

Star of Space 112

Chapter 112 Didn't you touch the body?

"shrimp....."

Ya Molian paused for a moment, then continued to smile, and raised his hand to touch her head.

"Let's make do with what we have to eat first, and then go take a nap after eating."

"Um."

Lin Caisang responded.

However, where can she sleep for a while? The sky is turning white, and there are still many things waiting for her to do. Even if she wants to sleep, she will be woken up by the people in the town.

"It's better not to sleep. I don't know what happened to Gong Yushi."

After thinking about it, she said.

When she mentioned that Gong Yushi, she felt uneasy. She was actually a man!

"Go and sleep for a while, Gong Yu's family will have someone to take care of her. Seeing her like this, Ya Molian said forcefully.

In the end, Lin Caisang was forced to go to bed. Not to mention, she had never slept late before. She fell asleep almost as soon as she touched the pillow. When she woke up again, not only Gong Yushi He had recruited everything he knew, and even the body of Third Young Master Gong had been recovered.

After hearing the news, she came to the dilapidated yard of the Gong family in one breath, where all the corpses were temporarily placed.

"How was this body found?"

Looking at the corpse that was so rotten that the stench could overwhelm a whole room of people, she asked the people present.

"Miss Liu, your eldest brother is really powerful. I don't know where he found this body from. Several detectives were looking at Ya Molian who had come to Lin Caisang's side with admiring eyes.

Hearing this, Lin Caisang also raised his head in surprise and looked at Ya Molian.

"Did you find it? Didn't you touch the body?" She looked him up and down and asked nervously.

Gong Xiting's body is likely to be the main body of the spread of strange diseases in Hongling Town. If it is touched, it is very likely that you will contract the disease.

"Is there any discomfort?"

"I didn't touch him, don't worry." Ya Molian's thin lips opened slightly to reassure her.

Lin Caisang let out a sigh of relief and patted his chest.

"I can't help you with the next thing. I haven't slept all night and I can't bear it. Go and rest for a while. I'll let them tell you the rest." Ya Molian glanced at Wei Captou and the others, turned around, and left .

"ah?"

Looking at Ya Molian walking away, Lin Caisang was confused at the moment and didn't understand what path he was taking.

"Brother..." Are you telling the truth?

You are a person who spends all day hunting and collecting bird's nests in the woods, and can stay up for several nights without sleeping. You will be unable to bear it if you don't sleep for one night. Are you sure this is not a joke?

However, her brother Mo Lian did leave, leaving her so unprepared.

"Here, Capt. Wei, how did this body get back?" She had to turn her head, look at Capt. Wei and the others, and asked.

"I don't know either. Just after dawn this morning, your elder brother had already brought the body back and put it on the cart." Capt. Wei said.

"I originally thought that this thing should be burned down immediately. It is a scourge after all, but he said that he would wait until you come over and take a look before deciding what to do, so we are waiting for you here."

"Just a moment, I'll be there soon."

After hearing his words, Lin Caisang reacted immediately. After scattering the people, he began to play with the corpse and dissolve the corpse into medicinal powder.

Soon, she came to a conclusion that satisfied her and walked out of the broken house.

"Miss Liu, what's going on? Is this thing causing trouble?" When Wei Captou saw her coming out, he immediately stepped forward and asked.
