

Star of Space 210

Chapter 210 Take your time, don't rush

In this way, many things that she thought could not be put into the Golden Pearl Space now can be put in, such as these ice silkworm cocoons, and...

"Brother Jade, you said, if I have a few deer here, is it okay? Deer antler is also medicine

Jade Mirror: ' ? ? ? '

After a bunch of question marks popped up, Yu Jing added another sentence at the end: 'Deer will die if they eat medicinal herbs! '

Looking at those words, Lin Caisang pursed his lips and said, "Okay.

If she does a few more high-level tasks, the breeding system can be opened. She is not short of time. She is not in a hurry, she is really not in a hurry.

Lowering her head, she continued to read the jade book.

And here it is written how to use the regional division system of space to divide each medicinal material into a place for planting or breeding to ensure that each medicinal material will not mix with the smell of other medicinal materials.

As long as she comes in regularly to feed her a few times a day, that's fine.

What's even more fantastical is that there is an automatic planting and breeding system in the Golden Pearl Space. Of course, she has to set all this up herself.

"Ignore other things, separate the areas first.

She stood up with the jade book in hand, looked at the medicinal gardens that looked lush and green, but were actually planted in a mess by her, with all the medicinal materials mixed together, and took a deep breath.

"Brother Yujing, it's up to you to divide the medicinal materials into areas for cultivation, right? Then let's get started."

She looked at the jade mirror.

'Dear Contractor, are you sure you want to divide all medicinal areas?' Yu Jing asked her.

"certainly."

Lin Caisang nodded naturally.

Isn't this nonsense? She had been reading the book for so long just to divide the area so that she could place the ice silk cocoon in the golden bead space. If she didn't divide it, wouldn't she have wasted her sleeping time in vain?

But the next moment, when she saw the four big characters displayed on the jade mirror, her head was filled with black lines.

'Not enough points!'

Lin Caisang: "..."

Reading so many books with her is all in vain, isn't it? It's not enough to give her one point!

"In other words, anything I want to do in the Golden Pearl Space requires points. Without points, I can't do anything. I have to rely on my own hands. Automatic planting and breeding are all nonsense?! "

'You can say that. ' Five words were displayed on the jade mirror.

Lin Caisang was silent. Why did she get such a space where she could cheat her contract owner without paying for her life? Wasn't the space supposed to be a space where she could do whatever she wanted?

But look at her golden bead space, she can't do anything without points!

"Forget it, you're lucky to have such a space."

In fact, it doesn't mean that you can't do anything. If you want to plant or breed anything, you can only rely on your own hands. For things like points, you have to take your time and don't rush.

Well, she seems to have discovered something. Whenever she enters the Jinzhu Space recently, her most common phrase is 'take your time, don't rush'!

"Brother Yujing, when you say something, can you finish it in one go? I'm very tired when you do this!"

She asked Yu Jing a question, especially questions she hadn't thought of. Yu Jing would never take the initiative to ask, so she really didn't know how many pits there were in this golden bead space waiting to bury her.

"I won't tell you anymore. I'm going to prepare the things for raising ice silkworms."

With that said, she turned around and left Jinzhu Space.
