

Star of Space 120

Chapter 120 All the dirt under the fire was dug up

"Difficulties?"

Captain Wei was a little stunned when Lin Caisang asked him.

"Is Miss Liu talking about the seriously ill people in the town? Don't worry, they are all quite peaceful and will not gather to make trouble."

Lin Caisang: "..."

What did she mean by those people? If those people dared to be restless with her, she would tell them not to get the antidote. She was not a good person anyway.

"I mean, is there anything strange about Gong Xiting's body?" she asked.

Wei Captou was stunned for a moment and shook his head, "No."

"I specially sent two detectives to guard his body to make sure there was nothing unusual. And this time when I burned the body, I separated his body from other bodies. Well, that's it.

He pointed to a relatively small fire and said to Lin Caisang.

"Nothing strange?"

Lin Caisang's eyes flashed and he looked at Ya Molian aside with confusion.

That shouldn't be the case. She thinks those people care more about Gong Xiting's body than taking her life, right?

"this....."

"Captain Wei, after the body is incinerated, please personally collect Gong Xiting's ashes. Even the soil under the fire must be dug up and handed over to us."

Ya Molian said to Wei Captou.

"ah?"

Capt. Wei was confused by what he said.

What use could the ashes have? They were all burned to ashes by the fire. He looked at Lin Caisang.

"Miss Liu, is it possible that ashes are still poisonous?"

Hearing this, Lin Caisang's heart moved, and he suddenly understood. It seems that this poison is really extraordinary. It is probably as Ya Molian said, those people are not in a hurry simply because they are not afraid to wait until Gong The master takes his son's ashes back so they can start again.

"No one can tell for sure, just in case." She said to Mr. Wei.

"Then... what if Mr. Gong asks me for ashes?" Wei Captou hesitated.

"There are so many ashes here, why don't you just give him some?"

Lin Caisang shrugged his shoulders and looked at the big fire. These people all died at the hands of the Gong family. How about being the ancestor of the Gong family? It's even cheaper for them, besides...

"Captain Gong, do you think Mr. Gong will come and ask you for these ashes?"

"this....."

Wei Captou looked embarrassed.

If it were him, he would naturally not want such an unlucky thing. It is not that he is unkind, but that the thing itself is a disaster!

"What do Miss Yi Liu and Mr. Liu mean?"

"I think if Mr. Gong really asks you to claim his son's ashes..."

"Deserves to be killed!"

Before Lin Caisang could finish speaking, Wei Captou heard the word "chilling" coming out of Ya Molian's mouth, and he broke into a cold sweat.

If there is something wrong with the ashes as Lin Caisang and the others expected, then the purpose of Master Gong coming to collect the ashes is worth pondering. The pool of water in the Gong family is really as bottomless as he expected!

"Also, Capt. Wei, my eldest brother and I just met a group of people at the gate of the town. You can send someone to pick them up and ask them who they are." Lin Caisang added.

"What?"

Wei Captou was shocked.

Listening to this, who else wants to attack Lin Caisang?

Is this because we know that Lin Caisang has developed the antidote? These people are so damned!

"Liuzi, go and bring those people here immediately. I want to interrogate them personally." He ordered Liuzi beside him.
