

Star of Space 159

Chapter 159: Know what's going on in her family!

"Tsk.

Lin Changhong clicked his tongue lightly and couldn't help but mutter.

"You still say that I have a crow's mouth, don't you do the same? What do you mean the pond is collapsed? There is no leakage under it. I am worried about you. Look at who in our village grows vegetables so early. ?"

"It's too early to plant vegetables and grain. It will start to rain in a few days. Our vegetable seedlings have grown up. No matter how much it rains, they won't be washed away. They are better than those small seedlings that have just grown. All right?"

Lin Caisang asked him back.

"Besides, after this batch of grain is harvested...forget it, I won't be able to explain it to you for a while, I have my own plans."

She still wanted to explain a few words to Lin Changhong, but considering that her plan had not yet been implemented and no one would believe her words, she didn't waste any more words.

In fact, the climate in Yecheng is pretty good. Although the weather is not great, it is still warm all year round.

Just like now, when the ice is still biting in many places, spring has already begun to bloom in several counties here in Yecheng, and people who go out to work do not need to wear too much cotton clothes.

In such a climate, crops can be harvested in two seasons.

Of course, if more ponds are dug, the rainy season can also be utilized. It won't be like now where even food and clothing are a big problem.

Therefore, she wanted to give it a try first. If the harvest of two-crop grain is good this year, she can let the villagers learn from her and grow two-crop grain, so that everyone's quality of life can be improved a lot.

"Just listen to me and plant all the seedlings in the fields into the mountains."

"Sure, I listen to you. Since when did I stop listening to you?" Lin Changhong said with a smile.

He didn't just do whatever his sister told him, but he listened to Sangsang's words the most.

"However, Sangsang, I seem to have heard that the Zhou family has hired someone from the Liu family. What do you think about this? Is it true that the Zhou family is going to marry Liu Yushui so soon? Isn't that what you told me before? "

When it came to Liu Yushui, he felt unhappy.

Although the Zhou family is not a wealthy family, it can be considered a scholarly family. Although Zhou Liang is not a thing, he is really not happy to let Liu Yushui, a woman who has done so much harm to his family, marry into the Zhou family.

"Where did you hear the news?"

Lin Caisang was stunned when he heard what he said.

Indeed, she did not expect that the Zhou family would agree to the Liu family so quickly and be willing to marry Liu Yushui. This should not be something that Mrs. Zhou's brainless person would do.

Suddenly, she thought of Zhou Liang and Liu Yushui who happened to meet them in the study. It seemed that someone had exposed them.

"Liu family, that woman Liu Rumei, her daughter got into such a good marriage, she didn't make such a fuss that everyone knew about it, especially the people in our Yacun, anyone she met would... After talking about it, I think she wishes that even the rats in the hole in our family knew about her family's bad things!"

Lin Changhong said angrily.

Liu Rumei didn't dare to come to Yacun herself. Was she deliberately sending the news back to make Sangsang angry?

"It's true that the Zhou family doesn't like Liu Yushui's daughter-in-law. Why did they give in so quickly? I really don't know what their brains are like."

A woman like Liu Yushui would not be accepted even if she offered her to anyone. She would definitely be a house-ruiner in the future!

"This must be Old Master Zhou's idea." Lin Caisang thought for a while and said.
