

Star of Space 119

Chapter 119 Are you worried about me?

Just as she was talking, she suddenly felt something was wrong.

"You're not hurt, are you?"

Squinting his eyes, he looked at Ya Molian from top to bottom several times, but he didn't see any possibility of injury to this guy. On the contrary, he was very lively. Were these men in black just defeated by him?

"You actually lied to me and made me worried to death. You, you..."

Ya Molian was not injured, but she actually wanted to climb the wall to find him like a fool. If she told him, others would definitely laugh out loud!

"I never said I was injured." Ya Molian was also speechless.

This girl didn't accuse someone so unjustly. When did he ever say that he was injured?

"Are you worried about me?"

"nonsense!"

Lin Caisang rolled his eyes at him angrily.

He was already poisonous, and this place was not a good place. It was filled with turbid air. Why couldn't she be worried about Ya Molian?

"You weren't hurt and you didn't say anything to me. Why did you go?" she asked.

"I've been following you." Ya Molian said.

Lin Caisang: "..."

Blinking, blinking again, the next moment, her eyes widened and she stared at Ya Molian.

"What? You've been following me?!"

Doesn't that mean that he found himself suddenly disappearing in front of him? If I had known earlier, she would not have entered the Jinzhu Space. It was such a mistake. It was such a mistake.

"you....."

She opened her mouth, took another bite, and shook her head.

Ya Molian shouldn't notice that she entered the Jinzhu Space. The drug store is only so big and can be seen at a glance. She has sealed the room tightly, so he can only be outside.

"Didn't you mean to bring out the people behind the scenes? Now that you are the most conspicuous person in Hongling Town, and you have refined the antidote, they will naturally keep an eye on you."

Ya Molian explained.

Lin Caisang: "!!!"

Well, they had indeed discussed this before, but she was so focused on worrying about Ya Molian's body that she simply forgot about this aspect.

"When I went to bring the body back, they were able to escape. I thought the body was more important, so I didn't chase after it. Now..." Ya Molian paused and looked at the masked men in black lying on the ground. people.

Since the target of these people is Hongling Town, as long as they save these people in Hongling Town, they will always jump out again.

Now, isn't it jumping out again?

"You mean corpse?"

Lin Caisang raised his eyes and looked at Ya Molian with confusion in his eyes.

"Captain Wei is organizing people to incinerate all the corpses..."

The next moment, both of their faces turned dark, and they ran towards the town regardless of the man in black who fell to the ground.

Since the corpse is very important, then besides Lin Caisang, these people's target must also have corpses. How could they let Wei Captou and those people burn the corpse?

"Brother Mo Lian, please leave me alone and go first... ah!"

Just as Lin Caisang was about to remind Ya Mo Lian to go first, Ya Mo Lian immediately wrapped his arms around her and flew up with her.

...

Wu Zuo had already examined all the corpses and found that nine out of ten of them were tortured to death. Since they were the most harmful things in the town, under the command of Captain Wei, they built a pyre in a remote place. .

When Ya Molian brought Lin Caisang over, the fire was already burning.

"Captain Wei, what's going on? Are there any difficulties?"

After landing safely, Lin Caisang rushed to Wei Captou's side and asked him.
