brother!]

As soon as the message was sent out, the other side immediately replied.

[Senior Brother, is there a problem with your Dao Heart?]

Li Li looked at the information on the Jade slip. These familiar words made his heart turn upside down.

Although he did not want to admit it, his master was right. Mo Han was indeed more talented.

The veins on the back of Li Li's hands popped out. After a long time, he finally calmed down. Li Li knew that the only person who could help him now was his Junior Brother Mo Han. Li Li replied to the message.

[Yes!]

Mo Han casually replied.

[The one who tied the bell is needed to untie the bell.]

Li Li frowned and replied to the message.

[Junior Brother, you're saying that you want me to go to the Zhang family?]

Mo Han sneered and could not help but send a voice message, "I'm asking you to find the person who made your Dao Heart suspicious."

Li Li finally reacted. Is it that girl just now?

He looked at the jade scroll in his hand, then at the Oracle Bone on the table, and then at the bustling streets.

Li Li waved his sleeve and the stall disappeared.

Li Li walked directly in the direction where Dong Xi had left. He did not walk very fast, but he disappeared after a few steps.

At this time, Dong Xi was flipping through a few jade slips in front of a stall. A voice came from behind him. Li Li asked, "You want to learn movement techniques?"

Dong Xi turned around and saw Li Li standing behind him. Li Li had his hands behind his back and was looking at the jade slip in Dong Xi's hand with his back bent.

"If you want to learn movement techniques, I might be able to teach you," Li Li said.

When Dong Xi heard this, she immediately became vigilant.

As the ancient people said, those who were unaccountably solicitous were either evil or thieves! Dong Xi was not an idiot, so how could she not know this?

Dong Xi immediately said with a serious face, "No need, I don't want to learn. As a body cultivator, I never run away!"

Share to your friends

Rui Ming, who had always been simple-minded, immediately looked at Dong Xi in confusion when he heard what she said. Rui Ming said, "Junior Sister, what are you doing?"

Shouldn't she be an alchemy cultivator?

Before Rui Ming could finish his sentence, Dong Xi interrupted him, "Senior Brother, I'm a body cultivator!"

Rui Ming believed it on the spot, and was even more impressed with Dong Xi in his heart.

!!

Rui Ming's master had said that humans could cultivate all kinds of cultivation techniques, spells, and even comprehend the Dao. The heavens had given humans such great talent, but their bodies were the weakest.

Therefore, if humans wanted to train their bodies, they had to train their muscles and bones, and temper their skin. The pain they had to endure was many times more than that of demon beasts.

Little Junior Sister was still so young, how could she endure the pain of body refining? She was too strong!

Dong Xi did not know what Rui Ming was thinking, but if Dong Xi knew, she would definitely be very ashamed.

After all, Dong Xi was only a body cultivator who had not even started to cultivate her body.

Standing beside Dong Xi, Li Li looked at Dong Xi's thin arms and legs. She did not look like a body cultivator at all!

Li Li did not even need to use his divinity to know that Dong Xi was talking nonsense.

"Fairy, you really don't want to learn movement spells?" asked Li Li. "I obtained a movement spell in the Secret Realm, it can even allow you to cast Spatial Bending and manipulate distances. If you want..."

What? Spatial Bending? Manipulate distances? This was a legendary-level movement technique. Dong Xi was very envious, but there was a voice in her heart that kept telling her... There was no such thing as a free lunch in this world. Even if there was one, it could be a trap.

Dong Xi looked at Li Li and said firmly, "I don't need it."

Li Li, "? "

Li Li thought that no one in the world of cultivators could refuse Spatial Bending, but now he was actually rejected by a little girl!

This ignorant little girl, did she not know how big of an opportunity this was?

Seeing that Li Li still wanted to speak, the stall owner was dissatisfied and said, "Can't you let the Fairy browse my jade slips? We're all businessmen, you're too much! What do you mean by Spatial Bending? It might be fake! I've seen too many unscrupulous merchants like you who make up stories. You say that you're very powerful, but when you go back, you find that you're just trash!"

"This Boss is right, I don't believe you!" Dong Xi immediately nodded in agreement.

Li Li thought that there must be a misunderstanding, so he could only continue, "I didn't say you need to pay..."

The stall owner said directly, "Fairy, go back and ask your master. Even if someone in this world gives you a cultivation technique for free, would you dare to accept it?"

"I wouldn't dare!" Dong Xi immediately shook her head.

Not only did Dong Xi say this, she even turned around and said to Rui Ming, "Senior Brother, don't believe in free lunch when you're out there. The world is chaotic and there are many bad people out there."

Rui Ming nodded and said, "Yes, Junior Sister. You should also be careful. If you encounter any danger, just call me. Senior Brother can take a beating!"

Dong Xi's heart felt warm, senior brother Rui Ming was so cute!

The 'bad guy' Li Li, who was standing at the side, had a helpless look on his face... Why was he suddenly a bad guy? He just wanted to hold on to his Dao Heart.

Li Li had not walked in the outside world for a long time and didn't know that these children would be so vigilant now!

Li Li followed Dong Xi just like that. No matter how fast Dong Xi and Rui Ming ran, Li Li would still easily catch up.

Li Li did not make a move either. When the two stopped, Li Li used Spatial Bending.

He did not believe that there was anyone in this world who could reject such a good movement technique.

In the end, Dong Xi could not take it anymore. She turned around and asked, "Immortal Master Li Li, what do you want?"

Li Li waved the fan in his hand and said indifferently, "How is it? Little girl, is my movement technique fake?"

"It's not fake!" Dong Xi helplessly replied. "Is that enough?!"

"You're not bad!" Li Li said with satisfaction.

Just as Dong Xi was about to say something to refute Li Li, he continued, "Alright, take me to your master!"

"Just because you said you wanted to see my master, I should bring you to him?" Dong Xiqi asked with furrowed brows.

Dong Xi had been under her master's name for a year, but she had only seen him three times.

In the next moment, a paper crane appeared in front of Dong Xi and ignited. Her master's voice sounded, "Xiaoxi, don't be rude. Bring Immortal Master Li Li back to Lingxu Peak."

This paper crane was a voice transmission talisman, and it looked quite fun. Dong Xi did not want to continue using the jade slip and wanted to buy some voice transmission talismans to play with.

Li Li looked at the little girl in front of him and said, "Your master already said to bring me back, can I go see your master now?"

"This time, it's your master who asked you to bring me back!"

Dong Xi remembered the gossip about Li Li that he had read in the jade slip before. Li Li was an elder of Destiny Valley. his cultivation was not low, and his age should not be young either. It was normal for him to know her master.

However, he was already so old, yet he was still so childish?

Although Dong Xi did not understand, she still respectfully said, "Immortal master, please follow me."

Li Li followed Dong Xi and stood in the teleportation formation of the Ningtian Sect. Although he did not have the waist token of the Ningtian Sect, he still had the one of Destiny Valley.

!!

The relationship between the Ningtian Sect and Destiny Valley had always been good, and they often sparred with each other.

After returning to the sect, Rui Ming and Dong Xi separated. Li Li followed Dong Xi and climbed up Master Lingxu's Mountain step by step. When they were halfway up the mountain, Li Li couldn't help but ask, "Fairy, why are you climbing up? Why don't you use a movement technique?"

Dong Xi was speechless. Could it be that Dong Xi did not know how to use movement techniques? This did not mean that she had none!

Originally, she could use the little leaf to go up the mountain, but Dong Xi was unwilling to take it out now. She wanted to let this guy suffer a little.

Even as she cursed in her heart, she remained calm on the surface. "Immortal Master, I've said before that I'm a body cultivator."

At this moment, Li Li also somewhat believed that Dong Xi was a body cultivator who had just started learning, but... was this girl's master not Lingxu?

Master Lingxu did not know how to cultivate the body, but he was a true eighth-grade alchemy master!

The two of them finally reached the top of the mountain. The path that Dong Xi had opened up earlier now looked more like a road.

Li Li stood at the top of the mountain and said breathlessly, "It seems to me that there was no path before this. Did you walk out like this?"

Li Li asked casually, and Dong Xi said with a serious face, "There are no roads in this world to begin with. It's just that people often walk, so there are roads.

Li Li was suddenly stunned. He looked at the road he had walked past, then at Dong Xi, and his eyes suddenly became a little dazed.

Then, he sat down in front of Dong Xi.

When Dong Xi saw him close his eyes, her irritable breath also instantly calmed down.

Then, she looked at her master's cave abode. They had already arrived, so why were they still sitting down and not leaving? Could it be that he was too tired?

Just as Dong Xi was feeling perplexed, the space behind her rippled. Turning around, she discovered her master standing behind her.

Master Lingxu looked at Li Li and said with some envy, "I've gained Enlightenment... I didn't expect that I'd have such a good opportunity when master Daoist Li Li came to visit me."

Dong Xi did not expect that a random famous saying from her previous life would make Li Li gain Enlightenment. Dong Xi said in disbelief, "What? Dao Enlightenment?"

Apart from Dong Xi, Master Lingxu was even more interested. He looked at Dong Xi and asked, "Xiaoxi, what did Immortal Master Li Li see? Why did he suddenly gain Enlightenment?"

Lingxu had been looking at the scenery on the mountain for hundreds of years, but he had never comprehended Dao even once. How did Li Li comprehend Dao just now?

Dong Xi shook his head. With a complicated expression, he told her how he had brought Li Li up and the famous saying.

Master Lingxu looked into the distance and said, "People often walk, and there is a road. Good! It's very good!"

“Although Xiaoxi is young, her comprehension is very high. She can still say such words!”

Dong Xi’s face immediately turned red. Even if Dong Xi was shameless now, he wouldn’t dare to directly admit that he had comprehended these words.

Dong Xi immediately waved her hand and said, “No, I’m not the one who said this first. I don’t have such great ability. This is what a senior said when I was still in the mortal world.

Master Lingxu smiled. “That’s understandable. I’m still curious. The person who said that should be very experienced. How could a little girl like you understand?”

Dong Xi looked at Li Li and started to think. Dong Xi was thinking if she could write down all the famous sayings from her previous life and put them together, would she be able to publish a book called the ‘Ceremony of Enlightenment’? She just did not know if it would work!

“Let’s go back first,” Master Lingxu turned around and said.

“Master!” Dong Xi looked at Li Li and asked, “Master, don’t we need to stay here and guard Immortal Master Li Li?”

“This is my cave abode,” Master Lingxu said. “I’ll naturally take care of it. Xiaoxi, you don’t have to worry.”

Hearing his Master’s words, Dong Xi felt much more at ease.

In any case, this person could be said to have been enlightened by Dong Xi, which was also Li Li’s opportunity.

Three days passed in Li Li’s state of Enlightenment. When he opened his eyes again, a light flashed in his eyes and he exhaled.

Li Li stood up and cast a cleaning spell on himself. As he looked at the path he was walking on, all the pent-up feelings in his heart were instantly lifted.

Sure enough, the Heavenly Dao still favored Li Li. He had just experienced failure and his Dao Heart was unstable, but he immediately got such an opportunity.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

The path that Li Li had taken might not have been taken by anyone before, but there would definitely be someone who would take it in the future. It was the same with the divinity. Even if it was not accurate sometimes, it was normal. How could something like prying into the secrets of heaven work every time?

There was some movement beside Li Li. He looked to the side and saw Master Lingxu slowly appear.

“Congratulations to Master Li Li for having such an opportunity!” Master Lingxu said with a smile.

Li Li also immediately said respectfully, “It’s all thanks to Master Lingxu. The Immortal mountain here is good. If I knew that I could have an Epiphany here, I would have come to disturb you a long time ago.”

!!

Master Lingxu smiled. “We can’t miss out on any opportunity. My little disciple just joined me not long ago. If you had come earlier, I’m afraid you wouldn’t have met her!”

When Li Li heard this, he immediately asked, “Master Lingxu, what’s the name of your disciple?”

Lingxu said with a smile, “That girl? Her surname is Dong, and her first name is Xi!”

When Li Li saw the appearance of Lingxu, he knew that this girl was Lingxu’s beloved disciple!

“Is that so? I wonder Dong Xi is. I’d like to thank her personally.”

Li Li was now more than 400 years old, and his divination was still very accurate, so many people would bring money to him and ask him to open a divinity.

Li Li wanted to thank her, and the gift must be very valuable.

At the thought of this, Master Lingxu did not hesitate. He continued, “Xiaoxi, she’s on the other side of the mountain. I’ll call her over.

However, he did not expect Li Li to walk out directly. Li Li said, “Since I know she’s on the other side, I’ll go over personally. Xiaoxi is a body cultivator, and I don’t know how long I’ll have to wait for her to come over!”

After Li Li said that, he walked down the mountain.

Li Li secretly used spatial bending, and in just a moment, Ling Xu could no longer see Li Li’s figure.

Master Lingxu looked up at Dong Xi's mountain and muttered to himself, "Body cultivator?"

As his disciple, wasn't Dong Xi an alchemy cultivator? This wasn't quite right. After all, Dong Xi was also a sword cultivator, but now she had become a body cultivator?

When Li Li arrived outside Dong Xi's cave, Dong Xi was experimenting with a few spirit plants in the field.

For the past two days, Songsong had been sleeping, so there was no one to take care of these spirit herbs. Previously, Dong Xi wanted to practice her sword, and when he saw that a few herbs were a little listless, she immediately injected wood spiritual energy into them to revive them.

"Xiaoxi, are you alright?" asked Li Li.

When Dong Xi heard the voice, she raised her head and saw a person slowly walking over from a distance. He only took a few steps before he arrived in front of Dong Xi.

Dong Xi was instantly very envious. This movement technique was too amazing!

If she were to use this movement technique to travel in the future, it would be much better than the little leaf!

There was once a chance to learn this movement technique, but Dong Xi did not cherish it. If she was given another chance now...

Li Li showed an expression that said 'Don't resist, I know you want to learn'. Li Li said indifferently, "Xiaoxi, are you envious? you really don't want to learn my Spatial Bending?"

There was no other way. Dong Xi admitted that she really wanted to learn! After all, this was something that Li Li had been chasing after to teach her. If Dong Xi did not learn it, wouldn't it be a waste of opportunity sent by the heavens?

"Immortal Master Li Li, I have some doubts, " said Dong Xi. "Why do you want to teach me the movement technique?"

Li Li looked at the little girl in front of him. Although she was not very beautiful, she still had some heroic spirit.

Li Li looked at Dong Xi's serious expression and also became serious. He said, "Perhaps there's fate between us. But now, you've given me a chance to gain Enlightenment and stabilize my Dao Heart."

Dong Xi looked at Li Li with a strange look in her eyes. According to Dong Xi's knowledge, the Dao Heart was the most firm in a person's heart and could not be easily shaken.

However, if it wavered, it would be the same as if the foundation was damaged, and everything would be over.

Now that Li Li had said it so frankly, Dong Xi also let down his guard a little.

Dong Xi played with the shovel and said, "I don't know how you can tell that we're fated, but I've never known you before."

"Of course, an expert said this to me," said Li Li with a smile.

The 'expert' Mo Han sneezed for no reason. Mo Han looked at Li Xianglan and said, "How would I know where your brother went? Junior Sister Li, you shouldn't have come to me!"

Li Xianglan frowned and said, "Senior Brother, won't you know if you perform divination? Finding someone should be a simple matter to you."

Mo Han's eyes were calm.

"If it's really that simple to perform divination, can't you do it yourself, Junior Sister Li?" Mo Han said lightly.

Share to your friends

Tip: You can use left, right keyboard keys to browse between chapters.

Li Xianglan snorted and asked again, "Senior brother, are you really not going to help me?"

"It's not about whether I can help you or not," Mo Han shook his head. "I really can't do anything."

Li Xianglan flicked her sleeve and threw all the items on Mo Han's table to the ground.

"It's not that I'm powerless," Li Xianglan shouted, "is there anything you don't understand in this world? Don't think that I don't understand, you just don't want to help me, you want me to stay as far away from you as possible, it's best if I don't come over and bother you!"

!!

Mo Han's eyes were still calm as he said indifferently, "Junior Sister, you're wrong. Even with my divinity and fortune-telling, I didn't expect myself to turn blind!"

Mo Han's eyes no longer had any color.

Li Xianglan turned around and left. She did get information about where her brother had gone, and was even angered by Mo Han.

With a wave of a hand, Mo Han's things on the ground returned to the table and were arranged neatly.

Li Li, whom the two of them were talking about, was teaching Dong Xi the movement technique of Spatial Bending at the Ningtian Sect.

Dong Xi followed Li Li's instructions and gathered the spiritual Qi on her leg to feel the guidance of the spiritual Qi.

Finally, she took a slow step. This step was the same as her usual one.

Li Li said with a smile, "Don't try to scheme. You can see that it's very easy for me to use this movement technique. It took me almost a year to learn it back then."

Dong Xi nodded her head. She had other understandings of the cultivation of this movement technique.

If heaven and earth were the axis, he would set up coordinates X, Y, and Z. Then, she would use the current point as the origin point, and the value of the next foothold as the current spiritual energy threshold.

If she used X as a variable, the biggest influence would probably be earth spiritual energy. Then, if she connected the origin and landing point with earth spiritual energy, wouldn't she be able to travel a thousand miles in a day?

Dong Xi closed her eyes and felt the spiritual Qi beneath her feet.

The earth spiritual energy came from the ground, thick and continuous.

She would treat the land as small molecules, and then use energy to reassemble the small molecules. She would seize this opportunity to complete the goal of crossing.

To put it simply, it was to use earth spiritual energy to move the ground under one's feet. To put it more simply, it was to walk on the conveyor belt. It looked like one step, but she would travel further than one step.

Dong Xi pondered for a long time before she tried again.

Li Li was a little surprised when he saw Dong Xi change the spiritual Qi into earth spiritual Qi. So this girl also had earth spirit root? It seemed that this girl's aptitude was not very good.

If one's aptitude was not too good, it would be very difficult for them to achieve anything great on the path of Immortal cultivation.

However, what Li Li did not understand was that he could not even predict the fate of such a little girl. It seemed that Dong Xi had something extraordinary about her.

Then, Li Li saw Dong Xi move. She took a step forward and was already standing on the other side of the field in the next second.

Li Li waved the fan in his hand, his eyes full of shock. He said in disbelief, "Try again!"

Dong Xi took another step and walked from the side of the field to Li Li's side.

No matter what, Li Li was also a Nascent Soul stage expert. Of course, he could see that although Dong Xi had succeeded, there were still some differences between the two of them.

Li Li looked at Dong Xi and asked sincerely, "Xiaoxi, how did you do it?"

Dong Xi said, "In my current cultivation world, everything has a spirit. Even the spiritual Qi that they breathe and the land under their feet have their own power. I can move the land a little with the help of the earth spiritual Qi. I can move forward a little."

Speaking of this, Dong Xi also realized something.

In his hands, this movement technique seemed to be different from what Li Li had described.

The Spatial Bending itself was based on a complex space, but with Dong Xi's current cultivation, it was impossible for her to come into contact with space. On the contrary, such a simple 'Earth Bending' technique was easier to learn.

A light flashed in Li Li's eyes and he said indifferently, "Borrowing power? I understand now! Little girl, although you're still young, your comprehension is really high. If your aptitude is a little better, it's not impossible for you to Ascend."

Li Li sighed in his heart. It was a pity that this girl had three spirit roots.

Normally, Li Li's Dao Heart had already stabilized and he should go back. However, Li Li didn't want to leave.

Li Li didn't even stay in the residence arranged by the disciples of Lingxu Peak. He insisted on cultivating at the foot of Lingxu Mountain and even said that he had to climb the mountain every day.

Master Lingxu was instantly stunned. It could not be what he was thinking, right?

"Climb the mountain every day?" Lingxu asked in surprise.

Li Li said with a smile, "I have some fate with this mountain. I'll climb the mountain in the next few days when I'm free. Maybe I'll have some other opportunities."

It was hard for Li Li to say whether it was a coincidence or not, but every time Dong Xi said something, Li Li would be inspired. Dong Xi's mind was open and very flexible. He wondered what kind of family could cultivate such a girl!

Therefore, Li Li stayed at the foot of Lingxu Peak and went to Dong Xi's place every day. He just wanted to have a chance to talk to Dong Xi more. However, this little girl did not seem to be tired. She started practicing her sword from morning to night every day. Her diligence made Li Li doubt himself.

Was this girl a sword cultivator or a body cultivator?

Cultivation was originally done alone, but now, she had a companion. Although this person did not speak much, Dong Xi still felt very uncomfortable!

Three days later, Dong Xi said that she wanted to go into seclusion.

!!

"Daoist Master Li Li, you don't need to come tomorrow. I'm going to enter seclusion and start practicing alchemy and concocting pills," said Dong Xi.

Li Li looked at the calm little girl in front of him and fell into deep thought again.

Li Li even suspected what he had just heard. Alchemy? Normally, as the disciple of Master Lingxu, it was normal for Dong Xi to refine pills.

However, Li Li found out these few days that Dong Xi not only knew alchemy, but she was also a sword cultivator and a body cultivator. How could Li Li not be shocked?

"You know how to refine pills?" Li Li asked in shock.

Dong Xi looked at Li Li's shocked expression and asked in confusion, "As an Alchemy Sect disciple, what's so strange about me knowing how to refine pills?"

Li Li paused before said seriously, "Xiaoxi, you're still young, so you might not understand. A person's experience is limited, and it's better to learn one thing than to learn many things. You're now practicing the sword, refining your body, and refining pills. When will you be able to cultivate?"

Dong Xi frowned and said with confidence, "I'm going to cultivate at night!"

Ever since she had transmigrated, Dong Xi had discovered that her cultivation speed during the day was too slow. It was a waste of time to just sit there.

"If you only practice at night, there won't be enough time," Li Li said. "You're so weak."

As he spoke, Li Li seemed to have thought of something. He checked Dong Xi's cultivation and exclaimed, "Qi Refinement stage, fourth level?!"

The words that he had wanted to preach were swallowed back.

If Li Li remembered correctly, the Ningtian Sect had only accepted a new disciple last year. If he counted, this girl had only been cultivating for a little more than a year?

Li Li thought of how he had shamelessly boasted that Xiao Yanai had three spirit roots. Fortunately, he did not say it to outsiders. Otherwise, Li Li would have to find a crack in the ground and bury himself in it.

This little girl could cultivate so quickly with three spirit roots. If she only had one spiritual root, wouldn't she be able to fly?

Dong Xi was not surprised at all that Li Li could see through her cultivation. After all, as an elder of destiny Valley, his cultivation could not be low. Dong Xi said indifferently, "That's right, the fourth level of Qi Refinement."

Li Li was thinking about what he should say, but if he said what was in his heart, it would seem that he was ignorant.

Li Li could only remain silent. Dong Xi asked, "Is there anything else, Daoist Master Li Li?"

Daoist Master Li Li waved the fan in his hand to suppress the complex emotions in his heart. He then said lightly, "no need to address me like that, just call me Senior Brother."

Dong Xi said, "You and Master are both elders. According to the rules, I have to call you Martial Uncle."

“You can’t say that,” Li Li shook his head and said, “Your master is almost 500 years older than me! I can’t afford to be your Martial Uncle.”

Dong Xi was stunned. She did not expect her master to be so old. She really didn’t understand how seniority was calculated in the cultivation world.

Dong Xi came back to her senses, cupped her fists, and said, “Senior Brother Li Li!”

“Senior Brother, if there’s nothing else, I’ll go to the alchemy room to refine pills. Help yourself!”

After saying that, Dong Xi used the Ground Bending skill that she had just learned not long ago and walked 70 feet away. Li Li immediately followed and said, “Junior Sister, wait a moment, I’ll go too, I’ve never seen anyone else refining pills before.”

Dong Xi had a headache and could not stop him, so she could only let Li Li follow him.

Refining pills was a very boring thing. As long as she ignored Li Li, the old man would not stay in the alchemy room for long, right?

After not seeing Li Li for a few days, Master Lingxu called a disciple over and asked, “Where’s Immortal Master Li Li?”

“Daoist Master Li Li has been watching Junior Sister Dong Xi refining pills these days!” The disciple said.

Master Lingxu frowned. He suddenly had a feeling that someone was going to snatch his beloved disciple away!

No, he had to go and take a look.

Just at this time, Dong Xi’s medicinal pill came out of the furnace.

Dong Xi had gone through the pill refining process countless times, and he didn’t even need to look at it before directly storing the pill into a porcelain bottle.

Li Li’s nose twitched and he immediately said, “Wait!”

Dong Xi had already put the pill into the porcelain bottle. He stopped the movement of his hand and turned his head to look at Li Li.

“Senior Brother, do you have any advice?” asked Dong Xi.
