

## Star of Space 203

Chapter 203 Sure enough, I didn't lie

Even if there is a huge ice cube hidden inside, it should have melted in half a month, right? Could it be thousands of years of ice dug from the snowy mountains?

"What's weird? Can't you tell if you take it apart and take a look?" Lin Caisang looked at the grass nets with interest and said.

...

Soon, all the straw nets in the silkworm rooms were moved out.

As soon as the grass net was moved out of the silkworm room, with the warmth of the charcoal fire, the temperature in the room quickly warmed up, and the silkworms began to have the motivation to eat mulberry leaves.

In the yard, all the straw nets were piled together. Several women took apart the bundles of straw nets to examine them, and found snow-white, cold silkworm cocoons inside.

"Tsk, it's so cold.

Lin Caisang took one in the palm of her hand and felt as if her palm was about to be frozen. The cold made her shiver.

The next second, my eyes blurred, and the silkworm cocoon in my hand had been put back into the dustpan by Ya Molian.

"Don't touch it."

He warned Lin Caisang and turned to look at the man in black.

"Exiled Wu, clean up all these things and set them on fire."

"Yes, Lord..."

"What? Burned?!"

Before Ban Wu could respond, he heard Lin Caisang's feet jumping in shock, and he looked at her in surprise.

"Miss Lin, shouldn't this harmful thing be destroyed?"

Two batches of silkworms here were destroyed. The first batch was about to turn into cocoons, and the third batch was almost destroyed by these things. It would be difficult to eliminate the hatred in his heart unless they were destroyed!

"Of course not."

Lin Caisang's apricot eyes widened, and he gave Wu Wu a hard look, then glanced at Ya Molian.

"This is something that can only be found but cannot be sought. It would be a pity to destroy it. If you don't want me to take it, pack it all for me and I will take it away later."

"You like it?"

Yamolian frowned and looked at Lin Caisang.

"Do you know what these are?"

"Of course I know, this is a good thing." Lin Caisang nodded.

How could she not know about the ice silkworm? I heard that it is a treasure that only grows in the snow-capped mountains. Many people climb to the top of the snow-capped mountains for it, just to find a cocoon. But now there are so many of them, what a rare opportunity.

"Ice silkworms are actually of no use." Ya Molian explained lightly.

He has also seen brocades woven from ice silk. These brocades are beautiful to look at and feel really good, but the price and function are clearly not comparable.

It can only become a plaything for wealthy people to show off their wealth.

"It's difficult to raise ice silkworms. I still don't know what crops the ice silkworms eat," he said.

He only knows that ice silkworms do not eat mulberry leaves or any leaves. He really does not know what they eat. Of course, people who have raised ice silkworms will not reveal to outsiders how they raise them. This is profitable. connections.

"You can't raise me, but I can."

Lin Caisang glanced at him angrily. Surely she couldn't do things that others couldn't do?

"I'll take them away later. Every one of them will be taken away. This... banished Wu. Didn't you say that other families are in the same situation? Huh?"

"Well."

Ban Wu was choked by her shameless words and secretly glanced at his palace master.

"Go and do it."

Ya Molian just nodded towards him and uttered two words.

Ban Wu: "..."

He had long heard that Ban Jue said that the palace master had been doting on a little girl recently, to the point of being lawless. He had not believed it before, but now that the real master was the same, he believed that Ban Jue was indeed not lying.
