

Star of Space 188

Chapter 188 If she doesn't do it, who will?

Lin Caisang raised her hand and touched Lin Changyi's head, letting him relax. As long as she didn't allow it, Liu Baixiao's family would not be able to come back.

"You go to the fields to find your second sister. I'll call your father and Brother Changhong. Let's meet at home."

"What are you looking for her for?"

When it came to Lin Caihe, even Lin Changyi, his biological brother, looked unhappy and seemed to have no intention of calling her.

Lin Caisang: "..."

Boy, that's your sister, okay?

"Go and call if you are told. If you don't want to watch your second uncle and the others every day, you have to call your second sister back. She will be of great use."

A small part of today's matter will fall on Lin Caihe.

"Oh well."

When Lin Chang saw what she said, he walked away reluctantly.

Behind her, Lin Caisang shook her head angrily and amusedly, and asked in her mind, who can be blamed? Lin Caisang's temper made her own brother not want to see her.

...

On Menghuang Mountain, a large pond has almost been dug, and there are piles of wood next to several wooden houses.

Lin Changhong and Lin Baiyi, accompanied by several young men, were looking down at the blueprint in Lin Changhong's hand. The blueprint was given to them by Lin Caisang, and Lin Changhong was explaining to them what they didn't understand.

Lin Caisang paused for a few seconds, then walked towards them again.

...

In the field, there was only Lin Caihe, who was picking the vegetable seedlings planted by Lin Caihe.

"Lin Caisang, you are a foxy girl who knows how to seduce people. Now even your parents are attracted to you. Are you proud? You even asked me to help you with your work. What a beautiful idea you have. I wonder if I won't give up these young talents like yours." ..."

"Second sister, what are you doing?!"

Lin Caihe, who was holding the vegetable seedlings to vent her anger, heard the angry voice behind her and was frightened. With a shake of her hand, she tore off another vegetable seedling.

Beside her, there were many seedlings that also had no roots.

"Second sister, why do you mess with these good seedlings and have to waste them like this?" Lin Changyi rushed over and pointed to the seedlings in the field and asked Lin Caihe.

"I....."

Lin Caihe felt weak when she heard his question, but she still held on to her words.

"Didn't Big Brother ask me to help Sister Sangsang? Didn't you hear that just now? I think they have almost finished planting their seedlings, so I came to allocate some to replenish them. What's wrong?"

"you....."

Lin Changyi was angry at her words.

"Are there any people who can plow up seedlings like you? These seedlings are tender and tender, and they are not the bark of a big tree. Can they withstand such a strong force in your hand?"

He looked at those seedlings with distress. If they were planted on Menghuang Mountain, they would surely cover a large area of land, enough to feed the family. How could they be pulled out like this?

"If you don't want to do it, then go home and cook. Why are you wasting the seedlings like this? Also, it's almost evening now, and you still pull out so many seedlings. Do you want Sister Sangsang to go to Manghuang Mountain at night? Do you have time for everything?"

This is simply going to piss him off.

"What's wrong with Sister Sangsang doing more work? That mountain doesn't belong to us. If she doesn't do it, who will?" Lin Caihe curled her lips disdainfully and said.

It was clearly a mountainous area at home, but grandpa had to say that it belonged to Lin Caisang alone. She was still furious. Now she was not happy to ask them to help Lin Caisang work alone!
